STORY OF THE FLOOD

The Damage Throughout the Territory Amounts to Over a Million Dollars.

RAILROAD SITUATION

The Santa Fe Is Still Tied Up But Trains on Other Lines Are Running.

The flood situation throughout New Mexico is simplifying itself as the railroads are beginning to run under normal conditions. The only system still tied up is the Santa Fe, which both over in the Pecos Valley and from Albuquerque to Raton is still unable to run through trains, although local traffic has been resumed between Las Vegas, Cerrillos and Santa Fe and by Saturday trains will be running into Albuquerque from the north. The property damage throughout the Territory will amount to a million dollars or more.

Last Friday's flood still forms the main topic of Territorial news. A dispatch from Raton says: By reason of the floods Raton is now entirely cut off from the outside world, almost all the bridges of the Santa Fe Railway, both to the north and south, have been washed away. No mails have been received here since last Friday. Some work trains are, however, running over the mountain to Starkville, near Trinidad. Raton itself suffered very little in the floods as no buildings were torn down or washed away and no lives were lost. It only suffers from the inconvenience of complete isolation and suspension of all railroad traffic. The roads also about the country are in an impassable condition from washouts and loss of bridges.

At Roswell. According to a telegram from Roswell: It was reported that the flood would reach the city at 4 o'clock Thursday afternoon, but the banks of the Hondo did not break until 8 o'clock. In fifteen minutes the main street of the city was under water. Word reached the city Saturday night at 7 o'clock saying that the water was ten feet high at the Diamond "A" ranch, and that the whole city would be under water by midnight. This report created the wildest alarm, and hundreds of people made for the hills, but the story was false, and the worst of the flood is over. About fifteen houses have been washed away, and the damage will amount to about \$100,000 to this and surrounding country. The dike that was erected by the city proved of little avail, and washed away in a few minutes after the flood waters descended. The electric light plant was closed. Banks suspended business. The Roswell opera house fell Saturday night at 10:30. So far as known no lives were lost. The streets are in an awful condition. The Hondo reservoir, which will be built by the government, will save the city from any more floods. The railroad bridge north of the city over the Pecos River has been washed away. There have been no trains nor mail since Thursday night.

At Carlsbad. The flood situation, which became grave last Saturday, was much better last evening and unless further volumes of water come down the Pecos River from up the valley all danger is over. The river is falling rapidly and the people who took to the hills, fearing that the great McMillan reservoir would go out and destroy the town, are returning to their homes. It is impossible to estimate property losses at this time, though they will aggregate several hundred thousand dollars. All the bridges on the Santa Fe north are out and mail and telegraph service is by way of Pecos. The list of damage so far is as follows: To Lake Avalon reservoir system, damage 600 feet out, \$15,000; to wings of Lake McMillan dam, 800 feet out, \$10,000; cotton gin of O. T. Ramsey Company, carried away after machinery taken out, \$1,000; wagon bridge carried out, loss \$5,000; power house of Public Utility Company, carried out, after machinery was taken out, loss \$5,000; damage to Tansill power dam wings, about \$5,000. The electric light service is abandoned until a steam plant can be installed. There is some damage to crops, but it is not possible to estimate it now. The town was uninjured and not a life was lost, as the water got no closer than the Santa Fe tracks. The great concrete flume of the Pecos Irrigation Company, the largest in the world, was squarely in the track of the flood, but stood as granite, and by holding back the water prevented much damage.

In and Around Las Vegas. Tales of devastation of scores of villages along the course of the Mora and Sapello, Gallinas and Pecos and other streams continue to come in. In Mora alone thirty houses were destroyed. Weber and Cleveland fared badly. The big mercantile house of E. H. Blum-

baum was among those destroyed. There is little left of the towns of La Cueva and Caparito. It will be a long time before the loss of life in the whole valley can be told for certain.

The report that the big Montezuma hotel had been washed from its foundations is erroneous. The bath house and bridge went out and the old hotel was undermined but the new hotel is intact.

The rainfall covering the period of the flood from Wednesday evening, September 28th, at 6 o'clock, to Friday morning at 6—thirty-six hours—as recorded by the government weather bureau, was 4.64 inches at Las Vegas. The reports indicate that the downpour in the mountain districts was almost twice as heavy.

Last night a special work train carrying a lot of cars laden with men and material, and also a pile driver, went to the gap beyond Watrous. The road was rebuilt so the channel last night and work on the temporary bridge over the Mora was begun this morning.

Two civil engineers declared that in their opinion the current of the Gallinas cannot safely be turned. The only way to make the property on the flats safe is to widen the channel in such a manner as to give the river a straight course to the bridge at Las Vegas.

A committee of Las Vegas citizens was before the county commissioners of San Miguel County on Tuesday in the interest of the residents of the east and west sides affected by the recent flood disaster. Their plan is to have an engineer go over the ground thoroughly and make estimates of the cost of turning the river into the old channel and making such improvements along the banks thereof as to make the channel permanent, the expense to be divided between the county of San Miguel and the town of Las Vegas and the city of Las Vegas, the Santa Fe Railway Company and the citizens. The county commissioners signified by resolution their willingness to assist in the matter, to the extent of one-fourth the cost thereof, provided the cost does not exceed the sum of \$5,000. The committee will take the matter up with the railroad company, the mayors of the city and town of Las Vegas, and the citizens affected with a view of enlisting their aid as soon as the engineer's report is made.

Every man that can be picked up is being sent to the Watrous washout. A half dozen hobos were turned out of the Las Vegas city jail and sent up the line to work. They were offered the choice between working on the streets for nothing and working at Watrous for \$1.40 a day. The work of making a temporary bridge is going on rapidly. The hardest work, however, is beyond the bridge in the canon where the locating of a new line will be a matter of extreme difficulty.

Cecil Rosenwald, of the firm of E. Rosenwald & Son, who returned to Las Vegas on Saturday, reports one of the most remarkable journeys which he ever made in New Mexico. The rain caught him at Romeroville, an hour after he left home on Friday a week ago and for six days it rained incessantly and heavily. Cerrito, forty miles to the southward was his destination, but he was forced to turn aside and wait at Chaperito till the flood went by. The crest of the water, which passed the ranch of Trinidad Romero on the Upper Gallinas about 11 o'clock Thursday night and which struck Las Vegas about 12:30 Friday morning, reached Chaperito, forty miles to the south at about 2 o'clock. The flood at that point, says Mr. Rosenwald, was three hundred feet wide and fifty feet deep and the waves dashed twenty feet high at times. The valley was swept clear of all crops, orchards and vegetation of any kind. In an orchard at La Concepcion of a crop which had been estimated at 25,000 pounds of apples, there was not an apple left. When the waters subsided, Mr. Rosenwald abandoned the remainder of his trip and hurried home to see what was left of Las Vegas.

A letter from Rociada says: This memory of the oldest settler in the place does not recall an equal to the amount of rainfall and volume of water which poured through the little stream, Manuelfitas, from Thursday night at 8 o'clock until Friday night at 12 o'clock until entirely stopping for a space of fifteen minutes during the whole time, which was twenty-eight hours. During this time the rain gauge registered 7.32 inches of water fallen from the sky. Nearly all the crops which had been cut and shocked up or stacked were either washed away or soaked to such an extent as to damage them about fifty per cent. The roads are all washed out so that a wagon cannot get one mile from the town in any direction. All the bridges are gone and fields are plowed up by the flood, in some places making arroyos ten feet deep. No lives nor stock were lost in this vicinity as far as can be learned at present. The telephone line went along with the roads, crops and bridges.

A correspondent at Beulah says: The rains of Wednesday and Thursday were such as never have been witnessed here before. About eight inches of water fell. The Sapello was entirely out of its banks and literally swept everything before it. The channel is Continued on Page Eight.

Scenic New Mexico.

THE CAPITOL OF NEW MEXICO, AT SANTA FE.

EXCITEMENT AT MUKDEN

Something Unusual in the Wind and the Russians Are Moving Their Transport—Skirmishes in Which Japs Are Defeated According to St. Petersburg Reports.

Mukden, Oct. 6, 5:30 p. m.—Something unusual is in the wind. A great bustle is noticeable. The streets are thronged with hurrying crowds and innumerable carts and pack mules. Preparations for winter in the military quarters are being made, and semi-subterranean huts are being constructed for the men stationed about the city. These are described as being warm and comfortable. The same report says the Japanese are suffering from privations, cold and hunger.

Another Version of the Skirmishes. St. Petersburg, Oct. 6.—Nothing beyond the skirmishing between the advance posts is reported from the front. The Russian cavalry seem to be pressing reconnaissance southward toward Yentai. On Tuesday, Russian scouts ran into a squadron of Japanese consisting of four companies at Hunlipan and were forced back until reinforced by cavalry who flanked the Japanese, driving them back on Tidousanmpou with considerable loss. The same evening the Russians appeared within three miles of the mines, repulsing four squadrons and three companies of Japanese. The Russians withdrew with the loss on one Cossack killed and one wounded.

