NUMBER 93.

WORK OF CONGRESS.

The House Considering the River and Harbor Bill.

Senator Teller Speaks in Favor of Peace Treaty.

Investigation Commission Will Hear More Evidence on Embalmed Beef.

VOLUNTEERS MUSTERED OUT.

Washington, Feb. 1.—The house went into committee of the whole and entered upon the consideration of the river and harbor bill.

Burton, republican, of Ohio, chairman of the river and harbor committee, opened the debate with a general statement of the necessity of continuing river and harbor work. This country, he said, was entering upon an era of commercial expansion. The vast amount of our exports, as well as their excess over imports, was the greatest factor in our commercial growth. The greatest factor in our expansion was the improvement of our rivers and harbors in order to cheapen the cost of transportation. We had expended in all \$30,000,000 in river and harbor work, and the estimates upon which this bill was based aggregated \$20,000,000. The committee recommended a little over \$30,000,000.

IN THE SENATE.

In the senate, Lindsay (Ky.) offered the following joint resolution: "That the acquisition by the United States through conquest, treaty or otherwise of territory not adjacent to and geographically a part of the continent of North America carries with it no constitutional or moral obligation to admit it as a territory or any portion thereof in the federal union as a state or states. That it is against the policy, tradition and interest of the American people to admit states erected out of such non-American territories or portions thereof into our union as American states, at any time or under any conditions. That the United States except from Spain the cession of the Philippine Islands, and other islands of the Pacific, and that it is the duty of the United States to judge of such cession."

At Lindsay's request the resolution was left on the table subject to call. In accordance with notice previously given, Rawlins, of Utah, addressed the senate on the West anti-expansion resolution.

An effort was made to secure enough votes to vote to morrow on Bacon and other resolutions.

Carter (Mont.) objected unless the vote could take place after Spooner (Wis.) addressed the senate.

A 2 o'clock session went into executive session to consider the peace treaty. Senator Rawlins said: "This country has been one of growth in population from three to seventy-five millions; in territory from the shores of the Atlantic, across the continent and out to the swelling waters of the Pacific. Millions of homes of our sturdy, patriotic people, and magnificent cities have been the fruits of our expansion. Territorial expansion with commensurate extension of constitutional freedom is twice blessed; it blesses them who give and them who receive."

He suggested the possibility that the name of the United States of America may be changed to United States of America and Kingdom of America and Asia. Rawlins discussed the extent of the power of the government under the constitution to acquire, hold and govern territory. Mainly such power must be exercised to the subverted objects and purposes for which the government is created.

In executive session Teller took the floor in support of the ratification of the peace treaty. He replied to many objections to the treaty, urged favorable action as the only wise and safe course for the country under existing circumstances.

THE COLD WAVE.

Moderate in the Central States, but colder in the Northwest.

Chicago, Feb. 1.—The cold wave has moderated somewhat in the central states, but another cold wave appeared in the northwest, where it caused an additional fall in temperature. Williston, N. D., reports 20 below zero. Exceptionally cold weather prevails in nearly all sections of the country.

COLD IN PENNSYLVANIA.

Pittsburg, Feb. 1.—This was the coldest day of the winter, the mercury dropping to zero in this city, while surrounding towns registered 5 to 15 below. At Van Wert, James Fryer was found frozen to death. He had fallen and broken his leg.

BOOM IN MEXICO.

Volume of Business Transacted in Colorado Unprecedented.

Colorado Springs, Colo., Feb. 1.—For the first time in the history of the Colorado Springs mining market the business on the local exchange was suspended for a day to allow the clearing house to catch up with its work. The volume of business being transacted here is unprecedented. Excitement runs high and the present year gives promise of being the most notable in the history of the Cripple Creek gold camp.

THE PEACE TREATY.

Declaratory Resolutions to Be Voted Upon by the Senate.

Washington, Feb. 1.—The senate committee on foreign relations to-day discussed the various declaratory resolutions.

THE LEGISLATURE.

Council Passes Bill Encouraging Libraries and Parks.

Bill Introduced Refunding Bonded Debt at 4 Per Cent.

Amendments to Salary Bill, Reducing Expenses, Are Adopted.

IRRIGATION BILL DEBATED.

Special to The Citizen.

Santa Fe, N. M., Feb. 1.—The council passed a bill encouraging libraries and parks in cities, introduced by Hughes.

The house debated the irrigation bill all morning.

Both houses adjourned at noon till tomorrow morning.

Mr. Bursum introduced a bill No. 58, providing for the refunding of the bonded indebtedness of the territory. It provides that the bonds of the territory shall be refunded at 4 per cent.

Mr. Martinez introduced a bill relating to corporations, and providing for filing certificates of such corporations.

The bill largely increases the cost of organization of corporate companies.

Mr. Martinez introduced a bill relating to printing of proceedings of county commissioners.

Mr. Richardson introduced a bill relating to the county of Luna, with the town of Hialeah as the county seat. There is much opposition to this bill and it may not pass.

Mr. Hughes introduced a bill providing for the registration of voters and authorizing the probate clerks to keep a record of the voters of the county.

Committee on education reported that council resolution No. 6 do not pass. This referred to purchasing a typewriter for the territorial superintendent of education.

The council adopted the report and laid the resolution on the table indefinitely.

Mr. Bursum introduced a bill relating to irrigation from small streams.

This afternoon the council is inspecting the deaf and dumb asylum.

The bill providing for the occupancy of the territorial capital building by territorial officers immediately after the completion of the edifice, passed the house.

The amendments to the bill fixing the salaries of probate judges, county commissioners and county superintendents of schools, reduced the amounts provided to \$150 for county clerk and \$125 for fourth class counties, in the case of probate judges; \$160 in counties of the third class, and \$180 in counties of the fourth class for county commissioners; and \$100 in counties of the first, second and third classes and \$150 in counties of the fourth class for county superintendents of schools.

The petition of the citizens of Albuquerque relative to bridges for counties of the first class was recommended by the committee on roads and highways. The report was adopted and the resolution passed.

John R. Giver introduced a bill in the house to provide for amending the compiled laws relative to the office of territorial librarian. Salary placed at \$75 per month. Must have good knowledge of both English and Spanish.

Hon. W. H. Llewellyn introduced H. R. No. 41, to designate the legal status of the papers for the publication of legal notices in the territory. A paper not to be a legal newspaper until it has been running 104 days and has a circulation of 300.

House joint resolution No. 4, introduced this morning, provides for the publication of 5,000 copies of the report of the superintendent of public instruction.

Death of an Old Lady.

Cubero, N. M., Feb. 1.—Mrs. Petra Montano de Pino, widow of Don Pablo Montano, died here last night. Deceased was about 90 years old. She leaves a large number of grandchildren and relatives to mourn her death. Remains will be buried at Cubero to-morrow, February 2. All relatives and friends are invited to attend the funeral.

