ing from Guadalupe say conditions are normal there.

Because of interruptions in the service of the federal wire south of Villa Ahumada, no additional reports of the battle around Chihuahua city had been received at the military headquarters here up to noon today. It was announced there that the "wire trouble" was not considered serious. The report of bandits cutting the telegraph lines north of Chihuahua was denied here.

Should it develop the federal wire has been cut by the bandit forces operative around Chihuahua city, Carranza forces here say this will strongly indicate an attack upon the city from the north.

American railroad officials in Juarez today denied the report that a band of Villa bandits in command of Silvestre Querejo, was south of Juarez in the angle formed by the Mexican Central and Mexican Northwestern railroads. These bandits were reported to be approximately twenty miles south of the border town and numbered 150, according to the report.

A cavalry column which was said to be approaching Chihuahua city from the south has been driven back by Villa cavalry which had been led by Villa, to prevent reinforcements reaching General Trevino, according to this unconfirmed report.

The report is said to have been received before the interruptions in the federal telegraph wire started at 10 o'clock.

**Millionaire Cattleman Killed.**  
Amarillo, Tex., Nov. 25.—C. A. Wiseman, millionaire cattleman and banker, and founder of the town of Vegas, was killed instantly this afternoon when his motor car hit a rut and overturned. Wiseman was riding from Amarillo to Vega, alone. His head was badly crushed. He was 45 years old.

**Denies Stories of Brutality.**  
Berlin, Nov. 25 (by Wireless to Berlin).—Reports of various unprovoked incidents in connection with the deportation of Belgian workmen are denied in a statement issued by the German News Agency today. It characterizes as "fantastic" assertions that at one place hysterical women natives of men under deportation had thrown themselves in front of a train to prevent its departure and had to be forcibly removed by German soldiers.

## ELKS TO HOLD ANNUAL LODGE OF SORROW SUNDAY

Beautiful Program Arranged for Memorial Services for Those Who Have Died in Past Year.

The program for the annual lodge of sorrow, or memorial services in honor of members who have died during the past year, which is to be given by the Elks lodge of Elks, is now being arranged. In accordance with custom the services will be held next Sunday, the first Sunday in December. They will be conducted in the Elks lodge room, but the general public is invited to be present.

Dr. David H. Boyd, president of the University of New Mexico, will deliver the annual address, and an exceptionally fine musical program will be rendered, some of the best talent in the city having been enlisted for that purpose. The memorial ceremonies of the Elks are especially beautiful, and the capacity of the hall will doubtless be taxed to accommodate the audience that will be present.

The Elks who have passed away during the last twelve months, in whose memory the services will be held, are J. B. Porech, William McIntosh, R. W. Wiley, W. W. Strong, W. A. Moore, Mal Ernest Myers, N. A. Rappier and R. D. Hayne.

## DRIVER OF WRECKED AUTOMOBILE BROUGHT INTO POLICE COURT

H. D. Fowler, driver of the automobile which turned over early yesterday, slightly injuring two men, pleaded not guilty yesterday before Police Judge McClellan to the charges of reckless driving and driving while intoxicated.

Fowler said he turned his car to avoid a collision with an approaching automobile and it turned turtle. He said he had been drinking but not enough to intoxicate him. He said he had not been drinking very much. Chief Galusha said that Fowler had been fined once previously for speeding.

Justice McClellan continued the case, saying he wished to investigate. Alberto Montoya and Pedro Apodaca, who were in Fowler's car, were not seriously injured. Montoya's arm was not broken. Apodaca sustained no internal injuries. His condition yesterday indicated.

## AUSTRIAN AMBASSADOR ADMIRES AMERICANS

Vienno, Nov. 24 (via London, Nov. 25).—Count Adam Tarnowski von Tarnopol, the newly appointed Austrian-Hungarian ambassador to the United States, told the Sofia correspondent of the Pester Lloyd, of Budapest, that he welcomed the opportunity of going to America, and that he admired Americans.

"President Wilson is a mild man who loves his fellowmen," Count Tarnowski is reported to have said to the correspondent. "and for this reason, his efforts toward peace will be successful, ultimately."

