## GREAT STRIKE IN PACKING HOUSES

**Men in Leading Packing Houses in Western Cities Have Walked Out ---Results Far-Reaching---Prices of Meat Soar.**

Chicago, Ill., July 12.—Without waiting until the hour set for the general strike, 49,600 employees of the nine principal meat packing centers of the country and 700 beef cutters at the stock yards here, quit work.

**Employees of All the Kansas City Packing Houses Out.**

Kansas City, July 12.—About 2,000 meat cutters at Swift's, Cudahy's, Schwarzschild's, Sulzberger's and Fowler's packing houses had gone out before noon today, and others were gradually leaving. A committee waited upon the management of the Armour's and gave notice that the entire force of 3,000 men would quit today. None of the packing houses bought any stock at the yards today. Two thousand hogs at the yards will probably be returned to the country. Police Ready for Trouble.—Price of Meat May Go Up.

Chicago, Ill., July 12.—While taking measures to be ready, the police profess not to expect trouble at the stock yards for ten days, indications being, it was said, that new men would not be put to work in the packing houses for that length of time. A rise in the price of meat, it was said, would be the first effect of the cessation of work. The stagnation was marked in the cattle market, as the packers had warned the commission firms that there would be no buying today.

Representatives of the packers say they have done everything possible to avoid a strike by offering to arbitrate the question over which the differences with the labor unions arose.

**Omaha Packers Affected.**

Omaha, Neb., July 12.—At noon today, four thousand employees of the four packing houses in South Omaha went on a strike. Their demands are for higher wages for skilled labor and a closed shop for unskilled.

The packers say they will make no effort to operate their plants for the present. There was no market for stock today and but few cars came in. Local packers say that conditions do not warrant an increase in wages. They are willing to submit the matter to arbitration. Ten unions are affected.

## THE CONDITION OF THE SHEEP INDUSTRY

**F. L. Coffield, an Experienced Buyer from Kansas City, Gives His Opinion Thereon.**

F. L. Coffield, of Kansas City, Missouri, who holds a responsible position with the Knollin Sheep Commission Company, arrived yesterday and went to Espanola this forenoon, where he will receive 3,000 sheep recently purchased by him. The animals will be shipped to Pueblo, Colorado, via the Denver and Rio Grande Railroad. There they will be transferred to the Santa Fe Railway and shipped to Kansas City. Mr. Coffield says that he does not find it very easy to buy sheep in New Mexico for market or for feeding, as despite the drought, sheep owners hold the animals at a very steep price. He has inspected 200,000 sheep so far this season with a view to purchasing them, but he has not been able to do so to any great extent on account of high figures demanded. He thinks, however, that unless good rains set in very soon, that the sheep men will be compelled to dispose of the animals or drive them to northern pastures. The northern part of the territory for a hundred miles south from the Colorado line has received some rain, and in that section sheep are in fair condition. In the central and southern parts, he found but small encouragement as rains have only been sporadic and of very heavy. Wool is bringing good prices according to Mr. Coffield, and New Mexico sheep growers ought to be satisfied with having made good sales. E. A. Miera, of Cuba, who last week brought 150,000 pounds of wool from the western part of Sandoval County to Albuquerque, has sold the entire lot to Gross, Kelly & Company at a very high figure, it is said sixteen cents per pound. Several other large clips have recently been sold at from four to sixteen cents per pound. Mr. Coffield expects to be in the territory for some time yet in order to make more purchases of sheep for his firm. The sheep purchased by him will be put on feed on farms in eastern Kansas and thereafter marketed.

**Santa Fe System Boilermakers to be Called Out on Sympathetic Strike.**

Topeka, Kansas, July 12.—It is reported here, apparently on good foundation that the boilermakers of the entire Santa Fe system are to be called out on a sympathetic strike on July 15th.

**St. Louis Butchers and Meat Cutters Walk Out.**

East St. Louis, July 12.—More than 5,000 butchers and meat cutters employed by the packing houses here struck today.

**Girls of Chicago Packing House Strike with the Men.**

Chicago, July 12.—Promptly at noon, a general walkout began. Hundreds of girls employed in the label department of Nelson, Morris & Co., struck with the men.

**Rumor Not Authentic.**

Kansas City, July 12.—Nothing is known at the headquarters of the Boilermakers' Association in Kansas City, Kansas, regarding the rumored intention to call out all the Santa Fe boilermakers.

**Finished Day's Work Before They Struck.**

Chicago, Ill., July 12.—The "Gangs" finished work for the day before they quit Nelson, Morris & Co., and they have only three or four days' supply of dressed meat on hand. The Swift plant has about three days' supply.

**J. K. TURNER REPORTED DEAD**

**He was Manager of the San Cristobal Copper Company, Near Arroyo Seco in Taos County.—Well Known Here.**

A report has reached this city from Taos that J. K. Turner, who has of late been manager of the San Cristobal Copper Company near Arroyo Seco, Taos County, is dead. No particulars have been obtainable. Mr. Turner was well known in Taos County and here, as for a number of years he was manager of the Copper Hill Mining Company, which had extensive works in the Copper Hill Mining District in that county for several years and which went under about three years ago. The company's property, machinery and extensive pipe lines having been sold by the sheriff to satisfy judgments and executions issued against the company. Mr. Turner during the past year lost his mother and brother, and he was the only member of his immediate family left. He was, comparatively speaking, a young man, had a reputation of being a very cool and competent mining engineer, and had been in charge of operations of different mining companies from time to time during his career in Utah, New Mexico and Colorado. The San Cristobal Copper Company has claims near Arroyo Seco, which it was understood would be extensively developed and operated with suitable machinery to be put in.

