ALBUQUERQUE, — SEPT. 5, 1908

Good news comes from Union county. The republicans are certain of carrying that county by a handsome majority.

The republican territorial convention should be held at Santa Fe on the same day that the democratic convention is held at Deming.

Capt. Max Luna would make an excellent congressional delegate, and if he is the republican nominee he will be elected by a rousing majority.

The school board of Las Vegas has adopted a resolution that no child can attend the public school of that city without a certificate of vaccination.

Dr. REPUBLICAN, of Sonora, ably edited by Hon. W. R. Martin, publishes an excellent picture of Captain Max Luna and strongly endorses him for congressional delegate.

The Las Vegas Optimist has added a new item of type, enlarged in size, and is now one of the largest and best daily newspapers in the southwest. The city of Las Vegas should be proud of the Optimist and give it united and liberal support.

Mona county will roll up a big republican majority this fall. There are no democratic leaders in that county who care to combat the proposition so well understood by the native people of that county. The republican party is the true friend of New Mexico and the only protector of its interests.

By judicious nominations for county offices the question of republican success in Santa Fe county is assured. It is only a matter of how many. It is possible to carry the county by 400, but there is only one man in the county who can accomplish this. That man is the present sheriff, Harry Kinsey. Santa Fe county never had so small an officer.

The efforts made in the past by the union party in San Miguel county to make the people believe that it is the true friend of the poor people of that county, were somewhat watered by the New Mexican exposure of the misdoings of Felix Martinez and his crew of office holding cronies. Only the corporations and the rich stand well with the leaders of the union party.

Local conditions in Colfax county may lead up to peculiar results in the coming election. The county seat fight between Springer and Batton has stirred up a very bitter feeling and produced much bad blood. The democratic claim the county by a big majority. We shall see what we shall see. Meanwhile a whisperer word in the ears of the Batton push might accomplish something.

HENRY CLEWS says in his latest financial review: "In all my business experience of half a century, which covers a period of forty years, I have never seen a brighter outlook for all business interests in this country than the situation now presents." Henry is probably right, as he generally is in such matters. The indications are that we are at the threshold of the grandest era of prosperity that this or any other nation has ever seen.

If the New Mexican will continue its good work and investigate the sheriff's office in San Miguel county, as conducted during the reign of Ex Chief Justice Jeffrey-Smith, some of the doings of the Union party in San Miguel county will come to light, which will prove costly and interesting reading to the citizens of this territory. While you are about it, Col. Max, why not investigate the district attorney's office as well?—you might unearth a few jobs which nobody in San Miguel cares to father.

MAKING A LOSING FIGHT.
The editorial bow in the Optic aimed in the New Mexican's write up of San Miguel county rottenness is a poor arrow at best. The commissioners of that county have violated their plain duty and swindled all the other tax payers of New Mexico by allowing corporations and rich tax payers to pay their taxes in approved accounts and judgments, not 20 per cent. of which were legal evidence of indebtedness. If all the other counties pursued the same policy there would be a default in payment of territorial bonded interest and a consequent bankruptcy of our securities in all financial centers.

The Optic will have to do considerable more explaining before it can make the balance of New Mexico uphold the illegal and selfish conduct of its board of commissioners. Abuse of Max Frost won't do, Mr. Optic. You should tell us why your immaculate board of commissioners allowed Martinez a per centum upon taxes he never collected.

Col. Frost has got you on the defensive. Keep up your explanations. The people outside of interested capitalists in Las Vegas are joyful at the manner in which the galled jade wince.

