TRYING A STAMPEDE

Oklahoma and Indian Territory Get Impatient and Try to Rush the Hamilton Bill as Applies to Themselves.

ANDREWS IS FIGHTING

Is Backed By the Arizona Delegation Which Says Let Arizona Remain a Territory Forever Rather Than Jointure.

Special to the New Mexican. Washington, Jan. 11.—Fifty delegates from Oklahoma and Indian Territory are storming the Senatorial committee rooms this afternoon demanding the passage of the Hamilton joint statehood bill with its main provisions as applying to Oklahoma and the Indian Territory. Senator Cullum of Illinois, now says that the bill will surely pass. He admits that there may be some amendments. Senator Beveridge of Indiana, who is leading the fight for the bill's passage states that the bill will unquestionably pass, but with what amendments he could not say. Delegate-elect W. H. Andrews of New Mexico is the only representative of that Territory here to fight the bill. He is working heroically to prevent today's stampede of the Senatorial committee rooms from effecting the passage of the bill. N. Oakes Murphy, former governor and ex-delegate of Arizona, Delegate J. Francis Wilson and Delegate-elect Marcus A. Smith of Arizona, insist if the bill is passed that Arizona be eliminated from any part in it, saying that the people of Arizona prefer to remain a territory if need be forever rather than be merged with New Mexico into the proposed joint state of Arizona. Numerous amendments have been offered to the Hamilton bill as it now stands during this forenoon and all have passed with the exception of that one which proposed to appropriate \$5,000,000 to the proposed new state of Arizona for the maintenance of its public schools. Senator Gorman of Maryland is now leading the opposition to the bill and has asked time to examine it.

President Interested. The President has been taking especial interest in the statehood bill for the past day or two for the reason there have been statements to the effect that the Republican majority of the committee know and knew that the people of Arizona were utterly opposed to the bill. Something of a fog has been raised over the allegations and the President has some strong opinions on the subject.

Plan of Opposition. There seems to be a well defined plan on the part of the opposition to keep the discussion hot until some of the appropriation bills or the food bill demand action and then to have the statehood bill indefinitely sidetracked. There are those who think in view of the strenuous protests to jointure from many sources that it is not improbable that Oklahoma and Indian Territory will be admitted as one state and that New Mexico and Arizona will be allowed to remain for the present session as they are. There seems little doubt that the Oklahoma-Indian Territory section of the bill would readily pass if the Arizona-New Mexico complication were eliminated.

Morgan's Broad Charge. Senator Morgan in his recent two hour's speech in opposition to the bill spoke particularly of the character of the population of New Mexico and Indian Territory. He declared that the framers of the constitution were of the white race, and that it was not the intention that Mexicans, Indians, negroes and half-breeds should be brought into citizenship. He said that if Arizona and New Mexico were admitted into the Union this class of citizenship would control the elections and said bribes and whisky might control.

BOUNDARY MUST BE SETTLED

Washington, Jan. 11.—President Roosevelt yesterday sent a communication to the Secretary of the Interior relative to the re-establishment of the boundary line between Colorado and New Mexico. A report is made of the survey, under the act of Congress of July 1, 1902, and the legislature is asked to adjust the boundaries in accordance with this survey.

UNITED VERDE WINS.

Washington, Jan. 11.—Senator Clarke's United Verde Copper Company of Arizona, won its case in the Supreme Court in which it was being sued by the United States to recover \$88,000 for timber cut upon a government reserve.

SHERIFF SANCHEZ EXPECTED TODAY

Is Coming for Consultation in Case of the Two Men Charged With Murder of Colonel Chaves.

It is expected that Sheriff Manuel Sanchez, of Torrance County, will arrive in the city today on business in connection with Procopio Cordova and Domingo Valle, brought to Santa Fe Deputy R. C. Huber and placed in the county jail, charged with the murder of the late Colonel J. Francisco Chaves last November, an extended article concerning their incarceration having appeared in yesterday's New Mexican. Deputy Huber told a reporter this morning that he had wired Sheriff Sanchez to come here and that James C. Chaves, son of the late colonel, employed in the Santa Fe Central Railway offices, had also sent him a telegram.

SAD DEMISE OF MRS. E. A. MANN

Estimable Wife of Associate Justice Passes Away This Morning at Their Home at Alamogordo.

The New Mexican received a telegram this afternoon from Alamogordo, announcing the death of Mrs. Mann, wife of Judge Edward A. Mann, associate justice of the Supreme Court of New Mexico. Mrs. Mann's sad demise occurred at 10:30 o'clock this morning after a critical illness of about three weeks. She was in the prime of life. The cause of her death was tuberculosis. She was the mother of five children, the youngest being two years of age.

Sunday night Judge Mann, who was at Santa Fe in attendance upon the Supreme Court, received a message, informing him of Mrs. Mann's dangerous condition. Monday morning at 6 o'clock he left Santa Fe on a special for Torrance, where his train was transferred to the tracks of the El Paso & Northeastern Road, the entire trip to Alamogordo being made in six hours. The judge remained by his wife's side until the end. Judge and Mrs. Mann came to the Territory about two years ago for the benefit of the latter's health. She was the daughter of G. W. Beard, editor and proprietor of the Rio Grande Republican of Las Cruces.

PRESIDENT WILL SAVE YOSEMITE

Alert Eye of the Strenuous One Discovers Plan to Despoil Valley of Wonders.

Washington, Jan. 11.—President Roosevelt has discovered a suspicious bill, which had made its way successfully through both the House and the Senate, and has taken the necessary measures to prevent its further progress. It was a bill taking off part of the Yosemite National Park, ostensibly to be added to the forest reservation, but according to well-informed persons really to be added to the property of the Atchison, Topeka & Santa Fe Railway.

When it first became known yesterday that the bill was to be vetoed the reason assigned was that a grove of fine big sequoia trees was threatened by its passage and it was decided that the preservation of the trees was of paramount importance.

The bill takes from the Yosemite Park and adds to the forest reserve some lands containing valuable oil and mining properties. Private interests cannot get any land out of the park, but they can get it out of the forest reserve, and that was the purpose of the bill. It slipped through the House without debate and through the Senate with hardly any notice. Mr. Perkins signed it as acting president in the absence of Mr. Frye and it went to the President.

What excited Mr. Roosevelt's suspicion was the discovery that the lands to be turned into the forest reserve had already been decided by a commission appointed by himself to be a part of the park. The President investigated and found that railroad men and others had been lobbying for the bill. He discovered its real purpose, sent for a member of the California delegation, examined him about it and announced his purpose of vetoing the measure.

SMOOT'S SIDE WILL APPEAR

Mormon Senator-Elect Begins His Defense by Introducing as a Witness an Ex-Governor of Idaho.

