## DEMOCRATIC VICTORY.

Mob in North Carolina Burn a  
Negro Printing Office.

Creek Indians Executed Over a  
Vote on a Treaty.

Race War in Progress at the Falls,  
Illinois, Coal Mines.

CASE AGAINST STANDARD OIL COMPANY.

Wilmington, N. C., Nov. 10.—At 7:30  
this morning, the negroes not having  
responded to the demand for the removal  
of the press of the Record, the negro  
newspaper, the Representative Weddell,  
chairman of the white committee of  
twenty-five men, repaired to the light  
infantry armory, where he was to meet  
the citizens by appointment. Armed  
men gathered in the wide street in front  
of the armory. The assembly included  
most of the solid citizens of the town.  
At 8:30 the procession headed by Ex-  
Representative Weddell, and a committee  
of twenty-five, moved in the direction  
of the Record printing shop. All along  
the line of march the procession was  
joined by armed citizens. When the negro  
quarter was reached the negroes could  
be seen running into their houses. In front  
of the Record office, a two-story frame  
building, the picket lines were thrown  
out and squads of men went to the square  
in the neighborhood. Leader Weddell,  
with a rifle on his shoulder, knocked at  
the door. There being no response the  
door was burst open, and the citizens  
surged into the building, but it was  
empty and thrown into the street.  
Guns rattled with volleys and the  
building fired and destroyed. A fusillade  
of guns, pistols and shot filled the air.  
The affair was soon over. No one was  
hurt. The publishing house was destroyed  
but the neighboring property was saved.  
The colored editor, Manley, and his  
brother and associates could not be  
found. The leaders of the crowd said  
subsequently that it was not the intention  
to burn the Record building, but it was  
the work of some rash persons, or an  
accident. Last night was an anxious  
one for the citizens of the residence  
portion of the town. The negroes fired  
into the street and the passengers re-  
turned the fire. All night the whites  
kept guard, but no incident occurred to  
disturb the night.

Five hundred negro laborers of the  
Champion company came rushing in  
to the streets. They were badly some-  
what excited and dispersed in small  
squads to their homes. At 11:30 serious  
trouble occurred in the fifth ward.  
Three white men and three negroes were  
killed. Large companies of armed citi-  
zens have gone to the scene. The  
negroes are reported to have retreated  
but are being followed by laborers  
from the company. Fayetteville has  
been telegraphed for help. Soldiers are  
hailing all negroes on the street and  
taking pistols from them.

This afternoon there were several  
skirmishes. The total casualties at 2 p. m.  
are eight negroes were killed, three  
wounded, and three white men wounded.  
Mayor, Chickwell and Piner. Mayor is  
shot through the lungs. Piner, a white  
man, was passing the house and was  
fired upon. A detachment sur-  
rounded the house and took away five  
negroes. It was first proposed to let  
them go, but it was finally decided to  
put them in jail. The negro who shot Mayor  
was recognized. A detachment found  
him at his house and riddled him with  
bullets. Reinforcements from Goldboro  
have been turned back. The committee  
of twenty-five is considering means for  
preserving order. The light infantry of  
the regular state militia organization  
will probably take command and the citi-  
zens will direct the patrolling and guard-  
ing of the city. It is understood that the  
governor has given his sanction to this  
plan. A local detachment of United  
States naval reserves with a one-pounder  
rapid fire gun are now at the scene of  
trouble, together with the light infantry  
and several hundred armed citizens.

Creek Indians.

Duluth, Minn., Nov. 10.—The republi-  
can congressional committee of the Sixth  
district have reduced their estimate of  
Marble's majority to 150. The democratic  
committee now claim Towne's election by  
about 150. Several precincts are  
missing and the result is very much in  
doubt. The official count will probably  
be necessary.

French Navy.

Paris, Nov. 10.—The Mail says that  
the council of admirals yesterday decided  
to fit out all French war vessels available,  
and thirty reserve ships have been ordered  
into commission.

RACE WAR.

Negro and White Coal Miners in Illinois  
Shooting at Each Other.

Pana, Ill., Nov. 10.—William Lynch,  
employed by the Pana Coal company, up  
to the time of the strike, was shot at by  
negroes and ran into his house. They  
then shot at the house of a widow,  
Mrs. McIntyre, who is taking care of her  
sick daughter. Fortunately nobody was  
hit. Negroes in the vicinity of the  
Bam District came running out, and  
kept shooting until the soldiers arrived.  
It is dangerous for anyone to go out in  
the mining district at night. The citi-  
zens say that if something is not done  
soon every negro and mine operator will  
be killed.

Factory Burned.