## AGRICULTURAL EXHIBIT

**Of New Mexico at the Louisiana Purchase Exposition Varied, Extensive and Creditable.**

## HAGERMAN APPLES

**Grown Near Roswell Beat Anything in That Line at the Fair—Magnificent Pecos Valley Display.**

St. Louis, Mo., July 10, 1904.

Special Correspondence New Mexican.

New Mexico is up to date in the Horticultural and Agricultural exhibits at the World's Fair. In the Horticultural exhibit the fruit shown has that smooth, perfect form without any blemishes, for which New Mexico fruit is so widely known. Among the many varieties is one table containing plates of Wine Sap apples that have been here out of cold storage 54 days and are in perfect condition to date, and from present appearances will last at least two or three weeks longer. This is very extraordinary for so late in the season, and especially considering the hot climate of St. Louis.

In this year's fruit, New Mexico is far ahead of any other exhibit here. Five plates of very large Maiden Blush and Mammoth Pippin are shown ripe, and grown this year. These apples were grown from the large orchard of J. J. Hagerman near Roswell on June 10th, 1904. There are no other apples grown this year nearly so large in the other exhibits. One hundred and forty-four plates of cold storage apples are on exhibition, embracing the well-known varieties of Mammoth, Black Twig, Genatin, Wine Sap, Missouri Pippin, Gano, Arkansas Black, Shockley, Shackleford, York Imperial, Ben Davis and others.

A unique attraction of the exhibit has been a stand in the center of the display containing apples grown this year, on display every day of the exposition. On the opening day, April 30th, a large jar filled with different varieties of apples showing their size at that date was on exhibition, and shipments have been received every ten days demonstrating their fast growth, until today two of the varieties are ripe. This display has attracted a great deal of attention, not only of sight-seers, but also of the judges.

Peaches, pears and plums from the Pecos Valley are now coming in, and are superior to any yet on exhibition.

In the Agricultural display, New Mexico's exhibit is also different from the others, as there are in it many products that have been grown this year. A quantity of alfalfa over 30 inches high from the second cutting of this year, having been cut on May 20, 1904; Indian corn that can compare favorably with any of the great corn growing states; oats, 70 inches high, harvested May 24, 1904; 48 varieties of wheat and oats; a big pile of Irish potatoes, planted March 12th and dug June 3d, producing three-fourths of a ton per acre; and a fine display of honey in the comb, also strained and candied honey. Among vegetables are exhibited beets, onions, tomatoes, etc.

Several large signs calling attention to the great irrigated country of New Mexico are conspicuously placed. The farmers of the east seem to be very much interested in the success of irrigation.

A good display of Canaigre roots is made, showing that a large amount, over 150,000 acres of this product is grown in New Mexico, which is so extensively used and is worth about \$80 per ton.

A great many other products are in the exhibit which add to the appearance and interest of agricultural display.

## A FAVORABLE SETTLEMENT OF THE DEBT OF SANTA FE COUNTY.

It looks as if a favorable settlement of the out-standing bonded, unpaid coupons and judgment indebtedness of this county would soon be effected. It will be remembered that the board of commissioners sent County Commissioner Arthur Seligman twice to New York to confer with the bond and judgment holders of the county some time ago in order to bring about a settlement of the huge debt owed by the county. As a result of these consultations, it now looks as if the refunding will be accomplished by taking up the bonds now out and bearing five and six per cent interest, delinquent coupons and judgments on the delinquent coupons which also bear six per cent interest, and replacing them with new bonds running forty years bearing three per cent interest, at sixty per cent of the principal of the bonds, outstanding delinquent coupons and valid judgments now in force against the county. This will reduce the debt, which is calculated, amounts to about one million dollars, from that sum to about \$600,000; the interest charges which on the million dollars indebtedness now amount to between \$55,000 and \$60,000 per annum to \$18,000 per annum, or a reduction and saving of sixty-four per cent in interest alone. This refunding, when completed, will put the county in first-class financial shape, restore its credit and reduce taxation. It will be a great financial transaction and one for which due credit should be given the board and its representative, Mr. Seligman, who, by his tact, diplomacy and business ability, convinced the bond holders that this settlement will be fair and just to all concerned. There seems to be very little in the way now of success in the matter and it is hoped to make an exchange of the bonds within the next three months and as soon as they can be prepared for the transfer.

