YAQUI INDIAN REVOLT.

Hostiles Raiding in the State of Sonora, Mexico.

English Writer at Manila Severely Censures Gen. Otis.

President Kruger of the South African Transvaal Republic Resigns.

NEW YORK MESSENGER BOYS STRIKE.

Nogales, Ariz., July 25.—Information from the lower Yaqui river at the south end of the state of Sonora, Mexico, conveys the intelligence that an outbreak has occurred among the Yaqui Indians, who closed a ten years' war by making a treaty with the Mexican authorities in 1897. By the terms of the treaty a large body of land was assigned to the exclusive use of the Indians. Jose Bulechita, who led the band which made a descent upon Nogales, Sonora, in August, 1898, on Friday of last week, with some of his band, made a disturbance near Corcoran, Gen. Luis Torres, commander of the military zone, sent from the city of Toron the old war chief of the Yaquis to investigate, accompanied by a detachment of soldiers. The recalcitrant Yaquis fired upon the soldiers killing the war chief, Teotabale, and young Lorenzo Torres, nephew of General Torres, second in command in the zone. The Indians also severed the telegraph wires and telegraphic communication was cut off for several days. It is now reported that in the fight which ensued over twenty of the Yaquis were killed. After the fight the Indians dispersed, but an uprising is feared. Men are being impressed for service at Guaymas and Hermosillo. The troops at the various points are held in readiness, and preparations are being made for active operations should the outbreak prove serious.

AMERICAN MURDERER.

Los Angeles, July 25.—Gen. Juan Ybarri, of Mexico, now in this city, has received a message from Guaymas, Mexico, stating that Carlos Hale, son of the American consul at that port, had been murdered by Yaqui Indians.

CRITICIZING GEN. OTIS.

English Correspondent at Manila Does Not Like the Condition of Things.

London, July 25.—A private letter from a war correspondent in Manila, dated June 17, says: "There seems to me to be a very serious situation in the Philippines. The censorship is constantly becoming more troublous. General Otis refused to allow us to send the news of the death of the Monardonek's captain (Nichols) for two days after its occurrence; also refused to let us send news of the disappearance of Captain Rockefeller (April 28), on the ground that it would worry his family; or of the killing of Captain Tilly, signal corps, until the next day. It is impossible to write the truth about the situation. The volunteers, at least a portion of them, were on the verge of mutiny, and unless General Otis had been sending them home, they would have been sent home."

Messenger Boys Strike.

New York, July 25.—The messenger boys' strike continued today with the ranks of the strikers augmented by the force of the American District Telegraph company. Large numbers of the Postal Telegraph messengers, nearly all employed in the banking district, are still out. The strikers paraded in the downtown district, seeking to prevent boys from taking the places of the strikers.

President Kruger Resigns.

Cape Town, July 25.—Advice has been received here confirming the report that President Kruger, of the South African republic, had resigned.

KRUGER'S RESIGNATION.

The Old Man Was Disgusted With the Action of the Volksraad.

London, July 25.—Reports regarding the resignation of President Kruger, of the South African republic, are conflicting, but according to the best information he actually resigned the office conditionally. The Volksraad was maintaining opposition to President Kruger on the day of his resignation, has given assurance that it still has the utmost confidence in President Kruger. It is believed that he will withdraw the resignation. As to the difference of opinion on the question of the dynamic concession, Gen. J. Joubert, vice president of the republic, and the majority of the Volksraad favor cancellation of the monopoly, while President Kruger supports it. The minority of the Volksraad desires to buy out the company.

Money Market.

New York, July 25.—Money on call, nominally at 3 1/2 per cent. Prime mercantile paper, 3 1/2 per cent.

Investigating Padrone System.

New York, July 25.—The hearing of the subcommittee of the United States industrial commission inquiring into the workings of the immigration laws at this port was resumed today. Assistant

Commissioner of Immigration McSweeney testified regarding the padrone system in this country. He said:

"Italian immigrants seem to prefer to be under the control of a padrone. While girls were not brought here for immoral purposes, many became outcasts owing to harsh treatment."

