STATEHOOD MEASURES

They Are Attracting Much Attention Throughout the Country and in Washington.

NEW MEXICO HEARING

A Favorable Report Expected by House Committee on Territories as to Oklahoma and New Mexico.

Statehood is a very live topic not only in New Mexico but in Washington, as well. In addition, the eastern papers give considerable space to statehood arguments and discussion. The latest dispatch from Washington upon the subject has a very optimistic tone and reads:

"Delegate Rodey has finished telling the House committee on territories about the wonders of the commonwealth south of Colorado that he represents in Congress, and a favorable report on the New Mexico statehood bill is expected shortly. Delegate Wilson's bill for the admission of Arizona will be taken up by the committee at once and will be reported also. There are two other statehood bills. One admits Oklahoma and another insists that Oklahoma and Indian Territory shall come into the sisterhood of states together. With these four bills to come up for consideration there is little danger of there being a dearth of statehood talk from now until adjournment of Congress. On many sides it is prophesied that something is going to be done and that flag manufacturers might as well provide a few more stars for the national banners they turn out in the future.

"The likelihood of Oklahoma's becoming a state seems practically assured, if expressions made by administration Senators in the statehood debate in the Senate last spring count for anything. As to New Mexico and Arizona, the House will pass the matter up to the Senate and in that body Senator M. S. Quay as usual stands ready to chuck both bills through if he can.

"Quay does not waste words discussing prospects. To the anxious delegates from New Mexico and Arizona he simply says: 'Get those bills through the House and bring them to me.' To just what limits he is prepared to go in behalf of the measures this session only Quay himself knows.

"Last year the bills for New Mexico, Arizona and Oklahoma were omnibus, and Quay went to the extent of holding up all other legislation in the Senate for weeks while insisting that the omnibus bill should pass. It is believed that Quay can count a safe majority for at least the New Mexico and Oklahoma bill this session and it is not impossible for him to wield it as a club against the administration this year as he did last, provided the Senate territories committee can again be forced into reporting the bills.

"Of course it will be the Panama treaty that will suffer in case Quay decides to adopt this course and is successful with it. It would not be the oddest thing in the world if Quay should happen to hold under his control the necessary votes for passing the treaty. All the Democrats and several Republicans favor statehood for New Mexico, Arizona and Oklahoma. If just a small handful of these hold out and insist on seeing political pledges at home fulfilled before giving attention to those abroad the administration may be glad to come to time on what should have been done last Congress, it pledges in both the Republican and Democratic platforms mean what they said.

"If Quay should be forced to accept compromise it will result in admitting Arizona and New Mexico together as one state and also a probable coalition of Indian Territory and Oklahoma with provisions that they shall be disjoined as states when they attain a prescribed population. The territories are making strenuous attempts to be admitted as separate states, but it is believed they will not refuse to accept the two-state plan, much as they dislike it. provided single statehood is denied them.

"Friends of statehood are much disappointed at President Roosevelt's failure to mention their cause in his last message, but they insist that he stands ready to aid them at the crucial moment and would boldly announce his stand were it not for influential Senators who have his ear. Senator Quay has recently had a conference with the President in regard to statehood, but has not taken the statehood advocates into his confidence in regard to it.

"The territories committee of the Senate remains practically the same as it was in the Fifty-seventh Congress. There have been no Republican changes and only one change on the Democratic side—Clarke of Arkansas, taking the place of Helfford, retired. Thus, although there are rumors that Chairman Beveridge and some of his associates appear to be letting up somewhat in their antagonism to Continued on Page Eight.

THE VOICE OF THE PEOPLE

Leading Citizens of Santa Fe Unanimous as to the Disposition of the Fort Marcy Reservation.

Property owners and tax payers are united upon the question of the disposition of the Fort Marcy Military Reservation.

Said Major R. J. Palen, president of the First National Bank of this city, to a representative of the New Mexican today:

"I am unequivocally in favor of the sale of the abandoned Fort Marcy Military Reservation after the necessary lots for a high school building and a ward school building have been segregated."

James L. Seligman, president of the Seligman Brothers Company: "Of course I want to see the reservation sold and the proceeds applied to the construction of modern high school and ward school buildings. Sufficient land should be segregated for the location of a high school and ward school buildings and the city should be given a lot for the purpose of constructing thereon a city hall and engine house. I have talked with many tax payers and property owners and this seems to be the universal opinion."

Said Colonel George W. Knaebel, treasurer and ex-officio collector: "In my opinion the reservation should be speedily sold to the highest bidder for cash and the proceeds used to build school houses for the city and pay off its bonded debt. The sooner the property be made to yield taxes the better for the credit of the city and its real estate owners."

J. P. Victory, Esq., attorney at law: "Yes, of course, I want the reservation sold and the proceeds applied for the construction of a suitable high school and ward school buildings, especially in the first ward where I think such a school building is greatly needed. Every bit of real estate not absolutely necessary for school purposes should be put in such condition as to pay taxes and bring revenue to the city, to the county and to the Territory. The sooner this is done the better it will be for all of us. But the Post Hall, I should very much like to see reserved for the meetings of the members of Carlton Post, G. A. R. We old veterans have but a few years on earth and it would be a nice thing to let us have the hall until we have completed our tour of duty here. If this cannot be done, Carlton Post Hall should be sold and purchased by the veterans at a reasonable price. The city should have the privilege of a lot for a town hall and engine house."

Arthur Seligman, county commissioner: "By all means, put the property within the limits of the Fort Marcy Military Reservation on sale and into private hands, taxes should be realized from it. It has been a detriment and a draw back to the city long enough. Select suitable sites of sufficient area for new high school and ward school buildings and if possible give the city a lot for a city hall; sell the remainder and use the proceeds for the construction of high school and ward school buildings. The sooner this is done the better will property owners, heads of families and citizens generally be pleased."

