NUMBER 100.

VERY COLD WEATHER.

Thermometer Lower To-day Than Since 1872.

Great Suffering Results in Many Sections of the Country.

Fire in New York City Causes a Loss of Nearly \$1,000,000.

ANOTHER ALASKA GOLD STRIKE.

Chicago, Feb. 9.—This city is in the grasp of the coldest weather since 1872. The thermometer at 6 o'clock registered 22 below at the weather bureau. Many thermometers showed the mercury down to 28. Twenty people were so severely frost-bitten during the early morning hours that they had to be removed to hospitals. There is no snow on the ground and the frost penetrates to the water mains and several portions of the city are suffering from a lack of water. H. B. Blunsfield was found frozen to death on the street by a police officer.

Huron, N. D., with 39 below, was the coldest place in the United States. The line of zero passes from the Chesapeake bay westward over Tennessee, Arkansas and Oklahoma. Freezing temperatures are reported as far south as central Florida.

Topsa, Kas., Feb. 9.—The thermometer registered 15 degrees below zero this morning.

Omaha, Neb., Feb. 9.—The weather bureau thermometer registered 23 below zero this morning, the coldest weather at this station since 1883, when the record was 25.

New York, Feb. 9.—This was the coldest day of the winter in New York. At 7 a. m. the temperature was 1 degree above zero.

Through New York state all railroad traffic is delayed several hours by snow, which on the level, averages a foot deep and in many places is drifted twenty feet high. The Hudson river overflooded by high tides and snow, is a sight to behold. Long Island Sound was swept from end to end by the highest tides ever known.

Boston, Feb. 9.—A howling northerly snow storm prevailed along the Massachusetts coast the past twenty-four hours. A three-masted schooner is reported wrecked off Nantucket beach.

Cleveland, Feb. 9.—The thermometer today registered 14 below, or within three or the low record of 1873. The telegraph service is demoralized.

Pittsburg, Feb. 9.—It is 10 degrees below zero by the weather bureau thermometer, the coldest since 1870.

St. Paul, Minn., Feb. 9.—The winter's cold record was again broken last night, the mercury reaching 23 below zero.

St. Louis, Feb. 9.—Not since 1884 has the weather been so cold. The government thermometer is 15 below zero.

San Kennedy, Alaska, was found in a coal shed frozen to death.

Wichita, Kas., Feb. 9.—It is reported that many cattle on the range are suffering from frozen hoofs. This usually proves fatal.

Kansas City, Feb. 9.—The local low temperature record was broken this morning, the official thermometer at 8 o'clock recording 20 and two-tenths below zero.

Leadville, Colo., Feb. 9.—The fuel supply is nearly exhausted and it is feared the smelters and mines will have to shut down. Seven cars of coal remain for pumping the down town mains. This work will be continued if possible. There have been practically fifteen days of continuous snow storm. The Rio Grande is getting its trains through, but with difficulty. To replenish the fuel supply it is necessary that the roads be kept open at least a week. Kokomo and Breckenridge are suffering from scarcity of provisions.

The storm continues here with unabated fury. The situation is critical. A meeting of business men was held today to devise measures for relief. It was decided to put all available men at work to open the railroad to Malta. George W. Cook will head a party of 1,000 shovellers. It was agreed that if the railroad is not opened hundreds of lives may be lost.

Jeliet, Ill., Feb. 9.—Frank Dabriel and George Hamilton were found frozen to death.

Washington, Feb. 9.—The weather bureau's special bulletin says: The temperature continues abnormally low in all districts east of the Rocky mountains. The lowest temperature reached was 50 degrees below zero, at Minnedosa, Manitoba. The outlook is that there will be a marked though gradual rise in the temperature east of the Rocky mountains after to-day.

Denver, Feb. 9.—The mountain roads are again tightly tied up. Rio Grande trains are running only as far as Salida. Marshall Pass is again blocked around Leadville, as there is two feet of fresh snow.

Collided with a Railroad Bridge. Nashville, Tenn., Feb. 9.—Steamer P. Stagg, which collided with a railroad bridge at Johnsonville last night, drifted on miles down the river and burned.

