DEPORTATION OF BELGIANS TO BE TAKEN UP AGAIN WITH GERMANY

ambassador Gerard to Make New Representations in Bel- half of United States, Na- ture of Which Is Not Known

TO TALK MATTER OVER WITH PRESIDENT TODAY

Ground of Humanity Is Only Basis on Which This Country Has to Proceed in Its Diplomatic Negotiations.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Washington, Nov. 28.—New repre- sentations are about to be made to the German government by the United States concerning the deportation of Belgian civilians for labor in Ger- many. What form they shall take has not been determined, but it be- lieved to be known that the admin- istration is seriously exercised over the matter and is preparing for its presentation with great deliberation, hoping to make it effective without ending the relations between the two countries.

American Charge Grew at Berlin, recently took up this question in- ternally with the German foreign of- fice, and said that a most unfavorable opinion was being formed in neu- tral countries, particularly the United States. His effort was unavailing, however. The foreign office, in a note now on its way to Washington, explained that the deportation of the Belgians was necessary and was in accordance with the provisions of the treaty governing the treatment of aliens in conquered territory.

The charge's preliminary report, he later stated, had been made to the German government, and other infor- mation in the hands of the state de- partment were discussed at today's cabinet meeting and Secretary Lansing remained with the president for nearly half an hour after the other members left. Ambassador Gerard, before his final conference before re- turning to Berlin, and Colonel E. M. House, during visits to the White House, and the state depart- ment, it was said later that this situ- ation had made such a profound im- pression that for the present, at least, it had displaced interest in the sub- marine issue.

To See President Today.
Ambassador Gerard did not see the president, but at Mr. Wilson's request, after his plan to leave for New York, and will see him tomorrow. He- cause of whether it is decided to return Charge Grew to act further immediately in the Belgian matter, the ambassador will be given the president's personal views on that subject, as well as concerning the lat- est developments in submarine war- fare.

Side department officials admit that the government is proceeding with the greatest difficulty in con- sidering the help the unfortunate Bel- gians. They say that virtually the only ground of humanity is the fact that a small number of Belgians are almost impossible to establish as noncontributory statement of the state in the case.

The refusal of the British govern- ment to grant safe conduct to Count Radecki, the new Austro-Hungarian ambassador to the United States, also brought up at today's cabinet meeting and dissatisfaction was gen- erally expressed. Any step that may be taken by the United States will be played until full consideration has been given the British note on the subject.

Viscount Has Rough Time.
London, Nov. 28.—Viscount Hall- ington, the former secretary for war, who had been lord chancellor, while visiting here, the Royal Society of Arts, tonight, was subjected to a suc- cession of violent interruptions from a number of well-dressed women, who loudly accused him of being a traitor, pro-German and an enemy to his country, desecrating of being sent to the Tower. The women had to be ordered from the building before quiet was restored.

Paris and Funtion to Confer.
Albuquerque, Tex., Nov. 28.—Bri- tish General James Parker, com- mander of the Brownsville district, left here today, accompanied by Major Capt. Courland Parker and Lieutenant Paul Raborg, for San An- tonio, where he will confer with Major General Frederick Funston concern- ing the general military situation of the border.

TEUTONIC DRIVE TOWARD CAPITAL OF RUMANIA NOW IN FULL SWING

Operations of Forces of Central Powers Bring Them Appreciably Nearer Bucharest, Their Ultimate Goal.

DIVERGENT REPORTS ON MACEDONIAN OPERATIONS

The Situation There Is Some- what Beclouded Because of This Fact: American Steamer Is Sunk by Submarine.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
The operations of the Teutonic al- lies in Rumania have brought them appreciably nearer Bucharest and are still progressing from the north and the west and the south and the south- west.

The northern bank of the Danube in Rumania extending westward from Giurgiu, on the railroad south of Bucharest, to opposite Vilia, a short distance from the Serbian border, now is in the hands of the forces of the central powers. The capture of points in this section opposite Vilia, Lom- batica and Rahova, by the Bulgar- ians, would seem seriously to men- ace the Rumanian troops from the Orsova and Turnu Severin sectors, who have reported several days ago to have retreated to the southwest.

The occupation of Giurgiu forms the line of Field Marshal von Mackensen to within thirty-five miles of Bucharest on the south, while the capture of Caribon de Arges, eighty miles west of the capital, evidently has cleared the Topolice sector of Rumania and given the invaders the railroad to the important town of Pitesti, the junction of the line running from Compiègne to Bucharest.

Report Is Obedient.
In the center, the Teutonic allies are still making progress, having left the Alt Vlach in their rear. An un- official dispatch from Bucharest says the movement of the Rumanian army is proceeding in perfect order toward a new front already settled on for de- fence.

The operations in Macedonia, al- though somewhat clouded by reason of divergent reports, Berlin says that north of Monastir renewed attacks by the central allies failed while the Serbian war office claims that in fighting along the entire front the Serbs at several points made advances of several hundred meters.

Serbia, on the other hand, asserts that attacks on Hill 1070 and the vil- lage of Tardovac were put down by the Bulgarians and Germans, as like- wise was a British offensive in the Vardar region, south of the village of Dozovitch.

Fighting in Carpathians.
On the front in France and in the Austro-Italian theater, nothing but bombardments have taken place. South of Divinsk, on the Russian front, artillery duels have been in progress. Considerable activity also has de- veloped in the region of Riga. In the Carpathians, the Rumanians have begun another attack against the Austro- German and Italian is now proceed- ing there.

Petrograd admits that the Turks have occupied the towns of Adraman and Keshishli, south of Van, Tur- kish Armenia.

The American steamer Chemung has been sunk in the Mediterranean off the coast of Spain by a German submarine. The crew was landed on the island of Minorca. The vessel was carrying eight other vessels, two each, Nor- western flags, have been sunk. The total tonnage was about 20,000. In addition the Danish steamer Vildebeest has been captured by the Germans.

Two more Zeppelins, which were riding low over England, have been brought down in flames by anti- aircraft guns. The crews of both air- ships perished. A German airship has dropped bombs on London. Nine persons were injured. The material damage was slight.

PEACE LEAGUE PLANS EXPLAINED BY TAFT

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Washington, Nov. 28.—Plans of the League to Enforce Peace were ex- plained tonight in one of the latest addresses ever assembled in Wor- cester, by former President William H. Taft. Former Governor David I. Walsh, Samuel J. Tilden, Lieutenant Governor Calvin Coolidge, Prof. George H. Boker of Clark univer- sity, and Dr. H. S. Hollis, professor in Worcester Polytechnic institute.

"If the machinery of war keeps on expanding, it will mean as President Wilson says, that in our next year there will be no neutrals," said Mr. Taft.

Dr. H. P. Roosevelt, assistant sec- retary of the permanent court of ar- bitration at The Hague, and Prof. William F. Budge, in charge of the neu- tral literature department at the Uni- versity of California, also occupied seats on the platform tonight, en- dored the plan of the League to Enforce Peace.

FATE OF GARRISON AT CHIHUAHUA IS STILL SHROUDED IN UNCERTAINTY

Another Day of Suspense Passes Without Anything Definite Being Announced as to Soldiers There.

TREVINO'S AMMUNITION EXHAUSTED, IS REPORT

He May Have Had to Aban- don the State Capital on That Account; Gonzales Has Gone to Assist, If Possible.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Juarez, Mex., Nov. 28.—Another day of suspense passed today without any- thing definite being announced as to the fate of the Carranza garrison in Chihuahua. It has now been six days since the first skirmishing started, which opened the siege of the state capital, and three days since the tele- graph line was cut.

Since early today, persistent reports have been in circulation here and in El Paso to the effect that General Trevino has been forced to abandon the state capital because his ammuni- tion supply was exhausted. One re- port stated General Trevino had gone south toward Tapachula, a few miles below Chihuahua City, where he made his last stand before retreating further south. Other reports said his forces became divided, a part going south to join General Morales's advancing column and the remainder moving north to take a station to the north of the city.

