LOSE LIVES IN TWO NAVAL ACCIDENTS

BY THE ASSOCIATED PRESS

WASHINGTON, Feb. 18.—Five enlisted men were drowned in the sinking of a naval water barge yesterday off the Cuban coast, the navy department was advised today, and two others lost their lives in the capsizing of a motor boat from the U. S. R. Navy last Sunday at Harwich, England. No details of the sinking were given but Admiral Knapp said a court of inquiry would investigate the sinking of the dory.

The men lost on the barge were Seaman Harry T. Gleason, Hastings, Pa.; Leo T. Umenzki, Cleveland, and Harry Brody, Philadelphia, and Fireman Raleigh W. Meiser, Pittsburgh, and L. G. Higgins, Lindale, Georgia.

Those lost with the dory were Fireman Patrick G. Gill, Boston and Coxswain Francis D. Moses, Philadelphia.

Hoover Off Ticket, Residence Not Given

BY THE ASSOCIATED PRESS

LANSING, Mich., Feb. 18.—A petition to place the name of Herbert Hoover on the democratic ballot in the presidential primary April 5 was rejected by the secretary of state today because it did not designate the candidate's residence as required by law.

Supporters of Mr. Hoover have until mid-March 1 to file new petitions.

BAILEY ASSAILS HIS OWN PARTY

Texan Raps Administration In Announcing His Candidacy

BY THE ASSOCIATED PRESS

GAINESVILLE, Tex., Feb. 18.—Joseph Weldon Bailey, former United States senator from Texas, today formally announced his candidacy for governor of this state on the democratic ticket.

Mr. Bailey in an address excoriated "progressive democrats" and the national administration, blamed the federal prohibition and women suffrage amendments invasions of states rights and expressed opposition to the league of nations.

To oppose restriction of output, look-outs and boycotts, or the illegal persecution of individuals, all of which are a menace to the industrial progress of our community and our country and tend in the undermining of constitutional rights. To secure for employers and employees the freedom of contract in the matter of employment to protect everyone in his right to work, to conduct his business or affairs as he deems proper so long as he does not infringe on the rights of others.

To dispense charity in all deserving cases under the direction of the board of directors of this association. To further the educational development and progress of the people of the city of Albuquerque through all legitimate activities of said association."

Will Open Shop.

"The Business Men's association has incorporated in order to be in more effective position to carry out the objects for which it was formed several months ago," said E. T. Chase, president of the association this afternoon.

"There are three fundamental and insuperable objections to the league of nations," the former senator said. "The first is that it surrenders a part of our sovereignty into the keeping of a European council; the second is that it will involve us so long as we exist in European complications and the third is that it obligates the United States to furnish soldiers for wars in which we might not have the remotest interest."

Johnson Won't Take Name Off Ticket

WASHINGTON, Feb. 18.—Despite the request of the North Dakota delegation, the democratic convention accepted the national progressive candidates for primary positions there. Senator Johnson of California announced today that he desired to have the people of the state pass directly on his candidate and that he had no present intention of withdrawing the nomination.

Senator Johnson, who was born in Australia in 1858, has carried out wide tours of exploration in the country. Notable among his discoveries was the existence of a large aridous area in West Australia in 1898, which resulted in the finding of the great gold field in that region.

In a telegram to Richard Wilcox, Johnson's manager at Sacramento, Senator Johnson said:

"I am most willing to have my name abdicate the ultimate determination of delegates who say they are unpledged. I want the people themselves to pass upon my candidacy."

Friends Of Soviets Control Vladivostok

LONDON, Feb. 18.—Revolution has broken out at Vladivostok and advanced rapidly where all authority is in the hands of provisional governments, who bear a union with the soviet administration.

Red troops have entered Tsimpol, 12 miles northwest of Odessa.

PROPAGANDA INJURING BEEF BUSINESS, DR. WILSON SAYS

PARIS, Feb. 18.—A sweeping grant of amnesty will be granted to Paul Deschanel upon assuming the functions of president of the French republic today, civil and military offenders will be included, the only exceptions being persons convicted of treason against the state.

He declared England had lost only one-tenth of her cattle. There were 100,000, according to the latest government figures, ten million head of cattle more than there was before the war began, he said.

