## MILES ROASTED.

Commissary General Egan Calls  
Him All Kinds of a Liar.Says He Should be Drummed Out of  
the Service and Imprisoned.Records of United Mine Workers Muti-  
ated by Unknown Persons.

## TROUBLE FEARED AT PANAMA.

Washington, Jan. 12.—Commissary General Egan, in his testimony before the war investigation committee this afternoon, called Major General Miles, commanding the army, "a liar, who lied in every part of his body," who perpetrated gross scandal and who should be drummed out of service, imprisoned and buried from every club. His character led his interview as "dile."

Egan began by calling attention to Miles' appointment of Major John D. Black, a civilian, as chief staff, and said this was largely responsible for the trouble that followed. He said Major Black had been furnished with \$5,000 before starting for Porto Rico and he apparently had not known enough to provide himself with a check book and had not left his signature with the secretary of the treasury nor made any other preparation for availing himself of the funds at his command. Experienced disbursing officers in the island had in aggregate over \$400,000 yet Miles complained that there were no paymasters, so the soldiers had no money with which to buy food for themselves. Miles had then called on the department to put \$500,000 more in the hands of Major Black. This Egan did do, putting \$40,000 to Black's credit in New York. Egan referred to the mysterious manner in which papers disappeared from the files of the war department.

Egan said Miles' statement about embalmers being a lie, and Surgeon Daly's report that chemicals had been injected was likewise a lie; so also were his reports regarding meat procured by Miles from other officers.

## UNITED MINE WORKERS.

Unknown Persons Destroy Part of Their Records in Pittsburgh.

Pittsburgh, Jan. 12.—When the fourth day's session of the United Mine Workers' convention was called to order the chairmen of the investigating committee reported that the committee had worked on the books all night and would not be ready to report for several hours. Egan was taken until this afternoon. Prior to the resumption of the session a sensation was sprung by the discovery that during the absence of the investigating committee all breakfast unknown persons had entered the committee rooms at the St. Charles hotel and mutilated the records. Eighteen pages were torn from the ledger and carried away, while many other pages were blotted and blurred. The thief or thieves left no clue. The outrage caused intense indignation. The miners' officials believe the object of the mutilation of the books was to destroy the records of the Illinois strike.

## LOST THEIR MONEY.

New York Capitalists Sunk \$250,000 in Arizona Copper Mines.

New York, Jan. 12.—A dispatch to the Times from Globeville, Ariz., says that the copper boom that burst at Clifton, Graham county, Arizona, caused a loss of \$250,000 to the stockholders in this city. About fifteen years ago a company was formed here to work nine claims in Clifton. Experts reported the claims fabulously rich, and the stock was eagerly subscribed. After awhile dissensions crept into the company. Last year, when a call for assessments to hold the property was made, but one stockholder responded. He put up enough to hold six claims, and the remaining six claims were jumped by Arizona miners. This year the remaining three claims were allowed to lapse. This is the end of \$250,000 subscribed by the stockholders.

## Bingley Will Recover.

Washington, Jan. 10.—At 11 o'clock Dr. Dale said that unless something unforeseen took place Bingley would recover.

## MORE TROUBLE FEARED.

Governor Tanner Will Soon Recall Troops From Panama, Ill.

Pana, Ill., Jan. 12.—Governor Tanner has notified Sheriff Downey and Lieut. Col. Frank Wells, in command of the state militia post here, of his intention at an early date to recall all troops, leaving matters entirely in control of Sheriff Downey and deputies. Operators and friends anticipate trouble after the troops depart.

## Disagree on Lumber Schedule.

Washington, Jan. 12.—Representatives of American and Canadian lumber interests met in conference today. Lumber, it is said, has been the rock on which the United States and Canadian joint commissioners split in every effort at an

agreement on the reciprocity. The Canadians have been unwilling to make any reasonable concessions with important reciprocal advantages on lumber.

Empty Honor for Murphy.

Albany, N. Y., Jan. 12.—The democratic legislative caucus today nominated Edward Murphy, Jr., for United States senator to succeed himself. The democrats are in the minority.

Disastrous Fire Raging.

Halifax, Nova Scotia, Jan. 12.—A serious fire is raging in the town of Bridgewater. About thirty of the business places are reported destroyed. Wire communication is lost.

