ALBUQUERQUE, — MARCH 9, 1898

The fight between the cattlemen and the sheepmen is on in the Arizona legislature and is waging bitterly.

The mayor of Victor, Colo., has issued a proclamation compelling dog owners to keep up their canines or suffer the penalty of having them shot on sight.

ADMIRAL DEWEY is the fourth officer of that rank the United States navy has been honored with. His predecessors were John Paul Jones, Farragut and Porter.

A CHICAGO policeman has been promoted for killing a burglar. Such a radical departure from the old method is likely to make the business of robbing houses extra hazardous.

CHARLES H. MCNICHOLES has been appointed Indian agent at the Colorado river agency in Arizona. Mr. McNichols has occupied that position for two years, but failed to be confirmed, hence his reappointment.

The Arizona legislature is democratic. The Prescott Journal-Miner says: "If the Arizona legislature has passed a single act this session of a general beneficial character to the whole territory we have failed to notice the fact."

ARMON day is not far distant. Ordinarily it is an occasion devoted almost entirely to celebrations and tree-planting by school children. The present year should find the observance general. Read the proclamation and remember the date — Friday, March 10.

The report of the United States census of the number of Indians in the United States is placed at 245,253. New Mexico has 6,490; Arizona, 28,490; Indian Territory, 51,270; Montana, 10,346; Oklahoma, 12,187; North Dakota, 19,972; and South Dakota, 7,980.

The other day somebody asked Senator Morgan how long he thought he could speak in an emergency. "If I am familiar with my subject," replied the senator from Alabama with a sly wink, "I can talk indefinitely; but if I am not familiar with it I do not believe I could speak more than three or four days on a stretch."

A New trial has been refused John Collins, the young university student convicted of killing his father at Topeka, Kan., last May. Collins was convicted fairly at the first trial, and why should he be given another chance? The progressiveness of modern civilization appears to have a tendency to shield criminals rather than protect the public.

By way of "The Horn," Liverpool is distant from San Francisco 14,000 miles; New York is distant 14,840 miles, or 150 miles further; and New Orleans is distant 15,052 miles. With the Nicaragua canal completed, the distance by that route will be as follows: Liverpool, 7,004 miles; New York, 4,496 miles; and New Orleans 1,947 miles. With the Mississippi river upon which to reach the interior with freight, New Orleans should become the greatest shipping point in the Union, with the possible exception of New York and San Francisco.

If you took your little whistle and then lay aside your horn, there's not a soul will ever know that such a man was born. The man who owns his acres is the man who plows all day, and the man who keeps a humping is the man who makes it pay. The man who advertises with a short and sudden jerk is the man who blames the printer because he didn't work. The man who gets the business news brainy printer's ink, not a cutter and a splutter, but an "ad." that makes you think; and who plans his advertisement as he plans his well-bought stock has the future of his business just as solid as a rock.

The National Advertiser tells a story of an old bachelor who bought a pair of socks and found attached to one of them a slip of paper with these words: "I am a young lady, 20, and would like to correspond with a bachelor with a view to matrimony." Name and address were given. The bachelor wrote, and in a few days got this letter: "Mamma was married twenty years ago. The merchant you bought those socks of evidently did not advertise or he would have sold them long ago. Mamma handed me your letter and said possibly I might suit you. I am 18 years old."

NOW PLANT TREES.
For the past few weeks THE CITIZEN has been calling on the people of the city, especially property owners, to inaugurate a system of tree planting, and our appeals met with a hearty second from Gov. E. S. Stover, who, in a communication published in THE CITIZEN, suggested to Governor Otero that he should at once issue a proclamation for Arbor Day. Acting upon the suggestion, Gov. Otero has just issued the following:

ARBOR DAY PROCLAMATION.
EXECUTIVE OFFICE.
Santa Fe, N. M., March 9, 1898.
Whereas, in accordance with section No. 1025 of the compiled laws of New Mexico, 1897, it became the duty of the governor to proclaim the second Friday of March in each year as Arbor day, and that such day shall be a holiday in all public schools of the territory; and school officers and teachers are required

to have the schools, under their respective charges, observe Arbor day by planting trees, or other appropriate exercises.
Provided, that the actual planting of trees may be done on the day designated, or at such other most convenient time as may best conform to local climatic conditions, such other time to be designated, and due notice thereof given by the several county superintendents of schools for their respective counties.

