## RUSSIAN PRISONERS ARE TOO GREAT A BURDEN

**Japanese May Send Captives Home ---Good Old General Nogi Heart-broken Over Great Loss of Life In His Ranks---Clearing the Port.**

Tokio, Jan. 5.—The care of so many prisoners is a troublesome and expensive task and it is possible that Japan will arrange later to return them to Russia. The question is now under consideration at Tokio.

A supplementary agreement bearing upon the surrender of Port Arthur by the Russian military authorities provides for the unparoled release of all civil officials at Port Arthur who have not served as volunteers in the Russian army or navy.

### Gallant General Downcast.

London, Jan. 5.—According to a correspondent with the third army General Nogi feels keenly the tremendous sacrifice of Japanese lives involved in the success of his plan for the capture of Port Arthur. His very outward appearance has changed. He has grown careless in dress and strangers often find it difficult to pick out the aged, haggard man as the renowned Japanese leader.

He refers to General Stoessel as the hero of Port Arthur and emphasizes that his surrender leaves his fame untarnished. General Nogi it will be remembered, lost two sons, his only children, in the war.

### 48,000 Were Taken.

Tokio, Jan. 5.—A report from General Nogi's headquarters which was received here today largely increases the figures of the surrendered garrison and intimates that the Russian force handed over to the Japanese at Port Arthur will be 32,000, exclusive of 15,000 or 16,000 sick and wounded, making a rough total of 48,000.

### Saving the Wreck.

Tokio, Jan. 5.—Japanese naval officers have not examined the sunken Russian warships at Port Arthur and therefore nothing is known as to their condition and possible availability for further service. It is expected that a careful examination of these vessels will be made at the earliest possible moment. The Japanese believe some of the sunken vessels are valuable. The Russians blocked the dry dock and destroyed the dock gate. They surrendered the possession of the dry dock and other naval property yesterday and turned over to the Japanese ten small steamers available for immediate use. All other craft has previously been sunk.

The work of clearing away the mines commenced as soon as the Russian charts provided for in the capitulation were turned over to the Japanese.

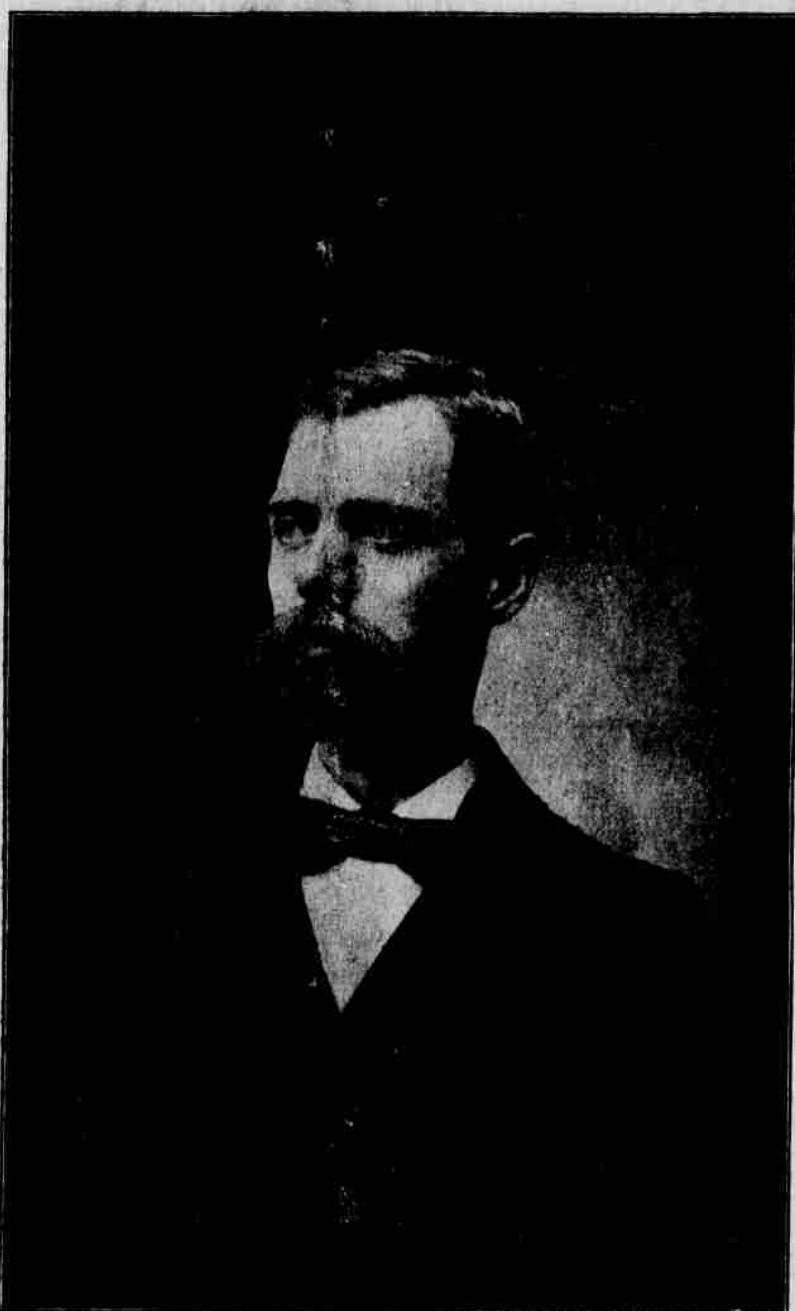

### Cruiser a Mystery.

Manila, Jan. 5.—Steamers returning here from the south report a Japanese cruiser to be patrolling the San Bernardino Straits. At 2 o'clock today January 5, the Japanese cruiser Takashi approached the entrance of Manila harbor. When signalled and asked if she intended to enter her answer was negative. She also refused to state where she was from and where she was proceeding. She at once put to sea under full steam.

### Will Withdraw the Second.

St. Petersburg, Jan. 5.—Although orders to that effect have not yet been sent to Admiral Rojstvensky the Associated Press is able to announce positively that the decision has been reached that the Russian second Pacific squadron will return to European waters.

## MEN OF THE HOUR IN NEW MEXICO

PROFESSOR FAYETTE A. JONES.

Of Albuquerque, Who Has Issued a Hand Book on Mines and Minerals.

## NEW MEXICO'S RICH MINES AND MINERALS

**Compendium by Professor Fayette A. Jones of Great Value to Prospectors and Investors and of Decided Interest to the General Public.**

### "New Mexico Mines and Minerals"

by Professor Fayette Alexander Jones, C. E., E. M., LL.D., of Albuquerque, and just from the press of the New Mexican Printing Company, is a handbook on mining in this Territory that is a valuable addition to its bibliography and was written in answer to a distinct want and growing demand for information, technical as well as reliable, about the mineral resources of this part of the southwest. As the title page tersely puts it, the volume of almost 400 pages, is "an epitome of the early mining history and resources of New Mexico mines, in the various districts, down to the present time." It describes the geology of the ore deposits, gives a complete census of minerals and analyses of mineral and irrigation waters, a table of altitudes and other general information that the prospector, the mining engineer, and the investor are likely to ask about the mineral resources of the Land of Sunshine.