The New Mexican is greatly pleased with this result, as for the past seven years it has constantly and energetically worked to bring about a reduction of the bonded debt and of the heavy interest charges against the county. The settlement, if concluded on the above basis and there is every reason to believe that this will be the case, will be the best thing in the financial line that has happened to the county since the debts were contracted. These are originally based upon the issue of \$150,000 in bonds to the Atchison, Topeka and Santa Fe Railway; \$150,000 in bonds to the old Texas, Santa Fe and Northern Railroad; \$75,000 in bonds for the construction of the court house, of many thousands of dollars of current expense bonds and to pay for delinquencies and shortages of Democratic collectors prior to 1896. The burdens to be assumed under this settlement and refunding plan will be great and heavy, but they will be much easier to carry and will be much more promptly met by taxpayers than ever heretofore, as the interest charges will be reduced as said above, from about \$60,000 to \$18,000 per annum, and the principal from one million dollars to \$600,000, having forty years to run. Taxpayers and property owners should certainly feel highly elated over this proposition. That the best interests of this county and city will be aided by effecting it, is plain to all sensible, public-spirited, and fair-minded men. The knackers, tax-dodgers and the

street-corner politicians, who have nothing to lose and everything to gain by strife and turmoil, will be displeased, but the best portion of the community, the patriotic and good citizens will be very glad and greatly gratified at the outcome.

## ADVICE THAT SHOULD BE HEED-ED BY CITIZENS OF SANTA FE.

About as good advice as ever appeared in print and between column rules was given by the Albuquerque Citizen to its readers in a recent issue. If it applies to the Duke City, it does so with much greater force and with more emphasis to the capital city of New Mexico. The Citizen says: "Get interested in your town. If a rich man starts a project, encourage it; if a poor man, help it. Don't be afraid to stick your hand down in your pocket and liberally draw forth its contents if you have means to invest that will give employment to somebody. Do not kick on every proposed improvement because it is not at your door and you are not at the head of it. Do all you can to beautify your town and your own property in particular. Be friendly to everybody, courteous to strangers, and never forget that your own deportment does its share in giving the town its character. Sell and buy all you can at home. Stand by all enterprising citizens and be ready to do some of the work yourself. Don't follow or encourage evil or spend your time prophesying failures. Keep your own counsel and do not talk of people of whom you know nothing. In other words, mind your own business."

The Carlsbad Argus comments upon this very pertinently in the following: "The above is a very pertinent admonition to the citizens of Carlsbad just now. The town needs more boosters and less knockers. Several instances have occurred lately which show that men whose interest and duty is to do everything possible to promote the welfare of the town, have taken just exactly the opposite position, and by their manner and conversation have injured it."

"Strangers and prospective investors have been discouraged by the statements of home people, and instead of becoming identified with the community have passed on. Naturally this condition has created considerable indignation upon the part of the people who believe in the future greatness of Carlsbad and the Pecos Valley with all their heart, and are striving in every possible way to speed the day."

"Croakers have no place in a live, prosperous community, and if there are those in Carlsbad who have doubts about Carlsbad's future they should move on, and leave the field to those who have no fears. Don't be a traitor in camp. Either boost or get out."

## HOW THE PRIMARY SYSTEM WORKS IN TEXAS.

The editor of the Trumpet, published at Texico, Roosevelt County, on the Texas-New Mexico line, evidently does not look with favor upon political conditions in the Lone Star state. He describes the situation there in the following pessimistic style:

"Saturday, July 9th, is the day of days in Texas, and the patriotic colored citizens will luxuriate in more liquor than they can drink in one day, notwithstanding the saloons are supposed to be closed. A few honest men will be found here and there foolishly seeking for office among a horde of thieves and vote-buyers of all grades of political degradation and corruption. O, yes, they have the Australian ballot system, but that will not prevent the buying and selling of votes, which has so long prevailed all over the country, although it will prevent some open bribery and trickery in the immediate vicinity of the polls, as the judges have to give every voter his ticket and see that he puts it in before leaving. But the hungry office-seekers have done a plenty to them before they reached the polls, and if an honest man gets nominated, in most cases it will be by the skin of his teeth and a mere accident. But there are some good men running for office in Texas, and there is one thing left for them to do after the primary election is over, and they find what struck them. Now we will tell you: Don't wait to pick out all the liars among your 'promising' friends and well-wishers, but shake the dust from your weary feet and turn your faces towards a white man's country—New Mexico. Come to Roosevelt County, get free 160 acres and build up with this healthful country."

"The financial record of Governor Otero's administration is being investigated by 'our friends, the enemy.' Happily the more searching and accurate the investigation is, the better it will be for the administration.—Socorro Chieftain.

This is correct. The trouble about this investigation, however, is that the investigators do not go into the subject very deeply and in assailing the record of the administration juggle with facts and figures so as to make them appear discreditable. They misrepresent them in some instances and in others tell downright falsehoods. After all, truth will and must prevail, and the assaults which the Democratic yellow papers of this territory are making in this direction will fall very flat and effect no good for their party."

The Democratic national platform has tried to keep on the side of the trusts, as well as with the labor element of the country. The men who prepared it were evidently of the opinion that this was the time that their party could ride two horses, each going in a different direction.

Time seems most untimely when he brings a woman to the turn of life. Life is or should be at its ripest and best for her, and she approaches this change with a dread of its effect born of her knowledge of the sufferings of other women at this season.

There is not the slightest cause for fear or anxiety at this period if Dr. Pierce's Favorite Prescription is used. It gives health of body and cheerfulness of mind, and by its aid the pains and pangs of this critical period are prevented or cured.

Dr. Pierce's Favorite Prescription is woman's medicine with a wonderful record of cures of womanly diseases. Diseases that all other medicines had failed to cure, have been perfectly and permanently cured by the use of "Favorite Prescription."

