## THE LEGISLATURE.

Bill to Divide Colfax County  
Introduced in Council.Scheme to Establish Mounted Militia  
Meets with Disfavor.A. A. Keen, of this City, Being Urged for  
Territorial Treasurer.

## ECONOMIZE ON EXPENDITURES.

Special to The Citizen.

Santa Fe, Jan. 31.—The bill to divide Colfax county was introduced in the council this morning.

The council is inspecting the deed and dumb asylum this afternoon.

The house had a lively session this morning over salary bills.

Several county officials are here trying to get their salaries increased.

The house tabled the petition from Albuquerque relating to bridges.

Mr. Ancheta presented a petition from citizens of Santa Fe, asking that liquor and gambling licenses be reduced.

The petition naively sets forth that the present high license prevents poor people from indulging in gambling as they wish.

The Horticultural society presented a petition, urging the legislature to establish a public garden.

C. B. No. 33, providing for the establishment of a blind asylum, was introduced by Mr. Richardson.

The bill provides for a blind school, reformatory and miners' hospital, to be established at the town of Kido.

Mr. Richardson introduced a bill for the organization of mounted rangers.

Both bills are meeting with strong opposition.

Mr. Hughes introduced a bill in relation to judgments.

Mr. Catron introduced a bill, by request, relating to licenses, slightly lowering license in some cases.

Mr. Plunkett introduced a bill relating to judgments, their relation and revival.

An invitation from the Santa Fe Woman's board of trade to visit the deaf and dumb asylum was accepted.

The members of the legislature will visit that institution to-morrow afternoon at 2 o'clock.

For the house a number of bills were introduced, which were referred to appropriate committees, and that body adjourned until 3 o'clock.

The republicans of both houses are holding a joint caucus, the object being to agree upon reform legislation.

There is a disposition upon the part of several of the members of both houses to increase the salaries of county officials.

The caucus is for the object of shutting down on all such measures.

Bellegarde-Rio, Pedro Flores is here putting in effective work for economic bills.

He insists that all appropriations should be reduced.

There is a strong movement this morning for a division of Colfax county.

Friends of the proposed county of Roosevelt, out of the western portions of Peralta and Valencia counties, are meeting with no success in securing the support of the Valencia delegates for the proposed county.

If a county is made it will be made out of the western portion of Peralta county alone.

The delegation from Peralta county is favorable to the creation of the new county.

If the people of Gallup, who at county created out of western Peralta county alone, they should so inform their representatives in the legislature.

It is understood that the governor will appoint Jeff. Reynolds, the Las Vegas banker, to the position of territorial treasurer.

The Peralta county delegation have urged the appointment of A. A. Keen to that office, claiming that the city of Albuquerque should be honored with one of the territorial officers, and because Mr. Keen is receiving of an office that could be conferred upon him by the republican party.

The scheme to establish mounted militia companies in the several counties of the territory will be defeated.

Such rangers would cost the territory several thousand dollars per year, and the benefit that might accrue is uncertain.

The people fully realize the utter worthlessness of the present militia organization, and do not desire a further increase of the cost.

The biennial bill of Fernando Nolan for an appropriation to purchase certain war records in his possession, has been introduced in the house.

The bill has appeared in each assembly for many years, and each time meets with defeat.

Punch Railroad Officials.

Austin, Texas, Jan. 31.—Gov. Sayre sent a special message to the legislature to-day, endorsing the railroad commission's request for a law to punish railroads which discriminate in freight rates and gives rebates.

The punishment provided, as the bill suggested, is the confinement of the offender in the penitentiary and the forfeiture of the charter of the company.

GENERAL KAGAN'S CASE.

Record will not reach President before end of the week.

Washington, Jan. 31.—There is no prospect that the record of the court-martial in the case of General Kagan will reach the president before the end of this week.

Mr. Worthington, in behalf of Kagan, asked permission of the judge to advance general to file a supplementary brief or special plea and the permission was granted.

Princess Ferdinand Dead.

Sofia, Bulgaria, Jan. 31.—Princess Ferdinand, of Bulgaria, died to-day of pneumonia. She gave birth to a daughter last evening.

Nineteen Deaths Reported.

