SAMOAN DIFFICULTY.

German Consul Responsible for
Outbreak of Rebels.Cruiser Philadelphia Ordered to
Proceed to Samoa at Once.Three British Warships Will Be Dis-
patched to Protect Citizens.

SITUATION PEACEABLE TO-DAY.

London, Jan. 19.—A special from Auckland says: All parties at Apia continue to unite in denouncing the German consul for the fighting between the rival tribes. It is pointed out that in violation of all agreements the consul accompanied Matafua's forces when he claimed to have the town and encouraged the opposition to Malietoa Tanu. When the British and American consuls were informed of the situation they adjourned court and locked the building. The German consul demanded keys and they were refused him. He broke open the doors, removed the lock and replaced them with others. He afterwards brought the German municipal president into the chamber.

The latter went upon the balcony and shouted to the British and American marines assembled on the square: "I am the supreme court. I am the chief justice." The crowd replied with jeers. The British consul demanded the keys, which were refused. A Scotchman named Mackie thereupon climbed on the building and hoisted the Samoan flag, while the British and American consuls and a number of marines invaded the building, forced the doors open and pushed the German consul into the street. Then the two consuls formally opened court and issued a warning against any further interference with his jurisdiction, threatening imprisonment of any one attempting to do so. The situation, the dispatch concludes, is now quiet.

The German consul remains at his consulate.

THREE BRITISH WARSHIPS.
Wellington, N. Z., Jan. 19.—It is reported that owing to the trouble at Samoa growing out of the election of a successor to the late King, Malietoa, three British warships will proceed there and aid one American warship, which is to start for the islands from Honolulu.

FURTHER PARTICULARS RECEIVED.
Auckland, N. Z., Jan. 19.—Further particulars regarding the disturbances in Samoa show Matafua's followers numbered about 5,000 men. The adherents of Malietoa Tanu were only about a thousand. There was two hours fighting between the rival forces during which several warriors were despatched. The American consul issued a proclamation claiming the Berlin treaty had the same force as a law of congress and that an insult to the supreme court of Samoa is therefore equivalent to an insult to the government at Washington.

ORDERED TO SAMOA.
Washington, Jan. 19.—The navy department has prepared orders for the cruiser Philadelphia to proceed to Samoa at once to represent the United States interests there. The Philadelphia is due at San Diego next Sunday from Acapulco. Meanwhile, if any vessel more quickly available can be found—one of Dewey's fleet, for instance—it will be ordered at once to Samoa to answer the urgent appeal of the United States consul. The commander of the Philadelphia will act in conformity with the instructions of the United States consul as far as these are in line with the treaty of Berlin, which the United States contends must be literally enforced until amended.

PHILADELPHIA ARRIVES.
San Diego, Cal., Jan. 19.—The United States Cruiser Philadelphia, with Admiral Kautz on board, arrived here this morning.

GOLD THE STANDARD.

No Made in Germany Bill Regulating Coinage.

Washington, Jan. 19.—Secretary fiske to-day appeared before the house committee on coinage, weights and measures, to explain his views on the bill to define and fix the standard of value and regulate coinage. This is the bill which the advocates of currency reform propose to strengthen the currency bill of the banking and currency commission. It makes the gold dollar the standard of value, and gives a general approval of the present standard of value, with the exception to the section which would assess one-quarter of 1 per cent tax annually upon the national banks, and undivided profits of national banks.

BLOW AT FREE SILVER.

National Committee on Wall Says It Is Neither Sound Nor Democratic.

Milwaukee, Wis., Jan. 19.—The Journal to-day prints a letter written by Edward C. Wall, the Wisconsin member of the democratic national committee, which he says: "It is my belief that the doctrine of 16 to 1 is neither a democratic nor a solid business proposition, but is in fact entirely opposed to both. I, with many others accepted the platform of 1896, not because of that doctrine, but because of the platform of 1896, and I have the very highest respect, knowing he is a sincere, honest and fearless man."

The Twentieth Infantry.
Leavenworth, Kan., Jan. 19.—The Twentieth United States Infantry, ordered to Manila via San Francisco, will leave for that city Saturday next.