Is Japanese Squadron Damaged? Che Foo, Oct. 6.—A special declares the Japanese squadron must have been severely damaged during a great storm, which has been raging in the Yellow Sea.

Expense Will Be Heavy. Tokio, Oct. 6.—In addressing the members of the United Clearing Houses of Tokio, Count Okuma, leader of the Progressive party, warned the people to prepare for a long war, the date of termination of which is impossible to foretell. He predicted the cost to the Japanese for a two years' war, including the loans which has already been placed and the expense consequent upon the war at its termination, would total one billion dollars, which would make the per capita share amount to twenty dollars.

Short Cavalry Engagement. Mukden, Oct. 6.—The main forces of both armies remain quiet, but the scouts are active. On Tuesday, a Cossack detachment had a short but sharp brush with Japanese dragoons near the Yentai mines. The Japanese lost four men killed and had two captured. They fled.

Health of Both Armies Good. Moscow, Oct. 6.—Professor Golowin, of the Red Cross Society, who just returned from the front, reports the health and general conditions of the troops as remarkably good. There is no epidemics and no very serious disease prevailing. The chief complaints are from light forms of stomach typhus and dysentery.

General Sakharoff's Version. St. Petersburg, Oct. 6.—General Sakharoff reports all quiet on October 4th, with the exception of a brush on that

EPISCOPAL CONFERENCE

Is Largely Attended—Archbishop of Canterbury in Attendance.

Boston, Mass., Oct. 6.—When the house of deputies of the Episcopal church assembled this morning there was a large attendance of visitors in anticipation of the attendance of the Archbishop of Canterbury, who yesterday announced that he would deliver a message to the American church. The convention has appointed a committee to frame a message of greeting to the International Peace Congress, some of whose delegates are also delegates in the Episcopal church convention. One of these is Robert Treat Payne, president of the peace meeting. A triennial conference of the Woman's Auxiliary to the Board of Missions was formally opened today. Later the Woman's Auxiliary held a largely attended missionary meeting in Tremont Temple. Among the speakers were Bishops McKim, of Tokio; Brent, of the Philippine Islands and Johnson of western Texas. The house of bishops continued its sessions behind closed doors.

MORMON CONFERENCE

Latter Day Saints From All Parts of the World Are Gathered in the Tabernacle.

Salt Lake City, Utah, Oct. 6.—The seventy-fifth semi-annual conference of the Church of Jesus Christ, Latter Day Saints began in the Tabernacle today and will continue until Sunday. Today is the anniversary of the organization of the church and thousands of Mormon adherents crowded the great church auditorium to hear the opening address of President Joseph F. Smith. Indications point to a more largely attended conference than ever before. Representatives are present from Canada, Mexico, England and the Pacific islands.

THE HARCOURT OBSEQUIES

They Were Marked by the Utmost Simplicity and Privacy—Memorial Services at Westminster.

London, Oct. 6.—The remains of Sir William Vernon Harcourt were buried in the family vault at Nuneham, Oxford, today, with the utmost simplicity and privacy. Only the family and tenantry were present. Simultaneously a memorial service was held at St. Margaret's church, Westminster, where representatives of King Edward and the Prince of Wales were among the immense congregation.

MORE SANTA FE TRAINS TIED UP

They Got as Far as Ardmore, Indian Territory—Canadian River on Rampage.

Ardmore, I. T., Oct. 6.—Several through trains on the Santa Fe from California are tied up here, unable to reach the main line at Purcell on account of the Canadian River flood which damaged several thousand feet of track. The service will be partially resumed tonight.

FILIPINO FIRE EATERS

They Will Hold a Meeting at Manila on Sunday to Encourage the Democrats.

A BOMBASTIC CALL

Sandico Who Signed Order to Massacre All Americans, the Principal Speaker.

Manila, P. I., Oct. 6.—A mass meeting of Filipinos will be held on Sunday at the National Theater. The call for the meeting states the purpose to be: "To take some definite action upon the popular desire to wit: The giving of our sincere support and sympathy to the American committee on Philippine independence in its effort to attain the end we desire. It would be inexplicable and even improper for the Filipinos to fold their arms and to remain passive at a time when the very best elements of American society are working ardently in order that our native land may attain its ambition." Fiery orators will speak, the principal one being Sandico, a former member of Aguinaldo's cabinet and who in 1899 signed the order for the massacre of all Americans and other foreigners in Manila. The government will not interfere.

INTERNATIONAL PEACE CONGRESS

The Principles of Arbitration Are Making Considerable Progress Among the Nations of the World.

Boston, Mass., Oct. 6.—At the assembling today of the International Peace Congress, George Alexander, of England, chairman of the committee on treaties of arbitration, presented a detailed statement of answers received from the various countries to the questions sent out by the bureau at Berne on the development of the treaty movement in several nations. Almost all powers represented that new treaties had been formed or negotiated for additional treaties under way. The following resolutions were then read for passage: "The congress records its lively satisfaction at the signature of permanent and obligatory treaties since its last session between France and Great Britain, Great Britain and Italy, France and Italy, France and Spain, Great Britain and Spain, Spain and Portugal, Denmark and The Netherlands, Great Britain and Germany, Sweden and Norway, and France, Sweden and Norway and Great Britain. The congress congratulates the governments of these various countries on having thus taken important further steps in the path of judicial relations between nations, opened by the Hague convention. It trusts the examples thus given will shortly be followed by many other powers. The congress especially rejoices at the statement recently made by the President of the United States that his government is now taking steps to secure arbitration treaties with all the governments who are willing to enter upon them and trusts that many treaties will be concluded."

UNCLE SAM'S SQUADRONS

Rear Admiral Sterling Desires Reinforcements for the Asiatic Fleet.

Washington, D. C., Oct. 6.—Rear Admiral Yates Sterling, commander-in-chief of the Asiatic fleet, made a report to the navy department recommending important additions to the Asiatic station. The report was referred to the various bureaus for comment.

ONE SPEECH IN NEVADA

Senator Fairbanks Made Early Morning Talk That Was Appreciated by Large Audience.

Elko, Nev., Oct. 6.—At Elko at 7:30 o'clock this morning Senator Fairbanks made his first speech of the day and the only speech he will make until he reaches Ogden, where he will speak tonight. He spoke from the rear platform of his special car and early as was the hour he had a large audience.

MAY WINTER AT PENSACOLA.

Washington, D. C., Oct. 6.—Rear Admiral Wise, commander-in-chief of the Atlantic Training squadron, recommended that the squadron spend the greater part of the winter in Pensacola Harbor and vicinity.

NATIONAL REPUBLICAN TICKET.

For President,
THEODORE ROOSEVELT.

For Vice President,
CHARLES WARREN FAIRBANKS.

For Delegate to the 59th Congress,
WILLIAM H. ANDREWS.

JUDGE PARKER WAS NOT SATISFIED WITH HIS LETTER OF ACCEPTANCE.

A peculiar incident regarding the publication of the letter of acceptance of Judge Parker of the Democratic nomination for the Presidency is discussed in a recent editorial by the Chicago Chronicle in a manner which leaves no doubt that although Judge Parker had had a number of weeks for the preparation of his letter of acceptance, it did not suit him when finally published. The incident is a fact and the Chronicle commenting thereon says that however Judge Parker's letter of acceptance may have been received by his party and by the country, it is certain that he himself was not satisfied with it, as after taking two months to compose it he was frantically correcting it up to the time it went to press all over the country.

As the general public may not understand how a long document like this which its promulgator desires to appear simultaneously in the press of the country is printed and distributed through the Associated Press several days in advance, under an injunction not to print it until a certain day, Judge Parker's letter was distributed in this way, and the printed copies were in most of the newspaper offices for a day or two before the letter was printed.

Documents that are distributed in this way are supposed to be as perfect as the authors of them can make them, and probably there never before was a political paper which had to be corrected after it was given to the press in this way. Judge Parker was the first public man who after spending sixty anxious days and sleepless nights over a pronouncement could not get it into a shape to suit him, and was compelled to follow it with despairing errata until the roar of the printing press warned him that it had gone beyond recall.

These changes were more remarkable for their number than for their importance. Indeed, the significant thing about them was their trivial character, considering his anxiety to have them made. He wanted "division" changed to "divisions" and "founders" to "framers." For "the Dingley act itself" he wished to substitute "the fourth section of the Dingley act," and for "or" he wanted "this section of." He wanted "the reciprocity clauses" stricken out and "this section" inserted. He wanted "eight" instead of "nine" and "forty" instead of "seventy" and so on. He craved over twenty of these corrections, and, no doubt, would have craved as many more if there had been time.

