EXPLOSION OF DYNAMITE

Two Freight Cars Filled With the Material Collide With Disasterous Results.

TWENTY-FIVE KILLED

Only Nine Inhabitants of Town of Jackson Escape Injury—Everything Within Radius of Half Mile Wrecked.

Ogden, Utah, Feb. 20.—The explosion of a car of dynamite yesterday afternoon at Jackson, a telegraph station on the western end of the Great Ogden Loop cut off of the Southern Pacific, caused the death of 25 persons. Fifteen others were injured, several fatally. The explosion was caused by the collision of two freight trains due, it is said, to the failure of the air brake to operate. Everything within a radius of half a mile was wrecked and the town terrace fifteen miles north was shaken as by an earthquake. The sound of the explosion was heard in this city 81 miles from the scene of the disaster. Eight of the dead and five of the injured are Americans, the others are Greek laborers. Of the 46 persons at Jackson at the time only nine escaped death or injury.

OFFICIAL MATTERS.

Rehearing Ordered By Land Board.

In the case of Mrs. J. E. Klesner of Picacho, Lincoln County, versus W. H. Lumley, involving the prior rights to lease to section 16, township 11 south, range 18 east, the secretary of the interior having decided that no valid lease of the section now exists, the territorial land board upon Mrs. Klesner's petition has granted a rehearing of the case, at which the applicants for lease of the section are cited to furnish testimony establishing the preference right to the lease, in the matter; this will come up before the territorial land board at its regular session on the first Monday in April. The history of the case is quite interesting. The school section was taken up by Mrs. Klesner's father James Casey thirty-three or more years ago, when all that portion of New Mexico was still in Socorro County. Casey made a homestead entry for part of the section, but the description given was erroneous and the patent that was awarded him contained lands which were not occupied, entered nor improved by him. Mrs. Klesner through her father and her mother has had and has possession of the cultivable part of this section. In 1892 Lumley appeared and squatted upon part of it. Applications for lease under the territorial land laws were made by her and by Lumley in 1899. A lease was awarded her but was not approved by the secretary of the interior, as no appraisal of the land accompanied it. Before she could correct her application, Lumley filed application for lease. This application was also disapproved as it contained no appraisal. Since then the territorial statute providing for appraisal before lease is granted, has been repealed. Both claimants are, therefore, cited as above.

THE ALAMOGORDO STRIKE.

It Has Crippled the Service on the El Paso and Northeastern Railway Considerably.

The strike at Alamogordo of the shopmen and clerks of the El Paso and Northeastern Railway is still unbroken although Chief Clerk Parker has resigned. The union men insist upon the resignation of Chief Dispatcher Murphy because he helped to get a locomotive out of the round house during the last strike. The railroad is badly crippled on account of the strike and the Rock Island is sending its Limited over the Texas and Pacific by way of Fort Worth.

FIRST LAND BATTLE OCCURS

Reconnoitering Parties Meet on Corean Territory and Japanese Are Taken Prisoners—American Women and Children Being Re- moved From Ping Yang District.

St. Petersburg, Feb. 20.—A dispatch from Port Arthur today says the first land encounter occurred yesterday. A detachment of Cossacks attacked a small detachment of Japanese troops on Corean territory. The Cossacks captured some Japanese prisoners on whom they found maps and papers.

The collision was presumably between reconnoitering parties. A general engagement is not anticipated immediately. A special Port Arthur dispatch says the Japanese fleet was observed on February 18, cruising off that port. Reports from northern Korea say that the Koreans are showing a decidedly friendly attitude to the Russians.

Russian Patriotism Aroused.

St. Petersburg, Feb. 20.—With reference to the story of disaster to the Russian troops at Lake Baikal, one report saying that three regiments were drowned, it is explained that the Trans-Baikal line was blocked during the night of February 18 by an avalanche of snow. A train with troops on board dashed into this obstruction and the locomotive and five cars were derailed. One soldier was killed, five severely injured, and fourteen slightly hurt. Further advices from Port Arthur say that all the women and children and most of the male civilians have left the place. The wave of patriotism sweeping over the empire seems to be swamping racial feeling, even the wild tribes of the Caucasus, the discontented Fins and the sullen Poles coming forward to volunteer their services to the common fatherland. An instance of devotion among the Czar's Hebrew subjects is afforded by the act of 45 Jewish doctors in throwing up their practices to go to the front. The Czarina who continues to take great personal interest in the work of providing for the sick and wounded of the war, presided today at a special meeting of the Ladies' Patriotic Society and presided at service held at the winter palace. During a discussion regarding the utilizing of the services offered by the womanhood of Russia, the Czarina's suggestion to temporarily suspend the studies in the girls' schools in order that the girls might devote their time to sewing for the soldiers was applauded.

