## CHINESE EX- CLUSION ACT

Will Be Rigidly Enforced--The Administration Thoroughly Satisfied.

## JOINT STATEHOOD BILL

Democrats in the House Seem to Be Opposed to it--Time Will Tell.

Washington, April 9--In the cabinet meetings and in the conferences directly between the executive heads of departments the whole subject of the status of the Chinese immigration question as it will be after a lapse of the existing treaty has been thoroughly digested and it may be stated that the administration feels that it has ample warrant for continuing to enforce the rigid provisions of the Chinese exclusion act of 1892 regardless of the denunciation of the treaty by the Chinese government.

**Questions the President's Authority.**  
Washington, April 9--In the House today Cockran of New York spoke on his resolution directing an inquiry by the judiciary committee as to whether there was any authority in law for the recent executive order relating to the pensions for age disability.

**The Joint Statehood Discussion.**  
Washington, April 9--The majority and minority views on the joint statehood bill recently reported, were filed yesterday by Representatives Hamilton of Michigan and Moon of Tennessee, respectively.

Mr. Hamilton reviews the provisions of the provisions of the bill at length and urges the necessity and justice of admitting the southwestern territories as two states.

The views of the minority are signed by Representatives Moon, Lloyd, Robinson of Indiana, and Thayer. After a lengthy discussion of the bill, the minority concludes with this expression:

"Should the Republican party pass this bill, wicked as it is in its denial of rights in representation, and partisan in all its material details, it will but afford another indecent example of the suppression of individual, territorial and national rights to subserve partisan ends. Even more than that, it is a surrender of the power that sovereign states would exercise in the union if constitutional methods were followed in the admission of the proposed states. It minimizes the influence of the west and southwest in that citadel of federal power, the Senate of the United States.

"We are of the opinion that it ultimately will be better for the union that the territories opposed to consolidation shall be denied statehood, under the theory of this bill, indefinitely, than that the conditions which will be forced on them in an unnatural union, should exist."

The Republican members of the House are to meet in caucus on the statehood bill early in next week to agree respecting the consideration of the measure.

**Number of Minor Bills Passed.**  
Washington, April 9--The Senate today passed a number of bills of minor importance and took up the conference report on the Indian appropriation bill.

He was appointed melter of the mint in Denver in 1888 by President Cleveland, and after serving two years in that position resigned to take up that of the Woodmen in the Pacific jurisdiction. The rapid growth of that fraternal organization is recognized, as the result of his untiring devotion to the order, and to the able qualities of organization and executive abilities possessed by him. He has been continuously the head clerk of the Pacific jurisdiction since its inception and, in fact, its practical head. He was also a member of the Grand Army of the Republic and many other organizations. His remains will be taken to Denver for interment.

## A SHOOTING AFFAIR.

An Attempt Was Made on the Life of W. C. Greene But Fails.

New York, April 9--An attempt was made today to shoot W. C. Greene, of the Greene Consolidated Copper Company, Greene's assailant gave the name of J. G. Goodman who said he was a machinist and that he had been robbed.

Goodman has been in the city since last September, having given his address as Nogales, Arizona, and has, it is understood been representing a mining company at Sonora, Mexico. It is alleged there has been some differences between Goodman and Greene.

When Goodman was arraigned in police court Greene testified that Goodman lay in wait outside of his house today and that Goodman came up to him and said: "You are the man I'm laying for. Now I'm going to kill you." Greene said he rubbed against him and felt the revolver in the man's pocket. Goodman followed him to his office, Greene added, and was there arrested. According to the police two revolvers were found in Goodman's pockets.

## HISTORICAL SO- CIETY COLLECTION

Sent to St. Louis For Exhibition in the New Mexico Building.

The New Mexico managers of the Louisiana Purchase Exposition at St. Louis, have been in consultation for some time with the officers of the Historical Society, relative to the selection of suitable objects from the society's collection for exhibition at St. Louis. The society was anxious to aid as far as possible, without impairing to too great an extent the appearance of the rooms in the Palace; as the number of tourists this year will naturally be largely increased by the great numbers who will visit the exposition and then proceed to the Pacific, and the historical rooms are usually the first place of interest visited.

