## POWERFUL ARGUMENT

Made by Judge A. L. Morrison at Las Cruces Republican Ratification Meeting.

## TARIFF LEADING ISSUE

Proves Present Party in Power Has Been and is a True Friend to Every New Mexico Industry.

The following well written and interesting speech was delivered by Judge A. L. Morrison, of this city, at the Republican rally and ratification meeting held in Las Cruces Saturday last, to a large and appreciative audience and was subject to frequent and hearty applause:

Mr. Chairman and Fellow Citizens:

Parties in this republic are as necessary for our political welfare as adverse currents of air are to our physical health. But to be beneficial to the people, parties must be based on American principles and advocated with sincere and honest intentions. When a party fails for any reason to represent such principles the best service it can render the country is to retire from public view and make way for another which possesses those requirements.

But what principles has our party advocated? First and above all it has been the sole champion of protection to native industry. By abolishing slavery it elevated and dignified honest labor and it further dignified it by prohibiting the contract system among United States convicts. It insisted and still insists that American workingmen shall be protected from unequal competition with the poorly paid labor of Europe and Asia.

Further, when the Republican party sprang into existence, the Democrats had been in power from 1801 to 1861, excepting the terms of J. Q. Adams, General Harrison and General Taylor. The vast and uninhabited public domain lay fallow almost from the Alleghenies to the Pacific. Hardy pioneers (builders of states) taking their lives in their hands, were crossing the mountains exploring the prairies, navigating the great rivers and lakes and carrying our flag to the unknown parts of the country to build up new homes and new states nearer to the setting sun. Now, what had the Democratic party ever done to aid these indomitable souls in securing good titles to their farms? Nothing—absolutely nothing. Any one who is acquainted with the history of the early migrations westward, knows the chaotic confusion which prevailed everywhere about securing titles to their hardy won homes. Read Roosevelt's "Winning of the West" and you will form some idea of the imbecility of the Democratic party, which was responsible for this confusion. Now, what did the Republican party do to bring order out of this chaos? Lincoln was inaugurated on March 4, 1861, and notwithstanding the existence of the civil war in the south and disloyal conspiracies threatening the Union in the North, less than fifteen months had elapsed when the first homestead law was enacted on May 20, 1862. This was probably the most beneficent and far-reaching act since the revolution. Under its provisions hundreds of millions of acres have been settled by millions of citizens. The gloom of the forests, the solitude of the prairies, gave place to the busy hum of industry. Cities, villages, churches, schools, colleges, hospitals and other cheering evidences of American civilization sprang up, as if by magic on every side, and a dozen wealthy independent states (forming the very heart of the republic) stand today as undying witnesses of the blessings of Republican legislation.

But let us examine the more recent record of the Democratic party. What has it done since the Civil War to entitle it to restoration to power? Will some good Democrat inform us? They did pass one law which the people of America will long remember with detestation. During Cleveland's second administration the infamous Wilson-Gorman tariff act was passed, and within three months thereafter a financial cyclone swept over the country before whose fury factories, furnaces, rolling mills, work shops of every kind suspended; banks closed and general industrial prostration prevailed all over the country. The wool crop of the nation went begging for customers and found none. Millions of able-bodied working men crowded the streets; soup houses (those regular companions of Democratic rule) were opened in every city in the land to save the people from starvation. English, French and German manufacturers undersold us in our own markets; the country was flooded with their wares to the exclusion of our own. They were prosperous, while we were on the verge of ruin. This was only ten years ago, so none of us can have forgotten it. You cannot have forgot-

ten Coxe's army. This was an exclusively Democratic production. Thousands of poor, idle men rambled through the country begging from door to door, living on public and private charity and vainly seeking employment of the most menial description. Some parts of the country were actually terrorized as the Coxe army approached their localities. To the credit of these poor people be it said, little or no violence took place. Most of them had voted for the party which had reduced them to such squalid poverty. They had sown the wind and were reaping the whirlwind of their own folly. The sorely impoverished people were compelled to endure this state of affairs until the next election, then they arose in their might, drove the Democratic free traders from power and have not been foolish enough to trust them since and if their memories have not utterly failed them, they will not trust them now.

Then came the Democratic free silver lunacy, which kept us in confusion for eight years. I remember every presidential campaign since 1848 and can truthfully say that for ruffianism, turbulence, and un-American intolerance, these two exceeded them all. Brickbats, stones, clubs, and general mob violence were the favorite arguments of the free-silverite free-traders. Just as soon as they were defeated the first time, they (under their favorite leader, Bryan, who is the most influential leader in their party today) renewed the struggle and kept us in confusion and unrest for the next four years. Now, my Democratic friends, who saved you from the demoralizing effects of free-silver, fifty-cent dollars, debased currency and debts paid at fifty per cent of their value? You could not deny, even if you desired, that it was the same party that saved the Union for you. I am proud to confess that we were aided by thousands of honest, patriotic Democrats, of whom, by the way, the present Democratic candidate was not one, for he contributed to the utmost to help the Bryanites to success, by voting for Bryan every time he had the opportunity. To be sure, he says he did so under protest. Is not that ridiculous? What effect did that have on his vote? If enough citizens had done like Judge Parker and voted for Bryan under protest, he would have been elected. Wouldn't he? But there were enough honest citizens who voted openly and above board, without protest, for the lamented McKinley, elected him and saved the country's honor.

