ARMY INVESTIGATION.

Evidence Conflicting Regarding Supplies for Regiments.

State Troops of New York are Holding Elections.

Several Senators Will Oppose Annexation of the Philippines.

SPANISH TROOPS LEAVE HOLGUIN.

Lexington, Ky., Nov. 1.—Before the investigation commission to-day the chief commissary of the First Territorial regiment, last night, testified that the supplies for the regiment had not been honored. General J. C. Bates testified as to the same. The commission was held at the Hotel Hamilton, and the camp at Holguin, Cuba. The commission was held at the Hotel Hamilton, and the camp at Holguin, Cuba. The commission was held at the Hotel Hamilton, and the camp at Holguin, Cuba.

"In Cuba the medical supplies were woefully short. The medical officers said they could not get them. This was especially true at Siboney. We had trouble getting ambulances taken to Cuba. We got one for each regiment. I think the ambulances they took were the only ones when the Rough Riders' fight occurred on the 24th of June."

Replying to a question by Dr. Conner, General Bates said with modern arms the danger in removing the wounded from the line of fire was greatly increased. In Cuba it was difficult to get oatmeal and other delicacies for the sick.

OPPOSE EXPANSION.

A Number of Senators Will Oppose the Annexation of the Philippines. New York, Nov. 1.—In answer to the query, "Do you favor the proposition to pay Spain \$400,000 for the Philippines?" eleven United States senators telegraphed to the White House expressing opposition to such a plan. The senators are: Jones and Berry, Arkansas; Harris, Kansas; Hale, Maine; Barrows, Michigan; Ross, North Dakota; Chandler, New Hampshire; Tillman, South Carolina; Pettigrew, South Dakota; Sullivan, Tennessee; and Daniels, Virginia.

CANNOT BE MUSTERED OUT.

Washington, Nov. 1.—The request of the First Colorado Infantry to be returned from Manila to the United States cannot be granted by the war department. It was stated by the war department officer that nothing could be done until congress meets and provides some force to take the place of the volunteers. It is believed that the demand made upon the senators and representatives for a muster out of the volunteers has been so great that they will be convinced that a regular army for garrison duty in the new possessions is an absolute necessity.

Occupy a Town.

New York, Nov. 1.—A dispatch to the Herald from Santiago says: Col. Wood's regiment arrived safely at Cihara and quietly took possession of the town. To the municipal officers was given the alternative of signing the oath of allegiance or being dismissed. All signed the oath. The 7,500 Spaniards at Holguin will leave this week.

Our Demands.

Washington, Nov. 1.—The belief still prevails among a majority of the cabinet that the Spaniards will not be laid down by the United States, and whatever delay occurs before that result is reached will be chargeable only to the purpose of the Spaniards to extort at least a possible million dollars before acceding to our demands.

Embassies Captured.

Chicago, Nov. 1.—Lambert Witt, abducting a proprietor of the Hungate Savings bank, of Chicago, and his wife and son, were brought here to-day from St. Louis, where they were arrested last night. They will be held here prisoners to await instructions from the United States. Witt, through an interpreter, confessed to having embezzled \$45,000 of the bank's funds.

Appointed.

Washington, Nov. 1.—The president has appointed Col. Samuel M. Mandell, of the corps of engineers of the United States army, to be a member of the California debris commission.

Declared a Dividend.

New York, Nov. 1.—The directors of the American Cotton Oil company have declared a first dividend of three per cent on common stock.

Died.

Kansas City, Nov. 1.—George W. Henry, of Chicago, a well known capitalist, died here to-day of pneumonia. Henry held heavy timber interests in Chicago and Indiana.

Peace Commission.

New York, Nov. 1.—A dispatch to the Herald from Havana says: It is learned from an authentic source that the American commissioners are drafting a note

TROOPS FOR CUBA.

American Army Will Occupy Havana on January 1.

Labor Unions Will Try to Secure Eight Hour Law.

Failure of a Big Manufacturing Firm in Rhode Island.

DEATH OF GENERAL RODRIGUEZ.

Washington, Nov. 1.—There has been no change of the plans of the war department respecting the sending of troops to Cuba. No date has ever been fixed when the Spanish troops depart. It is determined that the control of the island shall pass to the United States on January 1. Attempts to make it appear that the death of Col. Waring from yellow fever has changed the plans of the department are without basis. The war department does not wish to have any conflict with the Spanish troops as to the occupation of the island, and therefore desires to send United States troops into Cuba only a short time before the Spanish troops evacuate. Owing to the climatic conditions the United States has not been preparing for immediate evacuation.

