to come in, as it is they are driven out and intimidated to protect the interests of the masses. The people of Socorro county are beginning to realize that the election of H. G. Bursum means the delivering over of the county, one of the largest counties in the United States, to the land ring of which he is a member, and the prospect is beginning to look serious to them.

Already the men who have been extending the crookedness of the Bursum ring in the county are being persecuted and asked for affidavits denying the truth of the charges and offered any amount of money desired to clear their names. This people, however, are not in such a hurry of the going as in days gone by, and realize that in the Morning Journal they have a champion not afraid to publish the whole truth and to give entire publicity to the devious methods of the Bursum crowd.

Such being the condition, Bursum has the right of his life to his own county, with professional Republicans running on the opposition ticket and with discontent and unrest running into result in every precinct. It is in this situation, which caused Solomon Lums to leave his sheep herders at Quemado, western Socorro county, that they were to vote in that precinct. It is in this situation which made the Bursum primaries earlier in the week cost Mr. Bursum some \$2,000. Men who were hitherto for the boss the day before the primaries appeared the day after loaded with gold and greenbacks. Money is to be spent like chaff and where coercion and threats will not avail, where Mr. Bursum cannot frighten the independent voter by the menace of reprisals, any needed sum to buy the vote will be forthcoming.

Socorro county has had enough of oppression by political bosses; and realizes that unless she frees the county from their grasp now the prospect after election will not be bright. Hence, there is going to be a battle royal, and it is hoped that it will break him financially to secure the votes.

## BATTLESHIP OREGON AGAIN IN COMMISSION

Seattle, Wash., Oct. 20.—The battleship Oregon, rebuilt and modernized, moved under her own steam today for the first time in six years and made a trial run from the Bremerton navy yard across the sound to Seattle, around the harbor and back to her anchorage at Bremerton.

On Monday the famous fighting craft will start for Los Angeles to join the Pacific fleet for annual inspection.

## WHY WOMEN SUFFER

### MANY ALBUQUERQUE WOMEN ARE LEMNING THE CURB

Women often suffer, not knowing the cause. Backache, headache, dizziness, nervousness.

Irregular urinary passages, weakness, leanness.

Each a seeming torture of itself. Together tell of weakened kidneys. Strike at the root—get to the cause.

Quickly give the help the kidneys need.

No remedy endorsed like Doan's Kidney Pills.

Recommended by thousands—Endorsed at home.

Here's convincing proof from an Albuquerque citizen.

Mrs. E. Adair, 811 E. 10th St., Albuquerque, N. Mex., says: "Two and a half years ago I used Doan's Kidney Pills and was so pleased with the benefit I obtained that I was glad to publicly recommend them. In due time to show that I value this remedy as highly as ever, I had such severe pains across my hips and between my shoulders that I was greatly inconvenienced in getting around. The contents of one box of Doan's Kidney Pills removed me so greatly that I could not do otherwise than praise them."

For sale by all dealers. Price 50 cents. Foster-McMullen Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## MINISTER CHARGED WITH POISONING OF SCHOOL GIRL

Rev. Clarence Virgil Thompson Richeson Taken Into Custody in Boston For Alleged Poisoning of Former Sweetheart.

### WAS ENGAGED TO WED ANOTHER YOUNG WOMAN

Victim Took Cyanide of Potassium For Medicine, Believing It Would Relieve Her Embarrassing Physical Condition.

(By Morning Journal Special Leased Wire.) Boston, Oct. 20.—A narrow cell in the Charles street jail tonight holds the Rev. Clarence Virgil Thompson Richeson, the young pastor of the Emmanuel Baptist church, Cambridge, who was arrested today for the alleged murder of Avis Linnell of Hyannis, Mass., to whom he had been engaged.

His commitment to jail this afternoon on a charge of first degree murder, marking a temporary end to a chain of circumstances which police detectives have followed since the death of Miss Linnell last Saturday, by cyanide of potassium poisoning.

Miss Linnell, who was 19 years old and a student at the Conservatory of Music, was found dead in the bath room of the Young Women's Christian association home here. At first the police believed she had committed suicide, but developments indicated that she had unknowingly taken cyanide of potassium sent her by some person in the belief that it would remedy her embarrassing physical condition.

For several days the police inquiry made little progress, but information received that Rev. Richeson had purchased cyanide of potassium at a drug store in Newton, led the officials to decide upon his arrest. A dozen officers, headed by superintendent of Police Warren, were forced to maintain an all-night vigil outside the fashionable home in Brookline of Moses Gram Edmunds, where the clergyman had been staying during the week before Richeson was taken into custody.

Frequent calls at the door bell, rapping and shouts failed to bring any response from those within the house and the police who were without a warrant, were unwilling to make a forcible entrance.

Mr. Edmunds is the father of Miss Violet Edmunds, for whose marriage to Rev. Richeson on October 21, cards had been issued. These invitations were recalled today. The Edmunds family, however, maintains faith in Mr. Richeson and the only announcement in connection with the withdrawal of the cards was that the wedding had been postponed. The setting of October 21 as the date for a further hearing of Mr. Richeson, developed an incident in the fact that the day is the one on which he was to have been married.

When taken by William Hahn, the Newton detective, who declared that Richeson had purchased cyanide of potassium from him, a week ago Tuesday, the minister was apparently unimpaired.

