NO. 190.

## ATTRACTING ATTENTION

New Mexico Exhibits at World's Fair Subject of Much Favorable Comment.

## WILL HELP STATEHOOD

Showing Made By This Territory Has Astonished Easterners Who Did Not Know of Its Resources.

The Mining World speaks as follows of the New Mexico exhibits at the Exposition at St. Louis:

"The past ten years have brought great changes to New Mexico, and the marked advancement and progress made along all lines is emphasized by a comparison of her exhibits at the Louisiana Purchase Exposition with those at Chicago. The Territory has large and excellent exhibits here, displayed in a most attractive and interesting manner and showing many of the splendid products of that country, as well as the educational facilities and other interesting features and the chance for statehood has been advanced many points by the excellent impression made at the fair.

"Great irrigation enterprises within the last decade have reclaimed large areas of fine agricultural lands, richer than the valley of the Nile, providing happy homes for thousands of people in the most beautiful and delightful climate in the world.

"The superior products shown here in New Mexico's agricultural and horticultural exhibits are a revelation to visitors from all lands and have demonstrated that the very best results and most perfect development in fruits and farm products are obtained by irrigation and sunny skies. The fruits, grains, vegetables and other products of the soil shown here are most excellent. The exhibits are larger and better than have ever been made by the Territory, at various exhibitions.

"New Mexico's exhibit in the beautiful Palace of Mines and Metallurgy, ably presents the status of one of her most important industries, showing the products of a vastly greater number of producing mines than it was possible to show ten years ago, or when the Territory made an exhibit at Chicago. The exhibit includes anthracite and bituminous coal, iron, zinc, lead, copper, silver and gold, in their many combinations and various mineralogical forms, besides mica, gypsum, salt, sulphur, bloodite, asbestos, marble, onyx and building stone. A unique and most important product of the mines of New Mexico is the beautiful gemstone, the finest and most valuable turquois found in any part of the world. This Territory has the only turquois exhibit at the exhibition. One of these is in the mineral exhibit in the Palace of Mines and Metallurgy, another is in the Varied Industries Building, another exhibit of a turquois mine and its products is shown in the Gulch, or outside mining exhibit, where a reproduction of the turquois mines of the Borterville Turquois Mines Company, near Silver City, the actual geological occurrence of this gem, which was accomplished by bringing to the fair several tons of the rock from the mine, with turquois embedded in it.

"New Mexico's greatest pride is her educational exhibit, which, as one writer puts it, 'is exciting the approval and astonishment of all visitors and many easterners, where hazy ideas about New Mexico receive a strong and wholesome readjustment when they see the actual results of the splendid schoolroom work, and by photographs the school buildings, which demonstrate that New Mexico, in proportion to her population, is in no way behind the older states in her public school system, and far ahead of many in other educational institutions.' It is remembered that at Chicago the school exhibit represented only a few institutions, and these in a limited way, while here a very large number of splendid graded schools and country schools are represented by fine exhibits, besides the work of the colleges of agriculture and mechanic arts, the military institute, a university, a school of mines, two normal schools, also a number of denominational schools of higher order.

"The beautifully arranged ethnological exhibit, which fills room No. 111, in the department of anthropology, consists of a most valuable collection, chief among which is the wonderful Harvey collection, brought here from Albuquerque, and which is highly interesting.

From an artistic point of view, it cannot fail to interest anyone who delights in the beautiful and that it is very superior from a scientific standpoint, is proven by the great interest it has excited in persons from all parts of the world, who are qualified to judge and

## THEIR DAY OF FEASTING

Taos Pueblos Hold Annual Fiesta in Honor of Patron Saint San Geronimo.

## A PICTURESQUE RACE

These Indians Probably Only Tribe in Existence That Adhere to Tribal Customs.

The Taos Pueblos today held their annual fiesta in honor of their patron saint, San Geronimo, on their reservation in Taos County. This celebration is held on the 30th of September of each year and attracts visitors from all parts of the Territory, as well as many tourists from different sections of the country, who make the trip to Taos for the special purpose of taking in the festivities.

Taos is situated twenty-two miles off the Rio Grande Railroad from Silver Lake. It is reached by a beautiful stage road, which runs across the mountains. When the Rio Grande River is reached there is a hot spring there which has a temperature of 102 degrees the year around and the stage stops while the passengers who wish, bathe in this natural spring. The bridge which spans the river is a toll bridge, being owned by a private corporation.

The Taos Indians are among the most interesting of the present day. They may be said to be the only race in existence that adhere to the ancient customs. In dress they have the same style of clothing that generations before them have used and in farming and other modes of living they still use the most primitive methods.

In religion they are supposed to be Catholics, and are, in a certain sense, but they have their own peculiar style of worship, make their own laws and inflict their own forms of punishment for the disobedience of these laws. In every way they are in a class by themselves and have never had any desire to learn the ways of their white brothers.

These Indians are self-supporting. They have ponies, goats, cattle and do a little farming of their own. They live in a pyramid village, which is built on each side of a small river. The village in itself is very picturesque. It is built, as its name indicates, in the form of a pyramid, each adobe being on top of the other. These run up eight and ten stories, to a pyramid, and each house is reached by ladders on the outside.

Today is their day of feasting and sport. The sports are free to all visitors, whom they welcome to their village. The sports consist of relay races, climbing a pole, which is fifty-eight feet in height, etc. The most interesting is their relay races, which are run on a fine quarter-mile track on the reservation.

The participants in this race are chosen from the bucks that reside in the two villages, on each side of the river. After these races are run and evening comes on, the grand final or corn dance is held, which is participated in by the Indians of both villages. In this part of the program the clowns, or fun makers, get in their work and all present have a great time.

## OFFICIAL MATTERS

### Fish For New Mexico.

Delegate B. S. Rodey has endorsed the request of the Territorial game warden for 100,000 Rainbow Trout for the Pecos River, 125,000 of the same species for the Chama and Brazos Rivers and 500 for the local reservoir.

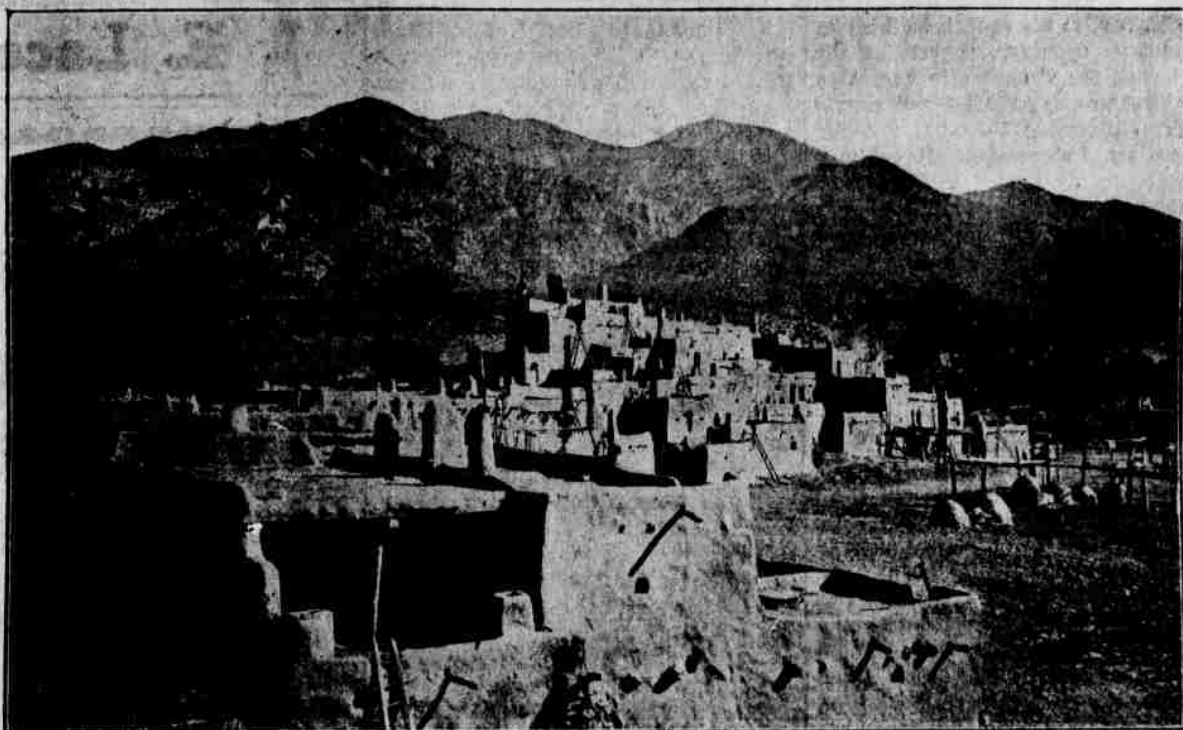

**Arrests for Violation of Game Law.**  
Page B. Otero, Territorial game warden, reports three arrests for violating the game law referring to the possession of deer out of season. Two of the arrests were made by Deputy R. C. Bailey at Victoria, Dona Ana County, and the other one by Deputy L. M. Gillan at Chama, Rio Arriba County.

