FOR FIRST TIME IN HISTORY AEROPLANE SOARS ABOVE VALLEY OF RIO GRANDE

TWO MAGNIFICENT FLIGHTS MADE BY AVIATOR WALSH YESTERDAY TOTALLING OVER 25 MILES

Speed of Over Sixty Miles An Hour Attained; Daring Sailor of the Air, Who Maneuvers to Frantic Applause of Tremendous Crowd at Traction Park, Will Fly Today and Tomorrow; Big Montezuma Parade and Automobile Pageant Features of Today's Program at First State Fair.

Sweeping in wide circles, dipping and soaring, for the first time in the history of the Rio Grande valley, a modern air craft sped above it yesterday afternoon to the tune of deafening and prolonged applause and at times silence fully as eloquent from the thousands of people who packed the grand stand at Traction park on the third day of the New Mexico State Fair.

Traveling over sixty miles an hour, reaching an altitude of nearly one thousand feet and traversing a distance of a total of about twenty-seven miles, Aviator Charles F. Walsh, in a Curtiss biplane, gave an impressive exhibition of the perfect control he maintains over his flying machine, and of the immense practical utility of the aeroplane. Walsh did not attempt any dizzy spirals or altitude records yesterday; he stayed close enough to terra firma to be seen plainly and to demonstrate in a striking manner the commercial possibilities of his machine. His flight caused a sensation all over the city as he covered a good part of it and could be seen plainly with the long tail of smoke trailing out behind the biplane, from every part of the valley. The air was clear as crystal and owing to its early, Mr. Walsh said on alighting that it was possible to make better speed than in the east. It is said that this trail of the gasoline exhaust is rarely visible in the lower altitudes.

The first flight was made at 4:10 o'clock, when the aviator started his engine, glided on his wheels half way across the baseball diamond and rose gracefully into the air. Reaching a considerable height, he struck southwest and followed the river down as far as the Bareales bridge, circling around until he was above the railroad tracks, coming northwest across Robinson park. Passing again in sight of the packed grandstand, which cheered his trip, being in the air altogether ten minutes before he swooped over the trees on the east side of the fair grounds and alighted like a feather on the diamond, miscalculating his speed just enough to stop in a puddle of water west of the ball ground. Even at that it was a most wonderful demonstration of control, as Walsh had previously announced that he would alight just where the wheels first struck the ground. He covered twelve miles on this trip.

The second flight started at 5:05 p. m., and on this flight the birdman was in sight of the grand stand practically all the time, as he circled north, going nearly to Alameda, retracing his course and alighting from a thirteen-minute trip, traversing some fifteen miles. It was a beautiful exhibition, as was the first, and the announcement that Walsh is going to fly again today and tomorrow means that Traction park will see the greatest crowds on those two days ever witnessed at a New Mexico fair. The largest crowds of the week yesterday witnessed the aviation stunts, the good races, baseball and other specialties and the day was a satisfactory one to every visitor. The immense Nat Reiss carnival aggregation got fully into its swing last night and thousands and thousands of people visited the elaborate and complicated fun making and amusement devices which have made this carnival outfit the greatest one in the country. The daring performances of the men who give the free acts, jumping the gap and the high dive and the rest, thrill larger crowds every day and night and the Nat Reiss, the carnival king, is making one of the biggest hits of his famous career.

TODAY IS ALBUQUERQUE DAY: EVERYBODY WILL BOOST

Today is "Albuquerque Day" at the state fair and Albuquerque is expected to turn out to the last man, woman and child and boost for all she is worth. The program for today is a splendid one, including the aviation exhibition, baseball games between Dawson and Santa Fe and Albuquerque and El Paso, and the fans are on tiptoe. The baseball will start at 12:30 today so the fans are expected to be on hand early with their lungs in good condition. The racing event of the day is the famous Albuquerque Derby with many other fast events as seen on the official program.

MONTENZUMA PARADE AND ILLUMINATED AUTO PAGEANT

Down town the big events of the day and night are the grand Montezuma parade this morning at 11 o'clock, and the gorgeous illuminated auto-

NEW AMBASSADOR NOW COMING FROM JAPAN

Washington, Oct. 11.—Viscount Suteki Chinda, who it is reported will succeed Viscount Uchida as Japanese ambassador at Washington, has not yet been named to the United States government in accordance with the custom of ascertaining where a diplomatic selection is acceptable. The Japanese embassy here today has not been advising of the selection.

ARMY OF TENNESSEE RETAINS OLD OFFICERS

Council Bluffs, Ia., Oct. 11.—At the annual election of the Society of the Army of the Tennessee today, the old officers were re-elected according to the rules of the constitution and vice presidents from eighteen states were chosen. The city of Peoria was selected as the next meeting place.

After President Taft's address at the army he was driven to the new building of the Columbus club, where he made a short talk to the Knights of Columbus, referring especially to Columbus day tomorrow, which largely through the efforts of the organization was made a legal holiday at the session of the legislature in January of this year.

Oregonians of prominence, including Senator Chamberlain and Governor West, welcomed President Taft to Oregon. Senator Bourne is in Washington.

SUFFRAGE SUCCESS IF ALL WOMEN WILL VOTE

PRESIDENT TAFT FINDS MERIT IN EXPERIMENT

Declares World Looks Upon Washington State to Demonstrate Wisdom of Folly of the New System.

Portland, Ore., Oct. 11.—President Taft crossed the Columbia river into Oregon and arrived in Portland tonight. He spent the day traveling south from Tacoma. The only long stop was made at Olympia, where Mr. Taft was the guest at luncheon of Governor Hay, of Washington. Tonight the president had dinner with the Portland Commercial club and later delivered an address in the armory.