"And Germany is permitting the importation of cattle and the importing of fresh meat into this country," he said. Summarizing the report of a British commission on the picture of the situation in Russia, the member of the soviet government that the British workers cannot compete with the American packers and the American packers have got to be hobbled. Since then the American packers have been shut out of New Zealand. And we are to be hobbled."

In closing, he referred significantly to the radical elements in the country.

In connection with the way grain grows in the Soviet party, Mr. Wilson said, "we must not ignore the fact that to the economic marketing of Russia." After that the growers get out their own propaganda and succeeded in stabilizing the market and now the lamb industry was on its feet.

Woolmen and their head of state shipped out this year owing to the program he said. He attacked the government management of these cattle shipments which he said result in enormous losses.

The war-time propaganda against the earning of land had resulted in an intense depression of the lamb market and the growers had been compelled to pay off their debts. However, the facts are to the economic marketing of Russia.

After that the growers get out their own propaganda and succeeded in stabilizing the market and now the lamb industry was on its feet.

Now there is a propaganda of too high price for beef that is injuring the beef business, he continued. "Already it has been the cause of beef prices to go up 20 per cent." He added, "the market should not be allowed to rise."

"Multiplied by one million head of cattle that have either got to be eaten or exported, and there is no export trade now, owing to the depression of exchange."

The resolutions call for the removal of alien sheepmen from the public domain, ask for the extension of the time limit for return for attendees of livestock in transit, oppose insurance on livestock when used as collateral or basis for the establishment of market districts in the District of Columbia, which would result in a national range and bring world-wide bankruptcy." The appeal was made in a letter issued by E. M. Jewell, acting president of the railway employees' department of the American Federation of Labor.

He said the system of promotion by

seniority usually placed inefficient officers in high positions.

REBELS LIFE SPARED.

JUAREZ, Mex., Feb. 18.—Because of the prisoner's advanced age, the Rev. General de la Llave, the rebel leader, who recently was sentenced to death by a court martial in Mexico City, has been spared, according to a telegram received today.

"It is probable the house will dismiss the report next Saturday," he said.

When they learned of the prison,

to continue present wages to railroad workers for six months after May 1, railroad brotherhood resolutions

ELECTRICAL MEN ELECT OFFICERS

Three-Day Convention
Brought To Close This
Afternoon

The third annual meeting of the New Mexico Electrical Association, a convention of electrical engineers, manufacturers and executives, opened at the Hotel Alvarado on Tuesday evening and closed for the session yesterday.

W. Eugene Schaeffer, manager of the Los Angeles lamp company, was president of the organization; G. C. Morris, chief engineer of the National Lamp Works at Cleveland, was elected vice-president; and W. E. Johnson, manager of the electrical division of the All-American Electric Company, was elected treasurer. The election was held at 11:30 a.m. by ballot.

Other officers elected were the

following: Vice President, A. Roberts, Chisholm; Vice President, Arthur Prager, All-American; General Vice President, D. H. Best, Tucumcari; Secretary and Treasurer, Charles A. Twissel, All-American.

The executive committee includes the following:

H. E. Roberts, President; J. W. Morris, Vice President; Arthur Prager, All-American; General Vice President, D. H. Best, Tucumcari; Secretary and Treasurer, Charles A. Twissel, All-American.

Mrs. W. E. Johnson, wife of the former president, also vice president of the New Mexico Christian Temperance Union and chairman of the National Suffrage association, addressed the convention on education, women suffrage and the importance of securing equal suffrage by legislation.

At the close of the conference the association presented the chairman of committee with a fine electric incense burner in appreciation for the invitation and cooperation given them while in town.

Allies Send Adriatic Reply To Wilson

London, Feb. 18.—The allied reply to President Wilson's note on the Adriatic situation having been dispatched, the Adriatic question was not a topic of discussion in the session闭幕 today, so far as could be learned.

Confirmation was given, however, of the statement made in Washington that President Wilson's memorandum informed the allies that if they proceeded with their Adriatic plans without the consent of the United States, President Wilson might feel constrained to withdraw the treaty of Versailles from the Senate and also refuse to sign it, effecting an arrangement between France and the United States.

Reply Received.

WASHINGTON, Feb. 18.—The reply of the allied powers, council of London, to President Wilson's note on the Adriatic situation, was received today at the State department from Ambassador Davis.