Russia to Build Vessels.

St. Petersburg, Feb. 20.—According to the terms of an imperial order just issued, political suspects, under police surveillance, are permitted to enter the army in the field as privates, after which the minister of the interior and the minister of justice can order the withdrawal of police supervision over such persons. Another decree appoints a special commission under the presidency of the hereditary Grand Duke Michael Alexandrovich, a brother of the Czar, to arrange for the most speedy construction of submarine boats, cruisers and other vessels to meet the expense of which a public subscription has been started by the press.

Disturbances in North Korea.

New York, Feb. 20.—A Herald dispatch from Chemulpo says that disturbing news regarding the disturbances in north Korea has been received. United States Minister Allen is sending a transport to remove American women and children from the Ping Yang district to Chemulpo. There are about 40 American residents in the district. A dispatch from Seoul says the American Gold Mining Company, operating a valuable concession 60 miles from the Korean frontier at Wiju fears trouble from the Chinese and Korean bandits infesting that region.

Principles of Note Acceptable.

Berlin, Feb. 20.—The foreign office several days ago, instructed the German ambassador at St. Petersburg and the German minister at Tokyo to communicate to their respective governments, Germany's adherence to the principles in Secretary Hay's note on the neutrality of China. Both powers gave general assurances that those principles were acceptable to them.

U. S. Cruisers Sailed for Shanghai.

Manila, Feb. 20.—The United States cruisers Cincinnati and Albany, of Rear Admiral Evans' fleet, have sailed for Shanghai.

Spain Preparing for War.

Madrid, Feb. 20.—Two regiments of infantry at San Sebastian and two at Pampeluna are held in readiness to start for the Balearic Islands. The war minister has also sent a circular to the military authorities ordering the

recall of all soldiers on a furlough and to retain with the colors the men whose service terminates soon. These measures have caused considerable excitement which was not diminished by the rumors that the military activity was due to a warning from European powers to effect that in the event of a continental war Great Britain intended to seize points on the Spanish coast.

Wild Rumors Prevail.

Paris, Feb. 20.—Wild excitement prevailed on the Bourse today as a result of startling contradictory reports concerning possible world complications growing out of the war. The rumors included the prospective mobilization of the German and French armies. The papers also said that a serious influence was exercised by the report of difficulties between the United States and Russia in consequence of the refusal of Russia to grant an exequatur. Leading securities fell heavily.

Military Activity in Sweden.

Stockholm, Sweden, Feb. 20.—Unusual naval and military activity is being displayed in connection with the neutral measures. The coast artillery has been ordered to be in readiness, war ships are being sent to Gotland Island and the coast defense battalions and torpedo boats have been ordered to prepare for active service.

Small Detachment of Japanese Captured.

St. Petersburg, Feb. 20.—Major Ping, chief of the staff of Alexieff, telegraphed from Port Arthur as follows:

"The situation at Port Arthur is unchanged. The Cossacks marching from Wiju captured the Japanese Major Tatsuru with five soldiers and two civilians. Reports regarding the enemy are generally contradictory and scarce. It is confirmed that troops of the Chinese army are being dispatched to Tsin Chou and Kuantze. All is quiet in Manchuria."

Russian Ambassador Recalled.

London, Feb. 20.—Count Benckendorff, the Russian ambassador, left London today for St. Petersburg. The papers made a sensation of his departure connecting it with the rumors that the Czar was displeased with the ambassadors at Washington and London, and with the late minister at Tokyo. The uneasiness exhibited on the continent regarding the possibility of a European war which may ensue from the struggle in the far East, is not shared by Great Britain.

ROYAL DECREE DATED 1621

King Philip of Spain Declares That Friction Between the Civil and Religious Authorities in the Province of New Mexico, Must Cease.

MORE HUMANE TREATMENT

For Converted Pueblo Indians Directed—Due Respect to Be Paid the Governor By the Ecclesiastical Authorities.

The oldest paper in the collection of manuscripts known as the "Santa Fe Archives" is a copy of a royal "cedula" sent to the viceroyalty of Mexico early in the seventeenth century by King Philip of Spain. It is written in a fine hand on paper now fast falling to decay, and is entitled: "A Simple Copy of a Cedula Sent Through the Royal Audiencia of Mexico to the Governor and the Custodian of these Provinces, January 9, 1621."

