PROHIBITION FOR NATION FAVORED IN REPORT BY COMMITTEEMEN

Question of Constitutional Amendment Comes Up When "Dry" District of Columbia Is Being Considered.

SUFFRAGISTS LIKEWISE HAVE REASON FOR JOY

Unless Vote Is Taken at Present Session Both Questions Are Sure to Be Acute Next Year.

WASHINGTON, Dec. 14.—The House Judiciary committee today voted to recommend adoption of the resolution to submit a constitutional amendment abolishing the manufacture and sale of liquor for beverage purposes in the United States. Even the most enthusiastic champions of the amendment had not expected favorable action so soon from the committee, which at the last session voted to postpone its consideration indefinitely.

Administration leaders, however, doubt that it will reach the senate in time for action this session. Prohibition advocates are jubilant and predict ultimate adoption of the resolution and reference of the amendment to the legislatures of the various states at a much earlier date than they heretofore had hoped. A two-thirds majority in both houses is required.

District Bill Is Up.
Coincident with the committee's action on the amendment, the prohibition issue was brought directly to the attention of the senate when the Sheppard bill to prohibit the manufacture and sale of liquor in the District of Columbia became the unfinished business to be kept before the senate until disposed of. As an amendment to this bill Senator Underwood has proposed a referendum to the male voters of the district.

Senator Kern of Indiana has added a proposal that women also should participate in the referendum. Sentiment in the senate for and against the referendum appears to be closely divided with a vote on the subject expected within a day or two.

Discussion of the Sheppard bill afforded opportunity for comment on the proposed amendment, several senators, among them Sheppard, Vandenberg and Owen, predicted triumph for the cause of nation-wide prohibition in the near future.

Prohibition Live Issue.
Hardly any one doubted tonight that prohibition will be a dominant legislative issue before the next sixty-fifth congress if the constitutional amendment does not reach a vote this winter. In the house before the amendment can be taken up for consideration a special rule must be adopted giving it right of way. Representative Webb, chairman of the judiciary committee, will ask for such a rule early in January and endeavor to press the resolution to an early vote.

Seven members of the judiciary committee voted against reporting the prohibition amendment. They were Ohio, Dyer of Missouri, Igoe of Missouri, Graham and Steele of Pennsylvania, Walsh of Massachusetts, and Danforth of New York.

The senate reconsidered the clause designed to exclude anarchists who teach destruction of property as a propaganda. An amendment by Senator Hardwick for the committee, permitting entry of persons who advocate or teach destruction of property "in war, insurrection or revolution," but not otherwise, was adopted.

Three republicans—Brandage, Colt and Dupont—and four democrats—Husting, Martine, Phelan and Reed—voted against the bill. Senators Smith of South Carolina, Hardwick and Lodge were appointed on the conference committee.

Authoritative statements have been made that President Wilson intends to veto the bill a second time because of the literacy test. In this event, an effort will be made to pass the bill over the veto, two-thirds majority in each house being required. The bill passed the house last April by a vote of 368 to 87, more than a two-thirds majority, and the senate vote today, if repeated, would be sufficient to override an executive veto.

Know-Nothing Railroad Time.
Saloniki, Dec. 14.—If the allies have done nothing else at Saloniki, they have at least enabled everyone to know the right time. Hitherto on railway worked to Vienna time, another to Constantinople time. Saloniki had its own local time, and there was also Turkish time other than the Constantinople variety, which differed from all the others in being based on the course of the moon.

There are still three different Sabaths a week, Friday for Moslems, Saturday for Jews and Sunday for the Christians.

Condition of Nixon Unchanged.
St. Louis, Dec. 14.—The condition of William C. Nixon, president of the St. Louis and San Francisco railroad, who is critically ill at his home here, was unchanged today.

THE WEATHER
WEATHER FORECAST.
Denver, Dec. 24.—New Mexico: Friday and Saturday fair with slowly rising temperature east portion.
LOCAL WEATHER REPORT.
For twenty-four hours, ending at 4 p. m. yesterday:
Maximum temperature, 42 degrees; minimum, 21; range, 21; temperature at 4 p. m., 29; north wind, clear.

INFORMATION ON CONDITIONS IN MEXICO SENT TO COMMISSIONERS

Disagreeable Facts Regarding Murder of Americans and Other Foreigners Forwarded by State Department.

CARRANZA'S POSITION STILL KEPT SECRET

From Best Informed Sources It Is Believed Protest Is to Be Filed Against Right of U. S. to Cross Border.

WASHINGTON, Dec. 14.—Information, regarded by some officials as confirming the killing of Howard Gray, or Weeks, at Parral, by Villa, and the facts regarding the execution by bandits of Charles Fisher, another American at Santa Rosalia and of several Chinese and Syrians at Chihuahua and other towns, have been sent by the state department to the American representatives on the Mexican-American joint commission which will meet at Philadelphia Monday.

Among reports received by the department today and forwarded by the commissioners was one from Guzman telling of the heavy death rate among the poor. Others told of a serious economic condition in many other parts of Mexico.

Uniformed as to Carranza.
Officials here remained ignorant tonight of the action taken by General Carranza relative to the protocol signed at Atlantic City. It was not believed that he had instructed his spokesmen to make any determined effort to amend that part referring to conditions for the withdrawal of American troops, but it was thought more probable that he had sent Alberto J. Pani, who carried the protocol to him for ratification, a communication that may be in effect an answer to the supplemental declaration of policy made to the Mexicans by the American commissioners when the protocol was signed.

Mexicans to Lodge Protest.
Officials pointed out today that there is in the agreement assigned no reference to an arrangement for crossing the border by American troops, but in the supplementary declaration made by the Americans it was set forth clearly that the United States reserve the right to unlimited and unrestricted pursuit of bandits. Since this declaration was made at an official session of the commission, it is regarded as probable that General Carranza has considered it as no less official than the protocol itself.

The "comments" which the Mexican commissioners have announced they will present at the Philadelphia meeting Monday may be in the nature of a protest, it is believed here, against any such declaration of intentions. Such a development, officials say, would not necessarily be of a character to bring the conference to an end.

PASS LITERACY TEST AMENDMENT FOR IMMIGRATION

If President Refuses to Approve Bill as Authoritatively Reported, Congress Will Attempt Passage.

WASHINGTON, Dec. 14.—The immigration bill containing the restrictive literacy test for admission of aliens, which has caused three presidents to veto such a measure, was passed by the senate today, 64 to 7. The bill as amended in the senate, now goes to conference. It passed the house last session.

The senate reconsidered the clause designed to exclude anarchists who teach destruction of property as a propaganda. An amendment by Senator Hardwick for the committee, permitting entry of persons who advocate or teach destruction of property "in war, insurrection or revolution," but not otherwise, was adopted.

Three republicans—Brandage, Colt and Dupont—and four democrats—Husting, Martine, Phelan and Reed—voted against the bill. Senators Smith of South Carolina, Hardwick and Lodge were appointed on the conference committee.

Authoritative statements have been made that President Wilson intends to veto the bill a second time because of the literacy test. In this event, an effort will be made to pass the bill over the veto, two-thirds majority in each house being required. The bill passed the house last April by a vote of 368 to 87, more than a two-thirds majority, and the senate vote today, if repeated, would be sufficient to override an executive veto.

ALLIES DEMAND INDEMNITIES AND GUARANTEES OF FUTURE PEACE

Andrew Bonar-Law, as Leader of Government in Commons, Reaffirms Declaration of Asquith.

REFERENCE TO POLICY ROUNDLY CHEERED

Two Billion Dollars, as War Credit, Is Voted Unanimously to Government as Answer to German Proposal.

LONDON, Dec. 15.—The allies, require that there shall be adequate reparation for the past and adequate security for the future. That is still the policy and still the determination of his majesty's government.

This was the declaration of Andrew Bonar-Law, repeating the words of Mr. Asquith three months ago, as he made his debut today as leader of the new government in the house of commons.

It was only a brief and passing allusion to the German peace proposal, but the ringing announcement that it was still the policy and determination of the government struck the keynote of the new government's attitude and aroused a prolonged demonstration of approval.

Hamlet With Hamlet Left Out.
The sessions of both the lords and commons were attended with unusual interest, as being the first bow of the new government, though the absence of Premier Lloyd-George through continued illness left the initial scene of the new regime like Hamlet without the Dane. Great crowds besieged Westminster for admission and both chambers showed the galleries filled with eager spectators and the floors animated with newly formed political groups.

The house of commons was the scene of chief interest as here five ministers of the new government—Reginald McKenna, Walter Runciman, Herbert Samuel, Lewis Harcourt and H. J. Tennant—ranged themselves on the front bench of the opposition, while Andrew Bonar-Law, flanked by the ministers of the new administration, occupied the bench just vacated by the Asquith ministers after the able.

Mr. Asquith, like Mr. Lloyd-George, was absent through sickness, but even with the chief figures absent, it was a striking scene of the old and the new regimes facing each other at the crucial moment of the issues over war and peace.

Two Billion More for War.
The feature of the day was Mr. Bonar-Law's presentation of the bill for £400,000,000 additional war credits and his incidental reference to the peace proposal. In urging the war credit, Mr. Bonar-Law displayed his command of the vast financial branch and his ease and readiness as a parliamentary leader.

Referring to the vast daily expenditure of £5,700,000 as "colossal beyond imagination," he frankly declared that such figures could not be continued indefinitely; all that could be hoped for was to "continue" them long enough to beat the enemy.

Mr. Bonar-Law's reference to the German proposal came as he closed. He prefaced it with the statement that the proposal had not yet reached his majesty's government and that it was obvious that no members of the government could make a statement, and that in his view it was better that very little should be said in the house of commons. Then came his renewal of Mr. Asquith's declaration for adequate reparation and security as still the policy of the government, which was the one thing he felt it necessary to refer to at this stage.

Opposition Party Applauded.
Mr. McKenna's reply from the opposition bench, besides complimenting Mr. Bonar-Law, referred to the commanding influence of the American dollar as the result of the war.

"It is not easy to convert sterling wealth into dollar wealth," he said. "We must pay dollars for what we buy now, not only in America, but all over the world."

The debate was brief and the war credit was passed by unanimous vote. Some speeches referred to the German proposal, but there was no discordant note.

Mr. Bonar-Law announced that parliament would be prorogued on December 22, for a period not yet determined.

RUSSIA TAKES NO STOCK IN PROPOSALS
Petrograd, Dec. 14 (via London).—The peace proposal of the central powers is regarded by the Russian government as "an attempt to court public opinion and encourage the people of Germany by appearing to put the responsibility for the continuation of the war upon the entente allies."

The proposal has been received by official Petrograd without an atom of sympathy. An official of the foreign office made today the following statement which has been issued by the semi-official Petrograd News agency:

Denmark Votes To Sell Little Islands to U. S.

CARRIES BY HEAVY REFERENDUM VOTE

COPENHAGEN, Dec. 15 (via London).—The plebiscite held yesterday on the question of the sale of the Danish West Indies to the United States resulted in 283,000 votes cast in favor of the sale and 157,000 against such action.

The result in forty-three wards is known and in only three wards has there been a majority against the sale. All the others have given a big majority for the sale.

"The new appeal of our enemies is not their first attempt to throw upon the entente powers the responsibility for the war they lost. In order to obtain the support of the German people, who are tired of the war, the Berlin government many times has had recourse to fallacious words of peace, and has frequently, in order to animate its troops, offered prospects of an early peace. It promised peace when Warsaw was taken, when Serbia was conquered, forgetting that such promises unfilled would create profound distrust."

In its further efforts, which are similarly due to the same interested consideration, the German government is obliged to carry this question outside of Germany. All the world recalls these attempts, notably its Baitons d'Essai, which were sent up in neutral countries, particularly the United States.

"Seeing the insanity of such methods, which deceived nobody, Germany attempted to create a peace atmosphere, which would allow her to consolidate her aggressive and imperialistic tendencies, while sowing discord between the allies, by seeking to make public opinion believe that separate peace parleys were in progress between her and the entente powers. There also were persistent reports of a separate peace."

"In view of the fact, however, that the allies, with strong unanimity, rejected all these attempts, our enemies had to think of a more serious plan. They today are making, in spite of their confidence in their military and economic power, an appeal to the United States, Spain and Switzerland, announcing their anxiety to enter into negotiations for peace."

"The lack of sincerity and the object of the German proposals is evident. The enemy governments have need of heroic measures to complete the gaps in their armies. Germany is projecting a sort of serfdom in the guise of compulsory military service."

The German government, in order to uplift the hearts of its people and to prepare it for fresh sacrifices, is striving to create a favorable atmosphere with the following theses:

"We are struggling for our existence, we are proposing peace; it is refused us. Therefore, the responsibility for the continuation of the war falls upon our enemies."

"The object pursued by Germany, however, is clear. She speaks of respect for the rights of other nations, but at the same time she has already introduced into Belgium, Serbia, Montenegro and Poland a regime of terror and violence. As for the future, Germany has proclaimed an illusive independence for Poland; she proposes to divide Serbia between Bulgaria and Austria, economically to subjugate Belgium, and to cede to Bulgaria part of Roumanian territory."

"Everywhere the idea of the hegemony of Germany predominates. The latest speech of von Bethmann-Hollweg show the true aspirations of the German government. But today, when the entente powers have proclaimed their unshakable determination to continue the war to a successful end and to prevent Germany from establishing her hegemony, no favorable ground exists for peace negotiations."

"Our enemies know of the speeches of Lloyd-George, Briand and Bazzoli, and the statement of Troopoff; they were therefore assured that their proposal would be unacceptable. It is so not because the entente powers—the friends of peace—are not inclined that way, but because the peace offered by Germany is a snare for public opinion. That is why the enemy governments carefully avoid mentioning the conditions of peace."

"We are sure that this new enterprise of the disturbers of peace will lead no one astray, that it is condemned to failure, like the previous efforts."

"The entente powers would assume a terrible responsibility before their peoples, before all humanity, if they suspended the struggle against Germany's latest attempt to profit by the present situation to implant her hegemony in Europe. All the innumerable sacrifices of the allies would be nullified by a premature peace with the enemy, who is exhausted, but not yet brought down."

"The firm determination of the entente powers to continue the war to a final triumph can be weakened by no illusory proposals of the enemy."

War Risk Insurance Higher.
New York, Dec. 14.—War risk marine insurance is now up to 15 per cent for Mediterranean shipment and from 5 to 10 per cent for trans-Atlantic cargoes, with rates based on total valuation of ship and cargo and not on the latter only as heretofore. This is a higher level than that reached any other time since August, 1914, when with the beginning of the war, the rate went to 20 per cent.

ENTENTE ALLIES DESIRE TO KNOW GERMANY'S TERMS FOR ENDING WAR BEFORE ANY DECISIVE ACTION IS TAKEN

THE PRESIDENT MAY FIND WAY TO SHOW DESIRE OF UNITED STATES FOR PEACE

Teutonic Diplomats Indicate Central Powers Wish for Conference by Representatives of Belligerent Nations, but Great Britain, France and Russia Are Not Likely to Accede Unless Conditions Foreshadowed in von Bethmann-Hollweg's Speech and Indicated by Embassies in Washington Are Specifically Modified, Is Opinion of Well-Informed at National Capital; Talk of Possible Armistice Grows, but Without Apparent Basis of Hope.

WASHINGTON, Dec. 14.—While it is practically settled that no safe conduct will be issued by the entente allied governments to Count Tarnowski, the newly appointed ambassador from Austria, it is also confidentially expected that he will be permitted to pass through the blockade lines, like any other civilian passenger on the Danish steamship on which he will sail from Copenhagen for New York next Saturday.

In this way will be avoided an embarrassing precedent and doubt in the parliament that might be critical of the governments of the entente powers.

The decision not to issue formal safe conduct for Count Tarnowski will leave unimpaired the right of the French government to persist in its refusal to permit the passage through the entente lines of Fiume Bay, when the Turkish government has for some time been seeking to despatch to Washington as its ambassador.

It was stated officially that neither Germany's nor Austria's note would be forwarded before tomorrow, if indeed then, and there was no indication that the president had made up his mind what action, if any, he would take in transmitting the central powers' proposals to the entente belligerents.

President May Add Word.
When, with the announcement of the German proposals two days ago, it appeared that the entente allies were inclined to reject the offer flatly, it appeared very doubtful if President Wilson could find a way to add a word of mediation in transmitting the notes. With the apparent moderating of that first attitude, as reflected in the British newspapers and among the entente allied diplomats here, the way seems easier for the president to express in some way the hope of the United States that the proposal for a discussion for peace will not be rejected without consideration. In such a step there is a likelihood of the United States being supported by some of the European neutrals. The minister of one of them today asked his government to authorize him to assure the president of endorsement in such a move, and it is believed others are considering the same phase of the situation.