After President Taft's address at the armory he was driven to the new building of the Columbus club, where he made a short talk to the Knights of Columbus, referring especially to Columbus day tomorrow, which largely through the efforts of the organization was made a legal holiday at the session of the legislature in January of this year.

Oregonians of prominence, including Senator Chamberlain and Governor West, welcomed President Taft to Oregon. Senator Bourne is in Washington.

The president spoke on many subjects today, from the tariff veto to woman's suffrage and peace and arbitration, and there were many invitations at Castle Rock. A man dressed in red, who circulated copies of a socialist newspaper, with glaring front page editorial directed against the president, ran as a counter attraction and tried his hand at speaking against the president. Just before crossing the Columbia at Vancouver, the president said farewell to Washington. He spoke to several persons.

At Spokane, Wash., where a few hundred persons had gathered to listen to a rear platform talk, Congressman Warburton, an "insurgent," and one of the men who voted for the tariff bills which the president vetoed in the spring, made an introductory speech.

"I wish to introduce our president," he said. "He has served two years and I hope he will serve eight years."

At Castle Rock and at Woodland, the president ventured into short discussion of woman suffrage. He said that the east was looking to Washington, the largest commonwealth in the world that had woman suffrage, to prove its wisdom or its folly.

"If all women vote," said he at Woodland, "suffrage will be a success. If they don't it won't be, but I hope they will all vote and we are looking to you to see if it will be a success. If the ladies go on and recognize their responsibility in ruling the state, just as they rule at home, then they will be a success. Seriously speaking, it is a great problem that you are working out here. You have that courage here that we have not in the east in attempting to solve these problems and we are looking to you to see how successful you are."

At Kalama, he had been asked to speak on peace, and as the president alighted from his train four doves were loosed by a member of the reception committee. One circled high above his head for several minutes while he was speaking.

The president had a little opposition at Castle Rock.

WOMAN SUFFRAGE HAS FIGHTING CHANCE

Official Returns May Be Necessary to Decide Fate of Votes For Woman Struggle in California.

[Special Dispatch to the Morning Journal] San Francisco, Cal., Oct. 11.—Incomplete returns from 2,462 precincts in the state give for woman suffrage 111,557, against 112,363; majority against the amendment, 805.

These figures leave 658 precincts to be reported. The ratio of gain indicates the affirmative vote is sustained. With 2,041 precincts heard from earlier tonight the majority against was 3,922. The gain for the amendment in the last 296 precincts received was 3,826. If this ratio is maintained, suffrage has carried by a comfortable majority.

The last previous total was for 2,611 precincts and gave majority of 4,193 against the amendment. Estimated at the ratio of gain for the amendment shown by the last thirty precincts received, the total result from the outstanding precincts would show a gain of 7,520 for the amendment, or enough to carry it.

To present such proposed amendments to the voter, however, a two-thirds majority of each house of the legislature is required.

SACRAMENTO VALLEY FAVORS AMENDMENT

Sacramento, Cal., Oct. 11.—Returns tonight from twenty-three counties in the Sacramento Valley and vicinity not only maintained the average reported last night of six to the precinct in favor of the suffrage amendment, but raised it to about seven.

The same ratio for the precincts yet to hear from in these twenty-three counties would add 2,779 net to the suffrage majority.

COLORADO RIVER OUT OF BANKS AT NEEDLES

San Bernardino, Cal., Oct. 11.—According to special dispatches from Needles tonight, the Colorado river has risen to its highest point of the year and has cut its way through the big dyke on the Arizona side.

Thousands of acres of reclaimed lands are flooded and settlers are said to be abandoning their homes. The damage is heavy. When the dyke on the Arizona side broke the pressure on the California side was relieved and no fears are felt by settlers on this side.

CONSUMERS LEAGUE AFTER WILSON'S SCALP

New York, Oct. 11.—Resolutions commending the work of Dr. Harvey W. Wiley, chief of the bureau of chemistry, praising President Taft for his exoneration of Dr. Wiley "from the foolish and unfounded charges made against him" and urging the removal of Secretary of Agriculture Wilson, Solicitor McCabe and Associate Chemist Dunlop of the department were adopted today by the food commission of the National Consumers' league at its meeting here.

Don Francisco Wants "Penalties" For Bribery; Another Joke

Delving again into that rich collection of ironical platitudes, the "platform" drafted by the Hon. Thomas Benton Catron and assistants for the republican "convention" at Las Vegas, we dig up the following beautiful gem:

"We pledge our candidates to such legislation as shall provide full and complete publicity of all political campaign expenses, both before and after election, WITH SEVERE PENALTIES FOR CORRUPTION AND BRIBERY OF VOTERS, for excessive expenditure of money for political purposes whether by or for candidates for public office."

To get the full point of this luscious witticism, it is only necessary to remember that Francisco A. Hubbell, whose little band of pirates was recognized by Bureau, et al., as the "party" of Bernallillo county, was placed on the state central committee, his wishes as to the naming of candidates were deferred to by Mr. Bureau and that gentleman installed Francisco as his right bower—as long as he would keep off the stage.

Can you imagine the discredited boss of this county, Mr. Voter, handing in an itemized account of his present expenses in this campaign in this county?

Can you picture the former dictator of this county; the former treasurer, the former school superintendent, the eminent financier, publishing to the world what he is doing with the money that he is now sowing through the country side?

