GREAT ZINC PRODUCERS

Three Mines of the Kelly and Magdalena Camps in Socorro County Active and in Rich Ore.

ACTIVITY IN MINING

Affairs at School of Mines Satisfactory
—Surveys and Triangulation for Topographical Maps.

Professor Charles R. Keyes, president of the faculty of the School of Mines at Socorro, spent yesterday in town on official business. To a representative of the New Mexican, Professor Keyes said:

"The School of Mines is in a very satisfactory condition and is doing better work than ever before since its establishment. There are 70 students enrolled and in actual attendance. They are all in the college courses. The preparatory departments, which have been connected with the school for some years prior to the present year, have been turned over to the Socorro schools. The faculty consists of seven professors, they are kept very busy. A course in actual dressing and smelting of ores will commence next month. The Rio Grande Smelting Works will be used for that purpose, their owners having kindly placed them at the disposal of the School of Mines and that without charge. A thorough and systematic course will be had.

"Mining in Socorro County is on the up-grade and there is a good deal doing in the Magdalena and Kelly Mining districts. There are at least 150 men employed and much zinc ore is being taken from these three well known mines, the Kelly, the Graphic and the Little Juanita. The shipments are constantly on the increase and in my opinion the Magdalena and Kelly Mining Districts will within a year or two be the largest zinc producers in the United States. The ores now mined are being shipped to Joplin, Missouri, Mineral Hill, Wisconsin, and to Belgium. The ores produced are considered very high grade as they run from 40 to 50 per cent in pure zinc. The Tri-Bullion Mining & Smelting Company, of Chicago, one of the largest zinc companies in the world, is the owner of the Kelly. The Little Juanita, which is owned by Colonel E. W. Eaton, H. M. Dougherty and others of Socorro, is being systematically worked and produces steadily under the able supervision of C. T. Brown, the Socorro mining engineer and expert; the Graphic Group is now owned by the Williams-Sherwin Paint Company of Cleveland, Ohio, and is a great producer. This mine, 20 years ago, was owned by Santa Fe Parties, among whom were W. H. Manderfield and V. S. Shelby, both now deceased, and ex-Governor W. T. Thornton, now a resident of Guadalajara, Mexico. These parties sold the property to a syndicate of which John W. Schock, formerly of Santa Fe, and Captain A. B. Fitch, now a resident of Oakland, California, were members. Finally, the property was obtained by purchase by Captain Fitch and C. T. Brown, of Socorro, who a few months ago, sold the same to its present owners. It is understood that they made a handsome thing out of the sale, but evidently sold a little too soon, as it is reported that a standing offer of a half million dollars is now up for the Graphic Group.

"The town of Magdalena is the shipping and business point of the district and is quite prosperous now. It is growing at a very satisfactory rate. "Mining is also taking a new spirit in the Water Canon and Socorro Mountain district and some good ore, carrying fair gold values is being mined and shipped.

"Two parties of the United States Geological Survey are now engaged in active field work in the Socorro and Magdalena Mountains. They are employed in gathering data and making surveys to be used in the preparation of a topographical map of these mountain ranges. This work will continue at least six months more. The engineers are also gathering triangulation data and notes from the Gila Forest Reserve north and up the Rio Grande to connect the same in Colorado with the triangulation work now being done there and which will establish the elevation and altitude of the different mesas, mountains and peaks between the Gila Forest Reserve and the northern boundary of New Mexico along and adjacent to the Rio Grande Valley. This is preliminary work and is necessary for topographical maps which the Geological Survey is now preparing of central northern New Mexico."

Professor Keyes is of the opinion that the topographical maps which will soon be issued by the Geological Survey for a portion of New Mexico will prove of great benefit to engineers and

WILL PASS THE STATEHOOD BILL

Senate Committee on Territories Authorizes Favorable Report on Measure.

Washington, D. C., Dec. 15.—The senate committee on territories today completed favorable work on the Hamilton joint statehood bill and authorized a favorable report on the measure, admitting Arizona and New Mexico as one state, and Oklahoma and Indian Territory as one state.

CASHIER SPEAR IN BAD HOLE

Oberlin Bank Official May Have to Go to Jail in Default of Bail—Mrs. Chadwick in Jail.

Cleveland, Ohio, Dec. 15.—The indictments returned yesterday in the federal court against President Beckwith and Cashier Spear of the Citizens' National Bank of Oberlin, may result in trouble for the latter at least as far as bondsmen are concerned. He is now under bonds of \$10,000, furnished by M. A. Lander, of this city. Lander declared today after a conference with Spear that he did not feel he could give personal bond for a larger amount than he had already given and that if anything more was called for under the federal indictments he might be compelled to surrender Spear.

This matter, however, will not be arranged until after Spear is arraigned in court. Mrs. Chadwick passed a quiet night in her cell and seemed in better spirits and health today.

Dr. Chadwick in Paris.
Paris, Dec. 15.—Mrs. Cassie L. Chadwick's belief that her husband, Dr. L. S. Chadwick, has sailed for New York from Liverpool is erroneous. Dr. Chadwick is still here. He refuses to make a formal statement and says he has decided to see no more representatives of the press as he considers that he has been misquoted.

CONTRACT LET FOR CRUISERS

Construction of New Hampshire, North Carolina and Montana Will be Commenced at Once.

Washington, D. C., Dec. 15.—Bids were opened at the Navy Department for the construction of the battleship New Hampshire and the armored cruisers North Carolina and Montana. The lowest bidder was the Newport News Shipbuilding & Dry Dock Company, which offered to complete the two cruisers in 36 months at \$3,375,000 each.

