PROTOCOL PROVIDING FOR CONDITIONAL WITHDRAWAL OF PERSHING'S FORCES, IS SIGNED BY COMMISSIONERS

PROVISION FOR AMERICANS TO CROSS BORDER LIKELY TO BE FLATLY REJECTED

Conference Which Has Been in Session Since September 2, Is Ended Temporarily, and One Representative of First Chief Starts With Document to Mexico City. Where It Probably Will Be Disapproved by Carranza; United States Firmly Refuses Limitation Upon Right to Pursue Bandits Below Border When and Where It May Be Deemed Necessary; Lane Issues Statement Declaring Mexico Is Going to Have Orderly Government With or Without U. S. Help.

(By Morning Journal Special Leased Wire)

Atlantic City, N. J., Nov. 24.—A

protocol providing for the conditional withdrawal of the American troops now in Chihuahua, Mexico, and for the military control of the border, but with the supplemental stipulation that United States troops shall be sent into Mexico in pursuit of bandits at any time the American government deems it necessary, was signed here today by the members of the Mexican-American joint commission.

One of the official copies was taken by J. Albert Paul of the Mexican commission, who left here tonight for New York, whence he will start Monday for Mexico to submit it to Gen. Venustiano Carranza for his approval. The other copy will be delivered to the American government by the secretary of the Interior, F. Lane, chairman of the American commission, who left here late today for Washington.

Further Conference December 8. If the protocol is ratified by the two governments, the commission will reconvene December 8, to resume the discussion of other questions affecting the two countries, especially those relating to the protection of the life and property of Americans and other foreigners in Mexico. If ratification by either government is withheld, the work of the conference will be declared at an end.

When the adjourned sessions of the commission will be held was not determined when the conference was finished. The question was left to Secretary of State Lansing and Ambassador Duggan to decide. Following is a paraphrase of the agreement to which the final signature was affixed at 3:42 o'clock this afternoon.

Paraphrase of Agreement.
"First—The American troops, now in Chihuahua, shall be withdrawn within forty days from the approval of the protocol by the respective governments, provided that within that time the conditions in that part of Mexico have not become such as to endanger the American border. In such event, the time shall be extended.

"Second—The American army shall patrol the American side of the border and the Mexican army the Mexican side, but this shall not preclude co-operation between the two forces to preserve peace upon the border.

"Third—It shall be left to the commanding officers of the armies on the border of both nations, to enter into such arrangements for co-operation in operations against bandits, whenever it is possible.

To Send Troops Across Border.
The right of the American government to send troops across the border in pursuit of bandits was not incorporated in the protocol, but was made the subject of a supplemental memorandum. The Mexicans had contented themselves against signing any agreement in which they appeared to surrender their national territory. It was the element of the Americans finally to limit themselves with signing the limits of the United States in a separate memorandum that induced the Mexicans to sign the agreement.

It became known today that the request of the Mexicans for a delay was made several days ago. It was decided to submit to General Carranza all the facts in the case and to obtain from him advice as to the course they should take. The American commission, however, contending that further delay was inadvisable, yesterday the instance of the Mexican request in a consideration of the suggestion, and today the discussion was continued.

BELGIAN LABOR PROBLEM TAKEN UP WITH GERMANY

(By Morning Journal Special Leased Wire)

Berlin, Nov. 24.—(Via London, Nov. 24.)—Secretary Joseph C. Grew of the United States embassy, had an hour's interview yesterday afternoon with Chancellor von Bethmann-Hollweg regarding the Belgian labor problem. He laid before the chancellor, informally and unofficially, suggestions for a certain amelioration of the compulsory employment of Belgian workmen as concessions in the Belgian national feelings and neutral public opinion.

The Spanish ambassador, as the official representative of Belgium interests, also conferred with the chancellor on the same subject.

ALABAMA GUARDSMEN ON PRACTICE HIKE

(By Morning Journal Special Leased Wire)

Tucson, Ariz., Nov. 24.—Eight hundred and fifty men of the Fourth Alabama infantry will arrive in Tucson this afternoon on a practice hike from Nogales. They have been on the march three days and will remain here until Monday.

A public drill will be given tomorrow. No man fell out of line on the trip from Nogales.

GIRLS ARE SENT HOME; STOCKINGS NOT NICE

(By Morning Journal Special Leased Wire)

Denver, Nov. 24.—Sixteen girls, students of North Denver high school, were sent home today because of the stockings they wore. Because the stockings were of various bright colors and had garters, they were called to the attention of the principal. His attention was called to the fact when a group of boys congregated in the corridor where the young women passed.

Students declared the girls were celebrating "dark sock day" said to be a school custom.

WAY CLEARED FOR BRINGING SUIT ON 8-HOUR LAW

Case Which Goes to Supreme Court Is One Decided by Judge Hook Who Held Act Unconstitutional.

(By Morning Journal Special Leased Wire)

St. Louis, Mo., Nov. 24.—All preliminary objections to a motion by the supreme court of the United States in the Adams case were waived out today. The only possible hitch in the proceedings now lies in the question whether the court will advance the case and render a decision by January 1, when the law is scheduled to go into effect.

The case of the Atchison, Topeka and Santa Fe and of other railroads which had applied to Judge Pollock in the United States district court at Kansas City, Kan., were by agreement, postponed until after a decision by the supreme court and announcement was made by the attorney general in Adams' law cases, and Walker D. Hines, chairman of the committee of railroad counsel, said similar postponements would be requested in all courts of the country where injunction suits have been filed.

The case which goes to the upper tribunal is that of the Missouri, Oklahoma and Gulf, hurriedly heard Wednesday by Judge Hook who held that the act was unconstitutional. The appeal was immediately taken.

AUSTRO-GERMANS MOVE STEADILY FORWARD BEATING DOWN RESISTANCE

Little Wallachia Is Completely Conquered, and Next Big Battle Is Expected in Alt Valley.

RUSSIAN OFFENSIVE BEGINS IN DOBRUJA

Both East and West of Mostastr Allies Are Pressing Bulgarians Hard; Berlin Reports Repulse.

(By Morning Journal Special Leased Wire)

Forces of the central powers are driving on Bucharest from three directions. To the east the troops of General von Falkenhayn have reached the Alt river; to the north the Germans and Austro-Hungarians are pressing southward, and somewhere along the Danube the forces of Field Marshal von Mackensen are crossing the river.

Western Wallachia apparently is in the hands of the Teutonic allies. Some Rumanians remain in the rear around Orsova, but that town, as well as Turn-Severin, has been occupied by the Teutonic troops.

Violent fighting in Dobruja. In Dobruja, Bucharest says that an attempt by the Germans to cross the Danube at Sinitza, seventy miles southwest of Bucharest, failed. Fighting has been reported in the region of Silistria, and it may be that the German crossings of the river were made between the Chernavoda and Giurgiu.

The Russians and Rumanians have taken the offensive in Dobruja north of the Chernavoda-Constanza railway, Bucharest and Petrograd assert. The Rumanians advanced on the whole front and occupied five towns fifteen miles north of the railway line. The Russians progressed to twelve miles north of the railway. Berlin declares the Russian offensive in Dobruja was thrown back.

Germans Put to Flight.
Serbian troops have occupied Rapatch, east of Mostar, North of Schabud, the Serbians put a German force to flight.

There has been no important infantry activity in France. Artillery bombardments by both sides north and south of the Somme have increased.

In the eastern and Austro-Italian theaters there has been little activity. In Armenia, Constantinople says the Turkish troops have advanced their right wing twenty miles against the Russians.

FRENCH OFFICIAL REPORT OF MINOR ENGAGEMENTS

Paris, Nov. 24.—Today's official statement follows:
"On the Somme front there has been a fairly spirited bombardment in the region about Sailly Sailland, and at the sugar works of Ablancourt. In Alsace a surprise attack delivered by us upon a German trench at Litzendorf, to the southeast of Metz, resulted in our bringing back some prisoners. We sustained no losses.

"The night passed quietly elsewhere along the front.

"During the day of November 23 in Lorraine three British aeroplanes engaged several German machines in combat. One enemy aeroplane was brought down in the forest of Gremercy. During the same day on the Somme front French aviators delivered no less than forty aerial attacks in the course of which five enemy machines were brought to the ground.

"It has been confirmed that during the day of November 22 Lieutenant George Guesmery brought down two enemy aeroplanes in the region of Faviy. This brings to twenty-three the number of machines brought to earth by this pilot.

"Six of our aeroplanes have thrown down fifteen shells of 120 millimeters upon the town of Bruyeres. Another unit of our squadrons has bombarded the aviation ground at Griseville. A total of 171 shells of 120 millimeters were dropped at this point. During the night of November 22-23 four French aviators bombarded the blast furnaces and factories at Voelkeningen on the River Serris. Our aviators returned without accident."

Ticker Agent Badly Wounded.