High Carranza officials, as well as officers of General Gonzalez's staff, admitted that these reports might be true, late today, and said it was pos- sible that General Trevino had been forced to withdraw temporarily until General Gonzalez arrived with fresh troops and ammunition supplies. The tempo- rary commander of the garrison here said he expected to hear that Trevino had retired to San to get ammuni- tion from the north and to wait for Carranza's arrival to the south of the city.

Reports that Carranza, including Americans and other foreigners, had reached Tijuana today, and also that General Carlos Ochoa had arrived there with the remnants of his ex- iled column, were received here from various sources today, but could not be verified by telegraph from Tijuana or San, according to the acting commander of the military head- quarters.

General Francisco Gonzalez, who left Juarez early today with a force of men, machine guns and a car of ammunition, is expected to return to- morrow morning. He left to make a scouting trip and if possible to reach San and organize a force to send by the assistance of General Trevino, it was announced here today.

The smoke of an approaching train was thought to have been seen late today from the south, but it proved to be a switch engine from the Juarez railroad yards.

LIFTING OF EMBARGO ON AMMUNITION IS URGED

Juarez, Mex., Nov. 28.—Carranza officers here say frankly that the lift- ing of the American embargo on am- munition would have an important effect on the campaign against Villa.

"We would pay stiff prices in gold right now if we could ship it across the border," said an officer of high rank today. "The whole issue de- pends on whose ammunition lasts longest."

The United States government stands in a peculiar position in this affair," he continued. "They tell us to get Villa, refusing to withdraw the punitive expedition until Villa ceases to be a military or political factor of importance, and then deny us the means to overcome him."

"If General Trevino has withdrawn from Chihuahua City, it is solely be- cause of lack of ammunition. There can be no other explanation."

SIGNING OF PROTOCOL MAY BE HASTENED, IS BELIEF

Washington, Nov. 28.—Heavy ex- pectations of an agreement by General Trevino in his fight with Villa at Chihuahua, is expected here to result in a speedy peace upon Carranza for formal ratification of the protocol signed at Atlantic City by the Mexi- can-American commission. Although a representation was made by the Mexican members looking to a lifting of the embargo on arms and ammuni- tion, they were given to understand that consideration would be given to such representation if Carranza dis- played a willingness to enter into an agreement whose basic principles would be the protection of the life and property of innocents in Mexico.

Carranza's spokesmen informed the American commission some weeks ago that security of ammunition was hampering their government's com- munication, and official advice since the beginning of Villa's latest campaign have emphasized General Trevino's shortage of ammunition. Information has reached the government from sources indicating that General Ocho-

son, Mexican minister of war, had not supplied the Carranza army with li- censes as he could have, but in official Mexican quarters there was a denial of this and a retort that the assen- sion that the shortage extended to all general stores.

Alberto J. Pani, the Mexican com- missioner, designated to place before Carranza the protocol signed at At- lantic City, is expected to arrive at Queretaro late tomorrow. It is known that Mr. Pani will urge prompt ratifi- cation of the agreement.

Administration officials do not im- mune the importance of Villa's re- newed strength but few believe it will assume such proportions as to alter the plan of the United States. It is planned to have representatives of the joint committee meet here this week to formulate a tentative program for the conferences that will begin De- cember 8, if Carranza gives his ratifi- cation.

VILLA IS IN CHIHUAHUA CITY, OFFICIALS CLAIM

El Paso, Texas, Nov. 28.—Govern- ment officials here declared tonight they had received information which convinced them Villa was in Chihua- hua City. It was also known that official reports to this effect had been sent to Washington, substantiating messages sent earlier in the day, re- porting Villa in possession of the city and Trevino in flight.

One government source gave out a report tonight that Villa had ordered all of the foreign residents of Chihua- hua City to leave on a special train for the border, but this report lacked verification. It was stated, however, that another report was that Villa had captured a car of ammunition which had been sent from Juarez to General Trevino, and had sent General Gon- zalez a message thanking him for the ammunition. Villa, according to the same report, used Trevino's private code, which had fallen into his hands. It was said.

SKY-LIGHTING BOMBS USED IN SHAM BATTLE

BY MORNING JOURNAL SPECIAL LEADER WIRE.
San Antonio, Tex., Nov. 28.—Sky- lighting bombs, similar to those now being used in Europe, and which re- cently have been adopted by the United States army, were given a demon- stration in a sham battle here tonight. Major General Funston declared the first test was a success and dem- onstrated their value in warfare.

The First and Second Wisconsin regiments were engaged in the battle with the Battalion of Colorado men occupying a series of trenches which the other two regiments sought to storm. State disarming bombs were fired from across the line by the French forces to prevent an attack in the darkness.

The limited bombs were held sus- pended in the air for several minutes before being exploded, attached to their fuses by a wire which effec- tively retarded their progress. The at- tacking forces endeavored to make.

The spectacle was watched by 18,000 national guardsmen and many civilians.

PROSECUTOR TO TESTIFY IN OWN BEHALF TODAY

Oscar D. McDaniel, Accused of Slaying His Wife, Will Go on the Stand; Case Is Near- ing the End, Is Belief.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
St. Joseph, Mo., Nov. 28.—The de- fence of Prosecutor Oscar D. McDaniel, charged with having murdered his wife, drew new life today with the testimony of J. A. Cook, head of a local telephone company, concern- ing the burning of a mattress found in a room of the accused man's home.

Following the announcement of Cook, Judge C. F. Sargeant called counsel for the defense, announced that McDaniel would take the stand tomorrow morning and make a lengthy cross- examination following, his side prob- ably would rest today.

Mr. Cook was preceded by Judge Marvin Kirkman of the county court, who testified that Buchanan county has paid that A. Lockwood, the spe- cial prosecutor in the case, a total of \$100, but that \$100 of this amount was returned to the county by the re- ceived man himself. He also testified that Lockwood asked for a total of \$1,000, with which to prosecute McDaniel.

E. E. Gird testified that he had seen McDaniel leave the window of his bedroom about 2:15 a. m. the night the wife was murdered. Gird testified he was seated on his front porch and saw McDaniel drive up to his garage about 11 o'clock that night, apparently carrying a bundle. The twenty-five minutes later, Gird said, McDaniel left home again and five minutes later, Mrs. McDaniel was seen.

On his direct examination by the defense, Cook said he suggested to McDaniel that the mattress be burned.

"He answered it might be the best thing to do," the witness testified.

Judge Sargeant read into the record a letter Judge Thomas E. Ryan, the trial judge, had received from McDaniel. It was dated July 19, five days after the murder, and asked Judge Ryan to appoint a special pro- secutor and to appear to the office of the attorney general for aid in solv- ing the murder mystery.

CHEMUNG, UNITED STATES STEAMER, SENT TO BOTTOM BY A GERMAN SUB

Teutonic Commander Gives Crew Five Minutes to Aban- don Vessel; Not Allowed to Take Their Money.

EFFORTS TO LOWER STARS AND STRIPES RESISTED

American Captain and Crew Refuse to Haul Down the Colors; Ship Sinks With Flag Floating at Her Mast.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Paris, Nov. 28.—(Continued.)—A Madrid dispatch by wireless announces the arrival at — of the crew of the American steamer Chemung, tor- pedoed in — by a German subma- rine. The commander gave the crew only a few minutes to abandon the vessel, not allowing them even to take their money and papers.

The submarine towed the Chemung in which the crew were placed in within five miles of the coast, where it abandoned them.

The Chemung went down with the stars and stripes floating at her mast. A lively incident preceded the sinking of the vessel. The German commander gave orders that the American flag should be lowered and German sailors prepared to pull them into effect. They met with stubborn resistance on the part of the American Captain Duffy and his crew, who refused to haul down the colors, saying that if the ship had to be sunk, it would be with the flag flying.

Captain Duffy maintained his ground, and so rapidly were the preparations to sink the Chemung made that further discussion about the flag ceased, and after the cap- tain and crew had been taken aboard the submarine, a torpedo and three shells and scuttled the side of the American ship put her to the bottom.