An elaborate introduction, giving most of King Philip's titles, is worded thus:

"Don Philip, by the grace of God, King of Castile and of Leon, of the two Sicilies, of Jerusalem, of Portugal, of Navarre, of Granada, of Toledo, of Valencia, of Galicia, of Majorca, of Seville, of Sardinia, of Corsica, of Murcia, of Jaen of the Arabs of Algiers, of Gibraltar, of the Canary Islands, of the Islands and Lands of the Ocean; Archduke of Austria; Duke of Burgundy, Brabant and Milan; Count of Hapsburg, of Flanders, of Tyrol and Barcelona, Senor of Vizcaya and of Molina, etc., To you the venerable father, Friar Estevan de Perea, of the order of the Seraphic San Francisco, custodian of the religious (convents) of the said order who live in the frontier provinces of Mexico, or to any other prelate in whose charge may be the said custodial religious of this (order), be it known that in the council which was held on the 29th of July of this year by the Marquis of Guadalupe, my kinsman—(who is) my viceroy, governor and captain general of the provinces of new Spain and president of my audiencia and royal chancery, and by the three senior judges of my said audiencia now assembled and by my fiscal, in accordance with an order which I gave, there were seen some private letters, memorials, testimonials and other papers written by secular as well as ecclesiastical persons in the said provinces and sent to my viceroy, which tell of the rivalry of jurisdiction and other (things) which have existed between you, the said custodian, and my said governor.

"The paper states that Friar Estevan by virtue of certain rights granted him in the bulls of their holiness Leo X and Adrian VI, assumed the powers of a common judge and gave his opinion in all sorts of cases, those dealing with private affairs as well as those connected with the church; that the governor of the provinces was unable to act on a single matter, not even those touching his own government without first consulting and then following the advice of Friar Estevan and his religious followers.

The king further states that he still has under consideration certain complaints presented to his viceroy, which give evidence of the trouble which existed in the provinces between Friar Estevan's predecessors and the two governors, Don Pedro de Peralta and Bernardino de Zeballos. These prelates are accused of excommunicating governors without authority and of imposing public penances before absolving them. "Wherefore," says the King, "in order that things may proceed in the right way from now on and that similar scandals may be avoided I request and charge that, since you the said father custodian, have power in the said provinces, you use it and exercise it according to the right, in those spiritual and ecclesiastical cases which may be of your jurisdiction, and in these you proceed without leaving the other religious of your custodial interfere in anything but the administration of the sacred sacraments." "And do not proceed in any way against secular persons unless it be in ecclesiastical things (and then do so) according to what is right."

The King makes it possible for persons who are dissatisfied with Father Estevan's judgments to appeal to the "metropolitan judge, the Archbishop of Mexico." In which case Father Perea is to suspend the execution of his sentence till the royal audiencia of Mexico investigates the matter. "And," he says, "because of the papers seen in the said meetings, it has been inferred that you, the said father custodian, have tried to deceive the Indians of these provinces and to give them to understand that your authority was the highest and that from it and from your hand depend all things." NO. 1, VOLUME 41, OF THE DAILY NEW MEXICAN.

With this issue the Daily New Mexican commences its 41st year; today's paper bears No. 1, Volume 41. During the past 40 years, as the files of this paper abundantly show and clearly demonstrate, it has been laboring assiduously and energetically, daily, rain or shine, good times or hard, through all sorts of political weather, for the advancement, for the good, for the prosperity and for a clean name and fair fame for the people of this Territory. This course, it will continue, the management hopes, for many years to come. The history of the Daily New Mexican for the past 40 years is closely interwoven with that of the Territory and its file: are the most interesting and complete compendium of what happened during these four decades within these territorial limits. The New Mexican thanks the good people of the Territory in general and its many friends in particular for the patronage extended to it and hopes and asks that the same will be continually increased as the Territory increases in population, in wealth and in importance. The New Mexican for these many years has been fearless and courageous in supporting what it has believed to be right and for the good of the Territory; with the exception of three years during this long period, it has been in politics staunchly and uncompromisingly Republican; it will continue this course, Providence willing, for many years to come.

The Democratic leaders of the Territory figure that New Mexico and Arizona combined will be a strongly Democratic state, hence they are for combined statehood. The New Mexican at this time does not care to discuss this phase of the situation. This paper will make its fight for single statehood for this Territory within its present limits, believing this boon can yet be attained by such a fight. The battle has just begun and it proposes to stay in it until the end. It believes the statehood proposition for New Mexico will be victorious, and as there is but one way to prove this belief it will take it. If victorious, of course, all will be well and good, if beaten, then perhaps another policy must be adopted. But this bridge has not yet been reached and the New Mexican does not propose to cross it until it is necessary.