Muskogee, Okla., Nov. 25.—Commanded to "put up your hands and do it quick," Audrey Lane, ticker agent at Pryor, Okla. near here, reached for his pistol instead, and was shot early today by a robber in the Missouri, Kansas and Texas railway station at Pryor. Lane is believed to be wounded fatally. The bandit fled after the shooting, in an aroused countryside in pursuit. He obtained a small amount of money.

Archbold Operated On.

New York, Nov. 24.—John D. Archbold, president of the Standard Oil company of New Jersey, was operated upon for appendicitis at his home last night. It was learned today that the operation was declared today to be successful.

UNLESS GERMANY STOPS DEPORTING BELGIANS FOOD MAY BE STOPPED

United States Undertakes Delicate Mission for Alleviation of Cruelties Imposed by Berlin.

DEPORTATIONS LIKELY TO BE CONTINUED

If Berlin Refuses American Request, as Is Expected, Consequences Cannot Now Be Predicted.

(By Morning Journal Special Leased Wire)

Washington, Nov. 24.—Another appeal from the Belgian government for American influence against the deportation of Belgians to work in Germany, was handed to the state department today by Minister Haventhut. It was in the form of an instruction to the minister, declaring the situation was becoming more terrible every day, and directing him to beg the secretary of state to urge the German government to consider the consequences of the crimes against humanity committed in their name.

Denial by Germany.
Charge Grew of the American embassy at Berlin already is making informal representations at the foreign office in behalf of the Belgians. He has not made a formal report of the German government's attitude, but it was learned today that sufficient information had come through unofficial channels to make it evident that Germany will deny that Belgians are being forced to work in munitions plants and contend that their deportation for employment largely on farms is a necessary military measure within the spirit of international law concerning the treatment of the populations of conquered territory.

Underlining Delicate One.
The fact that enforced Belgian labor has operated to relieve for military duty many thousands of Germans, was among the statements laid before the German foreign office by Mr. Grew, but this was done only on the basis of the formal complaints from the Belgian officials which he was instructed to submit. The underlining is of a peculiarly delicate nature. Mr. Grew not being the accredited representative of Belgium at Berlin, and his services as an intermediary being entirely by sufferance of the German government, he was simply authorized to submit the Belgian allegations, supplemented by a general statement of the painful impression produced by them upon neutral governments, and was not expected to challenge any statement of facts from the German side, nor to enter into any argument.

It cannot be learned that the state department has as yet decided upon a line of action in the event that the German reply is as unfavorable as is expected to be. No effort is made by the officials to conceal their deep concern over the situation, however, especially in view of the broad implications yesterday by Lord Robert Cecil in England that persistence by the Germans in their treatment of the Belgians might cause the collapse of the entire Belgian relief commission's work.

The appeal submitted here today was in substantially the same language as the instructions sent by the Belgian foreign office yesterday to Madrid and Rome, for presentation to King Alfonso and the pope. It recites that Belgians are forced to work in munitions plants and in the building of fortifications.

GIVES REASSURANCE TO BELGIAN PEOPLE

London, Nov. 24.—Viscount Grey, the British minister for foreign affairs, today sent the following note to M. Hymans, the Belgian minister in London:
"I have the honor to acknowledge the receipt of your note of the 16th of November, in which you were good enough to communicate the solemn protest of the Belgian government against the measures of forced labor and deportation imposed by the German authorities on the Belgian population."

"Your government will not expect from their allies any elaborate expressions of horror and indignation which are in common with the whole world, feel in the presence of these practices, hitherto resorted to only in connection with the slave trade. It will be enough if I assure you that his majesty's government are ready to support the Belgian government in every step they desire to take for securing the cessation of these atrocities and the punishment of the perpetrators."

"His majesty's government, however, has no assurance to give the Belgian government at this moment. Namely, that they will use their utmost power to bring the war to a speedy and successful conclusion and thus liberate Belgium, once for all, from the dangers which continually menace her as long as the enemy remains in occupation of her territory."

"The original aim of all the allies and the people of the British empire have already been inspired by the sacrifice for the attainment of that aim."

AGREEMENT REACHED TO TEST ADAMSON LAW

(By Morning Journal Special Leased Wire)
Kansas City, Nov. 24.—A tentative agreement on a test case of the Adamson eight-hour law has been reached by the attorneys of the railroad and the government, who have been in conference here yesterday and today. The agreement has been forwarded to Attorney General Gregory at Washington and the conference here will await his action upon it.

Announcement of the tentative agreement was made today but attorneys participating in the conference said they were not ready to state its terms.

The hearing before Judge John C. Pollock in Kansas City, Kan., on the injunction suit brought by the Atchison, Topeka & Santa Fe railway will not be held, it was said, until final action on the agreement is taken.

Announcement was made in Judge Pollock's court this afternoon that all Adamson law litigation with the exception of the Missouri, Oklahoma & Gulf case would be postponed until after decision by the supreme court in the case of Missouri, Oklahoma & Gulf, which was decided upon as a test case.

CARRANCISTAS EXECUTE THREE MEXICAN WOMEN

(By Morning Journal Special Leased Wire)

Field Headquarters American Punitive Expedition in Mexico, Nov. 23 (via radio to Columbus, N. M., Nov. 24).—Three Mexican women were executed by firing squads yesterday at El Valle, on the ostensible charge, preferred by Carrancista adherents, that they had attempted to kill Col. Gonzales Diaz, commander of the Carrancista garrison at El Valle. Papers were said to have been found on the women incriminating them.

Those executed were Margarita Acosta, her sister, Maria Castillo, and Maria Reis, her servant. The triple execution was held at sundown Wednesday. The women were faced the rifles without winking.

This is the first time a trio of women has been executed in this part of Mexico.

TWO FEDERAL JUDGES FOR STATE ARE LIKELY

(By Morning Journal Special Leased Wire)

Santa Fe, Nov. 24.—That both New Mexico and Arizona are to be given a second federal judge in the near future, is regarded as certain. Judge W. H. Sawtelle of Arizona had intended to resign some time ago, owing to the strain of the work, but was assured by the office of the attorney general that legislation will be recommended to form a second federal district in Arizona.

Similarly, in New Mexico, Federal Judge Pope's death was hastened by overwork and the creation of a second district with headquarters at Las Cruces, is to be pushed through congress, thus giving President Wilson the naming of two federal judges in the state.

PRESIDENT FORCED TO FOREGO FOOTBALL GAME

(By Morning Journal Special Leased Wire)

Washington, Nov. 24.—President Wilson tonight cancelled his plans for going to New York tomorrow to attend the Army-Navy football game because of a cold from which he has been suffering for several days. His condition is not considered serious.

The president saw no callers today, and remained indoors. He met with members of his cabinet in his study, however, and was said to be better tonight.

HIGH COST OF LIVING EXCUSE FOR STEALING

Man Who Took \$60,000 Worth of Jewelry Belonging to Mrs. Harriman, Couldn't Live on \$1,700 a Year.

(By Morning Journal Special Leased Wire)

New York, Nov. 24.—Behind the \$60,000 Harriman jewelry robbery, brought to solution today by police investigators, lies a story of a middle-aged and frustrated employee who succumbed to temptation, while struggling to meet the cost of living in a fashionable suburb too expensive for his means. As a result he is under arrest charged with grand larceny, together with his brother, who is held on a similar charge, accused of having disposed of part of the proceeds of the robbery.

Arthur P. Daggett, 42 years old and married, who was guardian of the trust company vault where Mrs. E. H. Harriman, widow of the railroad capitalist, kept her jewelry, found them one day on the floor of the safe deposit, he told Police Inspector Faure today.

"The opportunity presented itself as I was in debt to the extent of \$700," the inspector quoted Daggett as saying. "My salary was not a large one. I was getting only \$1,700 a year, and I found it hard to live on that amount and keep up with living at Larchmont. I was tempted many times to put the jewelry back but I held it for some time, waiting to see who owned it and when no one put in a claim that it was lost I decided to get a loan on some of it."

ANOTHER FIERCE ATTACK AGAINST CHIHUAHUA CITY BY FRANCISCO VILLA IS REPULSED WITH SLAUGHTER

MACHINE GUN FIRE CUTS DOWN ADVANCING LINES WHICH BREAK AND FLEE

Desperate Assault Is Made on Santa Rosa Hill in Effort to Capture Heavy Artillery; Bandits Are Allowed to Approach Within Rifle Range and Are Shot Down by Deliberate Fire of Defenders; Many Officers of Carrancista Forces Are Hit, Some Being Killed; Outlaw General Julio Acosta Is Among Slain, as Is Secretary to Chieftain Himself; Cavalry Is Pursuing Beaten Foe in Hope of Taking Supply Trains.

(By Morning Journal Special Leased Wire.)

VILLA ENCAMPED NEAR CHIHUAHUA

Juarez, Nov. 24.—Francisco Villa and his troops are encamped tonight outside of Chihuahua City, after returning this afternoon to renew an attack which lasted until 9 o'clock last night. This announcement was made tonight by Carrancista officials here.

