## OVERDRAFTS ILLEGAL

County Commissioners Have No Right to Draw Warrants on Funds Without Money.

## OPINION BY SOLICITOR GENERAL

The Statute Is Very Plain and Provides Severe Penalties for Its Non-Observance.

Upon the request of Traveling Auditor Charles V. Safford, Solicitor General E. L. Bartlett has given the following written opinion relative to the drawing of warrants by boards of county commissioners against funds in which there is no money, declaring such practice illegal:

Santa Fe, N. M., May 16, 1904.  
Hon. C. V. Safford, Traveling Auditor.  
Dear Sir—Your inquiry to me in regard to "overdrafts" by the county commissioners on warrants issued by them upon different county funds, has had my attention, and I do not understand how such a state of facts can exist, if I understand correctly what is meant by "overdrafts."

Under the law, section 4069, Compiled Laws of 1897, which was passed in 1882, "the county clerk shall keep full and complete accounts with the county collector with each separate fund or tax by itself, etc." Section 755 and 756 of the Compiled Laws of 1897, require the probate clerks to keep a separate book for the sole purpose of keeping an exact account of all county moneys. The laws of 1901 at page 181, allow the county boards to levy a tax of five mills for current expenses of the county, and at page 183, same laws, two mills in addition for court house and jail funds.

Section 343, Compiled Laws, 1897, makes an interest fund on bonded indebtedness a special fund, section 923 also makes the court fund special, and there are provisions of law for special levies for cattle and sheep sanitary funds. Also for wild animal bounty funds. Also for roads and bridges; and the school funds are all special levies in separate funds for the several districts, as are the levies authorized to be made for cities and other municipal corporations within the limits of the county.

Under section 696 Compiled Laws of 1897, each county commissioner is required to give a bond in the sum of \$5,000 for the faithful performance of his duty, and the following section, 697, provides that all moneys paid without authority of law, shall be recovered from the county commissioners on their bonds.

There are other sections of the statute providing for the removal of county officers, who shall fail in their duty in any respect. Section 4067 as amended by section 2 of chapter 37, Laws of 1901 provides that the collector of taxes shall give a receipt for the amount of tax pertaining respectively to the Territory, county, city or town, and to any special levy or levies that may have been made, and section 4068 Compiled Laws as amended by section 3 of the above recited act provides that the collector shall apportion to the several funds of his county moneys by him collected during the last preceding month, in accordance with the levy made for said funds, and file a written report of the same with the probate clerk of his county, showing the amount on that date apportioned to each of said funds. From all of which it is evident that each fund in the county, is to be kept separate and distinct from every other fund, and only the taxes laid to create the funds can go into it or be disbursed from it. The so-called Bateman law provides that section 299 Compiled Laws of 1897 that it shall be unlawful for any board of county commissioners to contract any debts during any current year, and any violation of this act shall be a misdemeanor punishable by fine and imprisonment. Section 305 recognizes the difference between the tax for general county purposes and assessments for special purposes and funds.

So, as I have said above, if there are any "overdrafts," i. e., a warrant drawn against a fund in which there is no money, it is a violation of the Bateman law punishable by fine and imprisonment.

If the warrant is drawn against a particular fund and paid out of the general county interest, or any other fund, than the particular one against which it is drawn, it subjects the county commissioners to a suit upon their bond and also to removal from office.

Very truly yours,  
EDWARD L. BARTLETT,  
Solicitor General.

## VICTIMS OF THE WRECK NEAR CHAMA

Mrs. A. F. Keubler is Slowly Dying But Others on the Road to Recovery—Details of Disaster.

Durango, Colorado, May 23—Mrs. A. F. Keubler, who was seriously injured in the wreck on the Denver & Rio Grande near Chama, is at the Mercy Hospital in Durango and is dying slowly. Her sufferings have been intense and no hope is entertained for her recovery. Her mother arrived from Pueblo on Saturday and with her husband is in constant attendance at Mrs. Keubler's bedside. Joe May, the brother of Mrs. Keubler who was seriously injured, will likely recover as he is young and strong. His hip was crushed and he sustained internal injuries. Engineer Michael Hurley is also recovering. Additional details of the wreck were furnished by travelers arriving on the regular train. Some of these travelers had slight injuries and were taken to the hospital where they were attended to by the surgeons. A traveling man stated that the dome of the engine was blown 120 feet up the mountain by the force of the boiler explosion. He stated that pandemonium reigned after the accident.

## RUSSIANS BLOW UP THEIR OWN CRUISER

It Was Impossible to Get the Bogatyr From the Rocks—Russian Prisoners Arrive at Tokio and Japanese Emperor is Presented With Trophies From the Yalu.

St. Petersburg, May 23—The report that Rear Admiral Jensen, finding it impossible to save the protected cruiser Bogatyr, which went ashore recently in a fog on the rocks off Vladivostok, caused her to be blown up, is confirmed.

The guns of the Bogatyr were removed before she was destroyed. No loss of life attended the destruction. Russians Confident of Holding Port Arthur.

The Foo, May 23—The captain of a Russian merchantman, who left Port Arthur on May 20, is among the recent arrivals here. He says the whole Japanese fleet has not returned to Port Arthur since the 15th instant, when besides the battleship Hatsuse, another big vessel struck a mine and was towed away in a disabled condition. The gunboats and torpedo boats returned off the port on the 20th instant when the Russians succeeded in sinking a small gunboat and two torpedo boats. The Russians are now confident of holding Port Arthur with the 30,000 men stationed there.