**Cloudcroft, "Nature's Roof Garden."**  
Season June 13 to September 30, 1904.

who pronounce it one of the best ever brought together.

"At Chicago, the three Territories, New Mexico, Arizona and Oklahoma, joined in the erection of a building, which was scarcely as large as New Mexico's building alone, at this exposition. Among the endless varieties of beautiful buildings which adorn the Plateau of States, many of which are homes of some of the nation's famous citizens, stands the pretty structure erected by New Mexico, a gem in point of architecture and interior decoration, a monument to the progress of the Territory, a credit to her citizens, and one of the ornamental features of the exposition."

## Scenic New Mexico.

THE PUEBLO OF TAOS.

## POWERFUL AND DESTRUCTIVE FLOOD WATERS

### Swept Down Santa Fe River Last Night Doing Great Local Damage--Capital Without Railroad Connection.

The Santa Fe River, angry at its long played farce as a waterway, rose into a rushing torrent last night and swept before it the Delgado, College and Canon Street bridges, all smaller foot bridges and damaged to a large extent the Don Gaspar, Galisteo and Guadalupe Street bridges, carried away small outhouses, destroyed Sparks Street between College Street and Don Gaspar Avenue and injured adjacent property to an extent which cannot now be estimated.

**Reached Highest Point This Morning.**  
At three o'clock this morning the river was at its highest. The bank on both sides failed to confine the flood which came racing down from the mountains. The College Street wooden structure was the first to succumb. The piers holding this bridge were not in good repair and with a crash the entire south end broke up and passed down the river. Part of the Delgado and the Canon Street bridges soon followed, the south end of the first and the north end of the second giving way to the flood. Property was threatened on both banks and many men were seen endeavoring to protect their houses by rudely constructed stone embankments.

**Effect on Don Gaspar Bridge.**  
The flood then began to attack the Don Gaspar Avenue stone bridge. On each side the banks and wingwalls were undermined and then carried away until the bridge was nearly isolated from the street. The bridge itself withstood each attack without any perceptible damage, but the approaches to the bridge, which were filled with dirt and loose stone were almost entirely washed away. This was stopped by the use of brush, wired together and thrown into the excavations. Large logs were also thrown in to divert the course of the water.

**Galisteo Bridge Safe.**  
The Galisteo Street bridge was able to hold out during the day, the stone piers protecting the high wooden structure. The flood, however, carried away a portion of the bank on both ends of the bridge in a similar manner as at the Don Gaspar Avenue bridge. This damage had not reached any dangerous proportions during the morning and the bridge will probably withstand the flood if a remarkable rise does not again take place.

**Railway Bridge Slightly Damaged.**  
The Guadalupe railway bridge was also damaged to a small extent but proved unusually solid against the repeated onslaughts. This bridge has with in three feet of the top at one time. The water passed under it easily and did not touch the extent that was noticeable on the other bridges, which was the reason for the little damage at this point.

**Filled Irrigation Ditches.**  
All the small ditches contained a limitless supply of water, but this did little damage, widening the banks in some places but bringing delight instead of sorrow to those through whose fields it passed.

**Sparks Street Washed Out.**  
The south end of the College bridge remained standing and diverted the water toward Sparks Street. The banks midway between Don Gaspar Avenue and College Street were soon undermined by the water turned to the north by the remaining portion of the College Street bridge. The entire street was nearly swept away and those who owned homes in that vicinity became fearful of their property.

**No Telegraph or Train Service.**  
Telegraph and train service is demoralized. No trains will arrive in or leave Santa Fe today. The city is in reality isolated. The Associated Press is unable to send any account of the damage in other sections of the Territory and no mails have reached this city last night or today. The Santa Fe Central train left this morning two hours late but was delayed by a washout one and a half miles south. The Denver & Rio Grande made no effort to resume service, a washout in the Rio Grande Canon, 27 miles north of Santa Fe, utterly tying up traffic. The Santa Fe Central is fighting washouts in the local yards, at the Indian School, at Clark, at Estancia, and at a point 30 miles this side of Torrance. The Santa Fe will make no effort to run trains on the main line today and probably not tonight. The service is demoralized by miles of damaged track at Elota, while there are many smaller washouts at frequent intervals. Trains from the east are held at Rowe while those from the west cannot pass Ber-nalillo. It is possible that the trains will be turned back and service resumed in that manner. By noon the Western Union had succeeded in clearing a wire as far as Alamosa. It is not known how badly the balance of the service has been damaged. The United States mail cannot arrive before tomorrow at the earliest.

**Many Bridges Gone.**  
It is reported that seven bridges, among them the fine stone bridge spanning the Galisteo, have been swept away between Albuquerque and Las Vegas. Great destruction of property is also anticipated.

**Highest for Many Years.**  
The Rio Grande at Espanola is the highest known for many years. The river is running a mile wide and is carrying everything before it. The mayors of Albuquerque and El Paso were telegraphed last night to look out for a large flood. Albuquerque is practically unprotected and the damage may reach great proportions in that city if all reports are true.

**Damage to Property Along River.**  
If rain continues to fall in the mountains and in this vicinity it is possible that the damage has only begun. The water does not have to cut in much farther to demolish dwellings and ruin town lots. Reports from the country indicate that damage has occurred along both banks of the river.

**Much Water Goes to Waste.**  
Enough water in the last twenty-four hours has passed down the Santa Fe River to refill twice twenty reservoirs.  
Continued on Page Eight.

## LATEST POLITICAL POINTERS

A correspondent of the New Mexican at Hillsboro writes that the Republican county convention of Sierra County for the purpose of nominating a legislative and county ticket will be held at Hillsboro, the county seat of Sierra County, on Monday, October 10th, and that the Democratic county convention for the same purpose may be held at the same time. This correspondent thinks that Senator W. H. Andrews will have a majority in Sierra County, if energetic campaign work between now and election day is done. Senator Andrews is well known and popular in the county which, however, heretofore has been considered strongly Democratic.

SSS  
The Republicans of Rio Arriba County will hold a convention for the nomination of a legislative and county ticket at Tierra Aramilla on Saturday the 8th of October. It is reported that Alexander Reed, the present sheriff of the county, will be a candidate for the council from the district and that B. C. Hernandez, the present efficient probate clerk, will receive the nomination for a member of the house from the county. There is as yet not much talk concerning candidates for county offices proper. Judge Granville Pendleton, of Aztec, who has for two terms with great credit and efficiency represented San Juan County in the house of representatives of the assembly, is being spoken of for the nomination as a candidate for the council from that district. The indications are that the convention will be well attended and harmonious and that a ticket composed of strong and competent men will be placed in the field. It is expected that Senator W. H. Andrews, Republican candidate for delegate, will be present at the convention.

## MANY ACRES ARE RESTORED

All Lands Heretofore Withdrawn For Any Purpose Will Be Opened For Entry.

Washington, Sept. 30.—A policy which will result in the restoration of thousands of acres of land to the public domain has just been adopted by the secretary of the interior.

Announcement was made today at the Interior Department that lands heretofore withdrawn for any purpose whatsoever, will be restored, and after advertisement for 90 days, shall be subject to entry under the land laws of the United States. This applies particularly to lands withdrawn for forestry and irrigation purposes.

The object of the secretary in requiring 90 days' advertising is to prevent the land from falling into the hands of speculators. Under the forest reserve policy, thousands of acres have been withdrawn which recent examination has disclosed to be agricultural land and also which could be used for grazing, fuller investigation showing that it should be restored.

This is particularly true in New Mexico, Colorado and Utah. In the cases of timber tracts in the midst of land occupied by settlers, it will be restored on account of being isolated. Tracts reserved for irrigation purposes will be restored where projects have been abandoned for any reason.

**SCRATCH PAPER.**  
Made from ledger, linen, flat and book papers at 10 cents per pound at the New Mexican. This is scrap paper put up in pads and is less than the paper originally cost. Only a limited supply.

## REPORT OF GAME WARDEN

Navahos, Apaches and Pueblos Playing Havoc With Protected Wild Animals.

## LAWS BEING ENFORCED

Owing to Drouth of Past Summer, Trout Streams Are in Poor Condition.

Page B. Otero, game and fish warden for the Territory of New Mexico, has made the following report to Governor Otero for the past fiscal year, for insertion in the annual report of Governor Otero to the Secretary of the Interior:

The advantages which nature has so liberally bestowed upon New Mexico in the way of magnificent mountain ranges and numerous beautiful streams and lakes, should, with the wise enactment of practical laws looking to the preservation of our game and fish, prove a great source of revenue. Sportsmen who select this field for hunting and fishing would leave usually more than the value of the game they take away, especially if a uniform license charged.

Other states and territories realize the importance of protecting and preserving their game and fish, and are making every effort to improve their condition in this respect.

The success or failure of officials to enforce our game and fish laws, depend largely upon public sentiment; and while there is a growing and better sentiment in many localities of our Territory, and little difficulty is met in securing convictions upon proof of guilt, there is still in some portions of our game and fish districts a decided prejudice against the prosecution of violators even when the evidence of guilt is conclusive, partly due, no doubt, to the fact that the people have not yet realized that what they have always considered to be legitimate and right is not being arbitrarily taken away from them.

