TEUTON FORCES MOVE STEADILY AGAINST ENEMY ON BUZEN RIVER

Rumanian Army Is Again
Broken and Germans Are
Now Marching in Open
Plains Country.

RUSSIAN ATTACKS IN CARPATHIANS DEFEATED

Kaiser's Chancellor Is Ex-
pected to Make Remarkable
Speech in Reichstag on Lat-
est Phases of War.

The Hungarian and German troops fighting on the center of the line in Rumania have emerged from the swamp lands of the Jalomitza river and made a crossing of the stream near Reccanu, about midway between Bucharest and the important railroad junction town of Buzen.

Before the invaders and Buzen now lie about thirty-five miles of plains with no more rivers to cross until the Buzen itself is reached. Despite heavy rains and soggy ground, the forces of the Teutonic allies all along the front in Rumania continue to make progress. The Rumanian attacks which have held the invaders in the Floetchi region, now have been broken, according to Berlin. Several thousand additional Rumanians have been made prisoners.

SLAY ATTACKS REPULSED.

In the fighting in the eastern Carpathians and along the Moldavian front, all the Russian attacks have been repulsed, says the Berlin war office.

Considerable heavy fighting has again taken place in the Cerna river region of Serbia. Both the Berlin and Bulgarian war offices report the repulse of strong entente allied attacks in this sector. Berlin asserting that the French and Serbians suffered sanguinary losses. However, an advance of several hundred yards against the German allies west of Snododol, northeast of Monastir, is reported by the Serbian general staff, while the French official communication records the pushing forward of the entente lines about 800 meters near Vlaskar.

LITTLE IN WESTERN FRONT.

Artillery actions and small engagements continue on the western front in France and Belgium, and also in the Austro-Italian theater. Quiet prevails in Russia and Galicia.

The Greek situation remains tense. Conferences between the entente allies in an endeavor to reach a very radical solution of the problem are in progress, according to an announcement of the British foreign office. Unofficial reports say a revolution has been started in the Cyclades islands in the Aegean sea.

A speech by the German imperial chancellor at the opening of the reichstag Tuesday is being awaited in Germany with much interest. The speech, it is said, will be "the most remarkable since the outbreak of the war."

ENORMOUS LOSSES SUSTAINED BY RUMANIA

Berlin, Dec. 11 (By Wireless to Sayville).—The Rumanian losses since the beginning of their campaign are placed by the military critic of the Overseas News agency at 140,000 prisoners and 500 cannon, in addition to the dead and wounded, war material destroyed, and the booty captured at Bucharest. He writes:

"The operations of the central powers in Wallachia are progressing powerfully. They are driving before them the fragments of the defeated Rumanian army. Resting in the north against the mountains near Floetchi and in the south against the Danube swamps, the armies of the

central powers, on a front of 100 kilometers, form an irresistible wall which cannot be shaken. Troops from Predeal pass have joined the main body.

"The central powers have at their disposal the railroads running north and south between Kronstadt, Ploetchi, Bucharest and the Danube, which forms a first-class strategic means of transport and in addition, the Wallachian railroad from Orsova to Bucharest and thence to Turtukaj and Giurgiu. The fleeing Rumanians have at their disposal only the railroad from Buzen to Moldavia, and a cross railroad which is utterly useless for strategic purposes.

"The Russians continue their hopeless offensive in the Carpathians but their forces are too impaired efficient to assist the Rumanians in Wallachia."

AXE MURDER PROBE TO BE UNDERTAKEN AGAIN

Red Oak Iowa, Dec. 11.—Another grand jury investigation of the Villisca murders in 1912, when Joe Moore and his family and two young women guests were killed in their beds with an axe, may result from the verdict rendered early today in the Jones-Wilkerson slander suit. It was stated today by Oscar Weststrand, county attorney-elect of Montgomery county.

The jury in the Jones-Wilkerson case shortly after midnight returned a verdict refusing to allow former State Senator F. E. Jones the \$50,000 asked for alleged slander from Detective J. N. Wilkerson of Kansas City, who the plaintiff charged "imputed to him the moving spirit in the Villisca axe murders."

GERMANS LEVY WAR TAX ON BUCHAREST

London, Dec. 12.—Telegraphing from Jassy, the new capital of Rumania, under date of December 9, the Times correspondent says:

"The Germans have levied a heavy war tax on Bucharest. An edict has been issued forbidding the circulation of paper money unless it is marked as German, for which 30 per cent of the value of the notes is demanded. A similar contribution of 15 per cent amounting to £2,000,000 sterling, has been exacted from Craiova.

"Prince Wilhelm of Hohenzollern, brother of King Ferdinand, who is with the German army, in a manifesto, declares he has come not to punish the Rumanians, but those who have broken their solemn pledges, thereby severing their family ties. In the manifesto he allows four days to any of the people of Craiova who wish to leave, but says that those remaining in the town or occupied territory longer than this period must obey all orders."

WILL PROSECUTE FOR HIGH COST LAW VIOLATIONS

President Directs That Prompt
Action Follow Inquiry Into
Food Speculations to Be
Made by Anderson.

Washington, Dec. 11.—United States Attorney Anderson of Boston, in general charge of the federal government's investigation into the high cost of living, went over plans for grand jury investigations with President Wilson late this afternoon. The president directed that the investigation be followed vigorously and prompt prosecutions brought if any violations of law are discovered.

Preparations for the transfer of the federal inquiry into the high cost of living to grand juries at Chicago, New York, Detroit and probably other large cities were made today at the department of justice.

Information Is Studied.

United States Attorney Anderson, in charge of the investigation, devoted today to studying the information collected from various sources and reports to the department by its field investigators. It is understood Mr. Anderson will take with him a mass of data relating to the activities of alleged food and coal speculators when he leaves for Chicago.

Much of the information in Mr. Anderson's possession has not yet been digested, it was said, for lack of time. Such data as he regards important probably will be placed before the various grand juries.

At the White House it was said that President Wilson was continuing his study of reports bearing on the subject and probably would see Mr. Anderson before the latter's departure.

Introducing Resolutions in House.

Two high cost of living resolutions, asking the department of justice and the federal commission, whether they have made inquiries into the rapid advance in anthracite and bituminous coal prices at the mines and what facts have been ascertained, were introduced today by Representative Treadway of Massachusetts.

Engaged to Diplomats.

Washington, Dec. 11.—Announcements were published here today of the engagement of Miss Katherine Britten, of this city, to Prince Alfred Z. Hohenzollern-Schillingfurst, an attaché of the Austro-Hungarian embassy.

HOLLAND LEAGUE ASKS AMERICA TO TAKE LEAD FOR BELGIAN PEOPLE

This Nation Is Urged to Or-
ganize Neutral Countries to
Put End to Deportation Into
Slavery.

DECLARES OUTRAGE IS WITHOUT PRECEDENT

United States Is Sufficiently
Powerful to Put End to Con-
dition Which Disgraces Civ-
ilization.

GERMANY REPLIES ON BELGIAN SLAVERY

Berlin, Dec. 11 (via London).—The secretary for foreign affairs, Dr. Alfred Zimmermann, today, handed to the secretary of the American embassy, Joseph C. Grew, the German reply to the American representations on the Belgian deportations. The note takes the form of a memorandum explaining the German attitude and the reasons which actuated Germany in the removal of civilians from Belgium.

SHARP REPLY TO ECONOMIC PLEA OF LIQUOR MEN

Rev. Charles Stelzle Says Pro-
hibition Would Increase
Production and Consump-
tion on Unprecedented Scale

St. Louis, Dec. 11.—A reply to the financial arguments advanced in opposition to prohibition was given at the Federal Council of Churches of Christ here tonight by Rev. Charles Stelzle, field secretary of the council. Mr. Stelzle said:

"The average working man fears being out of a job more than he does going to hell. The liquor interests have capitalized upon this fear and by presenting an array of figures which seem to prove that a calamity will follow the abolition of the saloon, they have persuaded a large number of working men to vote for its retention.

"What Census Returns Show.

"The entire argument of the liquor men is based upon the absurdity that if the saloon-keeper fails to get a man's money nobody can possibly get it. The fact that if the money now invested in the average American industry it would give employment for four times as many working men, and four times as much raw material would be required than is now the case in the liquor business. These figures are based upon a study of the United States census returns.

"The number of working men employed in the liquor business has been greatly exaggerated. Only 1 per cent of all those engaged in manufacturing industries in the United States are employed in the liquor industry—this is 62,290 wage earners.

"Of this number, one-fourth are brewers, maltsters, distillers and rectifiers; three-fourths are employed as engineers, carpenters, machinists, bottlers and other occupations, which are not at all peculiar to the liquor business.

"Attention to Farmers.

"The liquor men are paying a great deal of attention to the farmer. They are asking 'what will become of the farmer when the brewers no longer buy his grain and grapes, his apples and his cherries?' One would think that nobody likes grapes, apples and cherries unless they come in the form of booze. The fact is that the liquor interests purchase annually about an average of \$10 worth of produce from each farmer in the United States. If each person in the United States were to increase his purchasing power by so much as a two-cent postage stamp per week, the people of this country would buy everything that the farmer now sells to the liquor men."

No Evangelistic Campaign.

The council finally ordered that the recommendation for a nationwide evangelistic campaign under the auspices of the Federal Council of Churches be eliminated from the report of the commission on evangelism. Several spokes against the plan.

The council adopted a resolution calling for national prohibition under an amendment to the federal constitution and called on Christians throughout the world to co-operate in an effort to establish peace on a lasting basis of justice and good will.

INVESTIGATE ALLEGED LAMBERT BLACKMAILING

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Dec. 11.—Federal investigation into the alleged blackmailing of Col. John Lambert, a millionaire steel manufacturer of Joliet, Ill., was started by federal officials today with a possible view of prosecution under the Mann act.

Michael A. Kiely, of California, attorney, who is alleged to have directed the filing of a \$200,000 suit for alienation of affections which Roger B. Cornell, a former pugilist, brought against Colonel Lambert, was reported to be missing. Neither could federal officials locate Mrs. Lillian Cornell, former wife of the pugilist.

Lambert, Athletic Pupil of Cornell.

Pasadena, Calif., Dec. 11.—Roger B. Cornell, who sued Col. John Lambert for alienation of his wife's affections, formerly conducted athletic classes here and had as pupils Colonel Lambert and other wealthy men. He was employed as a trainer by August Busch, St. Louis brewer, and left here in the latter's service.

Colonel Lambert, it was said, met Mrs. Cornell while here.

Would Repeal Reciprocity Bill.

Washington, Dec. 11.—Repeal of the Canadian reciprocity act bill, on the statute books of the United States but rejected by Canada, is sought in a bill introduced today by Representative Sloan of Nebraska, republican, of the ways and means committee. At present, he pointed out, Canada may take advantage of it at any time and he argued that the act should be repealed, leaving the United States free to contemplate the commercial situation which will follow the war.

British Sailors Killed.

London, Dec. 11.—Lloyd's Shipping agency announces that three members of the crew of the British steamer Britannia, a vessel of 1,314 tons, reported yesterday as believed to have been sunk, were killed and the captain of the steamer made prisoner.

VE TO CERTAIN IF LITERACY IS MADE TEST FOR THE IMMIGRANT

President Lets It Be Known
That He Will Not Approve
Measure Now Being Pressed
Before Congress.

CONDITIONS WOULD BE WORSE THAN PRESENT

Reed of Missouri Objects to
Geographical Lines and Pro-
poses Exclusion of Africans
as Well as Asiatics.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Dec. 11.—While the immigration bill, passed by the house at the last session, was meeting unexpected opposition in the senate today, it became definitely known that President Wilson will veto the measure if it goes to the White House with the literacy test provision, one of its chief features.

The president, early in his administration, vetoed a similar bill for the same reason—the same as President Cleveland and Taft had done before him—but advocates of the legislation had hoped that he would not withhold his signature this time if substantial majorities were given in both houses of congress.

Debate on the bill in the senate developed into a general argument over the question of exclusion of aliens on account of race.

Provision as to Hindus.

Senator Works of California started the discussion by giving notice that he reserved the right to demand a separate vote on a senate committee amendment providing for the exclusion of Hindus and other Asiatics by prescribing geographical areas from which immigrants shall not be admitted without enumerating races. The amendment, recommended by the state department after inquiries had been made by the Japanese government respecting provisions of the bill as it passed the house, eliminates all references to the Root-Takahira passport agreement restricting Japanese immigration.

Sensor Works insisted that would leave the United States at the mercy of Japanese dictation as to immigration from that country. As treaty rights are involved, the senate went into executive session for the debate, which lasted more than an hour without a vote.

Would Exclude Africans.

In open session, Senator Reed offered an amendment to include the continent of Africa within the limits set by the committee. He said he would favor any legislation which would keep out of the United States any person not of pure white blood, but he did not think it proper for congress "to exclude by law and admit by diplomacy."

"I believe," said Senator Reed, "the time has come when we ought to keep our country from being filled up with people not capable of becoming first class citizens of the United States; people, who by birth, environments, and disposition, or by their great ignorance, are not qualified to perform the duties of citizens."

Answering a Question of Senator Gallinger as to whether Jews might as well be excluded as negroes, Senator Reed said:

"The Jews, by race and by blood have been civilized for thousands of years. They spring from the race that gave us our religion and the fundamentals of our law. I am not seeking to open the old black and white issues in this country. It is plain that we should make an effort to protect our citizenship from an influx of undesirable and keep out all not capable of thorough assimilation."