Said Hon. L. B. Prince, president of the Santa Fe Board of Trade: "The special object of obtaining this session by the President was to enable the reservation to be sold without delay with the exception of such portions as are reserved for public buildings. The sooner the sale can be made the better so that the property can be improved and become taxable. The buildings thereon are much out of repair and require private ownership for their preservation and improvement. There is no doubt that the property will find a ready sale at good prices, when divided into convenient plots, not too large in size. This will not only add a large amount to the taxable property of the city, but the money for the property will pay for the necessary school buildings and probably provide a permanent fund for school purposes."

Amado Chavez former mayor: "Of course I am in favor of the speedy disposition of such parts of the Fort Marcy Reservation, donated to this city by the United States, as are not necessary for sites, for a high school building and ward school buildings. I think that, however, the grounds for these should be ample and if possible a small park should be set aside near them. The city should either be given or be allowed to purchase at a reasonable rate, a lot for a city hall and engine house. The property should be placed in private hands by sales, so that it could be improved and be made to pay taxes."

General Gordon Dying. Miami, Florida, Jan. 9.—General Gordon's condition today is not improved. It is believed that the general is gradually sinking and that the next 24 hours will see the end.

SENATOR SMOOT ANSWERS.

He Emphatically Denies That He is a Polygamist and Defends Incidentally the Mormon Church.

Washington, Jan. 9.—The response of Senator Reed Smoot of Utah to the charges made against him was presented to the Senate committee on privileges and elections today by Senator Burrows, chairman of the committee. The document is in printed form and the members of the committee did not go through the formality of reading it during the session. It was agreed that at a regular meeting of the committee to be held Saturday, the attorneys for Smoot and for the petitioners should be heard.

The Defense.

Washington, Jan. 9.—Senator Reed Smoot of Utah has filed an answer to the protest against his being allowed to retain his seat in the United States Senate in which he says that the charges that he is a polygamist and that he is bound by oath or obligation as a member of the Mormon Church which is inconsistent with his oath administered to him before he took his seat in the Senate are the only charges that could legally affect his right to remain in the Senate as a representative from Utah. He denies specifically the truth of these charges and after giving the name of his wife, declares that he never had another wife and never cohabited with any other woman. He refutes the statement that there exists in the Mormon Church a circle of fifteen which shapes the belief and controls the conduct of the members or that any one has the power or authority or does encourage polygamous practices, and that violations of the law in this respect are countenanced or connived at. He admits that the first presidency and twelve apostles control the spiritual and temporal affairs of the church but not the temporal affairs of the state or of the members of the church. He also admits that the church made a rule in regard to its leading officials, participating in politics but denies that the rule was fully and correctly set forth in the protest. Since the manifesto of President Woodruff issued in 1890, he says, the practice of polygamous cohabitation by those who were polygamists theretofore has been abandoned in many cases and continues by some for a time, but when continued it was done on the sole responsibility of such persons and subject to the penalties of the law. He vigorously denies that the church honored and protected violators of the law.

DAMAGING TESTIMONY.

A Small Fire Occurred in the Iroquois Theater on the Opening Night.

Chicago, Jan. 9.—Sworn testimony was given today that fire broke out in the Iroquois theater the first night the theater opened. This first fire only preceded by a few weeks the great disaster which resulted in the loss of hundreds of lives. Testimony regarding the initial blaze given by John Bickles, a workman employed in the construction of the theater. He said he was in the basement the night the theater opened. He heard a loud report and the flames came over the partition from the adjoining room. He was told that some kind of gas tank had exploded.

In the light of this evidence the record of testimony taken to date, shows that there were two previous warnings to the Iroquois management before the catastrophe. The curtain manager has testified that there was fire on the stage a week before the holocaust.

CHOCTAW TERMINALS.

Land for Them Purchased by the Rock Island at Tucumcari—The Extension Will Be Completed.

Special to the New Mexican.

Tucumcari, Quay County, Jan. 9.—The Chicago, Rock Island & Pacific Railway Company today completed the deal for fourteen acres of land at Tucumcari to be used as terminals for the Choctaw extension from Amarillo, Texas. The land was bought from A. D. Goldenburg, the consideration being \$125 an acre. This makes it certain that the Choctaw extension on which work was suspended some time ago, will be completed. Tucumcari is correspondingly happy, for it will share with Santa Fe, Deming and Lordsburg, the honor in New Mexico, of being the terminus of three railroads.

FAILED IN HIS MISSION

General Rafael Reyes Packs His Grip and Lights Out of the National Capital.

Washington, Jan. 9.—General Rafael Reyes, who came here as a special envoy from Colombia in the hope of arranging a peaceful settlement between the United States and Colombia regarding Panama, having failed in his mission, will leave Washington today.

LOOKS LIKE AN ULTIMATUM

Japan Will Permit No Further Delays in Russia's Answer to Its Contentions.

WAR LIKE RUMORS

Two Japanese Cruisers Sail from Genoa, Italy, Under Sealed Orders—A Crisis Averted for the Present.

Tokio, Jan. 9.—Japan addressed a note to Russia today through Minister de Rosen. Its character has not been disclosed but it is said that Japan requires an answer within a given number of days. Whether the note mentions the time, making the document an ultimatum or whether the time is intimated otherwise, is unknown. The government, however, is determined to secure an early response and a close discussion if it should prove to be fruitless. It is understood that Japan adheres closely to her original contentions and it is believed if Russia fails to fairly meet its demands war will ensue. The attitude of British and Americans greatly encourages the Japanese war spirit which is stronger than ever.

Austrian Officials Still Hopeful.

Vienna, Jan. 9.—The Austrian Hungarian foreign office has received a cable message from Tokio saying that Japan has no intention of taking any offensive measures in Korea so long as negotiations with Russia are going on. Officials and diplomats here are hopeful. They believe that the chances of a peaceful settlement of the dispute is distinctly better since the Russian answer was apparently more favorable than early reports suggested.