BURLINGTON TRAIN WRECKED

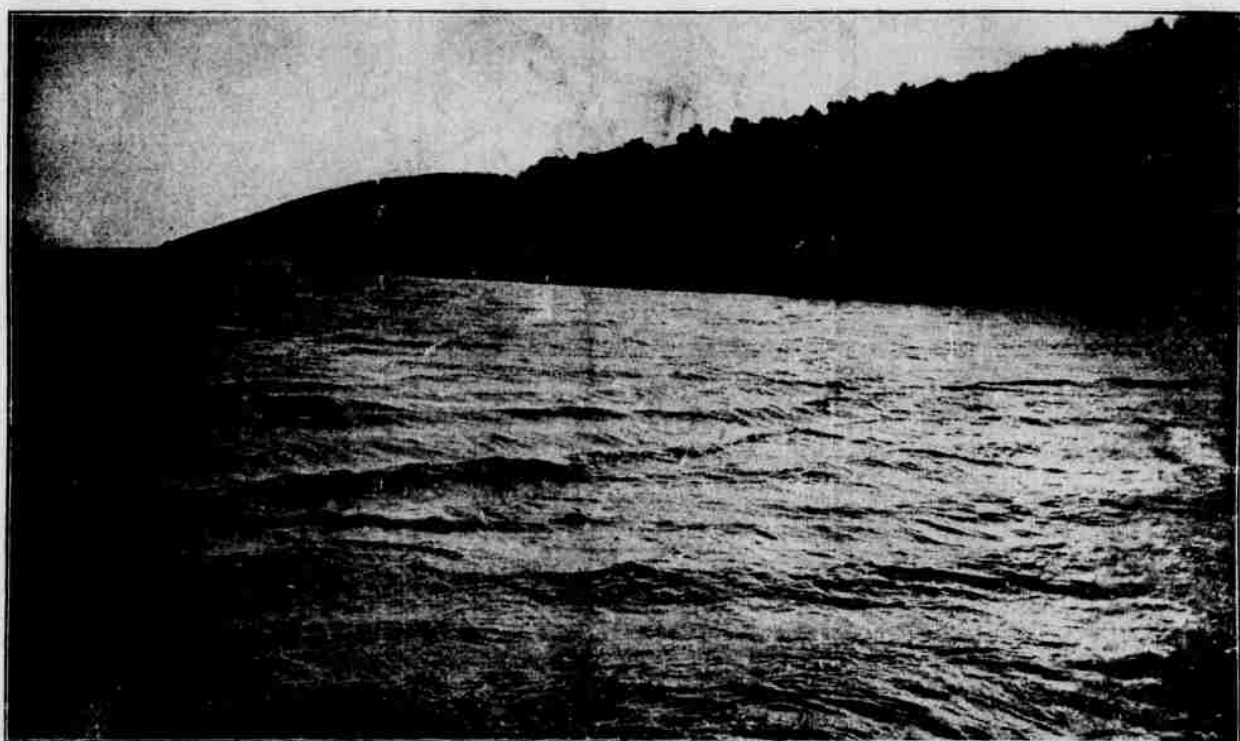

East Bound Fast Mail Jumps the Track—Fireman Killed and Engineer Fatally Injured.

Chicago, Ill., Dec. 15.—Fast mail train No. 11, eastbound, on the Chicago, Burlington & Quincy Railroad was wrecked two miles west of Bristol, Illinois, this morning, Oscar Johnson, the fireman, was killed and Engineer John Cowdrey, probably fatally injured. The train carried no passengers. The mail clerks escaped injury.

SPANISH WAR VETERAN DEAD.
Washington, D. C., Dec. 15.—Brigadier General Samuel M. Whiteside, retired, who had command of the department of Santiago during the Spanish war, died suddenly here today.

He looks forward to increased activity and much development during the year 1905 in the mineral districts tributary to Socorro, especially the Magdalena district and believes that there is a prosperous year ahead in mining in that part of New Mexico.

JAPS ATTACK LAST WARSHIP

The Sevastopol, Only Remaining Russian Vessel Afloat, Probably Scuttled.

FIGHT IN SNOW STORM

South American Republics Warned Not to Sell War Vessels to Russia—At Mukden.

Tokio, Dec. 15.—A partially successful attack on the Sevastopol was made in the face of almost insurmountable obstacles. The entire crews of the torpedo-boat destroyers and torpedo boats volunteered for the attack, courting death in their efforts to destroy the only floating Russian battleship at Port Arthur. Facing a driving snow storm and heavy seas, the flotillas separated and under individual commanders, attacked independently. The decks of the destroyers and of the torpedo boats were coated with ice and the men suffered acutely with the cold. The Russians resorted to the most extreme precautions to protect the Sevastopol. They dropped torpedo nets which shielded the bows of the warships and the Sevastopol was further protected by a specially constructed wooden boom, the frame work of which was composed of iron-bound logs and cables and heavy chains interlaced and entangled. The Japanese probably refrained from attempting to cut or jump the boom but the torpedo boats and destroyers evidently forced an opening, which the Russians had left to allow communication with the harbor.

Tokio's Report of Attack.
Tokio, Dec. 15.—The commander of the third Japanese squadron reporting yesterday says: Commencing at 11:30 o'clock Tuesday night and continuing until 3 o'clock Wednesday morning, six torpedo boats and other specially fitted torpedo craft constantly attempted attacks against the Russian battleship Sevastopol, the coast defense vessel Otashni and the military transports. Details of the attacks are not yet known. However, according to reports received from Watch Tower at 9 o'clock this morning, the Sevastopol had commenced lowering astern and water is said to have reached the torpedo tubes astern. In the thick of the snow storm one of the torpedo boats became lost and has not yet recovered. **Japanese Make Successful Advance.**
Mukden, Dec. 15.—The Japanese column on Oyama's right, which General Rennenkampf recently drove back to the Taitse River, is again reported to be moving northeast and strongly holding Siao-dagai in the region of Sianchan. Five thousand men with eight guns are at Siamatze.

If Japan is Victorious.
St. Petersburg, Dec. 15.—The Gazette declares that if Japan is victorious in this war it will colonize Manchuria and maintain a standing army there as a buffer against Russia and that if it fails it will surely head an uprising in China. The paper therefore warns pro-Japanese in the United States and elsewhere, who are interested in commerce in China to consider well the effect of either alternative.

Tokio, Dec. 15.—The Japanese are watching with great interest the alleged plan of the Russian government to purchase warships from the governments of Argentina and Chile. In re-

GOV. PEABODY TO GRAND JURY

May Have to Explain Some Transactions in Regard to Compensation Paid Victor Record.

SENSATIONAL CHARGES

Sherman M. Bell, N. C. Miller and General Gross May Be Defendants Also—Indictments Expected.

Denver, Colo., Dec. 15.—The Times this afternoon says: "The grand jury now in session" will ask Governor James H. Peabody, Adjutant General Sherman M. Bell, Attorney General Nathan C. Miller and Inspector General Gross, members of the state militia board, to explain the deal by which George E. Kyner, owner of the Victor Record, was secretly paid \$4,226 as compensation for the destruction of his newspaper plant. It has been charged that Kyner's claim would be allowed if he would bind himself to support Governor Peabody and the Mine Owners' Association through his paper. If these charges can be sustained it is more than probable that the grand jury will indict Governor Peabody and the members of the military board."

ASK PREMIER TO RESIGN

Turbulent Scenes Again Enacted in Hungarian Parliament—Sitting Suspended Repeatedly.

Buda Pest, Dec. 15.—The parliamentary truce has been short lived as the session of the lower house of the Hungarian Parliament today witnessed a repetition of the turbulence that has marked its most recent sittings. The members of the opposition emphatically declined to recognize the new rules of procedure and greeted Premier Tisza's attempts to speak with such a storm of invectives and other noisy interruptions that the sitting had to be suspended. Repeatedly Premier Tisza essayed to speak, but although prior to the third suspension of the sitting he stood for 30 minutes appealing for a hearing, he was finally forced to desist by the deafening din caused by an unceasing chorus of "resign" from the members of the united opposition.