The board of managers concluded that its principal need was that of objects of ornament and interest with which to decorate the territorial building and make it attractive and the selection was made with special reference to that view. Commissioner Arthur Seligman acted for the board, and President Prince for the society, and the following articles were selected and carefully packed for transportation by the experienced hand of Jake Gold: Large antique copper bell made in the Territory; twelve Indian baskets representing various tribes and weaves; two paintings on Buffalo skin; eight old paintings on canvas; one Mexican rawhide trunk; one very old painting on hewn wood; one Mexican bridle elaborately ornamented; one Buffalo hide shield painted; collections of Pueblo Indian stone implements, embracing the following from the Pueblo of Laguna: One round mortar and pestle, one square mortar and pestle, one stone disc, two stone hammers, round, three stone axes, one Mexican mortar. The case became famous by the suit filed in which Doyle claimed nearly a million dollars in payment for interests in various mining claims which form a part of Portland Company.

## BRYAN'S GRIEVANCE AGAINST PARKER.

It seems that Mr. Bryan has good cause to endeavor to keep the Democratic presidential nomination away from Judge Alton B. Parker. It is very doubtful if the judge voted for the Bryan ticket in 1896 and 1900 and if he did not, naturally, Mr. Bryan will oppose him. It is not certain, how he voted in 1896, and upon this question the Kansas City Times says that Mr. Bryan's opposition to Judge Alton B. Parker is not wholly inconsistent, remembering the factional tenacity of the former Democratic leader. In 1897 when the New York Democratic committee met to consider a candidate for the court of appeals, Judge Parker was the only avowed candidate for the nomination. The committee wanted to know where he had stood in the presidential election of 1896. Chairman Danforth addressed a note to the judge and received this answer:

"My Dear Danforth—It was entirely right for you to bring to my attention the question which the sincere friends of Mr. Bryan are pressing upon you. I can say to you frankly and sincerely that you can assure them that I voted for the last national nominees of the Democratic party, as I voted for all the regular Democratic nominees since I had a vote.

Yours very sincerely,  
ALTON B. PARKER.

September 22, 1897.

This ambiguous communication made a stir in the committee, but Judge Parker was not asked for a diagram, and in due time he received the nomination. But since his nomination for the presidency has become a possibility a new interest has been created in the letter. The question is, "Did Parker vote for Bryan or did he vote for Palmer?" And this question will doubtless have to be answered and answered "right" before Judge Parker can get the support of Mr. Bryan.

## THE FACTS IN THE CASE.

"The people of all the cities of the first class in the Territory, took the governing business into their own hands at the late election, and elected non-partisan tickets. That's one of the most hopeful signs of the times. Party politics has no more business in the town government than in the church or the lodge. It is nearly always used as a cover for corruption. Cut it out!"—Albuquerque Journal.

The above is not at all correct as far as it applies to Santa Fe. There has been no corruption and no dishonesty in the city administrations here since they have been under Republican control; there has been, however, corruption under Democratic city administrations. During the last three years under the administrative control of Republicans, this city has enjoyed an honest, clean and fairly efficient city administration. There was no such thing as a non-partisan ticket in the field here last Tuesday. It was the regular Republican organization against a combination of Democrats and of Republicans. The regular Democratic ballots contained the regular Democratic political emblem and the names of eleven Democrats out of nineteen nominees. The so-called Citizens' ticket was identical in every respect with the regular Democratic ticket, except that it was without emblem. These are the facts, nothing more and nothing less.

The Hearst presidential boom received somewhat of a setback in the Kansas Democratic convention held in Wichita on Thursday. The convention would not instruct the delegates for Mr. Hearst and it is said that only six of the eighteen delegates to St. Louis are for him. At the same time while ex-United States Senator W. A. Harris is a delegate at large, the convention would not instruct for him, and therefore the Harris presidential boom is on the down grade as it is evident that he could not carry his own state for his candidacy.