McSweeney was questioned regarding Mormon immigration. He said probably 90 per cent of the new arrivals were women. They come over in charge of an elder. They declare that they intend to obey the laws.

Desperate Lynching.

Atlanta, Ga., July 25.—A special to the Journal from Brinson, Ga., says: "Charles Mack, leader of the gang that has been robbing and raping this vicinity, was lynched at Safford to day and the body cut into a hundred pieces."

Silver and Lead.

New York, July 25.—Silver, 60 1/2; lead, 41 1/2.

ANOTHER GOOD MEETING.

The Executive Committee of the Fair Association in Session Last Evening.

The executive committee of the Territorial Fair association held a very enthusiastic meeting last night, and a majority of the committee being present pushed through a big lot of business.

A letter was read from B. G. Wilson, New Mexico manager of the Continental Oil company, wherein that great octopus on the necks of the people refused to donate anything toward the support of the Territorial Fair. This company is new in the state and against the territory for the latter's attempt to make it comply with the provisions of the law regarding the sales of oil.

After the reading of the letter and some severe comments on "grasping corporations," the proposition of a gentleman at Las Cruces, who desired to make an exhibit of his wonderful collection of mineral ores, was taken up and after some discussion was accepted.

The mineral exhibit, which will undoubtedly be the finest exhibit of ores heretofore seen in the southwest—was discussed, and it was shown that half a dozen districts have already signified their intention to send samples.

The place for this display of one of New Mexico's grand resources was left to Simon Stern, who was appointed a committee of one on lots and buildings. It is thought for the mineral display the Yrisarri building, corner of Railroad avenue and Fourth street, will be secured.

The decorations of the streets and avenues, with elaborate archways, under which the parade will pass, was discussed, and a liberal appropriation of funds made.

A letter was then read from J. B. Khrhart, a breeder of fancy and registered St. Bernard dogs. He desired a bench show, and stated that F. G. Pratt and others interested in the raising of good canines, would undoubtedly make displays.

The committee thought that a bench show of the dogs would prove interesting and accepted the proposition advanced by Mr. Khrhart.

Several letters were then read from amusement companies and the communication from Baldwin Bros., the great balloon aerodrome from Quincy, Ill., was accepted, and the president was authorized to write them in regard to more definite details.

The May pole event—one of the greatest drawing cards of eastern street fairs—was then fully discussed, and the president was left in charge of this matter. It is quite likely that satisfactory arrangements will be made with the lady in view to supervise this matter, which is a positive guarantee that it will be a great attraction.

The giving of a carnival ball then came up for discussion, and the question was fully debated. The ball will no doubt be given on Friday night.

The president announced that he had been approached by a committee of the local Kiks, who stated that the Kiks with their great Merino goat would be in evidence during fair week.

A base ball tournament came up for discussion, and the committee will be in a position to give some decided facts in regard to this part of the fair in a few days.

The Midway Pleasure, with all of its many and varied attractions, was then debated, and THE CITIZEN is in a position to inform the people of the southwest that this feature of the forthcoming fair will be up-to-date as to amusements.

It is quite likely, if certain arrangements can be perfected, that a reproduction in miniature of the "Battle of Manila Bay," with fire works, will be given during fair week.

The committee then adjourned, subject to call of the president.

KLONDIKE GOLD.

One Million Dollars Brought to San Francisco From Alaska.

Tailors in New York Nearly All on a Strike.

Peace Congress Agree That America Shall Not Whip Europe.

TRAIN WRECK IN NEVADA.

San Francisco, July 25.—The steamer Bertha arrived this morning from St. Michael, via Unalakleet, with thirty-seven passengers and about \$1,000,000 in gold, \$750,000 of which is in charge of Purser Keyes. The largest amount brought down by one person is \$75,000. The purser says there is wealth in the Cape Nome district and declares there is no truth in the stories of failures to find gold which has been published.