But to come right up to date. If ever there was a heterogeneous mass of glittering generalities phrased with intention to deceive and mislead the people, the Democratic platform is just that. It may have the desired effect on unthinking people but will have the contrary effect on intelligent citizens. Take a few of its leading planks and examine them. Here is a choice specimen:

"We demand the extermination of polygamy within the jurisdiction of the United States and the complete restoration of church and state in political affairs." Now, isn't that virtuous? Isn't that Christian-like? Isn't that highly commendable? But think for a moment of its brazen impudence and its assumption that the people are ignorant of their own laws. Did the writers of that hypocritical sentence think that we have forgotten that the Territory of Utah, which was settled by Brigham Young and his hordes of polygamous serfs, was admitted into the Union by a Democratic congress and a Democratic President, Cleveland, and that simply because it was a Democratic Territory? If it had been Mahometan, or Pagan, they would have admitted it just the same to strengthen their party. And now because they think the denunciation of polygamy will gain them some votes the very same party that raised the original polygamists to the honor of citizenship and admitted them to statehood demands the extermination of polygamy. Oh! shame, where is thy blush! The men who wrote that plank and the dupes who swallowed it, have forgotten all about blushing. Their cheeks have become so hard that blushes would not show on them. Have these men forgotten that the first anti-polygamy act was framed by a Republican senator, Judge Edmunds, of Vermont; that it was passed by a Republican Congress and signed by Chester A. Arthur, who was certainly a Republican president? Under that Republican law many a Democratic polygamist has done time in the penitentiary. Surely, even the Democrats have not forgotten that a Republican senate refused to seat the Democrat, Reed Smoot, of Utah, for no other reason than that he was a polygamist. Let any honest man examine the records of the two parties and see for himself which of them has aided and assisted the Mormon polygamists and which has opposed them. Oh, it is the old story: When the Devil was sick, the Devil a saint would be. But when the Devil got well, the Devil a saint was he.

There is another plank: "The Democracy when entrusted with power will construct the Panama canal speedily, honestly and economically, thereby giving to our people what Democrats have always contended for," etc.

A NEW MEXICO HOMESTEAD.

## WILL FIND PLACE IN MILITARY ANNALS

Battle of Lone Tree Hill Remarkable For Bravery Displayed and Terrific Loss of Life Which Resulted.

St. Petersburg, Oct. 18.—There was no fighting on the Russian left yesterday and the Japanese operations on the extreme right which evidently intended to cut the railroad below the Hun River, have failed, the Japanese being unable to get beyond Sincupum, two miles west of the Shalke railroad station. Field Marshal Oyama seems to be massing his troops against the Russian center and the war office here expects that he will make a desperate effort tonight or tomorrow to retake two vital positions. The general staff believes that the storming of Lone Tree Hill for valor and slaughter will occupy a place for itself in military annals. Kuropatkin, under whose eye the assault was made, rechristened it Poutloff Hill in honor of the man who led the attack at the head of the Second brigade of the East Siberian Rifles and who was subsequently decorated on the field with the St. George Cross. The hill is a precipitous rocky height and although the Japanese had occupied it only a short time they had thrown up strong defenses. The river running at its foot increased the difficulty of the task, but was scaled and carried successfully against the unrepented opposition of a Japanese division of 14,000 men with many guns. The Russian losses were terrible. The fighting on the crest of the hill was altogether with cold steel. The Russian officers with swords aloft, leading the scaling column were literally lifted into the air by the Japanese bayonets and the Japanese then bayoneted the first of the Russian soldiers who piled into the trenches, all dead. While the war office holds out the hope that Kuropatkin may resume the offensive it is privately admitted that the chances are against him unless there is some fortunate development. It being explained that his assumption of the aggressive at the Shalke River and along the railroad was vital as a withdrawal of his left must have been made under the shelter of his right.

Japanese Lose 14 Guns.

Tokio, Oct. 18.—The Russians enveloped the advanced column on Sunday and captured 14 guns. The Russians are now concentrating in front of the left army under General Oku and the center army under General Nodzu and another great battle is expected.

Russians Repulse Japanese Attack.

St. Petersburg, Oct. 18.—The general staff has received the following message from General Sakharoff dated today: "The Russians repulsed the Japanese attack on their right wing during the night of October 17th and seized the village of Shalandzy, on the right bank of the Shalke River and east of Shalke. The enemy strongly bombarded the captured village, but did not advance to attack Lone Tree Hill, now called Poutloff Hill. The work of burying the dead proceeded all night long. Military honors were paid the Japanese dead. There was no fighting yesterday on our left flank."

