PENSION BILLS.

Senate Devotes Some Time to Debate on Pension List.

House in Committee of the Whole on Deficiency Bill.

Meeting of the Santa Fe Company Stockholders at Topka.

ST. LOUIS MURDER MYSTERY.

Washington, Dec. 8.—At the opening of today's session of the senate, it was decided that adjournment be until Monday. It was also determined to give one hour of today's session to consideration of pension bills.

Yes, Senator, said: "I do not want to be captious about this pension business and do not want to set myself up as a reformer, but this thing of passing a lot of pension bills simply by reading the titles, when a quorum of the senate is not present, has got to be stopped."

"Honesty means honesty," said the senator, "and we are united. We can, therefore, come here and object to this legislation, I use the word advisedly, without fear of having our motives impugned or our words misunderstood. We are paying out in round figures \$11,000,000 annually for pensions. It is our duty to find out why, that three years after the close of the civil war, this thing of pension bills show so enormous a sum. I have been criticized by some people because I have not taken a more determined stand on this pension question. I want, however, to pay fairly the pensioners. I regard such payment as a sacred duty, but I do object to the passage of these bills without proper consideration, and with the same reservation as is held about other measures."

Wallace (N.H.), as chairman of the pension committee, agreed with West in the desire to have the pension bills carefully considered, but I do object to the passage of these bills without proper consideration, and with the same reservation as is held about other measures."

During the consideration of bills on the pension calendar, Jeffery (La.) introduced a resolution declaring that it was the sense of the senate that the "president enter into no negotiations with the government of Great Britain for the purpose of abrogating or modifying the Clayton-Bulwer treaty, so far and to the extent that the same may be deemed to prevent the United States from owning, constructing, controlling or operating any oceanic cable across the isthmus of Darien."

Senator Morgan moved to take up the Nicaragua canal bill in the senate today. A motion to adjourn was made by Patterson. Motion defeated. The bill was then taken up. The senate then adjourned on motion of Senator Morgan.

HOUSE.
Washington, Dec. 8.—On motion of Chairman Cannon of the appropriations committee, the house went into committee of the whole immediately after the reading of the Journal, to consider the urgent deficiency bill for the support of the military and naval establishments during the six months beginning January 1, 1899.

Washington, Dec. 8.—The deficiency bill gave rise to a long debate in the house on the increase of the size of the army and the number of the volunteers, a number of democrats insisting that the bill would enable the president to retain the volunteers in service after peace was declared.

Dickens and Saxton, leading democrats of the appropriations committee, defended the bill, and said that it could not be construed to modify the volunteer law.

Rice, democrat of Arkansas, announced his purpose to move an amendment specifically declaring that the bill should not have such effect. The house finally passed the urgent deficiency bill.

SANTA FE MEETING.

Stockholders of the Big Road Assembly at Topka.
Topka, Dec. 8.—The annual meeting of the Santa Fe stockholders was held at noon. Only a few of the stockholders were present, but more than two-thirds of the capital stock was represented by proxy. Abner F. Walker, President Ripley, W. S. Roache and C. C. Holliday were re-elected members of the board of directors.

Formal approval of the purchase of the San Joaquin Valley line, by which the Santa Fe will run trains into San Francisco, was made. Mr. Walker, chairman of the board, said that the company hopes the addition of this line to the system will result in an increase of business, which will be felt over the entire line.

Mr. Walker said that the war had opened greater possibilities for the west, and San Francisco will be a much more important point to the road than it had ever been.

The meeting formally ratified the purchase of the following branch lines: Kansas City, Topeka & Western; Leavenworth, Northern & Southern; Southern Kansas; New Mexico & Southern Pacific; New Mexico, Rio Grande & Mexican; Rio Grande, Mexico & Pacific; Silver City, Deming & Pacific; Wichita & Western; St. Joseph, St. Louis & Santa Fe.

MYSTERY MURDER.

One of the strange sensations of Sleepy City St. Louis.
St. Louis, Dec. 8.—Mrs. Eva C. Hutchinson, of Hotel Lincoln, Kansas, throws more light on the mysterious shooting of her brother, Elliot R. Hutchinson, in this city, July 14, 1897. She says that the man who was shot was a stranger, and that she saw him for the first time on the day before the shooting, by a stranger, who says that the stranger was looking for his gun. The man also furnished him with money to buy a ticket to St. Louis.

