## NEW MEXICO DAY AT FAIR

Last of State Days Celebrated at Louisiana Purchase Exposition Friday.

## SUCCESSFUL OCCASION

Building Thronged All Day—Reception Crowded—Speeches by Governors Otero and Francis, Judge McFie and Commissioner Hagerman.

The St. Louis Globe Democrat of the 19th instant contains the following account of the ceremonies on New Mexico day at the Louisiana Purchase Exposition, Friday, the 18th instant, which this paper re-publishes, it being of great historical interest:

"The last of the state days at the World's Fair was celebrated yesterday in the New Mexico building on the Plateau of States with exercises in front of the building in the morning and a reception from 2 to 5 o'clock in the afternoon.

"American flags were draped over the exterior of the building, while the interior was turned into a bower of green and red by palms and American beauty roses. The brilliantly colored Navaho blankets and Indian shawls which hung on the walls as exhibits, the work of the Pueblo Indians and other exhibits from this most industrious race of American Indians lent a touch of the picturesque past to the modern reception.

"At 10:30 o'clock in the morning Governor Otero arrived at the Parade entrance with the members of the New Mexico commission. The party proceeded to the Administration building, where respects were paid to President Francis. The latter, with the Philippine Scouts and constabulary and several companies of United States troops, joined the procession of carriages, and the New Mexico building was reached at 11 o'clock.

**Exercises Opened.**  
"Hon. Herbert J. Hagerman, one of the members of the commission, was master of ceremonies and opened the exercises. He spoke of the lack of funds experienced by the commission and the number of awards carried off by the Territory.

"President Francis, the next speaker, paid several very fine compliments to the commission for the New Mexico exhibit. Mrs. Sarah Douglas, the hostess, he said, had made the building one of the most pleasant on the grounds by her work in that capacity. He alluded to the desire for statehood, saying he believed New Mexico should have this.

"In response to President Francis' address of welcome, Governor Otero spoke of his St. Louis birth and said that it had always been a matter of pride with him to call himself a St. Louisian. He complimented the commission on their exhibit at the Fair and praised the immensity of the enterprise. The question of statehood was raised by him and many reasons given to support the idea. A good word for the Mexican inhabitants of his Territory was offered at the conclusion of his speech.

"Judge John R. McFie, associate justice of the supreme court of New Mexico, followed with the oration of the day, his point being the worthiness of the New Mexicans for citizenship.

"The question of the standing of the New Mexicans and Americans is one which is little understood," he said, "and many people think that they are unfit for the privileges of citizenship. The view is wrong. I have always found them industrious and law-abiding, possessing as high a view of justice as the American citizens of the Territory. I have had nine murder cases in my court during the past year," he continued, "five of which have been tried by Mexican juries and four by juries partly of Mexicans. Of these, eight resulted in convictions. I defy any state in the Union," he concluded, "to show a better record than this."

**Exercises at Building.**  
"The speaking took place from a platform erected in front of the building. At the conclusion of Judge McFie's address an informal reception was held. Attractive badges were distributed.

"At 2 o'clock in the afternoon the formal reception opened. Owing to the small size of the building and the large number of people attending the rooms were packed. A collation was served during the afternoon and an orchestra furnished music.

The receiving line stood in one of the parlors. M. W. Porterfield, superintendent of exhibits, introduced the guests. Those in line were: Governor Otero, Mrs. Otero, attired in blue crepe de chine and lace, pearls and American beauty roses; Miss Anna Hitchcock of St. Louis, daughter of Secretary of the Interior Hitchcock, blue velvet and hat; Mrs. A. M. Berger, of Santa Fe, black velvet and Irish imported lace.

## EXCLUSION OF THE JAPANESE

To This End All Labor Organizations Will Petition Congress—The Colorado Matter.

San Francisco, Calif., Nov. 21.—The American Federation of Labor, in session here today, adopted a resolution favoring the exclusion of Japanese on the same line as the Chinese. The plan adopted calls on President Gompers to appoint a committee of three to draw up a petition to Congress and also calls for a petition in every organization affiliated with the American Federation of Labor. These signed papers will be returned to the executive council and combined into a monster petition to Congress.

The convention also went on record as being unanimously in favor of the universal adoption of an advisory initiative and advisory referendum. It was agreed to secure a signed petition to be presented to Congress on this question.

**To Aid Western Federation.**  
The delegates in attendance upon the convention referred by a vote of the convention to the executive council for action a resolution expressing "gratification over the defeat of that capitalist tyrant Governor Peabody, of Colorado," and "pledged their moral and financial support to the Western Federation of Miners in its efforts to bring that gang of criminals, so called Citizens Alliance, of the Cripple Creek district, to justice."

## OCEAN LINER RUNS AGROUND

All Passengers Were Taken Off Safely—Attempts to Float Steamer Unsuccessful.

New York, Nov. 21.—The steamer Sicilian Prince, which went ashore four miles west of the life station at Long Beach, Long Island, at 5 o'clock Sunday morning, now lies hard on the beach. This morning the steamer moved two lengths in shore. The sea increased steadily and tugs which had been endeavoring to float the steamer abandoned the attempt for the time being. Soon after the tugs steamed away the liner swung half-way around and now lies with its broadside exposed to the sea. All passengers on the vessel were taken off today and brought up to this city on tugs. During the forenoon the wind hauled off shore, the sea began to moderate and conditions for floating the steamer have improved.

## COMMISSIONER JONES RESIGNS

Washington Correspondent of the New York Evening Post to Succeed Him.

Washington, D. C., Nov. 21.—President Roosevelt today announced the appointment of Francis E. Leupp, of this city, to be Indian Commissioner, vice William A. Jones, resigned. Commissioner Jones resignation and Leupp's appointment will take effect on January 1. Leupp is Washington correspondent of the New York Evening Post and has been identified with Indian affairs for many years.

## LAST TRIBUTE TO THE DEAD.

Lexington, Ky., Nov. 21.—The funeral of the late Colonel W. C. P. Breckenridge, who died Saturday evening, was the largest held here since the funeral of Henry Clay and Senator James B. Black. Leading citizens from all over Kentucky were present. The city offices and all business houses suspended business during the funeral hours.

## A DESTRUCTIVE HURRICANE.

Amsterdam, Nov. 21.—The Talutse Islands, northeast of Celebes, on the Malay Archipelago, have been visited by a disastrous hurricane, causing the water to rise to such an extent that it flooded the islands and left 30,000 persons destitute, their homes, boats and plantations being destroyed.