Other Neutrals Interested.
The Spanish ambassador, Mr. Riano, and the Swiss minister, Dr. Ritter, both conferred with Secretary Lansing today. Their governments also are acting as intermediaries in transmitting the proposals. Whether they discussed the prospect of a neutral concert was not disclosed, but the impression prevailed that in the absence of a decision by President Wilson the subject was scarcely more than touched upon.

The change in the attitude of the entente embassies, however, was regarded as the most interesting development pointing to the probable position of the allies. It was indicated that to avoid being placed in the position of flatly rejecting peace overtures without knowing what is proposed, it was not improbable that after mature deliberation among themselves the allies would make reply, inquiring upon what basis a discussion was suggested. Such action by the allies, it was pointed out, would not bind them to a conference.

Germans Want Conference.
The German view of the next probable step in that a meeting of representatives of all the belligerents should be proposed for a general discussion of an approach for a basis of peace.

German officials here repeatedly have expressed their conviction that once having gone that far, the movement would result in an actual peace conference. The conviction of the allied diplomats, on the other hand, is that Germany's terms, as outlined by the German embassy here and as indicated by the tenor of the German chancellor's speech, are such that discussion would be fruitless of no conclusion. But before approaching that stage, they seem to agree that an inquiry to the central powers for more information of their proposal will be proper and that it will develop together for the next step.

What Germany Means.
The German embassy tonight authorized the statement that it was certain should representatives of the belligerents meet to discuss peace terms, that one of the most important subjects for discussion would be that of limited universal disarmament. The German view is said to be that any peace would be worthless which did not make unnecessary arms

ENCOURAGED BY GERMAN OFFER OF PEACE TERMS

British General Says It Discloses Teutonic Knowledge of Great Allied Offensive in Spring.

BRITISH GENERAL SAYS IT DISCLOSES TEUTONIC KNOWLEDGE OF GREAT ALLIED OFFENSIVE IN SPRING

LONDON, Dec. 14.—"Despite its distant and arrogant tone Chancellor von Bethmann-Hollweg's peace speech offers as much encouragement to our allies as it does to our enemies," said Gen. Frederick D. Maurice, chief director of military operations at the British War office, in dispatches to the Associated Press today.

The military significance of the German chancellor's peace offering, General Maurice continued:

"Of course, until we receive definite terms it will be impossible for us to discuss the German peace terms. The military reasons which led to their utterance certainly are not discouraging to us."

"The Germans know we are capable of a greater offensive than we launched last summer on the Somme, and they do not like the prospect. We are increasing our forces and our munitions and are improving our positions. We are, independently, but from similar data, we and the French have computed the German losses on the Somme front and have arrived at exactly the same results which may be expressed as follows:

"The total German loss in men was more than 700,000, which included 95,000 prisoners."

"In material we took 135 heavy guns, eighteen field pieces and 1,483 machine guns. Germany knows we are prepared to initiate a greater offensive at any place on the western front than on the Somme."

CALLE'S CANDIDACY TO HAVE OPPOSITION
Douglas, Ariz., Dec. 14.—Gen. P. Elias Calles, who recently announced his candidacy for the liberal constitutional ticket for the governorship of Sonora, probably will be opposed by three other prominent Sonorians at the election in February, according to arrivals from Hermosillo.

Jose Obregon, a brother of Gen. Alvaro Obregon, Carranza's war minister, Gen. Benjamin Hill and Gen. Yagor Pascuarez are said to be preparing to enter the race. Hill was formerly military governor of Sonora, while Pascuarez was governor ad interim for several months.

BRITISH WAR BILL IS \$28,550,000 DAILY

NEW YORK, Dec. 14.—The views of General Carranza regarding the ratification of the protocol signed at Atlantic City by the Mexican-American joint commission were submitted by Alberto J. Pani here today to Luis Carrera, chairman of the Mexican commission, and Mexican Ambassador designate Arredondo. Mr. Pani arrived here yesterday from Queretaro, where he went to place the agreement before Carranza for his ratification.

IT WAS INFORMED THAT PUBLICATION OF CARRANZA'S VIEWS WOULD BE RESERVED UNTIL AFTER THE NEXT SESSION OF THE JOINT COMMISSION.

It was inferred that publication of Carranza's views would be reserved until after the next session of the joint commission.

Officially Pointed Out Today.
That there is in the agreement assigned no reference to an arrangement for crossing the border by American troops, but in the supplementary declaration made by the Americans it was set forth clearly that the United States reserve the right to unlimited and unrestricted pursuit of bandits. Since this declaration was made at an official session of the commission, it is regarded as probable that General Carranza has considered it as no less official than the protocol itself.

The "comments" which the Mexican commissioners have announced they will present at the Philadelphia meeting Monday may be in the nature of a protest, it is believed here, against any such declaration of intentions. Such a development, officials say, would not necessarily be of a character to bring the conference to an end.

Mexicans to Lodge Protest.

ament on a scale approaching that
which existed before the war.

It was suggested that actual forma-
tion, as has been prepared in some
league of nations to enforce peace
necessarily would have the effect of
bringing about a limited disarmament.
The German chancellor has said
Germany would be glad to enter a
league to prevent war.

Oppose Conditions.
The German view further is indi-
cated as being opposed to interna-
tional conditions as they have existed
in the past, on the ground that such
conditions are opposed to the main-
tenance of peace rather than con-
ducive to it. Today's press dispatches
from London conveying the broad
intimation that the entente allies
might insist upon Belgium being in-
demnified, as well as restored aroused
been interest in Teutonic quarters,
where it was indicated that if in-
demnities were to be given those lo-
calities where damage has been done
by war, Germany would have claims
for damage in East Prussia, Poland
and other places.

To Call on Lansing.
Count von Bernstorff, the German
ambassador, planned tonight to visit
the state department tomorrow or
Saturday. In fact, if possible, the
views of the United States and as the
same time furnish the state depart-
ment with any information in his
possession it might require.

A copy of the official text of the
German note to the entente allies, it
was learned here today, has been for-
warded through German agents in
this country to all German representa-

If It Catches You There "ANURIC"

Will Quickly
Stop It!

Simply to realize
the importance of the
concomitant kidney
trouble, by its first
symptoms, backache or throbs
through the kidney region, is
money in one's pocket as well
as years of sickness forestalled.
No organ of the body is
more easily deranged than the
kidneys. Day in and day out
their action is constant in
separating poisonous matter
from the blood. Most cases
of kidney trouble may easily
be overcome by merely taking a little "Anuric" with the meals. Citizens
daily voice their praises of the merits of "Anuric," the recent discovery of
Doctor Pierce, of "Favorite Prescription" and "Golden Medical Discovery".
For instance, here is a letter, that of Mr. HENRY A. LOVE, who says:

"For a long time I suffered from backache, pain in left side, frequent
urination (bothering me at all times during the day and night), and the
uric acid in my blood caused me to suffer from rheumatism along with a
Pierce, of the Invalids' Hotel, Buffalo, N. Y., called 'Anuric.' After giving
'Anuric' a good trial I believe it is the best kidney remedy to-day. I have
tried other kidney medicines but these 'Anuric' tablets of Dr. Pierce are
the only ones, in my opinion, that will cure kidney and bladder troubles."

NOTE:—Experiments at Dr. Pierce's Hospital for several years proved
that "Anuric" is 37 times more potent than lithia in removing uric acid
from the system, as hot water makes sugar.

Just ask for "Anuric" at druggists, or send Dr. Pierce 30c. for trial package.

aiders herself at war with the island
empire. Some time ago when the
United States issued a neutrality
proclamation to that effect the Jap-
anese ambassador protested, but on
presentation of the reasons, let the
matter drop.

The Turkish note was expected
during the night and was expected to
request transmission to France,
Great Britain and Japan, where the
United States has taken over Turkish
interests. No note is expected for
transmission from Bulgaria, as the
United States has not taken over Bul-
garian interests anywhere. The notes,
in being answered, will go over a dif-
ferent course in many cases, as often
the United States represents a belliger-
ent in an enemy country which has
not entrusted its interests in the for-
mer country to this government.

Armistice Is Possible.
The question of a possible armistice
is of interest today, as the general
feeling that an armistice was not pos-
sible in economic war was dis-
counted in allied countries, where it
was pointed out that an armistice
would not necessarily bring the block-
ade or the amassing of munitions to
an end, but might be merely on a
temporary cessation of the fighting
under the basis of the status quo.
The only notice taken of the stipu-
lation in congress today was in the in-
troduction by Representative Gardner
of Massachusetts of a concurrent res-
olution to put congress on record as
opposed to any mediation by the
United States in the European war.
The resolution declares that "a pre-
mature and inconclusive peace would
fail to punish the central European
powers for the unbounded misery
which they have brought on man-
kind." It was referred to the foreign
affairs committee without discussion.

SACK OF UNCOUNTED BALLOTS DISCOVERED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Douglas, Ariz., Dec. 14.—The sack
containing nineteen ballots cast in
Wilcox precinct in Cochise county,
at the November election, thought to
have been lost and not officially
counted, was discovered today in the
office of the county treasurer at
Tombstone. It was explained that the
sack had become mixed with others
which had been checked, when the
county chairman was at work and
had been stored with the others in
accordance with the state law. But
for the contest on the governorship
the sack would not have been dis-
covered for a long time at least.

It will be taken with seal intact
as when received from the election
board, to Phoenix, Friday by County
Treasurer H. S. Ross. The unofficial
returns from this precinct were Cam-
pbell, republican, 14; Hunt, democ-
rat, 5.

COUNT OF BALLOTS IN ARIZONA UNSENSATIONAL

Phoenix, Ariz., Dec. 14.—Twenty-six
hundred ballots out of 15,000 of Mar-
icopa county have been inspected in
the contest for governor at the end
of the third day. No changes of im-
portance were discovered, though
many of the ballots were laid aside
for the character of them to be de-
termined in court.

The net changes so far have been all
in favor of Governor Hunt, errors
having been discovered in the making
of additions in two precincts. These
changes reduce the majority of
Campbell to nineteen.

BLOCKADE AS LITTLE IRKSOME AS POSSIBLE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
London, Dec. 14.—Replying in the
house of commons today to a question
put by Arthur Lynch, nationalist
member for Westcliffe, suggesting
that many particulars in the policy of
British government with regard to
the United States had been of an
irritating kind, without any com-
pensation corresponding to the danger of
producing misunderstandings, Lord
Robert Cecil, minister of blockade,
said:

"It unfortunately is inevitable that
our measures should cause inconven-
ience to the citizens of neutral coun-
tries. Much as we regret it, I can
only say that, consistently with the
paramount duties of making our belli-
gerent rights we have done and are
doing all we can to make their exer-
cise as little irksome to neutrals as
possible."

FORMER CONGRESSMAN IS DYING IN ASYLUM

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Pueblo, Colo., Dec. 14.—Gen.
George W. Cook, former congressman-
at-large from Colorado, and a pio-
neer who made and spent several for-
tunes, is dying in the state insane
asylum here. He is not expected to
last more than twenty-four hours. It
was said today General Cook was
brought to the asylum from Denver
about two years ago when his mind
gave way. His wife came here re-
cently to be near him. He also has a
son, George, Jr., living in Denver.
General Cook founded Cook's drum
corps, which organization became
widely known. He formerly was su-
perintendent of the mountain division
of the Denver and Rio Grande rail-
road. He is 65 years old.

Seats in House for Presidents.
Washington, Dec. 14.—Former
Presidents Taft and Roosevelt and all
other future presidents of the United
States after their terms expire
would be given a seat in the house
of representatives without vote at a
salary of \$25,000 yearly, by a bill in-
troduced today by Representative
Monte of Pennsylvania. Candidates
for any political office would auto-
matically bar such men from mem-
bership in the house.

Miss Britton Weds Diplomat.
Washington, Dec. 14.—Miss Cath-
arine A. Britton of this city and Prince
Albert, 20 Hohenzollern-Schillingfurst,
accredited to the Austro-Hungarian
embassy, were married here today.
They will reside in San Francisco,
where Prince Hohenzollern is present
in the Austro-Hungarian
consulate.

SMITH DISPLACED DYNAMITE BOMBS WITH STOVE WOOD

Carried Explosive and Fuse
Away Under Coat, Leaving
Harmless Substitute on Mu-
nition Ship Tacoma,

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
San Francisco, Dec. 14.—Louis J.
Smith, the government's chief wit-
ness, stuck to his testimony today in
the face of persistent cross-examina-
tion by the defense in the trial of
Franz Bopp, German consul general
in San Francisco, and six others for
alleged conspiracy to violate United
States neutrality by blowing up munition
ships intended for the entente al-
lies.

Smith, one of the seven under in-
dictment, was forced by Theodore
Roche, counsel for the defense, to ad-
mit that he had been promised im-
munity from punishment to return for
his testimony at this trial. He also
admitted that following the alleged
receipt of \$125,450 from the German
consulate funds here in July, 1915, he
had journeyed from San Francisco to
Coblenz, Wis., accompanied by a
woman not his wife. The court, how-
ever, sustained objections preventing
the defense from further questioning
Smith concerning the latter incident.

Efforts to prove Smith a deserter
from the First Maryland volunteers,
with whom he enlisted at the out-
break of the Spanish war, failed.
Throughout the day Roche attempted
unsuccessfully to draw from Smith an
admission that the British consular of-
fices here and in Detroit, Mich., had
betrayed him in return for his tes-
timony against Bopp. Vice Consul
B. H. von Schaack, Lieut. G. W. von
Brincken, the alleged go-between, C.
C. Crowley, and Crowley's assistant,
Mrs. Margaret W. Cornell.

Smith had testified that in place of
dynamite he had placed stove wood in
the bombs and fuse away with him
under his coat. He was asked today
to show how this was done, and dem-
onstrated how the dynamite could
have been carried away as he de-
scribed.

The cross-examination of Smith, it
was believed, would occupy most of
today.

Theodore Roche, of counsel for the
defense, questioned Smith with re-
ference to the compensation he was to
receive for his work as an alleged
dynamiter. Roche asked Smith if he
had not, while in the presence of his
brother and family at Wheeling, W.
Va., boasted that he was to re-
ceive \$25,000. Smith replied in the
negative.

Efforts to show that a connection
existed between British consular au-
thorities in the United States and the
prosecution of the defendants proved
unavailing.

BUDGET SYSTEM OF MARYLAND IS FULLY ENDORSED

Governors, in Ninth Annual
Conference, Approve Scien-
tific Plan for Appropriation
of State Funds.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Dec. 14.—The execu-
tive budget system of Maryland, the
only state with such a scheme of fi-
nancial control, was given general ap-
proval today in a discussion at the
ninth annual governors' conference.
Its provisions were outlined by Gov-
ernor Harrington of Maryland, and by
Dr. Frank J. Goodnow, president of
Johns Hopkins university, who was
chairman of a committee that drafted
the plan.

Guests at White House.
Those attending the conference
were dinner guests tonight at the
White House. Covers were laid for
about forty governors, former gov-
ernors and governors-elect, and half
as many women of the governors' party.

Interest in the conference was
quickened today by prospects that
Secretary of War and Brigadier Gen-
eral Mann, chief of the division of
militia affairs, might discuss the status
of the national guard before one of
tomorrow's sessions. Resolutions
were adopted today inviting them to
speak; after some discussion, Gov-
ernor Sperry of Utah declared the
militia problem was one of the most im-
portant the governors faced. Governor
Holcomb of Connecticut said no one
knew the present status of the guard,
and that he intended to oppose the
building of any armories in Connecti-
cut until he learned definitely where
it stood.

Guard Federalized.
"It now looks," he said, "as though
the guard is about nineteen-twentieths
federalized, with the rest of the au-
thority in the states."

The Maryland budget plan as de-
scribed by Governor Harrington, seeks
to make impossible an expenditure of
more money in appropriations than is
received by the commonwealth from
all sources. It centers authority in
the governor.

Governor Holcomb described the
Connecticut system of naming a state
financial board to assist in planning
appropriations and told how the
state's indebtedness had been reduced
by several million dollars within the
last few years. Others outlined the
fiscal system of their own states, and
praised the executive budget plan.
Governor-elect Goodrich of Indiana
said he expected to put through the
executive budget at the next legisla-
tive session.

