IMMEDIATE IMPROVEMENT

In the Service and Water Supply of the City to Be Made.

15,000 FEET NEW MAINS

Of 8 and 10 Inch Dimensions Ordered
---Life Giving Fluid to Be Furnished in Abundance.

Manager Frank Owen, of the Santa Fe Water and Light Company, is feeling exceedingly good. Since his arrival in this city in April last, and the assuming of the duties of his present position, he has carefully and diligently examined the system of the company, and has come to the conclusion that many repairs and improvements should be made in order to place the system second to none and to enable it to render the service which it can, if properly developed and kept thereafter in first-class condition. Some time ago he made his report to the company and President Edgar L. Street has visited the city several times during the past four months for the purpose of investigating Mr. Owen's reports and recommendations. Mr. Street evidently was more than favorably impressed, as this morning Mr. Owen received official notification from the New York headquarters of the company, that the funds which he reported would be necessary for a thorough improvement of the system, have been granted and authorizing him to take the necessary steps to carry his plans into effect and that at once. In the letter of instructions, Mr. Street uses the following language: "I shall be pleased to have you take up these matters at once and push them through as soon as possible."

Among these projects is one which will cost the company a great deal of money, but will greatly improve the service and will give the laboring men of this city considerable work this fall and winter. The present wrought iron mains are to be taken up and will be replaced with cast iron pipes of greater dimensions and of the greatest possible strength and durability. All the old fire hydrants in the city limits will be replaced with the best improved and most modern kind now in use in the best regulated cities in the country. All mains which have been found to be too small for fire purposes will be replaced with mains of larger dimensions and of greatly increased capacity. A six-inch main will be the smallest within the city limits and the new mains to the penitentiary and to the U. S. Indian Industrial School will be of eight-inch dimensions and will be of cast iron. This will enable the company to give the best service in cases of fire, as well as for domestic and irrigation purposes.

After these strong mains have been put in the company will be enabled to use the highest possible pressure from the large reservoir without danger to the pipes and this, of course, means increased security and safety should fire break out.

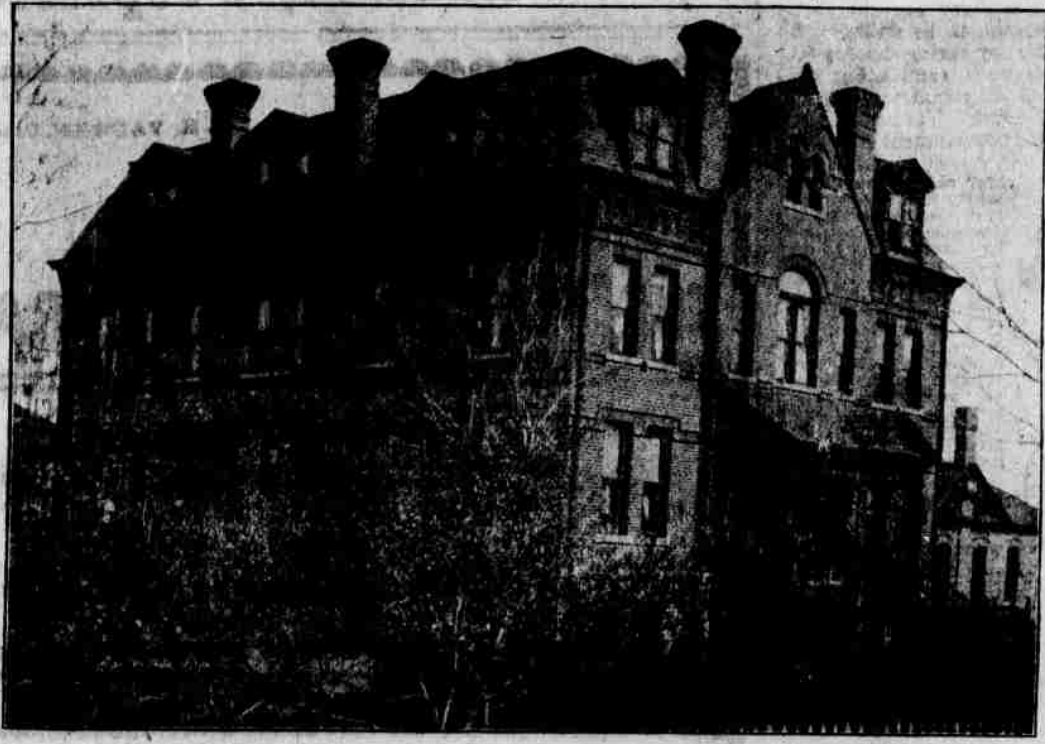

There are now two reservoirs at the power house, one large and one small. The capacity of the smaller one will be increased so it will hold the same amount of water as the large one and that the supply of either of them can be used independently and whenever occasion requires, separately. Concrete bottoms will be placed in these two reservoirs. The mains above detailed will cost in the neighborhood of \$20,000, and judging by the opinions of experts, are sure to give the city of Santa Fe as excellent and as large a system as will be needed for many years to come and even with a very large increase in population.

Mr. Owen has other plans for increasing the water supply of the city, for fire, domestic and irrigation purposes, but these have not yet been fully matured. It is expected, however, that as soon as they are fully considered by the officers of the company, he will be given authority to carry them out. This will mean another great outlay of money, work for the laboring classes and a supply of water which will obviate in the future all danger of possible scarcity or shortage and will enable large amounts of the life-giving fluid to be used for irrigation of orchards and vegetable gardens.