This stranger asked Hutchinson for a revolver, and she gave him one. She says that the stranger was looking for his gun. The man also furnished him with money to buy a ticket to St. Louis.

TREATY OF PEACE.

Ready to Be Engraved and Signed by the Commissioners.

Spain Refuses to Grant the United States a Coaling Station.

Garrison of American Troops on the Way to Havana.

SCORE IN BICYCLE RACE.

Paris, Dec. 8.—The treaty is finished. Judge Day said: "We settled all points to which there is a possibility of agreement. Only the engraving remains. The Spaniards to-day refused to cede the United States a coaling station on the Caroline Islands.

Madrid papers are disposed to revive the question of the Maine and excite public opinion against the United States on account of the reference made in President McKinley's message. They report that Senator Matthew Ross, president of the Spanish commission, made a passionate denunciation of President McKinley at the last joint meeting of the commissions. But these reports are practically without foundation.

Senator Ross referred to the Maine incident, but only in a calmly worded sentence, expressing regret that the president had spoken, as the Spaniards thought, unjustly of them. The Spaniards had already proposed this conference to have the responsibility of the Maine referred upon by a joint commission of the European powers. The American commissioners refused to listen to this, and permitted Ross' reference to the president's message to pass unchanged, as discussion would have provoked bad blood.

The French government is reported to have resolved to take up the case of the French holders of Cuban bonds, and it is believed that France will declare the regulation of the bonds is the result of the treaty that the victorious nation has imposed upon Spain. They argue that through the treaty the responsibility has been shifted upon America, therefore the French government will endeavor to exact some pledge for the payment or guarantee of the bonds.

The American peace commissioners entered the joint conference to-day in a nervous frame of mind, having reasons to believe that a possibility existed that even at this late hour there might be a rupture, as the commissioners of Spain do not conceal the fact that having failed to gain all important points they were indifferent whether the conference result in signing a treaty by which Spain loses all her colonies.

Garrison for Havana.
Washington, Dec. 8.—The steamer Romanos sailed to-day from Savannah, Ga., carrying the entire First Regiment of North Carolina and part of the Second Regiment, to serve as part of the garrison of Havana. The Second Illinois Regiment is loading to-day at Savannah for the same destination. The quartermaster's department is making satisfactory progress in the preparation of doing railroads and camp sites in the neighborhood of Havana for the reception of the troops.

JURY DISAGREE.
Case of the Attempt to Blackmail the Coast Range.
Albany, N.Y., Dec. 8.—The jury in the case of Mrs. Matilda Cody, after being out since six o'clock yesterday afternoon came into court at noon, and after an explanation of the point in relation to blackmail; after this was read they retired. Mrs. Cody has been on trial eight days on the indictment for blackmailing letters to George Gould and Miss Helen Gould, concerning the suit of Mr. Angell to establish dower rights to Jay Gould's estate. It is understood that the jury stands eight for conviction and four for acquittal.

Jury Compelled.
San Francisco, Dec. 8.—The jury in the case of Mrs. Cordelia Hookins, indicted for the murder of Mrs. John P. Dunning, of Dover, Del., was compelled this morning to reach a verdict.

ARMY SURGEONS.

Investigation of Medical Department by the Commission.

Riotous Act of Cuban Officers at Santiago de Cuba.

Crew of a Wrecked British Steamer Brought to Philadelphia.

ROBERT OF AN ILLINOIS BANK.

Washington, Dec. 8.—The conduct of the medical service of the army was taken up to-day by the war investigation commission. Surgeon General Sternberg was rigidly questioned. The medical department, he said, was equipped only for an army of 25,000 men when the war broke out. From year to year the estimates he submitted had been materially reduced by congress. As soon as there was prospect of war he began preparations, but when he suggested to Secretary Alger the propriety of making purchases for his service, the "pottery was to wait." He said at one time there were 650 contract surgeons employed. He conceded that it was a mistake not to have appointed more contract surgeons from those who had experience in the civil war. The regimental surgeons, he said, were good, but in different, but he recollected no instance of dismissal for incompetence.

RIOTOUS CUBANS.