CATASTROPHE IN CHARLESTON

Suspension Bridge Connecting East and West Parts of City Collapses.

CHILDREN DROWNED

Eight Persons Rescued and Number of Dead May Be Over Thirty.

Charleston, W. Va., Dec. 15.—The suspension bridge connecting East and West Charleston collapsed today, precipitating six teams and a number of school children, estimated variously from a dozen to 30, into the ice-covered water 50 feet below. Eight persons, more or less injured, were rescued within an hour. Men in boats are grappling in 20 feet of water for the bodies of the others. The bridge has been considered dangerous for a long time.

FATAL ACCIDENT ON BATTLESHIP

Four Men Killed and Two Badly Injured in Deadly Explosion on the Massachusetts.

Philadelphia, Dec. 15.—Four men were instantly killed and two probably fatally injured today by an explosion on the battleship Massachusetts, which is lying at the League Island navy yard. The men were working in the engine room, making repairs to the big vessel, when a man-hole blew out. All 11 men were terribly burned and mangled.

EX-CONVICT A FORGER

Charles Goldsmith Signs the Name of Contractor Sharp to Check and Cashes It.

Charles Goldsmith, former convict in the Territorial penitentiary, and erstwhile hack driver for the Closson livery stable, has left the city for parts unknown after forging the name of Walter Sharp, the contractor of the College Street bridge, to a check and having it cashed at the First National Bank. The check was for \$29.85 and was presented to James B. Reed, of the bank force, by Goldsmith, on Tuesday. Yesterday morning Mr. Reed, who had been suspicious of the check since it was cashed, called on Mr. Sharp, who declared that the check was a forgery. The police were notified but Goldsmith had already made good his departure.

Goldsmith was sent to the penitentiary from Chaves County under a two years' sentence for larceny of a gun and was released January 17, 1903. Since then he has been employed at various occupations in the city. He was a member of the posse, which went to Pinos Wells, after the murder of Colonel Chaves, and had charge of the hounds, which took the trail that led to the arrest of Valles, who is now in the Valencia County jail.

The following is a brief description of Goldsmith: American; age, 28; height, 5 feet, three inches; weight, 148 pounds; complexion, light; hair, light, and eyes light blue; when he left this city he had a sandy mustache.

PRESIDENT'S PICTURE

Presented to People of Roosevelt County by Justice Pope at First Judicial Session.

IN NEW COURT HOUSE

Impressive Ceremony Attended by Many Citizens—Addresses by Presiding Judge and W. E. Lindsey.

The first term of the District Court for the new county of Roosevelt, was provided by law to be begun on the third Monday in October. That day conflicting with the beginning of the October term of the District Court in Chaves County, the two counties being in the same judicial district, the court for Roosevelt County was convened, and adjourned until the second Monday in December, the 12th.

On that day the court convened at Portales, a comparatively new town on the line of the Pecos Valley and Northeastern Railway, 90 miles north of Roswell.

The county commissioners having accepted from the contractors on December first a very handsome and conveniently arranged court house. December 12th, 1904, will go down in the history of Roosevelt County as the day of the dedication of its first court house, as well as the date of the inauguration of a judicial system. At 4 o'clock in the afternoon on that day, the grand jury and many citizens, including a number of ladies, being present in open court, the following proceedings were had:

The Court: Mr. Chairman of the Board of County Commissioners, and Citizens of the County of Roosevelt:

Some months ago, while at Santa Fe, I received a letter from one of your citizens, informing me of the approaching completion of your new court house. It then occurred to me that it would be entirely appropriate to secure, if possible, a token from the President for presentation to the county, which bears his name, upon this, the first day of the occupancy of this building for judicial purposes. Accordingly the following letter was addressed to the Secretary to the President:

SUPREME COURT OF NEW MEXICO.

Santa Fe, N. M., June 14th, 1904.

The Secretary to the President, the White House, Washington, D. C.

Dear Sir—The last session of the legislature of New Mexico created the county of Roosevelt. It comprises a number of very prosperous communities in the eastern part of this Territory, and is in the judicial district over which I preside. The people of the county write me that their handsome court house will be completed next month, and I am desirous that upon the occasion of its dedication there shall be placed in its court room a framed photograph of the President, whose name the county bears, endorsed with his autograph. The purpose of this letter is to ascertain first, whether the President would for such a purpose be willing to endorse his signature upon a photograph to be sent him; and if so, second, what is considered his best photograph for purposes such as this, and from what photographer may it be obtained? The purpose of this last inquiry is, of course, in order that I may secure one to be sent for his endorsement.

I am aware in writing this letter that the President has probably found it necessary to decline similar requests in the past; but the facts constituting the basis for the request seem to be so exceptional, and the appreciation following his granting it will be so general and sincere, that I feel that I am not asking too much in addressing you this letter.

Very respectfully,
WILLIAM H. POPE,
Associate Justice, Etc.

Upon June 21st, a letter was written, entitled as follows:

WHITE HOUSE.

Washington, June 21, 1904.

My Dear Sir—In response to your letter of the 14th instant, I have pleasure in sending you, with the President's compliments, the accompanying photograph upon which he has placed an autograph inscription.

Very truly yours,
WILLIAM LOEB, Jr.,
Secretary to the President.
Hon. William H. Pope,
Associate Justice
Supreme Court of New Mexico.
Thus showing as you have already noticed, that instead of employing with my request to have indicated what photographer would furnish the best photograph, the President promptly, through his private secretary, forwarded such photograph, suitably endorsed with his signature.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

DISCUSSION OF PROPOSED LEGISLATION BENEFICIAL.

The Albuquerque Journal suggests that delegations of leading citizens of Las Vegas and Albuquerque meet at an early date to make recommendations for legislation applicable to the counties of San Miguel and Bernalillo only, bringing same to the attention of the members of the coming legislative assembly and have these recommendations enacted into law. The paper thinks that the Sunday observance laws and statutes regarding licenses and the jury law should be among those to be considered, and upon which recommendations should be made. This idea will bear discussion and a good deal of it.

The New Mexican does not think that there should be any difference in the jury systems between counties. A new and better jury law is necessary, but it should be made applicable to all counties alike. There should be an age and property qualification for jurors, and the system for selecting such should be changed. The names of all citizens qualified for jury duty should be placed in a box and drawn therefrom by a wheel system by the clerk of the court in the presence of two commissioners to be appointed by the judge.