Sensor Smith of South Carolina in charge of the bill, produced statistics to show that in the last 25 years there have been only about 14,000 immigrants from Africa to this country.

"What you are really proposing in this amendment," suggested Senator Vardaman, "is to exclude people on account of race."

"I suspect you are right," said Senator Smith, adding:

"All we have tried to do is to avoid racial complication without running into national complications."

Sensor Vardaman introduced an amendment setting forth that there is some doubt whether the fourteen and fifteenth amendments to the constitution, enfranchising the negro, were properly adopted, and directing the attorney general to lay the question before the supreme court to have it ascertain whether they were made part of the constitution in the manner providing for constitutional changes.

Designed for Spanish Interests.

Before the doors were closed, Senator Works declared the amendment was designed purely in the interest of Japan and regardless of the interests of the United States.

"The amendment," said he, "leaves

the United States with absolutely nothing but the so-called gentlemen's agreement on which to depend. Whenever that agreement is abrogated, the entry of Japanese into this country would be unrestricted. We would be absolutely at the mercy of Japan in the future if we have no other safeguard or restrictions except this agreement. The proposed bill makes conditions much worse than they are now. We leave it absolutely to Japan to determine in the future what of her citizens should come into this country."

Sensor Lodge, ranking republican of the foreign relations committee, said that the amendment was "awkward," but left the United States in "no worse or no better" position than at the present time. The effect, he said, was to exclude all Asiatic immigration not already excluded by the gentlemen's agreement with Japan.

Sensor Works was proceeding with his attack when the executive session was ordered.

After an hour's debate behind closed doors, the session was thrown open and the debate proceeded in public.

Would Include Africa.

Sensor Reed of Missouri, expressing regret that the bill should be pressed at a time when many senators did not understand it thoroughly, wanted to know why the geographical lines of excluded territory defined in the bill were not drawn to include Africa.

Sensor Smith of South Carolina replied that African immigration for years had been negligible.

"I can see no common sense," said Senator Reed, "in excluding inhabitants of Asia and not excluding inhabitants of Africa. There is not a man on the floor of this senate who would dare make the statement that the people of Asia are not fully equal to the people of Africa."

He proposed an amendment to exclude African natives of the black race.

Good Month for France.

Paris, Dec. 11.—The statement of the minister of finance for November shows the month to have been the best since the beginning of the war in receipts from indirect taxes and monopolies, which totaled 339,000,000 francs, or 24,000,000 francs more than for the same month last year. The duty collected upon imports was 61,310,000 francs more than in November, 1915, and 63,300,000 francs more than in a normal year.

Criticizes Educational Bill.

Washington, Dec. 11.—Sharp criticism by Representative Lenroot of Wisconsin, republican, featured the opening of general debate in the house today on President Wilson's vocational educational bill. Mr. Lenroot objected to the provision for federal aid to established state schools and contended that membership on the proposed governing board should be restricted to prevent management of the system from being dominated by general educators. He announced his intention of offering an amendment to require representation of labor, commerce, manufacturing and agriculture on the board. The bill will be taken up again for passage next Monday.

WILD SCENES IN FRENCH CHAMBER; MEMBER BARRED

Socialist Declares Frenchmen
Should No Longer Fight to
Give Constantinople to Rus-
sia.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Paris, Dec. 11.—There was tumult in the chamber of deputies during the discussion of the military appropriations bill, when the socialist deputy, Pierre Brizon, spoke. Mr. Brizon was violently interrupted from all parts of the chamber when he declared that Frenchmen should no longer fight to secure possession of Constantinople to Russia. "You're a traitor," was yelled at M. Brizon by numerous deputies.

Various colleagues of M. Brizon endeavored to quiet him but without avail. M. Bouge and other deputies requested the stenographers to take down nothing said by M. Brizon. During the excitement M. Brizon grasped a water glass which stood before him and threw it at the heads of the deputies in a semi-circle before the secretary's desk. Thereupon Rene Renoult, vice president of the chamber, who was presiding, ordered a suspension of the sitting.

Hosted by Chamber.

M. Brizon was hosted by the entire chamber as he moved alone to his place among the socialist seats at the extreme left of the chamber. Most of the socialist seats had been vacant during the tumult. After the chamber had reconvened, M. Renoult announced that M. Brizon, having outraged the assembly, M. Renoult would consult the chamber concerning an application for his temporary exclusion.

Temporarily Excluded.

M. Brizon, demanding the right to be heard on the application of the rules, mounted the speaker's stand. He declared that M. Bouge had gravely insulted him by asking "How much did you receive from Germany to do the work to which you are applying yourself?"

The chamber then decided to exclude M. Brizon. The galleries were cleared and the session again suspended. When it was resumed twenty minutes later M. Brizon had left the chamber.

ATTENTION OF CONGRESS NOW CENTERS UPON PREPAREDNESS

Secretary Daniels Approves
Program for Building Most
Powerful Warships Ever De-
signed by Any Country.

VOLUNTEER MILITARY SYSTEM OBSOLETE

Experience of Great Britain in
War Proves That Universal
Training Is Absolutely Nec-
essary for America.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Dec. 11.—The attention of congress was directed sharply today to matters relating to both the army and navy, which are expected to be productive or agitation for even more drastic measures of national defense than have yet been seriously considered.

Secretary Daniels, before the house naval committee, advocated legislation which would compel steel companies and other private concerns to give preference to government orders for military supplies. He will submit a new section for the pending naval appropriation bill for this purpose, in order to hasten battleship construction which he declared was being delayed by commercial work both in the yards of private builders and in the steel plants.

Guardsmen Without Experience.

Secretary Baker wrote Speaker Clark in response to a house resolution that 11,824 out of the grand total of 162,800 national guardsmen taken into the federal service up to August 31, were without previous military training. Rejection of enrolled guardsmen for various causes operated later to increase the number of recruits to approximately 60 per cent of the force.

In this connection also, army officers charged with the duty of studying events of the European war, both political and military, made preparations to contend before the congressional committee that the fundamental reason for the cabinet crisis in England was the volunteer military policy there prior to the passage of the conscription act. The experience of Great Britain is viewed by the officers as the strongest of arguments for the establishments of universal military training in the United States as urged in the report of Maj. Gen. Hugh L. Scott, chief of staff, and to which the entire American general staff is committed.

Cost of Present System Great.

Another aspect of the national guard situation comes from Quartermaster General Sharpe, who told of \$25,000,000 deficiency incurred by the war department to equip and pay state troops now in the federal service. If an average of 75,000 men are retained on the border until June 30, he said, the deficiency will be \$50,000,000. The universal training advocates are expected to use these figures in contending that prohibitive cost would be the result of the present system, if the nation needed a great army.

Secretary Daniels explained to the naval committee a statement in his annual report as to the delays encountered in getting the building program authorized at the last session under construction. He pointed out that no satisfactory bids have been received for the four battle cruisers of the 1917 building program, nor any bids at all for three of the four scout cruisers. They were new types, but vitally necessary in the opinion of the general board, the secretary said, and he added:

"Every time we make a change and advancement in design the ship builders want to stick to the old plans."

\$6,000 a Year for Yards.

The secretary will ask \$6,000,000 a year for the equipment of government yards to build ships. He inserted a statement in the committee record showing his approval of the general board's recommendations for twelve 23,000-ton, 42,000-ton battleships in the 1918 program at a probable cost for the hull and machinery alone of \$15,000,000 each. The ships will carry 16-inch, 50-caliber guns, the most powerful weapons ever designed for naval use, mounted three to a turret.

The secretary recommended abolition of the naval prison at Portsmouth, N. H., and the establishment there of a submarine barracks for 1,000 men. He said that marine detachments from the naval academy, the Boston and New York yards and elsewhere, would be sent to the prison ship Southern at Portsmouth. Mr. Daniels praised the services of Boat-swin Hill, commanding the Southern, and approved the suggestion by Representative Roberts that he be made a commander in the navy by act of congress.

Extension of facilities for enlisted men to enter the naval academy was urged by the secretary, but he disapproved the suggestion for early graduation of midshipmen to fill vacancies in the service. He intimated that he might ask later that the pay of all enlisted men, on first enlistment be raised to encourage recruiting, but did not go into details.

The Day in Congress

SENATE.

Met at noon.

Took up immigration bill in executive session.

Adjourned 4:20 p. m. to noon Tuesday.

HOUSE.

Met at noon.

Secretary Daniels appeared before naval committee's hearing on naval appropriation bills.

Hearings on postal appropriation bill were begun.

Military committee continued hearings on military appropriation bill. Debate Indian appropriation bill.

Adjourned 5:10 p. m. to noon Tuesday.

OUTLOOK FOR U.S. WHEN WAR ENDS MOST UNCERTAIN

Capital Plentiful and Labor
 Enough, But Will Demand
 Be Sufficient? Railroads
 Not Building Now.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
 Chicago, Dec. 11.—The greatest
 benefactor to the business of the
 United States would be the man who
 would tell what is going to happen
 after the war. Almost everybody is
 making a stab at the problem and
 nobody has come anywhere near solv-
 ing it. Virtually the student of the
 subject is putting himself up against
 an impossibility, and yet an approxi-
 mation might be made if all the fac-
 tors were laid in a cool place out-
 side the hurry of the present time and ex-
 amined at leisure.

The pink statements made by cer-

tain leaders in business, particularly
 those of sanguine temperament, are
 entitled to little attention. It is the
 nature of the American to be hopeful
 and to see things big, and many au-
 thorities in finance and industry have
 personal motives for giving a good
 appearance to affairs.

Outlook Unsatisfactory.

If one judges by the ordinary ap-
 pearance of things and holds to the
 wave theory of business, he cannot
 look forward to the post-bellum situ-
 ation with much satisfaction. The im-
 mense amount of capital that has ac-
 cumulated in the United States may
 be regarded as a great advantage to
 us in the competition for world trade,
 but that capital is of little use unless
 it has something to do.

Inquiry was made today of a lead-
 ing authority on electrical and public
 utility matters as to his opinion. He
 stated that he budgets of that class
 of companies for 1917 are greater
 than ever before, and he specified
 a number of groups of men engaged
 in that line of business. It has al-
 ready been published that the Ameri-
 can Telephone and Telegraph com-
 pany has great things on hand for
 next year. The plans seem to be sim-
 ply for expansion on ordinary lines
 and in response to public require-
 ments. It is believed that the Insull
 interests centering in this city will be
 much enlarged, and the names of Do-
 herly and Stone & Webster may be
 mentioned in this connection. But all
 these plans are predicated on existing
 conditions, and those conditions are
 temporary, because it can not be as-
 sumed that the European war will last
 many years.

What, then, will be the situation of
 these companies with their purchases
 of material at present high prices and
 extraordinary labor cost after the
 present pressure is over? One thing
 is certain, and that is that the utilities
 will be based on a high capitalization
 of cost so far as concerns the produc-
 tion of equipment now going on.

Then it is a question whether the
 demand for service will be such that
 a fair income can be earned. At this
 point it is found that the ordinary
 business manager experiences a
 spiritual recoil. He thinks of the time
 when the factories now turning out
 munitions will close down or curtail
 production, when great numbers of
 workers will be out of jobs, and when
 consequently the demand for trans-
 portation, light, food and clothes will
 be reduced.

What will there be to do after the
 war? We shall have plenty of capital
 and plenty of labor. The question is
 whether there will be such a need
 or demand for useful things as will
 absorb the capital and labor. Surely
 we shall not need any more industrial
 equipment. It would seem as if we
 had enough of that for a decade at
 least. Some of it will be used in cre-
 ating new human conveniences, and
 doubtless aircraft will call for much
 larger activities than at the present time.

Probably, too, there are some av-
 enues which are yet to be opened for
 the race is constantly going on to new
 things, but with all the keening one
 can do he cannot see anything com-
 mensurate with the equipment of cap-
 ital, machinery and labor that we now
 have.

Railroad Construction.
 The old fear for the revival of busi-
 ness was railroad construction. The
 railroad authorities say that there is
 little room left for the construction of
 trunk lines in this country; at the
 same time they declare that something
 like \$1,000,000,000 per year should be
 expended for railroad facilities. These
 two statements may be harmonized,
 in part, by the need of better termi-
 nals and of enlarged capacity to the
 lines now existing in the way of big
 train units, powerful engines, etc.

When that is said one does not feel
 satisfied that the whole story is told.
 As to new construction, many feelers
 can be built to the advantage of lines
 now existing and that of the whole
 country. The construction of railroad
 lines has run down to small propor-
 tions, being last year about one-third
 of the volume recorded in 1913.

It is the opinion of one expert not
 engaged in railroad business that
 "5,000 miles of this ought to be con-
 structed next year." Yet, there is
 plenty of need, but there is no motive
 on the part of capital. The railroad
 men have been discouraged by what
 they consider unfair treatment by the
 national and state governments, and
 they will not act until there is a new
 spirit and promise of a fair return on
 their investment. These are some of
 the data that must be taken into ac-
 count in the study of this question,
 but the solution of the problem of "af-
 ter the war" has not yet alighted on
 this planet.

To Reappoint Daniels.
 Washington, Dec. 11.—Winthrop M.
 Daniels, of New Jersey, whose term as
 a member of the Interstate Commerce
 commission expires December 31, will
 be reappointed by President Wilson.

