AGUINALDO TALKS.

Accepts the Situation Caused by American Provocation.

Prepared to Sacrifice Everything for the National Honor.

The Inhabitants of Negros Ask For and Receive American Protection.

YESTERDAY'S KILLED AND WOUNDED

Hong Kong, Feb. 22.—Aguinaldo has issued a manifesto accepting the situation caused by the American provocation of the Americans, while lamenting the hostilities, which he says he "tried to avoid by every means in his power," making humiliating concessions and tolerating the insults and outrages of the army of occupation against the people of Manila. He adds that he was prepared to sacrifice everything "to maintain the integrity of national honor," and calls on all to witness the good faith and honesty of his intentions. He complains that he has been treated as a rebel because he defends the national interest instead of becoming the tool of the American preparatory professions. He further alleges that the people "will perish rather than accept odious American domination."

The Philippine commission is considered by Aguinaldo's friends. Ois, Denby and Secretary Hayden are classed as pronounced unrepentants, the latter being charged with having "missionarily" defamed the Philippines. Aguinaldo denies that Germany or any other power rendered assistance to the Philippines.

YESTERDAY'S CASUALTIES.

Corporal Tucker Killed and Five Soldiers Wounded.

Washington, Feb. 22.—General Ois today called the war department that two members of the California regiment were wounded yesterday by exposing themselves to the enemy's fire. During a reconnaissance this morning in the vicinity of San Pedro Macarti, Corporal Tucker of the First Washington was killed. Four men were wounded. In a skirmish near the waterworks three members of the First Nebraska were wounded.

INTERVIEW OTIS.

Representatives of People of Negros Ask For Advice and Help.

Manila, Feb. 22.—While the guns on the city walls and on the ships of Dewey's fleet fired a salute in honor of Washington's birthday, four commissioners from Negros had an interview with Major-General Ois and informed him that the American flag had already been raised over the island entirely. Although the filio rebels have been given the people of Negros much trouble, especially in the matter of the tax on sugar, the commissioners announced that they wanted the active and help of General Ois. He assured them that Americans would provide an acceptable government and in the meantime instructed them not to pay the rebels anything. The commissioners were delighted. The United States cruiser Charleston is enroute to start on a cruise. The United States gunboat Bennington arrived today from Zamboanga. A United States transport arrived from Iloilo, but did not bring any news of importance.

IRON TRADE IMPROVING.

Prices Advancing in Leaps and Bounds.

New York, Feb. 22.—In its review of trade conditions, the Iron Age will say: "There is increasing activity in the iron trade, the prices now advancing in leaps and bounds. The continued heavy requirements are coming into the market, both for raw material and finished goods. Some great producers are in a congested condition and instances are quoted of great plants which are practically sold out until October. A growing disposition is observed to try to cover as much of the second half as possible."

THE NIGHT OF ALL.

Martha Washington Reception at the San Felipe This Afternoon.

The dancing school room of Mrs. Walton, at the San Felipe, was this afternoon the scene of the prettiest display seen for a long time in Albuquerque, the occasion being a reception given by Beatrice, Ruth and Lawrence Hild, children of Mr. and Mrs. Louis Hild, to their many little friends. Some thirty young people in costumes of satin, silk and velvet thronged the floor and were directed through an elaborate grand march by Professor D. J. Mauro and Miss Hawthorne. AT THE LEE FIRE YESTERDAY AFTERNOON.

A man stepped on a piece of board and ran the sharp point of a protruding nail about an inch into his foot. Commander Kent, who was a willing worker at the fire, witnessed the accident, and ran to his home near by, returning with a bottle of turpentine. The commander, who is equal to such emergencies, yanked the shoe off the injured foot, and, using the turpentine, applied with great skill the turpentine to the wound. He then deftly bandaged the foot, after which the man limped away, showering upon the commander many thanks for his extreme kindness.

THE COUNCIL IS HOLDING A SPECIAL MEETING.

This afternoon for the purpose of drawing up a protest to be submitted to the legislature against the law prohibiting cities from making a tax levy of over five mills for municipal purposes. It is felt that this is entirely too small to pay the current expenses of the city, and for this reason the present action is being taken.

The members of Rose company No. 2, more than equalled their reputation in the success of the third annual ball which they gave at the Armory hall last evening. The boys were out in full force in their new regulation fireman's uniforms, presented a very attractive appearance. There were about three hundred people present, including several members of the territorial regiments, who were present as the invited guests of the company.

BANQUET TO GOMEZ.

The Veterans Club Hero Honored at Matanzas Last Night.

Matanzas, Feb. 22.—The banquet tendered here to General Maximo Gomez last night was a brilliant affair and was largely attended. The junta, Patriotic League, refrained from inviting the Spaniards, which displeased the Cuban commander. Gomez, referred feelingly to the dark days of the revolution and said his gratitude to the welcome accorded him could not express the deep feeling of his heart. He made no reference to politics and was so sincere that he could hardly articulate. Gomez has been ill for several days.

POLICE COURT NEWS.

D. H. Woods, Bound Over to the Grand Jury for Assault With a Deadly Weapon. There was a dance at the Gloria hall last evening, which was attended by D. H. Woods, who is a recent arrival from merry Kansas. He was not very familiar with the effects of native wine with a John Bull fighting temperament, so he indulged too freely in the liquor and began to make trouble. He drew a knife on Jose Chavez, who conducts a wine room in the rear of Gloria hall, and when he was warned in the entrance he asked his companion for his revolver. Before he could do any damage he was placed under arrest by Officer Martinez.

