FUSION IN NEBRASKA

William J. Bryan Won the Day Over the Parker Forces at Lincoln.

DIVISION OF OFFICES

The Populists Get Five of the Candidates and the Democrats Only Three.

Lincoln, Neb., Aug. 11.—After a session lasting all night the Democrats and Populists of Nebraska completed their state ticket today. The division of offices gives the Populists five and the Democrats three, namely, lieutenant governor, secretary of state and attorney general. This complete fusion is another victory for Bryan. The ticket is as follows: Governor, George W. Berge; lieutenant governor, Dr. A. Townsend; secretary of state, R. E. Watzke; treasurer, John M. Osborne; auditor, J. S. Canaday; attorney general, Edward Whalen; land commissioner, A. A. Worsley, superintendent of instruction, Albert Softley.

THE PACKING STRIKE.

It is Extending and a Settlement Seems Far Off Today.—Can Workers are Affected by the Controversy.

Chicago, Ills., Aug. 11.—President Michael Donnelly of the butchers' union today said he had little faith in the retailers' peace negotiations to settle the packing house strike. "It looks to me as though they are only beginning to fight," he said. "I will not stand now for the first agreement. The matter is now beyond me. The Allied Trades conference board will have to approve of any terms offered. I do not think that the packers will agree to the terms that I would insist on now, and, of course, the strike cannot be settled unless the terms are satisfactory to all the unions in the allied trades."

WILL NOT FURNISH ANY CANS.

Chicago, Aug. 11.—At the dissolution of the American Can Company it was declared today that the management had agreed not to furnish any cans to the packers. By this means the calling of a strike at the plant will be averted. Should the strike of the can-workers be called it would affect the can-workers in three plants of the American Can Company. The officials of the company say that they have a large number of orders from the big packers and that the great part of the goods is ready for delivery.

THE PHIPPS DIVORCE CASE.

Judge Mullins Sustains the Validity of the Summons Served on Mrs. Genevieve Chandler Phipps.

Denver, Colo., Aug. 11.—Judge Mullins in district court today sustained the validity of the summons served on Mrs. Genevieve Chandler Phipps in New York City in the divorce proceedings instituted here by her husband, Lawrence C. Phipps, the millionaire Pittsburg steel manufacturer. The motion of Mrs. Phipps' counsel to quash the summons was overruled. Mrs. Phipps was given five days in which to plead. Judge Mullins also granted a motion to quash the summons in the case of the United Steel corporation, J. P. Morgan & Co., and the United States Trust Company, thus permitting the payment of dividends and interest to Mrs. Phipps on stocks and bonds standing in her name.

St. Louis, Aug. 11.—The automobile tour which started in the East on July 25th, with 122 starters, ended here with 63 machines. The longest distance made was from Boston to St. Louis, 2,068 miles. Comparatively few accidents are reported to have happened along the route.

THE EDEN WRECK INVESTIGATION

The Coroner's Jury Expects to Complete Its Work Today.—A Hundred Searchers Still on the Grounds.

Pueblo, Aug. 11.—Few developments are expected today in connection with the disastrous wreck of Sunday night. A hundred searchers were on the ground at work early this morning, but most of the ground has been pretty thoroughly investigated. Much interest attaches to the verdict of the coroner's jury, which assembled again this morning and is expected to complete its work today.

LORENZO LABADIE ANSWERS LAST ROLL CALL

Died Yesterday at Puerto de Luna, Eighty Years of Age.—A Famous Indian Fighter.

A telegram just received in this city announces the death of Lorenzo Labadie at Puerto de Luna, Leonard Wood County, yesterday. Mr. Labadie was about eighty years of age and was one of the most distinguished of the native citizens of the territory. He was a native of Valencia County, but lived in the County of Santa Fe for many years and was married in this city. He served as sheriff of Santa Fe County for several terms shortly after the American occupation. He occupied several positions of honor and trust under the government. For a number of years he was sheriff of Valencia County and served as sheriff of San Miguel County. During the Civil War he served as Indian Agent and also rendered valuable services to the government as an officer of one of the volunteer regiments of this Territory. He was a famous Indian fighter and was a man of many notable qualities. Mr. Labadie was one of the best known men in the Territory and his numerous friends and relatives will hear the news of his death with sincere sorrow. Mr. Labadie was a brother-in-law of the late Colonel Manuel Chaves and of Hon. Roman A. Baca. He and Manuel Chaves were business partners for many years.

WANTS \$50,000 DAMAGES.