The Bertha brings down an interesting story of hardship, disease and death in the far north and new facts regarding the details of the loss of the Hana expedition. Out of a party of seventeen people who left Fort Townsend on June 11, 1899, for Kotzebue Sound to prospect for gold, only one survives, a woman, Mrs. H. W. Bens, of Bay City, Mich., who escaped after indescribable suffering.

Strike of the Tailors.

New York, July 25.—The strike of the tailors is rapidly spreading and men in less than one hundred shops in the borough of Manhattan are at work to-day. The strike committee is making the rounds of these places to get the men out. A careful estimate places the tailors now on the strike in Greater New York at nearly 10,000. Thousand of buttonhole workers and lesser operatives are also thrown out of work.

Agree Not to Interfere.

The Hague, July 25.—Arrangement has been agreed to in regard to the objection raised by the American delegates to the international peace conference to use the word "duty" in article 27. The word "duty" was retained but with the definite declaration inserted that nothing in the arbitration convention shall impose obligation upon the United States to interfere in European affairs or vice versa.

STRIKE IN CINCINNATI.

Messenger Boys Make It Lively for Police-men and Other People.

Cincinnati, Ohio, July 25.—A strike of the messenger boys began last Saturday and reached serious conditions. Mobs surrounded the telegraph and district offices and intercept new messengers in different parts of the city.

To-day messengers sent out cabs with a policeman accompanying each driver, but stones and missiles were thrown at the vehicles. Two messengers have been stabbed and several hurt by missiles and many are badly beaten up. The news-boys to-day joined the strike. Crowds of boys surrounded the newspaper offices and refused to let the new boys go out with papers. The papers were torn up and destroyed as fast as turned over to the new boys and in some instances the new boys were treated roughly.

Passenger Train Wrecked.

Reno, Nev., July 25.—East bound passenger train No. 3 was wrecked near Clark's, Nev., on the Central Pacific this morning. The engine, baggage and express cars left the track. Engineer A. H. Real was killed and the fireman injured. None of the passengers were hurt. The cause of the accident is not known.

Funeral of Ingersoll.

New York, July 25.—It was decided by Mrs. Robert G. Ingersoll and daughters that the cremation of Ingersoll's body will be postponed until Thursday. The funeral ceremonies this afternoon will be private.

Chicago Grain Market.

Chicago, July 25.—Wheat—July, 70 1/2; September, 71 1/2; 1900, 72 1/2. Corn—July, 32 1/2; September, 32 1/2.

Site Selected.

The board of regents of the university visited grounds this morning and picked out a site for the Science hall building. The spot chosen is about 100 feet east and 40 feet south of the main building, which will give a clear view of the structure from the city.

Gift Edge Investment.

We sell the very finest creamery butter for 25c per pound. Other stores charge 25c per pound. Other butter may be as good as ours, but there is none better. Two cents may not appear to amount to much, and yet it represents a saving of 8 cents on the dollar. The capitalist whose money nets him 8 per cent is in big luck, and has good reason to consider his investments "gift edge." On many items we can save you as much as 20 per cent.

THE MARK.

ALBUQUERQUE KANSAS AT THE RESORTS.

Southern California Invaded By Many People From This City.

Miss C. M. Gardner, of the Indian school at Albuquerque, is at the Van Nys—Los Angeles Record.

Mrs. O. W. Strong and daughters, of Albuquerque, N. M., are in this city for a month and are occupying the Montgomery cottage on second street—Long Beach Tribune.

Miss Alice Feden, of Albuquerque, is the guest of Mrs. A. W. Adkinson—Long Beach Press.

Miss Lou Hughes and Miss Helen Booth, of Albuquerque, are stopping at the Brewster—San Diego Miner.

Mr. Lyon, of Albuquerque, and his old friend, Miss Gardner, of Albuquerque, N.