HAVE HIGH MORALS

That is What McConnell Avers and Senator Knox Wants to Know What That Has to Do With the Case.

Washington, Jan. 11.—The defense in the Reed Smoot investigation began today. William J. McConnell of Northern Idaho, was the first witness called. He described his occupation as that of a former merchant, being half politician and half lawyer for his friends. He was a Senator of the Fifty-first Congress and was governor of Idaho from 1892 to 1894 inclusive, serving two successive terms. He is a member of the Presbyterian Church. He said that he was prejudiced against the Mormon Church but that he never knew Mormons to drink or to gamble. He said that their morals were high and that they had praiseworthy characters. Senator Knox wanted to know to what part of the case the examination of McConnell was relevant. The counsel for the defendant did not know, but said that a great mass of irrelevant testimony regarding politics in Idaho had been admitted and that the testimony of McConnell was in reply to this testimony. McConnell repeated a number of reasons why the Democratic party was boycotted by the Mormon Church, saying that one of the principal causes was that Senator Dubois had called the Mormons criminals.

FLINT BEATS BARD.

Sacramento, Calif., Jan. 11.—Frank P. Flint of Los Angeles, was chosen for United States Senator in the Republican caucus this morning. A joint session will be held at noon today and Flint will then be formally elected.

BELIEVES DEFEAT AWAITS JOINTURE

J. A. Mahoney, of Deming, is here attending the sessions of the Board of Equalization and is a guest at the Palace Hotel. In the lobby of that hostelry Mr. Mahoney said:

"The weather at present in New Mexico is a bit discouraging and undesirable. It reminds one of the Montana elements and of the conditions that exist in the eastern states during the winter months. The amount of snow that has fallen lately in the Territory is abnormal and the oldest residents say they never experienced anything like it. But, when rightly considered, the snow is just what we want and just what was missed in this section some months ago. If it lies in the mountains until the coming summer there will be plenty of water for irrigation purposes and the arid conditions of last summer will not be repeated. I guess we will have to think with the wise sage who said: 'Tis an ill wind that blows nobody good.'"

"I do not believe joint statehood will get through the Senate," Mr. Mahoney continued. "It certainly cannot if many more alterations are made to the bill and as it stands now I think we may safely believe the measure will not pass the Senate. Until a few days ago things looked favorable for the passage of the bill, but Senator Teller sent the ball rolling backward the other day when he introduced the amendment making Oklahoma and Indian Territories a state, New Mexico a state and leaving Arizona as it is. This has created much debate and will be the source of more as time grows apace. However, there may be some further lively proceedings at Washington over this bill."

BAD ELECTION MEN SENTENCED

Denver, Jan. 11.—Four men were adjudged guilty of contempt by the Supreme Court of Colorado, today for conduct at the polls at the recent election in violation of the court's orders and were sentenced to jail. E. H. Radetsky was given six months, William Ellis four months, John Thomas three months and Adam Fries two months. Fries' sentence was suspended on account of his advanced age.

DENVER APPOINTMENT.

Washington, Jan. 11.—Among the nominations sent to the Senate today was that of Colner of the Mint at Denver, Harry Tarbell, of Colorado.

PRESIDENT IN EARNEST

Unless Congress Does Right by Interstate Commerce Commission He Will Call an Extra Session.

WANT TARIFF REVISION

In Further Conference With Leaders Today He Declares Emphatically For Regulation of Railroad Freight Rates.

Washington, Jan. 11.—President Roosevelt today continued his conferences with the members of Congress on the subject of tariff revision and of legislation providing for an increase of the powers of the interstate commerce commission. One statement which stands out almost with the pre-eminence of an official announcement is that, unless Congress at its present session, should enact legislation looking to the regulation of railroad freight rates, an extraordinary session of the Fifty-ninth Congress will be called by the President to deal with the problem. It can be said that the President regards the interstate commerce question as the paramount issue now before the American people.

PLOT THICKENS IN COLORADO

Democrats Overlooking No Bets in the Legislative Contests Now That They Have Their Governor.

Denver, Jan. 11.—The Republican Senators have made this proposition to the Democrats on the Healy-Born unseating problem: Senator Born shall resign his seat and Dick shall be permitted to succeed him, Healy being permitted to hold his seat. All the contests in the Senate are to be declared off. The Senate took a recess until this afternoon to allow the Democrats to consider the proposition in caucus. It is believed if the proposition is not accepted that both will be unseated and that Healy's seat will be declared vacant, as the contest for the seat is now lieutenant governor. In that case Governor Adams will call a special election in the Lake district and Healy will doubtless be re-elected.

It was reported that Governor Adams was preparing a call for a special election to fill the vacancy caused by the death of Senator Buckley, of San Miguel. This is expected to add another Democrat to the Senate.

WOMAN'S WILES ENMESH PLATT

New York, Jan. 11.—The first stage in the struggle for the possession of nearly three-quarters of a million dollars between John A. Platt, an aged Gotham millionaire, and Hannah Elias, a negro who he charges wrongfully obtained money from him, is scheduled to begin before Justice Bischoff in the Supreme Court today. In this suit, it is expected that the whole will be told of the amazing story of an affair which attracted wide attention when Platt's relations with the woman were first revealed by the filing of the suit last summer. The interesting case was intensified by the strange and tragic death of Andrew H. Green, one of the city's most prominent men, who was shot to death almost at the door of the woman's home, a few months before the suit was filed. Green's murderer was a negro who was captured and sent to the insane asylum. He said that he was jealous of Green because of the latter's attention to Mrs. Elias. With the filing of Platt's suit it became evident that Green was the victim of mistaken identity as there was a strong resemblance between Platt and Green. Mrs. Elias maintains that Platt gave her the money voluntarily while he asserts that the defendant resorted to every kind of trick to get his money. Platt is now 87 years old and very feeble.

GERMANY'S COAL STRIKE ASSUMES BIG PROPORTIONS.

Cologne, Germany, Jan. 11.—The strike of coal miners has spread. Part of all the diggers in seventeen additional mines did not go to work today. The number of idle is about 35,000, or one-eighth of the total. Divisions exist among the miners, some disapproving of the strike and refusing to quit work, so that the proprietors of some of the striking mines continue to work them a part of the time.

TERRITORIAL HISTORIANS

Society for Perpetuation of New Mexican Annals Reviews Work Accomplished Past Two Years.

A meeting of the New Mexico Historical Society was held Monday afternoon at the office of the Bureau of Irrigation. The Hon. L. B. Prince presided and in the absence of the secretary, Jay Turley, acted in that capacity pro tem. The following officers were elected:

President, Hon. L. B. Prince; vice president, Hon. W. J. Mills; recording secretary, William M. Berger; corresponding secretary, W. H. Bartlett; treasurer, Colonel Max Frost; curator, Henry Woodruff. The treasurer's report was read and adopted. The president presented the draft of a report of the operations of the society during the past two years, which was approved and 300 copies ordered to be printed for distribution to other societies and the members of the legislature.