H. L. Ortiz Detained at El Paso on Suspicion of Having Stolen Jewelry in His Possession.

Information was received today at Santa Fe to the effect that the Santa Fe lawyer who was lately detained in El Paso was H. L. Ortiz. Mr. Ortiz, in a letter to his friends and relatives, states that on Saturday last the police of El Paso took possession of his pocket book, his valise and his trunk in order to search them for the diamonds and other jewels which were stolen from Mrs. Page B. Otero some three years ago. None of the property was found in his possession. Mr. Ortiz, after having been detained a few days on suspicion, was discharged by the police department and the detectives who caused his apprehension made every excuse and apology for his arrest. Mr. Ortiz left for Chihuahua on the 8th inst., but before his departure engaged counsel in El Paso and filed suit against El Paso, so he reports, for damages in the sum of \$50,000 for false arrest and imprisonment.

WITHOUT FIRE DEPARTMENT.

The Roswell City Council Has a Difficult Time in Its Attempt to Organize a New Company.

The city council of Roswell on Monday evening removed Fire Chief Parsons, while he was absent from the city on his annual vacation and elected Harold Hurd to succeed him, who, however, refused to accept the position. W. L. Bost, who was appointed to the position of engineer at \$60 a month, has also resigned, the rest of the fire department following his example. J. F. Hinkle has made arrangements to give the city fire protection until a new fire company is organized.

DESTROYED BY FIRE.

The Residence of George B. Cleveland at Artesia Goes Up in Flames.—Loss Over \$2,000.

The residence of George B. Cleveland was totally destroyed by fire at Artesia last Saturday evening. The family was not at home and nothing was saved except several pieces of furniture taken out of the burning house by neighbors. There was no insurance on the building or contents and the loss foots up over \$2,000. Mr. Cleveland is one of the oldest settlers in southeastern New Mexico, having come to the valley from Chihuahua thirty-six years ago.

RUSSIAN SQUADRON MAKES FUTILE ATTEMPT

Follows the Example of Santiago But is Driven Off by Admiral Togo—Japanese Strangle Hold on Port Arthur and on Kuropatkin.

Tokio, Aug. 11.—Evidently driven to the sea by the fire of the Japanese land batteries, the Russian fleet emerged from Port Arthur yesterday morning. Admiral Togo, immediately closed in, and a severe action began which lasted till nightfall. Afterwards the Japanese destroyers and torpedo flotillas delivered a series of attacks. The Japanese fleet withdrew during the night. A guardship stationed off the harbor reported that she saw at dawn the battleships Retzivan and Pobieda steaming towards the harbor of Port Arthur. Admiral Togo has not yet reported the results of the engagement. It is thought here that the Russians attempted to escape seaward, from a base which is no longer tenable.

Russian Warships in Flight.

London, Aug. 11.—A dispatch to the Japanese legation from Tokio confirms the report of a severe naval engagement before Port Arthur and of the subsequent attack of the Russian squadron by the Japanese torpedo destroyers. The dispatch concludes by saying that at dawn today the Retzivan and another battleship of the Pobieda type, appeared to be taking flight towards Port Arthur.

Russian Squadron at Che Foo.

Chee Foo, Aug. 11.—An official source reports the sighting of sixteen Russian warships last night in the vicinity of Che Foo. The Russian battleship Retzivan was hit seventeen times during the recent bombardment of Port Arthur but only slightly injured. Captain Shestakovsky, of a Russian torpedo boat destroyer, which arrived here this morning reports that a Japanese cruiser and a gunboat were injured or sunk during the past week. He is not positive however that they were sunk.

Escape of Port Arthur Squadron.

St. Petersburg, Aug. 11.—The apparent escape of the Port Arthur squadron is arousing the most intense interest here. There is no official news but no surprise is expressed at the Admiralty at the Chee Foo dispatch. While its destination is not admitted here, there is no doubt that if it succeeds in shaking off Admiral Togo, its purpose is to effect a junction with the Vladivostok squadron.

Russian Destroyer Damaged at Chee Foo.

Chee Foo, Aug. 11.—It is reported that the Japanese protected cruiser Kasagi was sunk off Round Island in the recent engagement. The Russian ships before leaving Port Arthur took on board heavy stores, machinery and materials for ship repairing. The torpedo boat destroyer, Ryeshitnei, has been dismantled by the removal of the breeches of her guns.

Another Version.

London, Aug. 11.—A dispatch to the

News Agency from Tokio announces definitely that Admiral Togo has frustrated the attempt of the Port Arthur squadron to escape, and adds that the Port Arthur forts participated with the warships in the engagement, indicating that he fight occurred near the Port.

Ordered Out by Admiral Skrydloff.