M., who is an old teacher among the Indians, now on the coast attending the N. E. A., agreeably spent the Sabbath at Friends church, and naturally wanted to see the old Indian agent, Uncle Wm. Coffin, of North Pasadena—Pasadena News.

Thos. Harwood, of Albuquerque, N. M., is in town, writing what he sees of Peru City for his paper in that city—Ventura Independent.

Walter Peck, accompanied by Fred. Isherwood, arrived home yesterday morning from Albuquerque, on the Santa Fe overland. The two young men have been employed in the Santa Fe shops at Albuquerque. Mr. Isherwood's father being foreman of the foundry. They will remain in San Bernardino during the hot spell, and will then return to their work—San Bernardino Transcript.

Ray Strong, of Albuquerque, has reached Santa Monica, where he will be joined by his family in a short time—Santa Monica Outlook.

HAS RETURNED FROM CHICAGO.

Ex-Delegate Ferguson Back Again From Chicago.

Hon. H. B. Ferguson, ex-delegate to congress, who returned to the city from Chicago, where he attended a meeting of the national central committee of the democratic party. He voted to elect ex-governor Stone, of Missouri, vice chairman of the committee. Mr. Ferguson thinks the democratic platform will be free silver, anti-trust and anti-colonial system. He is certain that Col. William J. Bryan will be the democratic nominee for the presidency. He characterizes all talk about the dissections said to exist among the leaders of the democracy as mere moonshine, but cannot help admitting that the Algeid and Harrison factions in Chicago may become troublesome, and that the Kentucky political sky is overcast with shadows during the present campaign.

On New Mexico politics Mr. Ferguson expressed himself very guardedly, but hope for democratic success in territory in the campaign seems to be strongly implanted in his breast.

Mr. Ferguson stated that he extended an invitation to Colonel Bryan to visit Albuquerque during Territorial Fair week, and while the distinguished gentleman could not make a definite promise it is quite likely that he will visit Albuquerque soon again.

Mr. Ferguson thinks that Albuquerque will within two years have railroad connection with the El Paso & North-eastern to the south and with Durango to the north, and is very enthusiastic as to New Mexico's advancement within the next three years.

RECRUITING SERVICE.

An Explanation of the Terms and Times.

It was quiet to-day at the recruiting bureau. Sergeant Perry, in charge, informs THE CITIZEN that he has not enlisted anyone to-day, although there has been several applications. He is waiting for instructions by telegraph that will come to-night as to some details. The two men who were sent the age limit have not yet been accepted. He will be found an explanation of the terms and time of service with other details, that will be a guide to those who contemplate enlisting.

The term of service for which recruits are wanted continues to June 30, 1901. Applicants for enlistment must be between the ages of 18 and 35 years, of good character and habits, able-bodied and free from disease. Persons who are not physically perfect will be rejected, and it will be a waste of time for those knowing themselves unsound to apply. Married men will not be enlisted except upon approval of a regimental commander. No persons under 18 years of age will be enlisted or re-enlisted; and minors between the ages of 18 and 21 will not be enlisted or re-enlisted without the written consent of father, only surviving parent or legally appointed guardian. All soldiers receive from the government, in addition to their pay, rations, clothing, bedding, medicine and medical attendance. Whenever a soldier is honorably discharged at the expiration of his enlistment, or on account of disability not caused by his own misconduct, his trust pay is ample to carry him to the place of enlistment.

FIREMEN, ATTENTION.

Regular meeting of the department this evening at 8 o'clock at the city building. Election of a new chief and assistant chief. All members urgently requested to be present. By order, R. H. STRONG, Assistant Chief. JAMES TRINITY, Secretary.

THERE is said to be a big row in the Agricultural college at Las Cruces.

In one day recently Utah raised \$3,500 for a fund with which to buy medals for her returning volunteers.

CLEVELAND, OHIO, is giving convincing proof that the people of that city are not capable of self-government.