As far as the Republicans are concerned they are perfectly willing to have the territorial Democracy in its convention in Silver City next week place itself on record in favor of joint statehood with Arizona. The Republicans will certainly lose nothing by such action on the part of that convention.

Try a New Mexican want "ad."

## COMMENDABLE ACTION BY THE BOARD OF EDUCATION.

The city board of education at its meeting last Wednesday made an excellent start in the matter of putting the Fort Marcy Reservation lands into shape for sale. The minimum price fixed on the lot on the corner of Palace and Lincoln Avenues is rather high but it is believed the lot can be sold for that sum within a short time. If this can be done, it will give more than sufficient funds to start the construction of the four story high school building and for which plans have been drawn and approved by the board. This cannot happen any too soon. Could a new high school be built and ready for use by the opening of the coming school year in September, many people from various sections in this vicinity would move to this town in order to educate their children in the public schools here. The incoming city board of education should continue the good work commenced and laid out by the present board. The New Mexican believes that this will be the case but it will continue to keep this object before the people in order that no more "of a manana policy" should prevail in this matter.

## A PRIMARY ELECTION LAW NEEDED.

A primary election system in the precincts containing more than 100 voters should be established in New Mexico. The Thirty-sixth Legislative Assembly should take up this question and pass an effective yet simple primary election law. It is high time that better election methods prevailed in New Mexico; although in this respect this Territory is far ahead of many of the sovereign states. While no doubt there is some buying and selling of votes in New Mexico elections, there is very little fraudulent voting and comparatively speaking, small frauds at the ballot boxes, and very little ballot box stuffing. Generally the elections are fairly conducted and results honestly proclaimed; the principle trouble seems to be the fact that in quite a number of the precincts there is a voting element that is for sale and this state of affairs seems to obtain in some counties regardless of the race conditions. A good primary election law, which however, would have to be simple and easily understood, would prove a measure of great benefit and the New Mexican will do all it can towards obtaining the passage of such a one by the Thirty-sixth Legislative Assembly.

## ANOTHER SERIOUS DEFECT IN THE STATEHOOD BILL.

The joint statehood bill for the new state of Arizona to be composed of New Mexico and Arizona, as now pending in the House of Representatives is not at all satisfactory in many respects. For months it was telegraphed from Washington that the bill would contain a proviso for the formation of a separate state out of what is now the Territory of Arizona in due course of time, and whenever that political sub-division as at present constituted should attain a population of 200,000 people. There is absolutely nothing in the pending bill in that line and that means of course that New Mexico and Arizona are to be welded together into one commonwealth forever and as long as this union lasts and this nation exists. This may be satisfactory to those having the matter in charge in Washington, but is not at all pleasing to the people of the two territories and the New Mexican believes it will be resented by them unitedly and strongly when a constitution under the present bill comes up for ratification.

## ROOSEVELT'S NOMINATION ASSURED.

The Republican state convention of Pennsylvania held a few days ago, placed itself unequivocally on record in favor of the nomination of Theodore Roosevelt for the presidency and instructed the delegates at large from the state for Roosevelt. Republican state conventions and district conventions are falling in line regularly and instructing for Roosevelt. The party is now united upon his nomination. Any and all opposition to Mr. Roosevelt's nomination has vanished and all indications point to the fact that the Republicans will make this year's presidential campaign with a united and firm front, will support the national ticket loyally and energetically and will be successful at the polls in November.

The work of Traveling Auditor C. V. Safford is proving successful and he has already saved the Territory not less than ten times the cost of the office. Territorial funds collected from the taxpayers are more than ever before promptly sent to the territorial treasurer and the bookkeeping systems in the several counties are improving right along slowly, but surely. The establishment of the office of traveling auditor under the law passed by the Thirty-fifth Legislative Assembly is proving an excellent measure, as time goes on and as its operations become more active. It is found that in some instances, there should be amendments and the duties and powers of the office should be enlarged. These, however, will come in good time.