**Villa's Barber Is Arrested.**  
San Antonio, Tex., Nov. 25.—Accused of violating the neutrality laws, a Mexican who claimed to be formerly a barber, was arrested here today and turned over to federal officers. It is reported the Mexican had been endeavoring to enlist Mexicans to go to Mexico and join Villa.

## HOSPITALITY OF SANTA FE SHOWN AS CROWDS COME TO CONVENTION

(Continued From Page One.)  
needed school legislation. Mrs. Quinn presided with tact and yet force, keeping the discussion within the limits of the theme.

**Educational Sunday.**

All the local churches have prepared special programs of sermons and music for tomorrow forenoon in observance of Educational Sunday. In the afternoon, the Santa Fe art exhibit is open at the Palace. It is even more ambitious and finer than had been anticipated. At 5 o'clock a union vesper service with special music by the mixed Protestant choir, takes place in the Masonic cathedral. Rev. Leonidas Smith, of the Church of the Holy Faith, will have a fifteen-minute sermonette on "Should Religion be Taught in the Public Schools?" In the evening, a concert will be given at the Masonic cathedral. Dr. Frank H. H. Roberts will fill the pulpit of St. John's Methodist Episcopal church on Sunday forenoon.

Santa Fe was at its bluest the sun at its brightest, today, and the weather man holds out promise for the continuance of the typical Santa Fe weather. Thus far, no difficulty has been encountered in finding accommodations for the visitors, and the reception committee is prepared to handle a thousand more visitors.

**Bronchitis.**

When a severe cold settles on the lungs it is called bronchitis. There is danger of its leading to broncho pneumonia, and for this reason it is always best to go to bed and take Chamberlain's Cough Remedy as directed until well along towards recovery. Mrs. Charles E. Woodard, Sandy Creek, N. Y., writes: "Chamberlain's Cough Remedy cured me of bronchitis last fall. When I began using it I was so hoarse at times that it was difficult for me to speak above a whisper. I resorted to the use of this valuable medicine and found it very soothing and healing. In a week's time I was well." Obtainable everywhere.

## NEW YORK WOMAN TO BUILD APARTMENTS IN THE HIGHLANDS

Mrs. Mathilde Cardener, who came here a short time ago from New York, could not find a suitable house to rent so she bought one. Her experience led Mrs. Cardener to believe that apartments would be profitable. She has bought lots for the building of apartments.

A. L. Martin, of the Portfield company, said Mrs. Cardener the house and also the lots upon which she will build the apartments. The house is a six-room apartment at 769 East Central avenue. The apartment site, including three lots, is at 14th street and Central avenue. The property has a frontage of 142 feet on Central and 150 on 14th.

Mrs. Cardener expects to start building next spring. She has not definitely decided upon the plans but the building probably will be a three-story structure.

## GALLOWES BUILDER DIES IN JAIL AT OLD TOWN

Dwight Wheeler, carpenter and a pioneer Albuquerquean, died Wednesday in the county jail. It was learned yesterday. Wheeler had been taken to jail on a complaint alleging that he was insane. He died before undergoing an examination as to his sanity. Wheeler came to Albuquerque more than thirty years ago. For years he had a shop at Third street and Silver avenue. He lived in the rear of the shop. He built the last scaffold upon which a man was hanged in the jail yard at Old Town. He was said to have built another years ago.

## U. S. MUST WAIT FOR EIGHT BIG WARSHIPS

(By Morning Journal Special Landed Wire.)  
Washington, Nov. 25.—None of the eight big warships authorized for construction this year can be ready to join the fleet in less than three years and a half, Navy Admiral Taylor, chief constructor of the navy, today told the house naval committee.

Admiral Taylor thought the navy would face the same difficulties with shortage of skilled labor and material, that confronts private ship building.

The navy has under consideration plans for a 10,000-ton battleship, which, in addition to heavier guns and armor, would also have a speed of several knots in excess of that now fixed for ships of the Haddock line.

## WATER SYSTEM REPORT WILL BE PRESENTED SOON

J. N. Gladding Sends Word That He and Black & Veatch Will Be Here With Appraisal This Week.

The municipal water plant project, which has laid practically dormant since the appointment by the council of the city's appraisers, will take on new life soon. The appraisers will submit their report to the council this week, laying the foundation for the taking of further steps toward the improvement of the municipal system for which property owners authorized a bond issue.