"I feel it my duty to write you as I have received so much benefit from the use of your medicine," says Mrs. Lizzie A. Bowman, of New Matamoras, Washington Co., Ohio. "I have taken four bottles of 'Favorite Prescription' for female weakness and change of life. Before I began taking it I could not do anything. I had such pains in my head and in the back of my neck that I thought I would lose my mind. Now I can work every day. I recommend 'Favorite Prescription' to all females suffering in the period of change of life. It is the best medicine I have found."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Keep the bowels healthy by the timely use of Dr. Pierce's Pleasant Pellets.

"You will get single statehood just as soon as you will get double statehood," was the prevailing opinion among a dozen Republican U. S. senators who were delegates to the Chicago Republican Convention. Hence the New Mexican proposes to fight it out on the single statehood line for and on behalf of the people of this territory from now until success shall be attained. This will likely be during the fifty-ninth congress. Waiting two years for single statehood is far preferable to committing Hari Kari by accepting joint statehood, which is not wanted by any one except a very small minority, composed mostly of people with selfish interests, who have personal ambitions or race prejudices to gratify.

Ex-U. S. Senator Henry G. Davis, of West Virginia, is a very nice sort of man; he is a railroad magnate, many times a millionaire, and he is one of the capitalists who control the coal output of West Virginia. How close he is to the monopolist and bond-clipping class of the country can therefore be easily ascertained without much figuring. That he is a man of influence in his home state cannot be denied; whether this influence is far enough reaching to take the state from the Republican column is doubtful. At any rate, the Republicans of West Virginia do not seem to be afraid of the issue.

More lives have been lost within the last month in railroad and steamer accidents and catastrophes in this country than are given up to slaughter in long military campaigns. Human life is certainly held too cheap by the managers of railroads and of steamboat lines. This is an evil, the results of which are constantly crying aloud to heaven, and it is high time that it were checked.

"The Citizen is in favor of single statehood or joint statehood."—Albuquerque Citizen.

Come off the fence for once. Stop talking about the joint statehood humbug and support the single statehood movement. Doing the latter will be right, proper and for the best interests of the great majority of the people of New Mexico.

Thomas Taggart, the new chairman of the Democratic National Committee is a smart fellow in some ways, but he is not a man who ever has inspired or ever will inspire confidence. He understands Indiana politics very well, which means that he is quite conversant with political corruption in many forms.

The Socorro Chieftain is absolutely correct in the following editorial remark:

"The New Mexico School of Mines may safely challenge a comparison between its record for usefulness and that of any other educational institution in the territory."

Dave Hill and Tom Taggart will manage Judge Parker's campaign. If any two men in the country know how to fry the fat out of the corporations and bondholders, Dave and Tom are the men.

A cable dispatch announces that Emperor Nicholas of Russia is in a lamentable condition. Verily the sins of his fathers are being visited upon his head. "There is a destiny that shapes our ends."

The enthusiasm over the nomination of Parker and Davis throughout the country is as thin as air at an elevation of 20,000 feet. Nothing else, however, could be expected.

The more public improvements, the better for the capital city of New Mexico. The present board of county commissioners has done well in this line.

### CAN'T BE SEPARATED.

Some Santa Fe People Have Learned How to Get Rid of Both. Backache and kidney ache are twin brothers. You can't separate them. You can't get rid of the backache until you cure the kidney ache. If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health. Doan's Kidney Pills make strong, healthy kidneys. Rupert Martinez of Griffin st. says: "While getting out stone for a railroad, I was holding the drill and was engaged in other work particularly hard on the hands. Mine were completely used up. I could scarcely handle anything, in fact it was difficult to use a spoon at the table. I had a box of Doan's Ointment with me which I had procured at Ireland's Pharmacy, and it struck me that it could not do any harm and it might at least help. I applied it and the relief obtained was magical. If every one receives as much benefit from the use of Doan's Ointment as I the preparation will prove of untold value in this vicinity." For sale by all dealers; price 5 cents a box. Foster-Milburn Co., Buffalo, Remember the name—Doan's—and take no other.

Mexican callentes served only at the Bon Ton.

### NIGHT WAS HER TERROR.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Indiana, "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1. Trial bottles free at Fischer Drug Company.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Liver and Stomach Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. The pleasant purgative effect of these tablets makes them a favorite with ladies everywhere. For sale by all druggists.

Sold by Fischer Drug Company.

### BRUTALLY TORTURED.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Calif., writes, "For 15 years, I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50c. Satisfaction guaranteed by Fischer Drug Co.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by all druggists.

## THE WEEKLY CROP BULLETIN

U. S. Department of Agriculture.

### NEW MEXICO SECTION CLIMATE AND CROP SERVICE WEATHER BUREAU

In Co-Operation With the New Mexico Weather Service.

Santa Fe, N. M., July 12, 1904. The temperature has averaged slightly above normal, the closing days being warm, with local shower conditions over the northeastern quarter of the Territory, in the extreme northern part of which light showers occurred during the week. Elsewhere the weather has been dry, sky mostly clear and heat gradually increasing, with considerable wind. The southwestern part of the Territory especially is in need of rain.

Range, stock and crops continue in good condition in most northern counties, particularly east of the mountains, and are slowly improving elsewhere. A little additional seeding and planting have been done, and fair germination is reported. Irrigation water is quite plentiful on the lower Pecos, and crops under ditch are doing well; the Gila and Rio Grande Rivers are very low. Peach shipments continue from the Pecos valley, with fair results. Range is browsing slightly in some northern counties.