Congress Takes Recess.
Washington, Dec. 14.—Congress
will recess over the Christmas holi-
days from December 23 to January 2.
Democratic Leader Kitchin announced
day. Speaker Clarke, who favored a
shorter recess, will not object to the
resolution which Kitchin will offer
for such a recess and senate leaders
have agreed to adopt it.

Butts Says:

Some Reasons Why We Solicit and Merit
Your Drug and Drug Sundry Business.

- 1 If you are sick, go see a doctor.
- 2 While we are familiar with the functional performances of the medicines we sell, we are not diagnosticians.
- 3 If you have been using a certain medicine or a compound, and it has helped you and you want more, there is satisfaction in buying it from us, because "if Butts sells it, it's pure."
- 4 But if you feel the need for medical attention and to know what is the matter with you—see your doctor.
- 5 Then send to us your prescriptions to be carefully com-
pounded by a registered pharmacist.

Two Allied Steamers Sunk.

London, Dec. 14.—Lloyd's Shipping
agency announces that the ship En-
ma Laurens has been sunk. The crew
was saved.

A Reiter's dispatch from Christi-
ania reports the sinking of the steam-
er Rbor by a torpedo. The crew was
landed.

The Enma Laurens was a French

bark of 2,152 tons gross. She was re-
ported at Bordeaux September 21.
The Rbor was a Norwegian steamer of
1,090 tons and was built in 1914.

VEGETABLES ARE PRESERVED BY DRYING PROCESS

Forty Tons Are Taken Care of Each Day and Food Prices Are Stabilized in Germany's Chief City.

BERLIN, Dec. 14.—Berlin's establishment for drying vegetables, which went into operation in July, is already drying some forty tons of vegetables daily and an enlargement of the plant now building will almost double its capacity. It is operated in connection with one of the great gas plants of the city, where it obtains an abundance of cheap fuel, using altogether the waste from the gas retorts and coal gas.

The drying house serves as a safety valve for the Berlin market. It often happens here, as at all other great centers of population, that more vegetables come upon the market at certain times than the market can absorb. Whenever this happens to be the case the surplus is piled up and the vegetables are spoiled. It is chiefly for this reason that the latter will, as is now believed, be kept up permanently as a regulator of the vegetable trade even after the war.

The vegetables dried are chiefly cabbage, but also spinach, carrots, turnips, kale, potatoes and some others are included. When a correspondent of the Associated Press visited the drying house he found some seventy women occupied in trimming, cutting, washing, cutting, drying and bagging them. Special machinery does much of the work. The washing, for example, is done in shallow tanks, through the bottom of which air is forced in many jets and under great pressure; this causes a violent boiling movement which thoroughly cleanses the vegetables within a few seconds. Before the cabbages are thrown into the slicing machines a girl holds each head under another machine that neatly laves out the stem. The sliced cabbage is then parboiled for about one minute, then goes to the drying kilns. These are large iron furnaces about eight feet high; they hold about ten frames of vegetables at once. The frames about 12x8 feet, have a bottom of wire netting upon which the cabbage mass is thinly spread. The drying process takes two hours. The dried product is then put into bags and piled away in the storehouse.

At present, the dried vegetables are used only for feeding the inmates of the various charitable institutions. It is expected, however, that much of the product will be sold in the market toward the end of the winter, when the normal supply of vegetables grows scarcer.

BLOCKADE DOES NOT MEAN WAR ON GREEKS

LONDON, Dec. 14.—In the house of commons today Lord Robert Cecil, minister of blockade, said that the blockade of Greek ports did not imply a state of war between Greece and the entente allies.

Fully alive to the dangers of delay in dealing with what he termed the unsatisfactory situation in Greece, Lord Robert Cecil told the house of commons this afternoon that the entente allies were about to present certain demands to the Greek government for the purpose of clearing it up.

William G. Ruston Killed.
East Las Vegas, N. M., Dec. 14.—Word has been received here by friends of William G. Ruston that he was killed recently while fighting with the British army in France. Mr. Ruston, formerly conducted the Chico ranch in Colfax county. During the war he returned to England, his native land, and while on service in France. Later he returned to New Mexico. He answered the call of his country in 1914, and fought valiantly until his death.

You'll Find Plenty of Good Gloves Here!

—Nearly every day some one takes occasion to compliment us on the remarkable completeness of our glove stocks and on the fact that we have been able to maintain prices at such a low level. We are happy indeed that we were able to find so many good gloves and at such fair prices—but—all signs now point to a still greater glove famine—with prices 'way, 'way up—

—And so we urge you to buy the gloves you need—and those you expect to give on Christmas, at your earliest long present stocks will last. (It is a customer who is thoroughly informed more pairs of gloves.) We urge you to your own use.

SOLDIERS BRAVE COLD AND RAIN FIGHTING ENEMY

British Privates Eat Five Hot Meals Daily and Are Given Warm Clothes; Germans Fare Worse.

With the British Army in France (via London, Dec. 14).—Several hours of glorious December sunshine this morning brought glad relief from a week of dreary days, and sent scores of airplanes and observation balloons aloft and quickened the pulse of the entire British army organization on the western front. But before the daylight had ended, leaden clouds had again shut in, the rain had begun to fall and there was a somewhat gloomy return to the winter weather-beaten warfare.

The fighting is fraught with manifold hardships and calls for bravery and determination far above that ordinarily required to face the shot and shell of battle. It is bravery against incessant attacks of the elements, against the numbing influence of the frost, against the bleak blasts of rain laden winds, and against the clinging, holding mud of the shell ploughed battlefields and oftentimes water-soaked front line trenches.

It is difficult for one who has not seen the conditions that apply to a winter advance over ground that has been the theater of some of the bitterest struggles of modern warfare to appreciate the conditions which the entente allies on the western front have overcome and still are conquering. To drive the Germans from their deeply entrenched and tumbled positions along many sectors, it was necessary for the entente forces to blast the earth from above and beneath them, transforming villages, roads and unyielding farm lands into veritable primeval wastes.

But the task of "carrying on" over this ever-widening stretch of what once was appropriately called "No Man's Land," when it lay between the opposing front lines, has been accomplished, and the problems of transport and the problems of transport have been solved more satisfactorily than in any previous campaign. Trenches devoted to ameliorating the iron-hard conditions of the British troops in the winter fields and trenches. Heavy sheepskin and leather coats and jackets have been issued to the men and warm dry rest billets provided for those in the support reserve positions.

Five Hot Meals Daily.

Best of all, however, Tommy in the front lines gets five hot meals daily. There is breakfast at 7, dinner at 12, tea at 3 and soup or stew at 5 and again at 2 o'clock in the morning.

From reports received from German prisoners and observations made during raids the British have considered that conditions on the German front are very different. Along most of the new lines formed by the battle of the Somme, the German front trenches are merely a broken stretch of linked-up shell holes, with no deep dugouts and only a few improvised hiding holes where two or three men can take cover from the shrapnel.

British reports from the Somme section say the German communication trenches are impassable from mud and the shelling of the British guns, so that all the carrying of supplies and the bringing up of reinforcements have to take place over the open, without cover of any kind. That is why the British guns continue to hurl shells back of the German lines in the fog and rain. Often the shells or bombs from the British side throw up fountains of water high in the air from the German trenches. There are no floor boards or other trench comforts available for the Germans, owing to the unceasing fire of the British artillery.

Thus far this winter, German prisoners say their troops in the west have not been supplied with any sheepskin, leather, or fur coats. They have received only woollen vests, body bands and mittens. Normally, prisoners say, they are supposed to be in the trenches not more than from 14 to 18 days, but some divisions lately have remained there forty days and over without relief. The rations consist almost wholly of tinned meat, sausage, herring, sardines, rice, rye bread, coffee and mineral waters. Recently a daily ration of brandy has been issued to the men in the front line. For rest, the men often are crowded into damp clothes.

Despite the freedom with which some of the prisoners state the conditions from which they are glad to be freed, all the Germans recently taken assert that they and all other comrades are thoroughly convinced that they are at the outposts "defending our sacred frontiers against covetous and vindictive invaders."

Notes of Interest From State Museum

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Santa Fe, Dec. 14.—Dr. David B. Boyd, president of the University at Albuquerque, today became a member of the Santa Fe Society of the Archaeological Institute, being the third head of a New Mexico educational institution to interest himself in the others being Dr. Frank H. H. Roberts and Dr. George A. Ladd. Dr. A. Wadsworth of Denver, general traffic manager of the Denver and Rio Grande railroad also became a member today bringing the total up to 123, within five or sixth place in the United States and Canada.

H. C. Yoniz today turned over to the museum two remarkably old volumes from ancient mission churches in New Mexico. One is a Spanish Bible out of which the Indians have cut some of the figures in the quaint old woodcuts and in which there are the autographs of Fray Juan del Pino and Antonio Gonzalez de Vargas with complicated rubrics. The book is bound in leather and on the back page has the signature of Juan Godoy del Pino. The other book is larger in format but also bound in leather. It is the Book of Ecclesiastes and was printed at Barcelona, Spain, in 1597. It is therefore 319 years old. It is inscribed with pen and ink "De la Libreria de don Juan de la Villa de Santa Fe." There are annotations in the book in faded ink but written with that clear, steady, cursive script characteristic of the Spaniards.

The Art Institute at Chicago, has decided to follow the example set by the Metropolitan Museum of Art in New York City and is issuing a monthly bulletin for school children.

The following registered at the palace: L. Johnson, Live Oak, Fla.; E. H. Smith, Chicago, Ill.; Frank B. Austin, San Francisco; William C. Crowell, Leadville, Colo.; John W. Armstrong, William Jewell, Carlisle; F. A. Wadsworth, Denver; M. J. Connell, Topeka, Kan.

Normal Has Robbery Mystery.

East Las Vegas, N. M., Dec. 14.—Police and Normal university officials are trying to solve the mystery of the robbery of the school's safe of \$70. The money disappeared one night this week. The safe is believed to have been locked, yet the money was removed without resorting to yess methods. The door and lock here not so much as a scratch. Only a few of the higher officials of the normal know the combination of the safe, and this knocks the theory of an "inside job."

Blood Made Fire Chief.

East Las Vegas, N. M., Dec. 14.—Fred Phillips, who has been chief of the East Las Vegas fire department for the past five years has been succeeded by Assistant Postmaster Orrin E. Blood. Mr. Phillips was not a candidate for re-election. Other officers elected at the organization's annual meeting are George Sather, chief assistant; William Speckhard, first captain; G. M. Jones, second captain; J. T. Ruhler, treasurer; Ralph Bradford, secretary.

Borland Resolution Reported Out.

Washington, Dec. 14.—The Borland resolution ordering the federal trade commission to investigate all angles of the high cost of living, including the producing capacity of the anti-trust laws, was favorably reported today by the House Judiciary committee.

Corporation Commission At Joins.

Santa Fe, Dec. 14.—General Passenger Agent M. J. Connell of the Santa Fe left for Colorado tonight. General Traffic Manager F. A. Wadsworth of the Denver & Rio Grande also left.

APPEAL REFUSED IN LEGITIMACY CASE BY LORDS

Last Hope of Claimants for English Estates Goes With Decision That Charles E. Slingsby Is Not Lawful Son.

LONDON, Dec. 14.—The house of lords refused the appeal in the Slingsby legitimacy case today without calling upon the respondents.

In giving judgment the house of lords held that it had been established that the child in question was the son of Lillian Anderson and that it also had been proved that the child was handed over to Mrs. Slingsby. The house of lords expressed regret at the pain caused by the decision to "the gallant officer who is now serving his country—Commander Slingsby."

Last Hope of Claimants Goes.

In the house of lords lay the last hope of the Slingsby claimants in the contest which has been before the courts of England and the United States for several years. An inheritance was left in England to the first male heir of three brothers of the name of Slingsby. The estate, in Yorkshire, is valued at about \$500,000. The case grew out of the attempt of one brother to establish himself as the father of an heir and the denial by the others.

As the alleged heir was born outside the empire, it was necessary to establish the fact of his legitimate birth.

Petition for Decree.

In December, 1912, a petition was presented in the probate court for a decree that Charles Eugene Slingsby was the lawful son of Charles H. Slingsby and Dorothy Slingsby. It was said the child had been born in San Francisco in 1910. Thomas and Alan Slingsby, brothers of Commander Charles Slingsby, alleged no heir had been born, that the infant's mother was Lillian Anderson and its father Paul Colvin; that the child had been procured for the petitioners and passed off by them as their lawful offspring, the birth record being altered.

A California court ruled that the child was the legitimate heir and an English court upheld that decision. The verdict was taken to the court of appeals, which declared the child was illegitimate. From this court the case was carried to the house of lords.

Extreme Cold in South Dakota.

Sioux Falls, S. D., Dec. 14.—A temperature of 24 degrees below zero at Madison, S. D., 23 below at Watertown and 18 below at Mitchell, S. D., is reported here this morning. The official reading here at 7 a. m., showed a temperature of 18 degrees below zero.

Burleson Bishop of South Dakota.

New York, Dec. 14.—The Rev. Hugh Latimer Burleson was consecrated today as bishop of the Protestant Episcopal missionary district of South Dakota, in the cathedral church of St. Paul the Divine.

HEARTS TREATED FREE

By Dr. Franklin Miles, the Great Specialist, Who Sends a New \$250 Treatment, Free.

Heart disease is dangerous, hundreds drop dead who could have been saved. Many have been cured after doctors failed. To prove the remarkable efficacy of his new Special Personal Treatment for heart disease, short breath, pain in side, shoulder or arm, oppression, irregular pulse, palpitation, smothering, puffing of ankles or dropsy, also nerve, stomach and rheumatic symptoms, Dr. Miles will send to afflicted persons a \$250 Free Treatment. Bad cases usually soon relieved.

These treatments are the result of 36 years' extensive research and remarkable success in treating various ailments of the heart, liver, stomach and bowels, which often complicate each case.

Send for Remarkable Cures in Your State.

So wonderful are the results that he wishes every sick person to test this famous treatment at his expense. Afflicted persons should avail themselves of this liberal offer, as they may never have such an opportunity again. Delay are dangerous. No death comes more suddenly than that from heart disease.

Send at once for his new Book and Free Trial Treatment. Describe your disease. Address, Dr. Franklin Miles, Dept. HF 59 to 29, Franklin St., Elkhart, Ind.

SELL WILD HORSES BY THOUSANDS TO GULLIBLE BUYERS

Testimony in Federal Court Against United States Livestock Company Shows Many Sales of Animals.

OMAHA, Neb., Dec. 14.—Five wild horses cost him \$19,000, M. E. Silvis, manager of the Silvis Investment company, Sioux Falls, S. D., today testified in the government's suit against the Omaha Land and Investment company, charged with the misuse of the mails in sales of phantom wild horses on the government reservation in Coconino county, Arizona. The government alleges \$1,000,000 was secured from sales of imaginary horses.

Silvis said he went to Coconino county, secured the aid of expert horse wranglers and captured thirteen horses but they were mavericks and the sheriff replevined them as property of the state.

"After much litigation," Silvis testified, "I secured five horses and shipped them to a ranch at Highmore, S. D. That was all I secured in exchange for real estate worth \$10,000."

Ben Fidler, Salem, S. D., testified he paid \$14,000 for a herd of wild horses. He captured seventy, but only thirteen of them bore the brand he purchased. He shipped the thirteen to Los Angeles, he said, but "most of them died before they were sold."

John Sinclair, cattle man of Flagstaff, Ariz., testified he sold J. Sidney Smith, one of the defendants, 150 head of wild horses and Smith asked him to make out the bill of sale for 1,100 head, which he refused to do. About a month later, he testified, "Smith made a deal with A. O. Perry (another defendant) and raised the number in the bill of sale from 150 to 1,100."

Smith is president of the United States Livestock company, an Omaha corporation.

The government will rest its case tomorrow afternoon. Sixty-eight witnesses have been examined, the majority of them alleged victims of wild horse transactions.

Hearing Has New Clerk.

Santa Fe, Dec. 14.—Adjutant General Harry T. Herring has assigned to his office a new clerk, Jerome P. Goodwin of Los Angeles, who served with General Lawton in the Philippines in the Fourth cavalry. Goodwin comes to Santa Fe to recuperate from illness contracted in the Philippines.

NO PURPOSE TO INJURE ALLIES, SAYS HARDING

Governor of Federal Reserve Board Tells Why Warning Was Issued Against Purchase of War Bonds.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Boston, Dec. 14.—An explanation of the federal reserve board's recent warning to American bankers against looking up their money in foreign treasury bills was made in a speech here tonight by W. P. G. Harding, governor of the board, who reiterated the declaration that there was no intention to reflect upon the credit of any nation.