This paper is gratified to know that the educational institutions and public schools in the towns in the Territory will have a creditable educational exhibit at the St. Louis World's Fair. It is reported that the graded schools of every incorporated town in the Territory will be represented in that exhibit, except one. It is not known why the authorities of this one school should fail to do so, and it is not creditable to them that this should be the case. Of course, as far as the country school are concerned, not very much can be done by them.

More outrages on Jews at Kieff and other Russian towns are reported. Evidently Russia believes this an excellent way to whip Japan.

A MESSAGE TO THE DEMOCRACY!

In his usual ponderous style ex-President Cleveland has addressed a letter to the Saturday Evening Post. He opens his message in this cheerful manner:

"More than three years ago, in a contribution to the Saturday Evening Post, after referring to the disasters that had overtaken the national Democracy, I pleaded for a better recognition by the organization of the rank and file of the party, who were undismayed by defeat, still staunch in their devotion to our time-honored principles, and still eager to fight for their supremacy under trusted leadership. I then claimed no higher position in party direction than a place among those composing this rank and file; but writing after a second deplorable Democratic rout, invited by a fatuous persistence the disposition of those who bear the brunt of party battle in these words: 'Our fighting forces will respond listlessly and falteringly, if summoned to a third defeat in a strange cause; but if they hear the rallying call of true Democracy they will gather for battle with old time Democratic enthusiasm and courage.'"

The allusion to "a fatuous persistence in new and strange party councils" is a blow in the solar plexus of his good friend Mr. Bryan, who will no doubt receive it in the conciliatory spirit in which it is given and then will reciprocate at the earliest possible moment, the result being an increase of harmony and brotherly love among the sadly disunited Democracy. Having shown his desire for reunited councils Mr. Cleveland proceeds as follows:

"Great changes have occurred since this was written—changes full of party encouragement and full of inspiration to conscientious Democratic duty; and because of these changes I am asking my rank and file associates to indulge me again while, through a medium which reaches thousands of American homes, I speak of better days for Democracy and safer days for our country."

"If any word of mine shall, in the least degree, awaken the hope of hearing again, 'the rallying call of true Democracy,' and thus arouse 'old time Democratic enthusiasm,' I shall be content."

"I am one of those who believe that there is an opportunity for Democratic success in the coming presidential election."

The "rallying call of true Democracy" so carefully placed in inverted commas does not, of course, include the mild and placid Sage of the Platte nor his still, too numerous, following and it would seem that the only living ex-president, and prospective candidate for another defeat, has a childlike confidence that his wing of the Democratic bird is strong enough to fly without the other wing or wings, as he says he is one of those who "believe that there is an opportunity for Democratic success in the coming presidential election." As he does not inform the dear people who the other sanguine individual is who shares in his belief they are left in ignorance on that important fact. If the befogged Democracy can glean any encouragement from the following typical Clevelandesque announcements they must be very sanguine individuals indeed:

"Another incident that supports a belief in Democratic opportunity is found in the apparent determination of our party organization to recover the harmony in council and the unity of action that in times past have so often presaged Democratic success. 'The conditions thus presented certainly justify the assertion of Democracy's opportunity. It should be remembered, however, that opportunity may be only distantly related to actual accomplishment, and that it does not of itself, unaided and alone, warrant the expectation of reaching successful results. Beyond all doubt, in reviewing the Democratic situation, the vital question is whether our opportunity shall be so supplemented that it may grow to a confident hope or anticipation of party success.'"

A reassuring answer to this question is contingent upon the patriotism and wisdom of Democratic behavior. It is most encouraging to note the apparent recognition of this contingency among those influential in party councils. It will be exceedingly fortunate if they inexorably appreciate the fact that wise leadership should look upon the favorable party portents now in the political sky as creating party responsibility which can be met only by a sincere and honest offer of reasonable measures of public security and prosperity and by truthful pledges of conscientious political service—all predicated upon "the unadulterated creed of safe Democracy."

