FAILURE OF GILLET.

Whereabouts of the Kansas City
Cattle Dealer Unknown.

Prince George of Greece Appointed
Commissioner of Island of Crete.

Spanish Peace Commissioners Trying to
Secure Modification of Demands.

MASSACHUSETTS BANK ROBBER.

Kansas City, Nov. 25.—The whereabouts of Grant C. Gillet, the big Kansas City cattle dealer, whose failure was announced yesterday, are still unknown. Probably twenty-five Kansas City livestock commission firms are endeavoring to get the paper which is said to be scattered through the banks from Denver to New York. All the local firms declare that the paper they hold is simply a piece of cattle in fact, over 15,000 head were purchased from a Denver firm, Dake & Kewler, to whom Gillet is said to have given a mortgage for \$18,000. These cattle are three-year old steers. The men assert that a low estimate of their value is \$30 a head, or about \$10 a head more than the interest in the cattle held by the Denver firm. Another lot of cattle is said to be mortgaged for \$125,000, and worth a third more.

A remarkable thing about Gillet's method of doing business was that he kept no books, and took no one into his confidence. All the details of his enormous deals were carried in his head. Gillet is described as a careless financier. Those who knew him best say that he never took care in his handling of his heavy deals. Many local stockmen declare that he would not run away even when he knew his debt would wipe out his herds and ranches, because he believed luck would always attend him. Nevertheless, there was talk to day that he had mortgaged his cattle and left to find a new start.

The deal that forced Gillet to the wall was a \$125,000 loan held by a Kansas City live stock dealer. The money was advanced on 6,500 head of feeding cattle in Oklahoma, and the mortgage fell due last week. The Kansas City firm declined to extend the loan. Gillet tried hard to get the money, but for the first time in his career was unable to get backing. Close upon the heels of that came a deal that he had made with Vail and Gates, Arizona cattle magnates. Gillet had paid \$10,000 as earnest money on 4,000 head of cattle in the Panhandle of Texas, which Vail and Gates owned on the famous "J. A." ranch. These cattle were worth \$120,000. Gillet was unable to raise the money to take them on. As soon as it was learned here that Gillet was being pressed by one or two creditors, others sent their representatives to his ranch to protect their loans. Meanwhile the plunger took his leave. Eastern holders of Gillet's paper, which had passed through the hands of Kansas City firms, began talking of ways to day a few Kansas City houses are trying to sell live stock paper.

CABINET MEETING.
The Spanish Situation Discussed and an Extension of Time Refused.

Washington, Nov. 25.—Regarding the cabinet meeting held last evening, it is said that in an informal way an effort was made to secure modifications of the terms of the ultimatum and incidentally an extension of time. Beyond next Monday. As to the character or extent of the concessions sought by the Spaniards, officials are extremely close, but a decision was reached to day that they could not be granted. It is regarded probable that a final reply to the ultimatum will not be submitted to our commissioners before next Monday.

Want the Sulis Archipelago.
London, Nov. 25.—The Spanish minister said that "senor Montero Rios," president of the Spanish peace commission, has informed his government that the American demand for the result of the Sulis archipelago. Further advice from Madrid says that the Spanish cabinet has decided to instruct its commissioners, after the peace treaty is signed, to treat for a revision of the treaty existing before the war.

CONDITION OF THE MILITARY CAMPS.

San Francisco, Nov. 25.—A few days ago a Chinese died of a disease which was said to resemble the bubonic plague. The matter was reported to the board of health and Chinamen are being searched for further cases. So far none has been found. At the health office this morning it was stated that the suspicious case traced out to a popular Chinese restaurant was held on the body of the dead Chinese and Mr. Spencer, official bacteriologist for the board, stated to the Associated Press that there were positively no traces of the dreaded plague.

