### TONS OF GOLD AT DAWSON.

Houston, Texas, July 5.—A correspondent just returned from a voyage through the flooded districts, says the half has not been told of the severe destruction wrought.

The Brazos for six days covered the valley to a depth of from six to thirty feet, and where a week ago there were every hand fields of cotton, corn and thousands of acres of watermelons and cantaloupes, to-day there is slimy mud over all vegetation. The Navasota bottoms are now a perfect sea, extending four or five miles wide at certain points. I saw hundreds of houses totally submerged and many more built boats and sent them through the flooded districts to render assistance to the people, and, if possible, save some of their drowning stock. The bottoms were thickly settled, mostly with negro tenant farmers. Among these there has been the greatest loss of life. The following estimates have been made: Lives lost, 100 to 300; loss to farmers, including crops as well as live stock, \$5,000,000 to \$15,000,000; damage to railroads, including bridges, \$2,000,000 to \$4,000,000.

At Brookshire the river overflowed the country for miles. No loss of life is reported there. Citizens have asked the governor for assistance. Measures have been taken for the relief of sufferers. Mayor Jones, of Galveston, is making a personal canvass of the business district. No word has been received from Dewey to day.

### DISASTERS IN FLOODED DISTRICT.

St. Louis, Mo., July 5.—A special to the Post-Dispatch from Dallas, Tex., says: At 10:45 to day Deputy Sheriff Swearingen, of Austin county, made the following statement over a long distance telephone at Sealey: "Relief has not yet reached the flood victims in this section. Thirteen dead bodies have been recovered from the town of Brookshire, thirteen miles from here. Forty-five persons above Sealey are reported missing and given up for dead. Seven drowned to-day in a boat, seven miles below Sealey. About 400 persons are isolated on a small piece of land in the Brazos bottoms, three miles from Brookshire. Several hundred more are similarly surrounded at San Phillips, three miles from Sealey. Unless relief can soon reach these two isolated places no lives will be lost. Many will die, it is expected, from hunger, exposure and exhaustion. Water to-day is running through the town of Brookshire, something never before known. The sixty-five lives reported lost here to-day were in a raft of twenty miles north and south of Sealey. We are completely isolated at Sealey, but this town is not in danger."

### DYNAMITE EARTHQUAKE.

The Way Victor, Colorado, Shook Up Things.

Victor, Colo., July 5.—This camp offset the great Pike's Peak illumination by an artificial earthquake. Five tons of dynamite were fired on the east slope of Hill in blasts of 200 pounds in each charge, the last charge consisting of 500 pounds. Great flames arose over the mountain, and a large volume of smoke gathered. The shock was felt at Pueblo, eighty miles away, but no damage resulted.

### HOGG FOR BRYAN.

He Stomped a Tammany Meeting for the Bitter Leader.  
New York, July 5.—Ex-Gov. Hogg, of Texas, who stomped the Tammany Fourth of July mass meeting for Bryan, said last night: "I did not know there was a Van Wyck boom on. I did not expect to attend the meeting at all, much less speak. I don't want anybody to think I was anxious to get an opportunity to spoil a Tammany meeting. No one told me anything about Van Wyck, and how could I be expected to know? What tickled me was the way the boys holed when I said 'Hogg' Bryan and Stone are the men for 1900."

### Catholic Plenary Council.

Marshall, Mich., July 5.—Rev. Fr. P. A. Bart, the well-known canonist, to-day, in the presence of several prominent clergymen gathered from various states for the anniversary celebration, asserted that the fourth plenary council of Catholic bishops of the United States will be held in this country in about two years. Various questions of discipline will be treated.

### Tons of Gold.

Seattle, Wash., July 5.—Gold dust was pouring into Dawson from the Humboldt's passengers left. They allege that

on the morning of June 30 a pack train of twenty horses, each animal carrying 200 pounds of gold dust arrived from Klondoro creek.

There were two tons worth fully \$1,000,000. It is said that eleven horses were weighed down with dust from one claim.

### FOURTH OF JULY ACCIDENTS.

Luis Apodaca, Badly Burned—While Cracker Lanes His Left Eye.

During the big fire works display at the park last evening, young America was well represented by a large number of roguish boys, who showed a commendable love of patriotism by stealing all the fire works they could lay their hands on, without being caught, and then retreating and having a little side show exhibition all by themselves.

