THE DREYFUS TRIAL.

**London Correspondents Think He
Will Be Found Guilty.**

**Unless German Government Reveals
Name of Real Traitor.**

**Nauseating Story of the Century's Crime
Slowly Unfolding Itself.**

ANOTHER FORGERY EXPOSED.

London, Aug. 17.—The correspondence for the London papers at Rennes are almost unanimous in taking a gloomy view of the prospects for Captain Dreyfus. They seem to believe it likely that he will be found guilty. The representative of the Daily Telegraph says that unless the German government reveals the name of the real traitor it is quite likely that the same verdict will be rendered as in the previous court martial.

Paris, Aug. 17.—A special edition of the Figaro, just issued, exposes another alleged forgery in the Dreyfus case by publishing this telegram from Koenig: "The letter of November 30, 1897, attributed to me and reproduced in the Figaro of August 16, 1898, is a forgery," (signed) Schneider. The foregoing refers to a letter, alleged to have been written by an Austrian military attaché at Berlin, declaring Dreyfus' relations with Germany. It was mentioned in the testimony of Generals Mercier and Roget.

RENNES, Aug. 17.—The court adjourned after partly hearing Colonel Picquart, who will continue his deposition to-morrow.

BRUTAL SPORT.
Fugitive Heaton Innocent's Last Night Can-Not Live.

San Francisco, Aug. 17.—James Frayne, the pugilist who was beaten into insensibility last night by Frank McConnell in a contest before the National club, has not regained consciousness up to 9:30 o'clock this morning and physicians at the receiving hospital have given up all hopes of saving his life. He may die at any moment. The fatal blow was struck in the fourteen round when, after dazing his opponent by a series of blows on the head, McConnell landed a terrific smash on the jaw, during his man. Frayne's head struck the padded door with a loud thump and he never regained his senses. McConnell and his seconds, with Frayne's seconds, and the managers of the club have been placed under arrest, as is also referee Hyman Cook. They will be detained pending the outcome of Frayne's injuries.

Dewey's Craft.
Nice, France, Aug. 17.—It is announced that the United States cruiser Olympia now at Leghorn, will arrive at Ville, France, on August 22.

DEFIES ARREST.
President of Anti-Semite League Still Holding Out.

Paris, Aug. 17.—The president of the Anti-Semite League, Guerin, is still holding out at the headquarters of the league, where he has barricaded himself and defied arrest on Saturday, when an attempt was made to arrest him. Eight of his typewriters came out of the barricade today and surrendered themselves to the authorities. They were taken to the police station. A few slight demonstrations in the streets of the neighborhood were easily quelled.

Loss of Crop.
St. Petersburg, Aug. 17.—Reports from southwest Russia say the recent drought in that portion of the country caused, an utter loss in the winter and spring wheat crop.

ADVANCE IN PRICE OF BEEF.
Caused by the Great Demand for all Kinds of Meat.

Chicago, Aug. 17.—The Record says: Investigation at the stock yards in regard to the recent advances in the price of beef, brought out a statement that never before in the history of the American cattle market, has there been such a demand for all kinds of meat, as at the present time. The demand for the export of cattle is enormous. The statement was made that the prices of all cattle would be higher next year than now but that in three years, when all the thousands of feeders find their way into the market, there will likely be a slump of from 2 to 3 cents.

Dead.
Chicago, Aug. 17.—Judge Richard Prendergast, one of Chicago's most prominent lawyers, died today of an aneurism.

CALL FOR TROOPS.
Ten Additional Regiments For Service in the Philippines.

Washington, Aug. 17.—An order has been issued directing that ten additional regiments of volunteers be organized for service in the Philippines. The regiments are to be numbered from thirty-eight to forty-seven and are to be organized at the following places in the order named: Fort Snelling and Fort Crook.

SUICIDE AT CERRILLOS.

**John Dughet, An Italian Miner,
Shoots Himself.**

An Awful State of Affairs in Porto Rico.

Mexican Troops Meet and Defeat Yaquis Near Tormin.

SANTO DOMINGO AFFAIR.

