WOMEN TESTIFY AGAINST LAWYER ON TRIAL FOR WIFE MURDER

Heard Screams Much Earlier
Than Prosecutor Oscar Mc-
Daniel, Defendant, Claims
Killing Occurred.

DISCREPANCIES ALSO REGARDING PISTOL SHOTS

Defense Believes It Has Some
Advantage From Admission
by One Witness for the
State.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
St. Joseph, Mo., Nov. 21.—Two women witnesses in the trial of Prosecutor Oscar McDaniel for the murder of Mrs. Harriet Moss McDaniel, his wife, testified today that they heard screams from the McDaniel home the night the wife was slain, and fixed the time as having been earlier than Mr. McDaniel had said he left his home in response to a false telephone call from an uptown saloon.

The women were neighbors of the McDaniel home, and testified that they saw Mrs. McDaniel being carried across the street from the McDaniel home, and that she was dead. One of the women, Mrs. Edith Bell, a stenographer, resided a few feet south of the residence. Each testified that she was within the house at the time of the killing, and that she saw Mrs. McDaniel being carried across the street. She testified that she saw Mrs. McDaniel being carried across the street, and that she saw Mrs. McDaniel being carried across the street.

They were horrible and startled, said Mrs. Bell. "It sounded as if someone had been choked and could not have been made by a cat," Mrs. Berghoff testified in refutation of the defense's claim that the noise was the cry of an animal. When the witness was called, McDaniel was in his chair and the witness was in the room. She testified that she saw Mrs. McDaniel being carried across the street, and that she saw Mrs. McDaniel being carried across the street.

When the witness was called, McDaniel was in his chair and the witness was in the room. She testified that she saw Mrs. McDaniel being carried across the street, and that she saw Mrs. McDaniel being carried across the street.

AFFILIATION OF BROTHERHOODS AND FEDERATION GIVEN IMPETUS

Labor Leaders Expect Much
From Congress at Next Ses-
sion From Power of United
Efforts.

NO DECISION MADE AS TO POSSIBLE STRIKE

Unions to Determine Course
When Railroads Refuse to
Put Eight Hour Law Into
Effect.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Baltimore, Md., Nov. 21.—Efforts to effect an affiliation between the American Federation of Labor and the railway brotherhoods received a decided impetus today when the federation convention here enthusiastically received speeches by the four representatives of the brotherhoods, and President Gompers of the federation, favoring such action.

Leaders of the organizations tonight were preparing to inaugurate a joint fight for better working conditions, particularly for railway workers of all classes and against all compulsory arbitration measures, just as though an official affiliation had been perfected.

Expect Much From Congress.
Both sides entertain high hope that they will be able to gain much during the coming session of congress and in preventing the breaking down of present favorable labor laws by presenting a united front. They believe, too, that official affiliation only awaits certain favorable conditions at the time of the next convention, to be held some time next year.

Other than to say that they would oppose all sorts of compulsory arbitration bills in congress, the speakers were rather indefinite. They said they expected to do for the great mass of railway workers. Federation leaders, however, say the primary object of the proposed affiliation is to bring about an universal eight-hour day.

Undecided as to Strike.
Brotherhood leaders left here after the meeting, undetermined as to what their next step would be. If they should decide to call a strike, the railroad would not put the Adamson law into effect January 1, they probably will call a conference with federation officers. They also will seek conferences, it is believed, if the present injunction suits of the railroads are successful. No conference followed the meeting today. Shortly after the speakers had addressed the audience, all of the brotherhood officials left here for various cities.

William G. Lee, Warren S. Stone and L. E. Sheppard of the trainmen, engineers, and conductors, returned to Washington, and W. R. C. Chief of the firemen went to New York.

Lee, who made the principal address to the convention, sought to make it plain that the brotherhoods were not coming to the federation to help against the Adamson law. He declared that the brotherhoods were willing to assume all responsibility in that struggle, but he held that the time had come when it was to the interest of all railway workers to unite for their mutual advantage.

ONE SUIT LIKELY TO SETTLE ALL LEGAL QUESTIONS OF ADAMSON LAW

Attorney General and Repre-
sentatives of Railroads Con-
fer for Purpose of Agreeing
Upon Quick Decision.

SANTA FE CASE MAY SETTLE ALL OTHERS

Both Sides Profess Anxiety to
Have Matter Ended Before
Jan. 1, When It Goes Into
Effect.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 21.—The constitutionality of the Adamson act may be determined by the supreme court before January 1, when it becomes effective, through an understanding between the railroads of the country fighting it and the department of justice. Attorneys for the Pennsylvania, New York Central, and Burlington roads conferred with Attorney General Gregory and Solicitor General Davis tonight, and it was understood the question was discussed of making a test case of one of the suits with a view to bringing the law to the supreme court as soon as possible.

Though department officials were reticent about the conference, it is believed further negotiations will be undertaken tomorrow, and that there is prospect of an agreement which would put the issue on one case. If that course is adopted, both the railroad and the railroads will make every effort to expedite the injunction suit of the Atchison, Topeka and Santa Fe railroad set for hearing in Kansas city on November 23, the first to be presented among the many cases to be instituted.

Might Settle Whole Matter.
A decision by the supreme court would settle in law the binding on other litigants, but if the railroads and the department agreed that all parties should abide by a decision in this case no other suit would be begun and those already instituted would be dropped.

Each side are represented as anxious that there be an early decision by the highest federal tribunal of the validity of the Adamson act in view of the importance of the issue involved. And the unsettled conditions which grow out of the matter have a final interpretation promptly.

G. C. Todd and Marvin E. Underwood of the department are on their way to Kansas city to appear in the Santa Fe case and the department's counsel probably will not be deferred finally until they are communicated with and pass on the advisability of resting the case on this case.

In President's Message.
Because of the renewed seriousness of the dispute over the act, President Wilson has made recommendations for railroad legislation the principal part of his next message to congress, which he completed last today. These recommendations, it became definitely known tonight, will be practically the same as those made by him to congress last August when the Adamson bill, a part of his program, was enacted to prevent the threatened strike. The question was discussed at today's cabinet meeting, and Attorney General Gregory reported on the steps taken by his department.

It was learned today that the president has been strongly but vainly urged to recommend legislation authorizing the Interstate Commerce commission to regulate wages paid on railroads. In addition to the proposals made last summer for enforcement of the commission, forced investigation of disputes before strikes or lockouts, and authorization to the commission to compel strikes in fixing rates, the president is expected to have decided again to urge that congress make all arbitral awards in such disputes judgments by record of a court of law.

