GRAVE IS UNKNOWN.

Resting Place of America's Great-
est Naval Hero in Paris.

Bones of John Paul Jones in the
Potter's Field.

Secretary Alger Says He Has Done His
Duty and Will Not Resign.

TRAIN ROBBERY IN NEW MEXICO.

Washington, July 12.—Inquiry was recently made at the state department in regard to the grave of John Paul Jones, the great naval hero of revolutionary days, who died in Paris, July 18, 1782. He was buried there with high honors by the French government, but it appears that the present location of the grave is not known. The secretary of state recently addressed a letter to Henry Vignaud, of the United States embassy at Paris, asking whether the grave of John Paul Jones in Paris was known and marked. He received a reply from Vignaud saying that although he made earnest and frequent inquiries of the authorities in regard to the matter he was unable to discover the whereabouts of the grave. One thing established by his inquiries, however, is that John Paul Jones is not buried in the cemetery where the remains of Lafayette lie, as has been supposed by some people. In another quarter it is intimated that owing to the custom prevailing in Paris, that the remains of John Paul Jones were deposited in a rented grave for a term of years and that upon the expiration of the lease, a great many years ago, the bones of this distinguished American patriot were thrown into the potter's field.

AMERICAN BEEF.

Germany Is Said to Oppose Its Introduction into Belgium.

Washington, July 12.—Acting Secretary Brigham, of the agricultural department, had a conference with the president this morning. Both the agricultural and state departments have received information that Belgium has removed some restrictions on the importation of American beef and mutton. The agricultural department has been informed that Germany, upon learning of Belgium's action, immediately issued a decree unfavorable to beef produced from Belgium, thereby preventing American beef from being shipped to Belgium by re-shipment from Belgium. Secretary Hay said this morning that the state department had not yet received advice as to Germany having taken the action charged.

SECRETARY ALGER.

He Will Not Resign and Is Sensitive to Criticism.

Washington, July 12.—Secretary Alger today made to a representative of the Associated Press his first personal statement concerning the reports that he was about to resign from the cabinet. When asked as to the truth of the rumors, the secretary said: "There is nothing in these reports but air," replied the secretary. "I shall not retire this year certainly, and cannot say as to the future. My private business and the state of my health will govern my future course."

"These constant assaults and repeated baseless reports are, of course, very annoying to me and extremely distressing to my family, but I never retired under fire yet, and I do not propose to do so now. Nothing I have ever heard of or known of has been so cruel as the attacks upon me. If my critics can point to one thing in my official career I have done that I ought not to have done, or that I have not done that I should have done, I shall be very glad to surrender my present official duties."

To Repair Steamer Paris.

Gloucester, July 12.—A special train, having on board a large force of workmen, will leave here tonight for Southampton, for the purpose of extensively overhauling the American line steamer Paris. It is said that a Clyde ship has secured the contract and has promised to effect the repairs more speedily than the American builders of steamers of that line.

TRAIN ROBBERY.

Express Car on Colorado Southern Train Blown Open With Dynamite.

Trinidad, Colo., July 12.—The south-bound passenger train No. 1, Colorado Southern railway, was robbed by four men five miles south of Fort Collins, N. M., at 10:30 last night, at the same place a hold-up occurred last September. The robbers blew open the express car with dynamite and went through the safe, but the express messenger says there was nothing of value in it. Others say that it contained a large amount of money. The passengers and mail car were unharmed.

Civil Service Trial.

Guatemala Will Be Forced to Pay Its
Bonded Debt.

QUARANTINE AT SANTIAGO, CUBA.

Washington, July 12.—An offer from a prominent firm of ship brokers doing a large foreign business, to purchase the Reina Mercedes and any and all other war craft captured during the late war, has aroused suspicion that Spain is trying in an indirect manner to obtain possession of the vessels and thus remove the offense to Spanish pride caused by floating the American flag over her ships. The offer mentioned no figure, but simply requested the navy department to name a price for the Mercedes and the remainder of the captured ships. The navy department will not sell any of these vessels and that answer will be returned to the writer of the letter. Secretary Long has decided that it would not pay to attempt to renovate the Mercedes and use her as a warship. The cost would be not less than a half million dollars, and the ship would, when repaired, be of the old type and not up to the requirements of a modern naval ship. Therefore, the repairs to be made upon her will be confined to a little painting and cleaning and patching, and the Mercedes will be left a show ship, like the old Constitution, to gratify the patriotism of the American people.

THE GOLD STANDARD MINE.

R. M. Carley Tells of Its Sale and Conditions There.

A letter received by THE CITIZEN from R. M. Carley, until recently one of the principal owners of the Gold Standard mine at Golden, confirms the article published in this paper on July 8, concerning the sale of the Gold Standard mine to some Colorado Springs people who were given ninety days time to pay for the same, and the privilege of working the mine during that time.

Mr. Carley, in his letter, states that the Gold Standard mine has produced about \$200,000, although not in the last year, as erroneously stated in the article in question. He says that the shaft is 100 feet deep, with a drift of 125 feet. All the gold near the surface has been taken out, so that there is virtually nothing in sight now, although an abundance of free gold can be seen at the bottom of the shaft.

Dr. Carley Says That But for the Crude

man, in which the mine has been worked, the shaft might have been 150 feet deeper than it is to-day, when it could have been sold for twice the amount that it actually brought. The mine is now in the hands of an expert miner, who will undoubtedly develop in the proper way and demonstrate that the New Mexico mountains contain as much precious mineral as mining camps in other states. This would undoubtedly result in attracting capital to the mines of the territory.