It is said that Villa's apparent retreat early this afternoon was a military ruse. After General Acosta pursued a column for some distance, another large body of bandits appeared in another quarter again and attacked. Again, it is stated, returned with his forces to the city.

Telegraphic communication between Juarez and Chihuahua City remained open tonight.

Chihuahua City, Mexico, Nov. 24 (via El Paso Junction).—Another attack by the Villa bandits from the east was begun at 6 o'clock today and was repulsed, as were the other attacks by the bandits, with heavy losses to the attacking forces.

The machine guns again did deadly execution in the ranks of the bandits, who crept up from the east, under cover of a deep arroyo or dry wash. These rapid fires cut down the advancing thin lines of bandits like a mower in a field of standing grain. The dead and wounded were left on the battle field as was done in the previous assaults.

The enemy finally broke and ran in disorder, the heavy artillery taking up the threat of the fighting when the machine guns were outgassed. General Ojuna, commander of General Trevino's cavalry forces, pursued the bandits which had attempted to take an entrance to the city by way of the arroyo and slaughter house. The Villa forces fled toward the northwest and are now believed to be out of touch with the remaining Villa command.

Several Officers Hit.

Among the wounded today was Governor Francisco Trevino, brother of General Trevino, who was shot in the hand. Two officers of General Trevino's general staff have been killed during the two days of fighting. The body of Gen. Julio Acosta, one of Villa's commanders, was found to the west of the city, as was the body of Andres Sada, Villa's secretary. General Acosta was killed in action by Colonel Caldera of the Carrancista cavalry column, during the cavalry engagement yesterday.

General Trevino's wound, received yesterday, had been attended to by Colonel Martinez of the army medical corps, and the fever resulting from the wound has abated. He was again in command today and made an inspection of the fortifications with his staff.

Tries to Capture Artillery.

An effort was made during the early hours of the morning to storm Santa Rosa hill and capture the artillery. General Gonzales Cuellar's infantry remained quiet and allowed the bandits to approach within easy rifle range before opening fire upon the advancing ranks, when they poured a murderous fire into the first files of the bandits and followed this with volleys at intervals of one minute. The result was another retreat, which started at 2:30 a. m., and prevented the Villa bandits from capturing the heavy artillery on Cerro Santa Rosa.

Villa left his troop trains at Horaplan station, south of here, and Gen. Apolinario Trevino has been ordered by General Trevino to proceed in that direction with his cavalry and cut the bandits off from the cars on which they rode from Santa Rosalia.

The wounded are being picked up and the dead buried by the volunteer and Red Cross squadrons.

Trevino Still Cautious.
General Trevino is now making an effort to ascertain the number of

dead and wounded and expects to have a definite estimate of the losses tonight.

General Trevino announced he considered the backbone of the Villa attack was broken, but he is taking no chances on another assault. He is sending patrols of cavalry to the outlying districts and is keeping his infantry and artillery commands at their posts to prevent a surprise attack.

There have been no disorders within the city and no damage has been done to property here, due to the fact that the Villa forces have no artillery. The civilian population of the city is breathing freely again and is praising General Trevino and his command for their defense of the city.

General Trevino took time today from the work of directing his forces to receive the Associated Press correspondent and officially deny rumors which he had been informed were in circulation at the border. The report that any of his men had deserted to Villa he characterized as absolutely untrue. He praised the spirit of his men and said he personally had visited them in the trenches and had found them universally cheerful and eager for battle.

VILLA IS RETREATING TOWARD NORTHWEST

Juarez, Mex., Nov. 24.—Francisco Villa has failed in his repeated efforts to capture Chihuahua City from the de facto forces, high Carrancista officials here who are in constant touch with the developments in the state capital, declared emphatically tonight.

After two days of almost continuous fighting, Villa has been driven from the vicinity of the city and has left for the northwest with the remnants of his command, they say. With the reported withdrawal of the enemy, the attention of the Carrancista forces is being turned to burying the dead and succoring the wounded—both bandit and government soldiers—who were left on the battlefield after today's fighting, official reports from Chihuahua City say. The Carrancista general reported killed is said to be General Gandara, a former follower of Villa, who received amnesty.

The fighting today as far as can be learned from the typically brief military messages which have come over the federal wire and from the more amplified Associated Press dispatches, was centered around the eastern sector of the defensive works. Creeping along a pebbly, dry wash, from the direction of Santa Rosalia, to the east of the capital, the bandits opened their attack in unison at 6 a. m., upon the infantry entrenched behind breastworks extending along the plains to east. Upon being repulsed with rifle fire, machine gun and shrapnel fire, the bandits made a wide detour and swung off to the northwest on their diminutive cow ponies. This attack continued until after 9 o'clock, and followed an early morning attack of the Villa bandits to capture Santa Rosa hill, to the southeast of the town and obtain possession of the cannon which crown this hill.

Other fighting was reported during the day from the northwest in the vicinity of Las Escobas ranch and to the south where General Apolinario Trevino with his cavalry, made an effort to cut off the Villa bandits from their trains which were left between Mapula and Horaplan on the Mexico Central line. Villa was reported late today to have fled to his old haunts in the mountains. Guerrero district with the remainder of his men, abandoning his trains, but this was not verified in Juarez.

The whereabouts of General Murguía's division, which has been advancing toward Chihuahua City from the south, remains as much of a mystery tonight as it was yesterday, when General Murguía was expected to reinforce General Trevino.

A theory advanced by military officials here, is that bandit scouts informed Villa of the approach of the Murguía column and he abandoned the attack on the city and sought safety in flight to the desert.

The Carrancista forces under Gen.

THE WEATHER

THE WEATHER FORECAST.

Denver, Nov. 24.—New Mexico: Saturday and Sunday fair, with rising temperature east portion.

LOCAL WEATHER REPORT.

For twenty-four hours, ending at 4 p. m. yesterday:

Maximum temperature, 82 degrees;

minimum, 32, range, 50; temperature at 4 p. m., 38, southwest wind, clear.

eral Trevino remain in control of the city after two days of hard fighting and General Trevino and his staff claim the complete rout of the bandit force. At 4 p. m. today the cavalry columns were still pursuing Villa and his men.

As far as is definitely known, General Trevino's losses have been comparatively small, due to a large measure to the artillery fire which kept the bandits out of rifle range. One general and two colonels of the defect forces have been killed during the fighting.

General Francisco Trevino was wounded in the head.

Gen. Julio Acosta, one of Villa's chiefs, was killed during a cavalry charge on the first day's fighting, on Thursday, and Villa's private secretary, Andres Sada, was also killed. Villa's losses are believed here to have been heavy and are variously estimated at from 200 to 400 dead and as many more wounded.

No passenger train is expected to reach here tonight from Chihuahua City, it was announced at the railway terminal office here. This is not considered significant, as it is believed by railroad officials to be due to the fact that the bandits fled from the city

along the railroad and an attack on the train was feared.

Carranza forces in Chihuahua City are not short of ammunition, as reported, according to word received from General Trevino in Juarez tonight. This message was in response to an inquiry by General Gonzalez, the Juarez commandant.

General Trevino also requested that his wife, who is in El Paso, be informed that his wound received in the fighting of Thursday was of no consequence.

**VILLA RETURNS TO
ATTACK ON TREVINO**

Juarez, Mex., Nov. 24.—Villa and his bandits returned to the scene of their apparent defeat yesterday and renewed the attack at 9 o'clock this morning. Gen. Francisco Gonzalez, commander of the brigade at Juarez, announced at noon today. General Gonzalez said he had been in communication with Chihuahua constantly since early morning, and had had a brief conference regarding military affairs during the morning.

The fighting is reported to be general and to have been resumed along the same first line trenches, which were engaged during the greater part

of the day yesterday. General Gonzalez added.

Nothing had been received during the morning as to the whereabouts of Gen. Carlos Ojuna, the cavalry commander, who led the pursuit late last night, when the Villa bandits remounted and rode toward the hills. However, military officers here believed he returned to the quarter general during the night, and is participating in the fighting today. General Gonzalez denied the rumor that General Trevino had evacuated the state capital and was at Terrazas station, north of the city. He also denied a rumor that Villa had been wounded, although it is admitted in the barracks here that Villa personally led the attack of his men yesterday.

Murcia Has Not Showed Up.
Hope that Francisco Murcia, commanding a war strength division, would reach Chihuahua today, was expressed in Juarez by high military officers. General Murcia is making his way northward from the direction of Jimenez, but is forced to repair the railroad line, which has been cut by the Villa bandits. There is also a possibility, it was said at the military headquarters that Villa's rear guard had crossed General Murcia's van-guard south of Chihuahua City.

Villa was repulsed again today and his forces driven from their positions outside the city. It was announced at military headquarters here at 12:30 p. m. (Mountain time).