The following were elected honorary members: Hon. W. H. H. Davis, Doyleston, Pennsylvania; Mrs. Ella Kearney Bascome, St. Louis; Hon. Henry L. Waldo, Las Vegas; Professor Adolph F. Bandelier, New York City; Rev. Henry Mason Baum, Washington; Francis Tracy Tobin, Philadelphia.

The president announced the death of the Hon. W. G. Ritch, who was the first president of the society and spoke feelingly of the loss which the whole Territory has experienced in his death. Other members united in paying tributes of respect to Governor Ritch and Colonel Frost was requested to prepare resolutions on this subject to be submitted at the next meeting. The sentiment of this meeting was very favorable to holding several public meetings in the capitol during the sessions of the legislature and the officers were authorized to take the necessary steps to carry out this project.

WILL NOT ADMIT RAILROADS YET

Strong Opposition to Scheme is Developed By Western Members of National Live Stock Association.

Denver, Jan. 11.—Not this year will the railroads become members of the National Live Stock Association. It is now certain that this much of the reorganization plan of President Hagenbarth as relates to railroads is fore-ordained to failure. The remainder of the plan, which involves representation on the board of control of all industries allied to live stock interests, may be carried. President Hagenbarth declared this morning that he would continue to fight before the convention next year if the plan failed to carry this year. The greatest opposition to the admission of railroads has so far come from S. H. Cowan, of Fort Worth, legal advisor of the association, and Murdo Mackenzie of Trinidad, Colorado. The western men are practically a unit behind them. There will be two reports submitted to the convention on the plan of reorganization, the majority being against the plan of reorganization so far as it applies to railroads, the minority favoring admission. Texas delegates are particularly strong against admission of railroads and threatened this morning to withdraw from the association if railroads are allowed to come in. The general committee considering the reorganization will not report to the convention till tomorrow. This morning Frank Cooper of Kansas City, read a paper on "Commission Merchant and his relation to live stock business."

A brief discussion followed the reading of Cooper's paper. It was led by A. J. Bothwell of Wyoming, who took strong exception to a statement made by Cooper to the effect that the struggle for life in the business world no longer exists. He characterized the talk of Cooper as "buncombe" and asserted that there were no men in the world who fought so determinedly for business as commission men whom Cooper represented. Bell, of Laramie, Wyoming, spoke strongly, urging the cattlemen to stand together against the railroads, which he said did not treat cattlemen with sufficient consideration.

WANT TO KNOCK NIEDRINGHAUS

Jefferson City, Mo., Jan. 11.—In the House of Representatives today a resolution was unanimously adopted providing for the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus, of St. Louis, Republican candidate to succeed Senator Cockrell in the United States Senate.

STORM KING ENTHRONED

Santa Fe Remains in Winter's icy Clutch and the Beautiful Continues to Descend.

ANOTHER TWO INCHES

Reports From Over the Section Show a Generous Precipitation Auguring Well For Future Water Supply.

True to the prognostications of the Weather Bureau, Santa Fe and vicinity today remained in the firm clutches of the storm king. Between sunset yesterday and noon today at least two inches of snow fell in the city. At 6 o'clock this morning the total precipitation was 0.76 of an inch which was greater than the normal fall for the entire month. Shortly after dark last evening the brief rain again turned to snow. For a little time then the sky cleared, but within an hour there was a second drizzle of rain followed by more snow which has fallen lightly from that time to a late hour this afternoon. The movement of the storm was from the California coast inward, crossing New Mexico northeastward.

It is interesting to note that the predictions of the Weather Bureau for Thursday are for clearer weather and a decided fall in temperature. There is a strong probability that the snow will remain upon the ground for several days.

Special to the New Mexican from points throughout this section of the Territory show an abundance of snow all along the line.

Estancia.

The snow storm which commenced here Monday has been speedy and continuous. Up to noon today over twelve inches of snow have fallen and it is safe to say that from here to Moriarty it is twelve inches in depth on the level, with a greater depth in the canons and gulches to the east and west of the Estancia Plains. On the El Paso & Northeastern Railway, six inches of snow are reported at Torrance. The snow storm extended for many miles north and south, east and west of the road.

Antonito. At Antonito, Colorado, there was a fall of four inches of snow yesterday and some snow fell last night, being driven by a high wind. This morning it is calm and clear and the seven inches of snow upon the ground is fast thawing.

Espanola. Snow was falling at Espanola this morning, although it was raining last night. The weather is equally and today's snowfall does not amount to much.

Las Vegas. Las Vegas is in the throes of the worst snowstorm experienced in years. More than a foot of snow has fallen and at noon today snow was still falling fast.

Albuquerque. Although there is no rain or snow at Albuquerque today about three inches of yesterday's snowfall remains upon the ground. It is melting fast under the influence of a bright sun.

DAYS WORK IN SUPREME COURT

Three Cases Receive Consideration at the Hands of the Highest Judiciary of the Territory.

The Supreme Court of the Territory of New Mexico convened this morning at 9 o'clock in its chambers at the capitol, there being present Hon. William J. Mills, chief justice; Hon. John R. McFie, associate justice; Hon. Frank W. Parker, associate justice, and Hon. William H. Pope, associate justice; W. B. Childers, United States attorney; George W. Pritchard, solicitor general, and Jose D. Sina, clerk.

Case No. 1067, Bremen Mining and Milling Company, appellant, vs. Mrs. D. A. Bremen, Jacob Klein and W. L. B. G. Allen, appellees, submitted on briefs. A. H. Harlike, and W. H. D. Biggs for appellant, and S. M. Ashenfelter and Percy Williams, for appellee.

Case No. 1065, Tomas C. Gutierrez and Severo Sanchez, plaintiffs in error vs. Territory, ex rel, T. J. Curran, et al., defendants in error; argued and submitted. W. B. Childers, for plaintiff in error, F. W. Clancy for defendant in error.

Case No. 1066, Antonio Joseph, plaintiff in error vs. Thomas B. Catron, defendant in error, argued and submitted; N. B. Laughlin, for plaintiff in error, and Catron & Gortner, for defendant in error.

The court then adjourned until tomorrow morning at 9 o'clock.