Cause of the Shipwreck.
London, Nov. 25.—The board of trade inquiry into the loss of the Atlantic transport company's steamer Mohagan, wrecked off the Lizard, Oct. 14, concluded to day. The judgment of the board's commission was that the ship was in good condition and Captain Griffith in good health, the stranding being caused by a wrong course being steered after the Mohagan passed Eddystone light. The commission expresses admiration at the skill and courage of the crew, and makes no mention of the loss of the ship.

A SENSATION EXPL. DED.
Cano Did Not Murder the Japanese Woman in This City.

Several articles have appeared recently in the New Mexican connecting Requirol Cano, a Santa Fe murderer, with the crime of murdering the Japanese woman in this city several years ago, and for which murderer E. C. Irons, the woman's friend, is now serving a life sentence in the territorial penitentiary.

When the horrible crime was committed THE CITIZEN, after a most searching investigation, believed with good reason that the actual murderer was Irons, and when his trial came on at the following term of the district court and a verdict of guilty reached, those who had heard the evidence were universal in their approval of the action of the jury and the presiding judge.

Several weeks before the Japanese woman was murdered a series of petty robberies had occurred, and Fred. Forrester, who was then marshal, finally landed Cano as the author of these robberies. When the woman was murdered Cano was in the county jail waiting for trial, and the records of the court department of the court house bear out these facts.

Cano is a very bad individual—about as dangerous a man as one would care to meet, but there is no evidence whatever to connect him with the murder of the Japanese woman in this city.

Left Arm Broken.
This morning, the Far's meat market appeared on the street with a new delivery wagon, with Jimmy's Congress as driver. However, Jimmy is now laid up for repairs. He was delivering orders on South Broadway, at about 9 o'clock this morning, and in getting off the wagon fell to the ground, attempting to check the fall with his left hand. He was picked up and taken to the railway hospital near by, where Dr. Hildt discovered that the arm just above the wrist was broken. Temporary relief was afforded the young man while at the hospital, after which he was sent to the home of his parents, No. 413 north First street, and Dr. Wroth, the family physician, summoned. Word reached THE CITIZEN office this afternoon that Jimmy is resting easy, but that the break will prevent him from resuming his duties as an assistant of Far's meat market for several weeks.

AUCTION SALE POSTPONED.
Owing to the disagreeable weather the big auction sale of household furniture, advertised to take place on West Railroad avenue this morning, was postponed till Monday morning, Nov. 28, at 10 o'clock. Hawaii to be Given Form of Government Similar to New Mexico.

CONDITION OF THE MILITARY CAMPS.

San Francisco, Nov. 25.—The battleship Wisconsin was successfully launched this morning. When the big vessel slid down the ways, the warship is the harbor first salute and there was a terrific din of steam whistles. The controversy over the kind of wine to be used in christening was settled by the use of two bottles of champagne, one of French make, provided by the Wisconsin christening committee, and another of California champagne, provided by the Union Iron Works.

Miss Lucille Page, daughter of the governor of the state, received by means of a grilling and electric button the last blow.

Miss Elizabeth Stephenson broke the two bottles of champagne upon the bow of the vessel.

CABLE TO HAWAII.

The President, It is Said, Will Recommend It in His Message.

New York, Nov. 25.—A special to the Herald from the Washington Herald correspondent says that he is informed by an official close to the president that in his annual message the president will suggest the advisability of a connection between San Francisco and Honolulu.

The Bennett-Hawaiian cable will now pending before the house committee on interstate commerce is looked upon with favor, and the probabilities are that it will be passed. The Bennett measure provides that the government guarantee the bonds of the company in consideration of free transmission of government messages over the line for twenty years.

The governor and territorial officers will be appointed by the president.

Final Accident.
Pueblo, Nov. 25.—James H. Marchem, a prominent attorney of this city, 30 years old, fell from a train on the Denver & Rio Grande railroad near Swallowers to day, when attempting to pass from one car to another. His neck was broken and he died in a few minutes.

