MILITARY CAMPS.

Testimony Regarding Selection by Adjutant-General Corbin.

Spain Disturbed by Carlist Agitators Fomenting a Revolution.

Military Telegraph Line Almost Completed Across Island of Cuba.

DEATH OF OLDEST MAN IN MICHIGAN.

Washington, Dec. 23.—Adjutant-General Corbin was before the war investigating commission today and was rigidly questioned regarding the selection of Camp Alger, Virginia. He testified that the removal of Camp Alger was dictated by the secretary of war himself. Its original establishment was recommended by Captain Searns, of General Miles' staff. He had no objection to the removal of the camp, but he was not consulted with it.

Questioned as to Camp Wikoff, Corbin said that the troops and horses that arrived there about August 2 were those left behind in the south from the expedition to Santiago and Porto Rico. The transportation of these horses in a not so far as he knew, led to railroad congestion or interfered in any way with the carriage of supplies for the troops subsequently arriving. He denied that the contract with the Long Island railroad gave it exclusive control, and said the only restriction made that arrangement was a desirable one in prohibiting excursion steamers landing at the camp. He said one reason for its selection was the excellent facilities for water transportation.

He said that the camp at Tampa was never designed for anything but a point of embarkation. The first complaints he heard from Camp Thomas were in the press. He said prior to the war there had been no complaints of refrigerator or canned beef, which were used by the army of the world and in commerce. It was no new experiment.

"Seriously speaking," said Corbin, "I do not think that the war department contemplated war until it was declared by congress and the appropriations were available. There was no general preparation except so far as the department was able to meet the possibilities that confronted it."

Colonel Denby, who conducted the examination, suggested to Corbin that he appeared reluctant, adding "it is not our object to cull ease strategy. That is not our business. The strategy of the war may have been right and may have been wrong, but our object is to determine whether the war department acted efficiently."

Corbin said that when Shafter's expedition started the supply train transportation was not equal to the demand. It had been planned to carry about 25,000 troops instead of 10,000.

He referred to a letter of General Miles, dated June 24, laying out a plan of campaign for the war, and said it was not approved.

Carlist Agitation.
Madrid, Dec. 22.—Carlist agitation continues in several of the northern provinces. Agitators have been arrested in Moravia province. A Carlist has been arrested in Valencia province, for the distribution of arms. The report that Don Carlos has contracted a loan in England is denied. It is explained that he tried to do so but failed.

Military Telegraph.
Line Across the Island of Cuba Rapidly Nearing Completion.
Havana, Dec. 22.—The military telegraph from Puerto Principe southward to Santa Cruz, a cable point, is nearly completed. Thus a wire connection with the Cuban coast will be made. Col. Dunwoody, of the signal corps, says the telegraph will be built as for military purposes, and will require no land line to Santiago as projected.

The war department has directed the transport chest to take Gen. Greene and staff to Savannah, and she will sail to night.

Marshal Blanco, though not directed to do so by the American commission, issued directions before leaving Cuba that the rich silver palace table service and magnificent furniture of the reception room be left for the Americans.

A proposition has been made by the municipal council to change the name of Obispo street to Lee street.

COMMITTED SUICIDE.
Superintendent of the Ferry Seed Company Shoots Himself.
Detroit, Dec. 22.—John A. Severns, superintendent of the B. & F. Ferry Seed company, committed suicide today. Mrs. Severns was aroused from sleep by shots, and found her husband lying dead on the kitchen floor with a bullet in his head and another through his heart, and

the revolver still clutched in his hand. Severns had been in poor health for some time and is said to have shown signs of insanity. He was the son of Judge Severns of the United States district court at Chicago.

Another Old Man Dead.
Chippewa Falls, Wis., Dec. 22.—James McDonald, aged 102, a resident of this city for forty years, died today. He was born in Montreal in the year 1796.

Twenty-one Years Old.
Ernest Dougherty, who has been a faithful attaché of the composing room of THE CITIZEN for the past six years, reached his 21st birthday today, and, as he is particularly studious and careful about his health, he is good for many future Christmas birthdays. The young gentleman has many warm friends among both sexes in the city, and they join with THE CITIZEN and his office associates in wishing Ernest a "Merry Christmas" and a "Happy New Year" on his reaching the 21st stepping stone in his life's journey.

