ONE KILLED IN AUTO SMASH

Prominent Business Man of Riverside Victim of Fatal Accident in Los Angeles.

OPERATIC STAR HURT

Leading Member of "San Toy" Company Pinned Under Machine Which Turned Over.

Los Angeles, Calif., Nov. 17.—Humphrey Praed, assistant general manager of the San Jacinto Land Company, of Riverside, was instantly killed today in an automobile accident and Miss Mina Randolph, a well known actress and leading lady in the "San Toy" Company, playing in this city this week, was seriously if not fatally injured and the chauffeur, C. S. Fry, is also in a critical condition from his injuries.

The accident occurred early this morning in the suburbs of this city. The chauffeur evidently lost control of the machine and it went over a steep embankment, pinning the occupants beneath it. Mr. Praed was dead when assistance arrived and the injured actress and chauffeur were taken to the nearest hospital.

TEXAS BIDS FOR NEXT CONVENTION

Cities of That State After Next Gathering of American Federation of Labor.

San Francisco, Nov. 17.—Texas was first in the field as the bidder for the Twenty-fifth annual convention of the American Federation of Labor. When today's session was called to order, a number of telegrams were read and among them two from Texas, extending greetings to the delegates and urging upon them the advisability of holding their next annual session in the Lone Star State. Invitations came from the city of Fort Worth and the Trades and Labor Council of the state, neither of which designated any particular city as the meeting place. The morning session was taken up with listening to fraternal delegates from Great Britain and Canada.

KANSAS GOVERNOR APPEALS TO LAW

State Treasurer Refuses to Pay Warrant for Maintenance of Executive Mansion.

Topeka, Kans., Nov. 17.—Governor Bailey today filed his accounts for maintenance of the executive mansion with the state auditor, but State Treasurer Kelly refused to countersign the warrant paying for them notwithstanding Attorney General Coleman's opinion that Governor Bailey is using his maintenance fund properly. The matter will immediately go into the supreme court. Governor Bailey has retained counsel, and an application for a writ of mandamus to compel Mr. Kelly to sign and pay the warrant will be filed as soon as it can be prepared. Two vouchers were filed, one for September and one for October. The September voucher was for \$80.56 and the other for \$82.35. To each voucher is attached the receipted bills and each voucher is sworn to by Governor Bailey.

DELEGATES TAKE IN BULL FIGHT

Irrigation Congress Transacted Only Routine Business and Adjourned at Noon Until Tomorrow.

El Paso, Texas, Nov. 17.—Another day of routine work in the various sessions marked the sessions of the National Irrigation Congress today. Tomorrow the officials will be selected, resolutions passed and the next meeting place selected. Today the New Mexico, Texas and Mexico delegates are holding a meeting to try to decide the question of the construction of a dam for the storing of waters to reclaim the valley of the Rio Grande. The convention adjourned at noon to allow the delegates to witness the bull fight in Juarez, Mexico, this afternoon.

CONDITION IS IMPROVED.
Lexington, Ky., Nov. 17.—Colonel Breckenridge, who was stricken with paralysis yesterday, and for some time was in a critical condition, was somewhat better today. His speech has partially returned and the attending physicians now hold out hopes of his recovery.

ARE SURVEYING NEAR DURANGO

Two Roads Running Lines Through San Juan County—Scramble For Coal Lands.

Durango, Colo., Nov. 17.—It was learned definitely today that there are two railway surveys south of Durango representing different interests. One is the Southern Pacific, and it is said the others is by the Phelps-Dodge people. The scramble for coal lands along the San Juan River becomes more interesting, and the reported discovery of placer gold in new localities south of San Juan is attracting many people. The new town location on the San Juan River is as yet unsettled.