## THE PAPER TRUST SHOULD BE SMASHED.

The Attorney General of the United States is preparing to attack the paper trust and the International Paper Company. These are among the worst combinations of capital and manufacturers of the country and are levying heavy tribute on the reading public and on the newspapers of the country. The Roosevelt administration is powerful and has the solid backing of the vast majority of the American people behind it. It has no need to attack trusts for the purpose of strengthening itself, as was clearly proven by the results of the last election, but it does and will make a fight on the trusts because such proceedings are right and because they will be found of benefit to the people. The paper trust is as about as unscrupulous, as rapacious and as grasping a trust as there is in the country. Suits against it within and under the anti-trust law by the federal government will be hailed with the greatest delight and with the firmest approval by the newspapers and publishers of the country who will be supported by the people themselves. The Minneapolis Tribune thinks that the duty on wood pulp and paper should be repealed in addition to the suits to be brought by the Attorney General and says that we have expressed the belief that the only way to break down the paper trust is to repeal the duty on wood pulp and print paper. Let us see what the trust is: It is a twin; the International Paper Company in the east and the General Paper Company in the west. These make 75 per cent of the print paper of the country. The other 25 per cent is made by mills with long time special contracts that do not compete in the general market. The two trusts do not compete because they divide territory, like the Havemeyer and Spreckels sugar trusts.

Trust is a generic term, and these two are very different. The International is a true corporation. It owns outright thirty paper mills, as the steel trust owns its constituent steel and iron mills. This has not been attacked by the government, and probably cannot be, except for combining with so-called independent mills or the General Company. It is not a holding company, like Northern Securities. The General Company is merely an incorporated pool. It owns no mills and makes no paper. It only sells the product of the western mills at a price fixed by itself. It is true combination in restraint of trade.

We think it likely that the General Paper Company will surrender to the first serious attack. It will probably dissolve as soon as the government shall get an injunction, without waiting for damage suits, or criminal proceedings, as the sugar and oil trusts did repeatedly when successfully attacked in the courts. But there is not the least reason why it should not reform, as the sugar and oil trusts did, in a way exempt from attack.

The reorganization is no longer experimental, as the International Paper Company affords a safe model. Indeed it is likely that plans are already under consideration for turning the criminal trust into an innocent corporation, owning all the western mills, as the International owns the eastern. The expense of the litigation and reorganization can be made by raising the price of print paper again. Then what will consumers have gained by the proceeding?

We believe that the only successful way to attack the paper trust is to repeal the duty on print paper and wood pulp, whose overgrown child it is. We hope that the president will recommend this repeal in the special message on the tariff he has promised to send to Congress.

The Society of Arizona Pioneers has registered a vigorous kick by resolutions against the passage of the Hamilton joint statehood bill. The Pioneers are old men, but they have kicked all their lives against the existing conditions and have had much practice. They are still able to do something in that line.

## MANY EDUCATORS CANDIDATES FOR SUPERINTENDENT OF PUBLIC INSTRUCTION.

The Governor of New Mexico does not have as easy a time as some people imagine and especially as some of the politicians who are opposed to the present administration insist on. The question of the appointment of a superintendent of public instruction is a very important and serious one and especially on account of the large number of candidates for the place. So far the New Mexican has ascertained through its correspondents, in different parts of the Territory, that there are seven or eight applicants. Professor W. M. Heiney of Raton is in the field and has good backing from his home city and county, as well as from the legislative delegation from the district. From Las Vegas, it is said, that there are two candidates, namely R. R. Larkin, present superintendent of city schools, and George G. W. Ward, city editor of the Las Vegas Optic. Professor U. Francis Duff of Deming, the present county superintendent of schools of Luna County and who has been a resident of the Territory for fourteen years has made application. Right here, it is well to remark that Professor Duff, who is a Republican, was elected to the office which he now holds in a strongly Democratic County; this is certainly very complimentary to him and speaks very well for his ability and fitness for the position.

That veteran educator, Professor Hiram Hadley of the College of Agriculture and Mechanic Arts at Mesilla Park, will not decline the appointment. He has been a citizen of New Mexico for over twenty years and has all his life been engaged in school work and in actual teaching. He is the Nestor of the educators of New Mexico. A. N. Pratt of Carlsbad, who has held the position of superintendent of public schools of Eddy County for two terms, who is a practical educator and a man of high reputation, is not personally an applicant, but is being pushed by his friends for the position. M. E. Hickey of Albuquerque, who is now an attorney, but who was before being admitted to the bar, a teacher, is in the field. He served, the New Mexican believes, one or two terms as superintendent of the city schools of the Duke City.

There are several other educators who will before long file their applications with the Executive.

## THE CARLSBAD ARGUS IN VERY GOOD COMPANY.

"The Carlsbad Argus, obedient as ever to the Santa Fe ring, falls in line in opposition to the joint statehood bill, even before the Senate passes it. The New Mexican says, 'Thumbs up,' and the Argus immediately proceeds to get its thick, stubby digits into a perpendicular position. If the New Mexican should ever take a big pinch of snuff there would be a tremendous sneeze down there in Carlsbad."—Roswell Record.

The Record should add to the above that the Carlsbad Argus is on the side of right and is working for the best interests of the people. Further more that the Argus is in first class company as was well established by the result of the recent election in this Territory, wherein the Record and its crowd were badly beaten at the polls by the people and when the candidate for delegate, bitterly assailed by the Record, was elected by a very gratifying majority and a very handsome plurality. The New Mexican does not know exactly when or where or what the "Santa Fe ring" is, as none such exists here, but it fears no just or true contradiction when it says that the people of Santa Fe and the New Mexican have done Roswell and Chaves County more good in any one week than have all the joint statehood boomers in Chaves County within a year and for that matter since the joint statehood agitation has arisen.

"Prospects are brightening for the extension of the Santa Fe Central from Torrance to Roswell. If there is one thing southeastern New Mexico needs it is railway connections with the northern end of the Territory, and it looks very much like the Santa Fe Central was going to supply this need. By the way, the Roswell Record has not called on Senator Andrews, for several days to build this road. Wonder why?"—Carlsbad Argus.

Probably, there being no political campaign on and no Democratic candidate to be benefited by unjust attacks on Senator Andrews, the Record has concluded to keep quiet for the present.

It looks as if a clew to the identity of the murderer or murderers of the late Colonel J. Franco Chaves is becoming available. The good people of the Territory hope and trust that the clew will lead to the discovery of the miscreants who committed the crime and that sufficient evidence to bring about their conviction and condone punishment will be unearthed. The murder was so awful and atrocious that it would be a great public misfortune, should proper punishment not be dealt out to the cowardly perpetrators.

Between grand jury indictments and Mormon scandals, some of the United States Senators are having rather a tough experience. At times it evidently does not pay to be a United States Senator.