Joseph Elbo, the big general merchant of Bernalillo, is in the city and was a pleasant caller at this office today. He informs THE CITIZEN that his partner and brother, Emilio Elbo, has severed his connection with the Bernalillo house, to connect himself with the Laguna, Chibero and Grants houses.

The citizens of Old Albuquerque last night organized a law and order league and the lawless portion of the community will not be allowed to have it all their own way in the future. Legal steps will probably soon be taken to wipe out the "Fighting Corral," where the killing occurred last Monday night.

John Riley, who made Jack Mills, a Cerrillos miner, pay him for an overcoat which the latter had purchased from a third party, was brought before Justice Riddle this afternoon on the charge of obtaining the money under false pretenses. He tried to show that there was no money in the deal, but appearances were too much against him, and he was sentenced to ten days in the county jail. Robert Bruhn, who was with Riley, was given five days for vagrancy.

REGULAR ARMY.

Bill the Minority of House Committee Will Report.

Meeting of United Mine Workers to be Held in Pittsburgh.

Two Regiments of Regular Troops Ordered to Philippine Islands.

PREMIER SAGASTA SERIOUSLY SICK.

Washington, Dec. 22.—A bill for the increase of the regular army, which the minority of the house committee on military affairs will offer as a substitute for the bill bill, was drawn by Representative Bay, of Virginia, is now in the hands of the war department, where an estimate is being made of the cost of such a military establishment as it provides. The bill provides for a standing army of 30,000 men, 12,000 artillery, 8,000 infantry, 6,000 cavalry, engineer, ordnance, signal corps and general staff. To meet the existing exigency for troops in Porto Rico, Cuba, Philippines, Hawaii and Ladrones, the bill provides that the president may issue a proclamation for 50,000 additional volunteer troops to be enlisted for two years. These are to be commanded by officers appointed by the president. The present volunteers are to be mustered out within sixty days after the passage of the act, but volunteer organizations now in service will be given the preference for enlistment in the next volunteer army, if they so elect, within fifteen days. The bill provides that no regular army officer in the army prior to the war with Spain shall be mustered out.

The main contention of the report will make for the minority plan as against the bill bill for a standing army of 100,000 men, is that the future of the Philippines and Cuba is yet undetermined, and if the standing army is increased to 100,000, it will be almost impossible to matter what may happen in the future, to reduce it. The report will say that a standing army of 100,000 men will cost the people of the United States \$165,000,000. This added to \$145,000,000 for pensions will bring the cost of the military establishment up to \$310,000,000, the largest charge in the world for a military establishment.

Troops for Foreign Service.
Chicago, Dec. 22.—Telegraphic instructions were received today from Secretary of War Alger ordering the Fourth Infantry, Fort Sheridan, and the Seventh Infantry, Columbus barracks, Ohio, to sail for the Philippines on or before January 15. The regiment will go via the Suez canal. Both regiments have been recruited up to their full strength and now number about 1,300 each.

THE RIVERA MURDER.
Jaramillo and Perez Bound Over to the Grand Jury.
Jose Jaramillo and Fidel Perez, the two men whom the coroner's jury found responsible for the death of Perillo Chavez, or Rivera, as he was more commonly known, in old town on Monday night of this week, had their preliminary hearing before Justice Juan Duran at the court house this forenoon. Attorney G. W. Johnston conducted the examination of the witnesses in the absence of District Attorney Etnico.

A Antonio Jose Chavez, who testified before the coroner's jury that he saw Jaramillo strike Chavez with his fist and then saw Perez stab him in the heart with a dagger, was the first witness called. He had evidently been seen giving his first testimony for the defense, as he was now called to testify for the prosecution. He said to day he had seen Jaramillo strike Rivera and also saw Perez push him away with his hand but he did not see either of them use a knife.

When asked how he could reconcile that with his statements before the coroner's jury, he denied that he had ever told a different story to the coroner's jury.