Shot by a Burglar.
New York, Jan. 19.—Chief of Police Crow, of Savannah, N. J., was shot and perhaps fatally wounded, early to-day, while chasing a burglar. A safe in the office of Swift & Co., the Chicago beef

dealers, was blown open with dynamite. As Crow reached the office he saw a man coming out and chased him a block. The burglar stopped suddenly and shot Crow in the lungs. The burglar escaped. The thieves did not have time to rifle the safe.

Opposed to "Puts" and "Cuts."
Chicago, Jan. 19.—The local news agency says the commission houses are unanimously opposed to a continuance of the practice of trading "puts" and "calls," and are generally sending notices to clients that they will accept no more orders of this character.

Confers With the President—Sails for Hong Kong, January 30.

They will receive their commissions tomorrow, when Schurman will be formally designated chairman and Edwin W. Hanna, of Chicago, secretary. With the exception of Col. Massacre.
There will be a regular communication of Temple Lodge No. 6 A. F. & A. M. at Masonic hall this evening at 7:30 sharp. Visiting brethren cordially invited. By order of W. M. C. Medler, secretary.

There was considerable confusion at Orchestra hall last night, over the fact that quite a number of people had coupons for the same seats. It was learned that the seats on the plat were properly marked off, as far as the tickets were sold, at O. A. Mason & Co., but the gentleman in the ticket box at the hall received some of the seats already sold. Manager Trimble regretted the confusion, and remedied matters by securing extra seats for several holding coupons. The "Coco Hottel" show was a good one and the crowd in attendance was a pleased audience from the rise of the curtain until it went down after the last act.

John Snyder died at the city building last night and was buried by the city this afternoon as he had no means of his own. Snyder of the city was a member of the city hall and was the top of the stairs in the city hall while suffering with the grip and that the disease developed into pneumonia, from which he died. Nothing is known of his relatives or antecedents further than that he came here from Denver some weeks ago and went to work at Joe Ball's shoe shop.

The public sale of the Stevens & Arnold horses has been in progress most all day on the vacant lot near the "Red Barn," with a big crowd of people in attendance. The auctioneers are Capt. Stevens, of Missouri, and Capt. Knight, of Pennsylvania, and up to 4 o'clock this afternoon they had rattled off about twenty good horses. Some of the buyers are C. K. Newhall, F. A. and Thos. S. Hubbard, Jacob Korber, Elias Garcia and Fred C. Gindley.

The dance given by the ladies of the Degree of Honor at the A. O. U. W. hall last night not only proved a success financially, but it was a most delightful entertainment for the hundreds of couples who attended. The supper served was one of the triumphs of the art of cookery. These were the last night look forward with pleasure to the next dance to be given by the Degree of Honor.

The Young Ladies' Sodality of the Church of the Immaculate Conception will give an entertainment at St. Mary's school building to-morrow evening for the benefit of the Catholic library association. The program will consist of vocal and instrumental selections, games, etc. Refreshments will also be served.

The evangelistic services at the First Baptist church are increasing in attendance and interest. This evening the church will receive new members at a church of regular service. Service again to-morrow night at 7:30.

Mrs. Henry Hunsing and Mrs. J. Garcia, of Shaw Low, Arizona, who have been at the Hotel Highland the past few days, were at the depot last night to meet the train of the Santa Fe.

The Young Men's Catholic club held a meeting last night and made arrangements for forming up its rooms in St. Mary's school building. This evening the formal opening will be held February 1.

The jury in Justice Ribble's court yesterday afternoon found Mr. Brunsvick guilty of having assaulted Prof. Philip Ford, the dancing master.

WORK OF CONGRESS.

Senate Considering the Nicaragua
Canal Bill.Senator Turner Speaks on Veto's
Anti-Expansion Resolutions.Charges and Specifications Against Eagan
in the Hands of the President.

CONDUCT UNBECOMING AN OFFICER.

Washington, Jan. 19.—In the senate, Mills (Texas) presented a joint resolution directing the secretary of war to have made a survey and estimate of the cost of a canal between Texas City and Galveston. It was adopted.