The fighting has been for the first and second line of government trenches. It was announced by Carranza officers and resulted in a victory for the de facto forces. It was stated officially.

General Acosta Killed.
Among the Villa dead picked up on the battlefield to the west of Chihuahua City was found the body of Gen. Julio Acosta, one of Villa's principal commanders. It was announced here at 2 o'clock.

General Acosta was with Villa when the bandits occupied Juarez and is said to be one of Villa's chief lieutenants.

Fighting was being gradually restricted to the zone directly south of the city, it was announced at the Commandancia Militar. While the fighting was in progress there with the Carranza troops resting upon their base at the foot of Cerro Santa Rosa, the volunteer hospital corps made trips to the west of the city and rescued the wounded.

Many Villa dead were reported to be in the vicinity of the railroad to the west of the city and many dead horses were to be seen on the plains beyond, the volunteers reported upon their return, a message from Chihuahua states.

**CARRANZA GENERAL IS
SLAIN IN BATTLE**

Chihuahua City, Mex., Nov. 23 (via El Paso, Tex., Nov. 24): delayed by military censor.—One general, two colonels and 100 men of the Carranza forces were killed during the fighting today between Carranza troops and Villa bandits. Four hundred men of the Villa command are known to have been killed and left on the battlefield.

The names of the Carranza officers killed have been deleted by the military censor.

Gen. Jacinto Trevino, in command of the Carranza forces, suffered a scalp wound. He refused to retire to the field hospital, however, and continued directing the movements of his command.

After machine guns, which were placed about 2 o'clock this afternoon, had poured an enfilading fire into the Villa ranks, Gen. Carlos Ojuna, Trevino's chief of cavalry, delivered an attack on the Villa center and drove the bandit forces back in disorder. The battle ended at 7:30 p. m. with General Ojuna pursuing the Villa command.

Villa disembarked at Alberto station, just south of the American Smelting & Refining company's smelter, during the night. Just as the sun appeared over the eastern horizon, the Villa forces started to move toward the city from the south and southwest. At 10:30 the skirmishing, which opened the general fighting, started in various localities along the southern and southwestern first line trenches. By 11 o'clock the battle was well under way.

The first attack started at the northwestern sector of the defensive works, when Villa's cavalry tried to break into the city. He was met by Trevino's cavalry. In the shock of the cavalry conflict the guns of Cerro Santa Rosa began to play.

The engagement soon became general. A machine gun detachment of the government forces then caught the enemy on the flank and rolled back the bandit line.

General Trevino, who had been directing the artillery from the hill, led a brilliant cavalry attack in person late in the afternoon, which turned the course of the battle. He crossed the river and charged the enemy at a point between the old smelter and the cemeteries. The Villa troops broke in disorder. General Ojuna followed up their retreat to Las Encinas ranch, about five miles northwest of Chihuahua.

After his cavalry attack, which was followed up by Ojuna, General Trevino, although suffering from a wound received at that time, visited the trenches covering the entrance of the town at Zarco avenue, where, cheered by the men, he straightened out the troops who were subjected for a short time to the concentrated fire of the remaining Villa forces. But Ojuna's work was beginning to tell.

During the last phase of the battle, General Trevino remained on Santa Rosa during the artillery, which played until about 7:30 p. m., when darkness rendered further work ineffective.

As Villa had been expected to attack the two previous nights, the city had been put in a complete state of defense. The correspondent of the Associated Press spent these nights in the company of Gen. Gonzales Cuernavaca, who had command of the fortifications. The weather was bitterly cold, but kept the troops awake and keen for the fight. General Trevino reserved for his own command the most exposed part of the line of defense.

The conditions of the battle were extremely heavy. The Villa forces, exposed to trench fire during the assaults, are believed to have lost about 400 men killed and wounded. Villa himself directed his command from a hill in the neighborhood of the smelter. General Trevino, at the end of the day, considered the enemy decisively beaten, but nevertheless took every precaution against a surprise attack.

OVERTON-ADMITS KILLING LAWLER; DEFENSE PLEA

Slaying of Probate Judge in
Huntsville, Ala., Leads to
Two Suicides and Trial for
Murder Now in Progress.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Huntsville, Ala., Nov. 24.—Probate Judge William T. Lawler, whose body was found in the Tennessee river last June, was killed by David D. Overton, his political rival. Overton testified here today in his trial on a charge of murder, that he shot the judge in self-defense.

The killing, Overton swore, was the result of a fight precipitated by Lawler, who, he said, attacked him with a knife when he refused to join a plan to delay a report of the Madison county grand jury.

The special grand jury in session at the time Judge Lawler was killed was investigating alleged violations of prohibition and election laws.

Overton declared he drove Lawler to the Whitesburg bridge in his buggy, at Lawler's suggestion, to discuss their political difficulties. The judge attacked him with a knife, he declared, when he refused to take immediate steps to delay any action by the grand jury. After a desperate fight, he said, he killed his antagonist, but had nothing to do with the disposition of the body, found three days later, weighted down in the river.

He informed Sheriff Robert Phillips of the tragedy the night it occurred, Overton said, and when he saw Phillips the next day, the sheriff told him the "body had been brought to town and that no one would find it." Sheriff Phillips committed suicide the next week, leaving word he could not bear the suspicion he believed was directed against him. Three days earlier, Shelby Pleasant, a Huntsville attorney, committed suicide.

Dr. G. V. Williams, of Chattanooga, who treated Overton's wounds in that city last June, was the last witness for the defense, which rested its case late today. He described what he said was a serious cut on Overton's neck, near the jugular vein. It is expected the case will go to the jury by noon tomorrow.

**MIMIC BORDER WAR
ENDS SUCCESSFULLY**

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Brownsville, Tex., Nov. 24.—A sham battle today between the invading "brown" and defending "white" armies, near here, concluding the war department's nine days of maneuvers. Twenty thousand men participated, and Brig. Gen. James Parker, commanding, expressed satisfaction with results shown.

Tonight the national guard forces of Indiana, Minnesota, Nebraska, South and North Dakota, and Louisiana guardsmen, camped in Brownsville, tomorrow, on the Palo Alto battlefield they with the regulars who participated in the war game, will be reviewed by General Parker.

Army surgeons report that of the 29,000 field, fewer than 400 reported sick, and that a majority of these returned to duty within a short time.

**MUST HAVE SURVEY TO
SELL PUBLIC LANDS**

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Santa Fe, Nov. 24.—Through affirmation by the general land office of the contest of Charles W. Collins, who made an entry of unreserved lands, the department of the interior definitely lays down the ruling that public lands can be disposed of only according to official surveys, standing approved upon the records of the local land office.

The entryman may, however, in the absence of any prior adverse right, acquire a preference right to enter land by plainly marking the boundaries of all the land claimed, placing improvements and establishing a residence thereon; and such person must exercise his preference within thirty days after the filing in the local land office at the plat of survey.

**SUSPECT HELD NOT
ANARCHIST CRONES**

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Spalding, Neb., Nov. 24.—The suspect held here is not Juan Crones, the alleged Chicago poisoner. This was the decision tonight of a Chicago police officer and four newspaper men from that city. The man was released tonight, following the failure of a Chicago detective, the steward of the University club of Chicago and four newspaper men of that city, to identify him.

Bandit Gets Valuable Diamonds.
Arkansas City, Ark., Nov. 24.—A bandit entered a jewelry store here shortly before noon today, held up the only clerk in the place and escaped with \$12,000 worth of diamonds after locking the clerk in the vault.

Overton Pleads Self-defense.
Huntsville, Ala., Nov. 24.—David D. Overton, former clerk of the Madison county circuit court, took the stand today at his trial for the murder of Judge W. T. Lawler, his political opponent, and testified that he killed the jurist in self-defense. Lawler's body was found in the river last June and until Overton spoke today, the manner of his death was unknown.

BARNES BOOMED FOR SPEAKER OF THE NEXT HOUSE

Albuquerque Man Urged to
Make Race for Presiding
Officer of Lower Branch of
Legislature.

That Judge R. P. Barnes, of Albuquerque, is being urged by his friends in various parts of the state to make the race for speaker of the next New Mexico house of representatives, and will probably consent to be a candidate, became known yesterday. It is definitely settled that the republicans have elected a clear majority of the members of the house, and the race for the speakership is now the matter of chief interest in state political circles.

Judge Barnes has been a resident of Albuquerque only about a year, but in spite of his brief residence here he led the republican legislative ticket in the recent election, winning by a handsome plurality over his nearest democratic opponent. In southwest New Mexico, where he formerly lived, Judge Barnes is especially strong, and it is believed that his support for the speakership will come from no special section of the state but will be generally distributed.

Mr. W. H. B. Llewellyn, of Dona Ana county, is already in the race for speaker and is understood to be making an active canvass for the office. Major Llewellyn is a veteran legislator and the contest in the republican caucus between him and Judge Barnes is likely to present a most interesting political struggle.