They Disturb the Quiet of the Military Province of Santiago.
Santiago de Cuba, Dec. 8.—The Cubans here are greatly excited over yesterday's proceedings resulting from commemoration of the death of Antonio Maceo. Bailed by the insurgents near the trenches, struck the tents of the Immune. Regarding the action of three drunken Cubans, who entered a Spanish club, and smashed the chandeliers and furniture, the Cubans deeply deplore the outrage. Col. Beacom, the American acting military commander, to-day personally arrested Juan Castillo, a captain in the Cuban army, who led his negro companions into the club.

Crew of a Wrecked Vessel.
Philadelphia, Dec. 8.—The British steamer Kadamore, from Liverpool, passed in at Cape Henry last night, and reported that she had on board forty-five of the crew of fifty-eight men of the steamer Londonian. The Londonian sailed from London on November 15 for London, and was last sighted, abandoned. This is the first news of the crew. The Londonian has undoubtedly gone to the bottom.

Bank Robbery.
St. Louis, Dec. 8.—A special to the Post Dispatch from Arrowmont, Ill., says that the private bank of Taylor & McClellan was last night entered by robbers, who secured \$4,000 worth of negotiable paper. The safe was wrecked by dynamite. Blood hounds are being used to track the robbers.

Police Court News.
A young boy, well known around town, was brought before Justice Crawford this afternoon on the charge of stealing Eugene Kennedy's bicycle day before yesterday. He was found guilty and fined \$10 and costs. The mother of the boy then took an appeal.

ALBUQUERQUE, — DEC. 9, 1928

PRESIDENT MCKINLEY will attend the peace jubilee at Atlanta, Ga., next week.

THE territory of New Mexico has cash in its treasury to the amount of \$75,000.00.

THE windows of the Albuquerque stores are looking very pretty in their holiday dressings.

It is said that 70,000 soldiers will be needed to put down the rebellion in the Philippines.

On the 4326 public school teachers in New York city only 300 are men. The women's salaries are only \$500 per year.

THE insurrection which is said to be spreading in the Visayas Islands is reported from Spanish sources to be against the Americans.

THE city of Philadelphia claims to have 145 men each of whom is worth \$1,000,000 or more; twenty are worth at least \$500,000 each.

WITH Hawaiian legislation and the annexation of the Philippines as the chief measures, this session of congress will be devoid of all monotony.

IT is said that 500,000 persons are now doing the work which formerly required 1,000,000 and yet the hours of labor have not been greatly reduced.

MORE men have died and are buried in the isthmus of Panama, along the line of the proposed canal, than on any equal amount of territory in the world.

WAR is expensive in the single item of powder. A statistician has figured it out that the British fleet fired off 4,500 pounds of gunpowder at the battle of Trafalgar bay.

THE Philippine insurgents are roasting friars at the stake and committing many other atrocities, which should be promptly stopped by the United States troops.

UNDERGROUND London contains 34,000 square miles of telegraph wires, 3,000 miles of sewers, 4,500 miles of water mains, 3,800 miles of gas pipe, all definitely fixed.

THE state department is informed that the exports from Germany to the United States during the quarter ending December 30 amounted to \$19,789,007, an increase of \$5,110,093 over the previous year.

THE CITIZENS desire to impress upon congress the necessity for a government building in Albuquerque. Such a building is needed for the use of the postoffice, United States court and the federal offices.

MANY of the ablest populists in Kansas and Nebraska frankly admit that another year of big crops will smash the free silver boom beyond all hope of repair. They have discovered that Bryanism and prosperity won't mix.

THE present activity in iron may be accounted for not alone in the demand for its use in the construction of railroads, warships and business blocks, but in light architecture, and it is not unlikely that its use may soon become more general, creating a greater demand than ever before.

THE stores and shop windows are radiant these days with holiday goods. Every evening groups of ladies and children may be seen on shopping expeditions. The Christmas trade this year seems to have opened much earlier than usual. The merchants say that it indicates home prosperity and a desire on the part of buyers to make purchases before the stocks have been depleted.

PRESIDENT MCKINLEY in his message repeats the recommendation made by him a year ago for breaking the "endless chain," which is that greenbacks, when once redeemed in gold, should not be paid out again except in exchange for gold. He gives expression to the belief that there should be "immediate enactment" of legislation to carry this recommendation into effect.