CALIFORNIA VOTE NOT LIKELY TO BE SPLIT

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
San Francisco, Nov. 21.—Little likelihood of a split electoral vote in California was seen here today by republicans who have checked the official election figures of fifty of the state's fifty-eight counties. The eight missing counties, although they include the most populous in the state, will not develop any serious discrepancies, according to some of the party leaders who say they have closely followed the trend of the canvass being made by the various county officials.

President Wilson's plurality, according to the check of the republicans, will be not less than 1,100. These figures, it was stated, did not take into consideration the total from the eight counties whose returns are yet to be filed with the secretary of state. After a careful checking up of all precincts, all over the state, there is no possibility of Wilson losing California, according to the announcement made by the democratic state central committee. Their checking shows the lowest democratic margin to be 1,200 votes ahead of the highest republican elector. The highest democratic elector has a lead of 3,500 over the highest republican.

ADVANCE OF CANADIAN TROOPS IS REPORTED

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Ottawa, Nov. 21.—An advance by the Canadian troops along a front of about 5,500 yards with the capture of 419 wounded and unarmored Germans, is described in a communication issued today by the war records office covering the operations of November 18 by the dominion soldiers at the British front.

Canadian guns had been concentrating a heavy fire for several days on a strong line of German trenches which became the objective when the British offensive was ordered. This objective was consolidated in its entirety, the statement says, the movement being virtually "a swing forward of our left pivoting on our right."

The gain varied from about 200 yards on the right to nearly 1,000 yards on the left. The troops at the left advanced 500 yards beyond the objective, the communication declares, and took a section of the grandiose trench which it consolidated completely in this and was actually won late "because the position forced too dangerous a salient."

The Canadian losses were comparatively light, "with fewer casualties than were to be expected."

REFUGEES DOUBT THAT FOREIGNERS HAVE BEEN SLAIN

Americans Returning From
Parral Skeptical as to Stories
Brought Back by Chinese;
Had Pleasant Trip.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Nogales, Ariz., Nov. 21.—Four American refugees from Parral who arrived here last night said today they were skeptical of reports that all foreigners remaining there had been killed after Villa and his bandits occupied the town. They said they left on a matter of expediency and not out of anticipation of any real danger.

The four men said there were about sixty Americans and other foreigners in Parral when they left their mine, two miles outside Parral, November 2, believing Villa would come there after taking Santa Rosalia. Howard Gray, an American, said, "We were told that the Chinese had been killed after Villa and his bandits occupied the town. They said they left on a matter of expediency and not out of anticipation of any real danger."

T. Q. Hawkins, Jr., of El Paso, superintendent of the Alvarado Mining company's Parral mines, said the trip here "travels was pleasant and without danger." He was accompanied by three men, the company's men, Lattie Webb and Bernard McDonald, of El Paso, and A. W. Morris, of Los Angeles. The four left here today for their homes.

TEUTONS CRUSH RUMANIAN ARMY'S RESISTANCE IN FILLASH REGION

Defenders May Be Caught
Fatally Between Converging
Forces of Invaders, Says
Overseas Report.

RUSSIANS REINFORCE ONE PART OF FIELD

French and Serbian Troops
Are Pursuing Germans and
Bulgarians in Macedonia,
Northward From Monastir.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Austro-German forces in southwest Rumania have captured Craiova, and the Rumanians are retreating. In the Jiu valley, Rumanians are outflanked at Craiova, and seriously must be evicted in the view of the Austro-Germans from the north and south.

The Teutonic allies are advancing in the Jiu valley, where Petrograd admits the Rumanians are retreating southward. Little fighting is reported from any of the other fronts. Bombardments and minor infantry attacks have occurred in the Italian theater.

According to Paris, the entire allied troops north of Monastir are still pressing the Germans and Bulgarians. West of Monastir, Italians have repulsed counter-attacks delivered by the Teutonic allies. An unofficial dispatch from Saloniki says the Serbians have captured seven villages west and northwest of Monastir.

Rein reports the sinking of the French guard vessel and seven merchantmen by a German submarine in the English channel. The French ministry of marine denies this, any French war vessel has been sunk there.

PETROGRAD CONCEDES RUMANIAN RETREAT

Petrograd, Nov. 21.—The official statement today for the Russian government was: "Rumanian troops in Transylvania, in the Jiu valley, are being continued in their attacks with the usual force and pressure of the entire Rumanian troops are retreating slowly southward."

"In the Jiu valley the Rumanians, under the pressure of superior enemy forces, retired to the region of Filash."

RUSSIAN FORCES IN CRITICAL POSITION

London, Nov. 22.—The occupation of the Rumanian town of Craiova, reported by German official headquarters, has not yet been confirmed from the entire side, but the fact that no Rumanian official report has been issued since yesterday leaves little reason to doubt its correctness.

The official reports from both German and Russian headquarters the last two days had prepared the public for this news for the success of the central powers, but it had been hoped that Russia, which was known to be as fast as possible, might be in time to avert the blow.

Craiova is an important town in the center of a great plain district on the edge of the Wallachian plain, and is an important railway junction. Its possession by the central powers cut the railroad communications of the Rumanian forces holding the Orsova region to the west. As the lines from Turin, Jiu, south of Valtan pass, and from the Danube frontier, opposite Craiova, the central powers, the position of the Rumanian forces in Orsova now are extremely critical and they may be compelled to evacuate the reverse region, the holding of which has been the present barrier to the Teutonic allies from the Danube.

EMPEROR FRANCIS JOSEPH DIES; REIGN OF MORE THAN 68 YEARS MARKED BY SUCCESSION OF TRAGEDIES

BLOODY DEATHS OCCUR TO
MANY CLOSE MEMBERS OF
AUSTRIAN IMPERIAL FAMILY

Youngest Brother, Maximilian, Is Executed in Mexico; Sister Is Burned to Death in Paris and a Niece in Vienna; a Cousin Drowns Himself in Stahrenberg; Crown Prince Rudolph and Baroness Marie Vetsera Are Found Dead in Hunting Lodge, Whether From Suicide or Murder May Never Be Known; Archduke Johann Salvator, Favorite Nephew and Heir to Throne After Death of Crown Prince, Sails Away on Merchant Ship and Fate Is Shrouded in Mystery; Empress Elizabeth Is Assassinated, and Killing of Nephew, Archduke Ferdinand, Plunges World Into War

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
London, Nov. 22, (3:41 a. m.)—Emperor Francis Joseph died last night at 9 o'clock at Schonbrunn castle, according to a Reuter dispatch from Vienna by way of Amsterdam.

