A FURIOUS TORNADO

Sweeps Over Herman, Nebraska,
Killing Ten Persons.

The School House and the Church
the Only Buildings Left.

The Work of Rescue in Wisconsin In-
terrupted by Rain.

GENEROUS OFFERS OF ASSISTANCE.

Herman, Neb., June 14.—Ten were
killed and about twenty-five injured
last night's tornado. It is thought that
all are now accounted for, unless the
storm has been more disastrous in the
country. Not a single building in the
town is left whole.

LIST OF CASUALTIES.

Blair, Neb., June 14.—One of the worst
tornadoes in the history of eastern Ne-
braska visited Herman last evening,
sweeping a strip of about twenty-five
miles wide. The school and church are
the only buildings left. The church is
used as a hospital and morgue.

The dead are: A. B. Hopkins, of Her-
man; Mrs. Hopkins, M. Hopkins, a son,
and Mrs. Kelsa, a daughter of A. B. Hop-
kins; W. S. Richards, postmaster of Her-
man; a child of S. M. Davis, Louis Clause,
a machinist of the Missouri Valley;
Thomas Hines, a plasterer, of Blair.

The seriously wounded number eight-
teen.

The train on the Omaha road pulled
into Herman just after the storm and the
crew began the work of rescue. Nearly
one hundred persons were brought to
Blair. This morning relief and assist-
ance were sent to the homeless people,
many of whom have been out in the rain
all night.

RESCUE WORK DELAYED.

In Tornado Swept Districts of Wisconsin—
Offers of Assistance.

New Richmond, Wis., June 14.—No
bodies were recovered from the tornado
ruins last night, the work being aban-
doned on account of heavy rain. Many
persons have been rescued, offering
financial assistance. The militia is con-
trolling the business section of the town.
Nobody is permitted inside the lines.
The number still in the ruins is variously
estimated from 50 to 100. O. W. Mosher,
who has been at the head of the relief
work, says that fully sixty-five children
are still missing and a large number of
adults.

Hand May Recover.

Lebanon, Mo., June 14.—Richard P.
Hand slept well all night and awoke at
10 o'clock much refreshed and stronger
than for several days. He partook of
breakfast, eating more heartily than
usual. At noon Dr. McCumb called. He
found the patient asleep and thought
there was no change in his condition
from yesterday.

LUCKY DEMOCRATS.

Are Sure of Electing Supreme Court Judge
in Pennsylvania.

Harrisburg, Pa., June 14.—For the
first time in many years the democracy
enters upon a state campaign, assured of
the success of at least a portion of its
ticket. This is due to the conditions
governing the election of two supreme
court judges next November, to fill the
places of Judge Williams and the retire-
ment of another judge next January. No
elector is entitled to vote for more than
one candidate and as there will be two
electors each party will get one.

Ex-Congressman Simon P. Wolverton
and Superior Court Judge Smith, of
Scranton, are the leading candidates.
The selection of candidates for state
treasurer and superior court judge and
the making of a platform have been al-
most lost sight of in the struggle for
the supreme court judgeship. All indications
point to a two-day convention.

The Transvaal Situation.

Brussels, June 14.—Dr. Leyde, the rep-
resentative in Europe of the Transvaal
republic, received to-day the following
conciliatory dispatch from Pretoria:
"The government does not make arbitra-
tion a condition of concessions. It will
continue to make concessions even as re-
gards the franchise, independently of
Great Britain's acceptance or non-accept-
ance of arbitration."

Difficulties Smoothed Over.

London, June 14.—Officials of the for-
eign office assure the Associated Press
that the Alaska difficulties are perfectly
smoothed over until the meeting of the
commissioners in August.

Are Coming Home.

Manila, June 14.—The first American
volunteers started home to-day on the
transporter Newport and Ohio, carrying
the Oregon regiment and the first volun-
teer signal corps. The Oregon regiment
had sixty-two men killed in battle or
died from disease in the year's cam-
paign.

Deputy in Singapore.

Singapore, Straits Settlements, June
14.—Admiral Dewey landed here this
afternoon from the Olympia, which ar-
rived on June 11, and late farewell to

ARRIVE IN EL PASO.

Lee and Gilliland on Way to Ala-
mogordo Jail.

W. B. Childers Tells of False Reports
in Fountain Case.

Coroner's Jury Finds McCutcheon Respon-
sible for Death of Moss.