SCOTT'S DRIVES OUT COLD'S
SEMULSION

M'ADOO DISPOSES OF RUMORS THAT HE WILL RESIGN

Gives Out Statement Declar-
 ing That He Has No Inten-
 tion of Giving Up Treasury
 Portfolio at This Time.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

 ber of President Wilson's cabinet,
 with the possible exception of Attor-
 ney General Gregory, expects to re-
 main in office March 4, when his sec-
 ond term begins. It was learned def-
 initely today that all of them have been
 or will be asked to keep their posts.

Reports concerning possible resig-
 nations have centered chiefly around
 Secretaries McAdoo, Houston, and
 Baker, and the attorney general. It
 has been taken from granted that
 Postmaster General Burleson and Sec-
 retaries Lansing, Daniels and Wilson
 would remain, and indefinite rumors
 that Secretary Redfield might wish
 to retire to private business, were de-
 nied some time ago.

Secretary McAdoo today personally
 denied that he had any intention of
 resigning. Regarding Mr. Houston, it
 became known that the officials of
 Washington university at St. Louis
 have extended his leave of absence as
 chancellor of that institution so that
 he can continue as head of the depart-
 ment of agriculture.

Although Secretary Baker has been
 credited with a desire to leave the
 cabinet, it is learned that in all like-
 lihood he will remain. It is under-
 stood, however, that there is a possi-
 bility that he may be shifted to the
 department of justice if Mr. Gregory
 insists on resigning, and that Vance
 C. McCormick, chairman of the demo-
 cratic national committee, may be
 placed in charge of the war depart-
 ment.

In the attorney general's case, the
 report about his intention to resign
 have been very circumstantial and
 have been generally accepted as true
 by officials, although he has given no
 indication of his intentions. The pre-
 sident has offered Mr. Gregory a seat
 on the supreme court bench, and
 should another vacancy occur during
 the administration it is thought prob-
 able he would be seriously considered again.

CONDITION OF BELGIANS GROWS WORSE EVERY DAY

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

New York, Dec. 11.—The situation
 affecting the deportation of Belgians
 by the Germans is "daily more trag-
 ical," and the minds of Belgians are
 turned toward America and President
 Wilson, according to a cable message
 received by Pierre Mail, Belgian con-
 sul here, from Carton de Wiart, Bel-
 gium's minister of justice.

The dispatch, dated yesterday at
 Havre, was made public today by the
 committee of citizens who is arrang-
 ing a meeting in Carnegie hall Friday
 night as a protest against "enslavement
 of Belgians."

The cable message reads:
 "Situation is daily more tragical.
 Searching and deportations reach
 with no distinction men wanting work
 and men wanting none."
 "On white linen collar found on rail-
 way of Chinese was written inscription
 from a teacher of Mons, dragged away
 during his lessons, and begging to give
 notice to his wife and children. In
 Nivelles, after having hunted for a
 thousand men and locked them in
 railway cars for untold destination,
 German soldiers went through the
 streets among the despairing, sobbing
 women and children, singing, 'Floria
 Victoria!'"

"Every single remaining authority
 in occupied Belgium heard with deep-
 est gratitude what the United States
 is doing for them. They all turn
 their minds toward true America and
 the president so nobly championing
 liberty."

Goat Gets Fall's Goat.
 Santa Fe, Dec. 11.—That United
 States Senator Albert B. Fall was so
 seriously injured by a pet goat on
 his ranch that he could not be pre-
 sent at the opening of congress on
 Monday, is the report that comes
 from Three Rivers, Otero county. The
 Arizona attacked him furiously and in
 self-defense the senator was com-
 pelled to shoot the animal after it had
 injured him.

Jesuit College for New Mexico.
 Santa Fe, Dec. 11.—The Jesuits are
 looking for a site to locate a col-
 lege or university in New Mexico.
 Four colleges are to be found, one in
 each of the four missions in the
 United States: New Mexico, New Or-
 leans, the Rocky mountains and Alas-
 ka. There are 1,150 Jesuit fathers,
 754 teachers or scholars and 950 lay
 brothers in the United States.

CALLES IS CANDIDATE FOR SONORA GOVERNOR

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Douglas, Ariz., Dec. 11.—General
 Plutarco Elias Calles, military com-
 mander of Sonora, retired Saturday
 to become a candidate for governor
 of Sonora, according to a report
 among his friends here today.

Ives G. Leleiver, Mexican consul
 here, said today General Calles had
 accepted a leave of absence offered
 him by general Obregon, minister of
 war, to permit him to become a
 candidate for governor. The consul
 added that General Calles would re-
 tain his rank in the army, but had
 relinquished his command to General
 Francisco Serrano, who was at En-
 palme, Sonora.

General Calles is expected to take
 a short vacation, during which he will
 prepare his platform. This will in-
 clude recommendations for a better
 educational system for the state, new
 labor and land laws and other pro-
 gressive legislation.

During a recent visit to Mexico
 City General Calles was said to have
 been offered the appointment as civil
 governor of Sonora, but declined it,
 saying he would not be governor un-
 less elected.

He is planning a speech-making
 campaign throughout the state. The
 election will probably be held in
 March.

NEW YORK MONEY MARKET.

New York, Dec. 11.—Mercantile pa-
 per, 4 per cent; sterling 60 day bills,
 \$4.71 1/2; commercial 60 day bills, on

Paris Economizing on Coal.

Paris, Dec. 11.—The stopping
 of electric elevators today and
 the rationing of light in apart-
 ments here are under consideration
 further to economize in the use of
 coal. Families consuming more than
 a reasonable quantity of gas are
 charged the prohibitive rate of one
 franc per cubic meter for the excess.
 Plugs incapable of resisting current
 for the light of more than thirty
 lamps have been placed in houses
 where sixty lamps usually have been
 burned.

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" ends
 severe colds or gripe
 in few hours.

Your cold will break and all gripe
 misery end after taking a dose of
 "Pape's Cold Compound" every two
 hours until three doses are taken.
 It promptly opens clogged-up nos-
 trils and air passages in the head,
 stops nasty discharge or nose run-
 ning, relieves sick headache, dizziness,
 feverishness, sore throat, sneezing,
 soreness and stiffness.
 Don't stay stuffed-up! Quit blowing
 and sniffing! Ease your throbbing
 head—nothing else in the world gives
 such prompt relief as "Pape's Cold
 Compound," which costs only 25 cents
 at any drug store. It acts without as-
 sistance, tastes nice, and causes no in-
 convenience. Accept no substitute.

VILLA TREATS WITH CONTEMPT, WOMAN'S APPEAL

Mrs. Barnett Dannis, Whose
 Husband Owns Store in Chi-
 huahua, Writes of Inter-
 view With Bandit Chief.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Los Angeles, Dec. 11.—Details of
 personal appeals to Francisco Villa
 for consideration at his hands while
 he was in control of Chihuahua City
 are recited in a letter received today
 from Mrs. Barnett Dannis, whose hus-
 band is proprietor of a general mer-
 chandise store there. The letter, to
 her son, Samuel Dannis, a Los An-
 geles attorney, asserts that Villa was
 given 1,000,000 pesos after he threat-
 ened to burn Chihuahua City if the
 silver was not forthcoming.

Villa also made threats, the letter
 says, to relieve Americans of all their
 property and valuables. The Dannis
 store was looted.

Treated Her With Contempt.

"Three times I went to Villa's head-
 quarters and asked him personally
 that he not disturb at least our
 household effects," Mrs. Dannis wrote
 her son. "Villa treated us with utter
 contempt," the letter continues. He
 would not listen to anything I asked
 him, but said everything Americans
 possessed now living in Mexico would
 be taken away by the Mexicans, and
 that orders had been given to his men
 that what could not be taken, should
 be destroyed. The fixtures in our
 store, the show cases, shelving and
 counters were destroyed.

"We stayed in hiding for six days.
 During that time, we had to have
 something to eat and I dressed like a
 native woman and in that disguise, I
 managed to reach Villa's headquarters
 and also to interview him."

Had to Have Loot.

"After leaving the city and making
 away with about \$400,000 worth of
 merchandise, destroying and burning
 every building that belonged to for-
 eigners, Villa demanded 1,000,000 pe-
 sos in silver of the various residents
 in the city under threat of burning
 the town. The money he got. He
 stated that he had to have as much
 loot as possible, as the expedition to
 Chihuahua had cost him a great deal
 of money."

"Chinamen and Mexicans were
 killed by the mores. Dead are
 strewn all over the city."

LIVESTOCK MARKETS.

Chicago Livestock.
 Chicago, Dec. 11.—Cattle.—Receipts
 28,000. Market steady. Native beef
 steers, \$7.90-12.00; western steers,
 \$7.00-10.50; stockers, \$4.60-7.85;

DISMISS APPEALS IN RAILROAD PROSECUTION

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
 Washington, Dec. 11.—Appeals
 from New York federal court rulings

Good Medicine
 3-4 WEEKS' All Druggists
BREAK-UP-A-COLD
 TABLETS

granting immunity to John L. Bil-
 lard, William Skinner and James S.
 Eiton in the New Haven railroad
 prosecution were dismissed today in
 the supreme court by the department
 of justice.

The government contended they
 were not entitled to immunity by hav-
 ing testified in the interstate com-
 merce commission investigation.

The decision does not affect fur-
 ther action by the department of jus-
 tice against William Rockefeller and
 other New Haven directors whose
 trial for criminal conspiracy to vio-
 late the Sherman anti-trust law more
 than a year ago resulted in a dis-
 agreement of the jury.

Solicitor General Davis said today
 he thought no further effort would
 be made to prosecute Billard, Skinner
 and Eiton.

The government first appealed from
 the ruling of the New York
 court, but on reconsideration, the de-
 partment of justice today asked the
 supreme court to dismiss it.

Killing the Calves

—All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have **Shredded Wheat Biscuit** which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. Wholesome and strengthening for any meal with milk or cream or in combination with fruits. Made at Niagara Falls, N. Y.

'STRANGLER' LEWIS WILL MEET SANTELL IN SAN FRANCISCO

(BY MORNING JOURNAL SPECIAL LEASED WIRE) San Francisco, Dec. 11.—The wrestling match scheduled here tomorrow night between "Strangler" Lewis, the Kentuckian, and Ad Santell, regarded as the Pacific coast champion, will be in the nature of a championship contest, according to local sporting authorities.

With Frank Gatch apparently retired and Lewis and Joe Sheehy, considered the two men next in line for the heavyweight main event, credited with a five-hour draw bout, Santell, in the event of a victory over Lewis, would be conceded considerable right to the title.

The bout is limited to two hours and calls for a decision whether or not there is a fall. Should neither man succeed in throwing the other, the contest will be awarded to the man making the better showing.

Lewis will have an advantage in weight of forty-five pounds over his rival.

Chinese to Play With Seattle.
Honolulu, Dec. 11.—Vernon Ayau, shortstop on the Chinese baseball team which visits the mainland annually, was signed today to play shortstop for the Seattle club of the Northwestern club. Ayau is said to be the first Chinese baseball player to enter organized baseball circles.

Killam Outpoints Miller.
Youngstown, O., Dec. 11.—Johnny Killam, featherweight champion, easily outpointed Alvie Miller of Lorain here tonight in a 12-round bout. Miller kept covered up most of the way.

"Only 'Gets-It' for Me After This!"

It "Gets" Every Corn Every Time. Painless, Nothing More Simple.

"I'll tell you what, I've quit using toe-knives for corns. I've quit making a nuisance out of my toes with bandages and contraptions—quit digging with knives and scissors. Give me 'GETS-IT' every time!"

When You See These Pretty Girls in Your Dressing Window It's a Good Time to End Your Corns.

That's what they all say the very first time they use "GETS-IT." It's because "GETS-IT" is so simple and easy to use—put it on in a few seconds—because there is no work or corn-knives to do, no pain, that shoots up to your heart. It gets your corns off your mind. All the time it's working—and then, that little old corn peels right off, leaving the clean, corn-free skin underneath—and your corn is gone! No wonder millions prefer "GETS-IT." Try it tonight. "GETS-IT" is sold and recommended by druggists everywhere, \$1 a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Albuquerque and recommended as the world's best corn remedy by Otwell Drug Co., Highland Pharmacy, Holt's Drug Stores, Inc., and Alvarado Pharmacy.

RULES GOVERNING WORLD'S SERIES MAY BE CHANGED

Meeting of National League, Which Opens Today, Expected to Have Far-reaching Effects.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, Dec. 11.—Baseball magnates representing the National and International leagues and the American association, met here today for a series of conferences which are expected to continue several days. The International league began its annual meeting shortly before noon with a conference with committees appointed to represent the American association relative to a series of inter-league games at the end of the regular pennant season.

The National league is not to convene in annual meeting until tomorrow afternoon, but a majority of the club owners were on hand early this evening, prepared for what is expected to be a conference of more than usual importance.

Many subjects of considerable baseball interest were discussed in an informal way by the league magnates, and it appeared to be the general impression that before the annual meeting adjourns there would be legislation passed of far-reaching effect upon the professional end of the national sport. One of the chief subjects for discussion and consultation was proposed changes in the rules governing the world's series.