CARRANCISTAS GUARD PASS INTO SONORA

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Toluca, Mex., Nov. 21.—General Arnulfo Gomez, with between 1,500 and 2,000 men, has been sent eastward from the Hermosillo district overland to Dolores pass, the most feasible entrance for Villa bandits, should they attempt to invade Sonora, according to reports received in Agua Prieta today.

It is rumored that Gomez force will be reinforced by a considerable number of volunteers from the southern part of the Mexican state district and the Sahuayo district, who are mobilizing in the towns.

No additional troops reached Agua Prieta today, although reports from southern Sonora indicated that the mobilization of available forces for the movement north and east continued.

BRITISH STEAMER IS FIRED ON BY SUBMARINE

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 21.—The British steamer *Siamois*, returning in ballast after delivering a cargo of lumber at Brest for the French government, was fired upon without warning, presumably by a German submarine, off the French coast on November 1, according to officers of the vessel, which arrived here today.

Three shots were fired, the officers said. The attack took place at 1 a. m., 266 miles at sea, while a heavy sea was running. No attempt was made to torpedo the ship, which is owned by Messrs. Wills & Co., and who carried no passengers. The officers of the vessel said that the attacking boat was about a mile distant.

NAVY PROGRAM IS CUT INTO MOST DEEPLY JUST NOW

Advancing Prices Make Everything Cost About Double
What It Would Have Cost
Year Ago.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 21.—Light on the high and growing cost of naval construction, the venerable naval committee today by Rear Admiral Frederick H. Barris, chief of the bureau of yards and docks, explaining his estimates for the fiscal year 1918. Admiral Barris said increasing prices of material and labor were rendering the huge navy building program on which the country has embarked doubly expensive.

Submitting an estimate of \$2,000,000 for shore station maintenance as against \$1,500,000 last year, he warned the committee that the fleet and shore station program for 1918 would need world war money. He said that the program would be increased by \$1,000,000 a year ago. He explained that structural steel had gone up from \$55 to \$102, and that that had multiplied the cost of building a ship from \$10,000,000 to \$24,000,000 for machines that cost \$10,000 last year.

Admiral Barris was doubtful that it would be possible to construct at the Philadelphia yard within the estimates the committee had set and said that the committee had appropriated \$1,000,000. A similar dock at Norfolk, he said, apparently could be furnished at that price. His forecast for construction of the Philadelphia dock will be asked next January.

NO WARNING BY SUBMARINE WHEN MARINA WAS SUNK

Lansing Waits With Some Impatience for Information Regarding Incident Which Cost Six American Lives.

WASHINGTON, Nov. 21.—Complete tests of the efficiency of the American submarine, which sank the German steamer *Marina*, on her way to this country October 25, with the loss of six American lives, reached the state department today from the embassy at London. Secretary Lansing refused to discuss them pending careful study of the details. Other officials indicated, however, that the tests corroborated the summary called to the department two weeks ago, stating the survivors as having said the vessel had been torpedoed without warning, and had not attempted to escape.

The nationality of the submarine of which the *Marina* was sunk has not been definitely established. Survivors say there were two of them, one on each side, and that each fired a torpedo. The department has requested charge freely to inquire as to what facts the German government may have, but as yet, Secretary Lansing said today, no reply has been received. This is thought extraordinary, as word was expected from the German government within a few days that have elapsed since the sinking. The admitted fact that the *Marina* carried a 47-inch stern defense gun or that she had been used to carry horses for the British army, will not be considered here as legal justification for an unprovoked attack upon her.

SITUATION IN BELGIUM DESCRIBED AS HORRIBLE

WASHINGTON, Nov. 21.—H. Carton de Wiart, Belgian minister of justice, has sent from Havre the following telegram to Mrs. Mary Patton of this city regarding the situation of Belgians in Germany. It was received today:

"News from Belgium describes situation horrible. Over 10,000 men are deported for military work amid awful scenes; number proposed 300,000. Heart-stricken campaign of opinion which might possibly prevent action. I am sure that Belgium needs your help to save the humanity and honor of mankind."

PRESIDENT WILL ASK LEGISLATION ON ADAMSON LAW

Recommendations to Be Substantially the Same as Those Made in Special Address to Congress Last August.

WASHINGTON, Nov. 21.—President Wilson's recommendations for railroad legislation to his address to congress will be practically the same as those embodied in his special address last August, when a nationwide railroad strike was pending. The president's recommendations to congress today with the cabinet. In his special address the president made specific recommendations. Two providing for an eight-hour day as a legal basis of work and of wages on railways and a commission to observe the operation of the law, were embodied in the Adamson act. The others, which remained unacted upon and which will be reviewed by the president are:

Immediate provision for the enforcement and administrative cooperation of the interstate commerce commission along the lines embodied in the bill recently passed by the house of representatives, and now awaiting action by the senate, in order that the commission may be enabled to deal with the great and pressing duties now devolving upon it with a promptness and thoroughness which with its present constitution and means of action, is not possible.

Explicit approval by the congress of the compensation of the interstate commerce commission for an increase of freight rates to meet such additional expenditures by the railroads as may have been entered necessary by the adoption of the eight-hour day and which have not been offset by administrative readjustments and economies should the facts disclosed justify the increase.

Earthquake Recorded.
Washington, Nov. 21.—A pronounced earthquake, lasting from 1:21 to 1:25 a. m., with the maximum shocks at 1:24 a. m., was reported today by the Georgetown university seismographical observatory. The center of the disturbance was estimated at from 2,100 to 2,200 miles from Washington.

Leather Company Declares Dividend.
New York, Nov. 21.—The Central Leather company today declared an extra dividend of two per cent on the common stock in addition to the regular quarterly dividend of 1 1/2 per cent on the preferred. This brings the total dividend on the common stock to seven per cent for the calendar year.

McKinley County Returns In.
Santa Fe, Nov. 21.—The official returns of McKinley county were received today by Secretary of State Antonio Lucero, making a total of twenty-five counties that are in, while six are still missing.