Now, Therefore, I, Miguel A. Otero, governor of the territory of New Mexico, in pursuance of the law, and by virtue of the authority in me vested, do hereby designate and proclaim Friday the 10th day of March, A. D. 1898, as Arbor day; and the same shall be observed as a holiday in all the public schools of the territory; and the county superintendents of schools in the several counties, are admonished to give notice of the particular day which will best conform to local climatic conditions, upon which the people and school children shall actually plant the trees, in conformity with law.

Our people generally, are urged to observe this day, not only as one for their own pleasure and benefit, but for the results that will come to those who succeed them.

Done at the executive office, this, 6th day of March, A. D. 1898. Witness my hand, and the great seal of the territory of New Mexico.

(SEAL) MIGUEL A. OTERO,
Governor of New Mexico.

By the Governor: GEO. H. WALLACE,
Secretary of New Mexico.

The municipal pot is beginning to "smolder," and the names of F. A. Hubbard and H. E. Fox are being mentioned by the republicans in connection with the office of mayor, the impression prevailing that Hon. F. W. Clancy, the present excellent mayor, will not consent for re-nomination. In democratic circles, the names of Alderman O. N. Marron and G. F. Albright are heard in connection with the nomination for the same office.

A DEAF and dumb boxer took part in a pugilistic exercise presented in Los Angeles Tuesday night. He never can become a Corbett, a Fitzsimmons, or a "Kid" McCoy. Who ever heard of a prizefighter who could not talk becoming famous? Why, he cannot even refer to his opponent as a "stiff," or a "lobster," without pencil or paper.

Discovered by a Woman.
Another great discovery has been made by a lady in this country.

"Disease fastened its clutches upon her and for seven years she withstood its worst tests, but her vital organs were undermined and death seemed imminent. For the months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and so much relieved on taking the first dose, she slept all night, and with two bottles, has been entirely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hunkley & Co., of Shelby, N. C. They have free trial of Dr. King's New Discovery.

Regular size 50c and 75c. Every bottle guaranteed.

Mothers Meeting.
The following program will be given at the Mothers' meeting, to-morrow afternoon, at 3 o'clock, at the local Avenue Methodist Episcopal church.

Paper—"Fulfillment," by Mrs. Judge Hamilton.
Paper—"Rewards," by Mrs. Harding.
Duet—"Mrs. Hickey and Mrs. Messenger."

Paper—"From the Child's Standpoint," by Mrs. Holt.
Duet—"Mrs. Hickey and Mrs. Messenger."

A cordial invitation is extended to all to come and participate in the meeting, with a quotation or sentiment bearing on the subject of child training.

Still More Counterfeiting.
The secret service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostess's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeits when buying.

AN IMPORTANT MEETING.

Council Fixes Licenses of Runners at \$250—City Clerk's Salary Raised.

ANTI-DITCH PETITION REFERRED.

The city council met at the city building last night with Mayor Clancy and all of the aldermen present.

The following new bills were read and referred to committees:

O. N. Marron, \$925.
F. A. Hubbard, \$100.
Frank Sals, \$150.
Brookmeyer & Cox, \$10.
R. A. Pearson, \$10.
E. J. Post & Son, \$10.
Louisia Reed, \$250.

The bill of O. N. Marron was approved by the finance committee, in conformity with law.

A communication from J. L. Armijo informed the council that the lease on the Ferguson hook and ladder company's headquarters would expire on March 31 and that it would not be renewed unless new arrangements were made. It was referred to the fire committee.

The following petition, signed by 165 citizens, relating to the closing of the city ditch, was read and on motion was referred to the sewer committee, re-informed by Aldermen Burkhardt and Kieck, with instructions to their necessary expenses in making a thorough investigation and to report at some future meeting.

"The undersigned citizens of the city of Albuquerque respectfully petition your honorable body to pass a resolution declaring that what is known as the city ditch to be a nuisance, and authorizing its abatement. Our reasons for asking this are:

"First—This ditch is detrimental to the health of the city.

"Second—It is unsightly, and detracts very much from the neat and cleanly appearance of our town, and is discouraging to our citizens, who are endeavoring to beautify our surroundings, as to cause favorable comment from strangers, and to be a 'joy forever' to our people.

"Third—The conditions that caused this ditch to be dug have long since ceased to exist. Our sewer system is capable of handling all the legitimate waste of a city of 25,000 people, and as an open sewer this ditch should be abolished.

"Fourth—It is a constant source of expense for the city, which expense will be largely increased in future, all of which we feel to be unnecessary.