Japs to Carry War Through Winter.

London, Oct. 18.—The Japanese minister here, Baron Hayashi, in an inter-

view today on the result of last week's fighting, said to the Associated Press: "The war will be continued throughout the winter, which in some respects is more suitable than summer. The next point of real importance is Tie Pass. When that is taken there is nothing to prevent the Japanese advance to Harbin."

Admiration For Kuropatkin.

St. Petersburg, Oct. 18.—Despite the feeling of bitter disappointment over the failure of the Russian offensive and the complete miscarriage of Kuropatkin's plans, the battle continues and his defeat does not appear to be so crushing and disastrous as Tokio dispatches led the Russian public to believe. While tales of death and slaughter have plunged the nation into grief, and the exact situation of Kuropatkin's army, especially on the left is not clear and probably must be considered as critical, it is evident that the wild stories of rout and the cutting off of the whole corps etc., are baseless. Kuropatkin is still doggedly trying to stem the tide and there is nothing but admiration for the heroic figure of the Russian commander personally directing the fight to save the battered legions. The slaughter doubtless is appalling but the war office contends that Tokio reports exaggerate. Never-the-less the war correspondents telegraph under yesterday's date that 23,000 wounded have passed through Mukden on their way north, not counting many from the eastern wing who went through Fushun direct to Tie Pass.

Courage of Troops Unshaken.

St. Petersburg, Oct. 18.—The issue of the bloody drama below Mukden is still in the balance. There is no attempt to minimize the severe character of the reverse suffered by General Kuropatkin last week, but as yet there is certainly no rout and no Sedan and the war office has not yet given up all hope. Kuropatkin may be able to resume a genuine offensive. It is asserted here that the tone which the diplomats and newspapers of Tokio in referring to what they seem to look upon as the closing act of the tragedy of General Kuropatkin's army is certainly very premature. Both armies are greatly exhausted and the final issue probably will depend on which can re-gather itself the quicker. The Russian legions are terribly battered and more or less demoralized, but the splendid manner in which they went forward against Lone Tree Hill Sunday shows that the temper and courage of the troops are not completely shaken.

Rains on Battlefield.

Mukden, Oct. 18.—It rained during the night but the roar of the artillery did not cease for a minute. The day broke cold with a cutting wind. The roads have been ruined by the rain.

Repulsed on All Sides.

Tokio, Oct. 18.—The Russians fiercely assaulted General Oku and attacked General Nodzu and Kuropatkin on Monday night, but were everywhere repulsed with heavy losses.

No Thought of Peace.

St. Petersburg, Oct. 18.—An an-

## NEGRO PUGULIST IS BEING HELD

Charge is Murder—One Man Dead as Result of Supposed Accidental Discharge of Pistol.

Boston, Mass. Oct. 18.—Technically under surveillance on a charge of murder, Joe Wolcott, the negro pugilist, is in the city hospital today, suffering from a pistol wound in the right hand, self inflicted he says by the accidental discharge of a revolver, which resulted in the death of another negro, named Nelson Hall. Wolcott's hand is so badly shattered that several fingers may have to be amputated. While the police accept Wolcott's story of the shooting, a systematic investigation is being made and several witnesses are held.

## SUPREME COURT AFFIRMS VERDICT

Of Guilty in the Case of Three Men Indicted for Naturalization Frauds in Louis.

St. Paul, Minn. Oct. 18.—The United States circuit court of appeals has affirmed the verdict of guilty, fine and sentence of the United States district court of St. Louis in the case of John P. Dolan, Frank Garrett and Thomas E. Barret, indicted for naturalization frauds.

## AN ADDITION OF POTTERY

From Navaho Country Just Made to Collections of Historical Society.

The New Mexico Historical Society has recently obtained a very excellent and valuable collection of excavated pottery from the Navaho country, a curiosity of about thirty specimens. It is not only of the well known types of the pre-historic pottery of that region but includes some vessels of rare and curious shapes and one which contains a rattle made by leaving a hollow in the wall of the vessel and putting a small stone in it during the process of manufacture. This collection is a valuable addition to the archaeological department of the Society and especially interesting when compared with the large collection purchased some years ago by private subscription from the graves in the vicinity of Frisco. When these can be properly exhibited, they will be of much interest to antiquarians and tourists.

## WOOL MARKET.

St. Louis, Mo., October 18.—Wool is steady and unchanged. Territory and western medium, 21 @ 23 fine medium, 17 @ 18; fine, 10 @ 16.