## THE HAMILTON JOINT STATEHOOD BILL LOSING GROUND.

The Hamilton joint statehood bill has not yet passed and what is more, the chances against its passage are becoming brighter as time advances and as United States Senators are getting to understand the question more thoroughly. Some Senators have been fooled by Delegate Rodey's blatherskite statements, but have found out that the delegate had "put up a job on them," and have changed front. Other Senators are recognizing the fact that the creation of the joint state of Arizona out of New Mexico and Arizona is wanted by the eastern moneyed interests which do not want to increase the political strength of the west and the southwest in Congress and these are also turning against the pending measure. In addition it is becoming very plain that neither the people of New Mexico nor those of Arizona desire to be joined together and this is having some effect in the right direction. There are many other causes working against the proposed legislation and the chances for its defeat are better than they have been at any time since the beginning of the Fifty-eighth Congress.

## OBJECTIONS TO THE MATCH.

Even the state of Washington, not so long ago a territory itself, takes a vivid interest in the statehood fight as the following editorial from the Spokane Spokesman-Review indicates:

"Governor Otero of New Mexico and former Governor Murphy of Arizona met by chance in Chicago last week. One said that he had been to Washington to protest against joint statehood and the other said he was going to the national capital to do the same thing. Governor Otero declared that the people of New Mexico are against the merger to a man, while ex-Governor Murphy said that the people of Arizona were indignant and would never accept the joint statehood that certain members of Congress were attempting to force upon them.

"Both of these territories are eager for statehood, but it is apparent that they do not want the kind of statehood that may be offered them, and there are strong probabilities that they will reject it when it is offered. According to Governor Otero, the proposed joint state would be an unnatural and an unwilling alliance. It would be the coercion of two populations which are unlike in character, in ambition and largely in occupation. He says that New Mexico has her own pride; Arizona has hers. New Mexico has an agricultural and stock raising community; Arizona is a mining country. The two populations are separated by high mountains and wide deserts. The union would be abhorrent to both. The fact that the two populations are in the southwest does not necessarily mean that they are alike or sympathetic.

"With these extreme views prevailing among a majority of the people it is doubtful if a new state is admitted to the Union in the near future. The joint statehood bill may pass and a convention may frame a constitution, but it is doubtful if the people of the two territories would vote to adopt it."

The agitation for the enactment of a statute providing that county officials who have public funds in their possession, should be required to give bonds furnished by reliable security companies, is growing and is being received all over the Territory with much favor. The pressure that will be brought on the Thirty-sixth Legislative Assembly in this matter will be great and as it is in the right direction, it should be heeded and the bill asked by public sentiment in this respect, be passed. It will prove a wholesome measure and will save the counties money.

The versatility of the weather man in this city during the past three weeks has been great and from some standpoints, very commendable. At any rate, a large amount of snow has fallen in the mountains and smaller amounts on the plains. This may not be ideal New Mexico weather, but it is a very fine thing for the agricultural, horticultural and live stock interests of the Territory. Every rain and snow cloud in New Mexico has a golden lining, provided the water in its condenses into snow or rain.

The joint statehood bill is serving its purpose as a buffer for other legislative propositions in the United States Senate. At the same time, leading Senators speak calmly of eliminating New Mexico and Arizona altogether from the bill. Delegate Rodey must, or at least ought to feel, at this time that his wishes and influence in the matter are not equal to a whiff of a Florida zephyr in swaying the opinion of the United States Senators one way or the other.

One can't blame the Russian officers at Port Arthur for preferring a vacation in the land of cherry blossoms, to an immediate return to the land of the kroust. It may not be altogether patriotism that prompts General Fock and his lieutenants to accompany the privates into the Japanese prisons, especially after the yellow warriors have given assurance that the prisoners will be treated with all consideration and will have plenty to eat and warm beds to sleep on.

A woman worn-out, who never has to lift a hand for herself, who does not know the meaning of the word "worry"! How can it be possible? That it is possible is proved by the experience of many a woman who, because of sleeplessness, nervousness, backache and other womanly ills, becomes an utter physical wreck.

Dr. Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I suffered for five years with inflammation which caused violent pain and often torture so bad at times that I could not be about to attend to my daily duties," writes Mrs. Julius C. Bell, of Railroad, Kingston, Ont. "Life was simply misery to me and I did not know which way to turn for relief. Had tried doctors but found they did not help me. My druggist advised me to try Dr. Pierce's Favorite Prescription—enclosing it in glowing terms. I decided to give it a trial and brought a bottle home. I am happy to say that after the use of the first bottle I felt so much improved I decided to take another and after that a third bottle. I have good reasons to be pleased for I am today a well woman, work is easy and the world looks bright. I have perfect health, thanks to your medicine."

Sick women are invited to consult Dr. Pierce by letter, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

## TELL YOUR NEIGHBOR ABOUT WINE OF CARDUI

Hundreds of thousands of women suffer with irregular periods. Thousands suffer bearing down pains. Others are nervous and have all manner of pains in the abdomen, back, neck, limbs and head.

Wine of Cardui Cures all these Troubles.

There is hardly a home where some woman is not the victim of female weakness in some form. In your home there is a sufferer. There is another in your neighbor's home.

Wine of Cardui will cure you, your sister, your mother or your daughter. It will cure your neighbor.

Over 1,500,000 suffering women have been cured by Wine of Cardui. Hundreds of thousands of well and happy women have their health because some interested friend took them a bottle of Wine of Cardui or told about what this wonderful woman's tonic would do.

Will you not follow Mrs. Smithers' example by giving Wine of Cardui a trial and then tell other sufferers of your cure?

1008 Maple St., Louisville, Ky., June 20, 1904.

I feel it my duty to thank you for the good Wine of Cardui has done for me. I was nervous, worn-out and on the verge of a general break-down. Providence directed one of your little books my way and I bought a bottle of Wine of Cardui. I had not taken it but three days when a decided change was perceptible. What it did for me it will do for any other woman, and I never fail to take advantage of an opportunity to recommend it as a reliable and sure cure.

## WHAT THE SNOW MAN HAS TO SAY

U. S. Department of Agriculture—New Mexico Section—Climate and Crop Service—Weather Bureau.

Santa Fe, New Mexico, Jan. 9, 1905. October was a comparatively wet month, following the heavy rains of the last of September, and the northern peaks received a fair covering of snow. The light precipitation of November served only to replace that lost in melting or by absorption. During December, however, there was a material increase in the depth on all of the central and northern ranges, and the higher mountains in the southern districts, so that the year closed with more snow generally than at any time during the previous winter, although the eastern slopes were not as well supplied as the western.