"We accompany this petition with legal and engineer reports showing your way clear to comply with our petition."

The report of the treasurer showing a balance of \$9,850.53 to the credit of the city was read and referred to the finance committee.

The city marshal's report showed number of arrests made in March to be 103, number of meals served 193, and amount turned over to the treasurer from fines \$411.45.

The report of Officer Martinez showed that 67 tanks of water had been used for city purposes in February.

City Engineer Pearson reported that he had given the grades on north third street for the opera house. The street committee was instructed to purchase a book in which the engineer could keep his data.

The petition of the property owners on east Silver avenue that the street be graded, was referred back to the council by the street committee showing recommendation. The petition was laid on the table, the aldermen believing that the financial condition of the city would not warrant the expenditure of money for that purpose at the present time.

The council instructed the street committee to repair the water fountain in the south second street and to remove the stand pipe near the Grant block on north third street.

The street committee reported that it had accepted the street sprinkler from J. Kerber & Co.

Alderman Neustadt caused the liveliest interest when he introduced a resolution at the meeting for several months by introducing Ordinance No. 50, providing that any person engaged in the capacity of a runner for any hack line, stage line, public inn, hotel or mercantile establishment shall be required to pay a license in the sum of \$250 and fixing a fine for the violation of the ordinance at \$50 to \$250.

Alderman Neustadt stated that he had introduced the ordinance for the reason that runners for stores on Railroad avenue stopped all teams and foot passengers and had become a nuisance. Alderman Marron and Burkhardt expressed themselves as strongly in favor of the ordinance and a motion was made to pass it under the suspension of the rules.

Attorney J. H. Stingle was present in the interest of Leon B. Stern and was given the privilege of addressing the council on the subject of the ordinance. He stated that he had been asked to represent the proprietors of stores as well as professional runners. The aldermen expressed their opinion that the ordinance should be made to read so as to include the proprietors of stores as well as professional runners. The aldermen expressed their opinion that the ordinance should be made to read so as to include the proprietors of stores as well as professional runners.

The ordinance amending the sewer ordinance was referred back to the city attorney.

Alderman Burkhardt introduced an ordinance, raising the salary of the city clerk from \$50 to \$75 per month for the next ensuing year and leaving the salary of the city treasurer at \$300 per annum, as at present. The ordinance passed upon a suspension of the rules.

Council then adjourned.

Laundress.
Fort Apache Agency Boarding School, Arizona.—Indian Service, Department of the Interior.—April, 1898.

The United States civil service commission announces that it is desired to establish an eligible register for the position of laundress, Fort Apache agency boarding school, Arizona, at a salary of \$540 per annum.

No educational test will be given, but applicants will be graded upon their age, character as workmen, experience and physical qualifications.

This examination is open to all citizens of the United States who comply with the requirements. All such citizens are invited to apply; but attention is invited to the fact that in making certifications to

fill this position preferences will be given to those citizens who are legal first foot of Indian Service, District No. 3 (which comprises California, south of the thirty-seventh parallel of latitude, Arizona, New Mexico, Indian Territory, Indian Territory, Colorado, Kansas, Missouri, Arkansas, Louisiana and Texas). Subject to this preference applicants will be graded and ranked, and the entire number of positions will be filled in order of merit and wholly without regard to any consideration save their ability as shown by the grade given them.

Persons who desire to be considered should at once apply to the United States civil service commission, Washington, D. C., for application blanks (form 100) which should be properly executed and promptly forwarded to the United States civil service commission, Washington, D. C.

No application will be accepted unless in complete form with the commission prior to the hour of closing business on April 1, 1898.

USUAL EL PASO MURDERS

Lively Shooting Between Officers—Murder at the Smelter.

Constable Sam Karr was shot and killed at the Red Light saloon, on Utah street, El Paso, early Wednesday morning, by Policeman John Denison, who was also seriously wounded by Karr. Alex. Cooper, who was standing at the bar taking a drink when the shooting occurred, was shot in the shoulder. Karr was the aggressor, securing the police department, especially Denison, of "gobbling up business that belonged to the justice court." He was out for trouble and got it, one bullet went through Karr's head, entering above the left eye, and another bullet entered his face. One bullet struck Denison's ring finger, the left hand, breaking it. While another bullet struck him just between the heart, where it encountered and was turned downward by the officer's shoulder, which was in his left vest pocket. The bullet glanced down and entered the side, and it is thought the whistle saved the officer's life.