Although angry at the action of the German commander, Captain Duffy and his men had some measure of satisfaction in seeing the flag at the masthead as the waves finally engulfed their ship.

The Chemung was registered at New York and carried a crew of twenty- four. They found a place in two life- boats and after a time on the open sea were picked up by a Spanish steamer, which took them to Valencia. Captain Duffy has made a long re- port of the incident to the American consul at Valencia, John H. Putnam.

RESERVE BOARD ISSUES EARNING TO BANKERS

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Washington, Nov. 28.—Bankers to- day received a warning from the fed- eral reserve board against investing in foreign government's treasury bills for long terms. A statement issued by the board was interpreted informally by some officials as referring to the recent proposal of J. P. Morgan & Co., British financial representatives, that American bankers make loans on British treasury bills of indefinite term, secured by gold reserves in England. These loans would be for im- mediate periods.

The board also told bankers that further extensions and imports will be considered only if followed by great loan expansion and inflation.

WILL OFFER SHORT TERM NOTES REGARDLESS

New York, Nov. 28.—The proposed offering of a series of short term treasury notes by J. P. Morgan and company for the British and French governments, it is authoritatively stated today, will be made, regardless of the warning issued by the federal reserve board. The notes, ranging from three months to six months, will be issued in limited amounts in re- sponse to widespread demands from banks and investors and will not be renewable. Bankers representing the governments agreed to pay to what extent, if at all, future international trade might be affected by the action of the reserve board.

HOUSEWIVES PLANNING TO COMBAT HIGH FOOD COST

BY MORNING JOURNAL SPECIAL LEADER WIRE.
New Orleans, Nov. 28.—The local housewives' league is planning to combat high prices of food by or- ganizing the supply of products in two high warrents, where butter, eggs, poultry and vegetables bought direct from farmers are sold to New Or- leans housewives. At the first ex- hibition yesterday, butter was quoted at 30 cents a pound, eggs 15 cents and turkey 20 to 25 cents. The league markets tonight prices five cents lower than yesterday.

German Airplane Brought Down.
London, Nov. 28.—An admirably an- nouncement late last night says: "The Commodore of the French has been in- formed by the French authorities that they brought down an airplane at 2:15 o'clock Tuesday afternoon, carry- ing two naval lieutenants and with a large scale map of London aboard."

ADVANCED LEGISLATIVE PROGRAM ADVOCATED BY EDUCATORS IN SESSION AT STATE CONVENTION

LAW-MAKERS CALLED UPON TO DIVORCE THE SCHOOL SYSTEM FROM POLITICS FOR ALL TIME

Plan Proposed Would Take Election of State Superintendent of Public Instruction From People and Place It in Hands of Board of Education; Extension of County Unit Idea to Entire State and Administration of School Lands by Specially Selected Official Are Favored; Santa Fe Making Bitter Fight for Retention of Convention and Many Merchants Are Registering Members to Vote for That City; Attack on Roberts Reacts.

(Special Correspondence to Morning Journal.)

Santa Fe, Nov. 28.—If the state leg- islature needs the recommendations of the city and county school superin- tendents who met in joint session this afternoon, New Mexico will need upon its statute books some of the most advanced legislation yet enacted by any state in the union.

After a spirited discussion the meeting adopted a recommendation to the legislature asking for the submis- sion of a constitutional amendment to put the state unit idea into effect along the same lines that has made the county unit law in New Mexico so successful. The conference asked further that county boards of educa- tion be created and that these boards be given the power to appoint the county superintendent, it also desires that the state superintendent be taken out of politics and the state su- perintendent be chosen by the state board of education.

It went further, and asked for the creation of a commission of educa- tion, to administer the school laws, and to be the administrative officer to put the state unit idea into effect, so that every boy and girl in the entire state may have equal educational opportunities, no matter whether in the most remote rural district or in the most congested city ward. Finally, the meeting asked for a teachers' pension law.

Result of Warm Discussion.
This legislative program was en- dorsed not without a struggle, not without debate, but as the result of extensive discussion among the leaders in the educational forward movement in the state. Additional significance was given to this pro- gram tonight when Secretary of State Antonio Luque, at the National Academy, announced that he will bring all his energies and use all his powers of persuasion to induce the legislature and the governor to place upon the statute books a law that will forever divorce the positions of state superintendent, as well as county superintendents, from partisan politics.

The city superintendent's section to- day elected Superintendent Hoover of Chicago, president. Earl E. Logan, of Astoria, vice president. C. B. Bellamy of Capital, secretary. J. F. Isenhardt, member of the council for two years, and G. B. Bellamy for one year. The section section elected Prof. Jones of Albuquerque, president, and F. Stanley, of the State university, secretary.

The reconstruction of the convention after the adjournment of the day before and was still going on by 11:30 a. m. and as much as 1000 people were gathered there this afternoon because of expec- tation by Santa Fe business men, who have opened a bitter fight to retain the convention for this city. Inven- tively this session brought out some opposition to the candidacy of Dr. Frank H. H. Roberts for the presi- dency and a number scratched the names of others and substituting the name of Miss Isabel Roberts, of Santa Fe, for this office.

Old Quarrels Revived.
Behind this mixup there are a num- ber of historical and political issues which have been somewhat obscured by the fact that the convention has been held in this city. It is impossible to tell this morning whether Santa Fe or Al- buquerque has secured the larger number of votes, but tonight the town is distinctly in favor of Albuquerque because of resentment over the un- precedented and bitter attacks upon President Roberts.

Miss Roberts, at 10:15 p. m. has com- menced her campaign as a candidate for president and has deeply resented the unfairness of the position in which she has been placed by the dropping in of her name. There appears to be no chance of the election of Dr. Roberts to the presidency. The polls will close tomorrow noon and the votes will be counted at the afternoon session if the ballots can be counted in that time.

Tonight the two normal schools gave their annual banquets. At each of them guests were paid for 125. A number of covers of honor and others

prominent in educational movements responded to toasts. At the capitol a reception was given to the visitors, during which they had the opportu- nity to meet the state officials. At the Scottish Rite cathedral a vaudeville performance by local talent, including a real Indian dance by Pueblos of San Ildefonso, was given.

POTASH TO BE FOUND SOMEWHERE IN NEW MEXICO
Santa Fe, Nov. 28.—Potash, the one mineral that is being sought in every part of the United States and that is urgently needed by the warring na- tions of Europe, exists in New Mex- ico. Prof. J. B. Clark of the Uni- versity of New Mexico has in his lab- oratory specimens sent him from "somewhere" in New Mexico, which are the much-sought potash. He does not know where the mineral was found, except that it was within the state boundaries, as the discoverers are keeping the location a secret for the present.

It is in the New Mexico Association of Science section that the results of the year's original research work are announced annually during the Edu- cational convention, and it is at which makes the science section sessions the most significant and inter- esting of all. This forenoon, at the Museum, L. A. Hickey, professor of chemistry at the State college, pre- sented the latest deductions and con- clusions regarding the alkali prob- lem, which is a most pressing one in New Mexico. Professor Hickey held out the hope that eventually a large portion of alkali lands will be made productive. He defined the nature of alkali and explained why it is chiefly found in desert regions and hardly at all in regions in which the rainfall ex- ceeds 20 inches a year. Alkali is not found in the rocks, as a rule, from which the soil is constituted; but only after the rock has disintegrated into soil and has been exposed to chemi- cal reactions, it grows alkali so that the zone of maximum activity is near the surface. As all alkali is soluble, what happens in the rainy country is that it is leached out of the soil, and in this it suggests the practical remedy. In discussing remedies, Pro- fessor Hickey advised the retardation of evaporation. Much of the alkali is only a temporary ex- pectant. That alkali is not a practical remedy nor are the chemical prepara- tions that are occasionally advertised.

After all remedies have been tried, a method of drainage which will carry the alkali constituents out of the soil. Mr. Hickey discussed various sys- tems of drainage, especially sub-drain- age. Start your sub-drainage system early and keep it going," was his con- cluding advice. Hiram Bradley of Mesilla Park cited the example of a field from which he washed the alkali by irrigation 25 years ago and to which it has not returned since then.