City Clerk Thomas Hughes was notified yesterday by City Engineer James N. Gladding, of El Paso, that he and the other appraisers would come to Albuquerque with their report this week. Black & Veatch, a Kansas City firm of engineers, also were the city's appraisers, acting jointly with Mr. Gladding, chief engineer of the Kansas City firm, perhaps both, will accompany Mr. Gladding here to place their report before the council.

## COMPULSORY CIVILIAN SERVICE NOW ASSURED

(By Morning Journal Special Landed Wire.)  
London, Nov. 25.—A Reuters dispatch from Amsterdam says that at the opening of the German Reichstag today, the president said a tribute to Emperor Francis Joseph, and then proposed that the first reading of the bill for compulsory civilian service should be taken up Wednesday. Deputy Groeber, of the central group, suggested that the second reading should also be taken on the same day. After a determined opposition it was added, on the part of both socialist

groups, Groeber's proposal was adopted.

Speeches were delivered on the president's proposals as an attempt to prevent discussion of a bill which sought to deprive the working classes of the free disposition of their work-time power and consigned them to the exploitation of slave drivers.

Harry Thompson, leader of the socialist group, protested against the socialist must, declaring that day would the further development of the adoption of the measure.

**Stomach Troubles.**

Persons who have stomach troubles are apt to become discouraged. They will see in the following that their chance of recovery are excellent. A. K. Williams, Independence, Mo., tells of a remarkable cure that was effected in that vicinity. One of his customers was so badly afflicted with stomach trouble that he was sent to a hospital, but received little benefit and came home to die. Mr. Williams suggested that he try Chamberlain's Tablets which he did, and today he is a well man and weighs 175 pounds, obtainable everywhere.

## Santa Fe Society Notes

### COMING AND GOING.

Mrs. N. P. Langhille has returned from a visit with friends in Dallas, Texas. Her daughter, Mrs. William J. Barker, returned on Friday from a visit with her sister, Mrs. Marshall, at Ohio, Ark.

Mrs. Georgina Dickinson of Minneapolis, who spent the past ten days with her cousin, Mrs. Harry Langford Wilson, left Friday evening for Los Angeles, where she will be for the winter. She was the recipient of much social attention while here.

Miss Irene Wiley celebrated her birthday anniversary Tuesday afternoon with an enjoyable party to her young friends.

Governor W. C. McDonald has returned from a visit to his cattle ranch at Carrizozo.

Plans are on foot already for the inauguration of Governor-elect E. C. De la Haza. Something like \$240 is still in hand from the inaugural exercises of five years ago. To this next year the business men are expected to add a thousand dollars or so which, together with the proceeds from the sale of tickets to the inaugural ball, will defray the expenses.

Mrs. A. S. Brooks has returned from the coast, where she spent the summer.

The Women's Christian Temperance Union met with Mrs. Andrew Gunter on Friday afternoon.

As has been his wont for the past few years, Superintendent Alvan N. White will entertain the national speakers and other guests of honor at the Educational association at a dinner Tuesday.

Mrs. Lee S. Miller and two sons, who spent the summer at Hollywood, Calif., are expected home next week.

Mrs. H. H. Gibbs and children, who occupied the Miller house, will at the same time return to Hollywood, where their home had been occupied by the Gibbs. The idea of changing homes for a season is likely to take root with a few weeks or months.

Mrs. Burton R. Greene is expected from Los Angeles shortly to join her husband, who was operated on for appendicitis this week at St. Vincent's hospital.

On Friday evening Mrs. Frances

Hughes Wade, harpist, and Miss Julia Paul, soprano, of St. Louis, gave a delightful concert at Loretto academy.

Mrs. Lawrence Lee accompanied her father, Attorney A. H. McMillan of Albuquerque, to Santa Fe this week. She was the guest of Mrs. Harry F. Lee.

Ashley Pond, Carl Bishop and Mrs. Bishop have gone on an automobile trip to San Diego, where Mrs. Pond and children have been for the summer and where Mrs. Bishop's mother, Mrs. C. L. Bishop, resides.

Mrs. L. H. Wooters, who returned from a visit with relatives and friends in Dallas and Houston, Texas.

Mrs. John V. Conway is home from a visit with relatives in Kansas, Oklahoma and Missouri.