CIVILIZATION is advancing in Arizona. The merchants of the town of Kingman have agreed to close their stores on Sundays.

MISS REBECCA CLARK has been appointed postmaster at Chamita, Rio Arriba county, vice Samuel Kidott, removed.

THE only complete tabulation of strikes in 1898 to 1899, with 14,289 strikes, of which 45 per cent were successful.

THE American Bible society has decided to send agents to the Philippines. The bible agents are about a year behind the brewers.

THE democrats are trying to raise a \$2,000,000 campaign fund. At the same time they howl in chorus against the use of money in politics.

IN Europe postal savings banks are so solidly entrenched in the esteem of all that nobody would think of subjecting himself to ridicule by opposing them.

NEW features are being added every day to the Territorial Fair program. The exhibition in September will be an aggregation that will delight the people.

AFTER all the rhetoric expended on the exploits of the dynamite cruiser Vesuvius at Santiago, she is considered a failure, and will be converted into a torpedo cruiser.

THE next national democratic convention will have 930 delegates, of whom it is almost absolutely certain 401 will be for Bryan and free silver and 529 opposed to both.

THE sleepy old town of San Bernardino, Cal., was shaken up by an earthquake a few days ago. It is the first sign of activity the town has had since the collapse of the boom in 1887.

THE oldest living United States senator is James Ware Bradbury, of Maine, who has passed the age of 97. He was a colleague of Hannibal Hamlin, and practiced law seventy-two years.

THE annual expenditures of the Dominion of Canada is reported to have reached \$10 a head and some of the opposition journals are proclaiming that the line of safety has been crossed.

THE most costly piece of railway line in the world is probably that between the Mansion House and Aldgate stations in London, which required the expenditure of close upon \$10,000,000 per mile.

THE criticism, ridicule and derision visited upon Miles, Shafter, Otis, Sampson and Schley by a portion of the American press call attention to the fact that Dewey is the only leader who has so far escaped.

LOWER CALIFORNIA should belong to the United States. That peninsula is separated from Mexico by the Gulf of California, and the material interests of the people are closely identified with the United States.

ONE of the evidences of the tireless mental activity of Americans is the fact that within the last fiscal year there were received in the patent office at Washington no less than 35,352 applications for mechanical patents.

NEW inventions are sometimes blamed for throwing people out of work. Their utilities in creating work are better worth considering. Nearly 1,000,000 persons are employed in the various electrical industries of the United States.

ACCORDING to official reports there were published in the city of Paris at the beginning of the present year no fewer than 296 technical medical journals, and the list has been increased, it is thought, by several dozen since that time.

IT is now denied that the ancient Chinese wall is to be razed. The report was recently widely circulated. It is now said that China has no intention to take the wall down, and could not well do so if it would, as it can not spare the money to pay for the work.

THE postoffice department officials expect to ask for an appropriation from the next session of congress for the use of automobiles in collecting the mails at all first-class postoffices. The purpose is to ask permission to use the appropriation of \$410,000 for horse-hire allowance.

THE young men who are enlisting in this city for service in the Philippines will make good soldiers. Most of them are leaving good positions. They will be a part of the Thirty-fourth regiment, which is being organized at Denver, Colo. That regiment will be composed of good fighting material, and will give a good account of itself in the Philippines.

RAPID GROWTH
The census of 1890 will show that New Mexico has made material progress in population and wealth during the decade. Every county in the territory will show heavy increase. This county will show at least 5,000 increase in population. This city has added about 25 per cent to its population, while the mining district of Cortez has come into existence since 1890. New ranches up and down the Rio Grande valley attest the growth in the country precincts. In 1890 the recently created county of Otero was almost without inhabitants. The new county now has a railroad and thriving

towns, and is being filled up with enterprising people. Grant county will add at least 1,000 people to its population this year. It is understood that the Santa Rita copper mines will employ 1,000 men before the end of the year. Las Vegas, Raton, San Marcial, Roswell, Carlsbad and many other towns have grown wonderfully in the past ten years. It is safe to assert that the census of 1900 will show an increase of 50,000 people in New Mexico in the decade ending next year.