### WILLIE CRAMER'S ACCIDENT.

Yesterday afternoon at about 4 o'clock when Willie Cramer, the 7-year-old son of Engineer Charles Cramer, and some other boys were shooting off some fire crackers and fire works in the southern end of town, one of the missiles was accidentally shot straight into Willie's left eye, injuring the eye ball and lacerating the eyelid. There is danger that he will lose the sight of the injured eye, although there is a slight hope that it may be saved.

### The Entering Wedge.

On Monday orders were received at the railroad shops, in this city, to increase the hours of labor in the car department from 45 to 55 per week, viz., ten hours per day on the first five days of the week, and 5 hours on Saturday; and also to considerably increase the force in this department.

Accordingly a few new men are being put to work every morning.

No orders as to the other departments have yet been received, but they will undoubtedly be forthcoming before long. In the meantime the force will continue working 45 hours per week.

W. J. Drummond is an enthusiastic bicyclist, and under his auspices bike races will be given at the fair grounds on July 25. He called at the city office this afternoon and stated that the track at the grounds will be in excellent condition for bicyclists by Monday next.

No orders as to the other departments have yet been received, but they will undoubtedly be forthcoming before long. In the meantime the force will continue working 45 hours per week.

A special train of a dozen Pullman coaches, known as the Kansas delegation to the National Teachers' association convention at Los Angeles, arrived from the north at 3:15 o'clock this afternoon. The train will remain here until about 6 o'clock, when it will move west, making a short stop at the Isleta Indian village, where sufficient time will be given the excursionists to see the site of that quaint town.

A half a dozen Fourth of July drunks appeared before Justice Kibbie this morning. Four of them, who had carried on in a good-natured sort of way, were discharged in honor of the day which they celebrated in such a hilarious manner. Two, who had coupled a little meanness with their drunk, were fined \$3 apiece.

Hon. Frank W. Parker, judge of the Third judicial district and one of the associate justices of the territorial supreme court, passed up the road from Hillsboro for Santa Fe last night.

J. S. Hendrickson, the well-known stage driver for W. L. Trimble & Co., in the city between Thornton and Bland, is in the city to enjoy metropolitan life for a few days. He is stopping at Sturge's European.

A pair of silver spectacles were found on Silver avenue, between Broadway and Arco street. The owner can have same by calling at this office and paying for this notice.

W. M. McCallahan, residing on south Third street, left last night for Colorado. He is interested in several good mines in the Leadville and Cripple Creek districts.

### CHRISTIAN ENDEAVOR CONVENTION.

London, July 5.—The Pall Mall Gazette this afternoon says: The secretary of the war, Marquis Lansdown, in conjunction with military chiefs, completed arrangements to dispatch 40,000 to 50,000 troops of all arms to South Africa in the event of matters taking a turn for the worse. It is added that all the arrangements have been made there for the distribution of the troops on their arrival.

### No Vacancy.

St. Louis, July 5.—Gov. W. J. Stone, whom rumor had appointed to succeed Senator Jones on the democratic national committee, denied the story to-day. In an interview he said that Chairman Jones would not resign the position, and, therefore, nobody would be appointed to succeed him.

### Christian Endeavor Convention.

Detroit, Mich., July 5.—Rev. Dr. Francis C. Clark, in an address at the annual business meeting of the United Society of Christian Endeavor, to-day, said that the convention for the society the past year numbered over 100,000. The convention opens to-night.

### ADVERSE DECISION.

Michigan Supreme Court Decide Against Municipal Ownership of Railways.

Lansing, Mich., July 5.—The Michigan supreme court today decided, in a considerable case, that the city of Detroit cannot bring to the validity of the Michigan law, which authorized the appointment of the Detroit street railway company, whose object was to purchase and municipal ownership and operation of the street railways of Detroit. The decision is that the law is unconstitutional; that there is no such office as the Detroit street railway commission; that Governor Fingess and other commissioners have no title thereto and that judgment of the court must be entered against them. The Detroit plan for municipal ownership has been temporarily blocked by legal difficulties in the way of holding a special election on the question. The court's decision all authority is taken from the commission.