"The apparent determination of the Democratic party organization to recover harmony in council," is easily seen in the united action of Cleveland, Bryan, Morgan, Murphy of Tammany Hall, Hill, Hearst, Tom Johnson and other alleged leaders each of whom has his own way of leading the Democracy out of the wilderness. Mr. Cleveland must have had an inkling of this harmonious state of things when he throws out this ominous warning. "It should be remembered, however, that opportunity may be only distantly related to actual accomplishment." Is not that an owl-like sentiment? But here is another egg of thought that the Democracy may hope to hatch a chicken of success out of: "Beyond all doubt, in reviewing the Democratic situation, the vital question is whether our opportunity shall be supplemented that it may grow to a confident hope or anticipation of party success." At the risk of mixing metaphors we may say that that is about as hard a one as the national question, "how old is Ann?" Can any of the New Mexican's Democratic contemporaries solve it?

When the life of Mrs. Ruff was hanging in the balance she used Dr. Pierce's Favorite Prescription and was restored to health. Her experience made her the firm friend of the medicine that cured her.

Dr. Pierce's Favorite Prescription has no equal in its cures of womanly diseases. It establishes regularity, dries the drains that weaken women, heals inflammation and ulceration and cures female weakness.

"Five years ago when my life was hanging in the balance, Dr. Pierce's Favorite Prescription was brought to my home," writes Mrs. Caroline Ruff, Director of German Orphan's Home, residing at 339 Rowena Street, Detroit, Mich. "I took it, and it won me back to health. Ever since that time, I have been its firm friend. We frequently have mothers come to our 'Home' who are suffering with uterine troubles, inflammation, tumors and ulcerations. Our great remedy for a female trouble is Dr. Pierce's Favorite Prescription, and we have found nothing so far which would so quickly cure the disease, relieve inflammation and stop pains. It is a good friend to women."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Uncle Sam is after the revolutionists in Santo Domingo and the scamps are taking to the tall timber.

The old maxim that "cannons are the last arguments of monarchs" is being changed by the Russo-Japanese war. Torpedoes seem to beat cannons all hollow.

No delay should be incurred in the survey and platting of the lands in the Fort Marcy Reservation that are to be sold. The sooner this matter is disposed of, the better for the educational and material interests of this city.

The indications are that the Democratic leaders in New Mexico will adopt as the campaign keynote, "combined statehood with Arizona." Let them go ahead. With such a campaign cry, the Democratic party in this Territory will be beaten at the polls in November next, just as it was in November, 1902.

The Taos County Republicans have placed themselves squarely on record and demanded statehood for New Mexico within its present territorial limits. Their resolutions have the right ring. The Republicans of Taos County have the best interests of the people of New Mexico at heart and their recent resolutions so show.

It seems that those Missouri Democrats have never forgotten the Kansas border war and still have it in for those Kansans. A St. Louis grand jury recently indicted U. S. Senator W. R. Burton of the Sunflower State and the Kansans retaliated by catching a Missouri bank robber who is a beloved member of the Democratic boodle gang in that state.

It is beginning to look bright for single statehood for New Mexico. The political wind is veering in Washington in favor of giving New Mexico what she fully deserves and is entitled to by right, by population, by wealth, by ability to support a strong stable and efficient state government and by the treaty of Guadalupe Hidalgo. New Mexico has a much stronger case in this respect than any state that has been admitted to the union since 1850. A state government was guaranteed to it by solemn treaty between this country and Mexico and the Congress of the United States is morally bound to carry out this treaty stipulation.

MINES AND MILLS.

RIO ARRIBA COUNTY.

A rich strike of coal is reported from the country west of Ojo Caliente, known as the Gallinas district. The location is about two miles from the survey of the proposed railway line from San Felipe to Durango and about 40 miles southwest of Tres Piedras. The Tres Piedras Mining Reporter says: "The Denver & Rio Grande Railroad Company has been apprised of the discovery and has a force of men in the country making an examination of the deposit and the feasibility of building into the district from the proposed line to run via Ojo Caliente when the Antonito and Santa Fe branch is standard gauged. This vein of coal is claimed to be of the finest quality of bituminous coal and is nearly six feet thick on the surface. R. W. Tandy and W. H. Raymer are the discoverers and are now on the ground taking up land. It is claimed the line of railway will tap the immense deposits of mica in Alamos Canon west of Petaca and enable those properties to be worked, they lying idle at present on account of the long haul by wagon to the railroad. The Superior Mica Company of Milton Pennsylvania, has just completed annual work on about 125 acres of ground in this canon and is preparing to begin the shipping of mica in a short time."

Work is going right along on the Jawbone in the Bromide district and there is no doubt that it will soon be a producer. A well defined fissure vein with a good foot and hanging wall was struck in the drift from the 100 foot level at a distance of 33 feet, and in drifting from east to west it was found to be four feet wide. It will take about 50 feet more to cut the main ore body from the 60 foot level in running the drift from the 100 foot level running north. It will take the rest of February to reach this point.