MCCUTCHEON ARRESTED IN LAS VEGAS.

El Paso, June 14.—Lee and Gilliland
arrived here this morning from Hills-
boro, N. M., in charge of officers en route
to Alamogordo, where the prisoners will
be lodged in jail, to await the trial in
September at Silver City, N. M., for the
killing of Deputy Sheriff Kearney.

Their friends crowded around them at
the depot, and as they were taken to the
hotel, but with few exceptions, the prison-
ers are not receiving them. They will re-
main over night here and leave via the
Sierra Madre route in the morning.

"I anticipate no trouble at Alamogor-
do," said Lee to the Associated Press cor-
respondent. "My friends will give the
authorities no trouble. We will wait for
the trial in jail if we cannot get out on
bail. Our hope is to secure bail through
habeas corpus proceedings if Judge Park-
er does not conclude to release us with-
out an order. In any event, however,
there will be no violence as has been re-
ported."

Mrs. Lee and Mrs. Gilliland are with
the party.

W. B. CHILDERS TALKS.

Specifies Some of the Published False-
hoods in the Fountain Case.

T. B. Catron and W. B. Childers, the
two lawyers who assisted District At-
torney Barnes in the prosecution of Lee and
Gilliland, at the trial in Hillsboro for the
alleged murder of Henry Fountain, came
up from the south last night. Mr.
Catron continuing on to Santa Fe.

Mr. Childers was seen by a representa-
tive of THE CITIZEN this morning and
asked concerning the specific misrep-
resentations in the reports of the trial sent
out by the Associated Press and by special
correspondents of other newspapers,
which induced the prosecuting attorneys
to join in signing the card, published in
the New Mexico daily papers, to the
effect that the reports were untrue.

In reply Mr. Childers said: "If I had
the stenographer's notes of the trial I
could show you specific instances where
every one of the daily reports sent out
varied from the facts. To cite a few of
the more notorious misrepresentations,
there was the statement that Major
Llewellyn in his testimony had said that
Stenographer Holt's notes of the pre-
liminary hearing were incorrect, when
he said nothing that could by any possi-
ble strained construction be tortured to
warrant such a conclusion; the assertion
that Meadows, one of the principal wit-
nesses, was formerly a member of 'Billy
the Kid's' gang, when the only time he
ever met that desperado was on an occa-
sion when he went fishing with him and
some other men; and the almost totally
false account of Dr. Francis Crossen's ex-
pert testimony."

"Furthermore we objected to the sen-
sational reports sent out to the effect that
hostile bands of armed men were march-
ing the streets of Hillsboro, and that
there was almost momentary danger of a
bloody outbreak; that in anticipation of
such trouble a large number of special
deputies had been sworn in. This report
was untrue and was a reflection on the
territory for the reason that it gave her
an unfavorable reputation in the eyes of
the world, similar to that enjoyed by
Kentucky, on account of the threatening
attitude assumed by opposing factions at
a recent murder trial in that state. I
doubt if there was a single man in Hills-
boro who came armed into the court room
or walked the streets carrying his fire-
arms. I do not doubt that every man
who attended the trial brought his gun
with him, but left it in his room."

"Everybody knew that in the event of
acquittal there would be no outbreak
and as the friends of Lee and Gilliland
were confident from the start that they
would be acquitted, there was absolutely
no ground for the belief that there would
be serious trouble."

"Another misrepresentation, in itself
of no moment, was the statement that
the women of Hillsboro presented the de-
fendants with flowers. The only founda-
tion for this pretty story was the fact
that a daughter of A. B. Fall gave each
of them a bouquet."

"I realize as strongly as any one that
the Associated Press aims to furnish a
truthful report, but the association was
certainly unfortunate in the selection of
a man to cover the Fountain trial. I
telegraphed Melville K. Stone in regard
to the actions of his representative, and
he telegraphed back for particulars. I
shall write him a letter explaining the
matter fully. He, of course, labored un-
der the difficulty that he was unable to
appreciate the discrepancies because he
did not have a copy of the official and
correct report of the evidence with
which to compare the Associated Press
reports."

Lee and Gilliland will next be tried in
Silver City for the murder of Deputy
Sheriff Kearney. The court meets in
September.