TWO INJURED IN AUTO SMASHUP ON CENTRAL AVENUE

Car Driven by H. D. Fowler
Turns Turtle in Rounding
Corner of Fifth Street Shortly
After Midnight.

Alberto Montoya and Pedro Apodaca were injured, Montoya slightly and Apodaca more seriously, in an automobile smashup at the corner of Central Avenue and Fifth street shortly after midnight last night when the car in which they were riding, driven by H. D. Fowler, a salesman, turned turtle.

There were no eye-witnesses to the occurrence except the three men in the car, though quite a number of people in the vicinity were attracted by the crash of breaking glass and gathered quickly at the scene of the accident. Fowler refused to give any information as to how the wreck took place, and when asked who was driving at the time replied curtly, "Nobody was driving." From one of the injured men it was learned that the car, with Fowler driving, was going west on Central Avenue, when a sharp turn to the north at Fifth street caused the car to turn over.

Apodaca was caught under the car and appeared to have sustained fairly serious injuries. He was taken in the undertaking parlors of C. T. French and a physician summoned, but before the doctor arrived he was removed to his home and at a late hour last night it could not be learned how seriously he was hurt. Montoya sustained a broken arm. Fowler apparently was not injured. With the assistance of bystanders the car was set upright and Fowler drove it away.

CUBA MAN SHOT THROUGH THIGH; TRILLAS IS HELD

Pedro Gutierrez Said to Have
Had Narrow Escape; Quar-
rel Over Room Said to Have
Been Cause.

The police were called to the hotel over Lorenzo Azavedo's story, 233 North Third street, early this morning by a report that a man had been shot there. Capt. Pat O'Grady and Patrolman Frank Apodaca, who responded to the call, found Pedro Gutierrez, of Cuba, Sanjaval county, with a wound in his left thigh.

Antonio Trillas, a one-legged man, was arrested by Captain O'Grady and Apodaca, charged with the shooting. Trillas had no gun in his possession. The police were told that he had turned it over to Azavedo. Azavedo gave them a revolver which held one empty cartridge. Trillas was taken to jail.

Trillas was taken to St. Joseph's hospital. Dr. W. R. Lovelace was summoned. Examination showed that the bullet had entered Gutierrez' left thigh at the front and passed through. The wound did not appear upon superficial examination, to be dangerous. Doctor Lovelace said, however, that the man had a narrow escape.

The cause of the shooting was not known positively at 1 o'clock this morning. The police were told that there had been a quarrel over a

room. The shooting occurred in the hall outside room No. 4. They had not had an opportunity at that time, however, to make a thorough investigation.

Breakfast Exports Decline.

Washington, Nov. 24.—Breakfast shipments to Europe continue to decline, a department of commerce statement today disclosed, although meat and dairy products are leaving the United States in increasingly large quantities. Sales of American livestock abroad have grown negligible during the last year. Corn exports in the year ending with November 1 were valued at \$28,000,000, an increase of \$5,000,000 over the previous year, but when sales decreased from \$250,000,000 to \$172,000,000. Although sales of fresh meats declined during the year shipments of lard and other cured meats more than made up for the loss.

FOOTBALL WILL REACH SEASON'S CLIMAX TODAY

Harvard Will Meet Yale at New Haven While West Point and Annapolis Will Battle at Polo Grounds.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 24.—The climax of the eastern football season will be reached tomorrow afternoon, with the playing of the Harvard-Yale, Army-Navy and several other contests of lesser general interest.
More than 75,000 seats have been put out for the Harvard-Yale struggle at New Haven, while close to 20,000 spectators will witness the clash between the United States Military academy and Naval academy teams at the Polo grounds in this city.

If it had been possible to accommodate all applicants for tickets, the attendance at these two games would have approached close to 200,000. The gate receipts will exceed \$215,000. Interest in both games is exceptionally keen as it is expected each struggle will be closer and more spectacular than similar games in the last few years. This is particularly true of the meeting of the two university teams at New Haven. Yale will send against the Crimson the best combination that has represented the Blue in recent seasons in the first test of the "Yad Jones" coaching system as applied to the methods of football tuition advocated by Percy Haughton.

If the Harvard eleven was composed of the veteran material of last year, the Crimson would be an overwhelming favorite, but Haughton has been obliged to rebuild the Cambridge machine and some of the parts are out of the strength of last season. It is expected, however, that Harvard will show the smoothness and deceptive attack so successful during the past few years but it is doubtful if the eleven will have the same powerful offense and defense. Its strength will be in the smoothness with which the team plays and the judgment used by the field captain.

Somewhat similar conditions prevail on the side of the Army-Navy game. The West Point team contains several veterans, who have established reputations as gridiron stars. The soldiers' old backfield, with Oliphant and Vidol playing, contains two of the most finished all-round offensive groundsmen in the country. The line is one of unusual strength and ability. If there is any weakness it will be found in the ends and possibly on the ends. Navy, on the other hand, is comparably a new factor.

HARVARD STILL A SLIGHT FAVORITE OVER BLUE TEAM

New Haven, Conn., Nov. 24.—Football prospects and the high cost of living are intermingled here on the eve of the Harvard-Yale annual gridiron contest. While town and gown tonight discussed exhaustively the respective merits and weaknesses of the strength of the two eleven, the unaffiliated tradesman was making visitors groan under treble and quadruple prices for everything necessary for food and machine.

This city has been the scene of many football struggles and large crowds of gridiron fans, but a record-breaking rush of enthusiastic throngs to swamp New Haven tonight. Hotel accommodations, unless reserved weeks in advance, are entirely out of the question.
Yale and Harvard legions are arriving by train and automobile from all parts of the country. The motor traffic is far greater than ever before and garage space can not be had tonight at any price. Hundreds of cars are being parked upon private property, and their owners and guests being quartered in boarding houses and the homes of local residents.

Although the wagering odds have fluctuated considerably during the last twenty-four hours, Harvard continues to be a slight favorite. A majority of the bets have been laid at 10 to 9, with the Crimson coaches giving the extra point.

The Yale team finished its preparation for the game this afternoon with a signal drill, and it was found that despite the excellent drainage system the field was water-soaked and heavy from the rain of yesterday. As a result, it was decided to leave the gridiron uncovered tonight in the hope that the high wind would dry the turf to some extent. Favorable weather is promised for the game, with clear, cold atmosphere.

The Yale squad spent the night in the Yale infirmary and it was announced that there would be no change in the lineup as previously announced, unless La Roche went in at quarterback in place of Smith. The Harvard eleven, it was said, would take the field as originally planned. The probable lineup:

Yale	Position	Harvard
Mowley	LT	C. A. Coolidge
Gates	LT	Wheeler
Blank (C)	LG	Dadman (C)
Callahan	C	Harris
Eck	RG	Snod
Baldwin	RT	Caner
Comertford	RE	Hart
Smith	QB	Robinson
Neville	LH	Thacher
Logore	RH	Casey
Jacques	PR	Horwenz

Officials: Referee, N. A. Tufts. Brown, umpire, D. A. Fultz. Brown, field judge, W. N. Morice. Pennington, head linesman, Dr. Carl Williams, Pennsylvania; time of periods, fifteen minutes each.

ONLY POUND DIFFERENCE IN WEIGHT OF ARMY AND NAVY

New York, Nov. 24.—The football squads of the United States Military academy at West Point, and the United States Naval academy, at An-

POSSESSION OF BIG NINE TITLE TO BE DECIDED

Only Tied Score Can Prevent Clear-cut Decision; Northwestern and Ohio State Contenders.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Chicago, Nov. 24.—Western conference football will end for 1916 tomorrow and only a tied score can prevent a clear-cut decision as to the championship. The title will be settled at Columbus, Ohio, where Ohio State and Northwestern, the only undefeated eleven in the organization, meet.
The anti-climax will occur at Chicago and Madison, where the annual Minnesota-Chicago and Illinois-Wisconsin contests will be staged.

The other members of the conference will end the season with "grudge" contests. Indiana and Purdue will clash at La Fayette in a game to settle whatever is left of the Hoosier state championship. With Notre Dame discarded, Indiana will take on Ohio, Notre Dame will entertain the Alma college team in a contest in the Hoosier Thanksgiving day clash with Nebraska at Lincoln.

Schedule of tomorrow's important middle-west games follows:
At Fort Smith: Oklahoma vs. Arkansas.
At Green Castle: Lake Forest vs. DePaul.
At Marietta: Washburn vs. Marietta.

CORNHUSKERS HAVE CHANCE TO REDEEM SELVES TODAY

Kansas City, Nov. 24.—Football games in the southwest tomorrow will be in the nature of curtain raisers to the final act of the big gridiron show of 1916, to be played Thanksgiving day.