The only explanation possible of these endless corrections is that Judge Parker was frightened or at least nervous over his paper. This is no great wonder, for he was confronted with many difficulties. The Republican party is in possession of most of the public policies that are worth anything, and there was nothing left to Judge

Parker except to pick flaws in them and restate them. He did not venture to condemn them. His task was one of straddling and evasion, and the situation was so unfavorable for that sort of writing that he was like a mediaeval martyr walking over heated ploughshares. This was all the more hazardous because he was not at all familiar with the subject-matter of his paper.

In such circumstances it was a wonder that the composition of his letter was to Judge Parker a treadmill by day and a nightmare by night, and that he corrected it, without improving it, or tried to do so, until the cry of the newsboy under his window warned him that his production was already in the hands of the public.

The management of the Denver & Rio Grande Railroad is doing what it can to mitigate the hardships brought upon the people of this city by the recent washouts and interruptions of travel and traffic on the Santa Fe system. Until the latter road shall be in condition to handle the business as in normal times, the Denver & Rio Grande will run its train on Sundays so as to give travelers and shippers a chance to go north, east and west via that road daily. This community feels correspondingly grateful and it is very nice indeed to find that there are some railroad companies in these days that have consideration for the traveling public and the commercial interests of the sections through which they pass.

As soon as railroad traffic is resumed, the Democratic campaign managers propose an active campaign and many speeches by George P. Money, Democratic candidate for delegate, in various sections of the Territory. Hope so. The Republicans have no objections. Mr. Money's speeches in San Juan, Rio Arriba, Taos, Mora and Santa Fe Counties have so far made votes for Senator W. H. Andrews, the Republican candidate. It is all right, Mr. Money. Do not stop on account of the New Mexican.

Several London newspapers do not look with favor upon the suggestion of President Roosevelt for the holding of an International Peace Congress at The Hague during the coming year. They assert that this is a bit of political play on the part of the President. If it is, it is a right good and sensible bit, takes well with the people of the United States and ought to be considered favorably by the monarchies of Europe. If there is one thing at this time that the world needs more than any other thing, it is certainly peace.

After all Democratic politicians in the Solid South seem to have some use for the Negro voters, according to the Washington Post, which says: "A Republican candidate for Congress in Georgia says his Democratic opponent voted Negroes seven times around at the last election. Who started this talk about the Negro being disfranchised? It seems more like a case of over-capitalization."

Senator Fairbanks, Republican vice presidential candidate, is on a speaking tour through California and is making a remarkably favorable impression. As the campaign advances it is becoming more and more apparent that the Senator is a much more eloquent, more broad minded and in fact in all respects a bigger man than the people had believed him to be.

Mount Vesuvius is in a state of violent eruption, emitting much smoke and throwing out much mud. This condition is found to be similar to the one that two or three Spanish weekly papers in Albuquerque and Las Vegas are in. It is well known where the money which bought up these sheets came from. At any rate it will prove money badly invested.

Chairman Tom Taggart has "gagged" your Uncle Henry Gassoway Davis and the latter is to make no more speeches in this campaign. Checks, which your Uncle Henry may send to the chairman, however, will be still received with expressions of gratitude, and will be put where they will do the chairman and his friends the most good.

Senator Lodge will make a dozen speeches in Massachusetts during the present campaign. In addition to being interested in rolling up as large a majority as possible for Mr. Roosevelt, in the Old Bay State, the Senator would like to have the legislature strongly Republican as he is a candidate for re-election.

New Mexico people, that is, as many of them as possible, should be present on New Mexico day at the Louisiana Purchase Exposition at St. Louis on Monday, October 17, next. The larger the crowd, the more creditable will be the proceedings and the better will be the effect on the many visitors to the World's Fair.

Within the next few days, until the washouts on the Santa Fe Railway in northern New Mexico are repaired, the San Luis Valley will supply central New Mexico with flour and potatoes, which will be shipped via the Denver & Rio Grande via this city. "It is an ill wind that blows no one any good."

From Indianapolis comes the report that Chairman Tom Taggart has sent \$400,000 into Indiana for campaign purposes. Is this gross or net and with or without the Chairman's rake off?

General Stoessel, commander of the Russian forces at Port Arthur, may not wish to capitulate to the Japanese general in command of the Mikado's forces besieging that fortress, but sooner or later, he will have to surrender to General Starvation. The latter always proves a successful foe.

Democratic campaign speakers are charging that President Roosevelt is attempting to stir up war. These fellows would not know a war if they were to see one. The President, on the other side, has been there and knows that General Sherman's saying that war is H-I, is true.

Mr. Bryan favors Democratic fusion with the Populists in Nebraska, while in Missouri he made speeches for Judge Parker. This demonstrates that Mr. Bryan is a many-sided man, but his action is rather disgusting to Democrats of principle.

United States Senator J. W. Stone, of Missouri, will be sent to Indiana to make speeches for Parker and Davis. Chairman Cortelyou is under obligations to Chairman de jure Tom Taggart for this favor as it means more votes in the Hoosier State.

Former United States Senator Peffer, of Kansas, has announced that he will work and vote for the Roosevelt and Fairbanks ticket and that he has returned to the Republican fold. "Saw the error of his way, and came back, you know."

The valued Brooklyn Eagle is criticizing and attacking the managers of the Democratic campaign, although on the other hand it pretends to support Judge Parker strenuously. This is another case of genuine Democratic harmony.

The Democratic campaign managers in this city figure out a plurality for Mr. Money over Senator Andrews of about 500, should Delegate Rodey run as an Independent candidate. Rather a narrow margin, that!

The city council will meet in special session tonight and should get a move on in the matter of street improvements, so very necessary for the advancement and progress as well as for the well being of the city.

Democratic Boss Guffey, of Pennsylvania, says there is no truth in the report that he has contributed \$50,000 to the Democratic campaign fund. Probably the sum amounted to \$51,000. If not, why not?

The insurance agents of this city are of the opinion that the local fire department needs a thorough overhauling. Many property owners and citizens coincide with them.

The chairman de facto of the Democratic National Committee is Senator Arthur Pue Gorman. The chairman de jure is still "Telephone Tom" Taggart.

Russia being engaged in a rather heated altercation with Japan, the British Foreign Office has filed a Russian protest against the English treaty with Tibet in its archives.

The Russians are finding out that Marshal Oyama's forces are not near Mukden for fun. Indeed, they are there for business and bloody business at that.

STORY & CLARK Pianos!

Read What Accomplished Musicians Say of the Story and Clark Piano.

"Equal if not superior to any instrument I have had occasion to use."—Barron Berthold.

"Shows such superiority of workmanship and finish as music make them welcome to any household."—Leonora Jackson.

"Grand resona in tone and delightfully sweet and tender."—Machil C. Bauermeister.

"I cannot speak too highly of your pianos, they seem to be unsurpassable."—R. Watkin Mills.

"I find your pianos wonderfully sympathetic for accompanying the voice."—Lillian Blauvelt Pendleton.

"Gave the liveliest satisfaction to me. I consider them second to none."—David Frangcon Davies.

"I think it capable of the fullest expression of musical thought."—Ellen Beach Yaw.

"I'm opinion they rank among the very best pianos of the day."—Emile Sauret.

"Possessed of a beautiful quality of tone and a most sympathetic touch."—Fernando de Lucia.

"I was perfectly charmed with its beauty of tone and delightful touch."—Francis J. Hiten.

"Their tone is sweet as well as resonant. Are remarkably adapted for accompanying the voice."—Clementine de Vere Sapio.

"Your pianos embody sweetness and richness of tone, splendid carrying power and excellent action."—Rosa Olitzka.

THE STORY & CLARK PIANO CO.

Employ only expert workmen and no piece work or contract work is done in their factories.

They have won renown on two continents for excellence and beauty of their instruments.

Prices and terms most liberal.

Santa Fe, N. M.

Who will show you the Story and Clark Pianos in the several styles and finish—Mahogany, Hungarian, Walnut and Golden Oak.

Better Than Pills.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by all druggists.

GET INSIDE.

Your Friends and Neighbors in Santa Fe Will Show You How.

Remember the back won't cure backache.

A liniment may relieve, but can't cure.

Backache comes from the inside—the kidneys.

Doan's Kidney Pills get inside—they cure sick kidneys.

Here is Santa Fe proof that this is so:

Benito Romero, employed with Lamher's Transfer, residence San Francisco, N. M., says: "The use of plasters for a year and a half on my back did not bring the results I expected and relief from pain across the loins was just as remotely in the distance as it was when I first noticed it. This led me to go to Ireland's Pharmacy for Doan's Kidney Pills and take a course of the treatment. I read in our Santa Fe papers that they could be depended upon and with considerable faith in the preparation because it positively stated they were for the kidneys and the kidneys alone. I commenced the treatment. It was very satisfactory. I used two boxes and they stopped the last attack."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

NEW MEXICO TERRITORIAL FAIR.

H. S. Lutz, Agent.

CONFESSIONS OF A PRIEST.

Rev. John S. Cox, of Wake, Ark., writes: "For 12 years I suffered from Yellow Jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of the disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It's guaranteed by Fischer Drug Co. Only 50c.