Announcement from Washington saying that the administration believes that the best time for mediation in the far eastern war was approaching, has created an unfavorable impression in government circles here, where there is an inclination to associate it with the interview of the Associated Press with diplomatic circles at Tokio, suggesting the propriety of renewing the efforts in behalf of peace. The idea of peace, it is asserted here, could hardly come more inopportune with the Japanese in full flush of victory. It has aroused resentment and if attempt is made it will be rebuffed.

## MISUSED INFLUENCE

Aided Get-Rich-Quick Concerns in St. Louis to Evade Federal Law.

Washington, D. C., Oct. 18.—The case of United States Senator J. Ralph Burton of Kansas, who was convicted last winter of using his influence before the postoffice department to protect certain get-rich-quick concerns of St. Louis, and sentenced to serve three months in jail, came up before the supreme court today. It came up on motion of W. H. Rossington, of Topeka, Burton's attorney, who wants to advance the case now in the supreme court on a writ of error from the district court for the eastern district of Missouri. Attorney Rossington informed the court that this motion would be opposed by the government and asked that the case be set for argument the last of October or the first of November. The court will announce its decision next Monday.

## DISPLAY FROM ESTANCIA VALLEY

At Albuquerque Fair is Very Creditable and a Good Advertisement for That Section.

One of the surprising features of the Territorial Fair at Albuquerque is the display of garden products from the Estancia Valley in the new county of Torrance. Turnips weighing ten pounds on first year soil during the driest season in the history of New Mexico is pretty good even for that favored section.

Along some time last March, while the wind was blowing a gale and the dust from the plains hid the Manzano mountains behind a cloud that seemed to foreshadow only evil for the pioneer settlers in that valley, a few of the women folks who knew and appreciated the value of a good garden began to talk about farming to their husbands, but met with little encouragement. The ground was dry as a bone and getting drier, with no prospects of rain, and the outlook for successful gardening was anything but promising, but with the faith that moves mountains they persisted, until finally one at a time the "men folks" consented to do a little plowing, and that was the beginning of the development of what now promises to be one of the garden spots of the some-day-to-be sunshine state.

Like many of the other exhibits this display was unfortunately delayed in transit and reached Albuquerque after having been on the road almost a week, in bad condition, but it shows what the county will produce and that is all that it was intended to do. Most of it was planted late and planted so thick that it had but little room to grow. The sod when plowed was too dry to pulverize, making cultivation practically impossible. In other words, the products exhibited are the result of water on this unexcelled soil without the aid of cultivation, and a revelation to all, but to no one more surprising than to those who produced it.

In spite of the unfavorable season just closing and the unfavorable conditions following in its wake, new settlers are going into the Estancia valley and those who are going now are taking some money with them! The most of them have money enough to build comfortable homes and improve the land, which now promises good returns for the labor expended in its development.

## NATIONAL REPUBLICAN TICKET.

For President,  
**THEODORE ROOSEVELT.**

For Vice President,  
**CHARLES WARREN FAIRBANKS.**

For Delegate to the 59th Congress,  
**WILLIAM H. ANDREWS.**

### THE VOTE FOR ANDREWS AND RODEY IN ALBUQUERQUE CONVENTION.

So Bernard S. Rodey, who has been twice honored by the Republican Party with the nomination and election as Delegate to Congress from New Mexico, has allowed himself to listen to the siren-song of false friends and his own conceit and bad judgment and has become a turncoat and a renegade by announcing himself as an independent candidate after failing of re-nomination at the regular Republican convention. It is to be presumed that Mr. Rodey explained his reasons for such action to his own satisfaction in his letter given to the Albuquerque papers on October 7th, in which he states with much redundancy and verbosity that he was defeated by a convention stacked with administration officeholders and proxies.

That letter merely served to stamp Mr. Rodey anew as an illogical and visionary man, a fact that can be proven easily by making careful investigation of his charges. For instance, he lists in that letter the names of seventeen delegates who opposed his renomination and states that these men, all of whom held office under the administration, brought about his defeat. His statement was incomplete as a careful review of the official record of the votes cast, discloses the fact that there were twenty-one office holders who voted for Senator Andrews. A similar review of the vote cast for Rodey also discloses the fact that he was supported by twenty-one office holders under the present administration.

Does that mean, then, that Andrews and Rodey stand on the same basis as regards votes received from delegates holding office? Not at all, for Rodey's total vote was but 63 1-2, of which total 33 1-3 per cent came from men appointed, or assisted to appointment by Governor Otero, while of Andrews total of 101 1-2 votes, only 20 per cent came from officials.

Again it appears that Andrews received twenty-nine votes cast by proxy, while Rodey received nine votes in the same manner. Now, if it be assumed, for the sake of argument, that votes cast for Andrews by officials or by proxies did not fairly represent the will of the people, the same must be true of similar votes cast for Rodey. Arguing on this basis it might be fair to assume that only votes cast by others than officials or proxies really represented the will of the people at large. Throwing out of Andrews' total 50 votes so cast leaves him a net vote of 51 1-2, and treating Rodey's vote in the same manner, leaves him a total of 33 1-2, showing that Andrews had a majority of eighteen from the people of the party regardless of officials or proxies.