## KERENS WANTS SENATORSHIP.

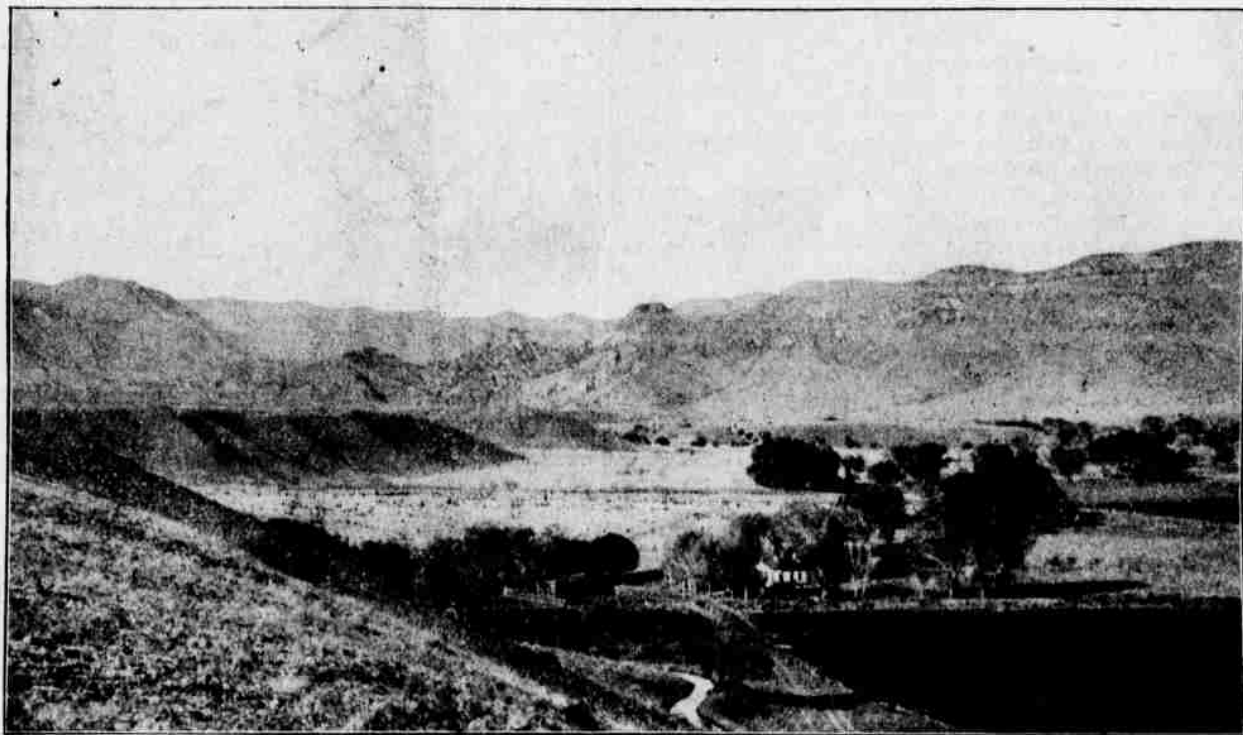

Kansas City, Nov. 21.—R. C. Kerens, of St. Louis, who is in the city today, said: "I am in the race for United States senator to succeed Cockrell, to stay. I have not asked for any office before and I believe my services to the party entitle me to this one."

Ask your friends what they think of Cloudcroft.

## BIG FIRE AT EXPOSITION

Missouri State Building Destroyed and Invaluable Portraits of Famous Men Consumed.

## BLAZE SPECTACULAR

Thousands Attracted to the Scene—One Fireman Killed and Several Injured.

St. Louis, Mo., Nov. 21.—The Missouri state building was destroyed by fire late Saturday night, resulting from an explosion of a heater in the basement. Instantly flames shot through the rotunda and the north wing and cupola were a mass of flames within ten minutes after the explosion. The principal loss is in the contents of the building. The building cost \$145,000 and in the building were \$75,000 worth of furnishings, the most valuable of which were portraits of all the former Missouri governors and supreme judges. These cannot be replaced.

The fire was the most spectacular that has occurred in St. Louis in years. Thousands of persons flocked from all parts of the grounds to the scene. After the flames had been sufficiently extinguished to admit of firemen entering the building, the south wall fell without warning and buried several firemen under the debris. Several streams of water were instantly turned upon the ruins and the men were rescued before the fire spread to where they were entombed.

While responding to the alarm of the fire in the Missouri building, Captain O'Neill of World's Fair truck No. 4 was seriously hurt, George Carbenback was killed and Jerry Faggan, of the same company, was probably fatally injured. It was necessary for the truck to pass through the mining gulch and owing to the darkness the horses left the road. They separated when approaching a large tree, the pole striking the obstruction with terrific force, upsetting the truck and hurling the crew in every direction.

## HEARD IN THE HOTEL LOBBIES

Arizona is to have a new industry, all to itself, and there is not much danger of any imitations or encroachments in the same field by any other states or territories. It is rather a unique vocation that the newspapers of this vicinity will have an opportunity to boom among the budding industries of the southwest. Camel-raising has probably not appealed to residents of the southwest as a lucrative business, but that is the idea that certain easterners are going to work on.

"It is not generally known," said a well-known traveling man at the Claire last night, "that about 30 years ago the government imported a herd of camels to be used for transportation across the desert of Arizona. The experiment did not prove successful and the ships of the desert were turned loose and allowed to roam the country at their own sweet will. Some time later a Frenchman tried to revive the business and brought another herd to Arizona, he also failing. The two herds mixed and increased. Ten years after, W. A. Sells, the old circus man, organized a hunt,

## CLAMOR FOR CONSTITUTION

Popular Demonstrations Throughout Russia Cause Intense Excitement.

## RIOTS MAY ENSUE

Zemstvos Movement Still Increases and Capital is Full of Liberals—Unparalleled Occurrences.

St. Petersburg, Nov. 21.—Interest in the meetings of the Zemstvos is intense. War is temporarily forgotten and nothing else is talked of. The Liberals are flocking here from all parts of Russia. Hotels and lobbies are crowded almost resembling convention times in an American city. The permission as granted by the Minister of the Interior was for an assembly of only 300. The situation is altogether unparalleled. Nothing approaching such a gathering has ever before been permitted in Russia.

As an evidence of the remarkable state of affairs, it is sufficient to mention that one of the most prominent speakers yesterday was M. Petrunkievich, who spent 24 years in exile and who had only been allowed since Prince Sviatopolk-Mirsky became Minister of the Interior to come to the capital. Nevertheless, the most able men in the assembly are counselling moderation and are doing everything possible to prevent any demonstrations which might compel interference.