THE WALTER C. HADLEY.

Citizenship Laboratory of the University of New Mexico.

Hon. Walter C. Hadley, who for many years was prominent in the territory of New Mexico, was an illustration of the proverb that a good name is rather to be desired than great riches.

Mr. Hadley, after long and careful consideration, had decided to make his territory a most generous and magnificent donation in memory of her husband, having been assured that the impetus so given would result in the realization of the wishes of Mr. Hadley's admirers.

The form which this donation takes is prompted, in part, by the personal interest of Mr. Hadley, who, while not a professional scientist, was a widely read and progressive student of modern practical science. He was also a man of affairs and had deeply studied conditions in New Mexico. He realized from observation and his own experiences the fact that the territory of New Mexico is in the heating effects of its climate, and before many others, the relation between germs and the diseases caused by them.

He realized that this territory must protect itself and the precious germ of humanity afforded by its unsurpassed climate.

It is Mrs. Hadley's belief that in no way could the same amount of money do so much for the territory and the world as by equipping an institution for the practical study of the climate and curative agencies of this region in all their complex relations to disease. This work has been inaugurated in a small way at the University, but has been hampered for lack of equipment and means. Mrs. Hadley has quietly studied the present condition of an institution at the University, and has expressed her satisfaction with the results as compared with schools in the east, and has wondered that there was so little apparent appreciation of the advantages given gratis to our youth—advantages which she had been accustomed to pay dearly for in Philadelphia. It may be truthfully said that the present faculty of the university is well able to inaugurate and carry on the proposed work. She has therefore made the proposition

MUNICIPAL SQUABBLE.

Charges of Crookedness Against Omaha City Officials.

Germany Will Investigate Conduct of her Agents in Samoa.

Threats of Lynching Against a Murderer in Jail at Wickenburg, Ariz.

KANSAS CONVICTS ESCAPE.

Omaha, Feb. 1.—Omaha city business may soon have to be transacted from the jail, inasmuch as a solution is found for the tangled web of litigation and charges of crookedness now being investigated.

Some time ago Police Judge Jordan sentenced Police Captain Iler to jail for contempt. The case is now pending on appeal. As he threatens to order the arrest of City Attorney Connell, unless the papers in the hands of the city attorney, which the judge asserts belong to the police court records, are returned.

The city council is debating the question of bringing impeachment charges against Police Judge Jordan, and probably will do so unless the legislature can be induced to legislate him out of office.

The board of education is investigating charges of corruption in connection with the American Book company's contract for furnishing geography to the public schools, and the city council is also laboring with the charges made by the city engineer that a ring within that body is running city affairs for its own pocket and pecuniary benefit.

The clash between Judge Scott and the ex-board is likely to land that body in jail for contempt of court for refusing to comply with the court order. Impeachment charges against Judge Scott have been filed with the legislature and finally yet warrants proceedings have been instituted by ex-Mayor Branch to order Mayor Moore. The arrest is still pending in the supreme court.

The result of the dissemination of accurate information of this kind, especially among physicians, will be to avert the flood of hopeless invalids who are leaving comfortable homes to become a burden to themselves and others and will bring in this region the very large number who may hope for restoration to health and usefulness.

C. L. HERRICK, President of the University.

The undersigned have been requested to act as a committee for the purpose of securing the necessary additions to Mrs. Hadley's donation in order to carry out its object. We feel authorized to say that as soon as the amount specified as required for building purposes is subscribed, the necessary steps will be taken towards early construction unless it should then appear certain that the additional sum for equipment cannot be had.

We will gladly give any further information which may be desired unless it be of a technical scientific character as to which inquirers should call on Professor Herrick.

All communications and subscriptions should be sent to the secretary, Mr. Whitling.

MARLANO S. OTEHO, Secretary.

Calvin Whiting, Secretary.

Garule Arrested.

Deputy Sheriff Salazar found Tomas Garule at the house of Cesare Grande this morning and notified Sheriff New.

John R. Giver introduced a bill in the house to provide for amending the compiled laws relative to the office of territorial librarian. Salary placed at \$75 per month. Must have good knowledge of both English and Spanish.

Hon. W. H. Llewellyn introduced H. R. No. 41, to designate the legal status of the papers for the publication of legal notices in the territory. A paper not to be a legal newspaper until it has been running 104 days and has a circulation of 300.

House joint resolution No. 4, introduced this morning, provides for the publication of 5,000 copies of the report of the superintendent of public instruction.

THE WALTER C. HADLEY.

Citizenship Laboratory of the University of New Mexico.

Hon. Walter C. Hadley, who for many years was prominent in the territory of New Mexico, was an illustration of the proverb that a good name is rather to be desired than great riches.

Mr. Hadley, after long and careful consideration, had decided to make his territory a most generous and magnificent donation in memory of her husband, having been assured that the impetus so given would result in the realization of the wishes of Mr. Hadley's admirers.

The form which this donation takes is prompted, in part, by the personal interest of Mr. Hadley, who, while not a professional scientist, was a widely read and progressive student of modern practical science. He was also a man of affairs and had deeply studied conditions in New Mexico. He realized from observation and his own experiences the fact that the territory of New Mexico is in the heating effects of its climate, and before many others, the relation between germs and the diseases caused by them.

He realized that this territory must protect itself and the precious germ of humanity afforded by its unsurpassed climate.

It is Mrs. Hadley's belief that in no way could the same amount of money do so much for the territory and the world as by equipping an institution for the practical study of the climate and curative agencies of this region in all their complex relations to disease. This work has been inaugurated in a small way at the University, but has been hampered for lack of equipment and means. Mrs. Hadley has quietly studied the present condition of an institution at the University, and has expressed her satisfaction with the results as compared with schools in the east, and has wondered that there was so little apparent appreciation of the advantages given gratis to our youth—advantages which she had been accustomed to pay dearly for in Philadelphia. It may be truthfully said that the present faculty of the university is well able to inaugurate and carry on the proposed work. She has therefore made the proposition

to supply \$10,000 to ward the erection of a suitable building for the university to be used for the scientific study of biological, chemical, physical and physiological problems relating to the health-giving climate of the New Mexican plateau. The building will also serve to supply laboratory facilities for scientific instruction in the regular work of the university. It will be the greatest possible boon to the institution and will carry its fame and that of the territory to the ends of the earth.

This princely donation is only contingent upon the generous cooperation of those who may feel an interest in such subjects. It should be possible to raise an additional ten thousand dollars, which would be added to the building fund and used for equipment. There seems to be no reasonable doubt that this result will be obtained and that in a few years the building in America for this important work. The United States government has recognized the importance of this subject, and it is expected that there soon will be established a bureau of climatology, with which and other important institutions for this research, the Hadley laboratory will be in constant communication.