Washington, Jan. 31.—The war department has received a cablegram from General Ota, at Manila, in which he reports nineteen deaths since January 5.

Kansas Bank Fails.

Washington, Jan. 31.—The comptroller of the currency has received a telegram announcing the failure of the First National bank of Kansas.

## THE ARMY BILL.

Passed the House by a Vote  
of 166 to 126.Senators Discuss Peace Treaty in  
Executive Session.Cold Wave Continues Undiminished  
Throughout the Country.

## PEOPLE FROZEN TO DEATH.

Washington, Jan. 31.—The house met at 11 o'clock to close the debate on the army reorganization bill.

The opposition before had practically abandoned the hope of being able to compass either the defeat or recommitment of the bill.

When the house resumed work on the bill to-day section 12, relating to the pay department, had been reached.

The number of postmaster generals, with the rank of colonel, provided by the bill was reduced from 4 to 3, with the rank of lieutenant colonel from 8 to 5, and paymasters with the rank of major from 47 to 35.

The age limit for appointments in this department was reduced from 50 to 40.

In the corps of engineers the number of colonels was reduced from 10 to 8, lieutenant-colonels from 20 to 16, majors from 30 to 25, captains, 41 to 35; first lieutenants, 50 to 40; second lieutenants, 50 to 40.

The house rejected Cummings' amendment to prevent the army being used to suppress riots in states except upon the application of governors.

An amendment by Johnson, of North Dakota, to prevent all sales of intoxicants in the army cantons, was rejected.

At 3 o'clock, under order, the committee of the whole reported the army bill to the house.

A motion to recommit the bill was lost by a vote of 117 to 170.

The army bill passed the house by a vote of 166 to 126.

IN THE SENATE.

Washington, Jan. 31.—In the senate a bill was passed granting extra pay to officers and men in the temporary force of the navy—two months' extra to those who served beyond the limits of the United States and one month's pay to those who served within the United States.

Berry (Ark.) addressed the senate on the Vest anti-expansion resolution: "If in November, 1897," he began, "it had been known to the president, so soon as his inauguration, would be seeking congress for an army of 100,000 men to subjugate and reduce a people, 7,000 miles from our shores, who were endeavoring to establish a government for themselves, he would not have received a single electoral vote in any state. If senators on the other side now advocate the policy of expansion had told them they would thus depart from the principles of the declaration of independence, they would have repudiated the idea as unworthy of them."

At 2 o'clock, on motion of Davis, chairman of the foreign relations committee, the senate went into executive session.

In the executive session of the senate the gray advocated the ratification of the peace treaty and explained his attitude at the Paris conference.

In the senate debate to-day Bacon, democrat of Georgia, announced that he would not vote for the ratification of the treaty unless some declaratory resolution against the permanent occupation of the Philippines was adopted by the senate and house and signed by the president.

He said: "That reply will determine my vote," and indicated that he would vote for the ratification.

COLD WAVE UNDIMINISHED.

Many Frozen to Death in Texas—Cattle Dying in Great Numbers.

Fort Worth, Texas, Jan. 31.—The worst blizzard in years is sweeping over the northern and western portions of Texas, causing much suffering.

Walter Mitchell, a wealthy cattle man of Clay county, has been found frozen to death. Cattle are dying in great numbers.

COLDEST OF THE SEASON.

St. Louis, Mo., Jan. 31.—The coldest weather of the season in St. Louis prevailed to-day, the thermometer registering from 3 to 7 degrees below zero.

MODERATING IN NORTHWEST.

Chicago, Jan. 31.—The cold wave continues undiminished here, the mercury having reached 12 below. However, the weather is moderating considerably in the northwest.

The line of Mr. Ball's temperature to-day passes as far south as Oklahoma, Bismarck, North Dakota, reports 29 below; Duluth, Minn., 24 below; Green Bay, Wis., 20 below.

Relief measures in aid of the city's poor were determined upon by Mayor Harrison. An appeal has been issued to the public asking the assistance for the unfortunate reduced to destitution.

Provision has been made for lodging the homeless and feeding the hungry.

COLD WAVE IN MISSOURI.

St. Louis, Mo., Jan. 31.—Temperature reports from all points in Missouri indicate the weather last night and to-day is the coldest experienced in many years.