Condition of the Camps.
New York, Nov. 25.—The war investigation commission to day asked Dr. M. T. Terry, surgeon general of the National guards of New York, to tell what he knew about the various camps he visited.

Dr. Terry said that the Camp Alger site was good and everything appeared to be in proper condition. The water was clear but had a bad odor. He found the camp of the Eighth New York regiment at Chickamauga in a very unsanitary condition. The camp of the Ninth and Twelfth New York were in good condition.

Dr. Terry said that the Sternberg hospital at Camp Thomas, under charge of Surgeon-Major Hoff, was in excellent condition and the best of order prevailed. The water given, every attention was given to the camp, and the officers and men appeared to be in excellent condition.

WEEKLY BANK STATEMENT.

Paris, Nov. 25.—Though the announcement was printed here to day that instructions to the Spanish peace commissioners were telegraphed last night from Madrid, Senor Ujeda, secretary of the Spanish commission, declared this afternoon that such instructions had not been received. Significant of treaty probabilities is the fact that no protest, such as was expected, should again refuse the American offer, has yet been formulated. Regarding the discussion of the so-called open door policy in the Philippines, the American peace commissioners understand that it does not mean free trade nor even low duties, but that the Philippines, whatever the tariff rates, shall be open to all trade on equal terms.

Paid the Depositors.
Philadelphia, Nov. 25.—Thos. W. Burleigh, receiver of the Peoples' bank, notified the depositors that the remaining 10 per cent. due them will be paid on and after December 5, 1898. The Peoples' bank closed on March 23 last, after Cashier John S. Hopkins committed suicide. The liabilities were about \$1,600,000, and the assets less than a million. President McKean held \$18,357,576 in excess of requirements.

Bank Statement.
New York, Nov. 25.—Weekly bank statement: Surplus reserve, increased, \$1,000,000; loans decreased, \$2,345,400; specie decreased, \$572,100; legal tender increased, \$1,830,400; deposits decreased, \$3,703,000; circulation increased, \$359,800. Banks held \$18,357,576 in excess of requirements.

Marines Landed.
Washington, Nov. 25.—A dispatch was received at the navy department to day stating that the captain of the Boston had landed a marine guard at Tien Tsin, China.

It seems that the marines were landed, not because of any information of rioting or attacks upon American missionaries, but to act as guards for the United States legation at Peking. The minister represented that nearly all the legations at the European powers were provided with marine guards and he did not care to be exceptional. Advice that reach the state department do not indicate an immediate outbreak in China, but the presence of the marines and the dowager has caused an uneasy feeling and may afford one or more of the European powers a pretext for making a coup with results affecting the interests of the United States.

ALBUQUERQUE, — NOV. 20, 1928

The democrats of New Mexico are getting ready to fight statehood.

The question of the republican nomination for 1930 is settled. President McKinley will be re-elected.

If the people of this city push public enterprises the coming year, the growth of Albuquerque will be phenomenal in the near future.

This city is the center of the holiday trade of New Mexico. Our merchants keep the largest supplies of such goods to be found in the territory.

Voting machines were used at a recent election in Rochester, N. Y., and 27,000 votes were counted in less than an hour, without a hitch or an irregularity.

Prosperity grows with republican success. The certainty of a republican senate for a long term of years has given a great impulse to business throughout the country.

Money is easier in the United States than in any other country on the globe. The last call loan made in New York on Saturday was at 2 per cent. The Bank of Berlin on that day increased its discount rate from 5 1/2 to 6 per cent.

Among the cities in the United States San Francisco has the least and Philadelphia the greatest debt. The debt of San Francisco is \$135,917,011 and that of Philadelphia \$69,572,790.22. In the bonded debt per capita Boston is the highest with \$97.35, while San Francisco is the lowest being 38 cents.

The great coal and iron industries are busy at this point in the country. The year 1929 promises to surpass the year coming to a close in these industries.