Several of the magnates expressed the opinion that there would be radical changes adopted by the national league and submitted to the American league for ratification. Garry Herrmann, chairman of the national commission, and president of the Cincinnati club, said he advocated a series based upon the winning of five out of nine games; lower prices of admission and the distribution of a portion of the players' share of the receipts among the members of the second, third and fourth teams in the order of their finish at the closing of the pennant races. He said he believed that with the series lengthened there would be greater opportunity for the fans from all parts of the country to witness the play and admission charges could be lowered without lessening the aggregate receipts.

Other magnates said that they favored the idea in a general way. President Charles Weeghman of the Chicago Nationals was among the early arrivals and there were many rumors regarding the results of his alleged efforts to obtain a new manager for the coming season. He was reported to have had several conferences with Boston club officials and the names of Fred Mitchell and George Stallings were included in the gossip, either as a sale or trade.

Barney Dreyfus, president of the Pittsburgh club, announced that he was still determined to bring about the removal of Garry Herrmann from the national commission if the same was possible.

GEORGES CARPENTIER INTIMATES THAT HE WILL GET FURLOUGH

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, Dec. 11.—Tex Rickard, who is endeavoring to bring Georges Carpentier, the French pugilist, to this country for a boxing contest with Jess Willard, announced tonight that he had heard from Carpentier and that the latter intimated a for-leave would be granted him by the army authorities and he would be able to come to America and box for the benefit of the French relief fund.

Carpentier asked for several minor changes in the contract submitted for his signature, including a man to cover his training expenses, and Rickard agreed to these, it was said.

GOVERNOR HUNT'S CONTEST MAY BE ENDED QUICKLY

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Phoenix, Ariz., Dec. 11.—An inspection of ballots of Maricopa county in the contest of Governor G. W. P. Hunt against Thomas S. Campbell, will be begun tomorrow morning under an order of the superior court. This afternoon the inspection will be conducted by Homer R. Wood for the governor, George Bluminger for Mr. Campbell, and Thomas W. Nealon for the court. The order was made on the understanding that the attorneys for the contestants should prepare the disqualification of contests brought for the governor in the counties of Navajo and Mohave, that the ballots of those counties might be brought to Phoenix for inspection along with all other ballots cast at the late state election. The court intimated that if the contestants failed to prepare their disqualification of contests, the proceedings here would be stopped.

Mr. Campbell made formal application to the secretary of state this morning for his certificate of election. The secretary replied that unless he was stopped by some legal action, the certificate should be issued before any of the other certificates to state officers were signed.

Moving plants and ferns in general Indian baskets, only 12c, at Clark's.

AMBASSADOR MAY BE ALLOWED TO PASS BLOCKADE

United States Sends Another Communication to Allies Regarding Bad International Manners.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Dec. 11.—A third communication was sent today by the state department to Great Britain and France regarding a safe conduct through the allied blockade for Count Tarnowski, the new Austrian ambassador to the United States. The communication says that this country regards the unhindered passage of the envoy as part of the admitted right of diplomatic intercourse, and reiterates the opinion that the allies are acting beyond their rights in attempting to hinder such intercourse between this country and Austria.

Points Law of Case.
As with the preceding note, which was sent twelve days ago, the present one is very explicit in pointing out that this government does not demand a safe conduct for Count Tarnowski in its own name, but is merely explaining what it regards as the international law in the matter. In the first place, the United States acting as Austria's representative in England and France, conveyed Austria's request for a safe conduct.

Should Have Assurance.
The new note was prompted by the fact that no reply has yet been received from either England or France, whereas, the new ambassador is expected to sail from Rotterdam on December 16. It is felt here that some assurance should be had before that time, though it has been indicated that Count Tarnowski will sail regardless of whether he has been granted a safe conduct and that he probably will be allowed to pass the blockade.

May Not Publicly Recede.
The allied embassies here are known to have communicated their home governments the feeling that any advantage to be gained in holding up the new ambassador would not be commensurate with the consequent loss in American sympathy. It is understood that these suggestions have come from abroad and that even if the allies do not actually recede from their position in a public note, they will allow the fact to become known informally that the count may come through the blockade without hindrance.

FOUR PERSONS KILLED IN AUTO ACCIDENT

(BY MORNING JOURNAL SPECIAL LEASED WIRE) San Diego, Cal., Dec. 11.—Four persons, three of them Los Angeles women visiting the Panama-California exposition here, were killed today in a collision between an automobile and a street car. The dead: MISS KITTY NICHOLSON, 27, MISS MARQUETTE HALE, 26, MISS EVA HILLS, daughter of Mrs. Hale, and C. E. KRITZEL, driver of the automobile.

CHANCELLOR TO DELIVER SPEECH OF GREAT MOMENT

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Berlin, Dec. 11 (via London).—Interest in the speech the imperial chancellor is to deliver in the reichstag tomorrow is intense. The demand for tickets of admission surpasses all precedent during the war.

The speech of the chancellor is expected to consume half an hour. The reichstag will adjourn immediately afterward without debate.

UTTERANCES APPROVED BY GERMAN ALLIES.
Amsterdam, Dec. 11 (via London).—The Berlin correspondent of the Dutch newspapers emphasize the importance of the session of the reichstag tomorrow and which they characterize as "the most remarkable since the outbreak of the war and of world-wide historical importance."

All members of the reichstag, even those in the fighting line, have been summoned to Berlin by telegraph.

The imperial chancellor today received the ministers of all the federal states and discussed with them the subjects which he will bring up in the reichstag. It is said that the chancellor's statement has been received with approval by the government at Vienna, Sofia and Constantinople, where similar parliamentary sittings will be held simultaneously.

Danger Signal.
If the five bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should not more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough that so often follows a bad cold or an attack of the grip. Mrs. Thomas Bechler, Andrews, Ind., writes: "During the winter my husband took cold easily and coughs and croup. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.

U. S. TRANSPORT SUMNER AGROUND OFF BARNEGAT

Many Vessels Respond to S. O. S. Call; Passengers and Crew Are Not in Immediate Danger.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New York, Dec. 11.—The United States transport Sumner, bound from Colon for New York, was aground in a heavy fog off Barnegat, N. J., tonight, according to a wireless message received here. The Sumner sent a "S. O. S." call for assistance and several steamships in the vicinity responded.

The Sumner sailed from Colon on December 4. She carried passengers, mails and merchandise, and is a vessel of 3,458 tons gross. She is commanded by Captain Webster.

The coast guard cutter Mohawk and the steamers City of Montgomery and Thermistocles were first to answer the Sumner's calls for assistance. The steamers City of Columbia, Lampasas, and El Cid followed soon afterward.

A wireless message from the City of Columbia said she was steaming with all possible speed to the Sumner. A wireless message received from the Sumner at midnight said that she apparently was "pretty well up on the beach." The wireless operator aboard the transport said he could hear the surf breaking on the beach very plainly, but owing to the darkness, could see nothing.

A later message from the Sumner said she was resting easily on the sand and that the sea was light.

The coast guard cutter Seneca reported that she had picked up the "S. O. S." call and gone to the Sumner's assistance.

Col. John M. Carson, Jr., of the quartermaster corps here, in charge of the army transport service, said the Sumner had on board a number of soldiers and civilian passengers, but the exact number he did not know.

SWINDLE IN WILD HORSES REACHES MILLION DOLLARS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Omaha, Neb., Dec. 11.—Bills of sale for more than 15,000 head of wild horses were filed at Flagstaff, Ariz., J. E. House, a lawyer of Shafter, S. D., today testified in the government's suit against the United States Livestock company, an Omaha corporation, and the Omaha Land and Investment company, charged with the use of the mails to defraud in sales of imaginary wild horses in Coconino county, Ariz.

"I learned the United States Livestock company had reported but 900 head of horses for taxation and but 700 head for government range fees," House said.

The "wild horse" transactions, the government alleges, involves \$1,000,000. Joseph Distenhaupt, a miller of Humphrey, Neb., today testified he would have traded his \$18,000 roller mills at Humphrey for 120 head of horses and "a farm somewhere on the Mississippi river," but for the efforts of Dr. William N. Condon, president of a bank at Humphrey. Dr. Condon, he testified, held up the bill of sale after the deal had been closed, and "finally convinced me the whole thing was a fraud."

Dr. Condon testified J. Sidney Smith and A. O. Perry, two of the defendants, told him the horses were "bred up from draft horses, very tame and easy to catch." The banker said Smith and Perry brought suit against him for \$10,000 damages for interfering with the trade after he had refused a commission of \$1,000, "to let the deal go through." After two years in the courts at Humphrey, the suit was dropped.

A. V. Everett, real estate dealer of Bolfe, Ia., who first informed government agents of the wild horse operations, and who helped secure evidence that brought about the indictment of forty-two men, produced correspondence he had had with the officers of the United States Livestock company. John F. Baker, retired farmer at Paro, N. D., testified he had investigated before he traded a horse worth \$6,000 for wild horses and found "all operations positively on the square." Later, he said, he lost his farm.

TWO FIREMEN KILLED; THIRD BADLY HURT

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Toledo, O., Dec. 11.—Two city firemen were killed and another injured so badly that he may not recover, as the result of being caught by falling walls in the store of the Paddock Merchandising company, during a fire today. The bodies of Capt. Edward J. Welch and Albert D. Erie, blackened by flames and smoke, were taken from the basement of the building where they were precipitated when the structure collapsed.

Henry J. Pratt, buried with them, was rescued after five hours of exposure.

MEDICS EFFECT COMBINATION OF THEIR JOURNALS

One Periodical, to Be Edited by Dr. R. E. McBride of Las Cruces, Is Result of Merging.

Announcement of the combination of the leading medical journals of the southwest into one journal was made yesterday by Dr. A. G. Shortle, retiring president of the Southwest Medical and Surgical association, who with Mrs. Shortle had just returned from the annual meeting held at El Paso last week.

This combination is of great importance to the medical profession of New Mexico, Arizona and western Texas, and one that has led to much discussion at the different medical meetings of the last two years. Dr. Shortle was glad to bring it about during his term as president of the association, as he considers it a big step forward for the medical profession of the southwest.

Up to this time the Arizona State Medical society and the New Mexico state society have each published monthly journals. The El Paso county society published a monthly bulletin, while the Southwest Medical and Surgical association published its yearly transactions. The latter society is largely composed of the members of the Arizona and New Mexico state societies, and the El Paso county society also are members. The combination arranges for the publication of one journal, which is to act as the official organ for all four societies, thereby assuring the publication of a creditable journal more representative of the profession in the southwest. Dr. R. E. McBride of Las Cruces will be the editor of the combined journal.

Shortle Elected Trustee.
Dr. Shortle reported that the meeting brought out excellent scientific papers and numerous clinics were held at the different El Paso hospitals.

The officers elected for the following year are: Dr. J. L. Butler of Tucson, Ariz., president; Dr. R. E. McBride of Las Cruces, N. M., vice-president; Dr. J. W. Laws of Lincoln, N. M., second vice-president; Dr. D. W. Detweiler of El Paso, Texas, secretary and treasurer; Dr. A. G. Shortle, Albuquerque, trustee for three years.

As a token of respect and appreciation of the good work done by Col. C. L. Bushnell of the United States hospital at Fort Bayard, the society elected him president emeritus of the association, and a committee was appointed to draft a petition to President Wilson asking that Colonel Bushnell, who is to retire in a few months be retired with the rank of brigadier general.

WOOTTON WILL BE APPOINTED AS UNDER SHERIFF

Rafael Garcia, Sheriff Elect, Announces Names of Men Who Will Be His Assistants.

Rafael Garcia, sheriff-elect, yesterday announced the list of his assistants whom he will formally appoint when he takes office next month. The list is headed by R. L. Wootton, who will be given the appointment of under sheriff. Mr. Wootton was formerly chief of police of El Paso.

Aside from his experience Mr. Wootton had the recommendation in the fact that he is a fluent speaker of Spanish. The sheriff's office has a large amount of business to do with Spanish speaking people and that under sheriff should be able to speak their language was regarded by Mr. Garcia as a necessary qualification. He considered Mr. Wootton's linguistic qualification in selecting him for the office.

Mr. Garcia's other appointments will be: Deputy Sheriff—Max Gutierrez, Jailer—J. Louis O'Rannon. Guards at jail—Felipe Trujillo and Teofilo Padilla. Gutierrez will take the office now held by Deputy Sheriff A. C. Burtless.

To Be Tried Over U. S. Protest.
Brownsville, Tex., Dec. 11.—Despite strong protests of J. H. Johnson, American consul at Matamoros, Rioverde in Matamoros, has been taken to Victoria, capital of Tamaulipas, for trial, it was learned tonight. The state department at Washington is said to have taken up the matter several days ago with General Carranza, requesting that Solis be tried at Matamoros. The charge against him has not been made public.

Auto Bandits Rob Bank.
Muskegon, Okla., Dec. 11.—Four masked men robbed the Farmer's State bank of Vinita, Okla., this afternoon and escaped in an automobile. They entered the bank when Cashier Jasper Martin was alone, thrust him into a vault, grabbed all the money in sight and fled. It was reported the robbers obtained \$15,000.

Good for Constipation.
Chamberlain's Tablets are excellent for constipation. They are pleasant to take and mild and gentle in effect. Obtainable everywhere.

FATHER GETS ONE CHILD MOTHER, THE OTHER; DIVORCED

Mrs. Edyth R. Williams was divorced yesterday by District Judge H. F. Reynolds from Clarence R. Williams, whom she charged in her complaint with failure to support her according to his means, station in life and ability.