Under Sealed Orders.

Genoa, Jan. 9.—The Japanese armored cruisers Kasaga and Niasin left Genoa today. The general opinion is that they will go through the Suez Canal but no one knows exactly the route they will take on the homeward journey. Even the commander before leaving, acknowledged that they were in the dark regarding the instructions contained in the sealed orders.

Crisis Averted for the Present.

Paris, Jan. 9.—Official advices received today further convince those highest in authority that the Russo-Japanese war crisis has been averted at least for the present. Reports chiefly from Tokio but also from St. Petersburg, give a clear view of the circumstances leading up to the sudden improvement in the situation. They show that the Russian answer actually reached Tokio the night of January 6, and proved to be the turning point. Prior to its receipt, Japan had been making strenuous preparations for sending two divisions to southern Korea. A note received on the 6th disclosed to Japan for the first time that Russia had fully conceded Japan's paramount rights in southern Korea. Russia's concession thus gave to Japan practically what she was preparing to assert by force and accordingly, military activity are suspended. This suspension of military activity is regarded as removing the most dangerous aspect and as giving the hope that Japan is likely to receive Russia's answer in a conciliatory spirit.

It is not known whether Russia's concession goes to the extent of relinquishing her contention for the neutral zone across northern Korea.

A Lull.

Tokio, Jan. 9.—The meeting of the elder statesmen has been deferred for a day or two. The Russian warships which left Vladivostok recently are reported to have returned there instead of proceeding to Port Arthur as was expected.

EX-GOVERNOR FOSTER DEAD

The Ohio Statesman Succumbs to a Severe Hemorrhage From Which He Suffered This Morning.

Springfield, Ohio, Jan. 9.—Charles Foster, formerly Governor of Ohio and secretary of the treasury during President Harrison's administration, had a hemorrhage today and is reported by General Keifer to be in a very critical condition. Foster who was at the home of Keifer, was stricken with cerebral paralysis late last night.

Springfield, Ohio.—(Bulletin)—Jan. 9.—Foster died at 11:30 o'clock today. He was 76 years old and is survived by a wife and daughter.

TWENTY-FIVE DROWNED

The Steamer Clallam While in Tow of Tug Suddenly Sinks in Puget Sound.

Port Townsend, Washington, Jan. 9.—The steamer Clallam of the Puget Sound Navigation Company, sank at 1:15 this morning while in tow of the tug Holyoke at a point midway between Smith's Island and Dungeness Spit. Twenty-five of her passengers and crew were drowned. Thirty-one were saved, 24 being picked up by the tug Sea Lion and 7 by the Holyoke. The survivors are now on their way to Seattle on board the Sea Lion and should arrive about 1:30 this afternoon. The names of those who have been rescued or drowned have not yet been received.

YESTERDAY'S BEAUTIFUL SNOW

Rather an Insignificant Affair—Came From the South.

Telegraphic news to the New Mexican concerning the extent of yesterday's snow storm state that at Torrance, the terminus of the Santa Fe Central but little snow fell. There was a very cold wind from the north and the weather was disagreeable. There was a slight fall of snow at Estancia, hardly enough to cover the ground. At Albuquerque about half an inch of snow fell but south and west of that city greater snow fall is reported. North of Santa Fe at Tres Piedras and along the Denver & Rio Grande Railroad about two inches of snow fell. At Las Vegas it snowed but little last evening.

Director Hardinge of the Weather Bureau when asked by a representative of the New Mexican concerning yesterday's snow storm said:

"We can't say much about the origin and development of the storm that gave us yesterday's snow. It seems that the forecast official at Denver, from whom we get our New Mexican forecasts, was somewhat in doubt about the storm himself as his forecast for 'possibly rain or snow' indicated. This office is not in possession of the latest information, but it is probable that a low barometer came in unexpectedly from the southwest, the Gulf of California region, sometime last Thursday, and developing as it progressed to the northeast, and brought some of the Pacific's moisture with it. We have no stations, of course, farther south and west than San Diego, California, and as a storm center sometimes moves quite rapidly it could get into the section between observations, as it were, and spring a surprise on the forecaster. The average velocity of storms at this season of the year is about 34 miles an hour. By this, I mean the rate of progression of the storm center. The weather map of Thursday, the latest we have, shows that this is what probably happened. I'm afraid we did not get enough snow to do much good as far as water supply is concerned, but as far as relaxing people's nerves is concerned it will do a great deal of good. We only got thirteen hundredths of an inch of water out of it and this is likely to evaporate entirely before getting into the water supply."

NINE ARRESTS.

The Proposition to Deport All Strikers From Cripple Creek Abandoned.

Cripple Creek, Jan. 9.—Only nine arrests have been made by the military force here since Thursday when the commanding officer's vagrancy order requiring the strikers to find employment or leave the district, became effective and the union leaders have concluded that the proposition to deport all strikers has been abandoned under orders from Governor Peabody.

Four More Deported. Telluride, Jan. 9.—Four more strikers were deported today under the orders of Major Zeph. T. Hill, the military commander, making a total of 55 evicted since martial law in this district was established by the Governor six days ago.

PANIC IN ARMENIA.

A Repetition of the Horrible Massacres of the Year 1904 is Feared at Sassoun.

Constantinople, Jan. 9.—Advices from Erzerum say that the people of Sassoun are in a state of semi-panic, fearing a repetition of the events of 1894. The local governor and other officials have fled. Tewfik Pasha with several battalions of troops and six guns has arrived at Mush where the feeling of anxiety is intense. Detachments of Kurdish cavalry have been stationed at all the villages along the Russian frontier to prevent the passage of Armenian bands. A thousand armed Armenians are in the district of Sassoun.

THE BOARD OF TRADE

Well Attended Meeting Last Night—Question of Disposition of Ft. Marcy Reservation.

PAJARITO RESERVE

Report of Officers—Project of New Stone Bridge on College Street Considered.