SAN JUAN county is in prosperous circumstances. The necessarily heavy expenses of the past six months have all been met and the county has money yet on hand, with the various funds well taken care of.

SHILL STONE COURT STING.
The Sheriff Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Reddick's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters gets at the seat of strength and vitality, and restores vigor to the weak and debilitated. Beware of counterfeiters when buying.

A Thousand Tongues
Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Penn., when she found that Dr. King's New Liniment for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest, and I can now sleep soundly, something I can scarcely remember. I feel like singing its praises throughout the universe." So will every one who tries Dr. King's New Liniment for any trouble of the throat, chest or lungs. Price 50 cents and \$1. Trial bottle free at J. H. O'Reilly & Co's drug store. Every bottle guaranteed.

MISLEADING COMPARISONS.

President Herrick Corrects Statements Relative to the University.

UNIVERSITIES AND FEEBLE SCHOOLS

Editor of the Albuquerque News.

Dear Sir:—By reprinting, apparently with your approbation, an article from the Lumburg Liberal containing a maliciously garbled report of the catalogue recently issued by the university, you have, inadvertently I am sure, committed an injustice to the institution which I trust you will correct by the publication of this letter. It is not the wish of the university to be drawn into any controversy with the other institutions of the territory with which it has always lived in harmonious co-operation, even when differing from them in policy. The source of the article is such that no reply would be made had not its mischievous misstatements been disseminated by reputable publications. The author has no claim to recognition among educators, as an investigation of his own collegiate record shows.

The statement that the university has seen professors are engaged, is false. The enrollment for the past year has been 100 and the number of instructors has been fourteen, a proportion of instructors to students less than that in some of the oldest institutions, but about equal to the average of the best institutions. Of course the efficiency, other things being equal, will increase with the number of specialists who are upon the faculty. It is objected that not all of these students are in the college courses. This is true. Some of the students are in each of the five schools of which the university is composed, taking into account the school of agriculture, horticulture, forestry, etc., which are nearly all additional students for whom only two regular teachers are serving, so that all told, then, there are over nine students to each instructor. It is also true that the university has a preparatory department. But nearly every university and college has or has had such a department in its early days. The university is the only higher institution in the territory that does not in its preparatory department accept students below high school grade. It has cut out the lower classes and now receives only those who have secured what education the high schools of the territory afford. As fast as the high schools can advance their work the university stands pledged to drop the work of the preparatory school. It is now the only institution offering a full college course. It offers in addition the advantages of a well equipped normal school, a medical preparatory school, a practical science school, a graduate school. It is objected that the expense of affording these opportunities is abnormally great. This suggestion is the outgrowth of pure ignorance or malice. The expense per student in the University of California for each year is \$320, in the University of Illinois it is \$490, in the University of Nebraska it is \$149, in the Agricultural College of New Mexico it is \$230, while the expenses for one student in the University of New Mexico is \$150, or less than any other college doing similar work in the United States, notwithstanding the fact that its faculty contains men of more than national reputation, and nearly all are from leading universities.

I am loath to refer to the comparison made between the university and the Agricultural college but justice demands that there should be noticed the fact that the college course in the university is only two years old and could not contain material of its own manufacture for any class higher than the sophomore for this reason. The circumstance that it has advanced students in all the college classes at present is due to the fact that it has drawn to some extent from eastern colleges. Again, the work done by the university and the college must be compared with an advance growing out of the fact that the grading in the college is as yet below the standard requirements. This applies to the scientific course, where alone the two institutions may be compared at all. The reasons for this difference lie in the past history of the college and need not be treated of here. The sub-freshman class in the college is nearly the equivalent to the junior or third preparatory of the university. The sophomore class in the college ranks little higher than the senior preparatory of the university. The sophomore class in the college ranks little higher than the senior preparatory to the university. The absence of all instruction in Latin, German, French, chemistry and trigonometry from the preparatory courses in the college might be further mentioned to indicate the inadequacy of a comparison based on the classes with similar names. Making these allowances, the university has within three of as many in college work as her older sister with the addition of its post-graduate work.