Facing the stern Hahn, who had known Richeson for several years, told how Richeson walked into his store Tuesday evening, October 14, and said:

"I've got a dose at home that is creating a disturbance. She will be a nuisance unless I can kill her soon."

Mr. Hahn said that he responded to Richeson's words.

"I never knew you had a dog," and that Hahn replied that he kept a dog in his room.

"I don't know where Mr. Richeson was, but he later wanted something that 'should work quick.' Cyanide of potassium was mentioned as acting instantly and the druggist said he gave Richeson enough to kill three dogs but the minister asked for more and the preparation finally amounted to enough to poison ten men."

In a statement regarding Richeson's arrest, a superintendent of Warren said he found the minister in bed and awake but looking disturbed. He thought as he dressed, after he had been told he would be charged with the murder of Miss Linnell. He was allowed to talk privately with Mr. Edmunds and later went into the room where Violet Edmunds lay ill and attended by the doctor, to say farewell. The girl burst into tears and threw her arms about his neck. Richeson comforted her, saying:

"Don't cry, dear daughter, everything will be all right."

According to some friends of Miss Linnell at the Young Women's Christian association home, she had a dinner appointment with a man friend on Sunday, the day of her death. The police have worked on the theory that the paper containing the poison was handed to her at that time but so far as is known, it has not been definitely determined that her companion at dinner was the victim.

MOTHER OF VICTIM BELIEVES PARSON GUILTY

Hyannis, Mass., Oct. 20.—"Thank God, I believe no mistake has been made," With this exclamation, Mrs. Edward Linnell, mother of Avis Linnell, resolved the news that her daughter had been found dead in the bath room of the Young Women's Christian association home here.

## WITNESS SUFFERS FROM POOR MEMORY

Legislator, Accused of Being Bribed, Fails to Recollect Why Was Missing When Stephenson Ballot Was Taken.

(By Morning Journal Special Leased Wire.) Milwaukee, Wis., Oct. 20.—Robert J. Shields, mentioned in previous editions as having been employed by Edward Hines, the lumber man, on special occasions, denied before the senatorial investigation committee that he had assisted improperly in the election of United States Senator Stephenson.

He denied that he had anything to do with an agreement whereby Hines and Stephenson were each to contribute \$55,000 to "put over" the election of that he received \$7,500 or any other amount as his share in such work.

The witness admitted that he was paid about \$700 to cover his expenses in working for Stephenson at the preliminary election in 1908 and that he was present at the joint session of the legislature on March 4, 1909, when three democratic members absented themselves and thus gave Stephenson a majority.

He said he did not know the democratic members were absent until after the election.

Previous to Shields' appearance, H. Cook, a laboring man of Duluth, testified he had had a talk with Shields on a train between Duluth and Chicago, late in 1908, having in mind a story told him by Daniel Halsey, another Duluth lumber man, that Shields had a dispute with Hines, because he, Shields, was to receive \$42,000 for doing a job at Madison, but only got \$7,500 for it. Cook testified that he had asked Shields:

"How did you come out on that Madison job?" and Shields had replied:

"That's all settled."

Shields on the stand said he never made such a remark. Shields also denied this testimony by Cook.

Edna A. Tupper, one of the democratic assemblymen who absented themselves when Stephenson was elected, was called. When he declared he could not remember in detail what he did after he left the session, Senator Halsey subjected him to severe questioning.

"Do you mean to say that you regarded the election of a senator as such a trifling matter that what you did at the time was not worth remembering?" When the suggestion of bribery was connected with your testimony about did you try to recall what you did in an effort to defend yourself?

## WEEK OF MASONIC ACTIVITIES ENDS WITH CONCLAVE

Grand Commandery of Knights Templar of New Mexico and Grand Chapter of Eastern Star Elect Officers.

A week of constant Masonic activities during which the Grand Lodge of Ancient, Free and Accepted Masons, the Grand Royal Arch Chapter, the Grand Commandery of Knights Templar and the Grand Chapter of the Order of Eastern Star have been in session, came to an end last night with the final sessions of the grand conclaves of the Knights Templar and the Grand Chapter of the Eastern Star at the Masonic temple.

Yesterday was held the eleventh annual conclave of the Grand Commandery of New Mexico, Knights Templar, Pilgrim Commandery No. 3, of Albuquerque, at 9:45 met the officers of the grand commandery at the Alvarado and escorted them to the Masonic temple, where the sessions of the conclave were held, which closed last night, following the installation of the officers elected to serve the ensuing year. ## FOR SICK HEADACHE, SOUR STOMACH, LAZY LIVER OR SLUGGISH BOWELS

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take Cascarets now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put off in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food that makes making gas; take the excess bile from your liver and get off the decomposed waste matter and poison from the "intestines" and bowels. Then you will feel well.

A Case: "I tonight will try—let me out tomorrow—10-cent box means a clear head and better sleep for months. Don't forget the children—their little bodies need need a good, gentle cleansing, too."

ROBERT FOWLER WILL RESUME FLIGHT TODAY

Paris, Oct. 20.—Aviator Robert C. Fowler will resume his eastern transcontinental flight early tomorrow morning.