A new pledge, binding the signers not to vote for Quay until he is acquitted, was signed by forty-three senators and members of the house present. ## THE ELKS' BANQUET.

## The Visitors From Las Vegas and Santa Fe Entertained.

A Few Pointers Gathered From the  
Herd at the Depot.Manila Is Quiet and Many Natives Are  
Returning.

## BANK OFFICIALS ARRESTED.

The visiting herd of Elks, after participating in the ceremonies of initiation of members and installation of officers of Albuquerque Lodge 461, B. P. O. E. and incidentally enjoying a royal good time, left on their special train for home at 11 o'clock this forenoon, accompanied by their host and colored valet, who were such picturesque features of the party. The visitors are all jolly good fellows and Albuquerque extends to them a cordial invitation to visit the city again.

Yesterday afternoon, commencing at 2:30 o'clock, the following members of the new lodge were initiated:

B. Ruppe, Chas. Maunard, M. M. Cruise, Arthur Everett, W. T. Moore, F. Lowen, Thos. Baer, F. Levy, Frank McKee, W. Hesselein, J. H. O'Reilly, G. A. Kaeman, John Trimble, Dr. J. B. Haynes, T. N. Wilkerson, Ed. Lemble, C. F. Myers, W. L. Hathaway, W. Karickson, Thos. E. Hubbell, Ed. Newcomer, Dr. J. H. Wroth, W. N. McGowan, E. W. Hubson.

Most of the above named gentlemen have the highest respect for the goat belonging to the Las Vegas Elks and speak in terms of highest admiration for his butting qualities. Some of them, however, who are carrying around black and blue spots on certain parts of their body to-day are disposed to think that he used more force than the occasion warranted.

Dr. J. F. Pearce, C. K. Newhall, J. P. Goodlander and A. D. Stockett, charter members, were unable to be present at the initiation exercises yesterday afternoon, but they can be initiated any time within ninety days.

Last evening District Deputy R. G. Murphy, of Las Vegas, installed the following officers:

Knighted—B. Ruppe.  
Kneeling Leading Knight—T. N. Wilkerson.  
Kneeling Loyal Knight—Louis Baer.  
Kneeling Lecturing Knight—Frank McKee.

Secretary—M. M. Cruise.  
Treasurer—F. Lowenthal.  
Tyler—Dr. J. B. Haynes.  
Chaplain—Dr. J. H. Wroth.  
Inner Guard—John Trimble.

Trustees—F. E. Sturges, Chas. Maunard, J. H. O'Reilly.

Owing to sickness, C. K. Newhall, an aspirant, was unable to be present.

The installation ceremonies over the home and visiting Elks repaired to the San Felipe hotel, where a banquet fit for the gods was served. Before the gathering sat down to the banquet tables, R. G. Murphy, of Las Vegas, proposed a silent toast to the memory of the departed brethren of the order.

The company then did ample justice to the numerous courses on the menu, and vast quantities of solid and liquid refreshments soon reposed in the digestive cavities of the Elks. The tables were cleared of their dishes and the intellectual feast commenced. Exalted Ruler B. Ruppe acted as toastmaster, and started the ball rolling by welcoming the visitors to the city in a humorous speech.

The toastmaster first called upon Dr. G. T. Gould, of Las Vegas, who responded to the toast, "The Elks."

B. F. Forsythe, of Las Vegas, followed with a response to the toast "The Good of the Order."

Jake Levy, of Santa Fe, added variety to the entertainment by giving a song and dance.

W. R. Stewart, of Las Vegas, recited an original poem entitled, "Beautiful Snow."

J. K. Morrison, of Prescott, A. T., responded to the toast, "Benefits of the Order."

J. H. O'Reilly next entertained the assemblage with an incomparable song and dances.

T. N. Wilkerson spoke in a humorous vein on "A Jolly Good Fellow."

G. W. Hartman, of Las Vegas, responded to the toast, "The Craft in New Mexico," and J. W. Sheridan brought the formal program of toasts to an end by a speech on "Law and Order."

Informal toasts and singing followed and Floyd Whitson's orchestra furnished music.

It was far into the morning when the festivities were brought to a close and the banqueters took their departure for home.

ELKS EUROPEAN AT THE DEPOT.