The higher ranges of the San Juan watershed report from 8 to 12 inches, quite evenly distributed and compact, while over the valleys from 3 to 8 inches were reported. Northern districts of the Rio Grande and Pecos report from 6 to 18 inches in the higher levels, while the eastern slope within the Canadian watershed show from 1.5 to 8 inches, and but little over the valleys and low mesas. On the lower reaches of the Rio Grande, the Pecos, and the southwestern ranges, snow remains only in the higher altitudes and on the northern slopes, depths ranging from a mere trace up to 18 inches on the peaks of the Sacramento, and to 24 inches on the San Francisco and Mogollon ranges.

The general expression is one of confidence that the water supply of the coming spring and summer will be ample; streams are now well filled and springs flowing freely.

The following remarks are from the reports of correspondents:

San Juan and Northwest Watershed. Arboles, Colo.—B. A. Rodriguez—Compact; fair show for water next spring. Dulce—Emmert Wirt—Very compact, evenly distributed. Lumberton—M. A. Lucero—Not drifted in canons, melting slowly and outlook very good. Monero—J. H. Crist—Evenly distributed; compact. Ft. Wingate—John Woodgate—Fall evenly distributed; soil thoroughly soaked. Gaum—H. Newmann—Drifts in places 24 inches; outlook for water supply good. Kettner—S. A. Horabin—Evenly distributed in valleys; deeper on mountains, compact; outlook for water supply good.

Rio Grande Watershed. El Vado—Ella Schafranka—Evenly distributed; compact; outlook fair. Tres Piedras—Felix Grant—Well distributed, and outlook favorable for water supply. Ojo Caliente—A. Joseph—Evenly distributed on higher ranges; frozen hard and will last late; outlook very favorable. Penasco—Ramon Sanchez—Evenly distributed; no snow last year at this time; outlook good. Twining—A. Brendt—Even in valleys, but drifted higher up. Golden—J. B. Livesay—Evenly distributed. Bland—B. H. Shaw—Mostly swept by winds into canons, very compact. Milargos—Evenly distributed on mountains. Estancia—J. L. Crossley—Evenly distributed; small drifts in mountains and ravines. Mountainair—John W. Corbett—On north slopes and in trees 2 to 4 inches; from Estancia to Kennedy 1 to 4 inches on prairie; snow in mountains not drifted much. San Mateo—Y. Davilla—Canons partly filled. San Rafael—Charles M. Grover—Fairly solid on mountains; indications for fair water supply; mountains depths vary from 1 to 4 feet. Hillsboro—J. M. Webster—Evenly distributed on higher mountains. Santa Fe—Frank Owen—At altitude 8,500 snow evenly distributed and packed.

San Francisco and Gila Watershed. Alma—Maurice Coates—Evenly distributed. Cooney—A. G. Morrow—Light snow in mountains. Frisco—J. R. Milligan—Somewhat drifted on north slopes. Pinos Altos—L. B. Robinson—Soll in valleys and on mesas good condition, more moisture than for several seasons. Silver City—Chas. H. Lyons—Very light fall on mountains but melted. Steeple Rock—S. Robinson—Reports give much snow in higher Mogollon and outlook good for plenty of water in river next spring.

Mimbres Watershed. Cooks—Charles Poe—Compact; outlook better than for years. Dwyer—Josie Dwyer—Ground thoroughly soaked; prospects for water unusually good. Fierro—Some on north slopes; about 6 inches first of month evenly distributed. Mimbres—Chas. Dennis—None on west side of Black range, but water high in Mimbres river; outlook good for water supply. Santa Rita—J. W. Turner—Several fine rains; earth well watered; prospects for spring better than for years.

Canadian Watershed. Bell—John Utton—Drifted and swept into canons. Cimarron—Wm. French—Pretty well packed on high points and quite evenly distributed; there should be more water next spring than last. Dorsey—Wm. C. Barnes—Fall of December mostly went into ground; conditions normal; soil in fine condition to receive moisture. Elizabethtown—Geo. E. Beebe—Evenly distributed; outlook poor for water supply. Raton—E. E. Hermann—Drifted and compact in mountains; outlook for water supply fair. Rayado—S. B. Abreu—Very little

### WHAT YOU WERE LOOKING FOR.

The Bon Ton has on hand for its winter trade 80 gallons of pickled chiles, 80 gallons of fine dill pickles and about 100 gallons of excellent sauer kraut, prepared under the manager's personal supervision, and it goes without saying that they are "all right." Everybody who has patronized this up-to-date establishment knows that it handles nothing but the best. Mr. Conway says that he is making a special effort to serve the best meals in the city for as little money as is consistent with the times.

### Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes "I had Salt Rheum or Eczema for years but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at Fischer's Drug Co.'s store.

### IMPERFECT DIGESTION.

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by the Fischer Drug Co.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the "New Mexican."

When bilious try a dose of Chamberlain's Stomach and Liver Tablets and realize for once how quickly a first-class up-to-date medicine will correct the disorder. For sale by all druggists.

## SILVER CITY IS FORGING AHEAD

Jo E. Sheridan, Mine Inspector, Believes in a Great Future for Grant County's Enterprising Capital.

Jo E. Sheridan, of Silver City, United States mine inspector for the Territory of New Mexico, left today on official business for Monero and adjacent points after having spent a couple of days in Santa Fe.

Interviewed by a New Mexican reporter, Mr. Sheridan said: "For Silver City, I can predict the best. That town is coming right to the front and ere long it will be heard from in such a way that people will never forget the Grant County seat. Probably the most helpful and most needful enterprise that could have been established in Silver City was the Comanche smelting plant, which was started about ten days ago. This plant worked successfully from the first and its owners are wonderfully pleased with it, as are the citizens of Silver City. The smelter is a 100-ton plant, having enough power and equipment to increase the capacity to 400 or 500 tons at any time the company desires, the only additional thing necessary being the erection of furnace stacks. The enterprise is located in a good district and it is kept busy. Much ore has already been turned out for the Pinos Altos companies, while large contracts remain to be filled in behalf of other corporations. In New Mexico and Arizona. Indications point to the increased capacity of the smelter and the company will not hesitate to make it when occasion demands.

"The Burro Mountain Copper Company is making large shipments and much ore is also being received from the Cooney District, in the Mogollon Mountains, gold and silver bullion being sent out with big profits to owners. Those who have leased the Santa Rita copper mines were remarkably benefited by the late washouts on the Santa Rita branch of the Santa Fe Railway. During these disturbances and for some time afterwards, the companies were unable to make any shipments. In the meantime the price of copper advanced three cents per pound, about a twenty-five per cent increase. The increased production of copper and silver, the goodly output of gold, together with the new smelter at Silver City, present a bright future for the Grant County metropolis and vicinity. We are all happy down there and prepared to hold our own against any other section of New Mexico that may attempt to belittle and discourage us."