The results to be obtained by scientific study of the air, water, soil, climate, bacteria, changes in blood, conditions of gain and effect of medication, are too obvious and too great to require comment. The advantages to result from a few years of study in connection with the state university appeal to all, and the most selfish as well as the most philanthropic motives unite in promoting an enterprise which may well be the beginning of better days to the cause of education in this west.

It may be added that in spite of a very general interest in the matter of climatic treatment of disease, and a universal recognition of its efficiency, up to this time there has been hardly anything done in this direction of a systematic and accurate character anywhere in the world, and the Hadley laboratory when established, will mark the beginning of a new scientific movement and set an example which will be followed in other countries.

The result of the dissemination of accurate information of this kind, especially among physicians, will be to avert the flood of hopeless invalids who are leaving comfortable homes to become a burden to themselves and others and will bring in this region the very large number who may hope for restoration to health and usefulness.

C. L. HERRICK, President of the University.

ALBUQUERQUE, — FEB. 1, 1920

REPORTS from the money centers of the east continue to be of the most encouraging nature. It has been many years since money has been so actively seeking legitimate investment.

MARSHALL BIRD, first of the Rough Riders to be hurt, was thrown from his horse at San Antonio, Texas, and had his head crushed, he being incapacitated for work.

EDWARD P. NOYES, son of ex-Governor Noyes of Ohio, died from consumption at Mesilla Park, Dona Ana county, the other day. He was born in Cincinnati, and was 33 years of age. His remains were taken to El Paso and from there shipped to Ohio.

FOLLOWING are instances of the similarity of names and occupations which have come under the writer's observation, say an exchange: A brakeman by the name of Drawbar, a gardener by the name of Drawbar, a baker named Drybread, and a saloon ad. read "Rock beer at Beerhook's."

THE OPTIC is after the Associated Press agent at Denver, and says: "If the Associated Press agent at Denver doesn't mend his ways and treat the daily papers of New Mexico with that consideration which they have a right to expect, and which they pay well for, he may hear something drop. A word to the wise, etc."

A DISPATCH from San Francisco gives the news that an unusually warm wave has been hovering over California for several days past, and fears are entertained for the fruit crop, as the season will be pushed to such an extent that grain and fruit will commence to show in advance of the season and will thereby suffer from the almost inevitable frosts of February and March.

MAYOR J. C. ADAMS has resigned as the chief executive of the city of Phoenix, Arizona, and Councilman C. J. Dyer has been temporarily chosen to fill the vacancy. Resolutions of regret were passed by the city council. The reason given by the mayor for his resignation is a pressure of private business, but it is said that Adams was deeply offended by the refusal of the taxpayers last Thursday to vote the issue of bonds for municipal water works and sewerage system.

"A DEFICIT in the German beet sugar crop of at least 250,000 tons is figured upon by United States Consul Dietrich at Magdeburg," says a Washington dispatch. He said the backward season resulted in a small deficiency. A number of manufacturers sold fully one-half of their last year's product before they realized that there would be a shortage in material, at very low prices, and the end of November found a number of factories closing on account of difficulty in getting beet."

SENATOR G. A. RICHARDSON has a bill in the council for good roads, and it provides that hereafter all persons subject to road tax shall be required to do three days' work on the roads in their respective precincts or in lieu thereof to pay \$3 in currency. The law requires the work shall be under the supervision of road supervisors appointed by the county commissioners, but in incorporated cities or towns the work and tax required shall be expended for street improvement under the supervision of the mayor.

ACTIVE preparations are being made to begin work at the Crown Point gold mine, Prescott, Arizona, where a camp mill is being installed. This camp mill will be unique in that it will be a Rough Riders camp. The property belongs to Alexander O. Brodie, late lieutenant colonel of Roosevelt's regiment. Before leaving for the east recently Col. Brodie instructed his superintendent to hire every man from the regiment who applied. If there was no work for him the superintendent must find some. The mine is a rich one.

A BILL BY FERGUSON.
Delegate Ferguson has introduced the following bill in congress to appropriate certain money to pay fees and expenses of transferring certain lands to the territory of New Mexico:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the sum of \$20,000, or so much thereof as may be necessary, is hereby appropriated, out of any funds in the treasury of the United States not otherwise appropriated, to be used under the authority of the secretary of the interior in the payment of the legal fees and expenses in the selection, segregation, and transfer to the territory of New Mexico lands granted to the said territory under act of congress, approved June 24, 1906, entitled, "An act to make certain grants of land to the territory of New Mexico, and for other purposes."

Sec. 2. That this act shall take effect from and after its approval.

PROBATE CLERK REMOVED.
Gov. Otero has removed Manuel M. Salazar as probate clerk of Colfax county, and has appointed A. L. Hobbs as his successor. The following extracts of the order of removal are here reproduced:

Whereas, by the certificate of Hon. Geo. H. Wallace, secretary of the territory of New Mexico, it is shown that said probate clerk and ex-officio recorder, Manuel M. Salazar, had neglected to certify the returns of the election, as prescribed by said chapter VI. of the laws of 1907, to that effect, together with the certified copy of the order of the said county commissioners, and a sworn certificate thereof as is required by the law governing such cases, has been presented to me;

Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, by virtue of the authority in me vested, and in pursuance of chapter 6, of the laws of New Mexico, 1907, do hereby appoint A. L. Hobbs, of the county of Colfax, and territory aforesaid, as his successor; said appointment to take effect from this date.

"ON TO ALBUQUERQUE."
THE CITIZEN has an along contention that the first new railroad to reach the "Queen City of the Rio Grande" would be one from some point down in Texas, and only a short time ago announced, with some authority, that the projected line from Fort Worth to Albuquerque was again being agitated, and that the prospects were exceedingly bright for work to be commenced on this line at no distant day. The following special dispatch to the Globe-Democrat from Fort Worth, on this cheering subject, substantiates in a quiet way our prophecy of a few months ago:

Fort Worth, Tex., Jan. 28.—Mayor B. B. Paddock, who has been in London for the past three months, is expected home soon. He went there for the purpose of making plans sufficient to resume the construction of a railway line from Fort Worth to Albuquerque, N. M.—a road projected several years ago and never completed. The line was graded from this city for many miles. It is understood that Mr. Paddock met with encouragement in interesting capital in the enterprise.

The road recently built by Wichita Falls capitalists from that city to Henrietta and leased to the Missouri, Kansas & Texas, is paying handsome profits. The same capitalists will soon begin another road to extend from Wichita Falls to Oklahoma, a distance of about 275 miles.