Corruption and bribery of voters! We repeat, can you imagine the gentleman who is now asked to deliver this county, bound hand and foot, to the rotten state ring, as the exponent of honest elections and as a steadfast foe to the practice of buying votes and corrupting voters?

How long do you think he would stay in politics if "severe penalties" were imposed for the corruption and bribery of voters?

This man is now high in the councils of those who drafted and adopted the platform.

Which are you going to vote for, an empty platform, a lying declaration of principles, or for men?

Do you judge these men by their words or by their records?

JAMES B. McNAMARA FACES JURY ON CONSPIRACY CHARGE

Younger of Captive Brothers Selected to Stand Trial For Alleged Part in Los Angeles Times Horror.

DEFENSE DEPICTS GREAT UNION LABOR CONFLICT

Prospective Jurors Questioned Closely As to Attitude Toward Workmen's Organizations.

[By Morning Journal Special Lensed Wire.] Los Angeles, Cal., Oct. 11.—James B. McNamara went on trial for murder today before Judge Walter Bordwell in the superior court this city, amid circumstances as austere and simple as the prebendal western justice, District Attorney John D. Fredericks, for the prosecution, elected to try him for the murder of Charles J. Haggerty, a machinist who with twenty other men met death in an explosion and fire which wrecked the Los Angeles Times building, October 1, 1910.

This case was placed from nineteen indictments for murder found against the prisoner, his brother, John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers; William Caplan and M. A. Schmidt, both at large; and four unidentified persons specified as John Doe, Jane Doe, Richard Doe and John Stiles, because Haggerty's body was found nearest the spot at which the explosion occurred.

The prosecution contends that this explosion was caused by dynamite; the defense that it was caused by gas. The new Hall of Records in which the trial is being held, in only a stone's throw from the scene of the explosion.

This was the setting of the legal stage today. Upon it counsel for the defense, headed by Attorney Clarence S. Darrow of Chicago, in questions to the jury and arguments to Judge Bordwell sought to depict a mighty contest between organized labor—the McNamaras are union men—and its opponents, without much opposition from the prosecution.

Attorney Leomonte Davis, examining jurors, headed straight for this point.

"Are you aware that there is a bitter warfare between capital and labor?" he asked Z. T. Nelson, the first venireman examined.

"Yes," said Nelson.

"And that most men have taken sides?"

"Have you the opinion that labor organizations as they exist are proper or that they are inimical and a menace?"

To this the prosecution objected because "counsel is asking the opinion of the witnesses on evidence that may arise during the trial."

"He may answer," said Judge Bordwell, and Nelson said he was "not prejudiced."

Further questions were met by the assertion from Attorney W. J. Ford of the prosecution that "this is not a union labor trial."

"Do you take the Los Angeles Times?" and "do you read the weekly page devoted to animadversions on labor?" were other questions put. Nelson was still on the stand when court adjourned.

It was not until court opened today that the defense could make formal demand for separate trials for James McNamara and his brother, John. Hence, the brothers, handcuffed together, were taken to court. All Los Angeles knew about this, but when seven deputy sheriffs, beside the jailer and an assistant, left the jail with the prisoners, they found an empty street except for newspaper photographers and a few spectators.

In the court room, where only a moderate crowd of spectators gathered, the formal opening of the case was not heard ten feet from the bar.

"Case 6,939—James B. McNamara," said some one casually, after District Attorney Fredericks had announced his selection and the great trial was on.

John J. McNamara was allowed to remain during the brief morning session, but in the afternoon the younger brother sat alone against the rail. At the afternoon session the tables of counsel, which had been arranged in one line, were changed to face each other.

Following a brief recess in the afternoon, G. C. Kemp, a venireman, was excused because of physical inability to stand the strain of a long trial. W. A. Spalding, secretary of the civil service commission of Los Angeles, was excused by consent of the prosecution after he had refused to plead exemption on official grounds and the defense had refused to challenge him.

Tomorrow is a state holiday and no session of court will be held.

Russian Counterfeiter Held.

Washington, Oct. 11.—Albert Leon, the alleged Russian political refugee held in New York on charges of counterfeiting American ten-dollar bank and treasury notes, probably will be tried in Chicago. The spurious notes, it is claimed, were circulated in several western cities.

Albuquerque and El Paso Now Tied For First Place in Baseball Tournament

Santa Fe's Defeat of Pass City, and Locals' Drubbing of Dawson Yesterday Makes Baseball Series a Battle Royal; Today's Contests May Decide Fight For First Money; Double-Header Begins at 12:45; Sharp; Capitol City Has Cinch On Third Prize.

Albuquerque and El Paso are tied for first money in the great baseball series being played at the fair grounds. El Paso, by losing to Santa Fe yesterday, something that was entirely unexpected, and Albuquerque, by winning from Dawson, something that was expected, tied these two teams for first place. El Paso and Albuquerque, which are easily the best two teams in the tournament, will fight it out this afternoon to see which is the better. Albuquerque must win every game from now until Saturday to get the big purse. So must El Paso. It is certain, however, that if Albuquerque beats the Pass City boys this afternoon they will have as good a cinch on first money as could possibly be obtained. The finger displayed by Albuquerque yesterday afternoon, playing behind Bill Bailey, who showed great class, seems to indicate that the home team has a little the best of it. The unexpected may happen, though, as evidenced by El Paso's losing to Santa Fe yesterday afternoon.

SANTA FE DEFEATS EL PASO IN 10 INNINGS.