ONE SUIT LIKELY TO SETTLE ALL QUESTIONS OF ADAMSON LAW

(Continued From Page One.)
New and Henry C. Ferris, to cover for the Missouri, Oklahoma and Gulf railroad, embodying two distinct requests of the court as follows:

Asks Dismissal of Suit.
"1. The government asks an immediate decision on the injunction petition filed by the receivers of the Missouri, Oklahoma and Gulf, in which the Adamson law was attacked as unconstitutional and an order requested for lifting its enforcement. The government contends that the injunction petition should be dismissed because the law is constitutional, therefore leaving the railroad to business in equity for its action."

"2. Should the law be held unconstitutional, the government asks that the court direct the receivers for the railroad to join the government in getting the case advanced immediately to the supreme court of the United States for final decision."

Judge William C. Black, sitting in the case, announced that he will render a decision tomorrow. Judge Hook stated from the bench that if the motion were granted, he would request receivers of the Missouri, Oklahoma & Gulf to invite the local representatives of all the railroads in the United States to take part in the proceedings.

Should the law be held constitutional by Judge Hook, it is expected that the railroads will appeal from the decision in favor of the government in an effort to stop the law's decree before January 1. In any case, the government plans to have a question of constitutionality of the law before the supreme court when that tribunal reconvenes December 4, and to argue that it be advanced for immediate hearing.

Action in the case was taken on the injunction petition of the Missouri, Oklahoma & Gulf railroad rather than on similar petitions of other roads throughout the United States, because the Missouri, Oklahoma & Gulf is under the direction of the federal courts. That enabled the government to ask the co-operation of the railroad in obtaining a final decision before January 1. This contention will be ordered by the court and, as indicated by Judge Hook, will be so ordered if he decides to grant the motion. Had the government proceeded against a railroad not in receivership, it was pointed out by a member of the government counsel, the railroad might have chosen to combat the law through various legal maneuvers which would have delayed the final decision indefinitely.

Like other injunction petitions filed by many railroads, the Missouri, Oklahoma & Gulf's action against the Adamson law contended that it was unconstitutional because it deprived the railroads of their property without due process of law and compelled them to pay large sums of money to employees without receiving anything in return.

Decision on this point tomorrow will have no bearing on the rights of the western Missouri judicial district and whether or not it goes may be nullified by appeal to the supreme court.

"There is no use to be excited about this action," Frank Hagerman, special counsel for the government, said today. "It is simply an action to advance the case quickly to the supreme court, which will be the final ruler."

The same view was expressed by Arthur Miller, attorney for the Missouri, Oklahoma & Gulf receivers, who said the only thing to be done now was to await the judge's decision.

Mr. Hagerman filed the petition today in the name of Francis Wilson, U. S. district attorney.

FIRST SNOW OF WINTER NEAR CAMP OF GUARD

EL PASO, TEXAS, Nov. 21.—The first snow of the winter blanketed the Franklin mountains near the national guard camp here today and also the Mexican mountains to the Rio Grande. The snow followed a heavy rainfall which continued through the greater part of the night. A drop in temperature to 25 degrees above zero accompanied the rain and snow.

Much suffering is reported to characterize the original snow in the Mexican quarter of El Paso and in Juarez. Along the river front on the Mexican side of the Rio Grande, hundreds of Mexican refugees have dug holes in the ground and are living there without food, clothing or shelter. Many of the children are barefooted and are sent to the main streets to beg money from tourists who come to buy food.

PRESIDENT MAY LOSE ONE OKLAHOMA VOTE

Montgomery, Ala., Nov. 21.—A possibility that President Wilson may lose one of Alabama's twelve electoral votes developed today when Y. M. Quinn, acting as a democratic elector at the November 2 election, was indicted on a charge of embezzling \$4,000 from a bank at Russellville. State officials said the indictment alone would not prevent him from serving as elector, but that he would be disqualified if convicted before January 2, when the electors meet to cast their ballots. Court officials expressed doubt that the case would be reached before that date.

Plant Quarantine Recommended.

Albany, N. Y., Nov. 21.—A federal quarantine against importation of other contents of all plants, except such as are considered highly desirable by the United States department of agriculture was recommended today by state and federal agricultural department in conference here to devise ways to combat the white pine blister rust which threatens the destruction of the white pines in the United States and Canada. The conference agreed that a deadline should be established along the western borders of Minnesota, Iowa and Missouri, Arkansas and Louisiana, across which there should be no shipments of white pine seedlings or of current or gooseberry bushes on which the blight is propagated, in order to prevent the disease spreading to the western sugar pine, valued at some \$150,000,000.

MEX FEEL TIRED, TOO.
While much has been said of tired women, it must be remembered that men also pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired and nervous, lacks energy and ambition, F. K. Kidney Pills, tonic and strengthening, Wm. H. Clark, Springfield, Ohio, writes: "I found no relief from kidney trouble until I discovered Foley Kidney Pills. Now I am in a 1st class. They act quickly and surely. Sold everywhere."

FOOD SHARPS TO LIVE ON EIGHT CENTS PER MEAL

Public Diet Squad in Chicago Will Demonstrate Simple Art of Living Well on Little Money If You Know How.

CHICAGO, Nov. 21.—Meals for the first day on which Chicago's public diet squad will undertake to demonstrate that a person can live well on 25 cents a day were decided on tonight after long conference of the public health department, expert dietitians and food experts. The menu consists of the following:

Breakfast: Fresh apples, liver and bacon, one egg-muffin, butter and coffee.

Luncheon: Crisped codfish, baked potatoes, corn bread, butter, corn.

Dinner: Vegetable soup, pot roast, baked potatoes, cranberry sauce, rice and raisin pudding, tea.

The squad, consisting of twelve young persons employed by the health department, will begin its ten-day experiment tomorrow. The recipes were prepared by the school of Domestic Arts and Sciences, where the test is being made. The diet will be as varied as possible under the limiting amount to be expended.

Squad Weighs In.

Members of the squad were weighed carefully tonight. The weights generally showed a falling off of an average of one pound from their weight Sunday night, when each one had fifty percent of an extra Sunday dinner in expectation that the test would begin Monday. To defeat this advantage, Dr. Habershon, health commissioner, delayed the test two days. The weights tonight were:

Gertrude Nigh, 111 pounds; Sophia Miller, 120 1/4 pounds; Lillian Patti, 141 3/4; Cecelia Wilson, 125 1/2; Borghild Halvorsen, 125 1/2; Eva G. Hansen, 110; Pauline Beckman, 181 1/2; L. Porch, 166; Henri Gehring, Jr., 125 3/4; Irwin A. Rowell, 164 3/4; William C. Merker, 147 1/2; and A. J. Stekos, 220.