The William Randolph Hearst boom has been augmented by capturing the four delegates at large to the St. Louis convention from Arkansas. The Hearst boom is making progress despite Mr. Cleveland and his advocacy of the Parker boom.

The New Mexican Printing Company will do your job work with neatness and dispatch.

## GIRL WOMEN.

The general standard of measurement for womanhood is "grown-up-ness." When a girl is emancipated from school and arrives at the dignity of trailing skirts and elaborate hair dressing she is looked upon as a young woman. But nature knows nothing of such standards. When the womanly function is established womanhood is attained according to her standards, and there is need of womanly care and caution. It is girlish ignorance or neglect at this critical time which often results in long years of after misery.

Mothers who perceive the evidences of functional derangement in young girls should promptly have them begin the use of Dr. Pierce's Favorite Prescription. It establishes regularity, tranquilizes the nerves and tones up the whole system.

"My troubles started during my girlhood," writes Miss Flora I. Greer, of 107 Howe Street, Akron, O. "but did not prove serious until 1893. From that time I did not see a well day, suffered at every monthly period with terrible headache, irritation of the spine and pains in my heels. I had soreness through my hips and ovaries all the time and constant backache. One doctor would tell me one thing and another would say something altogether different, but they only relieved me. I then wrote you and followed your advice. I took five bottles of Dr. Pierce's Favorite Prescription, four of 'Golden Medical Discovery' and five vials of 'Pellets.' Have not had a single symptom of my old trouble so far. Can sleep good, work hard, and eat solid and substantial food without distress."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

It looks now as if the territorial Democracy would wage the campaign this fall under the joint statehood banner, whereas the Republican party if controlled by wise counsels will make a fight for the best interests of the people upon a platform declaring for single statehood for New Mexico within present territorial limits. To be sure, this may not happen, as at least five months will elapse before the nominations for delegate to Congress will be made in this Territory. Were the congressional campaign to commence today, however, the above would obtain. In such a case the Republicans would be sure of success.

Telling and effective work in advertising New Mexico's resources and in bringing immigration into the Territory is being done by the Bureau of Immigration.

## Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. ## MINES AND MILLS.

The Central City Mining District. The Central City, Grant County, mining district, has a large number of valuable claims that are awaiting the introduction of capital for their systematic development. Many of the locations are very old, but have not been worked for years. Other locations are of a more recent date and the great majority of them can with only a little work become producers of good pay ore. Central City boasts of being the oldest town in the county. It was founded in 1866 but was, like many other mining camps, abandoned for the time being, after the first and feverish excitement had died out. It is now experiencing another move forward and will this summer, without doubt, forge again to the front rank in the mining industry.

A great many of the prospects are being developed now, but there is much virgin ground still to be prospected.

**The Lost Mine.**

Among the many properties that have been worked is the Lost Mine, and it is said to have been located about 150 years ago. At least, the old records to be found in the city of Chihuahua, Mexico, would accord to the present location the name of the "Santa Vesa." It was worked by a priest, Father Cortez, by name, in 1846 and the story of his having taken out about \$36,000 in silver in six months is generally credited. A plan of the mine obtained by prospectors in later years shows about 800 feet of underground workings. Of course in those early days the methods of working mines were crude and imperfect, yet when it is considered that a large sum was taken out in a short space of time the chances now for making it a paying mine seem to be illimitable. Up to the present writing this mine has not been systematically worked, although a few shipments have been made to various reduction works, latterly that average from \$85 to \$105 per ton, a very handsome value these days.

**The Gulch Mine.**

Is a valuable proposition, according to all accounts. A prospector in skimming over the surface of the ground came upon a piece of black spar, which was very rich in free gold. He concluded to sink a shaft on the place and did so. After going down about 20 feet he broke into a cave or hole, which upon further investigation proved to be the workings of an old Spanish mine. After exploiting this cave for a few feet he came upon a ten foot shaft which had evidently been covered with logs, with rocks and dirt thrown over these to hide the location of the shaft. In this shaft, among other mining utensils, were found, all the material used in an arrastra, and several yokes which would indicate that oxen had been used to furnish the motive power in reducing the ore. After close prospecting a large chute of rich ore was found, which netted the lucky finder several thousand dollars. Very little, if any work is now being done on this property, yet it is claimed that a little capital and labor could place this property upon a paying basis.