ONE ROBBER IS CAPTURED

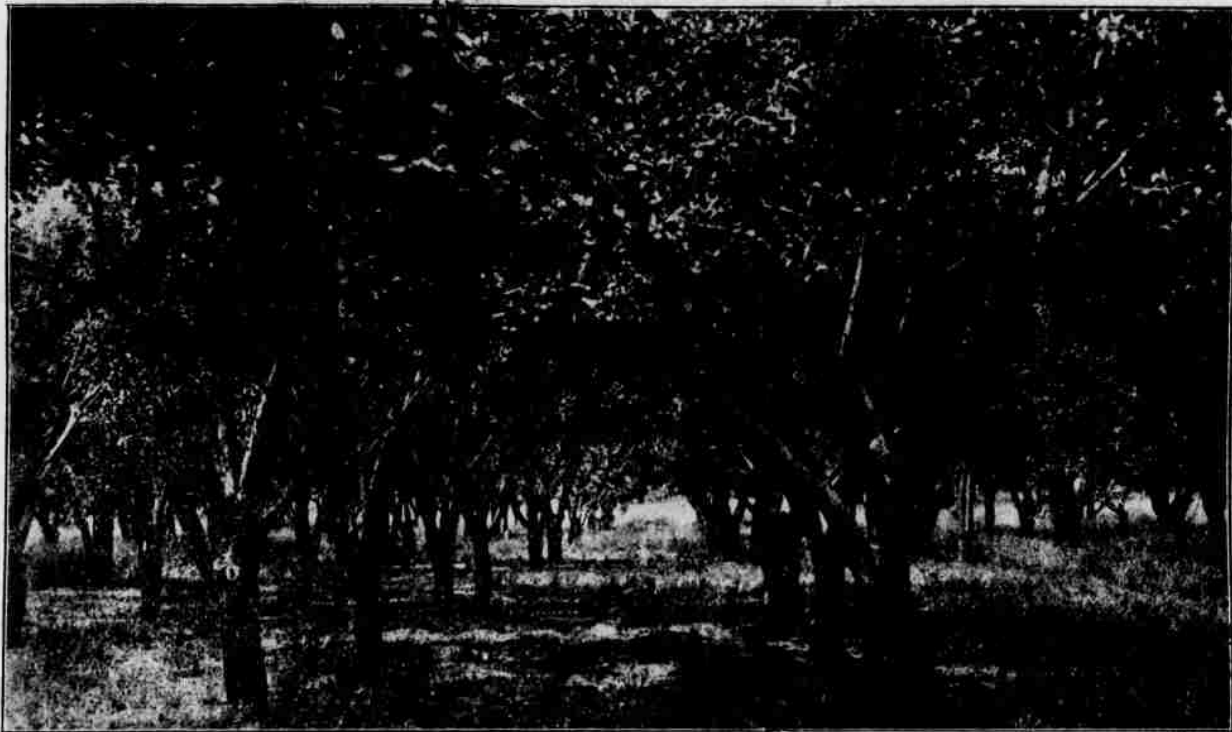

Who Recently Held Up a Saloon at Thermopolis, Wyoming—Not Connected With Cody Affair.

Cheyenne, Wyo., Nov. 17.—One of the two men who held up the Edwards saloon at Thermopolis, was captured last evening. It was thought at first that he was one of the Cody robbers who killed Cashier Middaugh, of the Cody National Bank, but it is now believed that he has no connection with that holdup.

EMPEROR IN GOOD HEALTH.

Berlin, Nov. 17.—The foreign office authorizes the Associated Press to say that there is absolutely no truth in yesterday's rumor that Emperor William's throat trouble had returned. Furthermore, it states that if the trouble returns, the news will immediately be made public.

Scenic New Mexico.

ORCHARD NEAR SANTA ROSA.

MUST FIGHT SOON OR WAIT UNTIL SPRING

Quick Action Necessary to Capture Mukden—Coldness Causes Cessation of Hostilities—Japanese Destroyers at Che Foo.

Mukden, via Peking, Nov. 17.—If there is to be any activity at the front in the near future, it is apparent that the initiative must be taken by the Japanese. It is reported that the Japanese are concentrating strong forces on their left and center, undoubtedly with the realization that they must be assured of a speedy success before attacking, as it will be impossible for the armies to remain in the field without shelter, owing to the bitterly cold nights. The Russians have greatly strengthened their positions and hope to hold Mukden through the winter.

Cold Weather Stops Fighting.

Mukden, Wednesday, via Tien Tsin.—Four days of sharp, cold weather has silenced the artillery and infantry fire between the opposing forces and has driven the soldiers into their dugouts along the entire line. The apparent impossibility of either side to eject the other from their burrows and the fact that if either side succeeded in advancing it could not dig the other out of its cantonments on account of the frosts, seems to promise a winter's inactivity, although the Japanese, three days ago, made a small reconnaissance towards the extreme east as though they were investigating the possibilities for a flanking movement. It seems impossible that either side in any case could do more than occupy their opponents' winter quarters. The wells along the entire line are

dry and both sides use the Shakhe River, where the soldiers approach unarmed and get water under the recognized mutual sanction not to fire on a soldier. Here the noble art of war is confined to fisticuffs and swapping cigarettes, jackknives and food, all of which are prized. Familiarities are inevitable where the long lines are in continuous contact. The armies have been stationary so long that they are drawing supplies, fuel and horse forage from the rear, all other supplies being exhausted.

Wanted to Make Sure.

Che Foo, Nov. 17.—Three Japanese torpedo boat destroyers entered the harbor here today to ascertain if the Russian torpedo-boat destroyer, Rastorpony, was there. They were informed by the Japanese consul that the vessel had been sunk. The consul says this was the first the Japanese knew of the blowing up of the boat and the news was sent by wireless telegraph to the Japanese flag ship. The destroyers then disappeared in the direction of Port Arthur.

Again Repulse All Attacks.

St. Petersburg, Nov. 17.—General Stoessel in his recent dispatches to the Emperor reports a repulse of the Japanese attack October 26 on the north front of Port Arthur. The Russian losses were 480 killed and wounded. All the attacks on November 3, the day of the anniversary of the Emperor's

ascension to the throne, were defeated. General Stoessel was slightly wounded in the head during one of the latest assaults on Port Arthur.

Believe Port Arthur Safe.

St. Petersburg, Nov. 17.—As a result of the dispatches received from General Stoessel, the war office expresses entire confidence that Port Arthur will be able to hold out until the arrival of the Russian Pacific squadron.

Sailing Off African Coast.

Dakar, Africa, Nov. 17.—The Russian second Pacific squadron, bound for the far east, sailed from here last evening.

Feeling the Powers.

St. Petersburg, Nov. 17.—The Russian formal reply says the Circular Note, regarding the convening of the Hague conference is not expected until next week. In the meantime views of other powers are being ascertained through the Russian representatives abroad. While there is no reason to believe that Russia can agree to participate in a conference during a war, there is every indication that Russia will not resent the proposal, but that her reply will be of a cordial character.

Peace Still Reigns.

St. Petersburg, Nov. 17.—Facts do not warrant the sensational report that Count Benckendorff, Russian ambassador to Great Britain, may be recalled on account of the present hitch in the North Sea controversy, (as intimated in the London Daily Telegraph this morning from St. Petersburg). Russia has taken exception to the language of the English text of the article relating to the fixing of the blame and has reposed some modifications, but there is no evidence yet that a deadlock has been reached. The admiralty is undoubtedly exercising some influence on the foreign office in the matter.