The experiment has attracted the attention of numerous physicians and economists throughout the country, many of whom have written that they believe the test will have practical value and that simply in diet will prove beneficial both to health and purse.

NEW DEMANDS MADE BY ALLIES ON SWITZERLAND

Berlin, Nov. 21 (By Wire).—Switzerland is reported to have been presented to the Swiss government by the entente powers. Swiss dispatches as reported by the government News agency, say large quantities of food and other supplies are being held up in Italy and French ports, pending Switzerland's compliance with the demands which are characterized by the allies as "something unheard of in the memory of man" and "a treatment which no one can endure."

After long discussion with the entente powers and especially Switzerland entered into arrangements for the importation of food supplies through allied territory and of coal, iron and other materials from Germany. A dispatch from Bern says that Switzerland is now in dispute with Germany and Austria of products made by machines lubricated with oil coming from entente countries and of electric power transmitted by copper wire purchased in these countries.

U. S. BATTLESHIPS TO CARRY MOST POWERFUL GUNS

WASHINGTON, Nov. 21.—Four battleships under construction at the navy yard at Groton, Conn., will carry the most powerful guns of which the navy has any authentic information. Rear Admiral Strauss, chief of ordnance, told the house naval committee today that he expected to complete and equip sixteen-inch 50-caliber guns early next year.

"We have a very good sixteen-inch 45-caliber gun," he said, "but the 50-caliber weapon will be the largest gun in the world of which we have any authentic information."

Four battleships, built for which some will be awarded by the navy department, will each carry eight sixteen-inch, 45-caliber guns. The three ships currently in construction are expected to authorize this winter each will carry twelve sixteen-inch, 50-caliber guns. If the department's hopes are carried out, Admiral Strauss said the 50-caliber guns would weigh 125 tons as against 100 tons for the 45-caliber weapon, and will have greater penetrating force and range.

The forging for the first 50-caliber gun already has been ordered and it will be made at the naval gun factory here.

Goodwin Gets Parole.
Denver, Nov. 21.—Frederick Goodwin, alias Goodwin, sentenced to the Colorado penitentiary last April to serve a term of one and one-half years for attempted horse race swindling, was paroled and released from the prison business camp last Sunday. It became known here today that Goodwin, it became known here today, appeared to the pardons board, insisting that Goodwin made no profit from his alleged operations and that he desired to go to California to marry "and become a good citizen." Warden Thomas J. Tynan and Sheriff S. J. McFar, prosecuting witness in the case, recommended that Goodwin be paroled.

EUROPEAN TRADE WAR CONCERNS UNITED STATES

President Wilson to Urge Upon Congress Measures Calculated to Protect Interests of Americans.

WASHINGTON, Nov. 21.—The protective European commercial war after the war, viewed with increasing alarm, is being watched carefully by American business circles abroad and reports are being received regularly at the department from many different sources. It has been known today that available facts are being sent out to Washington, both as to the progress already made in planning the economic structure and the probable future developments.

Officials here think the American people do not fully realize the possible effects of such protectionist struggle on their home trade, which has passed the \$2,000,000,000 mark annually. Uncertainty as to the future of the world's commerce is expected to be felt here. The country faces a grave economic danger unless it does all possible first-hand business with a strategic and economic to protect against it in case recent indications are borne out.

Legislation along these lines will be sought in congress. The action will allow for foreign trade without violation of the anti-trust laws, to be urged again in the president's next address. The shipping board, provided at the last congress is expected to be named shortly and to submit a program designed to free American's seaborne trade from dependence on foreign bottoms. A maximum and minimum tariff automatically to be levied against American goods is another proposed means of defense which will be submitted for consideration by the new tariff commission.

The state department is deeply interested in the threatened trade competition and it is largely for this reason that American business circles have been kept so fully informed of the time will be sent to the business meeting of the national foreign trade council at Pittsburgh, January 25-27.

HUGHES NOT READY TO CONGRATULATE WILSON

NEW YORK, Nov. 21.—William H. Hughes, chairman of the republican national committee, took exception today of reports that Charles E. Hughes had prepared a message of congratulation to send to President Wilson concerning his reelection, but had withheld it on the advice of republican leaders. In denying that any such communication had ever been prepared, he said the reports "were founded on nothing but smoke."

Mr. Hughes came to republican national headquarters today from Lakewood, where he and Mr. Hughes have been taking a rest from their campaign labors. He reiterated his previous statement that if he had not yet arrived for the republicans to concede the election to President Wilson, he would be making no forecast as to which a definitely statement in that regard. He said that even when the official count in California is known, there might still be conditions in other close states keeping the final result in doubt.

25,000 BELGIAN MEN IN GERMAN INDUSTRIES

LONDON, Nov. 21.—In the house of commons today Lord Robert Cecil, war trade minister, confirmed a statement which had been made on the floor that 25,000 Belgian men had been deported from various parts of Belgium to work in German coal mines and steel industries in the Ruhr province of Westphalia. That, after the surrender of Antwerp, the military government gave Cardinal Mercier solemn written assurance that no Belgians would be deported and that this assurance was confirmed by Field Marshal von Hindenburg, who at the time was governor general of Belgium, and that the German official order, whose orders were strictly followed, were governor of Brussels and "not directly responsible for the execution of these orders."

The government, Lord Robert said, would support every Belgian protest but the only way to solve the question was "to prosecute the war with all our powers and make it a cardinal policy to secure the liberation of Belgian territory and Belgian citizens from this oppression."

PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves sourness, gas, heartburn, dyspepsia in five minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gas and stubborn impure your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach troubles vanish in five minutes.

If your stomach is in a continual revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a full stomach—make your next meal a Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent can of Pape's Diapepsin from any drug store. It's the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

TAKE CARE

do not neglect the battery in your automobile. In order to give the best of service it should be inspected at regular intervals by an expert. We will do this for you, put water in the cells and give you advice—all entirely free of charge, regardless of the make of your battery.