Frank E. Sturges has gone to Santa Monica, Cal., where he will enjoy the ocean breeze for a few weeks. Just before his departure for the Pacific coast he called on the president of the Territorial Fair association and gave him his most emphatic approval of a carnival and street fair, with other amusements, for this fall. Mr. Sturges, without a moment's hesitation, placed his name on the fair subscription for \$150, and supplemented his remarks with the generous words: "If you want more, to make the fair the biggest success on the face of the earth, call on me."

G. K. Neher, proprietor of the White

Elephant, accompanied by Geo. S. Blunt, will leave to-morrow morning for El Paso, Texas. Mr. Neher will remain during the day, returning in the evening. Mr. Blunt will remain indefinitely as manager of "The Ruby," a resort recently purchased by Mr. Neher. THE CITIZEN informs the people of El Paso that they will find Mr. Blunt a rattling good gentleman to deal with.

Mrs. Fred Lewis, one of Albuquerque's pleasant young ladies, will leave tonight for Los Angeles, where she will spend six days visiting relatives and friends. She will endeavor to shape her visit so as to return in time for the great Territorial Fair in September, but if not Fred will be expected to do double duty and represent the entire Lewis household.

A car load of the celebrated A. B. C. Bohemian bottled beer received at Melini & Rakin's. These beers—that is the A. B. C. kind—have gained a big footing in this city, and Melini & Rakin proved themselves wide-awake generals by securing the agency.

Misses Lou Hughes and Nellie Booth will leave this evening for Los Angeles, where they will visit friends. They will also visit at San Diego and Long Beach.

Mexican Debt to Be Taken by New
York Capitalists.

Admiral Dewey and His Good Ship Arrive
at Suiz, Egypt.

KANSAS LYSCING FAILED.

New York, July 12.—The Tribune says: One of the certainties in the not far distant future, in the opinion of a trans-continental railway line under Vanderbilt control. The Boston & Albany, New York Central and West Shore and New York Central lines linking New York and Boston with Buffalo. Buffalo is joined to Chicago by the Lake Shore, Michigan Central and Erie. The Chicago & Northwestern, practically a Vanderbilt road, stretches westward to Omaha, where it meets the Union Pacific, the controlling interest in which the Vanderbilts are credited with holding. It, in turn, controls the Oregon Short Line, which virtually controls the Oregon Railway & Navigation Co., reaching the coast at Portland. From Ogden a branch short line goes southward to Milford, Utah, from which point the Utah & Pacific is being built into California, with a view to enabling the Union Pacific to gain entrance into San Francisco. The Santa Fe, report has it, will be combined with the Pennsylvania, to form a second great trans-continental line.

Admiral Dewey in Egypt.

Suez, July 12.—The cruiser Olympia arrived this morning. Admiral Dewey said he was in good health. Most of the men suffered from malarial fever, but have quite recovered. The Olympia has been quarantined. After passing through the canal the Olympia will call at Trieste.

Mexican Debt.

New York, July 12.—J. P. Morgan & Co. announce today the terms of the Mexican gold loan of 1899, amounting to \$10,000,000 American gold. \$22,700,000 English equivalent and 463,000,000 Mexican marks. This is the largest financial scheme ever undertaken by the Morgan houses. It is presumed that their fees is largely in excess of \$1,000,000. Subscription books were opened this morning, to remain open until September 1.

Lynchers Failed to Kill Their Man.

Topeka, Kas., July 12.—Dick Williams, who was hanged to a telegraph pole in Alma, Sunday afternoon, and after six minutes was rescued by City Marshal Pippert, is still alive. Physicians say that he may survive as the neck was not broken because he was raised softly and was given a fall. Twenty-five armed deputy sheriffs are on guard at the jail with orders to shoot to kill if another attempt is made to lynch Williams.

Accused of Bribery.

Crystal Lake, Ill., July 12.—Daniel Coughlin and William Armstrong, accused of jury bribing in Chicago, who failed to appear in Judge Garish's court when the case was called, left here last night for Hancock, Michigan. Coughlin said he would return to Chicago for trial.

Kentucky Republic.

Lexington, Ky., July 12.—After two days' skirmishing, the delegates to the republican state convention met today. The adherents of Attorney General Taylor, candidate for governor, secured the temporary organization.

Will Force Collection.

New Orleans, July 12.—The Picayune prints the following: News of the gravest import from Guatemala was brought by passengers on the ship Breakwater, which touched at four or five of the leading central American ports before putting in here late Monday night. "Just before sailing," said one of the passengers, "I was informed by several persons that England and Germany would shortly make a naval demonstration at two of the leading ports of the republic of Guatemala in order to collect a large amount of bonds issued by the government of Guatemala, held by the English and Germans. These bonds have been practically repudiated and the holders have protested vigorously against their governments."

Dreyfus Trial.

Rennes, France, July 12.—Maitre De-mange, counsel for Captain Dreyfus, had a long conference this morning with the president of the court martial regarding the procedure and date of the trial, which have not yet been fixed. The lawyer afterwards had a two hours interview with Dreyfus.

Yellow Fever Victim.

Washington, July 12.—The adjutant general to-day received a dispatch from Colonel Combs, at Bonien, near Santiago, advising him of the death from yellow fever last night of Captain Thomas M. Woodruff, adjutant of the Fifth United States Infantry. Woodruff was a West Point graduate.

Quarantine at Santiago.

Santiago de Cuba, July 12.—General Wood, in command of the department of Santiago, issued an order to-day establishing absolute quarantine.

Payment General.

Washington, July 12.—The president to-day appointed Col. Alfred E. Bates paymaster general of the army to succeed General Cary, resigned.