One of the strongest members of the conference said to a correspondent of the Associated Press: "We want to make our position plain to the government, but we desire to avoid every appearance of lawlessness. I sincerely hope this meeting will be productive of great good. We hope and expect that all provincial and district Zemstvos will follow our lead and demonstrate to the government that the voice of the nation is unanimous in asking for a direct share in the government by the people."

At a meeting of the delegates today section 9, of the Memorial, by an overwhelming vote, was strengthened into a practical recommendation for a parliament. Sympathetic demonstrations are reported in various parts of Russia.

In company of a number of hunters and cowboys and tried to capture some of the animals for his show, but the horses would not approach within several hundred yards of the camels and they had to give up the attempt.

"Sells, nothing daunted, made a second trial the following year and used as mounts for his assistants, horses from the circus that were accustomed to the humped animals, and succeeded in capturing fifteen of them, which he added to his menagerie. Six of them died or got away but the other nine went into the circus business.

"This is what William Sells, son of the late showman, is going to do in Maricopa County, in the vicinity of the cactus plains, near Gila Bend, where it is reported there are many wild camels. He estimates that there are upward of 2,000 camels in the territory and with fifty mounted men carrying lassoes, he will make a raid on the herds and take those captured, if he gets any, to his ranch in Kansas, where they will be broken for the circus business."

## ELECTION STATISTICS

A Healthy Increase in the Population of New Mexico Indicated by Total Vote.

## INTERESTING FIGURES

The Democratic Strength Lies Not in the Pecos Valley But in the Spanish Speaking Counties.

From the election returns in a Presidential year, statisticians are accustomed to estimate population by multiplying the vote cast by five. This method applied to New Mexico returns would give the population of the Territory as 216,000. This is probably too low, for in New Mexico, owing to the great distance that many people must travel to their polling place, and because the exciting features of a Presidential campaign have but a remote influence upon Territorial elections, the full vote is never brought out, although this year a heavier vote was cast in the Territory than ever before, and with the exception of a few counties, a larger percentage of the total vote than ever before was polled. However, multiplying the vote cast by six will probably yield the population figures, at least, the true figures lie between the multipliers of five and six. This would give the population of New Mexico, upon a liberal estimate, as 259,000, over one-ninth of whom dwell in San Miguel County with a population of 29,300, Bernalillo coming second and Rio Arriba third with Santa Fe sixth. The population of each county, multiplying the vote cast for delegate to Congress this month by six, is as follows:

San Miguel	29,300
Bernalillo	20,000
Rio Arriba	18,500
Colfax	16,900
Socorro	16,500
Santa Fe	15,800
Mora	14,100
Taos	11,400
Valencia	11,200
Dona Ana	11,100
Grant	10,700
Union	10,100
Chaves	9,200
Otero	8,500
Leonard Wood	8,200
Lincoln	7,900
Sandoval	7,000
San Juan	5,000
Sierra	4,900
Torrance	4,800
Quay	3,900
Eddy	3,700
Roosevelt	3,500
McKinley	3,200
Luna	2,900

It is folly to believe that the heavy Democratic vote comes from the Pecos Valley, or as the Democratic politicians often brag, from the English-speaking counties. Almost one-third of the total Democratic vote comes from the Spanish-speaking counties of San Miguel, Santa Fe, Mora and Socorro. San Miguel County alone cast more Democratic votes than Chaves, Eddy, Roosevelt and McKinley Counties, all English-speaking, together. In proportion to population, Roosevelt is the most Democratic of New Mexico Counties, for it gave 83 per cent of its vote to George P. Money; Eddy County gave 68 per cent; Chaves County 64 per cent, and Luna only 53 per cent. The following was the Democratic vote, by counties:

San Miguel	2,095
Santa Fe	1,161
Mora	1,091
Socorro	1,060
Chaves	991
Rio Arriba	987
Grant	969
Colfax	945
Bernalillo	898
Dona Ana	844
Union	755
Taos	727
Otero	687
Leonard Wood	678
Lincoln	571
Roosevelt	472
San Juan	450
Sierra	408
Eddy	402
Quay	350
Luna	254
McKinley	177
Torrance	139
Sandoval	47
Valencia	6

While San Miguel gave the heaviest Democratic vote, it also gave the largest Republican vote, Rio Arriba coming second and Valencia third, with Colfax a close fourth. It is erroneous to suppose that the counties giving the largest majorities are the most essential in a campaign. Had no Republican votes been cast in San Miguel, Colfax and Santa Fe Counties, all three considered doubtful before election day, the Republican candidate would have been defeated despite the heavy majorities of Valencia, Rio Arriba, Sandoval and Torrance Counties. Bernalillo now occupies thirteenth place among

## STATEHOOD FOR THE TERRITORIES IN THE SHORT SESSION.

The Washington Post, concerning the question of statehood for the Territories of New Mexico, Arizona and Oklahoma and the Indian Territory comments editorially thereon in a recent issue very sensibly and properly. Nothing in the editorial can be construed to mean statehood for New Mexico and Arizona combined under the name of Arizona, and for Oklahoma and the Indian Territory under the name of Oklahoma. Quite the reverse. From the wording of the editorial, it may be presumed that the Post favors single statehood for the four territories and this presumption seems to be right. New Mexico in the recent election turned down Delegate B. S. Rodey, and that very decisively. There were several reasons for this action, one of the first and principal being that Mr. Rodey advocated joint statehood for the territories of New Mexico and Arizona, when the people of neither wanted such, but desired and do now desire single statehood for each within present territorial limits and under present territorial names. In their platform the Republicans of New Mexico declared strongly and unequivocally for single statehood only, while the Democrats of New Mexico, although favoring single statehood only, straddled the question in their convention, but did not ask for joint statehood. In Arizona, both party conventions declared unequivocally and strongly against joint statehood and demanded single statehood only. New Mexico went strongly Republican upon this issue in the recent election and elected Senator W. H. Andrews by a plurality of over 5,000, and by a clear majority of about 2,000 over both his opponents—George P. Money, the regular Democratic nominee, and B. S. Rodey, who ran as an independent and who tried to make the joint statehood issue prominent in the campaign. There were nearly 44,000 votes cast at this election, of which Rodey received but 3,400, which shows, were all these votes to be counted for joint statehood, that less than one-twelfth of the voters favored Rodey's joint statehood bill. In truth, however, the Rodey vote does not express altogether such a sentiment, as about 1,500 of the votes cast for Rodey in the country precincts of Bernalillo County were voted for him on account of the dirty political tricks perpetrated by the Republican Central Committee of that county, and in truth and in fact were opposed and are opposed to the joint statehood bill. It may be presumed that about 2,000 of the 3,400 votes cast for Rodey voted for him because they favored joint statehood and that means that less than eight per cent of the voters of New Mexico favor joint statehood, while over 91 per cent desire single statehood and single statehood only. The result of the election of Tuesday, November 8th, proves to a remarkable and strong degree the assertion made during the year by this paper that at least nine-tenths of the voters of New Mexico were opposed to joint statehood, and would vote for a constitution for the state of New Mexico within its present territorial limits only. These are facts which are so patent and so plain that even Mr. Rodey, with all his intense but ill-advised support of joint statehood cannot explain them away. They are here to stay and must be recognized.