THE PEOPLE of Cerrillos are feeling well these days. In a number of the silver lead claims north of the town, the work recently done shows ore that says better than ever before and is of a special value on account of smelting qualities. It will pay to ship to Pueblo, but is being kept for the present to see when the local smelter will start. In addition to this there is a fair prospect of a large plant being established there before the summer, which will be of great benefit. The latter project is not yet public, but we hope soon to give particulars.

THE annual passes issued by the Santa Fe, Prescott & Phoenix Railroad company are very neat and attractive and carefully designed. On one corner is a bunch of oranges, embossed and colored the rich hue of the orange. On another place is a miner at underground work and close to him is inscribed: "Silver, gold and copper," each in their respective colors. Otherwise the engraving carries with it the work of an expert, and those who have been fortunate enough to receive them at this point take great pleasure in showing them to their friends.

An exchange says it takes a rich man to draw a check, a pretty girl to draw attention, a horse to draw a cart, a porcupine to draw the skin, a toper to draw a cork, a free lunch to draw a crowd and an advertisement in your home paper to draw trade.

While it is true that we don't intend to carry any more winter goods, if low prices will move them, because we need room for our spring stock, we have an important reason, and that is we need money wherewith to buy spring goods and we are willing to cut prices down to get rid of all winter goods. Simon Stern, the Railroad Avenue clothing store.

No healthy person need fear any dangerous consequences from an attack of grippe if properly treated. It is much easier to cure a cold than a grippe, and precisely the same treatment. Remain quietly at home and take Chamberlain's Cough Remedy as directed for a severe cold, and you will be cured. For sale by all druggists.

CHRISTIAN REDEEMER ANNIVERSARY.
The eighteenth anniversary of the founding of the Christian Redeemer movement was celebrated Sunday in this city by the society at the penitentiary at 2 p. m., and by the society in the Presbyterian church at 3:30 p. m., says the New Mexican.

At the prison the convicts who participated showed an earnest spirit in the work, the leadership by Mr. Davis was very good, and the address in Spanish by Mr. Torres, whose term expires in April, was excellent. He spoke with a good deal of feeling, and his fellow-prisoners were much interested in his remarks.

Later at the Presbyterian church, there was a well attended meeting, which was addressed by the pastor, Rev. W. H. Moore, and by Judge McElie, the remarks of these gentlemen being of the most interesting and instructive nature. Mrs. J. E. Wood reported the proceedings of the Las Vegas convention, Mrs. McDuff and Miss Blaine sang a duet and there were other and entertaining exercises. The local societies of the Christian Redeemer scattered over the world, now number over 52,000, including over 3,000, 600 people.

Not in Our Line, But—
We have just received on consignment by a noted peddler out in Arizona a collection of Indian rugs and blankets, which we believe to be the most artistic ever exhibited here, prices, \$4 to \$10. Inspection invited. Simon Stern, the Railroad Avenue clothing store.

Visit the new store of the Golden Rule Dry Goods company, open for business Monday morning, January 23. A visit is respectfully solicited.

THE LEGISLATURE

HOUSE—MONDAY MORNING, JAN. 28.
House met pursuant to adjournment, with the speaker in the chair. Prayer by Rev. Gay. Mr. Crespin was excused on account of sickness.

A memorial from the Horticultural society of New Mexico was received. Referred to committee on agriculture and committee on education.

Mr. McIntosh, chairman of the committee on roads and highways, made the following report:

"Mr. Speaker—Your committee on roads and highways, to whom was referred H. B. No. 25, have had the same under consideration, and I am directed to report the said bill to the house with the recommendation that it be laid on the table indefinitely. A. D. McIntosh, chairman."

Under the order of introduction of bills, the following were introduced:

H. B. No. 28, introduced by Celso J. Jara, "An act for the selection of jurors."

H. B. No. 29, introduced by J. P. Barnes, "An act to complete and furnish the New Mexico Normal school at Silver City and to provide for the maintenance of said school." Referred to committee on education.

H. B. No. 30, introduced by Pablo Trojillo, "An act to provide for the payment of certain military and other documents and papers pertaining to the volunteer militia and regular army service of the territory of New Mexico." Referred to committee on finance.

H. B. No. 31, introduced by J. H. Wharton, "An act in relation to brands." Referred to committee on stock raising.

H. B. No. 32, introduced by W. H. Llewellyn, "An act for the purpose of regulating taxation upon the territorial and county bonds." Referred to the committee on judiciary.

H. B. No. 33, introduced by W. H. Llewellyn, "An act prescribing certain duties of all physicians in New Mexico, and for other purposes." Referred to the committee on judiciary.

H. B. No. 34, introduced by W. H. Llewellyn, "An act to prevent animals running loose in the streets of the towns and cities of the territory of New Mexico." Referred to the committee on municipal corporations.

H. B. No. 35, introduced by W. H. Llewellyn, "An act to provide for a constitutional convention and formation of the state convention, and for other purposes." Referred to committee on judiciary.

H. B. No. 36, introduced by W. H. Llewellyn, "An act relating to amendments in pleadings and other matters in district courts." Referred to committee on judiciary.

Under order of business on speaker's table the following was taken up for consideration:

C. B. No. 13, entitled "An act in reference to recognition of bonds, stipulations required by the laws of New Mexico and for other purposes." Referred to committee on judiciary.

C. B. No. 32, "An act to amend section 34.1 of the compiled laws of 1907, and for other purposes." Referred to committee on judiciary.

H. B. No. 23, "An act to repeal chapter 44 of the compiled laws of 1907, and to revise the portions of chapter 44, of the compiled laws of 1907, and for other purposes." Referred to committee on judiciary.

C. B. No. 30, "An act to provide the necessary funds to complete and furnish the territorial capital at Santa Fe, and to lay out the grounds thereof, and for other purposes." Referred to committee on finance.

Substitute for C. B. No. 11, "An act entitled, 'An act to encourage industrial development in the territory of New Mexico.'" Referred to the committee on agriculture and manufactures.

C. B. No. 36, "An act to amend section 11 of chapter 50 of the laws of 1907." Referred to the committee on judiciary.

Under the head of unfinished business, H. B. No. 37, introduced by Veneciano Jaramilla, "An act relative to obstructions in public districts in New Mexico," was taken up. Referred to the committee on irrigation.

A message from the executive was announced, informing this honorable body that he had signed C. B. No. 10, C. B. No. 9, C. B. No. 3 and C. B. No. 5, and that they have become laws.

By request of Mr. Llewellyn, Mr. Sanchez was excused on account of sickness. The motion of Mr. Llewellyn to the house took a recess until 3 p. m.

COUNCIL—TUESDAY MORNING, JAN. 28.
Council met pursuant to adjournment with the president in the chair; all members present. Prayer by the chaplain, Rev. J. L. Gay.