Soon after the board's statement appeared, short term British treasury bills which had been offered for sale in this country were withdrawn.

Mr. Harding spoke tonight before the Boston City club.

"I know," said he, "that there has been criticism of the board's action in making this statement, which has been given a significance neither justified nor intended in its reference to investors. It is not the purpose of the board to make an attack, either open or covert, upon the credit of any government, nor did it seek in its statement to reflect upon any particular obligations."

What Board Had in Mind.

"In my opinion, what the board had in mind was simply this: American investors have for many years been accustomed to buying industrial securities—railroad obligations to a great extent. In dealing with these securities, certain well established rules have been developed. The investor has acquired the habit of securing specific information regarding gross earnings, fixed charges, net earnings, sinking funds, etc., and he insists upon knowing definitely whether he is offered a first mortgage bond, income bond, preferred stock, or common stock."

"It is the practice of every investing house when offering securities to state all necessary details either over its own signature or that of the head of the borrowing corporation. Nowhere is the importance of authentic and complete information more fully understood and appreciated than in Europe."

Merely Good Business.

"Prospectors for foreign loans contain all the important facts relating thereto, in a statement signed by an authorized representative of the foreign government or by the issuing house, or in some cases by both."

"The board sought merely to call attention to the fact that as this country has become an important market for foreign securities, the same businesslike habits which are well established regarding domestic loans should be developed in marketing foreign securities."

Mr. Harding denied that the softening of local money rates in New York after the statement was issued was due to the board's action and said that any "furry" at that time was confined entirely to loans secured by stock exchange collateral.

Discussing the inflow of gold into the United States he said the board did not regard it as a danger except if "the inflowing gold should remain uncontrolled and be permitted to become the basis of undesirable loan expansions and of inflation." He pointed out that the board had suggested that a step toward control of this gold be co-operation by the banks would be an act of common sense authorizing the final immediate transfer of total reserves of bank members of the reserve system to the proper federal reserve bank.

ENOUGH COAL HERE TO SUPPLY CITY UNTIL END OF FEBRUARY

Coal dealers say that Albuquerque is in no danger of a fuel shortage like that of Arizona have felt. There is enough coal in storage here now to supply the city until the end of February, they say, and with the car shortage decreasing they can see no danger for Albuquerque.

Sections of Arizona have not been so fortunate, however. A story sent from Nogales, Ariz., Monday said that only one every dealer there that afternoon brought out information that only one had much in stock. He refused to sell more than 200 pounds to a customer, it said, according to this story.

Schultness Is Swiss President.

Berlin, Dec. 14.—Gaston Schultness of Aachen was today elected president of the Swiss Confederation for 1917 by a vote of 14 out of the 26 votes in the Swiss national assembly, says a dispatch from Bern today. He was vice president of the federal council for the current year. Herr Stalder of Bern, was elected vice president of the federal council for 1917.

GERMAN ATTACK NEAR PARIS IS BLOODILY BEATEN

Attempt to Capture French Trenches at Lassigny Is Repulsed by Murderous Fire of Defenders.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Paris, Dec. 14.—A German attack on Lassigny, that part of the front nearest to Paris, was made Monday in great force, says La Liberté's correspondent with the French armies. It appears to have been converted to a complete with von Bethmann-Hollweg's note, probably with a view to impressing the French by a local success.

"The Germans brought together 40,000 men from the best divisions," adds the correspondent, "and concentrated corresponding quantities of artillery. The attack was preceded by an intense bombardment lasting for hours."

"The French were not taken by surprise and received the assaulting waves with a fire from their three-inch guns and machine guns, teaching the tanks a lesson. A barrier fire thrown to the rear of the Germans caught the supporting reserves."

"The Germans reached the French trenches over a frontage of 300 yards but an immediate counter-attack enabled the French to regain the trenches. Only a few survivors of the attacking columns escaped. Most of them were killed after stubborn resistance."

"The Germans renewed the assault an hour later without success. The French heavy artillery dispersed the reserves as they came up."

DIPLOMAS GIVEN TO 900 APPRENTICES BY SANTA FE RAILWAY

The Santa Fe railway's apprentice system has turned out more than 900 graduates since its beginning in 1907, according to G. T. Peterson, apprentice instructor in the Albuquerque shops. The railway now has more than one thousand apprentices.

The Albuquerque shops have given diplomas to 86 young men and 99 boys are now serving their apprenticeship in the trades of machinist, boiler-maker, pipe fitter-tinner-coppersmith, blacksmith, electrician, each car carpenter and freight car carpenter.

"These boys," said Mr. Peterson, "receive their allotted school period of four hours a week and on company time, where they are instructed in mechanical and free hand drawing, shop arithmetic, and problems pertaining to their respective trades."

"Each apprentice is furnished with a drawing board, full set of first class drawing instruments, scales, triangles, etc., all of which are furnished free by the company."

"In the shop the boy is under the care of the shop instructors, who watch the boy closely and move him from one machine to another or from one class of work to another, as soon as he masters each step."

"Every opportunity is given the boys to show what they can do. They are encouraged to get into a habit of systematic working, to be careful, to be polite and to court self-improvement by appearing neat, not only in the shop, but also on the street, to be industrious and take pride in their work."

"The local officials have learned that the above qualities are essential in making a good mechanic."

"A special course of one year in length is given to the brighter apprentices for the purpose of developing them for executive positions. This course consists of two months in the boiler shop, four months in the roundhouse, two months in the freight car shop, two months inspecting, and two months with the road foreman of engines. Some of the freight gradings have been sent to the Baldwin Locomotive Works, Pullman company and Westinghouse Air Brake company to become familiar with their methods of handling men and work."

"The local shops have been able to place all bright boys that have applied. If they have not been able to place them immediately, they have been placed on the waiting list. In this way, several Albuquerque boys have been able to learn a trade which brings a good remuneration. Additional increase of business has increased the demand for apprentices."

FAILED TO OBEY COURT ORDER; MUST EXPLAIN

Berlin, Dec. 14.—Gaston Schultness of Aachen was today elected president of the Swiss Confederation for 1917 by a vote of 14 out of the 26 votes in the Swiss national assembly, says a dispatch from Bern today. OPEN EVENINGS Wright's OPEN EVENINGS

'BOB' CREWS TO BE ASSISTANT TO HARRY L. PATTON

Albuquerque Man and Milton J. Helmick of Socorro Stated for Positions Under Attorney-general, Is Report.

(SPECIAL DISPATCH TO MORNING JOURNAL) Santa Fe, Dec. 14.—From reliable sources it was learned here today that Robert H. Crews of Albuquerque, and Milton J. Helmick of Socorro, will be appointed by Attorney General-elect Harry L. Patton as his assistants when Mr. Patton assumes his office on January 1. They will succeed Harry Bowman and Harry Clancy, at present assistants to Attorney General Clancy. The positions pay \$1,400 a year each.

Mr. Crews has for the past five years been secretary of the sheep sanitary board and is well known throughout New Mexico. Mr. Helmick served as assistant district attorney of the Seventh judicial district during the incumbency of former District Attorney F. B. Pittman, and was the democratic candidate for district attorney at the last election, being defeated by the present incumbent, Harry P. Owen.

Sent for Game Warden.

While Governor-elect E. C. de Baca is still in California and so far as is known has given no indication as to what appointments he will make, it is generally believed here that George Seng of Guadalupe county will be named game warden to succeed Trinidad C. de Baca, the present incumbent, who was recently elected county clerk on the fusion ticket in Santa Fe county. Mr. Seng is one of the most prominent figures in politics in Guadalupe county, and it was largely to his efforts that the county showed a substantial democratic plurality in the recent election.

Manuel P. Montanarez, formerly representative from Guadalupe county in the state legislature, was today named clerk of the corporation commission to succeed the late Thomas J. Sanford. The appointment was temporary, but it is presumed that it will be made permanent upon the assembling of the legislature in January.

Robert T. Crews was asked for confirmation of the foregoing dispatch from Santa Fe last night, but declined to make any statement. The fact that he resigned his position as secretary of the state sanitary board yesterday, however, is taken to mean that he has been named as assistant attorney general, or will be upon the inauguration of Harry L. Patton.

News that "Bob" Crews is to go higher up will be received with general gratification in Albuquerque, where he has practiced law for a number of years and where he enjoys a wide popularity regardless of partisan politics. Mr. Crews was associated in the practice of the law with the late Congressman Harvey B. Ferguson until the death of the latter, and both professionally and socially enjoys a high standing. He has always taken an active interest in politics and is one of the democratic leaders of Bernalillo county.

ALBUQUERQUE BOY IS SELECTED FOR CADET BAND OF NOTRE DAME

Joseph Wood, of Albuquerque, has been selected first alto player in the Notre Dame cadet band at the University of Notre Dame. He is a sophomore in the preparatory department at the university.

The junior band, which is composed of twenty pieces, serves as a training school for the "prep" musicians. After four years in this smaller organization, they have received sufficient musical education to become eligible for the big university band and are at the same time ready to enter one of the college colleges.

Frank Carey, of Rochester, N. Y., is the leader.

ABBOTT NAMED AS DELEGATE TO WOOL GROWERS' MEETING

The executive committee of the New Mexico Wool Growers' association, which met yesterday at the Commercial club, appointed H. C. Abbott, vice president, as a delegate to the convention of the National Wool Growers' association, which will be held at Salt Lake City, January 14, 15 and 16.

The next annual meeting of the New Mexico association was set for March 15, 16 and 17. This meeting will be held in Albuquerque. These are the dates set for the meeting of the New Mexico Cattle and Horse Growers' association. The question of amalgamation of the two associations, it is expected, will be settled then.

CAMERON IS ELECTED HIGH PRIEST OF R. A. M.

Big Grande Chapter of the Royal Arch Masons held its annual election last night at the Masonic temple. The newly elected officers are:

High priest—Peter Cameron.
King—S. H. Busch.
Scribe—William E. Thackeray.
Treasurer—Charles E. Lawler.
Secretary—Harry Braun.

The following officers were appointed:

Capitain of the host—John Milne.
Principal subordinate—P. R. Beaman.
Royal Arch captain—George J. Robertson.
Master third rank—M. H. Sablin.
Master second rank—A. R. Robertson.
Master first rank—J. W. Malotto.
Sentinel—William E. Grimmer.

TORPEDO BOAT, BELIEVED LOST, REACHES PORT

Six Members of Ship's Crew Are Reported to Have Perished in Storm in Which Vessel Barely Escaped.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Halifax, N. S., Dec. 14.—A telephone message to the Morning Chronicle from Shelburne, N. S., says that the missing Canadian torpedo boat Grille is heading into the harbor at that place.

All of the officers of the Grille and all but six members of the crew are reported to be safe. The missing members of the ship's company perished in the storm.

Several members of the crew were injured. It was learned later, the Grille came into Shelburne under her own power, however. She was badly battered by the storm and was said to be in a leaking condition.

FIRE ENGINE PUT OUT OF SERVICE WITH A BROKEN SPRING

The highlands fire engine was disabled yesterday when a spring broke. The firemen were returning to the highlands station from a fire. Part of the spring dropped to the ground, stopping the engine. Had the engine been running at high speed, a serious accident probably would have occurred. Temporary repairs were made on the engine and it was placed in service within a few hours. Another spring was ordered by telegram.

The fire was behind the Shuman-Benjamin Fruit company's building, 112 West Silver avenue. It started in a pile of old lumber and had reached a fence when firemen arrived. A garage was threatened. The firemen worked quickly, keeping the fire from reaching the building.

JUDGMENT GRANTED ON MRS. FLOURNOY'S NOTE

Leo Schoenfeld yesterday was granted judgment on Mrs. Jeanette W. Flournoy, widow of M. W. Flournoy, for \$1,425 on account of a promissory note held by him.

Judgment had been granted previously by default, but the court, subsequent to the granting of the first judgment, permitted the filing of an answer by the defendant. Mrs. Flournoy then confessed judgment for \$1,425.

DEATHS AND FUNERALS

Funeral of Mrs. Pino.
The funeral of Mrs. Silvera B. de Pino will be held this morning. The procession, starting at the residence, 210 South Broadway, will go to the Sacred Heart church, where services will be held, beginning at 8:30 o'clock. Mrs. Pino died Wednesday, Toftilla, Bacia, Benito Sureda, Elias Yaji, Antonio G. Sanchez and Juan S. Barrios will be pallbearers.

STOPPED CHILDREN'S COUGH

"Three weeks ago two of my children began coughing and coughing, and I saw they were having an attack of croup," writes Hille Mayberry, Eckert, Ga. "I got a bottle of Foley's Honey & Tar and gave them a dose before bedtime and soon their cough stopped and they fell asleep. Next morning their cough and all signs of croup was gone." Foley's Honey and Tar is a standard low-priced remedy for colds, bronchitis, la grippe coughs, Royal Drug Company.

NOTICE OF REPUBLICAN PRIMARY

Notice is hereby given that a Republican primary election will be held on December 22, 1916, at 7:30 p. m., at Republican headquarters, No. 213-215 West Gold avenue, Albuquerque, N. M., for the purpose of selecting candidates for the offices of Justice of the Peace and Constable for Precinct No. 26, Bernalillo county, New Mexico, for election to be held on the second Monday, eighth day of January, 1917.

After nomination of candidates and selection of judges of election for said primary, one full hour will be had to cast the regular vote of all precinct, vote to be by ballot and confidential receiving plurality of votes to be nominees of the Republican party for said election. Given by authority of the Republican Central Committee for said Precinct No. 26, Bernalillo county, N. M., December 12, 1916.

GEORGE H. CRAIG, Chairman.

MOVEMENT FOR PEACE MIGHT BE RIGHTLY STARTED BY WASHINGTON

Chairman of Senate Foreign Relations Committee Speaks on Rights of Suffering Neutral Nations.

SEEKS TO END WAR BY FRIENDLY SUGGESTION

William J. Stone Makes It Clear That His Words Are Not to Be Regarded Other Than Personal.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
St. Louis, Dec. 14.—The right of a neutral which has suffered from the effects of the European war, particularly the right of the United States, to initiate a movement for peace, was asserted here tonight before the League to Enforce Peace by Senator Stone, chairman of the senate foreign relations committee.

Since the war has almost from the beginning resulted in continuing offensive attacks on the rights and dignity of this sovereignty and inflicting incalculable injury to our national interests—all of which we have borne with patience because of our friendship for the nations involved," said Senator Stone, "it seems to me that after enduring these attacks and suffering these losses for nearly two, and a half years, with no end yet in sight, that we have a right, without regard to any question of sympathy or humanity but solely on our own account and to safeguard our interests, to approach the combatants as a mutual friend and open negotiations with a view to the re-establishment of normal international conditions."

Have Right to Speak.
"Our relations to the combat are such and our interests are so involved, that I think we have a right to speak—a right so clear as to entitle us to speak without asking and without just offense. We would not speak imperiously as intermediaries, but as a friend who suffered grievously and innocently from the ruthless acts of war."

The senator declared he wishes it distinctly understood that he spoke on his own personal responsibility, but said later he might speak "in another forum" on whether any neutral or group of neutrals should attempt any affirmative action to end the present war. He said he would not discuss the wisdom or unwisdom of an approach of the belligerents with peace proposals, but merely of "the propriety of the right" and pointed out that distinguished men in this country and in the warring countries have been warned that such a movement would not only be futile, but of offense.

Gross Offenses Committed.
"The United States," the senator said, "has suffered from acts committed which have been grossly offensive to our national pride and hurtful beyond estimate to our national interests."

Charters Involving Millions Are Asked.
SANTA FE, Dec. 14.—Incorporations are taking a sudden spurt before the close of the year. The corporation commission today reported three incorporations and one amendment, involving capitalization of more than \$5,000,000.

The amendment was filed by the Rio Grande Light, Heat and Power company of Santa Fe and New York, increasing its capital stock from \$1,000,000 to \$5,000,000. The company has its plans and specifications filed for the construction of a dam and power house to develop 20,000 horse power in the White Rock canyon of the Rio Grande, together with power lines to Albuquerque, Santa Fe, Las Vegas and more distant points.

The Hanover Mining and Development company of Hanover, Grant county, with \$2,000,000 capitalization, and offices in New York city, El Paso and Hanover, is another corporation in which Holm G. Bureau of Socorro is actively interested, the other incorporators being M. C. Mechem of Socorro, John A. McDonald and W. H. Dolson of Kelly, J. D. Falconer of Magdalena, J. L. Kerrey of Hanover, W. H. Winter of El Paso, R. C. Paisley of El Paso and J. A. McKenna of Hanover. Each subscribes for 200 shares at \$1 each.