As to licenses for the sale of liquors, these might well be graduated according to the population of the precincts wherein such licenses are to be issued. This, however, should not be done for the counties of San Miguel and Bernalillo alone, but should be made applicable to all counties. The same thing should be done with licenses pertaining to gaming and the keeping of gaming tables and devices; as to the Sunday laws and the keeping open of saloons on Sundays, this paper does not think that it will do to make fish of one and flesh of the other, although local option as to sale of liquor has been tried in many of the states of the Union and in some cases has proven beneficial to the public good. That the Sunday observance laws now in existence in this Territory are not popular with some parts of the population is probably true, but it seems that they have come to stay and that they are beneficial in intent and practice cannot be successfully disputed by anybody.

As to the reduction of high salaries and fees paid to the officials in the larger counties there cannot be any question. A reduction of fees in certain of the smaller counties is also advisable and even necessary. In Santa Fe County, for instance, the fees of one or two of the county officials might be reduced and that with great propriety. A discussion of these subjects will not only do no harm, but is bound to prove beneficial to the public interests. The New Mexican believes that the Thirty-sixth Legislative Assembly will do what is right and best all around in the directions indicated above.

The Chicago, Rock Island and Pacific Railway system has just declared another dividend of two per cent for the present year. This makes a total of seven and one quarter per cent for the year 1904. The business of the road is therefore not only paying, but doing very well. Seven and one quarter per cent on the stock of as great a corporation as the Rock Island is very significant and shows that the passenger and freight traffic is being charged about all that it will bear and much more than it would bear willingly. It proves that the general business of the country for the past year has been very good.

The President is having some difficulty in finding a proper man to fill the office of commissioner of pensions. The reputation which Commissioner Eugene F. Ware gave the office has evidently scared the office seekers.

Chairman Tom Taggart, of the Democratic National Committee, is now running a daily newspaper in Indianapolis. He is not a very successful chairman, but he may do better as a newspaper man. Who knows?

THE LOCATION OF THE TEMPLE OF FRATERNITY.

Regarding the location and erection of a sanatorium in New Mexico for the members of fraternal orders who are suffering from lung or bronchial affections, and for which purpose the building known as the Temple of Fraternity is to be used, the Denver Republican says that New Mexico is to profit by the Louisiana Purchase Exposition in an indirect but pleasing way, in that it has been decided to remove what was known as the "Temple of Fraternity" on the exposition grounds and erect it at some point in New Mexico for the use of the National Fraternal Sanatorium for Consumptives.

This association is to a large extent under the control of prominent citizens of Missouri who have acquired the building for the association. Several sites are in contemplation, one of which will be selected in the near future. When that is done, the building will be taken down and shipped to New Mexico.

The climate of New Mexico, like that of Colorado, is highly beneficial in the treatment of consumption, and there will be no difficulty in obtaining a suitable site for the building.

All fraternal societies connected with the association will then have the right to send members afflicted with consumption to this sanatorium for treatment. No doubt the association will improve the grounds surrounding the building and provide whatever else experience in the treatment of pulmonary diseases may show to be needed. The building itself is architecturally attractive, a gold medal having been awarded the architect who drew the plans.

THE PROPOSED EL PASO AND DURANGO RAILROAD.

The Phelps, Dodge and Company people and the interests behind the El Paso & Southwestern Railway have incorporated another railroad in this Territory. Its name is the El Paso & Durango Railroad, and it is to run from Mastodon, in Dona Ana County, a station on the El Paso & Southwestern, to La Platta City on the northern line of New Mexico, and a branch is to be built from Putman, an Indian trading camp in southern San Juan County, to Albuquerque. The main line will be 400 miles in length and the branch 120 miles.

What the outcome of this incorporation will be, cannot at this time be foretold. It may be built, and it may not, although the New Mexican sincerely hopes for the good of the Territory that it will be constructed. It will not be an easy nor a cheap line to build, nor can it be in the nature of things cheaply operated. Business will have to be developed, and evidently the immense coal deposits in western San Juan County will be tapped to supply freight traffic for the new road.

The Phelps, Dodge and Company and the El Paso & Southwestern interests are evidently looking out for emergencies and getting ready to build from Durango through western New Mexico to a connection with their road in the southern part of this Territory, and thereby with El Paso. The exact location of the new railway has not yet been determined, it is believed, not even by the projectors of the incorporation. It will take quite a number of surveys before anything like exactness concerning the sections through which it will pass can and will be known and it will take time. The promoters have the money necessary to carry their object into active execution and existence. As far as the people of the Territory are concerned, the sooner, the better.

RODEY'S RASH RECKLESSNESS.

It is unfortunate for the people of the Territory, as well as for Delegate Rodey, that the latter will not profit by experience and will not take heed of facts, regarding the recent election in this Territory and the sentiment of the people against joint statehood. He is having himself interviewed and in these interviews he makes astonishingly rash, reckless and untrue statements. Commenting thereon the Socorro Chieftain says:

"Hon. B. S. Rodey seems not yet to have fully recovered from certain delusions which took possession of him not long before the recent election. As an evidence in support of this statement it may be cited that Mr. Rodey said in a recent interview that 65 per cent of the people of New Mexico are favorable to joint statehood between this territory and Arizona. Of course, Mr. Rodey is entitled to his opinion, but one who is at all familiar with the sentiment of the people of New Mexico on the subject of statehood can but feel sorry that Mr. Rodey should have allowed himself to be so egregiously deceived."

There is quite a gap between the receipts and expenditures of the Federal government these days, but the Republican majority in the present Congress and in the coming Congress will close this gap satisfactorily by decreasing the expenditures and keeping receipts up to the present standard.

Miss Daisy Leiter, the third daughter of the late Levi Z. Leiter, who died a millionaire and made his money in a dry goods business in Chicago, is to marry the Earl of Suffolk. She is a great heiress. More good American money thrown away.

JURY COSTS IN CIVIL CASES SHOULD BE PAID BY LITIGANTS.

The cost of maintaining the courts in the Territory is too great. Economy could easily and justly be practiced in one direction and this is suggested to the members of the next Assembly. Under the present statute, as long as there is money in the court funds, the county defrays the expense of juries in civil cases. There is no good reason why this should not be done by litigants. In fact, justice and fairness to the taxpayer demands this. A change in the law in this respect would be very timely, prove of benefit to the taxpayers and would meet with the approval of the people, who support the territorial and county governments, namely the taxpayers. To be sure, some of the lawyers will object to such an innovation, but their objection should not be allowed as against what is good and proper for the interests of those who have to put up the money and keep the territorial and county administrations going and in effective force. The New Mexican knows no good or valid reason why the present system should be kept in vogue. If there are any, let them be forthcoming. There are two sides to every question, but it seems that in this question great good will be done and but precious little harm experienced, should the law be changed as suggested above.

SUGGESTIONS TO THE THIRTY-SIXTH ASSEMBLY.

