WORK OF CONGRESS.

Hear Wants Independence of the Philippines Recognized.

Senate and House Adopt Resolutions on the Death of Dingley.

Eagan Expunging the Vituperate Portions of His Statement.

STORMS RAGING IN THE NORTH.

Washington, Jan. 14.—In the senate today Blind Chaplain Goulden paid a tribute to Nelson Dingley, who died last night.

Hear introduced the following resolution:

Resolved, That the people of the Philippine islands of right ought to be free and independent; that they are absorbed from all allegiance to the Spanish crown, and that all political connection between them and Spain is and ought to be totally dissolved, and they have, therefore, full power to do all acts and things which independent states may of right do; that it is their right to institute a new government for themselves, laying the foundation on such principles and organizing its power in such form as to them shall seem most likely to effect their safety and happiness, and that with these rights the people of the United States do not propose to interfere.

"I should like to have it adopted immediately," said Hear.

"I object," said Davis, chairman of the foreign relations committee.

The resolution went over.

The resolution of Allen for the appointment of a committee of five senators to investigate the conduct of the late war was laid before the senate.

Allen said he had no desire to embarrass the president, but so many complaints had been made by the press and individuals that he thought it time for a rigid, impartial investigation to be made.

He said, no confidence in the "Alger relief commission," which was now conducting an investigation. He criticized the sending of troops to Chickamauga where they were wasted by sickness and death. He intimated that troops of the west were sent to Chickamauga for the benefit of transportation companies.

He declared there had been gross irregularities in handling the commissary and other supplies. He said it had been charged that the supplies were in many cases unfit for use.

He was settled the charges were true. If the troops had been furnished with "embalmed beef," the people and the world had a right to know it.

Interrupting A. M. Spooner, of Wisconsin, criticized him for anticipating an unfair and partial report from the commission and suggested that he might better wait until the report was presented.

Hale delivered a eulogy on Dingley. The senate adjourned after adopting resolutions on his death.

DANGER OF A FLOOD.

Leaves in Ohio Break and Families Driven From Their Homes.

Columbus, Ohio, Jan. 14.—Heavy rains have raised the Seneca river to the danger point. The levees south of West Columbus are already broken. Thirteen families have been driven from their residences, some escaping in boats. There is great danger of a repetition of last year's flood.

THE ARMY REEF.

Witnesses Before Investigation Commission Say It Was Good.

Washington, Jan. 14.—Major H. B. Carvery, inspector general of the staff of General Wilson, and Capt. Frederick A. Smith, now chief of the commissary department of the army, who inspected the first cargo of beef landed in Santiago, were the only witnesses before the war investigating commission today.

Both painted the food conditions, the former as to Porto Rico and the latter as to Cuba, in rosy colors, and said there had been no material complaint.

SENATORIAL DEADLOCK.

Helen, Mont., Jan. 13.—The deadlock in the legislature over the election of a United States senator continues. The republicans voted for Senator T. C. Power. Congress resolved 47, Clark, 29; Toole, 3; Fox, 3; scattering, 5.

NEWS FROM HAWAII.

Supreme Court Denies Chinese the Right to Land in the Islands.

The Associated Press correspondent at Honolulu sends the following news: Honolulu, Jan. 7.—The decision filed by the supreme court yesterday in the last batch of Chinese habeas corpus cases disagrees from the former opinions of

Chief Justice Judd and reverses the situation completely. In other words the Chinese petitioners, who claimed the right to land in Hawaii by virtue of certain permits issued them prior to annexation, are remanded to the custody of the collector to be deported or disposed of as Agent Brown may elect.

The Bennington is taking on stores to-day for a long cruise by way of Wake Island and Guam to Manila. The Bennington will sail to-day.

MILES-BAGAN SCANDAL.

Letter Expunging Objectionable Portions of His Statement.

Washington, Jan. 14.—The key to the solution of the difficulty between General Miles and Bagan was today in the hands of the former. Nothing can be done until he either has revised his declaration or notified the commission of his refusal to do so. Unofficially, word reached the commission that Bagan was carefully expurgating the vituperative portions of his statement and will soon send it back to the commission. Opinions still vary as to whether the withdrawal of the offensive statements will end the incident.