Former Governor Herbert J. Hagerman of Roswell was the guest of Mrs. A. H. Hagerman, president of the First National bank, during the week. He was on his way from Roswell to Colorado Springs.

The condition of the one-act play "A Maker of Dreams," by the Master Rollins on Friday evening will be an event of the first magnitude both dramatically and socially. A number of the convention visitors will remain over to witness it.

Judge A. L. Morrison left on Friday for Prescott, Ariz., to spend the holidays with his son, Attorney R. F. Morrison. There will be a family reunion at which four generations of the Morrison family will be present.

### A BUSY, BUSY WEEK.

Every public-spirited man and woman was busy as can be seen at the Educational convention. This is the little time for social activities. To the credit of this Old Town it is said that there were but few shirkers and that there were but few who refused to open their homes to the visitors and to give all the time and means at their command to serving the community. For it is a community cause to entertain so big and desirable a convention. Santa Fe's community spirit was strikingly shown again, and many a woman is working harder for the common good today than she would for herself or her own.

The entertainment features for the educational week will begin with the art exhibit in the Old Palace on Sunday afternoon, and the concert in the Masonic cathedral on Sunday evening and will continue until the football game on Thanksgiving day in the afternoon and the dance at the Elks'

club in the evening. The climax will be reached on Tuesday evening at the general reception at the capitol and the entertainment at the Masonic cathedral. Intermissions will be lawn tennis, reception, dances, automobile rides, oratorical and declamatory contests, motion picture show parties, and other forms of entertainment for groups of visitors. While large numbers of teachers will attend the section and general meetings, for that is the business that brings the convention together, not all the teachers will attend all of the meetings all of the time, and many of them will see to it that the opportunities for social diversion are not overlooked altogether.

### THE END OF THE TRAIL.

Summer and the end of the trail: Here the last faint footsteps fall And I go alone.

Into the "untracked ways," I shall recede; I shall leave the road straight up To the peaks that touch the sun— But now is the climbing done.

No more to my feet the trail; No more to my hand the rein; No more—Ah! never again The sun and the wind, and free! The far stars above me! As the wilderness called I went; Now deep and solemn and low A whisper calls—and I go.

See guide nor compass nor sign; Face set to the uttermost dark; And the wind in the strong houghs—Hark!

Tween and dinge for a king? Life, I have loved you well; Forgive the rest when you tell— This and old not failer, nor quell, See a sign at the end of the trail.

—Shirley M. Hall

### TWO ART EXHIBITS.

Last evening the pictures for the Santa Fe art exhibit at the Palace of Governors were hung in the reception room. It is a valuable and interesting exhibit that would attract attention from the big art centers of the world. It is especially to New Mexico that the pictures are dedicated. The artists are people who are glorified in the beauty of the landscape and in the life of the Indian. There is enough of the Indian, his people and his life, to give it the typical stamp of his life, but there is also a reflection of other types as well as of the atmosphere and sunshine in other

regards, to lend variety. How cosmopolitan the Santa Fe artists represented in the exhibit are, may be gathered from the fact that until recently Mr. and Mrs. Bert Hayward made their home in Paris, France; Mr. William Penhallow Henderson belonged to Chicago until a year ago; Mr. Sheldon Parsons had his studio in the fashionable quarters of New York city; Mr. Charles Cassidy even now is at work in a studio at Montclair, N. J.; Mr. Walter Eber is a Chicagoan who has just carried off one of the coveted prizes of the year in that city. Mr. Warren K. Collins makes his home in Los Angeles when not in the south-west, and one of his pictures recently received an award at the Panama-California exposition. Mr. Carlos Viera has sailed on every sea and sketched in many a foreign port; Mr. K. M. Chapman comes nearest being an out-and-out New Mexican, but originally came from Illinois and has studied and worked in New York, Washington, Philadelphia and Chicago. Some of these men have studied in Munich, Paris and other European art centers, and while they are creating in New Mexico, a distinctive school of art, they embody in their technique and witchery of their painting much that is noblest and best in the great world of art. The exhibit is therefore one of much significance, and certainly should prove an invitation to careful study by thoughtful teachers who are not narrowed in their outlook by the four seasons of the year in some isolated settlement. The visions of the artist are those also, and the atmosphere and people glow that are depicted upon canvas are part and parcel of every cultured person's daily life, no matter where located or how situated. Therein lies the advantage of culture, that it teaches the key to the glorious things of life, to joy and happiness that no hard luck can take away, in the things that are priceless and yet may be had without price by every one who has an understanding mind and a willing heart.