Chee Foo, Aug. 11.—The Russian squadron left Port Arthur in response to imperative orders from Vice Admiral Skrydloff. A semi-official telegram reports that the Russian battleships Pobieda and Retzivan have returned undamaged to Port Arthur. Three Japanese torpedo boat destroyers are, now outside of this harbor, watching the Russian torpedo boat destroyer Ryeshitnei, which still flies the Russian flag.

Departure of Squadron Confirmed.

St. Petersburg, Aug. 11.—The Admiralty has just received from Viceroy Alexieff a brief dispatch officially announcing the departure of the Port Arthur squadron, but gives no details.

Like Cervera's Fatal Dash.

London, Aug. 11.—The afternoon papers here today, while admitting the result of the engagement of Port Arthur is not clear, generally interpret the conflicting reports from Tokio and Chee Foo as meaning that the bulk of the Russian squadron at Port Arthur made a sortie in the hope of escaping, but that only the torpedo boat destroyer Ryeshitnei, which reached Chee Foo, succeeded in getting away. The papers recall Cervera's dash from Santiago, followed by the speedy surrender of the town and consider the sortie from Port Arthur indicates the impending fall of the fortress.

John Bull Intimidates Russian Bear.

London, Aug. 11.—In the House of Commons today, Premier Balfour, speaking on the same lines as Lord Lansdowne in the House of Lords, said he was perfectly confident that no neutral ship would again be sunk by Russians. He fully agreed in the statement that such sinking was an international outrage and the government had expressed to Russia in the clearest way possible that view.

The Russians Miscalculated.

Chee Foo, Aug. 11.—Wednesday is said to have been chosen for the escape of the Russian warships at Port Arthur, because the Japanese fleet was then exhausted by the constant bombardment of the two previous nights. Takushan Mountain, near Port Arthur, which was taken by the Japanese on Monday night, was recaptured by the Russians the next day.

Port Arthur is Doomed.

Vladivostok, Aug. 11.—The preparations are being completed here for the reception and protection of the Port Arthur squadron. The departure of

the squadron is generally interpreted to indicate that the siege of the fortress is the final stage, as a program.

Japanese Flanking Liao Yang. Liao Yang, Aug. 11.—The Japanese were active yesterday on the eastern flank of the Russian army. They retired slightly toward the south and the Russians occupied their positions. It is evident that the Japanese do not intend attempting to carry the line at Liao Yang by a frontal attack, but hope for success by flanking as at Ta Tche Kiao and Hai Cheng. A large Japanese force is reported to be moving along the coast above Yinkow.

DEATH OF JUDGE

L. S. TRIMBLE

He Was a Man of Considerable Prominence and a Leader in Democratic Councils.

Judge Lawrence S. Trimble, a member of the New Mexico Bar and during the sixties for four terms a Congressman from Kentucky, died on Tuesday at Tijeras, near Albuquerque, at the age of 80 years, the immediate cause of death being dysentery. Judge Trimble had also served as district judge in Kentucky for several years. He was a Democrat, but a strong Union adherent during the Civil War. For the past twenty-five years he was a resident of Albuquerque. Judge Trimble was unmarried and made his home in a stone house of pretentious architecture near Tijeras Canon, nine miles from Albuquerque. He had been in failing health for two years. Several brothers survive him. The funeral will take place tomorrow and the members of the Albuquerque Bar will attend.

A TWENTY YEAR OLD QUARREL

It Leads to a Shooting and to the Wounding of Two Prominent Residents of Cherry Valley, Mora County.

Thomas Lester, an old stockman, and Captain W. Brunton, both of Cherry Valley, Mora County, met this week in the post office at Shoemaker. In an argument in which Brunton called Lester a liar Brunton was knocked down. The latter drew a revolver and shot Lester in the abdomen, inflicting an injury that may prove fatal. After Lester was shot he sat upon Brunton and beat him badly. Brunton shot himself through the hand and his injuries are almost as serious as those of Lester. The dispute between the two men dates back twenty years. A stream divides their lands and the two men have been constantly at odds over the appropriation of waters from it. The day that Lester was shot, Miss Mary Brunton, the daughter of Brunton, announced her engagement to Louis J. Baer, of New York City.

HOME STUDY COURSE

The Normal University at Las Vegas Striking Out Along New Lines.

A LOW TUITION FEE

This Part of the Institution's Work Should Be Very Popular and Deserves Attention.