At thermometers registered 17 degrees below zero. Above here the Mississippi, Missouri and Illinois rivers are frozen over. A report from Springfield, Mo., says Mrs. Mary Stevens, an aged woman living on a farm, was frozen to death.

JOE BALL'S NEW VENTURE.

Will Open a Store in Connection With His Shoe Shop.

Joe Ball yesterday ordered a stock of shoes from New York, and will open up a shoe store in connection with his shop at 107 south Second street.

Mr. Ball will give his personal attention to the management of the store, and he will still have charge of the bootblack stands at Leslie's barber shop. Sherman Phillips and Lee Griffin will do the work there for him.

Mr. Ball has been with Mr. Tessler for the past ten years, and under his management shoe-shining has become a fine art in Albuquerque.

If Mr. Ball makes as complete a success at selling shoes as he did at shining them, his most extravagant wishes will be gratified.

He will employ two competent shoemakers, Aaron White and Mike Tomlin, at his store to do repair work.

While the public will greatly miss Joe's genial face at the old stand they will join in wishing him success in his greater undertaking.

A Generous Gift.

Just as we go to press word reaches us that Mrs. W. C. Hadley has offered the University of New Mexico \$10,000 for a Walter C. Hadley memorial science hall.

We understand that the gift is conditioned upon a suitable response by the people of the territory in general, and the city of Albuquerque in particular.

## SIX MEN INJURED IN WEEK NEAR FLAGSTAFF.

Four railroad men, who were injured in the wreck, which occurred a few miles this side of Flagstaff, about 1 o'clock Monday morning, were brought to the city last night and taken to the Santa Fe Pacific hospital.

They were Engineer Powers, who broke his leg; Engineer Fuller, with both legs broken and his body badly scalded from the steam which escaped in the explosion of the boiler; Fireman Fisher, with a wound in his scalp and his shoulder dislocated; and Brakenham Pike, with an injured knee cap and a cut on his right arm.

The other two men, who were injured, were only slightly injured, and are being cared for at Flagstaff.

The wreck seems to have been much worse than it was at first reported.

A double-headed west-bound freight train collided with a freight coming east at a curve in the railroad five miles east of Flagstaff.

Both trains were going at a high rate of speed, and the crews of neither had any knowledge of the fact that awaited them until the two engines were side by side.

With the exception of Engineer Fuller and Fireman Fisher, all the train men jumped for their lives and received injuries in their fall.

Two of the engines were almost completely destroyed and the third engine was also considerably damaged.

A remarkable thing about the collision is that none of the freight cars were damaged.

It is understood that the engineer of the light engine overlooked his orders to wait for the other train and this caused the collision.

The men who were brought to the hospital in this city last night are doing nicely and the condition of none of them is considered dangerous.

POLICE COURT NEWS.

John Dixon Discharged—Holbrook Gets Sixty Days—Other Offenders.

There was a general session row at 'Brookline' white rooms on south Second street, opposite the railroad station, about six o'clock last night in which a half a dozen or more men participated.

Holbrook, the proprietor, in order to frighten the disturbers fired his revolver and passed by the door of the opinion that our own shores, who were endeavoring to establish a government for themselves, he would not have received a single electoral vote in any state.

If senators on the other side now advocate the policy of expansion had told them they would thus depart from the principles of the declaration of independence, they would have repudiated the idea as unworthy of them."

ALBUQUERQUE, N. M. — JAN. 31, 1930

THE REV. J. H. DUNCAN, one of the territorial senators from San Miguel county, has introduced a bill in the council to reform the revenue system and method of the collections in New Mexico. The salient features of the bill are as follows:

It will be made obligatory on probate courts to give to the assessor a list of all conveyances affecting real estate as soon as ordered. Assessors are then obliged to amend their lists in accordance with the new court records as they are shown, so that they can assess property in the name of the real owner. The values fixed by the territorial board of equalization and certified to the various counties must be carried on the tax roll by the proper county officials and shall not, in any event, be altered, reduced or changed.