**The Tin Cup.**

The Tin Cup is an undeveloped property in the immediate vicinity of many good mines, yet it has had little or no work done upon it. A good vein is known to run through this claim. It will be thoroughly worked this coming summer and can be placed on a paying basis.

**The Boston Bucket.**

Is evidently one of the many good mines in the district, the present owners having paid \$15,000 cash for it recently. It has been operated for a number of years and has produced much good ore. This in former years, has been done in a desultory manner as its former owner had other propositions on hand which were considered better. It is the intention of the present owners to begin work in mine fashion, and with a purpose to extract all the ore possible from the mine. The vein matter is of such a character that it can be easily worked and the pay streak while not very wide, is of such high grade that the general average of the vein will net a handsome profit.

It is certainly a most wonderful liniment." For sale by all druggists.

## MRS. IDA McDONALD,

Supreme Deputy of the Maccabees of the World.

MRS. McDONALD, No. 477 Broadway, Street, Detroit, Mich., is a prominent woman who was greatly benefited by the great woman's medicine, Wine of Cardui. Mrs. McDonald is the supreme deputy of the Maccabees of the World, and one of the most widely known women in the United States. Thousands of women gather to hear her lecture everywhere she goes. The great work she has done for the Maccabees is appreciated by every member of the order. She was so absorbed in her work that she neglected to give her health proper care—failed to take warning that the symptoms of approaching kidney trouble gave her, the sallow complexion and torpid liver. But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

"For four years I suffered with torpid liver until my skin looked yellow and dull. I then found my kidneys were affected and had severe pains across my back, and I felt

that I must do something to regain my health. A friend advocated my Wine of Cardui treatment so strongly that I decided to try it, although I had little faith in patent medicines. I am now very thankful that I did so, for within ten days blessed relief came to me, and in less than three months I was cured, and have enjoyed fine health ever since. I know there is nothing better for a sick woman who wishes to enjoy perfect health and am very pleased to give my hearty endorsement."

No suffering woman can afford to ignore such a letter as Mrs. McDonald writes. Her plans and advice have proved valuable in building up one of the greatest women's organizations in the United States and she takes time to give advice which she knows will help you.

Do not delay in securing this medicine. There is nothing to gain and everything to lose by delay. The choice is before you. Will or will you not secure relief now by taking Wine of Cardui? All druggists sell \$1.00 bottles of Wine of Cardui as well as 25c packages of Theodor's Black-Draught.

**WINE of CARDUI**

A million suffering women have found relief in Wine of Cardui.

## THE COURT OF PRIVATE LAND CLAIMS

Interesting Facts From the History of Its Proceedings in Passing Upon Grant Matters.

Judge Wilbur F. Stone of Denver, associate justice of the court of private land claims, in speaking of the work of that court says in a recent article:

Old ruins were visited, as well as Indian pueblos and tribes; picturesque rocks and monuments with hieroglyphic landmark inscriptions were examined, and the kodak was strictly in evidence.

On one occasion, when sitting at Tucson—where the court in the mid-winter months could sit in summer garb under the shade of palms and drooping pepper trees amidst blooming roses, oleanders, and pomegranates—the whole court with a party of about 40 persons went one day by special train 75 miles toward Tombstone to examine disputed landmarks near the Mexican frontier, and enjoyed a judicial picnic in January beside an immense spring of mountain waters under the shade of the evergreen live oak, walnut, and Palo Verde trees.