The remarks are not made in disparagement of the excellent work done in her own proper sphere by the college, but to correct the misleading comparisons made in the article referred to. What the cause of education in the southwest needs is not ignorant and capricious criticism but cordial shoulder-to-shoulder effort for the upbuilding of all its schools. It will be a good day for New Mexico when the higher institutions cease to compete with its feeble public schools; but let us help rather than hinder even those that have not yet seen their way clear to drop the grammar grades that this end may be the sooner attained. Yours very truly,
C. L. HERRICK,
President of the University.

Carrier Pigeons.
R. C. Rankin has received the annual shipment of pigeons made by the Lake View Flying club of Chicago. They were sent to Mr. Rankin to be turned loose when fully rested. They will be turned loose in a few days to attempt to break the record to Chicago, a distance of 1,039 miles in an air line. They birds do not fly at night and stop to feed on their way back. The ones turned loose a year ago never arrived in Chicago. They are subject to dangers from sportmen and hawks and only one or two are likely to arrive at the destination. The flight to Chicago is the longest attempted by birds sent out by the club.—Las Vegas Optic.

BANK CHANGED.
Bank of Roswell to Be Merged Into the First National Bank.
Last Saturday Messrs W. H. Goddard, George K. Cowden, H. N. Garrett and R. W. Johnson, all interested in the new First National bank of Roswell, arrived in town to look the situation over and prepare for opening the institution. On Tuesday, however, Mr. John W. Poe, president of the Bank of Roswell and the gentleman named, effected a transfer of Mr. Poe's interests in the Bank of Roswell and the building now occupied by the bank, from Mr. Poe to the new corporation. The new management will now change the Bank of Roswell to the First National bank of Roswell, and the capital stock will be doubled. The many friends of the present bank will retain their present interests and position and there will be no material change in the local policy of the bank. Mr. Poe will engage in other business here, probably stock raising, and continue to live in Roswell.—Roswell Record.

CATARRH OF THE STOMACH

Is a chronic disease. There is an inflammation of the inner coating of the stomach. A thick,ropy mucus forms and this causes the more pronounced symptoms. It remains in the stomach and obstructions. Then, of course, digestion cannot be properly performed. The great vegetable remedy HUDYAN never fails to effect a cure. HUYAN can be had of all druggists for 50c per package. Study your symptoms carefully from this chart. Each one represents a symptom or a group of symptoms. You have the symptoms. Use HUYAN and they will disappear.

THE SYMPTOMS ARE:
1. HEAVY HEADACHE. This is more pronounced in the morning. HUYAN will relieve the headache.
2. RED AND WATERY EYES. HUYAN will cause the eyes to assume their normal, healthy appearance.
3. COATED TONGUE AND FOETID BREATH AND BAD TASTE IN THE MOUTH. HUYAN will clear the tongue, make the breath pure and sweet and cause the bad taste to disappear.
4. PAIN AND TENDERNES IN THE STOMACH. This is due to indigestion. HUYAN will cause the food to become perfectly digested and the pain and tenderness will disappear.
5. ENLARGEMENT OF THE LIVER. HUYAN will lessen the enlargement and restore the enlarged liver to its normal size.
HUYAN will relieve you of the above symptoms and make you well. Do not delay.

Go to your druggist at once and procure a package of HUYAN for 50c, or 4 for \$2.00. If your druggist does not keep it, send direct to the HUYAN REMEDY COMPANY, San Francisco, Cal., and they will send it to you. You can consult the great HUYAN DOCTORS FREE. Do not forget that. Call and see them, or write, as you desire. All druggists keep it.