The compilation of the book was a labor of love and was born of the enthusiasm of Professor Jones for his calling. It was written without compensation for the New Mexico Board of Managers of the Louisiana Purchase Exposition of which Professor Jones was a member and for which he gathered the splendid mineral exhibit that attracted so much attention at St. Louis. What Professor Jones writes is not merely from hearsay. He visited every camp in the Territory, made exhaustive studies of its geology and mineralogy and assayed its ores. Therein lies the value of the book, that it is the result of careful investigation and of an experience extending over many years.

The contents are logically and systematically arranged and after a terse historic introduction that reads like a romance, and a geological survey, each mining district is treated in detail and followed by a chapter on each of the more important mineral resources. In conclusion, the analyses of the water from the justly celebrated hot and min-

eral springs of the Territory, of its artesian, spring, well and river waters are given. Then follows a table of altitudes and a list of New Mexico minerals as well as a synopsis of mining laws. As an appendix are added biographical sketches of the members of the New Mexico Board of Managers for the Louisiana Purchase Exposition. Professor Jones has succeeded in clothing the dry bones of technical fact with local color and literary interest that make the book very readable even to the man or woman who could not tell a mine from a peach-tree. At the same time, the volume is of the greatest value to the practical as well as the theoretical mining man for it is comprehensive, accurate, free from exaggeration, well arranged and above all, authoritative.

To the historian also, "New Mexico Mines and Minerals," yields much that is of interest and value, for it records many incidents in the founding of mining camps and in the life of the pioneer prospectors, which but for this record, would be forgotten.

The book is well printed on heavy coated paper, illustrated with half tone cuts taken from photographs, some of which are quite rare and priceless, and is substantially bound in red cloth.

In a later article, the New Mexican will treat more fully of the contents of the volume, which should be a text book in every high school and college of the Territory.

### The Author.

The author of the book, Fayette A. Jones, is well known as a mining engineer, a chemist, an assayer and scientist. He is a native of Missouri and he has made an enviable record as an educator as well as a mining expert. The Missouri School of Mines is his alma mater. He attended that institution from 1889 to 1892 and made a record as an exceptionally apt and bright student. From 1892 to 1893 he was engaged as mining engineer in Ari-

## BRAVE GEN. STOESSEL TO BE COURT MARTIALED

**Russians Are Outraged by Brutal Order and Indications Are That the Revolutionists Will Force Nicholas to Sue for Peace.**

St. Petersburg, Jan. 5.—Few incidents of the whole war have aroused more bitter criticism than the blunt announcement officially made by the general staff that General Stoessel will have to come home and stand trial by court martial for surrendering the fortress.

While this is an ancient regulation and quite according to law, it is bitterly resented on all sides that such an announcement should be made in the same bulletin containing General Stoessel's appeal to the Emperor for "lenient judgment on the garrison, whose occupants were reduced to shadows and who have done all that is possible for human beings to do to uphold the honor of Russia in the face of her enemies."

Novoe Vremya, despite the example made by his suspension from Russia for criticizing the government says: "By all means have the court martial and perhaps the court will determine who was responsible for the unprepared condition of the fortress."

### May Force Peace.

St. Petersburg, Jan. 5.—Emperor Nicholas returned today to Tsarskoe-Selo from Minsk. An extraordinary council is expected to be held at Tsarskoe-Selo immediately and it is believed that the whole situation will be reviewed. General Kuropatkin has been called upon to telegraph his opinion of the situation at home which cannot be disregarded in considering the future. There is evidence that the revolutionary agitators have decided to take every advantage of the government's position to compel a summoning of the national assembly and they are beginning to redouble their efforts. The newspapers, despite the punishment inflicted upon them, are spreading out

with great boldness. Seemingly regardless of consequences, they are using every pretext for savage criticism of the bureaucracy. The Zemstvos, in defiance of the government's note of warning, continue to memorialize the throne for a program adopted at the meeting of the Zemstvos' delegation here. Consequently in spite of the loud protestations of the official world that peace is impossible the opinion is held by exceedingly shrewd observers that the government may be forced to conclude peace with Japan in order to have a free hand to deal with the internal situation. With increasing complications, M. Witte, president of the ministerial council, looms up as a strong man to whom the Emperor will turn in the present crisis.

### Army in the Dark.

St. Petersburg, Jan. 5.—It is remarkable that the dispatches from the front are absolutely silent on the subject of the army's reception of the news of the fall of Port Arthur, indicating that the announcement has been withheld.

### Emperor Talks Reform.

Tsarskoe Selo, Jan. 5.—Emperor Nicholas this morning received M. Witte, Finance Minister Kokkoyzoff and Minister of Justice Muraviev, representing a committee of ministers in regard to the progress of their work in drafting reform measures. Subsequently M. Witte lunched with his majesty and had a long conference with him. The exact time for the extraordinary council of war is not known.

### Stoessel May Be Ill.

St. Petersburg, Jan. 5.—There is no definite information here regarding General Stoessel's condition, but it has been current gossip for some time that he is suffering from cancer.

## THE TERRITORIAL SUPREME COURT

The Supreme Court of the Territory of New Mexico convened at 4 p. m. yesterday in its chambers in the capitol, there being present Hon. William J. Mills, chief justice; Hon. John R. McFie, associate justice; Hon. Frank W. Parker, associate justice; Hon. William H. Pope, associate justice, and Hon. Edward A. Mann, associate justice; W. B. Childers, United States attorney, George W. Prichard, solicitor general, and Jose D. Sena, clerk.

In No. 1064 George F. Albright, plaintiff in error vs. Territory, ex rel. J. M. Sandoval, a motion to affirm or dismiss and to quash supersedeas, was set for January 10, 1905.

In case No. 1085, Emeterio Archuleta, et al., appellees vs. M. S. Otero, et al., appellants, the judgment of the lower court was affirmed.

The following named were admitted to the bar of the Territory: David D. Temple, of Artesia; James B. Lusk of Taos; Howard S. Bickley of Raton; John E. Griffith of Socorro, all of whom were admitted on certificate of practice in other states and territories; the following named having passed the proper examination by the committee appointed for that purpose were also admitted: Charles H. Spencer, Santa Fe; G. S. Reese, Portales; Oliver P. Basterwood, Clayton; Robert C. Reid, Roswell; George F. Ellis, Portales and M. J. Hiltson, of Tucumcari.

George N. McCrary of Artesia, George D. Sutton of Aztec, W. F. Hendricks, of Portales, and A. M. Campbell of Roswell, were granted thirty days extension of temporary license for the purpose of appearing before the committee. The court adjourned until 2 o'clock this afternoon.

Court reconvened this morning at 9 o'clock. Solicitor General Prichard called attention to the deaths of the following members of the Supreme Court Bar: C. E. Burg, Albuquerque; J. Franco, Chaves, Progresso; Hugh Freeman, Carlsbad; George W. Johnston, Albuquerque; W. G. Retch, Engle; L. S. Trimble, Albuquerque; W. M. Smith, Roswell; C. G. Hartley, Alamogordo. The court appointed George W. Prichard, T. B. Catron and A. B. Renahan to prepare and present resolutions.

In the case of Maria, otherwise known as Kadish Koury, relator, versus the judge of the probate court, Marcos Castillo of Santa Fe County, Patrocinio Lopez and Michael Koury, the motion of the defendant for advancement of the case was denied.