It is made obligatory on assessors to designate the class of lands assessed on their list, viz: farming, grazing, coal, saline, mineral or timber, and each class of land, each class shall be designated and the respective acreage given. In no event shall boards of county commissioners or county officials or persons abate or rebate, diminish or by any sort of device, change the assessment or tax roll, or remit any taxes except under the direct order of a competent court after proceeding.

Assessors shall accompany the reports with sworn statements of the dates when they visited the different precincts in the counties, and the length of time occupied in the discharge of their official duties; and also the amount of property assessed. In consideration of their additional duties and responsibilities, their compensation shall be increased to 3 per cent of the amounts collected.

The fiscal year is changed to begin with September 1.

The present exemption of \$200 is repealed except as to real estate homestead or improvements thereon, actually in use by the resident head of family, to that amount, provided that all his other property shall be reserved for taxation.

Sections 10 and 11 of the Compiled Laws, providing for the rate of 25 per cent per annum on undeveloped lands, is repealed, and in place thereof an absolute penalty of 5 per cent is added, which goes on as a part of the tax on the second day of January and July each year.

The provision regarding sheriffs and collectors turning over to successors in office delinquent taxes and penalties, by the collector to county commissioners, who shall at once turn the same over to the district attorney for collection, thus giving the new collector a clean slate for which amount only is chargeable.

Very stringent provisions are made for the enforcement of the law, and any violation thereof shall be cause for the removal in a summary manner and held forever ineligible to hold office and fined not to exceed \$500 and imprisonment for 30 days for each offense. The hearing of such cases shall be in a summary manner before the district judge, whose decision cannot be appealed from.

It is made the duty of the collector, 10 days after any taxes are delinquent, to establish a notice of said delinquency in a newspaper published in the county for four weeks, citing the owner to appear and make any defense which he has.

If the defense is not sustained, or if there is no appearance, judgment of the court shall be rendered for the amount due, and the sheriff directed to sell at public auction to satisfy the judgment. An additional penalty of 5 per cent is imposed to cover the district attorney's fees and collections.

The owner may redeem the property at any time in three years on paying the purchase price plus interest of 25 per cent and costs, and interest at 25 per cent per annum.

In case of large tracts of land, like grants, where it may not be practical to sell large areas, tracts shall be sold to persons taking the least number of acres for the amount charged against the grant, the land being taken of the corner of the tract from the northeast corner of the grant or tract. This provision will insure a proper title at tax sale, being under a regular judgment of the court, and no heretofore, but could not because the collector did not advertise, and the tax titles were not binding.

NEW MEXICO HISTORICAL SOCIETY.

The report of the Historical society of New Mexico, for the two years ending January 15, 1930, has been made to Governor Otero, and shows that the society has added many valuable articles to the collection owned by it.

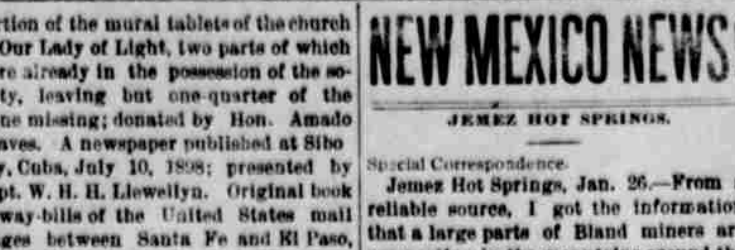

In the financial report the report makes the following showing:

The thirty-second legislative assembly made an appropriation of \$400 per annum "toward protecting, maintaining and augmenting the collection of the society."

The sum realized from that appropriation for the two years was \$792, while the expenditures for expenses connected with the society were \$556.25, leaving a deficit in the treasury of the society of \$235.75, and the suggestion is made:

If the legislature would appropriate \$1,000 per year instead of \$400, it would provide a small fund from which purchases could be made when especially desirable articles or books are obtainable. The value of such articles is far more than their cost, and especially so to the territory with which they are directly connected. A few hundred dollars judiciously expended now will obtain what will cost thousands in a few years."

Among the valuable additions made to the collection owned are the following: Ancient copper bell, made in New Mexico, dated 1741, and bearing the inscription in Latin: "I ring for the living and toll for the dead" donated by Colonel E. H. Bergmann. The original commission of Carl Carson as second lieutenant of mounted riflemen, dated June 9, 1847, and signed by President James K. Polk; donated by M. A. Ross. A third

JEMEZ HOT SPRINGS.