While more arrests and convictions for game and fish law violations have been made during the past year than during the entire former history of this department, still, as I have stated in my previous report, it is very difficult to obtain the services of suitable men to act as deputy wardens on account of the insufficient compensation connected therewith, there be no money appropriated for compensating a deputy other than the fines collected from successful convictions. On the theory that those who hunt and fish should pay all, or a large share of the cost of preserving the game and fish, instead of burdening the general tax payers, I again urge the necessity of enacting a law licensing hunters, as follows: Resident hunters—large game—(deer), \$8.00 per season; small game (birds), \$1.00 per first day, and 50 cents per each succeeding day. Non-resident general hunting license, \$25.00 per season. In this way we could create a fund out of which deputies might be paid a stipulated salary, and be in a position to dictate as to the kind of men to employ and insist upon their doing their full duty.

During the year just passed there have been five arrests made, all resulting in convictions: Three in Grant, Sierra and Luna Counties, and two in San Miguel County, and the lesson seems to have had the proper effect, for, while it has so far been difficult to obtain regular reports from deputies, what few notices of violations of the law coming to this office from other sources, are from parties not considered responsible.

While it is not to be expected that everything will be saved, still, with a few changes in the present law, and a proper system of enforcing the same, I have no doubt but that the improvement in all conditions would be plainly noticeable.

The slaughter of deer by the Apache, Navaho and Pueblo Indian tribes who make their raids from their reservations each fall (and at other times) has done more than all other agencies combined reduce the number of our deer and antelope herds. I have frequently notified the Indian Agents, likewise their attorney in New Mexico, to see that these Indians are not permitted to indulge in these annual raids, but with only moderate success. Last October I visited Taos and in an interview with one of the Apache chiefs, who was there with thirty-seven of his tribe, informed him that I would not permit them to do any hunting while there. They went back to their reservation next day.

Since my last report I have appointed thirty-five additional deputies in different counties, making the total of those now in the service eighty-two. This number includes all government forest rangers, who have been doing excellent work.

Last summer I spent about two months in the field.

## NATIONAL REPUBLICAN TICKET.

For President,  
**THEODORE ROOSEVELT.**  
For Vice President,  
**CHARLES WARREN FAIRBANKS.**  
For Delegate to the 53rd Congress,  
**WILLIAM H. ANDREWS.**

### PARKER'S FRIENDS ARE DISAPPOINTED.

The more the letters of acceptance of President Roosevelt and Judge Alton Brooks Parker of their respective nominations are compared and studied, the "bigger" a man does Mr. Roosevelt appear and the less creditable is the role assumed by Judge Parker. This is to be regretted by patriotic citizens as many of them who will vote for Mr. Roosevelt would nevertheless like to have retained the best opinion of his opponent. This is so apparent that even independent newspapers of Democratic tendencies have noticed it and are commenting upon it. The Kansas City Star, which wields much influence in western Missouri, in eastern Kansas and in southeastern Nebraska, upon this phase of the political situation says that even the political opponents of Judge Parker, at the time of his nomination, were disposed to look upon him as a man of high ideals, political dignity and broad views. This opinion was held generally in spite of the discredited auspices under which he successfully made the race for the nomination. But the indications that were revealed through the Hill and Wall Street sponsorship seem to have denoted the man more nearly than the common estimate based on his record on the bench. In his letter of acceptance, as already pointed out, Judge Parker has been no less than indecent in his treatment of the President. He has deliberately endeavored to create popular distrust of the Chief Magistrate's acts and even in his motives. But in addition to his wholly imaginary picture of a "benevolent despotism," Judge Parker has been cheap enough to take up the matter of withholding department estimates. After treating the matter of government extravagance without showing where there has been waste, the Democratic nominee says:

"In this connection it is interesting to note the recent administrative orders forbidding government officers from making public any statement of estimates on which future appropriations are to be based."

Now, Judge Parker must know, or should know that the estimates in question are preliminary, are usually suppressed, and because of their misleading character, should be suppressed. They do not even approximate the actual appropriations. They are the statements from heads of bureaus, not of what each bureau should have, but what it would like to have. It is understood that these bureau estimates are excessive. In the case of the Army and Navy, preliminary estimates have usually run about 50 per cent above the final sum fixed by the respective cabinet officers. The only estimates that approximate the resulting appropriations are those finally made by the highest heads of the departments, and these are the only ones to which the public is entitled.

Of course, cheap Democrats, willing

to mislead the voters, would like to use the gross bureau estimates, instead of the official reports of the departments, in making their attacks on administrative extravagance. But it is disappointing to find Judge Parker classing himself with "small" politicians.

Some of Parker's friends have called President Roosevelt a swashbuckler; but it should be noted that he has treated his opponent with dignified consideration, in marked contrast with Judge Parker's small and unworthy attempts to discredit the President.

### THAT INDEPENDENT CANDIDATE SCHEME!

Mr. Money, in his speech in this city Wednesday evening, concerning the report that the Democratic campaign committee was to put up \$4,000 should Delegate Rodey do the silly act and run as an Independent Republican candidate for delegate to Congress, said that he wished he had that much money to spend. There is no question that he told the absolute truth. The New Mexican did not say in the published report that Mr. Rodey had put up a cent of this sum, or that he would bear any part of the expenses. Nevertheless, it would be considered a very legitimate campaign expenditure. If Mr. Rodey runs independent, he could make no campaign without money and \$4,000 would be not a bit too much to defray its expenses. The conclusion of the Democratic campaign managers evidently is that Mr. Rodey's running would take from two to three thousand votes away from the Republicans, which they figure in all human probability would bring about Senator Andrews' defeat. This may be called a trick, but many things are fair in politics. The New Mexican does not believe in the old doctrine that everything is fair in love, war and politics, but many things that may not be exactly fair elsewhere are considered fair enough in politics and are used. In 1894, when Thomas B. Catron, of this county, ran for delegate to Congress and defeated Antonio Joseph who had held the office for ten years, the candidacy of T. B. Mills, of Las Vegas, as the Populist candidate, who polled 1,835 votes, helped to secure Mr. Catron's election as these votes, nine out of ten, came from the Democratic party. In this year of Our Lord, however, the scheme, should Mr. Rodey run, will not work. The Republican majority will be too great to be overcome by what Mr. Rodey may and may not do in the premises.

### THE PLAIN DUTY OF THE CITY ADMINISTRATION.

The city council on next Monday evening, at its regular session, should take prompt and decisive steps in the matter of constructing vitrified brick crossings and pavements on the principal business streets and resident avenues of the city, especially on those leading to the Capitol grounds from the north side. But about two months remain wherein to do this work before the session of the 36th Legislative Assembly. It should be done before that body meets, as during the sessions many citizens from all over the Territory will be in this capital and good, clean and comfortable sidewalks will prove a matter of much comfort and convenience to all concerned. This may be a hard and snowy winter and unless sidewalks and vitrified brick crossings are provided, sojourners and residents will have a tough and slushy time of it in their visits to the Capitol building on the south side, and Santa Fe will be condemned and suffer. This would prove of detriment and have an evil effect on the prospects of this town. The cleaner and the more comfortable the city is during the coming winter the more beneficial will this prove to the property owners and residents here. Too much in the improvement line cannot be done. The city administration will be deserving and receive the thanks of all good citizens if it will not be weary in well doing and will see to it that the pavements and street crossings on Palace Avenue, on Washington Avenue, around the Plaza, on San Francisco Street and on Don Gaspar Avenue are constructed as the ordinance requires, by the first of December.

The Democratic national platform insists that American citizens must and shall be protected in the full enjoyment of their rights and privileges in other countries. In the next paragraph the platform demands an immediate and great reduction of the army and navy. How the rights of American citizens in foreign countries can be protected and preserved without a navy and without an army, David Bennett Hill and his gang of plutocratic bond clippers and Colonel William J. Bryan and his crown of free silverites do not explain in the platform. They consider this inconsistency too small to be noticed. The people think otherwise, as will be found on election day in November.

The Republican party leaders in Kansas feel so hopeful that they have informed Chairman Cortelyou of the Republican National Committee that they need no money to carry on their campaign. The farmers of the state have over \$100,000,000 in the banks and this year's crops are very bountiful. Kansas will, on November 8 next, give one of its record-breaking majorities for Roosevelt and Fairbanks.

It is said that the Democratic leaders of this county are seriously considering to ask for a fusion with what is known as the Catron Faction of the Republican party here. After they have fought Mr. Catron unrelentingly for about thirty-five years they are willing now to do his bidding and give him part of the Democratic ticket in order to elect the remainder. At least, such are their calculations. Mr. Catron is evidently to their minds stronger than all of them combined. Indeed, the longer a man is in political life the oftener he is impressed with the truth of the saying, "politics makes strange bed fellows."

"It seems that Colonel Guffy of Pennsylvania, who denies having given \$50,000 to the Democratic campaign fund, does not want his left hand to know what his right hand signeth."—Kansas City Star.