A. Avalos, one of the coroner's jury, testified as to the evidence given by Chavez before the grand jury, and said positively that he had seen Perez use a knife.

Cornelio Murphy and Deputy Sheriff Juan Escobedo testified on the night of the murder, when they arrested Perez and Jaramillo, the latter said to the former, "Perez, keep mum." This would indicate that Jaramillo is the more guilty of the two.

A witness by the name of Perez had made certain statements about the killing to Fred Fornoff and Attorney Johnston but he positively denied them when placed on the stand.

Several other persons, who were in Martinez's saloon when the killing occurred, were examined, but had no knowledge of the affair.

Fidel Perez, one of the defendants, made a voluntary statement to the court. He said that he and Jose Jaramillo and Simplicio Dubois had a quarrel with Gregorio Rivera, step-father of the murdered man, earlier in the evening, and the last two chased Rivera into his home. The three then repaired to Martinez's saloon. While they were there Perillo Rivera walked in and said to Jaramillo: "What are you after my father for?" A fight followed between Jaramillo and the murdered man, but he did not see any knife used. He himself pushed Rivera away just before he fell down on the floor.

Jaramillo refused to make any statement whatever, and his actions strongly indicate guilt.

Both men were bound over without bail to await the action of the grand jury.

As the matter now stands, out of the thirteen men in the saloon when the killing occurred there is not one who will say that he saw a knife used by anyone.

MAY EXTEND ROAD.

Rock Island Road May Build to San Francisco.

Fast Mail on Santa Fe Road May Be Abolished.

New Extradition With Mexico Ready for Ratification by Both Countries.

BATTLESHIP'S SAIL FOR MANILA.

Chicago, Dec. 22.—The Chronicle says: There are strong indications that the Rock Island and Rock Island roads are figuring on extending their lines to the Pacific coast. The absorption of the Hawaiian and Philippine Islands by this country is expected by the owners of these roads will open up an immense transcontinental rail business both east and west bound. The recent deal by which the Santa Fe will have its own line into San Francisco in the spring has awakened the officers of competing companies of the semi-transcontinental roads.

Fast Mail to be Discontinued.
Topeka, Kas., Dec. 22.—It is understood that the fast mail contract between the government and the Santa Fe has not been renewed for the coming year and that the early morning mail train will be discontinued. The fast mail had a number of weeks and has been a very expensive service for the company in foreign affairs. The train is of much benefit to the Kansas City and Topeka morning newspapers.

Extradition Treaty.
New York, Dec. 22.—A dispatch to the Herald from Mexico City says that Ambassador Clayton and the minister of foreign affairs, Senor Mariscal, have agreed upon the form and substance of a new extradition treaty between the United States and Mexico, which it is thought will be acceptable to both governments.

This city needs more parks. A move should be made to secure a site for a city park on the highland foothills. This should be done next year, while the land is cheap.

INSURANCE companies are loading money on good American securities at a 2 per cent rate of interest. Manufacturers are hiring more men and increasing wages. The Globe-Democrat says that little items like these seem to put free silver on the defensive.

THE thirteenth annual meeting of the Educational association of New Mexico will be held in the normal school room at Las Vegas, December 27 and 28. The officers are: C. M. Light, of Silver City, president; Miss Catherine Field, of Albuquerque, vice president; Emma Marble, of Lordsburg, secretary.

THE republican party is not as generous with the old soldiers as was the democratic party under Mr. Cleveland. During his administration nearly all the federal offices in New Mexico were filled by confederate veterans. Under Mr. McKinley no union soldier of the rebellion has received recognition in this territory to any position of importance.

THE enormous and entirely unprecedented exports of grain from the United States continue without much diminution. Last week 6,000,000 bushels of wheat and 35,000,000 bushels of corn were forwarded. In the past three weeks 23,300,000 bushels of wheat and 12,950,000 bushels of corn have been shipped, as compared with 17,810,000 bushels of wheat and 11,750,000 bushels of corn in the corresponding time a year ago.