All the warships have been repaired except the Ozarewitch and the Retzikan which will be ready for sea by June 1. The entrance to the harbor has been cleared and small boats now pass freely from Port Arthur to Dalny. There has been no fighting in the vicinity of Port Arthur since the 15th instant when two squadrons of Japanese cavalry were wiped out, only eight men escaping.

## Japanese Trophies.

Tokio, May 23—The Japanese landed at Takushan are reported as having been engaged in two scouting skirmishes, during which ten Russians were killed. About three hundred sick and slightly wounded men of General Kuraki's army arrived at the military hospital here today. Three splendid horses, several gun wagons and ambulances, captured on the Yalu River, will be presented to the Emperor.

Report of Land Attack on Port Arthur. St. Petersburg, May 23—According to reports which have reached Russian headquarters at Liao Yang from Chinese sources, the Japanese have made a land attack on Port Arthur but have been repulsed with heavy loss. The truth of the report is questioned here.

Naval Situation Changed. St. Petersburg, May 23—The general staff says the re-occupation of New Chwang by the Russians in force is due to the change in the situation produced by the loss of Japanese ships during the last week. General Kuropatkin originally decided to abandon the town, because of the Japanese's complete mastery of the sea, but the losses sustained by Admiral Togo's fleet so changed the relative strength of the two fleets that it is believed to render unsafe the dispatch of Japanese transports around the Liao Tung peninsula as they run the risk of an attack by Rear Admiral Wittsoeff.

## AMERICAN CITIZEN IS ARRESTED

But is Released By Russian Authorities at Intercession of Ambassador—Charged With Violating Penal Laws.

St. Petersburg, May 23—Morris Kleiman, a native of Russia, but a citizen of Wisconsin, who was arrested on May 14 at Chelabinsk, has been released at the intercession of Ambassador McCormick. It transpires that his arrest was partly due to representations made by agents of the firm competing with the one represented by Kleiman.

Kleiman was charged with violation of an article of the penal code which provides that a Russian subject who swears allegiance to a foreign country without the government's permission, is liable to banishment or transportation to Siberia.

It has been fully established that the town of Edith, formerly claimed to be in Archuleta County, Colorado, is within the boundaries of the Territory and in the county of Rio Arriba. Delegate Rodey has kindly furnished the New Mexican a copy of the following letter which explains itself:

## STRIKE ON THE EL PASO & NORTHEASTERN

The Company Has it Well in Hand and is Having No Trouble to Move Its Trains.

Eighteen strike breakers from Chicago were put to work in place of the boilermakers in the Alamogordo shops on Friday and the shops are now running as usual. It is said that some of the strikers were willing to return to work when they saw that the company would replace them in the shops, but the imported men were on the ground and the managers would not take the strikers back. The Alamogordo shops are guarded, special officers being sworn in for that purpose. None of the machinists have struck as yet and the company is getting its engines out in good shape.

An official of the El Paso & Northeastern sums up the situation as follows:

"We will close down the E. P. & N. E. road before we will give in to the boilermakers in the present trouble. The shops are now working smoothly and our men are doing better work than the strikers, who seem to have shirked their work in the past."

"For the last year the machinists and boilermakers in the Alamogordo shops have really been running the E. P. & N. E. and those days are now at an end."

"Undoubtedly the strikers would now return without redress for their alleged complaint if we would allow them, but if it is possible to secure good workers, who are not always endeavoring to make trouble, I do not see why anyone who has shown such a decided disposition to do their employers an injustice should be given another chance."

The company is in better position to meet a strike than it ever was before and has been able to maintain schedule time with the operation of its trains without any interference. One thing that has greatly helped the company in the operation of its trains is the fact that the movement of freight over the road has been light and several of the shopmen at Alamogordo stayed by the company and helped to keep the engines in good repair until the new men were received from the east and since that time it is said there has been no trouble at all in getting the engines repaired when necessary.

Officials of the company are now certain that no further trouble will be experienced on the line.

The book bindery of the New Mexican Printing Company has been so much enlarged and improved of late that it is the best south of Pueblo to the Mexico line and between Dallas, Texas, and Los Angeles, California.

Four men, on board at the time, had a narrow escape, one of them being badly burned. Sixteenth Street wharf, at which the schooner was lying, was partly burned. The loss is \$100,000.