Mrs. Williams was awarded the custody of her youngest son, Linwood, 3 years, and Mr. Williams was given the custody of the older son, Glenn, 11 years. According to the decree Williams will send the older son to visit his mother every six months if she so desires.

Mrs. Nellie R. Hunter was given a divorce from Stephen W. Hunter. Hunter did not offer evidence in support of his answer to his wife's complaint at the hearing and the court held that her charges of abandonment and non-support were proved.

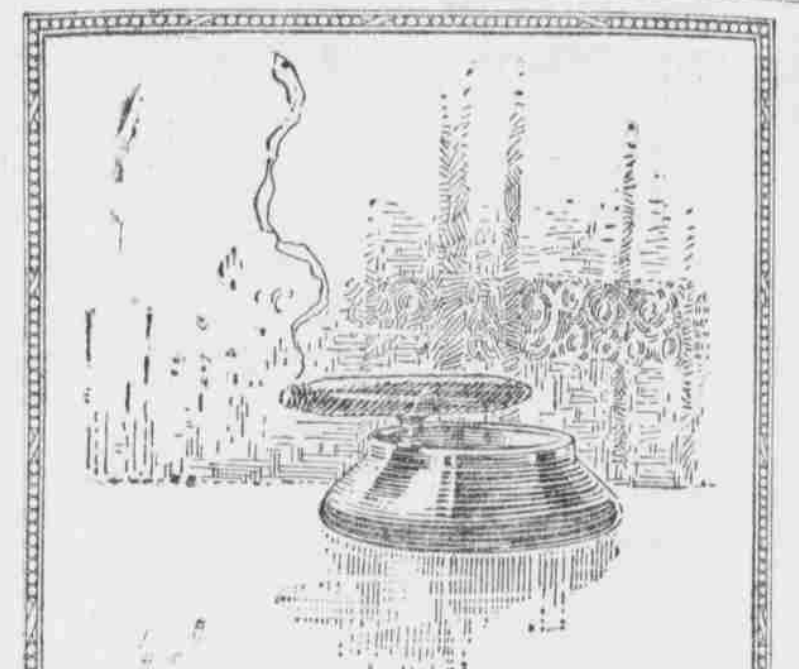

Good rich bran, one that contains all the rich shorts. Some mills take out the shorts and it goes into low grade flour. This mill makes a specialty of bran of extra value. Price per 100 pounds, \$1.90. All bran is not alike, just the same as all beef steak is not the same.—E. W. FEE.

A Single Application Banishes Every Hair

(The Modern Beauty.)
Here is how any woman can easily and quickly remove objectionable, hairy growths without possible injury to the skin: Make a paste with some powdered salicylic acid and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a painless, inexpensive method and, excepting where the growth is unusually thick, a single application is sufficient. You should, however, be careful to get genuine salicylic acid.

Held on Suspicion

Pittsburgh, Pa., Dec. 11.—A man known as James Reed was being held by the federal authorities here today in connection with the explosion last night at the Fort Pitt plant of the Acme Chemical company, which cost the lives of three men. Reed was employed at the Oakdale plant of the Acme company September 15, when five men were killed in an explosion.

Believed Armed Steamer Off Florida.
Miami, Fla., Dec. 11.—British cruisers in West Indian waters are sending out warnings to allied merchantmen, urging them to watch for an armed German steamer reported to be in the south Atlantic. Wireless messages picked up today from these messages described the enemy craft as having two funnels and a straight stern.

POISONED BY THOUSANDS!

(By L. H. Smith, M. D.)

The victims of auto-intoxication are many thousands every day. By reason of the toxins, or poisons, bred in the intestines, these poisonous bacteria are sent all thru the blood channels and the victim feels tired, sleepy and headachy, or the brain doesn't work as usual. The best treatment for this is to drink hot water before breakfast—plenty of water all day and procure a supply of Dr. Pierce's Pleasant Pellets, made of Mayapple, leaves of aloes, etc., with no calomel, entirely vegetable, which can be obtained at drug stores for 25 cents.

Equally important is it to cleanse kidneys and bladder and drinking plentifully of pure water will cleanse them to a certain extent. Then obtain at the drug store a little Anuric, which was first discovered by Dr. Pierce of Surgical Institute in Buffalo. Anuric should be taken before meals. It is many times more potent than lithia in throwing off the poisonous accumulations of uric acid.

Dr. Wier Mitchell once said: "What we call diseases are only symptoms of conditions. Allow the man's vitality to be reduced to a certain point and he is ripe for any of these weaknesses, or certain conditions which we call disease."

Through failure of kidneys to act, through congestion, inflammation, any urinary condition is ripe for disease to fasten its hold upon the system. Anuric has been tested for the past few years for kidney, bladder, uric acid troubles, rheumatism, gout, and such ailments as follow, and so many cases both acute and stubborn have yielded to this wonderful remedy that I do not hesitate to recommend it.

BRAKEMAN BADLY INJURED BY FALL FROM TRAIN TOP

J. D. Blair Loses Right Leg When Wheels Pass Over Him in Accident Near Williams; Rushed to Los Angeles

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Winslow, Ariz., Dec. 11.—J. D. Blair, a brakeman on a Santa Fe freight train westbound, was thrown from the top of a box car when the train broke in two at McMillan, a few miles west of Williams, Ariz., his right leg was cut off above the knee and one of his arms so badly crushed that it is thought it will have to be amputated. He was taken into Williams for first aid medical treatment and then rushed to the Santa Fe hospital in Los Angeles. Blair has only been in Winslow a few months. This is the second accident of the kind that has happened to a Winslow man in the last month. George King, a conductor was thrown from his engine at Williams the first of the month, and his leg cut off at the hospital in Los Angeles and died, being unable to survive the shock.

LAND OFFICE TO REACH MILLION DOLLAR MARK

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Santa Fe, Dec. 11.—The income from the state lands in 1917 will reach and perhaps exceed \$1,000,000. This is equivalent to the yield of a four mill levy on the state's assessed valuation. In other words, the tax payers are saved four mills in taxation by the administration of the state lands. The income of the state institutions endowed with land grants is beginning to be considerably above that indicated by their legislative appropriations, while the one or two institutions which have no land grant are at considerable disadvantage. The Normal university with its 100,000 acre land grant, this year, for instance, added \$2,137.05 to its permanent endowment fund from land sales and \$2,767.49 to its income above the legislative appropriation. The income has grown from \$279.24 ten years ago to ten times as much this year and will continue to increase, the interest on the endowment fund alone now yielding more than \$1,000 a year. The University of New Mexico, of course, fares much better by having almost a third of a million acres.

The Agricultural college, too, has quarter a million acres, while the School of Mines has 200,000 acres, the Military institute 150,000 and the insane asylum and penitentiary 150,000 each. Even the charitable institutions have 100,000 acres and the only state institution without such a holding is the state museum, an oversight in the enabling act which is to be remedied by legislation in the near future.

Officer, He's in Again

Santa Fe, Dec. 11.—Fred Buchanan, when he steps from the Leavenworth penitentiary on Christmas eve, will be met by Sheriff Charles Clossom armed with a regulation to take him back to Santa Fe, where he is to answer a charge of entering the store of Thomas W. Hanna at Lamy and robbing it. Police Judge Alberto Garcia this morning made out the necessary papers for the commitment of Buchanan.

Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodic attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear, and one anti-kamnia tablet every two hours during the attack. Anuric cures the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all drug stores. A-K Tablets. They quickly relieve all pain.

SUNSHINE STATE EARNED ITS NAME ALL LAST MONTH

Report of Weather Bureau for November Shows Pleasant Climatic Conditions in Every Part of the State.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Santa Fe, Dec. 11.—All over New Mexico, according to the weather bureau, the month just passed was unusually pleasant, with many clear and beautiful days. A large number of stations reported no precipitation whatever and most of the remainder reported only a trace. The lower Pecos valley had the greatest rainfall but even there it did not exceed an inch at any station. Light showers were recorded but mostly east of the Rio Grande. It was heaviest over the Sacramento and White mountains, reaching fifteen inches at Meek, Lincoln county, but little remained on the ground even on the highest peaks.

The sunshine, temperature, dryness and quiet air were favorable for corn husking, threshing and marketing corn, wheat and beans and bean shipments were very large. Conditions also favored drying and shipping of sugar beets and the shipment of cattle and lambs. The ranges continued good at the close of the month but more moisture was needed to restore water holes, this moisture having come the past few days in the shape of snow in the northern sections and in the higher altitudes.

Pressure

The mean sea level atmospheric pressure at Santa Fe was 30.1 inches; highest, 30.6 on the 15th; lowest, 29.53 on the 12th. At Roswell the mean was 30.14 inches; highest, 30.69 on the 15th; lowest, 29.5 on the 7th. At El Paso the mean was 30.07 inches; highest, 30.65 on the 15th; lowest, 29.4 on the 7th.

Temperature

The monthly mean temperature for the state, based upon the records of ninety-two stations having a mean altitude of about 5,000 feet was 43.3 degrees, or 1.8 degrees below the normal, as determined from forty-four stations having records for ten years or more. November, 1915, averaged 2.2 degrees warmer than the month just closed. The highest monthly mean was 54.4 degrees at Carlsbad, and the highest recorded temperature 92 degrees at Deming on the 4th. The lowest monthly mean temperature was 26 degrees at Tres Piedras, and the lowest recorded temperature 7 degrees below zero near Wagon Mound on the 14th. The greatest daily local range of temperature was 64 degrees at Lanza on the 24th.

Humidity

The mean relative humidity at Santa Fe at 9 a. m. was 54 per cent; at 6 p. m., 25 per cent, and for the month, 47 per cent. At the Agricultural college the 9 a. m. readings averaged 53 per cent, the 6 p. m. readings 28 per cent, and for the month 40 per cent, while a series of forenoon readings at Fort Hays averaged 33 per cent for the first twenty days of the month, when an accident broke the bulb and discontinued the reading for a period.

Precipitation

The average precipitation for the state, based upon the records of 165 stations, was .13 inch, or .29 inch below the normal, as determined from fifty-five stations having records for ten years or more. The precipitation of the month averaged .03 inch below November, 1915. The greatest monthly amount was .37 inch at Meek, eastern Lincoln county, and none occurred at twenty-one stations, while as many more had but a trace. The greatest amount in any twenty-four consecutive hours was .3 at Fort, southern Dona Ana county, on the 21st. The average snowfall for the state was 2.1 inches. There was an average of but one day with .01 inch or more precipitation.

Wind

The total wind movement for the month at Santa Fe was 5,356 miles, or 7.8 miles per hour; highest velocity, 27 miles from the southwest on the 12th. At Roswell the total movement was 4,442 miles or 6.5 miles per hour; highest velocity, 21 miles from the southwest on the 7th. At El Paso the total movement was 7,163 miles, or

9.9 miles per hour; highest velocity, 43 miles from the northeast on the 21st. At the State Agricultural college the total movement was 5,637 miles, or 5.1 miles per hour; highest velocity, 29 miles from the southeast on the 20th. The month was less windy than November, 1915. The prevailing direction of the wind for the state was from the southwest.

Sunshine and Cloudiness

The month was an unusually clear one. At Santa Fe 91 per cent of the possible sunshine was recorded, or a total of 250 hours, and there were 22 days with 50 per cent or more of the possible amount. At Roswell 87 per cent of the possible amount was recorded, and there were 27 days with 50 per cent or more of the possible amount. For the state as a whole there were 25 clear days, five partly cloudy and two cloudy days.

RAILROAD MAN WINS AUTOMOBILE IN ELKS CARNIVAL AT CLOVIS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Clovis, N. M., Dec. 11.—The big Elks' carnival and fair wound up shortly before midnight Saturday in a blaze of excitement when the feature event of the occasion, the drawing of the Dodge touring car, took place. This big prize went as unexpectedly as it did last year, for the lucky man was found to be J. P. Goebel, a fireman running between Clovis and Vaughn. Mr. Goebel is a recent-comer in Clovis, but no one has been heard to begrudge him any of his good fortune.

A total of nineteen business firms of the city made their usual display, and in addition, the girls of the high school domestic science class decorated a booth from which they sold candy and other eatables. The litany (dance) furnished amusement for a large number.

Bird Life in New Mexico

Santa Fe, Dec. 11.—Seventeen pairs of birds for every eighty acres or twenty-one pairs for each 100 acres, is the average given by the biological survey as to bird life in New Mexico. This would mean a total of 33,000,000 birds in the state, according to the bird census just completed. That is greatly exceeded by other states, most of which average more than a pair of birds to the acre or five times as many as New Mexico. The number of species in other states is also much larger than in this state.

Quaker Oats Building Destroyed

Peterboro, Ont., Dec. 11.—An explosion and fire today destroyed the Quaker Oats building here with an estimated loss of eight lives and injured to ten other persons, all employees, and with property damage amounting to about \$1,000,000.

MORE WARNINGS OF RAIDER SENT OUT BY ALLIES

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)

Miami, Fla., Dec. 11.—Warnings for allied shipping throughout the south Atlantic and eastern portions of the Gulf of Mexico to keep sharp watch for a strange steamer, thought to be a German raider, are being sent out day and night by British cruisers and by shore stations in the British West Indies. Wireless messages picked up here today described the suspected craft as a vessel with two funnels and a straight stern.

The warning message, it was said, was very brief and was followed by another in code, although the warning itself was not coded. It was said the warning was repeated from three to four times, day and night.