The Oscura Co-operative Improvement company of Oscura, Lincoln county, incorporated with \$250,000 capitalization, of which \$5,000 are subscribed. The shares are \$10 each. The incorporators and directors are: E. G. Rafferty of Oscura, \$2,000; Mrs. Rose Cowan of El Paso, \$1,000; H. E. Riddle of Oscura, \$2,000.

The New Mexico Securities company of Albuquerque, incorporated with \$50,000 capitalization, of which \$10,000 is paid up. The incorporators and directors are: Charles Chadwick, \$4,000; Joseph B. Skinner, \$2,000; Charles S. White, \$4,000.

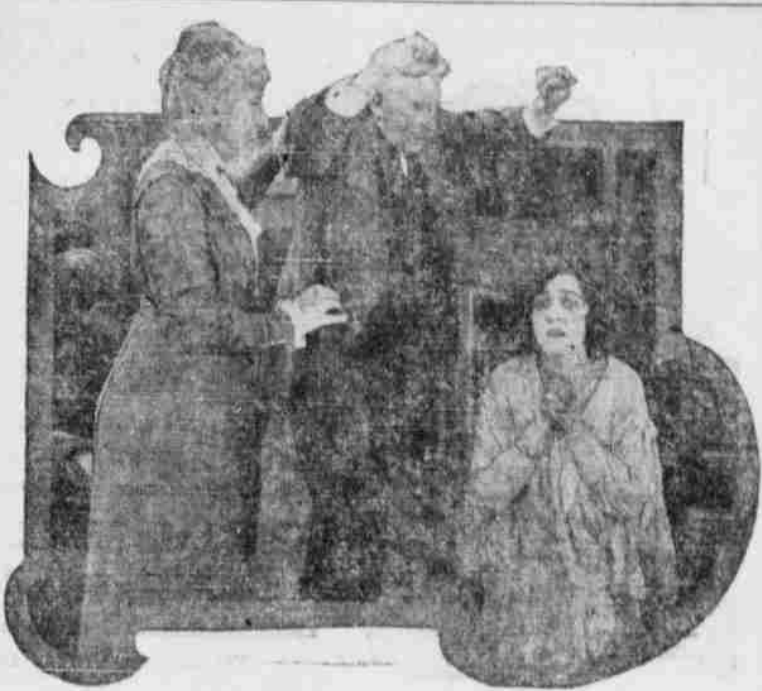

Organizing for de Beca.
SANTA FE, Dec. 14.—Republicans assert that George W. Amato and other independent republicans who defeated the organization republicans for county office in Santa Fe county, are at work to organize the legislative house in favor of Governor-elect E. C. de Beca and against the republican organization. It is asserted that the independents have met with considerable success among the Spanish-American republicans, as far as the house is concerned, but have not been able to make headway thus far in the senate.

Public Schools Closed.
SANTA FE, Dec. 14.—The department of education has been notified that the public schools at Organ, Dona Ana county, have been closed because of the prevalence of tonsillitis and diphtheria. One death from diphtheria and thirty cases of tonsillitis have been reported.

Copper Company Declares Dividend.
New York, Dec. 14.—The Phelps-Dodge company, copper producers, today declared an extra dividend of \$10 a share in addition to a quarterly dividend of \$2.50 a share. Three months ago an extra dividend of \$3.50 a share was declared.

Monday Evening, Dec. the 18th, at 9 o'clock

SUGGEST PLANS FAVORING HIGHER STICK AVERAGES

Among Proposals Are Those to Give Base on Three Balls and to Call Only One Foul Strike.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Dec. 14.—Without having touched upon the revision of the national commission, as suggested by President Dreyfus of the Pittsburgh club, proposed changes in the rules governing the world's series, or the adoption of a new contract for players, the National League owners held a long session here today and the annual meeting may last the week out.

At yesterday's session a committee from the minor leagues presented a petition to the delegates asking for the elimination of the draft rules for Class AA clubs and then left for Chicago to present their request at the American league meeting. The National league considered this petition today and referred it to the national commission, which will report later what its members decide.

The same action was taken with reference to the creation of a new board of arbitration of five members, independent of any existing baseball tribunal, which would pass upon cases affecting minor and major league clubs or players. The National league delegates announced that they are in favor of such a board being formed.

President Baughman of the Boston club, as well as several others, spoke at length in regard to the changing the playing rules with a view to increasing the batting and lessening the domination of pitchers. Among the suggestions offered to prevent the decline of the .300 hitters were to call only one foul strike instead of two; giving a base on three balls in place of four; and to abolish the emery and spitball.

After a long discussion President Tener advised that all suggestions on this subject be submitted to him for reference to the joint committee on rules when next it meets.

DEFEATED CANDIDATES IN SANTA FE CONTEST

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
SANTA FE, Dec. 14.—At the last moment that the statute permits, the defeated county officers of Santa Fe county filed contests against their successful democratic and independent opponents, the only exception being County Commissioner Jose Ortiz y Pino.

The grounds are the same advanced by District Attorney Alexander Read in his contest against J. H. Crist, that 500 more voters were deceived by republican tickets being "fixed" with stickers before they were handed to voters. Those bringing contests are: County Clerk Marcelino A. Ortiz, County Treasurer Federico Lopez, Assessor Teodoro Rivera, County Commissioner George Kincaid, Sheriff Charles Closson, Probate Judge Victor Ortega and County Commissioner Lujan.

No Peace Note for Belgium.
London, Dec. 14.—The Belgian legation in London today published a denial of a story printed in the Morning Telegraph yesterday of a peace offer to Belgium by the central powers.

Unable to Work— Kidney Trouble Overcome

This is to certify that I, Jerome H. McCormack, of 317 Ivy Street, Johnson City, Tenn., suffered from congestion of the kidneys, so that at times I was obliged to move about the house with the aid of a chair and unable to work until I used three bottles of your Swamp-Root. I keep Dr. Kilmer's Swamp-Root in my house at all times, as I know from experience that it is the best kidney medicine I can use.

Very truly yours,
J. H. MCCORMACK,
Johnson City, Tenn.
Sworn and subscribed to before me a Notary Public, this March 21st, 1914
SAM T. MILLARD.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.
Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Albuquerque Morning Journal. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

Ruptured?— Throw Away Your Truss!

For Many Years We Have Been Telling You That No Truss Will Ever Help You—We Have Told You the Harm That Trusses Are Doing. We Have Told You That the Only Truly Comfortable and Scientific Device for Holding Rupture is the Brooks Rupture Appliance—and That It Is

Sent on Trial to Prove It

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon today and I will send you free my illustrated book on Rupture and its cure, showing the Appliance and giving you prices and names of many people who have tried it and were cured. It is instant relief when all others fail. Remember, I use no knives, no barbers, no ties.

I send on trial to prove what I say is true. You are the judge and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients whose letters you will also read. Fill out free coupon below and mail today. It's well worth your time whether you try my Appliance or not.

Pennsylvania Man Thankful

Mr. C. E. Brooks,
Marshall, Mich.
Dear Sir:—
Perhaps it will interest you to know that I have been ruptured six years and have always had trouble with it till I got your Appliance. It is very easy to wear, fits me just as snug, and is not in the way at any time, day or night. In fact, at times I did not know I had it on. It just adapted itself to the shape of the body, and seemed to be a part of the body, as it clung to the spot, no matter what position I was in, in Spring St., Bethlehem, Pa.

It would be a terrible calamity to the unfortunate who suffer from rupture if it could not be cured by the Brooks Rupture Appliance and wear it. They would certainly never regret it.

My rupture is now all healed up and nothing ever did it but your Appliance. Whenever the opportunity presents itself, I will say a good word for your Appliance, and also the honorable way in which you deal with ruptured people. It is a pleasure to recommend a good thing among your friends or strangers. I am,

Yours very sincerely
JAMES A. HUTTON,
10 Spring St., Bethlehem, Pa.

Confederate Veteran Cured

Mr. C. E. Brooks,
Marshall, Mich.
Dear Sir:—
Your Appliance did all you claim for the little boy and more. It cured him sound and well. We let him wear it for about a year, in all climates, and he has not had a recurrence since. We will certainly recommend it to our friends, for we saw it in you.

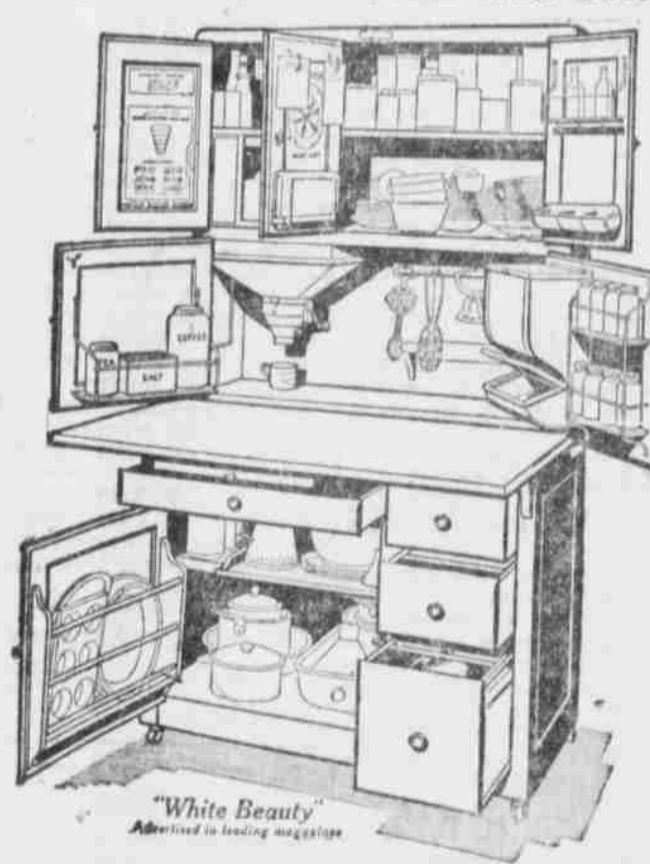

Yours respectfully,
WM. PATTERSON,
No. 713 N. Main St., Akron, O.

STATE COLLEGE IN GOOD FINANCIAL CONDITION

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
SANTA FE, Dec. 14.—Not including the land grant of the State college, which is worth at least another million dollars, the college has real and other property in excess of two million dollars worth, according to the report of the college filed with Governor McDonald.

Nor does this \$2,000,000 and more include the experiment station lands, buildings and equipment, which are under federal jurisdiction, nor does it include the improvements under way out of the current year's appropriation, covering a \$100,000 auditorium and \$100,000 veterinary science building. The statement shows an investment of \$1,287,722.51 in buildings.

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience. If ruptured, write him today, at Marshall, Mich.

Remember

I send my Appliance on trial to prove what I say is true. You are to be the judge. Fill out free coupon below and mail today.

Others Failed But the Appliance Cured

Mr. C. E. Brooks,
Marshall, Mich.
Dear Sir:—
Your Appliance did all you claim for the little boy and more. It cured him sound and well. We let him wear it for about a year, in all climates, and he has not had a recurrence since. We will certainly recommend it to our friends, for we saw it in you.

Yours respectfully,
WM. PATTERSON,
No. 713 N. Main St., Akron, O.

Child Cured in Four Months

Mr. C. E. Brooks, Marshall, Mich.
Dear Sir:—The boy's rupture is altogether cured, thanks to your Appliance, and we are so thankful to you. If we could only have known of it sooner, our little boy would not have had to suffer near as much as he did. He wears your brace a little over four months.

Yours very truly,
ANDREW JOHNSON.

SOLDIERS JOYFUL WHEN PEACE NEWS ARRIVES

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
German Great Headquarters in the West, Wednesday, Dec. 13 (via Berlin in London, Dec. 14)—The German peace note was read at noon on Tuesday to all the reserves and to the troops resting behind the front. Its contents were made known to the soldiers at the front or on the way to or from the trenches through announcements on improving bulletin boards.

The effect of the announcements was to call forth spontaneous shouts of joy, tempered later by doubt as to whether the contents would agree to make peace now. It is generally agreed, however, that the note comes exactly at the right time and that in case it is rejected the fighting will continue with renewed vigor.

The inhabitants of the occupied territory displayed as lively an interest in the announcement as did the soldiers, and many praised the emperor unreservedly for his peace initiative.

CREWS RESIGNS AS SECRETARY OF SANITARY BOARD

To Take Office of Assistant Attorney General Is Report; Sheep Board Appoints J. C. Logan as Successor.

Announcement of the resignation of R. H. Crews, secretary of the sheep sanitary board, was made at the meeting of the board yesterday. Mr. Crews resigned, according to report, to take the appointment of assistant attorney general under Harry L. Patton, attorney general-elect. Mr. Crews refused to confirm the report.

The board elected J. C. Logan of Roswell to succeed Mr. Crews as secretary. Mr. Logan was recommended by Walter Connell, secretary of the New Mexico Wool Growers' association, and the United States bureau of animal industry. He has been a livestock inspector in the employ of the bureau of animal industry. His appointment will become effective January 1.

The board adopted this resolution in accepting Mr. Crews' resignation: "It is with sincere regret that we accept the resignation of Mr. R. H. Crews as secretary of our board. He has served in that capacity with credit to himself and the board for the past four years. During all of that time his one object has been to make the administration of the present board a success. It is indeed gratifying to this board to know that at this time those who opposed Mr. Crews' appointment are now urging that he continue as secretary. His administration has been uniformly fair and unprejudiced. We are sorry that he cannot continue with us longer and he takes with him the best wishes of every member of this board for his future success."

Harmony Is Restored.

The restoration of complete understanding between the sanitary board and wool growers' association was commented upon in another resolution. Here it is:

"Whereas in the past there has been some friction between the wool growers' association and the sheep sanitary board which was due wholly to a misunderstanding; and

"Whereas that friction has now been entirely eliminated; therefore,

"Be it resolved, that the sheep sanitary board expresses its appreciation of the co-operation which has existed between the two organizations and that the wool growers' association be thanked for the assistance which it is now rendering to this board, and that Mr. Walter Connell, the secretary, be especially thanked for the interest he has always shown in assisting this board in every way possible."

"We congratulate the wool growers' association on having selected for its secretary a man of the highest character whose only aim is the advancement of the sheep industry in this state."

LAWYER SUES FOR FEE WHICH HE SAYS IS DUE

Amadeo Lovato is charged by Ernest B. Garcia, attorney, of failing to pay him attorney's fee in a complaint filed yesterday in the district court. Garcia says Lovato retained him as attorney, agreeing to pay him \$500, regardless of the outcome of the controversy in which he wished Garcia to represent him. Lovato informed him afterward, says Garcia, that he had settled the controversy. He gave Lovato a statement of his services, but he refused to pay Garcia's account.

SECOND CHARGE IS MADE AGAINST W. H. CHRISMAN

Senator Barth, Successful Candidate, Is Said to Have Paid Out More Than Ten per Cent of Salary.

State Senator Isaac Barth yesterday fired another barrel at W. H. Chrisman, defeated candidate for senator from the "bluebird" district comprising Bernalillo, Sandoval and San Juan counties, charging him with spending more than 10 per cent of a year's senatorial salary in his campaign.

Mr. Chrisman spent \$1,247.46, according to his post-election statement of expenditures, filed at Santa Fe. Mr. Chrisman frankly admitted that he had spent that much. He said, however, that he had been advised by an attorney that the law limiting campaign expenses did not apply to candidates for legislative office. And, anyhow, Mr. Chrisman has been informed that no penalty attaches.

Inquiry was made over the long distance telephone by Mr. Chrisman, or one of his attorneys, yesterday, as to the amount Senator Barth spent in his campaign. This brought the information that the senator's statement indicated that he had expended about \$260. Mr. Chrisman, however, said that he did not intend to file a complaint against Senator Barth, charging him with exceeding the 10 per cent restriction.

Report of Contest.

The report that Mr. Chrisman was to contest his defeat in another way perhaps inspired Senator Barth's charges. Senator Barth was uncommunicative when asked about the possibility of his requesting Senator Barth's right to the "bluebird" district, saying that nothing was sure "but taxes and death."

Mr. Chrisman, with his attorneys, M. E. Hickey and R. P. Barnes, appeared in Justice W. W. McTear's court at the city hall yesterday for his arraignment on the charge of paying "John Doe" \$50 to vote for him. Mr. Barth was not prepared and the arraignment was postponed until afternoon. Senator Barth could not be present in the afternoon and the arraignment was postponed again, this time until Wednesday.

