APPLY FOR A PASS.

Philippine Families Desire to Take Refuge in Manila.

Manila, Feb. 17.—11:50 a.m.—The consul of the United States, O. F. Williams, is in receipt of an application from a member of the insurgent congress at Malolos for a pass through the American lines for a family of twelve persons desirous of taking refuge in Manila. This is regarded as significant as showing that the most intelligent rebels realize that their families are safe only within American territory.

With the exception of a few shots fired into a small body of rebels attempting to destroy the railroad bridge near Calocan all has been quiet along the line.

Last night the heat affected the men in the open country to some extent but otherwise the health of the troops shows marked improvement since the beginning of hostilities.

CONGRESSIONAL.

IN THE SENATE.

Washington, Feb. 17.—Morgan (Ala.) addressing the senate announced the death of President Faure of the French republic. He thought it fitting that the senate make some expression upon the death of President Faure. It was not unlikely he thought that the incident might give trouble not only to France, but to the entire world. He then offered the following resolution which was adopted: "That the vice president of the United States, the president of the senate, is requested to express to the government of the people of France the sympathy of the senate of the United States in the bereavement so suddenly fallen upon that republic in the death of Faure."

THE SENATE PASSED THE NAVY PERSONNEL BILL.

IN THE HOUSE.

The chaplain of the house in his invocation to-day referred feelingly to the critical illness of Cranford, of Texas, whose death is hourly expected, from a complication diseases, at the Providence hospital here.

The census bill was sent to conference. By a vote of 155 to 90, the house sustained the decision of the chair that a motion to recommit the senate civil bill with instructions to incorporate the Nicaragua canal bill was not in order.

The Nicaragua canal matter was disposed of and the house passed the sundry civil bill and immediately took up the naval appropriation bill.

ANOTHER BIG COMBINE.

Consolidation of Smelting Companies Effected.

Guggenheim's Concern the Only One That Has Declined to Join.

The Capitalization Will be \$50,000,000 in Preferred and Common Stock.

COMPANIES IN THE COMBINE.

New York, Feb. 17.—The Wall Street Journal says: "Options have been secured on all the principal smelting companies of the country, for the purpose of consolidation, with the exception of those owned by Guggenheim, located in Mexico, Porto Rico, N. J., and Pueblo, Colo. Moore and Schley, it is understood, hold these options, and it is stated as soon as final details are completed, a new company will be formally organized. Those which will go into the consolidation are the Omaha and Grant company, the Consolidated Kansas City Smelting and Refining company, the National Smelting company, the United Smelting company, the Pueblo Smelting company and the Germania Smelting company. The present capitalization of these companies is \$25,000,000 and the annual net profits range from 12 to 15 per cent.

The capitalization of the new company will probably be around \$50,000,000 divided equally into preferred and common stock. The new company will be authorized to mine, smelt and refine into silver, gold, lead, copper and other constituent quantities. There is not likely to be any friction from the fact that so important a concern as Guggenheim's had declined to be included in the consolidation as there will be an understanding that the present arrangements respecting the interchange of business will not be seriously disturbed.

THE REPORT CONFIRMED.

Denver, Feb. 17.—Ex-Governor Grant, the president of the Omaha and Grant Smelting company, to-day said a movement was on foot to consolidate all the smelting interests in the country, but declined to go into details. Crawford Hill, of the Boston and Colorado Smelting company, said that his company was not in the deal.

BRIDGE AT EL PASO.

Believed That Mexico Will Consent to Its Completion.

Assistant Superintendent G. R. Ayer and Engineer E. A. Pearson, of this city, are in El Paso negotiating with General Blanco, of the Mexican boundary commission, for the completion of the joint railroad bridge across the Rio Grande at El Paso, commenced some months ago. The bridge was built from the American side of the river, and as soon as the workmen commenced operations on Mexican soil that government ordered the work stopped. Since that time railroad officials have brought pressure to bear on the government of Mexico, and it is now believed that it will consent to the completion of the bridge. Engineer Pearson has drawn up plans which have been sent to the City of Mexico to be approved.

ATTEMPTED SUICIDE.

Death Was Preferable to Old Age and Poverty.

A colored man who was hunting game yesterday afternoon, east of the Phoenix park was attracted to a clump of bushes by the sound of growling. Walking over he saw John Schmidt lying on the ground with his wrist in a puddle of blood. It afterward developed that Schmidt had gone to the spot late in the morning and cut a deep gash in his left wrist with a purpose to commit suicide. The instrument used was a razor.

An artery had been severed and a large volume of blood gushed from it. Surgical aid was summoned and the patient's wrist was dressed. The loss of blood made him weak, but otherwise the self-inflicted wound will not prove serious. Justices Johnston and others were also notified and caused the man to be removed to the county hospital. In reply to a question asking him why he attempted suicide Schmidt said that he had no intention to commit suicide; that he only wanted to die. He said that he was old and sick and had no way of making a living, and for that reason wanted to end his existence.

Schmidt was a paralytic, as to the left side of his body, rendering his hand almost useless. He has been an indigent at the poor farm for some time and only a few days ago left that institution. He has since tried to work and his inability to do so, together with his old age, discouraged his efforts to battle further.—Phoenix Herald.

Change of Residence.