RIGHT HOUR DAY.

Labor Organizations Will Urge Shorter Working Hours.

Washington, Nov. 1.—President Gompa of the American Federation of Labor has sent a letter to the state branches of the union, asking them to urge shorter working hours. The letter says: "The five day week is the basis of the American Federation of Labor. It is the basis of the American Federation of Labor. It is the basis of the American Federation of Labor."

A large crowd witnessed the verisimilitude of the Corbett-Fitzsimmons fight at the Armory last night. The pictures were all that they had been represented to be and everybody was well satisfied. They give a remarkably faithful representation of the fight and are a genuine triumph in the art of photography which no one should miss seeing.

THE VERISIMILITUDE PICTURES.

An Interested Audience Witnessed the Corbett-Fitzsimmons Fight. A large crowd witnessed the verisimilitude of the Corbett-Fitzsimmons fight at the Armory last night. The pictures were all that they had been represented to be and everybody was well satisfied. They give a remarkably faithful representation of the fight and are a genuine triumph in the art of photography which no one should miss seeing.

Death of a Veteran.

Washington, Nov. 1.—General Joseph Rodman West is dead, aged 75. On the outbreak of the civil war he became the lieutenant colonel of the First California Infantry. He saw service in New Mexico, Arkansas and southwest and was promoted brigadier-general, major general and then major general. He served as United States senator from Louisiana from 1871 to 1875, being elected as a republican.

WAR INVESTIGATING COMMISSION.

Construct of Camps of Alger and Wilcox to be Investigated. Washington, Nov. 1.—Members of the war investigating commission, who did not go to Lexington, Ohio, and the other western cities, reached Washington to-day to attend a call meeting to-morrow to arrange for the trip to Camp Meade, near Middletown, Pa., where they expect to procure testimony bearing upon the conduct of camps Alger and Wilcox. The southern trip consumed sixteen days, and the committee, at Jacksonville, Tampa, Fernandina, Annapolis, Huntsville, Chickamauga, Knoxville and the hospital at Atlanta were inspected and witnesses examined.

THAT DITCH.

Ferguson's Opposition to the A. A. Grant Irrigation Enterprise. The Democrat feels free to deny that H. B. Ferguson is opposed to the new irrigation ditch. It tries to make it appear that he is in favor of the enterprise. Mr. Ferguson has tried to straddle the question. In Albuquerque he is in favor of the ditch, while at the same time he writes letters to the opponents of the scheme stating in emphatic language that he has no interest in the ditch and no sympathy with it. Will the Democrat explicitly explain Mr. Ferguson's position on the ditch. That paper has bewailed that Pedro Perez is opposed to the ditch and that this city should vote against him on that account. Ferguson, certainly, being a resident of this city, was supposed to favor the enterprise. Again we call upon the Democrat to explain Mr. Ferguson's position on the ditch.

EXPLOSION OF POWDER.

Four Privates of Nineteenth Infantry Badly Burned.

Camps of Alger and Wilcox to be Next Investigated.

Emperor William Makes a Worthy Gift to the Catholics.

GOVERNMENT IN CUBA.

Detroit, Mich., Nov. 1.—Four privates of the Nineteenth Infantry left at Ft. Wayne, when the regiment went south, were badly injured to-day by the explosion of powder they were transferring from the basement of the guard house to the ship at the pier in Porto Rico. The men are: Privates Fred. Fisher, Archie Miller, Robert J. Laval and Fred. Crawford. With the exception of Miller, who was badly burned on the thigh, the injuries were confined to the men's heads and faces. Comrades threw buckets of water over the men to extinguish the flames.

ABODE OF THE HOLY VIRGIN.

Emperor William's Gift to His Many Catholic Subjects.

Jerusalem, Nov. 1.—Emperor William telegraphed the pope: "I have been able to acquire at Jerusalem the abode of the Holy Virgin. I decided to place this ground, consecrated by so many pious memories, at the disposal of my Catholic subjects. It rejoices my heart to be able thus to prove how dear to me are the religious interests of the Catholics whom Divine Providence placed in my care." The pope replied, expressing satisfaction at the gift.

TROOPS FOR CUBA.

United States Will Take Control of the Island on January 1. New York, Nov. 1.—A dispatch to the Herald from Washington says: Colonel Waring's startling death has caused a change of plan as to the time of sailing of United States troops for Cuba. In official orders, "On or before November 2," had been mentioned as the date of departure, but now there will be a delay of probably three weeks. Three persons who went with the sanitary commission, and who were quarantined under the best auspices, have died.