It took Santa Fe to stop El Paso's winning streak in the tournament, which it did yesterday by defeating the Pass City aggregation in a 10-inning game by the score of 8 to 7. The game started out like a walkaway for El Paso, that club scoring twice in the opening inning, while Santa Fe drew a blank. With the score 4 to 0 against them in the fourth, Santa Fe found Durham, the ex-New York national league twister, and before long he had spiked the rubber three times. El Paso increased its lead to two by scoring another in the sixth, but Santa Fe evened it up by getting two also, and forcing the retirement of Durham, who was replaced by Brandon of Kansas City. One of the runs in this inning was scored off Durham on two hits, there being none down when Brandon went into the box. A hit off Brandon resulted in another tally. In the seventh El Paso broke the tie, getting two runs, but Santa Fe doggedly went to bat and tied up the score again. Then there was nothing doing till the tenth when Santa Fe pulled the winning run, shutting out El Paso in its half of this inning. The batting of T. Smith, Downey, Noyes, Wicks, Ellis and Koerner, coupled with errorless ball by El Paso, featured. The game in detail, Santa Fe batting first:

First Inning—Frye opened for Santa Fe, striking out. Hubbard was out pitcher to first on an infield grounder. L. Smith out on liner to Downey. No runs.

Second Inning—Koerner flied out to left. Wicks was out on fly to left. D. Anderson got a Texas leaguer, which dropped back of second. L. Anderson out short to first. No runs. Gowen drew a pass from Faber. Durham struck out. White Smith was waiting for a good one. Gowen stole second, Hubbard's peg to tag being too wide to catch him. Smith struck out. Jackson out on grounder to first. No runs.

Third Inning—Ford went out on grounder third to first. Faber struck out. Frye struck out. No runs. Jackson flied out to Wicks who made sensational catch of Texas leaguer back of short. Downey struck out. Noyes walked. He stole second when Hubbard dropped first ball pitched to Gear. Gear hit grounder to first baseman and got on when Faber covering initial sack, dropped ball. Noyes going to third on the play. A wild pitch by Faber allowed Noyes to tally. Gear going to second. Welch got on when Faber and Ford fumbled his grounder. Gear advancing to third. Kiefer went out on a grounder to first. One run.

Fourth Inning—Hubbard drew a pass from Duran. L. Smith was out on high fly to left. Koerner walked. Wicks out on long fly to left. D. Anderson hit fly to deep center, which Gear tried to field when Gowen slipped and fell. Hubbard and Koerner scored on the mix-up, and Anderson got to second. L. Anderson then scored D. Anderson with neat single to left, but was out when he attempted to make two bases on the hit. Three runs.

Gowen reached second on fly to left, which D. Anderson dropped. Durham was out on a liner to Faber. Smith got a hit to left and stretched it into two bases when D. Anderson juggled the ball in attempting to field it. Gowen scored during the interim. Jackson flied out to left. Downey was out on a pop-up to Wicks. One run.

Fifth Inning—Ford drew a pass. Faber sacrificed Ford to second on bunt down third base line. Frye struck out. Hubbard struck out. No runs.

Sixth Inning—Frye, batting for Frye, hit to center for two sacks Hubbard walked. L. Smith struck out. Koerner connected for two base hit to center, scoring Ellis and Hubbard his grounder. Kiefer struck out. Gowen got to first when Hubbard bled third strike get away. Welch advancing to second. Brandon went out pitcher to two runs.

Eighth Inning—D. Anderson flied out. Gear, in center, graded place with Gowen in right field. Anderson struck out. Ford walked and so did L. Anderson. No runs.

Ninth Inning—Faber was out third to first. Ellis struck out. Hubbard drew a pass. L. Smith was out on a pop-up to pitcher. No runs.

Tenth Inning—Faber was out third to first. Ellis struck out. Hubbard drew a pass. L. Smith was out on a pop-up to pitcher. No runs.

Navy Defeats St. John's
Annapolis, Md., Oct. 11.—The navy academy football eleven today defeated St. John's college, 21 to 0. The navy started with the same line-up that faced Johns Hopkins last Saturday. The coaches made many changes with a view to getting a line on the ability of a number of players.
The features of the game were captain Dalton's sixty yard run after an intercepting forward pass and one flying tackle by which Melan of St. John's dragged the husky sailor to earth about three feet short of a touchdown.
The navy's line was a fine one. The first ball that Tommy Lockhart put over the groove at Phelan this time received its reward, by being lost for three sacks. Jones coming up, sent another high one to right. Phelan scoring on the throw in. Smith went out on a fly to Lockhart, and Kohn did the same on an easy ground-out. One run.
Seventh Inning—This spoon only lasted half time as it was getting hot, and there seemed to be no prospect of Dawson's getting ahead. For a time it looked bad as Clemmons found one to his liking and obtained two bases on it. Tommy Lockhart struck out. Ambrose went out on a shoe string catch to Salazar and Craig struck out. At this point the game broke up, everybody going home.
The box score:

COME ACROSS AND HELP ATHLETICS AT THE VARSITY
Public Support, a Little From Each Citizen, Needed to Assure Success of the Football Season.
For the first and only time during the season, Albuquerque failed to score, and it really looked as if Tommy Lockhart was going to retrieve himself. Lockhart grabbed a pass when it was pushed in his direction, and was thrown out trying to steal. Salazar went out on a fly to Middleton, and Bailey went out on an infield hit. No runs.
Fourth Inning—Middleton up, poked out one of the three hits for Dawson. Claire struck out. Claire then hit a Phelan who threw Middleton out at second, over struck out. No runs. Donovan singled through the pitcher, and pitched second. Graham struck out. Phelan put a high one sack of the catcher, who brought it own. Jones walked and Smith singled, driving Donovan in. Kunz went out on a shoe string catch to second base. One run.
Fifth Inning—Clemmons singled, off Lockhart, Ambrose and Caldwell struck out in a row.
One more run was added to the total by Albuquerque this time. Lockhart got on with a single. Salazar sent him to second, going on by so doing. Bailey sent him to third, also going out. Donovan hit sharply through second and Lockhart came in. Graham flew out to right. One run.
Sixth Inning—Rube Wicks here went out to the monument, vice Bailey, retired on full pay and full glory.