The New Mexican hopes that the intimation in the above will not be applied to the report that Delegate Rodey is to receive \$4,000 for his campaign from the Democratic campaign managers should he make an independent race as a candidate for delegate. There are intelligent people in this world who might look at the question from the standpoint in the little editorial from the Kansas City Star.

In the Democratic district convention, held at Roswell a few days ago, to nominate a candidate for member of the house of representatives from the 15th district, the harmony was so thick that the Eddy County delegation walked out. There are evidently many Democrats in southeastern New Mexico who are dissatisfied with the actions and doings of the Democratic leaders there and who will vote the Republican tickets in part or in whole. Such action on their part will redound to the good of the Territory and will be highly commended by all patriotic citizens.

Chairman J. H. Crist of the Democratic Territorial Central Committee, denies that there is any deal on by which the neat sum of \$4,000 was to be paid for campaign expenses should Delegate R. S. Rodey conclude to run as an Independent Republican candidate for delegate to Congress and by such course help the Democratic candidate for the same office. Of course, man, of course! Nobody expected you to acknowledge the corn!

Your Uncle Henry Gassaway Davis is willing and ready to make more speeches in this campaign. Senator Arthur Pue Gorman and Chairman Tom Taggart are objecting. It is evident that these two Democratic campaign managers want their Uncle Henry to put up more big checks before allowing him to again address the "dear people" and make Republican votes. They want to get square somewhere.

The rains which have recently fallen in central and northern New Mexico will prove of great value to the range and to live stock. It now looks as if sheep and cattle will experience a favorable season this winter. This means prosperous times for the sheep growers and cattle raisers and thereafter, a benefit to pretty much every other inhabitant of the Territory.

Thanks to the perseverance and energy of County Commissioner Arthur Sellman, the people of this city will enjoy the use of another strong and handsome stone bridge across the Santa Fe River and that within four months. This is a greatly needed and much desired public structure and will prove of comfort and convenience to the citizens of the capital.

Louis W. Galles, of Albuquerque, figures out that Delegate Rodey, if he runs as an independent candidate for delegate to Congress, will poll 14,000 votes. It is reported from the Duke City that Mr. Rodey is inclined to believe this calculation. The New Mexican is loath to believe the latter report. It is too preposterous to be given credence.

Candidate George P. Money, in his speech on Wednesday evening in this city, said that if he were elected delegate he would have a bill creating a separate supreme court for the Territory passed. He did not explain, however, how as a Democratic delegate he could accomplish such a radical innovation in the judicial system of the Territory in a Republican Congress.

The Democrats of Rio Arriba County are for fusion with the Republicans there. Can't blame them. They have been licked so often that they have come to the conclusion that half a loaf is better than none should they find any Republicans willing to give it to them.

If you have any clean cotton rags that are suitable for cleaning machinery, bring them to the New Mexican office and receive cash for same.

Call on the New Mexican Engraving Company for engraved visiting cards.

When you go to the Fair at Albuquerque don't fail to take one of those fine oyster loafs with you from the Bon Ton.

## CAUSE OF RHEUMATISM

An eminent physician says: "That rheumatism is the direct result of improper eating and made absolutely cured by leaving out of your dietary, animal foods of all kinds and living on cereals, fruits, nuts and vegetables. A diet consisting of milk and cereal foods will cure the most acute form of Rheumatism, while those who live mainly on animal foods, cannot escape it."

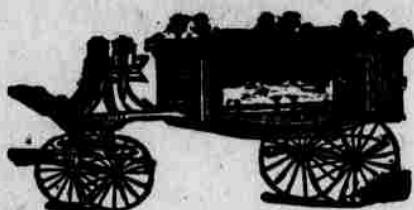

# DR. PRICE'S WHEAT FLAKE CELERY FOOD

Is rich in potassium and sodium, which are the essentials of the diet of persons with Rheumatic dispositions. The whole wheat-berry being used, the food becomes a regulator of the bowels, while the celery acts as a nerve tonic.

**Palatable—Nutritious—Easy of Digestion and Ready to Eat**

## MINES AND MILLS

### COLFAX COUNTY.

Another strike is reported from Elizabethtown. It was made on the Hidden Treasure owned by the Jetta Gold Mining and Milling Company. A three-foot vein of very rich ore was uncovered within fifteen feet of the surface. The company's stock is mostly owned at Trinidad, Colorado.

### GRANT COUNTY.

The 200-ton smelter of the Comanche Mining and Milling Company at Silver City will be completed by October 15. It will be blown in as soon as completed. Michigan capital is erecting the smelter.

### MINERAL STATISTICS.

The United Geological Survey has issued a report showing that in 1903 the United States consumed 27,758 short tons of graphite, valued at \$1,598,589. The value of the total home production was only \$225,554. The annual importation of graphite into the United States each year far exceeds, therefore, the domestic production. The value of the imports in 1903 was \$1,207,730, against \$1,168,554, the value of the graphite imported in 1902.

According to statistics compiled by the Geological Survey the United States during the last calendar year produced 34,430 short tons of crude borax, valued at \$661,400. The production in 1902 was 17,404 short tons of refined borax, valued at \$2,447,614, and 2,600 short tons of crude borax, valued at \$91,000, a total of 20,004 short tons, valued at \$2,538,614. Of the refined borax 862 short tons valued at \$150,000, were boric acid. Had the valuation in 1903 been taken on the refined instead of the crude product, the figures would have been \$2,735,000, instead of \$661,400.

The amount of borax, borates and boric acid imported into the United States in 1902 was 1,694,251 pounds, valued at \$63,236. In 1903 the amount imported was 909,251 pounds, valued at \$47,018.

### NEW MEXICO TERRITORIAL FAIR.

Albuquerque, N. M., Oct. 10th-15th, 1904. For this occasion the Santa Fe will sell tickets to Albuquerque and return from all points between Denver and El Paso Texas. The rate from Santa Fe will be \$2.65 for the round trip, dates of sale October 9th to 14th inclusive, good for return limit until Oct. 17th, 1904. H. S. Lutz, Agent.

### A FREE RAILROAD RIDE FOR YOU.

The Earth is a new illustrated monthly journal, describing the Great Southwest. Its publishers generously offer nearly \$3,000 worth of free railroad rides for the best photos of southwestern scenes, and the best letters about that region written by residents thereof.

H. S. LUTZ, Santa Fe, N. M.

### A BOY'S WILD RIDE FOR LIFE.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown, of Leesville, Ind., endured death's agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merits for all throat and lung troubles. Guaranteed bottles 50c. and 1.00. Trial bottles free at Fischer Drug Company, Santa Fe.

### REDUCED RATES.

Race Meeting and Firemen's Tournament at Las Vegas, October 4 to 6.

For this occasion the Santa Fe will sell tickets to Las Vegas and return at a rate of \$2.50. Dates of sale Oct. 3, 4, 5 and 6, good for return passage until October 7th.

H. S. LUTZ, Agent.

### Your Stomach.

When the quantity of food taken is too large or the quality too rich, your stomach is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let five hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating, take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. For sale by all druggists.

### Roosevelt or Parker.

No matter which will be elected, you can rest assured that you can satisfy your appetite at the Bon Ton.

Via D. & R. G. to St. Louis Exposition and return, 15 day tickets \$40.70; 60 day tickets \$48.15; season tickets \$67.80. S. K. Hooper G. P. A., F. H. McBride, Agt., Santa Fe.

New Mexican want and miscellaneous ads always bring good results.

## SKIN DISEASES

Altoona, Pa., June 20, 1903. I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LEAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S. S. S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable. Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.

The Swift Specific Company, Atlanta, Ga.

## Maxwell Grant.

### FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

### GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

### PERSONAL MENTION

F. E. Dunlavy is here from Estancia to spend several days with his family. Ross Griffith, a Cerrillos business man, was in the city yesterday and today purchasing supplies.

Carl Bishop, son of Mr. and Mrs. C. L. Bishop, returned on Wednesday evening from a visit to relatives in Connecticut.

J. Korber and Herman Blueher, who have been on a visit to the World's Fair, have returned to their homes in Albuquerque.

E. L. Medler, of Albuquerque, assistant U. S. district attorney, arrived from the south yesterday and attended to legal business here today.

J. W. Orchard, who is in charge of the construction work on the Albuquerque Eastern Railway, spent the day in the city on business at headquarters.

Mrs. W. Hayes Moore and children are expected to arrive in Santa Fe on tonight's belated Train No. 1, after spending the summer months with relatives in New Jersey and Pennsylvania.

Mrs. Dorothy B. Moores, who has spent the summer on the Hickox Ranch, at Tesuque, left on last evening's train for San Diego, California, where she will spend the next few weeks.

John K. Stauffer, money order and registry clerk at the post office, will return home on tonight's Santa Fe Train No. 1, from a five weeks' visit to his old home in Pennsylvania and to friends in New Jersey.

Roy W. Scott was the only passenger brought in from Rowe this afternoon. He was transferred to the Lamy train at Rowe and says that a transfer of one half mile must be made to get around the washout.

