#### CAPTURE OF CALUMET CERTAIN.

Washington, April 25.—The following was received from General Oiler: "Manila, April 25.—Hale's brigade, MacArthur's division, moved down the right bank of the Quingna river yesterday to the vicinity of Calumet and is now joined by Wheaton's brigade on left bank. The division has now invested Calumet, which will be taken to-day. "Lawton with part of his command reaches Naragazy this evening, where he will be joined by the center column from Boacue. Retreating west, rain, high streams and bad roads made the march very difficult. He has not met opposition since leaving Novaliches, the enemy retreating from his front. "South of and near Manila, the enemy has a force of 4,000 making demonstrations daily. They can be easily taken care of. "OTIA."

#### DEFEATED THE REBELS.

Manila, April 25.—Gen. Hale's brigade, consisting of Nebraska, Iowa and South Dakota regiments, with their guns, which left Manila on Monday, followed the west bank of the Rio Grande to a ford. Our troops attacked the rebels, losing six men killed and eleven wounded. Hale's men claim that nearly 300 dead natives were counted along the country traversed. Meantime General MacArthur's division is in front of Calumet, preparing to attack the rebel stronghold. General Hale, with several guns, is threatening the enemy's flank. Mob of Negroes in Kansas Lynch a Negro Murderer.

#### TEXAS ANTI-TRUST LEGISLATION.

New York, April 25.—The absolute statement was made to-day by one of the most important interests in the copper trade, that H. H. Rogers, of the Standard Oil company, acting for a syndicate, had obtained control of many of the heaviest producing copper mining properties in the United States, including principally the Montana mines and those of the Lake Superior region. Among them are the Anaconda, Isle Royal and Copper King. The deal, however, is yet in an incomplete shape, and on that account those most interested are averse to giving out details. All arrangements for carrying through the trust have been placed, according to this authority, in the hands of Mr. Rogers.

## NEW MEXICO NEWS.

By the Editor.

W. G. Lane is at Rosedale estimating the extent of his wealth when the White Cap mine output reaches the mint in the form of bullion.

The owners of mining property in and about Chloride feel certain that ere long some of the old-time activity to that region will be restored.

Brakeman Al Haslinger has quit rail-roading and found employment at the Rosedale mine. Soon there will be quite a colony of ex-railroaders there.

Miss Grace Clark, who has faithfully and satisfactorily filled the position of deputy postmistress for the past six months, will leave for southern California about the 1st of May, to be absent a month or six weeks. Miss Alele Anderson will be Miss Clark's substitute.

F. B. Niles has succeeded J. H. Jones as chief clerk to Division Superintendent George Ayer. Mr. Niles' mother is also here, and when his sister graduates from the Topeka high school next month, she will come to San Marcial and the family will occupy the dwelling vacated by Mr. Jones.

J. Henry Jones, for many years chief clerk in the trainmaster's office here, has been promoted to a clerkship in J. K. Harney's office at Las Vegas. Mr. Jones is a competent stenographer and a first-class citizen, who, together with his excellent wife and children, will be greatly missed in San Marcial.

Clay B. Sybert, accompanied by his wife, arrived in San Marcial last Sunday morning, and is occupying rooms at the residence of Mrs. J. L. Jones. For some years Mr. Sybert has conducted a large hardware business at Weatherford, O. T., but for health reasons he has been traveling quite extensively of late, accompanied by Mrs. Sybert, who is a sister of our station agent, J. W. McConch. They are interesting people and the possibility of their remaining here permanently is far from remote.

W. W. Jones, deputy United States mineral surveyor, and Geo. Longworth, his assistant, returned from the western part of the territory on Thursday. While away Mr. Jones surveyed the town site of Fresno, owned chiefly by the Jones family, who conduct a large store at that point. Mr. Jones also surveyed several mining claims in the Mogollon district and several homesteads for settlers who intend to move up on their holdings shortly. All this territory is embraced in the new Gila forest reserve, and ranches will be valuable holdings in the future, for no new landings will be accepted by the Las Cruces land office.

W. H. Lyle came in from his ranch on the east side of the Rio Grande, Sunday. He reports cattle to be dying from ticks in their ears in that section. Stockmen should examine their poor or weak stock and perhaps save many of them.

Judge W. S. Little and wife, of Cincinnati, left Saturday for their home after spending several days here and at Kelly. Judge Little is the legal advisor of Mrs. Billings, owner of the Kelly mine.

While in Socorro Judge Little informed us that the Kelly mine would soon be shipping high grade ore again. The lower grade ore will be treated at the trapiche smelter.

## BIO COPPER TRUST.

Most of the Great Mines of America to be on the Late Deal.

On last Friday in London contracts were signed which formally transferred to a single organization practically all of the large producing copper mines in the United States.

According to estimates made directly after the negotiations for the big producing mines, public property, the actual value of the mining properties taken over will exceed \$100,000,000.

In effect, the new organization is an international trust in copper. The organization will protect the price in Europe and America and give to the company power to distribute the output intelligently and economically to the markets where it is most in demand.

The Rothschilds furnished the funds and made the stipulations for the European interests involved, while the Standard Oil company was credited with acting in the same capacity for the American side.

Among the other properties mentioned by yesterday's private cables were the Clark Rhyolite and Marquis Rhyolite in Montana, the Arden and Continental in the Lake Superior region, and the Old Dominion in Arizona, but it is known that several other heavy producers not mentioned are included.

The Rockefeller option recently taken on the Santa Rita mines in Grant county, New Mexico, indicates that this property will be in the deal—Chicago Times-Herald.

The stomach knows nothing about it, it does not trouble you there. You feel it first in the strength it brings; it shows in the color of cheek and smoothing out of wrinkles.

It was a beautiful thing to do, to cover the odious taste of Cod-liver oil, evade the tax on the stomach, and take health by surprise.

It warms, soothes, strengthens and invigorates.