Special to The Citizen.
Cerrillos, N. M., Aug. 17.—John Dughet, an Italian coal miner employed at Madrid, committed suicide here about 4 o'clock this morning by shooting himself through the heart. Last Friday Dughet came to Cerrillos and bought a gallon of whiskey and going toward Madrid, stopped and evidently tried to drink himself to death. He was discovered Sunday afternoon and brought to town when he was given an adjoining Chinese saloon and restaurant. Early this morning he made his way into the saloon through the back door, which, by some chance, had been left unlocked, and after helping himself to whiskey took revolver, went back to his room and shot himself. He is reported to have owned an interest in a stock ranch some where in New Mexico as well as considerable ready money.

INSURGENTS DEFEATED.
Eight Hundred Filipino Defeated and Three Locomotives Captured.
Manila, Aug. 17.—Eight hundred insurgent attacked Angeles this morning but the Twelfth regiment drove them into the mountains. Three dethatched locomotives have been captured. None of the American troops were injured. Insurgents lost not known.

AWFUL STATE OF AFFAIRS.
Whole Country of Porto Rico Has Been Devastated.
New York, Aug. 17.—A dispatch to the Herald from San Juan, says: Communal order now has been restored in the direction of Ponce as far as Caguas. The whole country has been devastated. In every section the hurricane destroyed all the towns and villages. The people, whose homes have been wrecked are wandering about seeking food and shelter. In the towns the stench of decaying bodies under the ruins of homes and public buildings are almost unbearable. Yabueca will be set fire to in order that an epidemic be avoided.

BLOODY BATTLE.
Insurgents Defeated by the Government Troops in Eighteen Hours Fight.
Washington, Aug. 17.—United States Minister Russell, at Caracas, reports to the state department that insurgent faction in the state of Louange, Venezuela, under General Cipriano Castro, was completely defeated by the government troops, in a bloody battle which lasted eighteen hours. The loss of the insurgents has been placed at 800 killed and wounded, and to the government 300.

FOR PLEASURE AND STUDY.
Prof. Salisbury of the Chicago University, not Party.

New Mexico has become a popular and favorite field of study for geologists and there are at all times parties in the territory from both eastern and local educational centers. One of the most recent visiting class of geological students is the one conducted by Prof. R. D. Salisbury, of the University of Chicago, composed of fourteen ladies and gentlemen from Chicago and vicinity, who are completing their course of study in the science of the rocks. Some time was spent at and near Las Vegas, exploring the various cañons that occur in the near-by spur of the Rocky mountains, and found much to interest them. They were entertained while there by Miss Rice, of the Normal University, and Miss Walker, of Chicago. Leaving there for the southwest, bound for the Grand Canyon of the Colorado, and the petrified forest of Arizona, the party reached Albuquerque last night, and upon the invitation of T. J. Curran, visited the Commercial club and other points of interest in the city. Miss Belle Porter, who is residing here, met in the party several friends with whom she formerly studied at Chicago University. Prof. Salisbury inquired for Prof. C. L. Herrick and complimented New Mexico upon securing so able a man as president of its university.

Leaving last night for the west, the party will spend the time until September 1 in viewing the grand geological display to be seen there.

Professor Salisbury's companions are: Frank H. Harms, Henry M. Adkinson, Edna M. Richardson, Evelyn Martz, Florence Parker, Harriet Towle Bradley, all of Chicago; Ida H. Ogilvie, of New York; Jane Perry Cook, of Chicago; Lucius Hubbard, South Bend, Ind.; Mabel Sykes, W. W. Atwood, Chicago; Francis L. Parker, Jr., Charleston, S. C.

To-day, in Chicago, was held the funeral services and burial of R. Nussbaum, whose death in Austria, some two weeks ago, was announced in THE CITIZEN. The gentleman was the father of Mrs. Alfred, Mrs. Ivan and Mrs. Ernest Grunfeld. He visited Albuquerque about a year ago, and made many friends here. His remains were embalmed and shipped from Europe direct to Chicago, to be buried among his kindred. Out of respect to the memory of their father-in-law, the establishment of Grunfeld Bros., is closed today.

Lieutenant George Anderson, of the Tenth United States cavalry, is in the city. He is on his way to Washington, D. C., after doing service in Cuba and the Philippines. He says that all who have good jobs at home would be wise to hold them.

PSYCHO-PALMISTRY
Is an interesting and beneficial science. Your hand shows your character, your ambitions and your true vocation. It points out the road that leads to success. Your past, present and future life is plainly written in your palm. If you care to be successful and happy, or if you are interested in occult subjects study Psycho-Palmistry.

