INDEPENDENTS HOLD BALANCE; SPEAKERSHIP IS STILL IN DOUBT

Neither Party Has Enough
Votes to Organize, but
Democrats Appear to Have
Best Chance Just Now.

CLARK IS CERTAIN OF PARTY ENDORSEMENT

Republicans Are Split Over
Mann, Who Replies to Re-
cent Attack by Congress-
man Augustus P. Gardner.

Washington, Dec. 26.—(Review) The
return of the last election
show definitely that neither
party has enough votes to
organize the next house.

Republicans are split over

Mexico, Wednesday generally fair,
colder southeast portion; Thursday
partly cloudy.

LOCAL WEATHER REPORT

For twenty-four hours, ending at
6 p. m. yesterday:
Maximum temperature, 46 degrees;
minimum, 19; wind, 26; temperature
at 6 p. m., 25; west wind, clear.

Party, at least in the organization of
the house.

OPERATOR OF LARGE TEXAS FARM KILLED

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Corpus Christi, Tex., Dec. 26.—Paul
Morgan, operator of one of the largest
farms in southeast Texas, was shot
to death today at his home, twelve
miles southwest of the city.

Morgan and his wife had just re-
turned from Corpus Christi, where
they had spent Christmas night. They
were alighting from their automobile
when an unknown person opened fire
from the darkness. Morgan was shot
twice and died in a few moments.

Would Keep Them at Home.

Amsterdam, Dec. 26 (via London).
The Bankers' League reports that
the bankers have forbidden the sale
abroad of German shipping shares,
the object being to prevent an un-
desirable increase of German ship-
ping.

Children Held Prisoners of War.

Berlin, Dec. 26 (via Wireless).
To Saxville.—German children of Berlin
subscribed 1,000,000 marks to the
fifth German war fund, according to
the latest figures made public, says
the Overseas News agency.

GOVERNOR-ELECT WILL LEAVE FOR HOME THURSDAY

Dr. J. A. Massie of Santa Fe
to Accompany Incoming
Chief Executive From Los
Angeles on Return Trip.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Los Angeles, Dec. 26.—It became
known today that Governor-elect E.
D. Baca, of New Mexico, who has
been at the Santa Fe Coast since
election night, shortly after the re-
cent election, will leave for his home
on Thursday, the time of his de-
parture depending on the ability to
get several sleeping car reservations.

Several days ago Dr. J. A. Massie,
of Santa Fe, one of the leading physi-
cians of the New Mexico capital and
the medical adviser of the late Judge
William H. Pope, who died from the
same disease with which Dr. Baca
is said to be suffering, arrived in Los
Angeles for the purpose of consulting
with the hospital authorities regard-
ing Governor-elect Dr. Baca's case.

Dr. Massie will accompany Mr. D. Baca
on the return trip to New Mexico.
It is not known whether the govern-
ment will allow Dr. Baca to leave the
country, but it is believed that he
will be permitted to do so.

SOUTHERN PART OF ARKANSAS IS SWEEP BY DEATH DEALING TORNADO

Number of Victims of Storm
King Estimated From 17 to
70; Wires Are Down and
Reports Are Meager.

DESTRUCTION DONE IN PATH FOUR MILES WIDE

Convict Farm Is in Danger
Zone and Fears Are Felt
That Mortality at That In-
stitution Will Be Very High.

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Little Rock, Ark., Dec. 26.—Nine
persons are known to have been killed
and fourteen are known to have been
injured in a tornado which swept a
four-mile path over south central Ar-
kansas late today. Unconfirmed re-
ports told of many more deaths—
from seventeen to some scores—which
cannot be verified until the complete
story of the storm is told.

The death list includes four white
persons and five negroes. Three little
girls were the victims of the storm at
Caldwell. Near England a planter, Al-
bert L. Swartz, was killed and his
wife and daughter were seriously in-
jured when their home was demolish-
ed. Two negroes were killed near
Pine Bluff; two were killed at Sher-
ill, and another was killed near Em-
mott.

Negro Colony Reported Wiped Out.
Reports persist that a negro colony
near Kew was wiped out and that
seventeen were killed. Another re-
port tells of the death of from fifteen
to twenty folks at the state farm at
Tucker. All efforts to reach Tucker
by wire have failed.

The plantation home of Joseph
Pikington, near Pine Bluff, was de-
molished and his wife and two chil-
dren escaped. Four negroes
living on the place were injured, and
one of them probably will die. The
property loss there is about \$25,000.

According to reports, the tornado
first struck near England, moved
northward for a distance of about thirty
miles, and finally swept itself near
Des Arc and Pine Bluff.

The storm followed a period of un-
usually warm weather in this section
and considerable loss in this section
is as high as 50 degrees yesterday.

Physician Have in Rural Districts.
The known dead are Albert L.
Swartz, a farmer living near Eng-
land, and three negroes, one of whom
lived two miles north of England, and
two who lived two miles south of
England. Swartz home was picked up
and carried to the hospital at Little
Rock, and finally swept itself near
Des Arc and Pine Bluff.

TOTAL VOTE IN LAST ELECTION 3,593,549 OVER FIGURES OF 1912

President Wilson Receives
Support of 9,116,296 Vol-
ers, Against 8,547,474 Cast
for Charles E. Hughes.

ENFRANCHISED WOMEN MAKE POWER FELT

Total Ballots Cast Number
18,638,871, and Democratic
Plurality Is 568,822; Re-
sults by States.

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
New York, Dec. 26.—Complete offi-
cial returns on the presidential elec-
tion show that Mr. Wilson received
9,116,296 votes and Mr. Hughes 8,547,474,
a plurality of 568,822 for Mr.
Wilson. In 1912, Wilson, democrat,
received 6,297,099; Taft, republican,
5,848,339; Roosevelt, progressive, 4,
124,758.

The vote for Wilson, republican, was
501,573 for Debs, socialist, in 1912.
For Mr. Taft, republican, in 1912,
the vote was 5,848,339, against
5,848,339 for Taft, republican, in
1912.

The total popular vote for the four
candidates was 18,638,871, as against
15,045,322 in 1912. This is an increase
of 3,593,549, according to the
increased population and the woman
vote in the new suffrage states.

The vote by states for Wilson and
Hughes is as follows:

State	Wilson	Hughes
Alabama	87,778	28,025
Arizona	12,170	20,324
Arkansas	112,490	45,877

AUTOIST KILLED WHEN CAR GOES OVER PRECIPICE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Hollbrook, Ark., Dec. 26.—Nash
Tanner, an American, of Hollbrook, Ark.,
was instantly killed Saturday morn-
ing when a car in which he and three
others were riding went off the road
and plunged into a canyon two miles
west of St. John's. Tanner's car
was broken. One of his companions
was slightly injured and the other
escaped without harm.