The court then adjourned until 9 o'clock tomorrow morning.

## MESILLA VALLEY PROGRESSING

Electric Light Plant and Ice Factory for Las Cruces in Near Future.

Attorney H. B. Holt of Las Cruces, who is in town on legal business, gave a reporter of the New Mexican some rather interesting news concerning his town and section. Incorporation papers are being prepared for a company which will furnish electric power and light to the citizens of Las Cruces, as well as power for an ice factory to be located there. The leading spirit in the enterprise is B. L. Berkeley of El Paso, who is in the machinery business in the Pass City and can secure ample capital for the project.

The Water Users' Association of the Mesilla Valley has been organized and its incorporation papers will be filed shortly. Many of the land owners in that section have signed the incorporation papers voluntarily and owners of about 15,000 acres have so far subscribed. A systematic canvass will be made and every land owner in the valley will be urged to join the association. In fact this is necessary in order to induce the government to undertake the construction of the dam and reservoir below the Elephant Butte. The water supply is to be used for the irrigation of 110,000 acres of land in the Mesilla Valley in this Territory and in the El Paso Valley in Texas.

It is estimated that the dam and reservoir project will cost in the neighborhood of \$4,400,000 and it will therefore be necessary that land owners representing about 110,000 acres shall be members of the Water Users' Association of the Mesilla Valley and of the El Paso Valley. This land will be valued at \$40 an acre and will be security to the United States for the expenditure of the money necessary to construct the dam, reservoir and irrigation system. After this is completed the land owners will repay to the government the cost at the rate of \$4 per year per acre to be paid yearly for ten years.

The El Paso Water Users' Association is also growing and property owners there are joining it right along. Mr. Holt feels very sanguine of success.

### RIVERS AND HARBORS

#### BILL TO GO OVER.

Washington, Jan. 5.—The prospects are that this session of Congress will not pass the river and harbors bill. The committee on rivers and harbors has been considering the bill for some time with the view of making an early report, but among the leaders of the House there is a disposition to let the bill go over for this session on account of the condition of the treasury.

## STATEHOOD BILL IS THE BUFFETT

Forces of the Mighty Are Lining Up Ready for the Big Fight.

Washington, Jan. 5.—The consideration of the statehood bill was resumed today. Senator Nelson continued his speech which he began yesterday in support of the measure.

An amendment to the statehood bill has been introduced by Senator Foraker, intended to permit the inhabitants of either New Mexico or Arizona to reject the constitution of the proposed state to be created by combining the two territories.

Senator Foraker is opposed to joint statehood and predicts the bill's defeat. He hopes to accomplish this by his amendment.

Senator Bailey of Texas, has joined his strength to the opponents of the bill. Senator Beveridge who introduced the measure will marshal the forces in its favor. Senator Bate of Tennessee wants the bill recommitted on the grounds that it has not been properly considered by all of the committee.

## BIG FRAUDS BY DEMOCRATS

One Person Writes One Hundred and Fifty-Nine Spurious Ballots in a Single Ward.

Denver, Jan. 5.—In the Supreme Court today the Republican expert reported on his findings in the case of the ballot box of precinct 7, ward 5. He reported 320 ballots in the box of which 257 were marked Democratic and 55 Republican. Of these 159 Democratic and 10 Republican were written by the same person. In addition, between 50 and 75 other fraudulent ballots were found.

The Democratic expert refused to concur and said the findings were worthless.

### Colorado Senate Busy.

Denver, Jan. 5.—At the opening of the Senate this morning Senator Drake introduced a resolution providing for the appointment of a committee of five to inquire into the right of Senators Born and Healy to hold seats and report later to the Senate. The resolution was passed and four Republicans and one Democrat were made members of the committee. A joint meeting was held at 2:30 p. m. to receive the governor's message.

## AMERICA COULD SAVE \$100,000,000

Washington, Jan. 5.—The merchant marine bill prepared by the Merchant Marine Commission, was introduced in Congress today. It is divided into eleven sections and contains 35,000 words.

The first section makes provision for creating a force of naval volunteers capable of rendering service in time of war. It provides that the secretary of the navy and the secretary of commerce and labor should cause to be made an enrollment of officers and men, now and hereafter employed in the merchant marine and deep sea fisheries of the United States.

The second section, prescribes the conditions under which vessels engaged in the foreign trade shall be eligible to receive the subventions.

Provision is made in the third section that vessels receiving the subvention may be taken by the United States at a fair compensation, for national defense or any public purpose. It provides also:

That when the postmaster general requires, the vessels shall carry mails free of charge.

That one-sixth of the crews shall be citizens of the United States.

The fourth section relates to section three.

Sections five, six and seven authorize and direct the postmaster general to enter into contracts, for not less than five nor more than ten years, for the carrying of mails in steamships built and registered in the United States, between ports of the United States, and foreign ports.

Section nine relates to apprentices.

Section ten repeals all conflicting acts and section eleven fixes July 1, 1905, as the time the proposed legislation shall take effect.

Leading up to the new legislation proposed for the development of the merchant marine the commission has reviewed extensively the character of its investigation.

An adequate American ocean fleet, the commission says, would mean the saving of this country of \$100,000,000 a year which now goes to build up the commercial power and naval strength of Europe and Asia. Attention is called to the fact that we have deepened our harbors at an expense of many millions of dollars, almost exclusively for the benefit of foreign steamships.

The report deals at length with the handicap upon American shipping created by the subsidies and bounties bestowed upon most of the merchant fleets of foreign governments, which is placed in the van of the lower cost of foreign ships and the lower cost of maintenance of these ships.

## THE APPOINTMENT OF A SUPER-INTENDENT OF PUBLIC INSTRUCTION.

"Every honest man in New Mexico will admit that it is an anomaly to have a politician, who knows no more about public school matters than he does about Arabic, in the chair of territorial superintendent of public instruction. A doctor has always been selected for president of the Territorial Board of Health and a lawyer has never failed to be named for solicitor general. Why isn't a teacher, and a well qualified and experienced one, placed in the superintendent's chair?"—Deming Headlight.

Abstractly and theoretically there may be something in the above contention. In reality it does not hold water. The present superintendent of public instruction, Amado Chaves, has held that office for six years, is a thoroughly educated man, a university graduate and is one of the best scholars in the English and Spanish languages in New Mexico. The fact that he has creditably filled the position of superintendent of public instruction for six years and that under his administration the public school system of the Territory improved very satisfactorily and greatly, is proof sufficient that he is a competent man for the position. The fact that a man is a teacher and an educator does not presuppose nor establish that he has sufficient executive ability, discretion and tact to fill the difficult position in this Territory. Here it is not so much a trained educator who is needed as a man who by education, character, attainments and knowledge of the English and Spanish languages, is fitted for getting close to the people and thus advancing the best interests of the public schools. It is noticeable that in each of the higher educational institutions, the president of the faculty who is a professional teacher or educator is not allowed the actual management except of the educational part of the institution and the matters connected therewith. In each case there is a board of regents which is really the managing body of such institutions. In the cities, the city board of education has the last say in everything connected with the schools and if the city superintendent of schools does not do as the board desires, he is discharged. In the counties the county school superintendent and the boards of directors of the school districts are really the managing bodies of the schools, while the teachers are restricted to teaching. And what is more, these matters are proper and right and have been found so after many years of actual experience. The people do not desire to be dictated to in this matter. They want the teachers and the educators, who are employed by them and by the taxpayers, to do their duty within their proper sphere, but no more and no less.