Government of Cuba.

Washington, Nov. 1.—The cabinet to-day devoted most of its attention to the consideration of questions connected with the administration of affairs in Cuba and Porto Rico. The administrative feature of the Philippine question has also received attention. Nothing has been heard from the commission at Paris as to yesterday's proceedings. Nothing is expected in the way of developments until Friday's session.

WATCH for democratic posters, democratic repeaters and democratic illegal votes next Tuesday.

BLANK knows what is to its interests and will roll up a big republican majority one week from to-day.

THE Spaniards have been given a thirty-day extension, and will be permitted to remain in Cuba until January 1.

Good reports come from Grant county. The republican legislative and county ticket will be elected, and Ferguson will have to make a whole batch of all sorts of promises to get a majority.

THE Socorro Chief says: Elect Pedro Perea as your candidate for congress, and you will have an able advocate in behalf of the people's rights. He will be in full accord with the administration at Washington.

EVERY business man who is put to inconvenience by having to travel a mile and a half and spend two hours' time in going to the court house to do a little errand, should remember that M. S. Otero placed it there, and vote accordingly on election day.

THE Philadelphia Record says the cost of the railway from Guayaquil to Quito, in Ecuador, which is now being built by American capitalists, is estimated at \$18,000,000 for four hundred miles. It will be the highest railway in the world, with stations at an elevation of 8,250, 9,360 and 10,000 feet above the sea level.

AN exchange gives the following as an excellent system of parenting for young wives. Make your beds early in the morning, see buttons on your husband's shirt, do not take up grievances, protect the young and tender branches of the family, plant a smile of good temper on your face, carefully root out all angry feelings, and expect a good crop of happiness.

THE BOSS REFORMER.
The boss, blue ribbon reformer in this county is M. S. Otero. When he was county commissioner he and Marcus C. de Baas tried to "reform" everything in sight about the court house. At that time Perfecto Armijo was short in his accounts as sheriff to the extent of several thousand dollars, and Reformer Otero promptly cancelled the debt, and the pair have been good friends and reformers ever since. If this county is turned over to M. S. Otero and his crowd of hungry place hunters the people will have a sample of this sort of reform that will bankrupt the county.

ECONOMICAL OFFICIALS.
The board of county commissioners during the past two years has saved this county twelve to fifteen thousand dollars actually. Hon. Jesus Romero during that time has served as chairman of the board. Previous to that time he had served two years as one of the members of the board. He thoroughly understands all the details which come before the commissioners, and his economical management has been and will be highly appreciated by the tax payers of the county. He will know M. S. Otero under so deeply that the boss won't see daylight again until next spring, and the taxpayers may well be thankful for it.

MEAN AND MALICIOUS.
While we do not think the people of this county will pay any attention to the malicious attempts of the subsidized sheet to falsify the court officials, we would state that an examination of the grand jury returns will show that every case mentioned in the Democrat this

morning was investigated by that body, and either a true or an ignored bill returned. When the democrats are driven to such stratagems to get campaign material against District Attorney Finckel, it shows better than any argument we could use the capable and able official he has made. District Attorney Finckel is one of the best officials this county has ever had, and the returns on election day will prove it.

SMALL BUSINESS.
M. S. Otero last week visited the relatives of the convicts in the penitentiary from this county and promised them that he would secure their pardon if they would vote his ticket. This action shows how shallow is the talk of Otero's gang about reform. He would empty the penitentiary and turn loose a big gang of convicted murderers on the people who long to secure a few votes for Mr. Ferguson. His action was an insult to Governor Otero, who promptly denied the remarkable request of the would-be boss. Governor Otero was in the city last night and he stated to a number of gentlemen that convicts would not be pardoned unless on the petition of the presiding judge of the district and the district attorney, and after evidence had been produced showing that the men deserved official clemency. There are several men in the penitentiary who deserve pardon, but they will not get this liberty through the bungling political methods of M. S. Otero.

WILL PROMISE ANYTHING.
H. B. Ferguson deserves special mention for the glib way in which he can make any sort of pledge about anything to get a few votes. He has actually promised that he will set a rehearing in the court martial of Lieut. E. O. Phipps, which occurred several years ago, providing that the colored republicans vote for him. He has secured two or three deluded colored men to work on this scheme. Mr. Ferguson does not pretend to say how he, a democrat, is going to induce President McKinley to open the case. The fact is that H. B. Ferguson has no idea that he can help Lieutenant Phipps. He would not if he could. The democrats and Mr. Ferguson howled themselves hoarse when Phipps was appointed a cadet to the West Point military academy, and the democratic cadets mutilated his ears and made life a burden to the young man.