There seems to be no limit to the enterprises in railroad, air, highway, ship, building, bridge, business blocks, renewing railroads on old lines of road, and increasing the number of cars and locomotives to do the immense traffic of the country.

New York is soon to have one of the noblest art buildings in the world. It will cover eighteen acres of space, and stretch for an entire block along the Fifth Avenue front of Central Park. It is designed by the late Richard Hunt, and the new funds to be appropriated, and the new funds to be appropriated, and the new funds to be appropriated.

INCREASE OF SILVER.

In the twelve months, November 1, 1927, to November 1, 1928, the increase in the circulation of money in the United States amounted to \$169,890,000. There was an increase of over \$110,000,000 in the amount of gold coin in circulation. Standard silver dollars showed an increase of over \$2,300,000, subsidiary silver, and an increase of more than \$5,400,000, and silver certificates an increase of over \$18,800,000. The increase in the use of silver in various ways in the year was \$25,900,000. That is more than all the coinage of the mint in all the period when the mint was open to the coinage of gold coin in private account. It is a good enough scheme of bimetalism.

POSTAL EXPENSES.

A commission, composed of four senators, four representatives and two members, is at work making an investigation of the postal service of the nation, and it is expected that the information thus obtained will enable the commission to shape some legislation which will make the postoffice department self-supporting without in any way impairing the department.

The expenditures of the postoffice department have been increasing at an average of three and one-half million dollars annually for eighteen years, and next year they will amount to about one hundred million dollars. The revenues of the department have grown almost as fast, but there is an annual deficit of eight million to twelve million dollars.

The railroads have been steadily getting a larger and larger percentage of the gross expenditures of the postal department. In 1929 the transportation of the mails cost 29 per cent of the total amount expended; in 1927 they received 36 per cent of the total. Between those years there has been a great reduction in freight and passenger rates, but there has been no corresponding cut in the charges for carrying the mails. If the railroads received now the same percentage of the total cost of the mail service that they received eighteen years ago, the deficit would be reduced by fully one-half.

NEW DOLLAR BILLS.

The bureau of engraving and printing is busy engaged in the printing of the new one dollar silver certificates, and within a few days the notes are expected to be ready for circulation.

The bills offered radically from the last issue, containing much more white space, which is expected will prevent counterfeiting. The central device on the face of the new note is an American eagle, with wings partly spread, clutching the flag, and with the dome of the capitol in the background. Below the platform on which the eagle stands are

small portraits of Lincoln and Grant, and in medallions. Large and clear figures are in each corner of the note and on the sides.

The space between the central device and the large work at the ends is clear white paper, except for the imprint of the seal in one space, and the denomination of the note in another. The seal is in blue, and the figures in the open space are in the same color. The reverse side of the note corresponds to the face in respect to the large display of white paper, with its printing of large work.

Large plain figures appear in each corner, and scrolls make up an attractive border, but the only remaining space upon which printing appears is in the center, where the usual language regarding the quality of the notes will attract unusual attention from the small amount of printed matter thereon.

FOR HUMANITY'S BENEFIT.

The policy of the United States in dealing with Spain, at last seems to be beginning to be understood by the powers of Europe. For example, the London Mail characterizes our offer as an example of "surprising generosity."

Without assumption of too much pride, it may be said that this, indeed, is the case. When, in all recorded history, was a conquered power treated with the consideration that has been shown Spain by the United States?

In the end it will be found that this country will lead not only in material interests, but also in the ways of elevating morality.

It is possible that on all American intelligence has not yet dawned the full import of what has been accomplished in the war with Spain. Our acquisition of territory is an inconsequential factor, compared with other results, no matter how material it may be in bringing money to the land. There are greater things in the world than the requirement of money.

The elevation and improvement of the human race will not come alone from mere money-getting. We see that all around us; but such successes as have been won in the American-Spanish war—successes which are bound to elevate morality—will do more for mankind than anything that can be accomplished by the expansion of wealth.