REPUBLIC OF CUBA.
"As soon as we are in possession of Cuba and have pacified the island it will be necessary to give aid and direction to its people to form a government for themselves."

Thus the president in his message declares it to be the purpose of the administration to adhere strictly to the pledge made by congress regarding Cuba at the time war was declared on Spain. In so doing he has interpreted correctly the sentiment of the American people, who desire to see the Cuban self governing, at the earliest moment consistent with safety and soundness.

FOR AND AGAINST.
The Macdonaldian policy of the Democrat in its advocacy of statehood for the territory is unique, to say the least. It is hardly fair to criticize the motive which underlies the course now being pursued by that journal, for on the surface the reader is apt to believe its favor.

As declarations sincere. However that may be, there are people who fail to understand the necessity of favorable editorial utterances and at the same time a re-publication of editorial opinion from other journals, whose position is hostile to the measure. It may be talented and wise to favor a measure and at the same

breathspread broadcast the arguments of the opposition. There are those who do not think so. If the Democrat is honest by far, let it take a stand, and through the columns of its paper endeavor to convert those of its readers who are against it. Don't give them an opportunity to fight by placing in their hands the very weapons it ought to seek to destroy. Come out in the open and fight right.

POSTAL SAVINGS BANKS.
British postal savings banks report a total of deposits at the close of the fiscal year of between \$500,000,000 and \$600,000,000, an increase over the preceding year of more than \$50,000,000. During the same period the number of depositors has increased from 6,000,000 to 7,000,000, with an average of \$75.

A determined effort will be made probably in the present session of congress, to secure the requisite legislation giving to the people of the United States that safe custody of their earnings afforded to every citizen of Great Britain. Congressmen Lorimer and Buntelle and Senator Mason have aligned their intention to help bring about this needed reform in our financial system. Such banks have stood the test of experience in the greatest commercial nation of the world.

UNEXAMPLED PROSPERITY.
Heretofore 1928 has furnished the basis for estimates when comparison for the large business was made, but in the report published recently, "Bradstreet's" says 1928 must serve hereafter for that basis. It adds: "Nearly all available statistics and reports point to the fact that the present year has heavily exceeded any former year in the amount of business done."

It is noteworthy fact that the last year of the preceding republican administration witnessed phenomenal prosperity in this country. There came four years of democratic rule with great loss and suffering.

Again the republican party is in power and again the country is highly prosperous. It will not do to ascribe this to "republican luck." There must be some other cause at work, and men of observation see that when the republican party is in charge of the government the country is prosperous and that when the democrats come in the reverse is the rule.

All men desire prosperity and men of sense should support the party which brings that about.

WORK FOR STATEHOOD.
What is the matter with holding a meeting of the republican territorial central committee and take definite action in the matter of the bill for admission of the territory? Earnest believers in the cause of statehood would like to see an organized movement started, so that the people can have their views presented in as strong a light as possible.

Two or three men—ex delegates and delegates—may be able to accomplish something, but an organized effort on the part of the republican party will be very good backing for these statesmen and United States senators in embryo who are willing to believe themselves the whole thing should congress grant the boon so many of us desire. The truth is, the majority of the people want statehood about as much as three or four statesmen want senatorships.

FROM a purely political standpoint, the republican party will lose nothing by dividing the present county of Colfax, giving to the town of Springer the county seat of the new county. The more democratic party is divided, politically or geographically, the better will follow for the republican party. Here's a health to the new county of Dewey!

ONE of the most prosperous newspapers in New Mexico is the Sacramento Chief, published at Alamo Gordo. The Chief is good evidence that it is published in a live town, being filled with advertising from the enterprising merchants of the place.

COONRY MINING DISTRICT.

Located in the Mogollon Mountains, Socorro County.

SOME OF ITS GOOD MINES.