The demand for a good home study course in the branches taught by the Normal schools of the country some time ago aroused the attention of the Board of Regents of the New Mexico Normal University, and with a view of supplying the long felt want the school has installed a home study department with a very complete system. The home study year is from September 1 to May 31 and all courses begun within that time must be completed before the latter date. Each branch is divided into courses, a course being the unit on which all the work is based. Each course is divided into eight lessons. The completion of a home study course entitles the student to one credit in any of the regular courses in which that branch is included. For each lesson the student is sent a lesser sheet, indicating the scope of the assignment and containing questions.

and Hygiene, Pedagogy and J. Vert of the Normal University, will lecture at the normal institute now being held at Taos on the subject of "The Home Study Course."

"I DO NOT UNDERSTAND YOU NEW MEXICO PEOPLE! NONE OF YOU SHOULD BE WILLING TO ACCEPT JOINT STATEHOOD, AS YOU WILL GET SINGLE STATEHOOD JUST AS SOON AS JOINT STATEHOOD. MAKE YOUR FIGHT ON THE SINGLE STATEHOOD LINE; I WILL HELP YOU HERE AND IN WASHINGTON!" REMARKS OF AN INFLUENTIAL MEMBER OF THE DELEGATION IN CAN CON. OLDS ONE ANT PUB. TATE AND TRONG IN REPRESENTATION IN

Delegate Rodey from members of Congress are published in Territorial newspapers to the effect that if the people of this Territory do not accept joint statehood at this time, they will get nothing and it will be a generation before anything in the single statehood line will be done for the Territory of New Mexico. Thoughtful people cannot understand how men who are supposed to be as intelligent and as sensible as members of the Congress of the United States can make such assertions. Nobody at this time can possibly foresee what the political complexion of the House of Representatives, for instance, of the 60th Congress will be. It is also not possible to foreshadow much about which party will have a majority in the United States Senate after 1908. It is well understood that the National Democracy is in favor of single statehood for New Mexico and Arizona and should it go into power, such is very likely to be accorded to the two territories. It is also an established fact that there are many Republican Senators and Representatives in the present Congress who will in all human probability be in the 59th or 60th Congress, who are very friendly to New Mexico's claim for single statehood and who are ready and willing to recognize these claims at as early a time as circumstances will permit. This talk of Mr. So and So, who represents a district in Massachusetts, or of Mr. This and That who hales from the Pine Tree State, that he is sure that New Mexico cannot have single statehood for at least thirty years is so nonsensical and so far-fetched that thinking people are somewhat astonished and greatly amused at it.

There is no question in the minds of those who are well acquainted with the sentiment of the people of New Mexico and Arizona that five-sixths of them are unequivocally opposed to the present joint statehood bill and should this be passed by the next session of the present Congress, which event is not at all likely, and be submitted to the people during the coming year that the constitution for the joint state of Arizona will be overwhelmingly defeated. That this will give the single statehood cause a great set back, in fact one from which it will not recover for some years, is true. These letters prove that even grave and reverend senators and leading members of the House of Representatives get off on the wrong track and at times do not consider public questions as carefully and as thoroughly as they should. There is no doubt that a number of Republican Senators and Representatives would like this vexed and vexing matter disposed of and as they care precious little for the people of New Mexico and Arizona they naturally take the easiest way out of it and say "joint statehood or nothing." United States Senators and Representatives, however, are not at all the bulk of the population of this Territory nor of Arizona and the people here who have enjoyed a fair share of self government for many years cannot and will not be tickled into adopting the views of eastern Senators and Representatives in the statehood question.

The New Mexican admits that citizens

and newspapers of this Territory have the absolute right to take such view of the situation as they deem best and that the question is entitled to full, fair and open discussion. The pro-joint statehood arguments and speeches and articles are well known to this journal and to the voters. They have in reality and in truth very, very little to stand upon and have not been, are not and will not be accepted by the people as conclusive and as establishing the policy advocated by the joint statehood boomers as correct, as beneficial and wholesome to New Mexico and Arizona.

JUDGE PARKER'S ACCEPTANCE SPEECH.

Judge Parker's acceptance of the Democratic nomination for the Presidency reads smoothly and well but there is nothing in it that will attract public attention or that will rally to the Democratic National ticket the support of patriotic, thoughtful citizens. The Judge, as was expected, favors the gold standard, and will not look at silver if it is offered him as a gift. He talks vaguely on the reduction of the tariff and is evidently more or less of a free trader; that he favors a "tariff for revenue only" can be read plainly between the lines. He is opposed to what certain people of this country are pleased to call "imperialism" and will, if elected, stay the development of the army and navy whenever and wherever he can.