It was announced officially that the reply would not be made public at this time and it was indicated that not even a summary of it would be given out. A summary of the reply has been sent by the embassy to President Wilson, according to London dispatches, but the overall expected to give the press a summary of its contents.

Bill of Complaints.

PARIS, Feb. 18.—The Paris news papers today hint at the possibility of a summary of the reply will be given out. A summary of the reply has been sent by the embassy to President Wilson, according to London dispatches, but the overall expected to give the press a summary of its contents.

Padilla Bombed With Telegrams

Representative Dan Padilla of Albuquerque bombarded today with telegram and telephone messages, affirming his position in opposition to the ratification of suffrage. The bombardment took the form of an organized attack on the Bernallillo countryman's position during the afternoon. This telegram, sent by the Rotary club, is illustrative of the general character of the messages.

"Hear this! This city composed of scurvy of the leading business men, unanimously endorsed woman suffrage, and we advised Governor Laramie. You were elected on the platform of the republican party and pledged to this cause. We expect you to fulfill your party's pledge. If this government is defeated it will be your fault."

Railroad Bill Brings New Wage Crisis

(Continued from page one.)

Tives and other labor officials in Washington expressed vigorous opposition. They said they had not given up their fight against final enactment of the measure and that as a result of this provision they would redouble their efforts to defeat it.

The union spokesman said they had been promised relief by President Wilson, and that the accepted plan for settlement of the wage controversy is good faith.

President Gompers, of the American Federation of Labor, and Frank Morrison, secretary, will attend the union meeting tonight. Union officials have made no effort to conceal their grave interest in the conference report, especially in the clause which would stabilize wages until September 1, regarding this in effect as an interference with the agreement between themselves and President Wilson.

"It is a time for cool heads and warm feet," one official at labor headquarters remarked.

Deschanel Sworn In As French President

PAris, Feb. 18.—Paul Deschanel today became tenth president of the French republic. He succeeded Raymond Poincaré, who laid aside the colors of office after one of the most turbulent periods in the history of the country. The formal transfer from the old to the new regime occurred at the palace of the Elysée this afternoon.

The inauguration of the French president is a formal ceremony and the number permitted to witness the transfer of authority is limited to the presidents of the senate and the chamber of deputies, members of the cabinet,

WHO'LL BE PRESIDENT?

THE EVENING HERALD has compiled a series of articles by special correspondents giving its readers some idea of the qualifications of the men who are prominently mentioned for president.

Now the question arises, whom do you favor for president? New Mexico will soon be selecting its delegates to the national conventions of the republican and democratic parties. No one yet knows whether the delegations will be instructed, and if so, for whom.

The Evening Herald would like to take a poll of its readers to determine who is the favorite in the field. Fill in the blank below and mail it in. The results of the poll will be tabulated and published. All are urged to send in the blanks to make it a true indication of which way the straw is turning.

Whether the League of Nations is an issue in the forthcoming campaign or not is now a vital issue before the people. Are you for or against it? Space is also indicated for a vote on this proposition.

MY FIRST CHOICE FOR PRESIDENT IS:

Republican _____

Democratic _____

Republican _____

Democratic _____

I Am For The League Of Nations.

I Am For The League Of Nations With Reservations.

I Am Against The League Of Nations.

KIWANIS CLUB SEES CHAMPION BOYS

Members Present Youths And Tell Their Qualifications

Today was "Father and Son" day at the Kiwanis club.

Members of the club who had sons had one with them at the luncheon and those who had no sons brought some one else's son.

When called upon by President Wilson to introduce themselves and give their qualifications and their introductions their sons much admiration followed.

Members introduced their sons or adopted sons and told what qualifications the lads possessed.

H. E. Cox, who has four girls and no boys, introduced Ernest Landolt and George Nehor as his twins.

Thomas Hughes, politician, introduced his adopted son, the future president of the United States.

Frank Stouts introduced Frank, Jr., as the boy who could wear out the most shoes of any boy in town.

Benjamin Lewinson introduced Leo as the champion pheasant.

When Mr. Bryan was got up to introduce his son he asked him what he did and when he then proceeded to tell his qualifications.

Henry H. Ward introduced his son as the coming hope of the household.

The boys were given exclusive chances in the drawing for the altitude prize, donated by C. T. French, a savings stamp. The lucky boy being Raymond Stansbury.