This district is situated in the southwestern corner of Socorro county, and is tributary to Silver City, Grant county. It was discovered in 1875 by J. C. Cooney, quartermaster of the Eighth United States cavalry, who upon receiving his discharge from the army took a few brave prospectors with him and made a number of locations. The Indians, however, were active and prevented any work being done until 1879, when J. C. Cooney had driven on the Silver Bar, "better known as the Cooney mine," a tunnel on the lead three hundred feet, exposing a large body of silver copper ore. April 29, 1880, the Apaches raided the camp and killed J. C. Cooney, Mat Levens, J. Chick and Wilcox. In May, 1880, Captain M. Cooney, a brother of the discoverer, arrived in camp and took charge of the mine, soon organizing the Cooney Mining company. He spent \$20,000 in development, and shipped about 500 tons of ore running \$100 per ton. In March, 1883, the mine was reorganized as the Silver Hill Mining company and continued producing up to 1890, when they closed down. In 1892 a suit was brought against the company by Captain M. Cooney for \$16,000. Judgment was secured, and the property sold for that amount, interest and costs, and bid in by M. Cooney, who erected a mill on it in 1893, run by water power, and it has been run under lease for several years. Some of the ore extracted from one ore chute in 1894 ran \$18,000 in gold, and the mine has produced since its first exploitation about 10,000 tons of ore valued at \$500,000. A contract is now under way which will extend the tunnel on this mine to 1000 feet and tap a gold ore chute 650 feet in depth, after which it will again be a large producer.

Final Adjustment of Ford's Claim Against the Springer Land Association.

The case of Patrick P. Ford vs. the Springer Land association, which has been pending in the courts of the Fourth judicial district since June, 1890, has finally been settled satisfactorily to all parties, and the case is closed. In the year 1889 the Springer Land association, a corporation organized in Chicago and composed of Chicago capitalists, entered into a contract with Ford to construct large irrigation ditches and reservoirs on the Springer land, situated in the Mogollon Mountains, and the final settlement between the association and Contractor Ford, the association claimed that part of the reservoirs were not constructed according to contract, and refused to pay Ford \$17,000, which had been allowed him by the engineer in charge of the work.

It was then brought by Ford against the Land association, and in March, 1893, Judge James O'Brien decided the case in favor of Ford, giving him a judgment against the Land association for \$22,000.

The case was appealed to the supreme court of the territory, and the decision of Judge O'Brien sustained, from the supreme court of the territory the case was taken to the supreme court of the United States and that court in May last affirmed the decision of the New Mexico court, giving Ford a judgment for \$22,000 with interest and costs. By virtue of this order of the court Mr. Ford, through his attorneys, Messrs. Wolcott & Valle, of Denver, advertised the ditch and reservoirs and the land adjacent thereto for sale, and the sale was to have taken place Tuesday in Springer, but Monday evening an agreement was entered into between Mr. Ford and the representative of the Land association by which this sale is postponed sixty days, and Mr. Ford is amply secured for the full amount of his judgment.

Mr. Ford and his son, accompanied by their counsel, C. H. Waterman, of the firm of Wolcott & Valle, of Denver, were in the city Monday, returning to Denver Tuesday morning.

Uncle Tom's Cabin.
The famous Uncle Tom's Cabin company played to a fine house last night and one of the present were sorry that they were there, as it certainly is a play that everybody can enjoy to the utmost. The famous play was put on in its entirety and pleased the audience greatly, carrying to them the biblical narrative in a manner never to be forgotten by those who were so fortunate as to see it at night. The plays were all good, and the old-time plantation songs and dances and the banjo playing kept the audience in good spirits all the time. The company have their own orchestra, which is a good one, and music furnished in well worth the price of admission in itself. Miss Milford, the phenomenal dancer, made a great hit with the lovers of the graceful fancy art, and she will be welcomed again to-night at the performance. The pastimes of the leaves, as put on by the company of players, is so real that one would think for the time that he was on one of the southern levees in the height of the summer season.—Fargo Argus.

The above company appears at the Orchestration hall for one night, Monday, December 12. Popular prices, 25, 50 and 75 cents. Seats now on sale at usual place.

formed a company thereon called the Paocock Mining company, in 1895, which erected a concentrating mill thereon that embodied within it Rittenger tables, eddy classifiers, jig, vanners and rolls. The mill was a failure, and in producing \$50,000 during the year it was run, about \$100,000 was wasted in the creek. The mill machinery was all attached and sold for laborers' liens, and the mill frame was sold for taxes.