The New Mexican does not object to the appointment of a practical teacher and educator to the office of superintendent of public instruction of the Territory, but in its opinion, there is neither rhyme nor reason in the claim that a superintendent must be a professional educator or college professor. The New Mexican is with the people in this respect and it is perfectly free to say that a man of the stamp and attainments of Amado Chaves is at this time and will be for some years to come the proper man for the position. This is not said in derogation of any professional teacher or college professor who may be an applicant. They have a perfect right to be. But when it comes to insisting and commanding the executive of the Territory what he shall or must do in the premises, the New Mexican takes no stock in it. After all, it should be remembered that the higher educational institutions and the public schools of the Territory are made for the people and not the people for them. There is in this Territory today a population of 150,000 people of Spanish or Mexican descent, many of whom do not speak the English language. This is a condition and not a theory and it must be recognized

if the public school system is to advance and become what it ought to be. The New Mexican knows the defects of the system very thoroughly and that steady and constant improvement must be the rule.

This paper believes that Governor Otero will act for the best interests of the entire people of the Territory, despite the clamor that is now being set up in this matter. After all, it is the part of the population of the Territory which does not speak the English language at present and the children in it, who need public schools most at this time.

In the towns and cities, boards of education do the managing of the schools. The higher educational institutions have boards of regents and faculties for their management. The public schools, however, are managed by the people and they will certainly not give up the right of electing such superintendents as they see fit and are deemed best for their own interests. In this last matter, the people of each county must decide and will decide. As far as the office of superintendent of public instruction is concerned, that is a matter for disposition by the Governor of the Territory and the Legislative Council. The superintendent should be a man, who being otherwise qualified, has the proper temperament and knowledge of the people to get along with the superintendents of county schools and with the hundreds of boards of directors of district schools. For some years to come in New Mexico, he should be a man of the people and with the people. Abstract theories cannot count for much in New Mexico these days. Practical experience, knowledge of the people and a faculty to get the county school superintendents and local boards of directors to do their bests and to comply with the school laws as thoroughly as possible, are the characteristics that are most needed in the territorial superintendent of public instruction now and for some time to come.

## AN ARIZONA PLAN FOR FIGHTING THE JOINT STATEHOOD BILL.

The Bisbee, Arizona, Daily Review, urges the entire Arizona legislature to go on to Washington to protest against the passage of the joint statehood bill. If the railroads furnish the passes and the territory pays for the other expenses of the junketing trip, but few legislators will object to the scheme, and it might find some favor even among the legislative solons of New Mexico. But Santa Fe objects strenuously to having its chief attraction during the next two months removed to the national capital, which has attractions enough of its own. As to the influence upon statehood legislation, the presence of either legislature or of both would not be sufficient to prevent the passage of the bill. The Senate yesterday made it the unfinished business of the session and that means that the bill has the right of way and the necessary votes to pass it.

## NEW MEXICO'S MINING PROSPECTS.

The United States is not the only gold producer in the world. Sixteen companies interested in gold mining in South Africa declared dividends in London this week amounting to \$5,000,000. One corporation, the Bonanza Company, has to date paid 570 per cent dividends to its stockholders. Including other mining companies, the total amount of dividends paid by South American mines last year was almost \$40,000,000. These mines are all located in an area less than that of New Mexico, and remarkably like this Territory in conformation, climate and other peculiarities. It is not altogether improbable that some day this Territory will rival South Africa as a mineral producer and the fact that it has already produced \$30,000,000 worth of gold and \$40,000,000 worth of silver would argue that the present depression in the mining of the precious metals in New Mexico cannot be permanent for thus far only a small portion of this section has been properly prospected and but little developed in a systematic manner.

Road supervisors throughout the Territory have been making their annual reports to the boards of county commissioners. These reports are mostly imaginary and not worth the paper they are written on. The salaries of these road supervisors amounting to \$50 per annum in each case, are, however, a stern reality. The present road laws of the Territory are inadequate and not effective. The Thirty-sixth Legislative Assembly should adopt a comprehensive and efficient law for the administration of all matters connected with the highways and public roads in New Mexico. If the assembly does this, it will have done greatly needed and beneficial work.

Kansas will again lead in freak legislation. F. Dumont Smith of Kinsley, a member of the state senate, has already prepared a bill, to authorize limited marriage contracts, setting the minimum time at ten years, after which the marriage contract shall be dissolved. If the bill passes and becomes law, there will be a heavy immigration to the Sunflower State.

President Roosevelt is as earnest a civil service reformer as ever. He has placed more government employees upon the civil service list than any of his predecessors and he is about to issue an order to place 700 unclassified clerks at Washington under civil service rules and later to extend that order to apply to every clerk outside of the national capital.

## THE SCENIC ROUTE ROAD MUST BE COMPLETED.

Special Agent James W. Abbott of the Pacific Coast and Rocky Mountain division of the Good Roads Bureau, is singing the praises of the Scenic Route Road wherever he goes. The Walla Walla, Washington, Union gives a resume of an address he made in that town, in which he speaks in superlative terms of the good work that New Mexico is doing for the cause of good roads and towards the solution of the convict labor problem. He showed pictures of the Scenic Highway and of the convict camps, and demonstrated that in this particular New Mexico is not only up to but ahead of the other commonwealths of the Union. In view of this fact, it would be the height of penuriousness and folly for the coming legislature not to make a liberal appropriation for the completion of the road and its extension to the north and to the south. What a splendid monument it will be to the farseeing legislators of the last and the coming assemblies, if a fine highway were to be built crossing the Territory from north to south with branch roads east and west. It would count for more than all other legislation that might be passed.

A Territorial exchange remarks that the letters in Santa, when differently arranged spell Satan, and expresses the opinion that this is very significant when the coming legislative session is thought of. This exchange evidently hasn't learned that Santa Fe has improved its morals wonderfully in late years and that it is one of the few, very few towns, that observes the Sunday law even though its next neighbor, the city of Albuquerque, has its joints wide open on the Lord's day.

The Port Arthur fleet has gone to the bottom of the sea. The chances are that the second and third Baltic fleets will do likewise, as soon as they meet Admiral Togo's Japanese men of war. There is one thing very creditable to the Russian navy and that is that the commanders let their ships go to the bottom of the sea in good shape. So far they have been very successful in that line.

Accidents will and must happen but it seems that on many of the railroads of the country, they happen not because they must, but because there is too much carelessness and inefficiency in their management. The record of some of the railroads during the year 1904 is appalling and the loss of life which occurred in railroad wrecks is awful.

United States Senators state that the amount of correspondence concerning railroad rates which they are receiving is enormous and is constantly on the increase. They admit that something must be done to relieve the pressure and that attention must be paid to the writers who are numerous and generally substantial businessmen.

General Stoessel and General Nogi have written their names large upon the pages of history but the names of those whose blood was spilled and who made fame possible for their commanders, are not even recorded.

New Mexico wool will bring good prices this year and there will be lots of it. Every indication points to a fulfillment of the prophecy that this will be the most prosperous year in the history of the Territory.