The contempt with which John Mc-
Cutcheon is charged is based on the fact
that before the jury panel had been com-
pleted he distributed numerous copies of
his paper, the El Paso Graphic, which
contained an article charging, among
other things, that the prosecution of Lee
and Gilliland was a conspiracy.

Y. W. C. T. U. Entertains.

The women of the Y. W. C. T. U. en-
tertained a number of their friends very
pleasantly last night at the home of Mrs.
J. W. Harding on south Third street.
There were nearly 100 people present
and without a single exception they re-
ported having had a good time. A short
but excellent program of music readings
and recitations was rendered. Miss Pearl
Strong gave an instrumental solo; Prof.
C. E. Hodgkin read a paper on tobacco.

Ten Americans Killed and Forty
Wounded—Heavy Rebel Loss.

Insurgents Will Make No More Stands
in Southern Province.

REBEL DEAD ARE BURIED.

Washington, June 14.—The following
was received by the war department:
Manila, June 14.—Lawton's troops, un-
der Whittier and Owenhine, occupy the
country south of Bacoor and have secured
westward and some distance south-
ward on the line of the Pasig river and
Bacoor road. The enemy appear to have
retired on Linau, abandoning the ba-
country. The fighting yesterday was se-
vere. The loss was ten killed and forty
wounded, the majority at the crossing of
Pasig river. The enemy was driven
from a heavy wall of constructed en-
trenchments, to which they held tena-
ciously. Their loss was several hundred,
of whom fifty were buried this morning.
They probably will not make any deter-
mined future stand in the southern pro-
vince.

ADDITIONAL DETAILS.

Captain Barker Cables Navy Department
in Regard to the Fight.

Washington, June 14.—The navy de-
partment has received the following
cablegram from Captain Barker, the naval
officer in command at Manila, respecting
the fighting yesterday:

"The insurgents fired at the navy yard;
the masked batteries of the ships were
shelled from positions and entrench-
ments. The Helena and Monadnock
landed force to assist in maintaining
the position until reinforced by the
army. The movement was successful.
The enemy was routed with no casualties
to the navy."

WILL SUCCEED YET.
As an evidence that our delegate to congress, Hon. Pedro Perea, is working earnestly for the good of this part of New Mexico, as he promised he would do when he was elected, the following extracts from a letter written by that gentleman to a prominent citizen of Deming will prove, says the Deming Herald:

DEAR SIR:—While I was in Washington I saw Minister Aspiras about opening again the port of entry at Palomas and establishing a custom house there. He gave me the enclosed copy of a letter sent to me last January, which I never received, and advised me to make as strong a case as I can in the matter and for me to send it as delegate from New Mexico to the party mentioned in the enclosed card, and tell him that Minister Aspiras recommended me to place the case before him, and he also told me that he would do what he could to help me.

Now what I ask you is, to do what you can in preparing a strong case as he suggests, and send it to me.

I think all these things that are to be sent there ought to be done in Spanish, and very likely signed by some of the principal business men in Deming. Yours truly, PEDRO PEREA.

Now in view of the above it would seem as though all that is necessary is for our citizens to put their shoulders to the wheel and get up a statement and petition in the proper form as recommended and send it to Delegate Perea and we may again see the Palomas custom house in operation. Surely the thing is worth trying for, and as Mr. Perea has so earnestly interested himself in our behalf, we should do our part in nothing just as good.

ANOTHER SANTA FE EXTENSION.
Articles of incorporation have been filed in Oklahoma for the construction of the Santa Fe extension into Blackwell, Okla. The new line, which will run from the Kansas & Southern terminus at Bristow into Blackwell, and then probably to a connection with the Santa Fe main line at Perry, Okla., will be known as the Blackwell & Southern road.

The capital stock of the line has been placed at \$350,000, and the incorporators are President R. P. Ripley and General Solicitor E. D. Kenna, and H. K. Asp. U. C. Gass and W. H. Morton, of Guthrie, Mr. Asp is the Santa Fe attorney for Oklahoma.

Work on the extension will be commenced July 1, and its construction will be pushed to completion. Had it not been for the necessity of economy in order to improve the appearance of the Santa Fe earnings, work on the line would have been commenced before this time.

The extension will give the Santa Fe a line through a rich portion of Oklahoma, which is now exclusively tributary to the Hutchinson & Southern road, a connection of the Rock Island.