Occasionally the court room at Santa Fe would be enlivened by a squad of Indians who had journeyed thither from their distant pueblos as witnesses for their grant. These delegations were usually headed by the governor of their tribe, who exhibited great pride in striding up to the witness stand and being sworn on the holy cross, wearing a badge on his breast, a broad red sash round his waist, and clad in a white shirt, the full tail of which hung about his antaretic zone like the skirt of a ballet dancer, and underneath which depended his baggy white muslin trousers, a la Chinese washee-washee.

The grave and imperturbable bow which the governor gave to the judges on the bench in recognition of their equality with himself as official dignitaries, arrayed in that grotesque fashion, was enough to evoke a hilarious bray from a dead burro.

On one such occasion, when asked on the witness stand by Solicitor General E. L. Bartlett, his attorney, to produce the United States patent to his land, the governor rose up, and with much fumbling, after the manner of a modern lady searching for her pocketbook, produced the precious titulo from the hidden recesses of a back pocket in his shirt tail! And yet, in his aboriginal innocence, he couldn't understand why the audience smiled so boisterously.

The court proceedings in important cases have often been made intensely interesting by reason of the presence of famous and brilliant members of the bar. Eloquent forensic arguments have been made by noted lawyers from New York, Chicago, Cleveland, St. Louis, Denver, San Francisco, Washington City, Texas, Old Mexico, and from leaders of the able bar of New Mexico and Arizona.

In one of the noted Arizona cases a few years ago the trial lasted a month and was argued by six famous lawyers for nine days. Among these was the distinguished Senator Morgan of Alabama, whose two days' argument could have been listened to with tireless interest for two days longer by the bench, bar, and crowded audience.

Many of the large grants which were not wholly rejected by the court were cut down in area, either by the restrictions of the act of congress creating the court and the eleven-league limitation of the colonization laws of Mexico or by the terms of the grant itself being found to be for less than claimed by the petitioners. A noted instance of the latter class was in the case of the Canon de Chama grant, which had been sold to an English cattle company as containing over 200,000 acres, but was found upon trial to be in reality a grant for only 1,500 acres in a narrow canon.

Another case was the Petaca grant. This was claimed to be about 30 miles long and 20 in width, embracing nearly 100 square miles of pine forest. It had been bought by one of the Farwells, of Chicago, who established sawmills and lumber camps in the pines, and for ten years shipped lumber by rail from Tres Piedras to the markets of Colorado and New Mexico, but had reserved the best portion of the pines for future use. The court found that the original grant comprised only a paltry strip about five miles long and a few rods wide, embracing the little

### A GREAT SENSATION.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by Fischer Drug Company. ### BROUGHT TO LIGHT.

Santa Fe People Receiving the Full Benefit.

There have been many cases like the following in Santa Fe. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Ruperto Martinez of Griffin st., says: "I knew that a pretty sure indication of kidney complaint is an aching back, but in my case there was added to that annoyance trouble with the kidney secretions. At first the pain across the loins was the only evidence, but latterly the condition and action of the kidney secretions plainly told me that I must do something for my kidneys or aggravated trouble would follow. I went to Ireland's drug store for Doan's Kidney Pills, took a course of the treatment and the complication stopped. To show my faith in Doan's Kidney Pills, let me tell you that while working at Watrous getting out stone for the railroad an acquaintance of mine was compelled to stop and go home on account of his back. I advised him to use Doan's Kidney Pills. He acted on my advice and in a couple of days after commencing their use he returned to work."

### ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated; pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed by Fischer Drug Company.

Over a million acres of land open for Homesteaders in the ESTANCIA VALLEY—good soil and plenty of water, which can be had from eight to thirty feet.

## THE COURT OF PRIVATE LAND CLAIMS

Continued from Page Six.

garden patches in the canon of Petaca Creek, belonging to some poor Mexicans, who were made all the poorer by having the ownership decreed to them by the court. The great pineries yet untouched were turned over to the public domain of Uncle Sam, to be gobbled up by lumber poachers, who will take care that they cut off the best part first.

Among other noted grants rejected and cut down in area are the following:

The Bartolome Baca grant, south of Albuquerque, area claimed 500,000 acres; total rejected.