Special Correspondence.

Jemez Hot Springs, Jan. 26.—From a reliable source, I got the information that a large party of blind miners are prospecting in the mountains around the Sulphur springs and a lucky party of some people have struck a very promising looking lead and made their location, expecting to get a return of the assay of their ore in a few days.

Small pox, which epidemic in the Jemez pueblo has now entirely disappeared. The two or three light cases of this disease which were brought in here are now all recovered and there were no fatalities whatever.

The most beautiful spring weather imaginable prevailing here and invalids should take advantage of it and come up here to recuperate.

Rev. Harvey J. Shields is conducting a private school in the Presbyterian church, building and judging by the very great attendance of the same he must be a very successful teacher.

JEMEZ.

HILLSBORO.

From Sierra County Advocate.

Martin Shriver has sold his Tierra Blanca ranch to Wm. Barnes, the Colorado stock man. Consideration, \$400.

Sheriff Max L. Kahler has bonded the Bull of the Wold mining property for \$3,000, paying one-third of the money down. He has put seven men at work driving a tunnel.

A piece of ore weighing about fifty pounds and containing free gold to the estimated value of \$115, was taken from the Trippie mine. It will be preserved and put on exhibition at the Albuquerque fair next summer.

Col. A. W. Harris came in from Albuquerque during the past week, where he has arranged his extensive business affairs to his satisfaction and will now give his entire attention to his big Illinois silver mine. Colonel Harris is a solid mining man and Kingston is glad to number him as a permanent resident again.

A. Mr. Conklin was in the district the other day taking a look at the Ridenour ranches. He is a big sheepman, who has Arizona and he proposes to buy those ranches and put 30,000 head of sheep on them. He was called away on business before he could see all the different ranches owned by Mr. Ridenour in this county, and must return again before closing the deal.

A horse car railroad between Hillsboro and the Rio Grande river coal banks, only 35 miles away, to supply our mills and smelters with cheap fuel, would make this one of the greatest and most prosperous mining camps in the world. Ten thousand tons of low grade ore await it at the Bonanza, 10,000 at the Richmond, 10,000 at the Snake, 10,000 at the Trippie, 10,000 at the Opportunity, and less amounts at the smaller mines. Who'll start the enterprise? The Advocate will give \$200 to help it along.

ADDT.

From the Argus.

The sugar campaign is almost complete and those who will finish all the beets, and the remainder of the crop is now being brought in. It is almost certain that the factory will not run after Wednesday.

It is rumored in the White Oaks district that James A. Tomlinson is now to start a republican paper in that town and share the field with the democratic organ, the Eagle. It will be remembered that Mr. Tomlinson was a resident of Eddy for a number of years, at that time fighting under the banner of populism. He was the owner of the Independent, published here, a populist sheet, and was the populist candidate for the legislature from this district in 1904. Lincoln county is now in the republican ranks, and Mr. Tomlinson doubtless thinks the time ripe for another paper.

At the time of the failure of the First National Bank, S. T. Bistart, county treasurer of Eddy county, had on deposit there county funds to the amount of \$7,053.18. Dividends since paid reduced the sum to \$2,467.37, for which a receipt's certificate was held by Mr. Bistart. On his retirement from office, the new treasurer, John Matheson, refused to receive this certificate as county funds, and the county commissioners have ordered suit to be brought against Mr. Bistart and bondsmen to collect that amount. The legal proposition is whether or not Mr. Bistart is liable for the funds on account of the bank closing its doors.

The Ravages of Grip.

That modern scourge, the grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure protection against this dangerous malady in Dr. King's New Discovery. When you feel a soreness in your bones and muscles, have chills and fever, with sore throat, pain in the back of the head, earache, headache and a stubborn cough you may know you have the grip, and that you need Dr. King's New Discovery. It will promptly cure the worst cough, heal the inflamed membranes, kill the disease germs and prevent the dreaded after effects of the malady. Price, 50 cents and \$1. Money back if not cured. A trial bottle free to J. H. O'Reilly & Co.'s drug store.