A message from the house announced that it had passed substitute for H. B. No. 29, entitled, "An act to protect property from loss by abandonment." Also H. B. No. 28, entitled, "An act to amend section 34.1 of the compiled laws of 1907 with reference to the school of Mines."

Mr. Richardson introduced C. B. No. 58, entitled, "An act to provide for the refunding of the bonded indebtedness of the territory of New Mexico, counties and municipalities." Referred to the committee on finance.

Mr. Martinez, by request, introduced C. B. No. 30, entitled, "An act to amend sections 411 and 443 of the compiled laws of 1907 and to otherwise modify the existing statutes in reference to corporations." Referred to the committee on municipal and private corporations.

Mr. Valdez, by request, introduced C. B. No. 61, page 283 of the revised statutes, in reference to boards of county commissioners' read by title. Referred to the committee on judiciary.

Mr. Richardson introduced C. B. No. 61, entitled, "An act to dispose of the property of seals and scrolls on deeds, bonds, releases and other legal documents and to cure defective acknowledgments." Referred to the committee on judiciary.

Mr. Richardson introduced C. B. No. 61, entitled, "An act creating the office of registrar of voters, and for other purposes." Referred to the committee on judiciary.

Mr. Burns, by unanimous consent, introduced the following report:

"Mr. President—Your committee on education, to whom was referred C. B. No. 6, have had the same under consideration, and I am directed to report the said bill to the house with the recommendation that it do not pass."

T. D. BROWN, Chairman.

Business on the speaker's table being in order, C. J. Jara, who proposed the furnishing of a typewriter in the office of the superintendent of public instruction, came up.

On motion of Mr. Pinal the joint resolution was laid upon the table indefinitely.

Mr. Martinez moved an amendment that the report of the committee be laid upon the table indefinitely. The amendment was lost, and the question recurring upon the motion of Mr. Duncan, the motion prevailed.

On motion of Mr. Pinal the joint resolution was laid upon the table indefinitely.

H. B. No. 26, entitled "An act amending chapter 44 of the compiled laws of 1907, with reference to awards made by the School of Mines," was read by title.

In Pain?

In the Back?
In the Chest?
In the Lungs?
In the Joints?

Then probably the kidneys.
No matter where it is, nor what kind; you need have it no longer. It may be an hour, a day, or a year old; it must yield to

Dr. Ayer's Cherry Pectoral Plaster

Immediately after applying it you feel its soothing, warming, strengthening power. It is quite congenial; draws out inflammation.

It is a new plaster.

A new combination of new remedies, after years of study and experiment. Entirely unlike any other plaster.

The Triumph of Modern Medical Science.

The Perfection of Modern Medical Science.

Placed over the chest it is a powerful agent in the treatment of all throat and lung affections.

Placed over the stomach, it stops nausea and vomiting, over the bowels, it controls cramps and colic.

Placed over the small of the back, it removes all congestion from the kidneys and greatly strengthens weakness.

Notaries Public Appointed.

Governor Otero has appointed the following named notaries public in and for their respective counties:

K. A. Miera, Cuba, and William B. Johnson, Albuquerque, Bernalillo county; Arthur Stab, Santa Fe, Santa Fe county; Elmer H. Lindsey, White Oaks, Lincoln county.

Can Cubans Govern Themselves?

One of the best known diplomats recently declared that the Cubans are incapable of governing themselves, and that the United States must maintain the present control of the island.

There will be those who will dispute this, but there are none who dispute the well established fact that Hostetler's stomach is capable of controlling the common disorder of the stomach.

It is a remedy that is backed by fifty years of success. It is an ideal medicine for constipation, indigestion, flatulence, and for nervousness it is a wonderful benefit. As an appetizer it is incomparable. Those whose stomachs are out of order should not fail to try a bottle.

La Grippe Successfully Treated.

"I have just recovered from the second attack of grippe this year," says Mr. James A. Jones, publisher of the leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being laid up for a few days. The second attack I am satisfied would have been equally as bad as the first but for the use of Chamberlain's Cough Remedy, and I feel in about six hours after being struck with it, while in the first case I was able to attend to business about two days before getting down." For sale by all druggists.

Keep Your Eyes on New Mexico.

New Mexico is evidently "waking up" to the immense possibilities of its mining resources. The news from the camps in that territory must convince the most conservative reader that a new era is at hand, in which Colorado machinery and Colorado metallurgy and capital play the leading roles, with St. Louis and San Francisco good seconds. Persons with an eye on mining investments will do well to "keep close" on New Mexico. It is a great mineral country, and the news is its product.—Denver News.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can cure himself of malaria, fever, chills, and all the other troubles that come from a malarial fever, by taking Chamberlain's Cough Remedy. This medicine cleanses the blood system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures Constipation, Headache, Fainting Spells, Stomach Troubles, and all the other troubles that come from a malarial fever. Every bottle guaranteed. Only 50c a bottle at J. H. O'Reilly & Co's Drug Store.

J. Korber & Co., have just finished repairing the city sprinkler, which is now in excellent condition. The work of sprinkling the streets will be commenced on Monday.

J. H. Hutchinson has been appointed roadmaster on the Santa Fe Pacific railroad out of this city.

Like a Blister

Dreadful Eruptions on Her Skin and Body

Great Suffering Relieved by Hood's Sarsaparilla.

"My little daughter suffered terribly with eruptions on the skin and body which looked as though blistered. I have been giving her Hood's Sarsaparilla and she has taken several bottles and is now almost entirely cured. We were told that we would need a change of climate, but Hood's Sarsaparilla has made it unnecessary." J. T. FREEMAN, Ft. Wingate, N. M.

"I have been suffering with sores on my face. I was unable to sleep and had no appetite. I began taking Hood's Sarsaparilla and after I had used two bottles I felt like a different man. The sores disappeared, my appetite increased and I can now sleep soundly." HENRY REICHERS, Georgetown, New Mexico.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guarantee of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not grip or nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CALIF.
LOS ANGELES, CALIF.

NEW MEXICO HORTICULTURAL SOCIETY.

Resolutions Adopted at the Meeting Held Last Saturday Night.

At a meeting of the New Mexico Horticultural Society, held at Santa Fe on Saturday evening, the following resolutions were unanimously adopted as a memorial to the legislature, and the president was authorized to appoint a committee of five to assist in carrying out the intention of the resolutions.

Resolved, That the Horticultural Society of New Mexico, representing the rapidly increasing fruit growing industry in the territory, respectfully requests the legislature, now in session, the enactment of laws for the following purposes:

1. To encourage the creation of establishments for the preserving of fruits in various forms, by granting the same exemption from taxation now accorded to fruit canneries, and to the establishment of a state fruit cannery.
2. To provide for the suppression and extermination of the codling moth and all other insect pests injurious to fruit and fruit trees.
3. To provide for the protection of orchards and vineyards from damage by animals running at large.