Wild Reports Not Justified.

London, Nov. 17.—The Associated Press learns that there is no justification whatever for the sensational deductions made in the London Daily Telegraph's dispatch from St. Petersburg, published today from a delay in signing the Anglo-Russian North Sea convention articles. Russia accepts in principle the international commission, but the exact text of the convention must be the subject of the agreement between the two powers. The present difference concerns only small details of the wording of the agreement, as submitted by Great Britain for Russia's consideration.

WIN POINTS IN LEGAL CONTEST

Republicans of Colorado Secure Favorable Action Upon Their Petition to Supreme Court.

TO CANVASS BY WARDS

Judges Will Prosecute Cases Against Persons Charged With Interfering With Watchers.

Denver, Colo., Nov. 17.—The supreme court today re-affirmed that it has a right to take jurisdiction of the Denver election. The court also granted the application of the Republicans to compel the election commission to canvass the vote by wards and figure in the totals written by the judges, instead of tallies written on the page.

In both these decisions Associate Justice Steele, dissented. He denied the jurisdiction of the court and held that in case of apparent clerical errors the judges should be sent for to correct their books and declare what was the correct count from their precinct. The court also decided to go ahead with the contempt cases against persons charged with interfering with the watchers of the court.

PROUD OF SAN MIGUEL COUNTY

Editor Salazar, of El Independiente, Talks on Result of Recent Campaign—Las Vegas Celebrates.

E. H. Salazar, editor of El Independiente, an influential Spanish paper published in the town of Las Vegas, is in the city on a visit to his mother, Mrs. W. H. Manderfield. Mr. Salazar, whose paper strongly supported Senator Andrews, and the regular Republican ticket in San Miguel County in the recent election, feels very good over the result as do all loyal Republicans in the Territory. "We had a hard fight of it as there was a combination of three parties against us, but we stuck together, worked hard and energetically and put up a first-class ticket."

"Every man on it had much strength in his own locality and throughout the county. The candidates worked together and Chairman Secundino Romero of the Republican County Central Committee, proved the right man for the place, as he was energetic, hard-working and careful, and saw to it that the campaign funds were properly handled and honestly spent. Part of the so-called Independent Republicans voted for Senator Andrews and we are proud of the fact that in spite of much opposition we gave him a majority. This is all the more satisfactory when it is remembered that Las Vegas is Mr. Money's home town."

"Tuesday evening, last, we had a grand ratification meeting, the principal part of which was the largest procession ever held in Las Vegas. There were over 2,000 people in line and they paraded the streets of the city and of the town of Las Vegas for several hours, with bands playing, torches flaming and fire-works galore."

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

MORE SAFEGUARDS IN RAILROAD TRAFFIC.

Considerable more railroad building than people generally know has been had during the year 1904 in this country and the outlook for building 6,000 or 7,000 miles of new railroads during the year 1905 is very good. In New Mexico it is expected that the Santa Fe Central Railway will extend its system, that the Santa Fe System will construct the Belen cut-off and that the Phelps, Dodge & Company people in conjunction with the Southern Pacific Railroad, will build several hundred miles of steel track in western New Mexico for the purpose of hauling San Juan County coal to the smelters and mines at Clifton, Bisbee and Douglas, Arizona, and in northeastern Sonora. In connection with this remarkable activity in railroad building, the question of greater safety in travel is being agitated by leading papers throughout the country. Commenting upon both subjects the Kansas City Times says that the surprising fact is shown by recent statistics that the new railway mileage of the United States for 1904, exclusive of Alaska and the insular possessions, will be 4,600, or equivalent to a single track from the Atlantic to the Pacific and from the Great Lakes to the Gulf of Mexico. The surprise comes from the fact that there has been a general presumption that the era of extensive railway building had passed. But on the contrary these figures show that the newer parts of the country are likely to continue their railway development until they are thoroughly gridironed, just as the New England and Middle Atlantic states have been for years.

Of this year's building, the most notable has been in the Southwest, where 1,800 miles of track have been added, largely in Texas, which is now first of the states in railway mileage, as it is in area. The Northwestern states have added 683 miles, the South, east of Texas, 602 miles, and the Pacific states 562 miles.

Commenting on this growth, the Washington Post pertinently asks whether there is not, after all, a great demand for safer transportation than for additional miles of railway. There certainly is. Of course, one demand cannot be set aside by the other. Railway extension should continue, but safer travel must be enforced. The Post takes a rather gloomy view of future safeguards because the vastness of the country makes the building and the maintenance of railways expensive and makes it impossible to have double tracks and overhead or depressed crossings everywhere.

But on the other hand, there are signal systems that make the operation of trains on single tracks almost absolutely safe, and there is no excuse for the failure of the railroads to employ these systems, since the saving in damages would probably offset the cost of establishing and maintaining these safeguards. But whether the saving covers the outlay or not, the country must see to it that better safeguards are employed, and that grade crossings are abolished where they are most dangerous. It is the saving of human life that constitutes the greatest demand on the railroads at this time.

In the Panama Republic they are endeavoring to keep up the reputation of Central American and South American Republics for being fond of revolutions. The incipient uprising was quietly suppressed there a few weeks ago but President Amador fears that another one is brewing. It is the case of the "outs" against the "ins". The "outs" would like to handle that neat little sum of ten millions of dollars which Panama received from your Uncle Sam and the "ins" do not care to give up control of the money.