The Thirty-sixth Legislative Assembly of the Territory will meet in biennial session in about a month. In the meantime the New Mexican will advocate what the people consider necessary concerning the amending and wholesome changes in the present laws and new laws to be enacted. Thereafter these suggestions will be up to the members of the legislative assembly, and as that body has a two-thirds regular Republican majority, this paper hopes and expects that some of the suggestions will be heeded and enacted into laws, as they are all in the right direction and made for the sake of economical, better and more efficient administration of public affairs, from the school district to territorial matters.

ROSWELL AND ITS NEWSPAPERS.

The City of Roswell is evidently very prosperous and growing steadily. One sure sign in proof of this is the appearance of its newspapers. The Register is a weekly paper of eight pages of six columns. In its last issue it contained over twenty-four columns of live and paying advertising. The merchants of Roswell, wholesale and retail, have a good neighborhood to draw from and have found out that liberal, persistent and steady advertising pays. The town, the newspapers and the merchants there are to be congratulated upon this satisfactory state of affairs. They understand the maxim: "One hand washes the other" in Roswell. The newspapers help to build up the town and the town supports the newspapers well. It seems to pay all around.

After all, Judge Alton Brooks Parker has made some fame in the recent campaign. He will go down in history as the man who has received the smallest percentage of the popular vote ever cast for a Democratic candidate for the Presidency.

The commander of the Japanese naval batteries at Port Arthur is a very polite man. He gave the ships of the Russian fleet in that harbor the choice between being blown up and being sunk. Politeness in war is a great thing.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"There are thousands of sick women dragging out a weary, miserable existence, who would be well and happy did they but have my experience with Dr. Pierce's Favorite Prescription," writes Mrs. Annie Lenman, of 106 Jackson St., Atlanta, Ga. "Four years ago I was nearly dead with inflammation and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines internally and externally until I had made up my mind that there was no relief in sight for me. A friend of mine endorsed your 'Favorite Prescription,' and I determined then to give it a trial. It took patience and perseverance for I was in a bad condition, and had to use your medicine for nearly four months before I was cured, but what a change it brought! From despair to happiness, from misery to the delightful, exhilarating feeling that only health brings. I would not change back for a thousand dollars. Your 'Prescription' is a grand medicine. I wish every sick woman would only try it and be convinced."

GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver to night and be in Deadwood or Lead City tomorrow afternoon.

PRESIDENT'S PICTURE

Continued From First Page.

To this letter, on July first, I made the following response:
To HON. WILLIAM LOEB, Jr.,
Secretary to the President,
Washington, D. C.
My Dear Sir—I have this day received your letter of June 21st, accompanied by a photograph of the President, to be presented to the County of Roosevelt, upon the occasion of the dedication of its new court house.

My sincere thanks, both personal and on behalf of the people I represent, are due the President for this very generous response to the request made, and I will thank you very much to convey these to him for me.

The gift will be highly prized by the community for which it was intended, and its presence in their court room will, I am sure, prove an incentive both to obedience to that law for whose enforcement the President as an official stands, and to that higher citizenship so conspicuously exemplified in his private life. I am

Very respectfully yours,
WILLIAM H. POPE.

I have had the photograph in question suitably framed, and it now gives me great pleasure to deliver it to you, Mr. Chairman, as the representative of the governing board of the County of Roosevelt.

I trust that this photograph, now committed to your care, will, as it hangs in your court room during the years to come, prove an incentive to the emulation of those qualities which, irrespective of creed, and irrespective of politics, we recognize and honor in Theodore Roosevelt. As your county grows in population and prosperity, may its patriotism keep pace with its progress. May "the higher life" be the goal toward which your citizenship shall strive. May this building, this day dedicated to the purposes of your courts, ever be the scene where even-handed justice—nothing more and nothing less—shall be administered. And in future years, when your children and your children's children shall revisit this room, and look back upon all that has been performed, may they be able to say that we who have preceded them have builded well, and may they add, reverently, that they, with God's help, will bravely and earnestly carry forward the work.

Mr. Clark, you will, representing the Court, hand to the Chairman of the Board of County Commissioners, the photograph which has been sent for this purpose.

Thereupon the photograph was by the clerk handed to the Chairman of the Board of County Commissioners of the County of Roosevelt, W. O. Oldham.

Thereupon W. E. Lindsey, the Probate Clerk and Ex-officio Clerk to the Board of County Commissioners, said: May it Please the Court, Ladies and Gentlemen:

This would have been an excellent opportunity for the President of the board to say something in the matter of the acceptance of this presentation, but, inasmuch as it is a fact that I will soon retire from the position of office in the administration in the county affairs, they rather felt that that burden or duty might better be imposed upon me, and, in a very few words, I want to accept this presentation, and say that I believe from the time of Abraham, it has been the custom of all successful peoples and nations to exhibit and to keep before the eyes of their people the statues and pictures of their conspicuous leaders, and men and citizens. It seems to exert upon the minds of the people an influence, and to ever remind them of the course that they must pursue if they would rise above themselves, or upon stepping-stones of their dead selves, to higher things, as the poet has expressed it. It makes no difference, it seems to me, who the individual is or what he has done, so long as he is recognized by the nation as a character suitable for honor. And in this connection I want to say that some of the philosophers argue that no one who is conspicuous in national affairs should be attempted to be honored in the way in which the Presidents of the United States might be—that is, to be honored during the lifetime of the individual—but right here I want to say that that was not particularly the idea that ran in the minds of those who suggested the name of Roosevelt for this county—a remote, unsettled region, sparsely inhabited, created into a county that might, possibly, be considered a doubtful proposition; and it would clearly not be considered an honor in the matter of naming it for an individual; but, in that regard, we had in mind, I believe, that other expression which says that upon elevation to office there are imposed obligations and duties; and in the naming of this county after an illustrious American citizen, it was rather to that end, than that he who received the name after him was being honored by it.

Now, in the matter of this picture resting upon the wall, there is no one, I presume, who will take exception to the statement that it calls to our minds, from time to time, him who has become conspicuous in the nation, first, possibly, as the apostle of the strenuous life; and, second, possibly, as the apostle of the simple life; and, third, we may say, that he is also the apostle of the decent life; for, did he not say, in substance, at least, if my

memory serves me right—in serving notice upon the governments of the Western Hemisphere—of the world—that they should act decently, pay their debts and keep order? Therefore, he may be determined the apostle of the decent life. And, after the election which recently passed, and of course regardless of politics, religion, or anything else, simply taking the figures that have been returned, we must also count him an apostle—or the victim—of a successful life. In the recent message that has come to us, he has coined another term, growing out of the fact that the United States, under his administration, has put itself in the van of those who look for the accomplishment of peace between nations without the arbitrament of war; and in that we may say that he may rightfully be termed the apostle of the peace of justice. It has been said that this is a new term, stated in such a way that it will become current; therefore, in view of the things that our present President has accomplished, it seems to me that the people of Roosevelt County will highly appreciate the presentation of this photograph, and, as the Judge of this Court has stated, that our children, as they grow up, and as they pursue the course of history of our nation, may be able to come to this court room and view this presentation, being under the inspiration thereof, as are you gentlemen. In this matter, therefore, in your behalf, I sincerely thank the Honorable Judge of this Court and his excellency the President for this presentation.