The fact that such policy by an American administration is eagerly awaited by the European nations does not seem to bother him to any great extent. There is a good deal of reform talk and considerable economy buncombe in his remarks. He demands an honest and economical administration of the public affairs of the country and in this he is right, although he does not allude to the fact that the present Republican administration is honest and economical in addition to being effective and energetic. Upon the whole, his speech will not bother the Republicans much and if his formal letter of acceptance which will be issued, is as good as his speech, the

at large outside of New York and will have to depend upon the advice in administration matters of such men as David B. Hill, is clear. His conservatism is very noticeable in his speech but it is not of a kind that recommends itself to the people of the country; it will not convince voters that he should have the administration of affairs of the greatest nation and the most rapidly growing country on earth. The day for puny conservatism in national affairs on the part of the United States of America has gone never to return. The high standing of this country in the eyes of the European monarchies must be maintained at all times, and with such a bundle of conservatism as the Judge at the head of the national affairs, this could not be done. The country is growing in every direction in which nations can expand, at a very great and gratifying rate, and the people will vote for a man to be placed in the highest office in their gift who recognizes this state of affairs and who will, whenever emergency arises, act manly, promptly and courageously to maintain and support the principles upon which this government was founded, and the administration policies of the Republican party, which have now been tried for many years, have not been found wanting and on the contrary have been proven to be the foundation as well as the keystone of the arch upon which the prosperity, advancement, progress and power of the people of the United States rest. This man is certainly not Judge Alton Brooks Parker! He is, however, Theodore Roosevelt.

SAFE DEPOSIT OF COUNTY FUNDS.

"C. V. Safford, of Santa Fe, traveling auditor for the Territory of New Mexico, was in the city Tuesday and Wednesday of last week, and called upon the county treasurer and county assessor. In speaking of the care of the county funds, Mr. Safford said that it is probable at the next meeting of the Territorial Legislature a bill will be presented which will provide for some regular and systematic method whereby the funds of the various counties in the Territory will be cared for, and in such a way that the accumulating interest will accrue to the benefit of the county and will not be a speculation in the hands of the county treasurer as is now the case in many counties in the Territory. This method is now employed for the use and care of the funds of the Territory and has proven a very remunerative one, and so would it be with the respective counties. It is a question which is of no small moment to every voter and taxpayer of the Territory, as it will prove a saving of hundreds of dollars annually to each individually."—Carlsbad Argus.

This is an important question and will no doubt receive full and favorable consideration by the 36th Legislative Assembly, which, from all appearances, will be strongly Republican and will therefore enact legisla-

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

A Massachusetts woman, Mrs. Carrie P. Harnford, of No. 69 Hale Street, Beverly, Mass., who is well known socially there, being Treasurer of the Order of the Eastern Star, wrote her experience as follows: "Your Favorite Prescription" is, without a doubt, the finest remedy on the market to-day, for female difficulties. I suffered for four years with pains every period, and I dreaded the approach of the time as I knew it meant two or three days' misery. Tried several different widely advertised remedies, and found that they did me no good whatever. One day a friend called, who had suffered as I was suffering, and who told me that she had been cured through the use of Dr. Pierce's Favorite Prescription, so I purchased a package. I found that the real value of your medicine was greater than my expectations, and the next month I had hardly any pains. The following month had none at all, and found that my general health was much better and new life and strength had come to me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

tion for the good of the people. The law establishing the office of traveling auditor passed by the Republican 35th Legislative Assembly is proving one of the very best ever enacted in New Mexico, and although but sixteen months in operation, has already saved the taxpayers and the Territory twenty times the sum of money that the maintenance of the new office costs as resulted, in a great system of insurers and Mr. Safford's conviction must be here will be under the provisions of this law, have been greater and have been more honestly administered than ever before in the history of the Territory.

The St. Louis Democratic platform contains a plank strongly favoring the direct election by the people of the United States senators. A canvass of the senators on the Democratic side of the chamber however, discloses that there is but a very small number of these honorable gentlemen willing to take their chances for re-election directly from the people. This plank in the Democratic platform is the merest trash and balderdash. Not for a generation or two will there be a change in this respect, if it comes then. Should the Democratic party by any means get into power that plank will be dropped about as quickly as one would drop a good sized red hot coal if he should accidentally get hold of it.

Bishop Potter of New York has taken a "model saloon" under his protecting wing. What is the matter with this churchman following up this line of business and doing the same thing for a "model gambling room." Model saloons and model gambling rooms would be an improvement upon many existing instances.

The Republican voters of this Territory want an early convention in order to have the issues of the campaign clearly defined. They want to know "what's what?" Chairman Hubbell is making a mistake in not heeding the popular demand in this matter. He should be hurrying home from his sheep ranch.