Manager Owen has already ordered 15,000 feet of cast iron pipe from the Dimmick Pipe Company, at Bessemer, Alabama. Mr. Owen expects this shipment to arrive within three weeks and to have a great deal of it placed in the ground within a month. He desires to do this work before cold weather sets in and will bend every energy and employ as many men as will be found necessary to bring this about.

The management of the Santa Fe Water Company fully realize that the growth, advancement and prosperity of this city means the prosperity of the company and dividends for the stockholders, as well as interest on its

COLORADO DEMOCRATS

Met in Convention at Denver Today For the Selection of a State Ticket.

Denver, Colo., Sept. 21.—The Democratic State Convention was called to order at 11:20 o'clock this morning by State Chairman Milton Smith. A delay was caused by a caucus being held by the Denver delegates on the subject of the governorship. Senator Henry M. Teller was nominated for temporary chairman and unanimously elected. Senator Teller spoke at length on the administration of Governor Peabody. He said that the Democratic party was the party of law and order, although the Republicans claimed that distinction. He believed and was confident that the expressed sentiment of the convention was that the law should be obeyed by the highest as well as the humblest men in the state. If this condition cannot be secured the people are not fit for self government. This was no small question, he said, and civil government of the state now depends on whether the Democrats can nominate a ticket which can be elected or whether the people of the state must submit to another period of what he termed anarchy and misrule. For this reason he warned the convention that they must be careful in the selection of their candidate for governor as the welfare of the state is bound up in the selection of that delegate. After the appointment of the committees on resolutions, rules and credentials, the convention took a recess until four o'clock this afternoon.

DECLINED NOMINATION

C. J. Hughes, Jr., Refused Democratic Nomination for Governor of Colorado.

Denver, Colo., Sept. 21.—At a caucus today of the Denver delegates to the Democratic State Convention the announcement was made that Charles J. Hughes, Jr., absolutely refused the nomination for governor. The committee was appointed to wait upon former Governor Alva Adams and tender him the support of the Denver delegation. Should he refuse, it is said that John F. Shafroth will probably be the next choice of the Denver delegation.

KING OF SERBIA CROWNED TODAY

bonds, and has therefore concluded to do everything practicable for the increase and efficiency of its water service and to commence this work immediately. In this case the old saying, "One hand washes the other" is very applicable and if both hands are willing to do what is expected of them the result can and will prove of the greatest benefit to all concerned.

RUSSIANS LOST MANY OFFICERS

Battle of Liao Yang Resulted in the Death of Four Hundred and Seventy-Five Leaders of Various Rank, According to the Official Reports.

Kuropatkin, telegraphing under yesterday's date, says the situation at the front is unchanged. The Japanese advance detachments are feeling out the strength and disposition of the Russian forces and the Japanese flanking columns are pressing northward. Skirmishes between the outposts and patrol parties occur daily, but no engagement of importance is expected for some days.

Many Officers Killed. St. Petersburg, Sept. 21.—The official returns place the casualties among the Russian officers at the battle of Liao Yang at 465 killed or wounded, including six generals and thirty-nine field officers. Eighty officers of lower rank were also killed.

Armies Keeping in Touch. Tokio, Sept. 21.—A telegram received today from the military headquarters in Manchuria says that portions of the Russian troops engaged in a reconnaissance while returning from Ping Taitze and continued in touch with the Japanese lines along the Mukden and Fushu roads on September 18th. There was no fighting.

Another Engagement Soon. Tokio, Sept. 21.—The impression is growing here that an engagement will soon take place at Mukden. Kuropatkin is evidently preparing to make a determined resistance to any attempt to dispossess him and is entrenching and constructing defenses. He has an immense force available but the impression prevails that the Pass would be a more favorable place for a defense. The Russians, however, are unwilling to lose the prestige which would follow the abandonment of Mukden. Both armies are now resting and have fully recovered from the effects of the fight at Liao Yang. There is much speculation now as to the extent of the fall and winter campaign, but it is generally thought that Oyama will continue pressing Kuropatkin back until winter falls and will then strongly guard his advance line until spring. A renewal of the attack upon Port Arthur on newer and more aggressive lines is expected this week, and it is predicted that the reduction of the fortress will be accomplished within ten days or a fortnight.

Changing Gauge of Railroad. General Kuropatkin's Headquarters in Field, via Fusan, Tuesday.—The Japanese are slowly pushing northward. The outposts are in touch near Yental and skirmishes between the outposts and patrol parties occur daily. It is believed that the Russians are gathering in force at Yental, preparatory to making a strong stand for the protection of the coal mines. The Japanese are rapidly changing the gauge of the railroad from New Chwang and probably it will be in operation to Liao Yang in a fortnight. They are rushing forward supplies of ammunition.

Russian Cavalry Repulse Attack. St. Petersburg, Sept. 21.—Kuropatkin telegraphs that the Japanese yesterday attacked the position occupied by the Russians in Da Pass and that

they were repulsed and their turning movement checked by the Russian cavalry, with machine guns.

An Unfounded Report. St. Petersburg, Sept. 21.—Reports that General Kuropatkin had crossed the Hun River at Fushan have turned out to be false. The Russians strongly hold the road to Fushan and Bentslaputze. It is pointed out if the Japanese had occupied Fushan the Russians would be compelled to evacuate Mukden, since Fushan is nearer to Tie Pass.

Promoted for Merit. St. Petersburg, Sept. 21.—The appointment of Grand Duke Sergius today to the specially created position of post inspector general of artillery, practically confers on him the charge of the whole artillery of the Russian army although his father, the Grand Duke Michael, retains the nominal title of grand master of ordnance. Sergius is only 35 years old and won his promotion by sheer merit.

SPLIT IN CONGRESSIONAL CONVENTION

Two Candidates Were Nominated By Two Sets of Delegates From Separate Factions.