The Las Vegas and Santa Fe Elks, who were the guests of the local Elks, returned to their respective corners on a special train going north this morning. Conductor J. B. Cunningham, a famous Elks, being in charge of the train. The Elks representative mingled with the herd at the depot and picked up the following pointers:

Dr. Gould—"The Elks of Albuquerque are royal entertainers."

Frank Forsythe—"I had more fun on this trip to Albuquerque than on any previous visit. The Elks are all right."

W. H. Davis—"I am the fattest Elks in the several herds in New Mexico, weighing 282 pounds. I will never forget Albuquerque and the treatment accorded by the Elks at last night's banquet. I got away with about ten pounds of turkey, besides about three gallons of lemonade."

Joe Sheridan—"On behalf of the five Elks from Santa Fe, I wish THE CITIZEN to say that the Albuquerque herd can

not be excused as entertainers and royal good fellows. When the train reaches Lamy, we will mingle with Ouderdonk's goats for several hours before continuing on to the capital."

R. E. Perry—"The Elks of Albuquerque can have almost anything from me when they visit Las Vegas. I will never forget my visit to the Queen City of the Rio Grande."

Al. Quinly and Ed. French—"Our friends in Albuquerque were out in force, and left nothing undone for our comfort."

Walter Benjamin—"My visit this time reminded me very much of the days of base ball years ago, when the royal good fellows of those early days always met us at the depot with a brass band. The Elks of Albuquerque, like the old time base ball players, are O. K."

G. L. Leech—"When I get back to Raton I will sing the praises of the Albuquerque Elks and the good town they represent."

H. W. Kelly—"There is not a slacker Elks in the whole herd of visitors for the reason that the Albuquerque Elks are swift enough to keep them going."

## BANKERS IN TROUBLE.

President and Director of Trademark Bank, New York, Arrested.

New York, Jan. 12.—James McNaughton, former president of the Trademark National bank; Allen McNaughton, president of the Trademark bank, were arrested to-day and arraigned before United States Commissioner Shields, charged with violating the revised statutes by certifying a check drawn on the Trademark National bank to the order of the United States Trust company for \$10,000, when the trust company, as alleged, had no funds in the bank. Both pleaded not guilty, and were held in \$25,000 bail each for examination next Tuesday.

## REASSURING NEWS.

## SHE IS MARRIED.

Miss Helen V. Herzog Finds a Husband in Arizona.

Mr. G. W. Ingalls, who was formerly of Chicago but at present located at Prescott, Arizona, and Miss Helen Virginia Herzog, formerly of Brooklyn, but at present a resident of Phoenix, were married Monday morning by Rev. E. A. Penick, at the residence of the latter.—Phoenix Herald, Jan. 10.

George William Ingalls and Miss Helen Virginia Herzog were married Monday by the Rev. Mr. Penick, of Trinity Episcopal church. Mr. Ingalls is a resident of Prescott, where he will reside. He formerly lived in Chicago. The bride, who has been a resident of Phoenix for a short time past, lately came here from Brooklyn, New York.—Phoenix Gazette, Jan. 10.

THE CITIZEN is pleased to publish the two clippings above, announcing the marriage of Miss Helen Virginia Herzog, the young lady who gained considerable notoriety and publicity through the territorial papers last summer on account of her love affair with one, W. I. Mitchell, and also on account of her libel suit against THE CITIZEN for publishing the news, which she, at the instigation of her self-confessed guardian, L. L. Lyon, claimed had injured her character and reputation to the amount of about \$10,000.

If the above items, telling the public about the marriage of Miss Herzog, are true, her "character and reputation" was not much damaged, for the reason that she found a better lover than Mitchell and in consequence accepted him, the nuptial knot being tied in Phoenix, Ariz., last Monday morning.

THE CITIZEN extends congratulations to the newly-wedded couple, and would suggest to the happy husband, for the sake of future peace and happiness in his family, that he put a "solid quietus" on a regular solar plexus—on L. L. Lyon, the Denver commercial tourist, who did more than any other agency to injure Miss Herzog's character by traveling with her throughout the southwest and proclaiming himself her guardian.

New York, Jan. 12.—Money on call, 2 1/2 to 3 per cent. Prime mercantile paper, 3 1/2 to 4 per cent.