One game at least, however, will be watched eagerly, for the outcome of the Nebraska-Iowa clash at Iowa City either will redeem Nebraska's defeat at the hands of Kansas last Saturday, or will confirm the downfall of the Cornhuskers after some half dozen unbroken years of supremacy in Missouri valley football. Nebraska defeated Ames 3 to 0 and Iowa repeated the victory, 19 to 6. On this basis tomorrow's game is likely to be a closely fought battle, Nebraska will be strengthened by the reappearance of Dobson in the backfield, but has several men not in the best of condition.

Should Nebraska be defeated by Iowa, Kansas likely will claim a clear title to the Missouri valley championship.
The Haskell Indians meet the Warrensburg (Mo.) Normal team at Lawrence. In the far southwest interest will be centered on the meeting of Louisiana State and Rice at Baton Rouge.

napolis, both apparently are confident of victory in tomorrow's contest, as they rested here tonight.

Both teams are in excellent condition, and in weight are unusually evenly matched. The Navy tipping the scales at 1,625 pounds and the Army at just one pound less. The Army, however, has the advantage in age and experience, the entire backfield of the midshipmen being composed of first year men.

The Navy men arrived here late last night, and were the first today to practice on the Polo grounds, where tomorrow's game will be played. They were put through a stiff signal drill by their coaches. After they had left, the Army team, which arrived early today with a squad of fifty-five men, was given possession of the gridiron and held a secret practice. The rival teams spent the evening at theaters.

LARCENY OF 'JUICE' FROM LIGHT COMPANY, CHARGE AGAINST MAN

R. O. Peck, a laundry employee, pleaded not guilty yesterday to the charge of larceny of electric current from the Light company. Judge McClellan found him guilty, however, and fined him \$15.

W. P. Southard, manager of the Light company, said he had gone past Peck's home, 411 West Coal avenue, twice, and had seen the house lighted. He told of calling there with Chief Galusha. He told Peck he wanted to see the meter and Peck said he thought he had none, said Mr. Southard.

Peck said his wife found the wires charged when they moved into the house late in October. Peck admitted he had not asked the company for his bill, when questioned by the court, saying he had not chance to pass the office and that he had not had time because he worked long hours. He intended to pay, he said.

Mr. Southard told the court that the meter had been taken out of the house before Peck moved in. To obtain current it was necessary not only to close the meter loop but also to make a connection outside the house, said he. Peck said he did not make the connections.

BRONCHITIS

When a severe cold settles on the lungs it is called bronchitis. There is danger of its leading to broncho pneumonia, and for this reason it is always best to go to bed and take Chamberlain's Cough Remedy as directed until well along towards recovery. Mrs. Charles E. Woodward, Sandy Creek, N. Y., writes: "Chamberlain's Cough Remedy cured me of bronchitis last fall. When I began using it I was so hoarse at times that it was difficult for me to speak above a whisper. I resorted to the use of this valuable medicine and found it very soothing and healing. In a week's time I was well." Obtainable everywhere.

You miss many opportunities daily if you do not read Journal every day.

MENAU PLAYS HIGHS TO A TIE IN THIRD GAME

Schools Stand "Fifty-fifty" in Season's Record, Each Team Having Won One Battle Previously.

The high school and Menaul school split "fifty-fifty" on the season's football record. The teams met yesterday at Hopewell field to decide the tie, each organization having won one game previously. They didn't. Yesterday's contest resulted in a tie, 13 to 13.

The high school had the lead until the fourth period when the Presbyterians came from behind and caught up. Harold Barton, quarterback, carried the ball across Menaul's goal line for the first touchdown toward the end of the first period. A long forward pass, snapping to Chavez, started the high school's march toward their opponents' goal in this period. A succession of line bucks carried it to their three-yard line. Menaul held for a time and then Barton went through the line for the score. He failed to kick goal.

The high school got their second touchdown when Menaul fumbled. The ball was passed for a kick. It dropped behind Menaul's posts and Pence, high school right half, dropped on it. Barton kicked goal. This touchdown came in the second period. It was the high school's last score. The score then stood 13 to 0 in the high school's favor.

Menaul began climbing toward the high school's score in the third quarter, advancing the ball chiefly on end runs. Menaul used the forward pass but few times in the game, relying for most of its gains on circling sprints. The same tactics gave the Presbyterians their second touchdown in the last section of the contest. Candalaria, Menaul quarterback, kicked goal after the second touchdown.

The high school had its regular line-up with the exception of Mann.

The lineup: Position—High School
Rodarte.....La Roche.....Sandoval
Sota.....R. E. Chavez
Santistevan.....T. Chavez.....Gilbert
Pacheco.....H. T. Greenleaf
A. Martinez.....R. G. F. Barton
Gonzales.....J. G. Schreiber
M. Martinez.....C. Payton
Candalaria.....Q.....H. Barton
C. Rodarte.....R. H. Spaniol
Baca.....L. H. Spaniol
F. Martinez.....E. Spaniol
Substitutes—Menaul: Lacerro for Gonzales. Touchdowns—H. Barton. Pence, Baca and A. Rodarte. Goals from touchdown—Candalaria and H. Barton. Referee—Lembo. Umpire—Broerlin. Head Linesman—Lapack. Time of periods—15 minutes.

269 ADDITIONAL MEMBERS TAKEN INTO Y. M. C. A.

With Cards Obtained in Campaign Association Has Total of 610; Competing Teams Rewarded.

The Y. M. C. A. added 269 members to its roll in the campaign which ended last night. The Albuquerque association fell short of the mark set for it by the international campaign management. The international campaign, however, probably overreached its goal. Secretary N. W. Henning learned yesterday that the 30,000 mark had been reached. He was informed by telegram that an effort was to be made to reach the 35,000 additional membership mark by midnight. He will get final figures today.

The Blue team won in the local contest, bringing 197 new members to the association to the Red team's seventy-two. The Blues received their reward last night and the Reds theirs, too. There was a difference, however. The Blue workers had a dinner of fried chicken while the Reds had bread and milk.

George T. Peterson, Blue captain, was awarded the watch, given by the Hamilton Watch company and Arthur Everett, jeweler, having signed more members than any other individual campaigner. He brought in fifty-seven. C. T. French brought in twenty-eight and A. E. Moon eleven. The watch was presented by A. B. McMillen, president of the association, at the dinner.

While the 269 members signed in the campaign the Y. M. C. A. has a total membership of 610.

Secretary Henning announced that a reception was to be given next Friday night for the new members. All former and new members are expected to be present, said he. A program will be given and refreshments served.

WILSON CLUB WILL BE CONTINUED, SAYS COLONEL SELLERS

Plans for a permanent democratic organization for Bernalillo county are to be considered at the meeting of the Wilson club tonight. Col. D. K. R. Sellers, president of the club, said yesterday that the Wilson club probably would be changed to the Bernalillo County Democratic club and continued as an organization.
The club's purpose, according to Colonel Sellers, will be to use its influence in securing the enactment of good laws, such as, possibly, a direct primary law. The club, said he, will

stand for clean politics.

Fear that the hat will be passed need not keep any democrat away from the meeting, said the colonel. No one will be asked for money, as all the club bills have been paid.

The club will meet at 8 o'clock tonight at the city hall. The meeting will be open not only to club members but also to all democrats.

West Virginia Has Bribery Scandal.
Charleston, W. Va., Nov. 24.—Sixty poems for nineteen witnesses were issued today by the house committee investigating charges that attempts had been made to bribe members of the legislature. Among those ordered to appear were eight members of the house.

PIMPPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Clear the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

manipulated by the city as a means of relieving the present high cost of living was urged by John H. Lally, assistant United States district attorney today, after he held a conference with city officials. These actions could be made under the forestalling and re-grading ordinance passed by the city council two years ago, which prohibits the hoarding of food products in cold storage warehouses for high prices, according to Mr. Lally. The ordinance provides a fine of \$200 for every day food is stored in violation.

The qualities that led to their adoption on these cars are the qualities that make them higher-priced—and *better*.

"Your Money Back If You Want It"

TRAIN FALLS DOWN STEEP EMBANKMENT, SEEN AT THE CRYSTAL

"The Combat," the Vitaphone Blue Ribbon feature with popular little Anita Stewart as the star contains a terrific railroad wreck.

Director Ralph W. Ince, who produced this film masterpiece, was in conference with one of the big railroad heads for hours before he was granted permission to film the necessary scenes.

Mr. Ince's powers of persuasion overruled the magnate, however, and he went away with the necessary permits tucked in his pocket.

The scene in the finished film shows a long train of cars tearing along the tracks on the top of a steep embankment. Just ahead of the flying locomotive the side of the bank gives way and when the ton-weight of the train comes along, it proves too much and the entire train overturns and falls into the valley. Then the wooden cars catch fire and the cars with their load of suffering humanity turn to charred timbers and ashes.

This scene does not lack any of the punch and thrill which made "A Million Bids" and "Four Thirteen," which were directed by Mr. Ince, marked successes. It is, if anything, more realistic than any scene this well-known producer has done and is destined to mark a new era in the career of its producer and in the reputation of Vitaphone-Blue Ribbon features.