Joliet, Ill., Nov. 10.—An overgrown  
shed of gross capacity at the Great  
Western Tin Plate company's mill to-  
day. Owing to a hurricane, the plant  
was in flames in half an hour. The  
plant employed 50 skilled workmen.  
The loss is \$125,000.

Suit Against Standard Oil Company.

Cleveland, Nov. 10.—The state attorney  
general announced that he has filed an  
original petition against a branch of the  
Standard Oil Company in the Ohio  
supreme court. The case is against the  
Union Tank Line, incorporated under the  
laws of New Jersey, which came into

A GRAND HURRAH FOR REPUBLICANS.

Special to The Citizen.

Santa Fe, N. M., Nov. 10.—The terri-  
tory has gone republican by at least 1,000

been virtually decided by the democ-  
ratic territorial central committee chair-  
man, Chas. F. Bailey. Ferguson's ma-  
jority in Grant county fell short 400, and he  
lost in almost every county he carried in  
1897 against Catron. The vote from Va-  
lencia county has not been officially re-  
ceived, but Perea's majority is put down  
in this county at least 1,300 votes.

## STATE ELECTIONS.

Republicans Have Majority in  
Both Houses of Congress.

Gage Elected Governor of California  
by Big Republican Plurality.

Severe Storms do Damage to Shipping  
on the Lakes and Atlantic Coast.

SPAIN REFUSES AMERICAN DEMANDS.

San Francisco, Nov. 10.—Although  
incomplete returns are not yet received,  
the indications are that the majority of  
Henry T. Gage, republican, for governor,  
will be nearly 20,000. His associates on  
the state ticket are all elected, with the  
possible exception of Curry, for sec-  
retary of state, who may have been beaten  
by Thompson, democrat. For justice of  
the supreme court, McFarland, republi-  
can, and Van Dike, democrat, will prob-  
ably win. Mayor Phelan is re-elected in  
San Francisco by about 3,000 majority,  
but most of the other municipal officers  
will be republican. The legislature will  
have a large republican majority.

Spain Refuses American Demands.

Paris, Nov. 10.—Regarding yesterday's  
meeting of the peace commissioners, the  
Figaro says: "The Americans persist in  
refusing to talk over the Cuban debt and  
accept the position of the Philippines. The  
Spaniards on their side refuse to cede the  
archipelago. The Paris Bure expresses  
the belief of an early rupture in the ne-  
gotiations."

The Raphael newspaper says that the  
Spanish commissioners declared that the  
Spaniards will yield only to force in the  
question of the Philippines.

Nebraska Legislative Republican.

Omaha, Nov. 10.—Chairman Schneider,  
of the republican state committee, con-  
firms the election of Poynter, fusion, for  
governor, by 1,000. The balance of the  
ticket resulted in about the same propor-  
tion. The republicans have a majority  
of four on joint ballot.

Steamer Ashore.

Nassau, N. P., Nov. 10.—The steamer  
Ashore of Cat Island, supposed to be the  
last of the line, was wrecked on the shore  
of Cat Island. It is described as a dis-  
tressed vessel, and is showing signs of  
being a wreck. It is showing signs of  
being a wreck. It is showing signs of  
being a wreck.

Storm on the Lakes.

Chicago, Nov. 10.—Lake Michigan is  
being swept by a northeast gale which is  
tearing great holes in the sea wall and  
sawed the beach along the lake front.  
Several vessels are overdue, and some  
apprehension is felt for their safety.

Congress Republican.

Washington, Nov. 10.—Congressman  
Hatch, chairman of the republican con-  
gressional committee, believes that the  
republican majority in the next house  
will reach twenty.

Schoner Run.

Chicago, Nov. 10.—The schooner Iron  
Cliff was blown ashore in a furious  
northeast gale. The life saving crew  
succeeded in saving the crew. Unless  
the wind and sea abates the schooner  
will be lost.

Congress Safety Republican.

Chicago, Nov. 10.—Dispatches to the  
Associated Press to 11:15 a. m., to day,  
from 347 out of 357 congressional dis-  
tricts, show that the republicans elected  
153; democrats and fusion, 164. There  
are still ten doubtful districts.

Imprisoned for Life.

Geneva, Switzerland, Nov. 10.—Duch-  
ene was sentenced to rigorous impris-  
onment for life for the murder of the  
Empress of Austria.

ALBUQUERQUE, — NOV. 10, 1908

Thanksgiving Proclamation.