## IN WASHINGTON.

Senate in Executive Session  
Considering Peace Treaty.Efforts Being Made to Have Dis-  
cussion in Open Session.Resolution Passed Thanking the Red  
Cross Society for its Services.

## PHILIPPINE POLICY ATTACKED.

Washington, Jan. 12.—Allison reported the Indian appropriation bill and gave notice that he would call it up to-morrow.

Hawley, of Connecticut, of the military affairs committee, reported a joint resolution tendering the thanks of congress to Clara Barton and the officers and agents of the Red Cross society for their humane services towards the Armenians and both sides in the Hispano-American war. The resolution was passed.

The senate went into executive session. A part of the executive session was spent in considering the motion of Senator Berry, of Arkansas, to have the discussion of the peace treaty take place in open session. Vest said the question at issue was of such general importance that the public was entitled to know all that was said and done by public servants. Frye, Hale and others spoke in opposition contending for propriety following precedent in the present instance. Davis, Frey and Gray, members of the peace commission, united in saying that their experience in formulating the treaty convinced them that much would come up in considering it in the senate which should not be given to the public. It became evident that the chances of Berry's amendment had been considerably impaired.

IN THE HOUSE.

Washington, Jan. 12.—The house today promptly went into a committee of the whole on the diplomatic consular appropriation bill. It was arranged that there should be two hours and a half a side for general debate. Dinwiddie, democrat, of Arkansas, said the members of his side wanted an opportunity to address the house on general subjects, but as far as he was aware they had no objection to any item of the bill.

Representative Curran, of Tennessee, made a vigorous attack in the house on the administration's Philippine policy, denouncing it as launching the government on a revolutionary career of conquest and criminal aggression.

## A RUPTURE EXPECTED.

Between Mine Workers and Operators in Their Convention Next Week.

Pittsburg, Pa., Jan. 12.—The rupture at next week's convention of mine workers and operators over the adoption of an interstate agreement is regarded as probable. It developed to-day that many of the operators, opposed to the present agreement, intend to oppose the "mine" clause, and will insist upon a ten-hour day instead of eight hours, as at present, and will demand a reduction of wages. It is the general sentiment among the miners that any attempt to increase the hours of labor, cut wages or strike out important clauses, will be vigorously fought in the convention.

ALBUQUERQUE, — JAN. 12, 1929

ACTING GOVERNOR WALLACE has appointed Candelario Martinez, of Santa Fe, a notary public in and for Santa Fe county.

PUT a line for Albuquerque in every letter you write. It is a little late for New Year resolves but never too late to undertake such a work as that.

HON. MARCELINO BACA, one of the Bernalillo county representatives, intends to introduce a bill favoring the building of a bridge across the Rio Grande near the Indian village of Cochiti.

WHAT the Filipinos need is a thorough lifting. If they see it to burn Iloilo, give them a chance; they will be the principal sufferers. Such people should be encouraged in having their way.

It looks as though the civil service commission would be knocked out of existence by the failure of congress to make an appropriation for its maintenance. The house in committee of the whole has refused the appropriation.

WILLIAM WALLACE, an American prospector of many years' experience in Mexico, has made what is regarded as one of the most important and valuable strikes ever made in northern Chihuahua. Wallace is known in Coahuila county and other portions of Arizona.

The New Mexican says: "Many of the papers of the state of New York are urging tax reforms upon the legislature. New Mexico seems to be in the same boat with the Empire state in this respect, only that it is altogether probable that in this territory there are more tax-dodgers in proportion to the population than in New York."

CALIFORNIA newspapers are kicking on the adulteration of the wines of that state by unscrupulous dealers. A recent shipment to the City of Mexico was found to be adulterated by the use of methylated acid and the shipment was destroyed by direction of the Mexican government. It will not take much of that kind of thing to destroy the California wine trade.

THE expert telegrapher is said to be doomed. A printing telegraph machine has been invented that will do the work of six operators, and can be run by a boy or girl. The machine can be manufactured for \$10. It is said the Western Union company will take the machines as fast as they can be turned out and will save a million dollars a month when all its offices are equipped with them. And what is to become of the people thrown out of employment by such inventions?