Denver, Colo., Sept. 21.—The First District Democratic Convention, which met here today, nominated Clay B. Whitford for congress, by acclamation. At the same time the delegates to the congressional convention were nominating Whitford, a number of other delegates met at another place and nominated James P. Mulligan for congressman. A split in the congressional convention is said to be due to certain leaders forcing through the county convention last Monday instructions for Whitford. Both factions claim they had a majority of the delegates at their convention. The Mullins delegates had not been properly certified by the county convention, through some error, and for this reason they were not allowed to sit with the convention which nominated Whitford. It seems likely that Whitford will win out in the contest, but the Mullins people claim they have the right on their side and are being jobbed.

LARGE FIRE IN CANADA

Conflagration at Montreal Today Does Damage Estimated at \$750,000.

Montreal, Canada, Sept. 21.—The buildings of the Canada Hardware Company, the Canadian branch of the London Thread Trust and Chaput & Company, one of the largest wholesale grocery and liquor houses in Canada, burned today. The loss is \$750,000.

GOLD HAS BEEN FOUND

Strike Made Near Tres Piedras and Has Created Much Excitement in That Vicinity.

Special to the New Mexican. Tres Piedras, N. M., Sept. 21.—With a pint bottle full of gold dust and nuggets, sheepherder came to town today and reported having found the gold beside a skeleton fifteen miles west of here. The news spread like wildfire, and the herder was soon the center of a crowd of inquiring citizens, most of whom were anxious to locate the exact spot where the gold had been found.

The herder said that near the remains are indications of an old camp of poles and brush. A prospector's pick and shovel, skillet and coffee boiler, and also the barrel and breech of an old-time firearm, with the woodwork all gone, were found beside the skeleton.

There is a great rush toward the place. Every burro, horse and wagon has been pressed into service, and the vicinity is haunted by prospectors.

FIREMAN KILLED IN TRAIN WRECK

Diamond Special on Illinois Central Goes in Ditch Near Springfield, Illinois.

Springfield, Ill., Sept. 21.—The Diamond Special, a fast train on the Illinois Central Railroad, was wrecked at Barclay, seven miles from here, early this morning. Thirteen coaches were derailed but none of the passengers were killed, although several were slightly hurt. The fireman was instantly killed and the engineer seriously injured. The switch had apparently been tampered with for the purpose of wrecking the train. The lock had been removed and the switch light extinguished.

RACE WAR IN GEORGIA

Reported That Battle Between Whites and Blacks Occurred Today at Talbotton.

Atlanta, Ga., Sept. 21.—A special from Macon says a report has been received there from Talbotton that a crowd of negroes have been attacked several miles from town and four of them are reported shot and killed and several others wounded. The telephone line has been cut. The negroes attacked are reported to have been tried on the charge of belonging to the "Before Day Club," and acquitted.

EVANS MAY BE PROMOTED

Likely That He Will Receive Appointment of Commander of North Atlantic Squadron.

Washington, D. C., Sept. 21.—The name of Rear Admiral Robley D. Evans is prominently under consideration for appointment as commander of the North Atlantic station which position will become vacant on the retirement of Rear Admiral Barker, on March next.

HERRICK WILL BE CANDIDATE

Democrats, in State Convention, in New York Select Him to Head Ticket.

Saratoga, N. Y., Sept. 21.—The leaders today resumed their conference on the Democratic nomination for governor. Finally Justice D. Cady Herrick, of Albany, was agreed upon and his nomination by the convention is expected to follow that of Francis Burton Harrison, who was agreed upon for lieutenant governor.

FIRE MAY RESULT IN MANY DEATHS

Thirteen Firemen Who Inhaled Acid Fumes in Fire at Denver Yesterday Are Dying.

Denver, Colo., Sept. 21.—As a result of an explosion of acids in a fire here yesterday, thirteen firemen are in danger of losing their lives. Four of them, John McGlade, Enos Patrick, Charles Deloff and James Ryan, are not expected to live longer than tonight. The others injured are Acting Chief John Dulmage, Assistant Chief John F. Healy, Captain Charles Eymann, S. R. Wilcox, Ed Hollingsworth, John Kelly, William Alward, Vincent Davidson, and William Granger. At least half a dozen of the latter are in a grave condition. The fire which caused the accident came from a stroke of

"I DO NOT UNDERSTAND YOU NEW MEXICO PEOPLE! NONE OF YOU SHOULD BE WILLING TO ACCEPT JOINT STATEHOOD, AS YOU WILL GET SINGLE STATEHOOD JUST AS SOON AS JOINT STATEHOOD. MAKE YOUR FIGHT ON THE SINGLE STATEHOOD LINE; I WILL HELP YOU HERE AND IN WASHINGTON!" REMARKS OF AN INFLUENTIAL MEMBER OF THE COMMITTEE ON RESOLUTIONS IN THE CHICAGO REPUBLICAN CONVENTION. THIS MAN HOLDS ONE OF THE MOST IMPORTANT PUBLIC POSITIONS IN HIS STATE AND IS PROMINENT AND STRONG IN THE NATION'S CAPITAL.

IMPROVEMENTS BY THE WATER COMPANY.