## THE SANTA FE IS FIRM.

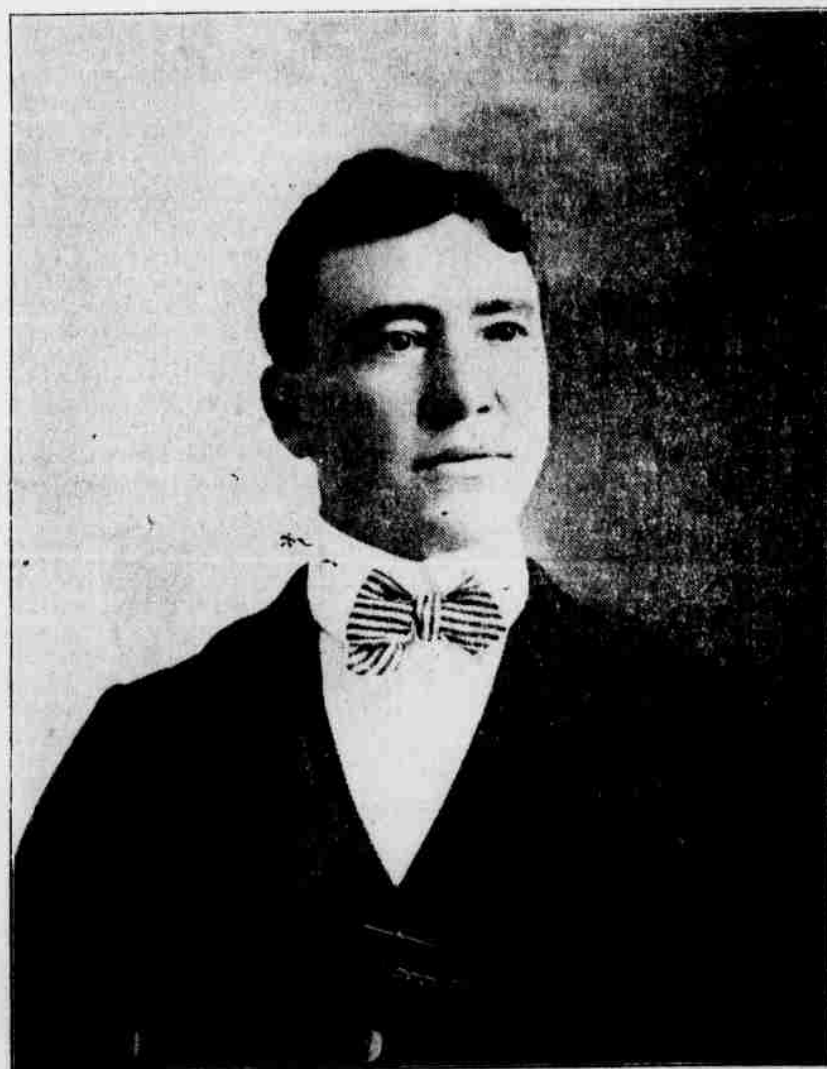

It Will Not Treat With the Unions Who Are Making Trouble on the Coast Lines.

On Saturday evening, General Manager A. G. Wells of the Santa Fe coast lines, and Arthur Lovell, superintendent of motive power, met for a conference at Albuquerque. They say that thus far there has been no serious trouble with the motive power as a result of the walkout, which includes the union machinists and boilermakers west of Albuquerque. Manager Wells says that the Santa Fe has ceased to recognize either the machinists' or the boilermakers' union.

## SATURDAY'S RAIN.

It Covered the Northern Counties and Did Considerable Good and Also a Little Damage.

The rain storm on Saturday afternoon extended over northern New Mexico, in and around Raton considerable damage was done to gardens by the hailstones. Many windows were also broken, the hail stones having been the size of walnuts. In Mora and San Miguel Counties the rain and hail extinguished forest fires which had swept over 500 acres of fine timber on and adjoining the Pecos River Forest Reserve. At Sapello, Fort Union and La Cueva, the rain broke the drought.

THE LATE W. R. ASCARATE.

## DEATH OF W. R. ASCARATE.

He Succumbed to Heart Disease at Las Cruces on Saturday—A Graduate of St. Michael's College Santa Fe.

William R. Ascarate, well known throughout the Territory, died at Las Cruces on Saturday. He was the son of Francisco Ascarate and served in the House of the territorial legislature. He was 30 years of age. Heart failure was the cause of death. His wife preceded him to the grave a few months ago. Two brothers, Francisco and Eduardo, and two sisters, Mrs. Nestor Armijo and Miss Isabelle Ascarate, survive him.

Mr. Ascarate was born at Las Cruces in 1874. He attended the public schools in his native town and then spent five years as a student at St. Michael's College in Santa Fe. From here he went to Quincy, Illinois, where he took a course in commercial law, bookkeeping, stenography and typewriting, graduating in 1893. Returning to New Mexico he went into the cattle business with his uncles, James and Guadalupe Ascarate. The deceased served two years as interpreter in the court of the Third Judicial District, and was elected to the House of the Thirty-fourth Legislative Assembly as a Democrat, the nomination going to him without solicitation and while he was out of the Territory on business.

## THE GREAT WEST.

The Great West is in the eye of the nation. Political managers are recognizing the fact that the people west of the Mississippi river play an important part in politics, in business and in the management of the country's affairs. The Republican campaign managers have concluded to establish at least two and probably three headquarters in this year's political fight. One headquarters will surely be in Chicago and the second likely in San Francisco. That the use of these two will prove beneficial to the party and will aid it in getting many votes in the vast stretch of country between the Mississippi River and the Pacific Coast is sure. The St. Louis Globe-Democrat recognizes this condition and asserts editorially that nobody will be surprised that the Republican campaign managers have determined to have a branch headquarters in Chicago for the canvass of 1904. They had a branch there in 1900, and also in 1896. It is necessary for the Republicans to make a strong canvass in the west. They have the lead in most of the states of this section, and are likely to retain it, but they must fight to hang to their supremacy. One of the ways in which they can work to advantage in the west during the campaign is to have a headquarters in some western city, and Chicago has many advantages as such a point.

Of course, the selection of the lake city as a radiating point for Republican activity during the canvass of 1904 is a tribute to the west's growing influence in the politics of the country. Nearly all the presidential candidates of the Republican party have been western men. A western man will hold the second place on the national ticket this year. In fact, the west thinks that the man who will head the ticket is one of its own sons. President Roosevelt lived on the sunset side of the Mississippi for several years. He wrote about the west with more sympathy and intelligence than almost any other person along to his time. His directness, sincerity, vigor, originality and resourcefulness are all qualities which western life develops, and which are necessary to the highest success in this region.