The Court: Court will be in recess for a short while, for the purpose of permitting an examination of the photograph by those of the audience who may desire to do so.

SCRATCH PAPER.

Made from ledger, linen, flat and book papers at 10 cents per pound at the New Mexican. This is scrap paper put up in pads and is less than the paper originally cost. Only a limited supply.

"I was much afflicted with sciatica," writes Ed C. Nud, Iowaville, Sedgewick county, Kansas, "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons; all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c, \$1.00. Sold by Fischer Drug Co.

SANTA CLAUS HAS ARRIVED!

HIS HEADQUARTERS ARE NOW IN OUR GREAT TOY DEPARTMENT

Space would not accommodate the vast throngs that welcomed SANTA CLAUS' arrival on Saturday, so the good old fellow immediately commanded us to make this Christmas department larger. So we are hard at work broadening our aisles and arranging more space for the thousands of New Toys with which he came laden. He also wished us to announce that he will remain here until Xmas eve, and extends a cordial invitation to all of the little folks to come and visit him.

HIS CHRISTMAS

What are you going to get for him for Christmas, nearly everybody has a "him" or two to buy for. We cater only to "hims." Perhaps our suggestions will aid you to get him just what he needs, and just what will please him. If you can't find something suitable for his Christmas here, where in the world would you expect to find it.

FROM THE ASHES.

Baltimore Family's Experience Points A Moral to Residents of Santa Fe.

The visitor to Baltimore today scarcely realizes that less than a year ago the city was almost destroyed by a memorable fire. A similar comparison might be made by George W. Nally, one of the leading citizens of Baltimore, as to the change in his own looks.

A short time ago, Mr. Nally, writing from his home address, 2213 Barclay St., says: "I have been troubled for years with catarrh and had resorted to all remedies that could be thought of. My wife was also afflicted with this terrible disease, but all the treatments we used were an absolute failure until we tried Hyomel. It worked like a charm and has made a complete cure of our cases. There is no disagreeable stomach dosing in using Hyomel. We breathed it, and its fragrance, so clean, pure and bracing, killed all the catarrhal germs in the head, throat and lungs. The experience of Mr. Nally and his wife certainly points a moral to all readers of the New Mexican who are suffering from catarrh. It shows how they can be cured of this frightful disease, without dangerous stomach dosing. A. C. Ireland, the local agent for Hyomel, has so much faith in the treatment that he gives his personal guarantee to refund the money in case it does not benefit. A complete outfit costs one dollar, the extra bottles are but 50 cents. Ask to see the strong guarantee under which Hyomel is sold.

U. S. WEATHER BUREAU NOTES.

Forecast for New Mexico: Fair weather tonight and Friday with warmer weather tonight.

Yesterday the thermometer registered as follows: Maximum temperature, 33 degrees, at 3:20 p. m.; minimum, 21 degrees, at 7:30 a. m. The mean temperature for the 24 hours was 27 degrees. Relative humidity, 54 per cent. Temperature at 6:00 a. m. today, 25 degrees.

Schilling's Best are not extravagant; quite the contrary. Teas and coffees good-enough; baking-powder-flavoring extracts and spices pure and best and yet economical; soda common.

At the time of his death Mr. Webbe was 85 years of age and had charge of the Trinity church of Irvington up to the first of October, this year.

Fair tonight and Friday with warmer weather tonight is the forecast issued today by the weather bureau. Yesterday the thermometer registered as follows: Maximum temperature at 3:30 p. m. 33 degrees; minimum temperature at 7:30 a. m. 21 degrees; mean temperature for the 24 hours 27 degrees; relative humidity 54 per cent. At 6 a. m. today the thermometer registered 25 degrees.

Benito Lujan, ranchman at Pojoaque, spent yesterday in town on business and visiting friends. He states that the chances are that there will be but one candidate for justice of the peace in the field in Precinct No. 1, Pojoaque and that there will be no party division. The man's name is Evaristo Ortiz. He is a Democrat in politics, but a very good man and there will be no other nomination made.

Juvenilo Quintana, will, very likely, be the Republican candidate for justice of the peace in precinct No. 3 at next month's election; Ricardo Alarid has announced himself as a candidate for the same office in precinct No. 4 and Jose Ma. Garcia would like the nomination for justice of the peace in precinct No. 17. In precinct No. 18 the present justice Henry Pacheco is being talked of for renomination. These are the four city precincts.

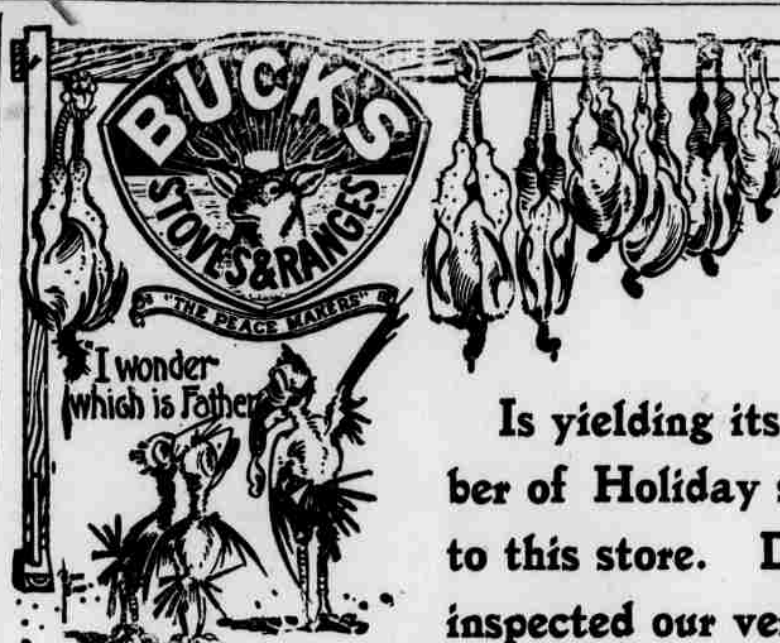

The directors of the Chaca Coal & Iron Company held a meeting last evening and organized by electing Charles Neustadt, of Grant, New Mexico, as president, Emil Bibb, of Cubero, New Mexico, as vice president, Amado Chaves, of Santa Fe, as secretary and treasurer and Glenville A. FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Eaton, N. M., on this grant, are located the Coal Mines of the Eaton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

KANSAS-COLORADO WATER SUIT

Centennial State Pioneers Testify Concerning Small Flow in Arkansas River Thirty Years Ago.