### Mobs in Spain.

Barcelona, July 5.—There was a renewal of disorders here last night. Battered rioters attacked the churches of Santa Matrons and the Jesuits' school. The police charged and the mob pelleted them with stones. Later the police were reinforced by gendarmes and infantry, and finally scattered the mob. Many conflicts took place, and many people were wounded. The theaters are closed.

and showed cause why raises in the valuation of their property should not be allowed to stand.

Those who were able to convince the board that their property had been over assessed, secured the reduction. Many who were notified that their assessments had been raised, did not protest, evidently thinking that the assessor's action was just.

The board before adjourning, approved all the accounts against the company. Those much will be paid on the dollar can not be told until the collector submits his statement of the moneys collected during the past quarter.

### PROBATE COURT DOINGS.

Old Controversy Over Estate of Maria Armiijo Settled—Other Matters.

The probate court is in session at the court house to-day.

The last will and testament of Florencio Apodaca was admitted to probate and an appeal was taken to the district court.

The inventory in the estate of Yrene Ortega de Garcia, for \$325, was presented and approved.

Donatiano Galegas was appointed administrator in the estate of Dominga Galegas.

In the matter of the estate of Ella C. Booth, the guardian, Wm. C. Booth, was authorized to loan the funds of the estate to W. H. Booth.

An account of Jose Badaracco against the estate of Louis Imbert, amounting to \$50, was rejected by the court.

In the matter of the estate of Rafael Armiijo, the hearing was continued until the first Monday in August.

Mequias Martin, one of the administrators of the estate of Yrene Ortega de Garcia, presented his resignation, which was accepted, and the remaining administrator, Diego Garcia, was ordered to file a new bond in the sum of \$7,000, which he has done and the bond was approved.

The last will and testament of Chas. H. Kennedy was admitted to probate, and Mrs. Marion Kennedy was appointed guardian and executrix for the minor child, Mabel M. Kennedy.

In the matter of the estate of Rosana Donovan, Robert T. Strong was appointed administrator, thus making him administrator of her estate as well as that of her husband, W. T. Donovan, to which he was appointed some time ago.

An old controversy was finally settled in the probate court at this term. Some eighteen years ago, Maria Josefa Aragon de Armiijo, of Las Corrales, died, leaving a considerable estate to her husband, Francisco Armiijo, of Perea, and her son, Fernando Armiijo, who were appointed executors of her will. They claimed to have paid the estate within the first year after her death. She was the mother of the wives of Alejandro and Jesus M. Sandoval, of Los Corrales. No final settlement was entered up in the probate court and about a year ago some of the heirs came in and moved for a rule against the executors for a settlement.

Started a fight over accounts, new bonds, etc., which went to the district court and back again since then, and was only settled this term by agreement between all parties and the probate court, which was the final settlement.

Recently the probate court, Francisco Armiijo, of Perea, died and his estate is still unsettled from any liability connected with the administration of his wife's estate. The old gentleman's will is up for probate at the August term of the court. R. S. Rodey for the administration and K. V. Chavez for the heirs, had charge of the legal part of the controversy.

The decorations of the stores in honor of the Fourth of July were much admired. The window of the Economist, which contained a picture of the "Father of His Country," George Washington, and a lamb, not from the renowned cherry tree, attracted considerable attention, while the outside decorations of the Phoenix store and the shoe stores of Geo. C. Gainsley & Co. and Theodore Munsterman were up to date in every particular.

Proprietor Fred. D. Michael, of the Claire hotel, Santa Fe, moved into his new hotel on the corner, known as the Arcade, Monday. This completes the rearrangement so long contemplated and together with elegant sample rooms and dining rooms, makes the Claire the finest hotel in the territory. Special attention will be given to the guests.

One of the inhabitants of the acre had a chair stolen from her house Monday night by a man who was celebrating the Fourth with some of his companions. He will tell his story to Justice Rithbe to-morrow morning.

Grand Master Fumery then proceeded with the Masonic ritual. The crowd used contained all the metals found in Montana. Ka-Segador Sanders, on behalf of the Masonic fraternity, made an address.

We fail to see how you can help but be pleased with our collar and cuff work if it fits like the above. We spare no pains or expense in the purchase of anything that will improve the quality, and we take the greatest pains in having the color and finish uniform. You don't find any broken collars, either, in the lots you send us. It took some money and some time, too, to get that little matter remedied, but we have it now where it should be. You are welcome to call and see us at our work, as we are always pleased to show our methods and receive suggestions.