For a time today it seemed as if the flight would be called off, owing to a disagreement between Fowler and his manager. The latter wanted Fowler to return to Los Angeles tomorrow and make a flight over the mountains. Fowler objected and announced that rather than do this would call the flight off entirely.

Later Fowler and his manager came to an agreement and the proposed flight to Los Angeles will be made. Fowler said he would follow his original route eastward along the Santa Fe tracks.

## OCEAN TO OCEAN FLYER HAS A CLOSE CALL

C. P. Rodgers is Forced to Make a Sudden and Rough Landing Seventeen Miles From Austin, Texas.

(By Morning Journal Special Leased Wire.) Austin, Texas, Oct. 20.—After circling the capital dome and entertaining several thousand persons with spectacular maneuvers at a high altitude, C. P. Rodgers, the ocean-to-ocean aviator, called away to the south shortly before 4 o'clock this afternoon, and twenty minutes later was compelled to alight from a dizzy height to a rough landing in a field when his engine went "dead."

Except for a shaking up, Rodgers suffered no ill effects, but several parts of his machine will need repair before he can resume his flight. In all probability repairs will be completed in time for him to start for San Antonio tomorrow morning at 7:30 o'clock.

The accident occurred near the village of Kille, seventeen miles from Austin. Rodgers described the "bump" as the most severe he has experienced so far on his trip. Rodgers

the aged cardinal stepped aside after conducting the high requiem mass in the cathedral and in a side room removed his vestments.

Father Bowles, the vicar general of the diocese, and Father Magri, chancellor, saw him just as he and the lad had agreed to go to the cemetery on foot. They escorted him to the carriage awaiting him. He said the thousands of people who without the church would be distressed to see their venerable cardinal about. The cardinal smiled. "My heart is heavy," he said, "and I am the exercise. This child will lead me."

## LITTLE CHANCE OF WORLD SERIES GAME TODAY

Continued Rain in Philadelphia Discourages Big Leaguers and May Mean Loss of Fortune in Gate Receipts.

(By Morning Journal Special Leased Wire.)  
Philadelphia, Pa., Oct. 20.—The outlook for a third rubber tomorrow, which would permit the playing of the fourth game of the world's series between the New York Giants and the Athletics, is by no means encouraging tonight. Rain, which began falling last Tuesday night and caused the postponement of Wednesday's game, and which has continued almost incessantly ever since, does not show any signs of abating.  
Even should the weather clear tonight wet grounds would probably prevent the game tomorrow.  
Manager McGraw today took his team to the National academy ball grounds and gave them some practice in batting and throwing the ball. After about an hour and a half of work the men were driven to cover by a heavy rain. It is reasonably sure that either Mathewson or Marquart will pitch the next game for New York; most likely the former. Marquart in that case will be saved for the fifth game in New York.  
There is little doubt but that Manager Mack will send Bender to the mound in the fourth and fifth games in the fifth.

## Horses Travel in Special Train.

Mexico City, Oct. 20.—A special train arrived today after a special run from Louisville, with horses for the fall races. ## ROOSEVELT MASTER LAW ENFORCER SAYS CULLOM

United States Senator From Illinois Pays Ex-President High Tribute in Book Entitled Past Reminiscences.

(By Morning Journal Special Leased Wire.)  
Chicago, Oct. 20.—The first number of Senator Shelby M. Cullom's book of "Past Reminiscences," appeared here today, and has aroused considerable interest because of the viewpoint from which it regards men and issues that have been a part of the political life in which he has engaged in the last fifty years.

Roosevelt is regarded by Senator Cullom's book as the "Master Law Enforcer."  
"The Taft is characterized as good material for a supreme court justice—as to his presidential rather than his judicial qualities, which probably President Taft has not enjoyed the position. LaFollette and what he terms insurgency, is described as the creation of a third party and he can see no leader of the republican party in the senate since Senator Aldrich's withdrawal.

"Of the Roosevelt administration, Senator Cullom says:  
"Colonel Roosevelt accomplished more in his second term than any of his predecessors; more laws were enacted—laws of more general benefit to the people—than in any of his administrations. He enforced all laws on the statute books as they were not before. The Sherman anti-trust law was a dead letter until Roosevelt instructed the attorney general to prosecute its violators. He will go down in the history of his country as the most remarkable man of his day."  
The senator in saying that he doubts that Mr. Taft has enjoyed the presidency, adds:  
"I myself, always have thought he would have made one of our greatest chief justices had he been appointed to that position."

## HARRY DRUMM TO EL PASO LEADS ALL HIGH SCHOOL TEAM TO CLASH WITH MENAUL

Advance Agent of Better Roads Met With Ovations; One Town Can Carry Whole Population in Autos.

Harry Drumm, boosting better roads throughout the southwest, preparatory to the introduction of a bill in congress to declare the Sunset Trail the national coast to coast road, was in Las Vegas yesterday and is expected to arrive here today or perhaps tomorrow morning. Mr. Drumm has been actively treated by the good roads and auto associations all the way along the line and will be properly received here. His trip is an ambitious one, for he is traveling across the country for a high way improvement. President Sellers of the New Mexico Automobile association, and party will go from here to Santa Fe in a motor car today to escort Drumm here.