ALBUQUERQUE NEW MEXICO

HOW THE AUTOMOBILE HELPS.

The direct benefits resulting from
the automobile, such as are
coming through Albuquerque this
year, are strikingly shown by the
following in the Chicago Record-Herald.

Approximately \$100,000 worth of
good roads, improvements resulted
from the Twin City-to-Helena auto-
mobile tour in July of this year.

The tour, as a result of the Great
Northern "Hotel train" feature, and
the vast amount of good roads im-
provement resulting, probably was
the most unique motor event of the
season. The distance from the Twin
Cities to Helena is about 1,300 miles.

Lewis and Clark county won the
Louis W. Hill trophy offered for "the
highway most improved for the Twin
City-Helena tour."

The road traveled in Lewis and
Clark county was for the most part
in a narrow rocky canyon, through a
pass in the main range of the Rocky
mountains. The pass provides barely
room enough for the Great Northern
railway and a lively mountain stream.

The county road occupies what re-
mains. In 1908, as on former occa-
sions, the river on a rampage swamp-
ed both the ground covered by the
road with rails and the road for
hundreds of feet and sorely a vestige
of either was left. The cost to the
county for rebuilding twelve miles of
road was \$25,000. It is a route of
continuous ups and downs in many
cases clinging to the rocky sides of
the canyon and apparently overhang-
ing the railroad many feet below. As
one tourist expressed it, "he had
never traveled before on a road over
the two tops."

The canyon requires constant at-
tention by the authorities to keep in
a passable condition. From the time
the trip of the autos was announced
it was kept smooth and in trim for
the event.

Constant agitation of the press and
good roads societies of the coming
of the Minnesota Automobile associa-
tion for their run of 1,200 miles
caused the county officials in charge
of the highways to expend much
money in repairing and rebuilding
other roads leading from Helena that
would possibly be used by the tour-
ists.

Five new bridges were built, forty-
two small bridges were rebuilt, and
repairs and new iron culverts replaced
wood to about one hundred in num-
ber.

A GOOD PLATFORM.

The Lincoln Recorder is another of
the New Mexico papers that has had
enough of gain rule. The following
splendid platform stands at the head
of its editorial column.

"The purpose of this paper is to
help rid New Mexico of graft and
corruption, that which has done more
to tarnish the name of the new
state and retard development than
anything else."

"It is not good laws that we need
so much as honest men to administer
them."

"It is not organization to 'hatch
corruption' that we want, but sane
interpretation for the purpose of legiti-
mate development."

"The truth about New Mexico is
good enough—and bad enough—the
people of New Mexico get the blame
for it, they are entitled to know about
it."

"If you are in sympathy with this
work, write us."

"If you want to help, send \$5 for
a year's subscription to the Recorder."

The publication of New Mexico
papers has been this week with
small in personnel, will have most
important results. It has started an
organized movement among the magi-
strates and officials in favor of better
legislation for the government. The
movement cannot fail to be of great
benefit to every citizen in the state and
Master Know is entitled to much
credit for starting the ball rolling.

At Chicago, Ill., the county
judge dismissed a jury because it was
made up of farmers who simply had
to pick their votes in the citizenry
who have something else to do de-
velop for service elsewhere by say-
ing that they read newspapers.

THE NEXT GOVERNOR.

The El Paso Times says:
Hon. William C. McDonald, man-
ager of the Carrizozo Cattle company,
of Carrizozo, Lincoln county, will be
the next governor of New Mexico,
from the fact that he is the demo-
cratic nominee for this very impor-
tant office, and this is going to be
democratic year in the new state of
New Mexico. The people are deter-
mined that the first state government
shall be started off in a safe and sane
manner, and for that reason they are
going to elect McDonald and the en-
tire democratic state ticket.

Mr. McDonald is a citizen of
New Mexico for the past thirty years
and actively identified with one of
that section's greatest enterprises.
The fact that the only election the
republican hovers can raise against
him is that he is a cattleman, shows
the standing of the man among the
people who know him. It may be a
crime in the eyes of a New Mexico
machine republican for a man to be
a cattleman, but the average south-
western cattleman carries a brand for
honesty that may well be envied by
any machine republican.

Mr. McDonald is a man of broad
views, excellent business qualifica-
tions and unimpeachable honesty and
integrity. The fact that he has had
the successful management of the
largest cattle company in New Mexico
for many years is ample evi-
dence of his executive ability, and
he will give the people of New
Mexico an administration that will
measure up to the fullest require-
ments.

Mr. McDonald must have a ma-
jority, however, that will reflect
upon the New Mexico democracy.
Every member of the party must
work in the campaign with that end
in view.

THE PURE BALLOT.

The platform of the gang drafted
at Las Vegas declares vehemently for
honest elections.

K. A. Miera, one of the kings of
Sandoval county, is a prominent
member in good and regular stand-
ing of the crowd which conducted the
convention and perpetrated the plat-
form.