The New Mexican reproduces the editorial from the Post, as it contains a fair and correct presentation of the rights of the territories for single statehood, always, however, holding to the fact that joint statehood for New Mexico and Arizona would be not only unwelcome but would be rejected by the people, and that by at least a nine-tenths vote against the scheme. The Post says: "Friends of the administration are already forecasting the program for the short session of Congress, and are intimating that nothing will be considered except the regular appropriation bills necessary for the maintenance and operation of the different departments for the next fiscal year. There is rather a direct intima-

tion that many of the measures offered at the last session and deferred 'until after the Presidential election' will be allowed to lie in their present comatose state, to be renewed with the first session of the Fifty-ninth Congress, in December, 1905.

"Congressional history shows that the short session is seldom productive of much general legislation, but, in this instance, there would seem to be no just excuse for a further delay of action on the measure of granting statehood to Oklahoma, Indian Territory, Arizona, and New Mexico. There is no need of any discussion of the proposition. New Mexico has been clamoring for admission for more than thirty years, and has been promised it in the platforms of every national convention, with the exception of this year, since the days when Stephen B. Elkins, now senator from West Virginia, represented the Territory in the House. Oklahoma's astonishing development in the last six years has fully established her claims to recognition and admission as a state, and the claims of the other territories have been dinned into the ears of both branches of Congress, until there is nothing left to be said beyond reiteration in support of the claims for statehood for the territories. The fear that the party in power might suffer politically by the admission of the territories has been dissipated by the recent election returns, and there is now no shadow of excuse for denying these progressive people the rights to which they are entitled.

"Rich in every resource necessary to make them great and prosperous, the residents of these territories are suffering under handicaps due to their territorial form of government, that are almost intolerable. Nearly 500,000 white citizens of the Indian Territory, nearly all of whom are native-born Americans, are without schools, without public roads, without proper courts, and deprived of the power to provide these essentials to civilization and progress. Their patience, under the conditions, has been remarkable, and should be rewarded by their admission to full enjoyment of the rights granted to citizens of other states. A bill granting statehood to the territories should be passed at the coming session. In no other way can Congress discharge its obligation and duty to 3,000,000 enlightened, progressive, enterprising citizens of the republic."

The property owners of the Territory, the bone and sinew of the commonwealth, do not begrudge the payment of taxes for the support of the Territorial educational, charitable and penal institutions. On the other hand, the tax dodgers and the four by nine statesmen who pay no taxes are the greatest howlers concerning the fearful burden imposed upon them by the Territorial tax levies. It was always thus.

Colonel Henry Watterson is going to Europe for rest and recreation and that for several months. He wants to get away from Democratic reorganizing schemes. He says that he has no hope for the Democratic party until the Republican party "busts up." As this in the very nature of things will not happen for some time, the Colonel proposes to enjoy himself in the effete monarchies of Europe.

The Russian war office has managed to get information to General Stoessel at Port Arthur that the Baltic squadron is on its way to relieve him. The Japanese admirals have also received this information, and the chances are that they will be on hand to receive the Russian fleet in such shape that it will be unable to do much relieving of Port Arthur.

Commissioner of Pensions Eugene F. Ware, who has just resigned, gives as his opinion that two years service as commissioner of pensions are equal to about eight years in purgatory. It will be remembered that Mr. Ware is a poet of no mean talent; nevertheless, there is likely more truth than poetry in his assertion.

A new drama, named "The Sin of David," is to be brought out in a New York theater shortly. Why cannot they leave Dave Hill alone? The sage of Wolfert's Roost is to retire from politics within a few weeks and his sins should be retired with him.

Several judges and United States marshals in Alaska have been asked to resign. If they do not resign, they will be removed. The President evidently does not care to continue corrupt and dishonest officials of the Department of Justice in office.

The Filipinos are adding insult to injury towards Judge Alton Brooks Parker, Edward Atkinson and the rest of the anti-imperialists. They have just celebrated the election of President Roosevelt in great shape in Manila.

The Cabinet makers of the great newspapers of the country might just as well stop. Mr. Roosevelt is perfectly able to make his own Cabinet without their advice, and what is more, he will do that very thing.

The fight between the reorganizers and the Bryanites in the Democratic party has already commenced. When or where it will end, no man can tell at this writing.

## THE ELEPHANT BUTTES DAM.

It looks as if the reclamation service of the Department of the Interior will consider favorably the so-called Elephant Buttes dam and reservoir project on the Rio Grande, and that work thereon will commence as soon as the necessary surveys, plans and specifications for the system can be made and completed. This reservoir, according to the best of calculations, if completed, will impound enough water for the irrigation and cultivation of about 150,000 acres of fertile land in Sierra and Dona Ana Counties in this Territory and in El Paso County, Texas. In New Mexico, north of the land grants in Dona Ana County, the land will be public domain, subject to homestead and desert land entry. If the project shall be carried out as now contemplated, thousands and thousands of acres of land now practically worthless except for grazing purposes will be put under cultivation and made into fertile and well paying farms, which of course means a great increase in the population of that section. The Mesilla Valley, which is already one of the garden spots of New Mexico, will prosper as never before in its history and will treble and quadruple its population and wealth under the water system to be provided by the Elephant Buttes Reservoir. The Mesilla Valley is all right.

The territorial vote of November 8th last shows an increase of several thousands over that of election day of November 1902. This is a sure sign that the population of New Mexico is steadily on the increase.

Counterfeit ten dollar bills are said to be in circulation. Editors of New Mexico newspapers need not fear them. In the very nature of things, they see but few ten dollar bills, genuine or counterfeit.

Mr. Bryan asserts that he is master of the political situation as far as the Democratic party of the country is concerned. It cannot get along without him and it certainly cannot get along with him.

Railroad accidents have been very frequent this year and have been attended with fearful loss of life. The railroad managements should bear in mind the commandment "Thou shalt not kill!"

Ex-United States Senator David Bennett Hill, the original discoverer of Judge Alton Brooks Parker, is to retire from politics on January first. He ought to after his recent fiasco.