## EQUALIZERS ARE YET EQUALIZING

At 2 o'clock this afternoon when a New Mexican representative called at the office of the Territorial Board of Equalization, he found all the members present with J. S. Duncan presiding and Venecio Jaramillo serving as secretary. The latter stated that no definite information concerning the proceedings could be given until after the board had concluded its work. He, however, said that attention is being given to railroad property, cattle, sheep and other things that have been handed in for the body's consideration. This is the third day's work and one more will likely be necessary for completion of duty. Hon. Solomon Luna was in attendance with the board for a brief time this afternoon.

# A FACTORY of POISONS

The body is a factory of poisons. If these poisons, which are constantly being produced in the body, as the result of overfeeding or indigestible food retained in the stomach beyond the normal time, are not daily removed by the natural outlets of the body, chronic dyspepsia, with its myriad distressing symptoms, is sure to follow.

### FORUM MEMBERS AT HARD WORK

Interesting Program Monday Night Replete With Suggestive Food for Thought.

A very interesting session of the Forum was held Monday evening at the home of Mr. and Mrs. Grant Rivenburg, Palace Avenue. Despite the inclement weather the attendance was fair. Judge A. J. Abbott presided. Rev. W. R. Dye, rector of the Church of the Holy Faith, read a paper on "Evolution" that was as clear and concise as it was suggestive and comprehensive, and brought out a timely discussion. Miss Rupert of the Presbyterian Mission School read a paper: "First Impressions of New Mexico," that clothed in beautiful, poetic language the thought that came to the writer upon beholding for the first time the grandeur of New Mexico mountains, the vastness of its plains and the beauty of its skies. In conclusion, Paul A. F. Walter spoke of the mineral wealth of New Mexico, going into the early mining history and statistics of past as well as present day production. The next meeting of the Forum will be held at the home of Mr. and Mrs. Charles A. Haynes, on Johnson Street, two weeks hence, and upon the program will be Judge A. J. Abbott, Judge John R. McFie, Miss M. B. Leaningham, and Miss Staab, in addition to several musical numbers. An effort will be made to bring out all of the members at the election of officers has been postponed to that date.

## WINTER ECZEMA

Gentlemen:—I suffered with Eczema on the hands and face for over a year. It was not only annoying and painful, but very unsightly, and I disliked to go out in the streets. I tried at least a dozen soaps and salves, which did me absolutely no good, and became very much discouraged, until I read in the papers of the cures performed through the use of S. S. S., and determined to give it a month's trial at least. I am pleased to state that I soon noticed a slight improvement, sufficient to decide me to keep it up. After the use of six bottles my skin was as soft and smooth as an infant's. This was a year ago, and I have never had any trouble since.

MISS GENEVA BRIGGS.

216 S. Seventh Street, Minneapolis, Minn.

I tried doctor's medicines, salves, washes and all kinds of local applications, treating Eczema of long standing, but with only temporary relief. The itching and burning from Eczema was more than I can describe. Many nights I was unable to sleep on account of the awful itching. Seeing S. S. S. advertised I began its use, and after taking it for some time the dry eczematous eruptions disappeared and I was entirely relieved of this awful itching and burning. It is a boon to Eczema sufferers and I can conscientiously recommend it to them, believing confidently that a permanent cure will be effected in all such cases where it is taken according to directions.

Urbana, Ohio. R. F. D. No. 1.

C. Orto.

All skin diseases have their seasons; some are active in the summer, while others lie dormant until spring. Through weather, when the first breath of winter brings them to life and they remain to torment us until spring. Through the long hot months Winter Eczema sleeps in the system, and when cold weather begins it breaks out. The head, hands and feet are the parts usually attacked, but other parts of the body may be affected by this "flesh fire." The skin becomes feverish, hard and dry, cracks open and often bleeds, and the itching is terrible. While the trouble shows on the skin the cause is far deeper. This eruption is but nature's way of telling that the fountain of all health—the blood—is diseased and must have relief. It is filled with uric acid and other poisons which are forced through the pores, causing the natural oils, which should keep the skin soft and pliable, to dry up. These acids are constantly forming in the system to be absorbed by the blood, and thus the trouble is kept up. The treatment of this disease with local applications, such as washes, salves, powders, etc., is useless in effecting a cure, because they cannot get to the seat or beginning of the trouble. The best they can do is to give the patient relief for a little while. The blood must be cleansed of all acids and poisons and the system toned and built up before a cure can be had. S. S. S. cures by going into the blood, searching out all foreign matter, and making it strong and healthy again. S. S. S. is a purely vegetable remedy, and therefore cures this disease safely as well as surely, and from a condition of torture the patient is brought to one of healthful pleasure. Book on Skin Diseases mailed free, and our physicians will give advice, without charge, to all sufferers.

## TERRITORIAL NEWS IN BRIEF

Important Occurrences of New Mexico for the Past Few Days Told in Short Paragraphs.

Dewitt Pierce dropped dead at Las Vegas Saturday of apoplexy while talking to some friends.

B. H. Tallmadge, of Chicago, has arrived at Roswell with a special train load of homeseekers from the northwestern states. Mr. Tallmadge is connected with the Southwestern Land Company of the Windy City and there were 148 in the party which arrived at Roswell.

Tranquillino Velardes has been captured by the Las Vegas police. The prisoner cashed three checks for various amounts, drawn on the First National Bank. The checks are said to have been forged and Velardes has been committed to jail.

Jackson Holder's terrible fate has been reported by L. W. W. Adams, who has reached Roswell from Eagle Creek in the White Mountains. Holder was an old miner and was engaged in drilling out a hole that had failed to explode and in doing this was blown to pieces.

The general office building of the Pecos Valley & Northeastern lines at Roswell has been partially destroyed by fire. Nearly all the records were consumed, the main damage being caused by the flood of water through the building.

T. Johnson, alias Frank Wood, raised a check on the bank at Silver City and was held to the District Court by Justice Newcomb, in the sum of \$500 bail which he did not give.

Within thirty days a straight passenger service will be inaugurated between Silver City and Deming.

Evidence is being taken at Silver City in the case of Mrs. E. Goldner vs. the Nathaniel Bell estate. Many residents of Pinos Altos were summoned as witnesses.

The main building of the Miners' hospital at Raton has been accepted from the contractors. With the installation of a heating plant the hospital will stand complete.

George W. Ludwig, head of a big Pennsylvania commercial firm and for a year a resident of Las Vegas, died at Johnstown, Pennsylvania.

Mrs. Benicio F. Perea, wife of a former school superintendent of Bernalillo County, died at Los Angeles.

F. F. Schoettlin, foreman of the El Paso & Northeastern paint department at Alamogordo, sold \$130 worth of company paint for private appropriation and was promptly arrested.