This the United States has performed. It has administered a lesson that never can be forgotten. It has set an example which must stand for eternity.

Possibly most of us do not see the real moral and full significance of the result of the Spanish war, but posterity will see in it one of the greatest revolutions ever accomplished—will see in it another great stride in human progress, though it is a feature, to those who perceived it, is that the direct beneficiaries are unnumbered and ungrateful of what has been done.

THE TRADE BALANCE.

Taking a period of thirty-seven years from 1789 to 1876, the aggregate balance was against the United States was \$22,644,601.90. This is the sum of the trade of this country with foreign countries, and above the value of all exports for goods bought abroad, and imported into the country. The country was drained to that amount of money.

The average was \$25,765,811 a year. In these thirty-seven years the average value of all exports was \$141,000,000 and the average value of all imports \$167,000,000.

In all this time there were only six years when the trade balance was in our favor.

In the twenty-three years, 1876 to 1900, the aggregate balance of trade in favor of the United States was \$3,991,440,952. The annual average is \$134,410,475. In the period there have been only three years in which the balance has been adverse to us.

In these twenty-three years the exports averaged \$81,800,000, and the imports \$77,900,000. Taken in the gross, the exports of these twenty-three years were over 20 per cent more than in the eighty-seven previous years. The average exports are nearly six times as much per annum in the last twenty-three years than former eighty-seven years.

It is reported that several of the largest railroad companies in the United States are planning to move for a reduction in sleeping car rates. It is proposed to have all the roads in the country use Pullman cars, and in an appeal to this company to make a reasonable reduction in the rates charged for upper and lower berths in sleeping cars, and in rates for seats in the chair cars.

THE forests of Oregon are furnishing the timber which is being used in the construction of the railroad now being built by the Russians across the Chinese territory to Manchuria. The lumber is shipped across the Pacific to Vladivostok, where it is transported by rail to a tributary of the Amur river and by water routes to the line of the road.

ADMIRAL DREWRY writes a friend that he trusts the who Philippine archipelago will be retained by the United States, as any other arrangement would lead to no end of trouble. The statement implies that there will be little difficulty in quieting the insurgents, whose means are no one can have taken better than the gallant admiral.

A GRAND CONCERT DECEMBER 3.

Managers who have been long associated with the stage usually have an idea of their own as to what a good show ought to be. This is especially true of managers who see show after show, which is more or less wanting in

thirteen head of cows and calves, eleven of the former. They do not immediately, but linger for several days. The poison seems to eat away the lining of the stomach. A jug of the water was brought in for examination. The water is a muddy looking liquid and somewhat creamy in consistency, and one peculiarity about it is that when stirred once gets a taste of it they want more and more. One of his wilder animals got a taste of the seepage, and not being able to satisfy himself, went right up to where the muddy talcums come from the concentrations and where the men were at work, and lecherously slipped what water she could.

Bound river.

W. N. King, Louis James and T. I. Downen, the three railroaders arrested for breaking into and stealing from cars, had a preliminary hearing before Judge C. M. Byrne the 22nd and 23rd inst. on the charge of burglary. The charge of burglary was withdrawn and larceny substituted. On this charge the judge held the parties in the sum of \$500 each to answer to the grand jury. The hearing attracted unusual attention, the court room being crowded with spectators during the entire time. District Attorneys Leash and Ralph Twitchell prosecuted, and Attorneys Wrigley and Mettling defended.—Huron Reporter.

HONOR MR. FERGUSON.

Ferguson Hook and Ladder Company Tender Him a Barquet Last Night.

The Ferguson Hook and Ladder company entertained Hon. H. B. Ferguson at a banquet at its headquarters last night, the boys desiring in this manner to show their appreciation of the man in whose honor the company is named before he left for Washington, D. C., to attend the last session of the Fifty-fifth congress, of which he is a member.