A special dated December 12th to the Denver Republican from Colorado Springs concerning the testimony now being adduced before Commissioner Granville A. Richardson in the Kansas-Colorado water suit, says: "Commissioner Granville A. Richardson, of the United States supreme court, today took testimony of pioneer residents in this section in the Kansas-Colorado water litigation. Those testifying were Robert Finley, who came here in 1860, Anthony Bott, 1858; Henry McAllister, 1872; A. Z. Sheldon, 1859; T. B. Pyles, water commissioner several administrations; Thomas Shideler and John Sittlington.

"Among those accompanying the commission were Judge D. C. Beaman, general counsel for the Colorado Fuel & Iron Company, in whose private car the party is traveling; Irrigation Expert Ellwood Meade, A. C. Campbell, solicitor for the United States; F. E. Gregg, representing the Amity Canal of the Salvation Army at Amity, Colorado; Attorneys S. S. Ashbaugh and F. D. Smith, of Kansas, and Attorneys C. D. Hayt and C. C. Dawson, of Colorado, and J. P. Doyle, official stenographer.

"The testimony was in direct contradiction to that offered by Kansas to the effect that the Arkansas River contained a greater volume of water in the early days than at present. Henry McAllister, Sr., testified that in 1873 he crossed the Arkansas River three times in two days near the county line between Bent and Otero Counties, and that neither time did he even get his feet wet. The point at which he crossed is now called Robinson.

"Anthony Bott testified to crossing the river in 1858 at a point called Fort Lyon, now the town of Las Animas, without wetting his feet.

"The evidence of the witnesses went to prove that there is more water in the Arkansas River at the present time than formerly. This testimony, it is expected, will prove of great value in offsetting Kansas' claim that the volume is less than before."

OFFICIAL PROCEEDINGS

Of the Board of County Commissioners of Santa Fe County.

Santa Fe, N. M., Oct. 4th, 1904.

The honorable Board met as per recess taken at 9 o'clock a. m.
Present: The Hon. A. L. Kendall, Chairman; the Hons. Arthur Sellman and Nicolas Quintana, Commissioners; and Celso Lopez, Clerk.

Upon motion of Commissioner Arthur Sellman, the bondsmen of the Ex-Officio Treasurer and Collector, Geo. W. Knaebel, were requested to turn over to the Treasurer and Collector, H. B. Cartwright, on or before the 24th day of December, 1904, the following amounts, on account of the amount due the County by said Ex-Officio Treasurer and Collector Geo. W. Knaebel, and his bondsmen, to-wit: Court Fund, \$273.18; Court House and Jail Repair Fund, \$1,542.44; Advertising Fund, \$17.06; Delinquent Tax Fund, \$812.71; Survey Fund, \$577.51; Index Fund, \$633.32; General County School, \$1,143.78.

The clerk of the Board was ordered to send a certified copy of the above demand to each and every one of the bondsmen of Ex-Officio Treasurer and Collector Geo. W. Knaebel; and a like copy to Treasurer and Collector H. B. Cartwright, with instructions from the Board to the said H. B. Cartwright, Treasurer and Collector, to place the several sums to the credit of the several funds as indicated, whenever the said amount is turned in by the bondsmen.

The official bond of Tomas Alarid as Justice of the Peace of Precinct No. 4 was approved.

There being no more business on hand, the Board then adjourned.

A. L. KENDALL, Chairman.

Attest: CELSO LOPEZ, Clerk.

Last will and testament of Maria Dolores Trujillo de Abeytia, deceased.

Notice is hereby duly given, pursuant to statute, that the Probate Judge and Judge of the Probate Court in and for the County of Santa Fe, New Mexico, has fixed Tuesday, December 27th, A. D. 1904, at the hour of ten o'clock in the forenoon for the proving of the last will and testament of Maria Dolores Trujillo de Abeytia, deceased, lately a resident of said County of Santa Fe.

In witness whereof I have hereunto set my hand and affixed the seal of the Probate Court, at Santa Fe, New Mexico, this 30th day of November, A. D. 1904.
CELSO LOPEZ, (Seal.) Clerk of the Probate Court.
By FEDERICO LOPEZ, Deputy.

CERTAIN RESULTS.

Many a Santa Fe Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Santa Fe. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

Nazarlo Alarid, hackman, of Cerrillos road, says: "I was continually buying medicine for my kidneys, and if a man spends every now and then 50 cents for a bottle of one guaranteed preparation and 50 cents at another time, he makes an inroad into his finances. None of the medicine I used had the slightest effect on my kidneys or backache, at least I was unable to notice any. When an attack of backache reached the virulent stage, I was compelled to stop work for an hour until the spasm disappeared. When wrestling with an attack, I went to Ireland's Pharmacy for Doan's Kidney Pills. There must be more than ordinary merit in that preparation, for a course of the treatment for a short time positively stopped the very severe attack."

For sale by all dealers. Price 50 cts. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

RECTOR OF ST. LUKE'S,

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 18, 1903.—I think it is only right that I shall tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your Cough Remedy. I at once procured a sample bottle, and took the medicine. To my great relief the cough and cold had completely disappeared and I was able to preach three times on Easter Day. I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a Godsent remedy. Respectfully yours,

E. A. LANGFELDT, M. A., Rector to St. Luke's Church.

GOOD IN THE BAD

Francois Barbasse left his house one morning in the frame of mind of a man who has decided to jump off the Eiffel tower.

Evidently there was no luck in life for him. For the tenth time in less than a year he had that morning received a letter in his mail that dealt a death blow to his hopes. A letter that contained a polite refusal to his offer of marriage made the week before.

You must not think that this letter came for the tenth time from the same hard-hearted beauty. No, indeed! Francoise Barbasse was not capable of such importunities. Besides, the real truth of the matter was that it was not a woman he so ardently sighed for; it was a home and conjugal happiness. He dreamed of sitting at the head of his own table, when nothing would ever be served that could possibly suggest the menu of a boarding house. And he longed for a cozy fire where he might smoke his pipe in peace and listen to the idle chatter of a pretty wife.

For Francoise Barbasse was by no means insensible to feminine charms. He had fallen desperately in love with Mlle. X—, whose beauty had for long seemed to him the perfection of earthly grace.

For a long time he suffered in silence. Then at last he ventured to propose.

Poor Francoise. His request was met with a clear and firm refusal; a no wreathed in polite excuses, but nevertheless a no.

Then for six months he was miserable indeed. At the end of that time he tried again.

But Mlle. G— was no kinder than Mlle. X— had been. Fresh disappointment, alas! for Francoise Barbasse.

A month later, with a third young lady, he made a third proposal. The result was still the same.