The "Exide" Automobile Starting Battery
is the battery you are reading about in the magazines—the ultimate battery, the one that every motorist who demands a powerful and consistent service installs.

We will explain its various points of merit to you at any time.

CROPS SERIOUSLY DAMAGED BY COLD WAVE THIS MONTH

West and South Have Suffered Severe Loss on Account of Unprecedented Early Drop in Temperature.

Albuquerque, Nov. 21.—(Special Telegrams.)—The cold wave which has been sweeping across the country since the middle of the month has done much to damage the crops in the West and South. The weather bureau announced that the cold wave was a special severe one, and that the damage to the crops was unusually heavy. The cold wave has been accompanied by a heavy rain, which has done much to damage the crops. The cold wave has been accompanied by a heavy rain, which has done much to damage the crops. Turkey Fights for Loser's End, Even If Teutons Win In Great European War

By Herbert Bayard Swope.
(Copyright, 1916, by New York World.)

Rumania's defection was a bitter pill for Germany to swallow, and with reason. Rumania, under the Hohenzollerns, was a member of the central powers, and her army, which was trained and equipped for war, was a valuable asset to Germany. Her defection was a severe blow to Germany's military position.

In Germany, one always hears that Rumania, the Russian premier, was brought by the allies' cold, but as that is a common charge against all of the allies' enemies—and most of the allies' friends—it makes no deep impression.

Although Rumania in Germany's hands has been a source of trouble, she has been a source of trouble to the allies as well. Her defection was a severe blow to Germany's military position.

Balkans Dispute Germany.
"Had it not been for the irresponsibility and unworthiness of the Balkan states, the war would have been over long ago. There is only one solution to the question and that is to wipe the Balkans off the map, but since that can not be, they must be taken over and civilized so that they will no longer be the powder barrel of the world."

I heard the church made while I was in Berlin that the German government had spent something like \$100,000,000 in propaganda work in the Balkans among the officials and civilians and in subsidizing the native press. It is a fact that German propaganda has been great in Rumania, but apparently fruitless, and Rumania's entrance into the war is set down as another failure of German propaganda, which is most excruciating in Germany itself.

In France the Teutonic efforts seem to have borne better fruit. A rebel organization in the place of the allies to force Greece into the war exists, although Berlin fears that eventually Greece will be compelled to enter the conflict on the side of the allies.

Alies Make Friends for Teutons.
The German representatives who were expelled from Athens by the allies and that Greece was being starved into submission, and that, to save their lives, the natives would have to yield to allied pressure. Baron von Selen, chief of the German propaganda in Athens when he was put out of a ship and sent away, said:

"I leave my work of making friends for Germany to the agents of the allies—they will make more for us than I did." He prophesied truly for the demonstrations in Athens during October showed how little popularity the allies have built up in the country. They have practically sealed the mouths of the natives, and the fact that there was in Greece no armed or organized resistance.

Turkey Fights as Loser's End.
Turkey is fighting with an ally she dislikes for a future she fears. Turkey knows that, whatever the outcome of the war may be, her place in the world will be lessened.

Attack on Adamson Lane.
Los Angeles, Nov. 21.—(Special Telegrams.)—The constitutionality of the Adamson eight-hour law was filed in federal court here today by the Attorney General, and the Santa Fe railway, which is directed against the law, will contest the law and the effect of the four-hour law, which is filed by the Santa Fe in other suits.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue. Mother, if coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul constipated waste, sour bile and indigestible food passes out of the child's system. When the little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleanser" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a constipated little child saves a sick child tomorrow. Ask your druggist for a "fruit bottle" of "California Syrup of Figs," which has directions for babies, children of all ages, and grown-ups printed on the box. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

starts into the short distance from the border to Constantinople as possible. And this part of the line gives a very good indication of a real battle with a campaign.

European Turkey ought to be a fertile, well cultivated district, supporting thousands of happy peasants. But it is not merely a war zone, but a waste of rolling countryside with little or no farms until one is quite close up to Constantinople.

Economia conditions in Constantinople are those of Vienna, Istanbul and the other cities in the Balkans. After the war, the Balkans will be a waste of rolling countryside with little or no farms until one is quite close up to Constantinople.

Turks Look to U. S. for Aid.
Turkish politics are rather obscure at present. Only general rumors are abroad. Turkey would like to have the United States help her to get the fair share of the world's resources. Turkey would like to have the United States help her to get the fair share of the world's resources.

Troop Revolt Rumored.

MEXICANS LEARN FINAL POSITION OF AMERICA IN THE CONFERENCE

Whether Agreement Is to Be Reached Depends Upon Carranza Commissioners Entirely.

PALAUER MAY LAST UNTIL END OF WEEK

Secretary Lane Lays Down Ultimatum of United States in Terms Which Admit of No Misunderstanding.

AT MORNING JOURNAL SPECIAL LEASED WIRE. — Secretary Lane today laid down the long conference of the American commission will end with an amicable adjustment of the problems faced by Mexico and the United States, or by a disagreement which may result in a still more serious difference, depending tonight upon Carranza's representatives. The American commissioners placed before the Mexicans today a plan in which the withdrawal of the American troops now operating in Chihuahua under General Pershing and the future protection of life and property along the international frontier. The Mexicans have not replied. Instead, they have offered a few counter-suggestions to gain further time.

May Last Through Week. — That the close of the conference will not come much before the end of the week was indicated by the departure tonight of Dr. J. R. Mott, one of the American commissioners, for

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink Glass of Hot Water Before Breakfast to Wash Out Poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up with out a headache, backache, coated tongue or a nasty breath, in fact to feel your best day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives you a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses sweats and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not need the operation." — Mrs. John A. Koryga, 602 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass.

Cleveland, where he will speak tomorrow night. He expected to return late Thursday and be present at the meeting of the commissioners Friday. His absence will not delay discussion, however, for the other American commissioners understand his point of view and have what is in effect his proxy.

Cabrera in Philadelphia. — The departure of Luis Cabrera for Philadelphia tonight was much more of a puzzle than was the going of Dr. Mott. Mr. Cabrera went without advising the American commissioners of his intention and it was only after he had left that it was said by one of the attendees of the Mexican commission that he had gone to consult with Rafael Nieto, sub-secretary of finance, who came to the United States several days ago regarding changes in the banking system. There was prevalent here a opinion that he might also receive through Mr. Nieto fresh indications of what General Carranza desired him and his colleagues to do. Mr. Cabrera left word here that he would be back in the morning.