The following extracts are taken from the reports of correspondents: Albert—H. M. Hanson—Frequent showers, but light and local in character; range and stock satisfactory condition, but more general and longer rain would be beneficial; precipitation .046 inch.

Amarillo, Texas—U. S. Weather Bureau—Good rainfall of previous week brought grass and forage crops along nicely; pasturage abundant for present needs and good outlook for forage crops; cattlemen much encouraged.

Arabela—A. M. Richardson—Good showers previous week, drouth broken; about one-fourth of scrub oak putting out leaves; grass starting nicely, but much killed by drouth.

Aurora—J. C. Lucero—No rain since last June, but cattle sheep and crops look good, and conditions favorable unless July proves too dry.

Capitan—Clement Hightower—Dry and hot; showers last week of June started grass and other vegetation, but unless more rain comes soon conditions will be bad as before. Since March 1st, cattle losses vicinity Lincoln Forest Reserve will reach 30 per cent, in some localities 40 per cent.

Carlsbad—H. F. Christian—Good rains over county and range cattle picking up; irrigation water plentiful as McMillan and Avalon reservoirs are full; peach crop being shipped, with fair results.

Chacon—E. M. Lucero—Light showers first of week, last dry and windy; wheat and oats just coming up.

Cooney—A. G. Morrow—Warm week and good indications of rainy season.

Deming—C. B. Bosworth—Weather continues dry, only light sprinkles.

Costilla—Wm. F. Myers—Good showers previous week; crops look good; grass on range growing nicely, especially on hills; wool clip fair; stock picking up.

Elizabethtown—G. E. Beebe—No rain last week; stock in good condition.

Elk—Boyd Williams—But little rain since first week in October until about two weeks ago; irrigation water low, but many local rains past two weeks, and drouth appears broken; considerable damage in localities by hail; fruit crop practically failure; stock increase probably 50 per cent.

El Paso (Texas)—U. S. Weather Bureau—Warm, dry week; light showers at close of previous week.

El Rito—P. Lopez—No rain during week, water in ditches low, not enough for irrigation.

Folsom—Jackson Tabor—Dry and cool; showers in vicinity; dry weather and grasshoppers have damaged alfalfa greatly in localities; stock doing well; short crop of hay indicated as range is drying fast; rainfall .09 inch.

Fort Wingate—John Woodgate—Few local showers previous week, but not sufficient; range in bad shape and stock in poor condition.

Friscio—J. R. Milligan—Alfalfa harvested and fair yield; water low in creeks and outlook for corn poor, except rain comes soon.

Gallinas Springs—F. H. Clark—Prospects for grass for winter serious.

Glorieta—Geo. A. Viles—No rain during week; grass and stock improving slowly; crops a failure as rain came too late.

Glencoe—Anna E. Coe—Grass looking nicely; good showers first part of the week; latter part very dry and warm.

Hermosa—Philip Zoeller—Light local showers previous week; stock still dying; no vegetation and very little water, creeks mostly dry.

Hobart—W. H. Hough—High, drying winds during week; cultivated crops doing well, and crop and fruit prospects slightly improved; rain needed.

Laguna—Gus Weiss—Conditions unchanged, no rain; hot days, cool nights; stock just existing; wheat drying up; corn still looks well but needs rain; everybody anxious; season unusually dry.

Las Vegas—Wm. Curtiss Bailey—

Hot and dry, with high winds latter part of week; no rainfall. Lincoln—G. A. Peters—Light showers the previous week; grass starting slowly; stock doing well; farmers on dry ranches have planted cane and corn; garden truck looks good; springs in Capitan Mountains increasing.

Los Alamos—Wm. Frank, Jr.—No rain during week, but grass very good and stock improving fast; range turning a little brown; shearing in progress, with light clip.

Luna—J. J. Hale—Very dry, little rain for last nine months; crops late and growing slowly because of great dryness; no grass and stock thin; first crop alfalfa ready to cut, light yield promised; no water for irrigation.

Santa Fe—U. S. Weather Bureau—No material change in general local crop conditions; deficiency in water continues; no rain in valley but showers along mountains to southeast at close of week; temperature has averaged two degrees above normal, first half of week cool, last half hot, dry and windy.

San Rafael—Chas. M. Grover—Light local showers previous week, heavier towards northeast, arroyos pretty well filled and range helped; second crop alfalfa growing nicely; corn and gardens look good.

Seboyeta—Calisto Montoya—Crops very poor because of dryness; little rain; water in river and ditches very low.

### CURES CATARRH.

"Hyomei, the Most Wonderful Cure for Catarrh Ever Discovered," Says A. C. Ireland.

Do not try to cure catarrh by taking drugs into the stomach; it cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application that will kill the bacilli of catarrh and prevent their growth.

Hyomei is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the only absolute cure for catarrh that has ever been discovered.

Thousands of unsolicited testimonials have been received from the most prominent men and women in the country who have been cured by this remarkable remedy. Ministers, bankers, lawyers, even eminent physicians have given strong testimonials as to the remarkable powers of Hyomei to cure catarrh.