ONE AT LEAST SPEAKS OUT.
Most of the papers of Boston refrained from editorial comment on the doings of the Christian Scientists in that city during their anniversary week, but the Traveler did not hesitate to speak out plainly about them.

"People may believe what they like," it said in the course of a long article; "it is when they teach others, and attempt to lead others into error, that the public has a right to protest; and when, as was done in Boston this week, 3,000 persons gave testimony to the efficacy of Christian Science, and some of them declared that it had cured meningitis, consumption, cancer and other organic diseases; and when they speak of the woman whose influence has largely built up the system, and who poses as 'mother' in this modern 'mother church,' so called, the whole business disgusts sensible people, and illustrates how possible it is for persons usually sensible and discreet in other matters to become over-enthusiastic and misled in these things."

It is this same point to which THE CITIZEN has held—that while the Christian Scientists have a right to hold whatever religious belief they may prefer, they have not the right to lead others in error to their detriment and injury.

COMING ELECTIONS.

Eleven states will hold elections November 7. Among them will be New York, Ohio, Massachusetts, Iowa, Kentucky, Mississippi, New Jersey, Nebraska, Pennsylvania, Virginia and Maryland. This fact accounts for much of the present political activity, as it is intended that the off year of 1899 shall this time be a harbinger of the work that will be accomplished in 1900. The work has begun in Ohio and in republican ranks, without a single reproach and with harmony pervading the ranks. In the end it will be found that the people stand by the administration at the ballot box as intrepidly and firmly as do our boys in blue stand by it in the presence of a foreign guerrilla.

A ST. LOUIS paper wants to know "What is so restful as a day in June?" We give it up unless it be two days in July or August.

It should become a fad with our people to devise ways and means to develop water for irrigation. Impound the waste waters and develop the underflow streams. Think over this.

A MAN in Pennsylvania has brought suit for \$7 against another for alienating his wife's affections. He must have secured the lady at a bargain counter of some big department store.

A CHIEF human with a full grown oath waited up to the foot of a Methodist pulpit in Wyand, Ala., and demanded an apology for the minister's arraignment of sin, and if a local account of the affair is to be credited, the minister, "after

swinging his right arm with an eight degree curve, encountered the point of the left jaw in such a way as to give two doctors an unlimited opportunity to experiment with restoratives." There is pure religion for you.

The commencement number of "The Mirage," a monthly magazine published in the interest of the University of New Mexico, has been received by THE CITIZEN. It is the farewell issue of "The Mirage" for the closing scholastic year, and is appropriately illustrated with half-tones of the class of '99 and that of the members of the "Varsity" baseball team, besides several scenes and views of the Gran Quivira ruins.

In answer to the question whether stamps may be affixed to the stubs of stock certificates as vouchers for the purpose of legal identification or whether they must be fastened to the certificates, Acting Commissioner Williams rules that the stamp representing the tax imposed on original issue of stock must be affixed to certificates, and not to the stubs of the stock book.

Lighthouse Needed on L. I. Coast.

More lights on the south shore of Long Island are demanded by the shipping interests. The coast is one of the most dangerous and poorly lighted anywhere. When this coast is well lighted as the path to health by Hostetter's Stomach Bitters there will be little danger. This remedy will guide anyone to health. Don't judge it by what other remedies have failed to do, but by what it has done. It will prevent and cure indigestion, constipation and biliousness. It will strengthen and invigorate the liver and kidneys, and for weak, nervous people with impoverished blood, it is absolutely priceless. Give it an honest trial, and be persuaded into taking "something just as good." There is nothing just as good.

E. F. HELLWEG & CO.

New Firm Will Do Furniture Business at Whitney Co's. Old Stand.

One of the most convincing proofs that Albuquerque is not retrograding in found in the fact that as soon as one firm withdraws from a certain line of business, there is another ready to step in and fill the vacancy. A few months ago the Whitney company decided to close up its furniture and crockery department and to devote its exclusive attention to the hardware business. Yesterday R. F. Hellweg and F. S. Brooks entered into partnership for the purpose of conducting a furniture, carpet and crockery business, leased the commodious quarters formerly occupied by the Whitney company on south Second street and are ready for business to day. They will make a specialty of upholstering and fine picture framing.