And thus it went. From one "no" to the next, he descended the silken ladder of grace and beauty that led to marriage.

Consequently, the letter he had received that morning wounded only his pride. His heart was not affected.

But why, do I hear you ask, did poor Barbasse get so regularly and sadly thrown down on his proposals?

Why? This is treading on delicate ground. Francoise Barbasse was the best of good fellows, always attentive to the old ladies as well as to the young ones, young, rich and a good dancer. What more could have been required for a very model of a lover or son-in-law?

But alas! all these advantages were rendered as naught by a small, but terrible infirmity. In his calm moments, Barbasse

A heavy brick from a neighboring chimney had struck him squarely on the side of the head.

He was hastily carried to a hospital and there lay for a week, unconscious and blissfully removed from a

world where no woman smiled for him.

But, little by little, memory and thought came slowly back. He was hungry, he could speak words and recognize voices. But it was still imperfectly, for his head was yet swathed in bandages and the light of day was denied him.

At last, however, he was completely cured and the good old doctor who had taken care of him said gruffly:

"Well, you are on your feet again, Barbasse, my man. You may well be thankful to get off as you did. That was a brick and a half! You hadn't many ideas left after that struck you. Hum, hum."

The doctor stopped and seemed at a loss how to go on.

"Well, I'm glad I'm out of it," said Francoise, "but I'll be even gladder when you take off this rotten old bandage. Why do you keep it on any longer; is there anything more the matter with my eyes?"

"The truth is, my dear Barbasse," began the doctor, hesitatingly, "there have been complications and—"

"And what? Speak out, man," ordered Francoise.

"Very well. One eye has been very much injured and you will lose the use of it in a very short time."

"An eye? Which, doctor, which one?"

"The left eye, my poor friend," the doctor answered sadly.

Francoise Barbasse sprang from his chair and did a cake walk then and there.

"Are you perfectly sure, my dear doctor," he cried, "you are not mistaken as to which eye? Oh! it is too good to be true! I shall be happy now all my life."

For a moment the good doctor thought that half his patient's reason had gone with half of his vision. Then Francoise explained.

"The first time he went out after the accident Barbasse hastened to the house of Mlle. X—. She had been his first and only love, despite his later matrimonial attempts. He felt at her feet in an ecstasy of passion, imploring her to listen favorably to a second request of her hand in marriage. The young lady listened, looked at her kneeling lover, wavered—and was lost. She whispered a soft 'yes' and Francoise, fathoms deep in bliss, clasped her in his arms. And in spite of the joy of his emotion, both eyes were steady and well behaved. His left eye, once so limping and so damaging, beamed with a perpetual smile. It was made of glass!"—Boston Herald

BEAUTIFUL WOMEN.

Plump cheeks, flushed with the soft glow of health, and a pure complexion, make all women beautiful, and so do those luscious oysters at the Bon Ton.

The New Mexican can do printing equal to that done in any of the large cities. Our solicitor: Every piece of work we turn out. Try our work once and you will certainly come again. We have all the facilities for turning out every class of work, including one of the best binderies in the west.

A clear and firm refusal.

might even have been called fairly good-looking, but at the approach of any emotion, however slight, he would begin to wink with one eye in such a ridiculous, unexpected way that the most serious people on the face of the earth could not keep from laughing. Whenever one eye was wet with emotion, or shining with tenderness the other would commence its infernal dance. Beneath the winking, blinking lid, the eye ball would rush back and forth, dilating and contracting, as it worked by the very master of mischief himself.

And the poor ladies were scarcely to blame, if at Francoise's first

of love and longing, they should burst into a peal of laughter that wrecked their would-be suitor's hopes.

Barbasse had consulted every optician in France. But each and all had said:

"A mere trick of nervousness, my dear sir. It will pass away with advancing age."

But what good would it do Francoise to have a normal eye at 50? He would be fitter for his grave than for a domestic fireside by that time.

Accordingly, you may understand the poor man's feelings as he left his house that cold, gray morning.

It was February and a high wind was blowing, a wind that scattered papers and tore the slates off people's roofs. But little did Francoise reek of the weather—the storm only suited his misery.

Suddenly a woman's cry reached him, then confusedly he was conscious of a terrific blow. Then darkness.

Coughing Spell Caused Death.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation."—St. Louis Globe-Democrat, Dec. 1, 1901.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barona Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbolic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Boarding and bathing \$2.50 per day; \$12 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

**HORRIBLE MURDER
IN SAN MARCIAL**

Petra Sanchez, an Old Woman, Stabbed Five Times—Death Instantaneous—Public Feeling Intense.

Special to the New Mexican.

San Marcial, Dec. 15.—A horrible tragedy occurred about midnight last night in Old San Marcial, a village a short distance from this town. An old woman, Petra Sanchez, was stabbed in a broil in her house by a man named David Gurule, five times, three of the knife thrusts taking effect in her back and two in her chest. She died instantly.

It is said that there were two men and another woman present when this horrible stabbing affray took place. The woman escaped and her whereabouts is not known. The cause for the murder is unknown at this time. There is much excitement and public feeling is very intense against the murderer, who is under arrest.

INTERSTATE COMMERCE COMMISSION HEARING

Against the Santa Fe Railway on Charge of Freight Discrimination Before Commissioner Prouty Tomorrow at Albuquerque.

Charges against the Santa Fe Railway Company will make that corporation the defendant in a hearing before Commissioner Prouty, of the Interstate Commerce Commission, at Albuquerque, tomorrow, which will be the first session of the Commission in New Mexico.

Commissioner Prouty has been sent to the Territory to hear the case. The complaint against the railroad company, in which the commission will take evidence, is the alleged violation of the interstate commerce law by the Santa Fe in discriminating in favor of the Colorado Fuel & Iron Company, to the detriment of other coal companies, that ship over that road and allowing rebates. It is expected that evidence proving their allegations will be brought out by the companies which brought the charges against the Santa Fe.

Some time ago the Caledonia Coal Company, of Gallup, sued the Santa Fe and the Colorado Fuel & Iron Company for damages in the sum of over \$400,000, in which the plaintiff alleged that the defendant companies had conspired to injure the company and kill competition from independent coal companies by fixing a secret rate for transporting coal. The case was dismissed in the Second judicial court on legal grounds and a new suit was filed by the Caledonia Coal Company.

United States Attorney W. B. Childers, who represented the Colorado Fuel & Iron Company in the original suit has been ordered to withdraw from the case by the attorney general of the United States, as in this case he would be appearing against the government, and the charges filed against him recently in Washington, grew out of this case as the papers in the matter were drawn up in his office by Attorney Twitchell, in which government stationery was used. This came to the ears of the Washington officials and caused commotion at the time.

The preliminary hearing in the case was held at El Paso yesterday by Commissioner Prouty.