THE "CHEIRO'S"
Are the foremost Palmists of the day. Karl "Cheiro," or Karl von Roth (his name in private life) is now in Albuquerque for a few days. He can be seen at his apartments in the Barnett Building, over the postoffice, 6th & hours, 9 a. m. to 5 p. m.

YOUR FUTURE PROSPECTS
Are plain to Cheiro. Business, domestic affairs, affairs of the heart and health appear distinctly in the shape, lines and size of your hands. His looks on Psycho-Palmistry are standard works. Know the prospects of your sons and daughters, their true vocation and talents.

"Cheiro" is the palmist of the "four hundred." He is a remarkably gifted man.—New York Sun.

"You have saved me serious mistakes."—Florence Maryatt, the English novelist.

"Your reading of my life was astonishing. Are you wizard or humbug?"—Richard Ross.

"Cheiro's latest work, 'Psycho-Palmistry,' is intensely interesting."—Book Review

ATTEMPTED HOLD-UP.

**Colorado & Southern Again and
Near Folsom.**

**Mail Clerk Bartlett and Conductor
Harrington Wounded.**

**The Robber, Who Says He Was Alone,
Wounded and Captured.**

SAYS IT WAS HIS FIRST ATTEMPT.

Denver, Colo., Aug. 17.—The Colorado & Southern passenger train, No. 1, was held up last night near Folsom, N. M. The attack occurred at 11 o'clock and was heralded by a fusillade from the bandits. One shot struck Mail Clerk Bartlett in the jaw and Conductor Harrington, also, was injured in the arm, but the passengers rallied to the relief of the train crew and the robbers fled. The scene of the attack was within two miles of the robbery of three weeks ago.

FURTHER DETAILS.
Trinidad, Colo., Aug. 17.—As passenger train No. 1, on the Colorado & Southern, was proceeding south between Folsom and Lee's Motives, about 9:30 o'clock last night, train robbers attempted to hold up the train but were frustrated in their attempt.

The first warning the trainmen knew of the attempt was when the engineer was ordered to uncouple the engine and baggage car from the train. The conductor, suspecting trouble, went forward and immediately armed fire on the robbers. The holdup returned the fire and shot Express Messenger Fred. Bartlett through the left side of the face badly shattering his jaw bone. Frank Harrington, the conductor, also received a very slight wound in the fleshy part of the arm.

ROBBER CAPTURED.
A special train left Trinidad about 4 o'clock this morning with the sheriff and a posse for the scene of the attempted hold-up, and found one man, a few yards from the track, badly wounded, who acknowledged that he was the party who made the attempt. He said he was alone, and it was his first attempt at the business. He gave his name as George Stevens, and said he lived at Panhandle. He will be brought to Trinidad today. This is the third attempt to hold up this train within two years.

The arrival of Admiral Dewey is more than likely to be accompanied by another wild flurry in the interview market.

NEBRASKA people made such a good bargain when they traded politics for property that the average farmer down there runs when a candidate appears on the scene.

QUINLAN'S REVENUE has had the board of supervisors of Maricopa county, Arizona, for \$5,000, damages claimed for the death of his child at the post house of that county.

HON. N. S. WALKER, the Pueblo Indian agent, with headquarters at Santa Fe, has decided to establish day schools at Tesuque and Santa Ana, to be opened on September 1.

PERSONS who, from carelessness, or any other cause, take mail from the postoffice that belongs to another, and who fail to return the same, are liable to a fine of \$500 or one year imprisonment.

THE cattlemen of the Black Range country in southern New Mexico have organized and offered a reward of \$50 in addition to the territorial bounty for each wolf that is killed. Large wolves are killing many cattle in that section.

ENGLISH manufacturers complain that the competition from American mills is causing them trouble. Turn about is fair play. For years the American mechanic has had time to compete with the English. Now the American mechanic is boss of the roost.

The vice president of the Standard Oil company ought to worry along on a salary of \$200,000 a year. It probably does not hurt his relish of this big income to consider how many small developers of petroleum have been ruined to enable the Standard monopoly to pay such extravagant salaries as his.