Professor Clark made a point that New Mexico's nation, in fact, has placed many agencies at the disposal of the former agencies which stand ready to solve and help him in the solution of his problems and of which the farmer should make the best use.

That the gold supply of the world will give out and that within appreci- able short time, was the comforting prediction made by President E. A. Jones of the School of Mines in his paper before the association. Whether this means the reclamation of silver by the establishment of a new unit value, perhaps out of energy, he did not venture to say, but he predicted an entire reorganization of values and of business. The production of gold, according to President Jones, prob- ably reached its maximum in 1912. It is to the time of the discovery of America, not more than \$175,000,000 worth of gold has been produced in the world. Today there are 28 bil- lion dollars' worth of the precious metal in the world. Hydrolytic min- ing in connection with the discovery of gold in California produced the first great upward swing in gold pro- duction. The electrolysis process gave the productive curve another tremendous increase, to which the flotation process added a decided im- petus. It is not likely, however, that any further decided improvement in

He said the diseased cattle found today had been in the Kansas City yards for two weeks or more, and it has not been possible to trace their origin. While the lesions are somewhat similar to those found in cases of foot and mouth disease, Dr. Fleming said he would hesitate to diagnose the

The islands have been leased by the Mexican federal government to two Mexican citizens for a period of five years. The lease was announced in Mexican quarters today. Permission to construct a modern hotel, bath house and amusement places was embodied in the contract. The two Mexicans, Gerardo Bernal and Salvador Cárdenas, are given the exclusive right to exploit the strange creatures on the islands. It is understood the two men plan to establish a permanent watering place.

KEEP HENS, EAT CORN AND RICE, LIVE CHEAPLY

Speaker Champ Clark Has a Remedy for Overcoming the High Cost of Food; Consumers Can Reduce Expenses.

BY MORNING JOURNAL SPECIAL LEASED WIRE. Washington, Nov. 28.—If the high cost of living bothers you, don't wait for governmental remedies, but buy corn and rice and eat more corn and rice, says Speaker Champ Clark. "I suggest I myself today on high cost of living problem, which means to me one of the greatest faces of the nation," he referred to Henry, native Philadelphia embargo bill.

There, Clark said, is not a chance to Mr. Clark's proposed bill, he said, "I want to do some good; I don't want to think the government can do anything but I do know that there are ways in which the consumer can cut down his expenses."

For instance, anyone who can afford to buy some hens, any man who has twenty square feet of ground can keep them.

People should eat more corn products, he said, is highly nutritious, and it is not expensive.

Rice is generally overlooked in this country. I was surprised to find the other day that five cents worth of rice will serve six as a substitute for meat for an entire day in a family or for a party.

The speaker declared that he will use passage of a federal law prohibiting the killing of wild geese. He expressed the view that extra regulations violate the law holding geese for a price in price, and that people were "foolish" to permit their geese to be regulated from one part of the country.

THOM SAYS GOVERNMENT OWNERSHIP IS CERTAIN

BY MORNING JOURNAL SPECIAL LEASED WIRE. Washington, Nov. 28.—Government ownership of railroads is inevitable, Alfred P. Thom, counsel for the American railway executive association, told the congressional committee investigating the whole subject of transportation, which was held in session today to discuss the proposed bill to take the railroads out of private hands.

"Present conditions," Mr. Thom told the committee, "are such that the government is bound to take over the railroads. It is a question of when, not if."

HINTON RESIGNS AS SECRETARY OF COMMERCIAL CLUB

Well Known Live Wire Leaves Silver City at End of Year to Accept Position With Denver Manufacturers' Association

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Silver City, N. M., Nov. 28.—Carl Hinton, secretary of the Silver City Chamber of Commerce since February 1, 1915, has tendered his resignation, effective December 31. Mr. Hinton has been elected secretary of the Denver Manufacturers' Association and will take up his new duties on January 1, 1917.

A successor to Mr. Hinton as secretary of the local chamber of commerce is expected to be named by President T. L. Lowe and ratified by the executive committee of the chamber of commerce, some time this week, so that the new secretary may familiarize himself with the duties of the position before the departure of Mr. Hinton. Several applications are on file for the local secretaryship.

Coming to Silver City in July, 1914, Mr. Hinton took charge of the Baptist church as its resident pastor. Because of ill health he gave up his church duties in January, 1915, and in February of the same year became affiliated with the chamber of commerce as its secretary.

Increased Membership.

The membership of the chamber at that time was about fifty, with collections amounting to approximately \$1,500 a year. Co-operating with the business men, Secretary Hinton started a membership campaign which resulted in the addition of over 200 members. An advertising campaign was launched and Silver City was acquainted with the world with the advantages of this region as a health resort for those suffering from tuberculosis. A graduated assessment of business firms and property owners brought in funds for advertising purposes and last year \$25,000 was collected for Chamber of Commerce work. The climate advertising has been carried on for the past two years with splendid results.

While visiting Denver two weeks ago, Secretary Hinton was offered the position of secretary of the Denver Manufacturers' Association, chiefly on the ground he had made while serving the Silver City Chamber of Commerce. He previously had served commercial bodies in Denver with success and therefore was not unknown to Denver business men. The Denver Manufacturers' Association is composed of over 200 manufacturing companies and pays its secretary a salary far in excess of that paid to the local chamber, hence the acceptance of the new position by Mr. Hinton was but natural. At Denver he enters a field of public endeavor which has a bright future for greater service.

8-HOUR WORK DAY WOULD INCREASE DRINKING, SAYS

Nickel Plate Yardmaster Declares Switchmen Would Have More Time to Commune With J. B. Barleycorn.

BY MORNING JOURNAL SPECIAL LEASED WIRE. New York, Nov. 28.—Frank M. Friend, yardmaster at Buffalo for the Nickel Plate railroad, late today informed the arbitration board, which is trying to settle the differences between the switchmen's union and thirteen railroads, that he believed the eight-hour day would increase drinking among railroad switchmen, because they would have more leisure.

W. E. Wheeler, superintendent of terminals for the Cincinnati, New Orleans and Texas Pacific railroad, at Chattanooga, testified that seven years ago he had been a switchman. He asserted the different rates of pay had been fixed under an agreement with the organization at the time.

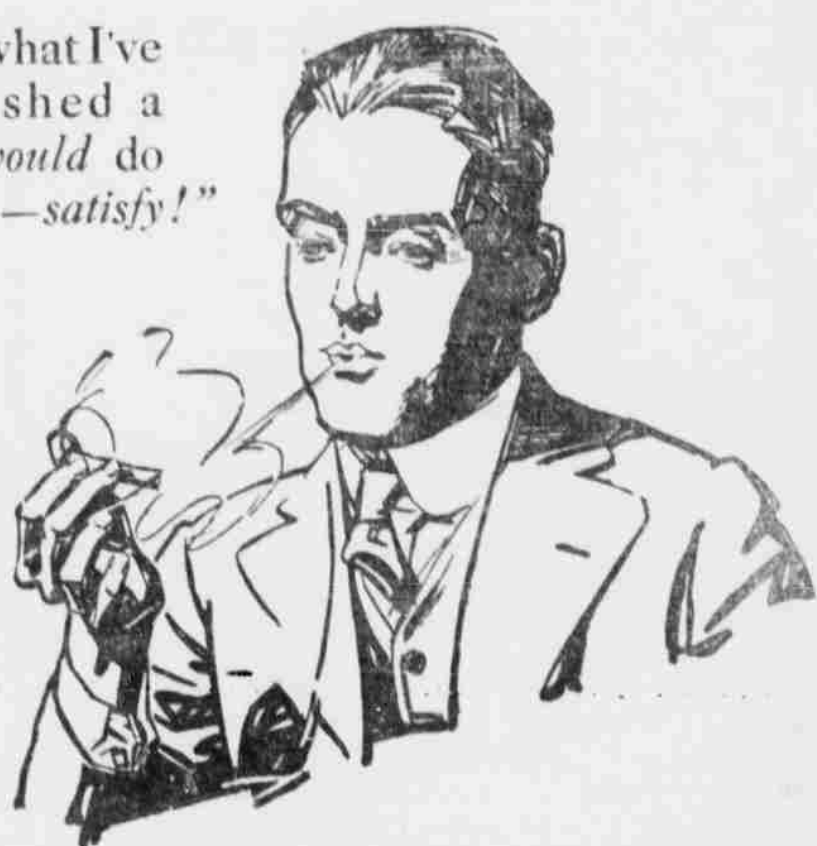

J. B. Connor, one of the arbitrators for the switchmen, an assistant president of the Switchmen's Union of North America, asked Wheeler what organization had made such an agreement. The witness said he understood it was the Brotherhood of Railroad Trainmen.