Platform Adopted By the Republican Territorial Convention at Albuquerque.

The Republican party of New Mexico, through its representatives in convention assembled on this the 12th day of September, A. D. 1904, recognizing the steady progress which the whole country has made during the last seven years of Republican Administration, again reaffirms its faith in Republican policies and Republican principles.

Be It Resolved, By the Republican Party of New Mexico, in delegate convention assembled:

Death of Senator Quay.

Whereas, We have learned with profound sorrow of the death of one of the foremost leaders in our party since we last assembled in convention, on which occasion we mourned the death of the Chairman of our National Committee, we now again mourn the loss to the Nation, the party and our Territory of that distinguished Statesman and Republican, Hon. Matthew Stanley Quay, who for many years represented the great State of Pennsylvania in the Senate of the United States, who, when there, was a staunch friend of this Territory in all matters pertaining to its welfare, and after whom a county was named by our legislature as a slight token of our appreciation of his services to us.

Resolved, That our sincere sympathy is hereby extended to the family of the late Senator in their bereavement, and that a copy of this resolution be transmitted to them.

Eulogy of Roosevelt.

Resolved, That we heartily endorse the platform of the Republican National Convention, held in Chicago last June, and pledge ourselves to the loyal support of the principles enunciated by it, and congratulate the Convention upon its wise selection for President and Vice-President of the United States. The wise and patriotic administration of President Roosevelt, his policies, both domestic and foreign, his fidelity to American interests and the American people, and his frankness and candor on all public questions have given him the respect, and the confidence of his fellow countrymen, and entitle him to the country's further confidence by his election to the great office he now so creditably fills.

Compare Our Methods

You will realize then why Schlitz beer is pure.

You wash a cooking utensil once. We wash a bottle *four* times, by machinery, before we fill it.

You use city water. We bore down 1400 feet to rock for ours.

You prepare food in the air of the room. We cool Schlitz beer in plate-glass rooms and filter all the air that touches it.

Then we filter the beer by machinery—filter it through white wood, pulp.

Yet your methods are cleanly. Ours are cleanliness carried to extremes.

Then—for fear of a touch of impurity—we sterilize every bottle after it is sealed. We double the necessary cost of our brewing to give you a healthful beverage pure.

Do you wonder that we sell over a million barrels annually? Ask for the brewery bottling.

Phone 33, H. B. Cartwright & Bro., 260 San Francisco St., Santa Fe, N. M.

The Beer That Made Milwaukee Famous.

Governor Otero Endorsed.

Resolved, That the conduct of Territorial affairs under the administration of Miguel A. Otero deserves the highest appreciation of all good citizens regardless of party. When he assumed office, the bonded debt of the Territory for public buildings and improvements amounted to \$571,000 and bonds had been issued at various times from 1887 to 1893 for payment of current expenses and for deficits in revenue to the amount of \$558,800. All bearing interest from 5 per cent to 7 per cent, making a total of \$1,126,800. In addition there were deficits incurred under the Thornton administration, from 1893 to 1897, amounting to \$123,000.

A grand total of \$1,249,800. The legislature of 1899 provided for the taking up of this last deficit by issuing certificates of indebtedness for the amount, bearing 6 per cent interest and payable 20 per cent in each year for five years. These are the only evidences of debt issued during the last seven years, except \$60,000 of 4 per cent bonds provided by the same legislature to complete the Capitol Building. The certificates of indebtedness have all been paid besides reducing the bonded debt until at this time it is only \$854,735.

The levy of six mills for Territorial purposes has been ample to pay interest, salaries and current expenses of the Territory, and the reason for an increased tax levy has been appropriations for the old Territorial Charitable Institutions which were neglected before; and the three new Territorial Institutions established in 1901.

Rodey Tendered Vote of Thanks.

Resolved, That the thanks of the people are due to and are hereby tendered to our delegate in congress, Hon. B. S. Rodey, for his arduous labors in our behalf, for the watchful care that he has kept over the interests of the Territory, and the constant and unremitting devotion he has shown to his duty as our representative.

Regarding Lieu Lands.

Resolved, That we earnestly favor the bill introduced by our delegate and now pending before the Committee on Public Lands in Congress, providing for the selection of "lieu lands" in any part of the Territory in place of school sections lost by reason of their being within the limits of land grants or reservations. The passage of this bill would give the Territory about one million acres of land now not available, and give us the same privilege that every other state and territory has with reference to this class of lands, which were lost to us by reason of the Ferguson Act, donating the school sections, requiring that these lieu lands should be selected "as contiguous as may be" to the sections lost.

Dam Scheme Denounced.

Resolved, That we denounce the "Culberson Bill," the Stephens bill, and any other measure now pending or about to come before congress seeking to deprive this Territory of any of its area, or of the free and unobstructed use of its water. We believe the construction of the so-called "Elephant Butte Dam" and other reservoirs upon the Rio Grande, its tributaries and other waterways in the Territory, should be encouraged in every possible way by the Government, and our delegate is pledged to exert himself to secure such action by the Government; and

that our thanks are hereby tendered to the Government, its officers and engineers, who have already done so much towards the reclamation of our arid lands.

Regarding Statehood.

Statehood is the most important question before the people of New Mexico at this time. Our loyalty to the general government, our great progress in natural wealth, our system of magnificent schools, our code of civil and criminal laws, our freedom from mob law, our respect for the courts, the extent of our great Territory and the intelligence of our people entitle us to an equal status among the states of this Union under its present name and boundaries.

Thanks to Chairman.

We hereby extend the thanks of the Republican Party of the Territory of New Mexico to the Hon. Frank A. Hubbell for the able and efficient manner in which he has discharged his duties as Chairman of the Territorial Central Committee during the past two campaigns. We recognize in him an enthusiastic and consistent Republican, of undoubted loyalty to the party, and for that reason always entitled to the thanks and recognition of the party.

Seventh Judicial District.

We also recommend our delegate in congress to secure the passage of a bill creating the Seventh Judicial District of the Territory of New Mexico, in order that adequate court facilities may be furnished to all the different localities and peoples of the Territory, and that the headquarters of the said district shall be located at Socorro, New Mexico.

Capital and Labor.

It is by the combination of capital and labor, protected by our national laws, that our country has achieved such wonderful growth and prosperity, but neither of these interests should be permitted to infringe on the rights of the people. Both interests alike are entitled to the protection of the laws, but both are subject to the laws, and neither can be permitted to break them.

BEAUTIFUL WOMEN.

Plump cheeks, flushed with the soft glow of health, and a pure complexion, make all women beautiful, and so do those luscious oysters at the Bon Ton.

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$35 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grain, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

PERSONAL MENTION

Hon. T. B. Catron returned last evening from a two weeks eastern visit, during which he attended the St. Louis World's Fair.

Victoriano Valdez, a farmer living in the vicinity of Dixon, Taos County, is in the city on personal business and visiting relatives.

Jose Amado Lucero, formerly probate judge of Santa Fe County, residing at Espanola, left this morning for his northern home.

H. O. Bursum, chairman of the Republican Territorial Central Committee, has returned from a short visit south, having driven from Albuquerque overland.

Dr. J. L. Norris, Santa Fe Central physician at Estancia, arrived yesterday from the south and after attending to personal business returned home this morning.

L. R. Allen, of Las Vegas, business manager of the Optic, came in from the Meadow City last evening. He came on political business and returned home this afternoon.

Mrs. E. A. Fiske left via the Denver & Rio Grande this morning for St. Louis, where she will spend several weeks visiting her mother and will also visit the World's Fair while there.

Mrs. J. L. Shively and five children arrived last evening from Las Vegas to join the Rev. J. L. Shively. Mr. and Mrs. Shively have taken up their residence at 135 Chapelle Street.

James G. McNary, editor of the Las Vegas Optic, arrived from the north yesterday on the stub train and while here was a guest of Governor and Mrs. Otero at the executive mansion.

A. L. McCreary, auditor of the news department of the Harvey House system, was a visitor in Santa Fe yesterday. He was on his way from Las Vegas to Denver and Kansas City.

Fred Eiffelgorg, dispatching clerk of the Las Vegas postoffice, is a visitor in Santa Fe. He arrived from the Meadow City yesterday afternoon with the registered and other mail from that point.

A. M. Bergere, clerk of the District Court, was among those who left for Tierra Amarilla this morning. He went to the latter place partly on business and partly to be present at the Republican county convention there.

A. S. Adams, on the reportorial staff of the New Mexican, went north this morning to Tierra Amarilla to report the proceedings of the Republican ratification meeting and of the Rio Arriba County Convention, which will be held there Saturday next.

Miss Alice McDaniel, who for the past three months has been employed as stenographer in the office of the Bureau of Immigration, has accepted a position with the Equitable Life Insurance Association at Albuquerque, of which Edward Grunsfeld is the New Mexico manager, and will leave Monday for her new post of duty.