Good Intentions Are Poor Assets

To leave to your family. Many men intend to protect their loved ones by assurance, but never even try to turn their intention into action. Many others do try, but not until too late. For example: during 1898 alone the Equitable declined the applications of 8,382 persons for \$30,318,878 of assurance. Don't you think you had better put your intention into execution—before it is too late?

ROSENWALD BROS.

LOCAL PARAGRAPHS.

Mrs. W. B. Childers has returned from a visit to Santa Fe.

This evening, Miss Florence Drummond will entertain the St. John's Social Guild at her home on South Arco street.

This morning, at 10 o'clock, the little son of Mr. and Mrs. Ralph Hill was baptized at St. John's Episcopal church.

John Willis Hill is the name of the youngster.

Miss Lizzie Walsh, the pleasant daughter of Mr. and Mrs. Thomas Walsh, has gone to Las Vegas and Baton, where she will spend a short vacation with friends.

Alderman Samuel Neustadt, who was at the Sulphur hot springs the past two weeks, has returned to the city, and his appearance indicates that he had a fine outing.

Mrs. B. G. Wilson, wife of the New Mexico manager of the Continental Oil company, was a passenger south-bound this morning. She will visit friends in El Paso for several weeks.

Mrs. J. C. Flournoy and Mrs. F. F. Trotter are enjoying a visit from their sister, Mrs. Dan Schuchardt, who arrived last night from Galveston, Texas. She will remain here sometime.

Dr. Francis Crossan, formerly of this city, is pulling up New Mexico and her climate through the columns of "The Medical Dial." The doctor is a graceful writer on climatic subjects.

Last night W. L. Trimble & Co. had one of their driving horses to die. The horse was purchased a short time ago from Sheriff Thos. Hubbell, and was considered one of the best in the stable lot. He was taken ill last night and died at 10 o'clock. It is thought that death was the result of eating molasses hay.

Word from the Sulphur hot springs, received yesterday, give the information that C. A. Hudson and wife, and Mrs. Renner and grandson are having a fine time. They find trout fishing and hunting excellent, and, from all indications, a stay of several weeks will be made at and around the Sulphur.

Charles Mansard, the well known flour miller of this city with his wife, returned last night from southern California. They visited all the principal resorts, and desired to take a boat ride up to San Francisco but found the rush so great that all the berths had been spoken for up to the middle of August. He is enthusiastic over the new events to be given by the Territorial Fair and can be counted upon to do his financial duty.

Mrs. J. P. McWayne yesterday received the sad intelligence of the sudden death, on the 20th inst., of her father, Harry Zimmerman, one of the oldest and most respected citizens of Steubenville, Ohio, from neuralgia of the heart. He was justice of the peace and police magistrate of the city at the time of his death, and was also prominent in Kik and Grand Army circles.

K. A. Raabe, of Milwaukee, a brother of H. P. Raabe, of the Whitney Company, has decided to locate here permanently and will practice his trade of piano and organ tuning. He will also give lessons on the piano and violin. Mr. Raabe is a musician of ability and an acceptable addition to the musical circles of Albuquerque.

The brass band being organized by the colored men of this city held an enthusiastic meeting last night. Jerry Middleton was elected leader. The sum of \$47.50 has been raised and more promised. As several who have expressed a desire to join have not signed the organization will be kept open a while for their benefit.

Misses Alma and Jetty Rosenwald, two pleasant and popular young ladies of the city, are arranging to leave in a short time for New York and the eastern sea coast resorts. It is understood that the young ladies will remain east and attend some well known female seminary in New York city.

"The Proof of the Pudding"

is in eating it," and the proof of our big-grade and delicious canned goods, in glass or tin, is in testing them. This dainty palate reveals in our fresh canned fruits, vegetables, potted and tinned meats, deviled crabs and canned salmon, oysters and lobsters. Our superior foods are relished in warm weather, when ordinary victuals fail to tempt the appetite.