A splendid banquet was served, which had been prepared under the supervision of the chef of Sturges' European hotel. Ample justice was done to the eatables and drinkables which figured in the menu of the banquet, and then the tables were cleared preparatory to a feast of wit and flow of soul.

Chief B. Rappo, with his usual grace and eloquence, presided over the gathering in the capacity of toastmaster. Mr. Ferguson was first called upon to respond to the toast, "The Albuquerque Fire Department, as Viewed by a Citizen." He told of the pride he took in having such a capable fire company named in his honor and the joy which it gave him to know that all its members were warm personal friends of his.

Mr. Ferguson's words were received with many words of approval by his hearers.

Following Mr. Ferguson, Assistant Chief Stockett, Assistant Foreman Ed. Harsh, Assistant Foreman Pat Murphy, Alderman Martin Hervey, F. E. Conner, J. H. Galtier, William Vasson, Roy and Charles McDonald, W. G. Booth, E. M. Booth, J. L. Howard, George Conner, James Lacey and Kennedy Quinn—all responded to toasts which covered every phase of the volunteer fireman's life and his.

Before the merry assemblage disbanded, Chief Rappo, as spokesman for the boys, extended their hearty best wishes for Mr. Ferguson's welfare during his absence from home, and assuring him of their most cordial welcome on his return.

Mr. Ferguson was delayed in his departure last night, but will leave for Washington this evening accompanied by his private secretary, Miss Ida Sumner.

Great Change in Health Since Taking Hood's Sarsaparilla

No Other Medicine Can Take Its Place as a Blood Purifier.

"My little girl was thin and sickly, but she has been taking Hood's Sarsaparilla and now she is strong and well. My husband has taken Hood's Sarsaparilla for soreness of the lungs and bowel complaint and it has helped him greatly. Other members of the family have derived benefit from it." Mrs. AMY WILCOX, 208 North Third Street, Salt Lake City, Utah.

"We are never without a bottle of Hood's Sarsaparilla in our house, for no other medicine can take its place as a blood purifier and health restorer. We find that good health is the general result of taking it. My aged grandparents have used it for years, and would not be without it." MINNIE MENDOCK, Heber, Utah.

Ladies' Royal Entertainment.

The Ladies of Zolnera Grove, Woodmen's Circle of San Marcel, entertained a large number of their friends with a delightful dinner and social on Thanksgiving day evening at the opera house in San Marcel. The event was one of the most enjoyable affairs held in the little railroad city for some time.

Members of the various committees exerting themselves to give their visitors a good time, and in this they succeeded admirably. If there was anyone present who failed to thoroughly enjoy himself or herself it was not their fault—but there was no such one. There were fifty or sixty couples on the floor. The following ladies comprised the committees:

Arrangement—Maudie W. H. Wilton, N. W. Miller, M. O'Loughlin.

Invitation—Mrs. Nels Nelson, Mrs. E. J. Kittredge and M. S. Fleming.

Reception—Maudie W. H. Wilton, H. Fleming, R. Maudie, W. H. Krenig, J. B. Harris, Nels Nelson, E. J. Kittredge and Miss Grace Clark.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair.

Catch Cold Easily?

Are you frequently hoarse? Do you have that annoying tickling in your throat? Would you feel relieved if you could raise something? Does your cough annoy you at night, and do you raise more mucus in the morning?

Then you should always keep on hand a bottle of

Ayer's Cherry Pectoral

If you have a weak throat you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another, and the last one is always harder to cure than the one before it.

COFFEE.

Good coffee, like ours, is so necessary, that a breakfast without it is only half a meal. There's so much in a really fine cup of coffee that it makes half a meal of itself. We make a point of carrying the finest Mocha, Java and Brazilian coffees in our stock. The dignity of our breakfast table must be maintained. Whatever becomes of the gold or silver standard, the purity and supremacy of the coffee standard must be preserved. For ourselves, we are for coffee, and our prime A-1 coffees are for the public of Albuquerque.