It is probable that the Republicans in 1904 will carry all the states in the west outside of the old slave locality except Nevada, and there is a chance that they will have Nevada also. Bryan won Colorado, Montana, Idaho and Nevada in 1900, but all of these except the last named have since then showed that they will likely be Republican this year. Roosevelt is especially strong in the prairie and mountain regions. Many Democrats of Nevada have said that they are Republicans in 1904. The number of Roosevelt Democrats and Roosevelt Populists west of the Missouri in 1904 is likely to reach imposing figures. The larger the Republican majority is in the west, of course, the better it will be for this section in a social and business way. A Republican majority in a community always is a grand advertisement for its sanity, intelligence and general and particular progressiveness.

## ILLINOIS REPUBLICAN SITUATION.

The situation in Illinois from a Republican standpoint is not at all satisfactory. The Republican state convention, after having been in session a full week at Springfield, adjourned until May 31 without nominating candidates for governor and the state ticket. It is to be hoped that during this week better and wiser counsel will prevail and that a compromise between the contending factions will be made. The New York Evening Sun, generally fair and sensible and well informed upon political conditions, even outside of New York City, (it is a rather peculiar position for a New York paper to be in) in discussing the Illinois situation says that a deadlock in a state convention to nominate a governor is not so rare as to excite comment, but the tie-up in the Republican convention at Springfield is unusual, because the governor of the state asking for a renomination, is in a minority, although he has a large vote on each ballot. The explanation is that Richard Yates, the son of his father, has a very compact machine behind him and is able to hold it together by promises of favors to come. Yet he has less than one-third of the

votes in the convention. No other evidence is needed to show that his nomination would be a cloud on party prospects. If almost any one of his opponents were to be made the candidate he should be able to poll the party vote for the following of Governor Yates is held together only by the cohesive power of public office.

The Yates machine is making capital out of a story that the administration is trying to buy the governor off with an offer of the ambassadorship to Mexico. It is not to be believed, because Mr. Yates' capacity for doing the wrong thing must be well known in Washington; in such a responsible diplomatic post he would keep the president awake nights. Speaker Cannon, according to the Yates version, was one of the intermediaries, but the speaker flatly denies the report. His reputation is such that it must be regarded as a canard. It is certainly comical that a politician who has built up a machine by using patronage scandalously should rend the welkin with cries that somebody is trying to buy him with an office.

## THE GERMAN-AMERICAN VOTE IN THIS CAMPAIGN.

Somebody by the name of Herman Ridder who lives in New York and who claims to carry the German-American vote in his breeches' pocket informs the dear people that should Judge Parker be nominated every German-American vote in all this broad country, from the Pacific to the Atlantic, from the Red River of the North to the Mexico line on the South, from the Green Hills of Vermont to the Sandy Plains of Arizona will go to the Judge. This is important if true, although Congressman Bartholdt of St. Louis is of the opinion that Mr. Ridder does not know what he is saying talking about and that the truth is not in him. Why the German-American vote should go in a complete body to Judge Parker is not exactly clear, but why the masses of German-American citizens should vote for Mr. Roosevelt is apparent. German-Americans like an aggressive, courageous and honest man who is not afraid of his convictions and who does his duty in office or out of it, in a high position or in humble belongings as he sees it, as he feels it and as he believes he should for the best interests of his country and of the people. The German-Americans certainly will not take up a man like Judge Parker, about whom not much is known, except that he has the faculty of holding his tongue and who it is believed, is under the dominion of that cunning and unscrupulous politician, former Senator David Bennett Hill of New York.

## MARKS THE DIFFERENCE.

It is reported that August Belmont, a New York banker and trust magnate, says he will put \$5,000,000 into the Democratic campaign fund should Judge Parker be nominated for the presidency by the St. Louis convention. Mr. Belmont must have a good many financial irons in the fire which under Judge Parker's presidency would become gold. The banker is not one of those innocent persons who put money into campaign funds for patriotism and for public good. He will put it into the Democratic campaign fund in order to get it back under a Democratic president. The "plain people" ought to ponder upon these circumstances. On the other hand Mr. Roosevelt says that he does not wish a huddle campaign nor does he want to be elected by the power of the "barr!" Mark the difference.

During the decade from 1890 to 1900, according to the United States census, and that is considered correct, comparing New Mexico with the states of Colorado, Utah, Wyoming, Idaho, Montana, North Dakota and South Dakota, they have done no better in gaining population than has the Sunshine Territory. The argument by the joint statehood boomers that as soon as New Mexico and Arizona are joined under one state government, there would be a vast increase in population, is not at all borne out by the facts, especially when the conditions in the above named states are taken into consideration. New Mexico during the decade just passed has done better than some of them and as well as any of them, although the former was then and is now still under a territorial condition.

The reclamation service of the Geological Survey should remember that New Mexico is a great country in size and that there are several sections of the Territory that should be considered when it comes to an investigation of sites for reservoir purposes; so far the consideration accorded the Territory by the reclamation service seem to be somewhat one-sided. What is the matter with looking after the great Rio Grande Valley in this respect?

There is one strong point in the position of the Indiana Democrats. Their recent convention did not adopt a platform and hence there can be no criticism upon that score. These Hoosier Democrats are smarter than the Empire State bucks under Boss David Bennett Hill on one side and Tammany Hall Boss Murphy on the other side.