Notwithstanding counter attractions, the monthly meeting of the Santa Fe Board of Trade, held last evening at its rooms in the Sena block, was well attended and of universal interest.

Hon. L. B. Prince presided and W. N. Townsend was secretary. After the usual routine business, B. M. Read, Esq., was elected to membership, and took his seat. Under the head of reports of officers, the president introduced the subject of the Fort Marcy Reservation, stating that on August 7, 1902, the board passed resolutions favoring the cession of the reservation by the President to the city, for school purposes. To aid in carrying this resolution into effect, he had gone to Washington when notified by Delegate Rodey and Mayor Sparks, and on December 10, called with the latter on Commissioner Richards of the general land office, to urge action on the subject. The next day Delegate Rodey called with Mayor Sparks and from then until a few days ago the mayor had remained in Washington laboring to have the property ceded to the city by the President. He alluded to the previous visits of Major Muller and Mayor Sparks to Washington in June, when President Roosevelt was personally interested, in order to overcome the opposition of Secretary Hitchcock.

Mayor Sparks then made an interesting statement of the work in Washington, and explained that although all opposition had disappeared at the time of the hearing before the secretary of the interior on December 30, and the order was then made for the cession; yet some little time was required for the preparation of the President's proclamation, its signature and record in Washington, and for its transmission through the regular channels to the officials of the land office here, who would present it to the city authorities; so that it had not yet been received, though it might be expected any day.

The positive information that the matter was settled favorably was received with great pleasure by the board and many congratulatory remarks were made. A resolution had been prepared, expressive of gratification and embodying the views of the board as to the desirability of immediate action; but at the suggestion of Mayor Sparks, that it would be well to wait until the President's proclamation was actually received, this was reserved for the present. On motion of Professor Wood seconded by Mr. Schumann, the president of the board was requested to call a special meeting as soon as the document was received.

Judge Morrison brought up the subject of the cutting up of Palace Avenue by the penitentiary wagons and wished for some action to prevent this.

Mr. Sena explained what was being done by the city council on the subject, which was satisfactory to the board, which hoped for good results from the efforts being made.

Mr. Sena from the committee on roads and bridges reported the action taken as to the construction of a new bridge on College Street where it is much needed.

President Prince introduced the subject of the National Cliff Dwellers' Park, and the advantage to Santa Fe of the thousands of tourists which would be drawn thither by the establishment, and suggested the following resolution, which on motion of Major Palen, seconded by Mr. Staab, was unanimously adopted: Resolved, That the Santa Fe Board of Trade approve the project of establishing a National Park to include the Cliff Dwellings in the vicinity of Espanola, as embodied in the bill introduced in Congress by Judge Lacey of Iowa, and requests Delegate Rodey to aid in the passage of that bill; and furthermore that the board objects to the formation of an Indian reservation which will include any of the interesting ruins in that section of the Territory.

RATIFY THE TREATY.

The President's message on the Panama Canal treaty in which he explicitly denies the charge that the administration was in any way responsible for the revolution in Panama, the presentation to the Congress of all the diplomatic correspondence and instructions to naval officers on that question, has placed Senators Hoar, Gorman, Tillman and their followers in a very awkward dilemma. Mr. Gorman has been able to hold the opposition forces together on the plea that the responsibility of the administration for the revolt at the Isthmus must be investigated before the United States should take advantage of the results of that revolt. It is well known that Mr. Gorman has placed his party in its present unenviable position against the advice of many prominent Democrats who are earnestly in favor of the speedy construction of the canal. All his vague innuendoes and quibbling questions will avail him nothing now in presence of the President's explicit denials supported as they are by the official correspondence. In a recent debate Senator Foraker expressed the belief that the Democrats would not be able to further and fault with the treaty, but that they would be forced to cease their criticisms and support the treaty or be held accountable by the country.

"If the Democrats desire to make an issue of Panama," said Senator Foraker, "we will be glad to meet them."

That statement voices the belief of Republican Senators generally.

The usually very glib Mr. Gorman had nothing to say in reply and so the matter stands. He and his party are accustomed to being on the wrong side of every question and could not be expected to acknowledge their error on such short notice. But why does not the Republican majority in the Senate brush aside those impracticables and ratify the treaty, Republican Senators are responsible for the delay. It has reached a point where "patience ceases to be a virtue," and the people north, and south, demand immediate and friendly action. Ratify the treaty and let the great work proceed at once.

THIS IMPORTANT QUESTION SHOULD BE SETTLED PROMPTLY.

A question of much importance is the one of fees for the collection of liquor and gaming licenses. It seems that the law is ambiguous and at present in some of the counties the sheriff who collects these licenses takes four per cent for doing so; the collector takes four per cent for receiving the fees and the assessor takes four per cent and fifty cents for each license in assessing. In other counties only the sheriff and the collector receive fees of four per cent each; in others again only the sheriff is paid a fee of four per cent. Of course, there can be no question that the charge of twelve per cent for the issuing of these licenses and for their collection is abnormally high and indeed ridiculous. A test case should be brought by the authorities and this vexatious question should be speedily decided. Why not bring such a case by agreement in the District Court of either Santa Fe or Bernalillo, get a decision and pass it up to the Supreme Court at its present session for immediate hearing and disposition. The matter is of the gravest importance to the people and should be promptly attended to, as it is, the most sacred fund of all, the public school fund is suffering, and certainly the good of the commonwealth demands that a stop be put to this as speedily as possible.

Colonel George W. Fritchard of White Oaks is being mentioned for selection as a delegate to the National Republican Convention from the Fifth Judicial District and Lincoln County; D. J. Leahy of Raton is being talked of in his section for the same position, and W. H. Newcomb of Silver City has friends in his part of the Territory, working to secure him such an honor. There will evidently be no lack of candidates and this is as it should be.

APPLICABLE TO NEW MEXICO.