The announcement that the Santa Fe Water and Light Company will this fall expend at least \$20,000 in the improvement of its system in this town and that work will commence at once, will be received with great satisfaction and pleasure by the citizens of the Capital. It is a long step forward in the right direction which will not only prove of benefit to the city, but will also make friends and increased business for the Water Company. In addition to this good news, the New Mexican is authorized to say that there are plans for a great increase of the capacity and water supply of the company under consideration and that the chances for carrying these plans into effect are very good indeed. The company realizes fully that the greater the water supply and the better the system for distributing it, the more rapidly will this city grow and increase in population and business, which means increased earnings and profits for the Water Company. The valley of the Santa Fe River in the immediate vicinity of this town can be made one grand orchard and vegetable garden if a sufficient amount of water is furnished. This would mean the location of many orchardists and truck gardeners here and this naturally would stimulate and increase every branch of business represented here. There are thousands of acres within a mile and two and three miles of town that can be made very profitable by the raising of fruit and the growing of vegetables both of which, in this section, attain perfection unheard of in many other localities. The soil is ready, the sunshine is in abundance, the climate is as perfect as it can be and nothing is needed except the necessary supply of water to bring these favorable conditions into active play and make them a grand source of profit and business. This valley should raise fruit and vegetables for the use of its inhabitants in abundance and should have much left for profitable export. The apples, peaches, pears, plums, cherries, berries and vegetables grown here cannot be beaten anywhere and have already a fine reputation. A market is also ready for all that can be produced. Nothing but the development and safety of the water supply is necessary, coupled, of course, with fair water rates, to bring out these favorable conditions and make them what they ought to be, among the main factors for the wellbeing of this city.

THE CHARGE IS UNTRUE.

Two years ago the Republicans won a great victory on the statehood issue. Now that they have renounced it, they can only expect defeat.—Silver City Independent.

To the above from the leading Democratic newspaper in southern New Mexico, the best answer is the statehood plank in the Territorial-Republican platform, which reads:

"Statehood is the most important question of the people of New Mexico at this time. Our loyalty to the general government, our great progress in material wealth, our system of magnificent schools, our code of civil and criminal laws, our freedom from mob law, our respect for the courts, the extent of our great Territory and the intelligence of our people entitle us to an equal station among the states of this Union under its present name and boundaries."

MORE OF A WORKER THAN A TALKER.

Senator W. H. Andrews, Republican nominee for delegate to the 59th Congress, is a man who has no rough corners in his character. On the contrary, he is a great conciliator and pacifier and this characteristic is one of the main reasons why he has been so successful in politics. He has no personal enemies in the Territory and his political enemies can find scarcely anything with which and upon which to oppose him. He is well known as the man "who does things." He says but little in public, but what he has accomplished already in this Territory speaks for itself. It cannot be contradicted in any way that the funds which were used in the construction of the Santa Fe Central Railway were brought to the Territory by the Senator and that the money which is being now expended in the construction of the forty-five miles of the Albuquerque Eastern Railroad and the thirteen-mile branch to the Hagan Coal fields was induced to come to the Territory through his efforts, representations and work. The capital invested by these two companies amounts in a round sum to \$4,000,000, and that is a great deal of money to be invested in New Mexico. A man who can bring about such results is certainly the very kind of a man who will represent this Territory faithfully, energetically and efficiently in the Congress of the United States and will secure such legislation for its interests and advancement as is beneficial, needed, right and proper to give the Territory. He has had much experience in legislative matters and has a very extensive acquaintance with Senators and Representatives, who will not only aid him because he is the Delegate from New Mexico, but even more so because he is their close personal and political friend. A vote for Andrews means a vote for the advancement, prosperity and well being of this Territory and for single statehood. A vote for George P. Money, the Democratic candidate for delegate to Congress and the opponent of Senator Andrews, will simply be thrown away and of no use or consequence hereafter, either to the man who casts it or to the commonwealth at large. Senator Andrews will be elected on November the 8th next, to the office for which he has been nominated by the Republican party of this Territory and the larger the majority, the greater will be his influence for good in the 59th Congress.

BETTER TRAIN SERVICE.

A new time table on the Santa Fe Railway system will go into effect shortly and train connection between this city and Lamy with train No. 1 from the east and north will be resumed and Santa Fe will again have three daily mail and passenger trains, namely two from the east and north and one from the south. This will prove of benefit to the traveling public, to this city and in no small degree to the company itself. There has been much dissatisfaction, not only here, but all along the Santa Fe Railway in this Territory, on account of the reduction of this train service. In addition, travelers and tourists from the east were in some measure prevented from visiting this city and in other respects the reduction proved detrimental. The increased service was demanded by the exigencies of the situation and the management did right in replacing it. Right here it is well to remark that the New Mexican had no little share in the straightening out of this matter and the resumption of the running of the additional train. This paper hopes, in addition to this, to be able to announce in a comparatively short time that connection with the night train, Number 8, from the west, will also be made. Santa Fe is entitled to prompt and speedy connection with every train on the main line of the road and the New Mexican believes that the management will recognize this in the future just as it did for twenty-five years before the recent reduction and from the time the first train was run on the system through New Mexico.

The Republican state ticket just nominated in New York is reported to be exceptionally strong and to be pleasing and acceptable to both factions in the party there. This report comes well sustained and is evidently correct. It shows that the Republicans of the Empire State realize the situation and will make the strongest possible effort for success in the November election. The electoral vote of the state will be for Roosevelt and Fairbanks, so now say those best posted upon the intricate politics of New York.

The Democratic Campaign managers will send a number of Democratic statesmen and spellbinders to speak to the farmers in the Western states for the Parker-Davis ticket. The gains in votes for the Democracy will be small. Prosperity and healthy bank accounts this year will have much more influence on the votes of the farmers in the middle and western states than will calamity speeches, false accusations and untrue charges against the Republican party and the national administration.

Eugene V. Debs, Socialist candidate for the Presidency, announces to the dear people that they will be surprised at his vote. The New Mexican takes no stock in this announcement. Everybody knows that Mr. Debs will vote for himself, unless financial considerations induce him to vote for some one else.