Milo Hill has returned from Bland, where he has been the past few weeks doing assessment work on his mining claims and claims belonging to Rev. George S. Madden and W. M. H. Woodward. Mr. Hill has taken a position with the H. B. Cartwright wholesale house.

Mrs. W. H. Hahn, of Albuquerque, arrived here Wednesday from a six weeks trip east, en route to her home at Albuquerque and is the guest of her daughter, Mrs. F. J. Nuding, on Palace Avenue. Mr. Hahn who came home with his wife at the same time, went on to Albuquerque and reached there Wednesday night.

E. P. Thompson returned to the city last night on the Santa Fe Central train after inspecting certain lumber property in which he is interested in the vicinity of Estancia. Mr. Thompson reported all the way from six inches to a foot of water running over the tracks at Clark Station, just six miles below Kennedy, which extended for 100 yards. At Willard the north bound train had just passed a bad piece of track when it washed out and the south bound train was delayed several hours before it was able to cross.

R. B. Willison, civil engineer and surveyor, has returned from Albuquerque where he has been for a week as a witness in the suit of William McIntosh versus the Commissioners of the Chilili Land Grant, in which McIntosh claims damages from the commissioners for timber cut upon a portion of the grant which he claims to be his private property, by Eugenio Romero, saw mill owner and the contractor. The grant contains about 38,000 acres of which Mr. McIntosh claims he owns 3,800 acres. Although saw mills have been on the property for over thirty years, there is still much good lumber and the timber in the mountains, although no attention is paid to

replanting and to the preservation of the growing timber. Mr. Willison is well acquainted with the property, as in 1881 he was appointed a special surveyor by the United States Surveyor General to examine and make report as to which of three surveys made before that time, of the boundaries of the grant should be accepted as the prior one. According to Mr. Willison's testimony given in the present case, Mr. McIntosh's interest in the grant amounts to less than 800 acres.

### NEW MEXICANS AT WORLD'S FAIR

Visitors From This Territory Are Very Much in Evidence at St. Louis.

The following visitors from this Territory, have registered at the New Mexico building at the World's Fair since the last report:

Santa Fe—S. Spitz, Miss Florence Spitz, Allan Fletcher, Hon. T. B. Catron.

Roswell—Palmer Bradley, Miss Josephine Chisum, Mrs. Robert Bradley, W. J. Chisum, Miss Elsie M. Sherman, George W. Smith, E. M. Gazine, Miss Nora Shields, Alonzo Shields, Mrs. A. S. Brown, L. J. Kelly, Charles Schultz, Miss Mary Holt, J. H. Clarkson, Miss Dora Kittinger.

Las Vegas—Mrs. W. J. Lucas, L. T. Laidley, R. O. White, Mrs. I. Tarkington, Mr. and Mrs. H. Givens, F. J. Easley, Miss Virginia Easley, Mrs. B. Danziger, Miss Jessie Danziger, Miss Edith Kingsley, Miss Grace Kingsley, Miss Nellie Scanlon, J. H. Fox.

Raton—Palmer McAbee, Mr. and Mrs. Bronlett, Mr. and Mrs. C. F. Rensberg and family, Mrs. E. J. Gilmore, Guy Thomas, Ray Thomas, Mrs. W. M. Taylor, Miss Florence E. Scanlon, Mathew Scanlon, J. S. Howells, Miss Ella Blackwell.

Socorro—Mr. and Mrs. Daniel H. McMillan.

Albuquerque—W. J. Mack, Mrs. M. Leekley, Miss Gertrude Leekley, Wilbur G. Leekley, Horace Hollingsbury, Charles Nichols, Jacob Higgins, Mr. and Mrs. C. W. Strong.

Silver City—S. E. Pollock, S. W. Kiner, E. R. Cosgrave, E. B. Morman, Mrs. O. D. Warren, E. L. Martez.

Clayton—Mr. and Mrs. W. J. Eaton, Miss Madge Charleston, Mrs. D. Charleston.

Folsom—Mrs. R. B. Drew, Miss Margaret Drew.

Artesia—Earl Cobb.

Chama—A. C. Garcia.

Santa Rosa—C. W. Carrahan.

Central City—T. H. Howell.

Deming—Arthur C. Rathel.

### LARGE NUMBER OF SHEEP SOLD

R. W. Prosser, of Comstock, Texas, is the Purchaser of Over 16,000 Head.

R. W. Prosser, of Comstock, Texas, has 16,000 head of sheep in the stock yards at Carlsbad, which he is preparing to drive overland to his ranch the first of the week. Comstock is one of the most extensive sheep growers in the southwest and has thousands of sheep on his ranch in the Lone Star State.

According to a recent enactment of the Territorial legislature, all sheep are required to be dipped, to prevent the spread of contagious diseases, before they are allowed to be taken from the Territory. In compliance with this requirement Mr. Prosser is compelled to remain in Carlsbad until the dipping can be done. As the sheep were heavy with wool, he deemed it best to have

them sheared first and this caused a delay of several days.

A Territorial government sheep inspector will be in Carlsbad to superintend the dipping on Monday of next week. The sheep will then be taken to the Prosser ranch, near Comstock.

In speaking of the ranges, Mr. Prosser said that the rains of the past few days have practically assured fall and winter grass and that sheep in the various sections which he had recently visited were in fine condition.

### POSTOFFICE THIEF ARRESTED

Young Man in the Toils for Robbing Lock Boxes at Albuquerque.

During the past ten days the post office authorities at Albuquerque have been on the lookout for a thief who had been tampering with the lock boxes in the post office in that city. The thief had been opening the boxes and extracting the contents and would then close the boxes again.

Postmaster Hopkins, after a watch of several days, was rewarded on Tuesday last when he caught the thief, a fifteen-year-old boy. The boy had two letters in his possession, one of which contained a check for \$17.50, made payable to a bill posting firm in Albuquerque.

He had a hearing before U. S. Commissioner H. R. Whiting on Wednesday and was bound over to the grand jury in the sum of \$400. He furnished the required bond and was released. The boy's name is Cecilio Montoya, and he is an orphan. He does not seem to be a depraved lad and cried incessantly during his preliminary hearing.

### INTERESTING STATISTICS

Compiled by Weather Bureau Concerning October Weather For Past Thirty Years.

The following data covering a period of thirty years, has been compiled by the Weather Bureau in this city, for the month of October: Mean temperature, 51 degrees; the warmest October was that of 1873, with an average temperature of 55 degrees; the coldest October was that of 1880, with an average of 46 degrees; the highest October temperature occurred on October 8, 1878, 85 degrees; the coldest October temperature occurred on October 16, 1880, 16 degrees. The earliest date on which killing frost occurred was September 25, 1889, but the average date for the first killing frost is October 19. The average date on which the last killing frost occurred was April 15, although the latest date was May 18, 1878. The average precipitation for the month was 1.03 inches; average number of days with .01 of an inch of precipitation or more, 5; the greatest monthly precipitation was 4.19 inches in 1881; the least monthly precipitation was none, in 1878. The greatest amount of precipitation recorded during any twenty-four consecutive hours in October was 1.26 inches on October 4 and 5, 1895. The greatest amount of snowfall recorded in any consecutive twenty-four hours, was 3.5 inches on October 26, 1897. Average number of clear days, twenty, partly cloudy days, eight, cloudy days, three. The prevailing winds have been from the southeast. The average hourly velocity was 6.2 miles and the highest velocity 45 miles per hour, from the southwest, on October 16, 1892.

The Japs are getting the best of the Russians because they are fed on the king of sea foods—oysters—which can be had at the Bon Ton.

### REPORT OF GAME WARDEN

Continued From First Page.

months in the Santa Fe, Taos and Mora ranges, part of the time in company with Vernon Bailey, Chief Field Naturalist of the United States Biological Survey. Evidences of the existence of Mountain Sheep were found at an altitude of 12,000 to 13,000 feet on the Truchas Peaks. White tail deer, formerly so numerous in that locality, were very scarce, only one buck, at an altitude of 11,600 feet and a solitary doe at about 9,000 feet were seen. A recent report informs me that this species is again coming in.

I visited Sierra County last December and found that antelope were more numerous than for some years previous.

Owing to the unusually dry season just passed, our trout streams are in very poor condition, one case, that of Cow Creek in the Pecos Range, formerly a beautiful little trout stream, the stream having gone completely dry.

Last winter I collected and sent Hon. B. S. Rodey, Delegate in Congress from this Territory, all available data for the purpose of introducing a bill to provide the Territory with a fish hatchery as a convenient means of keeping our streams and lakes well and constantly stocked with fish. Mr. Rodey introduced H. R. No. 5665 for that purpose and the bill is still pending.

In conclusion I beg to state that, while general conditions have greatly improved during the past year, still there is plenty of room for further improvement. With absolute prohibition on Elk, Antelope and Mountain Sheep, for some years to come, closed seasons on all of our game animals, birds and fish, and the proper means of rigidly enforcing the law, New Mexico would soon advertise itself as a sportsman's paradise not excelled by any other state of territory in the Union. And with proper license laws, this condition could be kept up without any additional burden upon the general tax payer.