SOLIDLY REPUBLICAN.
The Otero ticket will not get more than 500 votes outside of Albuquerque and Gallup. Never before have the people of the county been so solidly united politically. If Albuquerque and Gallup give 1,000 majority for Ferguson, Perea will still carry the county by 1,000 majority. Still a few so-called and self-styled leaders and ring-leaders of Gallup are foolish enough to allow the democrats of this city into deluding them into the belief that there is a chance for them to be elected. Otero and his hirelings are fooling the Gallup people into cutting their own throats, as time and election returns will prove.

DISGRACED DEMOCRACY.
That the grand old democratic party of Jefferson and Jackson should be used for the base ignominious purpose that the local democrats are using it for must bring the stigma of shame to every man who has ever been a follower of the founders of democracy. Could Jefferson or Jackson be on earth again, how quickly would they say to Boss Otero: "Get thee behind me, Satan!" And it would be comical to see how quickly the boss would get there, too.

ENEMY OF ALBUQUERQUE.
When M. S. Otero was a commissioner of this county he secured the location of the court house in Old Albuquerque, which is a permanent injury to the city and a great expense to every one having business with the county officials. He was so deluded for his enmity to Albuquerque that he only received 135 votes here when he was a candidate for commissioner. Now he poses as the special friend and champion of this city.

The people of Bland and of Gallup should remember that there is no one thing that the officials of this county will so highly appreciate as a good strong vote for our delegate to congress. In sending a delegate to congress who can do something, they will likewise strengthen themselves with the local administration, and be in a better position to seek favors.

The professional growler and the chronic pessimist see in every new invention the destruction of the human race. But the event always proves their theories wrong. In the United States today there are 1,000,000 people employed in the electrical industries, all of which were unknown twenty five years ago.

GOV. OTERO was in the city a few hours last evening. The governor is making a splendid campaign for the republican ticket, and has no possible use for the little squad of alleged republicans in this city, who have sold themselves to Ferguson for political purposes.

In speaking of the blighting effects of corporations in this city, the people know that it is the franchise corporations of Mr. Grant that are referred to by this paper. He is an incubus to the town, and every month the people who pay double price water tax realize the fact.

The republicans of New Mexico are making the best campaign in the political history of the territory, and will score a glorious victory on November 8.

Soldiers Sleeping Under Fire.
"I suppose some people will shrug their shoulders," said a soldier who was in the three days' battle of San Juan Hill, "when I say it is a common thing for soldiers to go sound asleep under fire, when they are not permitted to return the fire, but must lie quiet. It isn't bravery or recklessness, but the result of intense excitement on the brain. In the time we were in a severe artillery duel with the dangerous disorders of the stomach that Houshater's Stomach Bitters would promptly cure. This remedy will make them sleep 'like a top,' as the saying goes. It will give them nerves of iron. It will overcome distressing stomach and bowel disorders, give tone and strength to the kidneys.

WHAT THE EMPLOYEES ARE DOING.

A new turn table has been put in at the Needles roundhouse.
Kazene Hoggins has been stationed at Williams as engineer on the night switch engine and pusher.
L. L. Hubbard, division superintendent, and W. A. McGovern, trainmaster, both in the city yesterday, left for the west last night.

The Southern California railroad has borrowed ten locomotives from the Santa Fe to aid them in handling their enormous business.

Butler Maker Lawrence Shields has been transferred from Raton to Las Vegas, and Butler Maker Jerry Sullivan has been sent from Las Vegas to Raton.

Col. J. H. Hampton has now completed his Coahuila & Acapulco railway more than half way to the Pacific, and has performed the heaviest work on the line.

The Santa Fe company has attached tank cars and is hauling water for the use of engines between La Junta and Trinidad. The water between these places is bad for making steam.

The Raton Reporter says: "Mrs. Ira Duckworth returned from Albuquerque yesterday. Mr. Duckworth will return in a few days and enter the employ of the Santa Fe in the road service."

The Mohave County Miner says: "The surveys of the Sacramento Valley railroad have about completed their cross sectioning, and are ready for the grades. Work will begin before the 15th of November."

The Las Vegas Optic says: Harry Artman, a former trainman here, but who has been employed in Mexico for the last year and a half, as conductor, has returned to the city and secured a position again with the company.