Temperature Dropped Twenty-six Degrees in Fifty-five Minutes in Cleveland.

Cleveland, Jan. 14.—The temperature dropped twenty-six degrees here to-day in fifty-five minutes. A violent northwest gale blew forty miles per hour, and heavy snow was falling. Telegraph communication suffered severely.

"Since we advertised in THE CITIZEN that we would do an exclusive cash shoe business in 1900 and our customers for the benefit of the lowest cash prices, our trade has more than doubled," said A. Stimpert & Co. today. "People who pay cash for what they buy realize that it is to their advantage to trade at a cash store, where they do not have to pay an increased price to make up for the losses in a credit business."

It is stated that Cunningham, the house breaker and thief, who was knocked out by well directed blows and then turned over to the police, is declining to hear and that he will be sent to the county jail by Justice Crawford to await the action of the next grand jury. He was a husky fellow, weighing about 150 pounds. His picture, taken the other day for the reginal gallery, presents a man greatly emaciated and on the verge of death. Close examination of the face of the prisoner is house breaking, no doubt, is the cause of the present condition of Cunningham, the thief.

ENCOURAGING NEWS.

Otis Cables That the Situation at Manila is Improving.

No Truth in Story That American Troops Have Mutinied.

Three Members of Aguinaldo's Cabinet Arrive in This Country.

PHILIPINE ENGINEER MURDERED.

Washington, Jan. 14.—War department officers are encouraged to see upon the receipt of news from General Otis at Manila, that indicated a distinct improvement in the situation there.

The general's dispatch completely negated the absurd story from Madrid that the American troops at Manila mutinied and refused to proceed to Iloilo, necessitating the withdrawal of General Miller's forces from that point. General Otis is master wherever he has planted his foot and is undoubtedly able to carry out any policy as to the natives, which the administration is likely to dictate. There are indications that encourage officials to believe that the conciliatory policy toward the natives recently adopted will succeed, although it cannot be expected that the Philippines will be convinced at once of the absolute faith in which General Otis is acting towards them.

Death of Dingley.

Washington, Jan. 14.—Hon. Nelson Dingley, of Maine, leader of the republicans on the floor of the house of representatives, died here last night at 10:30 o'clock from heart failure, resulting from extreme weakness due to pneumonia. He was unconscious during most of the day and death came quietly without consciousness being regained. All members of the family were at his bedside.

Representative Dingley's illness dated back to December 23. Physicians diagnosed the case as one of grip, so commonly prevailing here, and cautioned the patient to keep to his room. The following Saturday pneumonia developed in the left lung, complicated with great irregularity of the heart.

The funeral services will be held in the house of representatives on Monday next, after which the remains will be shipped to Lewiston, Maine, for burial.

The Andalusia was from Annapolis, Nova Scotia, and came from Shanghai for wheat. The vessel captured in a terrible squall. She had a boom log on each side and one got adrift, causing the other to upset the vessel.

The place was ransacked. Native authorities are investigating the affair, but the Filipinos disclaim any knowledge of the outrage.

BALLOT BOX STOLEN.

New Mexico Election Judge Fires Three Shots at the Thieves.

Springer, N. M., Jan. 4.—Word has reached this city that the ballot box at Buena Vista, one of the largest precincts in the county, was stolen the night after the election.

It appears to have a spirited contest there and the box was taken from the residence of one of the judges, who claims to have fired three shots at the miscreants. This will necessitate an appointment of justice of the peace and constable for the precinct by the county commissioners.

Case Salazar Postmaster.

Washington, Jan. 14.—Postmaster Mora has been appointed postmaster at Casa Salazar, Bernalillo county, New Mexico. Vice Juan Chavez, resigned.

FIRST TERRITORIAL REGIMENT.

Order for Mustered Out Celebrated by the Soldiers Boys at Camp Chase.