"Eugenio Romero, who went to Santa Fe the middle of last week started on the return trip after a day in the Capital and stopped off on business at Rivera, expecting to take the next train home. But the next train hasn't shown up yet and Mr. Romero arrived overland Saturday evening,"—Las Vegas Optic.

"Among the passengers delayed here by the flood are Mrs. R. F. Hare and children, family of the professor of chemistry at the A. and M. College at Mesilla Park. They have friends in the city and are finding the detention more pleasant than the majority. Mrs. Hare had been visiting her parents in Kansas,"—Las Vegas Optic.

"No word has been received from Will C. Barnes and family, who a day or two before the flood, left their ranch

at Dorsey with a party of friends to drive to Taos to see the fiesta. Mr. Barnes, however, is an experienced westerner, and it is regarded as certain that his party has escaped peril,"—Las Vegas Optic.

Senator W. H. Andrews, the Republican candidate for delegate to Congress, who had been in Pittsburgh, Pennsylvania, on a business visit, joined Governor Otero and his party at Embudo today and will accompany them to Tierra Amarilla to attend the big Republican ratification meeting.

Governor Otero left this morning via the Denver & Rio Grande Railroad for Tierra Amarilla to be present on Saturday at the Republican ratification meeting which will take place in that town. He may extend his trip into San Juan County, which he has never before visited, in order to become personally acquainted with the resources and conditions there.

Charles V. Safford, secretary of the Republican Territorial Central Committee, Judge A. J. Abbott and Jose D. Sena were passengers north this morning via the Denver & Rio Grande for Tierra Amarilla, where the Republican County Convention of Rio Arriba County will be held Saturday. They will attend the convention and the Republican ratification meeting while there.

W. S. Hopewell, manager of the Albuquerque Eastern Railroad, left this morning on the Santa Fe Central special at 5 o'clock for an inspection trip over the Santa Fe Central lines, preparatory to resuming the regular train schedule on that road and to inspect work on the Albuquerque Eastern. He expects to make a flying trip and to return to the Capital as soon as possible.

Colonel Venceslao Jaramillo, a member of the Territorial Board of Equalization, came in from El Rito last night and spent the day at Republican headquarters. He is very sure of Republican success in Rio Arriba County. He reports that the rains of last week did very little damage in his section, but on the other hand did an immense amount of good to the range.

A. B. McGaffey, of Albuquerque, president of the Territorial Fair Association, who had been in Pueblo for several days on business connected with the fair, arrived last evening from the north via the Denver & Rio Grande and left on today's stub train for the south, expecting to arrive from Cerrillos to the Duke City this afternoon. Mr. McGaffey states that he has secured a number of fine race horses at Pueblo for the Albuquerque Fair as well as the attendance of the Independent Carnival Company, one of the largest shows in the country for the occasion. The horses and the Independent Carnival Company will go to Albuquerque via the Denver & Rio Grande Railroad and this city. They are expected to pass through Santa Fe Saturday evening. Mr. McGaffey is sanguine that the fair will be a great success, although the attendance of people from northern New Mexico may be small, owing to the interruption of traffic on the Santa Fe Railway.

INJURED IN RAILWAY WRECK

Mrs. S. R. Hinkley and Two Daughters Confined in Hospital at Oklahoma City.

S. R. Hinkley, residing on Johnson Street, received a telegram from Oklahoma City, Oklahoma, yesterday stating that his wife and two daughters were confined in a hospital in that city on account of injuries received in a railroad wreck.

In an interview with a New Mexican reporter this morning Mr. Hinkley said that the telegram only apprised him of the fact that his family were injured in a Rock Island wreck near Oklahoma City, on Saturday last, and that be-

yond a few cuts and bruises their injuries were not serious.

Mrs. Hinkley and the children had been on a visit to relatives in the east and left Chicago on Tuesday of last week on the return trip to Santa Fe. They will leave the hospital and return home as soon as railroad traffic is resumed in New Mexico.

GOOD FOR A BIG MAJORITY

Valencia County Is for Senator W. H. Andrews, Says National Committeeman Luna.

Special to the New Mexican.

Las Lunas, N. M., Oct. 6.—National Committeeman Solomon Luna has returned home from a visit to his sheep ranches in Socorro County, where he has attended to the dipping of the extensive herds of the fleecy animals he owns.

To a representative of the New Mexican in answer to an inquiry, Mr. Luna said that the rumors which had been circulated by designing persons to the effect that he would not support, and that strongly and loyally, the Republican nominee for delegate, Senator W. H. Andrews, were absolutely unfounded and that such a thought had never entered his mind; that Mr. Andrews was the regular Republican nominee of the party and would receive his, Mr. Luna's, strongest support, in every possible way; Valencia County would give the greatest majority ever given any Republican candidate for the office, in his opinion. The people of the county are very well satisfied with the Senator and those in the eastern part of the county through which the Santa Fe Central Railway was built, and which will soon be the new county of Torrance, are especially enthusiastic and highly elated over his nomination. The Republicans of Valencia are harmonious, well organized and satisfied with the administration of public affairs, both in the Territory and in their county, and could be counted upon to do as they have done within the past eight years and give rousing majorities.

Concerning the report that Delegate Rodey would run independent if he, Mr. Luna, so said, Mr. Luna declared that if it depended upon his advice that there was as much chance for the Delegate making the race as an independent candidate as there was for the Russo-Japanese war to come to an end today. Should he be asked, his advice to Mr. Rodey would be to accept the situation and give his loyal support to the regular Republican nominee as all good and consistent Republicans should do.

A STRONG TICKET

Nominated by the Republicans of San Juan County at Their Convention last Saturday.

The Republican County Convention of San Juan County was held in Aztec, the county seat, on Saturday, the first of October. Every precinct in the county was represented and the delegates were enthusiastic and harmonious.

The following ticket was placed in the field: For the legislative council, subject to the action of the Republican District Convention, Granville Pendleton.

For the house of representatives, subject to the action of the Republican District Convention, C. V. Safford.

For county commissioner, First District, Monclovia Archuleta; for county commissioner, Third District, J. H. Stalworthy; for sheriff, J. E. Elmer; for assessor, Frank Hoff; for treasurer and ex-officio collector, W. E. Williams; for probate judge, Manuel Prado; for probate clerk, N. B. Scott; for superintendent of schools, H. H. Sy-

monds; for surveyor, George E. Kentnor.

George A. Tinker was elected chairman of the county central committee, and Dr. E. G. Condit, secretary of the committee. Well posted Republicans are of the opinion that a part of this ticket will be successful, although San Juan County has heretofore been strongly Democratic. Senator W. H. Andrews, Republican candidate for delegate to Congress, will receive a very handsome vote in the county.

SWIFT REPAIRS ON CENTRAL

Serious and Extensive Washouts Remedied in Shortest Time on Record.

S. B. Grimshaw, general manager of the Santa Fe Central, had the following to say today concerning the washouts on the Santa Fe Central, his line, and the rapid time made in completing the repairs:

"The washouts on the Santa Fe Central Railway took place on the night of September 29th. On the morning of September 30th every available man was pressed into service and temporary repairs commenced promptly. The line was clear at 3:45 o'clock yesterday afternoon, thus consuming only six days in opening the line. During this time, the management of the Santa Fe Central through the efforts of every man on the road, kept the line open for passenger business, transfer being made by buggies a distance of some twelve miles.

"Railroad experts, it is claimed, stated that this line could not be opened under any circumstances under fifteen to twenty days. However, the work was done in six days. Considerable surprise is expressed by railroad men at the energetic and rapid work done. With the exception of one day, the United States mails were handled almost as promptly as if through service had been in operation. It is said that this is the quickest work that ever has been done on any railroad in clearing up washout troubles.

"Upon the completion of the work, General Manager Grimshaw sent the following telegram to all employees: 'I desire to express my appreciation of the rapid and good work done in clearing up our line. Taking all conditions into consideration, it is certainly the most remarkable and rapid work ever done upon any railroad line in the country, and I conclude by thanking you, one and all, for your services.'

"Something like 15,000 ties and great quantities of material were put into the track. The ties had to be loaded under considerable difficulty on account of washouts cutting out the places where the ties were stored."

THE SANTA FE FIRE DEPARTMENT

It Answers the Critic Who Demands a Reorganization—A Tale of Unappreciated Services.

Santa Fe, N. M., October 6, 1904. Under the head of "Practically No Fire Department," in the Daily New Mexican of last evening, comes the usual kick, which the firemen have been led to expect after every fire. No notice is taken of the fact that the members of the Santa Fe Fire Department are volunteers, that they are exposed to danger of illness and even death at every fire, that the majority have during the past twenty-four years that the department has been organized, given their services and have been ready at all hours of night or day to render service. But instead of praise, which should be their due, some critic comes forward and says that they should be reorganized. Still, when asked to take hold, the critic says: "Oh, I am not a fireman, I don't have to do it." If the critic will place into the treasury of the department the sum of \$500, or give a bond for that amount, binding himself to pay ten firemen the sum of \$1 per hour for duty at fires, the ten men will be selected and will be always on hand, but until this is done, the board of fire commissioners must refuse to have anything to do with his suggestion.