An injured man held the name of
the car, which the deceased named
as the death from accidental causes
while riding in an automobile. Later
the body was taken to Tanner's home
in Concho. Two brothers of the de-
ceased, Jay and Kew Tanner, living in
Albuquerque, were telegraphed and
came to the funeral, which was held
on Christmas day.

BISBEE COLD AND WITHOUT FOOD SUPPLY

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Bisbee, Ariz., Dec. 26.—With the
chance of a heavy snowfall, the
city is facing a serious situation due to
the shortage of the food supply.

Two morning had a temperature of 28. Tuesday one of 32 and Sunday one of 32. Rowell, N. M., a temperature of 24, while Santa Fe, N. M., had one of 31. Flagstaff, Ariz., had one of 14. The cold wave, the weather bureau said, was moving east.

WORST HURRICANE IN NORTH DAKOTA HISTORY

Bismarck, N. D., Dec. 26.—One of the worst hurricanes in North Dakota history gripped the central part of the state today, with a wind of seven to ten miles an hour, in twenty-four hours, breaking the record of the fall during the great blizzard twenty years ago last November. A train on a branch of the Minneapolis, St. Paul & North Western, which was en route from Washburn, while two snowplows were fighting to release it. All trains on the branch were suspended temporarily. In the wake of the 36-mile gale carrying the blizzard a zero wave, warnings have been sent to stockmen and farmers.

DOUGLAS HAS FRIGID WEATHER AND NO COAL

Douglas, Ariz., Dec. 26.—S. W. French, general manager of Phelps Dodge & Co.'s properties in the southwest, was appealed to today by a Douglas newspaper to see if his company could not arrange to have coal shipped from its mine at Dawson, N. M., to relieve the fuel famine here. Mr. French promised to see what could be done.

Douglas people clamored for coal today, visiting or telephoning dealer after dealer, only to find there was none to be had. The fuel dealers said they were powerless and blamed the railroads. One man and a car of coal consigned to him from New Mexico had been confiscated for its own use by the Santa Fe railroad.

Much suffering was reported today among the poor people of this district, as a result of the snowfall of yesterday, followed by a drop in temperature, which continued low today.

WORST STORM IN YEARS OVER SOUTH DAKOTA

Souix Falls, S. D., Dec. 26.—The worst storm in years is raging over the western and central part of the state today, with a wind of seven to ten miles an hour, in twenty-four hours, breaking the record of the fall during the great blizzard twenty years ago last November. A train on a branch of the Minneapolis, St. Paul & North Western, which was en route from Washburn, while two snowplows were fighting to release it. All trains on the branch were suspended temporarily. In the wake of the 36-mile gale carrying the blizzard a zero wave, warnings have been sent to stockmen and farmers.

SOUTHWESTERN NEVADA IN DESPERATE PLIGHT

Tonopah, Nev., Dec. 26.—With the thermometer at zero, towns of southwestern Nevada entered today their third day without snow. The official light, according to reports here, is reported to have been badly frozen. Snow flurries today caused anxiety lest the parties be lost, and their trails obliterated.

All mines are shut down. The best hotels are without heat and the most there was found in the hotelists' cabins where miners' candles, stuck in empty bottles, supplied the usual illumination, and snuffed their usual warmth. There is plenty of food.

VON PAPAN NOT IN CONSPIRACY, BOPP ASSERTS

San Francisco, Dec. 26.—Frank Bopp, German consul here, denied repeatedly under cross-examination today in the United States district court, where he is on trial with six associates charged with conspiracy to violate neutrality, that Capt. Franz von Papen, former military attaché to the German embassy at Washington, had financed or directed the alleged dynamite attempts charged against the local consulate. The cross-examination was directed by District Attorney John W. Preston.

Von Papen was in San Francisco during the year 1915, Bopp said, but his visit chiefly was recreational. It was in that year the government alleged various dynamite plots against the Canadian consulate, and Canadian railroad property either were planned or successfully executed.

THIRD BOARD ADDED TO EXPEDITE RECOUNT

Phoenix, Ariz., Dec. 26.—A third board of inspectors was added today by Judge Stanley to the superior court, to expedite the business of counting the ballots in the contest of Governor Hunt against Thomas E. Campbell and will begin work tomorrow. The court also in view of this morning's session of the superior court today imposed the amount of the bond of the government from \$2,000 to \$5,000. It had been raised by the former figure from an original bond of \$200.

The first board of inspectors is still at work on the ballots of Maricopa county and will stop forthwith Thursday. The second board is inspecting the Graham county ballots. No changes of importance were made today, that is, no changes that will greatly affect the final result, though the great bulk of the ballots were laid aside to be passed upon by the court when the count begins.

Township Company Incorporates. Santa Fe, Dec. 26.—The United Township company filed incorporation papers today, the capitalization being \$5,000, divided into 50 shares. The incorporators are: all quadruple county men, as follows: C. H. Taggart, W. C. Burnett, C. J. Jones, Murray Taggart, Melvin Baker of Santa Rosa, and M. B. Baker of Taggart, each subscribing to 1,000 shares to 1,000 shares.

MAN WHO WROTE ROUND ROBIN IS UNDER ARREST

Non-commissioned Officers Who Signed Document Say They Were Deceived as to Its Real Character.

El Paso, Tex., Dec. 26.—Private William Murphy, of Company C, Tenth Ohio infantry, has been arrested in connection with the investigation of the "round robin," which was signed by approximately 400 members of this regiment. Private Robert Dixon, of the same regiment, has been confined to his tent on the charge of having drafted the "round robin." It was stated at the camp tonight that further investigation is being made of the case in order to determine whether or not the men signed the document under duress. The document was forwarded to Ohio and intercepted en route. The non-commissioned officers, who were to be reduced if guilty, stated in their defense that they signed a paper, in the belief that it was a petition of a newspaper article that appeared in an Ohio paper. It was said to have been materially different from the one sent to Ohio.

Gen. George Bell, Jr., said tonight that this gave the case a different turn, and it was possible that Dixon and Murphy might not be tried, but by the summary court ordered for that purpose but would be tried by another court as soon as the investigation was completed.

OHIO REGIMENT HAS NO CAUSE TO COMPLAIN

Washington, Dec. 26.—Charges that the Tenth Ohio regiment, on the Mexican border, has not been properly cared for, set forth in a "round robin" petition signed by members of the regiment, were answered by the war department by taking public a report from Brigadier General Bell, commanding the El Paso district, stating the regiment is comfortably and adequately housed and its number of sick is below the average.

"Out of the 552 enlisted men and forty-six officers in the Eighth Ohio," the statement says, "there are twenty-three on the sick report at this date (December 24). Only two deaths in this regiment since arrival on the border. One of these was a suicide and the other was Private Lapp, who died of pneumonia. Private Lapp was properly cared for and no blame attached to any one for his death."

"All tents of the Eighth Ohio are floored and walled and supplied with stoves and ample fuel. The regiment is comfortably and adequately housed and its number of sick is below the average. In the First Ohio brigade infantry there has not been a single death. Out of all the Ohio troops in this district, over 7,000 officers and men, five died and two were killed since arrival on the border."