J. H. Kuhns, the general storekeeper of the Santa Fe Pacific in this city, accompanied his wife and two children to Los Angeles last night, where the family will reside in the future. The change in residence has been made for the benefit of little Joe, whose poor health makes it necessary that he should reside in a lower altitude. Mr. Kuhns will retain his position as storekeeper and make his headquarters in this city. His son, Robert, who is employed at the First National bank, will also remain in this city. The Kuhns family have lived in Albuquerque for many years, and a multitude of friends sincerely hope that the health of their son will improve so that they can again make their home in our midst.

EARLY MORNING FIRE.

Santa Fe Blacksmith Shop Burned—Loss About \$15,000.

The blacksmith shop of the Santa Fe Pacific railroad company, together with the machinery contained therein, was almost totally destroyed by fire between 1 and 3 o'clock this morning. A few minutes after 1 o'clock people in all parts of the city were aroused from their slumbers by the furious blowing of the whistle at the Santa Fe Pacific shops. A few seconds later the shrieking of a fire alarm joined in the chorus and noise enough was made to almost awake the dead.

Lurid flames illuminated the sky and the impression was general that the entire shops were on fire. A vast multitude of people accompanied the different fire companies and there was a deep feeling of relief when it was discovered that the flames were confined to the blacksmith shop and machinery were a mass of ruins. The two wings adjoining the blacksmith shop on the south and north sides were saved from utter destruction but were considerably damaged by fire and water.

The cause of the fire is not known and numerous theories have been advanced to account for it. It is thought, from the location of the flames when the discovery was made, that the fire started in the southwest corner of the shop. "Syke" Young, the night watchman in the yards, happened to be eating his midnight lunch when the fire started and the night engineer first discovered it and blew the whistle as an alarm.

The loss is roughly estimated at from \$12,000 to \$15,000, although the exact loss will not be known until the insurance adjusters arrive and make their investigation. They are expected to arrive here to-morrow. None of the insurance is carried by agents in this city, the property being covered by the so-called "blanket" insurance policy which covers all the property of the Santa Fe Pacific company.

A large crew of men were put to work early this morning to clear away the ruins and at noon one would scarcely be able to tell from appearances that there had been a fire last night. The general offices in Los Angeles have been notified of the fire and while no answer has yet been received from them, there is no doubt that the shop will be rebuilt at once. Nothing will be done until the loss is adjusted. This is expected, will only take a few days. The burning of the shop will throw about 100 men out of employment for a short time.

THE LEGISLATURE.

McKinley County Bill Passed the Council To-Day.

Several Important Measures Have Passed Both Houses.

Joint Committee Appointed to Visit Territorial Institutions.

GOVERNOR OTERO'S TRIP.

Special to the Citizen.

Santa Fe, N. M., Feb. 17.—Bills were introduced in the house to-day providing that the holders of county warrants may institute suit against county commissioners and procure a tax levy for the payment of the warrants; and to permit boards of county commissioners to appoint one student from each county, annually, for free tuition at the New Mexico university.

Bills were tabled to facilitate the work of the grand jury by permitting stenographers to take previous testimony; and to decrease the charge of telegraph messages.

The measure regulating the charges of express companies was re-committed to the private corporation committee.

The council and house appointed joint committees of three each to visit the various educational institutions and insane asylum.

The McKinley county bill was brought up in the council and passed. Hughes made a strong speech relative to the wants of the citizens and said he would stand by the wishes of a majority of the taxpayers. Several telegrams and letters were read favoring the creation of the county.

James Duncan introduced a bill to create the office of auditor of public accounts, whose salary is fixed at \$5,000 per year.

G. A. Richardson read a letter from the Black Range Cattle association at Hillsboro requesting that the ranger company bill be passed.

Bills were passed granting the purchasers at tax sales a lien on the county and territory in case of defective titles; to facilitate the work of holding the supreme court by furnishing an additional stenographer, and to make Santa Fe, Grant and Socorro, counties of the third class, so far as school superintendents are concerned.

OFF FOR ALAMOGORDO.

Gov. Otero and Party En Route to Otero County.

Special to the Citizen.

Santa Fe, Feb. 17.—"El Paso del Norte," the private car of the El Paso & Northern railroad, attached to the regular passenger train, left for Alamogordo, via Lamy junction and El Paso, Texas, this afternoon. The private car of Division Superintendent Hurley also made up the equipment.

Gov. M. A. Otero and wife, with the governor's staff and several ladies, occupied seats in the private cars, and they should reach Alamogordo on one of the passenger trains this evening.

The governor makes the trip for the purpose of interviewing the republicans of the new county of Otero, who will meet at Alamogordo to-morrow, as to the proper persons to appoint for the various county offices. An informal meeting of republicans was held at Alamogordo this afternoon. In the evening a grand banquet will be given in honor of the visiting guests at the new Alamogordo hotel, and on Sunday the governor and party will make the railroad trip to the summit of the Sacramento mountains.

It is thought here that the governor will appoint the officers for the new county on this trip. He expects to return either Monday or Tuesday evening.

Mary J. Carter was granted a divorce in the district court to-day from her husband, Ollie L. Carter, on the ground of desertion.

BIRTHINGTON'S
WASHDAY
Never allowed the father of his country to dance with joy at the sight of a well laundered shirt, cuff or collar, because he wasn't initiated into the secrets of those up-to-date articles. Those who live in Albuquerque know a good thing when they see it, though, and the dinnin, color and perfect work done on their linen is our best advertisement.