THE merchants of Albuquerque are backing the Territorial Fair association in its endeavor to give something new at this fall's fair, and the gentlemen, placed in charge of the fair, have proclaimed it aloud throughout the southwest that the events will take place on the avenues and streets of the city and that there will be no charge.

It is worthy of repetition that Commander St. John of the British navy is furiously angry at the yellow journals, and absolutely denies the truth of the utterances attributed to him regarding General Otis and the Philippines. The matter has been placed in the hands of the commander's lawyers, but about the only satisfaction that official will get out of his latest move, will probably be a three-line apology, in an obscure corner of the offending sheet.

THE actual face value of the great Kansas corn crop is estimated at \$75,000,000 aside from the added profits that will be derived from the use of it in feeding and fattening live stock, speculation in the buying and selling of cattle, cereal foods, and so forth. On top of this seems now to be opening a newly developed strength in wheat, which will help to add wealth to Kansas—for its wheat crop, even after the loss by the freezing, was 1 larger than that of any other state.

If ever there was a hoodoo this side of the Congo coast, it certainly overhangs the ships that a year and a half ago were under the Spanish flag. But one of her fighting vessels at Santiago was floated, and it broke its back on Cat Island. The Teresa was brought to Newport, but is no good for any practical use. Now comes news that the Panama, a big transport captured during the blockade, and made a government transport, with the name of Hooker, is now a total wreck on the shore of Luzon Island.

The Goebel election law in Kentucky, about which one hears so much in the discussion of the politics of that state, provides for the creation of a board of three state commissioners, who have authority to appoint local boards of three in each county. The local boards appoint all the officers of election, and there is no provision for minority representation on any board. As the governor appoints the state commissioners, an idea may be easily gained of the immense power placed in his hands, a virtual control of the election machinery of the state.

TO BE GIVEN HOMES.
The San Carlos Indian reservation of Arizona is occupied by about 2,000 Apache and Mohave Indians. There are 8,000 acres of land, which could, with small expense, be brought under cultivation by irrigation from the Gila and San Carlos rivers. About 2,000 acres are now cultivated by the Indians, who raise wheat, barley and alfalfa, the proceeds of which, with the sale of wool and hay to the agency and the military post and the issue on one-third of a day's ration of flour, sugar, coffee and meat, keeps them in comfortable condition. The Indian office at Washington has at last, on urgent recommendation of the agent, consented to appropriate money to put the remaining 6,000 acres of land under irrigation. This will give each Indian family ten acres, enough to maintain it self without the aid of the government in fact, to make them self-sustaining. It is contemplated to build a two-story house for each family, which will greatly improve their condition.

THE SHOOTING OF LABORI.
The hand of the assassin now casts its shadow upon the Dreyfus trial. Driven to desperation by the overwhelming evidence that an acquittal of the accused man is morally certain, the bigots of unhappy France would turn the country over to revolution at the first opportunity.

M. Labori, aside from Dreyfus himself, is naturally the man upon whom all the fury of the conspirators is visited. It is largely through his efforts, because of

his self-sacrificing zeal, great ability and comprehensive talents, that the humiliating story of the century's crime is finally unfolding itself before the world. Unable to strike the chief object of his hate, the assassins turn upon his principal defender.

The material temperature of the Frenchman makes it a matter of conjecture as to what effect this tragic development will have upon the public mind. "Vive l'armée" reverberates a multitude of times in France. It is a very large proportion of the people of that country who are convinced that the equality of Dreyfus means the fall of the army's power—a substitution of the unattractive civil force for the spectacular grandeur of the military.

Whether Labori lives or dies the civilized world will record to him all that for which he has labored for years—a fair and impartial hearing for the client whom he represents. Justice did not fail with Labori.

THE people throughout the southwest, who contemplate visiting Albuquerque during the great territorial fair, are guaranteed in advance by the association that the "new, novel and unique" events, free to all, will take place on the avenues and streets of this city. The baseball tournament, the bicycle, foot, horse and other races have all been arranged for and the outside spectators will not be required to get up, except to see them, and this includes also balloon ascensions and parachute leaps every day; the "Battle of Manila" with fireworks, and a thousand things in the Midway Plaisance.