The Ravages of Grip.
That modern grip, or grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure protection against this dangerous malady in Dr. King's New Discovery. When you feel a soreness in your bones and muscles, have chills and fever, with sore throat, pain in the back of the head, catarrhal symptoms and a stubborn cough you may know you have the grip, and that you need Dr. King's New Discovery. It will promptly cure the most worst case, heal the inflamed membranes, kill the disease germs and prevent the dreaded after effects of the malady. Price, 50 cents and \$1. Money back if it does not cure you. A trial bottle free at J. H. O'Reilly & Co.'s drug store.

LAS VEGAS.

From the Optic.
First Sergeant Ed. Spierdier writes from Camp Churchillman that the territorial boys will probably be mustered out on February 10. Sergeant Spierdier will likely make a trip to Cuba before returning home.

Geo. Johnson, aged about 21 years, son of Mr. Johnson who owns a big ranch in Cherry Valley, died on Friday last of emphysema. There are said to be quite a number of cases of emphysema in that part of the county.

J. D. W. Veeder left for Santa Fe to appear in behalf of the former members of the board of commissioners of San Miguel county in the suit to recover \$30,000, alleged irregular use of public money, which suit was brought by E. L. Bartlett, solicitor general, in the name of the territory, just prior to the last election. The case comes on for hearing before District Judge McFie. In view of the fact that the county commissioners acted under positive and direct peremptory orders from the district court of this district considerable interest attaches to the result of this proceeding at Santa Fe.

Ex-Surveyor General E. F. Hobart, now register of the United States land office at Santa Fe, spent morning forenoon in town and sold 100 acres of his late tract on the Mora road, two miles north of Las Vegas, to Mark Dietrich, the second land goods dealer. Mr. Dietrich will build a home there and extensively improve the place. The irrigation farm colony out that way is flourishing, and Mr. Dietrich's purchase adds to its strength. Gen. Hobart incidentally referred in his conversation to the San Juan grant. He said he considered it a straight out, bona fide allotment under the Nevada, with the approval of the then governor of New Mexico.

Ben. Rife, the general merchant of Laguna, is in the city today, buying goods.

IN THE GRANT BLOCK.

Three Splendid Stores Are Now Doing Business There.

OCCUPANTS OF OFFICES.

The different business houses which are to occupy the ground floor of the magnificent Grant block have moved in and are now prepared to do business at the new stand and it will not be long before the corner of Third street and Railroad avenue is one of the great trade centers of the territory.

GOLDEN RULE DRY GOODS COMPANY.
The Golden Rule Dry Goods company occupies the two corner stores. J. A. Weisman, the manager for the company, is an enthusiastic believer in expansion and he has demonstrated his faith in the principle by his works. The store was first opened in this city fourteen years ago on the corner of Railroad avenue and Second street, when it consisted of eight departments, presided over by three clerks. The store soon won the favor of the public and the trade increased so rapidly that it was found necessary to move into the larger quarters on the corner of Railroad avenue and Fourth street. The business of the firm continued to flourish and last fall Mr. Weisman decided that it was advisable to move into the "more stately mansions," which are now occupied by the company. The store now consists of twenty-six departments and eighteen clerks and gentlemen clerks to look after the wants of the customers. The immense stock of goods carried by this firm has nearly all been put in place and shelves already present a well-filled appearance. The main show window of the store on Railroad avenue has been decorated in a beautiful and artistic manner by J. W. Prastel, who is a true artist in this line of the decorator's art.

An assortment of handsome ladies' dress goods, of varied colors, are displayed. And in the evening, when the numerous electric lights shed a lustre over the whole, the scene presented is a brilliant one indeed. The remaining windows will be fitted up at once, when the store will present an outward appearance to passers-by, which can hardly fail to attract attention and call forth praise.

The store is daily receiving the goods, which Mr. Weisman ordered on his last trip to New York and that gentleman expects to leave for eastern cities in a few days to order a stock of spring goods for the store.

MAY & FAIRBANK.
May & Fairbank, the proprietors of the only store in New Mexico that deals exclusively in carpets and household goods, occupy the store immediately adjoining the Golden Rule Dry Goods company.

This store has a skylight 5 by 12 feet, which is the largest in the city, and it is accordingly very well lighted. The new shelving and the nicely waxed floor give the store a neat appearance. It is undoubtedly the finest carpet store in the west, and the stock of carpets and household goods carried is large and varied.

The two show windows of the store are fitted up in a tasty and attractive manner. The east window shows a display of three-quarter carpets, comprising all the latest spring designs and colorings, including moquette, velvets, wools, Brussels and tapestries. Some beautiful mounted skins add to the richness and magnificence of this display. In the west window some large and costly Axminster rugs form a splendid background for an assortment of portieres, cushions and rugs. The group of electric lights in each window is supplied with a reflector, which throws the entire flood of light on the goods beneath and thus shows them off to good advantage at night.

Albert Faber and Charles May, the two members of this firm, are enterprising and sterling young business men, whose ambition is to succeed by honorable business methods, and their customers can depend upon receiving honest treatment at their hands.

R. HILF & CO.
R. Hilf & Co. are successors to the old reliable firm of Hilf Bros., who have done the leading dry goods business of New Mexico for the past quarter of a century, and the new management will in the future, as in the past, make this store one where the public can have absolute confidence in getting the best goods for the least money. In the new store they have all the modern improvements, hot water heating, new cash system, lighted by the new improved arc lights, also beautiful gas chandeliers, large and roomy show windows, which will always be draped in the most attractive manner, large show cases throughout the store where they will display the daintiest works of art from both home and foreign looms and factories, and with a large corps of courteous and abiding salesmen and salesladies, will make this one of the most delightful places to do your shopping. Buyers are now excited picking up the daintiest and prettiest novelties in the dry goods line in the dry goods line, so if you want to see what the latest styles are or the newest novelties, you only have to give this firm a call as soon as the carpenters have finished the large and spacious office, which will be in a few days, and our new cash system is in operation, and a few little odds and ends that are nearly finished, R. Hilf & Co. can show the people of Albuquerque a store that will be a credit not only to New Mexico but to the entire west.

THE OFFICE TENANTS.
Rabcock & Chambers, dentists, have rented the three offices in the southeast corner of the block, front on Railroad avenue and Third street, and have fitted them up into most elegant dental parlors.

Adjoining them and fronting on Railroad avenue, Culley & Armitage have fitted up an insurance office in a cozy and comfortable manner.

On the west side of the stairway, Warren & Chavez have a suite of four rooms, which they use for law offices. Judge H. B. Hamilton and Summers Burkhardt occupy the remaining four rooms, fronting on Railroad avenue, with their law offices.