Fred Canfield of the Kietrys-Owen home also agency presented members and son with a cane and pennant.

Mr. H. H. Bell of New York was the guest of the club and spoke on the duty of fathers to their sons. He made an excellent talk along this line.

Chances For Suffrage Bill Are Brighter

(Continued from page one.)

There was unanimous support presented from the House of Representatives.

Carrying on its legislative effort of the morning session, the house passed the three bills that are regarded as no more than local importance, thus clearing the way for uninterrupted consideration of the other measures, which require careful study. The first bill passed was an attempt to authorize a special levy in Sierra and Grant counties, for road purposes.

As amended by the roads and highways committee, the bill was passed 25 to 1. Epstein of Chaves, voting against.

The second was the substitute offered by the committee on county and county lines for House No. 2, for a bill to allow for Socorro county roads. The vote was \$1 to 6.

The third was the substitute offered by the committee on state, county and municipal indebtedness, for House Bill No. 2, to authorize the new County of Mimbres to make a special levy to bear the expense of transcribing the records of the county. The vote on this bill was 47 to 6. The bill, if passed, would conquer in these bills as passed by the house.

Labor in Watch.

TEN LITTLE PARKS PLANNED IN CITY

Chamber Of Commerce Seeks Donors Of Benches

Already the first little park around the corner has demonstrated the success of the idea, and copies of prints of the Cleveland boosters, dedicating 10, have been mailed to Los Angeles and elsewhere. The Albuquerque idea promises to be heralded all over the United States as The Times, a widely circulated magazine, has already asked for details.

The chamber of commerce desires to establish, as soon as possible, about 10 of these parks although their number will be contingent upon the generosity of the donors of the benches. An individual or firm desiring to donate a bench can do so by calling up the secretary of the chamber of commerce who will inform them as to the cost entailed.

The little park idea will undoubtedly be copied throughout the country, have many other original ideas and this Albuquerque idea certainly will stand forward and keep originating that others may follow.

PLAN TO TELL WHEN PRESIDENT IS DISABLED

WASHINGTON, Feb. 18.—Amendment of the constitution so as to provide procedure for filling the office of president in case of the disability of his occupant, was prepared by a resolution introduced today by Representative Fred, of Ohio, chairman of the republican congressional committee.

Under the proposed amendment the disability of a president would be determined by the supreme court when authorized by concurrent resolution of congress. To avoid delay in case congress was not in session, the vice-president would be authorized to call congress into special session for this purpose upon communication of the same.

Mr. Fred said that while his proposal, the measure was not designed to cause his removal.

Says Fall Has Cited Carranza Officials

LAREDO, Tex., Feb. 18.—The Ex-consul of Mexico City in his name of Laredo declares Sen. A. B. Fall, chairman of the United States Senate committee investigating Mexican conditions, has cited several high officials of the Carranza government to appear before the committee on the border and testify.

Deadlock On Peace Treaty Is Unbroken

WASHINGTON, Feb. 18.—Peace treaty negotiations got into such a tangled state that despite claims in some quarters that the peace was dead, the triumph of the treaty in the Senate minimized the possibilities of an agreement.

Senator Hitchcock stated that a deadlock over the compromise on article ten seemed to preclude any kind of a settlement.

For Colds, Grippe and Influenza and to Prevent, take LANTINE, BROMO, QUININE Tablets. Look for E. W. GLOVER'S signature on the box, etc.

**Marries Chicago
Millionaire**

NEW YORK. — Peggy Hopkins, Broadway star, recently married J. Stanley Joyce, millionaire Chicago lumberman. The groom's present to his wife was a \$15,000 house at Miami, Fla., with \$50,000 in furnishings for it. This is the bride's first husband, who is a very Archer millionaire from Denver. In a short time she had the marriage annulled. Then she married Sherburne Hopkins, Jr., also rated as a millionaire. She obtained a divorce

**FEWER FLU CASES
BUT BE CAUTIOUS****City Health Officer
Warns Against Relaxation In Precautions**

With the influenza situation showing improvement, Carl Bowditch, city health officer, today issued a warning to people of the city against being in overcrowded places and against the use of common drinking cups, advising the use of paper cups or sterilized glasses at the soda fountains. Only seven new cases were reported today.