American Position Stated. — Secretary of the Interior Lane and his colleagues faced the Mexican representatives today and in terms that were not only clear but that appeared to admit of little debate, submitted the American proposition. They insisted that the rights of all foreigners in Mexico, American or otherwise, must be respected. Under the terms of the program, the American army must be withdrawn within sixty or ninety days, if in that time General Carranza has demonstrated his ability to prevent raids in his vicinity. This conditional withdrawal is to be followed by the pulling of the border of the two armies, but there will be no joint action. The American army will do its work on its own side and the Mexican army will be expected to see that disturbances south of the international boundary are not carried in the United States.

Border Patrol Unlimited. — In case raiders cross the border into the United States, the American government is prepared to pursue them into Mexico. No restrictions will be accepted as to the size of the force and no limit to the field of operations will be recognized. It was pointed out to the Mexicans that by this declaration the Americans did not wish to convey any threat of intervention, but that it was merely an expression of determination not to adopt a passive attitude in face of insufficient security of the border. When the program was laid before the Mexican commissioners they appeared not to believe that the Americans really meant that the final stage of the long conference had arrived and that the American proposal was of so drastic a character. They offered debate, but asked time for consideration.

Cabrera Is Agitated. — At the afternoon joint session, the Mexicans offered a few suggestions, the exact character of which could not be learned. The Mexicans refused to discuss any phase of the new situation, and the Americans declined to comment on the counter-suggestions, although it was intimated they were in the nature of modifications. The Americans indicated that there was no desire to force a precipitate and unconsidered decision from the Mexicans. It is known, however, that they do not propose to wait long for their answer. The opinion was expressed here tonight that the Mexicans are imposing suggestions of modifications to delay final action until they can command more fully with their government.

It was the first day on which Mr. Cabrera lost his poise. When he appeared before the newspaper men after his conference, that lasted until midnight, he was excited and agitated.

GREAT DAMAGE TO RUSSIA FROM FIRE IN PORT

Seven Munitions-Laden Ships Are Said, by Berlin Report, to Have Been Destroyed Near Archangel.

THE MORNING JOURNAL SPECIAL LEASED WIRE. — Berlin, Nov. 21 (By Associated Press). — Reports received from Swedish sources state that at least twenty ships were caught fire in the recent series of explosions near Archangel, and were forced to stay in the harbor until it was ice-bound, says the Overseas News agency. According to these reports, it is estimated that ammunition of value of cotton, belonging to the Moscow Association of Cotton Mills and 15,000,000 rubles worth of rubber, were burned. A new automobile train for Petrograd and Moscow is said to have been partly destroyed.

From the same source, it is stated that Admiral Gromovitch, the Russian minister of marine, was immediately summoned to headquarters by the emperor.

General Chouloff, the Russian minister of war, is quoted as characterizing the explosion as "one of Russia's worst disasters." The British ambassador at Petrograd, according to Stockholm reports, seized the opportunity to claim, in the name of his government, the right to superintend the harbor.

RUSSIA SAYS ONLY TWO VESSELS BURNED. — London, Nov. 21. — A Russian dispatch from Petrograd says it is unauthorizedly announced that only two vessels were destroyed in the recent explosion in the harbor of Archangel. The dispatch says that the British and the Russian steamers, the Russian ship, were destroyed by the explosion. The dispatch also says that the Russian ship, the Russian ship, was destroyed by the explosion. The dispatch also says that the Russian ship, the Russian ship, was destroyed by the explosion.

FEDERAL AGENTS GET RUMORS OF FOOD CONSPIRACY

It Is Claimed That Perishable Vegetables and Fruits Are Bought and Allowed to Rot in Fields.

CHICAGO, Nov. 21. — Federal information to subvert rumors that produce dealers are permitting fruits and vegetables to rot in the fields in order to cause a shortage and increase prices came to the government officials who are investigating the causes of the present high price of food today.

J. L. Brundage, a farmer of Gary, Ind., reported that he had sold his crop of seven acres of pumpkins for cash. When the crop ripened and the pumpkins were allowed to rot in the field, he tried to find the buyer and learned that the name and address that had been given were fictitious.

Similar conditions prevail elsewhere and that speculators are buying potatoes, cabbages, cabbages, pumpkins, apples and other fruits and vegetables and allowing them to rot in the fields have been reported in the federal investigation from time to time.

Complaint also was received that a conspiracy to raise the price of beans exists and that large quantities of them are being held in Norfolk, Va., Cincinnati, and Saginaw, Mich. The storing of these beans, according to the report to the federal bureau, has increased the cost of canned beans 60 percent and dry beans 40 percent in the last six months.

An agent was sent to Peoria, Ill., to investigate the report that 28 cars of potatoes had been dumped into the river there. If it develops that the potatoes had been condemned by the health authorities, the agent was instructed to learn how they had been held in cars.

HIGH COST OF LIVING CAN BE EASILY REMEDIED

New York, Nov. 21. — A central market, so located that steamships could unload directly under its roof and with connecting spurs for railroads, was advocated today by John J. Dillon, commissioner of the state department of food and markets, as the most practical means of combating the high cost of living here.

By eliminating the excessive cost of handling and rebalancing food products, he added, it was his belief the prevailing prices for food commodities would be materially reduced.

Pending the negotiation of the establishment of the proposed central market, Mr. Dillon suggested that a co-operative organization be formed at once to finance those stores in different parts of the city. These stores, he asserted, would receive their supplies directly from the producers, and sell directly to members of the co-operative organization at cost.

That the problem here has become acute was further emphasized by Deputy District Attorney Mark-Switch, he announced that he was preparing a bill to the general jury evidence, and has collected considerable evidence of the high cost of living. So far as the producer is concerned, Mr. Mark-Switch declared, he had been unable to find any reasonable excuse for the advance. The producers' price for the last six months, he added, has been changed, although housewives now are paying from 4 to 5 cents a pound more for poultry.

Developments of the last few days it was said tonight, have aroused the entire city. Joseph Hartman, commissioner of justice and measures, expressed the opinion that the most representative of the Merchants' association, the chamber of commerce, and other civic and commercial organizations, with a view to formulating some plan whereby producers of food and other necessities may be brought into closer contact with the consumer, and the elimination of the middlemen and relief of railroad freight car congestion here, the commissioner asserted, would result in an immediate reduction of prices.