The hearing will be continued tomorrow.

VON BISSING TELLS WHY HE WENT TO BELGIUM

BY MORNING JOURNAL SPECIAL LEASED WIRE. Amsterdam, Nov. 28 (AP)—"I am not in Belgium to mortify the population nor to make any statement, but only to further the interests of Germany in the most complete and honest way," says Friedrich von Bissing, minister-president of Belgium in an interview published in the Deutscher Tagblatt. He adds: "We are doing this according to our best judgment and conscience and I think it is a great achievement that this country, just behind the line, has been kept free from revolution. I am not a soldier and I do not like to use arms against this unarmed population."

"That's just what I've always wished a cigarette would do—satisfy!"

The feature of Chesterfields is that they begin where other cigarettes leave off.

In other words, besides pleasing the taste, Chesterfields go further—they satisfy! Just like a long drink of cold water satisfies when you're thirsty.

And yet, Chesterfields are MILD!

It's Chesterfields or nothing if you want this new cigarette delight, because no cigarette maker can copy the Chesterfield blend—an entirely new combination of tobaccos and the biggest discovery in cigarette blending in 20 years.

ANURIC, The Newest Discovery.

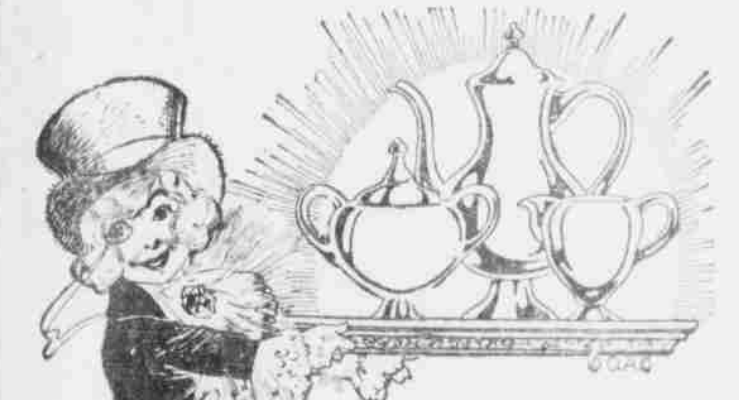

Oh! My Back!

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, nervousness, drowsiness, irritability, headache, chilliness and rheumatism. In some people there are sharp pains in the back and legs, distressing bladder disorders and sometimes obstinate dropsy. The urine acid sometimes forms into gravel or kidney stones. When the urine acid affects the muscles and joints, it causes lameness, rheumatism, gout or sciatica. This is the time to try "Anuric," the discovery of Doctor Pierce for kidney trouble and pains in back and all over body. Write Dr. Pierce, read 10¢ for a large trial package—this will prove to you that "Anuric" is at times more potent than lithia, and eliminates the urine acid from the system as hot water melts sugar—or ask your druggist for a fifty-cent box of "Anuric."

Folks in town and adjoining counties are delighted with the results they have obtained by using "Anuric," the newest discovery of Dr. Pierce, who is head of the Invalids' Hotel, Buffalo, N. Y. They daily voice their praises of the merits of "Anuric," the discovery of Dr. Pierce, of "Favorite Prescription" and "Golden Medical Discovery." Here is a letter for instance, that of Mr. HENRY H. HAD, had pains through the back. My back felt as if it had a load on it all the time. It was hard for me to bend to tie my shoes. When I arose in the morning I was in a highly congested condition. In spite of everything I used I obtained no relief until I used Doctor Pierce's Anuric. This remedy gave the relief I wished for, as I am now better in every way.

Just step into the drug store and ask for "Anuric," 50 cents, or send Doctor Pierce 10 cents for trial package.

WAY IS CLEARED FOR ROCK ISLAND TO REORGANIZE

An Agreement Is Reached,
Following Informal Confer-
ence in New York, Regarding
the Depositing of Stock.

By Morning Journal Special Leased Wire.
New York, Nov. 28.—After an in-
formal conference here today, in-
volving Frederick W. Scott, Harry
Brown, James A. Patten and Charles
C. Dawes, stockholders in the Chicago,
Rock Island and Pacific railway, and
representatives of the reorganization
committee of the road, it was an-
nounced that an agreement had been
reached regarding the depositing of
stock with the committee. Seward
Prosser, chairman of the committee,
made this statement:

"The conference resulted in a com-
plete understanding between the in-
terests represented and as a result
that gentlemen announced their in-
tention of depositing the stock, which
they own and represent, with the re-
organization committee under the
law. The reorganization committee
has agreed, pursuant to the request of
these gentlemen who represent im-
portant stockholdings that the seven
percent preferred stock given in ex-
change for new money, be callable at
100, and that the six percent pre-
ferred stock payable to the present
holders of debentures, be callable at
100.

"The committee representing the
debentures of the Chicago, Rock Is-
land and Pacific railway company
has given notice to Receiver Dickin-
son, pursuant to agreement, advising
that the committee will, upon Novem-
ber 30, request the Bankers' Trust
company, trustees of the debentures,
to declare the principal due. This is
another step in the direction of com-
pleting the plan of reorganization.