## A TOWN WHOSE AUTOS CAN CARRY THE POPULATION.

Among the most interesting newspaper accounts of Drumm's trip is the following from a newspaper of Lyons, Kansas:  
Harry C. Drumm, chairman of the touring division of the Transcontinental Touring Club of America, and S. M. Drumm, secretary of that organization, passed through Lyons yesterday morning on their trip from Chicago to Los Angeles. They started from Chicago two weeks ago, but were delayed by bad roads, caused by heavy rains in Iowa, being compelled to stop five days in one town.  
At Hutchinson the Drumm brothers were met by H. H. Taylor, official pilot of the Santa Fe trail, and C. H. Scott, secretary of the Trail association, who accompanied them as far as Lyons. At Lyons they were joined by H. C. Taylor, Trail committee for Rice county, who with a party consisting of himself and Mrs. Taylor, Glenn Taylor, Miss Forney and the News editor, piloted them in a Non-Party car to Great Bend. At that point an escort from Lyons, headed by Mayor Frazell and Mr. Moffatt of the "Mortal Hero" National bank, took the entire party on to Lyons, where they entertained them at dinner at the Lyons house.  
Coming to the high water west on can check the party but to double back from Lyons to cross the creek south of town. This gave the visitors two trips over Taylor Boulevard, which they pronounced the finest three-mile stretch of road they had encountered since leaving Chicago. Another magnificent piece of highway is the nine miles of road through Pawnee county, from Pawnee Rock to Lyons. This road has been turned over to the Lyons road which it passes and is kept up by contract. It is scientifically graded and regularly dragged after every rain. It is certainly a wonderful piece of road and speaks well for the work of the good roads enthusiasts of Lyons. The road west of Lyons is being fixed up to same way and Pawnee county will soon have a highway clear across the county that will be the equal of any dirt road in the world.  
Lyons is coming right in the front as one of the prosperous and progressive towns of Kansas. The county has 2,000 inhabitants and boasts of 1,200 automobiles, a sufficient number to haul every inhabitant if the occasion required it.  
The Drumm brothers are making this trip for the purpose of securing unity of action among the promoters of good roads for congressional aid to a great national auto highway. Harry Drumm was with Mr. Wood, last year when the coast-to-coast automobile route was laid out. It is estimated that when this route is thoroughly established that 16,000 cars will travel over it annually, or transcontinental tours. A number of congressmen are interested in the proposition of government aid, and it is proposed to ask congress for an appropriation of \$25,000,000 to assist in building and keeping up this great national highway. The Santa Fe Trail association is heartily in favor of the move and desires the cooperation of the local good roads club in inducing congress to make the appropriation.  
The Drumm brothers went west from Lyons yesterday afternoon and were met at Dodge City by Ralph Paxson, president of the Trail association, who piloted them to Garden City, from where they will continue their journey westward today.

## YALE AND ARMY CLASH ON GRIDIRON TODAY

West Point, N. Y., Oct. 20.—Realizing that Yale will come here tomorrow with full dog determination to wipe out the recollection of a 9 to 7 defeat of last year, the cadets concentrated their energies today and indulged in light practice only. The game will be the first real test of the Yale team, as well as that of West Point, while each eleven will go into the contest without having been scored on in a game this season.  
The game is generally regarded as the leading mid-season event in the football world.

## Pass City Club Representing State of Texas in Statehood Baseball Tournament, Expected to Win First Prize.

The box score of the first double-header baseball game played Thursday between the competing teams representing New Mexico, Arizona and Texas, resulted in the defeat of Arizona, represented by the Dawson aggregation that was here, by the new Texas team, represented by the Albuquerque, and a win for Texas. The scores, which were interesting, were:

Local Elevens Open Football Season This Afternoon at Traction Park; Game Expected to Be Good.

After four weeks of training, the Albuquerque high school and the Menaul school football teams clash in the opening game of the season at Traction park this afternoon at 2:30. The teams have been looking forward to this initial clash for the interscholastic championship of the city since the school term opened this fall. Julius Stahl has consented to act as referee of the game. The Menaul school is a first aggregation and has been practicing for some time in order to become proficient enough to compete with the high school.

The game this afternoon is the opening game of a series of games in which the United States Indian school and Albuquerque High, and the Menaul High will take part. Two games have been arranged between the high school and the Menaul eleven, and two games with the Indian school. Then the Menaul High plays two games with the Indians. Which ever has the greater number of games to its credit at the close of the season, wins the city championship.

The line-up of the two teams this afternoon will be as follows:  
Menaul—N. Candelaria, left end; M. Martinez, left tackle; Marmon, left guard; Cordova, center; Sanchez, right guard; Rodriguez, right tackle; J. Candelaria, right end; Vial, right half back; Blair, left half back; Gomez, left back; B. Cordova, quarterback; Albuquerque High School—Shurles, left end; Frank, left tackle; Zelinski, left guard; Camp, center; Lee, right guard; Warming, right tackle; Espinosa, right end; Hoeselien, right half back; Grimmer, left half back; Bateman, full back; Lapinski, quarterback.

## PLAN TO DISSOLVE TOBACCO TRUST FARCIAL

Attorneys General of Virginia, North Carolina and South Carolina File Objections and Ask to Be Heard.