If the troops take one presentation now, the influenza situation would continue to show marked improvement," said Mr. Bowditch. "When conditions in any outbreak begin to improve there is a tendency on the part of the public to relax their guard against disease, and this is what we do not want to happen at this time."

The public should still use precautions and avoid crowded places, and all means should be taken to disinfect clothing. Those who continue to show marked improvement," said Mr. Bowditch. "When conditions in any outbreak begin to improve there is a tendency on the part of the public to relax their guard against disease, and this is what we do not want to happen at this time."

"We contribute the check of influenza to the strict quarantine measures which have been observed and to the co-operation of the public which responded very generously to all orders given. Only in a few cases was there complaint, and violation of the law."

"We are building our own here and are far behind other towns in the number of cases and deaths. Our death rate has not been very great, yet there are a number of serious cases still under quarantine. More than 200 more have come in since the last report. The death toll is totalled only 14, which is an average of about one each day since this outbreak started."

**True Fish Stories
To Enliven Dinner**

The fifth annual cabin dinner of the Albuquerque Game Protection association will be given on Tuesday evening at the Y. M. C. A. for members and all sportsmen and lovers of clean sport, will consist mostly of round table discussion of the local game situation, the abuses of the P. A. being "Mistakes for New Mexico."

A number of short talks will be made by speakers of this section on subjects of vital importance, but those will be held to from two to ten minutes each, and such matters as taken up will be a blank statement of facts spoken at the dinner.

The dinner will discuss "The State Game Department." Alton Lough will explain "A Plan for Better Our Dark Grounds with R. J. Fielder will take other topics of equal importance."

After the real business discussions a number of "true fish stories" will be told. Mullens, though well known to the department, will not be allowed to speak on his work, but he may do so if requested. John D. Clark, known plenty about the "rat infestation" in New Mexico, but has nothing on H. B. Jamison who will talk on "Chilean Wallabies and How to Trap Them." The rest of the stories will be kept a secret until delivered, but Charles White, G. S. Thigley, E. J. Strong, Louis Lewis and Charles Quigley will spring some of their best, and all the recommendations necessary.

At Theaters Today

THEATERS. — Reopening of the Alvarado, the leading "barn" theater in the Southwest, after its long absence. "Cynthia" will also play the Holmes "Travelogue," and the pool of "Current Events" pictures.

IDEAL THEATER. — The special Hollywood one-reelwood feature "The Third Generation," is being repeated daily, also the "Tum Mix" comedy "Pats in Blue."

LYRIC THEATER. — The "Midnight Bride," with Gladys Leslie as the star, is being repeated regularly also the rest of "Duckie," "Annie Get Your Gun" and the "Sunday Weekly News."

PASTIME THEATER. — The well known film star, Peggy Hyland will be seen again today in "Fifth" and "The Royal" comedy, with Harold Lloyd as the star, and the Mutt and Jeff cartoon comedies "Cutting Out His Nosepiece."

—So it is with pleasure that we announce the first authentic display of new spring outer apparel and extend you a cordial invitation to come and see them.

—As you would naturally suppose the display at this time of the season couldn't possibly be complete, but there are enough to afford a most pleasing selection.

Governor Urges 150 New Mexico Youths To Join The Navy

SANTA FE, Feb. 18.—Governor Larrabee has issued the following proclamation urging 150 New Mexico youths to join the navy:

"At the request of the navy department I have this day issued the following proclamation calling for men home and city recruits to fill vacancies on board of naval fleet fighting ships. The United States government has asked the state of New Mexico for one hundred and fifty good, clear young men for the months of February and March to help fill the vacancies in the navy caused by the granting of discharge to men who enlisted only for the duration of the war."

The navy often termed the nation's first line of defense is recognized here as elsewhere as of the utmost importance, and it must be kept up to the full standard of its strength. To be enlisted personnel the United States navy offers fair treatment and opportunity for education, wholesome recreation, interesting and instructive travel, and a general atmosphere of right living and right thinking of right living and right thinking.

It provides training that any young man with the right marked value throughout his lifetime.

I therefore, respectfully ask that the people of the state of New Mexico co-operate with the navy in securing its enlisted quota and that the young men of our state give to the navy their vigorous cooperation."