### TORCHLIGHT PARADES.

By all means let us have torchlight parades during the presidential campaign this fall. They are pretty to look at even if they don't win votes. Those fine oysters at the Bon Ton are not only pretty to look at, but nice to eat. Call in and try them.

### Great for Kidneys.

Weak back, tired feeling, mental depression, sleeplessness, headache and other symptoms are quickly cured by the use of Palmo Tablets. They act directly on the kidneys and nervous system, and make you look and feel years younger. 50 cents. Book Free.

At Ireland's Pharmacy.

## SANTA FE CENTRAL INTO SAN JUAN

Work on the Proposed Extension of This Road to That County Will Soon Commence.

Word received from the northwest portion of the Territory states that the San Juan country has been blessed with bountiful rains and that the stock range, fields and crops are in far better condition than for many years past. The Animas and San Juan are carrying huge volumes of water, sufficient in themselves to irrigate hundreds of thousands of acres.

With all these advantages and opportunities for productive farming many portions of the country remain untilled because of the lack of irrigation systems and railway facilities. Certain sections, which would compose the best farming lands in the Territory, now lie vacant because of the cost to the farmer for marketing his products.

San Juan County has the natural requisites to make it in more demand than any other section of the country and the building of a railroad means not only the opening up of undeveloped portions but the rapid advance in prices of the land of those who have labored there for years. Present prices are cheap, very cheap, and many investors are going into the country because of the now probable building of a Durango extension by the Santa Fe Central Railway.

The valley is noted for its remarkable fruit productiveness, it having been estimated that shipments this season will amount to 20,000,000 pounds. A visit through the orchards at this time shows the farmers busily engaged in gathering the wealth from the overloaded branches, which is sent to the cities and towns accessible in the Colorado mining region to the north.

Most of this fruit is hauled at least sixty miles to the nearest railroad and a large quantity often spoils because of the inability of the farmer who planted the trees to reach a connecting point with the outside world.

It is understood that as soon as the Albuquerque Eastern is well under construction that Senator W. H. Andrews is consulting with eastern capital to begin the construction of the Durango extension of the Santa Fe Central Railway. Any student of railway affairs must know that such an adjunct to the present lines of the Santa Fe Central is absolutely necessary in order that the system may be complete. It is not generally known by many that in the office of this railway company are the complete surveys showing the course of the proposed extension as surveyed by the company's engineers.

This proposed extension passes directly through those portions of the San Juan country which in the past have been seriously handicapped by their remoteness from transportation facilities. In but a few sections do apples, pears, peaches, cherries, plums, apricots and small fruits grow in such abundance. Vegetable life of every description and corn, wheat and alfalfa are also produced with less labor and care than is common in other sections.

tions. This road must be a success to the investors and, on the other hand, what it means for the San Juan country is something that cannot be estimated.

It is said that other companies see the necessity of being the first to enter this field. This has probably been anticipated by the Santa Fe Central. Senator Andrews is now in Pittsburg on business connected with this Durango extension. He will leave there on his return tomorrow, reaching this city on Wednesday next. For the next five weeks he will devote every day of his time to campaign work and will visit every section of the Territory.

## MINOR CITY TOPICS

Mrs. Hersey's dancing class will meet tonight at Adams' Hall.

Wanted—A girl to do general housework. Apply at the New Mexican office.

The only mail that arrived since yesterday afternoon was a pouch with three letters from Lamy.

Solicitor General Edward L. Bartlett is suffering from a bad cold and is confined to his residence.

The local Postal telegraph office was unable to do any business today, it wires north and south being in bad shape.

La Tertulia Idiomática will have a regular meeting at the home of Miss Manderfield tomorrow afternoon at 2:30 o'clock.

The rainfall during the present month has broken all previous records for the month of September since the local weather bureau has been established.

The Lamy branch train was ordered from Lamy to Rowe today where passengers for Santa Fe on trains Nos. 1 and 7 were transferred around the washout.

Justice of the Peace Henry Pacheco of precinct 18 is rapidly recovering from his recent illness and operations performed upon him and will be able to resume work in a few days.

Santa Fe Lodge No. 2, I. O. O. F., will hold their regular weekly meeting this evening at their hall on San Francisco Street. All visiting Odd Fellows are invited to be present.

A detachment of convicts numbering 25 was at work this afternoon on the approaches to the Don Gaspar Avenue stone bridge and much work was done by them in the water, the men working hard and willingly.

Sparks Street is now a portion of the river bed. What it will cost the city to place this street on its former level is not at the present time known. The lack of breakwaters was responsible for the loss of this thoroughfare.

The Western Union wires north and south along the line of the Santa Fe Railway were interrupted all day and no press reports were received over them. The wire along the Denver and Rio Grande Railroad worked to some extent part of the day.

It cleared nicely this forenoon and the weather bureau predicts fair and warmer weather for tonight and tomorrow.

The maximum temperature yesterday was 62 degrees, the minimum 51 degrees, a range of only 11 degrees. The relative humidity was 90 per cent, the highest thus far this year. The precipitation was 2.30 inches, also a record breaker, the entire precipitation for the twenty-four hours ending at four o'clock this morning having been 2.51 inches, the highest on record in September for any twenty-four hours during the past thirty years.

The river cut itself a new channel a several points. Near the Canon Street bridge it cut across the alfalfa field of Miguel Rodriguez and Upper Palace Avenue, and at the residence of A. E. Renahan, it washed out a reservoir and cut itself a new channel across land belonging to Mr. Renahan.

Work on the Scenic Route Road between Santa Fe and Las Vegas across the Pecos Range is progressing satisfactorily despite the recent heavy rains. On the Santa Fe side on the Macho Mesa 31 convicts are at work and on the Las Vegas side in the Gallinas Canon there are 23 doing construction work.

Enough water has gone to waste in the Santa Fe river during the last forty-eight hours to fill reservoirs and to furnish a supply for the complete annual irrigation of twenty-five thousand or more acres of land in the Santa Fe Valley. Circumstances like these may be considered irreparable losses.

The spillway of the large reservoir of the Santa Fe Water & Light Company, the capacity of which was greatly enlarged this spring, was not large enough to carry all the flood waters and about one half of them poured into the reservoir. As a consequence, the city water will have the color and consistency of chocolate for a few days.

Workmen today commenced tearing down the building owned by Luis M. Ortiz, on San Francisco Street, abutting on property that it is proposed to use in the extension of Galisteo Street north to Palace Avenue, preparatory to erecting a substantial brick building on this lot. The erection of this building will make the proposed extension of Galisteo Street more difficult.

A telegram received today by Agent H. S. Lutz of the Santa Fe announced that Mrs. H. J. Bishop, wife of the cashier at the Santa Fe depot here, died yesterday at Linesville, Ohio. Deceased had been a sufferer for sometime from bronchial and other affections. After the funeral, Mr. Bishop expects to return here and resume his duties in the Santa Fe Railway office.

Assistant Superintendent Garrett, in answer to an inquiry, said this morning that work on the burning of another kiln of brick at the penitentiary was progressing favorably and that the brick therein would be ready for delivery in about two weeks. Enough paving bricks are on hand for the pavements on the front and sides of the Governor's Palace, and for the several brick crossings on the Plaza on San Francisco Street and Don Gaspar Avenue. Bricks for these are being delivered right along by the penitentiary authorities.

A deputy game warden is now on the ground in Taos County looking into a case where a number of deer are being held out of season. Fifteen arrests are anticipated in a few days as a result of the work now being done. Page B. Otero, Territorial game warden, has received information which was sufficiently reliable to warrant a deputy.

About 300 passengers were on trains Nos. 1 and 7 of last night on the Santa Fe Railway, which are still at Rowe, being unable to move either backward or forward on account of washouts. Unless the line between Las Vegas and Rowe can be temporarily repaired by tonight, the passengers will be transferred to the Lamy branch and brought to Santa Fe. Trains Nos. 1 and 7 of tonight are to be kept at Raton, as the worst washouts occurred in the vicinity of Watrous.

Word was received here this afternoon that the washouts between here and Albuquerque are not as serious as was first reported and that trains will likely be running to the Duke City from this place in two or three days. The most serious washout is reported to be in the Mora Canon, twenty miles north of Las Vegas and this may delay railroad traffic north of Las Vegas several days, probably five or six or longer. The washout occurred last night and was evidently brought about by the rains which fell and which were a part of the general rain storm which passed over a belt of 150 miles wide and wider through central New Mexico going northeast.

The recent rains have demonstrated more than ever the great necessity of vitrified brick crossings and pavements on the uptown business streets and residence avenues of this city. The city administration should profit by the lesson just received from the weather clerk and should insist upon the prompt and strict compliance with city ordinances directing the construction of brick sidewalks, and for itself should see to it that no delay in the

**Is this Your Wife?**

You say: "No!" But she should remind you of a duty you owe your wife. If she has one of the old-fashioned, troublesome, cumbersome, cast-iron Cook Stoves—the kind that gets red hot all over—you can end all her kitchen troubles by buying here "Quick Meal" Range.

The "Quick Meal" Steel Range is thickly lined with asbestos that all the heat is kept inside the Range to bake and cook the meals, instead of cooking the Cook. In that way it saves fuel and it also saves and sweetens temper.