The complete Hyomei outfit costs but \$1.00, consisting of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect a cure in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then extra bottles of Hyomei can be obtained for 50c. It is not alone the best (it might be called the only) method of curing catarrh, but it is also the most economical.

A. C. Ireland has so much confidence in the power of Hyomei to cure catarrh, that he will for a limited time, sell this medicine under his personal guarantee to refund the money if the purchasers can say that it did not help them.

The Santa Fe announces another series of homeseekers' tickets from points in the middle west to New Mexico and Arizona, the rate for the round trip will be one fare plus \$2 and tickets will be good for 21 days from date of sale. There is more Catarrh in this section of country than in any other section put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ## MINOR CITY TOPICS

W. N. Townsend is ill today and confined to his residence.

A very good rain is reported to have fallen at Glorieta and on the Upper Pecos yesterday afternoon.

Andres Herrera, a merchant of Chama, who has been here on business matters, returned to his home this morning.

J. F. Wielandy of this city today shipped ten crates each of cherries and currants to Albuquerque. The fruit is very fine.

Al Haas of Kansas City, representing a wholesale liquor house of that city, was calling on the liquor dealers of Santa Fe today.

At the regular weekly target practice Sunday of Company F, First Regiment of Infantry, N. M. N. G., Private Albert Abbott made the excellent score of 23 out of a possible 25.

The California Entertainment Company played to a large audience at the Opera House in this city on Saturday night and left Monday for Albuquerque to fill a week's engagement.

Money in the bank gives a fellow a feeling of comfort and satisfaction. One dollar will start your account at the Plaza Trust and Savings Bank of Las Vegas. Interest at 4 per cent per annum.

The following mining claim location has been filed with Probate Clerk Celso Lopez by A. L. Kendall, locator. The claim is in Los Cerrillos Mining District, Santa Fe county, and is located 1,000 feet from the Grand Central Tunnel and 800 feet north from the Mina del Toro mine, and covers all the claim formerly known as the Empire State Mining Claim, which is no abandoned.

The following deed from the City of Santa Fe to Esther B. Thomas has been filed in the office of Probate Clerk Celso Lopez. For a tract of land with adobe house and other improvements thereon: Bounded on the north by Loma Street and a house of Mrs. Dobbins, on the west by Washington Avenue and house of Mrs. Dobbins, on the south and east by property formerly known as the Gallegos property.

At the regular meeting of Company F, First Regiment Infantry, National Guard of New Mexico last evening, it was announced by Captain E. C. Abbott that the company would leave for the annual territorial National Guard encampment at Las Vegas on August 8. It will remain in camp there a week. Every effort will be made to have Company F, up to the required quota, 38 members, when it leaves for the encampment.

R. M. Nake, contractor and builder had \$50 worth of carpenter's tools belonging to him stolen from the shed on the H. H. Dorman place on the south side last night. Mr. Nake is putting up a building for Mr. Dorman and had a temporary tool shed erected near the site of the house. Last night someone broke the lock of the shed and made away with a large number of valuable tools. Mr. Nake has notified the police but so far the thief has not been apprehended.

The advance agents of the weather still continue to predict showers, although those foretold yesterday did not materialize according to program. The prediction for today is "Generally fair tonight; Wednesday partly cloudy with local showers in north portion; cooler weather." This last announcement is a particularly welcome one. The maximum temperature attained yesterday by the government thermometer here was 85 degrees at 2:10 p. m. The mercury dropped to 63 degrees at 5:35 a. m. The mean temperature was 74 degrees, and relative humidity, 32 per cent. The temperature at 6:00 o'clock this morning was 59 degrees.

Manager Frank Owen, of the Water and Light Company, has ordered a steam lift for the purpose of pumping the water out of the well the company is now constructing near its small reservoir. As soon as this steam lift arrives it will be placed in position and work on deepening the well will be continued. Mr. Owen intends to deepen the well to sixty or one hundred feet in order to obtain an additional supply. This lift

is expected to reach here this evening or tomorrow. The management is holding enough water at all times for domestic and fire purposes, but is unable, until heavy rains set in, to grant the privilege of irrigating gardens and lawns.

C. R. Huber, deputy sheriff at the Sloan coal camp, was in the city yesterday.

Professor Fayette A. Jones of Albuquerque, member of the New Mexico Board of Managers of the Louisiana Purchase Exposition, arrived at noon today from the south and spent the day here in consultation with Treasurer Arthur Seligman of the board.

At a meeting of the Fraternal Union Lodge No. 259, held last evening at the Knights of Pythias hall, regular meeting nights were decided upon and these are fixed to be held on the first and third Mondays of each month in the hall of Santa Fe Lodge of Knights of Pythias.

S. H. Failor has sold his residence and lot on Guadalupe street to Miss Nellie Warning. Consideration private.

Probate Clerk Celso Lopez and a party of friends are preparing to leave for a fishing trip on the Upper Pecos river in a few days.

The funeral of Mrs. Refugia Romero de Tapia who died Sunday at her residence in the third ward took place this morning. Mass was said at the Cathedral and the remains were taken to Rosario cemetery. Deceased was 70 years of age and leaves two sons and a number of grand-children. The funeral was largely attended as she was a good woman and highly respected.