A MODEST HERO.
Capt. Max Luna, who made a brilliant reputation in Cuba, heading Troop F, of the Rough Riders in the battles of Las Quinas and the charge upon San Juan Heights, will arrive in the city from Las Lunas this evening. He has a short leave of absence from the regiment, which he is enjoying with his friends in

this territory. Capt. Luna's company was recruited in this city, and nearly all of them were young men, many of whom have been killed in battle. The record of the company made will always be a bright page in American history. The Rough Riders uprooted the Spanish enemy wherever they met them, but the force was a few weeks away could not establish. Many of them are lying in the graves on account of the dreadful battle. During the dreadful battle through which Troop F has passed Capt. Luna was with the boys. He helped dig the trenches, looked after the sick in the hospitals, and in every way saw that his men had every comfort possible. He deserves well of this city, and when he arrives this evening should be given a rousing reception. It would be an honor well bestowed on a young man who deserves anything in the gift of the people of the territory.

Capt. LIEWELYN has recovered from a severe attack of yellow fever, and will soon be home. He lost about one hundred pounds during his sickness, and at present has the appearance of a walking skeleton, but he will soon be himself again among the health giving mountains of southern New Mexico. If you wish to know Capt. Liewelyn's war record in Cuba, read the article by Richard Harding Davis in the last Scribner's magazine. Company G of the Rough Riders under Capt. Liewelyn made a glorious record in Cuba. The men of company G were recruited at Gallup and in San Juan county.

To Dig the Newspaper Campaign.
The war with Spain has demonstrated the importance of a sure, reliable source of information. By digging a canal a few miles long at the last of the Spanish, thousands of miles of travel can be saved. At the present time ships must go around South America. A short route is always an advantage. It saves time and money. The journey from sickness to health can be quickly made, moderate cost by taking Hostetter's Stomachic Bitters. While in action in disorders like constipation, indigestion, indigestion, fever and ague and general weakness is quick, still it does not force a cure. It gives that assistance in carrying off the waste matter that nature occasionally needs. It makes the sick well.

Special Correspondence.
Whipple Barracks, A. T., Sept. 1. For some time it has been growing. I will tell you how and why. I shall state the facts as I know them to be. I ask no favors and I fear no man. Two weeks ago Private Wilcox, gathering the then sentiment of Company A, drafted a petition to Secretary of War Alger, setting forth the facts and purposes of the enlistment of Company A. It stated that, peace having been accomplished, and the purpose of enlistment having failed, and most of us not desiring to do garrison duty, then asked that if the authorities thought it consistent with the best interests of the government, we be discharged.

It was based upon the understanding, that in the discharge of troops, the war department would, in part at least, take into consideration the desires of the men themselves—which last is certainly polite and sensible. A willful soldier is the best soldier.

I was intended to submit the petition which all had signed it, or at least enough to show the sentiment of the company. I was told that the petition was in the hands of the adjutant, before forwarding it to the war department. If it had been ascertained that a majority of the company disapproved it, it would have been dropped. The petition was in existence half an hour and thirty-seven men had signed it. Just then the "little captain" discovered it and it died but this was not enough. At assembly the blue book was paraded before the company and certain articles of war read to the boys in a solemn and funeral tone which had about as much application to the existing state of facts as the Ten Commandments. They were informed what ignorant fellows they were. Upon occasion they were twitted familiarly about it. This was the seed. The real and substantial reasons for desiring discharge were as stated in the petition mentioned. But superadded to these were and yet are the entire lack of accommodations at this place for men. These men are not regulars, used to army life. This is an abandoned post; everything is gone but the air, some old buildings, dysentery breeding water and bedsteads, and a hard floor or the ground for a couch, with grub from which the nearest hotel would turn away in disgust, with the absolute neglect of the officers to look after the comfort of the men, with their entirely uncalled for superciliousness with the men and treatment. It is no wonder that what I shall write has come to pass. I offered a tramp one day some dinner, after he told me he was hungry. He cursed and refused it when he saw it. The men would willingly put up with any treatment necessary in fight or field. They have, even here, borne without protest, ill fare, until to-day this camp is a den of vermin, with the absolute neglect of the officers to look after the comfort of the men, with their entirely uncalled for superciliousness with the men and treatment.