A FEW weeks ago the democrats were shouting that Pedro Perea would have no influence at Washington if he was elected. They will begin to change their tune soon. Mr. Perea will not take his seat till March 4, next, but he already has more influence at Washington than Delegate Ferguson. During his visit to the capital this week he secured the appointment of Mr. Armijo as postmaster of this city and induced Senator Rikins to introduce a staid bill for the territory, and accomplished a number of other things beneficial to New Mexico.

ENABLING ACT.
On Wednesday, December 14, Senator Ekins, of West Virginia, introduced a bill in the senate, the first section of which reads as follows:

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the inhabitants of all that part of the area of the United States now constituting the territory of New Mexico, as hereinafter provided:

It will thus be seen that the fight for statehood for the territory has begun, and, judging from the source which the bill emanated, New Mexico is not without friends in high places, says the New Mexican.

Now that the bill providing for the admission of New Mexico as a state has been introduced in congress, the friends of the territory should lose no opportunity to help it along. There are many residents of the territory who have friends in the east with influence in congressional circles and they can do much toward assisting statehood by using that influence. The growth and prosperity and development of New Mexico will be greatly advanced by securing admission as a state, and certainly the benefits to be derived are worth the little effort and expense that will be required to secure the passage of the bill which has been outlined. The men opposed to statehood are using everything that can be thought of to defeat any change in the territorial government, and to offset those efforts it is necessary for an united effort on the part of those who desire to see the territory occupy the position among the states to which she is entitled, to overcome the opposition.

RACE PREJUDICE.
The democrats tried to win the recent election in this territory on the race issue, making the fight all along the line against Mr. Perea that he should not be elected to congress because he was a Spanish-American. The democrats were beaten at their own game, and now try to make it appear that the republicans are opposed to the native people and are trying to secure legislation in congress against the Spanish-American people. The republican party has signally honored the

native people of the territory. The governor, delegate to congress, national committeeman are natives, and a large number of federal offices are filled by Spanish-Americans. In any case have the native people been ignored by the republican administration. Under the democratic administration, except for federal officials was the rule. No native need apply, and when he did he was set down upon by the stupid prophet with a dull thud. The democratic party has existed the past century and is now kept alive by race prejudice. It has no conception of the brotherhood of man.

THE REPORTER'S NOTE BOOK.

It Discloses the Fact That Albuquerque's Streets Are All Right.

WRITERS IN BRIEF FORM.

There has been no decadence in Albuquerque this year of the honored custom of decorating the store windows for the holiday season. On the contrary, the show windows this year are even more beautiful than they have ever been before. This fact has been patent to all who have had occasion to come downtown any evening of this week. They are seen to best advantage at night when numerous artificial lights make the scenes more brilliant than they are during the daytime. Those who have not already done so would find it time well spent to accompany their families here downtown on a trip of inspection some evening this week, for many of the designs are masterpieces of the decorative art.

While it is impossible in print to do justice to the many handsome windows, which must be seen to be appreciated, THE CITIZEN will briefly mention a few of the more prominent ones for the guidance of people who wish to take in the sights.

The Whitney company, who have on several occasions in the past made an enviable reputation for showing off their stock to the very best advantage, have this year exhibited a previous effort by the display in the window of their Second street store. A more magnificent and costly collection of elegant furniture is seldom to be seen in the city. The display of the scene is heightened by the presence of some genuine preserved palms and other plants seldom seen in this country.

Among the dry goods establishments of the city the Kousmoum and the Golden Rule, in the matter of decorations, have the show windows. They are pictures of beauty, and it would require a discriminating judge to decide which is the more beautiful. The handkerchief, doll and Mexican work displays of the windows of these stores are models of their kind.

The windows of the substantial dry goods stores of Rosewald Bros., R. L. & Co. and Leon B. Stern & Co. show a stock of excellent articles of wearing apparel, which are always pleasing to the eyes of the passer-by and at all times a creditable display.

May & Faber are handicapped by the fact that they are just getting settled in their new location in the Grant building.

There is always considerable expectation from the jewelry stores of the city for the reason that they carry a line of goods which is in comparatively easy to make a brilliant showing. Nor have they failed to do so. The display of the jewelry stores of the city is a credit to the city.