In the precinct of Cuba, Sandoval
county, in the heart of Mr. Miera's
stamping ground, the republican
"vote" cast at the last election was
302.

The United States census of 1910
gives Cuba precinct a population of
602.

The population runs about five per-
cent to each voter.

On the basis of 302 votes, Cuba
should have a population of 1,510
persons.

Be conservative and make it four
to a vote and Cuba should show a
population of 1,208.

Which do you believe, Mr. Miera
or the census?

Which do you believe, the gang or
its platform?

THE VOTER'S LAMENT.

The following from a New Mexico
exchange, pictures the plight of the
man who hearkens to the glittering
promises of the gang:

"My shepherd, I shall not want for
any good thing during the campaign.
He leadeth me into the saloon for
my vote's sake; he fillets my pocket
with good cigars; my glass of beer
runneth over. He prepareth my vote
for me in the face of my better
judgment. Yes, though I walk
through the mud and rain to vote
for him, and shout myself hoarse
when he is elected, forthwith he for-
getteth me; even when I meet him in
his own office, he knoweth me not.
Sorely the wool has been pulled over
my eyes all the days of my life, and
the politician hath hoodwinked and
deceived me."

In some unexplained way, the gov-
ernment has been permitted to in-
terfere itself very extensively in the
development of the airship without
being compelled to dig up a theory
to the effect that it is for the benefit
of the farmer.

A mortal combat with six guns be-
tween the two leaders in the state
of Chihuahua has been decided on to
end the controversy. This ought to
prove a good method to decide all
election disputes in Mexico.

"At present she is a blonde" says
a newspaper description of Gaby Des
Loy. And no man knoweth what
shade the morning may bring forth.

"Talk about the Chiquito-Spaghetti
war! In a little revolt over in China
10,000 people are dead in conse-
quence."

You will probably find that missing
office boy over at the carnival
grounds.

**DISH WASHING IS TOO
DEGRADING, PROTEST
HIGH SCHOOL MAIDENS**

(Special Correspondence to Morning Journal)
• Roswell, N. M., Oct. 12.—Ser-
vice in the high school girls have
been petitioned to discontinue it.
• M. H. Boucher of the city schools
is asking that they be excused from
washing domestic science. They
state that they believe dish
washing to be degrading and not
conducive to a higher morality.
• That they are not accustomed to
such work at home and they do
not care to learn the art of cook-
ing. The petition will probably
be thrown in the waste basket.

**COMET ON HAND TO
TAKE PART IN
THE BIG FAIR**

Heavenly Visitor Seen Above
Traction Park For Past Sev-
eral Nights By Local Star-
gazers.

That the fame of the New Mexico
Fair is spreading to interstellar space
is evidenced by the fact that a full-
fledged, husky comet has arrived to
take part in the festivities this year
and add its brilliancy to the scheme
of illumination.

The comet was discovered by Dr.
E. S. Spindler, a well known local as-
tronomer, last night, as he was
sweeping the firmament with his
trusty spy-glass in search of Sirius, the
Dog Star, Dr. Spindler being a well-
known dog fancier. He called the at-
tention of numerous other persons to
the celestial visitor which may be
seen plainly with the naked eye in
the western heavens in the evening.
Johnny McManus says he has a con-
tract providing for the appearance of
the comet every day during the fair.

Stung Again!

We have had it handed to us again.
The Morning Journal has been feel-
ing pretty chummy over the hundreds
of new subscriptions which have come
pouring in since the beginning of the
campaign; but one citizen took a tail
out of us yesterday which will hold
us for a while. He writes thusly:

Springer, N. M., Oct. 4.
Editor Morning Journal, Albuquerque,
N. M.

Mr. Knudsen please find check
for my subscription to date. STOP!
MY PAPER, as I do not care to read
a YELLOW RAG that supports a
handful of jealous office-seekers, one
of which have a dandy old record
themselves.

Yours truly,
C. C. CUNNINGHAM.

This is too bad. How this sub-
scriber could have imagined we were
supporting Mr. Bursum and his hand-
ful of jealous office-seekers is a mys-
tery. We shall try to make our posi-
tion clearer as the campaign goes on
and trust Mr. Cunningham will see
his mistake and allow us again to
place his valued name upon our sus-
cription list.

This issue, however, is atoned for
by a certain new subscription from an
Albuquerque minister, as received
yesterday. He stopped his paper
some months ago; but we are going to
let bygones be bygones and will not
publish his name. Anyhow, we are
glad he has come back. The paper
is being thrown in his front yard.

**ENGINEERS REPORT
GOOD PROGRESS**

Pushing Construction Work at
Elephant Butte; Crop Yields
Under Various Completed
Projects Are All Good.

(Special Correspondence to Morning Journal)

Washington, D. C., Oct. 9.—The en-
gineers in charge of the construction
of Elephant Butte dam, Rio Grande
irrigation project, New Mexico-Texas,
report excellent progress. The col-
lars both above and below the dam
also have been pushed out into the
river within seventy feet of a closure,
and are now being raised and widen-
ed. Excavation for the foundation
of the power house has been com-
pleted, concrete placed, and a portion
of the machinery is being set up. Most
of the poles on the transmission line
have been erected. The by-pass is
64.4 per cent completed. The excava-
tion for the cable towers is in pro-
gress and timber for the towers have
been ordered.

The crop yield under the Leasburg
unit has been good, five cuttings of
alfalfa being reported from many
sections. Fruit is in excellent con-
dition and the yield is very large this
year.

Under the Carlsbad project the
crop yield is reported excellent. Indi-
cations are that the cotton crop will
exceed one bale per acre. Local rains
have furnished more water than was
required during the past month.