Small Change in Demand. — Washington, Nov. 21. — A demand for more money and money is so much greater than the supply that superintendents and officials of the San Francisco, Denver and Philadelphia mints and New York assay office conferred here today on how to meet the situation. The mints are running behind although working night and day.

EMPLOYEES GIVEN WAGE INCREASE OF TEN PER CENT

Abnormal Conditions Reason for Higher Pay Voluntarily Granted, Says Chairman Gary.

NEW YORK, Nov. 21. — The United States Steel corporation tonight announced an increase of ten per cent in the wages of the employees of its steel and iron companies, effective December 15 next. Wage and salary advances in other departments of the corporation also will be adjusted suitably, it was stated. The increase affects in all about 250,000 employees, and probably adds nearly \$20,000,000 to the corporation's payroll.

Ordinarily the question of wages would not come up for consideration or decision at this time of the year, said Chairman E. H. Gary, in making the announcement, "but in consequence of the abnormal conditions now existing, it has been decided to increase the wage rates of our iron and steel companies about ten per cent to take effect December 15. As to other departments, increase will be equitably proportioned."

Chairman Gary declined to make further comment, but another official of the corporation said the action of the directors was taken "with due regard for the higher prices prevailing for necessities in all parts of the country."

Total salaries and wages paid to the companies' 341,126 employees in 1915 aggregated \$176,800,845. Since that time the number of employees has greatly increased and several wage advances have been made. It is estimated the payroll of the steel corporation at this time is between \$190,000,000 and \$200,000,000, which implies an increase of approximately \$20,000,000 under the higher rate of pay.

The average wage or salary per employee in 1915 was \$2.92 a day, an increase of four cents daily over the previous year. This advance to take effect in December will raise the average of wages and salaries to the highest level in the history of the corporation.

CHARGES CACHES OF ARMS ARE UNMOLESTED

SALT LAKE CITY, Utah, Nov. 21. — Maj. Wesley King, of the national guard of Utah, will receive a judge advocate of the Sixteenth provisional division, with headquarters at Nogales, Ariz., in an address here today. He declared that arms and ammunition intended for Mexican insurgents were cached at many points on the Mexican border; that the department of justice, whose duty it was to investigate these caches, but made no effort to seize them.

The authorities on the border, he said, apparently had the right to investigate but not to seize. "We have taken United States marshals to within ten feet of these hidden arms and munitions, but they seemed unable to seize them."

Water Washes Decks. — The water became choppy in the sound and the submarine's deck was washed. Spray was showered over the crew. Speed was still further increased and Captain Koenig headed straight for the beach. A few passing craft were seen. A few passing craft were seen. A few passing craft were seen.

Veteran Newspaper Man Dies

EL PASO, Tex., Nov. 21. — Capt. John L. Ginn, a veteran newspaper man of the west and southwest, died here today. He would have been 81 years old on Christmas day. He was editor of the Virginia City News, Enterprise at one time and also worked on the San Francisco Argonaut. He was connected with local papers here for many years. He was a civil veteran.

A QUEERNESS IN HER HEAD

Caused This Lady Much Suffering Which She Says Cardui Finally Relieved.

Chidbourn, N. C. — Mrs. M. D. McPherson, of E. P. D. No. 1, this place, says: "My first trouble was monthly misery, ever since I was a girl. I had headache, backache, and would stagger with a queerness in my head. I would faint, and could not stand on my feet. Would suffer so, I would just get down on my knees by a chair at 4 o'clock. We would have the doctor and take things to relieve me, but without result.

I read of Cardui — took 6 bottles and was cured of this painful trouble. Since that I have taken it a bottle at a time as a tonic and find it all or more than recommended. Have taken it before child birth which strengthened me, but my suffering before I heard of Cardui, at 4 o'clock, was equal to 10 or 12 pains. I would have to go to bed for 2 or 3 days each month.

I am strong and well today. I believe Cardui saved my life, for it is wonderful medicine.

My sister used Cardui. She too knows the great good derived from it. I praise it every day."

Cardui may be the very medicine you have long been needing. Get a bottle from your druggist today. Composed of purely vegetable ingredients, it cannot harm you, but should surely do for you, what it has done for others — help you.

DEUTSCHLAND HAS AT LAST GOTTEN AWAY FROM PORT

German Merchant Submarine Leaves New London at 2:20 o'Clock in Afternoon; Past Montauk Point at 4:30.

THE NEW YORK JOURNAL SPECIAL LEASED WIRE. — New London, Conn., Nov. 21. — The German merchant submarine Deutschland, with a \$2,000,000 cargo and official mail for Bremen, William aboard, made another start for Bremen this afternoon, her dash last Friday being frustrated when she sank a convoying tug, necessitating a return to port for minor repairs.

Her skipper, Paul Koenig, changed his tactics today, for instead of steering out to sea under cover of darkness, as was the case last week, he boldly steered down the harbor in broad daylight without convoy. Local mariners were surprised when he again elected to send his craft through the dangerous waters of the Race, where the collision occurred, in which five of the tug's crew were drowned.

Moves Over Danger Spot. — The tug Alert of the U. S. Navy, wrecking company, agent of the Eastern Forwarding company, remained half a mile astern today. Passing the Race safely, the Deutschland turned her nose to the east and headed for Nantuxet shoals. The Alert followed through the dangerous waters of the Race, where the collision occurred, in which five of the tug's crew were drowned.

During the forenoon there were unusual signs of activity on the state pier and on board the North German Lloyd liner Wilhelm, the submarine's "mother ship," indicating that the time for departure was near.

At 2 o'clock the Alert and the fishing schooner Frank Beckwith went up the harbor to the pier. Fifteen minutes later the steel net guarding the pocket was hauled up and the submarine, wearing a fence fifteen feet high was pulled aside. At 2:12 the Deutschland glided out and proceeded down the Thames to the mouth of the harbor.

Captain Koenig was in the conning tower and a number of the crew of twenty-two were on the deck, attired in oilers. They waved their hands in farewell to the Wilhelm's crew. One sailor was stationed at the bow with field glasses to see that the course was clear.

Tidal conditions were excellent. There was just a suggestion of a ripple on the water and the craft gradually increased her speed until she made ten knots an hour. The harbor was fairly free from vessels. A few passing craft were seen. A few passing craft were seen. A few passing craft were seen.