(By Morning Journal Special Leased Wire.)  
New York, Oct. 20.—After thoroughly studying the plan of disincorporation filed by the American Tobacco company with the judge of the United States circuit court, the attorneys general of Virginia, North Carolina and South Carolina, who have been in conference here on this matter for two days, reached the conclusion late today that the scheme proposed will offer no relief to the tobacco growers. They express belief that should this plan be adopted, the victory of the government resulting from the decision of the United States supreme court, would be barren.

Attorney General Fickert of North Carolina, Ly of South Carolina, and Williams of Virginia, participated in the conference to determine whether the plan carried out the decree of the supreme court and could also southern tobacco planters and others interested in the tobacco industry, the relief desired.

At the conclusion of an all-day session, the following statement was made public:

"The attorneys general of Virginia, North Carolina and South Carolina state that they have reached the conclusion that the plan of disincorporation proposed by the American Tobacco company is not a substantial compliance with the judgment of the Supreme Court of the United States and will offer no relief to the tobacco growers of the country; that they are filing with the circuit court a petition to be allowed to file written objections to the plan of disincorporation and to be heard orally at the hearing ordered by the court for October 30; that in their opinion, if the plan of disincorporation is adopted the victory of the government would be a barren one."

## Uncle Sam Prosecutes Game Hogs.

Helena, Mont., Oct. 20.—Claiming as government property the animals in national parks, the United States government has brought charges of larceny against Thomas Shields and Archibald Patterson. The men were recently arrested charged with killing an elk and a deer in the Glacier National Park. When the case was called at Helena, Mont. today, the original complaint was amended and the charge of larceny included. This is said to be the first time the government has definitely asserted the ownership of wild game.

## J. E. Taylor Champion Shot.

St. Louis, Mo., Oct. 20.—J. E. Taylor, of Virginia, a professional, at the close today of the season tournament of the Interstate Trap Shooters' association at Sunset Club, became the national champion for the year with a score of 2,935 broken targets out of 3,100 in two hundred yards.

## ENGINE RUNS WILD WHEN DRIVER DESERTS

Marshall, Tex., Oct. 20.—Reversing his engine when almost upon a freight locomotive, a Texas and Pacific railroad passenger train engine jumped to save his life today.

The two locomotives collided with sufficient force to start the passenger locomotive backward and it continued unchecked in the local yards, crashing into east bound passenger train No. 4 on the Texas and Pacific, killing Clint Hall, a switchman of Whelan, Ark. and injuring sixteen passengers.

## SLAYER OF SHOWMAN FAMILY STILL AT LARGE

Prospects For Capturing Kansas Murderer Appear Gloomy; Clues Run Down Only to Be Found False.

[The Morning Journal Special Lined Wire.]  
Edinburgh, Kan., Oct. 20.—Private detectives and county officers who have been searching since last Monday for the man who murdered the five members of the Showman family, say tonight the outlook for the capture of the slayer is gloomy. Every report save the one that the man detained at Newkirk, Okla., Frederick Charles Marzok, who is under suspicion, has been investigated and no light has been shed on the mystery. Little confidence is placed in the Newkirk clue but an officer who knows Marzok was sent tonight to attempt identification. The sheriff at Newkirk is positive he has the desired fugitive.

Several times today he telephoned officers and urged them to come and get their man. For a time today officers thought they had John Smith, the mysterious man who left bloody clothes at the Baker house near the night of the murders, and who was found by a coroner's jury to be responsible for the killing.

At Newkirk, Kan., today John Smith, a laborer from Junction City, Kan., who answered the description of Smith, was taken into custody by local officers. He admitted he was here on the night of the murders and had remained at a local hotel, but he could not say that he was at the Baker house and he was positive that he did not leave any bloody clothes there.

Sheriff John Harbes of Junction City came here tonight and convinced the authorities that Smith was not the man who murdered the Showman family. He was released.

Detectives today found finger prints on a bucket in which the murderer had washed his hands before leaving the Showman home. A message has been sent to Lansing prison requesting copies of the finger prints of Marzok.

## YOUTH ON TRIAL FOR ATTACKING AGED WOMAN

Juan Muniz, Charged With  
Criminally Assaulting Mrs.  
Socorro Chavez, Practically  
Convicts Himself.

Juan Muniz, a 19-year-old boy from  
Pajarito, is on trial in the district  
court, charged with the offense of  
rape, alleged to have been committed  
upon the person of Mrs. Socorro  
Chavez, a widow of some 20 years of  
age, on the night of September 20,  
last. At the time of the indictment  
of court last evening, both sides had  
presented their evidence, and the case  
will go to the jury this morning.

In contrast to the corroborating  
evidence of the witnesses for the  
territory, the defense could not pre-  
sent the story of the assault, and this  
in itself was so weak and contained so  
many contradictions as to leave facts  
that the spectators wondered if Muniz  
had any defense.

The interest in the trial centered  
around the story of Mrs. Chavez. The  
old lady, in fact, was told of the  
coming of the defendant to her  
home in Pajarito on the night upon  
which the crime was alleged to have  
been committed, of his knocking at  
the door and calling her name. She  
had been asleep for some time, and  
thinking it was her son, who was at  
that time away from home, and who  
was expected back at any time, and  
not having distinctly heard what he  
said, she opened the door.