This scene was staged on Long Island and the fields around were black with people who watched with eagerness what has turned out to be one of the greatest scenes ever filmed.

Later flashes of the wreck show the three trains of cars burning fiercely, illuminating the dark night with their flames.

"THE SULTANA," A THRILLING COMEDY. AT PASTIME TODAY

Great interest is shown in the announcement that the attraction at the Pastime theater today will be Ruth Roland in "The Sultana," a five-reel comedy melodrama in natural color. The picture was produced in California by Pathos, from Henry C. Rowland's well-known book of the same name, with a fine supporting cast, including William Conklin, R. Henry Grey, Daniel Gilfeather, Frank Erlanger and Edward J. Brady.

Every Ruth Roland picture has been a success. She is remembered for her splendid work in the "Who Pays?" series, "The Red Circle" serial and a number of gold standard features, including "A Matrimonial Martyr," also in Pathoscolor, in which she played a dual role.

Every picture in Pathoscolor has been enthusiastically received by the public. Many people who would not go to see an ordinary motion picture will undoubtedly go to the Pastime theater to see one in color. Aside from the advantage lent by Pathoscolor, Ruth Roland, the famous author, and the popularity of his book, "The Sultana" is an interesting and exciting story, which has a large appeal to motion picture fans.

"The Sultana" is a priceless jewel, and the story centers around the weird effect it has on the destinies of all who come within the radiance of its dazzling rays. The action begins amidst the whirl of the gambling wheel, and the clink of gold, where, temporarily at least, Dame Fortune refuses to smile on the hero.

The midnight son of the House of Kirkland makes a wager with his clubmates that he can steal the Sultana from its owner, and then return it to him without his knowing who took it. The Sultana changes hands rapidly, once at the cost of a human life. There is crisp action through every foot, and thrills and romances have been worked into a scenario of pleasing balance, with suspense consistently sustained throughout.

SECOND TRACK FROM HAHN IS COMPLETED TO MOUNTAIN ROAD

The steel laying crew building the second track between Albuquerque and Hahn has reached the city. The workmen can now be seen from the Santa Fe station. They began at Hahn, more than four miles north of here, and worked south.

When the second track is completed the Santa Fe will have a double track from here to Hahn. This will avoid delays which sometimes occur when trains are late.

With the second track completed the workmen will start rearranging the upper yard. The track nearest the Alvarado hotel and station will be torn up and the platform widened. The new yard will have five tracks for receiving passenger trains.

MINER CHARGED WITH CRUELTY TO ANIMALS; USES KNIFE ON GOAT

Jack Phillips, a miner, who came here a short time ago from Gallup, was charged yesterday with cruelty to animals. Jack Strong, complainant, said Phillips mutilated his young goat at his livery barn 202 South Second street. Phillips used a knife, according to Strong.

Patrolman Tom Summers caught Phillips south of the Rivas school and took him to jail. Phillips said he used his knife on the goat because he had seen goats butt children, breaking their arms.

CHANCELLORIES
OF BELLIGERENT
NATIONS FAVOR
PEACE LEAGUEMessages Are Read From
Premier of France, Viscount
Grey of England, and von
Bethmann-Hollweg.ALL AGREE THAT THIS
WAR MUST BE LASTGerman Chancellor Quotes
From Text of Speech Delivered
Before Reichstag.

NEW YORK, Nov. 24.—Messages of good will from the chancelleries of three of Europe's warring powers were read at a dinner given here tonight by the League to Enforce Peace. The purpose of the banquet was to consider a program for a permanent league of nations at the close of the great conflict.

Approval of the principle proposed was given by Aristide Briand, premier of France; Chancellor von Bethmann-Hollweg, of Germany; and Viscount Grey, Great Britain's secretary of state for foreign affairs.

Premier Briand's message said: "I have the honor to acknowledge the receipt of your communication, the contents of which I have noted with lively interest. In basing your effort on the fundamental principle of respect for the rights and wishes of the various peoples of the world, you are certain of being on common ground with the countries who in the present conflict are giving their blood and their resources, without counting the cost, to save the independence of the nations."

From Viscount Grey the following message was received: "Grey is in accord. I think public utterances must have already made it clear that I sincerely desire to see a league of nations formed and made effective to secure future peace of the world after the war is over. I regard this as the best, if not the only, prospect of preserving treaties and of saving the world from aggressive wars in years to come. If there is any doubt about my sentiments in the matter, I hope this telegram in reply to your own will remove it."

Chancellor von Bethmann-Hollweg sent as his message, extracts from a speech he delivered on November 8 before the committee on ways and means of the German reichstag, which follows:

"We have never concealed our doubts with regard to the question whether peace could be permanently guaranteed by such international organizations as arbitration courts. I shall, however, at this place, not discuss the theoretical aspects of the problem, but we must now, and at the time of the conclusion of peace, from the point of view of facts, define our position with regard to this question. When, at and after the end of the war, the world will become fully conscious of its terrifying destruction of life and property, then through the whole of mankind will ring a cry for peaceful arrangements and understandings which, as far as lies in human power, shall avoid the return of such monstrous catastrophes. This certainly will be so powerful and so justified, that it must lead to some result."

Germany will co-operate in the examination of every endeavor to find a peaceful solution of the question and will collaborate to make the realization possible. Thus all the nations of the world, as we expect and trust, will create political conditions which do full justice to the free development of all nations, the small ones as well as the great nations. That it will be possible to realize the principles of justice and free development on land and freedom of the seas. The first condition for evolution of international relations by way of arbitration and peaceful compromise of conflicting interests should be that no more aggressive conditions are formed in the future. Germany will at all times be ready to enter a league for the purpose of restraining the disturbances of peace."

Lord Bryce, former British ambassador to the United States, also sent to former President William H. Taft, president of the league, who presided at the dinner, the following:

"These words here on your lips and heartiest sympathy with and best wishes for your league's efforts."

Referring to the approving messages received from European statesmen, William H. Taft, president of the league, said:

"These statements tend to show that what we are proposing is not a dream, but in its general lines, commends itself to practical statesmen. The action of France, England and Germany, in fulfilling their obligations in this war, in respect to an issue in which they had no direct concern, is a refutation of the claim that treaty obligations cannot be relied upon to make such a league as this practicable."

"I don't think it too much to say that when the war is over, Europe will be ripe for the acceptance of a plan like this."

Grange opposed to embargo on food exports. High cost of living is due to poor crops and increasing prices on everything farmers buy.

question. STATES' RIGHTS
BROUGHT TO FRONT
AT INVESTIGATION

Thom Declares Exclusive Federal Control of Interstate Carriers Is Too Great Centralization of Power.

BY MORNING JOURNAL SPECIAL LEADER WIRE

Washington, Nov. 24.—A new turn in the argument that states' rights would be invaded if the federal government had sole power to regulate and control interstate carriers, was given today before the joint congressional committee investigating transportation problems by A. P. Thom, counsel for the railway executives' advisory committee.

Mr. Thom declared that the vesting of such exclusive power in the hands of a federal regulating body would protect the rights of states. He based his conclusion on many instances in which the effect of actions by state railway commissions has been to interfere with commerce in neighboring states. Emphasis was laid upon the situation which has followed the recent Interstate Commerce commission order for a re-alignment of rates

throughout the southeast under the long and short haul clause of the railroad rate law. The effectiveness of these orders has been suspended, Mr. Thom said, while the Georgia state railroad commission has for six months examined them, and the benefits the commission expected to extend to that entire section of the country has been held in abeyance. He spoke also of the Shreveport, La., rate case as one of the most celebrated of those to be decided by the Interstate Commerce commission, involving a clash between the federal commission and the Texas state commission over interstate and intrastate rates.

Mr. Thom said the framers of the constitution gave the right to regulate commerce among the states to congress because the history of the colonies showed that unwise, unfair and even dangerous measures resulted from attempts to encourage the commerce of individual colonies at the expense of neighbors.

Speaking of the difficulties of financing the railroads, Mr. Thom dwelt upon how difficult it may be for a carrier to get money even when the markets are favorable, if it is necessary to have security loans passed upon by one or more state commissions.

Gets Credit for Mighty Thirst.

Denver, Nov. 24.—George Kublar, who acquitted in county court today of illegally disposing of intoxicating liquor. Testimony adduced showed that Kublar had received 800 quarts of wine in 135 days. The judge, after deliberating a few minutes, concluded that Kublar might have consumed an average of over six quarts of wine a day.

DEFENSE PAINTS
ACCUSED MAN AS
DEVOTED HUSBAND

Attorney Asserts That Motive Behind Prosecution Is Blighted and Perverted Ambition and Greed.

BY MORNING JOURNAL SPECIAL LEADER WIRE

St. Joseph, Mo., Nov. 24.—Motives of the prosecution were attacked in the criminal court here today in the opening statement of the defense in the trial of Prosecutor Oscar D. McDaniel, who is charged with having murdered his wife. The declaration in behalf of the accused man made by one of the defendant's attorneys, set forth also that no motive had been shown that would cause McDaniel to kill the "nobles, happiest soul, almost that ever lived."