The delegations of seven counties voting for Andrews had not an official among them, while Rodey can show but two county delegations which voted for him that did not contain at least one official, and only two counties

which were not represented by one or more proxies.

In other words, Rodey's whole argument is that of a sour and disgruntled man, who has imagined himself, not only bigger than his party, but even the party embodied in his own person. His head turned by the large majority received two years ago, he is now foolish enough to believe that he can come out as an individual and of his own sweet will reverse the verdict recorded against him by a large majority of the party assembled in regular convention. This paper does not overstate the case at all in saying that Mr. Rodey will not only fail ingloriously as to election but will be deprived of the small man's revenge, which the defeat of his successful rival might entail.

W. H. Andrews will be elected in spite of Mr. Rodey, and by a very substantial majority over the combined votes of Mr. Money and Mr. Rodey.

### WHY IS NOT NEW MEXICO INCLUDED?

The Western Passenger Association of the railroads doing business in the Rocky Mountain section, has decided to keep tourist rates for Colorado points in force during the entire year. Commenting upon this decision, the Colorado Springs Gazette says: "The action of the Western Passenger Association in deciding to make the tourist rates to Colorado applicable for the entire year instead of a few months in the summer, is a very important announcement for Colorado Springs and the Pike's Peak region."

"It means that hundreds of visitors will come here to spend the fall and winter months because the railways will make inducements for them to come. And when they are once located in the Pike's Peak region, the sunshine, climate and scenic attractions will hold them as a magnet. There is no more beautiful, delightful and invigorating place on the American continent than this region in the fall and winter."

"Another important feature of the concession made by the railways is the fact that westbound tourist traffic is also to be given stop-overs in Colorado. Hitherto, these stop-overs have been confined to passengers returning from California and the west and they have come here chiefly in February and March, which are two unpleasant months—that is, if any of our months may be called unpleasant. Now they may come on their way west and it will be much better for all concerned."

"For these concessions upon the part of the railway companies the people are indebted in a large measure to the Colorado Springs Chamber of Commerce which has been persistently urging the railways to make the rates for their own interest as well as that of the people of Colorado."

Right here it might just as well be asked if to Colorado, why not to New Mexico? There are a half dozen places on the railway lines in New Mexico which for climate and scenic attractions, beat Colorado Springs all hollow. Among these should be mentioned first, Santa Fe; second, Las Vegas; third, Raton; fourth, Socorro; fifth, Alamogordo, and sixth, Las Cruces, and there are others. Any one town in this half dozen is far superior to Colorado Springs as a health and tourist resort. The climate is milder and better; the scenic attractions in and near these are greater and superior; as health resorts for those afflicted with bronchial or pulmonary troubles, these places are on the top of the list, while Colorado Springs is away down. For a summer climate, Santa Fe for instance, cannot be improved upon, while for a winter climate, Colorado Springs cannot hold a candle to the strong light in that line given by Alamogordo and Las Cruces. Why, therefore, do the railroads fail to establish tourist rates for twelve months out of the year to New Mexico? By so doing they would benefit the Territory as well as themselves greatly. If not, why not?

### BE SURE TO REGISTER.

Every good citizen should exercise his elective franchise at the election on November 8th next. In this Territory, registration is an important prerequisite to voting and hence no citizen should neglect to register so as to be fully qualified for voting. The New Mexican urges this duty upon all patriotic and decent citizens. Those who desire to be benefited by their votes pecuniarily are always sure to register. To them the above admonition is not necessary. It is generally the respectable citizens who stay away from the polls. This is not as it should be. They are in the majority in every community where they exercise their voting privileges. Whenever they do, proper men are elected to offices and the interests of the community are best subserved. Whenever they stay away from the polls, the vicious element, and unfortunately this is very large at times in many places, gets control of the machinery of city and county governments and corruption, dishonesty and inefficiency in public affairs are the results. No good and liberty loving citizen should therefore neglect his duty to register and to vote.

"Are Hagerman, Woodruff and Snyder running on the same platform that Andrews is running on, i. e. that they can 'get things'?"—Roswell Record.

That's the kind the Republican candidates are. If they are elected, they will "get things" for the people, and not "take things" from the people as is the habit and custom of Democratic officials, vide the action of the three county collectors of Santa Fe County during the past sixteen years.

The Republicans of Dona Ana County have placed a ticket composed of strong men in the field and are sanguine of success. The county ought to give, and those best posted think it will give, a very handsome majority for Senator Andrews and the Republican legislative and county tickets. Harmony prevails among the Republicans there and an energetic campaign has already been inaugurated. The Republican rally last Saturday evening at Las Cruces was one of the largest, most enthusiastic and best attended political meetings ever held there, if not the largest and best. This shows that the Republicans there and the people generally, are aroused in the right direction and have espoused the Republican cause. Senator Andrews, the Republican candidate for delegate, made an excellent impression at that gathering and his presence and talk there will redound to the benefit of the party.