Judge Barnes yesterday morning indicated that Senator Barth's complaint be made more specific. He wanted it to show the identity of the worker named in the complaint as "John Doe."

WATER COMPANY HEAD WILL MEET ALDERMEN

Negotiations between the city and the Water Supply company, looking to the purchase of the water plant, will begin next Monday night. A. H. McMillen, president of the company, yesterday accepted the council's invitation to confer with it. Mr. McMillen notified City Clerk Thomas Hughes, who transmitted it to him the council's request of his acceptance.

DRAMATIC CLUB PLAYS 'GO ASK WILLIE' TONIGHT

Stage Saying That a Poor Rehearsal Makes a Good Performance Is True to Form; Would Go in Profession.

Judging from the dress rehearsal of "Go Ask Willie" last night at the Crystal theater, the performance tonight is going to be "some show." Not that the rehearsal was good. It was not. It fulfilled all the predictions of Broadway, that "a poor rehearsal means a good performance." It ought to be an extremely good performance.

It is not any amateur theatricals at Old Swah sort of a play either. With a few changes here and there, an abbreviation of skirts both fore and aft, and the introduction of a few shady jokes which the "Go Ask Willie" book has not, it would get across on Broadway. And the chances are that the voice Broadway would hear would not be as good as those in the east tonight.

Miss Hortense Switzer, the Indian maiden, shows too much of the traditional Indian reserve, but the minute she begins to sing she would be forgiven if she were made of wood and painted green, so unusually clear and steady is her voice.

The Indian chief, whose costume is a cross between that of a Chinese mandarin and Arabian sheik and who last night gave a hint of Boston quarters below his blue satin shirt, lent an element of danger in the last act by attempting the life of the hero and heroine with a pearl-handled pen knife. He is supported by a crew of three, rag-draped Indians, with handkerchiefs wound around their heads. Last night they had lots of trousers and shirt sleeves showing around the edges, but they will take those off tonight. It was rather chilly behind the scenes. The three fair redskins of the Indian princess in their costumes of coyote skin and leather, wore every style of footwear from Roman sandals to high boots, and the wife of the sultan added brilliancy to her costume of old gold with a red sweater, while the fairies in green gauze took to coats and mufflers.

Two of the best characters in the play, those with the most "pep," are Mrs. Sylvia S. punkhouse, suffragist, and the hand chief, Pancho de Lina, who dashes on with bristling hair and literally armed to the teeth.

There is but one bluish in the whole performance, the arrest of a drunk by one of the fair copettes, which savors a bit too much of South State street or the Bowery.

Miss Ethel Hickey has done well with the lines and the music by Prof. E. Stanley Seder will probably be whistled all up and down Albuquerque within a week or two, which is the greatest compliment that can be paid any music. The house for tonight's performance is practically sold out.

MANAGER OF CRYSTAL ARRANGING FOR BIG CROWD DECEMBER 23

George M. Cohan has done many notable things besides making the stars and stripes famous in America, but he added the greatest triumph to his career as a playwright when he wrote "Hit-the-Trail-Holiday," which will appear at the Crystal theater Saturday, December 23. This play was produced last September and Gotham theatergoers enjoyed one of the sincerest and heartiest and longest sustained laughs that has been handed them even by Cohan himself in many years.

Mr. Cohan modestly gives George Middleton and Guy Bolton credit for suggesting the idea on which "Hit-the-Trail-Holiday" is based, but who other than the indefatigable "George M." could stick such a theme as the exhortations of a Billy Sunday and build therefrom a riotously happy evening's entertainment without resort to burlesque or any low comedy.

The first act is laid in a hotel barber shop of a country town in New England. The social barbers, the local expression man who is the champion checker player, the self-important chief of police, the timid hotel proprietor who will not have liquor sold in his hotel, and has invented "nearly beer," a new temperance drink, the voice for women campaigning widow and the manicure girl, who is the daughter of one of the town's ministers, give interesting local color. Into an atmosphere of tonsorial somnolence arrives Holiday.

The last curtain falls as the actor is marrying his daughter to Holiday. An unusual and final curtain.

CHRISTMAS CARGO FIXES AMERICA'S CONTRIBUTIONS AT \$50,000,000

The Naval Collier Carson Carries 200,000 Tons of Food and Clothing for Armenian and Syrian Refugees.

RED CROSS SANTA CLAUS FOR WAR SUFFERERS

Total Value of Supplies Runs Into Fast Figures; Now Considering Work After Peace Is Restored to World.

NEW YORK, Dec. 14.—With the sailing of the U. S. N. collier Carson from New York with a Christmas cargo of food, clothing and medicine for refugees in Armenia and Syria, Red Cross officials estimate America's contributions towards relieving the sufferings of war touch the \$50,000,000 mark.

The Carson carries 20,000 tons of food and clothing and \$23,000 worth of hospital and surgical supplies. Included in her cargo are 1,000 cases of condensed milk for babies, 30,000 pounds of beans, 2,000 pounds of sugar, 325,000 pounds of whole wheat, 350,000 pounds of flour, 200,000 pounds of rice, 5,000 gallons of cottonseed oil and 100,000 pounds of crushed wheat.

Do Not Like Flour.

The people of Armenia have little knowledge of the use of flour and do not like it. The Red Cross consulted Armenians in the United States, determined just how their countrymen liked their wheat and then had mills crush it just as the Armenians do.

The cottonseed oil is sent in place of animal fats which are not eaten in Armenia and Syria. The Red Cross was informed that olive oil was considered highly desirable but the cost was prohibitive and cottonseed oil was substituted.

The Carson will stop at Gibraltar to take aboard a representative of the

American embassy at Constantinople and proceed to Alexandria, Egypt, where she will deliver coal and supplies to the United States cruiser Des Moines. From there she will go directly to Beirut, Syria.

The clothing and food were gathered and contributed by the American committee for Armenian and Syrian relief, while the Red Cross itself contributed the hospital and surgical supplies.

Much Money Collected.

From the beginning of the war until September 30, the Red Cross itself had received in contributions of cash and supplies about \$3,225,000. Part of the money was spent in maintaining representatives in the field, and some was used for relief supplies. The total value of the supplies shipped to the entente allies' countries was \$1,122,000, while the value of similar supplies shipped to the central powers was \$250,000.

The difference in the figures is explained by the fact that for more than a year, because of British and French blockade measures, shipments to the central powers has been impossible. Arrangements now are being made however by which the Red Cross will be permitted to send medical units of physicians and nurses to take charge of a number of hospitals in Germany and Austria-Hungary. Each unit will have charge of a hospital containing six hundred beds.

Red Cross officials recently have begun to consider the part America will take in the period following the war, when much suffering is expected. The general idea goes far beyond the question of food and shelter and extends to the rehabilitation of the people.

The Red Cross had spent \$543,535 in the eleven months preceding December 1, for war relief work, exclusive of hospital and medical supplies sent abroad. Among the relief expenditures were the following:

Jews, \$11,000; Mexican, \$44,000; Polish, \$58,938; Turkish, \$50,000; and Syrian, \$8,770. The balance in the treasury was reported as \$1,273,240.

EXECUTE TEXAN AS VILLA LIEUTENANT

EL PASO, Texas, Dec. 14.—An American citizen named Alfonso Leiva, formerly of Brownsville, Tex., was executed in Juarez by the military authorities on October 21, according to a report brought to the American side of the border today by an American who was released last night from the Juarez jail after being held several weeks on a minor charge.

Leiva was a former Villa lieutenant colonel who was granted amnesty by the Carranza government and was afterwards arrested in Juarez by Car-

EARLY XMAS SHOPPING

ONLY EIGHT MORE SHOPPING DAYS TILL CHRISTMAS.

Shop early. Early in the day. The month is far advanced, this week is almost gone, but shop early today.

The following Christmas commandments should be cut out and placed in a conspicuous place for future reference:

Christmas commandments: Don't do up a parcel in such poor wrapping paper or in such flimsy manner that the wrapper may be easily torn and separated from the contents.

Don't fail to put your name and address, preceded by the word "from" on the upper left-hand corner of every piece of mail.

Don't fail to give full addresses—street and number (or box) town, city, county and state of destination.

Don't mail a parcel without previously weighing it to ascertain the amount of postage required: printed matter, one cent per two ounces; merchandise, one cent per ounce.

Don't place handkerchiefs, neckties or other articles of merchandise in packages of printed matter, unless you prefer to pay higher rates of postage on the whole.

Don't seal or wrap parcels in such a manner that their contents may not be easily examined, unless you desire to pay letter rates of postage.

Do not use one and two-cent stamps and postage on heavy packages. Use the large denominations. It saves you trouble affixing them and saves time and work in the postoffice.

Don't lay packages on the street letter boxes, for they may never reach the postoffices. Packages boxes are provided at convenient places, with convenient collections.

Don't fail to register valuable letters and packages. The government insures their safe delivery, and the extra cost is eight cents.

Don't forget to mail parcels early.

Don't expect the postoffice to transmit and deliver Christmas parcels within the same number of days and hours as at other times. An allowance of from one to three days extra

must be made.

Leiva, according to this American, who was in jail with him prior to the Villa officer's execution, asked that a letter be sent to his aged mother in Brownsville, Texas, telling her of his fate. According to this American, who made a full report of the execution to the United States government agents here today, an effort was made by Leiva to secure a pardon because of his nationality, but the Carranza officers informed him he had forfeited his citizenship when he joined Villa.

should be made.

In Christmas shopping one often loses track of the main idea—to buy gifts which are wanted by the future recipients. One sees a lovely purse or a beautiful piece of cut glass and is so charmed with it that the object is bought and paid for before the shopper realizes that the person for whom it was intended already possesses at least five or six beautiful purses and perhaps has absolutely no place to put cut glass. Gifts should be chosen with an eye to the recipients' use for them.

The scarf, for instance, is much appreciated as a Christmas gift by most women, and is as much worn as ever and in a greater variety of ways. Silk gauze is one of the favorite materials in which scarfs are seen, often woven with a satin border. One, for example, is in a soft citron tint, the border striking a contrasting note in black. Some of these silk scarfs are fringed at the ends.

About double the price of these are the scarfs made of Chinese silk, embroidered in pale but telling tints on white, black or deep toned grounds. Here the fringe is rich and heavy, unlike the filmy fringe of the silk scarfs, so fluffy and easily entangled. There are prices for all purses.

Among the cheapest are the color printed chiffon, the lightness of the material counterbalanced by a border of silk stitched on firmly. Ninon, more solid of texture, is made in the same way, but in self colors.

A novel and acceptable gift for the matinee girl, or for any one who is a frequent attendant at the theater, or opera, is a bag for opera glasses, made of heavy white, tan or black moire silk, with a stiff bottom, just the right shape for the glasses, with enough room at the top for a handkerchief.

On the outside of the bag was a little pocket with a flap to hold change. At the bottom of the bag, on the outside, was an oval mirror about four inches long. The bag was drawn together with heavy silk cords.

BULL MOVEMENT IS HIT HARD BY RAID OF BEARS

Declines on Stock Exchange Reaches Climax in Last Hour; Many Traders Compelled to Take Heavy Losses

NEW YORK, Dec. 14.—Apprehension and confusion created by the Teutonic peace proposals and heightened by vulnerable technical conditions caused another violent outburst of liquidation in the stock market today, leaders other than rails breaking five to ten points with far more serious impairment in shares of less prominence.

The decline, reaching its climax in the last hour, was materially assisted by a series of bear drives which dislodged many weak bull accounts and affected what the speculative fraternity is accustomed to call a "house cleaning." Many traders were sold on "stop loss" orders and others were forced to accept heavy losses on their inability to meet calls for additional margins.

Altogether it was one of the most severe reversals of any of the numerous bull markets which have had their origin in the European war. Today's extreme declines represent losses of twenty to fifty points from high levels of last month. Rails were only slightly unsettled.

Hundreds of millions of dollars, insofar as represented by price quotations, have evaporated into thin air as a result of this week's drastic action. United States Steel alone showed a shrinkage of twelve points at today's lowest level from last week's final quotations, or about \$65,000,000 on its total outstanding common shares.

FERDINAND PRAISES FIGHTING OF BULGARS

AMSTERDAM, Dec. 14 (via London).—King Ferdinand of Bulgaria, according to a telegram received here today from Sofia, has addressed this proclamation to the army:

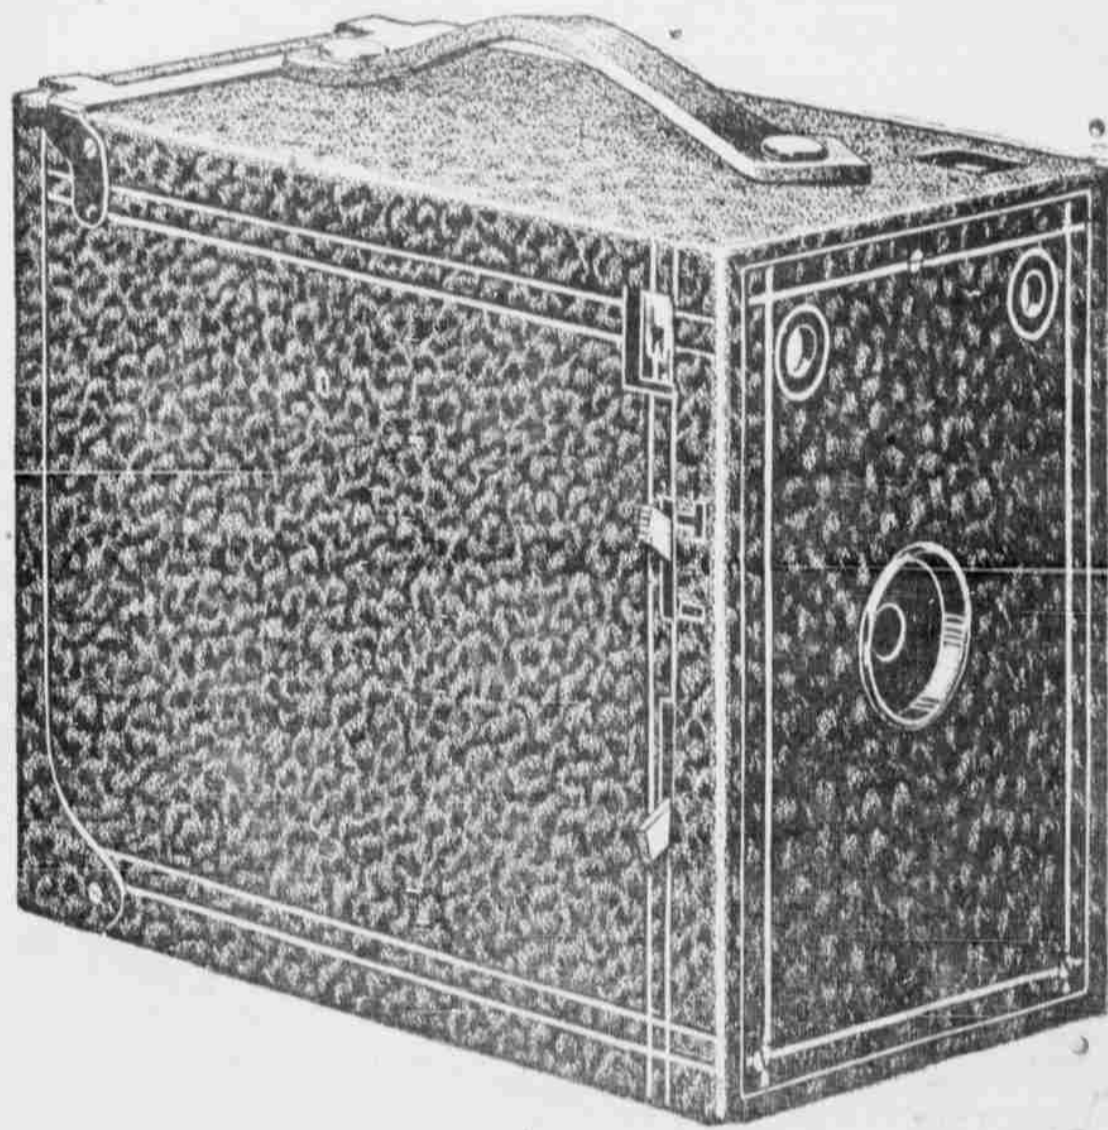

"For fifteen months you have been fighting to achieve the unity of the Bulgarian people. Thanks to your devotion to your king and your unexampled valor all the enemies who had stood in the way of our national unity have been conquered and all Bulgarian lands are under protection of the victorious Bulgarian armies."