Turner (Wisconsin) introduced the senate on the anti-expansion resolution of Veto (Mo). He opposed our acquiring the Philippines, and said the noble ship of state, its chart having been torn to tatters, was now drifting whither she would on a wild unknown sea. This dangerous condition was being forced upon the people by the previous "providence" has cast upon us new responsibilities which we may not shrink. He could not agree, however, that this dangerous responsibility was one for the American people to assume. This country was at liberty to retain such foreign territory as it had conquered, but it was not to be guilty in the future of the same recurrence was to give back the conquered territory to the enemy. "If we may keep it ourselves," said he, "we may require it to be given to the people who inhabit it for the purpose of independence and liberty." This he believed was the proper course to pursue in the case of the Philippines.

The senate will not take up the peace treaty to-day, but will consider the Nicaragua canal bill. Morgan (Texas) said that he had read the bill to-day. Senator Foraker, of Ohio, in replying to Senator Turner, said: "The senator from Washington made some remarks to-day about what I said as to the purpose of the administration. I desire to say here and now what I did not imagine it to be necessary to say, that I was not speaking for the administration, but for the people who were in the hall. The bill that went up and down the backs of our friends was due, perhaps, to a misapprehension as to which of the Ohio senators was speaking." (Laughter.)

Foraker said that when he spoke of the possible action of the president he spoke as one judging from the public utterances of the president and with some knowledge of his feelings and desires.

The Nicaragua canal bill was taken up. Allison spoke in favor of its amendment, introduced yesterday.

IN THE HOUSE.

The senate bill was passed authorizing the Arkansas & Choctaw Railroad company to construct a railroad through the Choctaw and Chickasaw nations in Indian Territory.

President James D. Angell, of Michigan university, was reappointed rector of the institution. The purpose was to enter into committee of the whole on the postoffice appropriation bill.

French Sagasta announces that the queen regent will sign a decree convoking the cortes day following the receipt of the news of the ratification of the treaty of peace by the United States senate.

Picturesque Character Dead.

David, O. T., Jan. 19.—Col. A. J. Blackwell is dead here. He had been identified with many large land and railroad deals affecting Oklahoma and led a very eventful life. Dr. Farris Dead.

W. S. Prager, who is here attending to his duties as a member of the sheep sanitary board, states that he received information that Dr. R. E. Farris, who was shot the other day by his brother-in-law, Theodore Vick, had died from the effects of the wound. The murderer was a type-setter on the Roswell Register, and became involved in a quarrel in the Pecos Valley pharmacy at Roswell, and after coming to close quarters Vick drew a 38-caliber pistol and shot Dr. Farris in the abdomen.

The Register, in its account of the shooting, says:

Vick is in jail. He is 35 years old, and was taken into the doctor's family when he was quite a lad, at Anna, Illinois, and with them emigrated to the Pecos Valley about ten months ago. It appears that the other day by his brother-in-law, Theodore Vick, had died from the effects of the wound. COMMERCIAL CLUB CAPE.

To Be Opened Soon and Conducted by S. T. Kilworth.

The Commercial club of this city has entered into an agreement with S. T. Kilworth, at present the porter at the club, by which he will in a few days open up a first-class cafe in the room formerly occupied by the Atlantic & Pacific land office. For the convenience of the members of the Commercial club, a doorway will be cut through the wall between the hallway entrance and the proposed cafe. The necessary alterations in the building will be made at once and as soon as they are completed, the cafe will be opened to the general public as well as to members of the club. Seats will be served both on the American and European plans.

The Commercial club seems to have entered upon an era of growth and prosperity in this respect. It reflects the general revival of confidence among other business enterprises in the city. The membership roll of the club has been enlarged by the addition of twelve new names during the past month and there is every indication that the growth will continue. The club, too, has been more successful in the way of securing general patronage, as evidenced by the fact that the club yesterday made arrangements with the Western Union Telegraph company to put in at the club rooms a large self-winding clock, with observatory time and regulated by electricity.

G. L. Brooks yesterday presented the Commercial club with a handsome crayon portrait of himself, which will be placed in the gallery containing the pictures of the ex-presidents of the club. The ex-presidents were requested some time ago to supply the club with their portraits. D. B. Robinson, W. C. Hadley and G. L. Brooks have so far complied, and L. D. Wells and W. B. Childers have promised to do so in the near future.

Numerous Bills Being Introduced

a Deception.

A FAKE EXPOSÉ.

Philadelphia Press Proves the Keeley Motor to be a Deception.