It may safely be asserted that within the past six months Russia has lost 200,000 men, dead and disabled in the Japanese-Russo War. Further, it is a fact that during the past five years, Russia has lost a half million Finns who have immigrated to this country. Russia could spare ten times that number of soldiers better than half a million Finns, who immigrated to the United States. They were of the best class of its citizens and their leaving is proving an irreparable loss to the White Czar's government, while it has developed into a great benefit to the northern states of this Union. What is Russia's loss is America's gain.

Mr. Money, Democratic candidate for delegate to Congress, is making as good a campaign as is possible for him to do under the circumstances. The trouble with him is that his party platform is a very rotten structure and simply gotten up to deceive the voters of New Mexico. The people are not at all enthusiastic about the issues advocated therein and this naturally has a bad effect on Mr. Money's campaign. He is endeavoring very hard to whitewash that platform, but it is too tough a job for him.

There is a discrepancy of opinion between Chairman Tom Taggart of the Democratic National Committee and Colonel William Jennings Bryan. The Colonel in his speeches in Nebraska recently said that there was no use in talking national politics in that state, as its voters were sure to give the Roosevelt-Fairbanks ticket a large majority. On the other hand, Chairman Tom asserts that Nebraska is sure for the Parker-Davis ticket. When such out, who shall be the doctor?

"The prospect was never better for a sweeping Republican victory in San Miguel County than it is at the present time. Not only will the regular Republican ticket be elected by a handsome majority, but the county will roll up a record-breaking vote for Senator Andrews for delegate to Congress."—Las Vegas Optic.

The above is gratifying and good news. What is more, the indications all are that it will come absolutely true.

The Democratic Territorial Central Committee is keeping up its mud and slander campaign on the Otero administration and on the Republican candidate for delegate to Congress, Senator Andrews. The people are becoming disgusted with this sort of mud-slinging, however, and no votes will be made by it for Mr. Money or the Democratic legislative nominees.

Dr. Silas Swallow, Prohibition candidate for the Presidency, is making speeches in Indiana. He knows he cannot be elected, but evidently wants to help the Democratic nominees for the Presidency and Vice Presidency, because, you know, the Democratic party has always been such a great apostle of temperance and sobriety.

Your Uncle Henry G. Davis, Democratic candidate for the Vice-Presidency, is on the stump, explaining to the dear people what he meant to say in his letter of acceptance. This is doing better than Judge Alton B. Parker, who could not explain if he would and would not explain if he could, the meaning of his letter.

"Do you want to vote for a man for congress because he 'gets things'?"—Roswell Record.

Of course you do! You certainly do not want to vote for a man who will simply draw his salary, employ a stenographer and "get things" for himself.

The trusts are finding out that the government under a Republican administration is stronger than ever and therefore are doing their level best to bring about a change and are working and will vote for the Parker-Davis ticket. The trusts know on which side their bread is buttered.

Mr. Bryan evidently has no use for either President Roosevelt or Judge Parker. In his speeches he strongly intimates that the Democratic candidate is no better than the Republican candidate. But he does not particularize.

Thomas E. Watson, Populist candidate for the Presidency, asserts that he would not change places with Andrew Carnegie or John D. Rockefeller. He is safe in saying so, absolutely so.

The New Mexican Printing Company will do your job work with neatness and dispatch.

In one of his recent speeches, Mr. Bryan asserted that he was not the Moses of the Democratic party. No doubt! He has found it too hard a job to lead it out of the Wilderness.

General Kuropatkin is evidently a very fine strategist on paper. In actual warfare he does not pan out so well.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

**Chamberlain's Cough Remedy.**  
No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by all druggists.

The best, most durable and handsomest book work in the Southwest is done by the New Mexican Bindery. Bankers, merchants, business men and all others who have need of blank books for the coming year will do well to call on or address the New Mexican Printing Company for samples, prices, etc. Loose leaf ledgers of a superior patent are also manufactured by this bindery. Prices will be as low as can possibly be arranged with good substantial work. Business men, not only in Santa Fe, but throughout the Territory should make it a point to send their work to the New Mexican Bindery, as it is a home institution, employs a number of skilled workmen, has the best, the latest and most improved machinery and is in all respects an up to date institution.

**Better Than Pills.**  
The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by all druggists.

**CHEAP RATES TO NEW YORK.**  
The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, Havana, Cuba, and its famous More Castle, Newport and a dozen of the largest cities of the United States, can be made for \$122.50. A more delightful trip cannot be planned as stop over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America." Further information can be secured by addressing W. S. Mead, C. R. Hudson, general passenger agent, or W. D. Murdock, assistant general passenger agent.