Tom Watson has accepted the Populist nomination for the Presidency in a brief telegram. He is to be commended for not bothering the people with a long drawn out statement of what the Populists do not want and what they do want.

The Republican factions in Wisconsin are washing their dirty linen in public. This is a poor policy as they will find out on election day in November unless they put a speedy stop to the practice.

Judge Parker has spoken, but to no great extent. What is more his speech of acceptance on Wednesday last has fallen very flat.

Judge Parker has been in office for thirty years. Being out of a salaried job for a while will do him good.

TERRITORIAL TOPICS.

OTERO COUNTY.

Special Correspondence of the New Mexican. Alamogordo, Aug. 10.—Judge Edward A. Mann, of the Sixth Judicial District, has rendered an opinion in the matter of Orson E. Clark vs. Apex Gold Mining Company et al, which was argued before him last week dismissing the bill for want of capacity shown by plaintiff to enable him to bring the suit.

This was a suit in equity brought by Orson E. Clark, as a stockholder in the Apex Gold Mining Company, for himself and such other shareholders as desired to join him, to set aside a judgment for taxes and the sale and proceeding had thereunder, on a certain property consisting of the North Homestake Mine, a mill site and a tract of coal land in Lincoln County, all alleged to be the property of the Apex Gold Mining Company, plaintiff claiming the proceedings heretofore had, to be void, and alleging fraud and collusion on the part of the majority of shareholders. The principal question involved was whether or not the plaintiff had shown himself entitled to ask for the relief he sought. After carefully considering the facts, the plaintiff's allegations and the evidence introduced, Judge Mann dismissed the case, as above noted, closing his opinion as follows: "In this case there is no attempt to connect any of the officers or directors, except Smith (the president of the company), with the alleged fraud and collusion; and the evidence, in the opinion of the court, is insufficient to establish any fraud or collusion on his part. The evidence, as a whole, seems to show that the taxes for which the property was sold were due, and a judgment obtained thereon, long prior to Mr. Smith's connection with the company; that none of the stockholders of said concern deemed the property of sufficient value to advance the money to redeem the property, or to relieve it from judgment liens, except such money as Mr. Smith himself advanced to protect his own interests. In fact, it may well be questioned whether the plaintiff could be heard to complain of the tax judgment and sale, which occurred prior to his purchase of the stock he owned, and of which he is presumed to have had notice. It follows that the court will not inquire into the validity of the judgment and subsequent proceedings thereunder, as the bill will have to be dismissed for want of capacity shown by plaintiff to enable him to bring the suit."

Judge Mann has decided to let the fall term of court in Lincoln County lapse, owing to the fact that there are not sufficient funds to hold the term. There is very little doing there on the criminal docket, and after consulting a number of the members of the bar,

it has been decided as the better plan to let the fall term lapse instead of borrowing the funds necessary to pay the expenses of a term, when there is nothing on the civil docket which requires immediate attention. In all probability, however, the Judge will urge the borrowing of sufficient funds to hold a fall term of court in Quay County, on the grounds of economy and expediency. The county has a large criminal docket to dispose of, and the expense necessary to hold these alleged criminals is so considerable as to preclude the hope of a term in the near future from the revenue of the county. It is the opinion of the Judge that this expense should be cut off as soon as possible, and in this opinion he has the support of the members of the bar at Tucumcari and a number of the business men of the county, including the chairman of the Board of Commissioners. Judge Mann expects to visit Tucumcari in the near future for the purpose of consulting with the people there and deciding the matter.

The summer term of the New Mexico Normal University, at Las Vegas, closed on July 29. President Edmund J. Vert, who was in the Capital City yesterday says that the attendance this term has been very flattering and that he prospects for the coming semester are very bright.

A man, who is not responsible for his actions, yesterday at noon stripped to a nude condition near the College Street bridge and washed his clothes in the stream. He later took a bath at that point. Nobody denies that the man needed the water, but such acts of indecency should not be tolerated, and it might be well for the city authorities to take a hand at this time.

Local thunder showers are predicted for tonight and tomorrow. Yesterday the maximum temperature was 78 degrees and the minimum 56 degrees. There was a trace of precipitation, but as far as Santa Fe is concerned the prediction of local showers is not proving true the last few days and it is getting quite dry again, although the water supply for the city is still ample.

While riding his horse in the vicinity of the Santa Fe depot last evening Milton Hall had a narrow escape from injury. The animal became frightened at some object on De Vargas Street and ran away. Near the Galisteo bridge horse and rider plunged down a steep embankment. Though badly frightened, the boy was not injured. The animal was severely scratched about the legs.