Senator Platt of New York at a dinner at the Shoreham Hotel at Washington, this week, sounded a warning note to the Republican party. He intimated that political lethargy in this, the presidential year, might bring disaster. Among other things he said:

"There is neither factional nor personal disturbance in the New York delegation to embarrass or impede its work. The signs of the approach of a great political year are already numerous, and some of them indicate the return of the Democratic party to a sane and dangerous condition. Fortunately, we are already assured of courageous, intelligent and popular leadership. The government under President Roosevelt, has been strong and wise, but it often happens in politics that a political party which has had a long lease of power is never so much in danger as when nobody has anything in particular to complain of, for it is then that many people vote, not with regard to a great political principle, but with regard to trivial events. We shall need, therefore, throughout the coming campaign to keep constantly before the people the often proved incapacity of the Democratic party to conduct public affairs and the menace to business which proceeds from its very constitution."

These words apply with peculiar fitness to the New Mexico situation. The party in the Territory must not only get together but be energetic. While Republican victory in New Mexico in November is reasonably assured, yet it is certain only with a united front and an energetic campaign backed by the Republican press of the Territory.

MEETING OF REPUBLICAN TERRITORIAL COMMITTEE.

Chairman F. A. Hubbell of the Republican Territorial Central Committee did right in calling the committee together for January 30, for the purpose of fixing the date, place and representative for the holding of the Republican Territorial Convention to select six delegates and six alternates to represent this Territory at the National Republican Convention to be held in Chicago next June. When the committee meets, the New Mexican hopes for the good of the Republican party and of the people, that an early date will be fixed for the holding of this convention. As to place the New Mexican is not very particular. The apportionment of one delegate for each 150 Republican votes cast for B. S. Rodey, Republican candidate for delegate to Congress from New Mexico in 1902 would be but fair and right, although there is a difference of opinion among the members of the committee upon this point; some of them hold that the apportionment of one delegate for every 200 votes cast would be better and more economical; while others think that the larger the representation the better and that one delegate for each 100 votes would be best. The question, however, is not material and will no doubt be settled at the meeting of the committee in this city January 30. This paper urges every member to attend.

Labor troubles are threatening the Colorado beet sugar factories and the Denver Times says that the factories may close down because the farmers insist upon \$5.50 to \$6 per ton for beets while the factories are willing to pay only \$5 a ton. Any higher price, it is asserted, would take the profit out of the beet sugar manufacturing. Last year, only \$4.50 per ton was paid farmers, but this year the price was advanced to \$5. Nevertheless, the farmers are not satisfied and demand a still higher price. The solution would be for the factories to raise their own beets. Such a proposition would certainly be a success in the Santa Fe and Espanola Valleys where beet sugar lands and water rights could be bought at very low figures, the other conditions for a beet sugar factory being ideal and far more advantageous than in Colorado.

The Carnegie Institute will this year devote a large portion of its funds to researches in the southwest, especially along ethnological lines. Particular attention will be paid to the work of obtaining evidence relative to the early history of man in this country and for research among the Indian tribes. The cliff ruins so near to Santa Fe will receive their just share of attention and undoubtedly great results will be accomplished. This work is being done in the nick of time, for in a few more years vandals and relic hunters will have despoiled New Mexico ruins of much of their value, unless the government establishes the proposed Pajarito Cliff Dweller's Park and takes strenuous measures to preserve the most interesting ruins and remains on the American continent.

This is the time of the year that the great white plague demands its greatest number of victims in the more humid sections of this country. Fortunately, the fame of New Mexico's climate as a consumption cure and preventative, is being spread more and more and hundreds come to the Territory every month to escape the rigors of the eastern and northern winters and springs. Nor is the day far distant when instead of hundreds there will be thousands and tens of thousands who will seek this climate in good time to be cured of the dread malady. And New Mexico has room and a welcome for them all.

Santa Fe may congratulate itself upon the fact that it is not likely to have an Iroquois theater catastrophe within the next year or two. Still a good sized, modern opera house, even if it did not have every fire saving appliance, would be quite well patronized by Santa Fe people.

Time seems most untimely when he brings a woman to the turn of life. Life is or should be at its ripest and best for her, and she approaches this change with a dread of its effect born of her knowledge of the sufferings of other women in this season.

There is not the slightest cause for fear or anxiety at this period if Dr. Pierce's Favorite Prescription is used. It gives health of body and cheerfulness of mind, and by its aid the pains and pangs of this critical period are prevented or cured.

Dr. Pierce's Favorite Prescription is woman's medicine with a wonderful record of cures of womanly diseases. Diseases that all other medicines had failed to cure, have been perfectly and permanently cured by the use of "Favorite Prescription."

"I feel it my duty to write you as I have received so much benefit from the use of your medicine," says Mrs. Lizzie A. Bowman, of New Matamoras, Washington Co., Ohio. "I have taken four bottles of 'Favorite Prescription' for female weakness and change of life. Before I began taking it I could not do anything. I had such pains in my head and in the back of my neck that I thought I would lose my mind. Now I can work every day. I recommend 'Favorite Prescription' to all females suffering in the period of change of life. It is the best medicine I have found."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Keep the bowels healthy by the timely use of Dr. Pierce's Pleasant Pellets.

With assays of 6,000 ounces of gold to the ton, it does not look as if Gold Gulch, Grant County, had yet seen its best days.

With 20 new disciples of Blackstone being admitted to the bar at one session of the Supreme Court it does seem that the law business at least is remunerative in the Territory.

It does not hurt New Mexico a bit to have the big papers of the country discussing the statehood question again. It is good advertising, even if it does not result in anything more tangible.

The lots in what is known as the Fort Marcy Military Reservation not needed for the purpose of erecting school buildings thereon should be sold and the proceeds used for the construction of these buildings. This is the best and shortest way to benefit the city school system.