Executive Office, Santa Fe, N. M., Nov. 7, 1908.—Whereas, the president of the United States has designated and set apart by proclamation Thursday, the 24th day of November, A. D. 1908, as a day of national thanksgiving, and has recommended that his fellow citizens on that day come together in their several places of worship, for services of praise and thanks to Almighty God for all blessings of the year: Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, do hereby recommend that the people of this territory observe the same.

It is further recommended that the said 24th day of November, A. D. 1908, be treated as a legal holiday in New Mexico.

Let us then refrain from all unnecessary labor, and in our homes and respective places of worship, give thanks and praise to him who holds the seas in the hollow of his hand, and through whose beneficent wisdom, not only in this territory, but the whole nation, has been so supremely blessed during the past year.

Let us thank him for the bounteous harvests, for the timely rains and the glowing sun, which have given us more than ordinary prosperity in our crops, flocks and herds; for the victories that have crowned our arms on land and sea, to the cause of humanity; for the return of so many of our sons who went out to battle for the right, and for those who did not return, but have gone to the reward prepared by him for all who fall at the call of duty; let us remember that "He doeth all things well." To their afflicted families let us give comfort, consolation and deepest sympathy, and on that day, which is peculiarly American by long established custom, let our people renew their devotion to country, flag and home.

Let us put aside all enmities that may have arisen in the past, and approach the new year with pure hearts, with "unfettered tongue and charity for all."

"God of our fathers, known of old:  
Lord of our life, long battle line,  
Whom our fathers' hands have held  
Dominion over palm and pine,  
Lord of hosts, be with us yet,  
Lest we forget, lest we forget."

Done at the executive office in the city of Santa Fe, this 7th day of November, in the year of our Lord one thousand eight hundred and ninety-eight.

Witness my hand and the great seal of the territory of New Mexico on the day and date first above written.

By the governor, MIGUEL A. OTERO.

U. S. H. WALLACE,  
Secretary of the Territory of New Mexico.

The defeat of Ferguson has dazed the democrats.

DEWEY'S ships have all been mended and the admiral is now ready for a red hot republican policy.

The democrats will please pay their election bills promptly. The republicans want to go to the circus on Saturday.

It is estimated that not less than ten million dollars will change hands in this country as the result of election bets.

There are just about enough straight republicans in the proposed new county of Roosevelt to fill the various county and federal offices.

NESTOR MONTAÑA, the accomplished court interpreter of this judicial district, helped in many ways to secure the splendid republican victory in this county. Nestor is at home at a political meeting and is one of the best campaign speakers in the territory.

MARCELINO RACA is one of the republican members elect of the territorial assembly. He lives at Pena Blanca. Two years ago that precinct gave 34 republican majority. This year the majority is 183. This change was brought about by republican proactivity and the work of Mr. Raca and his friends.

The scarcity of cattle in northern Chihuahua is alarming Mexican owners, and they have begun prices up to a figure that is discouraging American buyers, whose large importations for the past year are responsible for the present stripped condition of the Mexican ranges. From \$20 to \$25 in gold and \$50 to \$60 in silver is demanded for each horned head of cattle in that section.

DESERVE CREDIT.

The republican newspapers of New Mexico made a splendid campaign, and deserve recognition from the party for their untiring work. At the head of the list stands the New Mexican of Santa Fe, and THE CITIZEN. These two daily papers certainly contributed more to the signal republican victory. The weekly republican press made the best campaign in the history of New Mexico. The Raton Range, Silver City Enterprise, the Las Cruces Republican and the Dona Ana County Republican, San Marcial Bee, Socorro Chieftain, Lordsburg Liberal, Roswell Register, Taos Crescent, Elizabethtown Miner and Clayton Enterprise all did their whole duty to the republican party. The Kody Argus editor secured the postoffice on the strength of being a republican, but in the campaign he never said a word in favor of Pedro Perea or the republican ticket.

The Spanish republican papers also did splendid work for the party. La Bandera Americana of this city, El Republicano of Socorro, and the Independiente de Las Vegas deserve special mention for their good work.

PAREA'S ELECTION.

The election, returning from this territory came in slowly on account of the great distances to be traversed in bringing in the results to the county seats, but enough is known to show that Pedro Perea, the republican nominee for con-

gress, is elected by over 2,000 majority.

It is only the second time the republicans have carried the territory since 1890, and is convincing proof of the popularity of the republican nominee and the faith they have in his ability to properly represent them at Washington. A popular democratic candidate and a democratic majority of 2,000 had to be overcome in a four weeks campaign. The job was done with neatness and dispatch, and to the entire satisfaction of the republicans of the territory. The republican newspapers at once began a magnificent campaign. John S. Clerk, chairman, and Col. Max. Frost, secretary of the territorial republican central committee, got right to work, and organized the republican forces in each county. Governor Otero worked day and night for republican success. Taos, B. Catron and a score of other good speakers took the stump. Excellent county officers were nominated, and everything contributed to republican success. But for the blunders of the fusionists the democrats might have won in this county. The suicidal action of the people of Gallup greatly encouraged the opposition to Mr. Perea, and caused him to lose at least 500 votes.