The Flagstaff item says: The petition of the Saginaw Southern Railroad company for condemnation of right of way over the Owen Water company's land was heard by District County Commissioner C. A. Keller, and the proceedings were dismissed.

The Williams News says: "Trainmaster W. A. McGovern and Cade Selvy, special detective, were Williams visitors this week. Mr. McGovern was only on business, pure and simple, while Cade was attempting to detect some symptoms of a new depot building."

The Needles Eye says: The Southern Pacific now has a corps of engineers in southern Utah. What purpose they have in view is kept decidedly still, but the possibility of a road to connect with some of their Southern California lines is not without some foundation.

The Roswell Register says: The tracks in the Pecos Valley & Northwestern railway company's yards here are so crowded with cars containing steel, ties, bridge timber and other material for the extension that it is difficult to find room for local freight coming in. It begins to look like business.

The Amarillo Champion is informed by reliable authority that the main repair and machine shop of the Pecos Valley & Northwestern and also the terminus of two divisions on the line will be at Roswell. At Amarillo will be erected an eight stall round house and small repair shop, giving employment to eighteen men, but all the heavy repair work will be done at Roswell.

The Santa Fe company wants to build stock yards in Atchison, Kan., but may give up the enterprise because the council refuses to vacate certain streets in White Clay creek. The members of the council are said to fear that if they vacate the streets as requested, the colored people now living on public ground will remember the act at the next election.

Fredrick K. Parks, for some time chief clerk to the general freight agent of the Southern California railway, and before that traveling auditor of the road, has been appointed auditor of the Gulf, Colorado & Santa Fe road to succeed W. W. Pope, resigned. Mr. Pope resigned to accept a position with a Colorado road. Mr. Pope was the auditor of the Atlantic & Pacific, this city, for several years.

The Roswell Record says: News comes from the northeastern end of the Gulf road extension that since D. H. Nichols has been in charge the work at that end of the line has been pushed far more rapidly than formerly. The grading is now completed to a point way this side of the Texas line, and track laying is progressing at the rate of more than two miles a day. Mr. Nichols seems to understand his business.

The Williams News says: Richard Murphy, an employee of the Iron Horse, died at the private hospital of Railway Surgeon Melick last Wednesday night. Murphy was working on a pipe line when he was suddenly seized with convulsions, and, though carried to the hospital by his associates as quickly as possible, an emulsion after another ensued until death came to his relief. He was a late arrival from Colorado, where he was employed in a lead mine, and his death was due to lead poisoning.

The equipment of that portion of the Chicago division of the Santa Fe in the state of Illinois with the block signal system was completed Saturday, and the system will be in operation in a few days. It was necessary to establish several new offices in order to make all the blocks after five miles in length. The line in Illinois is the first of the Chicago division to be equipped with the block system. The work on the equipment of the line in Iowa and Missouri will be pushed, and the system placed in operation over the entire Chicago division from Kansas City to Chicago as soon as possible.

The Amarillo Champion, of October 21, says: A rather amusing incident took place in the Amarillo hotel yesterday morning at the breakfast table when C. M. Stansbury, the superintendent of machinery and motive power of the Pecos Valley railroad, introduced his wife to General Manager Nichols. The announcement of Stansbury having a wife completely knocked out the general manager, who always looked upon the newly-made Benedict as a confirmed bachelor. Unknown to all, Mr. Stansbury, while north attending to business

Just a Cough
Not worth paying attention to, you say. Perhaps you have had it for weeks. It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a family failing. At first it is a slight cough. At last it is a humor. At last, extremely difficult.

Ayer's Cherry Pectoral

quickly conquers your little hacking cough. There is no doubt about the cure now. Doubt comes from neglect. For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. It cures. Consumption also if taken in time. Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough. Shall we send you a bottle of this excellent, cheap medicine? If you have any coughs, colds, or any of the lung troubles, write the doctor freely. You will receive a prompt reply. Address, Dr. J. C. Ayer, Lowell, Mass.

WHEN
should a man assure his life? Now! To-day! It may be too late to-morrow. A day comes to every man when he cannot obtain life assurance. In any event, while he is waiting, the cost is increasing. And his delay not only increases the cost, but puts further away the completion of the period, at the end of which he will reap the benefit of his own foresight.
Some men wait until they shall be able to assure for a larger amount than they can now afford to carry. But when that time arrives it may be impossible for them to secure assurance at any price—they may then be unassurable. The time to take assurance is when it can be obtained.