AFFAIRS IN MANILA.

Filipinos Being Reinforced by Better Drilled Men.

Concentrating About Calocan and Intrenching Themselves.

Insurgents Fire the Town of San Roque and Then Leave.

OCCUPATION OF ILOILO.

Manila, Feb. 9, 4:40 p. m.—The Filipinos are lying low except in the extreme left and right. They are evidently concentrating between Calocan and Malabon. Judging from appearances the Filipinos are being reinforced by better drilled men from the northern provinces. In front of Calocan they are as thick as a swarm of bees.

The American troops feel the heat of midday in the open but are anxious to proceed.

The Filipinos are still intrenching themselves on the left of Calocan. Telegraph operators are worth their weight in gold. The members of the signal corps are working night and day.

OCCUPATION OF ILOILO.

Gen Miller Will Begin the Attempt to Occupy Iloilo.

Washington, Feb. 9.—Probably within forty-eight hours Gen. Miller will have begun an attempt to occupy Iloilo. Miller has the Sixth and Eighteenth Infantry and a battery of the Sixth artillery. These will be reinforced in twenty-four hours by the First Tennessee regiment.

THEY ONLY DEWEY.

Insurgents Promptly Leave San Roque at His Command.

Washington, Feb. 9.—The navy department today received the following: "Manila, Feb. 9.—After continued interference and intimidation of our workmen, I ordered the armed insurgents to leave San Roque by 9 this morning. They left during the night, a few remaining who burned the village this morning. It is now occupied by our troops. All is quiet. Dewey."

Skagway, Feb. 4, via Victoria.—The richest gold strike made for months is reported at McDonald creek, in the Northwest Territory, close to the line of British Columbia. The surface gravel gave \$1 to \$2 a pan. In the country adjacent to McDonald's creek are innumerable creeks not yet prospected.

THE LEGISLATURE.

Congress Urged to Create an Additional Judicial District.

War Investigation Commission Passed Out of Existence To-day.

Board Appointed to Inquire into Charges Against Army Beef.

SCHLEY-SAMPSON CONTROVERSY.

Special to The Citizen.

Santa Fe, N. M., Feb. 9.—The council passed the house joint resolution commending the president for restoring order in the Philippines.

The council passed the bill relating to the larceny of young cattle in the territory.

Mr. Richardson introduced a joint resolution, urging congress to create an additional judicial district, to be composed of Lincoln, Chavez, Eddy and Sandoval counties, which passed the council.

The house devoted the morning session to a discussion of several council bills.

There is a large delegation from Socorro in the interest of a bill relating to community irrigation ditches.

The council committee will make an adverse report on the division of Colfax county.

COURT OF INQUIRY.

Appointed by President to Examine into Charges Against Army Meat.

Washington, Feb. 9.—The president has appointed a court of inquiry to examine into the charges touching the meat furnished during the war with Spain and other matters involved in the charges made by General Miles against the administration of war affairs.

The court will consist of Major General Wade, Col. George W. Davis, Ninth infantry, and Colonel Gillespie, of the corps of engineers.

SAMPSON AND SCHLEY.

Long's Explanation for Advancing the Former Over the Latter.

New York, Feb. 9.—A dispatch to the Herald from Washington says: Officials of the navy department maintain a secrecy as to Secretary Long's reply to the senate resolution calling for an explanation of the nomination for advancement of Rear Admiral Sampson over Rear Admiral Schley.

However, some details have been obtained. The secretary received Monday the data of the naval board, consisting of Captain R. D. Evans, Capt. Henry Taylor, Lt. J. H. Sears and Ensign E. H. Ward. The board expressed no opinion, but simply furnished the information with explanations to the secretary, who transmitted it to the senate.

The most important point which the secretary makes against Schley deals with the latter's action in signaling the fleet to proceed to Key West after he received on May 27 a dispatch from the department informing him of the department's information which indicated that the Spanish fleet was still at Santiago. The secretary shows there was no necessity for the squadron proceeding to Key West for coal.

No More Investigation.

Washington, Feb. 9.—The war investigation commission presented its report to the president this afternoon and passed out of existence.