Philadelphia, Jan. 19.—The Press to-day publishes an article giving the details of the investigation of the famous Keeley motor, which the Press contends clearly proves the mysterious Keeley motor to have been a deception and a deception and it alleged as a serious force as the result of trickery.

The doctoring of the work shop was taken up and the brick partition wall removed. The Press was assisted by Prof. Carl Carthe, consulting engineer; Prof. Arthur W. (deceased) assistant professor of physics of the University of Pennsylvania; Prof. Wilmer, professor of experimental physiology of the University of Pennsylvania; and Dr. M. G. Miller, who has had special skill in exploration of Clarence H. Moore, a son of Mrs. Bloomfield Moore, was an interested spectator.

The statements of the article, which are substantiated by the signed statements of the above named scientists, are to the effect that tubing was found concealed in the brick work and under the floor of the laboratory. This, it is claimed, laid bare the possibility of deception as tubing is of kind calculated to stand a high pressure and could have been used in connection with the great steel sphere, found last week in the laboratory, which experts intimate was used as a reservoir for compressed air or compressed gas.

Stating could thus form an agency for the forces that moved the motor in the exhibition room.

He never swore an oath, never danced a step, never killed a squirrel, never shot a pistol, never had a lawsuit, never loved but one woman in his life. FARMERS all over the territory are jubilant over the outlook for irrigation during the coming season. The snowfall in the mountains is said to be the heaviest in a number of years, and agricultural prospects are brighter than at any time since 1894. The ravines are filled with snow, and the snow in the parks has been unusually heavy, and it came prior to January 1, it is well packed down, and will melt and run off slowly.

THE Prescott Courier says: Some of the Prescott physicians are just now the subject of criticism for alleged extortionate charges for vaccination. The fee charged, it is said, runs from \$2.50 for a single patient down to \$1.25 where there is more than one in a family. In the latter case the \$2.50 has been charged for the first victim and \$1.25 for the others. In cities the usual fee for such services is 50 cents and in rare exceptional cases as high as \$1 for private vaccination, public vaccination being free.

THE message of Gov. Murphy was presented Tuesday afternoon to the Arizona legislature. In it the governor specifically attacks the prison labor contract entered into by his predecessor, and expresses his intention of refusing to comply with its terms. The territorial reform school is declared unnecessary, and a sale of the property is advocated. Woman suffrage is favored, and attention called to the fact that the mines, worth over \$100,000,000 now escape with taxation on only \$3,000,000 value.

COMPLETION OF THE TERRITORIAL CAPITOL.

Senator Elkins has introduced a bill in the United States senate which has been referred to the committee on territories, which ought to pass Congress speedily, as the matter is one of the greatest importance to the territory. The bill reads as follows, and the subject matter is one that explains itself:

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that the legislative assembly of the territory of New Mexico is hereby authorized and empowered to contract a debt on behalf of such territory, in such form and manner as it may deem proper, and to an amount not exceeding the sum of \$50,000, for the purpose of raising the necessary additional funds for the completion and furnishing of the territorial capitol, now in course of erection at Santa Fe: Provided, That nothing in this act shall be construed as to make the government of the United States liable or responsible for the payment of any such debt by this act authorized to be contracted."

ON HISTORIC GROUND.

A rebellion again on the plains of Arabia. What battles have been fought on the sands of the desert. What history has been made there. From the sea to the gulf, from the Nile border land to the frontier of Babylon, what miracles have been wrought. Over the same ground on which the authority of Turkey is again being disputed, there marched in bygone centuries the Syrian legions, and it was thought that their power was invincible, that the nation would last for all time to come. For every foot of the ground a life has been lost in war; for every acre of land, a battle has been fought; a name has been won; for every mile of it a tyrant has ruled as long as we have had history, and far into the shadowy ages of tradition. In that section of the world few kind deeds have been performed, and but little good has come, when we leave out of calculation the Christians who tried to civilize it, and who gave up their lives in sacrifice in

Salaries of Officials. Notwithstanding the fact that the general sentiment of the people of the territory is a unit in favor of having the salaries of the county officials remain as fixed by the last legislature, with the exception of the sheriff and possibly that of the county commissioner, there are indications of a united effort being made by the various officials to have their salaries raised by the legislature.