GUARDIAN'S ARRESTED ON MURDER CHARGE

Brownsville, Tex., Dec. 26.—Private John MacAntrino, Battery D, First Minnesota artillery, was taken into custody today by Texas state police and turned over to the military authorities here in connection with the killing at Llanos Grande, last Wednesday of Private John Nitzsche, of Battery D. Nitzsche was shot in a quarrel during a gambling game.

AX CLUE FOUND TO MURDER OF FAMILY

San Francisco, Dec. 26.—John W. Preston, district attorney, today announced that he had found a clue to the murder of John Nelson Reeves, his wife and their two children are believed to have been murdered in their home here, Christmas night, was found today by searchers half a mile from the scene of the crime. It was covered with blood and matted hair. The sheriff and his deputies who searched the house of some of the negroes held in jail as suspects, reported they had found bloody clothing, hair, and a knife in the room in which the crime was believed to have been committed.

"It is said that Mrs. Reeves recently received \$2,000 in the settlement of an estate and this, with the \$500 which her husband kept in the house, was supposed to have furnished the motive for the murders. None of the money has been found."

PREPARATIONS FOR CORONATION ABOUT COMPLETE

London, Dec. 26.—A dispatch to the Exchange Telegraph from Amsterdam says preparations for the Hungarian coronation are almost completed, and that the indications are that the ceremony will be carried out with all its traditional pomp and circumstance. It represents the efforts of fifty workers who devoted fourteen days in making it, of a cost of \$4,000,000. The dress will be handed to the queen by a duchess headed by the Archduchess Austria.

"On the ground that the coronation should not be celebrated lavishly during such times of stress, the coronation procession, according to a dispatch from Vienna, has been decided to be a simple one. The coronation will be carried out with all its traditional pomp and circumstance. It represents the efforts of fifty workers who devoted fourteen days in making it, of a cost of \$4,000,000. The dress will be handed to the queen by a duchess headed by the Archduchess Austria."

LIMIT EXPENSES AND CARANZA MAKES NO REPLY

Unless Word of Acceptance Is Received Quickly American Commissioners Are to Hold Meeting and Adjourn.

Washington, Dec. 26.—Although General Carranza had not replied tonight to the demand of the United States that he either ratify or repudiate the protocol drawn by the Mexican-American joint commission, the expiration of the time limit was not made the occasion for formally declaring the negotiations at an end. While the time expired at midnight officials were inclined to take into consideration that a reply might have been delayed and indicated that a favorable reply even though a day or more later would not be rejected. Carranza's attitude was the chief subject.

HOPES FOR FAVORABLE REPLY

Refusal to accept the terms of the agreement, under which American troops would be withdrawn from Chihuahua, means the closing of negotiations through the joint commission for adjustment of the questions at issue between the United States and the Mexican government. No details of the fight were given. Carranza's attitude is attached to the report here because of the fact that many of the foreign population of Torreon who left there before Villa attacked went to San Luis Potosi.

VILLA NOT NEAR CHIHUAHUA

Villa himself was reported to be between Torreon and Chihuahua City, and was said to be preparing to launch an attack against Chihuahua soon. In anticipation of this attack, Gen. Francisco Murguia was reported to have ordered Gen. Francisco Gonzalez, former commander in Juarez, to proceed south at once with his entire brigade to reinforce the Chihuahua City garrison. General Murguia also reported all of the available troops from the city to be sent to the border to strengthen the forces of the state capital.

JUAREZ CAUSE OF ALARM

A Mexican, who claimed to have deserted the command of Gen. Mariano Tambo, a general in Villa's army, arrived here today and said Tambo was near Villa Ahumada, eighty miles south of Juarez, with a column of 400 Villa followers. This force was believed to have been the one reported to be operating south of Juarez.

TAMBO WAS A SOLDIER IN THE CARRANZA ARMY

Tambo was a soldier in the Carranza army in Juarez at an early date, but had been captured by Carranza and was being held in a small force of his men and joined Villa.

MURGUIA SAYS TORREON SHOULD HAVE BEEN HELD OUT

Chihuahua City, Mex., Dec. 26.—General Murguia reported today that his forces had defeated Villa bands, who had been in the city for several days, and that the city was now in the hands of the Carranza forces. He added that the present whereabouts of Villa is unknown.

CHRISTMAS PASSED QUIETLY HERE, BUT LITTLE CELEBRATION

General Murguia reported today that his forces had defeated Villa bands, who had been in the city for several days, and that the city was now in the hands of the Carranza forces. He added that the present whereabouts of Villa is unknown.

CHRISTMAS PASSED QUIETLY HERE, BUT LITTLE CELEBRATION

General Murguia reported today that his forces had defeated Villa bands, who had been in the city for several days, and that the city was now in the hands of the Carranza forces. He added that the present whereabouts of Villa is unknown.

ALLIED PATROL BOATS ARE SUNK BY GERMANS

Berlin, Dec. 26.—Two allied patrol boats were sunk and four other allied warships were damaged in the recent naval encounter in the Strait of Otranto, the Austrian admiral announced. Two Austrian destroyers were hit. The Austrian announcement follows:

ON THE NIGHT OF DECEMBER 25-26

four Austro-Hungarian destroyers made a raid in the Otranto strait and after an engagement, sunk two allied patrol boats. On their way back at least six hostile destroyers of greater size and speed, evidently of the Indomitable class, blocked their way. A violent combat with guns ensued. The hostile destroyers were set on fire and three others were hit several times at short range. The enemy's sea forces, among which was one vessel of more powerful and unknown type, were routed.

PIRON CROP HEAVY

Santa Fe, Dec. 26.—F. F. Gorman, the Santa Fe merchant, has just shipped his third crop of piron from New York. The crop was unusually heavy this year and altogether more than twenty carloads have been shipped out of the state. The nuts are wild and are used by eastern confectioners in preference to any other nut.

THE JOURNAL takes and prints sixty hours and thirty minutes of exclusive Associated Press service each week. No other newspaper published in New Mexico takes more than twenty-four hours of Associated Press service during the week.

WEDNESDAY, DECEMBER 27, 1916

THE NEW MEXICO GUARDSMEN.

New Mexico guardsmen with the first to respond to the call of the president, and for long weary months they have been on border duty.

Units from other states have come and gone since the New Mexico men mobilized at Columbus. But there is no relief in sight for our boys. They have endured the heat of the summer, the frosts of the fall, and now are being subjected to the chilling blasts of the winter winds. There is every indication that New Mexico guardsmen are to constitute part of 73,000 to be kept on duty until next summer.

Guarding the border is a national affair in which New York, Pennsylvania, Massachusetts and Illinois men are just as much obligated as are the men of New Mexico.

From time to time the Journal has heard reports from the border—apparently authentic reports—which we have refused to print, but we would like to have it stated officially just how many New Mexico guardsmen now are actually in service.