As to the amount of the two per cent tax, which yields only a little over \$400 and not \$600 as stated, we would say that in the past seven years over \$2,500 has been expended on purchasing the best apparatus, and that the department has just purchased \$800 worth of hose and is still indebted \$150 for the same. A report of monies received and expended has been made by the secretary and treasurer every year and published in the New Mexican, and copies of the same have been forwarded to the various insurance companies upon request to their special agents when called for.

Not one dollar of the two per cent tax has ever been paid to or for men attending tournaments or conventions, but every dollar has been raised by the team outside of department monies.

In regard to fires, this city has experienced less loss than any other city in New Mexico, as the insurance companies show in their own reports. This is on account of the efficient and effective service of the fire department and of its up-to-date apparatus, as was shown at the Blain fire in 1903, also at the Herlow fire, where outside of a wooden stable and the dwelling house, the entire block was saved. Even a paid fire department could not have saved the two buildings that were destroyed.

At the Ward house fire the other morning, there were present ten members of the department. Five members attached the chemical engine to the back at the engine house. The others did not come to the engine house as orders have been issued that they must proceed direct to the fire for the reason that hackmen and expressmen are paid to haul the apparatus to the scene of the fire and the firemen can be of more service by going directly to the fire. If the critic desires to reorganize the fire department, he should come before the board of commissioners (as the department is incorporated and owns all apparatus in its own name) and there lay his grievances before the members.

In conclusion, we wish to thank the citizens generally, especially the merchants, also Frank Owen, manager of the Santa Fe Water and Light Company, and T. Sparks, manager of the telephone and fire telegraph system, for the support and aid they have always given us.

Very Respectfully,
The Board of Fire Commissioners of the Santa Fe Fire Department Association.

By A. M. DETTLEBACH,
Secretary and Fire Marshal.

MINOR CITY TOPICS

Wanted—A girl to do general housework. Apply at the New Mexican office.

The Pueblo Indians at Nambe in this county held their annual festival on Tuesday of this week.

Contrary to expectations, the mail brought in by the Denver & Rio Grande last evening was very light.

There will be a meeting of the Cathedral Guild at 2:30 o'clock tomorrow afternoon at the residence of Mrs. H. C. Yontz.

The Guild of the Church of the Holy Faith will meet at the home of Mrs. Amado Chaves tomorrow afternoon at 2:30 o'clock.

Letters of administration have been granted F. A. Manzanarez, Jr., of Las Vegas, on the estate of his father, the late Frank A. Manzanarez.

The Postal Telegraph Company today had a wire into Denver and Los Angeles. The Western Union is still compelled to reach those points via El Paso.

Attention is called to the change in advertisement of the Cartwright-Davis Company, especially in regard to Greeley potatoes and Imperial flour.

Work on the vitrified brick pavements in front of the Governor's Palace on the north side of the Plaza has begun, the surveyors having established the grade line today.

Santa Fe suffered less damage and less inconvenience from last week's storms than any other large town in the territory. This is due to its protected situation and the fact that it is the terminus of three railroad lines.

The postal receipts of the local postoffice are suffering materially on account of the tie up in the eastern mails due here. It seems that the less letters are received the fewer are sent out.

A reception will be tendered Rev. J. L. Shively of St. John's Methodist Episcopal church, by his parishioners in the parlors of the church on Friday evening, to which the public is cordially invited.

A souvenir postal card addressed to Miss Annie Armstrong, Detroit, Michigan, and a letter addressed to Sears Roebuck and Company, are held at the postoffice for postage, and a paper addressed to Clara Badoff is held for more definite address.

When going to Colorado, the World's Fair or other eastern points, take the Denver & Rio Grande through Pueblo, Colorado Springs or Denver, Colorado. For particulars, call on or address B. W. Robbins, traveling freight and passenger agent.

Henry Hartman, the Las Vegas baseball player, well known in this city, was fined \$20 by Justice of the Peace Wooster of the Meadow City for disorderly conduct. During a fight with several boys, Hartman threw a stone which broke a large window pane in a business house.

Ernest A. Dell, a Canadian who has been ill at St. Vincent's hospital with consumption, died about 5 o'clock last evening. Several telegrams were sent to his wife in Canada, but as no word had been received from her up to this afternoon, the body was buried in Rosario cemetery.

Local showers and warmer weather are predicted for tonight. The relative humidity yesterday averaged 63 per cent, but had fallen to 46 per cent. This morning, although this is still high for Santa Fe. The maximum temperature yesterday was 70 degrees and the minimum 50 degrees.

The pupils of the high school have organized an orchestra consisting of twelve pieces and the first practice meeting was held Tuesday evening at the home of Mrs. Harvey. It is the intention to secure as many school children as possible who know something about music to become members.

Miss Jennie Call and H. C. Williams were married last evening at the resi-

dence of the bride's parents, Mr. and Mrs. Albert Call on Washington Avenue. It was the first wedding at which Rev. J. L. Shively of St. John's Methodist Episcopal Church officiated in this city. An elegant wedding supper was served. Mr. and Mrs. Williams will reside at Raton.

Because of the present tie up in railroad traffic in the Territory, it is possible that the date of October 17 for New Mexico day at the World's Fair may be postponed until later. No definite plans have been made as yet, but in a few days it will be officially announced whether or not the date will be changed.

This morning's Denver & Rio Grande train for the north was crowded and Agent McBride smiled broadly. The longer it will take to put the Santa Fe Railway tracks east and north of here into good shape, the better will be the local business of the Denver & Rio Grande. There is a silver lining to every cloud.

The First Cavalry Band, under the leadership of Professor Perez, left this morning via the Denver & Rio Grande Railroad for Chama, to play at the Republican County Convention at Tierra Amarilla next Saturday. There were seventeen members present and they were greatly pleased with having been given the chance of taking the trip.

The board of education of the town of Las Vegas has elected Miss Minnie Craig of Albuquerque, well known in this city, and for two years principal of the public school at Lincoln, New Mexico, a teacher in the public schools at Las Vegas. Miss Eva Mae Tucker was elected to fill a vacancy in the same schools which have an attendance of 300 pupils.

Division Superintendent F. J. Easley reports by wire that repair work on the Santa Fe Railway south of Cerrillos towards Albuquerque, is progressing favorably and rapidly and that the management will be able to open rail communication with Albuquerque and points south by Saturday and that a train will leave for Albuquerque from this city within 36 or 48 hours.

The city council will meet tonight in adjourned regular session. There should be no delay in the matter of taking measures of enforcing the city ordinances for the construction of sidewalks. The city also should lose no time in commencing the building of the vitrified brick street crossings for which Superintendent H. O. Bursum will furnish the material and part of the labor. This excellent chance should certainly not be neglected.

This morning a heavy fog hung over the hills and mountains early east and west of Santa Fe, an unusual sight, and the air felt moist and cool. The weather bureau officials said that their prediction of yesterday for rain today would undoubtedly come true, especially since the humidity of the air was over 60 per cent, an unusually large percentage for this part of the country. But early in the forenoon, the sun had conquered for the time being and the indications for rain were less pronounced.

H. S. Lutz, city agent of the Santa Fe Railway Company, said this morning that on Sunday a train would be sent to Albuquerque and that by Sunday evening a train would arrive here from the Duke City. The service from Las Vegas and Santa Fe has been extended south as far as Cerrillos. The train for the Meadow City and Cerrillos left here this afternoon at 12:30 o'clock. Mr. Lutz would venture no prediction as to the time when the road east of Las Vegas would be open for traffic but it will probably be some time next week.

The local postoffice received notice this afternoon that the El Paso and Northeastern Railway is open from El Paso to Santa Rosa, but that north of that trains are still tied up. Orders were given to dispatch mail for Albuquerque tomorrow via Kennedy, Torrance, El Paso, Deming, Rincon, a detour of almost 600 miles and which would not bring it into Albuquerque before Sunday. The local postoffice authorities telegraphed the railway mail service that the Santa Fe line between Lamy and Albuquerque would be open by Sunday and that therefore no time would be gained by sending mail for Albuquerque via Torrance.

Superintendent H. O. Bursum received information that considerable and serious damage was done to the construction work on the "Scenic Route" road by the heavy rain storms last week and much of this will have to be done over. Fortunately the teams at the convict's camp on the Macho mesa were in the city for supplies last Thursday. They were sent out Monday in return to the camp but it was found that they could not proceed on account of the great damage done to the road in the Santa Fe Canon and on the "Scenic Route" road to the Macho mesa. Therefore the work camp had to be moved back to wards town several miles and a detach-

ment of convicts is now at work reopening the road in the canon and repairing it wherever necessary and practicable. This unfortunate occurrence will delay the completion of the "Scenic Route" road for months and probably longer. The full extent of the damage has not yet been ascertained but it is doubtless of the most serious kind.