Times are certainly prosperous again. The newspapers in the larger towns of the country report a great increase of pick-pockets. This class never flourishes in hard times.

Georgia Democratic papers are roasting Thomas E. Watson, and that in great shape. "A prophet is not without honor save in his own country."

The territorial road laws need amending, and the thirty-sixth legislative assembly should do this work in the right direction.

\$390 FOR LETTERS ABOUT THE SOUTHWEST.

The Rock Island system offers 20 prizes, of the aggregate value of \$390, for letters relative to the territory along its lines in Arkansas, Kansas, Indian Territory, Oklahoma, Texas and New Mexico. Letters should deal with the writer's experiences since he settled in the southwest. They should tell how much money he had when he arrived, what he did when he first came, what measure of success has since rewarded his efforts and what he thinks of that portion of the country in which he is located. Letters should not be less than 300 nor more than 1,500 words in length and will be used for the purpose of advertising the southwest.

Letters are desired not only from farmers and farmers' wives, but also from merchants, school teachers, clergymen; from everyone, in brief, who has a story to tell and who knows how to tell it.

For circular giving details, write John Sebastian, passenger traffic manager, Rock Island system, Chicago, Illinois.

All legal blanks at the New Mexican.

MANUEL R. OTERO, Register.

A Runaway Bicycle.  
Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 25c. at the Fischer Drug Co.'s store.

If you go there once, you'll go again. Mining men, bankers, capitalists, merchants and laboring men all go there. Where? To the Bon Ton.

Doesn't Respect Old Age.  
It's a shame when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect Pill. 25c. at the Fischer Drug Co.'s Drug Store.

FREE LUNCH.  
A man, who probably knows, says that there is no meal so expensive as a free lunch. The best meals in the city can be had at the Bon Ton for 25 cents.

CURED CONSUMPTION.  
Mrs. B. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c, \$1.00. Sold by Fischer Drug Co.

## THE PLACE TO LIVE

Advantages That New Mexico Has to Offer the Home-seeker and Capitalist.

## GREAT FARMING AND STOCK RAISING BELT

This Territory Bids Fair to Become One of the Richest Sections of the Country.

J. J. Vernon, professor of Agriculture and Horticulture in the New Mexico College of Agriculture and Mechanic Arts, at Las Cruces, gives some interesting data concerning the advantages that New Mexico has to offer home-seekers and capitalists. He discusses at length the water supply, soil, transportation facilities, stock raising and range conditions, farm crops and the growing of alfalfa, in the following article:

"From the standpoint of personal comfort and healthfulness, New Mexico's climate conditions are unsurpassed. From an agricultural standpoint, the climate of New Mexico is peculiarly advantageous. Farm operations may be carried on throughout the whole year. When the more northern states are locked in winter's frosty grip and the farmers are feeding large quantities of feeds grown the previous summer, the New Mexico farmer is sowing his wheat and alfalfa, and preparing his soil for crops of corn, sorghum, beans, chili, potatoes, etc. Furthermore, the growing season is so long, in view of the fact that wheat may be sown in December and harvested in June, that two field crops may often be grown in one season, such as wheat followed by corn. Vegetables may be grown in the cold frames during the whole of the winter. Livestock require no shelter whatsoever, and on the ranges no feeds have to be provided, except for carrying through thoroughbred bulls that have been placed upon the ranges after maturity.

### Water.

"Irrigation waters in New Mexico are universally good. In a very few localities, difficulty is met with owing to bad irrigation methods and lack of drainage. It is almost impossible to find streams of any considerable importance within our borders, the water of which is unfit for irrigating crops if rightly handled. In fact, many of the streams have superior qualities, such as dissolved fertilizing elements and suspended matter in the form of silt—all of which have prevented the depletion of the soil fertility, although it has been cropped for a great many years.

### Soil.

"New Mexico Valley soils are formed almost wholly from the river deposits in former ages. The soil and sub-soil seem to have the same origin. These soils are very fertile and this condition is maintained by the deposition upon the land of the fertilizing elements carried in the irrigation waters. Whether or not the soil of New Mexico is richer in plant food than the soil in the rain belt, the assertion may safely be made that an acre of land in New Mexico with abundant water for irrigation throughout the year is equal in productive capacity to from two to four acres anywhere in the rain belt. This fact is due in a great measure, at least, to the influence of the water which under irrigation can be applied to the crops at the critical moment, thus greatly increasing the yield. Furthermore, several crops of alfalfa are harvested in a season without apparently exhausting the soil fertility.

### Transportation.

"The rapid development of the country depends quite as much upon the transportation facilities as upon any other single thing. The building of railroads so that they tap every conceivable agricultural and mining section would not only bring these sections into closer touch with the markets and distributing centers of the country, but it would also create and foster a very large number of consuming centers of various sizes within our borders. With the prospective development that has been recited, capital is not likely to be slow in providing means for moving and distributing the products of the country.

**Stock Raising and Range Conditions.** "The recent drought has no doubt fallen heavily upon the live stock industry largely because of the bad conditions of the ranges to start with. It is a fact beyond controversy that our ranges have been taxed far beyond their carrying capacity. Overstocking of the ranges is now almost universal, resulting in the trampling and consequent death of the grass upon large areas and the very perceptible injury to other considerable range areas. This denuded conditions permits erosion, which still further incapacitates the ranges.

"The carrying capacity of our ranges has decreased fully 25 per cent under the present system of management, and in many sections considerably more. It is useless for the individual raising stock upon the open range to undertake anything alone in the way of range improvement. If he should be so foolish as to do so, as soon as his range became strong some tramp herd, in the rainy season, would proceed to eat him out.

"Stock raising which, in New Mexico, Continued on Page Six.

## NAGGING PAINS

Newport News, Va., July 22, 1903. Last summer while recovering from illness of fever, I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I cheerfully recommend S. S. S. to any one suffering from Rheumatism. 613 32d St CHAS. E. GILDERSERVE.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles and joints, produce the sharp, cutting pains and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and filtered out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy. Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

### CERTAIN RESULTS.

Many a Santa Fe Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Santa Fe. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

Nazario Alarid, hackman, of Cerrillos road, says: "I was continually buying medicine for my kidneys, and if a man spends every now and then 50 cents for a bottle of one guaranteed preparation and 50 cents at another time, he makes an inroad into his finances. None of the medicine I used had the slightest effect on my kidneys or backache, at least I was unable to notice any. When an attack of backache reached the virulent stage, I was compelled to stop work for an hour until the spasm disappeared. When wrestling with an attack, I went to Ireland's Pharmacy for Doan's Kidney Pills. There must be more than ordinary merit in that preparation, for a course of the treatment for a short time positively stopped the very severe attack."