Attorney General Moody is getting after the paper trust. This is one of the most iniquitous and dishonest combinations in the country and ought to be smashed into smithereens.

## BAD BLOOD

Reveals itself in many ways. Sometimes the impurities in the blood mark and mar the skin with blotches, pimples, boils or other eruptions. Sometimes the result of bad blood is rheumatism or a debilitated condition which is popularly described as "feeling played out, hardly able to drag myself around."

The impurities and poisons which corrupt the blood, clog the liver and cloud the skin are removed by the use of Doctor Pierce's Golden Medical Discovery. It does more than eliminate the poisons; it increases the activity of the blood-making glands so that there is an increased supply of pure, body-building blood. It brightens the eyes, cleanses the skin, and gives new, physical energy.

Accept no substitute for Dr. Pierce's Golden Medical Discovery.

"I thank God for the good your medicines have done me," writes Mr. James M. Sizemore, of Mitchell, Lawrence Co., Ind., Box 501. "I was not well for two years. My throat was always sore, head ached, and back ached nearly all the time. My weight was 155 pounds. I was taken sick with typhoid fever, and when the fever left me I had such a pain in my left side I could not breathe without pain. I thought I must die. My wife went to the drug store and procured a bottle of Dr. Pierce's Golden Medical Discovery and a vial of his 'Pleasant Pellets.' I discontinued the use of my doctor's medicine and began with the 'Golden Medical Discovery' and 'Pleasant Pellets.' I at once began to feel better: the pain soon left my side and I could breathe with ease. In a week or so I felt so good I could not stay in the room. I began to walk about the streets; I felt better each morning. After a month's use of the medicine I was well. That was over a year ago. Now I weigh 175 pounds and feel better than ever in my life."

Dr. Pierce's Pleasant Pellets cure constipation.

## AN EXCEPTIONAL MEETING HERE

Long years ago, near the close of the Civil War, two boys were classmates at the Pennsylvania Military Academy at West Chester, one a native of the Keystone State and the other of New Mexico.

More than a third of a century later these boys were destined to meet in Santa Fe in the rooms of the Democratic Territorial Central Committee, the secretary, Francisco Delgado, a mutual friend, introducing the boys. As one topic of conversation led to another they discovered they had been associated together before and that they had been school fellows.

Away from West Chester, during holidays and vacations, they had fished and hunted along the historic Brandywine and had rambled over the fields of Valley Forge, where Washington and his patriotic army froze and starved while in the roughest of quarters.

They had spent many blissful hours in the vicinity of Peborah's Rock, whence the Delaware Indian maiden had flung herself while she and the remnant of her kindred were being pursued by the British troops in Colonial times. They had as a couple made friends with many of the academy's attendance, composed mostly of American young men, but which also had within its ranks a score of cadets of Spanish descent hailing from New Mexico, Spain, Cuba and Mexico.

The "boys" referred to are Frank Dibert, assistant secretary and treasurer of the Santa Fe Central Railway, a resident of the New Mexico capital, and Rafael Romero, ex-superintendent of schools of Mora County, New Mexico. The sons of these old, but agile boys—Ammon Dibert and Arthur Romero, served together for some time as members of the engineering corps of the Santa Fe Central, the Torrance, Roswell and Durango, and the Albuquerque & Gulf Railroads. They became intimate friends, wholly unconscious that their sires had been college mates in far off eastern Pennsylvania.

## STORY OF WRECK VIVIDLY RELATED

"That was a memorable experience for us all," said Judge M. T. Moriarty, who came into the Capital City from Moriarty the next morning after the Santa Fe wreck near Waldo.

"When we first halted we did not think so very much about the mishap. We were told that the engine and three cars were displaced and that a couple of rails were spread. One of our party made the assertion that two or three hours would clear the track and we all listened to him. The two hours came and two more on top of them and it was then we began to get anxious and hungry. When it was seen our train could not get through, we were sent back to Thornton for supper. We were all hungry as could be and anything that looked the least bit palatable was corralled.

"The most amusing episode occurred when Attorneys Fergusson, Field, Childers, of Albuquerque, and myself entered the establishment of a Jap in company with other gentlemen. I took the proprietor for a Chinaman and I fired at him the few Chinese words I knew. He replied: 'Me no Chinee-mun, me Jap.' We all made him understand our mission and a few minutes later he was completely aware that we were right hungry. I managed to get a couple of hard boiled eggs. As I was congratulating myself upon the acquisition of this, together with two or three hard pieces of bread and a chunk of butter that was of sufficient strength to dance about my plate I chanced to look over to the other side of the room and saw my friend, Fergusson, had procured a can of corn beef from a high shelf. He lost no time in opening the tin and lost little time after he had gotten a mouthful. That beef was about the most delectable edible the barrister had had in his possession for a lengthy season. He could not say enough in its behalf and he did not offer any of us a particle of the meat. Everybody was watching Fergusson with his can and he had to watch it or some one else would have relieved him of it. There were just enough of the lawyer's friends on that belated accommodation to keep him reminded of the extended jaunt to Santa Fe for years to come."

### Do Not Suppress a Cough.

When you have a cough, do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructs the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by all druggists.

The New Mexican can do printing equal to that done in any of the large cities. Our solicitor: Every piece of work we turn out. Try our work once and you will certainly come again. We have all the facilities for turning out every class of work, including one of the best binderies in the west.

### PLEASANT AND MOST EFFECTIVE.

T. J. Chambers, Ed. Vindicator, Liberty, Tex., writes, Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasant remedy for coughs and colds I have ever used." 25c, 50c, and \$1. Sold by Fischer Drug Co.

### Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes "I had Salt Rheum or Eczema for years but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at Fischer's Drug Co.'s store.

When bilious try a dose of Chamberlain's Stomach and Liver Tablets and realize for once how quickly a first-class up-to-date medicine will correct the disorder. For sale by all druggists.

There is a class of people in Santa Fe who trade only with the merchants who advertise their business in the home paper.

### DON'T BE "CHADWICKED."

A great many eastern people have been "Chadwicked" of late—also some westerners, but if you want to get your money's worth, go to the Bon Ton, where you can get value received for your money. The biggest and best meal in the city for 25 cents.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the "New Mexican."

Harry P. Owen, a member of the legal firm of Owen & Klock, of Albuquerque, is here on legal business. Mr. Owen officiates as court stenographer for Bernalillo County.

Dr. R. A. Metzge, who has been stopping at the Claire several days, has gone to El Paso. Dr. Metzge lives in Chicago and he is on a trip to the southwest for the benefit of his health.

David D. Temple, who practices law at Artesia, was in the city yesterday and was among those examined for admission to the Supreme Court bar. He was successful in his aspirations.

Augustin Kirchner arrived in the city yesterday from Albuquerque and left this morning for Moriarty, where he has accepted a position with the Albuquerque Eastern Railroad Company.

General Manager S. B. Grimshaw of the Santa Fe Central spent today in Kansas City and leaves that town tonight for St. Louis, where tomorrow he will have an interview with Rock Island officials for the purpose of obtaining the best possible passenger and freight service and connections between the Rock Island and Santa Fe Central trains.