The Japanese are a patriotic people. As a case in point, 150 Japanese section hands employed at Cheyenne, Wyoming, are getting ready to return to the Land of the Chrysanthemum in order to fight against the Russians. The Great White Bear will have quite a job on hand to conquer a people imbued with that kind of a spirit.

The territorial board of health should look after the reported cases of smallpox around Elk in southwestern Chaves and eastern Otero counties. If newspaper report is true, no caution is taken at all to prevent the spread of the disease. New Mexico has enough to contend with without letting it get abroad that small pox cases are not even quarantined in this Territory.

When the public school term begins next September, Santa Fe should have modern, sanitary school buildings for its 1,500 children of school age. However, this can only be accomplished by a speedy sale of the Fort Marcy Military Reservation, so that the funds as well as the site may be available for the much needed and much demanded public school houses.

The determination of the people of Old Albuquerque not to incorporate a separate town is in the right direction. In the first place they need no town government as yet, and in the second place when the proper time arrives arrangements can be made for incorporation with the limits of the city of Albuquerque. This move, however, is not yet on the tapis and it is too early for its discussion. In years to come there will be plenty of time for it.

In 1883 there were \$1,024,000,000 in the savings bank of the country, today there are \$3,000,000,000 in the same institutions; in 1883 there were 2,876,000 depositors, today there are 7,400,000 depositors. In 1883 there were in circulation in the United States \$1,320,000,000; today the circulation amounts to \$2,450,000,000. A study of these figures will give some idea of not only the marvelous growth of this nation but also of the prosperity which exists in general.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb.

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time.

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

MEN OF THE HOUR IN NEW MEXICO

A. P. JACKSON. Wholesale Lumber Dealer, Alamogordo, New Mexico.

One of the most active agents in promoting the spirit of enterprise which in the past few years has given new impetus and vast development to the lumber industry of New Mexico, is A. P. Jackson of Alamogordo, New Mexico.

He is one of the pioneers of Alamogordo and settled in that town before the arrival of the railroad, contributing in every possible way towards its advancement, and bringing its advantages to the notice of influential men who seek good investments.

Mr. Jackson is a native of Denton County, Texas. His childhood was spent in that state and enabled him to know frontier life in all its dangers and hardships. He was educated at the Denton High School and then moved to Colorado where he resided two years. Afterwards he returned to Texas, locating at Krum, where he established a wholesale grain and a retail lumber business, in which enterprise he was very successful.

After six years residence at Krum, Mr. Jackson was impressed with the advantages offered by the Sacramento Mountains and to this point he directed his industry and ability. When the El Paso & Northeastern Railroad was completed to Alamogordo, he had ten cars of lumber on the first train to be unloaded. He established the Jackson-Galbraith Company, which now owns the largest lumber business in the Territory. Its yards are stocked with lumber of all kinds, and here can be found everything required in building.

In fact it was through the business ability of Mr. Jackson that material of this character was obtained in the early days at Alamogordo, and to a great extent, owing to his efforts the building of residences in the new town made rapid progress.

The Jackson-Galbraith Company has lumber yards at the following points: Alamogordo, Capitan, Santa Rosa, Estancia, and Logan, New Mexico; Stratford, Dalhart and Channing, Texas; and Texahoma, Oklahoma.

Although Mr. Jackson resides at Alamogordo and takes very active interest in the development of the resources of Alamogordo and Otero County, he still does business in Texas and Oklahoma.

In 1893 he was married to Miss Rue Park. He is an elder in the Presbyterian Church. He is a member of the Masonic fraternity, and also of the Woodmen of the World and the order of the Knights of Pythias. Personally, he is gentlemanly and unassuming, and is considered one of the most influential and enterprising citizens of Alamogordo and Otero County.

The Jackson-Galbraith Lumber Company, of which Mr. Jackson is the president, has also a mill and yards at the Santa Fe Central town of Estancia, and in addition to being able to ship every foot of lumber that can be cut and dressed, which adds materially to the amount of freight handled by the Santa Fe Central, the firm is also furnishing much of the rough and dressed lumber that is used in house building in the "Magic City" of the Estancia plains.

Dislocated Her Shoulder.

Mrs. Johanna Soderholm, of Fergus Falls, Minn., fell and dislocated her shoulder. She had a surgeon get it back in place as soon as possible, but it was quite sore and pained her very much. Her son mentioned that he had seen Chamberlain's Pain Balm advertised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to others. For sale by all druggists.

Sealship oysters fill all the requirements of the "Pure Food" laws. They contain no preservative or other preservative. They do not come in contact with the ice or water. Beware of ice water oysters. They do not compare in taste, purity or economy with the genuine sealship.

CRYSTAL WHITE.

Our trade on Crystal White Soap is steadily growing. It is the only 10 oz. bar of pure white soap, sold for 5c. Easier for the user; easier for the clothes than the common laundry soaps. Contains borax. Borax does not injure fabrics, but does cleanse the clothing. Also widely used as a bath and general kitchen soap.

IMPERIAL PATENT.

We still maintain our remarkably low price on Imperial flour. We want every one to use Imperial flour, for twenty years the standard.

Feed, flour and potatoes of the best quality and at lowest market price.

FRESH EGGS.

There is as much difference between our eggs and the ordinary sort usually sold as there is between Meadow Gold butter and the common sorts. We pay the top price for butter and eggs, and we believe we get our money's worth. Our profit is not as large on individual sales but we believe the fact that all who really appreciate good butter and eggs are likely to come to us gives us sufficient added sales to compensate us.

Albuquerque Citizen.
District Clerk A. M. Bergere, Hon. C. F. Easley, Julius Staab, Esq., and Frank Dibert, left last evening for Mountainair, Valencia County, on legal business. The question of title to lands near Estancia, settled upon by a squatter, is involved and the case will be heard before a justice of the peace at Mountainair, upon change of venue from Estancia.