British schooners engaged in regular service between this port and the Bahamas have not suspended sailing.

Beef scraps for poultry; extra good quality; all from choice lean meat. In pieces about size of wheat. The cheapest feed for poultry you can find; 65 per cent protein, six times more than wheat contains. Wheat sells at \$2.75 per 100, beef scraps \$1.75. There is a great deal of difference in the quality of feed. We spend a great deal of time feeding the country over for the best of everything we sell. Feed beef scraps and a good variety of grain and gather the eggs.—L. W. FEE.

CHICAGO POLICE CHIEF RESIGNS UNDER PROTEST

Charles C. Healey, Waiting Trial on Charge of Protecting Vicious Resorts, Yields to Wishes of Mayor.

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)

Chicago, Dec. 11.—Charles C. Healey, chief of police, awaiting trial on a charge of permitting the operation of vicious resorts, resigned tonight, the resignation to take effect January 1. The resignation followed statements by Chief Healey that he would leave the service only at the urgent desire of Mayor Thompson and that he was not resigning voluntarily.

"I am surrendering the office with full consciousness of having performed its duties with scrupulous honesty and to the best of my ability," Mr. Healey's letter said.

Chief Healey expressed the hope that he would be restored to his former position as head of the traffic squad here. The indictments against him and the subsequent separation from the chief's office were developments of differences between Mayor Thompson and Maclay Hoyne, democratic state's attorney. It is believed. The disagreement reached a crisis after Chief Healey had suspended Police Captain O'Brien, charging him with failing to suppress vice in a district inhabited largely by negroes. Hoyne accused the chief of indecisiveness in this move and while O'Brien was on the stand, testifying on Hoyne's application for a warrant on Mr. Healey's arrest, the grand jury, sitting in another part of the city, returned indictments against him.

Land Company Incorporates

Santa Fe, Dec. 11.—The Culberr Irrigation and Land company filed incorporation papers today, the capitalization being \$200,000 divided into 2,000 shares, \$50,000 being paid up. The headquarters are at Colmar in Colfax county, but on the boundary of Mora county. The incorporators and directors are: William H. Woolf, Colmar, 162 shares; Edward H. Taylor, Raton, 218 shares; Carl Hunt, Colmar, two shares; Margaret G. Woolf, San Antonio, Tex., 156 shares; N. L. Koehler, Raton, one share.

Sanford Funeral Today

Santa Fe, Dec. 11.—The funeral of Thomas J. Sanford will take place tomorrow afternoon at 2 o'clock from the undertaking parlor of C. A. Rusing. There will be brief services, after which the remains will be taken charge, using the complete ritual. A Templar escort will be provided. Interment is to be in Fairview cemetery.

Sanford Funeral Today

Santa Fe, Dec. 11.—The funeral of Thomas J. Sanford will take place tomorrow afternoon at 2 o'clock from the undertaking parlor of C. A. Rusing. OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

Rub Pain From Back With Small Trial Bottle of Old, Penetrating "St. Jacob's Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

WOULD DEPORT ALIENS ACTIVE IN REVOLUTION

Mexican-American Joint Protocol Provides That Foreigners in the States Aiding Revolutionists Be Sent Home

(BY MORNING JOURNAL SPECIAL LEARNED WIRE)

El Paso, Tex., Dec. 11.—If the protocol drawn by the Mexican-American joint commission is signed by representatives of both countries, all aliens in the United States who engage in revolutionary activities in Mexico are expected to be deported by the United States immigration officials as "pernicious foreigners," according to a message received by Andres Garcia, Inspector general of Carranza consulates in the United States, from Luis Cabrera, minister of foreign relations in the de facto cabinet.

This message stated that with the signing of the protocol it would be expected that all aliens connected with revolutionary, lunatic or other revolutionary activities on the American border or in other parts of the United States would be deported at once.

The activities of these alien revolutionists on the American side of the border was discussed at length by the joint commission, Mr. Garcia said, and the agreement to deport such aliens under the immigration laws was considered by the Carranza government as one of the most important results of the joint conference, Mr. Garcia said.

Would Lift Ammunition Embargo

If the protocol is signed it is expected here that the embargo on arms and munition will be lifted at once, and quantities of ammunition will be shipped to Gen. Francisco Murguia at Chihuahua City to be used in his campaign against Villa.

It has been known here for a week that government agents have been making reports to Washington regarding the ammunition situation on the border here and in Mexico. It was also learned that army officers on the border protested against lifting the embargo, saying it would only mean more ammunition for Villa as he has captured quantities of cartridges, shells and small arms from the Carranza columns in the field recently.

Loss of Chihuahua Due to Shortage

One of the reasons given here for General Trevino's inability to hold out against Villa at Chihuahua City was the shortage of ammunition.

It was officially denied at the Carranza consulate here today that Gen. Francisco Murguia had arrived in Juarez Sunday; also that Gen. Francisco Gonzalez had gone to Mexico City.

Villa has established his field hospital at Guernsey, in the heart of the Guerrero district. There are 200 wounded Villa men in the field hospital there, a ranch foreman who arrived here last night reported. He said Villa lost about 200 men killed and 300 wounded at Chihuahua City. Sixty-two Querechos had 200 men guarding these wounded men, the rancher said.

Latins Return to Santa Fe

Santa Fe, Dec. 11.—Mr. and Mrs. H. S. Lutz returned to Santa Fe last night from Moraville, Kas., where they attended the funeral of Mrs. Lutz's sister, Mrs. M. D. Arner, who visited in Santa Fe this summer. Mrs. Arner died Saturday and is survived by her husband and a number of grown-up children.

Pastor Leaves for Peru

Clovis, N. M., Dec. 11.—Rev. E. H. Wilcox, pastor of the local Adventist church, has tendered his resignation and will soon leave for Peru, South America. From his station at Lima, he will serve his church as missionary in parts of Bolivia, Ecuador and Peru. Mr. and Mrs. Wilcox expect to leave Clovis about December 24.

WHAT ADVERTISING DOES.

Advertising is one of the most im-
portant and one of the least under-
stood elements in modern life. Its
practice has rapidly grown from the
smallest beginnings till it spans the
earth with its announcements and
appeals to its daily millions. It is an
element that enters into practically
every business calculation, a factor on
which success depends and without
which failure is certain.

About two years ago, Albuquerque
decided to advertise the climate of
this section of the country, as Silver
City had advertised, with conspicu-
ous success, the charms of that sec-
tion of New Mexico. Nothing done
by Albuquerque in recent years has
paid so well. Now advertising cam-
paigns are being carried on by Las
Vegas, Roswell and Santa Fe in order
to acquaint the people of the United
States with the advantages of their
climates. But Albuquerque has quit
for the very simple reason that after
the death of H. W. Wiley there was
no one to take up the job where he
left it.

The mention of Albuquerque's suc-
cess, and the discontinuance of the
work, is merely incidental to what we
wish to show to the public regarding
advertising. For despite the univer-
sality of advertising, despite the wide
variety of mediums through which it
is practiced, despite the boundless
size of the audiences it addresses, de-
spite the millions spent upon it, there
is little popular understanding of its
principles.

Considerations of this sort, no
doubt, have inspired the Associated
Advertising Clubs of the World to en-
terprise the unique project of "adver-
tising advertising." The execution of
the plan is worthy of the conception
that gave it birth. Here is a compact
statement of the purpose of the cam-
paign now launched:

"To inaugurate a systematic and
comprehensive presentation to the
public of the facts in regard to ad-
vertising—its nature, its purposes, its
powers; to enlist in that presentation
newspapers, magazines, billboards,
booklets—every medium known to the
experts of the association, giving an
adequate description of millions upon
millions, and covering every corner
and cranny of the land; and to bring
to the preparation of these advertise-
ments of advertising not only the
brightest minds of the profession, but
the minds of the eminently successful
men in public life, in business and
in the professions."

It is the primary purpose, of course,
to educate the public not only on the
value of advertising, but on the prin-
ciples that underlie it. We are to
learn what sort of advertising is ef-
fective and what is not—for not all
advertising is good advertising.

Few of the big railroads spend less
than a quarter of a million dollars ad-
vertising, the big stores advertise
freely, and the cement manufactur-
ers have advertised to such an extent
that lumber dealers now find it nec-
essary to inaugurate an advertising
campaign to meet the competition.
These are but examples.

If Albuquerque is to keep her
place she must resume her advertis-
ing of the advantages of this section
from a climatic and scenic standpoint.
The other alternative is to come to a
standstill, to say nothing of the possi-
bility of moving backward.

A Colorado woman tried to vote
twice. Once she voted in her own
name and then she tried to cast the
vote of her husband who was in jail,
but the hard-headed election judge
refused. Will women of this country
never get their rights?

UNDERSTANDING THE WEST.

Since the election, the east is taking
observations of the west. In New
York there never before was realiza-
tion of any considerable country west
of the Hudson river. Now the people
of that section are taking a new view
of not only the far west but of the
middle west.

Let us take Kansas as an example
of the middle west. In the days of
Senator Peffer, of whiskered fame, of
Mary Ellen Lease, who advised the
farmers to "raise less corn and more
hell," of Jerry Simpson, known to
fame as the "Sagehen Soothsayer of

Medicine Lodge," of Carrie Nation,
who made the hatchet famous, and
of other like natural and unnatural
phenomena: William Allen White, the
Empire editor with genius in his
pen, stirred up no end of controversy
by asking, "What Is the Matter With
Kansas?" Various intellects, in and
out of Kansas, struggled with the
question, but for the most part re-
tired before it baffled and perplexed.

Now in the December issue of the
Century Magazine, Rollin Lynde
Hart raises a similar question re-
garding all of the middle west, which
he finds quixotic, sentimental, inar-
tistic, and inarticulate at times, but
never insincere except toward itself.
But Mr. Hart is fair enough to state
that the middle west is doing more
for education than any other section
of the United States and that the
Atlantic Monthly, the premier literary
publication of the United States, is
read in every village and hamlet of
the middle west. The same is true
of the southwest and the far west.

We of New Mexico have been re-
garded as a people who should have
belonged to Old Mexico. The ten-
derfoot of the east, who gets his ideas
from the novels of Eugene Manlove
Rhodes thinks of us as composed of
miners, cow punchers and habits of
the red eye saloon, with rooms back
where fare and poker and sudden
death flourish. In other words, we
are still the wild and woolly frontier.

But the trouble with the frontier is
that during the past thirty years lines
of transcontinental railroads have
been driven through it, and hundreds
and thousands of educated and culti-
vated people have learned to call it
"home," and to rejoice in its vast,
spreading vistas, its florissant moun-
tains and mesas.

New Mexico is home, and such a
home as a free and happy people never
had before.

Turkish pilaf was served to the "di-
al squad" in Chicago. Before pilaf
becomes a popular food, there will
have to be a diagram and a steering
committee.

AMERICANIZING THE CARIB-
BEAN SEA.

The question is asked with growing
frequency why we are taking so
much trouble with Haiti, Santo Do-
mingo, Nicaragua, and other little re-
publics of the tropics. Why should
we be landing marines there and de-
claring martial law, and killing peo-
ple and getting our marines killed?
Why should we be trying to make
Denmark take twenty-five million
dollars of good American money for
three little specks in the ocean, every
foot of which might be bought by
a real estate dealer for less than half
of the price, when we shall have
nothing, if the deal is completed, but
the task of governing those islands?

The answer is that our government
is gradually converting the Caribbean
sea into an American lake. A chance
at the map is enough to assure one
that to accomplish that end would be
no inconsiderable undertaking. The
Caribbean sea washes the northern
shores of Cuba, Haiti, the Dominican
republic and Porto Rico, the northern
and eastern shores of Central Amer-
ica and in it are the Leeward and
Windward Islands and the Island of
Jamaica.

Of course, it is not the purpose of
the Washington government to dis-
possess Great Britain. There is no
intention to seize the northern part
of South America, or to raise the
American flag permanently over any
one of the little Latin republics. But
it is the purpose of this country to
make these little and troublesome re-
publics understand that the will of
the United States is paramount in the
western hemisphere, and that orderly
governments must be maintained by
them. To that extent the Caribbean
lake is rapidly becoming an American
lake.

It has been discovered that Ruth
Law has a husband, but he does not
fit in her class.

THE ART OF HATING.

One of the effects of the great war
is the cultivation of the gentle art
of hating. Never before has this hith-
erto unorganized activity of the hu-
man mind been so standardized and
utilized. Under direction of the high
authorities of the belligerent nations,
the citizen's odd moments may be oc-
cupied now in the production of high
quality wrath, and his evening hour
of meditation may be devoted to quiet
hating.

A German schoolmistress, writing to
a friend in this country, says: "We
have no particular feeling against the
French, nor they against us. The
English, however, hate us. But we
hate them more."

The balance of hate in favor of the
Germans is proof of the superiority
of the German consolidated hating
system as compared with the loose
jointed hate-as-you-please policy of
democratic England. No doubt at
this very moment many able-bodied
Britons are producing not half the
volume per capita of usable hate that
is being turned out by mere college
professors and children in efficient
Prussia.

There is, let it be remembered, a
little flower named neighborliness,
much esteemed by those who travel
the paths of peace, and all-essential
to the enjoyment of normal human
life. After the war there will be some
need of this plant's balm. But it
can not bloom the next day after
planting and its growth is feeble and
slow in a soil saturated with hate.

Albuquerque Morning Journal, Tuesday, December 12, 1916.