The San Miguel del Bado grant, on the upper Pecos River, west of Las Vegas; area claimed, 315,000 acres; all rejected except the irrigated farming lands along the river bottoms originally allotted to the Mexican grantees settlers.

The Gervacio Nolan grant, situated west of the Maxwell grant; area claimed, 275,000 acres; total rejected.

The Canada de los Alamos grant, near Bernalillo; area claimed 148,000; confirmed, 4,000 acres only.

The Ignacio Chaves grant, southwest of Santa Fe; area claimed, 243,000 acres; confirmed 47,000 acres.

The Cochiti grant, including, as claimed, over 200 square miles, with the whole of the Cochiti mining district, and owned by Joel Parker Whitney of Boston; confirmed a narrow strip of pastoral land outside the mining district.

The famous Peralta grant (of James Addison Peralta Reavis); area claimed 12,467,456 acres, and covering all the best portion of the Territory of Arizona, and a fair slice of New Mexico; total rejected.

For years a common impression had prevailed that many of the Mexican land grants were wholly illegal, forged, and fraudulent, and that the court, upon investigation, would so find. On the contrary, it was found that such cases were extremely rare. In fact, only one case was proven to be entirely fictitious and fraudulent. That was the notorious Peralta Reavis case.

The stone house will be rented.

## SAN FRANCISCO STREET.

I have several business blocks for sale on this great mart of trade, some of them producing more than eight per cent, net, on purchase price asked.

## OTHER BUSINESS CHANCES.

I have several other commercial and business propositions to submit those desiring to enter mercantile life and to grow up with the new era of prosperity now coming in with the Santa Fe Central Railway.

## CHURCHES.

I am authorized to dispose of the Congregational Church, on the south side convenient to the contemplated Union Depot. It stands upon two lots, and will be sold cheap, or the building will be repaired and leased to responsible parties.

## THERE ARE OTHERS.

Several small houses, some stone, some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

## ORCHARDS.

I also have a fruit ranch in a high state of cultivation, in the suburbs, with a building site overlooking the entire city of Santa Fe. On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 125,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

## PLAZA PROPERTY.

To those wishing to catch the cream of Plaza real estate I can offer blocks at figures that will double themselves in less than three years.

ROOMS: FURNISHED OR UNFURNISHED.

Furnished or unfurnished rooms in all parts of the city. Single, or en suite for light housekeeping. Some of them within five minutes walk of Plaza.

I will take pleasure in showing prospective investors desirable building sites in the neighborhood of the Capitol, and in the vicinity of the Presbyterian church, and other localities of the city which in a few years will be worth double the present asking price.

## OUTSIDE PROPERTY.

At El Cuervo, 10 miles from the Rock Island road, I can sell you about 640 acres; patented; excellent grazing land.

Convenient to Las Vegas, I have for sale several large tracts of desirable land which I am permitted to sell at very low figure. One tract contains about 3,500 acres, and is located about three and one-half miles southwest of Las Vegas; nearly all of it is under fence; good grazing and water for stock; some timber. Another tract is 550 acres, 7 miles from Las Vegas; timber and grazing, with an excellent stream of water passing over it. Still another tract of 350 acres of farming grazing and timber land, 8 miles west of Las Vegas, with running water upon it.

## COAL AND TIMBER LANDS.

I can sell you large tracts of land suitable for mining coal or the production of timber.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff dwellers, twenty-five miles west of Las Vegas, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, Female Complaints, etc., etc. Board, lodging and bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

## Marlin 16-Gauge Shotgun

This is the smallest and lightest weight (about 6 1-2 pounds) repeating gun ever manufactured, and opens up many new possibilities to the up-to-date sportsman. It is not a 16 barrel on a 12 action, but a new, well-balanced, properly-proportioned gun that, with modern smokeless powders, enables a shooter to use a powerful load in a small shell and reduce, materially, the weight of shells and gun to be carried. The small, light gun handles fast, results in close holding and increased accuracy.