Congressman-elect Rankin has selected a young newspaper woman as private secretary. She will run no risk of falling in love with and marrying a bright young man who might put a kibosh on her political ambitions at the next election.

FREE GOVERNMENT EFFICIENT.

Financiers and economists of America are concerned that now over half the United States is going to meet European competition after the war. Word from Europe is that buying and selling and distribution in Europe are to be conducted through government agency.

One of Chicago university's eminent professors is out with a statement in which, after asserting that American ideals have been common only England had the aristocracy of England, he registers a doubt whether democracy—to which he compares himself devoted along with the rest of us Americans—will hereafter be capable of competing with absolutism, like Germany.

We discover this doubt in the utterances of many men—scholars, publicists, politicians, captains of industry, ordinary citizens. But in our humble estimation the times do not seem to be ripe for the times to come, but fair to vindicate democracy to the world, to restore its pride in itself.

Let us avoid abstraction and consider concrete cases. The three most absolutist states today are Russia, Germany and Japan. The three great democracies are the United States, Great Britain and France. Of the first three the empire of the east is grasping hands toward imperialism, the empire of the west, however, offers this a concession, is struggling valiantly to the dome while the industrial realm is still, as a world power, an experiment. Of the second three, the stretched of English-speaking nations—England and her dominion governments—is discovered by the effect of war to be the strongest, the most resourceful, economic and military unit on earth, and this whether we like England or not, the French republic, democratic efficiency and readiness (as well as valor) the United States needs no encomium, for within her borders reside the human pillars upon which the world is built. But there is no danger because of that very happiness and prosperity.

No democracy can hope to have a flourish of glory. But how often has an absolutist produced a "flourish"? In the absence of a free market, the best organized absolutism in history has committed such a colossal mistake as no intelligent democracy is capable of making. If that absolutism forces the war, of what avail are all its much heralded successes, its marvels of cooperation, its miracles of science?

Besides, Germany does not so far outdistance democratic lands as these lands, in their humility and surprise, have been disposed to admit. We

have our imperfections, but they are mainly superficial. Our government is scandalously extravagant, no doubt, but fortunately we have been able to pay for extravagance, even if it can not be defeated.

This republic has endured a hundred and forty years, whereas the Hohenzollern empire dates from 1871, and in its fifth decade has contrived to draw the enmity of practically the entire world upon her head.

Not in a democracy precluded from adopting measures which an absolutism has shown to be beneficial. Germany has no patent on organization and efficiency. We can profit by her innovations and experiments, as indeed we shall. The power of organization, concentration, economy and industry has been demonstrated in Germany, as nowhere else in the world. But that is no reason why they may not be adopted as readily in America and carried on as successfully for the people as a whole.

Those Chicago professors report that Mr. Wells can not be forced to sell those 72,000,000 eggs. The next best thing would be to compel him not to sell them.

LONGER HIGH SCHOOL COURSES

The opinion in favor of longer high school terms and shorter college courses is gaining favor among educators generally. Six years of high school would make college work possible to a far larger number of students; it would keep young students under the home influence; it would lift the material sent to the colleges, and thus improve the quality thereof; it would be far less expensive to parents, and would give better results to the state for the money expended.

Colleges suffer greatly from the excess of unprepared students who apply for admission. They are kept standing away at work that should have been done in the high school. Another trouble is that a college course is too often regarded as a mark of social distinction. A diploma is regarded by the possessor as a badge to be worn in the button hole as a decoration, rather than something indicating fitness for the duties of life.

Half of the work now done in the college could be done quite as well in the high school, and the number of students who would take advantage of that extra two years in the high school easily would be twenty times the number who go through the sophomore year in college. The number in New Mexico probably would be nearer fifty than twenty times. And the number who would take the extra two years in college would be easily ten times the number under the present system.

The fact that it hasn't been done is no reason why it shouldn't be done. Just a few years ago we were all traveling by stage coach. Now we go on railroad trains, by automobile, by flying machine. Everything has changed except the system of conducting our educational affairs. It, like the laws of the Medes and Persians, "changeth not."

Germany doubtless has noticed that the entente allies seem perfectly willing to accept responsibility for continuation of the war.

COLORADO'S GREAT STATESMAN

Denver has a statesman who is destined to become famous, like "Cyclone" Davis of Texas and some others, who have graced the halls of congress. Benjamin Clark Hilliard, like Abraham Lincoln, was born in a log cabin. He is a truly in his autobiography to the Congressional Directory.

Mr. Hilliard has introduced a resolution in the house. He would have the United States government settle the boundaries of the country, and let all suits to test the constitutionality of the Adams law and with respect. The date fixed for such action is December 29. The date has passed and nothing has been done. The government's attitude toward those who would undertake to see whether the law is valid.

In effect, Mr. Hilliard seeks to make it a crime for anyone to question the validity of an act of congress. He asks congress to strip the power of the courts. He undertakes to subject the judiciary to the legislative branch of the government. It is an example of a congressman who has not grown. He has just settled up.

There is little encouragement to the man to create with the egg problem when the hot home is colder than the north pole.

When the weather gets down pretty close to the zero point in Albuquerque, remember it is worse everywhere else.

We have our ironing and our lines and now are being threatened with potato privations.

WHO HAS BEEN STEPPING ON THIS EDITOR'S TOES?

Excuse me (please). We have been of it. And while we never indulge in slanders—don't believe in it, except when special occasion demands it, but the very next fellow who seizes us out of our boots by mistake as we are on the street with a "fine little string" expression on his face and with the remark, "where did you get your information for such and such an article," we intend to be satisfactorily satisfied to tell him "no business." We get our news from the information bureaus, there are lot of us in Seattle.

Sample of How Lower House of Congress Fritters Away Its Time

The Journal has remarked several times on the inefficiency of the lower house of congress, and the frittering away of the Congressional Record with a lot of worse than useless stuff. The following is selected at random from an issue of the Congressional Record, giving the details of a session just before adjournment for the holidays. Mr. Hays of South Carolina and Mr. Keating of Colorado were having a debate over whether the public school buildings of the District of Columbia should be used for community meetings.

Mr. Hays—This is a great city, the most beautiful city I have ever seen. My people want the District of Columbia, and the people to it to have every single right that there is consistent with good government. They are willing to be taxed to a reasonable extent for the interests of the city, but they are not willing to have their property taken away from them and with no responsibility absolutely control the institutions which they have been taxed to create and which they are now being taxed to maintain. The whole idea is absolutely antagonistic to everything in which I have been raised to believe. We believe in our schools, we love our schools, but we want public education to be properly controlled and administered in control of our schools.

Mr. Keating—Will the gentleman yield?

Mr. Hays—I will.

Mr. Keating—The gentleman has referred to irresponsible who are taking control.

Mr. Hays—Who could take control?

Mr. Keating—I want to ask the gentleman if he feels that the United States government is responsible for the institutions which they have been taxed to create and which they are now being taxed to maintain.