THERE IS NO PAYMENT

BY CHARLOTTE PERKINS GILMAN.

ROTHER, there is no payment in the world.
We work and pour our labor in the field.
Of those who are asked to pay and to come.
We live and take our living from the land.
Of those who are asked to pay and to come.
No one is paid. No person can have more
Than he can find. And none can do beyond
The power that's in him. To each child, that's born
Belongs as much of all our human good
As he can take and use to make him strong.
And from each one, nothing is all the world,
Is due the fairest fruit of all his powers.
His whole life's labor, bravely rendered up,
Not as return—can moments pay an age?
But as the simple duty of a man,
Can he do less—receiving everything?

With Scissors and Paste

PIECES FIFTY YEARS AGO.
(New York Evening Post.)

The present widespread discussion
of the high cost of almost all com-
modities, especially foodstuffs, served to
recall the fact that high as present
prices are, they have been exceeded at
various times in the past. In the ear-
ly part of May, 1867, spring wheat
flour sold at wholesale in the Chi-
cago market at \$12.50 to \$15 a barrel
and while winter wheat flour at \$16
to \$18.50. Retail prices were about
\$1.50 to \$2 a barrel higher. Winter
wheat flour from Nashville, Tenn.,
sold at \$18.50. During the first ten
days of May, 1867, spring wheat sold
in round lots in Chicago at \$2.75 to \$3.
One ear on truck sold at \$3.95 and
one ear in bags at \$3.10 delivered. A
Chicago miller sold 20,000 bushels
choice milling wheat to an interior
Illinois miller, for which he received
a check for \$40,000. Gold at that
time was worth \$1.35 to \$1.37 in
"greenbacks," which would make the
relative price on a gold basis about
\$2.20.

In November, 1864, corn sold up to
\$1.11 1/2 a bushel, and in May, 1867,
oats sold at 90 cents a bushel. Hams
were salable at 20 to 25 cents a pound.
Live hogs at \$12 to \$13 per 100
pounds and dressed hogs at
\$12 per 100 pounds and dressed hogs
in season at \$12.50 to \$15.50 a hun-
dred pounds.

On the other hand, there were times
when prices ruled decidedly in
favor of the consumer—when farm
products were on the "barren coun-
try" and farming was unprofitable. In
August, 1854, round lots of Chicago
sold at \$2 to \$2.25 a hundred pounds.
A year later spring wheat sold at 48
to 53 cents; white corn sold at 62 to
63 cents; and oats at 28 cents. In
October, 1861, corn sold at 17 to 20 1/2
cents a bushel, according to quality.
In June, 1861, oats sold at 12 cents.

In 1855, regarded as the year of
general depression, good brands of
spring wheat flour sold at \$3 to \$3.50
a barrel and winter wheat flour at
\$2.25 to \$2.65. Wheat sold as low as
\$3.4 cents a bushel, and the range
for the year was from 10 to 15 cents
a bushel. Corn sold as low as 19 1/2
cents a bushel, while oats touched a
low price of 14 1/4 cents.

In 1866 meat prices declined to \$5.50
a barrel and the range for the year
was \$5.50 to \$16.75. Lard declined
to \$2.85 a hundred pounds. At the
present time the freight on flour from
Chicago to New York is about one-
eighth that reported years ago.

THE POWER OF CALM.

(Washington Gladden.)

A life with no rest is an un-
bearable, whose power is restless,
ought to be a peaceful life. The
strong soul is always a quiet soul.
There is no surer proof of power than
calm. The feeble physique fidgets
and flutters and is never at rest. It
takes a steady mind to hold a thing to
a weak wrist can pound the piano; it
is only the iron muscle of a Paderewski
or a Hoffman that can touch the keys
so softly that they only murmur as in
the music of a dream. "The moun-
tains," says the psalmist, "bring peace
to the people." The heart brings the
strength of the hills is no also. To
be filled with the strength of God is
to know "The peace of God, which
passeth understanding."

NEWSTEAD ABBEY CURSE.

(Lancashire Post.)

Alexander, the son of the poet
Byron, involved his curse, and again
old Englishmen, who scoff at such
things as curses, charms and the like
are obliged to admit that while the
historic abbey may not be haunted
with a curse, they nevertheless would
not live in it for a long time. The
curse, according to a history of the
abbey, as set forth in the New York
Times, it was built by Henry II, as
an expression of remorse for the murder
of his command of St. Thomas.
Becket, in the cathedral of Canter-
bury. Henry VII had been the friend
of his friend, Sir John Byron, and in
time it came into the hands of the
fifth Lord Byron, who was known to
have killed his coachman for a small
infraction of rules, and who later
murdered Squire William Chaworth
of Knowsley, a nobleman, who was
killed while visiting Lord Byron. He
was convicted of manslaughter by the
house of lords and heavily fined. But
society shunned him, and he retired
to Newstead abbey to spend the rest
of his life in the wildest dissipation.
His cruel and profligate behavior was
one of the most heinous of the old
abbots of Newstead and had the skull
mounted in silver and used it for a
drinking cup at carousals.

He gathered about him a group of
lecherous and degenerate, who formed
what was known as the "club of the
skull." During the latter part of
his life his two sons and grandson all
came to violent ends, further embit-
tering his life and adding to the bad
name of Newstead abbey. Having no
immediate heirs, he left the abbey to
his grandnephew, the poet Lord By-
ron. The latter lived well by seek-
ing to marry Mary Chaworth, grand-
daughter of Squire Chaworth, who
had been murdered at the abbey, but
she feared the place, and although
she loved Byron, refused to marry him
and became the mistress of the house
where her grandfather had been mur-
dered.

Byron also took to the silver
mounting skull drinking cup, and it
has been said that Mary Chaworth's
rejection also embittered his life. He
lost his money and in 1818 sold the
abbey to his friend, Colonel Wildman
for \$125,000. Wildman began the res-
toration of the abbey to its former
splendor, but before the task was
completed his family was broken up,
he lost his fortune, and finally he
sold the abbey and committed sui-
cide.

The purchase of this time was Col-
onel William F. Webb, who found the
skull drinking cup in a London be-
lone shop and restored it to its
proper place in the abbey, hoping
thereby to break the series of mis-
fortunes associated with the owner-
ship of the abbey. But that has not
helped. Webb has been a miser, and
refused to leave the place until
his eldest son. His youngest daugh-
ter, wife of General Sir Herbert
Chernside, scoffed at the curse, and

ABOUT "GIPSY SMITH."

(Kansas City Star.)

"Gipsy" Smith, whose real name is
Rodney Smith, is an Englishman, an
evangelist, who was born in a tiny
village, fifteen miles from London,
in 1869. His mother was an
English woman and his father a gipsy.
His father was a tinker, mending tin-
ware, repairing chairs and making
cotton bolls. He was a very kind
man, but he was a gipsy. He was
like all gipsies, he was a wanderer,
roaming over the country with a wa-
gon and tent. The boy grew up with-
out education. Not until he was 17
years old did he begin to realize how
the lack of education might bar his
progress. It was at that time that he
first began to dream of being a
preacher. He began practicing talk-
ing to himself and to the birds in the
forests in rural England. He set him-
self to get an education. In a few
years he had acquired a style of orator-
ical delivery full of force and beauty,
and a command of language that in
considerable respects was remarkable. A
London newspaper speaks of him as one
of the finest exponents of the possibili-
ties of the Anglo-Saxon speech.

IMPORTANT FINDS IN EGYPT.

(Boston Transcript.)

Dr. George Andrew Reisner, 52,
who is in charge of the expedition to
Egypt sent out by Harvard and the
Boston Museum of Fine Arts, has re-
ported that during excavations at Ge-
bel Barkal, material bearing on the
history of Egypt from 1500 B. C. to
100 A. D. had been found, and the
prospects were that further excava-
tions would bring to light objects of
still greater importance. Among the
recent finds were ten large statues of
kings of Ethiopia, five of which were
complete specimens. The expedition
has also uncovered the foundations of
temples built by Egyptian kings of
the 18th dynasty, and proved that the
sphinxes of Amenophis III and other
monuments of that period found at
Barkal belong to these temples and
were not brought there in later times.
The opinion of the historians have as-
sumed.

Dr. Reisner is professor of Egyptol-
ogy at Harvard and has been in
charge of several excavations under
the direction of the Egyptian govern-
ment. He has also conducted two
other expeditions sent out by Harvard
into Palestine and Samaria. On the
latest trip to Egypt his party reached
Gebel Barkal from Cairo, on January
24, last. "We worked there three
months," Dr. Reisner reports, "em-
ploying a force of about 200 local
workmen, and just in time to es-
cape the hot weather. Fortunately,
at Gebel Barkal, there were two com-
pletely ruined pyramids of small size.
We found in each case a stairway on
the eastern side leading down to the
pyramids and the pyramid. With
the help of the local workmen, we
excavated the two pyramids in what we
found the entrances of twenty-five
pyramids and had cleared the burial
chambers of all but one."

The expedition has been away since
1905, and the date of its return is still
undecided.

WHEN DAUGHTER MARRIES.

(For Worth Star-Telegram.)

It doesn't take people long to for-
get. In a few weeks after the oldest
daughter marries, she says: "I never
acted the way sister is acting—did I,
mama?"

SOCIAL BLUNDER NO. 8937.
(Boston Transcript.)

Hostess (to departing guest)—Must
you go so early, Mr. Blank?
Blank—I'm very sorry that I must
leave. Mrs. Park: The fact is, not ex-
pecting to have such a pleasant time
this evening, I made another engage-
ment.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot
reach the seat of the disease. Catarrh is a blood
or constitutional disease, and in order to cure it
you must take internal remedies. Hall's Catarrh
Cure is taken internally, and acts directly upon
the blood and mucous surfaces. Hall's Catarrh
Cure is not a quick medicine. It was pre-
scribed by one of the best physicians in the
country for years and is a regular prescription.
It is composed of the best blood purifiers, com-
bined with the best blood purifiers, acting di-
rectly on the blood. The perfect
combination of the two ingredients is what pro-
duces such wonderful results in curing catarrh.

COTTON MARKET GOES TO SMASH IN NEW ORLEANS

Most Sensational Break in
Years Comes Upon An-
nouncement of Government
Estimate of Year's Crop.

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
New Orleans, Dec. 11.—One of the
most sensational breaks ever record-
ed on the local cotton exchange oc-
curred almost immediately after the
announcement of the government's es-
timate of 11,511,000 bales for this sea-
son's cotton crop. March declined 97
points, practically \$5 a bale, in the
first three minutes after the report
was announced, and other months
were almost as weak, July losing \$4 a
bale, a drop of 80 points.

ELEVEN MILLION BALES IS GOVERNMENT ESTIMATE

Washington, Dec. 11.—Cotton pro-
duction in the United States for the
season 1916-17 will amount to 11-
511,000 equivalent 500-pound bales,
the department of agriculture an-
nounced today in its final report of
the season.

Last year 11,191,820 equivalent 500-
pound bales were grown and during
the five years 1910 to 1914, the aver-
age was 14,259,231 bales. The record
crop was grown in 1914 when 16,134-
320 bales were produced.

Production in western states with
last year's crop figures for compari-
son, follow:

Texas, 1916—3,775,000; 1915—3-
227,480.
California, 1916—60,000; 1915—28-
551.

REPORT KANSAS MAN BEATEN AT CHIHUAHUA

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
El Paso, Texas, Dec. 11.—A referee
arriving at the border late last night
from Chihuahua City brought a re-
port that Henry Harries, an American
citizen, had been severely beaten by
a Villa follower while the Villa
troops were in control of Chihuahua
City. Harries owned a little tailor
shop near the cathedral and was as-
saulted by one of Villa's men because
of his being an American, the referee
said.

After having been beaten by the
Villa soldier, Harries was said to have
been taken to the home of an Ameri-
can family from his little tailor
shop, where the assault was said to
have occurred. His condition was re-
ported to have been serious when the
referee left for the border, but he
was expected to recover.

Harries' home in the United States
was said by American refugees here
to have been in Kansas City, Mo.,
where he is said to have a son who
is a stenographer, and an unmarried
daughter. Harries was assaulted
while trying to protect his property.
It was said by refugees.

HENRY HARRIES IS KNOWN IN KANSAS CITY

Kansas City, Dec. 11.—Henry Har-
ries, who is thought to have been at-
tacked and severely beaten in Chi-
huahua City, was 72 years old and
has lived in Mexico for about six
years, conducting a small tailor shop
in Chihuahua City and looking after
mining interests near Parral. He has
two sons and two daughters living
here.

INVESTMENT BROKERS FACE CHARGE OF FRAUD

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Philadelphia, Dec. 11.—An indict-
ment charging conspiracy and using
the mails to defraud investors out of
hundreds of thousands of dollars has
been brought by the federal grand
jury against Clawson Bachman and
J. T. Hayden of this city, and A. H.
Sisley of Steelton, Pa., comprising
the firm of Bachman and company,
investment brokers, which now is in
the bankruptcy court.

It is charged that the defendants
defrauded hundreds of persons
through stock subscription in the case
of International Gas and Electric
company, a Delaware corporation, by
representing that seven subsidiaries
were earning sufficient profits to en-
able the international company, the
holding concern, to pay six per cent
dividends.

Want Border Chaplain Returned.