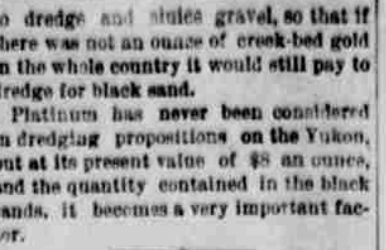

A Serious Accident.

Little Tommy Learned, the 3-year-old son of Agent K. B. Learned, met with quite a serious accident yesterday morning by falling into a tub of hot water standing in the kitchen of the Learned residence near the depot. His left arm was badly scalded up to the elbow and all the skin peeled off, but fortunately the muscles were not injured. Dr. McConnell was called in and dressed the injured member, and the little fellow is now getting along as well as could be expected.—Rio Grande Republican.

Capt. Jack Getting Rich.

A special dispatch to the Los Angeles Times, from Seattle, Wash., says: Capt. Jack Crawford, the poet scout, who is in Alaska, with a large outfit in the interest of New York capitalists, has found a fortune for himself and the company in the shifting banks of black sand on the Hootalinqua and on other rivers in Alaska, but it took the New York party to discover that it had a value. Dr. Willis K. Everett made a careful assay of a quantity of black sand brought to Dawson, and found that it had a value of 87 cents per yard in platinum and gold.

This is entirely outside of any placer gold which was caught in the sluices before the sand was taken out. With modern dredges it costs but a few cents a yard

Not worth paying attention to, you say. Perhaps you have had it for weeks.

It's annoying because you have a constant desire to cough. It annoys you also because you remember that week long is a family failing.

At first it is a slight cough. At last it is a hemorrhage. At last, extremely difficult.

## ROSENWALD BROS.

**LOCAL PARAGRAPHS.**

Meeting of the Glee club this evening

at 7:30 sharp. Let all members be pre-

sent.

John W. Walton, the capitalist of the

Jemes hot springs, came in from Gallup

Sunday night, and is at the European.

Stephen Canavan, a well known citizen

in Gallup, came in from the west Sunday

night and stopped at the Grand Central.

The largest crowd of the season was

present at Mrs. Wagoner's dancing school

last night, and every one had a most en-

joyable time.

David M. Foltz, a member of the ad-

vertising firm of Foltz & Rambo, New

York, passed through the city last night

on route east from a visit to the Pacific

coast.

Marshall McMillin has had another big

month with his collections for January.

At noon to-day he had \$480.50 to turn

over from fines collected during the

month.

C. C. Hughes, the general superin-

tendent of the Fremont, Elkhorn &

Missouri Valley railroad, with his family,

and C. H. King and family, of Casper,

Wyo., were passengers for California last

night.

C. Doyle, vice president and general

manager of the Chicago, Indianapolis &

Louisville railroad, with five gentlemen

friends, passed through the city last

night in a special car on his way to Cali-

fornia.

In the district court yesterday R. A.

Carr commenced suit against the Cebola

Cattle company for the recovery of \$4,000

on promissory notes. J. S. Gale and W.

A. Carr commenced suit against R. S. Gale

to replevin 300 sheep.

The social committee of the Young

People's Society of Christian Endeavor

of the Congregational church held a

meeting the other evening, and decided

to give a "young social" in the Congrega-

tional church parlors, Friday evening,

February 24. Particulars of the social

will appear later.

On Sunday last Oscar Gabriel, a section

boss on the Santa Fe Pacific railroad, was

married to Miss Amanda Lindon, at the

residence of the bride's sister, Mrs. August

Johnson, in this city. Rev. T. C. Beattie

performed the marriage ceremony.

The newly married couple left last night

for Laguna, where the groom is employed.

Mrs. Tula P. Schuster yesterday com-

menced suit for divorce against her hus-

band, Geo. P. Schuster, of Mitchell, N. M.

When Mrs. Schuster left her home some

time ago, her husband followed her to

this city and tried to induce her to re-

turn with him, but she refused and has

now commenced divorce proceedings to

sever "the tie that binds."

In the last issue of the Collegian, pub-

lished by the students of the A. & M. C.

college, there is an article in which the

spectators at the foot ball games played

in this city during the holidays are

roasted to a rich brown. The article

speaks of them as showing "about as

varied a quantity of "importantly