The effusions of some of New Mexico's yellow journals on the Democratic side of the fence are not only romantic, but also somewhat amusing. They contain mighty few grains of truth and are given out mostly to gull the silly or those who wish to be humbugged.

England's poet laureate, Mr. Austin, comes to the front with the remark that poetry is declining. True! He would never hold the position that he does, were it otherwise.

Gloomy thoughts become habitual to the dyspeptic. He looks on the dark side of things and every mole hill becomes a mountain. His condition affects his business judgment and mars his home relations.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the organs of digestion and nutrition. It gives buoyancy of mind as well as health of body because it removes the physical cause of mental depression.

It enables the perfect digestion and assimilation of food, and the body is strengthened by nutrition which is the only source of physical strength.

"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail," writes Mr. Thos. G. Lever, of Lever, Richmond Co., S. C. "At night would have cold or hot feet and hands. Alternately, I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place; was irritable and impatient, and greatly reduced in flesh. I could scarcely eat any thing that would not produce a bad feeling in my stomach. After some hesitation, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pellets.' After taking several bottles of each, found I was improving. I continued for six months or more, off and on. I have to be careful yet, at times, of what I eat, in order that I may feel good and strong. I fully believe if any one suffering with indigestion or torpid liver or chronic cold would take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' and observe a few simple hygienic rules, they would soon be greatly benefited, and with a little perseverance would be entirely cured."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

The Russian general staff is finding out that the tactics used in the war against Napoleon in 1812 do not pan out when employed against the Japanese troops. The Russian generals seem to have forgotten that in Napoleon's days there were no railroads, no breechloading rifles and machine guns; farther, that in those days nobody knew anything about Japan and cared less.

Washington people are hypercritical indeed. They are now complaining because Secretary Shaw left his office one day last week and went to a circus. They evidently wanted him to take a few million of dollars of government cash and skip to Europe. As he disappointed them they are criticizing him.

The Chinese government for the tenth time announces that it intends to keep strict neutrality toward Russia and Japan. Events in recent years have demonstrated that it happens very often that the Chinese government cannot carry out its intentions and keep its pledges. This may happen in this case.

The Washington Post does not entertain too high an opinion of Colonel Bryan's weekly newspaper. Concerning it the paper in an editorial paragraph recently remarked: "A copy of Bryan's Commoner was found in the stomach of a beef steer killed by a Pittsburg butcher. It was undigested."

Very welcome rains are reported from several sections of the Territory during the past few days. The outlook for farmers and stockmen is becoming better and for this "much thanks!"

Pension Commissioner Eugene F. Ware announces that he will soon resign. Mr. Ware is one of those happy individuals who would rather write poetry than hold a comfortable government berth.

Within the last two or three days more Japanese victories are reported. This thing is getting to be quite monotonous. What is that blessed correspondent at St. Petersburg about anyway?

# MERCURY

## A POOR CRUTCH.

Experience is a dear teacher, as those who pin their faith to Mercury find out sooner or later. This powerful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the invariable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure permanent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored spots and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks down the constitution, ruins the digestion and cause the bones to decay. S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison. It destroys every atom of the deadly virus, overcomes the bad effects of the mercury and cleanses the blood and system so thoroughly that never after are any signs of the disease seen. Nor is the taint ever transmitted to others. We will send free our book on Contagious Blood Poison, which is interesting and contains full directions for treating yourself at home. Medical advice or any special information desired given without charge.

## TERRITORIAL TOPICS.

### QUAY COUNTY.

Dr. Pierson of Tucumcari, has returned from Hot Springs, Arkansas, where he has been for the benefit of his health for several months.

Dr. James L. Tomlinson, Max B. Goldenberg and Donald Stewart have been appointed jury commissioners to select the grand jury for June term of court.

Work has commenced on the new scouring mill at Tucumcari. The pipe is being unloaded and the contract has been let to M. Cooper for drilling the well. E. J. Huling, president of the concern, was in town a couple of days last week arranging matters. He stated that it would take 20 carloads of machinery to install the plant. Ralph Vanderwart has accepted the position of assistant superintendent.

### GRANT COUNTY.

Mrs. J. A. Leahy and Mrs. R. M. Kedzie and their children have gone to California to spend the summer.

Mr. and Mrs. R. H. Batchelor and their niece, Miss LaCompte, arrived Monday afternoon from California. Mr. Batchelor came to attend a meeting of the Aberdeen stockholders. Wednesday evening Mr. and Mrs. Batchelor entertained a number of their friends of this town at dinner at Colonel Tom Long's restaurant.

This section of country was visited by a fine rain recently. The rain came down slowly sinking into the ground without making any washes. At Lordsburg three-tenths of an inch fell.

There are several cases of scarlet fever in Lordsburg. The first cases were the children of Rev. O. O. Otis. They are now recovering. As soon as it was known that they had scarlet fever they were quarantined, but it is probable that they scattered the disease before it was known that they had scarlet fever. It is not known how the Otis children became infected but it is supposed that they brought the disease from Washington where they had been for some time. The local physicians are taking every precaution to prevent the spread of the disease.

### EDDY COUNTY.

J. C. Pott was a visitor in Artesia, from his farm at Red Rivers. He is drilling a well and is down 305 feet and will go deeper. The flow now rises eight inches above the casing.

The six year old daughter of Mr. and Mrs. James Click, proprietors of the East Side Hotel at Artesia, had the misfortune to break one of her legs. She pulled a flower box of dirt from a shelf. The box fell on her, breaking her leg between the knee and ankle. The injury was attended and the child is doing well.

