A GUIDE TO THE LITERATURE OF THE SOUTHWEST, XXIX

THIS BIBLIOGRAPHY, a service of the University of New Mexico's Research Bureau on Latin America and Cultural Relations in the Southwest, the School of Inter-American Affairs, the Department of Sociology, and the *New Mexico Quarterly Review*, attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico, Arizona, and Texas, and parts of Utah, Oklahoma, Colorado, Nevada, and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

Included in this issue are mainly those titles which were published or came to our attention between December 1, 1948 and March 1, 1949.

Recurring items of a general nature, indicated in this issue by a star, will be listed only once a year, in order to conserve space and avoid needless repetition.