Several of the mining states and territories have passed mining laws which in most cases require the performance of certain acts in addition to those imposed by the federal statutes. It has been contended by some that the states and mining districts have no authority to pass and enforce such laws.

Secretary Teller expressed doubt whether a state legislature had any right to attach additional conditions to the requirements of the United States laws, but Commissioner Williamson held that such requirement is not in conflict with congressional law. The state courts have uniformly enforced this class of provisions, and there being no authoritative ruling denying the right of the state to make such legislation, it is assumed these conditions are valid. Several commonwealths have laws which require the sinking of a discovery shaft or its equivalent prior to the completion of location. These commonwealths are Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Washington and Wyoming. The Circuit Court of Appeals for the ninth circuit (case of Northmore vs. Simmons, 97 Fed. 386) decided that it was competent for the laws of a state or the local regulations of a district to increase the amount of actual work required to hold a mining claim by the federal law, and upheld the validity of the regulation.

The federal statute provides: "Upon a failure to comply with these conditions provisions defining method of making location, marking corners on the ground by means of posts or monuments, annual assessment, etc.) the claim or mine upon which such failure occurs shall be open to relocation in the same manner as if no location of the same had ever been made; provided that the original locator, his heirs or assigns, or legal representatives, have not resumed work upon the claim after failure and before such location." A, having resumed work through his agents before B made his location, debar B from claiming the ground and it is unnecessary for A to make a new location. The claim is as much in force as though he had done the assessment as required by the statutes during all the years following his date of location. The assessment work, however, to the amount of \$100 must be completed.

Copper deposits are not confined to any particular geological age, but occur in rocks of almost any age and in many different kinds of rock. The United Verde mine of Arizona is in slaty and schistose rock, with limestone, all of pre-Cambrian age. Those of Butte, Montana, are in granite; those of Missouri are in Carboniferous limestone; those of Bingham district, Utah, are in porphyry and limestone; those of Cananea in similar formations. Many copper deposits are in diabase and diorite, or in schists altered from those rocks. The copper deposits of Paradox Mountains, Colorado, are in sandstone. Copper also occurs in serpentine and in quartz porphyry.

CAN'T KEEP IT UP.

Can't Deceive Santa Fe People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Eusebio Escudero, hack driver, of Griffin st., says: "I cannot exactly say how long it is since I first noticed that I was subject to back ache, but it must be nearly three years. It never was sufficiently painful to lay me up, but it worried me considerably every now and then. Noticing Doan's Kidney Pills advertised to stop backache and other symptoms of kidney complaint, led me to reason if this remedy performed half what it promises, it might at least help and I went to Ireland's Pharmacy for a box. It fulfilled its promises to the letter, for the back-ache stopped."

For sale by all dealers. Price 50 cts. Foster Millburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

General Manager W. S. Hopewell of the New Mexico Fuel and Iron Company and A. G. Kennedy, chief engineer of the Santa Fe Central Railway Company left this morning, overland for the Hagan coal fields to look after the coal interests of the company at that place.

Mr. and Mrs. Willard F. Dunlavy who have been in the city as guests of Mr. and Mrs. F. E. Dunlavy, expect to

leave during the early part of the coming week for Willard on the Santa Fe Central, where they will take up their future home, Mr. Dunlavy being the manager of the company's store at that point.

Miss Bessie Webbe of New York City, who has been on a visit at the Palen residence for six weeks, being a niece of Mrs. R. J. Palen, returned Thursday to her eastern home. Miss Webbe's visit here was made very pleasant and enjoyable by many social attentions and events which were given in her honor. While here she made a number of very pleasant acquaintances and friends.

An elegantly arranged card party was given by Mrs. James L. Seligman, at her pretty residence on upper Palace Avenue, on Monday afternoon, in honor of Miss Webbe of New York. Mrs. Otero won the first prize and Mrs. Underhill the second. There were present: Mrs. Otero, Mrs. Reynolds, Mrs. Sloan, Mrs. Underhill, Mrs. Hopewell, Mrs. Fiske, Mrs. Amado Chaves, Mrs. Davis, Mrs. Fleming, Mrs. Finkbine, Mrs. Lord, Mrs. Arthur Seligman, Miss Palen, Miss Phelps, Miss Stabb and Miss Bright.