Cooperative Store Scheme Explained

The Rochdale system of co-operation was discussed last night at the High school auditorium. The chairman, O. P. Anderson, president of the Pacific Co-operative League, who advised the local men interested in establishing a co-operative store in this city, to become affiliated with the Pacific League thus insuring success of our attempted project in this line.

Several stores have been organized in different New Mexico towns under the auspices of the League, among them being Dallas, Roswell, Las Vegas. The co-operative scheme is to eliminate the middleman, profiting by dispensing with the expenses of the middle man and in excess the chain between the manufacturer and consumer.

The Rochdale plan has proved very successful in the Pacific coast states as well as in France, England, Belgium and other European countries where the system was first inaugurated.

Other speakers were T. A. Coffey, also of the Pacific League, and W. S.

Lytle, manager of the Pacific League, and W. S.

cities the play should establish a precedent in the world of laughter and comedy seldom attained by any other production. A wild cry of unbridled delight, hilarity, and unstinted joy."

London has approximately twice as many inhabitants as the whole continent of Australia.

10,000 crowns is contemplated by the Czechoslovak government. Further tax, ranging from 5 to 10 per cent, would be levied on gains in security values.

Ford

THE UNIVERSAL CAR

Surest Thing in the World

Two and two have always made four. There would not be more than three million five hundred thousand Ford cars in daily service—which is just about one-half of all the automobiles in America—if the Ford, as a reliable motor car, did not meet the demands of all classes of people everywhere and under all circumstances.

Two and two have always made four. If the material, the iron and the marvelous Vanadium steel used in the construction of the Ford chassis, were not of the highest quality known to the science of Metallurgy, then the Ford car could not have won its world-wide reputation for reliability.

Two and two have always made four. When replacements and repairs are required on Ford cars, the Ford owner will be wise in bringing his car to our place, because we use only the Genuine Ford Parts, and we have the Ford skilled mechanics, and all the Ford knowledge that goes to maintain the high standard of quality which is original in the Ford car.

When you want a Ford car or a Ford truck, and when you want repairs or replacements for the same, we earnestly solicit your business, assuring you of prompt attention, real Ford service, and economical Ford prices.

PASTORS OF STATE
MEET TOMORROW
Inter-Church World Conference Will Open At 9 A. M.

Fewer Divorces Her Slogan Yet Woman Lawyer Gets One

Preaches Happiness, But Fails To Find It

TIERA FARROVY

Every minister of the Alamo county is to be a part of the hundred pastors who will be present to open in the Auditorium tomorrow at 9 a. m. the Inter-Church World Conference.

The pastors of New Mexico, including every denomination, will meet at the first conference of its kind ever held in the state. The Inter-Church World Movement will be the focal point of events since the Inter-church, as the arrested leaders in America and elsewhere, and a large number of their supporters without power are looking to Albuquerque for the convening of their annual co-operation service and conference.

The pastor in New Mexico will receive two railroad cars to and from the conference, together with railroad car fare and will be entertained "lavishly" at the home of his predecessor in the Auditorium through the three days.

Simultaneously with the conference similar meetings will be held in each of the twelve states of the Union. "Keep your eye on the preacher" is the word which emanates from the main headquarters.

Dr. H. E. Duthourte, of New York City will be the leader of the men's union and Mrs. Duthourte, national chairman, will lead the women. Tomorrow noon there will be a meeting of the women even at the Y. M. C. A. Dr. Duthourte will preside at this meeting and as he is reported to be the foremost authority on rural surveys in the country all men interested in this branch of work are invited to attend.

The headquarters of the men's team will be at the Los Angeles Methodist church, while the Sunday Christian school will accommodate the women.

Tomorrow evening at 7:30 former Gov. Landon and 176 delegates will meet the men at the headquarters decided upon by Mrs. Duthourte, Mrs. Strengfeld and presidents of all the prominent missionary societies will address the women during the course of the conference.

In spite of the fact that the conference is to be held for longer than expected, Dr. H. Bright of Cleve, eight Methodist ministers of El Paso and the parents of most all the local denominations will be present at the attendance. The first meeting at the Methodist church is scheduled tomorrow morning at 9 o'clock. The women will meet in the afternoon at 2 o'clock at the Broadway Christian church.

Rev. Cyrus Adden and Rev. W. J. Carson, president of the Rotary club arrived this morning to take charge of the exhibits.