For sale by all dealers. Price 50 cts. Foster McBurn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

### Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by all druggists.

### AT THE OPERA HOUSE TONIGHT.

Lovers of melodrama will find one very much to their liking at the Opera House tonight, when Rowland & Clifford present Joseph Le Brandt's latest effort, "Over Niagara Falls." Much that is new to melodramatic attractions is included in this play. Novel character drawing; a unique plot that is away from the old hackneyed ideas so much in vogue; scenic and mechanical effects that are meritorious, and electrical appliances, the invention of which has been necessitated by some of these effects are shown. Rowland & Clifford have taken much care with this production, and one of the season's greatest successes is the result. A fine cast fills the various parts.

## MINOR CITY TOPICS

Jose Sanchez, of the Fischer Drug Company, is able to be at work after an attack of the grip.

The members of Company F, First Regiment of Infantry, New Mexico National Guard had a very successful rifle practice at the range yesterday afternoon and a number of good scores were made.

Last Friday evening's train No. 7, of the Santa Fe Railway, arrived in Santa Fe late Saturday evening. Trains Nos. 2, 8 and the westward bound flyer of Saturday noon arrived at 7 o'clock in the evening, while Sunday's trains were even later.

Trading in Santa Fe Gold and Copper Mining Company's stock was unusually heavy last week on the Boston Mining Exchange, 16,915 shares changing hands and the price ranging from \$2.12 to \$3.50, the highest figures attained for a long time.

Mayor A. R. Gibson has succeeded in swelling his subscription for the proposed breakwater between College Street and Don Gaspar Avenue to \$340. The last subscribers were: Max Frost \$10.00, New Mexican Printing Company \$10.00 and J. R. Valencia \$5.00.

The Board of Health will meet this evening at the council chambers in the Delgado block. The meeting was called by Mayor A. R. Gibson for the purpose of taking steps toward the prevention of typhoid fever and diphtheria, of which it is reported there are a few cases in the city. Sanitary conditions will be investigated and rigid measures adopted to prevent further cases.

Mrs. Jesuita de Gutierrez passed away Saturday afternoon at her home on Lower Agua Fria Road after an illness of two weeks of fever. She was 60 years of age and a native and life long resident of Santa Fe County. The deceased leaves four sons and one daughter. The funeral will be held Thursday morning at 8 o'clock from Guadalupe church and the interment will be made in Guadalupe cemetery.

Martin Chavez and Miss Francisquita Gonzales were united in marriage at the Cathedral at 8 o'clock this morning by Vicar General Anthony Fourcheque. Mr. and Mrs. Faustin Garcia attended the bridal couple and after the ceremony there was a reception at the home of the bride, at which there was a large attendance of relatives and friends of the contracting parties. This evening a dance will be given them at the home of Simon Vigil.

The Baptist convention which has been in session at Las Vegas, closed its sessions last night. The convention was well attended by members of this church throughout the Territory. Professor J. A. Wood of this city was elected first vice president for the ensuing year. The other officers are as follows: President, J. A. Armstrong, Silver City; second vice president, R. P. Pope, Hondo; secretary, Geo. H. Brewer, Phoenix, Ariz.; assistant secretary, W. H. Rishel, Velarde; treasurer, W. N. Algor, Albuquerque.

Bankers, merchants and business men generally should bear in mind that the bindery of the New Mexican Printing Company manufactures the best books, such as journals, ledgers, cash books, day books, etc., in the southwest, at the lowest possible prices and in first-class shape. Loose leaf ledgers a specialty. Satisfaction guaranteed. Write or call at the New Mexican Printing office for samples and prices.

The train from the south and west was over three hours late today.

Many turned out to hear the concert given by Professor Perez's First Cavalry band in the Plaza yesterday afternoon.

It was reported this afternoon that Mrs. W. E. Griffin, who is very sick with typhoid fever, passed a good night

last night and that today her condition was more hopeful.

The city council will meet in special session at the office of the city clerk this evening. All the members are requested to be present as important business will come before the meeting.

Chris Seligman, formerly in business in Las Vegas, but more recently in El Paso, Texas, is contemplating a move from the Pass City to Bisbee, Arizona, where his line of business is said to be brisk.

Santa Fe Lodge No. 259, Fraternal Union of America, will hold their regular weekly meeting tonight at 7:30 o'clock at K. of P. Hall. Business of importance will be transacted and the election of officers will take place.

The attraction at the Opera House tonight will be Rowland & Clifford's stirring melodrama "Over Niagara Falls." The stage setting for this attraction is very fine. The advance sale of seats has been large and the company is assured of a good house.

The weather bureau has placed a couple of frames in the lobby of the post office in which are displayed the Denver daily weather map and the national weekly and monthly weather and crop bulletins issued in Washington, D. C., for the benefit of the public.

On the seventh page of this issue is printed a list of legal blanks which are kept in stock and for sale by the New Mexican Printing Company. These blanks all conform to the laws of the Territory of New Mexico. The list will be printed from time to time for the benefit of the public.

The street carnival has come and gone and everybody had a good time. It is now up to the city authorities to see that Lincoln Avenue, one of the principal thoroughfares of the city, is given a prompt and thorough cleaning, before the numerous papers and other trash are blown into the other streets and become a nuisance to the public in general.

Fair weather tonight and Tuesday, is the forecast issued today by the weather bureau. Yesterday the thermometer registered as follows: Maximum temperature at 3:55 p. m., 50 degrees; minimum temperature at 7 a. m., 24 degrees; mean temperature for the 24 hours, 37 degrees; relative humidity 44 per cent. At 6 a. m. today the thermometer registered 33 degrees.

By a trust deed, filed in the office of the probate clerk of Santa Fe County on Wednesday last, the Albuquerque Eastern Railway Company, now constructing a line from Moriarty on the Santa Fe Central to Albuquerque, mortgages and property, franchises and equipment of the railroad to the Pittsburgh Trust Company, of Pittsburgh, Pennsylvania. Delegate-Elect W. H. Andrews, president of the Albuquerque Eastern, and W. S. Hopewell, general manager of the company, are both in Pittsburgh, and as they are the only men in position to explain the significance of the instrument filed in this city, there is nothing but speculation as to its meaning. It is believed, however, in well informed circles, to point to the successful placing of the bonds of the new road and its immediate completion into Albuquerque.