A Democratic political leader's hindsight is always better than his foresight. Many of these politicians are now sure that the nominations and the conglomeration called the St. Louis Democratic platform of 1904 were mistakes.

THE TELEGRAPH AND CABLE TO ALASKA.

The telegraph and cable systems constructed by the signal service of the army in Alaska have been completed and are already proving of benefit to the commercial interests of the American northwest as well as in the building up and the progress of far off Alaska. Commenting thereon, the Denver Republican pertinently says that the work of the signal service constructing and operating the extensive telegraph and cable system by which the greater part of Alaska is connected with the United States is entitled to all praise. A gigantic task was accomplished when these lines were built and the cable connecting Alaska with the Puget Sound ports was laid; and an element of heroism enters into the service of the men who keep the lonely vigil at remote and isolated telegraph stations in the wilds of the Far North.

The signal service is connected with the army and is under the administration of the war department. The work done by it is an illustration of how the military establishment even in a country like this may redound to the benefit of business and other civil interests. It reminds one of conditions once existing in the extreme southwestern part of the country, when the military telegraph supplied a large part of the means of communication for people in that section before the commercial lines were constructed.

The system erected by the signal service in Alaska will be extensively used in commercial business, and since it will place nearly all that vast region in direct communication with the United States and the remainder of the civilized world, it will be of enormous value. Its use for commercial purposes will be a hundred times greater than its military use, and yet it is improbable that any commercial company would have gone to the heavy expense of constructing the system at this early stage in the history of Alaska's development.

W. B. Walton, editor of the Silver City Independent, may be a tough proposition in his Democratic editorial capacity, but his services as probate clerk of Grant County are evidently satisfactory and appreciated by the voters there. He managed to receive a majority of over 600 votes as the candidate for re-election at the recent election, while quite a number of his comrades on the Democratic ticket were defeated and Mr. Money, Democratic candidate for delegate ran several hundreds of votes behind him. While Grant County is generally put down as Democratic, it is pretty well established by election results in recent years there, that very often the voters vote for the best men and that the county has changed and is drifting towards the Republican side. This is good all around.

The New Mexican hears from West Virginia that its esteemed friend United States Senator Stephen B. Elkins, stands the defeat of his father-in-law, ex-United States Senator Henry G. Davis, for the Vice Presidency, very well. Those who know the Senator assert that their friend "Steve" always stood up well under adverse circumstances. Senator Elkins evidently consoles himself with the fact that his respected father-in-law has enough money to keep the wolf from the door for some time to come.

The in-coming board of county commissioners of Santa Fe County will make a strong effort to improve the condition of the existing roads. What is greatly needed, however, is the enactment of road laws in the right direction. Those now in force have proven valueless except to the roadweavers in precincts, who receive fifty dollars per annum for paying no attention whatever to the improvement and repair of the highways of the counties.

As far as can be ascertained by careful figuring, there are but four or five counties out of the twenty-five in this Territory that have elected solid Democratic county tickets. New Mexico is becoming more strongly Republican every election. In that of Tuesday, November 8th, had it not been for Mr. Rodey's treacherous defection, the Republican majority for Senator W. H. Andrews would have been 10,000 and over.

"Charles Ballard will be the only Democrat in the council."—Roswell Record.

From Mr. Ballard's character and record, the New Mexican believes that he will do all he can towards aiding the Republicans in passing good and wholesome legislation for the Territory. Therefore his Democracy will do no harm.

"The Democrats get three of the county offices. While the Gazette regrets to chronicle the defeat of any of the candidates, it has no words of censure nor complaint to offer."—Raton Gazette.

This is one of the few Democratic papers in the Territory which takes things politically calmly and accepts the situation.

Eastern Democratic yellow papers are still seeking reasons for the defeat of the Parker-Davis ticket. What's the matter with considering the following: A great majority of the people of the United States agreed with President Roosevelt and Republican principles and disagreed with Judge Parker and Democratic principles.

When President Roosevelt visits the St. Louis World's Fair in the latter part of the month, he will find on exhibition eighteen Republican electors from the state of Missouri. This is certainly a unique and extraordinary exhibit and will attract much attention as well as favorable comment. So unexpected, too!

Mr. Bryan has come to the front with a new reason for the recent Republican landslide in the nation. He may call it what he will, but the New Mexican nevertheless believes that Democratic defeat was brought about by the millions of voters who voted the Republican ticket.

Thomas E. Watson, Populist candidate for the Presidency in the recent election, says he will not leave the state of Georgia. This is a relief to a great many people in New Mexico who were afraid that he might follow the example of Jerry Simpson and come to the Sunshine Territory.

Mr. Bryan's chances for election to the United States Senate by the legislature of Nebraska, recently elected, are not very good. The Republican majority in that body on joint ballot will be 113. Evidently an unlucky number for the knight of "the crown of thorns and cross of gold."

Colonel Henry Watterson is again inconsolable and that because President Roosevelt was elected a few days ago by the largest popular vote any candidate for the Presidency ever received. Such a little thing should not bother the Colonel as long as mint juleps in Louisville hold out.

A cashier of a savings bank at St. Charles, Missouri, is short only \$30,000 in his accounts. As the deposits in the bank amounted to over \$200,000, he is to be commended for his moderation; for all the directors knew, he might have taken it all.

Judge Parker should be thankful that the Democratic campaign managers who misled him during the campaign will have no chance to mislead him in governmental affairs. There is a silver lining to every political cloud.