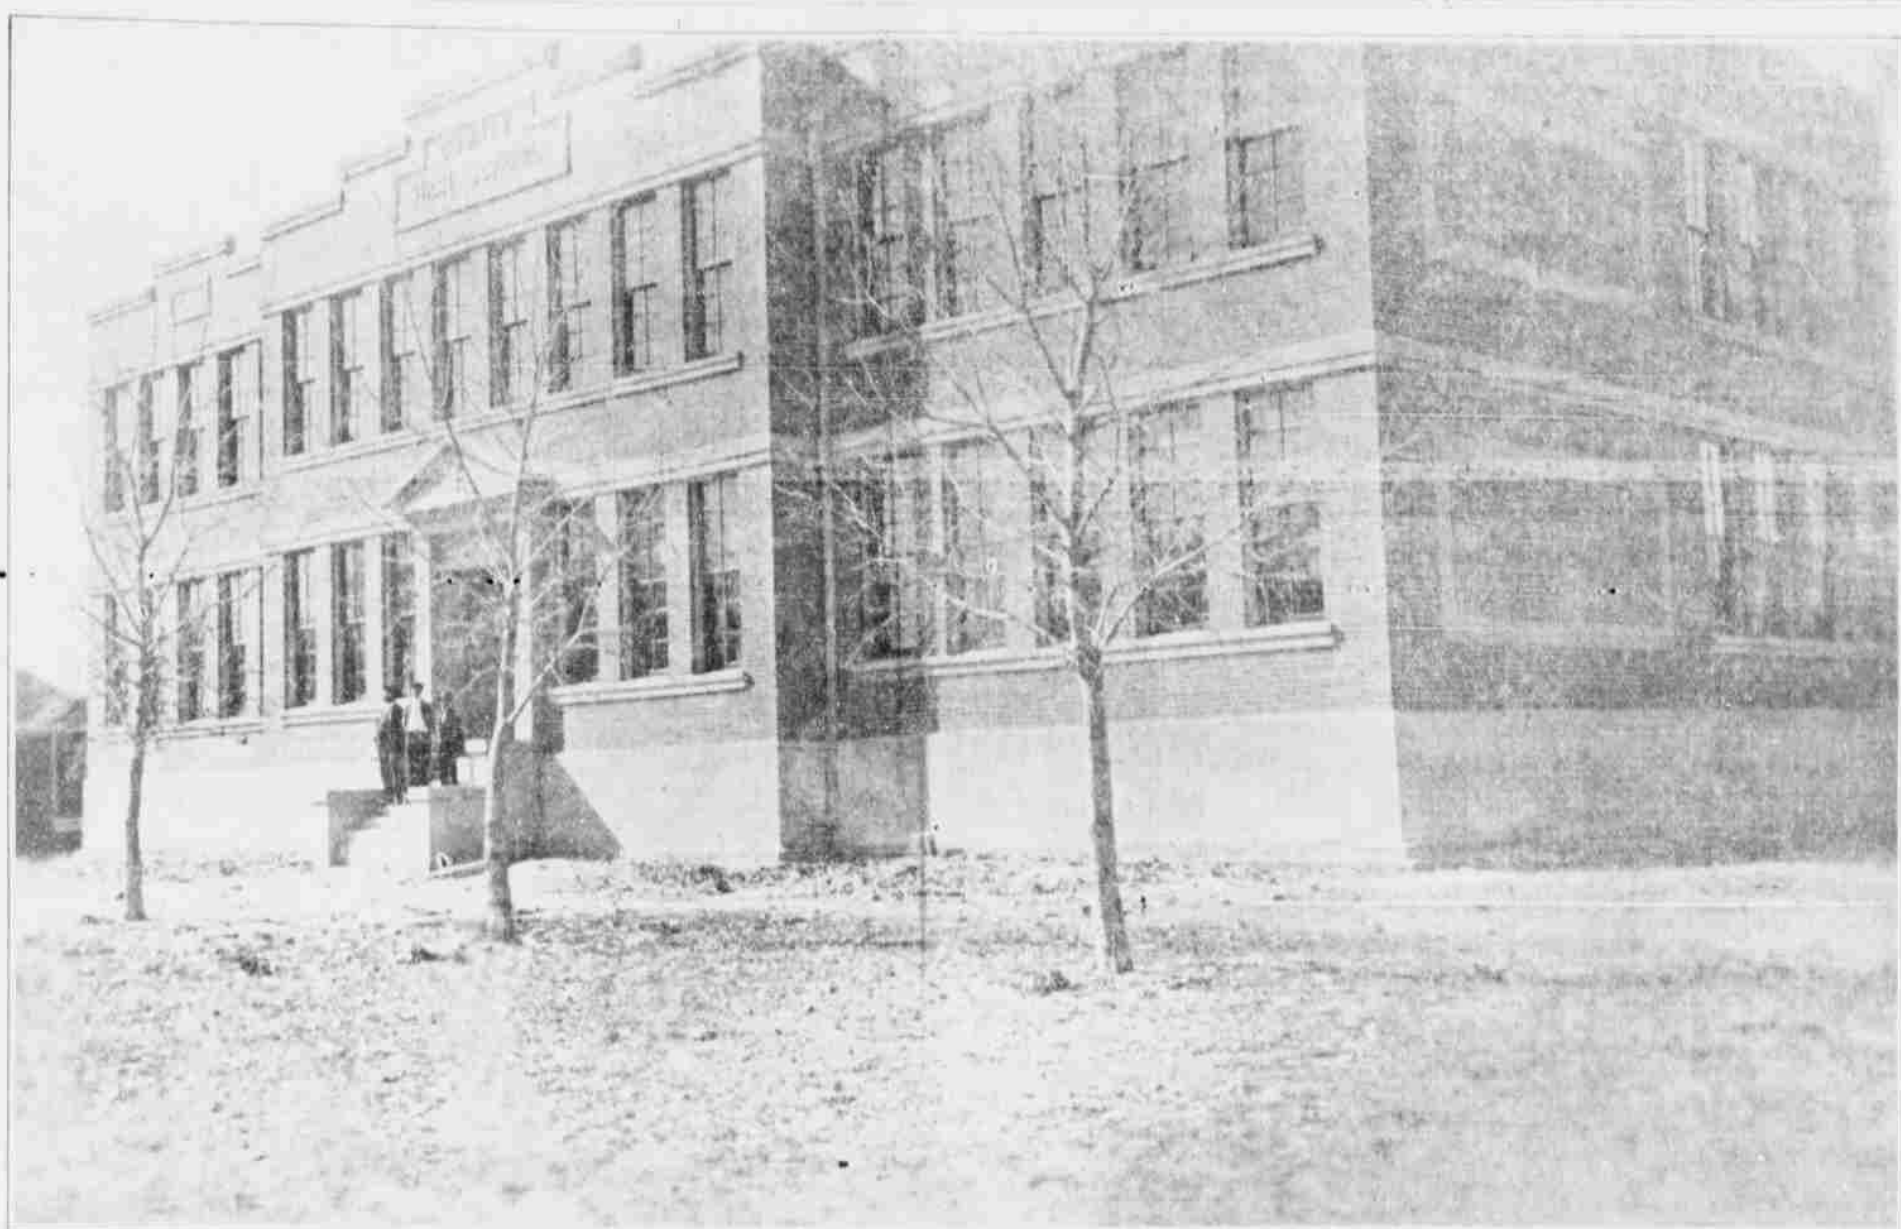

PITTSBURGH PAPERS TO RAISE THEIR PRICES

By Morning Journal Special Leased Wire.
Pittsburgh, Pa., Nov. 28.—All after-
noon papers in this city announced to-
day that effective December 1 the
price of their editions would be dou-
bled, and that advertisers and other
customers receiving copies will have
to pay the advanced price, two cents.
The papers are the Chronicle, Tele-
graph, Evening Leader, Press and
Post.

"Owing to the enormous increase
in cost of white paper and other mate-
rials used in the production of news-
papers, it is impossible to produce a
newspaper at one cent," the announce-
ment says.

German Colonel Promoted.
Berlin, Nov. 28 (By Wireless to Say-

FIVE KILLED AND SEVEN INJURED BY LACKAWANNA TRAIN

Passenger Plows Through a
Crowd of About 400 Em-
ployees of Canadian Car and
Foundry Company.

By Morning Journal Special Leased Wire.
Passaic, N. J., Nov. 28.—Five men
were killed and at least seven others
injured tonight when a passenger train
on the Lackawanna railroad plowed
through a crowd of about 400 em-
ployees of the Canadian Car and Foundry
company, who were walking along
the tracks to a special train which
was to take them from the plant at
Kingsland to their homes in this city,
Hoboken, Jersey City and Newark.

"The men who lost their lives and
most of the injured were negroes.
Work for the day had just ended and
crowds of the employees were hurrying

along the tracks to the special train
awaiting them on a siding.

Suddenly a passenger train dashed
out of a tunnel near the Kingsland
station and the men on the tracks were
thrown into a path as the express
went down upon them. Before they
could clear the tracks the train had
struck them. Bodies were hurled in
the air or carried under the wheels
of the cars. The injured were rushed
to hospitals at Passaic and Arlington.

The engineer of the passenger train
declared he tried to stop the train
after sounding the locomotive whistle
to warn the men. He said many of
them appeared to be bewildered, and
instead of trying to get off the tracks,
kept on running straight ahead of
the train.

PEOPLE PASS BEFORE THE COFFIN OF DEAD EMPEROR

By Morning Journal Special Leased Wire.
Vienna, Nov. 28.—(Via London).—
The doors of the black draped Hof-
burg chapel, where rests the silver
coffin with the body of the late Em-
peror Francis Joseph, were opened at
a cocking this morning. The waiting
throngs of people then began to file
through to pay their last respects to
the dead emperor. All classes were
represented, rich and poor, nobly and
workingmen and women standing
shoulder to shoulder in the crowd,
singing their hymns in passing before
the shrouded coffin.

GERARD TO TAKE BACK FUND FOR GERMAN RELIEF

Appeal for Funds for Widows
and Orphans of Fatherland
Comes as Part of Observ-
ance of Thanksgiving Day.