Both of the members of the new firm are young men of sterling qualities, who have lived so long in our midst and are so well known to everyone, that they need no letter of recommendation to inspire the confidence of the Albuquerque public. Mr. Hellweg has been employed by the Whitney company for the past nine years in a position of trust and understands all the ins and outs of the furniture business. Mr. Brooks resigns the responsible position of book-keeper for the Whitney company to go into business on his own account. As he has already demonstrated that he possesses business ability of a high order, the personnel of the new firm is an unusually strong one, and we can therefore, with the greatest confidence, predict that they will meet with well-merited success in their new undertaking.

J. C. Flannery succeeds Mr. Brooks as book-keeper for the Whitney company at its large hardware store on south First street.

Miss Margaret Lee, one of Albuquerque's most popular and accomplished school teachers, will not leave the territory this summer on her vacation. She is well known, however, to many of the people of Las Vegas—her old home, and among them she expects to spend several weeks of the present summer. She will leave for the Meadow town in a few days, and will bring the many other Albuquerqueans to make the Rough Riders' reunion a grand success.

All the newest draperies, novel and dainty, at lowest prices. May & Faber, 205 Railroad avenue.

ROUGH RIDERS' REUNION.

Miss Helen Gould Says She Cannot Attend the Reunion.

EVERYBODY MAKING PREPARATIONS.

From Las Vegas Optic.

The selection of Las Vegas by the Rough Riders' association as the city in New Mexico in which to hold their first reunion, is a compliment paid citizens here that is certainly appreciated, the evidence of which is clearly indicated in the very liberal response made to the request of the finance committee. Yet it is feared that the larger part of the merchants engaged in the furnishing of food products do not grasp the magnitude of the demands that will be made upon them during the period of the reunion.

It is a proposition that must contemplate a demand of from three to four times the average daily consumption of food during the three days of the reunion. Now, do the grocers, butchers and bakers comprehend what this means?

Are they alive to the situation? The several committees are doing effective work. The printing committee has performed conspicuous labor, the result being that the whole country has been made acquainted with the fact of the reunion and the place of meeting.

The committee has labored to an end that the people be induced to come here, and they are coming, and by the thousands, and Las Vegas must awaken to the fact. Her men and women must resolve as individuals to aid in every way possible in caring for these visitors—in cooking and feeding, if need be, the guests who have been invited.

The committee is doing everything that can be done, but cannot be accomplished the impossible, if the citizens here will not open their homes and take in, if it becomes necessary, one, two, three or more persons, it is greatly feared that many of the advantages that we are expected to reap will be lost to us.

Let every man, woman or child resolve that he or she will do the very best to entertain and make comfortable the thousands that are expected to honor us by their presence during the three days of the reunion.

MISS GOULD CANNOT ATTEND.

The following letter from Miss Helen Gould expresses her regrets at not being able to attend:

LYNDHURST, INVERCLOUGH, ON HUDSON, June 10, 1899.

Miss Gould begs to acknowledge with thanks the kind invitation conveyed to her by the first regiment, U. S. V. C., Roosevelt's Rough Riders, to be present at their first annual reunion, to be held at Las Vegas, New Mexico, June 24, 25 and 26, and regrets her inability to avail herself of the hospitality so courteously extended her.

ROOSEVELT WILL ATTEND.
Colonel Roosevelt has expressed his intention of attending the reunion, in private letters heretofore received in Las Vegas. He reiterated his intention in a more formal way by sending the following acceptance:

State of New York, Executive Chamber, Albany, June 8, 1899.
Governor Theodore Roosevelt presents his compliments and thanks to the general regimental committee for the kind invitation for June 24 to 26, 1899, which he accepts with great pleasure.

Palpitation of heart, indigestion, sleeplessness, malnutrition, Hudyan cures. All druggists, 50 cents.

A shadow fighting dog.

W. F. Powers, traveling auditor of the Wells-Fargo Express company, has a most wonderful dog of the bull species. Mr. Powers tells THE CITIZEN that the dog is known as a "shadow" fighter, and can whip any "shadow" known. Yesterday he laid on the hard cement sidewalk in front of the express office until 3:30 o'clock in the afternoon watching the shadows of flying birds. Suddenly he made a mighty lunge toward a shadow and drove his head into the sidewalk. The shadow, of course, escaped.

whereupon Mr. Powers remarks that "if the dog had caught the shadow one of the best of fights would have taken place." The boys at the express office are greatly attracted to the dog on account of his wonderful shadow-fighting propensities, and they are thinking seriously of entering him at the next dog show to be held at Denver.