George B. Cortelyou, chairman of the Republican National Committee, is to be postmaster general after March fourth next. A better and more competent man could not be chosen.

If brass and cheek will keep a man up in New Mexico politics, Chairman Frank A. Hubbell of the Republican Bernalillo County Central Committee will be the man.

Politicians propose and votes dispose. The Democratic Territorial Central Committee, before election, claimed Eddy County by 800 majority. The actual result is only a little over 200.

The more solid the Solid South keeps, the more compact will become the solid north; nevertheless the southern Democratic leaders will not take warning.

\$390 FOR LETTERS ABOUT THE SOUTHWEST.

The Rock Island system offers 20 prizes, of the aggregate value of \$390, for letters relative to the territory along its lines in Arkansas, Kansas, Indian Territory, Oklahoma, Texas and New Mexico. Letters should deal with the writer's experiences since he settled in the southwest. They should tell how much money he had when he arrived, what he did when he first came, what measure of success has since rewarded his efforts and what he thinks of that portion of the country in which he is located. Letters should not be less than 300 nor more than 1,500 words in length and will be used for the purpose of advertising the southwest.

Letters are desired not only from farmers and farmers' wives, but also from merchants, school teachers, clergymen; from everyone, in brief, who has a story to tell and who knows how to tell it.

For circular giving details, write John Sebastian, passenger traffic manager, Rock Island system, Chicago, Illinois.

M., on November 23, 1904, viz: Mollie Clements (Homestead Entry No. 7851) for the NW 1/4 of Sec. 13, T. 13 N., R. 10 E., and Lot 3, section 14 township 19 north, range 2 east N. M. P. M. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Rev. E. M. Fenton, Mrs. Jessie L. Fenton, J. W. Miller, Wm. Rodgers, all of Ferea, N. M.
Manuel R. Otero, Register.

COMFORTS OF TRAVEL.

The porter on the California Limited this winter will be prepared to press a gentleman's trousers while he waits. This is a new wrinkle, introduced for the benefit of fastidious dressers. It isn't absolutely necessary to carry along an extra pair of trousers, either; the porter works while you sleep. On this luxurious train daily market reports are received by wire; there are the latest morning and evening newspapers issued en route, fine stationery, a library of western books and current magazines. A Whittely exerciser for those who wish to keep up their athletics, and electric curling irons for the ladies are other traveling comforts. The Santa Fe intends to keep its fast flyer to the front.

GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

Married Women

Every woman covets shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of **Mother's Friend** before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** overcomes all the danger of child-birth, and carries the expectant mother safely through the critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

TERRITORIAL TOPICS.

J. A. Hitchens, a farmer living near Artesia, in Eddy County, this week sold a 320-acre tract of land to a newcomer from Illinois. The consideration was \$3,200. The buyer will immediately put the land under cultivation and commence the drilling of an artesian well.

It is estimated that the various surveying corps that are at work in San Juan County are expending \$1,000 per day, most of which is being left in the county. This will put things in that section of the Territory in first-class shape financially and next year it is predicted that the San Juan country will be one of the best fields for investment in New Mexico.

Thomas Seals, a Santa Fe brakeman was fatally injured Monday night at Upham, a small station south of San Marcial. The train was switching and the young man started to run in front of the engine when he slipped and fell, the engine passing over him. He was horribly mangled. He was placed on board a special train and started for the company hospital at Albuquerque, but before reaching there he died.

August DeBurr, a Russian, is conducting a celery experimental station near Roswell. He has 11 acres planted in celery and is enthusiastic on the subject. He considers celery raising in the Pecos Valley a more lucrative occupation than returning home to fight the Japanese. He formerly received a pension from the Russian government, as he is a war veteran, but since he has not returned home during the present conflict, his pension has been stopped.

In view of the reports that have recently gone out from Albuquerque that a meeting between the officials of the Santa Fe and representatives of the Machinists Union was to be held in San Francisco this week, the officials of the Santa Fe have issued another letter to the employees who took the places of the strikers. The letter states that no meeting has been held between the officials and representatives of the striking machinists, that no meeting will be held and that none of the strikers will be re-employed by the company.

The cotton crop in Eddy County promises to be a record breaker this year. The damp weather that has prevailed for the past month has not injured it in the least, except to retard its opening and with a week or two of bright, warm weather, which would permit the opening of the bolls, before freezing weather comes, the crop will establish beyond doubt the claims which are made for the Pecos Valley in regard to cotton possibilities. The cotton which is now being baled at the gin in Carlsbad is being shipped directly to the Galveston market and it is said that it exceeds in quality that grown in Texas.

Over 100 residents of New Mexico are in attendance upon the National Irrigation Congress which is in session at El Paso this week. Every one is waging a war against all schemes that are hostile to the construction of the Elephant Butte dam at Engle. One of the chief exhibits at the congress is from the Mimbres Valley. The exhibit is a splendid one of agricultural products resulting from irrigation. These products consist of beets, squash, onions, cabbage, turnips, pumpkins, apples, chili and various other fruits and vegetables. This exhibit is attracting a great deal of attention, which will prove of much benefit to the Territory.

The protest of President Frank G. Tracy of the Pecos Irrigation Company against the building of the Hondo Reservoir has been withdrawn and the papers in the case are now in the hands of United States Reclamation Attorney Bien at El Paso. The Water User's Association at El Paso had also entered a protest, but this has been withdrawn also. Bids for the work have been submitted to the government. This removes the last obstacle and it is expected that contracts will be awarded in the near future. This reservoir will be located 12 miles from Roswell and will irrigate 10,000 acres of land and will be settled in small tracts by families.