"No motive has been shown why he should have killed her," the attorney said to the jury, "but we will prove to you by the evidence in this case that the motive behind his prosecution is blighted and perverted ambition and jealousy, coupled with the greed of

gold that makes the palms of detectives iteb."

The accused man sat among his relatives, giving almost no sign of emotion, except when his attorney told in low tones of how the prosecutor had returned home after answering a day-long telephone call, to find his wife attacked and bleeding, on the floor of her bedroom. Then tears started in his eyes and his hand went to his face.

Hart M. Lockwood, special prosecutor, who has worked up the case against the accused man, was attacked by Attorney Lewis Gihbert, of the defense.

"Mr. Lockwood has resented the onward stride of this ambitious and splendid young man," the defender said, "and it has ever rankled in his heart."

Gihbert dramatically related the defense's version of the incident the night Mrs. McDaniel was murdered, and concluded:

"They found him in his home, bathing his wife's blood away. Before she died, this man, charged here with having murdered her, who was in a state of collapse and who collapsed as state's witnesses have testified, bent over and put a kiss upon her lips—the last he ever was to give her."

Took a Neighbor's Advice. "Last winter my son Clark had a severe attack of grip. I took a neighbor's advice and procured a bottle of Chamberlain's Cough Remedy. It relieved him promptly," writes Mrs. T. H. Bell, Vandergraff, Pa. Obtainable everywhere.

Four

Thousand Eyes Watch Every Traveler Seeking to Enter Or Leave Dominions of the Kaiser

(By Herbert Bayard Swopes.)

Copyright, 1916, New York World.

Germany today is a giant fortress completely ringed by spies. Every man, woman and child, all the hosts of burden and food, are checked and located. The doors have been locked against travelers seeking to enter and those seeking to depart. Only in exceptional cases are visitors received, and in rare instances are natives permitted to leave.

The police are able at all times to account for every one of the population; passport records have been made extremely difficult; the ordeal of search and inquiry at the frontier is severe and thorough. Interior travel has been sharply restricted; every foot of the border is guarded against illegal entry; telegraphs have been put in the way of mail and telegraph communication; the espionage system has been multiplied in efficiency and exactness for the safety of the empire. And because this is the underlying reason, the Germans have submitted to the restrictions willingly, and instead of rebelling, aid them.

The spy system that swept over war-torn Europe two years ago has increased in its visible intensity in Germany, but the precaution against spies has been increased. The people have confidence in the safeguards against espionage and so suspicion has been quieted. How well this confidence is justified can be attested by any one who has been inside the empire in the second year of the war.

A stranger is under observation from the time he enters until he has left. The watchfulness is not obtrusive; it is rarely evident, but it is always thorough. Within twelve hours of a visitor's arrival he must report in person at the nearest police station, and each time he makes a railroad journey this operation must be repeated.

When an American undertakes a voyage to Germany the wheels of the imperial government begin to revolve immediately upon his first application for a visa to his passport being made in this country. The first question to be answered concerns the applicant's character, so that Germany may feel sure that he does not purpose to aid or abet her enemies; and the second, the actual need of the business that causes him to make the trip.

Must Wait Two Weeks.

Germany insists that a fortnight intervene between the application for a visa and the beginning of the trip.

All travel between America and Germany is through Copenhagen, London or Stockholm. Upon his arrival at one of the three neutral cities he must begin the proceedings at once. The method employed in Copenhagen is as follows:

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and
Lustre with Sage Tea
and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. This is the only hair preparation, at home is money and trouble. For 25 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyn's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyn's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts
if Back hurts or Bladder
bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys in their effort to free the blood of this irritating acid, but become weak from this overwork; they get sluggish; the uric acid then clogs and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stringy pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, causing you to seek relief during the night, when you have nervous headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations in Europe and America. It cures all uric acid, rheumatic, blood-clogged, biliousness, to neutralize the acids in the blood, thus making a source of uric acid, thus making uric acid and blood disorders.

Jad Salts is tasteless and cannot injure; makes a delightful after-dinner little water drink, and nobody can make a mistake by taking a glass occasionally to keep the kidneys clean and active.

Chief Organ of Wilson Administration Thinks These Cabinet Members Must Go

NEWTON D. BAKER, SECY OF WAR.
THOMAS W. GREGORY, ATTY GEN.
ALBERT S. BURLESON, POSTMASTER GEN.
WM. B. WILSON, SECY OF LABOR.

WM. G. MCADOO, SECY OF TREASURY
JOSEPHUS DANIELS, SECY OF NAVY
WM. C. REDFIELD, SECY OF COMMERCE

The chief journalistic organ of the Wilson administration (The New York World) has, since almost demanded, that several members of President Wilson's cabinet go. Only three members, according to it, should be retained. Here is the statement in an article by the editor.

"There are three members of the present cabinet who have so successfully withstood all criticism that there is little opinion of their resignation. These are Robert Lansing, secretary of state, Franklin R. Lane, secretary of the interior, and David F. Houston, secretary of agriculture. One of them is from New York, one of them is from California and one of them is from Missouri. For the rest, the new cabinet ought to be constructed on broader geographical lines than the present cabinet, with full regard to the new political elements with which the president must deal in order to carry out the future policies of his administration."

Seven Offices to Be Vested.

This is the beginning of an attack that requires from two to four days to execute, successfully and involves visits to no fewer than seven different offices.

As you pass the controls through which the train runs you are under the necessity of showing your passport to each of the inspectors. When you reach the point of departure from Germany territory, precisely the same method is followed in examination and inspection as you found upon entrance to the empire.

In every hotel are to be met, in the form of guests, waiters, chamber maids, telephone operators, and bartenders. In the early part of the war these last proved their worth when, for men otherwise calm and efficient, they became suspicious under the influence of a few sentences of back talk, which are still in vogue in Germany in spite of their American origin.

At one of the biggest of the Berlin hotels it is a noticeable fact that all the floor waiters are young, active, lightly built men. When they are asked why they are not serving at the front all have common in the same of health. The truth is that they are all powerful, healthy men who are in the family of every visitor's business.

German spies travel on all the trans-Atlantic lines running from Denmark, Sweden, Norway and Holland to America, and back again. The difficulty of communication is one of the worst handicaps that the German government and people suffer. Made by and from the empire are all the news that is to make them valuable. German communication is restricted to the wireless, to specially trained couriers, and to submarine cables, both of the commercial type, which have been recently converted into military channels, and to Spanish waters, where it is routed upon

White Questions Asked.

After he learns that you are planning to go away, he takes your name and address, looks at your passport, and then the interview by giving you a formidable looking three-page questionnaire blank.

Having filled out the questionnaire, the next step is to pay another visit upon your friend the police sergeant at the precinct, who can vouch for your identity. A record is made of the examination slip, and you are handed another thing that must be filled

LACK OF GUNS IS FATAL TO VILLA AT CHIHUAHUA

Unable to Take City Without
First Capturing Santa Rosa
Hill, Which Dominates the
Town.

(By Morning Journal Special Leased Wire.)

El Paso, Tex., Nov. 24.—Chihuahua City is surrounded to the east, west and south by high hills, and of these the fortified Santa Rosa, to the southeast, is the key to the whole situation, according to the descriptions of refugees here. With Santa Rosa eliminated, Villa's problem would have been comparatively easy, they say, and this explains his determined efforts to take the hill.

To the north of the city an open plain stretches for several miles below the river bed. It was from this side that Villa made his raid of September 16 on Chihuahua. A night attack might succeed from this side, but the city could not be held against Trevino's artillery, which could smother the federal buildings. These massive buildings would serve as forts against small arms. If Villa had even a few pieces of field guns, according to the refugees, he could easily smother the Santa Rosa battery which is dominated by higher hills in the neighborhood.

It would also be possible to enter the city from the east of the hill, where the road is protected from the big guns by a depression. But here, again, the problem of holding the city under artillery fire would arise, say the refugees.

BANDITS REPORTED NEAR AMERICAN LINE

(By Morning Journal Special Leased Wire.)

Columbus, N. M., Nov. 24.—Villa bandits, said to number over 200, commanded by Col. Silverio Quezada, are reported today at Chusmague, on the Northwestern railroad, thirty miles east of the American line of communication.

No uncertainty is felt here, say military officials, as General A. J. Pershing has sent troops at Aconito, and all motor trucks plying between Columbus and field headquarters in Mexico carry extra guards.

Try a San Jose Dinner Sunday

And you will see why we claim that we can supply your wants in the food line with complete satisfaction to you.

MEATS

Fancy Dressed Poultry	Belgian Hares
Fancy Dressed Turkeys	Cottontail Rabbits
Fancy Dressed Geese	Squabs
Fancy Dressed Ducks	Beef, Pork, Mutton