HURT IN A COLLISION.

Two Double-Header Freight Trains Crash Together in the Baton Tunnel.

At 12:35 o'clock Sunday morning a double-header head-end collision occurred on the Santa Fe at the south end of the Baton tunnel, nine miles north of Raton.

Two engines were badly demolished, and three cars of merchandise wrecked. The west-bound freight, known as No. 33, with two engines in front, and one behind, came out of the tunnel at a good speed, when the engineer on the front engine was horrified to find an extra freight train, with two engines in front, on the track ahead.

He whistled for brakes, reversed his engine, and all hands jumped for their lives. All escaped injury except the head brakeman and the fireman of the second engine of train No. 33.

Fireman Mike Conroy's left foot was caught between the engine and tender, and dash below the knee was badly lacerated.

Brakeman William McCarthy, in jumping from the train, sustained a badly sprained back, but it is believed his injuries are not serious.

Silvestre and Federico Mirabal, two big sheep raisers of San Rafael, are in the city to day interviewing local wool buyers.

William Darg, the traveling engineer of the Santa Fe Pacific, came in from the west last night, and is stopping at Sturges' European.

Did you ever See a Snow Storm in Summer?

We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snow-storm.

No need of this snowstorm. As the summer sun would melt the falling snow so will

Ayer's Hair Vigor

melt these flakes of dandruff in the scalp. It goes further than this; it prevents their formation. It has still other properties: it will restore color to gray hair in just ten times out of every ten cases.

And it does even more: it feeds and nourishes the roots of the hair. Thin hair becomes thick hair; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking.

If you do not obtain all the benefits from the use of the Vigor, we will refund the money. Write the doctor about it. Probably you will find it the best hair restorative system which may be easily tested.

AN Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Stryer's Fig Syrup, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxatives and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectively, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without irritating or inflaming them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get the beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

WEEKLY CROP BULLETIN.

Reports of Correspondents on Crop Conditions for the Past Week.

The following report is furnished by the United States department of agriculture, climate and crop bulletin of the weather bureau, New Mexico section:

Santa Fe, N. M., June 12.—Light showers have fallen over the territory during the past week and, combined with the warmer weather and moderating winds, have brought about decidedly more favorable conditions.

Still, there are many sections where the drought has not been broken, and where growing crops and grass are drying up and irrigation water is becoming scarce.

Over the country extending from Santa Fe south along the Rio Grande there has been but a few drops of rain, and the water in that river is getting so low that from Bernalillo south it is becoming difficult to fill some of the ditches. In the vicinity of Las Vegas, and to the east and northeast, where the drought was probably the severest, fair rains have occurred, but not early enough to prevent a serious setback to growing crops and stockmen. The rains of the 10th over this section were accompanied by severe hail, which greatly damaged crops in the wheat and corn fields, and proved destructive to many sheep and lambs.

Growing crops have been greatly relieved, and with few exceptions, are recovering from the storm, and are showing some improvement. The wheat is cutting off alfalfa is completed in the south, and is begun as far north as Las Vegas. Throughout the central part of the territory the crop is hardly half as large as that of last year's first cutting, and in some localities is much less.

Further north the crop is coming in much better, and the wheat is cutting off alfalfa is completed in the north, spring and winter wheat, and barley and oats, are growing fairly well, although the central wheat is being hit quite small. Transplanting tomatoes and sowing beans is still under way in the north. Gardens are growing well; strawberries are ripe far north at Santa Fe. While strawberries are of good quality, the crop is not as large as usual. Prospects for grapes have bettered somewhat, but they will be very scarce in the vineyard districts of Albuquerque and Bernalillo. Small fruits are abundant in the markets of the lower Pecos and Rio Grande, and the prospects for peaches and apples are quite fair. Throughout all central sections, while all fruits will be very scarce, it seems that the few trees bearing will have a fine quality of fruit. Ranges have hardly had time to show much improvement from the rains, but no doubt the bulletin for next week will show a decided change for the better among stock interests.