The current issue of Collier's Weekly contains a full page cut of a group of prominent Republicans who were members of the committee that called upon President Roosevelt at Sagamore Hill to notify him of his nomination as the candidate of the Republican party for the presidency. Near the center of the group is Governor M. A. Otero, who, like several others, failed in a strenuous attempt to keep his face straight in the blazing New York sun.

It was a jolly crowd of more than one hundred Santa Fe people that took advantage of the cheap rate excursion to Las Vegas this morning. The train which was made up of three coaches did not leave the local Santa Fe station until 7:35 o'clock. On account of a number of other excursions run today the company was obliged to use Colorado Midland cars. Many Santa Fe people this afternoon witnessed the contest between the Albuquerque Browns and the Las Vegas base ball team.

SIMPLE REMEDY FOR CATARRH.

Just Breathe Hyomei Four Times a Day and Be Cured.

If a few years ago some one had said you can cure catarrh by breathing air charged with a healing balsam, the idea would have been ridiculed and it remained for that eminent investigator R. T. Booth, to discover in Hyomei this method of cure.

Hyomei has performed almost miraculous cures of catarrh, and is today recognized by leading members of the medical profession as the only advertised remedy that can be relied upon to do just what it claims. The complete outfit of Hyomei costs but \$1.00 and consists of an inhaler, a medicine dropper and a bottle of Hyomei.

Breathe Hyomei through the inhaler for a few minutes four times a day and it will cure the worse case of catarrh. It soothes and heals the mucous membrane of the air passages, prevents irritation, and effects a complete and a lasting cure.

In Santa Fe there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you A. C. Ireland will refund the money you paid for Hyomei. This is the strongest evidence that can be offered as to his faith in the remedy.

ALAMOGORDO'S WOMAN ENGINEER

She Runs a Natural Ice Plant with Profit in the Cottonwood City.—An Example to Others.

Alamogordo has a woman engineer and the success she has made in running an ice plant in that city should be an incentive to build similar plants elsewhere. Five years ago Mr. and Mrs. George Carl came to Alamogordo and settled on land which was as bare and as unpromising as any of the arid land between Santa Fe and Lamy. Says the Alamogordo Journal:

"They set out shade trees and an orchard, consisting of pears, peaches, prunes, apricots, apples of various varieties, and quinces, and now they have fine, large shade trees and an orchard that bears more fruit than they use or care for. At the present time they have fine ripe peaches, and plums and white grapes. They have several varieties of grapes.

"The comfortable dwelling house, the tempting shade trees, pretty lawn, and inviting orchard form an ensemble that appeals to the admiration of the visitors.

"Mr. and Mrs. Carl have two ranches near La Luz which are well improved, both having fine fruit orchards. On one of the ranches is a small lake and this is stocked with rainbow trout which will be of usable size this fall. Some of the apple trees on their ranch bring them in as high as \$75 in one season. They have green apples almost the year round, as the apples keep late in the summer. Mr. and Mrs. Carl are fortunate in having cold storage in which to keep their fruit. Another important source of revenue to them is their ice plant of thirty ton capacity, which is equipped with the best machinery for that business. It is interesting to visit the plant and watch the ice through the freezing process until it comes out a clear, absolutely pure cake of ice. They have a good patronage and run the plant all day and half of each night.

"Mrs. Carl is herself a practical engineer and has supervision of the machinery. She has been an engineer for thirty years, having learned in girlhood. She said that her father had a large family of girls and being of practical turn of mind he taught each of them some sensible way of making a living. Mrs. Carl has run engines in saw mills and various other places. She has the honor of possessing a handsome gold medal given her by the Wolfe Machine Company of Chicago. It bears this inscription: 'Mrs. George Carl. The only lady operating a Linde Ice Machine. From Fred Wolfe & Co.'"

"Ice manufacturing plants are run with success and profit at Lordsburg, Deming, Albuquerque, Roswell, Carlsbad and smaller places in New Mexico, and those points not only enjoy ice made from absolutely pure, that is distilled, water, and at a lower price than is charged at Santa Fe for natural ice, but also ship considerable ice to surrounding places. The cost of manufacture is said to be less than fifty cents a ton, and as there is no loss by evaporation, no handling into and from storage houses, no cost of cutting or storage, and no carrying of large or dead stock, there is a good profit in the business of manufacturing ice, especially in connection with electric light or similar plants, as is done in many towns.

Taken With Cramps.

Wm. Kirnse, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Colera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus. This remedy never fails. Keep it in your home, it may save life. For sale by all druggists.

PERSECUTION OF CHRISTIAN BROTHERS

They are Released From Their Sacred Obligations in France and are Following Secular Pursuits.