There is no camp that exists that of others better indications to capital than the Cooney mining district, there being about fifty partially developed claims in the district, owned by poor prospectors, which would be purchased at a reasonable figure. No camp in the southwest has had more to contend with in lighting Indians and paying high wagon and rail road freight rates. And as soon as the Indians disappeared, in 1883, the lawyers took their place and tied up some of the best mines in the camp with litigation.

melt these flakes of dandruff in the scalp. It goes further than this; it prevents their formation. It has all other properties: it will restore color to gray hair in just ten times out of every ten cases.

And it does even more: it feeds and nourishes the roots of the hair. Thin hair becomes thick; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking. If you do not obtain all the benefits which it promises, we will refund the money. Write the doctor about it. Probably you will find it the best remedy for your hair which may be really restored.

COFFEE. Good coffee, like ours, is so necessary, that a breakfast without it is only half a meal. There's so much in a really fine cup of coffee that it makes half a meal of itself. We make a point of carrying the finest Mocha, Java and Brazilian coffees in our stock. The dignity of our breakfast table must be maintained. Whatever becomes of the gold or silver standard, the purity and supremacy of the coffee standard must be preserved. For ourselves, we are for coffee, and our prime A-1 coffees are for the public of Albuquerque.

THE GOLDEN RULE DRY GOODS COMPANY.

Agents For STANDARD PATTERNS The Most Reliable of All Patterns Made. Sure to Please.

An Event! Planned for, prepared for, better prepared for than ever before. Christmas stocks complete; carefully bought, to be rightly sold. The store decked in its brightest garb and wearing its brightest smile bids you cordial welcome. Details concerning this handsome collection of Christmas merchandise are impossible. Only a few hints, a few suggestions to emphasize the fact that this store intends to move the record page a notch higher 'twixt this and Christmas. Now we invite you to come; buy if you are ready (early holiday selections are always satisfactory), or look to, to price, to admire, to use the store as a help towards a solution of the great problem of what to buy.

A VERY SPECIAL EVENT in DRESS GOODS. There will be a good opportunity for obtaining Christmas gifts here. What could be more acceptable than a stylish dress pattern? Ask any woman and you'll find out. This sale of fine dress patterns has been inaugurated especially for the benefit of the Christmas shopper in quest of sensible goods. The assortment contains magnificent values in both black and colored materials, including novelty and plain fabrics in many handsome designs and colorings, marked at a great reduction from the regular price. Your choice according to value from \$1.00 to \$7.50. In addition to this there will also be on sale all our fine Hosiery, Socks, Handkerchiefs, and Dress Goods of all kinds.

THE HOLIDAY HANDKERCHIEFS. Staple all-the-year-around stocks have been condensed to make room for the Christmas Handkerchiefs. Plenty of elbow room for the throngs of gift buyers. A wilderness of styles all priced to please. No room for lengthy descriptions. Just the goods and prices. Initial and Lace Edge, 5 in a box, 45c. Initial Handkerchiefs at 5c and 12c each. Initial Silk at 15c and 20c each. Silk Embroidered at 15, 20 and 30c. Linen from 10c to 20c. Embroidered from 5c to \$2.00 each.

THE DOLL CONGRESS. Dolls here of all colors, sizes and conditions; boy dolls, girl dolls, dressed dolls, undressed dolls, dolls that sleep and dolls that can't sleep. If you've dolls to buy don't pass this collection. From 5c to \$40 each as usual. Cheaper than anywhere else.

GLOVES FOR CHRISTMAS. One of our most important Holiday stocks, kid gloves come first of course, with the heavier winter sorts a good second. The size range, the color range, the price range, all complete. Better choose early though, stocks get badly broken toward the last. Note these values. From 5c to \$2.00 a pair. Small size monogrammed gloves to close out 50c pair.

CHRISTMAS CLOAK SALE. Cloak buying for Christmas is to be commended. Cloak selling in this store is going to be a big feature of the Holiday output. We've touched the garments into lots, nearly half priced in many instances, and would just say if it's cloaks then its money saved to buy here. Jackets from \$7.75 to \$7.35. Capes from 75c to \$7.00. Fur Capes at about half-price.

DRESS SKIRTS. Special lot of Fine Dress Skirts bought expressly for Christmas trade, from \$10.00 to \$20.00, also Skirts from \$1.00 upwards.