IN OLDEN TIMES.
People overlooked the importance of permanent beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not only try laxatives, which act for a time, but finally injure the system. Hence the genuine, made by the California Fig Syrup Co.

THE HOTEL CASTANEDA.
By Whom It Was Named and Who Castaneda Was.

There has been considerable inquiry as to the name of the new Las Vegas hotel, the Castaneda, who selected it and after whom it was named. The Optic has taken some pains to inquire into the matter, and can give the following information on the subject:

The name was selected by President Ripley, of the Santa Fe system, not because of any particular propriety in the name for a hotel, but because of the beauty of the name itself—its soft and pleasing accent. The Optic finds that Pedro de Castaneda de Nagera was a soldier in Coronado's army. In the list of officers named in the printed records of Coronado's expedition his name does not appear, so the supposition is that he was simply a private. After the expedition into the province of New Mexico, he settled down at Culiacan, Mexico, and there wrote his account of the march, more than twenty years afterwards, however. He expressly states in the preface to his work, which was printed in 1838. It was at once translated into French by H. Ternaux Compans. This is all that is known of Castaneda. Those who are specially interested in the subject, the hotel would suggest, might delve deeper into it, and arouse, perhaps, a fresh interest in southwestern history.

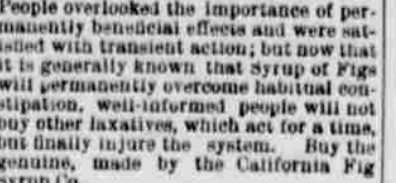

Nervous Dyspepsia

To Eat, Sleep, and Sleep Well, to Know What Appetite and Good Digestion Mean.

MAKE A TEST OF STUART'S DYSPEPSIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are out of order, but the trouble is not in the nerves, but in the stomach. The stomach is not cured by nerve medicines. The stomach is the organ to be looked after.

Nervous dyspepsia often does not have any pain whatever in the stomach, or perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach, but in the heart palpitations and in irregularity in the bowels. The kidneys are affected; in others the bowels are constipated, with headache; still others are

DR. HENRY W. BECK, A. M.

Troubled with loss of flesh and appetite with accumulations of gas, sour risings and heartburn.

It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache.

Send for valuable little book on stomach diseases by addressing F. A. Stewart, Co., Marshall, Mich. All druggists sell full-sized packages at 50 cents. Prof. Henry W. Beck, A. M., the well-known religious worker and writer of St. Louis, secretary of the mission board of the German Methodist church, chief clerk and expert accountant for the harbor wharf commission, public secretary for the St. Louis School of Patrons' association, and the district conference of stewards of the M. E. church, also takes an active part in the work of the Epworth League, and to write on religious educational topics for several magazines. How he found relief is best told in his own words:

"Some weeks ago my brother heard me say something about indigestion, and taking a box from his pocket, said, 'Try Stuart's Tablets.' I did, and was promptly relieved. Then I investigated the nature of the tablets and became satisfied that they were made of just the right things and in just the right proportions to aid in the assimilation of food. I heartily endorse them in all respects, and I keep them constantly on hand."

Church Consecrated at El Paso, Jan. 20.

The day was the finest of the winter, and that induced the Americans to come, and the large new brick Spanish church was filled to overflowing. The Mexican people, with their usual characteristic politeness, gave up their seats to their American neighbors.

The people have already given, as was thought, to the fullest extent of their ability; but when the appeal was made for a balance of indebtedness of \$300, it came, less a few dollars, which was afterwards made up.

We had tried to get one of the bishops to come down and dedicate the church and help raise the indebtedness, but it seemed out of the question, and when Bishop McCabe wrote and said: "Brother Harwood, you are the one to dedicate this church," I was foolish enough to think so, too. And so the sermon was preached and the church dedicated by the writer, assisted by Rev. Dr. Morrison, superintendent of the New Mexico Episcopal mission; also by the pastor of the church at this place; also by the Rev. Freddie, former pupil in our Episcopal school at Albuquerque, and now pastor at Juarez; also by Rev. Mr. Wright, pastor of the Congregational church and professor in the training school at El Paso; also by Rev. T. M. Harwood, former pastor of this church and now presiding elder of the Albuquerque district, whose mental energy, poise, and muscular force as carpenter, stone mason, bricklayer, etc., made the dedication of this beautiful church a possibility. This brings us out where the board of church extension can add by \$500 promised donation, and we hope with a loan of \$400. This will leave us free of debt, and add another star to the galaxy of our church buildings in this Spanish mission, making twenty-four in all.

EL PASO, TEXAS, JAN. 20, 1896.

DEMING.

From the Herald.

Several prospectors from this vicinity have left for the Victoria mining district, taken there by the reported discovery of a rich ledge of wolframite. It is said that prospectors are going into the country where the find is reported in large numbers from all over New Mexico and Arizona.

Word has been received from the Rt. Rev. Bishop J. M. Kendrick that he has selected Rev. Thomas Lewis to take charge of the Deming and Silver City churches and that the new minister will enter upon his new duties in a short time. Rev. Lewis came highly recommended. This will be pleasing news to the local Episcopians, who have been without church services for several months.

Complaints have been made to the authorities of the town of the careless manner in which hunters are shooting around the residence of those who live in the outer edge of town. Only a few days ago two bullets struck in the yard of Mrs. Rathel and within a foot or two of Mrs. James Irvin, who was visiting her mother, Mrs. Rathel, and but a short time ago two bullets were planted in the door jam of the Hyatt residence.

Clementine De Vere's Coming Here.
No artist of De Vere's caliber has visited the west this season. There is no necessity to boom such an artist, but we wish to impress upon the people of Albuquerque that this is an opportunity not to be allowed to pass. Mrs. De Vere is virtually an American singer, although she was born in Paris and has passed several years abroad; for, since she came here with Company in 1889, this country has been the scene of her musical activities and her most notable successes. Assisting De Vere are artists of great reputation and artistic worth. It has always been her motto to be a star among stars, and it is with that intention that she has selected the members of her company. A young singer with a great voice, a striking stage appearance, and a style of singing which wins every audience before which she sings such is Miss Eleanor Broadfoot, a singer who has been hailed in New York as the successor of Phillips and Cary. George Mitchell, another sterling artist, now being heard in the United States for the first season, has studied and sung in Italy and is sure to make America proud of him. Winifred Giff, the baritone, made his debut at Covent Garden theater, London, and sang with much success, both in England and in this country. The conductor, Signor Romaldo Sapi, is a musician of great experience and talent, having conducted for some of the greatest artists in the world, both at the Metropolitan opera house in New York, and also at the opening of the Auditorium in Chicago. The company, as a whole, is without doubt, the best now traveling in the United States.