The following remarks are extracted from the reports of correspondents:

Albuquerque.—Prof. C. E. Mead—Warm days and nice showers on the 2d and 6th were unusually favorable conditions for crops. Ranges have greatly improved. Winter wheat heading nicely. Alfalfa short and still in the mud. Corn planting about finished. Gardens are recovering from last week's frost. Fruitful beans and sweetening tomatoes continue. Ditches full. Highest temperature, 85; lowest, 56; rainfall, 0.34.

Bernalillo.—Brother Gabriel—With continual irrigation at least every eight days, gardens, especially cauliflowers, cabbages, lettuce and carrots are showing much improvement. Beans and peas doing fairly well. Tomatoes of a good size and some plants in bloom. Strawberries of a good quality, but not very abundant. Vines have been greatly improved; some vines carry from five to ten bunches, and the bunches are larger than usual. From our vines a fresh growth is starting from the old ones that are withered at the top. Several vineyards have been rooted up and planted to other crops. The Mission vine suffered much from the late frosts. Although fruit trees generally look well, only some orchards have fruit. Only a few trees are showing peaches on the best trees, much depending on the location of the tree. Apples are somewhat more abundant; of apricots, only a few are showing. Alfalfa all cut, and some baled. A liberal estimate places the yield at not more than half of last year's first cutting. Wheat and corn considered good, but wheat is heading small. Ranges continue poor and stock in bad condition. River very low, and on the west side it is difficult to supply the ditches. Highest temperature, 82; lowest, 42; rain, trace.

Koddy.—L. O. Fuller—Slight rains, and crops growing nicely. About 2,500 acres planted to beans; huge hay crops, but no serious damage anticipated. Small fruits abundant on the market. Indications are for heavy rains.

Las Vegas.—J. Thornhill—Continued dry and windy; crops drying up; alfalfa being cut before it dries up; will not be half a crop. Thunder showers on 6th and 7th, the latter with hail, which killed fifty sheep out of a flock caught out.

Elk.—Vigil H. York—Frost on May 29 killed some garden crops. West winds, cool nights. Cattle getting very weak. The only food for the stock is brush, and that is covered with web worms.

Esplanade.—Jim Curry—Windy and dry, but a shower on the 10th. Alfalfa will soon be ready to cut; highest temperature, 91; lowest, 43; rain, 0.14.

Fort Stanton.—F. B. Cox—Weather continues very dry, but crops are looking well, and stock holding their own.

Fort Union.—M. C. Needham—Range very dry, and water scarce. Greatly improved on the 6th. Stockmen who have not large alfalfa fields are thinking seriously of shipping to Kansas. Even those grazing alfalfa are not doing so well. Crops at a standstill. Highest temperature, 85; lowest, 58; rain, 0.20.

Gallinas.—Springs—Jas. E. Whitmore—Some light showers, with prospects of more. Highest temperature, 97; lowest, 47; rain, 0.02.

Los Alamos.—William Frank—Bains of the 5th and 10th greatly refreshed crops; that of the 10th accompanied by destructive hail, which must have damaged crops considerably, as well as proving destructive to sheep. Many stone weighed three or more ounces. A fine rain after the hail.

On Salinas Antonio Joseph—Showers on the 6th revived vegetation some what, but grass on the ranges is still short, and stock in poor condition. Lambs will average only one point, but the wool clip will average very fairly well. Highest temperature, 85; lowest, 42; rain, 0.10.

Edwards.—Edwards McTigue—Winds greatly moderated. Hot days and no rain, but growing corn is quite satisfactory.

Santa Fe.—United States Weather Bureau—Light showers on the 6th and 10th revived vegetation; corn and spring

wheat generally looking well; gardens growing nicely; fruits, though scarce, seem to be of good growth. Irrigation water sufficient, recent good rains on the mountains seem to assure a good supply for some time. Highest temperature, 82; lowest, 40; rain, 0.07.

Shattuck (Rddy Post Office)—J. S. Shattuck—The seven weeks' drought ended on the 5th; stock had suffered greatly for water and grass. On account of the dry, cold weather, farming operations are gloomy enough. A short crop of apples and cherries; no other fruits. Rainfall on the 10th, 0.15.

Secor.—Prof. F. A. Jones—Very dry; crops are all suffering; water in the river is getting low. Highest temperature, 95; lowest 45; no rain.

R. M. HARBINGE, Section Director.

Copper Colored Splotches.