County Commissioner Arthur Seligman, received a dispatch yesterday from Walter Sharp, Eldorado, Kansas, to whom the contract for the construction of the College Street bridge was awarded, that he would be in Santa Fe on the first train and would then formally enter into contract for the work. He proposes to commence actual construction of the bridge immediately and to have it finished within contract time, namely by January 15 next. There is no question that unless some unforeseen circumstances occur that the bridge will be done and ready for use by that time.

PROMISED THE HUNGARIAN VOTES

Judge Parker Had to Listen to a Lot of Foreign Talk Before Breakfast.

New York, Oct. 6.—A delegation from the Hungarian Democratic League of Greater New York, called on Judge Parker at the Hotel Seville today, arriving before he had finished his breakfast. Norris Coker, spokesman for the delegation, told Judge Parker that the members of the League desired to assure him that the Hungarians of the United States are not going to vote the Republican ticket this year.

MANCHESTER VS. LIVERPOOL

A Fight for the Diversion of Cotton Traffic Results in Victory for Former.

London, Oct. 6.—Manchester's fight for the diversion of a portion of Liverpool's cotton trade from America, resulted, according to statements published today, in an arrangement with the Leyland Line and Manchester Lines, limited, of Manchester, whereby the two companies will combine for the purpose of carrying cotton cargoes from New Orleans to Manchester.

SHERIFF MELENDEZ MURDERED

He Falls a Victim to a Political Feud Which Has Been Raging at Mora for Some Time.

The report is persistent that Sheriff Tito Melendez, of Mora County, has been murdered. At first it was rumored that he had been drowned, but according to a later account he was murdered in a political quarrel, but the details of the deed are still lacking.

GERMAN DAY AT ST. LOUIS.
St. Louis, Mo., Oct. 6.—Germans from all parts of America assembled on the fair grounds today to celebrate German day in commemoration of the landing of the first Germans on American soil, October 6, 1693.

GALE OFF ENGLISH COAST.
London, Oct. 6.—An equinoctial gale of some severity visited the English coast during last night, but up to present no serious damage has been reported. A few fishing boats were wrecked and four men drowned.

COAL WAGON DRIVERS STRIKE.
Cincinnati, Oct. 6.—Three hundred coal wagon driver struck today. The main issue is the recognition of the union.

BEST TO BE HONEST.
The boy at Louisville, employed as a bank clerk, who returned to a bank \$45,000 in bills out of a package of \$50,000 that had been given him by mistake for \$5,000, has evidently mastered the great truth that a clear conscience is worth more than any amount of money. An honest meal can be had for 25 cents at the Bon Ton. The best meal in Santa Fe for the money. Fresh oysters, fish and game. Mexican dishes served in any way you wish.

The best, most durable and hand-somest book work in the Southwest is done by the New Mexican bindery. Bankers, merchants, business men and all others who have need of blank books for the coming year will do well to call on or address the New Mexican Printing Company for samples, prices, etc. Loose leaf ledgers of a superior patent are also manufactured by this bindery. Prices will be as low as can possibly be arranged with good substantial work. Business men, not only in Santa Fe, but throughout the Territory should make it a point to send their work to the New Mexican Bindery, as it is a home institution, employs a number of skilled workmen, has the best, the latest and most improved machinery and is in all respects an up to date institution.

If you want to get to the World's Fair easy, miss the rush at Union Station, St. Louis, leave the cars right at the World's Fair gates, take the Santa Fe Central and Rock Island.

Cloudcroft! For handsome descriptive literature and detailed information as to rates, etc., address A. N. Brown, G. F. & P. A., El Paso, North-eastern System, El Paso, Texas.

Is this Your Wife?

You say: "No!" But she should remind you of a duty you owe your wife. If she has one of the old-fashioned, troublesome, cumbersome, cast-iron Cook Stoves—the kind that gets red hot all over—you can end all her kitchen troubles by buying her a "Quick Meal" Range.

The "Quick Meal" Steel Range is a thickly lined with asbestos that all the heat is kept inside the Range to bake and cook the meals, instead of cooking the Cook. In that way it saves fuel and it also saves and sweetens temper.

"Quick Meal" Ranges are daily growing in popularity. They look well, they cook well, they bake well, they last well. That is why there are so many in use—every one recommends another.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis, Catarrh, La Grippe, all Female Complaints, etc., etc. Board lodging and bathing \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

NEVER HAD SEEN THE FLAG

Alabama's First Introduction to the Stars and Stripes.

A man was discovered in Coosa county, Alabama, last winter who had never seen the American flag. What is more, he had not the least perception of what it meant and was much astonished when this was explained to him.

The incident happened in the long-leaf pine country in which the Kaul Lumber company is operating, near the little backwoods town of Junata. A party of government foresters, under Franklin W. Reed, was encamped in the woods beside the road. A large flag tied to a sapling pine announced the site as a government camp. One evening a little old man came down the road driving a yoke of steers and stopped to inquire whether the party would like to buy some pork. He got out of his cart, sat down on a stump and after a moment's conversation his eye caught sight of the flag on the sapling. He looked at it in a puzzled way, then asked what it was. The men thought at first he was joking, but it was soon apparent the question was in good faith.

"That's the American flag, man. Haven't you ever seen the flag before?"

No, he had never seen a flag of any kind before. He had heard there were such things, and once he had seen a picture of a flag on a poster, but that was a long time ago, and he had almost forgotten it. He had lived in the woods all his life and had never been more than 13 miles from home. He wanted to know what the flag meant, and listened in silence when this was explained to him. He did not know how to read or write, and had never heard that the Fourth of July was any different from any other day.

The Land of Regret.

There is a city whose gates are wide, Its pavements pure and clean. Where shadowy forms fit side by side. The graves which lie at their feet. But folks walk there with their heads bowed low. And heavy eyelids wet. For every corner is haunted so. In this "The Land of Regret."

They meet the ghosts of those other years. In dreams of memory sweet. And wet with passionate, frenzied tears. But never, long as their lives shall last. Can they again forget Who once have walked with ghosts of the past. In this, "The Land of Regret."

Yet It Often Is.

Old furniture should not be simply "old" and valued as such, but should be an example of the highest art of its period, and the result of application of the mind and time of trained artists in its construction. Its presence in the modern home, or as an inspiration to the collector, is the appeal of the past—that past which reaches out ever to the present and sends its impulse on to the future in art, architecture, literature or history. It is the unconscious bequest of those who have lived, and loved, and planned, and in dying left to posterity something for the good of humanity or the beautifying of surroundings.—Harper's Bazaar.

Civil War Correspondents.

The roll call for the American newspaper correspondents of the civil war is growing shorter each year. They may be counted off on one's fingers—that is, those who represented great papers. One of the survivors, calling them over, finds only these: Whitelaw Reid, Edmund C. Stedman, George Alfred Townsend, Joseph Howard, Jr., George W. Smalley, Henry Watterson, George Cadwallader and W. F. G. Shanks. All these journalists, with the exception of Townsend, are in active service. He reformed late in life and took to farming on the Maryland "eastern shore."

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all druggists.

NOTICE TO CREDITORS.

Notice is hereby given to the creditors of Albert C. Teichmann that on the 10th day of October, 1904, in Chambers, at 10 a. m., or as soon thereafter as counsel can be heard, I shall apply to the District Court for a discharge from my trust as assignee of Albert C. Teichmann. W. H. KENNEDY, Assignee.

A WIFE'S ADVICE.

"Why don't you get your life insured, my dear?" asked Mrs. Newed. "I'm afraid people might say I was afraid to take chances on your cooking," replied the gallant young husband. "O," said his wife, "We ought to board at the Bon Ton. They have the finest cook in the city there, and they know how to please you. Let us take Sunday dinner there, anyway."

CHAMBERLAIN'S COUGH REMEDY.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by all druggists.

CAUSE OF LOCKJAW.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all druggists.

MADE HIM A HARVARD MAN.

Waiter Duly Labeled as Belonging to
Famous College.

Philip King, formerly of the Prince-
ton eleven, relates how while a crowd
of Harvard boys was celebrating the
result of a game with Pennsylvania
some years ago one Cambridge man
was much taken with the white waist-
coat worn by a waiter in a Boston
cafe. The Harvard man called the
waiter to him, saying:

"I want to buy that waistcoat!"
"Why, what do you want it for?"
asked the astonished waiter.
"Never mind what I want it for,"
continued the Harvard man. "What
will you take for the waistcoat?"

After some spirited bargaining on
both sides the waiter consented to
accept five dollars in payment for the
garment. Whereupon the Harvard
man shouted "Done!" and gave the
waiter the sum mentioned.

"And when do you want it, sir?"
asked the waiter.
"Oh," replied the collegian, "I don't
want you to give the waistcoat to me
—not at all! I merely wanted to feel
that I owned it."