In the good old days the section announced a death in the community by a stroke on the church bell for every year of the life that was gone. People expected, then, to live to old age, and speculation at the first tap of the bell took a narrow range including only those who had lived the allotted time. There is no reason why people should not have the same expectancy of age to-day, except for the neglect and abuse of the one organ on which all the other organs depend—the stomach. Dr. Pierce's Golden Medical Discovery enables men and women to be strong and healthy, by cleansing the stomach (and other organs of digestion and nutrition), which prevent the proper nourishment of the body.

"I had been sick for two years with indigestion and nervous debility, and had taken medicine from my family doctor for a long time without much benefit," writes Mrs. W. H. Peck, of Lucknow, N. C. "Was induced by my husband to consult Dr. Pierce by letter. You advised me to take 'Golden Medical Discovery' and 'Favorite Prescription,' which I did, and, to my great surprise, after taking six bottles I was cured."

The Medical Adviser, in paper covers, is sent free for at one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Presidential Candidate Tom Watson is having lots of fun and is amusing large audiences wherever he speaks. He knows he has no chance for election on the Populist ticket, but is taking votes from the Democratic candidates. He says this is now his mission as he believes Democratic success would be very detrimental to the people and he is glad to announce that his mission is proving successful. A man with a mission is always dangerous to his opponents.

Judge Alton Brooks Parker is, after all, to make a few speeches in this campaign. He is like the New York man, who was dumb for many years and whose power of speech was recently restored by a severe nervous shock. The Republican majorities in Oregon, Vermont and Maine very likely acted upon Judge Parker in a similar manner.

The New Mexican considers the Hubbell episode in the recent Republican Convention a closed incident for the present. Should, however, occasion arise to re-open it for the benefit of the party and of the people, this will be done and that in good style. This gentle admonition appears to be timely.

The Great West is becoming greater right along. This year of our Lord its bountiful crops will be moved east with some of its own money. The money changers in New York and Boston are losing their prestige and this is beneficial for the country.

Chairman "Telephone Tom" and Treasurer Peabody of the Democratic National Committee say that Candidate Henry G. Davis had met all of their expectations. Where everybody is satisfied there is no chance for a row.

MRS. HELENA BLAU,

Young Milwaukee Society Woman.

TEN thousand cured women have written to tell how Wine of Cardui bestows the blessing of health on every woman who takes it, rich and poor alike. Mrs. Helena Blau, No. 123 Seventh Street, Milwaukee, Wis., is one of the young women whom Wine of Cardui has rescued from a life of suffering. She writes:

Mrs. Helena Blau.

The woman who has suffered from female weakness should do nothing within reason to secure health. Wine of Cardui is the medicine that appeals to reasonable women—women who hold operations and cutting in horror—women who know that Nature is the best physician. Wine of Cardui gives women back their health by giving Nature a chance to build up the wasted and diseased tissue. Wine of Cardui regulates the menstrual flow and Nature, when relieved of the drains or of the poisons in the system, makes the functional organs strong and healthy again.

Any woman who is silently suffering untold pains because she is too sensitive to undergo a physician's examination and treatment can find no excuse for not securing relief when Wine of Cardui is offered to her. There is no publicity to deter her. She can take Wine of Cardui in the privacy of her home, with as much assurance of a final cure as though a dozen doctors recommended it. Many physicians do recommend Wine of Cardui to their patients.

Why not get a \$1.00 bottle of Wine of Cardui from your druggist today?

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

NEW MEXICO SECTION CLIMATE AND CROP SERVICE

WEATHER BUREAU

In Co-Operation With the New Mexico
Weather Service.

Santa Fe, N. M., Sept. 20, 1904.

The week was characterized by warm days, cool nights, and a few scattered showers, conditions generally favorable for crops and stock. Gardens have about matured and very fair results have been secured; chili is beginning to turn and late cabbage is heading fast; corn is considered safe; winter apples are coloring finely; oats and barley are ripening and cutting of hay is still progressing, and the third crop of alfalfa is being secured in good condition. In San Juan County an excellent display of fruits, vegetables and cereals at the Farmington Fair shows the farmers of that valley have had a prosperous season.

Taken as a whole, the stock and ranges are in good condition but not quite so good as in some previous years, and where ranges are not overstocked, should the coming winter be at all favorable, the prospect for stockmen is very encouraging.

Later reports indicate the frost of last week in the higher mountain districts was destructive to tender vegetation and damaged corn and other late crops. In the valleys and lowlands there has been no frost, and should there be frosts soon, the loss would not be extensive, for in most localities nearly all crops are matured or beyond danger from frosts, hence this will be the last bulletin for the season.

The following extracts are taken from reports of correspondents:

Arabela—A. M. Richardson—We have had no general rain; grass has dried up and the prospects for winter feed are not very good. Highest temperature 83, lowest 50; rainfall a trace.

Aurora—J. C. Lucero—No rain this week; nights are very cool since the first frosts of last week; oats and barley look ripe and potatoes are good; cattle and sheep are in good condition but grass on the range is not so good as in other years.

Beenhaim—Frank Miera—No rain and very warm; cutting of hay is progressing and a good crop is being secured; stock in very fine condition; grass is good and is curing well for winter feed.

Cerro—E. D. Leon—A warm and favorable week and no rain.

Chimayo—Jose P. Trujillo—No rain recently; it is very dry and grass is wilting and streams are drying up and water is becoming scarcer.

Cliff—T. J. Clark, Sr.—No rain during past week; rains have not been general; hot days and cool nights; more rain needed; water plentiful on range, the grass is good in spots and stock gaining in flesh; calf crop very short; late crops are good; third crop of alfalfa ready to cut.