Preparations are now being made for
sowing a portion of the new lands to
alfalfa.

To Improve Lambing Methods.

James T. Jardine, inspector of graz-
ing in the United States department
of agriculture, has just finished a
report of an experiment with coyote-
proof enclosures for improving the
lambing methods on the sheep ranches
in the west.

According to the year book of the
department of agriculture there were
35,000,000 sheep in the Rocky moun-
tain and Pacific coast states. Owing
to the fact that the lambing season is
so early and that the range is still
short and the weather cold, the loss
from careless handling has been as
high as 10 per cent, and that is a loss
of \$2,000,000 annually. This is un-
necessary if the enclosures are used.
It is a money-saving plan, so the
charts of Mr. Jardine show, for the
saving in the number of attendants
(reduced from eight to ten on the
range, to one to three with the en-
closure) alone will help buy the fencing.
Besides the experiment station
actually accounted for every ewe and
lamb and found by true counts that
they lost only 7.4 per cent of the
lamb, while as many as 22.5 per cent
were lost by careless open ranges.

The report gives full accounts of
methods and cost of the enclosures
and of new methods of lambing, so
that it is of great value to all attempt-
ing to raise sheep.

Lame back is one of the most com-
mon forms of muscular rheumatism.

CROWDS AT THE CIRCUS.

Jam at Afternoon and Night Perfor-
mances.

(From Montreal Gazette, July 12,
1910.)

Howe's circus was unable to accom-
modate the crowds that traveled
down to the grounds on Ontario
street east yesterday afternoon and
evening. Mysteriously are circus
lovers and tax the capacity of any tent,
so at both performances yesterday
standing room was at a premium. It
is a good show. Clowns, jugglers, ac-
robats, barabach riders, aerial arti-
stas, entertain as of old, and there is
the glamour of the sawdust, pink lea-
cade, and peanuts to bring back to
the elders memories of bygone days,
and make the youngsters speechless
with delight.

There is a herd of musical ele-
phants, who make a noise with in-
struments, and there is "Duchess"
which the Howe people claim is the
largest pachyderm in captivity. "Duch-
ess" certainly looks big when standing
beside a young chap the size of a
brewery horse, and she gobbled up
peanuts galore and waved her trunk
for more, while the smallest elephant
of the herd shrieked with jealousy.

The Eddy family are marvelous on
the wire and do some wonderful ac-
robatic work and are the feature of
the ring show. A Japanese troupe won
applause also, and the clowns made
the spectators laugh with their antics.
The bareback riding also pleased
another way.

A feature of Howe's show is the
fine condition of the animals in the
menagerie. They are all sleek and
their hides are clean, glossy and ap-
parently well groomed. Even the fer-
rets, which is generally a messy-looking
beast, looks respectable and is so
proud of himself that he doesn't
deign to laugh. Three lion cubs, a
couple of weeks old, attracted many
people to their cage, as they played
like kittens and shared with their
mother a chunk of meat that would
satisfy a boarding house. There are
also camels, leopards, monkeys and
hams and flat-tailed sheep and sev-
eral smaller species of animals in the
menagerie tent.

At the night performance there
were so many people in the tent that
the performers had difficulty in var-
rying out their program.

The best plaster. A piece of flau-
cel, dampened with Chamberlain's
Liniment and bound on over the af-
fected part is superior to a plaster
and costs only one cent, as much. For
sale by all dealers.

**POSTMASTERS JOIN MOVING PICTURES
IN PERMANENT
ORGANIZATION**

R. W. Hopkins of Albuquerque
is Elected President; Asso-
ciation to Meet Here Again
Next Year.

The New Mexico Postmasters' asso-
ciation was organized yesterday at a
meeting in this city. Postmaster R.
W. Hopkins being elected president.

P. O. Hood of East Las Vegas, first
vice president; John M. Wiley, of
Silver City, second vice president;
Louis Garcia, of Springer, third vice
president; Fred Baldwin of Butte,
fourth vice president, and W. A. Davis
of Clovis, secretary and treasurer.

The association elected Edward C.
Burke, postmaster of Santa Fe, dele-
gate to the national convention of
postmasters which meets in Wash-
ington, October 24 and 25.

The organization was perfected at
the second day's session yesterday on
the second floor of the federal build-
ing, morning and evening meetings
being held by the dozen or more pos-
tmasters in attendance. It was de-
cided to have the organization in-
clude postmasters of all classes, and
not merely the first, second and third
class men as at first proposed. There
are some forty of the latter in the
state and all received invitations, the
attendance, however, being very good
in consideration of the fact that it
was the organization meeting.

It is expected to hold a much
larger gathering next year, this city
being decided upon as the next meet-
ing place. These state organizations
of postmasters are formed to hold an-
nual meetings in the interest of the
members, to discuss improvements de-
sired and to communicate as a body
directly with Washington on matters
of importance regarding the service.

They are aided and favored by the
postoffice department which in this
case, as in others, granted each pos-
tmaster a week's leave of absence to
attend the meeting.

Among the postmasters represent-
ed in the convention were F. O. Hood
East Las Vegas; John M. Wiley, Silver
City; Louis Garcia, Springer; Fred
Baldwin, Butte; W. A. Davis, Clovis;
L. E. Kittrell, Socorro; Frank Hill,
Raton; A. H. Rockafellow, Roswell;
P. E. Woodford, Grants; H. D. Green,
assistant postmaster, Deming; G. L.
Brenford, Dawson; Spencer Hardie,
Vaughn; Edward Pennington, Bem-
ing; N. D. Myers, Espanola; E. C.
Burke, Santa Fe; E. S. Martavich,
Macedonia, and Postoffice Inspector
P. J. Moran.