Revival Meeting Causes Slayer To Confess

MARION BACCUS

MEMPHIS, Tenn., Feb. 18.—An old-fashioned "Holiness" revival in a tent at Mantua, Oklahoma, which is attended, caused Marion Baccus, 21, to murder his father on a charge of misdeeds to him.

"I killed a man down in Georgia five years ago and ran away," Baccus said as he entered police headquarters and approached Chief Burney. "I'm ready to go back and stand trial."

Baccus said he fled from Georgia, changed his name and sought employment in lumber camps and other remote places. Later, he went west and settled in the oil fields of Tulsa, Okla. There, he passed out where a "Holiness" preacher was conducting a revival. Curiosity impelled him to enter. After hearing the preacher's sermon, he decided to go back and stand trial.

At Little Rock, Ark., he was robbed of \$400 which he had saved on during the five years. He had barely enough money left to get him to Memphis. He decided to surrendere himself and let the law come after him.

"I killed a man named Tom Phillips at Madison, Okla., in 1926," Baccus said. "He was beating a man unmercifully when I interceded. We got into a fight and I struck him over the head with a stick fracturing his skull. I was just a kid, and I was almost scared to death, so I ran away."

Friday The 13th To Tour The State

SANTA FE, Feb. 18.—"Friday, the Thirteenth" will make a tour of the state, following the performance at the Zeta theater, Joe Scott announced today. Arrangements have been practically completed for staging the annual comedy show in Roswell, and in Alamogordo. Local talent will be used in every town.

Rehearsals for the local presentations were speeded up Sunday when ten rehearsals were held, one in the afternoon and another at night, and Scott declared the performances were showing an attitude that made a finished performance certain on the opening night.

PIANO MOVIES ACT
NEWARK, N. J.—A crew of piano movers was employed to assist in the removal of Mrs. Claudia Handell, 78 year old woman, who weighed 470 pounds. The couch was lowered from a window of her apartment by block and tackle.

SANTA FE MAY LOSE A FEDERAL OFFICE

Surveyors-General Position Abolished In New Appropriation Bill

WASHINGTON, Feb. 18.—Abolition of the nine sub-treasuries, the offices of thirteen state surveyors general and two assay offices, is proposed in the legislative appropriation bill reported today by the house appropriations committee.

A reduction of \$1,000,000 from the original estimate for civil, land and investigating expenses was made. But the total sum of \$10,000,000 is only the largest possible legislative appropriation on record.

Several unusual items, including \$42,000,000 for the internal revenue service for enacting laws and enforcement of prohibition, \$1,000,000 for the war risk insurance fund and \$5,000,000 for the decennial census largely account for the new total.

The sub-treasuries, which would be abolished at the end of this year are at Baltimore, New York, Philadelphia, Boston, Chicago, St. Louis, New Orleans and San Francisco. The

surgeon-general to be discarded on June 30 next would include those in Arizona, California, Colorado, Idaho, Montana, New Mexico, Oregon, South Dakota, Utah, Washington, Wyoming and Alaska. The assay office at Deadwood, S. D., and Salt Lake City would be closed on June 30. The surveyor-general's office in New Mexico is at Santa Fe.

Revolutions made by the committee are general throughout the government services, and include some self-imposed economies on the part of congress, there being cuts aggregating \$1,000,000 in the amount spent by Congress for miscellaneous services, including supplies.

No new government services are established by the bill, and the request of the department of commerce for enlargement of the foreign and domestic commerce bureau by appointment of additional field agents in the far east, Central and South America and new European countries was denied.

The sub-treasurers, which would be abolished at the end of this year are at Baltimore, New York, Philadelphia, Boston, Chicago, St. Louis, New Orleans and San Francisco. The

FORMER FOREST

MEN MAKE GOOD

Local Office Gets Figures On Employees Who Have Quit Service

That the United States forest service is a recruiting ground for all sorts of business enterprises, and that ex-forest service men adopt a great variety of trade and professions after leaving the service is brought out in statistics compiled by the district forester. With the idea of keeping in closer touch with former members of the service, the district forester has written to two hundred and seventy-five men who were formerly in the service in Arizona and New Mexico and have quit fifteen years. One hundred and fifty replies have been received to date and they show that among these men, there are thirty-five farmers and stock growers, one feed and fuel dealer, two life and fire insurance agents, one contractor, three merchants, two brokers, one salesman, one real estate dealer, a restaurant keeper, two automobile dealers, two draftsmen, a ship builder, a draftsman, a mining engineer, two civil engineers, one oil well driller, and one coal miner. There are also eight forest school professors, an alumni secretary, an artist, a curator of a museum, two lawyers, a manager of a telephone company, a secretary of a big cattle growers' association, and two assistant state foresters. One is a newspaper publisher, there are in the lumber business, and there are deputy sheriffs. In addition there was a scattering of about half a dozen other occupations.