Reduction in Rates on the Santa Fe.
General Passenger Agent J. J. Byrne of the Santa Fe Pacific and Southern California railroads has addressed the following communication to the Merchants and Manufacturers' association, making a material reduction in passenger rates:

"Referring to our previous correspondence in regard to rates for mileage books, I take pleasure in advising you that as soon as tickets and instructions can be properly prepared, we will place on sale at Los Angeles a 3,000 mile ticket at 24 cents a mile, or \$72, which will be good on any part of the Santa Fe system from California to Chicago; to Denver, El Paso and all branches and parts of the system; and it will also be good on the St. Louis & San Francisco railway and the Santa Fe Pacific and on the Santa Fe, Prescott & Phoenix. On the Santa Fe Pacific, however, there will be four coupons taken for every three miles. This will have the effect of making the mileage rate on the Santa Fe Pacific 34 cents per mile with this ticket.

Nervous Dyspepsia

To Eat, Sleep, and Sleep Well, to Know What Appetite and Good Digestion Mean.

MAKE A TEST OF STUART'S DYSPEPSIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are out of order, but the trouble is not in the nerves, but in the stomach. The stomach is not cured by nerve medicines. The stomach is the organ to be looked after.

Nervous dyspepsia often does not have any pain whatever in the stomach, or perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach, but in the heart palpitations and in irregularity in the bowels. The kidneys are affected; in others the bowels are constipated, with headache; still others are

There is a widespread and false impression that a man, in order to be a good physician, must be more or less heartless. People mistake heartlessness for nerve. The two terms are far from synonymous. A man may have a nerve of steel and a heart of tenderness as a mother's.

Of all the specialists in the world, there is probably no one that has so wide an experience in the treatment of women's diseases as Dr. R. V. Pierce, chief consulting physician to the Lorrain Hotel and Surgical Institute, at Buffalo, N. Y. With the assistance of his staff of able physicians, he has presided, in the past thirty years, for many thousands of women. Dr. Pierce is pre-eminently a sympathetic physician. Perhaps more than any other man in the profession he realizes the hardships of women's work, and the disadvantages under which the laborer because of the weak, delicate and possibly infirm structure of the female organism. His humane practice is directed toward the proper care of their health, so long as that care required the rigorous "examinations" and "local treatments" which are so much feared by all physicians. After years of study he invented a remedy now known as Dr. Pierce's Favorite Prescription, and it is about the most perfect and complete of all the remedies for the most common and obstinate cases of diseases peculiar to women. This wonderful medicine cures in the privacy of the home, and does away with the necessity for obnoxious "local treatment." It converts weak, struggling vigor and elasticity to the organs distinctly and firmly and its for weakness and motherhood.

In paper covers, of one-cent stamps, cloth binding, to cents each. Dr. Pierce's Common Sense Medical Advice. Address Dr. R. V. Pierce, Buffalo, N. Y.

ROSENWALD BROS.

LOCAL PARAGRAPHS.

Hon. W. B. Childers returned from Santa Fe last night.

Mrs. K. A. Grunfeld is quite sick with an attack of the grip.

A. H. Harlan, an attorney of Silver City, went to Santa Fe last night.

A. Hart, the second-hand dealer, who has been quite sick with rheumatism, is considerably better.

Dr. A. P. Morrison, the genial presiding elder of the Methodist church, came up from the south last night.

Dr. P. G. Cornish returned home last night from a visit to Los Angeles. Mrs. Cornish is visiting with friends in Flagstaff.

Miss Gertrude Eddings returned from Colorado Springs Sunday night and states that her mother is enjoying improved health.

Prof. John P. Owen, who has been south in the interest of the Equitable Life Insurance company, returned to the city last night.

S. Bibo, of Laguna, was in the city last night and ordered a coffin for Narciso Pino, the merchant at Cubero, whose wife died yesterday.

Miss S. J. Miller, of Chicago, came in from the north last night, and is stopping at the Grand Central hotel.

The lady is a health seeker.

Dr. Edwin Swisher, the medical examiner of the Germania Life Insurance company has returned to the city, and has a room at the Grand Central.

A number of colored soldiers of the Ninth cavalry passed through the city last night from Fort Grant, Ariz., to Denver, from which place they expect to go to Virginia.

Dr. J. W. Garner, special gauger and inspector of the United States internal revenue department, is in the city. A. J. Loomis, the deputy collector of this district, is also in the city.

A letter from Frank Pimpel, who is in Las Vegas attending his brother, George Pimpel, who fractured his skull last week by falling from one of the trees at the depot, says that his brother is improving and that the chances for his complete recovery are good.

Rev. W. D. Clayton, of the Methodist church, south, has returned to the city from Watrous. He states that a number of stockmen are feeding their cattle on the plains around Watrous. He reports that there is considerable snailpox in that section of the territory and that a man by the name of George Johnson died from the disease a few days ago. The district court of Mora county adjourned recently and left considerable unfinished business.

Frank Harris, special agent for the Santa Fe, came down from Las Vegas last night. He says that Learn Rose Rough, the young man who stole a couple of shoes from Joe Ball and left

the city, was arrested in Las Vegas yesterday and will be brought down by Sheriff Hubbell this evening.

M. Henke and George Irwin, two hunters of Williams, Arizona, have remembered the herd of local Kiks. They sent in to Major Ernest Meyers a pair of large elk horns, which they recently found in the Grand canyon of the Colorado, and requested Mr. Meyers to present them to the Albuquerque Kiks. The horns are at the wholesale liquor store of Lowenthal & Meyers, and have been pronounced "most excellent" by several Kiks who saw them this morning.

Mrs. Mary Tuohy Sowers, a relative of B. S. Kody, who has been spending several months in Albuquerque for her health, died last night. Her husband and son were with her at the time of her death. The remains will be embalmed and shipped to Philadelphia this evening for burial.

Miss Minnie Hawley, who is on a visit to the Misses Leland at Roswell, is reported quite ill with nervous prostration.

A Pogue, the Santa Fe telegraph line repairer, came in from the south last night and is at the Hotel Highland.

The Fraternal Union of America will give a necktie dance at the Orchestration hall on Saturday night.

Mrs. Sarah Murphy, of Kansas City, is in the city, stopping at the Hotel Highland.

Hon. Joshua S. Reynolds, the Las Vegas banker, is in the city to-day on business.

Corn Fed Kansas Beef..

We are now selling

Corn Fed Kansas Beef. It was bought in the Kansas City yards and shipped here alive. It's the same kind of beef that Armour and Swift buy every day for their packing houses. In other words it is the very best procurable. We received our first lot from the slaughter house to-day. It is now hanging on our racks. Come in and examine it.

We will sell nothing but Kansas beef—haven't a pound of native beef in our shop.

There will be no advances in Prices.

NOTHING IS TOO GOOD FOR OUR CUSTOMERS.