Only 100 at \$10 each needed to
make up the last \$1,000 for the Y. W.

**REFUSE TO ADVISE RAIL
AND EXPRESS MERGER**

Washington, Oct. 11.—The National
Association of Railroad Commissioners
in annual convention here, today
refused to go on record as favoring
legislation abolishing the express
companies of the country by com-
pelling the railways to take over the ex-
press business. A resolution to this
end, offered by George R. Rice, state
railway commissioner of South Dakota,
was referred to the committee on ex-
press service and rates.

**AUTOMOBILE PRESENTED
TO TY COBB AND SCHULTE**

Chicago, Ill., Oct. 11.—Outrigger
Schulte of Chicago National League

FINANCE AND COMMERCE

Wall Street.

New York, Oct. 11.—A spirited bidding up of prices in the last hour of trading on the stock exchange today carried quotations to a point well above the final range of the previous day. The movement was the only one of importance of a listless day. Union Pacific, Southern Pacific, Lehigh Valley, Northern Pacific, American Smelting and American Beet Sugar rose to a point or more above yesterday's close on the upturn and reading, which had been the conspicuous weak feature of the market. Recovered its loss. Profit-taking sales just before the close reduced these gains somewhat.

United States Steel was still under pressure. In the late upturn it rose less proportionately than other market leaders and it was the first to yield when profit-taking sales were again general. A suit against the United States Steel corporation has been prepared and the statement of the corporation's heads that its operations were within the law, there exists a widespread feeling that the government sooner or later will endeavor to establish more clearly the status of the largest combination in the country.

American Tobacco four per cent bonds rose to 99, the highest price for the movement which represented a gain of 15 per cent. Buying of these bonds was stimulated by reports that the plan of reorganization had been changed in such a way as to benefit holders of these securities. Closing stocks:

Chicago Board of Trade.

Chicago, Oct. 11.—Because frost in the Argentine failed to work any injury to crops, there was a generally weak tone in the market today for wheat, although evening up of trades, brought about a rally in the last half hour. Compared with last night the close was 1-4 cent lower to a shade advance. Corn finished 1-8 to 1-4 cent down, oats at a sixteenth cent loss to 1-4 cent gain and provisions varying from unchanged figures to an increased cost of 1-2 to 1-10 cent. In view of the Argentine reports wheat speculators were not surprised to see the market suffer a set-back at the start. Then, too, the weather in American and Canadian northwest had been fine and resulted in large receipts. Minneapolis stocks increased 1,200,000 bushels in four days, pointing to another visible supply total this week.

The windup was relatively firm, December fluctuated from 97 3/4 to 98 3/4 and 98 1/2 to 98 3/4, with last sales a shade net higher at 98 3/4. In the corn crowd, the bearish influence of fine weather had an offsetting effect. Good buying for local speculators of the larger sort. December touched 98 outside limits 64 3/8 and 64 5/8, closing steady, but 1-8 cent off at 64 5/8 and 64 3/4. Cash grades were offered in only a moderate way. No. 2 yellow finished at 71 3/4 and 72c. Important resting orders to buy May oats on the basis of fifty cents strengthened other option as well. December varied from 47 3/8 and 47 1/2 to 47 5/8, with the close 47 5/8, exactly the same as last night.

IMPOSSIBLE TO CONVICT PENNSYLVANIA LYNCHERS

West Chester, Pa., Oct. 11.—Efforts of the commonwealth of Pennsylvania to secure a conviction in connection with the burning to death of "Zack" Walker, the negro at Coatesville, failed again today when a jury acquitted Oscar Lampey, who was charged with being a member of the mob that lynched Walker.

THE ECONOMIST.**TO SEEK GENERAL REVISION OF LAWS GOVERNING CITIES**

As a result of yesterday's session of the mayors of New Mexico cities, assembled in Albuquerque in first state convention, it was decided to take strong steps toward securing a general revision of all laws now on the statute books affecting the government of municipalities.

Committees were appointed to draft laws which they think are especially needed. These drafts will be submitted to the mayors of the several cities for additional suggestions and approval and then the whole will be embodied in one proposed statute for presentation as a bill in the state legislature.

The committees appointed included the following:

One the commission plan of city government, Dr. George T. Veal of Roswell; on health, sanitation and charity laws, Dr. John W. Elder of Albuquerque; on fire and police laws, H. W. Crawford of Clovis; on municipal improvement laws, Arthur Seligman of Santa Fe; on taxation and assessment, J. J. Shuler of Raton.

Dr. John W. Elder, mayor of Albuquerque, stated that in his opinion the sessions of the convention had been of inestimable benefit to the mayors attending. He believes as a direct outcome, there will be an early revision of the laws affecting municipalities, but a meeting may be called again in the course of a few months to act on the reports submitted by the committees appointed to consider and recommend as to various important matters affecting municipalities.

Auction Sale**of Business Property****Friday, October 13,****at 10 a. m.**

I will sell at public auction the following business property, located at 706-708 West Central avenue, consisting of two lots and store buildings, with modern fronts and up-to-date. It would be time lost to undertake to tell the public with what rapidity business is traveling westward on Central avenue. The property is now rented for \$600, and, by agreement, there will be a considerable raise when present contracts expire. A chance, it seems to me, to buy a business property cheap, or in other words, to make a paying investment. This sale will take place at 10 a. m. sharp, in front of the property.