The trustees of the Methodist Episcopal Church South of Artesia, were notified a few days ago that \$500 had been granted by the church extension board to assist in building a new church in that town. This insures the immediate erection of the building as the trustees have deeds to three fine lots and about \$600 in public subscriptions.

White and Swearingen, oil well drillers from Corsicana, Texas, arrived in Artesia Monday with a force of men to go to work on the Smith and Beckman well just west of the city. The derrick is being built and in a few more days the drilling will begin. Smith and Beckman have thousands of fruit trees which they will irrigate from this well.

The work on the cement block factory to be built in Artesia will begin at once. Bert Roby who is proprietor of the factory arrived Saturday with several workmen and the machinery for his plant. A car of cement is expected any time. The new store building of W. E. Baskin will be built of cement and the work on it will be commenced as soon as the blocks are made. Four other new buildings will be built as soon as the blocks are ready.

J. C. Hale living near Artesia, is now the owner of one of the wonders of the world, the finest artesian well such as can be found nowhere on earth except in the Pecos Valley. The fact that the well was a gusher was announced by the continuous screech of the whistle which told the people of the town that something had happened at the Hale farm. The road was soon crowded with vehicles and people on their way to see the sight. The flow was something tremendous. The water flowed 29 inches over the casing. One thousand acres of land will be irrigated from this well. The drill was moved immediately to the Robertson place and work on another well started.

### Quick Arrest.

J. A. Gullede, of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers and kills pain. 25c. at Fischer Drug Co.

### Cured His Mother of Rheumatism.

"My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

The Tuesday Fortnightly will meet tomorrow afternoon with Miss Palen at 2:30 o'clock.

A letter addressed to Miss Genevieve C. Shepherd, Freehold, New Jersey, is held at the postoffice for postage.

Fly time is coming and this is the month in which to put up fly doors and fly screens. A large assortment at the Santa Fe Hardware and Supply Company's Store. See the new advertisement.

There will be a meeting of Carleton Post No. 1 of the Grand Army of the Republic at post hall at 8 o'clock this evening for the purpose of making arrangements for the Memorial Day exercises.

The governor of Nambe and two of the principal men of the Pueblo, were in the city on Saturday to consult with Judge A. J. Abbott the attorney for the Indians in regard to their water rights in the Nambe River.

W. S. Fletcher, a G. A. R. veteran and a member of Carleton Post No. 1 in this city, who several weeks ago suffered a stroke of paralysis, was yesterday taken to the St. Vincent's hospital for treatment.

The regular monthly convocation of Santa Fe Commandery No. 1, Knights Templar will be held this evening at its assembly at Masonic Hall at 7:30 o'clock. Sojourning Sir Knights are courteously invited to attend.

Many complaints are heard concerning the unsafe and bad condition of the bridge across the Santa Fe River on College Street. The county authorities should take prompt measures to properly repair the bridge.

J. W. Buchanan of Denver, who has been in the city for several days purchasing burros for the George L. Goulding Company of Denver, left this morning with a carload of burros to be shipped to Coney Island, New York.

Born to Mr. and Mrs. S. B. Davis at Las Vegas, this morning, a baby boy; mother and child doing well. Mrs. Davis is well and favorably known in this city where she has spent a good deal of time of late years at the executive mansion as Miss Mary LaRue.

A picnic party yesterday went to the end of the Scenic Route on the Dalton Divide and report that it has been completed to within eight miles of the Pecos. Work is progressing rapidly but there is a considerable amount of blasting which has to be done before the road is extended much farther.

A water main of the Santa Fe Water and Light Company on Montezuma Avenue has been broken since last Wednesday and a quantity of water which could be used to advantage for irrigation purposes, is going to waste. The attention of the company is called to the matter.

A neat stone wall or iron railing should be placed in front of the court house grounds. This is a necessity and will also add to the appearance of the grounds and of the court house very much. The county commissioners should take prompt steps to carry out this suggestion. Many citizens have called at the New Mexican office and have requested that it be made through its columns.

During the past two days the weather bureau reports precipitation amounting to .37 of an inch in this vicinity. This amount of rainfall is most gratifying as is also the prediction of possible showers tonight and Tuesday. On Saturday the maximum temperature for the day was 69 degrees at 1 p. m. and the minimum 46 degrees at 7:50 p. m. Yesterday the thermometer reached 72 degrees at 3:40 p. m. for its maximum and 42 degrees at 3:15 a. m. for its minimum. At 6 o'clock this morning the temperature was 50 degrees.

The pupils of the Parochial School spent a delightful day at Monument Rock last Tuesday. The Brooklyn and four other vehicles were hired to convey the merry crowd to the canon, but on Tuesday morning it was found that they would not begin to accommodate the 100 pupils of the school. Mr. Closson kindly furnished one of his largest rigs and Mother Lucia furnished another so it was not necessary that any of the children should be left at home. If the trees and brooklets in that beautiful little dell could talk they would surely say that they had never seen a happier lot of children. How they did enjoy themselves! One of the little tots said she hoped Mr. Closson's horses would live long and get very fat. Her companion replied

that if they got any fatter he would have to buy them new skins, for the ones they had would be too small. The pupils of the school wish to thank their teachers for the much enjoyed day in the woods, also Mr. Closson and Mother Lucia for their share in contributing to the pleasure of the day.