THE Roswell Record, its issue of January 9, announces the retirement of J. E. Lea and Lucius H. Lea, proprietors and editors, their places being taken by E. O. Creighton and A. A. Burnett. The new management in the transfer says: "Politically, there will be no change in the policy of the paper, but the Record will attempt, at all times, to give merit to the deserved reward, and to denounce incompetence and fraud wherever found." THE CITIZEN wishes the Record, under the guidance of Messrs. Creighton & Burnett, good luck and prosperity.

PROF. ARTHUR T. HADLEY, the new president of the American Economic Association, is a distinguished teacher of the science with which the organization concerns itself. For some years he has been professor of economics at Yale, and his writings upon that topic have been widely read. His text book, "Economics," is one of the most useful volumes of its kind, and is held in high esteem. Prof. Hadley has a reputation as an economist that is not limited to the United States, and he is in every way fitted for the high post voted him by his fellows in the association. He is the trainer of Yale's young debaters, and is very popular with the students. Among the candidates prominently mentioned for the presidency of the great school at New Haven, Prof. Hadley is one of the strongest and ablest.

CONGRESS WAS DILATORY.  
Gen. ARTHUR J. PARKER, formerly commander of the National Guard of New York, said recently that early in 1924 a movement was started to equip the National Guard with the Krag-Jorgensen rifle using smokeless powder. The general refers to the state senate journal of April 25, 1924, which shows the following:

"Resolved, That our senators and representatives in congress be requested to make an earnest effort to secure the passage of an act by that body to provide for the issue to the organized militia of the several states of the United States magazine rifles, model 1922, soon as the same may be manufactured."

General Parker said that congress taken up the matter the Krag-Jorgensen rifle would have been used in the late war and many lives would have been saved.

FARMING IN PORTO RICO.  
The general opinion seems to be, among those who have been in Porto Rico, that the products of the island will not to any great degree interfere with the United States production. The agriculture is such as will not generally succeed in the United States, but on the other hand, the people consume largely of products which they cannot or do not grow, and which the farmer of the United States raises.

It is difficult to get people of the tropics to raise any crop requiring much cultivation. Three crops of corn will grow in Central America on the same land within the year one excellent crop, one medium and one crop of rubbish, according to the season and the rainfall, yet, because of the luxuriant growth of weeds and grass, requiring constant cutting and attention, the natives raise little corn, buying it largely from southern states, and pay high rates for freight.

LIVE STOCK CONVENTION.  
One of the most important features in the convention with the National Live Stock convention which meets at Denver on the 24th will be a stock register for the use of the delegates and visitors. Nearly every stock man attending the meeting will have the privilege of registering their names, postoffice address and whether they desire to buy or sell, as well as the amount. This will serve as the means of making the stock men acquainted with each other and facilitate business. Any person in any portion of the union, who is prevented from attending the convention, can have his name registered by sending them to the recording secretary of the association.

MORE trees mean more shade, more beauty, more attractions to home-seekers and more dollars in the pockets of Albuquerqueans in addition to more happiness for ourselves.  
Output of the Klondike.  
No one will exactly know just how much gold was taken from the Klondike fields the past season. Since England has imposed a royalty, the miners have adopted all sorts of ruses to evade the law. It is rather difficult to judge taxes, but it is more difficult to judge a tax and the grip at this time of the year. When the system is weakened by such attacks, and the blood becomes thin and impoverished, the best medicine to take is Hostetter's Stomach Bitters. This remedy builds up the system. Besides regulating digestion, it overcomes constipation. It is good for the kidneys and liver, too, stimulating these organs into the proper performance of their functions. Nothing is so good for malaria.

LA GRIPPE SUCCESSFULLY TREATED.  
"I have just recovered from the second attack of la grippe this year," says Mr. James A. Jones, publisher of the Leader, Dallas, Texas. "I, the latter case, was 'Chamberlain's Cough Remedy,' and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being attacked with it, while in the first case I was able to attend to business about two days before getting down." For sale by all druggists.

Remarkable Rescue.  
Mrs. Michael Curtin, Plainfield, Ill. makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, recovered at J. H. O'Brien & Co.'s drug store. Large bottles 50 cents and \$1.00.

How You're Lame?  
"Alling you young fellow, you're lame, and that's good for them, and that's good for you."