Washington, Dec. 11.—A delegation
from the Central Congregational
church of Brooklyn, N. Y., today
urged that the war department return
its pastor, the Rev. Dr. S. Parkes Cad-
man, now serving on the border as
chaplain of a Brooklyn regiment. In
effect, war department officials told
the committee the chaplain owed a
higher duty to his government than
to his congregation.

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach,
liver and other digestive organs to do
their work properly. Without it they
are sluggish, there is loss of appetite,
sometimes faintness, a deranged state
of the intestines, and, in general, all
the symptoms of dyspepsia.

Pure blood is required by every
organ of the body for the proper per-
formance of its functions.

Hood's Sarsaparilla makes pure
blood, and this is why it is so suc-
cessful in the treatment of so many
diseases and ailments. Its acts di-
rectly on the blood, ridding it of
acridous and other humors. It is
a powerful combination of blood-purify-
ing, nerve-toning, strength-giving
substances. Get it today.

STATE MUSEUM NOTES

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Dec. 11.—A remarkable
archaeological discovery is reported
from Larissa, Greece, for despite the
troubled conditions in Europe and the
vast sums of money swallowed up in
the conflict, there is little let-up in
scientific investigations. The discov-
ery was made in Thessaly where a
sanctuary has been unearthed which
had been erected to the goddess Arte-
mis. The most wonderful votive of-
ferings ever unearthed were among
the finds. One hundred and thirty-
eight marble shafts bear inscriptions
from which it is plain that the shrine
was devoted to Artemis as a goddess
of child birth.

That the full army worm of "Al-
falfa" worm has invaded all of eastern
New Mexico is apparent from a
bulletin just received by the Museum
library from the department of agricul-
ture. It pictures the worm and
tells of methods to fight it. The
monograph is by W. R. Walton and
Philip L. Knight. The pamphlet is
abundantly illustrated. Another
monograph received is entitled: "Or-
chard Barkbeetles and Pinhole Bores,
and How to Control Them."

The following registered at the mu-
seum: J. B. Bots, G. S. Bots, Walter
Thompson, J. R. Fox, Lockney,
Texas; Mrs. B. E. Merryfield, Council
Bluffs, Iowa; Henry Clouthier, Da-
rian Ortiz, Taos; Mr. and Mrs. W. P.
Conklin, Omaha; C. E. Revennaugh,
St. Louis; A. H. Montoya, Chama; C.
E. Ramon, Lockney, Tex.; Al
Turner, Fairview, Montana; C. Reeve,
Princeton, Ill.; Jose E. Garcia, Isla-
la, J. B. Hardy, New York.

Mobilization Deficit \$25,000,000.

Washington, Dec. 11.—Major Gen-
eral Sharpe, quartermaster general of
the army, today told the house military
committee today that the war de-
partment faced a \$25,000,000 deficit
on account of the extraordinary
expenses of the border mobilization,
and predicted that if the national
guard were kept there until June at
a strength of 75,000 the deficit would
be \$50,000,000.

Insurance Rates Advanced.

New York, Dec. 11.—Marine under-
writers received word today that war
risk insurance in London had been
advanced from 5 to 10 per cent for
Trans-Atlantic and Cape of Good
Hope trade, due to the announcement
that a German commerce raider was
at large. It was said that the New
York rates probably would follow the
London lead.

or advertisements to influence you.

Calumet Baking Powder is appreciated
most by those who know it best.

Before you form an opinion, give Calumet
a trial, watching every process of the mak-
ing and the baking from start to finish.

Calumet will prove that it is pure, whole-
some and economical—that light, fluffy
biscuits, muffins, doughnuts, cakes, griddle
cakes, etc., always result from its use.

That's Why We Say—

Go to your dealer—ask for, buy and try
a can of Calumet Baking Powder. If
you are not perfectly satisfied after a
thorough test, return what's left and get
your money back.

Highest Award World's Pure Food Exposition,
Chicago; Grand Prize and Gold Medal, Paris
Exposition, 1912.

Calumet Baking Powder is guaranteed to give satisfaction in
every particular, and to be as represented in every respect.

CRANE'S
HIGHLAND
LINENAn Ideal
Christmas Gift

To the uninitiated there may be little distinction in writing papers, excepting as between the very best and very poor. To the exacting users of writing papers there are two necessary attributes. First, an excellent writing surface.

Second, smartness of style, shape and size. Because Highland Linen has these qualities, and because it is supplied in a variety of dainty cuts and sizes, it has become the most popular writing paper of America.

We carry all cuts, cuts and sizes in stock at popular prices.

"Your Money Back If You Want It."

SANTA CLAUS TO
VISIT POOR KIDS
OF NEW MEXICODr. C. E. Lukens Wants the
Names of All Children Who
Have Prospect of Empty
Stockings on Christmas Day

There will be no empty stockings hanging by the fireplace in New Mexico on Christmas morning if Dr. C. E. Lukens, superintendent of the Children's Home society, has his way. No home, however humble, will be overlooked by Santa Claus nor will there be a lack of Christmas cheer and Christmas plenty in any family in the state.

Dr. Lukens has asked that all who know of a needy family in New Mexico, the members of which face the prospect of a lack of yuletide merriment, communicate the name of such family to him. Especially does he want the names of families where the children are likely to see nothing of Santa Claus or his beneficence on Christmas morning. Just the names and addresses is all that Dr. Lukens wants. He and Santa Claus will attend to the rest.

"Kris Kringle Incorporated" is what Dr. Lukens calls his society for the time being, and it is the superintendent of the society and its superintendent that nobody shall feel the pinch of want on Christmas day this year and that there shall not be a kiddie in New Mexico to wear the wistful look of childhood disappointment on account of the failure of Santa Claus to come down the chimney. Everybody in the state who wishes to see "Kris Kringle Incorporated" do a big business this year and score a complete success is invited to communicate with Dr. C. E. Lukens, superintendent of the Children's Home society, Albuquerque.

SUSPENDS SENTENCE
OF YOUTHFUL COUPLES
WHO TOOK MOTOR CAR

Henry Belter, his wife, Innes Corral and his wife, pleaded guilty yesterday before District Judge H. P. Reynolds to an information charging them with stealing Frank George's automobile. The court gave them sentences of one year but suspended sentence on condition that they pay the court costs.

Judge Reynolds gave them three months in which to pay the costs. The men hope to find employment here to earn money to pay the costs. They had little money left when they reached Albuquerque, they said. That was the reason they took George's car. The men told the court they did not realize the seriousness of their act until they had started and that they feared then to bring the car back.

FOR NEGOTIATIONS
WITH M'MILLENPresident of Water Company
Will Be Asked to Meet With
Aldermen at Next Session,
Monday Night.

The council indicated last night its wish to press negotiations for the purchase of the water company's plant. Negotiations will be begun next Monday night if the time is suitable to A. H. McMillen, president of the company. He will be invited to meet with the council at that time.

City Clerk Thomas Hughes was instructed to notify Mr. McMillen that the council was ready to open negotiations with him and to ask him to meet with the board at the next meeting. This instruction was given after the council heard the report of J. N. Gladding and Black & Veatch, engineers appointed to appraise the plant. The report was read in executive session.

The suspension of Policeman Tom A. Summers was brought to the attention of the council by Chief J. A. Galusha. The council by unanimous vote sustained Chief Galusha in suspending Summers. Next Monday night was set for the hearing of Summers. Chief Galusha said he would prepare charges and give a copy to Summers two days before his hearing. This form of notice is required by an ordinance.

Auditor's Report.
The auditor's report, read last night, showed that the Board of Administration spent more than it took in. The total revenue received by the city while Mayor Boatright was in office amounted to \$243,745.92, and the total expenditures totalled \$249,082.56.

Fairness requires the explanation, however, that this showing was not due to lack of careful management. The Board of Administration was not responsible for all of this indebtedness. It made payments on a fire engine, which it did not order. These payments, including the cost of beds for firemen, amounted to \$6,262.56.

The Board of Administration left extraordinary expenses to meet in the carrying of Robinson park, which cost \$1,559.54, and in the construction of sewers, which cost \$1,457.62. This administration also paid out \$19,200 for the finishing of the city hall.

The Sellers administration left cash in the city treasury amounting to \$24,517.85, and outstanding warrants amounting to \$11,232.90. The balance in the general fund, when Mayor Boatright stepped into office, was \$10,339.35.

The Board of Administration left in the treasury \$17,702.65, and outstanding warrants totalling \$9,755.43. The balance in the general fund when Mayor Boatright took office was \$6,414.87. The Board of Administration also left receivable accounts amounting to \$11,264.44. Of this \$10,775.19 was owing from Glass & Fisher. The Sellers administration left receivable accounts amounting to \$10,788.10, the exact amount owing at that time from Glass & Fisher.

Revenue Increases.
The revenue taken in while Mayor Boatright was in office was greater than that received in the previous two years. The total revenue of the Sellers administration was \$126,164.51. The revenue received by the city clerk's office, for Thomas Hughes' first term was \$99,572.23. For the preceding two years the city clerk's office contributed \$84,822.87.

BETTERMENT LEAGUE
TO RENEW DRIVE FOR
FUNDS TOMORROW

The Civic Betterment league will continue its canvass for funds tomorrow. When the first drive was made November 28, the business district and a few streets in the residential district were covered. Not more than one-fourth of the people were seen. As far as the city was canvassed the receipts were above what they were last year.

It is hardly expected, however, that the drive Wednesday will net as much as the first two weeks ago, for at that time the large givers in the business district were seen. Tomorrow the residential district will be canvassed in the morning and it is hoped that people will be ready to give so that the work may be done as quickly as possible. The league desires very much to raise enough for the work during the entire year so that it will not be necessary to make another call for funds.

The headquarters for the canvass will be the Y. M. C. A. If any one has time to give a whole or part of a day to the canvass, he is requested to report at headquarters at 9 o'clock.

Y. M. C. A. WILL ELECT
DIRECTORS JANUARY 12

The Y. M. C. A. January 12 will elect five men to the board of directors to succeed directors whose terms expire this year. The board is made up of fifteen members. Five retire annually.

L. H. Mize, M. H. Sablin, Superintendent John Milne, C. O. Cushman and F. E. Kiefer have been nominated for directors. Mr. Cushman and Mr. Sablin are now members of the board.

SIMPLY DELIGHTED
OVER HIS VISIT TO
BIG OVERLAND PLANT

Lester Cooper, president and manager of the Albuquerque-Overland Auto company, distributors of the well known and famous Overland automobiles, returned to the city yesterday with Mrs. Cooper, after a trip to Toledo, Ohio, where he attended the convention of 5,000 Overland dealers and where all were the guests of the Willys-Overland company at its immense plant. The dealers throughout the country, congregating at certain points, rode to Toledo on special trains of Pullman coaches and the expense was all borne by the big company. Mr. Cooper is thoroughly enthusiastic over his trip and what he saw at the Overland plant, and he says: "Nothing was ever so impressive as the tour of the visiting dealers of the great plant that turns out the Willys-Overland cars. Our Pullmans were all parked in the company yards, and there was room enough for there are seven and three-quarter miles of track within the plant. Each man was presented with a card containing the picture of Mr. Willys and an autographed message of welcome from him. We were then requested to line up on the steps of the new and big administration building, where a huge photo was made of the group. After this, elevators shot us to the company's own restaurant on the sixth floor, where a corking good breakfast was served. At each plate was a copy of the live new Willys-Overland house organ, entitled 'The Starter', and this contained the day's program. Well, to be brief, it was one round of pleasure from the time we reached Toledo until the day set for our departure. It would take too much space to go into details regarding the immensity of the Willys-Overland plant, but I am confident that all the five thousand and more dealers who attended the convention, inspected the plant, listened to the addresses on the machine from the various factory experts, profited by the trip to Toledo."

NATIONAL INSURANCE
COMPANY'S BOARD OF
DIRECTORS ELECTED

Directors of the National Life Insurance Company of the Southwest, recently incorporated, were elected yesterday. The directors will name the officers at their meeting in January. In the meantime E. T. Chase will be acting secretary.

The directors are: Justice R. H. Mason, John Becker, Sr., J. A. Weinman, Capt. W. C. Reid, Nathan Jaffa, Henry G. Coors, Jr., H. B. Holt, Dr. David H. Boyd, Congressman R. C. Hernandez, Will Edgins, M. L. Stern, Dr. J. F. Pearce, Dr. P. G. Cornish, H. O. Bursum and E. T. Chase.

The executive committee is made up of Mr. Jaffa, Mr. Becker, Justice Hanna, Mr. Weinman, Captain Reid, Dr. Pearce and Mr. Chase.

The loan committee is made up of Mr. Holt, Mr. Becker, Mr. Jaffa and Mr. Weinman. Drs. Pearce and Cornish are medical directors and Captain Reid is general counsel.

At yesterday's meeting \$100,500 of the corporation's capital was subscribed.

BOY, WHO ENTERED
STRONG'S BOOK STORE,
IS SENT TO SPRINGER

Jose Sanchez, who broke into E. J. Strong's book store, and Jose Rodriguez, charged with larceny, yesterday were sentenced by District Judge H. P. Reynolds to serve one year in the reformatory at Springer.

Deputy Sheriff A. C. Burtless left for Springer with the boys last night.

Rodriguez, a messenger, took a watch from a house at which he called to deliver a message, according to county officers.

Rodriguez had been sentenced previously for taking several hundred dollars worth of jewelry from Alejandro Sandoval's home at Corrales, but the sentence was suspended.