Mr. Hays—I want to say the commissioner of education has been asked a question in his office at a public hearing for the purpose of carrying on this propaganda. I think much less of him since I learned he gave that commission for that purpose.

Mr. Keating—The gentleman thinks he is in the conspiracy.

Mr. Hays—I would not say this is a conspiracy. I am the gentleman's friend. It is the gentleman's business.

Mr. Keating—The gentleman approves it was the gentleman's business, but it was the gentleman's business to state the conditions in a understandable language.

Mr. Hays—My views in understandable language are these: That Mr. Ward was sent here.

Mr. Keating—I am not talking about Mr. Ward.

Mr. Hays—Well, I am, and it is not time and therefore if the gentleman wants to understand, he must take it in his time.

Mr. Keating—I will bear with this.

It before he found her; thereafter she was the enemy of his peace, his good name and his work—she was a veritable evil genius.

"Once," wrote a friend of Wesley, when I was in the north of Ireland, went into a room and found Mrs. Wesley frowning with fury. Her husband was on the floor, where she had been trailing him by the hair of the head, and she herself was still holding in her hand a bunch of locks which he had plucked up by the roots. "I felt as if I could have knocked the soul out of her."

She misused him in public. She humiliated him in his church. She mocked him when he was in the pulpit. She twisted his correspondence and gave it out among his enemies. She started countless slanders against him. And twenty-seven years after their marriage John Wesley wrote to her: "If you were to live a thousand years you could not undo the mischief you have done, and until you have done all you can towards it, I bid you farewell."

And yet the epitaph above her last resting place reads thus: "A woman of exemplary piety, a tender parent and a sincere friend."

John Wesley was doubtless an awkward husband. And when a man waits until he is 45 years old before he marries, and is accustomed to exercising authority, questioned, he is perhaps not the easiest person in the world to "manage."

Being a "mercenary" widow in "Threepenny Street," she conceived it to be her duty to reign with her husband as John ruled of the Methodist societies under his charge. As she had no aptitude and no ability for such work, her efforts were appreciated by nobody. She appears to have taken the general lack of appreciation as a sign of personal enmity toward herself, and for years and years she kept up the fight with a persistence that John must have thought inspired of Satan.

John Wesley was old enough to know better, as we say, but in matters matrimonial, age and experience are no guarantee of a happy union. The wisest seem to be the worst and most easily deceived. In her widowhood Mrs. Wesley was a "woman of successful spirit," so John thought her. It is not possible that it was otherwise that marked her, instead of sorrowfulness. There is a difference. In any event, her sorrowfulness or whatever it was did not prevent her accepting with placidity Wesley's proffer of marriage. Wesley had exhibited so little tact with women that his brother and friends expected the worst—but worse than they expected, happened.

Mrs. John Wesley is a type of the wife who takes the marriage union too literally, making it an actual partnership in labor. There is much good intention and many hard results in such a conception. "She will be such a help to him," we often hear it said,

THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you are tired, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

ALL GOODS DELIVERED. Mail Orders Filled Promptly.

But the best help she can be to him is to create the atmosphere in which he can best work; she will be wise to keep her hands off the work itself until he shows himself incapable and needing a manager. Some men do need managers, and they give their success to putting themselves unceremoniously into the hands of their wives; but this is a condition no wife would have if it is at all avoidable.

Especially in this time of professions and business. In trades, of course, a wife can not very well become a working partner with her husband. But in the ministry and medicine, for example, it is sometimes fatal to a man's work when his wife gets the notion that she is the directing head of it.

Baking's a Joy with CALUMET BAKING POWDER

"Baking day" becomes a day of smiles, when you use Calumet. A day of smiles for you and for the rest of the family, too. You'll be delighted because Calumet is so unfailing in its results. You'll not have one baking ruined—not one batch of materials wasted—but every baking will come from the oven fluffy and tasty and evenly raised.

Always insist on Calumet. Your grocer has it—or can get it if you'll refuse substitutes.

MRS. JOHN WESLEY'S MISTAKE

"W. J. C. in Detroit News." John Wesley once said that he had never suffered from "indigestion of spirits" for a quarter of an hour. And for thirty years he lived with a woman for whom the most skillful and generous physicians could not make out the shadow of a cure. Mrs. John Wesley, who herself said that a bad wife could be, and in some cases was, a worse enemy than a bad husband, was not alone in her view. Her husband had found his work and was successful in

Pertinent Comment on Live Topics by Wide-awake Weekly Papers of New Mexico

PUBLICITY CHAPTERS NEED NOT APPLY HERE

During the course of the year in the various cities over 2,000 letters are dropped into the waste basket without even opening. These letters consist of so-called "publicity" articles sent out by auto manufacturers, hardware and drug store owners, who can not afford to pay for advertising. Respectful persons and respected names insert the same fact for there are many of such items that are of no consequence to our readers and will be charged for at half rates when we decide they are not news to the current subscribers. Many people have the idea that publicity for

STOCK EXCHANGE CONCERNED OVER MEXICAN AFFAIRS

Shares Affected by Conditions South of Border Rise Rapidly on Account of Rumors of Agreement.

(BY MORNING JOURNAL SPECIAL LEADER WRITER)
New York, Dec. 26.—Judging from the movement of special stocks today, Wall street's speculative element appeared more concerned in the Mexican situation than in the course of European peace negotiations. Shares most affected by conditions across the southern border rose vigorously in reports in financial circles of a possible agreement between the United States and Mexico.

Shipping issues were highly erratic. The movement otherwise constituted a confusion of gains and losses. Conflicting views of professional traders.

United States Steel fluctuated between 106 and 108 1/2, closing at 107 1/2, a gain of 1 1/2 points.

At no time were calls more than moderately active. Copper continued measurably to the day's business, but some unsettlement in the trade quotations kept those issues within narrow bounds. Total sales approximately \$30,000,000, the smallest full day in weeks.

Total sales of bonds, par value, \$3,225,000. United States bonds were unchanged on call.

CHICAGO BOARD OF TRADE.

Chicago, Dec. 26.—Live selling, which seemed to be connected with Germany's proposal for an immediate conference of belligerents, wiped out today nearly all of an early advance in the value of wheat. The market closed unsettled, 1/2 to 1 1/2 net higher, with May at \$1.65 1/2, and July at \$1.65 1/2. Corn last 1/2 to 1 1/2 to 1 1/2, and oats finished 5/8 off to 1/2 advance.

In the sharp setback, some of the largest traders were conspicuous on the bear side.

Something of a rally seemed to be gaining headway as the session came to an end.

Today's temporary showing of strength was based largely on hopes of improved foreign demand and on the soundness of domestic receipts.

Predictions of heavy receipts this week had a bearing influence on corn, especially after wheat late in the day underwent a sale. Unsettled weather acted at first as a stimulus to buyers, but the effect failed to last.

A good export demand for oats was noted. However, though, trade in oats was light.