At this the waiter bowed and was
about to walk away when the Har-
vard man called him back.

"Don't be in a hurry," he said.
"There is something else."

Whereupon, motioning the waiter
to draw nearer, the Harvard man took
a piece of celery, dipped it into the
cranberry sauce and proceeded to
mark a big "H" on the middle of the
front of the white waistcoat that he
felt was his own!

No Place for a Dragon Fly.

A big brown dragon fly floated
leisurely into a Sixth avenue depart-
ment store the other day and zig-
zagged its way to the lace counter,
where it made one of the midair
pauses so common to the insect and
so startling to the spectator unac-
quainted with its ways.

The pause was made directly in
front of a blue-eyed young woman
with auburn hair, rampant, a la pom-
padour, who stood behind the counter.

The blue-eyed young woman was
so amazed at the fierce-eyed, quiver-
ing apparition that she was speech-
less; but when the dragon fly, satis-
fied with its inspection, made a wild
dash toward that rampant head, the
owner sent up a shriek which at once
communicated itself to the other
young woman behind that and adja-
cent counters, until it would have
been thought that wholesale murder
was being done there.

"Sh!" said some one at last who
seemed to know something. "It's only
a harmless dragon fly looking for
flies!"

The blue-eyed young woman with
the ambitious pompadour rose to the
occasion promptly. With unmasked
indignation she tossed her flamboyant
head and said:

"The very ideal. There ain't no
flies on me!"—New York Sun.

Women Pensioners.

The largest pensions in the United
States are drawn by women, twenty-
four of whom receive in the aggre-
gate more than is paid to 550 veter-
ans of the \$8 a month class. Mrs.
Garfield and Mrs. McKinley receive
\$5,000 a year each. Mrs. Philip H.
Sheridan receives \$2,500, while the
pensions of Mrs. Logan, Mrs. Mc-
Clellan and Mrs. Frank Blair are
each \$2,000. Eighteen widows of
generals and admirals receive \$1,200
a year, six \$900 and 200 have pen-
sions of \$600 each. The total re-
ceived by 230 widows amounts to
\$165,000, equal to the amount re-
ceived by 2,298 veterans at 20 cents a
day.

Bull Fights Fail to Interest.

At the second of the bull fights re-
cently given at Budapest only about
one-tenth of the seats were occupied.

Bankers, merchants and business
men generally, who are in need of
books such as day, journals, cash and
ledgers for the year 1905, should not
fail to call at the New Mexican bind-
ery or address the same for figures and
samples. Loose leaf ledgers of the
best kind are also manufactured at the
New Mexican bindery. All work is
guaranteed to be of first-class material
and of the best workmanship and the
prices will be found as low as com-
patible with superior work. The New
Mexican bindery is the largest in the
Southwest and home people, here and
elsewhere in the Territory, should give
it preference and support it liberally as
it is a home institution and employees
quite a force of skilled workmen.
Building up home industries helps ev-
ery business man in many ways.

Deafness Cannot be Cured

by local applications, as they cannot reach
the diseased portion of the ear. There is only
one way to cure deafness, and that is by
constitutional remedies. Deafness is caused
by an inflamed condition of the mucous lin-
ing of the Eustachian Tube. When this tube
is inflamed you have a rumbling sound or
imperfect hearing, and when it is entirely
closed, deafness is the result, and unless the
inflammation can be taken out and this tube
restored to its normal condition, hearing will
be destroyed forever: nine cases out of ten
are caused by Catarrh, which is nothing but
an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any
case of Deafness (caused by catarrh) that
cannot be cured by Hall's Catarrh Cure.
Send for circulars free.

GREELEY POTATOES.

The potatoes from Greeley, Colorado rank as being of the very highest quality. We are now receiving them, and they are very fine indeed.

Per cwt\$1.25

MEADOW GOLD BUTTER.

We never tire of telling the good qualities of Meadow Gold Butter. It is pure, clean and of a most delicate flavor. These good qualities are retained and preserved by the package, which is air tight, moisture and odor proof.

OUR BAKERY.

Why not use our bread? It is made according to the most approved methods. It contains nothing that could by the remotest possibility be injurious to the health. It is sweet to the taste, clean to the sight and always fresh. Made only from the highest grade Kansas flour.

MEAT MARKET.

Only the choicest cuts of packing house corn fed beef, mutton and lamb are cut in our market. Give us a trial when you want something nice in the way of meats, bacon, hams, boiled ham, etc.

IMPERIAL FLOUR.

Our trade on Imperial Flour has been very satisfactory, but we would like every one in Santa Fe to use it who can appreciate its remarkable qualities. It makes the best of bread and is also a fine pastry flour. Probably the best pastry cook in the Southwest will use no other brand.

50 pound sack\$1.05

SOUTH SEA BLEND.

There has been a remarkable advance in the price of medium grade coffees. We are still selling South Sea Blend at 25 Cents per pound. We fear that we shall not be able to continue to do this much longer. Better buy sixty days' supply now.

FRUITS AND VEGETABLES.

We always have what the market affords in the way of fruits and vegetables.

HAY AND GRAIN.

We shall be pleased to fill your orders for hay, grain, feed, etc. Our stocks are always complete, the quality of the best and prices reasonable. See that your animals are well fed. We can do it for you.

STORY OF THE FLOOD.

Continued From First Page.

changed in many places between Blakes and San Ignacio. Hay, potatoes, cabbage, turnips, beets and other vegetables are strewn for miles from the Barker ranch. This ranch has suffered a loss of full \$500 and others in proportion. It will cost a hundred dollars to repair the road from Beulah to the Barker saw mill. There can be no travel except along the mountain side. Beulah came very near dropping with the stream, the banks cut away some sixty feet and within forty feet of the postoffice building.

Reports From Albuquerque.

A full investigation shows that at least thirty-six miles of track, several large bridges and many small ones are either washed out or damaged between Albuquerque and Lamy Junction, a distance of sixty miles. Yardmaster Teneyck, who had a gang of men at work at the Alameda washouts, came in Monday and reported a sad case. One of his workmen, Ricardo Arias, fell to the ground in a faint and when he was lifted up to be carried out of the water he was found to be dead. Three trains from the south are expected tonight. All trains from the west, eastbound, for the next ten days will be detoured through Texas. A short time after noon, yesterday, a message came from the south that the washouts had been temporarily repaired between Albuquerque and Rincon and to send all passenger trains south. Within an hour the Chicago limited of eight cars, and two passenger trains of twelve cars each, all from California, and held at Albuquerque since last Thursday, left for Deming to go east, thence over the Southern Pacific to El Paso, thence over the Texas & Pacific to Fort Worth, Texas, and from there over some northern route to Kansas City. Two more waterbound trains were sent via the same circuitous route last night. Beyond Rincon to El Paso the Rio Grande has overflowed its banks and half a dozen serious washouts are reported. It will be a week before this part of the road can be used. San Marcial and Socorro suffered greatly and several hundred citizens, with a large force of men in the employ of the railroad company, at each place, worked all day and night Saturday and Sunday to prevent the river from getting away from the embankments and flooding the towns, besides taking away many miles of track. As it is, many homes at both places were washed down and the valley farmers south of here for many miles are homeless and in an awful plight. The local conditions have changed for the better. Several passengers stranded at Lamy drove overland to Albuquerque a distance of nearly sixty miles, and they report the country for many miles off the railroad and far from the streams, completely covered with water.

Word comes from Albuquerque that the great gap at Alameda was repaired yesterday, and that a big force would get across the damaged Bernalillo bridge and up to Elota this afternoon. The gang of workmen from the north is expected to repair the damage in the neighborhood of Ortiz in time to meet the force part way across at Elota. It is believed the track will be ready for temporary service by Saturday or Sunday morning.

At Trinidad.

There are few developments in the flood situation further than that the work of repair is being vigorously pushed on all sides. The business section of Trinidad is being supplied with water again, connection having been made with one reservoir, but the pipe lines to the main reservoirs were so badly damaged that the repairs will not be completed for two weeks. The present supply of water will not last that long. The Santa Fe Railway Company expects to have its line open through to Albuquerque this week. The Colorado & Southern Railroad is opened and the Rio Grande Company is pushing work on its lines, in the meantime using the Colorado & Southern line between El Moro and Trinidad.

The Colorado & Wyoming will be in operation in a day or two, but will at once begin the changing of its lines from the river bottom to a point along the hills out of the way of future floods. General Manager Mudge of the Santa Fe and General Superintendent Easley were in personal charge of the reconstruction of the tracks. Traffic was opened through Trinidad yesterday, but the officials say it will be at least a week before trains can reach Albuquerque owing to the loss of seven miles of track near Watrous. General Superintendent Coughlan of the Rio Grande says that the track between El Moro and Trinidad will be reconstructed immediately. The Rio Grande bridge across the river at El Moro is nearly completed.