**A SUGGESTION.**  
You know you get tired of forever looking over a bill of fare and ordering each particular dish—that's when a table d'hôte satisfies you. Then, again, a table d'hôte becomes tiresome and you long for some one or two special things—that's the time a la carte is good. Both table d'hôte and a la carte at the Bon Ton.

## POWERFUL ARGUMENT

Continued From First Page.

Well, let us see how they have always contended for it. From first to last the Democrats were in power 56 years, during which time they never made the slightest attempt to pass a bill or negotiate a treaty in favor of an inter-oceanic canal. And not only that, but they left us a legacy of Democratic subservency to England in the Clayton-Bulwer treaty which bound us to give England equal rights in any inter-oceanic canal that might be constructed anywhere across the Isthmus. Then, when in the present congress, the approval of a treaty between the United States and the Republic of Panama was being debated, Senators Gorman, Morgan and other leading Democratic Senators, squandered months of public time in obstructing, filibustering and delaying the approval of the treaty, and now that it has been approved in spite of their factious opposition, they proclaim that the Democracy will construct the canal honestly. I suppose they could get any number of Tammany heelers to undertake to construct it "honestly." But as it would be a pity to deprive New York of their valuable and honest services, the party that succeeded in overcoming Democratic opposition to the canal will construct it and before the close of Roosevelt's second administration the work will be well on to completion.

But it may be said that as we have so little to do with national affairs that we are wasting time in discussing them. This is a grave mistake. We are now in a state of probation, going to school, as it were, and we never can be prepared too well for the great duties of citizenship. If men would occasionally sit down and meditate on the tremendous responsibilities that rest on the shoulders of citizens in administering the complicated affairs of this, the greatest nation on earth, they would approach the performance of their duties with fear and trembling.

Just think of it! Every drop of holy blood shed in the revolution, the war of 1812 and the civil war was shed to give and perpetuate to us the inestimable right to cast "the freeman's vote." And yet, how often do we see men approaching the palladium of our liberties, the ballot box, in such a state of intoxication as to be unfit to perform the most trifling act of business. Gentlemen, members of the Republican party, the party of Lincoln, Grant, Blaine, McKinley and Roosevelt, should frown down upon such disgraceful conduct and every other act that may tend to bring disrepute on the people's suffrage.

We present to you today our candidate for the delegateship, a gentleman who is well known in the Territory, a gentleman who in consequence of his acquaintance with the Pennsylvania senators and representatives and other men holding prominent positions in Congress can wield more influence for the good of the Territory than any other man amongst us. Besides all this, he has brought more capital into New Mexico than any other man who has ever lived in the Territory. The Democrats denounce him as a railroad magnate. He is just such a magnate as we need very badly. The Santa Fe Central, and the Albuquerque Eastern Railways are object lessons of his usefulness to us. On those roads alone I am informed that 3,000,000 of dollars have been already spent and this is only the beginning. I respectfully ask any Democrat who may have honored us with his presence, if he has any objection to this kind of work. What we need most of all is capital to open up the Territory and bring its magnificent resources to the attention of men, and this is just what Mr. Andrews is doing. What was the southwest before the advent of railroads? An almost unknown country of vast extent and scanty population, engaged in a desperate struggle with the wild Indians and the asperities of a mountain region. To us, who are now surrounded with all the conveniences of easy transportation it is almost impossible to understand how people existed under such adverse circumstances. But when the railroads came, they brought comforts and appliances of progress, which were unknown before their time. If a man is regarded as a public benefactor who makes two blades of grass grow where only one grew before, surely, the man who builds a railroad where there was none before, is a still greater benefactor, and just such a man is Mr. Andrews. And as such, we confidently commit him and his cause which is ours also, to your kindest consideration, and when election day comes I am confident that old Dona Ana County will roll up more than its usual majority for Andrews and the entire Republican ticket.

And now a few words in conclusion. Our candidate for the Presidency is so well known that it is almost unnecessary to do more than name him. The worst the Democrats can say against him is that he talks too much. This simply means that he has the courage of his convictions and is never afraid to defend them. He is as brave in the cabinet and in his messages as he was in the field. No man ever has to ask what side of any question he is on. The entire country knows without asking he is always right whether it is on protection to American industry, the trusts, the Panama canal, the coal strike, the upbuilding of our Navy and Merchant Marine, defending the flag wherever it flies, denouncing dishonesty wherever he finds it, he is right.

## CAN'T KEEP IT UP.

Can't Deceive Santa Fe People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Eusebio Escudero, hack driver, of Griffin st., says: "I cannot exactly say how long it is since I first noticed that I was subject to back ache, but it must be nearly three years. It never was sufficiently painful to lay me up, but it worried me considerably every now and then. Noticing Doan's Kidney Pills advertised to stop backache and other symptoms of kidney complaint, led me to reason if this remedy performed half what it promises, it might at least help and I went to Ireland's Pharmacy for a box. It fulfilled its promises to the letter, for the backache stopped."