Religion Looking Ground.
The country is becoming agitated over religion. Periodically some one arises and declares that it is decaying. This results in countless dissensions until the agitation runs its course, and the religion disappears. It is always well, for it is something the world needs. One of the finest recommendations of Herbert Spencer's "Principles of Psychology" is that it has been for fifty years in spite of hundreds of imitations, and is rewarded for its cure of constipation, dyspepsia, biliousness, fever and ague, malaria, and so on, that the life-giving elements of the food are assimilated with the blood. There is nothing "just as good" as that a private revenue stamp covers the neck of the bottle.

LINCOLN BAPTIST ASSOCIATION.
Hold an Interesting Session at Fresno, New Mexico.
The Lincoln Baptist association has just closed its thirteenth annual session at Fresno.

The association proper, convened Thursday morning, with Judge Green, of New Mexico, who has been the head of the association since its organization thirteen years ago, in the chair.

The opening sermon was preached Friday night by Dr. H. H. Kneeland, of El Paso. Prominent among those present were Rev. H. H. Kneeland, of Omaha, general superintendent of the association in twelve states, and who passed through Albuquerque on his way home night before last; Rev. J. W. Crooks, superintendent of the missions in Colorado and New Mexico, and Rev. W. O. Millean, of El Paso.

The regular outline work was successfully carried out and many interesting sermons were delivered by visiting and local clergymen.

Among the questions discussed was the advisability of holding a Chautauque at Clarendon next summer. A committee was appointed to look into the matter.

The association adjourned Monday, and for the next two weeks camp meeting will be held.

A FEW PERTINENT QUESTIONS.

M. J. Fitzgerald Offers His Suggestions About Booming Albuquerque.

HE WANTS EASTERN CAPITAL.

Editorial Citizens:
Albuquerque, N. M., Aug. 16.—If you can find space in this column of your valuable paper, for a communication to the citizens of this city I would submit the following: And preface my letter by asking "Why is it we are not better known by the capitalists of the east?" Scripture tells us that at one time a great many wise men came from the east, and I am satisfied there are yet several of the above class of citizens in the east willing and ready, to come here or elsewhere, if opportunities are open to them.

Here we have mineral resources new to the world and which can be worked for 50 years in the year; no severe storms of snow, frost or rain or blizzards to prevent or mar the operation of men or capital. Here we have mineral deposits to view on the surface of mother earth—our Creator placed its formation in a manner that would lead us to it in no expensive way. Gold, silver, copper, lead, tripoli zinc, mineral paint in all forms and another mineral of a recent discovery by Jas. Bush, anhydrite (sulphate of calcium). Now, this has been open to the world in its natural bed far from our city for many years and it fell to Mr. Bush to discover it, and its value. He is in communication with Michigan capitalists and is about to interest them in placing a large plant at the mine to prepare this mineral for the market.

One of the foremost citizens a banker here, told me that Michigan power made Grand Rapids, Michigan, a city. I know personally what a deposit similar to that Mr. Bush has made the large town of Quanah, Texas, what it is. Why cannot the leading citizens of Albuquerque assemble and invite Mr. Bush to their meeting, and make an investigation of this matter. He has shown some of our citizens the crude material; some have given him flattering advice while others in an off handed sort of way say "I will not quote the statements of the best experts of Roseland, R. C., when the Le Roy and War Eagle mines were first presented them for inspection. They, the experts, said the mineral was of no value. And the wise heads of Roseland, R. C., went right along developing the property. Last year the Le Roy mine was sold for \$3,500,000 and the War Eagle sold for \$5,000,000. They made Roseland what it is to-day, one of the most prosperous towns in the Kootenai district of British Columbia.

To the people of Albuquerque I will say the wheel of progress for our city may be in the property lately discovered by Mr. Bush. Let some of you put your shoulder to the wheel and assist him in making it revolve, for we know not where wealth is hidden. Why Albuquerque should not prosper is one thing I cannot understand. Here we have a perpetual summer, and crops can be successfully raised; our fruits, hay, grain and other products of the farm are not known to the outside world, as products of California are, for we grow only enough for home consumption, where California supplies the whole country and a part of Europe. Here we have good water only a few feet from the surface of mother earth. The underflow of water could be harnessed to irrigate every foot of now uncultivated land in our county, and territory, at a small cost to each farmer. Therefore we should ask ourselves who is to blame if the products of our fruit and grain farms are not known to the world.