The New Mexican was in error in its issue of last Saturday in stating that the contracts for repairs to the federal building upon bids submitted to Collector A. L. Morrison on the 20th instant had been awarded. The collector had no power to do so and simply forwarded the bids with his recommendation to the supervising architect of the treasury at Washington by whom they will be examined and the awards made. There was also an error in the figures. The correct amount will be given when the action of the supervising architect of the treasury is made public.

### HOW CHEAP BAKING POWDER IS MADE.

A seizure of a lot of "cheap" baking powders by the authorities of a neighboring city has exposed the character of the low priced brands of baking powders which many manufacturers are offering throughout the country. The price of the powders first attracted attention to them. Samples were taken and analyzed. The official report of the analysis showed the stuff to be "alum powders" composed chiefly of alum, sulphuric acid and pulverized rock. The powders were declared dangerous to health and several thousand pounds were confiscated and destroyed.

Physicians have frequently cautioned consumers against mixing food with these so-called "cheap" baking powders. They are all found, when analyzed, to contain large percentages of alum and sulphuric acid to which are added various sorts of filling matter sometimes both injurious and nasty.

The high class, cream of tartar baking powders, are the most economical and wholesome and should always be selected for use. They will be found cheaper in the end, besides making the food better and more healthful.

### MARGARITO ROMERO FOUND GUILTY

He Cut Timber on the Pecos River Forest Reserve—The Government Had a Clear Case.

In United States Court at Las Vegas on Saturday, a verdict of guilty was brought in against Margarito Romero for the cutting of timber on the Pecos River Forest Reserve. The case was one of considerable interest but the United States offered such conclusive testimony that no other verdict was possible. The main point at issue was whether the land on which the timber was cut was within the boundaries of the Reserve as the defendant did not deny the act of cutting the timber. Sentence was pronounced today by Chief Justice W. J. Mills.

### KILLED BY A BUCKET OF ORE.

Fatal Accident to Charles Horsinger While at Work in the Log Cabin Mine, Sierra County.

Charles Horsinger was instantly killed last week while at work on the Log Cabin mine on Tierra Blanca Creek, Sierra County. He was working at the bottom of the shaft when a bucket of ore that swung about 30 feet above him dropped and killed him instantly. Horsinger had overloaded the bucket and the old whim worked by Louis Sly gave out without warning, thus causing the accident. Horsinger was 30 years of age and is survived by his wife and a child two months old.

**CASE AFTER CASE.**

Plenty More Like This in Santa Fe.  
Scores of Santa Fe people can tell  
you about Doan's Kidney Pills. Man-  
a happy citizen makes a public state-  
ment of his experience. Here is a  
case of it. What better proof of merit  
can be had than such endorsement:

Pascual Yanni, boot and shoe repair-  
er on the Plaza, residence College st.,  
says: "A man cannot sit on the bench  
sparring shoes all day unless his back  
is extra strong. When it is weak, lame,  
and pains continually, it becomes a  
positive nuisance without mentioning  
the suffering it endures, if working at  
my occupation was not the primary  
cause of backache it certainly aggrava-  
ted it. Much to my surprise and more  
to my gratification, a course of the  
treatment with Doan's Kidney Cure  
procured at Ireland's Pharmacy so  
washed, purified and strengthened my  
kidneys that the backache ceased."

For sale by all dealers. Price 50 cts.

**A SURE THING.**

It is said that nothing is sure except  
death and taxes, but that is not al-  
together true. Dr. King's New Discovery  
for Consumption is a sure cure for  
all lung and throat troubles. Thou-  
sands can testify to that. Mrs. C. B.  
Van Metre of Shepherdsburg, W. Va.,  
says: "I had a severe case of Bronchitis  
and for a year tried everything I heard  
of, but got no relief. One bottle of Dr.  
King's New Discovery then cured me  
absolutely." It's infallible for Croup,  
Whooping Cough, Grip, Pneumonia and  
Consumption. Try it. It's guaranteed  
by Fischer Drug Co., Druggist. Trial

**Whooping Cough.**

"In the spring of 1901 my children  
had whooping cough," says Mrs. D. W.  
Capps, of Capps, Ala. "I used Cham-  
berlain's Cough Remedy with the most  
satisfactory results. I think it is the  
best remedy I have ever seen for  
whooping cough." This remedy keeps  
the cough loose, lessens the severity  
and frequency of the coughing spells  
and counteracts any tendency toward  
pneumonia. For sale by all druggists.

## PILES

"I have suffered with piles for thirty-six years.  
One year ago last April I began taking Cascarets  
for constipation. In the course of a week I noticed  
the piles began to disappear and at the end of six  
weeks they did not trouble me at all. Cascarets  
have done wonders for me. I am entirely cured and  
feel like a new man." George Kryder, Napoleon, O.

To cold draughts of air, to keen and  
cutting winds, sudden changes of tem-  
perature, scanty clothing, undue ex-  
posure of the throat and neck after  
public speaking and singing, bring on  
coughs and colds. Ballard's Hore-  
hound Syrup is the best cure.

Mrs. A. Barr, Houston, Texas, writes,  
Jan. 31, 1902: "One bottle of Ballard's  
Horehound Syrup cured me of a very  
bad cough. It is very pleasant to take."