Mrs. Chavez said Muniz was stand-  
ing outside, and began talking to her,  
telling her that her son had been to  
her and was not coming home. With  
that she said he brushed roughly into  
the house and seized her in his arms  
began a struggle with her that only  
ended when he had half strangled her  
under submission and with a drawn  
gun had threatened her life. As soon  
as he succeeded in accomplishing his  
purpose, he ran outside and shot the  
mist.

Mrs. Chavez, bruised and bowed  
with shame, as soon as she could suf-  
ficiently recover herself, went to her  
daughter's house nearby and told her  
story. Her daughter then told the  
men folks and they immediately started  
to Albuquerque to tell other sons  
of Mrs. Chavez.

On the Sunday, according to the  
evidence of Mrs. Chavez's sons, their  
mother was prostrated, and was con-  
victed of Albuquerque where she  
could be better cared for. She was,  
as a result of the trying ordeal, which  
she had been through, confined to  
her bed for sixteen days.

The defendant admitted that he  
went to the house of Mrs. Chavez. He  
said she upbraided him for going  
with other women, but that after a  
few minutes conversation he went  
home. He admitted further that on  
the night previous to his return to  
Pajarito he had been in Albuquerque  
drinking beer, and had also taken a  
number of drinks of wine, a bottle of  
which he had with him. He also ad-  
mitted under cross-examination, that  
he could not walk straight, yet he  
didn't stagger. According to his own  
story he was not sober.

With his testimony the defense  
closed. The early hours of the trial  
this morning may be taken up in re-  
buttal before the final arguments to  
the jury begin.

PLUMBERS' ORDINANCE  
ENFORCED BY COURT

The plumbers' ordinance, which  
was passed by the council some time  
ago, reminding that every man who  
wished to do plumbing in Albuquer-  
que must be equipped with a license  
was applied yesterday before Judge  
George H. Cook, when Antonio Ap-  
podas appeared before him to answer  
to the charge of violating the new law.

Apodas was discovered using a fil-  
ter's wrench upon some pipe on the  
premises of 516 East Central, the  
work being done under the direction  
of Mr. McKelvey. The complaint was  
made by Earl Newkirk, a member of  
the plumbing examining board. Judge  
Cook ruled that no apprentice or  
helper had a right under the ordi-  
nance to connect any pipe as the same  
constituted plumbing.

## NORTH COUNTIES REVOLT AGAINST THE GANG

MORA WILL SLAUGHTER  
ANY FRIEND OF CATRON'S

Large and Enthusiastic Crowds  
Greet Progressive and Demo-  
cratic Speakers at Every  
Stop.

[Special Correspondence to Morning Journal]  
Haton, N. M., Oct. 18.—A compre-  
hensive campaign through the coun-  
ties of Mora, San Miguel and Colfax  
shows a most remarkable slump  
from Bursum to McDonald. The  
greatest surprise in that respect was  
found in Mora county, once demo-  
cratic, but of late years regarded as  
solidly republican of the stand-pat  
variety.

The people about the town of Mora  
regard Bursum as the particular  
friend of T. B. Catron with whom  
they have been in a long and bitter  
content over the Mora grant, and they  
felt that the election of Bursum  
would put a club in Catron's hand  
with which to more effectively fight  
them.

Former Governor Hagerman and  
C. D. Cleveland of Las Vegas held a  
meeting at Mora last Monday night.  
The court house was packed and the  
audience was enthusiastic. Numer-  
ous converts from Bursum were  
announced during and after the  
meeting.

The news item in the Albuquerque  
evening paper that "Herbie and  
Gillie" got a frost of Mora must have  
caused a little amusement, when that  
vicious newspaper reached Mora. Gov-  
ernor Otero was not there and had  
never been announced for that place,  
in course, the report was written  
in the Trib-City editorial rooms.

Colonel George W. Brithard spoke  
to a large audience at Wagon Mound  
Tuesday night where a free public  
place had been provided by the re-  
publican leaders as a counter attrac-  
tion. But, as at Mora, the democrats  
left the hall and went to the political  
meeting, leaving a few republican  
bunches and the fighters to carry on  
the dance with only two young ladies  
in attendance.

The great meeting held by Former  
Governors Otero and Hagerman in the  
opera house at Las Vegas Tuesday  
night was in marked contrast to the  
one held by Bursum, Cheney and  
Frank Springer a few nights earlier.  
Many people who attended the  
Bursum meeting stated that the opera  
house was not more than two-thirds  
full at that time and at the conclusion  
of Mr. Bursum's speech so many peo-  
ple left that Mr. Cheney, who was in-  
troduced as second speaker, said: "I  
would not have tried to speak had I  
known that I was going to empty the  
hall."

From the time Governor Otero be-  
gan to speak until Governor Hager-  
man had closed his address last  
Tuesday night not a dozen people  
left the great audience.

The meeting held here last night  
brought out an audience of about 500  
persons, very few ladies being present.  
Owing to the fact that a severe sand-  
storm was raging, O. N. Marron had  
spoken to a large audience in the  
country near here earlier in the evening.  
The speeches by Governor Hager-  
man and Mr. Marron received the  
closest attention and were frequently  
applauded.

The progressive republicans here  
have a league with 120 signatures of  
men who in the past have always  
voted the republican ticket.

News comes this morning that Col-  
onel George Brithard spoke to a  
large audience of progressive republi-  
cans at Springer where the move-  
ment is stronger than anywhere else  
in Colfax county.