Higher quotations on hogs were chiefly responsible for the upturn in provisions.

Closing prices:
Wheat—May, \$1.65 1/2; July, \$1.65 1/2.

Est. holiday meals. Pullman Cafe, Martin & Thom. Taxi. Phone 273. Guaranteed auto springs, all makes, Korber Co., Albuquerque, N. M.

Dr. Provines—Eye, Ear, Nose and Throat. Citizens Bank Bldg. Ph. 938. The Royal Neighbors will meet at 7:30 o'clock tonight in the A. O. U. W. hall.

The Elks lodge will meet at 8 o'clock tonight. There will be initiation.

The Woman's Relief Corps will meet at 2:30 o'clock this afternoon in the I. O. O. F. hall.

The Bell Crochet club will meet at 7:30 o'clock tonight with Miss Weimer at 415 South Fourth street.

The Modern Woodmen will meet tonight in the I. O. O. F. hall. The lodge will take up plans for New Year's.

Miss Shelle Moore, of East Las Vegas, is visiting Miss Nettie Morrisette of 216 North Ninth street, during the holidays.

The Rebekah lodge will attend the funeral of Mrs. Elizabeth Mahaffey at 10 o'clock this morning at C. T. French's chapel.

The Woman's Relief Corps will attend the funeral of Mrs. Elizabeth Mahaffey at 10 o'clock this morning at C. T. French's chapel.

T. W. L. and A. M. will meet at 7:30 o'clock tonight at the Masonic Temple. The installation of officers will take place.

Born Christmas to Mr. and Mrs. Van Tubergen, 306 South Edith street, a son, Mr. Van Tubergen, an employee of the Santa Fe railroad's shop.

Mrs. A. F. Morrisette left yesterday afternoon for Las Vegas, where she will sing tonight at the installation of the officers of the Masonic lodge in that city.

F. W. Purcell, traveling salesman for J. Korber & Co., yesterday learned of the death of his nephew, Lieut. Malcolm Lyon, who was killed in action "somewhere" in France. Lieutenant Lyon was a son of Dr. J. Malcolm Lyon.

A party sponsored by Mrs. George Ulrich departed yesterday on an automobile trip to Elephant Butte and El Paso. The party will be gone a week. In the party, besides Mrs. Ulrich, were Miss Gladys Handel, Miss Katherine O'Reilly, Virgil Stauffer, George and Albert Mahaffey.

Frank Asketon, who has been engaged in the building and real estate business during his fourteen years of residence here, is planning to close out his affairs. For the year 1917 he will give the greater part of his time to the management of the Ventura Mining company, in which he is largely interested.

M. H. Tate, an engineer in the employ of the Santa Fe, who was seriously injured a week ago at Belen, probably will recover. He is at St. Joseph's hospital. Tate was right in the mechanism of his engine in the roundhouse at Belen when a workman, not knowing that he was under the locomotive, reversed it. Tate sustained fractures to several ribs and probably internal injuries.

Real estate problems—purchase, sale or trade—are easily solved by Journal want ads. Read them, use them. Do it today.

LAWYERS ASKED

TO REMEMBER BAR MEETING JAN. 11

Legislative Questions to Be Brought Before Legal Minds in Santa Fe Early Next Month.

Letters were sent out yesterday to all members of the New Mexico Bar association by President C. M. Botta, of Albuquerque, reminding them of the adjourned meeting of the association, which is to be held in Santa Fe, January 11. A number of important matters are to be brought to the attention of the legislature, through a committee representing the bar association, and it is desired to obtain expressions of opinion from every lawyer who may be at all interested. The indications are that the Santa Fe meeting will be largely attended. President Botta's letter follows: Albuquerque, N. M., Dec. 26, 1916. To All Members New Mexico Bar Association.

Gentlemen—Reference to the printed minutes of the last annual meeting of the association, which have just been distributed, will serve to remind you that an adjourned meeting of the association is to be held at Santa Fe on January 11 next for the purpose of considering and recommending to existing laws as may be deemed advisable, and that the president has been authorized to appoint a legislative committee of five members, to which shall be referred all recommendations as to proposed laws, etc. Reference to page 3 of the printed minutes will inform you of the personnel of this special committee.

Legislative matters already suggested, and which will be before the adjourned meeting for consideration are as follows: The enactment of "The Uniform Divorce Law," amendment of the law prohibiting the support of young children from their mothers, recently held unconstitutional; amendment of the forcible entry and detainer statute, compensation for attorneys appointed by the court in criminal cases, and appeals for judgment in criminal cases, in addition to the recommendations of the committee on law reform as set out in its report beginning at page 14 of the printed minutes, to which you are referred. The question of compensation for counsel for the indigent, and the question of appeals in criminal cases, and the question of appeals in criminal cases, are discussed to some extent by Judge Richardson in his printed address at page 43 of the minutes, to which you are referred. The committee on law reform, in its report, also discusses the question of compensation for counsel for the indigent, and the question of appeals in criminal cases, and the question of appeals in criminal cases, are discussed to some extent by Judge Richardson in his printed address at page 43 of the minutes, to which you are referred.

Artistic search, made by deputy sheriffs and relatives, had failed last night to disclose any trace of Miss Bessie French, daughter of J. L. French, who disappeared from her home, southwest of the state fair grounds. The girl left after the family had retired Monday night. Other members of the family did not know that she had gone until yesterday morning.

The girl evidently crept out of the house in stocking feet so as not to arouse other members of the family. Footprints, showing that she did not wear shoes, were found in soft ground in the yard. She left her shoes in the house, although a member of the family pointed out, she may have taken another pair and put them on after leaving the yard. She wore a heavy coat.

Relatives believe that the girl's leaving was due to illness. She had not been "quite herself" recently, a relative said. The girl was 16 years old, but big for her age. She weighed probably 135 pounds and was probably five feet, five inches tall.

Under Sheriff Dick Lewis learned of the disappearance of the girl yesterday morning. He sent out deputies and members of the family to look for her. None of the searchers was able to pick up any trace. No one had seen the girl, as far as they could learn. A search along the bank of the Rio Grande failed to discover any indication that the girl had approached the river.

FIREMEN IN DANGER

WHEN CHIMNEY FALLS

A brick chimney fell while firemen were fighting a small fire yesterday afternoon at the home of Lola Chavez, 305 West Iron avenue. The falling chimney and the fire caused only slight damage.

DEATHS AND FUNERALS.

Miss Lola Walker.

Miss Lola E. Walker died yesterday at the home of her parents at University Heights. She was a daughter of Mr. and Mrs. James Walker. She came to this city for health last August. She was a native of Pittsburgh, Kan. Her father, who is an inspector for the Kansas City Southern railroad, will arrive this evening. Besides her parents she leaves two brothers, John B. and James O., both high school students, and one sister, Miss Bettina Walker, a teacher in the Central school. She was a member of the Christian church and Woodmen's Circle.