The democrats, early in the campaign, sprung the race issue in the principal towns of the territory, and in Taos, East Las Vegas, Albuquerque, Cerrillos, Bland, San Marcial, Silver City and other towns Mr. Ferguson received majorities on the issue of race prejudice. This sort of work on the part of the democrats was fully shown up in republican papers and in public meetings, and, to a great extent, counteracted in the several counties of the territory.

It was a well planned campaign and Mr. Perea fully appreciates the honor conferred upon him. He will serve the people with credit and do good work for the territory.

CUT THE EXPENSES.

On the first day of January a new era will dawn on New Mexico. County expenses will be greatly reduced. In fact, a saving to the people of at least \$100,000 a year in the reduced salaries of county officials will be made. This will put every county in the territory in easy financial circumstances and the bonded debt of counties created in the boom period of the territory during the decade between 1890 and 1900 will be rapidly reduced and in a few years paid in full.

The members elect of the territorial assembly are expected to further reduce expenses and in no wise increase the burdens on the tax payers. Four years ago the democrats squandered at least \$10,000 on a horde of hungry and thirsty legislative employees. Two years ago the legislature cut its expense down to about \$5,000. This expense can be still further reduced. Political favors should not be paid at the expense of the people. A grave responsibility rests upon the members of the approaching legislature. Their actions will be closely watched, and good service will be demanded. The members of the legislature from this county are pledged to the closest economy in territorial and county expenses, and will join with the other republican members of the assembly in cutting off all extravagant expenditure of the public funds.

SEVERAL democrats in this city are disgusted with the result of the election and vow that they will remove from the territory. Just at present there are only two places having pure democratic majorities—Bland and Texas, and Texas may go republican in 1910.

It is estimated that \$300,000,000 has been spent by those who went to the Klondike after gold this year, while the entire output of gold from that region this year has been less than one-fourth of that amount in value.

The republicans of San Miguel county elect their entire ticket. Well done! That county will be redeemed from a gang of bootleggers, and in 1900 will cast 1,000 republican majority.

The official canvass of the votes cast in New Mexico last Tuesday will be made by the several boards of county commissioners next Monday.

THE Democrat weeps and wails and gnashes its teeth and refuses to be comforted, all because Ferguson failed to get elected.

WHAT THE EMPLOYEES ARE DOING.

A coal-haul locomotive went through here the other day, bound for a western lumber camp.

The Santa Fe company has 19,172 persons on the payroll, 833 locomotives and 25,709 passenger cars.

The small engine from the Rio Grande division are being pressed into service between Las Vegas and Raton.

Brakemen Summers, of the Magdalena branch, having removed to San Marcial, Brakeman Garrett has superseded him.

Two of the small seventeen-inch engines, formerly at Las Vegas, are handling coal and empties from Cerrillos to this city.

Engines 745, 712, 717 and 706 have reached the city from Raton and have been turned over to the use of the Santa Fe Pacific.

Chief Engineer Randall, of the Santa Fe & Grand Canyon railroad, has arrived and will make up a report of engineers for immediate work.

There is a rumor to the effect that the Santa Fe and Mexican Central would combine on a through train from Chicago to the City of Mexico.

An engineer and conductor have been suspended ten days for running through a split switch and not reporting it, in fact without knowing it.

An engineer has been suspended twenty days for allowing the eccentric strap of his engine to get hot, for lack of oil, thus causing it to break.

Colonel Wynne Dennis, of Lombard, Good & Co., arrived at Williams from New York. Mr. Dennis has charge of the Santa Fe & Grand Canyon railroad construction.

The employees of the company here are up to their eyes in work. They hardly get in before they have to start out again, and the office force is doing extra night work.

Brakeman Johnson fell from a train, on the Raton mountain, and was very seriously and probably dangerously injured. He was taken to Las Vegas from Raton and put in the hospital.

A test was made in the Santa Fe boiler room at Raton between coal and slack. It is believed that with a higher stack considerable expense can be saved by using slack instead of lump coal.

The other evening about a dozen brakemen, mostly new men, were en route from El Paso to Las Vegas, where they are to be employed. Among them was Bruce Crockett, of San Marcial.

Engineer El. Worrell, who was reported ill at the Armstrong ranch last week, is recovering. He is still at the ranch. His trouble was inflammation of the bowels, says the San Marcial Bee.