A Washington correspondent in describing the New Year's reception at the White House mentions especially the presence of Mrs. Otero as one of the receiving party. He says: "Among the hundred or more ladies invited to assist in the grand reception, called from the Atlantic to the Pacific and the lakes to the Gulf, Mrs. M. A. Otero, wife of Governor Otero of New Mexico, was the only lady from the Territory and was promptly on time in the blue room and was one of the lively members of the group of Miss Alice Roosevelt, Mrs. George Dewey, Mrs. Leonard Wood and many others. Your correspondent, while near the receiving line, at the White House, heard several ladies and misses point out Mrs. M. A. Otero as Miss Alice Roosevelt. Several prominent army officers on meeting Governor Otero at other receptions, congratulated him upon his lively, jovial and agreeable daughter who was assisting Mrs. Cortelyou in receiving. While Governor Otero enjoyed the compliment, he promptly informed them that it was his wife, not daughter. Mrs. M. A. Otero was attired in a handsome imported gown of blue crepe de chene. An hour before time of closing of the White House reception, Mrs. M. A. Otero excused herself and left to join Mrs. Cortelyou, where she was specially invited to assist in Mrs. Cortelyou's first reception since her husband became a member of the cabinet."

Kendall, trustee, he will on the 20th day of this month authorize the said trustee to sell the stock of goods of the said bankrupt, at private sale, unless a majority of the creditors make objection to this. The trustee believes that he can obtain a better price for the goods by this means than if they were sold at public auction.

Gray's Opera House was filled to overflowing last night, the occasion being the first performance of Mahara's Minstrels in the city. The show was well received by the town people, the majority of the performers being enthusiastically endorsed. A scurrying of feet and smoke emanating from behind the scenes nearly created a panic in the audience and several started to leave. Inspired no doubt, by the remembrance of the recent fire in the Iroquois theater at Chicago. It was caused by an overturned lamp, and did no damage except frightening a few present. The usual jokes about the Santa Fe girls and Santa Fe policemen were perpetrated, and others more modern which kept the crowd in good humor. The singing and dancing was especially strengthened the case. Of the specialty features the hoop juggling by English was by far the best. His work was really clever. From the expressions of the audience the performance was very satisfactory.

SUNSHINE OF NEW MEXICO

W. N. Wallace of Farmington Restored to Complete Health by this Climate, Talks Vividly in Chicago.

NAVAHO AND CUSTOMS

Good Advice to Those Suffering From Consumption.

W. N. Wallace of Farmington, San Juan County, was interviewed by Chicago reporters during his recent visit to the Windy City. The account he gave of the Navahos and the benefits of New Mexico climate to consumptives was so vivid that his interview was reproduced by the leading eastern papers and by the St. Louis Globe-Democrat. Among other things, Mr. Wallace said:

"These high buildings may be all right, but I would sooner have the sunshine of New Mexico. I make my headquarters at Farmington, New Mexico, but I am rarely there. I am on the reservation among the Indians most of the time. No, I never tire of them. I know their language, their habits, and they trust me absolutely."

"When I came to Durango 20 years ago I was suffering from lung trouble, and I couldn't walk a block. I had been in the drug business and was about used up. I made the acquaintance of some of the Navahos, and they induced me to go and live with them. I did, and I don't want to live anywhere now but in that country. Yes, I have known all the big chiefs. Manuelito the old chief who died about eight years ago, was one of the greatest men I ever met. He was one of the best friends I ever had, and I could never express my gratitude to him fully."

Saved His Life.

"He saved my life once when it looked as though I didn't have a bare chance to live. I got into an altercation with an Indian one day a few years before the chief died and would have been stabbed to death but for his timely interference. His name in the Indian language was Tah Hahn Ah Badana. Rather high-sounding, isn't it? Well, he deserved to have a good name, as he was the salt of the earth. If he had been a white man, he would have been considered a great orator. One night I heard him address 1,000 braves at a fire dance. It was 3 o'clock in the morning, so you can imagine how impressive it all was. He exhorted them to abandon the warpath and give themselves up to peaceful pursuits. He said the white man meant them no harm and that they could gain nothing by stirring up trouble. He said they fought the government once and found that the enemy proved too great to cope with successfully. It was a great speech. I have heard no white man give a more eloquent address."

"These bracelets and rings? Yes, I have quite a number of them, but I won't leave them for the world. They all have some story. I have been presented with several of the trinkets because I gave the Indians some medicine that saved the lives of some members of their tribe. I remember making one home glad by getting some medicine for the daughter of an old chief that saved her life."

Still Wears Blankets.

"The Navaho Indian is still a 'blanket' Indian. He will not wear the trousers of the white man, and he still lives in a primitive way. There are 20,000 of them on the reservation, and they are entering upon the winter with more corn than they ever had before. They are thrifty, and I imagine they will always have plenty."

"The Navaho is more curious than any woman I ever met in my life. When I get back there they will besiege me with questions about my trip. I will have to go into all the details and tell them about everything. They are greatly interested in our people. They will probably learn all our arts in time. They are apt pupils. I don't know how they learned the art of silversmithing, but they certainly have the business down fine. All these trinkets that I have on were made on the reservation by Navaho silversmiths."

"One word I want to say before you go. I want to tell every sufferer from lung trouble to stop toasting his feet around here and go out in the country, where he can get fresh air and lots of sunshine. That's how I got my health back."

PLEASANT AND MOST EFFECTIVE.

T. J. Chambers, Ed. Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasant remedy for coughs and colds I have ever used." 25c, 50c, and \$1. Sold by Fischer Drug Co.

A VERY CLOSE CALL.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." THE CHANGE OF A LIFETIME

For Prospective Purchasers of Building Lots in Estancia

Estancia has GOOD WATER, SOFT WATER, PURE WATER, RAILROAD WATER, CLEAR WATER and PLENTY of WATER

RUSSEL SAGE'S ADVICE,
"Young man, Buy Real Estate,"
Will soon rank with Horace Greeley's aphorism,
"YOUNG MAN GO WEST!"