El Paso, Texas—U. S. Weather Bureau—The week gave an excess of precipitation and a deficiency of over two degrees a day in temperature. Highest temperature 86, lowest 57; rainfall 0.33 inch.

El Rito—P. Lopez—Very hot days and cold nights and no rain.

Folsom—Jackson Tabor—Dry and cool week; grass on range is curing in fine shape and prospects for winter feed are very good; stock of all kinds are fat and will go into winter in good condition; last cutting of alfalfa will be light.

Fort Stanton—Geo. Buntin—Range fair and cattle in good condition. Farming for this section an entire failure. Highest temperature 81, lowest 44; no rain.

Fort Wingate—John Woodgate—First of week light showers, latter part clear, with colder nights; grass has matured nicely and should the winter be at all favorable, cattle will do well where range is not overstocked. There was a light frost in exposed places and in mountains near here. Highest temperature 80, lowest 42; rain .047.

Friscio—J. R. Milligan—Light frost last week but it did not hurt corn as it was about hard in ear; stock is looking fine and grass is headed out.

Glencoe—Anna Coe—Fine rains fell on 12th and 13th and there is plenty of water for irrigation purposes.

Hillsboro—J. M. Webster—Clear and pleasant, with light shower first of week.

Hobbs—F. M. Cook—Temperature continues above normal, with no frost; most of corn is safe; third crop of alfalfa being cut, generally a good crop; winter apples coloring finely. A fine display of vegetables and fruits at the Farmington Fair shows the farmers have had a prosperous season.

Las Vegas—Wm. Curtis Bailey—No rain and warm days and cool nights continue. Highest temperature 82, lowest 41.

Lordsburg—E. W. Clapp—Recent heavy rains in this vicinity have made excellent grass on ranges and stock of all kinds reported in good condition; prospects for good winter feed is most encouraging, as the entire country around here is greener than for several years previous.

Los Lunas—Chas. F. Jones—It has been dry and hot and crops are matur-

ing nicely. More rain is needed.

Luna—J. J. Hale—A general rain is needed to make winter feed on ranges good; frost during middle of last week badly damaged corn and killed nearly all tender vegetation.

Manuelito—W. A. L. Tarr—Two local showers this week; grass doing nicely; corn, beans and squashes ripening; no frosts yet.

Maxwell City—Wm. French—No material change in conditions; no frost yet and crops look well; what little grass there is apparently well cured. Highest temperature 80, lowest 37; rain a trace.

Mimbres—Chas. Dennis—Water in Mimbres river low; good rains; crops doing well; many have secured third crop alfalfa in good condition; hail damaged corn and other crops; grass good and cattle in excellent condition. Mountainair—John W. Corbett—Rainfall night of 13th was 0.30 inch and will help some if frost does not come too soon.

Perea—Francisco Perea—Splendid weather for maturing cereals and other crops; gardens are good and have never seen general conditions better; prospects for corn very good. Highest temperature 80, lowest 41.

Rociada—Frank J. Cutler—No rain; fine weather for haying; wheat and oats ripening slowly; stock in good condition. Highest temperature 81; lowest 34.

Rowe—Samuel Dean—Warm days and cool nights with variable winds; drouth still continues and no crops and very little grass in this vicinity.

Russia—J. B. Curtis—Light showers and favorable conditions for vegetation; no frosts yet.

San Rafael—Dr. Charles C. Grover—Quite a good shower first of week and country everywhere refreshed; frost of last week did no harm; grass knee high almost everywhere and stock could not look better; watermelons ripe, chili beginning to turn, late cabbage heading fast and field corn almost ripe. Highest temperature 84, lowest 43; rain 0.32 inch.

Santa Fe—U. S. Weather Bureau—Temperature nearly normal and general conditions were favorable for maturing crops. Precipitation a trace.

Vermijo—H. W. Adams—Frosts have occurred but as yet not enough to do any material damage; a few light showers. Highest temperature 77, lowest 32; rain 0.12 inch.

J. B. SLOAN,
Acting Section Director.
LAST BULLETIN FOR SEASON.

Emergency Medicines.
It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by all druggists.

A Place to Go.
Take your family to the Bon Ton for a change, occasionally. They will enjoy it.

Sour Stomach.
When the quantity of food taken is too large or the quality too rich, sour stomach is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let five hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating, take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. For sale by all druggists.

The peaks on the Santa Fe, Bally and Valles Mountains were artistically decorated with snow today as a result of the downpour of yesterday.

Yesterday Probate Judge Marcos Castillo appointed Mrs. Librada Montoya de Carley administratrix of the estate of Robert M. Carley, deceased.

The marriage certificate of Henry C. Montoya and Miss Josefita Martinez, of Madrid was recorded yesterday by the county clerk. John W. Sullivan of Madrid, tied the knot making the couple man and wife.

Democratic headquarters are now fitted up ready for work. Carpets have been laid in the two main rooms and chairs and tables provided. The walls are uniformly decorated with pictures of the leading Democratic candidates.

Jose Amado Martinez received word from Lamy this morning that his brother-in-law, Ambrosio Lovato, had died at that place. He left immediately for Lamy, going overland, and will return to the city tomorrow with the corpse.

The rain last night played havoc with the Democratic signs in front of their headquarters. Many colors were evidently not thought of by the artist who prepared the huge banner and the entire previous display took on a downcast look.

Gregorio Herrera, a Santa Cruz ranchman was in town yesterday and disposed of a large wagon-load of vegetable, melons, etc. He brought ranch provisions and returned to his home this morning. Mr. Herrera finds vegetable raising quite profitable.