In commenting on these figures, District Forester F. C. W. Pooler states, "Young men of education and ability are coming more and more to forest work in the forest service as an invaluable training. This is because work in the mountains brings out the qualities of self reliance and initiative to a degree that few or no other professions do. All sorts of business enterprises are constantly drawing on the forest service for men of broad administrative training, and the versatility of forest service work certainly gives this training. Only recently the government of Liberia came all the way to Albuquerque to find a man qualified to protect its interests in the proposed boundary survey between Liberia and the French African possessions, and they picked Lee C. Davis of this office at a salary and perquisites three times as great as the United States government was willing to pay him. Last month the government of Porto Rico has selected Fred H. Miller of the staff of the Mamtano National forest with headquarters at Albuquerque, for the position of assistant forester in Porto Rico.

"Naturally the forest service is not keen to lose its good men, but we are not averse to securing the services of bright young fellows for several years if we run the risk of having them picked off later by private companies that offer high salaries for well-trained men."

Afternoon Session

Address—"Live Stock Sanitary Laws of New Mexico and the Methods of Enforcing Them," Dr. O. E. Troy, Hatch, New Mexico.

Business Session

Consideration of resolutions

Election of officers

Selection of next place of meeting

All unfinished business

Adjournment

Committee meetings after adjournment

Second Day, Tuesday, March 30, 1920.

Address—(Own subject)—Hon. Dwight H. Heard, president American National Livestock Association.

Address—"Needed Legislation," J. S. Vaughn, district attorney, Deming, New Mexico.

Named Bishop of Panama

BISHOP JAMES CRAIG MORRIS

What's Doing Around the State

GALLUP—Granville Brock was given a hearing in Judge French's justice of the peace court on a complaint charging a statutory offense. He was held for the action of the grand jury on \$2,000 bond.

SILVER CITY.—The Santa Fe's coaches on the Silver City and Hurley lines are dirty and poorly lighted, Hugh Williams, chairman of the corporation committee, advised George Manager B. J. Parker at Amarillo, Texas, after an investigation as the result of complaints by travelers against the equipment and service on the branches. Mr. Williams also found that the train outbound from Hurley was delayed an hour and 45 minutes at Whitewater, waiting for the train from Silver City, and suggested that the time of departure from Hurley be made an hour later.

TUCUMCARI.—Reports coming in from the diphtheria-infected neighborhood at Norton and Puerto, are to the effect that the disease has been conquered, and all of the patients are able to be out of bed again. So far only one death has resulted from the contagion, and it is not thought that there is any likelihood that any others may occur.

SILVER CITY.—Clinton Arnold, the ten-year-old son of Mr. and Mrs. Jack Arnold, was very seriously injured when a roof upon which he and some other children were playing collapsed. Young Arnold was struck in the head with a beam and in addition to a deep scalp wound sustained a fractured skull. The circumstances are rendered particularly sad by the fact that the boy's father is lying very seriously ill in a hospital in Dallas, Texas, the third serious case he has suffered within a few months, and at the time of the accident the boy's mother was hurrying from Silver City to his bedside.

MADISON, Wis.—The Rev. James Craig Morris, former rector of Grace Episcopal church here, has been appointed bishop of Panama and will sail for his new post with Mrs. Morris this month. He will prove direct to Aspin, where he will reside in a hotel until the new quarters are completed.

LUNATICS LEGACY

OVERTON, N. J.—Edward Clement, for 22 years an inmate of the Essex county hospital for the insane, died yesterday at 81 years of age. His care cost \$10,000. It has been decided to devote the sum to payment for Clement's care, at the rate of \$2 a week.

There was a decrease last year in combined output of corn, wheat and oats of 226,000,000 bushels in the United States outside of the southern states, while in the south these grains showed an increased production of 325,000,000 bushels.