Funeral services for Mrs. Elizabeth Mahaffey will be held at 10 o'clock this morning at C. T. French's chapel. The Rev. Hugh Cooper, pastor of the Presbyterian church, will officiate. The Rebekah lodge will hold services at the grave.

Robert Larie, who died yesterday morning at a hospital, Larie came here several days ago from San Francisco. He went to the hospital Christmas day. A son, Louis, is a merchant in San Francisco. The body was taken to C. T. French's undertaking rooms.

NO CEREMONY TO

MARK CHANGE IN

COUNTY OFFICES

Most of New Officers Ready to Step in, Take Oaths, File Bonds and Choose Their Deputies.

No formality will mark the change in county offices New Year's day. Officers-elect will simply walk in. That will be all there is to it. Most of them are ready now for the walking in, having taken their oaths of office, filed their bonds and chosen their deputies.

The new officers probably will close their offices for the rest of the day, as it will be a legal holiday, after taking possession. That is County Clerk Nestor Montoya's intention. Mr. Montoya intends to give his undivided attention to the county clerk's office in office hours, although the publication of La Bandera Americana, the Spanish Weekly edited by him, will be continued under his supervision. Mr. Montoya will have a deputy clerk and an assistant in the office, as County Clerk A. E. Walker has.

Here are Mr. Montoya's appointments:

District clerk—Thomas K. D. Madison.

Assistant in district clerk's office—Miss Lucy Harris.

Deputy county clerk—Miss Olivia Ewert.

Assistant in county clerk's office—Miss Blanche Kempson.

Assessor—Rafael Garcia.

Assessor-elect B. E. Roehl had selected his assistants yesterday. They are Felipe Zamora, Erasmo Yrisarri, Eduardo Sanchez, Adrian Sanchez, Thomas Werner, Henry Mann and C. L. Britton. They will be employed as field deputies. Mr. Mann and Mr. Britton will do the main work in the city district. The heavy work in the assessor's office comes at intervals, and at these times Assessor Roehl will call in Mr. Mann and Mr. Britton. At other times he will do the office work alone.

Sheriff Rafael Garcia's appointments, announced yesterday, are: Under sheriff—R. L. Woolton.

Deputy sheriff—Max Gutierrez.

Justice—J. Louis O'Rannon.

Guard at jail—Felipe Trujillo and Teofilo Padilla.

J. A. Miller, law partner of District Attorney-elect George H. Craig, will be assistant district attorney.

Judge Craig has already qualified for office. Judge Craig left his resignation as justice of the Twenty-sixth precinct with County Clerk A. E. Walker yesterday. The county commissioners will accept it when they meet Friday and appoint his successor.

SEEKS PHOTO OF THE

CLYDE ARMOUR WHO WAS IN ALBUQUERQUE

Quest for a photograph of the Clyde Armour, who came here and who, they believe, was an impostor, brought brothers of the missing man, Roy and Glen, and a brother-in-law, M. L. Sawyer, to Albuquerque yesterday.

They interviewed several persons who had met the young man, but found no photograph. They learned from Chief J. R. Galusha that a snapshot had been taken by one of his acquaintances, but that the film was no good.

The Armours now believe that their brother disappeared between a point seven miles east of Santa Fe and the capital. This belief was founded on information obtained from Las Vegas, who said they passed Armour's automobile seven miles from Santa Fe. There were two men in the car then. The car arrived in Santa Fe with one passenger. He registered at a hotel as Clyde Armour.

EXPRESS COMPANY GAME

LAW VIOLATOR, CHARGE

Wells Fargo & Co. were charged yesterday by Deputy Game Warden Tony Ortiz with illegally carrying a game animal, at which time the justice issued a warrant to be served on W. B. McNicol as agent for the express company.

The express company, according to Ortiz, had no permit to carry the animal. The express company had been in the commission, the complaint stated.

Officials Will Have to Wait.

Santa Fe, Dec. 26.—The outlook for state officials to get their quarterly or monthly salaries is very slim. State Treasurer G. N. Marron expects to make no appropriation of funds for December, as Santa Fe county is the only one of the twenty-six counties, it seems, that collected the 1916 taxes before they fell delinquent on December 1. Nor is it likely that there will be a heavy receipt of taxes during the first half of January, so that the officials, some of whom go out of office on New Year, will not get their October, November and December pay until the end of next month.

Boundary Question Settled.

Santa Fe, Dec. 26.—The northern boundary of Curry county was involved in the suit just decided by Judge Gratville A. Richardson in J. L. Whitfield vs. John B. Yeakley. Twenty witnesses were heard and much technical testimony submitted. Judge Richardson sustained the survey of County Surveyor Hitchcock, holding that the survey was in accordance with government requirements in establishing corners where none had been established by the government, or in restoring lost or obliterated corners.

Grob Outposts Moha.

Buffalo, N. Y., Dec. 26.—Harry Grob of Pittsburgh, decisively outpointed Bob Moha, of Milwaukee, in a ten-round bout here tonight. Grob carried the fighting to Moha throughout, and the Milwaukee man did not show his best form until the last two rounds. Grob weighed 160 pounds and Moha 167.

Hugh Calkins' Father Dead.

Silver City, N. M., Dec. 26.—Hugh G. Calkins, supervisor of the Gila national forest, has returned from Berkeley, Calif., where he was called by the last illness of his father, Capt. Charles Gilman Calkins, U. S. N., retired, who subsequently died. He was a commanding officer of the Pacific fleet, his father, Dewey, fleet into Manila bay and was in charge of subsequent naval operations resulting in the capture of Manila. He graduated from Annapolis in 1871 and was retired from the navy in 1905.

MINING VALUES

OF NEW MEXICO

TAKE A BIG LEAP

For First Time in Many Years Mineral Output of State Is Equal to That of Agriculture and Horticulture.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.) Santa Fe, Dec. 26.—For the first time in many years the value of the output of the mines in New Mexico equals that of New Mexico agriculture and horticulture, for the total product of New Mexico mines in 1916 sums up \$10,000,000. However, if live-stock is included in farming operations, as it is officially, New Mexico farm products are still 50 per cent ahead of the mine products.

The United States geological survey places the output of New Mexico mines for eleven months of 1916, with an estimate for December, as follows: Gold, \$1,350,000; silver, 1,800,000 ounces, lead, 7,100,000 pounds, copper, 91,400,000 pounds, zinc, 26,500,000 pounds, valued in all at \$23,369,400, as compared with \$1,461,105 in gold, 2,905,621 ounces of silver, 4,600,000 pounds of lead, 76,788,360 pounds of zinc, and 25,404,954 pounds of zinc, valued in all at \$12,278,468 in 1915. To this must be added a coal production of \$7,000,000 and possibly \$5,000,000 for clay, lime, building materials, gypsum and other minerals. The preliminary figures compiled by Charles W. Henderson of the geological survey show decreases of \$111,195 in gold and of 265,531 ounces of silver, but increases of \$167,596 in silver, 14,611,634 pounds in quantity and \$11,512,230 in value of copper, 2,557,629 pounds in quantity and \$259,393 in value in lead, and \$1,995,936 pounds in quantity and \$2,349,896 in value of zinc. The total value of the five metals increased \$14,190,000, or fearfully 44 per cent.