## ELECTION STATISTICS

the counties as to the total Republican vote cast, taking place between Grant and Otero Counties, both normally Democratic Counties. The Republican vote, by counties, was as follows, Santa Fe County taking seventh place:

San Miguel	2,357
Rio Arriba	2,014
Valencia	1,821
Colfax	1,794
Socorro	1,513
Mora	1,213
Santa Fe	1,110
Taos	1,105
Sandoval	1,095
Dona Ana	983
Torrance	894
Grant	736
Bernalillo	717
Otero	699

Leonard Wood	673
Lincoln	643
Torrance	639
Chaves	502
Sierra	379
McKinley	372
San Juan	345
Eddy	199
Quay	295
Luna	154
Roosevelt	96

Valencia County gave 98 per cent of its vote for the Republican candidate; Sandoval 95 per cent, Torrance 80 per cent, Rio Arriba 65 per cent, and Colfax 64 per cent.

Of course, pluralities are not always in proportion to population and vote cast. The following is the order of counties by Republican pluralities:

Valencia	1,185
Sandoval	1,048
Rio Arriba	1,027
Colfax	849
Torrance	500
Socorro	453
Taos	378
San Miguel	262
McKinley	195
Dona Ana	139
Union	139
Mora	122
Lincoln	72
Otero	12

Naturally, Bernalillo County is Republican, which would increase the number of Republican counties to fifteen, but this time it saw fit to give an independent candidate not only a big plurality, but even a majority over the other two candidates, and the Democratic candidate a plurality over the Republican, thus giving him eleven out of the twenty-five counties in which he had a plurality, as follows:

Chaves	489
Roosevelt	376
Grant	233
Eddy	203
Bernalillo	181
San Juan	103
Luna	100
Quay	55
Santa Fe	51
Sierra	29
Leonard Wood	5

The greatest gain in the total vote is shown by Rio Arriba County, which cast 420 votes more than two years ago. Colfax shows an increase of 326 votes, Socorro 306, Chaves 285, Otero 248, Union 229, Mora 216, Dona Ana 160, San Miguel 95, San Juan 92, McKinley 59, Grant 41, Leonard Wood 2.

The greatest loss in total vote, compared to two years ago, is shown by Bernalillo County, 625 votes, owing to the creation of Sandoval County. Valencia County lost 196 votes, owing to the creation of Torrance County. Lincoln County lost 140 votes, having given some area to Torrance County; Santa Fe County 102 votes, having given Espanola precinct with 107 votes to Rio Arriba County, and Moriarty precinct with 38 votes to Torrance County. Taos County lost 53 votes; Eddy County 35 votes and Luna County 25 votes.

Only four counties gave the independent candidate over 100 votes, one-half of his total vote coming from Bernalillo County and almost eighty per cent coming from four counties. The independent vote was as follows:

Bernalillo	1,699
San Miguel	421
Santa Fe	359
Socorro	162
Lincoln	88
Rio Arriba	80
McKinley	74
Luna	71
Colfax	64
Grant	63
Taos	60
San Juan	39
Mora	37
Chaves	34
Valencia	31
Sierra	28
Otero	28
Union	23
Dona Ana	23
Torrance	21
Leonard Wood	15
Roosevelt	10
Sandoval	9
Eddy	4
Quay	4

## WHAT YOU WERE LOOKING FOR.

The Bon Ton has on hand for its winter trade 80 gallons of pickled chile's, 80 gallons of fine dill pickles and about 100 gallons of excellent sauer kraut, prepared under the manager's personal supervision, and it goes without saying that they are "all right." Everybody who has patronized this up-to-date establishment knows that it handles nothing but the best. Mr. Conway says that he is making a special effort to serve the best meals in the city for as little money as is consistent with the times.

The Santa Fe announces another series of home-seekers' tickets from points in the middle west to New Mexico and Arizona, the rate for the round trip will be one fare plus \$2 and tickets will be good for 21 days from date of sale. They will be sold every first and third Tuesday from May to December.

## Holds Fire 36 Hours

# WILSON HEATERS!

Does it with ordinary soft coal or hard coal. This stove is the ideal heater, because the fire is never out, the rooms are heated evenly, and, best of all, it uses less coal than other stoves. In fact, we warrant it to save one-third in fuel over any lower draft stove same size. WILSON HEATER will burn briskly in the morning, with coal put in evening before, simply open draft.

## DON'T PUT UP WITH YOUR OLD STOVE ANOTHER YEAR

It's false economy. WILSON HEATER saves its cost in fuel every year and gives most satisfactory heat. It is clean and sold under positive guarantee.

If you enjoy the luxury of dressing in warm rooms without the necessity of kindling new fires, try the WILSON HEATER!

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

### GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Eaton, N. M., on this grant, are located the Coal Mines of the Eaton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

## THE PLACE TO LIVE

Continued from Page Three.

co, is almost entirely dependent upon the public ranges, is a source of great wealth to the Territory, and too strong a plea cannot be made in favor of a change in the methods of handling the ranges. Most of the stockmen recognize the need of a change, and it is believed that very few would object to a change if a system could be hit upon that would be fair to the stockmen and at the same time allow for the entry and legitimate settlement of public land within the range areas. It is evident that there must be some change in the methods of the carrying capacity of our free public ranges are to be maintained, or their former production capacity re-established. The present methods amount to little more than mining, for like mining when the ranges are eaten over new feeding grounds are sought until finally none are left. The interests involved are so large and the people that would be affected by a change are so numerous that a thorough investigation by competent persons would no doubt throw much light on the vexed question. It is to be hoped that the preliminary investigations that have already been inaugurated will create such widespread interest that eventually such legislation will follow as will not only prevent the utter depletion of our ranges, but will restore them to their normal condition.

#### Farm Crops.

"The leading crops in New Mexico are alfalfa, wheat, corn, fruits and vegetables. There are a number of other crops grown, some of which are very important in certain sections. Almost every crop that is grown in the temperate zone can be grown in New Mexico.

#### Alfalfa.

"Alfalfa is of so great importance in New Mexico that more than a passing glance should be had of it. In New Mexico, alfalfa is grown on almost every kind of soil—from the lightest loam to the heaviest adobe (clay). Here it seems to find its natural environment in the way of soil, water, and climatic conditions. Wherever water is plentiful, it produces from four to five cuttings each year, yielding from three to seven tons of what is conceded the world over to be the most nutritious hay grown. Repeated chemical analysis and digestion experiments with animals have proven beyond a doubt that this is true.