By Morning Journal Special Leased Wire.
New York, Nov. 28.—A Thanksgiving
week appeal for a fund for the re-
lief of the widows and orphans of
Germany, who have been made im-
mense victims of the war, has come out
from the American relief committee.
This is in accord with the proclama-
tion of President Wilson, in designat-
ing the annual Thanksgiving, in which
he calls attention to the suffering
and urgent need of the people of Ger-
many, who have been made to feel the
burden of the war. It is the propo-
se to give this fund to Ambassador
Gerard to take back to his post in
Berlin, for him to distribute to the
million widows and orphans of Ger-
many, through the American consuls
and other suitable agencies.

"There is real need in Germany for
this work," said Ambassador Gerard.
"and in distributing the money, I shall
be careful to let the German public
know from whom it comes. Ameri-
cans have sent more money to other
nations than to Germany, but I hope
the Germans will receive it with grati-
tude, and when the time comes, I
trust, for the Americans to help them
with the suffering and needs of the
widows and orphans everywhere and
are willing to ameliorate such con-
ditions wherever found."

"The money will be sent to me
through the United States state de-
partment," continued Mr. Gerard,
"and I will distribute it through the
United States consuls in Germany
wherever the need is greatest. I
think all people who are interested
not only in helping the real needs
of the widows and orphans of
Germany, but in the American relief
committee, will be glad to see the
money go to the people there."

"If I am able to go back to Ger-
many, taking a substantial sum of
money, I do not know of anything bet-
ter to all relations between this coun-
try and Germany, and when the time
comes, I trust, for the Americans to
help them with the suffering and
needs of the widows and orphans
everywhere and are willing to ame-
liorate such conditions wherever found."

"Checks and money orders intended
for this relief may be sent to the

mittee, John D. Crimmins, 15 Park

REPUBLICANS MAY ASK FOR RECOUNT IN OHIO

By Morning Journal Special Leased Wire.
Columbus, O., Nov. 28.—The Ohio
state central republican and conserva-
tive committee today decided to con-
duct an investigation of the vote cast
for state officers at the last election, by
which James M. Cox, democrat, was
elected governor.

The action is expected to produce
sufficient information upon which to
base a demand for a recount of the
vote.

DAVID D. OVERTON IS CONVICTED OF KILLING LAWYER

Alabama Attorney and Former
Clerk of County Court Found
Guilty by Jury of Killing Po-
litical Opponent.

By Morning Journal Special Leased Wire.
Montgomery, Ala., Nov. 28.—David D.
Overton, a Huntsville attorney and
former clerk of the Madison county
court, was convicted here today of
the murder of Probate Judge W. E.
Lawler, a political opponent and, was
sentenced to be hanged. The court
met January 12 for the execution, but
suspended its order on a motion by
the prisoner's attorney for a new trial.

Judge Lawler's body was found June
17, weighted down in the Tennessee
river. Within a few days the body
disappeared and two of his political op-
ponents, Shelby Pleasant, a lawyer,
and Robert Phillips, the county sher-
iff, confessed suicide and left notes

saying they could not bear the sus-
picion attached to Lawler's death.

Overton was arrested several weeks
later in Tennessee and at his trial re-
fused for the first time that he had
killed Lawler. He pleaded self-de-
fense, declaring Lawler had taken him
to a lonely road along the Tennessee
river, late at night, and had attacked
him, after trying to effect an agree-
ment for co-operation. To prevent the
county grand jury "from destroying
both of us."

The grand jury was investigating al-
leged friends at the June election, in
which Lawler defeated Overton for
judge.

The prisoner said he had nothing to
do with the disposition of Lawler's
body but that Sheriff Phillips had
told him it had been put out of the
way. Testimony at the trial in no way
connected Pleasant with the tragedy.

Overton received his sentence calm-
ly and when asked whether he had
anything to say, replied: "Nothing,
except that I am not guilty."

French and Chinese Clash.

Beijing, Nov. 29 (By Wireless to Say-

TURKEY WILL NOT ALLOW AMERICANS TO LEAVE EMPIRE

Sultan's Government Rescinds
Previous Agreement to Per-
mit United States Subjects
to Depart via Jaffa.

By Morning Journal Special Leased Wire.
Washington, Nov. 28.—Word from
the Turkish government has been re-
ceived of its previous agreement to allow
several hundred Americans to leave
the Turkish empire via Jaffa, reached
the state department today from Am-
bassador Elihu at Constantinople. The
ambassador was informed that the
Americans cannot be permitted to
depart because of military necessity.

It is not known what action may be
taken in an effort to bring Turkey to
terms. The practical impairment of
the Americans is a source of indigna-
tion to the government. It is said
to be an unprecedented situation
which will require most delicate han-
dling.

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the
quickest and surest Stom-
ach relief.

If what you just ate is souring on
your stomach or lies like a lump of
lead, refusing to digest, or you belch
gas and eructate sour, indigestion food,
or have a feeling of distress, heart-
burn, fullness, nausea, bad taste in
mouth and stomach headache, you can
surely get relief in five minutes.

Ask your pharmacist to show you
the formula, plainly printed on these
fifty-cent cases of Pape's Diapepsin,
then you will understand why dys-
peptic troubles of all kinds must go,
and why it relieves sour, out-of-order
stomachs or indigestion in five min-
utes. "Pape's Diapepsin" is harmless;
tastes like candy, though each dose
will digest and prepare for assimila-
tion into the blood all the food you
eat; besides, it makes you go to the
table with a healthy appetite; but
what will please you most is that you
will feel that your stomach and intes-
tines are clean and fresh, and you will
not need to resort to laxatives or liver
pills for biliousness or constipation.

"This city will have many 'Pape's
Diapepsin' cranks, as some people will
call them, but you will be enthusiastic
about this splendid stomach prepara-
tion, too, if you ever take it for indi-
gestion, gas, heartburn, sourness,
dyspepsia, or any stomach misery.

Get some now, this minute, and rid
yourself of stomach misery and indi-
gestion in five minutes.

At this time of the year the President of the United States sets forth in a proclamation
the reason why we should offer up thanks for the bounties and blessings of the past
year. The fates have been kind to us and we have escaped the scourge of war and the
sufferings which follow.

While you are celebrating Thanksgiving do not forget that in many a foreign home
there is an empty chair at the head of the table and hungry women and children who
are not as fortunate as ourselves.

You can add much to your own happiness by helping these unfortunates who are
suffering through no fault of their own. This Committee will help you by forwarding
in full, without any deduction, any contribution (no matter how small) you feel like send-
ing and further assure you that every penny will go toward the relief of the widows
and orphans of Germany, and will be distributed under the supervision of our Amba-
sador to Germany, the Hon. James W. Gerard.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If cross, feverish, constipated, give "California Syrup of Figs."

Look back at your childhood days. Remember the "dread" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless, fruit laxative handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

Drink Glass of Hot Water Before Breakfast to Wash Out the Poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

People who are accustomed to feel dull and heavy when they arise, suffering from headache, stuffy nose, cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acids and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have pale skin, blood disorders and other conditions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

TWO STRONG MEN ARE INCLUDED IN NEW JAP CABINET

Enemies of Marshal Terauchi Admit That There Is Excellent Material in Ministry Which He Has Built Up.

(Associated Press Correspondence.)

Tokio, Oct. 28.—Field Marshal Terauchi's most persistent political enemies admit that he has built up a cabinet which contains at least two of the "strong" men of the empire. They are Viscount Ishige Matsuo, the new minister for foreign affairs and Baron Goto, who has been designated minister of the interior.

Of the remaining members of the cabinet several are very well known to the Japanese though less prominent abroad. Three of them are which body Premier Terauchi expects to find substantial support in carrying out his program which he has announced as being a strengthening of the nation's resources and united and serious exertion on the part of the people for the effecting of reforms in all departments of national life. The members from the house of peers are Baron Kenjiro Doi, the new minister of education; Kikuchi Nakahito, the minister of commerce and agriculture and Toyohito Okada who holds the portfolio of education. General Kuroki Chishima and Admiral Tominaga Kato, the ministers of army and navy, respectively, have been brought over from the outgoing cabinet.