### THE MEN'S CLUB.

The fifteen club was the guest Friday afternoon at Mrs. Robert F. Asplund with Mrs. Boyle presiding in answer to call of quotations from Spanish authors or pertaining to Spain, were given. Mrs. Weller created the foundation and column of the Spanish, using Wilton's "History of Spain" as her text. Mrs. Boyle read one of Longfellow's translations from Spanish poetry. Current

events closed the program. The next meeting will be with Miss Alice Atkinson, Mrs. Harrison to preside.

### THE WARNING.

One lovely day I met a dame; I never knew the lady's name; I knew naught of the dainty fair, Nor where she lived, nor didn't care. But, say, she had one thing to say— Enough to stir up any chap: And I just stole a kiss or two, As any normal man would do; And as I leaped against her snout Another guy began to shout.

To get his name I didn't pause, Nor where he lived or what he was; And as he shot all over me, I'm careful now just where I kiss.

### WOMAN'S CLUB.

The Women's club meeting at the Elks building on Tuesday afternoon considered "The Milling Problem." Immigration and the unemployed problem were presented. Mrs. Robert F. Asplund told of a visit to Ellis Island and dwelt upon problems suggested by the visit. Karl Greene of the federal service explained the steps that the national government is taking to find jobs for everyone who needs or wants employment. Mrs. Jacob Wellmer presided.

### Library Texts Regal.

Santa Fe, Nov. 25.—The state tax commission has declared illegal the levy by the city of 1912 of a mill for the support of the public library because it increases the total levy for municipal purposes above the legal limit of three mills. The public library is maintained by the Women's League of Santa Fe. Years ago it received a small tax levy until an investigation by the chamber of commerce established its illegal nature so that instead of the railroad and other corporations helping to pay for its maintenance, the burden fell upon a few public spirited women and business men, as it will continue to fall until a legal method is found to distribute it more equitably.

### Dinner for Deaf-Blinded.

Washington, Nov. 25.—William J. Brown will be the guest of honor at a dinner here December 1, at which President Wilson and delegates of the deaf and blind will be invited. He is expected to make an address on the connection with his own life devoted himself to work for national problems.

# GIGANTIC MERGER OF BIG ARIZONA MINES REPORTED

Miami Southwestern, Miami Consolidated and Inspiration Needles Are the Big Mines in Question.

(BY MORNING JOURNAL SPECIAL LEADER WRITER)

Miami, Ariz., Nov. 25.—Reports from the east that a gigantic merger embracing the Miami Southwestern, the Miami Consolidated and the Inspiration Needles have created intense excitement in this district. It is known that John S. Cook has been spending considerable time in Boston recently in conference with the Paine-Webber interests who hold a large share of the Miami Southwestern and it is generally believed here that the consolidation will be brought about. Mining men declare that such a consolidation, which would mean the assembling of a property larger than that of the great Inspiration district, is logical and practically inevitable. The three companies' property adjoins and lies in the same general area with the Inspiration and Miami copper mines. With a working area of nearly four square miles the consolidated companies would have a prospect of developing one of the largest copper producers in the world.

On the Miami Southwestern a large porphyry ore body has already been proved. On the Inspiration Needles patches of sulphides have been encountered in drill hole No. 1 and engineers expect a big ore body within a few feet more depth. On the Miami Consolidated oxides are being shipped and there is every indication of sulphides.

Color is lent to the report that the three companies will be merged by the fact that the Paine-Webber interests are already making arrangements to resume drilling operations on the Miami Southwestern. There has been no work done on the property for some time but the Boston people have again become active and are about to set out to prove the ground not already drilled.