Work has commenced on both the freight and passenger stations of the Pecos Valley Railway at Carlsbad. The freight depot will be a frame structure large enough to accommodate the needs of the town. The passenger station will be built near the site of the one that was recently burned, and will be 90 feet in length and 24 feet wide, with two wings. The foundation will be of concrete and this material will be used up to the windows. Above this, pressed brick will be used and the roof will be of metal. There will be a lavatory and toilet rooms, and the structure will be modern in every particular. The cost of the two buildings will be in the neighborhood of \$10,000.

Reports from various parts of the Territory show that since the recent rains the range is in fine condition. The outlook is very bright for next year. Cattle and sheep are doing well at present and the ranchmen have little cause for complaint. During the past two weeks thousands of cattle have been sold by cattlemen in the southern part of New Mexico and these are being driven across the line into Texas. They are bringing a good price. This will be a good thing for the range, especially, as it puts aside all fears of its being overcrowded. During this week about 15,000 sheep were sold to Nebraska parties and shipped to Wood

River, that state. These sheep were purchased in Torrance County and brought a good price.

The Geaton murder trial, at Roswell, is attracting much attention. This is a case where the defendant is charged with murder of his companion, a man by the name of Jones, about a year ago. Both were well drillers and lived together in an adobe house on the outskirts of Roswell. One day Jones disappeared and was not heard of for a couple of weeks, when his body was found in the Pecos River, weighted down with heavy stones. Investigation developed the fact that he had first been murdered and his body thrown in the river to cover up the crime. Suspicion at once rested upon his partner, Geaton, and he was arrested. It is expected that the trial will end this week, as night sessions of the court are being held with this end in view.

STRAIN TOO GREAT.

Hundreds of Santa Fe Readers Find It So.

The hustle and hurry of business men.

The hard work and stooping of workmen.

The woman's household cares.

Are too great a strain on the kidneys. Backache, headache, sideache, Kidney troubles, urinary troubles follow.

A Santa Fe citizen tells you how to cure them all.

Charles Harris, ex-policeman of San Miguel, says: "The aching across the small of my back was not the kind that comes from overwork, it was deeper seated and much more painful, positively proving to me that some inward cause existed. When an attack was in the aggravated stage, I could not stoop to put on a shoe or lift any weight and if I managed to stoop after suffering twinges when I went to straighten excruciating pangs were sure to be my reward. Doan's Kidney Pills procured at Ireland's Pharmacy stopped every aggravated attack. I sincerely hope that backache and I have parted company."

For sale by all dealers; price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and general debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c at Fischer Drug Co., Druggists.

POPULARITY OF THE KISS.

It would be exceedingly interesting to know how the kiss has spread from nation to nation, as is has, around the world. For centuries apparently the love label, as Dr. Holmes calls it, has been known and used by even the stolid, unemotional Chinese. What is more popular than the oyster? Even the "heathen Chinese" loves the king of sea foods. At the Bon Ton you can get oysters served in such a delicious manner that the kiss is not to be compared. This is the season when they are at their best. Try a dish.

CONSTIPATION.

Health is absolutely impossible, if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having tried Herbine, I find it a fine medicine for constipation." 50c bottle. Sold by Fischer Drug Co.

A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c. at the Fischer Drug Co.'s store.

Reduced rates from all points all the time to Cloudcroft. "Ask the ticket agent."

NEURALGIA PAINS.

Rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone and being absorbed into the blood, its healing properties are conveyed to every part of the body, and effect some wonderful cures. 25c, 50c, \$1.00. OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Boarding and bathing \$2.50 per day; \$10 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

M., to Santa Fe and return for one fare for the round trip. Tickets will be on sale Nov. 14 to 19, inclusive, final return limit Nov. 21.

In tonight's issue of the New Mexican appears the statement of the First National Bank of Santa Fe at the close of business on November 10, 1904. The statement is a credit to the institution which is shown to be on a solid financial basis.

The best, most durable and handsomest book work in the Southwest is done by the New Mexican bindery.

Bankers, merchants, business men and all others who have need of blank books for the coming year will do well to call on or address the New Mexican Printing Company for samples, prices, etc. Loose leaf ledgers of a superior patent are also manufactured by this bindery. Prices will be as low as can possibly be arranged with good substantial work. Business men, not only in Santa Fe, but throughout the Territory should make it a point to send their work to the New Mexican Bindery, as it is a home institution, employs a number of skilled workmen, has the best, the latest and most improved machinery and is in all respects an up to date institution.

OTHER BUSINESS CHANCES.

I have several other commercial and business propositions to submit those desiring to enter mercantile life and to grow up with the new era of prosperity now coming in with the Santa Fe Central Railway.

CATTLE AND SHEEP RANGES.

In all parts of the Territory, and in Wyoming.

HOMES.

I will take pleasure in showing prospective investors desirable building sites in the neighborhood of the Capitol, and in the vicinity of the Presbyterian church, and other localities of the city which in a few years will be worth double the present asking price.

I have a nice cottage (double) six rooms on one side, 4 on the other, water occupies 4 rooms and the rest is for \$25 a month; good neighborhood; ample space to erect other buildings on same street; stables and other outbuildings; the price asked is very low.

Can sell at a bargain cozy home on Manhattan avenue, one a new stone house with all modern improvements; the other an adobe-brick house, 4 rooms; fruit and vegetable garden; city water, hydrant and tank; 70 choice fruit trees; currant and raspberry bushes; lot 80 by 265 feet. The stone house will be rented.