For sale by all dealers. Price 50 cts. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

All work is guaranteed to be of first-class material and of the best workmanship and the prices will be found as low as compatible with superior work. The New Mexican bindery is the largest in the Southwest and home people, here and elsewhere in the Territory, should give it preference and support it liberally as it is a home institution and employees quite a force of skilled workmen. S. LeQuinn of Cavendish, Vt., was robbed of his customary health by invasion of Chronic Constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure, 25c at Fischer Drug Co. Santa Fe, N. M.

## Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all druggists.

## THE NAVAJOES' SACRED DANCE.

Which will be one of the new features of the New Mexico Territorial Fair at Albuquerque, October 10 to 15, is a startling exhibition of the length to which religious frenzy carries them. Participated in by one hundred bucks—Indians who have never been off the reservation—the dance illustrates as nothing else can do, the implicit belief of the savages in the efficacy of their peculiar brand of religion. You ought to see this fire dance.

It won't cost much for railroad fare. The SANTA FE has made a rate of \$2.65 from Santa Fe to Albuquerque and return. Tickets on sale October 9 to 14, good to October 17.

## SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and \$1 bottles guaranteed by Fischer Drug Co. To a representative of the New Mexican, Captain Leahy stated that he liked Alamogordo very much and that he now considered that town his permanent home as it is a very comfortable place to live. From a political standpoint, Captain Leahy thinks that Republican chances there are on the increase and he should not be astonished were the Republican party successful there in this election.

Frank P. Chaves, attorney-at-law at Tierra Amarilla and formerly a resident of this city, where he is well known is here with his wife and five children on a visit to relatives. Mr. Chaves says that the people of Rio Arriba County are prosperous and satisfied; that they have enjoyed a good, clean county government during the past four years and

that their county debt is being reduced so it amounts to, comparatively speaking, a small amount upon which interest is paid promptly. Despite the drought of the spring and early summer, and the heavy rains during the past four weeks, crops have been good and losses of livestock have not amounted to as much as was feared at first. He predicts the heaviest Republican majority ever given for any Republican candidate for delegate in his county and thinks this will be a thousand and over. Mr. Chaves and family will remain here several days.

## POWERFUL ARGUMENT

(Continued from Page Three)

and eternally right. His bitterest enemies cannot point to one blot on his escutcheon. Like the chevalier, he is without stain and without reproach, in fine, he is an American from head to foot. In public and private, neither he nor we, have one of his words to retract or explain. The platform on which he stands is the platform of Lincoln, Grant, Blaine, Sherman and McKinley, and even as the people have maintained it in the past, they will maintain it now and in the future. On the other hand, Judge Parker stands for nothing. He has no political past. He is the mouthpiece of David B. Hill, Tammany Hall Belmont, and the unscrupulous money kings of Wall Street, who threaten to defeat Roosevelt because he has declared that the law is for the rich as well as for the poor, and will be administered with evenhanded justice in every case. This is not what these corporations want. They would like to have a man elected as President who can be handled by the Hills and Belmonts. If there is a Democrat within the sound of my voice I desire to ask him if he ever heard of Tammany or its henchmen being engaged in an honest cause. It is the prolific parent of such men as Tweed, Connolly, McCarren and Croker, whose names are synonymous with public plunder and corruption. Judge Parker may be an absolutely honest man but he would be like putty in the hands of his friends and they are just as I have described them, and for that reason, if for no other, the people will put the brand of condemnation on him and demand and elect the man and the party they have tried and proved above reproach. If I am not a true prophet, some of my Democratic friends will please remind me of my error and I will pay the freight.

"I am the assistant rector of the Jericho church."  
"Oh, yes. Won't you come in?"  
"Thank you. I saw your name in the registry and have been trying to find time to call on you ever since I came to the church, but somehow I could not get around in this neighborhood until to-day. But I think I know your children. Your son sings in the choir, does he not?"  
"Yes."  
"And your little girl is in Miss Anderson's Sunday school class, I believe?"  
"Yes."  
"How old are the children?"  
"Willie is fourteen and Mamie is nine."  
"Well, well, anybody would think your children were older than that." And he doesn't know to this day why that woman has stopped going to church.—New York Herald.

**Dogs and Automobiles.**  
"A dog that has once come in contact with an automobile never goes back for a second dose," said a man who lives out in the Old York road. "I know, because I have six. I mean dogs—not automobiles. See 'em limping around? Well, every one has been hit, and now they give the autos a wide berth. You'd think that after one or two had had the experience they'd put the others next, but that's where the meanness of a dog's nature comes in."  
"They say that every dog has his day, and I suppose they regard experience as the best teacher. It's hard to figure the thing out; but, at any rate, every one of my six dogs has been struck, with more or less serious results, and now their curiosity is satisfied. They are quite content to let the machines whiz by, and save their barks until the danger is past."—Philadelphia Record.