The following news items from the Boston Commercial throw an interesting light on the situation:

"Early this afternoon Vice President Cook of the Miami Consolidated Mines company, and the board of directors will convene in Boston, and take up for formal consideration the question of merger, either in the near future, or later, of the Inspiration Needles and Miami Consolidated companies. Such a merger would give the combined company a compact holding of 1,240 acres of a little over three square miles of porphyry ground. The street hints that the purpose of holding this meeting in Boston is to consider the addition of the Southwestern Miami Development company to the merger. This would add only one half acre of territory, a small fact of which has been developed by drilling and shows 1,275,000 tons of low grade ore. The proposed merger would afford a compact holding exceeding the big Inspiration Consolidated Copper company's acreage and amounting almost exactly to 3 1/2 square miles of porphyry ground.

"Of great importance to the Miami district and to the Miami Consolidated Mines and Inspiration Needles Copper companies, was a meeting in Boston yesterday of the Southwestern Miami Development company where, as was discussed by the Southwestern Miami board the proposition of merging with the above two companies. The merger would produce a compact tract of about 2,200 acres of mineral ground (between 3 1/2 and 4 square miles) surrounding the Inspiration Consolidated on west and south and containing the combination of the latter's ore bodies. It would be the largest mineral acreage in the Miami district, surpassing the combined mineral land holdings of both the Inspiration Consolidated and Miami Copper companies—1,881 and 222 acres respectively. The Paine-Webber forces hold an important stock interest in the Southwestern Miami, and in the event of the proposed merger would probably be represented on the consolidated board."

## GOMPERS AGAIN HEADS FEDERATION OF LABOR

(BY MORNING JOURNAL SPECIAL LEADER WRITER)

Baltimore, Nov. 25.—All workers organized and unorganized, were strongly urged to concentrate their efforts to secure an eight-hour work day at the earliest possible time in a committee report adopted by the American Federation of Labor today. The report pleaded "the increasing support of the American labor movement in the eight-hour principle."

It recommended that a special committee be appointed to confer on the subject with the organized employers of the transportation companies and report not later than four weeks before the annual convention of the federation.

The federation today unanimously re-elected the following officers: President, Samuel Gompers; first vice president, James O'Connell; third vice president, D. A. Hays; fourth vice president, Joseph P. Valentine; fifth vice president, John H. Apple; sixth vice president, H. B. Perkins; seventh vice president, Frank J. Murphy; eighth vice president, William Green; treasurer, John L. Lanning; secretary, Frank Morrison.

Huffala was chosen as the meeting place at the convention next year at the American Federation of Labor.

American Fuel Pool Shortage.  
Washington, Nov. 25.—General Lucius H. Berlin is working with the consent of the state department to help the American residents feeling fuel shortage. He has informed the department of the amount and kind of supplies needed but so far has not requested the number of those who will be supplied. It is believed that under a system of safeguards, the extent of the fuel shortage will be limited to permit American residents of the central empire to be relieved.

OFFICIAL ATTEMPTS TO SMASH EGG CORNER

(BY MORNING JOURNAL SPECIAL LEADER WRITER)  
Chicago, Nov. 25.—An attempt to smash an alleged corner in eggs here was made today by John D. Robertson, health commissioner, who on authority of an almost forgotten ordinance, conducted a raid on a cold storage warehouse. One speculator here is said to have control of 72,000,000 eggs. The ordinance authorizes the health commissioner to hold for investigation eggs whose quality is suspected. Dr. Robertson said he would hold all suspicious eggs for further inspection and would destroy all bad eggs.

RAILROAD LAWYER GIVES VIEWS ON REGULATION

(BY MORNING JOURNAL SPECIAL LEADER WRITER)  
Washington, Nov. 25.—Any last system of railway regulation, A. P. Thoms, chairman for the railway executives' advisory committee this morning told the congressional committee, must include the following: Entire regulation except of purely local matters, by the federal government. Federal incorporation as a means to this end. Reorganization of the Interstate Commerce commission and creation of a railroad commission and regional subsidiaries. Authority to the Interstate Commerce commission to prescribe minimum rates. Reduction of power of rate suspension to sixty days, instead of ten months as now. Exclusive supervision of interstate carrier securities by the federal government.

# OFFICIAL COUNT ALMOST FINISHED IN CALIFORNIA

No Material Change Shown in Any of the Figures for Presidential; Announcement for State Expected Tonight.