**A Startling Test.**  
To save a life, Dr. T. G. Merritt, of  
No. Mehoopany, Pa., made a startling  
test resulting in a wonderful cure. He  
writes, "I was attacked with  
violent hemorrhages, caused  
by ulceration of the stomach. I had  
often found Electric Bitters excellent  
for acute stomach and liver troubles so  
I prescribed them. The patient gained  
from the first, and has not had an at-  
tack in 14 months." Electric Bitters

**Growing Aches and Pains.**  
Mrs. Josie Sumner, Bremond, Texas,  
writes, April 15, 1902: "I have used  
Ballard's Snow Liniment in my family  
for three years. I would not be with-  
out it in my house. I have used it on  
my little girl for growing pains and  
aches in her knees. It cured her right  
away. I have also used it for frost  
bitten feet with good success. It is  
the best liniment I ever used." 25c, 50c,

## COMMENCEMENT OF NEW MEXICO MILITARY INSTITUTE

Two of the Graduates This Year Were  
Santa Fe Boys—Medals Awarded.  
Close of Most Successful Year  
of the School.

Special Correspondence New Mexican.  
Roswell, N. M., May 18.—The com-  
mencement exercises of the New Mex-  
ico Military Institute were held today  
and closed tonight with the final ball.  
This has been the most successful ses-  
sion since the school was organized  
and the commencement exercises were  
very interesting. The graduating class  
was addressed by Professor Edward S.  
Parsons, vice president of Colorado  
College, and Colonel J. W. Willson of  
the Institute. Cadet T. H. Wren was  
the valedictorian.

The following composed the graduat-  
ing class: Robert N. Smith, Drew E.  
Pruitt, Harry H. Howell, of Roswell;  
Leslie M. Brownell Ely of Minnesota;  
James W. Chaves and Francis R. Cran-  
dall of Santa Fe; Thomas H. Wren of  
La Crosse, Arkansas, and Alexander  
A. Ririe of Bonito, Lincoln County.

F. Kleinwert of Albuquerque, won  
the medal in the collegiate, and J.  
Lee of Brownwood, Texas, the medal  
in the preparatory department.

The drill medal was awarded to  
Harry H. Howell of this city and the  
debaters' medal to W. E. Talbot of  
Albuquerque.

The second and last game between  
the New Mexico Military Institute and  
El Paso baseball teams, was played at  
Roswell on Wednesday the 18, and was  
better and more interesting than the  
first. A prettier game could not have  
been seen outside of the professional  
arena. Davis, the New Mexico Insti-  
tute pitcher, struck out but two men,  
but only five hits were made off his  
delivery, his support being well nigh  
perfect. The Institute scored one in  
the first and one in the ninth inning.

In the first Neher drew a base on  
balls, but was doubled by Kuny's  
grounder to Sprinz. McWhorter  
doubled, stole third and scored on  
Welche's wide throw to first on Brown-  
ell's grounder.

El Paso scored in the seventh. Nord-  
haus struck out. Sullivan was safe at  
first on Neher's error. Sprinz doubled  
to left, but by Leland's quick work,  
Sullivan was held at third. Buchanan  
hit to Kuny who threw home, retiring  
Sullivan. Reum singled to right and  
Dow let the ball go through him and  
Sprinz scored from second. Buchan-  
an was caught at the plate.

In the ninth inning Brownell was  
out fly to left. Bell was hit by pitched  
ball. Neher took his place on the base  
and stole second. Davis drove a pret-  
ty on to right and Neher scored.

The game was a beautiful exhibition  
of fielding. There were few strike-outs  
and few errors, but despite the small  
score, there was plenty of battling, it  
seeming impossible for the ball to be  
batted safely on account of the good  
work of the fielders.

The batting order of the El Paso  
team was Meyer center, Welch, short  
stop; Wilkinson, third base; Ingersoll,  
first base; Nordhaus, second base;  
Sullivan, center field; Sprinz, field;  
Buchanan right field; and Reum left  
field.

Of the Institute: Neher, first base;  
Kuny, third base; McWhorter, short  
stop; Brownell, center field; Bell, sec-  
ond base; Davis, field; Lohman, cen-  
ter field; Leland, left field, and Dow,  
right field.

## Marlin 16-Gauge Shotgun

This is the smallest and lightest weight (about  
6 1-2 pounds) repeating gun ever manufactured,  
and opens up many new possibilities to the  
up-to-date sportsman. It is not a 16 barrel on a  
12 action, but a new, well-balanced, properly-proportioned  
gun that, with modern smokeless powders, enables a shooter  
to use a powerful load in a small shell and reduce, materi-  
ally, the weight of shells and gun to be carried. The  
small, light gun handles fast, results in close holding and  
increased accuracy. Full description in new Marlin Catalog No. A542, just out.  
Send three stamps for postage to THE MARLIN FIREARMS CO., NEW HAVEN, CONN.

### SMALLPOX CASE DISCOVERED.

On a Train of the Southern Pacific—  
Prompt Measure Immediately  
Taken By Railroad Officials.

The conductor of train No. 9 on the Southern Pacific discovered some suspicious cases supposed to be smallpox on the train as it neared Cambridge several days ago and telegraphed the officials of the road who notified Dr. Swope of Deming asking him to be at the depot on the arrival of the train. Dr. Swope examined the patients and found that one had smallpox in a well developed form. The other patients having been exposed to the disease were quarantined, the car in which they were being sidetracked guarded.

The county commissioners were immediately notified of the matter and they issued a notice stating that the county would not bear the expenses of caring for the men but would hold the railroad company responsible for their removal. Later Station Agent Bosworth received instructions to have the car removed to El Paso where the men could be better taken care of and the car disinfected.