Alex. Cooper is an excellent saloon man with a friend to get a drink, and turned around to face the duelist just as Karr fired the shot which broke a finger on Denison's quipped left hand, and entered Cooper's shoulder and running down came out at the back. Dr. Huf-faker believes Cooper's wound is very serious.

The Times says: Denison has been on the police force of El Paso for years, and is one of the coolest officers on the force. He is sober and inclined to be very forgiving.

Sam Karr came to El Paso about four years ago and established a gold cure at Yuleta. He had been sheriff of Martin county, where he had considerable trouble on account of drink. But he took the gold cure before coming to this country, and was never known to take a drink until after he came here. He was the city precinct last November. Recently he began drinking again, and while drinking he has threatened to do up the police. He is a well known character, and was liked by all who knew him. He leaves a wife and four children.

ANOTHER MURDER.
At 3 o'clock this morning word was received of another killing at the smelter, says the Times. It occurred at the smelter in the saloon of Robert Sambrano and the victim was Emilio Aguilar, the bartender. The amount received was very confused but the facts seemed to be that the trouble was the result of a drunken row. Aguilar was stabbed and killed, and another man badly wounded.

The police are now looking for the man who killed the man who did not know the name of the man who was known of the murderer. So far as we could learn the latter was not caught.

Another killing was reported at the smelter. A brother of "Temate Aguilar" assistant city jailer, Deputy Sheriff Heap and John Scott arrived at the county jail this morning.

At 4 o'clock this morning the body of a man was found in the street, near the smelter. The man was badly wounded and had been killed. The man who killed the man who did not know the name of the man who was known of the murderer. So far as we could learn the latter was not caught.

APPOINTMENT OF TOWN MARSHALS.

New Law Authorizing Appointment of Marshals in Towns and Villages.

The new law providing for the appointment of town marshals in all towns and villages in New Mexico, incorporated and organized under the law of 1909, which passed both houses of the legislature under the designation of Senate Bill No. 19, and received the approval of the governor on February 16, reads as follows:

Be it enacted by the legislative assembly of the territory of New Mexico: Section 1—That hereafter in any town or village in the territory of New Mexico, organized as such under the act of the twenty-ninth legislative assembly, providing for the incorporation of towns and villages, the town marshals of such towns and villages shall be appointed by the boards of trustees of such towns or villages, which appointment shall be made by a majority vote of the election and qualification of such boards in such towns and villages or as soon thereafter as such appointment can be made.

Section 2—Such marshals as appointed shall perform all the duties imposed upon him by the board of trustees of the town or village, and his success in the performance of such duties shall be subject to the approval of the board of trustees of such town or village, and such marshals may be removed from office by such boards of trustees for any non-performance or neglect of duty, or for other cause shown, and his successor may be appointed by such board to fill such vacancy caused by such removal or neglect, which may result from resignation or death.

Section 3—This act shall take effect and be in force on and after its passage, and all acts and parts of acts in conflict with this act are hereby repealed.

THE DAWN OF WOMANHOOD.

Earnest Words From Mrs. Pinkham to Mothers Who Have Daughters and a Letter From Mrs. Dunmore, of Somerville, Mass.

The advent of womanhood is fraught with dangers which even careful mothers too often neglect. One of the dangers to a young woman is belated menstruation. The life drops on its stem and dies before its beauty is unfolded, or she may have entered into the perfection of womanhood with little apparent inconvenience or disorder of health. But suddenly the menses entirely cease.

Mother, public malady is taking hold of your daughter, and quick steps to produce regular menstruation. Lydia E. Pinkham's Vegetable Compound is certain to assist nature to perform her regular duties, procure it at once; there are volumes of testimony from grateful mothers who have had their daughters' health restored by its use. If personal advice is desired, write quickly to Mrs. Pinkham, at Lynn, Mass. It will be given you without charge, and it will be the advice of abundant experience and success.

Read the following from Mrs. CHARLES DUNMORE, 103 Fremont St., Winter Hill, Somerville, Mass.: "I was in pain day and night; my doctor did not seem to help me. I could not seem to get any relief until I took Lydia E. Pinkham's Vegetable Compound. I had inflammation of the womb, a bearing-down pain, and the whites very bad. The pain was so intense that I could not sleep at night. I took Lydia E. Pinkham's Vegetable Compound for a few months, and am now all right. Before that I took morphine pills for my pains; that was a great mistake, for the relief was only momentary and the effect vile. I am so thankful to be relieved of my sufferings, for the pains I had were something terrible."