C. B. Adams, a ranchman living thirty miles west of Datil postoffice in Socorro County, was among yesterday's arrivals. Mr. Adams is one of the old timers in New Mexico, and has been engaged in ranching and stock raising in western Socorro County for over thirty years. He came west in 1866 and was a personal friend of Kit Carson. He was present when the latter died at Fort Lyons, Colorado, in 1868. He will remain here for an indefinite period, having accepted a responsible position on the penitentiary force.

Superintendent Clinton J. Grandall, of the United States Indian Industrial School, left last evening for Albuquerque, where today he attended a meeting of the delegations from the several Indian Pueblos north, south and west of that town at the United States Indian School. The meeting was called by the Indians for the purpose of se-

zona, where his experiences were of the strenuous kind and at one time he had a narrow escape from death at the hands of the Apache chief known as "The Kid." It was in the last named year, that Professor Jones came to New Mexico to make a survey of a proposed railway line from Maxwell City to the Rio Grande by way of Taos Pass, and the town of Taos. In 1894 and 1895, he was engineer in charge of an expedition and survey across the Isthmus of Tehuantepec, an experience, that, to say the least, was unique.

From 1896 to 1898, Professor Jones was government assayer in charge of foreign ores at the port of Kansas City. During this time he acted as chemist of the State Geological Survey of Missouri. It was from 1898 to 1902 that he was president of the faculty of the New Mexico School of Mines at Socorro and placed that institution upon a plane with similar schools in the States. During the last mentioned year, he was appointed field assistant of the United States Geological Survey with headquarters at Albuquerque and at present he is in charge for the survey of the investigations, the reports and the statistics of the mineral resources of New Mexico.

Owing to the limited means of the New Mexico Board of Louisiana Purchase Exposition Managers only one thousand copies of "New Mexico Mines and Minerals" were printed for it, while for the Bureau of Immigration, 300 copies were printed, through the kind permission of the author, for the book is copyrighted. Copies will be distributed to those interested in mining where they are bound to do much good for the Territory in making known the wealth of its mineral resources and in attracting capital for their development. The work will undoubtedly be in such demand that a second edition may have to be arranged for before the year is out.

lecting delegates and raising the necessary funds to send a delegation to Washington to interview the Secretary of the Interior and the commissioner of Indian affairs, and enlisting their aid in the Indians' endeavors to be exempt from taxation in the Territory.

New Mexico Civil Code handsomely bound in sheep, per copy \$1.00, for sale by the New Mexican Printing Company. Copies will be sent by mail upon the receipt of sum as above, to any address desired.

## WHAT YOU WERE LOOKING FOR.

The Bon Ton has on hand for its winter trade 80 gallons of pickled chiles, 80 gallons of fine dill pickles and about 100 gallons of excellent sauer kraut, prepared under the manager's personal supervision, and it goes without saying that they are "all right." Everybody who has patronized this up-to-date establishment knows that it handles nothing but the best. Mr. Conway says that he is making a special effort to serve the best meals in the city for as little money as is consistent with the times.

## JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides; have a full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10-1/2x16 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal... \$4.00  
Combination civil and criminal \$5.00  
For 45 cents additional for a single docket or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address: NEW MEXICAN PRINTING CO.

All members of the Capital City Band are requested to meet at Muralter's shop at 8 o'clock this evening, as important matters of business are to be taken up.

I. B. Hanna, supervisor of the Pecos Forest Reserve, who has been ill for some time, but who was getting better rapidly, has suffered a relapse and is in a serious condition.

Members of St. John's Methodist Episcopal Church are observing this as a week of prayer by holding several cottage prayer meetings. The meeting this evening will take place at the home of J. J. Davis and that of Friday evening at the home of C. E. Linney.

The Santa Fe Typographical Union No. 405 held its monthly meeting last night. The following officers were installed for the year, 1905: President, Canuto Alarid; vice president, M. Lopez; treasurer, J. A. Rael; secretary, M. Vigil; executive committee, R. H. Bowler, William Rash and J. J. Ortiz; auditing committee, C. W. Combs, F. A. Edwards, P. C. McCreary; sergeant-at-arms, J. G. Howland.

County Treasurer Celso Lopez has been assigned office room in the court house and has appointed Federico Lopez as his deputy. The collector or his deputy will be found at the treasurer's office daily in regular office hours. This move on the part of Mr. Lopez is a correct one and will prove of benefit to the taxpayers. Indeed county officials should have an office at the court house and be there daily for the performance of their duties.

The Santa Fe Lodge of the Woodmen of the World gave a banquet in its hall last evening. This was preceded by the installation of officers for the coming year, as follows: A. M. Dettelbach, past council commander; Antonio Alarid, council commander; D. L. Miller, advisor lieutenant; H. S. Kaune, banker; H. S. Lutz, clerk; C. H. Lauchner, assistant clerk; Carl Probst, escort; Miguel Gorman, watchman; J. R. Valencia, sentry; J. H. Sloan, physician; Eugenio Sena, J. H. Gerdes and Charles Palmer, managers.

## ATTORNEYS OF TERRITORY MEET

Committee Appointed to Draft Resolutions of Respect in Memory of the Late E. L. Bartlett.

The Bar Association of the Territory of New Mexico met at 10 o'clock this forenoon in the Supreme Court chambers at the capitol pursuant to the by-laws. Hon. T. B. Catron presided and R. H. Hanna was at the desk as secretary. A quorum was present.

The death of the late Solicitor General Edward L. Bartlett was brought to the attention of the association. J. G. Fitch of Socorro moved that a committee of three be appointed to draft suitable resolutions in memoriam of the deceased who has been secretary and treasurer of the association for nineteen years. The motion was carried and the chair appointed the following: A. B. Renehan and R. C. Gortner of Santa Fe, and J. Leahy of Raton. R. C. Gortner of Santa Fe moved that the temporary appointment of R. H. Hanna of Santa Fe as secretary and treasurer made by the president of the association, W. C. Wrigley of Raton be continued. This was seconded by Mr. Leahy of Raton, and carried.

On motion of J. G. Fitch of Socorro, the association adjourned until Monday, January 16th to meet in the Supreme Court chambers in this city and at which time the committee on law reform would submit report and action would be taken as to the course of procedure in this respect before the Thirty-sixth Legislative Assembly.

## SNOWBALL SPORT WILL NOT LAST

The children of Santa Fe, or at least a goodly proportion of them, have had no more real sport than during the past few days. Some of them have been longing for snow ever since winter appeared and on last Sunday night enough of the beautiful descended to please them immensely. When the eyes of these wee people opened the following morning and they beheld the trees laden with the products of the clouds, the streets and ground a white sheet, their hearts were enraptured beyond compare. "I don't want to go to school this week at all," said one lad of seven summers as he approached the breakfast table on Monday morning. "And neither do I," remarked a sister one year his senior. This couple spoke the universal sentiment of the youth of the city when they directed these statements to father and mother, because 'tis not often they are permitted to enjoy sledding like that of the present and that which has just melted into pleasant remembrances. Perhaps the liveliest scene that has been enacted within the capital purlieu is on the Lincoln Street knoll immediately in front of the federal building. Every afternoon about 3 o'clock an army of children assembles here with sleds to remain until darkness drives them indoors. Their merry voices can be heard many blocks and many older persons have been attracted to the spot and have been almost as much delighted as their little friends by standing by and looking on. Old Sol is trying hard to spoil the fun of the little folks, but they are determined to disport on the raise as long as there is a vestige of snow.