Madame Paula, who styles herself a palmist and clairvoyant, who has been in the city several days, mysteriously disappeared last evening of this morning, leaving several unpaid bills behind her. She is a small, slight woman, blonde in complexion, about forty years of age and does not impress any one favorably. Her astral body may have taken wings and gone to the paradise of the theosophists, or she may have simply disappeared by leaving town in order not to pay what she owes. She came here from the Duke City, where it is understood she had flourished for some little time. Several people are satisfied that she is a fake and a humbug as far as clairvoyancy is concerned, and that she is no more a clairvoyant than is Raisoni, the bandit, or Abdul Aziz, the sultan of Morocco. At any rate, people will do well, should she appear in other New Mexico cities, to give her a wide berth and not to pay a dollar for fortune telling, having their palms read or their futures deciphered.

H. C. Williams, who has well digging contracts in the Estancia Valley and who spent the past week in the city visiting friends, left for the south this morning on the Santa Fe Central train.

The flag stone and brick sidewalk on the grade of the street in front of the Staab property on San Francisco Street, occupied by the H. B. Cartwright & Brother wholesale and grocery firm and the furniture store of D. S. Lowitzki, has been completed and is a noticeable improvement in that part of town.

On Thursday the 14th, proposals for the construction of buildings at the New Mexico Reform School located at El Rito, Rio Arriba County, will be opened by the board of regents, which will meet in this city on that date for that purpose. Venceslao Jaramillo is secretary of the board and all proposals should be addressed to him at the post-office here. Local contractors should take due notice of this.

Henry Romero, a Santa Fe boy, who enlisted as an apprentice in the U. S. Navy, about seventeen months ago and was sent to a training ship at San Francisco, California, has returned home, having been discharged on a certificate of disability. While the young man liked the service well enough, he had to leave it, as he was suffering from chronic rheumatism most of the time while on sea.

Brick pavements on the roadway should be constructed from the Capitol on Don Gaspar Avenue north, thence on San Francisco street east to the plaza and on the streets surrounding the plaza. This would make that section of the town clean, comfortable and free from dust and would be a public improvement of the highest benefit. There is no good reason why the county and city authorities and the penitentiary management could not get together upon this matter and arrange for the pavement of the thoroughfares described. That such improvement is very necessary goes without saying. It can be had and should be had.

A number of good citizens have called at the office of the New Mexican and have expressed themselves as being greatly pleased with the action of the board of county commissioners in making a levy for the construction of a new stone arch bridge on College Street and

for a handsome stone wall in front of the court house. Both improvements are very necessary and property owners are very grateful to Commissioner Seligman who took the leading part in the action of the board of county commissioners, ordering these public improvements. The opinion is universal that Commissioner Seligman during his term of office has made an excellent record and that his official acts have been of great benefit to this county and to this city in many directions.

A telegram was received here today announcing the death of Mrs. Carlota Gonzales, wife of Antonio Montoya, a prominent sheep raiser of Bernalillo. The deceased was twenty-one years old. Arrangements for the funeral have not yet been made.

Follow the crowd to the Bon Ton.

A well-known resident of Mesilla, Mrs. Maria de los Angeles Valdez, the wife of Pablo Gamboa, died last Tuesday at her home there. The remains were interred Wednesday in the Mesilla cemetery.

They will make their home at Amarillo, where Mr. Wilson is round-house foreman for the Pecos Valley and Northeastern road.

### SOCORRO COUNTY.

Doctor and Mrs. C. G. Duncan entertained a small party of friends at bridge whist Thursday afternoon at their home on California street.

According to the government thermometer at the School of Mines, the temperature in Socorro rose as high as 102 degrees last week.

The seven prisoners in the county jail at Socorro came near making an effective break for liberty recently. They had tunneled through the walls and only one layer of brick remained between them and liberty when Jailor Robert Lewis suspected something and made a sudden investigation which resulted in the prisoners being put under triple lock and key.

News was received recently in Socorro of the death of Robert W. Munroe, formerly a citizen of that town for nearly twenty years, but a resident of El Paso for the last three years. His death occurred in San Diego, California. Mr. Munroe was the proprietor of the Broadway saloon in El Paso. He had gone to San Diego about two weeks before his death hoping to benefit his health. The remains will be brought to El Paso for interment. The funeral services are to be conducted by the Knights of Pythias, of which lodge he was a member.

### EDDY COUNTY.

Miss Mary McDonald and Felix Sellers, two young people of Carlsbad, were married last week by Justice of the Peace Green of that place.

Two popular young people of Carlsbad, Miss Zena Lech and Fred Nymeyer, were married recently at the home of the bride's parents. Mr. and Mrs. W. E. Lech of that city. The wedding was a very quiet one, only relatives and a few close friends being present. The ceremony was performed by Rev. S. R. Wood, pastor of the Baptist church of Carlsbad. Mr. and Mrs. Nymeyer will make their home on a ranch in Eddy County.

Two or three mail clerks on the line of the Pecos Valley and Northwestern Railroad, which runs through the Pecos Valley, have elected to make their homes in Carlsbad. F. L. Daugherty, from Whiteboro, Texas, was the first to locate there and the others will follow shortly.

A special levy for road purposes was ordered by the County Commissioners of Eddy County while in session last week. This was done in response to a petition signed by a large number of citizens in that county, and the levy will result in the availability of over \$3,000 for road construction purposes.