"The cost of growing alfalfa is very small; in fact, the growing of alfalfa requires so little knowledge of the science and art of agriculture that a very large portion of the tillable lands are devoted to this one crop to the exclusion of the others. In this respect, it is a detriment to the country for the reasons that a more diversified system of agriculture would relieve the glutted markets, distribute farm occupations, more nearly control foreign importations, etc. The cost of producing alfalfa is not to exceed \$4.00 per ton, taking an average, but the large alfalfa growers who have their land in excellent condition, and who use the latest improved machinery in harvesting the crop are able to put their alfalfa on board the cars at from \$3 to \$3.50 per ton. First-class alfalfa hay, baled, sells for from \$7 to \$8 per ton in the summer season, and from \$8 to \$16 per ton during the winter and early spring. So far, prices for alfalfa have not seriously suffered on account of the large production, but even with a great increase in production there is another avenue through which very large quantities could be disposed of. Feeding alfalfa hay to cattle, sheep, goats and hogs would furnish a means of disposing of very considerable quantities and it could be profitably fed to such animals as soon as the price of alfalfa drops somewhat below the present prices received for it.

#### Feeding Alfalfa.

"The results of some feeding experiments on the New Mexico Agricultural Experiment Station farm are given below:

"Range steers returned for the alfalfa hay consumed from \$10.71 to \$12.81 per ton.

"Range lambs returned from \$11.89 to \$13.82 per ton for the hay.

"A very interesting point in connection with the lamb feeding was the fact that the lot of lambs that were fed all the corn they would properly consume (corn figured at \$1.27 1/2 per 100 pounds) returned the greatest profit on the alfalfa hay consumed, after the corn was paid for. From the results obtained in these experiments, the conclusions were drawn that when alfalfa hay dropped to \$5 per ton in the stack it could be profitably fed to range steers, and that when the price dropped to \$9 per ton in the stack it could be profitably fed to range sheep and lambs."

#### FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman, writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: 'A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby.' This remedy is for sale by all druggists."

Only Makes a Bad Matter Worse.

Perhaps you have never thought of it but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pills only makes a bad matter worse. Chamberlain's Stomach and Liver Tablets are much more mild and gentle in their effect, and when the proper dose is taken their action is so natural that one can hardly realize it is the effect of a medicine. Try a 25 cent bottle of them. For sale by all druggists.

## OJO CALIENTE HOT SPRINGS.

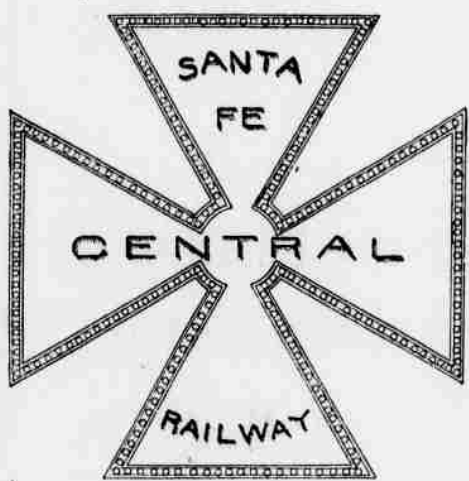

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, and Female Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$1 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

**ANTONIO JOSEPH, Proprietor**

### THE NEW LINK

CONNECTING ALL THE  
GREAT RAILWAY SYSTEMS  
OF  
NEW MEXICO

In no event will the final return limit of these tickets in any case exceed December 31st 1904. Santa Fe Central trains make close connection at Torrance. All E. P. & N. E. & R. I. trains carry Pullman sleepers, tourist and dining cars. Service unsurpassed. All trains of this route run into the grounds so passengers on this line have no change of cars but are taken directly to the gates of the Exposition.

Tickets also on sale to KANSAS CITY, CHICAGO, and all points east. Lowest rates, quickest time, shortest lines, and best service via this route.

We are also agents of the Cunard Steamship Line and Old Dominion, information as to tickets or sailing to or from Europe cheerfully given.

**THE BERNALILLO COUNTY CASES**

Against George F. Albright Defacto Assessor and T. C. Gutierrez and Severo Sanchez, Defacto Commissioners, Ended.

In accordance with a mandate of the supreme court of the Territory of New Mexico, on Saturday last, Judge Benjamin S. Baker, presiding judge of the Second Judicial district, ordered issued the final writs of ouster in the cases of J. M. Sandoval vs. George F. Albright and the Territory of New Mexico vs. T. C. Gutierrez and Severo Sanchez. The Albuquerque Journal makes the following report of the cases:

"In the case of the Territory of New Mexico ex rel Jesus Maria Sandoval vs. George F. Albright from the office of assessor of Bernalillo County, which he held by appointment of the county commissioners, who, in turn, were appointed by an act of the legislature, Judge Benjamin S. Baker, in the district court, at Albuquerque Saturday handed down an opinion in which he overruled the petition of the defendant for an appeal and supersedeas from the decision of the supreme court, and ordered the judgment of ouster from the office entered according to the decree of the higher court. The decision carries with it the ouster of T. C. Gutierrez and Severo Sanchez, county commissioners appointed by legislative act, the cases being identical in principal with that which deprives Mr. Albright of office.

"Both of these cases have been before the courts of the district and the Territory for the past two years; in fact, since the last legislature in 1903, when the appointments took place as a result of the division of Bernalillo county for the creation of Sandoval.

"Sandoval was elected in the fall prior to the legislative session assessor of Bernalillo County, as were E. A. Mierra and A. Montoya to the offices of county commissioners.

"When the county was divided the legislature was induced to pass an amendment to the bill creating the new county, declaring the offices mentioned vacant, and appointing Gutierrez and Sanchez commissioners with power to appoint a successor to the assessor's office. Albright was appointed under this act.

"The legality of the legislative act was at once questioned, and Sandoval brought suit to oust his successor from office. A similar suit was brought to oust Gutierrez and Sanchez.

"When the cases came to trial before Judge Baker the court held the act of the legislature legal, and that the new officers held their positions by authority of law. The cases were promptly appealed to the New Mexico supreme court, where Judge Baker was overruled, the supreme court remanding the cases to the district court with an order to enter judgment of ouster.

"The defendants then filed a petition for appeal from the decision of the New Mexico supreme court, which petition has now been overruled.

"Judge Baker in refusing the petition for supersedeas, gives the final order for the retirement of Albright, Gutierrez and Sanchez. It has the effect of giving J. M. Sandoval possession of the assessor's office for the remainder of the term and the two county commissioners who were supplanted.

"Mr. Albright, as duly elected assessor of Bernalillo county in the election of November 8, will take office again when the new county officers are sworn in, as will Commissioner Sanchez. The order, however, will have the effect of permanently retiring from office Commissioner T. C. Gutierrez, who was the hold-over member of the board, and whose name did not appear on the ticket at the recent election, the commissioners elected being Messrs. Sanchez and Grunsfeld. Gutierrez had two years to serve of the term, and his final retirement will take place unless Governor Otero should see fit to reappoint him."