# IS BEAUTIFUL AND UNIQUE

New Hostelry on Bright Angel Trail Almost Ready for Flood of Tourists.

In a comparatively few days El Tovar, the picturesque new hotel at the Grand Canyon, will be thrown open to guests. President Roosevelt's wish that none of the natural beauties of the surrounding premises be deranged has been closely observed.

El Tovar is a sort of log cabin palace. The building is long and low and sits cozily down among the pines.

Roughly hewn logs and boulders for the walls and shakes for the roof are the outside and part of the inside finish. The wood is stained a weather beaten color and has the appearance of having stood for fifty years or more.

The porches are of rustic finish, wide and large and artistic in design. The length of the hotel north and south is three hundred and twenty-five feet, and the width from east to west is two hundred feet.

The south end of the building is four stories high and the north end three stories high. From the roof gardens at either end a wonderful view of the country can be had. Aside from the views of the canon one can overlook the Coconino forest, which appears like a great bed of moss, and the mountains nearly a hundred miles beyond.

The forest is a government reserve and is a part of the largest continuous belt of pine timber in the United States.

Ample accommodations are provided for 250 guests. The furnishing is so varied that no two rooms look at all alike.

The railroad station will be about two hundred feet from the main entrance of the hotel.

# STEEL BRIDGE TO SPAN PECOS

Contract Price Somewhat Exceeds Amount of Bonds Which the People Voted for That Purpose.

It will be a matter of only a few weeks now until the turbulent Pecos will be spanned by an effectual bridge north of the city of Carlsbad.

After weighing the merits of a score of bids both for wood and steel structure the county commissioners decided that the bridge should be built by the Texas Bridge Company of Dallas, according to its own plans and specifications as submitted and at a price that by some few hundreds of dollars exceeds the amount provided for by the county's late bond election.

The price agreed upon was \$4,978. The bridge to be a steel structure 375 feet in length, including the approaches. The bridge proper to be 120 feet long, which is the length of the span across the river. It is to set upon steel cylinders filled with concrete, to be twenty feet wide and twenty feet high. Forty feet on either side of the main structure steel bents are to be used and the remainder is to be wooden. According to the terms of the contract \$2,500 is to be paid as soon as the material is laid down on the ground and the remainder as soon as the contract has been fulfilled.

# JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides; have a full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10-1/2x16 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices: Civil or criminal, \$4.00. Combination civil and criminal \$5.00. For 45 cents additional for a single docket or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address, NEW MEXICAN PRINTING CO.

New Mexico Civil Code handsomely bound in sheep, per copy \$1.00, for sale by the New Mexican Printing Company. Copies will be sent by mail upon the receipt of sum as above, to any address desired.

# DON'T TAKE ANY WOODEN MONEY

Counterfeiters Are at Work But Two of Them Have Suspended Operations for the Present.

Watch out for bad money.

If the signs fall not there is some of the spurious abroad in the Territory. It is a relief, however, to know that United States Commissioner W. B. Bunker, of Las Vegas, has two of the alleged film flammers in the toils.

Robert Stanley and James Scott are the alleged counterfeiters. They were arrested at Raton by United States Marshal Wiley who has good reason to believe that in the gang are two more who left Raton before his arrival.

Dies and counterfeit coins of different denominations were found in the possession of the men arrested. The officers had been on their track for some time. A considerable quantity of the spurious coin has been circulated. The imitation is fairly good, but can be easily detected by an expert.

In order to give the prisoners time to make a defense if they desire, the case was continued until January 7. Commissioner Bunker placed them under bond of \$1,000 each in default of which the men went back to the county jail where they have been kept since Saturday.

# Sickening Shivering Fits

Of ague and malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At Fischer's drug store; price 50c, guaranteed."

## GALLUP'S LIGHT IN PAGE'S HANDS

Starts the Business and Then Buys Out His Albuquerque Competitors.

Gregory Page, merchant, has become the light and power magnet of Gallup. Dissatisfied with the rate which the Albuquerque owners of the light and power plant at Gallup made to its consumers Mr. Page about one year ago put in a plant of his own. It is said that both plants made money. Nevertheless when Mr. Page made Maynard Gunsul of Albuquerque and his associates in the enterprise an offer Tuesday his offer was promptly accepted and the deal went through. The price is said to have been about \$50,000. Mr. Gunsul's people also control the plant at Roswell.

## THIS PIPE MAY BE NO DREAM

Carlsbad Oil Will Be Pumped By Pipe Line From the Fields to Railroad.

Something of an excitement prevails at Carlsbad over fresh discoveries of oil. Thomas E. Teegarden of Los Angeles is at the head of a California company which proposes to make a thorough test of the oil conditions at Carlsbad and to develop the fields there for all there may be in them. It is proposed to pump the oil in pipes to the railroad six miles distant and if the oil makes good to pump it into the city of El Paso by pipe line.

A number of rigs are now on the ground and drilling will be started in a few days.

During the next week or two over 20 carloads of additional machinery and about 75 men will be brought from southern California to the new field. A railroad will be built from the new field to connect with the Pecos Valley & Northeastern. Telephone and telegraph lines are now being installed. Test wells already sunk have proven that this Territory is rich in a high grade fuel oil.

According to oil experts who have visited the new fields it is a country where oil can be had from the "grass roots," and in making filings the poorest man can file on just as much territory as the richest. The discovery means a change in the condition of many men who today are not wealthy, providing the seemingly well substantiated stories told in regard to these new discoveries prove well founded.

## \$390 FOR LETTERS ABOUT THE SOUTHWEST.

The Rock Island system offers 20 prizes, of the aggregate value of \$390, for letters relative to the territory along its lines in Arkansas, Kansas, Indian Territory, Oklahoma, Texas and New Mexico. Letters should deal with the writer's experiences since he settled in the southwest. They should tell how much money he had when he arrived, what he did when he first came, what measure of success has since rewarded his efforts and what he thinks of that portion of the country in which he is located. Letters should not be less than 300 nor more than 1,500 words in length and will be used for the purpose of advertising the southwest.

Letters are desired not only from farmers and farmers' wives, but also from merchants, school teachers, clergymen; from everyone, in brief, who has a story to tell and who knows how to tell it.

For circular giving details, write John Sebastian, passenger traffic manager, Rock Island system, Chicago, Illinois.

## COMFORTS OF TRAVEL.

The porter on the California Limited this winter will be prepared to press a gentleman's trousers while he waits. This is a new wrinkle, introduced for the benefit of fastidious dressers. It isn't absolutely necessary to carry along an extra pair of trousers, either; the porter works while you sleep.

On this luxurious train daily market reports are received by wire; there are the latest morning and evening newspapers issued en route, fine stationery, a library of western books and current magazines. A Whitely exerciser for those who wish to keep up their athletics, and electric curling irons for the ladies are other traveling comforts. The Santa Fe intends to keep its fast flyer to the front.

## ALL WRONG.

The Mistake is Made by Many Santa Fe Citizens.

Don't Mistake the cause of backache. To be cured you must know the cause.

It is wrong to imagine relief is cure. Backache is kidney ache. You must cure the kidneys.

A Santa Fe resident tells you how this can be done.