Mogollon District Rich.

The Mogollon district, Socorro county, continued to be the most productive district in New Mexico in output of gold and silver. There was a great deal of new development work in the district in 1916 but the yield decreased appreciably. The Socorro (Pamplona) mines and the Mogollon (Ernestine) mines and mills were active. All the ore was milled in the district by concentration, grinding and agitation and percolation in cyaniding solution, the bulk of the product being high-grade gold bullion and gold concentrates.

The Casaca cyanidation mill, in the Cochita district, Sandoval county, closed in December, 1915, was started up again in the spring of 1916 and contributed a considerable yield of silver and gold.

The El Estrella mine, in the Lincoln county, which has been steadily increasing its shipments of siliceous gold and silver bearing copper and dry ores, again greatly increased its tonnage shipped. The copper concentrates of the Chino Copper company, containing as high as 75 per cent of copper, contributed to the gold yield. The continued activity of the mines and mills smaller at San Pedro, Santa Fe county, also added an increased quantity of gold to the New Mexico yield. Shipments of gold from the Jarilla district, Otero county, carried some gold.

Copper Main Product.

The principal metal produced in New Mexico is copper, and since 1910 the yield has been chiefly from the Chino Copper company's low-grade deposits at Santa Rita. The ore is milled at Hurley in a large wet-concentration flotation plant. During 1916 the largest tonnage in the history of the company was treated and the gross output was 75,000,000 pounds. The Hurro Mountain copper company's new concentrator began operations in April and started running at full capacity June 1, 1916. Much development work has been done at this property and the reserves are sufficient to supply the mill for years. The Santa Fe Gold and Copper company's 125-ton matting plant, at San Pedro, added a considerable quantity to the copper output. Copper ores were shipped from the Hurro Mountain property to the Hurro Mountain concentrator.

Where the Phelps Dodge company has secured a large area which it has been developing during 1916. This district will produce all five metals. A large tonnage of low-grade copper ore with siliceous gangue was shipped from the Apache mine, Hachita.

The yield of lead shows an appreciable increase. Lead ores were shipped from the Central, San Simon and Pinos Altos districts. Grant county, and Cook's Peak and Victorio districts, Luna county. Considerable tonnages of lead carbonate ore were shipped from Kelly, Socorro county.

Increased shipments of zinc carbonate and siliceous zinc ores were made in New Mexico in 1916. At Kelly, Socorro county, the principal producing mines were the Kelly, Graphite and Juniper. The Clark mill was operated continuously up to the time the ore in August of the Kelly mine was exhausted. At Hanover, zinc carbonate ores were shipped from the Hanover mines and others, and from June on zinc sulphide concentrates were shipped from the Hanover magnetic separation mill at Pinos Altos. A mill was erected in the revived Steep Rock district, Grant county, and some shipments were made. Zinc carbonate ores were shipped from the Magdalena, Hanover, Cook's Peak, Florida mountains, Tres Hermanas and Pinos Altos districts. Shipments of zinc ore and concentrates from New Mexico were 73,500 tons of 20-35 per cent grade, as compared with 41,542 tons of 26 per cent in 1915.

Hugh Calkins' Father Dead.

Silver City, N. M., Dec. 26.—Hugh G. Calkins, supervisor of the Gila national forest, has returned from Berkeley, Calif., where he was called by the last illness of his father, Capt. Charles Gilman Calkins, U. S. N., retired, who subsequently died. He was a commanding officer of the Pacific fleet, his father, Dewey, fleet into Manila bay and was in charge of subsequent naval operations resulting in the capture of Manila. He graduated from Annapolis in 1871 and was retired from the navy in 1905.

HOLIDAY TRADE

OF SILVER CITY

BREAKS RECORDS

Prosperity of People Reflected in Big Business Done by Merchants; Large Christmas Stocks Exhausted.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.) Silver City, N. M., Dec. 26.—The holiday business in Silver City broke all records in the town's history thus reflecting the prosperity now abounding. Firms which have been in business for from twenty to thirty years increased their gross December sales from 10 to 50 per cent. In some instances, large extra stocks of Christmas goods were entirely sold out several days before Christmas. Every firm will show big gains in their gross business for the year past and consequent increases in their net profits.

As a result of this local prosperity, employers almost without exception rewarded their employees with substantial cash gifts on Christmas day. It is estimated that in Silver City alone no less than \$10,000 in cash was distributed on Christmas day. Some of the firms will make their cash distributions on New Year's day. The banks were unusually generous with their employees.

Building Boom.

The year just closing has been a record-breaker in many ways that one in Silver City. Building operations have been the greatest the past year in a decade, the building permits totalling over \$500,000. These include permits for new business blocks, store buildings and residences, chief among which is the magnificent new home of the American National bank, to cost \$300,000 when completed. In addition, the mining companies of the nearby camps have installed machinery at a cost of thousands of dollars. This is not taking into account a million or more dollars spent by the Bureau Mountain Copper company at Tyrone in completing its model mining camp.

Never has Silver City faced the advent of a new year with brighter prospects for greater growth and prosperity. Chief among the prospects for the year 1917 is a tourist hotel to cost \$100,000, which is sure to be built.

SOUTHWESTERN PART

OF NEW MEXICO ENJOYS A WHITE CHRISTMAS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.) Silver City, N. M., Dec. 26.—The weather man surprised Silver City and all of southwestern New Mexico with a white Christmas. Following a fall and early winter of extremely mild weather, with no snow, Christmas morning dawned cloudy and by 3 o'clock snow began to fall. It fell throughout the day and the fall totalled about two inches. The snow was accompanied by a considerable wind. Because of the unusual dryness of the winter so far, the snow came as a welcome relief to stock-growers and farmers and since no considerable drop in the temperature occurred, there were no losses of livestock or undue suffering.

Sunday evening the Woman's club staged its municipal Christmas tree on the downtown streets. Hundreds of children joined in a carol service around the tree, which was brilliantly illuminated and beautifully decorated. A crowd of several thousand people were present at the festivities.

No gifts were distributed, the Woman's club having this year confined its work to distributing clothes and food to the needy poor. No family in need was overlooked, and every poor family in the city had a Christmas dinner Monday.

Vegas Fireman Breaks Foot.

East Las Vegas, N. M., Dec. 26.—Hurled to the ground when the hose truck was overturned late Christmas afternoon, Nick Sundheim, a member of the East Las Vegas fire department, suffered a broken foot. The firemen were on their way to answer an alarm from Railroad avenue, where a fire at the home of Nicholas Chaffin burned out. A bitter wind was driving a swirling snow before it, and the horses became unmanageable. Chief Fred Phillips and Driver Diadico Duran were unhurt.