A letter received from France by Rev. Brother Justin, president of the Christian Brothers' College at St. Louis, Missouri, contains the information that within four days 800 houses of the Christian Brothers' order were closed in France. The writer is a member of the order. There are in all about 1,200 houses in France conducted by from 10,000 to 12,000 Christian Brothers.

"The changes going on," said Brother Justin, "mean a great upheaval of things long established. Since the Christian Brothers are an order recognized by the government, the policy seems to be for the government to seize their property, giving a pension to such members as are old, just as a pension would be given to an old soldier, but turning out into the world those who are young and able-bodied. 'The people of France of their own accord, however, are establishing private schools, in which they ask the Christian Brothers to teach, the brothers, of course, becoming secular in order to do so. This offer is being so generally accepted that it is possible that not any of the members may leave the country. The holy father will release them from their obligations to the order, they will lay aside the habits of the Christian Brothers and will not of necessity ever return again to the rules of the order.'"

THE EL PASO AND NORTHEASTERN

New Equipment, More Men are Being Employed and Traffic Shows a Gratifying Increase.

It is understood that the El Paso and Northeastern Railway Company is now willing to take back some of the men who went out on a strike at Alamogordo several weeks ago, on account of more men being needed to handle the increasing traffic. Last week it was found necessary to put six new crews on the line and twelve new brakemen were hired. A machinist and boiler-maker were sent to Alamogordo from the El Paso shops last week and James Wafer has been sent to Tucumcari to be foreman of the Dawson shops at that point. Two more new engines have arrived at Alamogordo from the East, making eight new engines received during the past few weeks. The other twelve engines ordered are now on their way west. The new engines are equipped with slide valves instead of piston valves and have a much larger boiler head. President Eddy, who is at Alamogordo, has wired to California for General Manager Martin, who has been enjoying a vacation, which seems to indicate that there is something in the wind.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CROSS EXAMINATION.

Will Only Strengthen the Testimony of Santa Fe Citizens.

The testimony which follows will stand the test of closest investigation. Cross-examination of such evidence will strengthen it. Proof of this nature is plentiful in Santa Fe and the most skeptical can hardly doubt the claims made for "The Little Conqueror" when placed face to face with the public utterances of friends, neighbors and local citizens. Read the experience given below; it may save you many hours of future trouble:

"Lino Romero, driver of delivery wagon for Kaune and Company, residence Palace ave., says: 'Sometimes my back ached acutely, sometimes it was a dull pain just across the loins, and when in the acute stage, I have been laid up for two or three days at a time. I never took anything for it as the attacks seemed to disappear as mysteriously as they came, but when suffering from one I happened to read about Doan's Kidney Pills in a Santa Fe paper, and I went to Ireland's Pharmacy for a box. It absolutely stopped the attack.'"

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. For sale by all druggists.

A Wagon's First Cost

There are plenty of low priced wagons (mighty dear in the end), that actually look well—at first you can't see the paint-covered wood—pity, "dead," and defective axle-wood, or worse, the shoddy, rattling, loosening of spokes, the tire seats and constant repairs, that will run up to trouble you in time. All said and done, it pays to buy once for all a dependable wagon.

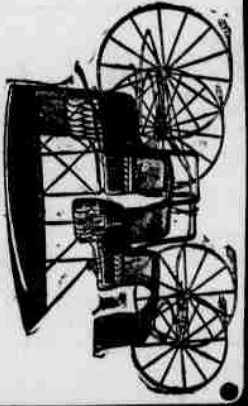

STUDEBAKER WAGONS

That is a matter of common knowledge—testified to by every man who ever built one. Built on honor by master mechanics out of the best materials, that result in longer and better service than you have a right to expect. You don't make mistakes if you pin your faith there.

Santa Fe County's assessment being less than one-half of that, and Bernalillo County's assessment over a million and a half dollars less. The assessment of Bernalillo County for this year is \$2,905,850, or \$42,000 less than last year.

Bureau of Immigration Bulletins at the World's Fair.

At the request of Superintendent M. W. Porterfield of the New Mexico exhibits at the Louisiana Purchase Exposition, the Bureau of Immigration has sent to that official for distribution at the New Mexico Building and at the several New Mexico exhibits, 20,000 bulletins, containing information concerning the resources, conditions, climate, minerals and industries of the various counties of this territory. The first shipment of 25,000 of these bulletins, which was sent to Mr. Porterfield two months ago, has been exhausted, and hence the request for the second shipment. Mr. Porterfield states that there is much demand for literature concerning New Mexico and that the bulletins go like hot buckwheat cakes on a morning in December at a breakfast of hungry people.