"Quick Meal" Ranges are daily growing in popularity. They look well, they cook well, they bake well, they last well. That is why there are so many in use—every one recommends another.

**OJO CALIENTE HOT SPRINGS.**

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board lodging and bathing \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

**PROCLAMATION.**

Office of the Board of County Commissioners, Santa Fe N. M., September 9th, 1904.

An election of the qualified voters of the County of Santa Fe, Territory of New Mexico, is hereby called to be held at the several voting precincts of the said County of Santa Fe, as established by the said Board, on Tuesday, November 8th, 1904, for the purpose of voting for the following officials, to-wit:

One delegate to the 59th Congress.  
One member of the Council of the 36th Legislative Assembly.  
Two members of the House of Representatives of the 36th Legislative Assembly.  
One County Commissioner, 1st District, for term of two years.  
One County Commissioner, 3d District, for term of four years.  
One Sheriff.  
One Probate Judge.  
One Probate Clerk and Ex-Officio Recorder.  
One Treasurer and Ex-Officio Collector.  
One Assessor.  
One Superintendent of Schools.  
One Surveyor.

Polls in the various precincts shall be open from 9 o'clock a. m. until 6 o'clock p. m.

Said election to be held in conformity to the laws of New Mexico, now established.

Witness the seal of the Board of County Commissioners of the County of Santa Fe, and the Territory of New Mexico, and the hand of its chairman and clerk, this 9th day of September, A. D. 1904.

The following have been appointed members of the Boards of Registration and the registration will be held at the following places:

**Judges of Registration.**

**CELSO LOPEZ, Clerk.**

**A GUARANTEED CURE FOR PILES.**

Itching, Blind, Bleeding or Protruding Piles. Your druggist will refund money if PAZO OINTMENT fails to cure you in 6 to 14 days. 50c.

When troubled with constipation try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or other unpleasant effect. For sale by all druggists.

**Notice for Publication.**  
(Homestead Entry No. 7810.)

DEPARTMENT OF THE INTERIOR.  
Land Office at Santa Fe, N. M., Aug. 27, 1904.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register or receiver at Santa Fe, N. M., on October 11, 1904, viz: Harvey M. Shields for the ne4 section 7, township 19 north, range 3 east. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Hugh Murray, Leonard Winhoefer, James A. Smith, J. M. Shields all of Pecos, N. M.

Manuel R. Otero, Register.

**Emergency Medicines.**

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When pain balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by all druggists.

**What is Life?**

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache of liver trouble. Dr. King's New Life Pills quickly readjust this. It's gentle, yet thorough. Only 25c. at Fischer Drug Co., Santa Fe.

**SO SOOTHING.**

Its Influence Has Been Felt By So Many Santa Fe Readers.

The soothing influence of relief After suffering from Itching Piles, From Eczema or any itchininess of the skin.

Makes one feel grateful to the remedy.

Doan's Ointment has soothed humors.

Here's what one Santa Fe citizen says:

C. M. Conklin ex-city clerk, of San Francisco street says: "There came to my notice sometime ago a case of hemorrhoids, commonly called piles. They were of the bleeding protruding variety and itched intensely. Doan's Ointment came to the notice of the party afflicted and was procured at Ireland's Pharmacy and a course of the treatment given. The first application soothed and a continuance of its use for some time longer radically disposed of that far too prevalent plague."

For sale by all dealers. Price 50 cts. Foster Millburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

The Wabash Railroad has just issued a handsome illustrated World's Fair pamphlet containing a three color map of St. Louis and the fair grounds and half tone views of the principal buildings. A copy free upon request. P. P. Hitchcock, G. A. P. D., Denver, Colorado.

**Cough Remedy**  
I have sold Chamberlain's Cough Remedy for more than twenty years and it has given entire satisfaction. I have sold a pile of it and can recommend it highly.—Joseph McElhiney, Linton, Iowa. You will find this remedy a good friend when troubled with a cough or cold. It always affords quick relief and is pleasant to take. For sale by all druggists.

**Pianos!**

Read What Accomplished Musicians Say of the Story and Clark Piano.

"Equal if not superior to any instrument I have had occasion to use."—Barron Berthold.

"Shows such superiority of workmanship and finish as must make them welcome to any household."—Leonora Jackson.

"Grand resona in tone and delightfully sweet and tender."—Mathilda Bauermeister.

"I cannot speak too highly of your pianos, they seem to be unsurpassable."—R. Watkin Mills.

"I find your pianos wonderfully sympathetic for accompanying the voice."—Lillian Blauvelt Pendleton.

"Gave the liveliest satisfaction to me. I consider them second to none."—David Francon Davies.

"I think it capable of the fullest expression of musical thought."—Ellen Leach Yaw.

"In my opinion they rank among the very best pianos of the day."—Emile Sauret.

"Possessed of a beautiful quality of tone and a most sympathetic touch."—Fernando de Lucia.

"I was perfectly charmed with its beauty of tone and delightful touch."—Francis Witten.

"Their tone is sweet as well as resonant. Are remarkably adapted for accompanying the voice."—Clementine de Vere Sapiro.

"Your pianos embody sweetness and richness of tone, splendid carrying power and excellent action."—Rosa Olitzka.

**THE STORY & CLARK PIANO CO.**

## IN HARVEST FIELDS

COLLEGE BOY WRITES OF HIS EXPERIENCE.

Work is Hard, But There are Compensations of Various Sorts—An Inducement to Take a Job of Plowing.

One of the college boys who went to the western Kansas harvest fields writes to a friend an account of his experiences, saying:

"Well, this isn't what it is cracked up to be, and Harold would have confessed himself all in and come home to mamma inside of two days after starting if he hadn't been worse afraid of the joshing of you devils than of blistered paws. Speaking of blistered paws, it's no joke. Before night the first day I had puffs all over my hands, and that night the fat dame of this household stuck needles into 'em and tapped me until I ran water like a hydrant. But the old boy was good to me, and for two days he kept me at choring around, hauling water, helping the fat dame cook and playing the baby generally. Then I tackled the header boxes again for ten straight days and I really got to liking it. But say, Willie, don't you believe that story about a shortage in the world's bread crop. I know better, for I pitched enough of the blamed stuff to make two crops of world's breadstuff.

"And, Willie, there is another thing you can disabuse your festering intellect of. You can't spon on these country girls with the joyous freedom that you read about. We have a roly-poly girl here who doesn't wear corsets and who don't care how much sock she displays when she kicks at the cat. I kissed her the other night. I won't do it any more. If I want exercise of a rapid kind I will go out and ground an electric light wire through my handsome person. She whacked me on the side of the head with a fist like a ham, and don't you doubt it, Willie, she meant every word of it.

"I get \$2 a day and 'found.' 'Found' means that the old man comes to your downy couch at 3 o'clock in the morning and finding you asleep, whoops you out to feed the horses. By the time the horses are fed we are called to breakfast. Did you ever eat pie at breakfast? Well, we have pie for breakfast every other morning. It seems to be the idea out here if you have pie you can't complain at any other indignity. And every pie we have had so far is made out of raisins. Now, don't get it into your head that raisins won't make good pie. They do.

"After breakfast we hie us away to the field and cut wheat until the fat dame waves a tablecloth out of the window to tell us that dinner is ready. Then we eat and go out and cut more wheat, and the old boy keeps us at it until it gets too dark to see. But, Willie, the way you can sleep after you have had a day like that! You go dead—that's all about it.

"I figure that I will get home with about \$30 to the clear. The old boy says he will give me \$25 a month to stay and plow, and a thresher man offers \$1.50 a day and 'found' if I will work for him. But \$30 is capital enough for Harold. I am not grasping or sordid.

"(P. S.—I had a heart-to-heart talk with the roly-poly girl last evening. She said I ought to be ashamed of myself for kissing her in the house where the fat dame might see. If it wasn't for school taking up I believe I'd tackle that job of plowing.)"—Kansas City Journal.

### A Good Reason.

Addie: When Mary came to Santa Fe she looked like a skeleton. But see how fleshy she is now.

Mabel: No wonder! You'd get fleshy too if you took your meals at the Bon Ton.

## JUMPING UP

Is a great deal harder than jumping down. And yet people who have been for years running down in health expect to jump back at once. It takes years generally to make a man a confirmed dyspeptic, and he cannot expect to be cured in a few days.

There is no quicker means of cure for dyspepsia or other forms of stomach trouble than by the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and builds up the body with sound flesh and solid muscle.

"I was taken sick two years ago," writes Rev. W. H. Patterson of White Cloud, Ala., "with what the doctors thought was gastric trouble, indigestion or nervous dyspepsia, also constipation and inactive liver. I was in a dreadful condition. Tried several different doctors with but little result. I had gotten so feeble that I was almost past traveling about; had got down to 114 pounds. I went and bought six bottles of 'Golden Medical Discovery,' and got the 'Pellets' and began following directions. When I had taken about five bottles I felt very much better and was greatly improved, and weighed one hundred and thirty-eight pounds. I will say that Dr. Pierce's medicines are a God-send to poor suffering humanity, and I advise any and all chronic sufferers to give them a fair trial and they will be satisfied."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

**GREELEY POTATOES.**

The potatoes from Greeley, Colorado rank as being of the very highest quality. We are now receiving them, and they are very fine indeed.