Santa Fe train hands must hereafter be courteous to all stockmen accompanying shipments of stock, and not treat them roughly, as has often been the case. This is an official tip from division headquarters.

The Needles Kye says: Jack Warner, one of the regular brakemen on the road, has been promoted and made his initial trip yesterday morning west as conductor of No. 33. Jack is "a pretty business" and his work will show up all right.

The work of driving the piling on the North Bernards bridge was finished on Wednesday, and as the track laying on the other side progresses the bridge force is engaged in putting in bolts and tightening up the work necessary to be done after the piles have been driven, the caps spiked and cords laid on.—Roswell Record.

The Santa Fe has one train, the fast mail, No. 17, that averages between Chicago and Kansas City, 47 miles an hour, including station stops and grade crossing slow-ups. This is faster traveling than on either of the California flyers, the east-bound flyers averaging 45 miles an hour to the west-bound flyer's 30 miles per hour.

The Santa Fe Pacific has a large force of men employed laying a new pipe line for another connection with their mountain reservoir near Williams. Another water tank will be erected which will make two large tanks and a stand-pipe at that station. The present flow from the reservoir is not sufficient to supply both engines and water cars, as water is being hauled to all the stations possible at present from Williams.

The Williams News says: Work on the Saginaw Southern railroad under the supervision of Chief Engineer Girard is going with a rush. The boom of the blaste at noon and evening seem to sing McKinley prosperity, and have the sweetest sounds to the men who have labored the hardest for Williams and know now that the town is beyond speculation. Chief Girard is putting in bridges and roadbed that is as fine and perfect as can be found anywhere.

Thirty new locomotives have just been ordered for the Atchison, Topeka & Santa Fe. Their specifications are as follows: Cylinder, 21x28 inches; boiler, straight body, 68 inches in diameter; working pressure of boiler, 180 pounds; fire box, 103x125 inches; heating surface of fire box, 105 square feet; heating surface of tubes, 1,740 square feet; total heating surface, 1,845 square feet; grate area, 29.23 square feet; weight on drivers, 145,000 pounds; total weight, 163,000 pounds; drivers, 78 inches in diameter; tank capacity, 5,000 gallons.

The Roswell Record says: Superintendent B. H. Nichols came in on a special train from the Amarillo end of the railroad, Sunday, and has been looking after matters pertaining to construction at this end of the line. He reports satisfactory progress at the other end of the line and expects to reach the Pecos from that end by December 15. Work at this end is getting so satisfactorily that it is now certain that unless some unexpected bad weather intervenes the track will be laid and the Pecos bridge finished by December 1st. Mr. Nichols confidently expects the road to be in ship-shape for the opening of traffic by December 20.

It is more fun to see a man read a puff of himself in a newspaper than to see a fat man slip on a banana peel, says an exchange. The narrow minded man

reads it over seven or eight times and then goes around and appropriates what copies he can. The kind hearted man goes home and reads to his wife and then goes to the office and pays up what he owes. The successful business man, who advertises regularly and makes money, immediately starts out to find the editor and the two walk off together and thoughtfully down the street together and the business man takes sugar in his hand, and they both eat a clove or two and life is sweeter, peace settles down on their hearts for a moment. Such is the experience of mustard seeds that fall on different soil.

**A Tare Sign of Croup.**

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. From the News.

Mrs. A. M. Conard has been seriously sick during the past week, but is reported as improving at this writing.

Mrs. M. A. Friend returned from Flagstaff, where she has visited during the past week with her daughter, Mrs. Lee Perkins.

Mrs. Curtis, wife of W. H. Curtis, an attaché of the Saginaw Lumber company, arrived from Saginaw, Mich., the first of the week to join her husband, who is now located here. Mrs. Curtis is a handsome and cultured lady and will be a welcome addition to Williams society.

Mrs. Kelly, nee Miss Rose Phelan, and young son, left for their home at Seligman, after an extended stay with her parents at this place. They were accompanied by Miss Mamie Kelly, which is regretted by all, but more by some. If reports are true several boats are already aching.

**From New Zealand.**

Repton, New Zealand, Nov. 23, 1899.—I am very pleased to state that since I took the agency of Chamberlain's medicine the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all the other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of good repute, they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

Messrs. Fraser, Dugg & Co., have removed their stock of goods into the new brick structure on the corner of Third street and Kinsey avenue. Fred. Sagar is laying brick on the walls of the two story building being erected by F. T. La Prade. Like all other buildings, whether for residence or business purposes, this place was rented before excavation for the foundation began.