The citizens of Albuquerque should form a board of trade and chamber of commerce, as other cities and booming towns are now doing. We are told that eastern money is seeking an outlet from the owners of it. Why not invite some of it into New Mexico.

Show the eastern money men what our resources are, our laws do not conflict with their views. Invite them among us. Show them that they can control every investment they make here. Then we can move the wheel of progress as by magic, and say to the outside world: Good-bye "My Honey, I am Going."

M. J. FITZGERALD.

Volcanic Eruptions
Are grand, but skin eruptions rob life of joy. Bucken's Arnica Salve cures them; also old, running and fever sores, ulcers, boils, felons, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains. Best pile cure or earth. Brives out pains and aches. Only 25 cents a box. Cure guaranteed. Sold by J. H. O'Killy & Co., druggists.

Words About the Sulphurs.
A letter received at Las Vegas from Conductor C. H. Stevenson, who is now at the Sulphur Springs, N. M., says: "We arrived at Sulphur Springs, N. M., on Sunday evening, all O. K., but Westport was pretty bad. I was taken to the country from Bland to the Sulphur is one of the prettiest I ever saw in New Mexico. The valleys are something grand—filled with green grass. The thousands of cattle and sheep, the finest I ever saw. The sulphur is found in about forty different springs, boiling all of the time. All kinds of water—sul-

phur, soda, iron, magnesia, sulphur, and almost all kinds of water. This is a great country, terribly thrown up by volcanic eruptions. I am feeling out of sight and R. F. Hays is clear out of sight."

Coming From Grant County.
Quite a number of our citizens are taking of attending the Territorial Fair next month at Albuquerque. We understand that some of the miners are intending to participate in the drilling contests.

This year, above all others, Grant county should have a fine mineral exhibit at the coming Territorial Fair, which will be held in Albuquerque, beginning September 10th. There will be thousands of visitors in attendance there, and just now when Grant county's mineral resources are attracting so much attention, is the time to further stimulate interest and seek foreign capital—silver city independent.

Chas. May.
I will not quote the statements of the best experts of Roseland, R. C., when the Le Roy and War Eagle mines were first presented them for inspection. They, the experts, said the mineral was of no value. And the wise heads of Roseland, R. C., went right along developing the property. Last year the Le Roy mine was sold for \$3,500,000 and the War Eagle sold for \$5,000,000. They made Roseland what it is to-day, one of the most prosperous towns in the Kootenai district of British Columbia.

STARTLING SALE OF CARPETS!

We have to make room for our new fall stock, and, in spite of the present state of the carpet market, which tends to a tremendous advance in prices in all grades of floor coverings, we offer our Carpets, Linoleum and Matting at fully 25 Per Cent less than same goods can be bought and sold at during the present time.

Prices Slashed as Never Before...

These pleasant people, Mr. and Mrs. R. H. Lee, have returned home after a delightful trip to California, and will be found at their extensive green houses on Bara avenue, from now on, ready to greet their many friends and customers.

Joe M. Bera, employed in the machine department of the local railroad shops, had his hand severely crushed yesterday while feeding the machine he was attending. A forced lay-off of a few weeks is the result.

'The Proof of the Pudding'

is in eating it," and the proof of our high-grade and delicious canned goods, in glass or tin, is in testing them. The dainty palate revels in our fresh canned fruits, vegetables, potted and tinned meats, deviled crabs and canned salmon, oysters and lobsters. Our superior foods are relished in warm weather, when ordinary victuals fail to tempt the appetite.

TWO WEEKS' SALE OF MUSLIN UNDERWEAR!

Your labor is lost making underwear when you can buy richly-made Cotton Underwear at these prices.

Prices that Will Barely Cover the Cost of the Material Alone!

We are placing on sale over 500 Dozen Pieces of Cotton Underwear, divided into six lots, for ladies, misses and children. Our last sale was the largest Underwear Sale in our history.

We thought we had enough to supply all, but before night the assortment was broken and many were disappointed.

This time the quantity is much larger. But there is sure to be big crowds at the Underwear counters and the best things will go first. To get your share we would advise you to be on hand early.

In addition to our Muslin Underwear Sale We are offering our entire stock of Cotton and Wool Blankets at Actual Cost.

SALE BEGINS THURSDAY AT 9 O'CLOCK.