Per cwt ..... \$1.65

**MEADOW GOLD BUTTER.**

We never tire of telling the good qualities of Meadow Gold Butter. It is pure, clean and of a most delicate flavor. These good qualities are retained and preserved by the package, which is air tight, moisture and odor proof.

**OUR BAKERY.**

Why not use our bread? It is made according to the most approved methods. It contains nothing that could by the remotest possibility be injurious to the health. It is sweet to the taste, clean to the sight and always fresh. Made only from the highest grade Kansas flour.

**MEAT MARKET.**

Only the choicest cuts of packing house corn fed beef, mutton and lamb are cut in our market. Give us a trial when you want something nice in the way of meats, bacon, hams, boiled ham, etc.

**IMPERIAL FLOUR.**

Our trade on Imperial Flour has been very satisfactory, but we would like every one in Santa Fe to use it who can appreciate its remarkable qualities. It makes the best of bread and is also a fine pastry flour. Probably the best pastry cook in the Southwest will use no other brand.

50 pound sack ..... \$1.60

**SOUTH SEA BLEND.**

There has been a remarkable advance in the price of medium grade coffees. We are still selling South Sea Blend at 25 Cents per pound. We fear that we shall not be able to continue to do this much longer. Better buy sixty days' supply now.

**FRUITS AND VEGETABLES.**

We always have what the market affords in the way of fruits and vegetables.

**HAY AND GRAIN.**

We shall be pleased to fill your orders for hay, grain, feed, etc. Our stocks are always complete, the quality of the best and prices reasonable. See that your animals are well fed. We can do it for you.

**POWERFUL AND DESTRUCTIVE FLOOD WATERS**

Continued From First Page.

voirs the size of that of the water company and to have irrigated many thousands of acres of lands. The river here continues to rise and fall at irregular intervals, evidently receiving fresh supplies from the smaller canons from time to time. At ten o'clock this morning the water was on the sidewalks on Don Gaspar Avenue, a block from the bridge. This was the overflow from the south bank, which had been demolished near College Street.

**Believed Rain Is Over.**

This morning threatening clouds obscured the mountains from view and evidently more rain was falling to the north. The clouds gradually raised but continued to hang low over the mountains for hours. Later the sun came out and appearances were that little, if any, rain, would fall this evening.

**Broke All Records.**

The rain of last night and yesterday broke all records for the month of September in this section. During the night 1.43 inches fell, the total rainfall for the twenty-four hours being 2.30. The largest precipitation in the past was 1.70 inches on September 27-28, 1893. The total fall under the present shower is given out by the local weather bureau as 2.51 inches. No forecast has been received today, yesterday's stating that more showers were to be anticipated.

**Bad Washout on D. & R. G.**

The Denver & Rio Grande Railway is confronted with a serious problem in the washout in the Rio Grande Canon. The train backed into Espanola again last night and a large force and a work train are at work endeavoring to repair trackage to a sufficient extent to resume traffic. It is not known when the regular schedule of the line can be resumed.

**Large Crowd Views Flood.**

Many visited the river banks today to watch the waters as they rushed past. Accidents were narrowly averted at the Don Gaspar bridge where the banks had been undermined and only required a little additional weight to tumble into the river. On the north side of the bridge one man refused to heed the shouted warnings and walked across a mere shell of earth on the wing. Six feet of earth gave way and he narrowly escaped following it into the swirling waters. A portion of Bernstein's blacksmith shop on the south bank of the river along side of the Gallisteo Street bridge was carried down the stream much to the consternation of the horseshoer. Several trees floated down, accompanied by a miscellaneous collection of articles picked up along the banks.

**Damage Due to Dilatoriness.**

The damages to the Don Gaspar Avenue bridge, which consisted of the loss of two of the wingwalls and the approaches to the bridge, was caused by the failure of the property owners to build breakwaters and of the officials who had promised to clean out the channel of the river to perform their agreement.

County Commissioner Seligman Talks.

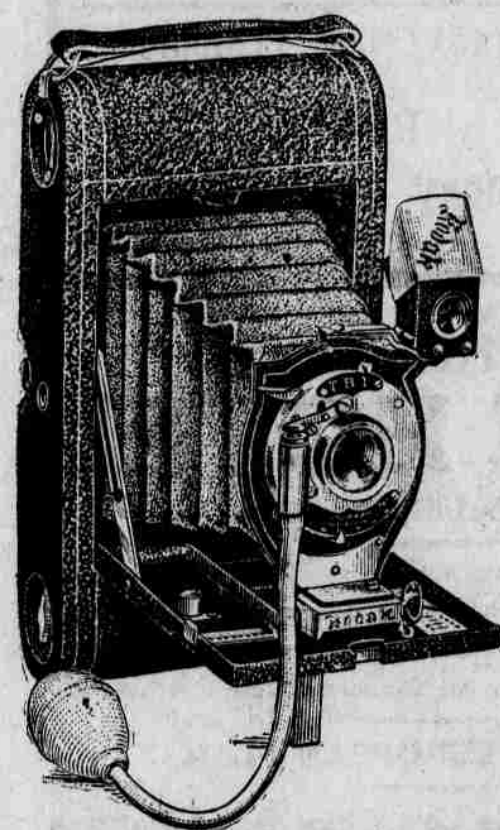

County Commissioner Arthur Seligman, who was instrumental in securing this improvement for the county, stated to a representative of the New Mexican this morning that he had received promises from the penitentiary officials that they would remove the superfluous stone and plough out a channel in the river which would lead directly to the arches. This had been promised when D. M. White, who was the engineer in charge of the construction of the bridge, had called his attention to the condition of the river channel above and under the bridge. "If the city and property owners had built breakwaters along both banks in compliance with the city ordinance, and the channel had been cleaned out in front of the bridge the large volume of water would have passed under the arches of the Don Gaspar bridge with no damage at all," said Mr. Seligman. "At the highest point of the river, the water did not reach the spring line of the arches and there was plenty of room for all of it to pass comfortably through. Some of the property owners had built breakwaters and others had neglected to do so. This caused the river to assume an 'S' shape and allowed the water to swing in behind the wing walls. The damage will only amount to \$270 on this bridge. As to what the damage will be on the other bridges I am not prepared at this time to state."

**County to Take Prompt Action.**

Commissioner Seligman also stated that the county would promptly repair the damage to the Don Gaspar Avenue bridge and take measures to rebuild the Delgado and Canon Street bridges; a contract for the new stone bridge on College Street has already been awarded. Before the county will do this, however, the county commissioners will require the construction of breakwaters at proper places from Cerrillos road to Don Gaspar Avenue in order to protect the county bridges from the damages resulting from high water and from floods which are bound to occur as long as the present condition of the channel and of the banks on each side of the river prevail. This is especially the case between the College Street and the Don Gaspar Avenue bridges. In this connection it is well to remark that the fact that the Don Gaspar Avenue bridge, which stood the great bodies of water which came

down the river last night, helped the security of the Gallisteo Street bridge 300 feet below. Contractor Sharpe, who built the Don Gaspar Avenue bridge asserted that he was sure that no volume of water that possibly could come down the river would injure the Don Gaspar Avenue bridge proper, but that unless suitable breakwaters were had along the banks above it and the channel of the stream was kept clean and deep, the approaches to the bridge would suffer. This is fully born out by what occurred last night at the bridge.

**TERRITORIAL  
DISTRICT COURT**

Adjourned This Morning—Remaining Cases Will Be Heard Before Judge McFie in Court Chambers.

The district court of Santa County convened this morning at ten o'clock, Judge John R. McFie presiding, and the deputy clerk at his desk.

In the case of the Santa Fe Central Railway Company vs. Philip B. Molson, being a proceeding under the statute to condemn certain lands for railroad purposes, the district attorney, E. C. Abbott, filed a petition for leave to intervene in such proceeding in behalf of the Territory and County of Santa Fe, to compel the payment of delinquent taxes out of the award deposited in court by the railroad company for the payment of the land condemned, and upon a hearing this morning the application was denied by the court.

In the case of C. L. Bishop, administrator, vs. S. Quintana de Garcia, arguments of counsel upon the law and evidence will be heard by Judge McFie in the Chambers at some future day as may be agreeable to the counsel.

The September term of the district court adjourned for the term, but quite a number of cases are to be tried before the Judge at the Chambers, a jury being waived by the attorneys interested.

**U. S. WEATHER BUREAU NOTES.**

Forecast for New Mexico: Fair to night and Saturday, except clearing in north portion tonight; warmer weather Saturday.

Yesterday the thermometer registered as follows: Maximum temperature, 68 degrees, at 3:00 p. m.; minimum, 51 degrees, at 6:10 a. m. The mean temperature for the 24 hours was 56 degrees. Relative humidity, 60 per cent. Precipitation, 2.30 inches. Temperature at 6:00 a. m. today, 51 degrees.