There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These spots broke out in sores, and it was very painful. I had spent a hundred dollars in vain, and I was nearly driven to despair. I had tried every medicine, but they did not reach the disease. When I had tried my last remedy, I was greatly improved and was delighted with the result. The large red spots on my chest began to grow paler and smaller, and before long they had entirely disappeared. I had gained weight, became stronger, and my appetite returned. My skin was clear as a piece of glass. I had been told that S. S. S. was a great remedy, but I had not believed it until I had tried it. I had been told that S. S. S. was a great remedy, but I had not believed it until I had tried it. I had been told that S. S. S. was a great remedy, but I had not believed it until I had tried it.

Do not destroy all possible chance of a cure by taking the doctor's treatment of mercury and potash. These minerals do the work of S. S. S. and will break the entire system.

S. S. S. For the Blood

IS PURELY VEGETABLE, and is the only blood purifier guaranteed to contain no poison, mercury, or other mineral.

It cures the disease and its treatment mailed free by Swift Specific Company, Atlanta, Georgia.

ROSENWALD BROS.

LOCAL PARAGRAPHS.

Delegate to congress, Hon. Pedro Perea, is in the city from Bernadillo, his pleasant home town up the Rio Grande valley.

Miss Katie McAlexander, a dressmaker of the city, will spend her vacation at the Jemez hot springs. She left for the resort yesterday.

The Woman's Circle of the First Baptist church will hold a devotional meeting to-morrow afternoon at 3 o'clock in the church vestry.

Miss Agnes Morley, from her mother's ranch in Socorro county, came in from the south last night and will visit friends here for a short time.

Miss Dennis Wiley, who was here the past year visiting with her aunt, Mrs. J. E. Matthews, left for her home at St. Paul, Minn., last night.

Rev. F. H. Allen, superintendent of the Congregational mission for New Mexico, returned to the city last night from a visit to Lincoln county.

Col. W. S. Williams, who made a "million" in publishing the Socorro Chief, is now sinking some of the gold dollars in mining, was a passenger for El Paso last night.

Capt. Albert Faber, the carpet king, accompanied by Abraham Kempenich, the popular general merchant of Peralta, went up to Thornton last night, from which place they took passage on W. L. Trimble & Co's famous four-horse stage this morning for the Sulphur hot springs. They will be absent two weeks.

"The Queen's Evidence" was produced by the Rose Stillman Stock company at the orchestra hall last night, and the popular actress, with her company of artists, gave those who attended a most excellent show. On to-morrow night "The Country Girl," a four-act comedy drama, will be played under Saturday afternoon matinee. "The Queen's Evidence."

A meeting of the territorial board of education was held at Santa Fe to-day, and Prof. C. L. Horrick, of the university, who is a member, was in attendance. The professor left for Santa Fe last night, being accompanied to the capital by Prof. C. T. Jordan, of the Agricultural and Mechanical college, and Prof. W. W. Robertson, of the Denning public schools.

The young ladies of St. John's Social Guild entertained their friends at a lawn party at the home of Mrs. George Fred. Rosenwald last night.

The lawn was lighted up with Chinese lanterns and presented a charming appearance. The evening was occupied with various games and the hours sped altogether too swiftly for the merry throng assembled. The serving of delicious refreshments added considerably to the enjoyment of the evening.

Mrs. Myra Kinsey and daughter, Miss Edgema, mother and sister of Geo. P. Kinsey, arrived last night from Los Angeles, and will visit here for several weeks, after which they will continue

north to Minneapolis, Minn. In connection with this item The Citizen is pleased to state that Mrs. Geo. P. Kinsey, who was sick with nervousness, has about recovered her health.

G. W. Smith, superintendent of machinery for the Santa Fe Pacific in this city, left last night for Topeka to confer with officials in regard to increasing the force of men and also adding new departments to the shops in this city after July 1. It is confidently expected that he will bring good news with him on his return.

Conductor H. F. Griffith, wife and child, who were east visiting relatives and friends, returned last Sunday night. The national convention of the Order of Railroad Conductors met at Detroit, and Mr. Griffith attended as one of the delegates from New Mexico.

Albert Aranjio, who attended the funeral of his relative, Antonio Ortiz, at Pecos Blanca, returned home last night. At the kindergarten on entertainment next Friday evening Miss Kaye Ford will dance several of her fancy dances.