From the adjacent mountains affords great relief, if not absolute cure, which it is liable to do, as it has satisfied many from the doctor's door. We are in our midst to do to speak for themselves.

Murphy will probably reach Albuquerque, Thursday night, January 12, to begin the work of making vision and bearing examinations, as per bulletin No. 30, dated December 8. All engineers and firemen will be expected to call on him at an early date to take the required examination.

As announced in the Herald a little over two months ago, El Paso will, ere long, be connected by rail with the Salado coal fields and cheap fuel is assured. Recently President Kddy succeeded in floating \$100,000 worth of extension bonds of the railway, and the contract is ready for the building of the extension. Trains will be running by next summer. The line to be built extends from La Luz to Salado and will be about eighty miles long.

COLORADO & SOUTHERN RAILROAD.  
Charles Wheeler, of Denver, is in the city on business before the territorial board of equalization, and will remain until tomorrow, says the New Mexican.

Mr. Wheeler is the secretary and treasurer of the Colorado & Southern railroad, the company which has undertaken the re-construction of the Union Pacific, Denver & Gulf road, and is here to present the interests of his company to the board.

The transfer of the property of the old Union Pacific, Denver & Gulf road to the new company will take place Wednesday night at midnight, and the corporation will then take active control of the properties.

The purpose of the new company is to make many improvements and to spend considerable money in placing the different lines of road making up the property in a paying condition, and the patrons of the New Mexico lines are promised better service than has ever been known on the road before.

That part of the system running southeast from Trinidad has never been a paying proposition, but Mr. Wheeler is of the opinion that the changes and betterments in the service will soon change all this in a few years, and thinks the rapid settlement of northwestern Texas which is now under way will add materially to the wealth of the sections affected and to the revenue of his road.

On last Sunday morning Robert Mobley, the brother of the young man who recently died from smallpox at the post house, northwest of town, succumbed to the same disease. The circumstances surrounding the death of these two young men were peculiarly sad. A few weeks ago the two, both mere boys, started from their home at Paola, Kan., to Roswell, one coming for the benefit of the climate, and the other coming to care for his sick. At Pecos, Texas, they stopped at a hotel and were, it is said, given a room from which a smallpox patient had been removed only a few hours. The result was that soon after arriving there the young man was taken with the disease, and both were consigned to a quarantine house two and a half miles from town. While there, though everything possible was done by the authorities and people of Roswell to care for them and render them every comfort as well as well as medical aid, yet, caused by their situation, had much to do with their fate. Fortunately for Roswell the nature of the disease was discovered in time to prevent its spread, and now all danger to the town, from that disease, is past.—Roswell Record.

Alamogordo to Have Electric Lights.  
Among the numerous other advantages Alamogordo has to offer to investors and locators are cheap electric lights, says the Sacramento Chief. The Alamogordo Lumber company has made arrangements and will at once put electric lights in the town at the low price of 50 cents each per month. The electricity will be furnished from the big dynamo at the saw mill. The rate of 50 cents per month for incandescent lights is very cheap. Alamogordo pays \$1 per month. With cheap lights, cheap building material, good water and plenty of it, cheap fuel, a perfect climate, etc., Alamogordo is ahead of all competitors as a home-seeker's and health-seeker's paradise.

**Mr. Crittenton Leaves.**

Evangelist C. N. Crittenton and his co-workers held their farewell services at the Armory hall last night. The crowd in attendance was the largest that turned out to any of the meetings that have been held in the city for the past ten days.

The services were very impressive, and Mr. Crittenton's farewell address breathed with deep feeling and emotion. Rev. F. H. Allen, of the Ministers' association of this city, thanked Mr. Crittenton for the good work he had done here, and said that never before had the city been so generally and deeply stirred in matters of religion. Mr. Turner, who accompanied Mr. Moody, attended the meeting and sang one solo. At the close of the services a large number of people accompanied Mr. Crittenton and party to the depot, where all joined in singing "Till We Meet Again," and bade the consecrated workers a last adieu.

This evening Mr. Crittenton will hold the first services in Gallup.

**Moody Meeting To-Night.**

The services this evening will commence promptly at 7 o'clock for the reason that Mr. Moody will leave on the train at 9:30 p. m. for Phoenix, where he will hold a series of meetings.