Orders were received last Saturday at Camp Chase from Colonel McLeod for the muster out of the First territorial regiment of volunteers. The officers and men will be furnished transportation to their respective homes. The boys of the regiment celebrated the receipt of the news of their muster out by shooting the crackers, firing off their Krags-Jorgensen rifles, having bon fires and the like.

Several of the officers of the regiment were in Washington last week and on Friday last were presented by Governor Otero to the president at the white house, where they were with great cordiality. Among them were Major Page B. Otero, Captains Fall, Stover and Reid.

It is understood that upon muster out, Captain Fall will endeavor to obtain a

staff appointment and an assignment on the staff of General Sanger. If he cannot do that he will very likely go to Cuba in a private capacity. The remainder of the officers and men from New Mexico expect to return to the territory and will be home by the end of the present month.

The following promotions in the New Mexico battalion, to date from December 23rd last, were made by Governor Otero and commissions issued accordingly:

First Lieutenant Page B. Otero to be major of the New Mexico battalion. Second Lieutenant Louis A. Morio to be first lieutenant, company G. Sergeant Hugh Kirkman to be second lieutenant, company E. These promotions were well received by the battalion, where they were announced some days ago, as all the officers named are popular and deserving.

A "SPOTTER'S" WORK.

A Number of Faithful Conductors Likely to Lose Their Jobs.

Quite a stir was caused in local railroad circles to-day when it became known that Conductors Lantry, Richey, Murray and Stevenson had been called off their regular runs and ordered to appear at the superintendent's office to answer certain accusations said to have been filed against them by the secret service men on the road. The investigation is in progress as the Otis goes to press. It is said that Conductors Lantry and Stevenson, on the south end, have already been let out of their jobs, and that others are likely to go—Otis.

of a very tight fix and was instrumental

in saving the territory quite a sum of

money in the purchase and handling of

public material for the new capitol

building.

The governor appeared before the

senate and house committees on terri-

tory in behalf of several New Mexico

measures pending, saw the individual

members of those committees and re-

moved some bad impressions which had

been made upon some senators and re-

presentative by interested persons in New

Mexico, says the New Mexican.

The governor made an argument before

Commissioner Herman, of the general

land office, in favor of an appropriation

of \$20,000 to carry into effect the pro-

visions of the act passed at the last ses-

sion granting certain lands to New Mexico

territorial and educational institutions

and for the support of the territorial

public schools. The commissioner was

won over, although at first strongly op-

posed, and stated if Delegate Ferguson

would introduce a bill embodying the

appropriation asked for he would recom-

mend it to congress. The delegate, how-

ever, seems to be somewhat disgruntled

and it is not known now whether he will

take this matter up or not.

Many strong and good ideas were put

in by Governor Otero for the cause of

stakehold for New Mexico and the cause

looks bright, although it is not believed

that anything can be done during the

present session, on account of the great

amount of important business for

congress and the short space of time

wherein to get through with it.

Departmental matters of interest to

New Mexico were looked after carefully

and much good was accomplished, as

will appear in due time. New positions

appointments were arranged in a man-

ner that was believed to be conducive

to the best interests of the people at

large and beneficial to republican party

interests, for the best interests of the

people and those of the republican party

go well together.

The governor's last report on the

progress and resources of New Mexico

has been published by the government

printing office and a few copies were

received by the governor while in Wash-

ington. The volume contains 252 pages

and numerous illustrations. The in-

terior department officials congratulated

the governor very warmly upon the com-

pleteness and general excellence of the

report. One thousand copies will be

furnished the executive for free distribu-

tion.

For the next few days Governor Otero

will be very busy putting his message, to

the legislature, and his annual report, in

shape. The governor for the message has

gathered during his term of office, but

will take time to get it up in

proper form.

The Grappler Successfully Treated.

"I have just recovered from the second

attack of the Grappler this year," says Mr.

James A. Jones, publisher of the leader,

Mexico, Texas. In the latter case I used

the Grappler and was cured in a few

days. I think with considerable success, only

being a little over two days against

the Grappler for the first time. The second

attack of the Grappler would have been

equally as bad as the first but for the

use of this remedy, as I had to go to

bed in about six hours after being at-