Mr. J. R. Lilly, a prominent citizen of Hamilton, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with a typhoid fever, and my physicians, my lungs being hardened, I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I took Dr. King's New Discovery. One bottle gave great relief. I continued to use it and am now well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung troubles. Regular size, 50 cents and \$1. Trial bottles free at J. H. O'Reilly & Co.'s Drug Store.

Tuesday of this week Jos. Woods, of Pueblo, while being for water at Seven Rivers on Clark's bridge, slipped, and fell into the river. He was about 40 years of age, and was a well-to-do man. The Had a Fine Time. Major Max Luna, who returned the speaker's chair Tuesday morning and presided with his usual ability and dignity, says that he never had a finer time and never was treated better or more hospitably than he was a member of the governor's party on the recent trip to Alamogordo. In this respect he but echoes the opinion of Gov. and Mrs. Otero and the remainder of the guests. Major Luna says that the entire party is under special obligations to General Manager A. J. Kidy and Solicitor H. C. Felt for the road, and more particularly to their hands, some, right and charming wives, Mrs. J. A. Eddy and Mrs. W. A. Hawkins; General Superintendent Greig and Assistant Alexander also coming in for a goodly share of the praise—New Mexican.

San Marcel. From the Bee. J. B. Barry has received his commission from Sheriff Blackington as deputy sheriff for San Marcel and vicinity.

Miss Pearl Troxell, of Springfield, Ohio, will arrive here about March 1, to become the guest of Mrs. P. L. Lujan, whose cousin she is.

Some people have blated that the remains of the man found dead near Rosedale were those of Mrs. Dietrich, a widow of great renown. But his close friends only smile at the proposition.

We understand that A. H. Hilton, of San Antonio, has been a daily frequenter of the saloons at Santa Fe, in the interests of the bill that exempts new industries from taxation for a number of years. Mr. Hilton's industrial schemes include the founding of a best sugar factory at San Antonio.

A. T. Harrison, who is a prospective

millionaire in the way of copper interests in the vicinity of Dripping Springs, San Antonio, is associated with San Marcel and Socorro. He is associated with Capt. Jack Crawford in these claims, the investigation of whose richness is claiming the attention of many eastern capitalists at present.

Last Monday morning at 2 o'clock Willie Flood, aged 17 years, departed this life at the residence of his brother-in-law, C. R. Higgins. In June of last year he was born, and took a position as caller for the railway company. This place he was forced to give up owing to the rapid strides of the disease. He was a boy of good habits, with a kind and lovable disposition and made many steadfast friends. The funeral took place Wednesday forenoon and was well attended. A pang was felt in many a heart when the news was received that Willie Flood was with the angels above.

La Grippe Successfully Treated. "I have just recovered from the second attack of la grippe this year," says Mr. James A. Jones, publisher of the leader, Dallas, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed about six hours after being struck with it. In the first case I was able to attend to business about two days before getting down." For sale by all druggists.

Black & Tan. "The American center" is the latest brew of the Anheuser-Busch Brewing Ass'n. It excels in those qualities that make it most popular with the public.

Visited Deming. Mrs. Clara Foltz, lady lawyer of San Francisco, talks irrigation. Last Saturday the talented woman lawyer, Mrs. Clara Foltz, of San Francisco, Cal., visited Deming, and while here a committee of Deming's prominent citizens visited her by special request in the parlors of the Harvey house, says the Herald.

Mrs. Foltz is very much interested in the building up of this western country, and very truly says: "The only means by which these great arid plains can ever be brought out and made a thing of beauty and a joy forever is by irrigation."

The lady is enthusiastic on the subject of irrigation, and believes that congress can be prevailed upon at its next session to appropriate money to store the waste waters of this country and to bring it to our arid soil.

Mrs. Foltz is a lawyer of established reputation and is well known all over the United States. She has offices in San Francisco, Denver and Washington, D. C. She also publishes a paper in California. She has amassed a fortune by the practice of law, and seems to now want to pass her time doing good for others.

An hour's conversation with this lady satisfied all present that she was a practical, go-ahead woman, and that she knew just what she was talking about. She inquired minutely into the water supply of the country, the fertility of the soil, and in fact, with a woman's natural curiosity, wanted to know all there was to be told. But when she had found out all about it she declared most emphatically that it would be possible, if the right steps were taken, to get an appropriation to do all that was necessary to place thousands of acres of now waste land under cultivation.

Mrs. Foltz promised to visit Deming again in the summer and see what could be accomplished in the way of storage reservoirs and help us all she could.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyes were almost blind. No treatment would relieve him, but he grew worse. I had heard of S. S. S., and I bought a bottle. I had never before used a medicine, but I was so desperate that I tried it. I gave him a few drops, and he was cured. He is now a healthy boy, and his eyes are as good as new. S. S. S. is a perfect cure for Scrofula. It is the only remedy which goes deep enough to reach the disease, and it forces out every trace of it. It is a cure for the worst cases of Scrofula, and it is a cure for the disease in its early stages. It is a cure for the disease in its late stages, and it is a cure for the disease in its most obstinate form. It is a cure for the disease in its most dangerous form, and it is a cure for the disease in its most fatal form. It is a cure for the disease in its most terrible form, and it is a cure for the disease in its most horrible form. It is a cure for the disease in its most disgusting form, and it is a cure for the disease in its most repulsive form. It is a cure for the disease in its most loathsome form, and it is a cure for the disease in its most offensive form. It is a cure for the disease in its most foul-smelling form, and it is a cure for the disease in its most noxious form. It is a cure for the disease in its most deadly form, and it is a cure for the disease in its most poisonous form. It is a cure for the disease in its most malignant form, and it is a cure for the disease in its most virulent form.