Word from Taos county states that  
comets is in a turmoil, and that  
Charles Springer and Charlie Spies  
have been in that county for five days  
trying to quiet the revolt, but that  
they are meeting with no success.

It can be safely stated that the  
northern counties of New Mexico are  
in open revolt against the republican  
ticket, and in a section hereto-  
fore strongly republican, democratic  
majorities can be relied upon.

was in Albuquerque yesterday.

O'Leary is the proud possessor of a

## LAS CRUCES FAILS TO ENTUSE FOR MR. BURSUM

RECEPTION CONTRASTED  
WITH THAT GIVEN FLOOD

Dona Ana County People Agree  
On Need of Corrupt Practices  
Act But Differ With Can-  
didate On How to Get It.

[Special Dispatch to the Morning Journal]  
Las Cruces, N. M., Oct. 20.—H. O.  
Bursum, republican candidate for  
governor, arrived in Las Cruces this  
morning from the north. Tonight,  
after the local politicians had put in  
a strenuous day gathering up an au-  
dience, he was escorted to the armory  
for a torchlight procession. It was  
noticeable that many of the torches  
were borne by boys, most of them un-  
der 14 years of age.

The candidate was introduced to  
the audience by Mark Thompson, of  
Las Cruces, who read the court re-  
cords in the celebrated penitentiary  
case in which Mr. Bursum was re-  
fused some \$4,000 which he had  
handed over to the territorial trans-  
porter during the time when his books  
were under investigation.

Candidate Bursum in the beginning  
of his speech, made a strong plea for  
the protection of the sheep industry.  
Mr. Bursum is engaged in the sheep  
business and doubtless appreciates  
the importance of protection to that  
industry. He told a story of how sev-  
eral years ago he had bought a trade  
in a sheep deal.

The speaker next dwelt on the im-  
portance of guarding protection to the  
railroads and other corporations.  
He said that if McDonald were elected  
and the idea better movement of the  
constitution were adopted by the  
people, it would throw such a scare  
into the eastern capitalists that they  
would refuse to come out here and  
help New Mexico develop her natural  
resources.

The audience for the most part  
was cold and unresponsive and the  
speaker did not seem to be able to  
elicit the enthusiasm which was so  
recently in evidence during the meet-  
ing addressed by Congressman Flood.  
This was particularly true when the  
candidate declared himself in favor  
of a corrupt practices act which  
would forever eliminate the buying  
and selling in votes in New Mexico,  
and the use of an undue amount of  
money in election campaigns. Like  
Mr. Bursum, everybody here is in favor  
of a corrupt practices act, but in  
view of the failure of the republican  
party to carry such a law during the  
many years in which it has had abso-  
lute control of legislation in New  
Mexico, there are many who believe  
that the election of the ticket nomi-  
nated at Las Vegas is the one sure  
way not to get such a law on the  
statute books.

Mr. Bursum left on the 9 o'clock  
train after carefully failing to explain  
the effort to make the people of  
Sierra county out of twenty-five thou-  
sand dollars in the now famous Sher-  
brooke land deal.

## IMPERIAL CHINESE TROOPS DEFEATED BY REBELS AT HANKOW

Government Suppressed News  
of Rout, Fearing It Would  
Add Fuel to the Flames of  
Revolution.

ARMY HAS THREATENED  
TO GO OVER TO ENEMY

Repulse in Important Engage-  
ment May Have Effect of  
Causing the Entire Military  
Forces to Secede.

(By Morning Journal Special Leased Wire.)  
The Imperial Chinese forces met  
with defeat Wednesday at Hankow,  
being driven back by the rebels. The  
extent of the defeat is not known, but  
the government forces are supposed to  
be entrenched seven miles north of  
Hankow, awaiting for reinforcements.

The warships that took part in the  
engagement, with one exception, re-  
treated down the river. One of the  
vessels, it is reported, went over to the  
revolutionaries.

Consular dispatches received at Pe-  
king from the province of Yun Nan  
report dissatisfaction among the  
troops there who have threatened to  
mutiny. The Chinese government ad-  
mits a serious situation at Chang Sa,  
province of Hunan, and this admis-  
sion is believed to indicate that the  
people there have joined the revolt.

It is feared by the legations at Pe-  
king that news of the repulse of the  
government forces at Hankow will ut-  
terly demoralize the troops now at-  
tacking and also that the provinces  
south of the Yang Tse and some of  
those north of the river will secede.

Although the Peking government  
reports that War Minister Yin Tshang  
has about completed the mobilization  
of the army with which to put down  
the rebellion, the foreign minister  
alone seems to have confidence in the  
proposed attack against the enemy.

A financial crisis is threatened at  
Shanghai, where several native banks  
have suspended payments.  
During Wednesday's battle the Red  
Cross workers in the field. The  
Red Cross has not yet obtained recog-  
nition by the imperial troops and con-  
sequently many of their wounded were  
killed and mutilated by civilians who  
are in sympathy with the revolt.

The foreign ministers remained on the  
battlefield to take care of the wound-  
ed despite the advice of the consuls to  
leave.