The proclamation says that the Bulgarians will continue the struggle pending receipt of the answer of the entente allies to the peace proposals of the central powers group.

Canadian Bankers Summoned.

OTTAWA, Ont., Dec. 14.—Canadian bankers have been summoned to Ottawa by Finance Minister White for an exchange of views upon the question of financing British munitions orders placed in Canada. The finance minister announces he will request the flotation of domestic loans in the future to finance Canadian war operations, and the advances will be required to the imperial munitions board for the British munitions account.

Only a Few Left The Ideal Christmas Gift Get That Camera Today

Owing to the strong demand, we have had for Cameras since the close of our recent campaign, we have ordered an additional supply which we will give away with each \$5.00 Account Opened Before January 1, 1917.

Present Your Child With a Camera and a Savings Account in

The First Savings Bank & Trust Company Albuquerque, New Mexico.

TEIPER, ACCUSED OF MURDERING MOTHER, TESTIFIES

BUFFALO, N. Y., Dec. 14.—John Edward Teiper, on trial charged with the murder of his mother, today told the jury his story of the double tragedy in the Orchard Park road on the night of January 20. Teiper described the happenings in greater detail than in the statement he made to the district attorney two days after the tragedy.

Teiper today did not describe the assassin as a negro. He denied that the last taken from under the arm of his dead brother, Frederick, was his own hat. He said that a third hat, given to him at the murder scene, and which has since disappeared, was his.

He declared that when the assassin grabbed him by the throat there was a long struggle in which the two fell to the pavement.

"The next thing I remember clearly," Teiper testified, "is seeing two lights coming from the direction of Orchard Park. I arose and stopped the approaching car and asked the men in the car to get a doctor quickly."

He said that after stopping the approaching automobile and talking to the constable who was in it, he collapsed again and that when he came to he was in the same spot. He had no recollection, he said, of the time that elapsed between the various incidents after his struggle with the unknown assailant.

Premier's Illness Worse.

LONDON, Dec. 14.—The condition of Premier Lloyd George has taken a slight turn for the worse. He suffered considerably from a chill contracted early in the week and his physicians have ordered him to remain in bed a few days more.

Friends of the premier express

hope that he will be able to appear in the house of commons next Tuesday as planned.

Deported for "Social Secessionist." Washington, Dec. 14.—Germany's reply to the American protest against

deportation of Belgians arrived at the state department this morning. It is understood to contend that the United States has not been accurately informed of the purposes of the deportations, which are said to be made on the ground of social necessity.

Your wagons and implements should last longer

Every farmer knows his wagons and machinery will last longer if kept out of the weather. It is equally important to have them protected from sun and rain when in use.

DEVOE FARM WAGON PAINT

is the one protection that we can recommend. We guarantee it to give a durable and lasting finish. Ordinarily a gallon of it will repaint all the wagons and machinery on the average farm.

In addition to saving many times its cost every year, this paint will keep things looking spic-and-span.

Devoe Farm Wagon Paint is made in green, red, yellow, blue and black. Which color do you prefer?

THE GIBSON-FAW LUMBER CO.
ALBUQUERQUE, NEW MEXICO.
PAINT DEVOE PAINT

OPEN EVENINGS UNTIL CHRISTMAS

For the accommodation of those who have to work from 7 a. m. until 6 p. m., our usual hours, we will remain open every evening until Christmas.

FRIDAY, DECEMBER 15, 1916

THE CULPRIT FOUND.

At last the culprit who defeated Hughes has been located. Chester Rowell, the state chairman of the California republican central committee, gives out an interview in which he places the blame directly on Nicholas Murray Butler, president of Columbia university. Dr. Butler, Rowell says, visited William H. Crocker, republican national committeeman, and advised him that the best possible thing to do would be to prevent a meeting between Candidate Hughes, on his Pacific coast trip, and Hiram Johnson, as it would be immoral to send a man like Johnson to the United States senate. Crocker acted on Dr. Butler's advice. The result was that while Johnson carried California by some hundreds of thousands, Hughes lost the state by a few votes.

Columbia university, like Syracuse, is maintained by capitalists who expect Dr. Butler to serve the ends of capitalism, and he does it to the best of his ability. He is under no obligation, except to his own conscience, to refrain from mixing actively in politics.

But that does not save him from the fact that the college man who becomes a politician always hurts the people he would serve, and usually hurts himself worst of all.

But while Columbia and Syracuse can have presidents who are active in partisan politics, the president of a state university who mixes in party politics should have a can attached to his caudal appendage promptly. He has no place in educational work where the state foots the bill, it makes no difference whether he is for the one side or the other.

New Mexico, for the most part, has been free from that sort of thing. Dr. Garrison, as president of the agricultural college allowed himself to be drawn into political fights and lost his job. He should have lost it quite as readily under a republican as under a democratic administration.

Any man at the head of a state educational institution, who talks partisan politics to members of his faculty or to students, or who advocates the election of this candidate or that, should be dismissed.

All of which is beside the point. We merely started out to say that a university president, Dr. Nicholas Murray Butler, was the burghard on Charles Evans Hughes.

A Texas preacher says there are a thousand roads to heaven, and you probably know some people who managed to miss them all.

THE DANGER OF GOLD.

George E. Roberts, for many years superintendent of the mint and a profound student of finance, has sounded a warning over the danger from too much gold concentrated in the United States.

It is difficult to make people generally understand how a nation can have too much gold, or how a sudden inflow of gold in the whole world would be exceedingly injurious. As Mr. Roberts explained, gold is only valuable as it gives employment to labor and promotes industry. If gold comes to this country in unprecedented amount and labor does not come with it, then if new enterprises are to be undertaken labor must be taken at higher wages from some other enterprise where it is needed. Wages become higher here than in countries where money is scarce, therefore the enterprises of these countries can be carried far cheaper than here, our exports cease, and we import the cheaper goods. Our gold begins to flow out to pay for the cheaper products of other lands, but to use Mr. Roberts' own words:

"The great danger when a great amount of capital in the form of gold is suddenly forced from one country to another without a corresponding movement of population that all costs of production will be raised so far above those in other countries that when normal conditions are restored that country will find itself isolated from the rest of the world."

We delude ourselves with the state-

ment, now and then, that the American working man produces about as much as three foreign laborers during the same period. The answer to such contention—frequently and foolishly made by Secretary Redfield—is that a vast percentage of the men in all kinds of American productive labor have learned their work in foreign countries. How has their efficiency been increased merely by crossing the Atlantic?

When the European war is over, wages must come down in the United States or wages must go up in Europe. As long as American industries are working at full blast, wages will not come down here. As long as Europe has no gold with which to pay her international trade obligations, wages can not rise there. The result will be that Europe with cheap labor will manufacture goods which they will sell in our markets for our gold, which will flow back to Europe to pay labor there instead of paying it at home.

Of course, there is a partial remedy for this which may be found by the new tariff board when it gets to work, provided congress has sense enough to put such findings into law.

When we consider the difference between the democratic and the republican campaign funds in New Mexico, we believe it is safe to say that the day has passed when public sentiment in this state can be bought.

THE KINGDOM OF POLAND.

An Austrian report of Poland has been named, and, if Germany and Austria win, the archduke is to be elected king. With that election the Polish people will have no more to say than the people of Mexico had when Maximilian was placed on the throne by the power of French bayonets.

Henry Sienkiewicz, who died recently, gave the strength of his green old age to the relief of oppressed Poland, as he gave the powers of his brilliant pen to the history of that gallant, but unfortunate people. "Quo Vadis" by which most Americans know him, was really one of his minor works.

Many idolot students know Polish history best from his splendid trilogy, which revolves around a national figure of fiction more real than ephemeral kings. The spirit of Poland, best and worst alike, breathes through "With Fire and Sword," "The Deluge" and "Pan Michael." They vitalize the forgotten annals of an unhappy nation.

In the five impressive volumes of Jeremiah Curtin's translation, American readers may trace at once the causes of Poland's swift growth to national power and premature decay. The first of the Slavic groups to be inspired by the Christian religion and to feel itself a nation, it set civilization in the heart of central Europe in the "middle ages." But it lacked the genius of practical government, and fell in the eighteenth century, when its ring of Muscovite and Teutonic enemies had passed it in the race.

The trilogy of Sienkiewicz thrills with the valor and energy that pushed the boundaries of Poland out against pagan tribes to the east and north and against Mohammedan barriers to the west and south. It exhibits, moreover, the fertility of tribal government, when hampered by an elective king and an oligarchy palsied by the veto of a single noble.

But with more than one hundred years of oppression to weld it together, it is possible that if Poland were given the opportunity it would now become a self-governing kingdom.

Richard Croker is back in New York. He says he would not be surprised to see Wilson get a third term. Doubtless he will earn one, if we were in the habit of giving third terms.

THE GERMAN PEACE MOVE.

In England and France, the interpretation of Germany's peace move probably is nearly correct. It is intended, first of all, to make the German people, who are deeply tired of fighting, believe that the Kaiser's government really wasn't to blame for starting the war and that it would make peace any moment, if only the safety of Germany could be assured. But that the wicked allies are bent upon the conquest of the Teutonic nations, therefore, everybody must fight and work for life, liberty and the pursuit of happiness.

The second object was to create sympathy in the neutral nations. But the people of the neutral nations are not served by a "reptile ploy" and they generally will see the inside of the peace proposals. But the German people, whose newspapers publish nothing not in harmony with the purposes of the government, will swallow the bait, hook, line and sinker.

But Germany doubtless will be called upon to make known what her peace proposals are. What we know of them is from statements made by the Teutonic diplomats in Washington. If Bernstorff is advised of the terms and has stated them correctly, there is no possibility of the war ending next year.

Germany has issued a statement placing the losses of the allies at 15,000,000 men. It is now up to the English press bureau to use its trusty typewriter.

The price of print paper is advancing faster than the Germans in Rumania, and about as disastrously.

With Scissors and Paste

IN IOWA.

(Des Moines, Iowa)—New streets will be given names from the languages of the Sac, Fox and Sioux tribes.

In Iowa, fair Iowa, there are no midnight sun sings serenades beneath a pair of moons.

But faintly the wayfarer announces his abode:

"I live on Nishnabotna street, near Pashapaho road."

In Iowa, fair Iowa, the air is full of song.

As mellow Indian syllables are warbled all day long.

Melodious Sioux patronyms the jilney men repeat:

"A nickel air, will carry you to Inyanahashah street."

On trolley cars it is a joy to hear ululations.

Of highly trained conductors as they call successive stations.

How sweetly they enunciate, avoiding raucous squawking!

"Next stop is Inyanahashah square, all out for Minneapolis!"

In Iowa, fair Iowa, both palaces and hovels

Have street addresses taken straight from J. F. Cooper's novels.

Pain we would stray to Iowa, and rest our weary feet.

And specialize in Indian verse on Oklahoma street.

—Spokane Spokesman-Review.

RICH MAN'S SON WHO MADE GOOD.

(H. C. Forbes in Leslie's.)

J. Ogden Armour is at heart as democratic as his father and has inherited the son of a rich father, but one of America's ablest, most forceful creative business men.

Since "J. O." as his colleagues call him, took hold, auxiliary enterprises have been built up doing in the aggregate more business than is done by the packing house—the Armour Grain company handles more grain than any other concern on the face of the earth. Armour has the second largest leather business in the world; he makes among the foremost manufacturers of fertilizers; he controls more refrigerator and other special cars than any railroad system in the country.

J. Ogden Armour is the largest merchant in Christendom or beatendom. Also, he is the largest individual employer of workers—some 40,000 of them—for Armour & Co. have no stockholders; it is purely a family concern.

"I have no social ambitions," he said. "My ambition is to run Armour & Co. successfully and to give a great many young men a chance to make their way in the world. My associates in the business are my closest friends in life. If it weren't for the fun there is in working with them and being with them, I wouldn't—I couldn't—stay in business. Without sentiment, the work would be too hard."

Years ago Mr. Armour was offered \$120,000,000 for his company, but unhesitatingly declined it.

"What could I do with \$120,000,000?" he remarked when I asked him about this incident, now revealed for the first time.

"To get the right kind of men we begin early. We are more particular about the hiring of office boys than about any other thing connected with Armour & Co., for the office boys of today will become our department managers tomorrow. We select men with that view. We practically never

GEN. DEWIT EARLY, HE SEZ

MY PRETTY MAID?

I'M GOING A-SHOPPING.

SIR, SHE SAID.

AND MAY I GO WITH YOU?

MY PRETTY MAID?

YOU WILL IF YOU'RE WISE.

KIND SIR, SHE SAID

go outside for a high priced man. Just as the fellow who starts with the Pennsylvania railroad as a brakeman may one day become president, so young men who start with us at the bottom can hope to rise to the top."

Mr. Armour happened to remark one day, in the hearing of a bright youth, that one of his greatest pleasures in life was developing young men.

"Mr. Armour," snorted the youth, "you need not look any further. You can start right here," pointing to himself.

Mr. Armour did start right there. Today the youth is vice president of Armour & Co. Mr. Armour's right hand man and most trusted associate, Robert J. Dunham, director in Chicago banks and business enterprises and having the income of a prince—all at 40.

I walked through every department at Armour's and I believe the average age of the executive heads is under, rather than over 40. When men grow old enough to enjoy a life of leisure they retire on pension.

A MONDAY CHRISTMAS.

(New York Sun.)

Must we wait for the snow or the goosebore to leave whether the winter is to be hard? Not at all. Election is an ancient but whose script is it the British museum?

A great winter that they will see. And full of winds, both loud and shrill. But in the summer, truth to tell, Stern winds shall there be and strong. Fall of tempests lasting long! While battles they shall multiply And great plenty of beasts shall die. Christmas falls on Monday.

HE WILL GET A CONTINUANCE.

(Louisville Post.)

A democratic elector in the state of Alabama has been indicted since the election on a charge of embezzlement. The indictment does not bar him from Wilson and Marshall, but should he be convicted before January 2 he would be disqualified. If his vote is needed, therefore, it is safe to guess that he will get a continuance when the case is called, but fortunately the election is not that close.

"GUN TIRE" IN THE AIR.

(Popular Mechanics.)

"The most striking thing to me about being under gun fire in an airplane is the unreality of it, said a British aviator who has been flying in Flanders since the outbreak of the war. The roar of your own engine drowns the sound of the guns on the earth, and even the detonations of the shells which do not burst very close at hand are rarely heard. Shrapnel bullets fly in a broad cone straight ahead—that is, in the same direction as that in which the shell itself is moving—so that practically the only shell that ever does any harm to you

is the one which bursts directly beneath your machine, and which, therefore, you do not see explode. The little puff balls of smoke which blossom out around you are perfectly harmless. At the worst a few of their spent bullets may shower back upon you, sometimes so gently that you can see, and even reach a hand and catch them. A shell bursting even immediately over you is not dangerous in itself, but rather ominous as indicating the fact that the 'Archies' have you well ranged. The back kick from the shell casing might sting you if it hit you on the head, but the chances of that are almost negligible.

Ordinary heavy artillery is rarely used against air craft, but occasionally one's work takes him into an air zone in which some of the big shells are traveling. This is one of the most remarkable experiences that can fall to the lot of an aviator; in fact, the weirdest sensations of my whole flying experience are connected with the occasion on which I thundered into the road of a passing '47."

"As you doubtless know, the Germans have used their 17-inch guns for the intermittent bombardment of Dunkirk, and other points fifteen to twenty miles behind the lines, right down to the present time. Well, I was at an altitude of about 3,000 feet one day, and climbing higher at an easy angle, when one of these big fellows, almost at the end of its long flight, came plowing along in the opposite direction. First a dark little blur appeared in the air ahead and at an angle of about 25 degrees—a little steeper than the one at which I was climbing—above me. At first it seemed to be coming right at me, and I swerved to the left in an instinctive effort to dodge the threatened blow. Then a sort of dizziness hum became audible, even above the roar of my engine, and this sound increased during the two or three seconds that elapsed before the big missile came even with and swept by me. It was probably several hundred yards away at its nearest, but the distance seemed less.

"A few faint stirrings of air began

to rock my machine even before the shell went by, but the full force of the 'air wash' was not felt for a fraction of a second later. Then an almost solid wall of air nearly threw me on my 'beam ends,' and I was really hard put to get the roofing machine back on an 'even keel.' For the next mile or two the air was like the water in the wake of a big side-wheeler—all chopped to pieces—and the machine rocked like a springless motor lorry going over cobbles. The air was disturbed for some seconds after a big rear astern told me the '47' had come to earth."

THE RUSSIAN HYMN.