Mrs. Arthur Seligman entertained on Tuesday afternoon last at her residence on Palace Avenue at cards in honor of Miss Bessie Webbe of New York. The decorations were very pretty and the colonial hall in the house which is filled with rare and valuable Indian and Mexican antiquities, looked especially handsome. Dainty refreshments were served after the games. The first prize was won by Mrs. Underhill of Indianapolis, the second by Mrs. J. H. Sloan and the third by Miss Anna Davis.

The engagement is announced of David S. Lowitzki, a well known young business man of this city to Miss Mary Levy, the accomplished and charming niece of Mrs. A. Gold of this city. Mr. Lowitzki has lived here from boyhood and has attained an enviable position in business circles, enjoying the respect and good will of the community. Miss Levy came to visit her aunt here from New York City, her home, some months ago and met Mr. Lowitzki. Acquaintance ripened into affection and an engagement followed as a natural consequence.

Mrs. H. O. Bursum and Mrs. Agnes James entertained at a luncheon this afternoon in honor of Mrs. W. E. Martin before her departure for Socorro. The rooms were elaborately decorated, red carnations and smilax were the floral features and were very attractive, red being the color scheme. Electric lights were also used with beautiful effect. Covers were laid for fourteen guests. There were present beside the hostesses and the guest of honor, Mrs. Otero, Mrs. Reynolds, Mrs. McFie, Mrs. Bergere, Mrs. Palen, Mrs. Hopewell, Mrs. Whiteman, Mrs. Laughlin, Mrs. Garrett, Mrs. Wood and Mrs. Diaz.

Captain E. S. Walker of the Eighth U. S. Infantry stationed at Fort Columbus, New York harbor, who has been here on a visit to his brother, John H. Walker and his sister Mrs. W. E. Griffin, left Thursday for his eastern station, having enjoyed his visit and the magnificent weather conditions that prevailed here during that time. Captain Walker has seen much hard and arduous service and has a splendid record as an army officer. He hopes to come to New Mexico when he is entitled to another leave and spend it with his relatives here and in the Territory's mountainous regions, as he is very fond of fishing and hunting.

At the public meeting of the Fortnightly to be given on Monday evening in the Presbyterian Church the following program will be rendered: Chorus, "Yankee Doodle," Paper, "Yankee Doodle," J. C. BOARD OF TRADE
MEETING

Resolutions Regarding the Pajarito Park Bill and the Disposition of Fort Marcy Reservation.

President Prince of the Board of Trade called an adjourned meeting of that body to order last evening at 8 o'clock at the council chamber. The minutes of the previous meeting were read, after which the following resolution was unanimously adopted:

"Resolved, That our delegate, Hon. B. S. Rodey, be requested to urge the speediest action possible on the bill to protect the Cliff Dwellers' National Park from vandals so that the bill may not be lost by delay, as we consider it of great importance to New Mexico."

A lengthy discussion followed in regard to the penitentiary teams using Palace Avenue. Four trips are made each way, every day, with six teams, tearing up that thoroughfare, besides making it impossible for residents along that street to keep their homes clean on account of the dust raised by the teams. Several members of the city council who were present were requested to speak to Superintendent H. O. Bursum to see if a different route could not be selected.

Another resolution was adopted as follows:

"Resolved, That we rejoice at the progress so far made in the matter of the Fort Marcy Military Reservation, and tender our thanks to the mayor and common council for their promptness in turning over the property to the board of education and we now urge the latter board to provide for the sale of the property at the earliest practicable time; and recommend that this sale be in convenient lots for building, at public auction, with a fixed minimum price to prevent sacrifice, and on easy terms of payment."

The board then adjourned.

On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 125,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

DENVER

ROYAL DECREE

DATED 1621

Continued from Page One.

King also finds complaint because the governors have been interfering in the appointment of petit church officers. "My said viceroy sent commandment to my said governors that they order each of the pueblos of those provinces to hold their election of governors, alcaldes, topiles and fiscals and the other officers on the first day of January of each year. And that neither my said governor, nor any other of my justices, nor you, nor any other religious of your custodio, be present at the said election so that the Indians may have freedom to assemble at these. The officers so chosen are to be taken to the governor to be confirmed, that all may be in conformity with what is customary in our said Spain."

There seems to have been some misunderstanding in regard to the collection of taxes from the pueblos. This difficulty is placed for settlement in the hands of the viceroy. Meanwhile the padre is exhorted to "have good and polite relations" with the governor, "because my said viceroy has in the same way ordered and commanded my said governors to have good correspondence with you the said father custodian, and the rest of the religious without interfering in religious cases and business touching your persons and the administration of the doctrine which is in your care."