At Las Vegas occurred the marriage of C. Henry McAdams and Miss Elizabeth A. Wilhoit, both of Kansas, Illinois. Mrs. McAdams will remain in New Mexico for her health.

James B. Orman, former governor of Colorado, may bid on the construction of the new railroad which the Phelps-Dodge people will build from Durango, Colorado, to Globe, Arizona.

The El Paso & Northeastern is getting a big slice of the California orange shipments via the Rock Island. It is handling six daily trains of twenty-five cars each.

Professor Bolling H. Crenshaw, a graduate of Cornell University and of the Alabama Polytechnic Institute, has been elected to the chair of mathematics and mechanical engineering in the School of Mines at Socorro. He succeeds Professor Magnusson.

Rio Grande Lodge, Knights of Pythias, Socorro, has installed the following new officers: Joe Greenwald, chancellor; Robert W. Lewis, vice chancellor; Joe Wolf, prelate; Anton Mayer, master of work; M. Loewenstein, master of exchequer; H. W. Boutwell, master of finance; Julius Campredon, master at arms; James A. Smiley, inner guard; J. J. Leeson, outer guard.

Citizens of Deming in large numbers accepted an invitation to witness the drawing of the first pig of lead from the new Luna lead smelter at that place. Refreshments were served by Mesdames Ely, Wells and Ward, whose husbands are connected with the enterprise. The smelter is running with success.

## NEW MEXICO PIONEERS MEET

Pathfinders of the Territory Hold Their Annual Election at Office of Ex-Governor Prince.

The New Mexico Pioneers held their annual meeting Monday afternoon at the office of Hon. L. B. Prince. Hon. Amado Chaves presided and the following officers were elected:

Governor, Amado Chaves; captain general, Hilario L. Ortiz; alcalde mayor, J. Amado Lucero; secretary, L. B. Prince; treasurer, Jose D. Sena; councillor, Felix Martinez; Santa Fe County vice president, A. Staab.

The session was largely devoted to the memory of Colonel J. Franco Chaves, who from the time of the organization of the pioneers had officiated as governor. Many touching remarks were made relative to the great loss that has been sustained and Hon. Amado Chaves was appointed to draft suitable resolutions for a place on the records of the society.

## THE SANTA FE FRUIT COMPANY

Three-Fourths of Stock of Enterprise Represented at Meeting to Select Officers and Directors.

The Santa Fe Fruit Company held its annual meeting Monday evening at the residence of Dr. W. S. Harroun at 7:30 o'clock. More than three-quarters of the stock were represented. The following directors were elected: Dr. W. S. Harroun, L. B. Prince, Mrs. Rivenburg, S. G. Cartwright, J. D. Sena, Charles W. Dudrow and S. Spitz. At the subsequent meeting of the directors the following officers were chosen: President, Dr. W. S. Harroun; vice president, Mrs. Rivenburg; secretary, J. D. Sena; treasurer, S. G. Cartwright. The treasurer's report showed a gratifying amount in the bank and the secretary was authorized to insure the property of the company.

**Do Not Suppress a Cough.**

When you have a cough, do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructs the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by all druggists.

**CERTAIN RESULTS.**

Many a Santa Fe Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Santa Fe. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

Nazario Alarid, hackman, of Cerrillos road, says: "I was continually buying medicine for my kidneys, and if a man spends every now and then 50 cents for a bottle of one guaranteed preparation and 50 cents at another time, he makes an inroad into his finances. None of the medicine I used had the slightest effect on my kidneys or backache, at least I was unable to notice any. When an attack of backache reached the virulent stage, I was compelled to stop work for an hour until the spasm disappeared. When wrestling with an attack, I went to Ireland's Pharmacy for Doan's Kidney Pills. There must be more than ordinary merit in that preparation, for a course of the treatment for a short time positively stopped the very severe attack."

For sale by all dealers. Price 50 cts. Foster Mithun Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

**REV. CARLISLE P. B. MARTIN, LL. D.**

Of Waverly, Texas, writes: "Of a morning, when first arising, I often find troublesome collection of phlegm, which produces a cough and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is also pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." 25c, 50c and \$1. Sold by Fischer Drug Co.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Malaria, Bright's Disease of the Kidneys, Rheumatism, Neuralgia, Consumption, Syphilis, Catarrh, La Grippe, etc. Female Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$10 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

In the office of Secretary J. W. Reynolds, of the Territory of New Mexico, a certificate of the proceedings upon the amendment to the articles of incorporation of the Raton Water Works, increasing the capital stock from \$100,000 to \$300,000 has been filed.

**Notaries Public.**

The following appointments of notaries public have been made by Governor Otero: William N. Kelley, of Captain, for Lincoln County; B. J. Young, of Red River, for Taos County.

**On Territorial Board.**

Miss Maggie J. Bucher, superintendent of the Las Vegas public schools, has been re-appointed by Governor Otero as a member of the Territorial Board of Education.

**New Mexico Representatives at Presidential Inauguration.**

Lieutenant General Adna R. Chafee, who will be in charge of the inauguration ceremonies at the national capital on March 4, has requested Governor Otero to designate two citizens of New Mexico for aides upon his staff. Governor Otero has complied with this request by recommending George W. Armijo and Morgan O. Llewellyn for these places of honor, both having signified their intention of accepting.

**New Church Incorporated.**

Articles of incorporation of the First Methodist Episcopal Church of Estancia have been filed in the office of J. W. Reynolds, secretary of the Territory. Forty-nine years is the term of existence mentioned and the board of trustees for the first year as named in the articles are as follows: J. L. Norris, M. D., J. P. Dunlavy, A. W. Lentz, P. A. Speckman and Louis A. McRae, all of Estancia; Arthur Milby, of Moriarty, and Frank Dibert of Santa Fe. As was mentioned in this paper a few days ago, the Methodists of the adjacent point have decided to build a new edifice and when constructed the property will be worth about \$3,000.

**SELL SILVER AT CENT A POUND**

East St. Louis, Ill., Jan. 11.—In the arrest and confession of William Burroughs, George Rodgers and William Majors, today, the police have cleared the mystery surrounding the robbery of the bonded car in the terminal yards of \$3,400 worth of silver bullion consigned from the El Paso Smelting Company to the United States mint at Philadelphia, more than a month ago. The men are teamsters. A part of this bullion was recovered the day after the theft, but the remainder is now supposed to have been used in a lead foundry having been sold at a rate of one cent a pound, in a mistake for the baser metal. Ferrierbaum, a junk dealer in St. Louis, has also been arrested charged with receiving the stolen property.

**GOOD OPENING FOR BRIGHT YOUNG DENTIST.**

Berlin, Jan. 11.—Alonso H. Syvlestock, Emperor William's American dentist, committed suicide here today. He shot himself through the head in his bed room.