Cipriano Chavez, county jailer of Agua Fria street, says: "I had attacks of backache for three or four years. Latterly they were of much longer duration and occurred much more frequently. For 20 days before I went to Ireland's Pharmacy there was no let up to the dull aching and nagging pain despite the fact that I used medicines and wore plaster. Two days' treatment with Doan's Kidney Pills was sufficient to let me know that the remedy was going to the root of the cause and a continuation of it for some time stopped the very severe attacks. I now know what to use in the future I notice any traces of backache."

For sale by all dealers. Price 50 cts. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Mr. William S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by all druggists.

## CURED LUMBAGO.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with Lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former sufferers." 25c, 50c and \$1. Sold by Fischer Drug Co.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$1.00 per week; \$5.00 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

## RENEHAN DITCH INTERFERENCE

In the matter of the Nambu ditch line and reservoir trouble, mentioned in yesterday's New Mexican, Attorney A. B. Renehan, has procured the names of some of the disturbers as follows: Francisco Tafoya, Jose Miguel, Loreto Vigil, Nambu Indians; Antonio Herrera and Jose Gravel Ortiz, Cleoro Wildener, of Pojoaque.

Wildener acted as spokesman for the persons named, representing that those in question composed a committee appointed by the people to stop the work on the ditch. Juan Tafoya, foreman for Mr. Renehan, was ordered to cease operations of which he was in charge and not to resume them. As has been stated, the reservoir and ditch concession was granted Mr. Renehan by the secretary of the interior on November 17, 1903, for the construction of a ditch line from the Nambu River to a reservoir some distance away, the two to be used to operate an electric power plant at Nambu Falls for which the concession was obtained. The matter is to be referred to United States Attorney W. B. Childers and it is likely the coming grand jury will be called upon to look into the trouble.

## WHICH IS WHY HE IS NOT HERE

Judge Baker States Reasons for Not Participating in Present Session of Supreme Court.

Judge B. S. Baker is not in attendance upon the present session of the Supreme Court and he has wired Chief Justice W. J. Mills that he will not be.

Concerning which Judge Baker said to an Albuquerque reporter: "Last week I sent the following telegram to the attorney general at Washington, D. C.:

"I will refrain, for the rest of my term from active duty as associate justice with your permission," and received the reply from Attorney General Moody, "request is granted."

"Under the circumstances and conditions which I do not care to explain, it would not be pleasant for me to sit on the Supreme bench at this time. I have wired the chief justice that I will not be present at the opening of the Territorial Supreme Court."

## ARE HEEDLESS OF PARTY LINES

Arizona Republicans and Democrats Shoulder to Shoulder in Fight Against Joint Statehood.

Phoenix, Jan. 5.—Phoenix has been aroused during the last few days on the question of statehood as it has never been aroused before. The opinion prevails here that unless some influence is brought to bear upon the Senators of the United States Arizona's autonomy is doomed. The action of the Bar Association of the territory in passing resolutions protesting against the passage of the joint statehood bill, has attracted much attention because of its clear statement of the objectionable conditions which would follow the proposed joining of Arizona and New Mexico into one state. In addition to the forwarding of the resolutions of the Territorial Bar Association to Washington it is proposed to send a delegation of five of the prominent lawyers of the territory to join Colonel Wilson, Mark Smith, B. A. Fowler and the other Arizonans who it is known will be in Washington to combat the iniquitous merger statehood bill. To meet the expense of the Bar Association of the committee it is proposed that the several counties contribute. Messages were sent out today to representative citizens of many counties by Judge Kibbey, and the replies indicate that the people are ready to put up the expense money.

It is known that Colonel Bob Morrison will be named on the committee from Yavapai County, and that Judge Kibbey will be named on behalf of Maricopa County. As soon as the matter of expense is guaranteed the other three members of the committee will be selected.

## ANTLERED HERD OF SANTA FE

About six months ago the Santa Fe lodge of Elks, No. 460, was incorporated by certain members of the order, but the incorporators never held a meeting until last night, when they met and transacted important matters of business. A. L. Morrison was chosen president; Charles Haspelmuth, treasurer, and A. J. Fischer, secretary, these to serve for a period of three months. By-laws were presented and after due discussion adopted. In a few days pamphlets containing these will be sent to the members of the lodge, urging them to scrutinize the by-laws carefully and by so doing ascertain the objects of the corporation so as to reach a decision concerning membership in the corporation. The Santa Fe lodge of Elks hopes to be able ere long to make arrangements for erecting a new home on its premises on Palace Avenue. The proposed structure is already being discussed and it is probable that in a short time movements will be telling in this direction.

We have a very fine quality of bulk buckwheat flour. It makes mighty fine cakes for these crisp mornings, especially if served with FERDELL or P. V. pure maple sap.

### MEAT MARKET.

Do not fail to try our United States Government inspected beef, pork and lamb. We also carry a nice line of specialties, such as sausages, tripe, boiled ham, pig's feet, head cheese, spare ribs, etc. Did you ever try boiling sauer kraut and spare ribs together?

### HAY AND GRAIN.

We at all times carry a complete line of feed for the cow, horse and chickens. Order either by phone or in person and get the best.

## Everybody

or most everybody, knows the Round Oak stove. We can give you plenty of testimonials as to its superiority. In its new, up-to-date dress it is the handsomest stove on the market, and in tight fitting, fine workmanship and "business" it excels all others. Do not mistake other stoves for the genuine. Look for the name on the leg, "Round Oak." It is the stove you have always heard about. We will be pleased to explain it fully.

## PALMER SUFFERS SEVERE STROKE

Charles E. Palmer Victim of Paralysis and His Condition Serious.

Charles E. Palmer, who keeps an express wagon about Santa Fe streets, and whose home is on San Francisco Street, was stricken with paralysis early this morning. Mr. Palmer had been to the barn to feed his horse and had just returned to the house when he fell. He was given medical attention and his condition is very serious. He is unable to talk intelligently and his right side is motionless.

### WHERE MILLIONS ARE MADE.

Interesting Letter That May Mean Much to Residents of Santa Fe.

Probably there is not a reader of the New Mexican who has not heard of the fortunes made in the Beaumont oil fields. While the tales of fortunes quickly made are interesting, they are really not half as valuable to our readers as the following letter from L. K. Preston, president of the Caswell-Preston Drug Company of Beaumont, one of the largest wholesale and retail houses in Texas.

Mr. Preston writes: "Enclosed you will find a letter that came to us unsolicited from J. C. Reeves, 770 Pearl Street. I have known Mr. Reeves for several years. He is a reliable man and very happy over his fortune."

"About four years ago," writes Mr. Reeves, "I lost the hearing in my right ear and about three or four months ago my left ear became almost as bad. In fact I was so bad that people had to shout at me to make me hear. I had about given up in despair all hopes of ever recovering when I saw that you recommended Hyomel. I used two bottles and can now hear my watch tick with either ear, and my hearing is now all right. This deafness must have been caused from catarrh, for it is now cured. Hyomel certainly does what you claim for it."

Hyomel has made many cures of catarrh, and in combination with Hyomel balm, of catarrhal deafness in Santa Fe and nearby towns. A. C. Ireland gives his personal guarantee to refund the money should it not give quick relief. The complete Hyomel outfit costs but one dollar, while extra bottles can be obtained for fifty cents.