The King appoints a board to consult about things for the good of the baptized Indians and the Spaniards. The board consists of the governor of the province of Padre Estevan, "of the governor of the Villa Santa Fe and two defenders, if there are such, and if not, the two oldest religious of that custodio, and the cavildo of the Villa of Santa Fe, and of the captains and sergeants whom you think best."

"When one of your said religious shall preach in the presence of my said governor he will do him courtesies with his hood and with his head, without speaking to him a single thing, and if you, the said custodian, are present at the meeting, you can afterwards make another like courtesy. And try so that a religious may go on Sundays and feast days to the pueblos of the Indians, where there may be churches, to say mass for them and to give them the doctrine of the Sacrament."

Father Perea and his co-workers are accused of imposing such severe punishments on the converted Indians who have been guilty of wrongdoing, "that it has resulted that some have gone to the Penol of Acoma and returned to their idolatrous worship." "You will give orders that the religious of your custodio shall not impose similar punishments, especially on those recently converted but that they shall in all things give them good treatment and kindness; and because also your said religious sometimes send large numbers of Indians to the mountains for things of slight necessity which could be done without, do not consent that they go from their occupation and work except for necessary things of the church and the comfort of the household." "For the service of God our Father, and for my service (I charge you) to combine with the peace and quiet and concord of those provinces, the guarding and accomplishing of everything that I have comprehended in this my letter." "And I command that this my said letter be placed in the books of the government of those said provinces, and in those of the custodio which is in your charge and that the original be given to my said governor." "Given in the City of Mexico on the ninth day of the month of January of the one thousand six hundred and twenty-first year."

"Petition and charge to the father custodian of the religious of the order of San Francisco, who live in the frontier provinces of Mexico. What is here contained was agreed upon in the meeting which his excellency had with the three oldest judges and the fiscal of his majesty of this royal audience."

The paper is written in a very quaint style with few marks of punctuation or sentence division. Many of the words are obsolete and the construction archaic. The paper is interesting because it throws light on the government of New Mexico settlements three hundred years ago. It hints at some of the problems which Europeans have to encounter in transplanting their civilization to the new world and it forms a well soiled link in the very incomplete record of early Spanish events.

ITCH-RINGWORM.

E. T. Lucas Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the Liniment on two separate occasions for ring worm and it cured completely, 25c, 50c and \$1.00 at Fischer Drug Co."

TENDENCY OF THE TIMES.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of those diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

HEALTH

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You cannot have indigestion or constipation without its upsetting the liver and polluting the blood. Such a condition may be quickest and best obtained by Herbine the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 3, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Fischer Drug Co.

GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

TERRITORIAL TOPICS.

GRANT COUNTY.

George Cherry, the six year old son of Mr. and Mrs. W. H. Cherry of Silver City, died last week of spinal meningitis. The boy had always been a cripple and although he attended school for over a year, he had frequent attacks of the disease, which finally resulted in his death.

Miss Lena Johnson died last Saturday night from tuberculosis at Silver City. The deceased was 27 years old. The burial took place from the undertaking parlors of W. S. Cox. The pallbearers were W. C. Fowler, C. W. Marriott, H. J. Burgess and S. E. Pollock.

Joseph Mossburg died on Monday morning at Silver City. He came to the Territory in search of health. Mr. Mossburg was a member of the A. O. U. W., which lodge assisted him in procuring good medical aid. The deceased was 44 years of age and for the past several years had been engaged as a cowboy on the Diamond A. ranch near Hachita.

CHAVES COUNTY.

Marion Camp, who left Roswell four years ago for the Philippines as a volunteer, has returned to that city on a visit to his sister, Mrs. Benjamin Daniels and Miss Maggie Camp. He served for about two years, until he was taken ill, suffering from cancer of the face. He has been confined in the hospital in the Philippines for two years and on his arrival in this country had to be taken to a hospital at San Francisco where he was confined for the past three months. As soon as he is able to travel, he will go to a hospital at St. Louis or Washington for treatment.

CHINAMAN WITHOUT PAPERS

He Was the Only One Among Twenty-two at Roswell and May Be Deported.

W. R. Mansfield, the Chinese inspector for New Mexico and Arizona, was in Roswell last week. He inspected 22 Chinamen who are residents of that city and found that all were supplied with papers, but one, and he was placed in jail. The United States marshal at Albuquerque was notified. The Chinaman will be given a hearing before Justice of the Peace F. H. Lea, and if he cannot prove that he had the proper papers, he will be deported. He goes by the name of Ong Tung and claims he has lost his papers.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.