A revival meeting at the Seven Rivers church is in progress this week, having begun yesterday. Rev. J. C. Gage, the circuit rider of the district, has the revival in charge. He is assisted by Rev. John Lane, the Baptist evangelist, who has just finished a very successful season of effort at Artesia. The revival is largely attended.

The mail service on the Pecos Valley and Northeastern road has been recently improved by the appointment of three regular mail clerks to take charge of it in the place of having the mail handled by the express company as heretofore has been the custom. The three new clerks arrived in Carlsbad last week. They are N. T. Daugherty, Mr. Grady and Mr. Brown.

The event of the year in the way of roping contest will be pulled off about Christmas time at Carlsbad between Clay McGonagill and Solomon Schoonover. The arrangement has already been made, and if either party backs out now he will forfeit his \$100. Mr. McGonagill is an expert steer roper while Mr. Schoonover is new at the business. The contest is to consist of the former roping and tying ten steers before the latter ropes and ties one. It promises to be a very interesting affair and every day Mr. Schoonover may be seen out on some ranch by himself running cattle, with a view to getting in training before the match is pulled off.

The real estate men near Artesia have been doing a land office business lately. Several big sales have been consummated. William Enos, of Coleman, Texas, last week bought 160 acres of land six miles south of Artesia. Thomas Shoemaker, of Decatur, Texas, bought 160 acres northwest of that town last Tuesday. D. P. Wheeler, of Neosho, Missouri, who arrived in Artesia last week, bought a relinquishment on 320 acres of land near Dayton, and H. V. Hart, of Bowen, Illinois, last week purchased 320 acres near Artesia.

Several wells have been sunk recently near Artesia with excellent results. J. D. Rawls, who owns a ranch near that thriving town, struck a big flow last week and is busy digging irrigation ditches. Mr. Baldwin, who occupies the J. S. Venable tract of land, recently struck a gusher the water of

which shoots up 32 inches above the casing. This flow was struck on land which was believed to be out of the artesian belt.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c, \$1. Sold by Fischer Drug Company.

From one dozen to fifty copies of the New Mexican are sent out daily to enquiries and applicants concerning Santa Fe. This is the very best kind of advertisement and is bearing good fruit, as the large number of tourist and health-seekers in the city abundantly shows.

Baseball Players and Foot Racers. Louis J. Krug, ex champion long distance foot racer of Germany and Holland, writes, Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my great satisfaction. Therefore I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, \$1 bottle. Sold by Fischer Drug Company.

The book bindery of the New Mexican Printing Company has been so much enlarged and improved of late that it is the best south of Pueblo to the Mexico line and between Dallas, Texas, and Los Angeles, California.

### WESLEY'S ADVICE WAS GOOD.

"Get Close to Mother Earth," Said the Great Methodist.

In the Times' report of the celebration by Los Angeles Methodists of the two hundredth anniversary of the birth of John Wesley, the following occurs in the description of Bishop Hamilton's speech:

"The bishop was eloquent and witty, and told many humorous stories of Wesley and other leading early-day Methodists. He did not spare Wesley by omitting the ludicrous things in his life. He solemnly quoted from the great Methodist's medical book his cure for pulmonary trouble: 'Go dig a hole in the ground; lay down on your face and breathe the fresh earth.'"

This may have appeared very funny to the audience, but possibly the suggestion of the great founder of Methodism is not so ludicrous after all. In fact, it is good advice, supposing the soil to be free from impurities. It would do us all good if we could occasionally get a little nearer to Mother Earth, both with our feet and our faces.—Los Angeles Times

### Where the Difference Was.

Augustus Thomas, the playwright, tells an anecdote of a certain well-known Western editor, who was very exacting in his literary standards. A member of his staff handed him some "copy" on one occasion, which was handed back in a few moments with the bulk of it cut out by the editor's ruthless blue pencil. The reporter eyed his mutilated manuscript with a downcast countenance. "There is no doubt about it," he observed contritely to the editor. "I don't write as well as I used to." "That isn't it," rejoined his chief; "you write just the same, but your taste's improved."—Harper's Weekly.

### One of Many.

Brownvitch—They say Gotrox is fabulously rich.  
Smithinsky—That's hardly the correct way to express it.  
Brownvitch—How would you put it?  
Smithinsky—His wealth is merely a fable.

## GOOD NEWS FOR YOU!!

**A Wagon's First Cost**

There are a plenty of low priced wagons (mighty dear in the end) that actually look well at first. You can't see the paint-covered wood decay, the rusting of the springs, the fire setting and constant repairs that will rise up to trouble you in time. All said and done, it pays to buy once for all a dependable wagon.

**STUDEBAKER WAGONS**

That is a matter of common knowledge—testified to by every man who ever bought one. Built on honor by master mechanics out of selected and perfectly seasoned materials. Definite, sterling worth in each job of Vehicles and Harness, that result in longer and better service than you have a right to expect. You don't make mistakes if you put your faith there.

**Studebakers in Your Town.**

The undersigned are the local sales agents. We carry a generous stock, we'll order and quickly get anything you want. Consultation on pleasing you. Always ready to show you a call.

**Santa Fe Hardware & Supply Co.,**  
Santa Fe, N. M.

## GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver to night and be in Deadwood or Lead City tomorrow afternoon.

Gen'l Agent, Burlington Route, Denver, Colo.