Several small houses, some stone some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

ROOMS: FURNISHED OR UNFURNISHED.

Furnished or unfurnished rooms in all parts of the city. Single or en suite, for light housekeeping. Some o-

Holds Fire 36 Hours

WILSON HEATERS!

Does it with ordinary soft coal or hard coal. This stove is the ideal heater, because the fire is never out, the rooms are heated evenly, and, best of all, it uses less coal than other stoves. In fact, we warrant it to save one-third in fuel over any lower draft stove same size. WILSON HEATER will burn briskly in the morning, with coal put in evening before, simply open draft.

DON'T PUT UP WITH YOUR OLD STOVE ANOTHER YEAR

It's false economy. WILSON HEATER saves its cost in fuel every year and gives most satisfactory heat. It is clean and sold under positive guarantee.

If you enjoy the luxury of dressing in warm rooms without the necessity of kindling new fires, try the WILSON HEATER!

New goods are being received in all Departments and are being offered at prices that will move them.

PLAZA PROPERTY.

To those wishing to catch the cream of Plaza real estate I can offer blocks at figures that will double themselves in less than three years.

SAN FRANCISCO STREET.

I have several business blocks for sale on this great mart of trade, some of them producing more than eight per cent, net, on purchase price asked.

COAL AND TIMBER LANDS.

I can sell you large tracts of land suitable for mining coal or the production of timber.

OUTSIDE PROPERTY.

At El Cuervo, 10 miles from the Room (land road, I can sell you about 640 acres; patented; excellent grazing land.

Convenient to Las Vegas, I have for sale several large tracts of desirable land and which I am permitted to sell at very low figure. One tract contains about 3,500 acres, and is located about three and one-half miles southwest of Las Vegas; nearly all of it is under fence; good grazing and water for stock; some timber. Another tract is 150 acres, 7 miles from Las Vegas; timber and grazing, with an excellent stream of water passing over it. Still another tract of 350 acres of farming, grazing and timber land, 8 miles west of Las Vegas, with running water, from it.

CHURCHES.

I am authorized to dispose of the Congregational Church, on the south side, convenient to the contemplated Union Depot. It stands upon two lots, and will be sold cheap, or the building will be repared and leased to responsible parties.

BIND YOUR MAGAZINES.

The cost is little enough and the volumes will be a valuable addition to your library. The work we do in this line is as high-class as our printing—and you know our kind of printing. We will bind your magazines in good style, half morocco, for \$1.25 per volume.

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$35 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grain, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Eaton, N. M., on this grant, are located the Coal Mines of the Eaton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

LONG RANGE WEATHER PROPHETS

Public Sentiment Must Be Aroused
Against These Fake Reports—
Meteorology and Exact
Science.

The following article is from the pen of Charles E. Linney, section director for New Mexico of the Climate and Crop Service of the United States Weather Bureau:

"To the people of the Sunshine Territory, who daily rejoice in its glorious weather, and to the many thousands who annually come within our borders seeking health and happiness under our cloudless skies, the daily forecasts of the United States Weather Bureau, as a rule, appeal by their tone of monotony, for they run 'fair weather, no decided change in temperature,' the greater portion of the time. But in many parts of the United States the constantly changing weather has led to the springing up of a small army of so-called long-range weather forecasters, who wax fat upon the unsuspecting and credulous public. Fortunately New Mexico has proven a most barren field for these mis-guided and mis-guiding individuals, and few, if any, of the local press of the Territory are given to publishing their so-called predictions.

"At the recent triennial convention of the officials of the United States Weather Bureau, at Peoria, Illinois, many scientific subjects were discussed and much research was shown, but that which most impressed the layman was the earnestness and sincerity of those present—it was apparent that they believed in their own work. The subject of long-range forecasts, especially, received earnest attention, says the Peoria Herald-Transcript, not because there is any spirit of jealousy, for the scientific weather men, such as are identified with the United States bureau and bureaus in foreign countries, find nothing of which to be envious in the sharp practice man who issues wily and apparently reliable weather predictions. The officials of the government bureau are men of science and research, and their predictions are based on science and experience in matters of this kind. They are paid by the government and do not have as an incentive towards unreliability, as in the other case, the popular opinion of the public. The discussion on long-range forecasts was prompted by a paper by Prof. E. B. Garriott, of Washington, of the central bureau. He spoke of the theories regarding weather periodicities dependent upon lunar or planetary influences and pronounced them theories of faith and not of practice. He summarized the results obtained by comparisons of maximum and minimum sunspot periods with the phenomena of the earth's atmosphere, and stated that the next advance in meteorological science must result from extensive research in solar physics and terrestrial magnetism, and comparison of solar and terrestrial phenomena. He referred to the means proposed to accomplish a world-wide plan of observation permitting systematic study of the problem.

"Public sentiment must be aroused against these fake reports. The public should discredit a newspaper which offers its columns to these people. These alleged reports are a menace and a detriment, not only to horticulture, agriculture, crops, etc., but to life. I know of several cases of severe prostrations and almost death. Men and women of nervous temperaments reading of 'cyclones' and 'complete destruction of the world,' were driven almost to the edge of their graves. Public sentiment must be aroused against this kind of business.

"It is the opinion of the leading meteorologists of the world that public interests are injured by the publication of these so-called long-range weather forecasts, and especially where such predictions relate to severe storms, floods, droughts, and other phenomena of a dangerous and damaging character. They should be discontinued by all men loving honesty and honor in scientific work, for they bring the science of meteorology into disrepute and cannot, in any manner, be made in response to a desire to advance that science along useful lines, but rather retard the work of the honest investigator, through whose efforts, only, can gain be made in the fundamental knowledge of the causation of the weather."

FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman, writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: 'A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby.' This remedy is for sale by all druggists.

The Denver & Rio Grande has announced cheap rates to St. Louis and return via Denver, Colorado Springs or Pueblo, with stopovers at Kansas City. For particulars see D. & R. G. agent.

Only Makes a Bad Matter Worse.
Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by all druggists.

MEAT MARKET.

It pays to buy good meat—pays in satisfaction, and then it goes so much farther. All can be eaten; no remnants left that are too tough or stringy to be used in made dishes. Our market is well known for the quality of meat turned out; none but the best finds a place with us. Our prices are reasonable, but quality is never sacrificed to secure an alluring price. Spare ribs, brains, sweet breads, packing house beef pork, mutton and lamb, Premium hams and bacon, farm sausage, liver, bologna, vienna pork and summer sausage.

MEADOW GOLD.

Meadow Gold Butter is pasteurized, sealed in an air-tight, moisture-proof package at the factory and is delivered to you in the same condition from our wagon. That's the reason it is always the same, and always good.

HOLDS THE FIRE

It is a great satisfaction to own a heating stove that will hold the fire all night with any kind of fuel. The genuine Round Oak will do it and keep on doing it as long as you run it. There are no seams or joints to open after a winter's use. It is tight and no amount of use can effect its fire-holding qualities. It will pay you to see it. The genuine has the name on the leg and door.

ALLGETMONEY'SWORTH

A Resume of Attractions of the Nat Reiss Carnival Company—Elks' Night Tonight.

For good, clean shows, and variety of attractions, the Nat. Reiss Southern Carnival Company, which is this week giving the people of Santa Fe an opportunity of forgetting their troubles, is the best that has ever come to this city, in fact, when one considers the size of the town, it seems very metropolitan. Every similar company on the road advertises the supposed morality of its shows, etc., but few of them come up to the standard, except on paper. The company has been here over half a week, which is ample time to draw a line, so as to say, on it, and the general verdict of the people of this city is that it is, to use a slang phrase, "all to the good."

On the "Pike," which, in its normal condition, is Lincoln Avenue, there has in the past four days been nothing but good-natured fun for all who traveled it, and not the slightest sign of any disorder or objectionable occurrence, such as usually characterize the advent of a carnival company. All the managers and employees of the company have done their utmost to make things as pleasant as possible for the residents and visitors from out of town, which reflects much credit on the proprietor and demonstrates his executive ability and his desire to give the people the worth of their money.

All of the shows have done a good business since the opening night, although the weather has been somewhat chilly for outdoor attractions. The Stadium, the feature of the company, furnishes splendid entertainment for young and old. The Fukima troupe of Japanese has in its numbers, several artists whose equal are probably not to be found in this country. The head balancing on the trapeze and the foot-juggling are far above the ordinary circus attractions. Diavolo, who jumps the gap on a bicycle is a daring young man, who will probably do his act once too often, as many of his predecessors have done. In the free show, before the Stadium, he rides down a ladder without sides, as daring a feat as could be imagined.

Dixie Land is a show that will please anyone who enjoys old-fashioned darky comedy, singing and dancing. All the members of the company can sing and shake their feet in regular plantation style.

For those who delight in the mysterious, Dreamland is sure to please as well as mystify. A young woman, supposedly under hypnotic influence, is made to fly in the air without any visible assistance. The "Ghost Show" is also on the mysterious order, although it has comedy features that are first-class.

All is not for the purpose of making fun on the "Pike," however, as there is one show that is on a very interesting and high order of instruction—the Captain Sorcho deep-sea divers, an exhibition that is of value to anyone, young or old. In it one sees the workings of a diver under water and all the appliances and methods are fully explained by the lecturer. Captain Sorcho is a splendid example of the craft, which is conceded to be the most daring of any and was in the government service for many years. He is the inventor of the telephone attachment to the diver's gear and of the automatic exhaust valve. Anyone can get his money's worth at this exhibition.

Rawson's dog and pony show is popular with the children and also with anyone who is fond of exhibitions of animal intelligence. This show is quite up to the average of trained animal shows. Another stellar attraction of the company is Mozelle, the serpentine and fire dancer and the electrical effects used in this feature are as good as any seen in a first-class eastern theater. The illustrated songs therein, in which the slides are reflected on Mozelle's costume, are an attractive feature of the performance.

The Mirror Maze and the Crazy House are good cures for the blues and they both have done a good business during the week. The Great Train Robbery, a moving picture show, is much above the average of carnival attractions, and is an excellent reproduction of a train robbery by bandits, their pursuit and capture.

All in all, the entire company is first-class and the management does not show the usual eagerness to get all the money in the town before taking its departure.

Tonight is one of the big nights of the week. The Elks of this city will turn out and there will be a grand illuminated parade, in which the local lodge of Elks and the entire carnival company will participate. After the attractions shut down for the night the members of Santa Fe Lodge, B. P. O. E. No. 460, will entertain members of the company at a smoker in the club rooms, and a program arranged by the management of the company will be

carried out for the entertainment of the hosts.

Tomorrow will be Indian School day and all the pupils of the two Indian schools will be admitted to the many attractions at half the usual price of admission. The closing night, Saturday, will be Mardi Gras night, and confetti battles will be the feature of the "Pike's" fun-making.