Mrs. Juliana Rivera de Olivas, died yesterday of lung trouble at her home on Canon Street. She is survived by her husband and one son. The funeral will take place from the Cathedral at 8:30 o'clock in the morning and interment will be in Rosario Cemetery.

Today is the autumnal equinox. According to the calendar, summer ends today and autumn commences. The night and the day are of equal length and from today on until December 22, each night is longer than the day. It seems that the equinoctial storm, which according to weather prophets occurs annually, arrived a day ahead of time at Santa Fe.

Major C. B. Vogdes, in charge of the recruiting station in this city, reports that there are two men in Albuquerque whom he will soon take into the service, one being already accepted while the other will require further investigation. There are also two men in Baton who will shortly be brought into the service through the major's efforts. In Las Vegas there have been six applicants, but under the new order of the war department all have been refused. Applications are very scarce in Santa Fe.

Sergeant H. D. Jenkins, of the U. S. recruiting station, in Albuquerque, was attacked early yesterday morning in front of the Western Union Telegraph office, in that city, by one of four unknown individuals. The sergeant and his unknown assailant mixed it in a lively manner for a few moments and the engagement was, according to witnesses, a draw. It is not known what caused the encounter.

Partly cloudy tonight with stationary temperature tomorrow is the forecast of the U. S. Weather Bureau today. Yesterday the thermometer registered as follows: Maximum temperature at 12:10 p. m. 71 degrees. Minimum temperature at 9 p. m. 46 degrees. Relative humidity 70 per cent. Precipitation, .88 of an inch. The mean temperature for the twenty-four hours was 58 degrees. At 6 a. m. today the thermometer registered 46 degrees.

Yesterday afternoon about five o'clock a refreshing rain set in and continued throughout the greater part of the night. The thermometer dropped about 15 degrees and the atmosphere took on a decidedly wintery feeling. The streets and yards were miniature lakes. The rain will prove of great benefit as it filled a good many cisterns and helped vegetation of all kinds. It is said that the rain last evening was the hardest that this section has experienced since a year ago last June.

DISTRICT COURT.

Met This Morning and Proceeded to Try the Case of Territory vs. Gonzales.

The District Court opened this morning at ten o'clock, Judge John R. McFie presiding and A. M. Bergere, clerk, at his desk. Catron, representing the defendant, and the court having overruled the objections to the indictment, a jury was at once empaneled to try the defendant. The defendant was indicted twice for two separate assaults with a deadly weapon upon the person of one Refugio Montoya de Medrano in March and April last in this city. This being the first appearance of Mr. Catron before the court, Judge McFie, upon the conclusion of the argument upon the demurrer, took occasion to compliment the young attorney for the able manner in which he presented his side of the discussion.

ANDREWS MAY CARRY TAOS

Hon. Antonio Joseph Talks on the Republican Nominee's Chances in His County.

"Contrary to the opinion of many, I do not believe that the fusion tickets will take many votes away from Senator Andrews, but on the other hand they are likely to better his chances for election."

The above remark was made this morning by Hon. Antonio Joseph, ten years Democratic delegate to congress from New Mexico, and today one of the most earnest workers in the ranks of the followers of Judge Parker.

"I am speaking from personal experience. It is a fact well known to me that the so-called fusion tickets were a detriment to my campaigns and, of course, must have benefited my rival. The reason was obvious. The name of the delegate is usually left off the ticket and the Democratic nominee is left to paddle his own canoe. This may be called a two-edged sword but hurts the Democrats more than the Republicans. The Republican nominee has the support of the regular Republican county committee while usually the Democratic nominee is alone on the field when these tickets are formed."

"It probably would be safe to say that many counties where the fusion tickets will win locally, Senator Andrews will have the majority of votes. Those counties where fusion tickets are already in the field or are prospective, are Taos, San Miguel, Mora, Colfax, Rio Arriba, Socorro and San Juan. It is possible that others may also fall in line."

"Taos County, for instance, will probably be carried by the fusion ticket, but a man cannot predict at this time that Mr. Money will receive a majority in that county. Of course, it is possible that Taos may go for Money, but from past experiences it would seem that Andrews should have the majority. I would not be surprised, however, to see the fusion ticket carry the election."

Mr. Joseph was asked regarding conditions at his sanitarium at Ojo Caliente.

"We had reason to suppose that this season would not be as prosperous as previous years," he replied, "but I am pleased to state that if anything, it has been more profitable. The World's Fair and presidential year have not affected attendance at the springs in any way. We have the only sanitarium of this kind open the year around, and can furnish as delightful climate in winter as in summer. The waters are equally effective in all seasons and there the sun shines every day of the year. Patronage is increasing each month and prospects could not be brighter."

The country around the springs is very prosperous. Stock is looking fine and we have had sufficient water throughout the entire year for irrigation purposes. The lamb crop, of course, is very short. This will be made up in high prices received for lambs that were raised. The winter range is in very good condition and stockmen are not at all gloomy over prospects."

CONVENTIONS IN OCTOBER

Republican and Democratic Parties of Grant County Will Name Tickets Then.

Special to the New Mexican. Silver City, N. M., Sept. 21.—The Republican County Convention will be held Monday, October 24 and the Democratic Convention on October 22. The campaign promises to be short and interesting.

The shooting tournament between teams from El Paso and the Silver City Gun clubs for a handsome silver loving cup studded with turquoise resulted in the cup remaining in Silver City, by a majority of seven birds. The El Paso boys say the cup is the handsomest they ever shot for.

Major W. H. H. Llewellyn has been in the city several days on political business.

The funeral of the late William Craig, a well known ranchman of Lone Mountain, took place yesterday from the Presbyterian church and interment was made in the Odd Fellows' cemetery.