(BY MORNING JOURNAL SPECIAL LEADER WRITER)

Sacramento, Cal., Nov. 25.—Figures tabulated at the office of the secretary of state today when the canvass of San Francisco county's returns for presidential electors had been completed, showed that the highest democratic elector had a margin of 3,806 votes over the highest republican in the vote. Figures were: J. Francis Henry, highest democratic, 466,280; J. P. Carlson, highest republican, 462,474. The lowest democratic elector, Mrs. Carrie L. Tylet, was found to have 462,621 votes, or a margin of 1,227 over the highest republican. These figures do not include the amended vote of Orange county, where the addition of the vote of a missing precinct is said to make a difference of thirty-three votes in favor of the republican electors. While the above results have not been recorded official certification by the secretary of state, they are considered correct and it is not expected the result of the canvass when officially announced will differ materially. Tabulation of the entire vote of San Francisco county will be finished today, but announcement of the official vote of the state is not expected before Sunday night.

ULTIMATUM DELIVERED TO GREECE BY ALLIES

(BY MORNING JOURNAL SPECIAL LEADER WRITER)  
Athens, Nov. 24 (via London, Nov. 25).—The entente allies have delivered an ultimatum to Greece requiring delivery of Greek arms and munitions which were demanded recently.

The ultimatum, which comes from Vice Admiral Delfourant, commander of the allied squadron, while allowing only a short period in which the arms now in Athens are to be surrendered, declares willingness to grant a longer time for delivery of war materials in the Sady and the Macedonia. The shortest time allotted is forty-eight hours, and the longest one week. Unless the demand is complied with, the admiral declared, he will take measures to induce compliance with it progressing in severity if the delay increases.

The resignation of the cabinet is considered imminent. This afternoon King Constantine called Christakis Zographos, former foreign minister.

DESTROYERS RAID ENGLISH COAST.

London, Nov. 25.—A raid by six German torpedo boat destroyers on the English coast, which took place on Thursday night, was announced in an official statement today. The raid was ineffective, according to the statement, which declares that the six German destroyers participating in it steamed away after firing a dozen rounds, one shell striking a small vessel but causing little damage and no injury.

BOYS ARE BURIED ALIVE.

Baltimore, Nov. 25.—Five boys were buried alive by the caving in of a sand bank in West Baltimore last night. The dead are:

EDWIN DAVIS.  
HERBERT GAYLOR.  
FRANCIS K. THAINER.  
WILLIAM KIRTRICK.  
Frank Davis was dug out so badly crushed that his death is regarded as certain.

STUB-TOE TRACK LEADS OFFICERS TO CULPRITS

(BY MORNING JOURNAL SPECIAL LEADER WRITER)  
Amarillo, Tex., Nov. 25.—Tracing a stub-toe track through the snow, Deputy Sheriffs Roach and Marlow tonight arrested the two Mexican youths who, the officers said, last night placed the on the tracks in front of a fast-moving Rock Island train, six miles east of Amarillo. The engineer saw the obstruction and stopped the train within a few feet of the pile of logs. The perpetrators were Jose Rodriguez, 19, whose short foot track was traced, and Apollonia Costilla, 17. City Attorney Johnson and Sheriff Burwell said both boys confessed their intention was robbery. Johnson said they barely stopped the train in time to save the 150 passengers aboard.

Sale of Grant Ends Litigation.

Santa Fe, Nov. 25.—The selling of a deed for the Caja del Rio grant west of Santa Fe, purchased by Senator R. F. Pankey, was held up for a time by District Judge Herbert F. Reynolds, who while at Hillsboro had signed an order allowing \$5,000 fees for the referee, \$1,000 for attorney and another sum for costs. Upon seeing thought, the first-named fee seemed excessive to Judge Reynolds and he telegraphed directions not to file the order. The order was then amended cutting the fees from \$5,000 to \$1,000 and the deed was passed. The sale of the grant ends litigation that has extended over many years. The partition necessitated the compiling of extensive genealogies and many of the heirs were entitled to only small portions. Many of these claims were purchased by J. H. Vaughn and others. Mr. Pankey will stock the ranch with cattle but plans for future development along other lines have been discussed.

Took a Neighbor's Advice.

"Last winter my son Claude had a severe attack of croup. I took a neighbor's advice and procured a bottle of Chamberlain's Cough Remedy. It relieved him promptly," writes Mrs. T. H. Bell, Vandergraff, Pa. Obtainable everywhere.