"If you are going to do a good thing, do it in the best way," is another maxim of which you will appreciate the force if you will either call on or communicate with W. P. CLARKE BEFORE BUYING TOWN LOTS ELSEWHERE.

BE WISE.
Put your money into land—Own a Town Lot and Home.
Do like your fathers did—buy good property in a live town, and your children will rise up and call you blessed.
It is entirely safe to presume that within a very short time the town of ESTANCIA will be one of the liveliest, largest and most substantial towns in this section of the southwest.
Be sure and write for all information desired at once. THE PRICE OF THESE LOTS WILL INTEREST YOU.

TERMS TO SUIT.
Address all communications to
W. P. CLARKE,
SANTA FE, NEW MEXICO.

Over a million acres of land open for Homesteaders in the ESTANCIA VALLEY—good soil and plenty of water, which can be had from eight to thirty feet.

TERRITORIAL TOPICS.

LINCOLN COUNTY.
Mrs. Ora Grissum, wife of James Grissum, died at Hondo. She was aged 24 years. She is survived by her husband to whom she was married eight years ago, and two children.

SIERRA COUNTY.
One death from the measles last week is reported from Hillsboro.

James McVey has a crippled horse, the result of the good marksmanship of a boy who was manipulating a 22 caliber rifle that Santa Claus had brought him.

The following Sierra County cases were disposed of at Luna County court: The Territory vs. C. H. Sikes, charged with cattle stealing. He was acquitted.

OTERO COUNTY.
Rev. C. R. Taylor and Miss Estelle Edmonson were married at Alamogordo at the Baptist Church, last week. The couple left on a wedding trip to Houston, Texas. On the way to church, the team of the bridal carriage ran away and threw the carriage from a bridge into an arroyo. Fortunately, neither bride nor groom were hurt.

At the First Methodist Church at El Paso, Miss Charlotte Peck of Cloudcroft, was married to George Cellum of El Paso. Rev. W. J. Calfee officiated.

Smallpox exists in eastern Otero County and across the line, at Elk, Chaves County. It seems a very light outbreak but no precautions are being taken to prevent its spread.

Two more freight crews have been put on at Alamogordo on the El Paso & Northeastern Railway. This makes eighteen freight crews at work on the main line exclusive of the Captain branch and Sacramento Mountain line. There are 53 engines on the road and the business is the best since it was built.

FOUL MURDER AT CERRO.

A Professional Gambler is Killed for His Money and the Murderer Escapes.

From Tres Piedras comes the news of the murder of Dolores Sanches of Costilla, Taos County. The foul deed was committed at Cerro on December 22. Antonio M. Sanchez, a 20 year old boy, is accused of the murder. The head of Sanches was nearly severed from his body by the blow of an axe. Sanches, who was a professional gambler, arrived in Cerro the night before the tragedy. He had about \$30 on his person. At about 3 o'clock in the morning young Archuleta took Sanches home with him. The same morning the body of Sanches was found in a well on the place of Meliton Vigil, near Archuleta's home. An investigation disclosed that the pillows and covers on Archuleta's bed were soaked with blood and that the walls of the room had been freshly whitewashed in an effort to cover up the splashes of blood. Archuleta's whereabouts are unknown and it is charged that his father assisted him to escape and probably helped in the murder as young Archuleta weighs only 110 pounds and Sanches was a man who weighed 160 pounds. Archuleta's mother is said to have whitewashed the room to hide the blood spots. No effort has been made as yet to apprehend the murderer. The body of Sanches had been horribly mutilated the axe having been sunk into his skull several times.

RENTS ENGINES FROM THE SANTA FE CENTRAL

The El Paso & Northeastern Reports Phenomenal Increase in Business.

The El Paso & Northeastern Railway in order to handle its freight traffic that is growing at an unprecedented rate has rented five new engines from the Santa Fe Central Railway Company. These are new engines that have never been in service, are equipped with electric headlights and all modern appliances, are of the best type of locomotives that have ever come to the southwest. The El Paso & Northeastern has also rented five Mogul freight engines from the Chicago Rock Island and Pacific Railway Company. The former company has been compelled to increase its mechanical as well as clerical force lately in order to cope with its increasing business.

FAIR EXCHANGE.

A New Back for an Old One.—How it is Done in Santa Fe.

The "back question" is one that interests everybody, old and young. Few indeed are they whose back has never had an ache or pain. "Old backs" and "young backs" are more than often "bad backs." Sometimes they ache with that dull burdensome feeling which make you weary and listless, then they have pains shooting across the region of the kidneys; then again the back is lame, oftentimes so lame that to stoop is agony. No use plastering or rubbing a back in this condition, you can't reach the cause. It comes from the kidneys. If you would change the bad back for a new and stronger one, follow the example of a Santa Fe citizen, who tells you how in the following words:

Thomas Quintana of San Miguel, N. M., says: "When I noticed Doan's Kidney Pills advertised in a Santa Fe paper, I came to the conclusion that they would be just the treatment required by Mrs. Quintana. She suffered from backache I cannot tell for how long, but very often she was unable to do the slightest housework. More than once I have seen her scarcely able to move about the house. With the intention of testing the remedy thoroughly, I went to Ireland's Pharmacy for a box of Doan's Kidney Pills and she commenced the treatment. She took a second box and then a third when the last attack of backache stopped and for eight months she has had complete immunity from pain. Something novel in her existence."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

All said and done, it pays to buy once for all a dependable wagon.

STUDEBAKER WAGONS

STATEHOOD MEASURES

(Continued from Page One.) statehood for the territories, it may again need a resolution in the Senate, supported by the majority that is there and willing to vote for statehood, to bring the bills out of committee.

"There is some speculation going on as to the political complexion of the territories in question. The fact that a few Republican electoral votes from these new states might come in handy to decide the next election for President, should it be close, is liable to favorably influence certain administration Senators who are at present opposed to admittance."