The keenest interest exists throughout Japan as to whether the ministry will be able successfully to resist the coming session of the diet on account of the apparent total lack of support in the house of representatives. The attitude of the newly organized majority or constitutional party under Viscount Tokutomi Kato is understood to be hostile. K. Hara, the head of the seiyun or minority party, has announced his position as a sort of benevolent neutrality. He said: "Our party will hold an absolutely neutral position but it will give its support to anything that is in the interest of the public and agrees with the principle of our party." He went on: "We must all work for the expansion of our national influence and for the perfection of a true constitutional government. As for the new cabinet we must observe its policy, admiring what is to be admired and attacking when attack is deserved. The most important thing is to foster patriotic nationalism for the sake of the nation and the people."

Russ Alliance Feared

The fact that Viscount Matsuo was one of the framers of the Russo-Japanese alliance while ambassador at Petrograd and the belief that Count Terauchi has strong Russian sympathies has led many friends of the Anglo-Japanese alliance to fear for the future of the new ministry. It is known, however, that in putting into effect the Russian alliance, as against the British, it is remarked that Count Terauchi is the president of the Russo-Japanese society and that Baron Goto, the new minister of the interior, is the vice president.

As to the policy of the new cabinet toward the United States great satisfaction is expressed by representative Japanese. But Premier Terauchi's recent declarations to the Associated Press should have received such a cordial welcome in the United States. The new cabinet has as yet made no formal declaration of its policy, and Count Terauchi's interview has given most definitely the only indication that far from the cabinet's attitude on foreign questions.

In a leading article the semi-official Japan Times says that a very important statement on the foreign policy of the empire has been made to the world in a brief Terauchi through the Associated Press. The newspaper continued: "It is gratifying that the premier has given an unmistakable assurance to the world that there will be no change in the line of action his cabinet will pursue in the conduct of our foreign relations. If Count Terauchi as premier places statements before soldiership, his simplicity and sincerity as a soldier will stand him in good stead and we do not hesitate to declare that he can be depended upon to adhere faithfully to his course." If he has in the past been criticized for what has been described as his iron rule in Cheong (Korea), he has never yet been charged with going back on his words. The journal expressed satisfaction with Count Terauchi's attitude towards the United States and concluded with the conviction that Japan's foreign relations will be perfectly safe in the hands of the new premier.

Assurance Expressed

The Asahi which publishes an edition in both Tokyo and Osaka, adopted a different strain. It expressed its astonishment that Count Terauchi who is very reticent to his countrymen should give such an important interview to a foreign correspondent in regard to his foreign policy. The journal admitted disappointment should the premier's foreign policy developed as outlined by him, thinking that while his internal administration will be constructive he will adopt a "Lower East" attitude in his foreign policy. It thought that the Japanese people would prefer Count Terauchi to reverse his program, and do some constructive work in diplomacy. The Asahi continued: "The land and immigration questions have been pending between Japan and America for a number of years and, badly stated in need of a fundamental solution, instead of being bolstered up by temporary measures. Marquis Okuma was too much pleased with the application of 'peace' premier given him by the Americans to attempt a solution of any of the questions at issue between Japan and America. Count Terauchi now openly declares his readiness to succeed to the 'do nothing' policy of Marquis Okuma as pursued towards America. It is quite possible that Count Terauchi's inclination to put off the solution of difficult problems may have the effect of making matters worse complicated."

Besides the land and immigration questions, which are pending between Japan and America, it will be necessary for Japan to know definitely America's attitude towards China. Japan's position vis-a-vis China is somewhat of a peculiar character, but as long as the economic activities of foreign countries in China do not exert any political pressure on Japan, she will not only not obstruct their

enterprise in China, but will welcome them, as they will materially contribute towards the opening up of the resources of the country. For this reason it is necessary that Americans should be convinced of the real intention of Japan and of the advantage of working conjointly with the Japanese in China.

If Count Terauchi is really anxious for friendly relations between Japan and America, he should have dispensed with formal polite phrase and frankly stated what he requires of the United States. Honestly after all, it is the best policy in diplomacy, as in business. Leaving China in her present condition is distinctly inimical to the interests of China herself as well as those of Japan, and render her the necessity for Japan to render assistance to China and to direct her along the path of civilization.

Agreement Unsatisfactory

In connection with the so-called American problems it is to be noted that several writers, including Professor Shigeo Sakuma of the Imperial university have recently advocated the settlement of the immigration and land questions, holding the "gentlemen's agreement" as "discriminating and unsatisfactory to the dignity of the Japanese people."

Viscount Matsuo, the new foreign minister like Marquis Okuma, is a native of Saga prefecture and is the son of a samurai of the Soga clan. Born in 1862 he went to France at an early age, and studied international law at the University of Lyons. Graduating with the degree of "docteur en droit" he returned to Japan to enter the foreign office. Later he was secretary of the embassy at Petrograd and then minister to Russia. For five years he was minister at Paris. He was appointed ambassador to Russia in 1909. While sojourning at Tokyo he has lectured constantly on international law.

In 1907 he was created baron in recognition of his services in concluding the Russo-Japanese railway convention and was promoted to vice president of the board of the Imperial railway board as an additional post. In the present cabinet he will again be president of the railway board in succession to Dr. J. Seyoda. When the Katsura ministry created a colonial bureau exercising supreme control over Formosa, the Manchurian leased ter-

ritory, Sachalin and Korea, Baron Goto, who had suggested its formation, became its vice president and pursued his constructive colonial program. A very romantic incident marked his earlier career. His daring imagination and strong sympathies induced him to take part in a quixotic plan to rescue a former daimyo from the hands of a band of supposed persecutors. The daimyo had been imprisoned by relatives on the plea of insanity. Goto's activities resulted in his arrest and imprisonment on the charge of complicity in obtaining the illegal possession of the imprisoned nobleman. But his motives were found to be honorable. He was acquitted and restored to his official position. It is a coincidence that the judge who examined him was his present colleague, Minister Nakajima.

Baron Goto has a strong, resolute character, loving power and influence. The Japanese have come to name him "The Japanese Roosevelt."

"You may call us a 'super-party' cabinet if you like," Baron Goto exclaimed to a Japanese interviewer. He added: "Some people call the Terauchi ministry bureaucratic. Let them call it what they wish. We do not care for names. We have no connection with any party but we believe that honesty and sincerity will win the confidence of the people."

ROCKEFELLER FOUNDATION TO HAVE NEW PRESIDENT

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
New York, Nov. 28.—Dr. George E. Vincent will retire as president of the University of Minnesota to become president of the Rockefeller foundation, on May 15, 1917, it was announced tonight. He will succeed John D. Rockefeller, Jr., whose term as president of the foundation expires on that date and who will become chairman of the board of trustees, a newly created office.

Dr. Vincent has been called to the presidency, it was stated, because of the enlarged scope of the foundation's activities and the need for a man of wide experience who could devote all his time to the work.

Baron Goto has been, sometimes called the "Japanese Roosevelt" and is popularly regarded as pro-German. He is the grandson of Choei Takano, one of the pioneer progressives of the latter Tokugawa period who was put to death by the Tokugawa government for his denunciation of the policy of excluding foreigners. Goto was educated for the profession of medicine and in 1890 he went to Germany, receiving the degree of doctor of medicine from the University of Berlin. In Japan he became a leading authority on health and sanitation. He was sanitary commissioner during the Japanese-Chinese war. Later he established a reputation as an executive while civil administrator of Formosa. His vigorous administration of that island won him promotion and distinction until finally he became known as Japan's great "colonist organizer." He displayed ability as the first president of the South Manchurian railway, the company becoming an independent organ of colonial administration.

On the formation of the second Katsura ministry in 1908 Baron Goto was offered the portfolio of minister of communications, taking the presidency of the Imperial railway board as an additional post. In the present cabinet he will again be president of the railway board in succession to Dr. J. Seyoda. When the Katsura ministry created a colonial bureau exercising supreme control over Formosa, the Manchurian leased ter-