Is this Your Wife? You say: "No!" But she should remind you of a duty you owe your wife. If she has one of the old-fashioned, troublesome, cumbersome, cast-iron Cook Stoves—the kind that gets red hot all over—you can end all her kitchen troubles by buying her a "Quick Meal" Range.

The "Quick Meal" Steel Range is so thickly lined with asbestos that all the heat is kept inside the Range to bake and cook the meals, instead of cooking the Cook. In that way it saves fuel and it also saves and sweetens temper.

"Quick Meal" Ranges are daily growing in popularity. They look well, they cook well, they bake well, they last well. That is why there are so many in use—every one recommends another.

CAN'T KEEP IT UP.

Can't Deceive Santa Fe People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Eusebio Eschdero, hack driver, of Griffin st., says: "I cannot exactly say how long it is since I first noticed that I was subject to back ache, but it must be nearly three years. It never was sufficiently painful to lay me up, but it worried me considerably every now and then. Noticing Doan's Kidney Pills advertised to stop backache and other symptoms of kidney complaint, led me to reason if this remedy performed half what it promises, it might at least help and I went to Ireland's Pharmacy for a box. It fulfilled its promises to the letter, for the back-ache stopped."

For sale by all dealers. Price 50 cts. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Oysters are now at their prime. Call in and try them at the Bon Ton.

What is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's New Life Pills quickly readjust this. It's gentle, yet thorough. Only 25c. at Fischer Drug Co. Santa Fe.

CHRONIC SORES

Wheeling, W. Va., May 28, 1903.
Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. Some 13 years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.
JOHN W. FUNDIS.
Care Schmulback Brewing Co.

Chronic sores start often from a pimple, scratch, bruise or boil, and while salves, washes and powders are beneficial, the unhealthy matter in the blood must be driven out or the sore will continue to eat and spread. S. S. S. reaches these old sores through the blood, removes all impurities and poisons, builds up the entire system and strengthens the circulation. S. S. S. is a blood purifier and tonic combined. Contains no mineral what-ever but is guaranteed purely vegetable. If you have an old sore write us and our physicians will advise without charge. Book on diseases of the Blood free.

DIVINE HEALER IS IN TOWN

"Pope" August Schrader is Establishing a New Jerusalem at San Acacio, Socorro County.

"Pope" August Schrader, the divine healer who bids fair to become a rival of the famous Alexander Dowie, is in Santa Fe. He is now located at San Acacio, in Socorro County, where he is engaged in the publication of a paper, the El Comercio, which paper he uses to spread his doctrine and advertise himself and his church.

The "Pope" is the supreme head of the "Divine Catholic Church" and is in the city for the purpose of strengthening the belief of the fifteen members of his church who reside here. He is well known all over the country owing to his rather peculiar garb.

He has never cut his hair, wears flowing robes and blesses curious bystanders as he saunters down the street. Recently in El Paso, the "Pope" declared the Wells Fargo Express Company excommunicated because they refused to deliver his valise before he was identified. When asked by a New Mexican representative if the ex-communication was still in force he replied that it was and that the company had undoubtedly lost many dollars as a result.

At present he is seriously considering the establishment of a church in Albuquerque. It is his intention to establish a second Zion City at San Acacio, in New Mexico. He has quite a large following among the natives and it is believed that if he were to put his plans into effect it would not be long until he would build up a city that would rival the famous White City of Zion in Illinois.

New Jerusalem, the headquarters of the church, is at present located about a mile from San Acacio and it is here that he proposes to build up a city. His largest following are deserters from the Roman Catholic church, who followed a priest who believed in marriage and left the church to marry. There were many others who sympathized with this priest and when he left the church they followed.

Schrader has established several churches in this Territory, Colorado and Arizona, and also has two churches in southern California. A. C. Cordova and W. H. Burns, of San Acacio, have been appointed cardinals by him. El Comercio is printed in Spanish and English. Here are a few items from El Comercio:

In announcing the dedication of the church in New Jerusalem the paper, Divine Catholic News, says that "His Holiness the Pope Schrader, will be present, Cardinal A. R. Cordova, Cardinal W. H. Burns, Arch-Bishop Severo Rivera, Mother Superior Teodora Cordova and the Sisters of Charity and Sisters of Mercy. Many will be present to see his Holiness the Pope Schrader."

Here is another: "Arch-Bishop Severo Rivera and wife came down from Kelly to visit his mother and relatives. A reception was given him by his Holiness the Pope Schrader."

Here is a sample of the local news: "Mr. Chaves has moved to here from Sabinal."

Again: "Mrs. Tomas Montoya was healed by the Divine Healer Schrader of toothache by laying on of hands and blessing of water for her on last Wednesday."

And then this: "Remember the News always tells the truth."

Another item shows that Schrader is still doing his "healing," as follows: "Mrs. Pedro Samora who has been sick in bed for four weeks has been placed on the road to recovery by the healing of Divine Healer Schrader."

YOUNG MAN KILLS HIMSELF

Rash Act Due to Temporary Insanity, Caused by Grief Over Mother's Death.

A young man by the name of Leobardo Aguilar, living at Phoenix, a suburb of Carlsbad, in Eddy County, committed suicide last Sunday evening by taking strychnine.

It is supposed that the case for his rash act was due to mental aberration brought on by the recent death of his mother. He seemed to grieve a good deal over her death and this preyed on his mind to such an extent that it finally led to his taking his own life.

An inquest was held on Monday and the coroner's jury returned a verdict that the deceased came to his death by reason of strychnine poison administered by his own hand.

The funeral services were held Monday afternoon at his late home and the remains were buried in the cemetery at that place.