## A TRADE TONIC.

There's a flutter of joy in my bosom  
Tonight,  
A smile stealing over my face, . . .  
A courage within giveth strength to  
my voice  
And I feel that I'm still in the race.  
My heart beats with vigor as new  
hopes arise  
Hence I'm thrilling a glad round-  
elay,  
For I can now get maple syrup in  
trade,  
The first jugful came in today. . .  
These sharp, chilly nights may be hard  
for the wheat,  
The frost may heave clover awry.  
The warm, pleasant days thaw the  
mud till the roads  
Cause the average merchant to sigh.  
The vehicle trade may be dormant the  
while,  
Yet you'd think that my fortune was  
made  
Could you know of the sweet peace  
which dwells in my soul

When I get maple syrup in trade. . .  
A cold rain was falling, a fog hid the  
earth,  
The weather as drear as could be,  
The bookkeeper swore I was cross as  
a bear,  
The office boy fought shy of me;  
The world seemed out of gear until  
Tom Smith came in  
With that jug full of syrup so fine,  
Says he, "I will guarantee this No. 1.  
Can you use it on that bill of mine?"  
Could I? all my cares disappeared in  
thin air  
And I reach for that jug with a smile  
A sigh of relief eased the bookkeeper's  
heart  
And the office boy capered the while  
They knew that my temper would now  
remain sweet,  
They no longer need fear a tirade;  
For nothing can ruffle my spirit's  
sweet calm  
When I get maple syrup in trade.

tract of land in precinct No. 4, consid-

City of Santa Fe to the Methodist  
Episcopal Spanish Church conveying  
the same property. A quit claim deed  
from Thomas de Lallo and wife to  
Francisco Herrera for lot No. 5, in  
block 24, in the town of Cerrillos, to-  
gether with improvements, considera-  
tion private; also a warranty deed  
from Francisco Herrera to Cleofas  
Blake, conveying the same property.

Gibson & Dow, owners of the Sun-  
mount Tent City, are contemplating  
the construction of several adobe cot-  
tages near the Tent City. These cot-  
tages are to be built in regular Mexi-  
can style, Mexican fire places and  
roofs, with the exception that they  
will have modern matched wood  
floors and bath rooms. It is found  
that a good many eastern people would  
like to come here and live during their  
sojourn in adobe houses. This senti-  
ment Managers Gibson & Dow will  
fulfill by the construction of these  
buildings. Their appearance will be  
picturesque and inviting and quite in  
contrast with the tents of Sunmount as  
they will be entirely on one side and  
constitute a soft back ground to the  
Tent City.

The weather yesterday in Santa Fe  
was warm, and in comparison with  
that of Kansas and Nebraska, shows  
that Santa Fe is a delightful place to  
live. No sleet, no snow, as was the  
case in the cities of the two states  
mentioned. The maximum tempera-  
ture here was 55 degrees, at 4:25  
o'clock yesterday afternoon; the mini-  
mum temperature at 6:30 o'clock yester-  
day morning was 28 degrees; the  
mean temperature being 42 degrees.  
The relative humidity was 20 per cent.  
The temperature this morning at 6  
o'clock was 25 degrees. Fair weather  
is predicted for tonight and tomorrow,  
Sunday, here with warmer weather in  
the northern portion of the Territory.

The tent cottage now being erected  
for the use of A. R. Gibson at Sun-  
mount will be ready for occupancy the  
fifteenth instant. It is without ques-  
tion the finest tent home in America.  
It will be furnished in keeping with  
its design. Trees, shrubbery, flowers  
and the lawn surrounding the resi-  
dence will add greatly to the attrac-  
tiveness of the place. Sunmount on  
account of its beautiful location and  
from the fact that many eastern peo-  
ple have purchased lots in the addition  
adjoining the Tent City is bound to  
grow and become a residence center  
of Santa Fe. The pure water afford-  
ed, the perfect climate and the ab-  
sence of dust and insect pests make  
it one of the most perfect homesites  
in the whole southwest.