(Cleveland Plain Dealer.)

Of all the national anthems, there is none more stirring, none more solemnly grand, than the Russian hymn, "God the All-Terrible" is its title, and its deeply searching tones give such a solemn name a fitting setting.

It is sadder than most of the other national hymns we know—Austria's "Emperor's Hymn," which was written by Haydn, and which is also the air of "Deutschland Ueber Alles"; France's "Marseillaise"; Belgium's "Brabantonne"; England's "God Save the King." But its solemnity is of the centuries.

In 1812, Nicholas I. expressed a regret that the Russians possessed no national hymn. The composer, Lvoff, obeyed the implied command, and in November of that year announced that the hymn was ready. The czar desired to hear it, and a date was set for its performance. On that date—November 23, 1812—Czar Nicholas, accompanied by the czarina and the Grand Duke Michael, went to the court chapel, where the composer had assembled a large choir accompanied by two orchestras for the occasion. The hymn was played and sung several times, and at last the czar said, "It is superb!" and then and there commanded that the hymn be officially adopted. A few weeks later it was publicly performed in Moscow.

Most national anthems are the result of either inspiration or chance. Some, like the "Marseillaise," are born of patriotism at a white heat; others are fortuitous adaptations of old tunes to catchy words. But the Russian hymn was written and composed to order—and there is nothing grander. It is a triumph of absolute monarchy.

It has been happily wedded to a rarely inspired passage of Pope and the combination is used as a church hymn. The passage begins:

Rise crowned with light, imperial Saviour, rise!

Exalt thy towering head and lift thine eyes;

See heaven its sparkling portals wide display,

And burst upon thee in a flood of day.

BANK OFFICIAL RECOMMENDS THEM.

T. J. Norrell, V. P. Bank of Cottonwood, Tex., writes: "Beyond doubt I have received great relief and take great pleasure in recommending Foley Kidney Pills. Kidney trouble makes one worried and hopeless, by aches, pains, soreness, stiffness, backache, rheumatism. These symptoms, as well as sleep disturbing bladder disorders, yield quickly to Foley Kidney Pills. They cast out poisons and purify the blood. Royal Drug Company."

Flowering plants and ferns in genuine Indian Baskets, only 15c, at Clarke's.

Of Course Santa Claus Would Prefer TO

"DO IT ELECTRICALLY"

If you give Santa Claus first choice he will prefer to bring electrical gifts.

A chafing dish, for instance, on which a dozen different wholesome fishes can be prepared electrically, at the mere pressing of a button, would be ideal.

Electrical gifts are appreciated because they usually mean doing things better with less work. Doesn't that chime in with the spirit of Xmas?

Better come in and look while you're shopping early.

STOCK EXCHANGE
PRICES SLUMP
TO LOW LEVELS

Railroad Shares Record Relatively Small Losses, but Other Leading Issues Are in Decided Panic.

NEW YORK, Dec. 14.—The stock market experienced another drastic downward movement today, leading issues other than rails falling five to twelve points under recent low levels and from twenty to almost fifty points under maximums of last month. Rails recorded relatively small losses with a few actual gains.

Trading again attained the huge proportions of Tuesday, mainly as a result of the tremendous outpouring of the final hour, when lowest quotations were made. The setback today was greater and more sweeping in character, embracing a larger number of issues. Total sales 2,500,000 shares, of which United States Steel and similar industrial as well as the so-called war group furnished nearly half.

Among the greatest declines were United States Steel, which fell 7 1/2 points to 112 1/2. Bethlehem Steel fell ten points to 58 1/2.

Metals receded from five to seven points, with declines of a similar extent in petroleum, motors, sugars, papers and the entire shipping list.

Bonds, particularly international issues, again were steady. Total sales, par value, \$4,435,000.

United States bonds were unchanged on call.

CHICAGO BOARD OF TRADE.

Chicago, Dec. 14.—Wheat values today reflected stock market weakness that was associated with reports indicating a willingness of Great Britain and her allies to call for a statement of Germany's proposed terms of peace.

The close was heavy 1/2 to 1 1/2 net lower, with May at \$1.66 1/2, and July at \$1.42 1/2. Corn finished 1/2 off to 1/2 up, oats unchanged to 1/2 higher, and provisions varying from 22 to 25c decline to a rise of 15c.

Right from the outset in wheat transactions the advantage had been with the bears. Absence of any urgent export demand for wheat operated as a further handicap of the bulls.

Corn was relatively steady owing to scantiness of country offerings. There also was talk that on account of poor husking returns the government crop report tomorrow might show a reduction of the estimated total yield.

Oats seemed to be governed chiefly by the action of corn. Nothing was heard of any export sales.

Provisions averaged slightly higher with hog. Trade was mostly of a scattered sort.

Closing prices:

Wheat—May, \$1.66 1/2; July, \$1.42 1/2.
Corn—May, 90 1/2; July, 80 1/2.
Oats—May, 53 1/2; July, 50 1/2.
Pork—Jan., \$26.85; May, \$26.25.
Lard—Jan., \$15.97; May, \$16.00.
Ribs—Jan., \$13.85; May, \$14.20.

NEW YORK MONEY MARKET.

Interests of Industrial Education Will Be Specially Watched by State Official, Who Tells What Is Needed.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Dec. 14.—State Senator L. C. Mersfelder of Curry county, who is state supervisor of industrial education will look especially after the needs of industrial education in legislative ways. He sums up his views in the following survey of industrial education in New Mexico.

"During the past twelve months it has been my pleasure to go into every county of this state (with exception at this time) and I wish to say that I have found much more interest manifested in this industrial work than I at first anticipated. I say this because many of us know that it has been only a few years since this work has been required by our curriculum.

"Many of us who have become intensely enthusiastic along these lines may feel that slow progress is being made but we should content ourselves with the idea that in order to put

anything on a permanent and sure foundation the development must be gradual.

"In many of the rural schools of this state, especially the agricultural sections, I find much attention being given to the subject of agriculture. The subject is being taught in a practical way and good results are evident on every hand.

"The subject of manual training is receiving much attention mainly in our town and city schools. An interesting side of the matter is that in many small town schools where you would hardly expect to find much work of this nature, you find good work being done, while in some of the largest and best city schools of the state you find the manual training department being neglected to a certain extent. I have assurance, however, that these conditions will be remedied in the near future.

Girls Cook and Sew.
"As a rule the domestic science departments are better equipped than the manual training, and they are doing good work. The girls are learning how to make their own clothes and prepare their own meals and how to keep house in a systematic and businesslike manner.

"In practically every instance where a school building has been erected in any town in this state during the past twelve months, provision has been made for the industrial departments. Many rural schools have secured a limited equipment for this work.

"In a number of schools gardens and demonstration farm plots have been provided for the schools, but here I find we have much room for improvement.

"Our normal schools are adding to their industrial equipment from time to time and are offering every in-

ducement to teachers for preparation in these departments.

High Living Costs.
"To my mind, the industrial branches are slowly but surely gaining that prominent position in our public school curriculum, in New Mexico as elsewhere, where they justly belong and eventually must be. The distressing and alarming daily cry which we hear on every corner about the high cost of living is forcing the thinking people of our country to the one conclusion, and that is that we must have more efficiency and production, and economy and conservation, and that the secret of the situation is the giving of adequate and practical instruction to our rising generation, of the fundamental principles as laid down by these industrial branches.

"We still have with us a few interesting specimens of former generations of humanity who sometimes have much to do with the outlining of our courses of study and who perhaps still unconsciously harbor the idea that boys and girls are born into this world for the express purpose of keeping up attendance in public schools. They seem to have the idea that the sole consideration in arranging our course of study for the grades and high school should be to get the graduates admitted into a college, first because the college course demands certain requirements, and second, because certain subjects have always been required in public and high schools, while other subjects have not been required of old, therefore, the application of the 'law of the Medes and Persians' which stretcheth not."

They assume this attitude and cling to these ideas in spite of the fact that statistics for generations past, stare them in the face with evidence and showing only a very, very small percent of public school boys and girls are ever given the opportunity of a college education.

Preparation for Life.
"Therefore, the only reasonable and just conclusion to be reached is that our public school course of study should be so arranged as to best prepare for life that overwhelming majority of thousands of boys and girls who will never have any educational advantages except what they get in our public schools. Then after the interests of the majority have been provided for, offer all special inducements that may be possible for the benefit of the few who have the opportunity to continue their education after leaving the public schools.

"If an education is a preparation for life, then it appears to me that it is just as important for a boy to learn how to repair a screen door or build a farm gate as it is to learn the name and history of an ancient king who had eight wives, or to know the conjugation of the verb amo in Latin. That it is just as important for a girl to learn how to make her own dress or to prepare a wholesome meal as it is for her to learn the names of the capitals of the countries

in South America or to find the value of "X" in a simultaneous algebraic equation.

Agriculture Is Essential.
"We have made much progress along these lines, but certainly there is much room for improvement. I wish to say, after careful deliberation, that I believe the subject of agriculture ought to be taught in every rural school of this state, regardless of size, number of pupils and classes, or other crowded conditions. This subject deals with the tillage of their land, the breeding of their stock, the care of their orchards, the raising of their poultry, the betterment of their roads, the improvement of their homes, and in fact with almost everything that is close and dear to the heart and life of a rural people. So I repeat that course, the particularly branches which affect mainly and directly the everyday life and surroundings of their respective communities. This subject can be taught without extra room and expensive equipment.

"Too much stress cannot be placed upon the idea of having our people raise a greater variety of food products, and the importance of canning and preserving same. Just so long as these things are neglected, just that long will New Mexico continue to send her sixteen million dollars and more annually, out of the state for such food products that might be raised at home. Due credit should be given those in charge of our boys' and girls' industrial club work of this state for what they are doing along this line."

Meanwhile, the mother ship Cheyenne slowly edged its way in towards the H-3 until within the first breaker line.

Curtain of Fog Closes In.
About noon the curtain of fog that had lifted earlier in the day again closed down and the mother ship moved back. Wreckage evidently of the conning tower and superstructure was flung up at the feet of the shore watchers.

The Cheyenne with only one propeller put into Humboldt bay. At

in South America or to find the value of "X" in a simultaneous algebraic equation.

U. S. SUBMARINE BEACHED; CREW RESCUED AFTER DEADLY PERIL

Heavy Waves Toss Submersible Like Cork and Twenty-six Men Aboard Are Badly Shaken by Experience.

OFFICERS AND PRIVATES NEARLY SUFFOCATED

All Are Obligated to Crowd Into Little Space Below Conning Tower in Order to Get Air to Preserve Life.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Eureka, Cal., Dec. 14.—Five of the crew of the United States submarine H-3, which has been pounding in the surf north of here since dawn today, with twenty-six men imprisoned in it, were brought ashore on a breeches buoy at 5 o'clock tonight. The five were followed ashore within an hour by the remaining nineteen men of the crew and the two officers.

Can Be Refloated.
Lieut. H. R. Bogusch, commanding the H-3, reported that his vessel was lying on a sandy bottom, had been closed up water-tight, and probably could be refloated with minor damage. Of the crew all escaped injury save two. One named Elabon suffered three smashed fingers; a man named Anderson had his hand hurt.

Commander W. B. Howe of the mother ship Cheyenne, radiographed the navy yard at Mare Island for a tug to proceed here immediately to aid in salvage attempts.

Some chlorine gas had been liberated during the day, Lieutenant Bogusch said, from the submarine's battery, but his men had not suffered greatly therefrom.

Strikes Sand Spit.
In a dense fog the H-3 struck a sand spit early today while cruising down the coast from Puget sound on her way to the Mare Island navy yard in San Francisco bay. She was accompanied by the U. S. S. Cheyenne and the submarines H-1 and H-2. Officers of the Cheyenne said they believed the accident was caused by the engines of the H-3 becoming disabled.

Commander W. B. Howe of the Cheyenne, directing the rescue work on shore, said the men had been able to keep alive by crowding beneath the conning tower for air, in this way escaping the chlorine gas fumes from the batteries.

The H-3 is ashore just outside the entrance to Humboldt bay. Lieut. H. R. Bogusch is in command of the H-3, with Lieut. E. E. Zemke second in command.

Crew in Great Peril.
All day until the sea swept the frail little craft further toward the beach to a steeper position, the men of the H-3, bottled up in the hull, were rattled around like nuts in a barrel. One lonely figure stuck to the bridge as if he were lashed to the diver's superstructure until the beating of the great breakers began heeling the submarine over and back, its conning tower pounding the sandy bottom of the surf. Then he disappeared; the hulk was battered down and crew and officers—twenty-six in all—were prisoners in their bottle boat.

Watchers ashore could hear faintly above the grind and roar of the breakers the short "Toot, toot, toot" of the diver's air whistle, dying away as the air supply was exhausted. A telegraph operator thought he detected the start of a message in Morse by the diver's whistle.

Meanwhile, the mother ship Cheyenne slowly edged its way in towards the H-3 until within the first breaker line.

Curtain of Fog Closes In.
About noon the curtain of fog that had lifted earlier in the day again closed down and the mother ship moved back. Wreckage evidently of the conning tower and superstructure was flung up at the feet of the shore watchers.

The Cheyenne with only one propeller put into Humboldt bay. At

Due credit should be given those in charge of our boys' and girls' industrial club work of this state for what they are doing along this line."

Meanwhile, the mother ship Cheyenne slowly edged its way in towards the H-3 until within the first breaker line.

the lift of the fog in the afternoon a line from the mortar gun fell across the deck of the diver but there was no one to make it fast. An hour later, a man ventured to the submarine's deck but was driven back by the breakers as he attempted to make fast a second line. Then the sea swung the H-3 bow shoreward and she seemed to steady. A third line was made fast and a breeches buoy was rigged by means of which all were rescued.

VILLA TOWARD TORREON IS CHIHUAHUA REPORT

(BY MORNING JOURNAL SPECIAL LEADER WIRE) El Paso, Dec. 14.—Francisco Villa and his main command have started south toward Torreon, the metropolis of Coahuila, according to private information received here in letters from Chihuahua City by prominent foreign refugees. Leaving a sufficient force to protect his caches of ammunition in western Chihuahua and his base hospital at Guerrero, Chihuahua, Villa was reported to have moved south and east through Saltillo toward Torreon. A report was also received here that Santa Rosalia and Jimenez had been reconquered by Villa forces, but was unconfirmed.

Reports of fighting south Chihuahua City, in the vicinity of Bachimichas pass, continue to reach the border, and are admitted as possibilities by Carranza officers in Juarez. This fighting, however, consists of skirmishes between small bands of Villa's men and General Murguia's outposts and scouting parties, the Carranza officers say.

RANCHER SENT IN PURSUIT OF VILLA CHIEF

Juarez, Mexico, Dec. 14.—Colonel Luis Comanduran, the Chihuahua rancher who asked Carranza for permission to pursue Villa because Villa followers had kidnapped his two daughters, will be sent to the Guerrero district of western Chihuahua to fight the Villa forces there.

Colonel Comanduran reached Juarez Tuesday with a small force and will go to Casas Grandes. From there he will go to the vicinity of Madera, where Villa was reported to have cached the broken machine guns and cannon captured at Chihuahua City, in order that they could be repaired at the Madera machine shops.

THREE FEET OF WATER ON ALAMOSA RANCHES

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Alamosa, Colo., Dec. 14.—The situation here, brought about by the breaking of one of four headgate valves at the Alamosa reservoir near Capulin, was reported unchanged today. Water still is pouring through the damaged valve, but the other appear to be safe and no further damage to the dam is anticipated.

Water last night was reported three feet deep on ranches near the Alamosa, down which the flood is pouring. Engineers say it will take several days more the reservoir to empty itself.

Resigns From Smithsonian

Washington, Dec. 14.—At the seventy-first annual meeting of the Smithsonian Institution here today, the resignation of Andrew D. White of Ithaca, N. Y., as a regent was presented and accepted. Dr. White wrote that with advancing age he found it impossible to attend to the duties. Representative James T. Lloyd of Missouri, was appointed to succeed Maurice C. Connolly of Iowa, whose congressional term had expired.

NO HIGHER PRICE FOR THIS.
While food and clothing have advanced in cost, it is well for the sick that the prices of such reliable family remedies as Foley Kidney Pills are not increased. Persons in moderate circumstances find doctors' bills hard to pay in the easiest of times. Don't neglect weak, tired or disordered kidneys. Foley Kidney Pills cost little and relieve backache, pains in sides and loins, sore muscles, stiff joints, rheumatic pains and annoying bladder trouble. Royal Drug Company.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Foils who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