### GOVERNMENT SUPPRESSED NEWS OF THE DEFEAT

Peking, Oct. 20.—It is apparent  
here tonight that the imperial govern-  
ment knew the result of the battle  
at Hankow between its forces and the  
rebels more than twenty-four  
hours before it became public. Reports  
of the rebel victory gradually leaked  
out during the day, but the first posi-  
tive account of the defeat of the im-  
perial troops tonight by the Associated  
Press. It caused a profound im-  
pression.

The success of the revolution has  
been considered here to hinge upon  
the result of the first encounter, as its  
moral effect would be far-reaching.  
When the fugitive imperialists reach  
the main army, now mobilizing near  
Shi Yang Chow, knowledge of the re-  
pulsive, it is believed will utterly de-  
moralize the troops, while as the  
news travels along the Yang Tse river  
it probably will cause important  
admissions to the rebel cause.

The foreign legations here believe  
that today's news from Hankow and  
Yun Nan will mean that the provin-  
ces south of the Yang Tse and also  
some on the north side of the river,  
sooner or later will secede.  
The government acknowledges  
there is a serious situation in Chang  
Sha, province of Hunan, which it is  
believed in Peking, means that Chang  
Sha has joined the revolt.

### FINANCIAL PANIC AS RESULT OF REVOLUTION

Shanghai, Oct. 20.—Despite im-  
mense trustworthy information re-  
ceived here is that all is quiet at Ku  
Kiang, Wu Ha, Nan King, Soo  
Chow, and Hang Chow.

There has been a large exodus  
from Shanghai from these places, but  
reports of impending trouble are trace-  
able mostly to interested Chinese.

The worst feature of the situation  
is the stringency in money, due to a  
demand for silver for even the best  
paper. Several national banks in  
Shanghai have suspended payments.  
A loan of \$3,000,000 in new currency  
of Nan King to the official banks has  
partially relieved the situation, but  
business is at a standstill and a crisis  
is threatened unless negotiations are  
begun by the bankers with merchant  
guilds to avert it.

As viewed here, the Chinese who  
are not openly identified with the  
rebels, or revolutionary cause, ap-  
pear hesitating and are certain to fol-  
low the majority when they are sure  
of the probable outcome. Everything  
depends upon the first few battles. It  
is said that the rebels do not con-  
template the destruction of bridges over  
the Yellow river. Their object rather  
is to lure the imperial troops south  
and then bring about an uprising in  
north China.

The ultimate purpose is to make  
one of the cities on the Han river  
capital of the empire.

### REAR ADMIRAL MURDOCK HASTENS TO SHANGHAI

Washington, Oct. 20.—Rear Admi-  
ral Murdock, commander-in-chief of  
the Asiatic fleet, today sailed to the

nary department that he was leaving  
Manila for Shanghai to be nearer the  
scene of the Chinese disturbances. He  
announced he was leaving on the  
Rainbow and that his flagship, the  
Saragosa, would follow him.

## STROUP SPEAKING TOUR FIZZLES PAINFULLY

Professor Greeted By Audience  
of Eleven Men at Alameda  
Declines to Follow Itinerary  
Mapped Out By Boss.

Professor Andrew B. Stroup, nomi-  
nated by the Las Vegas convention for  
the highly important office of state  
superintendent of public instruction,  
is a striking example of the prophet  
who failed to make a hit with the  
people of his own country.

After some labor and a considerable  
expense of time and gasoline, Don  
Francisco this week succeeded in  
mapping out an itinerary for the pro-  
fessor which was to take him into  
every precinct in territorial country.  
The first stop of what was to be a  
whirlwind speaking campaign,  
provided for a meeting Thursday after-  
noon at Alameda. The large Ken-  
nedy hall was engaged, heated up  
and made comfortable. The Ken-  
nedy hall is a large structure, used for  
ballets and other public gatherings and  
is capable of easily accommodating  
every voter in the precinct. The pro-  
fessor, armed with short, snappy or-  
atory, arrived as the audience of  
ten men and one boy. The professor  
relieved himself of his pent up  
thoughts. His speech was short. Opinions  
differ as to whether or not it was  
snappy, but the professor was snappy  
when it was over. In snappy indeed,  
that he absolutely refused to go on  
with the tour.

A hall had been engaged at Los  
Angeles to Albuquerque for an even-  
ing meeting. Six men solemnly wait-  
ed for the eminent educator to appear.  
They waited in vain. Chilled by the  
frost of the Alameda affair, the pro-  
fessor had abandoned the tour in dis-  
gust, and considering himself that his  
was not the only frost of the day, sat  
sullenly through the Fall-Catron fas-  
co at Elks theater, meditating on the  
great truth that money loves com-  
pany.

It is said the professor is particularly  
provoked because there were only  
eleven persons in the audience at Alame-  
da. Had there been twelve, it is  
possible he would have been satisfied.  
Besides being an educator of note, the  
professor is also an attorney-at-law  
and it is said that since his admission  
to the bar he has never had an op-  
portunity of exercising his powers of  
argument before twelve good men and  
true. And the professor has been a  
member of the bar for several years.

### MUTINOUS MEXICAN TROOPS JOIN REVOLT

El Fuerte, Sinaloa, Mexico, Oct. 20.  
—Revolting federal soldiers under  
Colonel Augustin Beltran, together  
with what appears to be a new insur-  
rect army on the part of "General"  
Juan Banderas, formerly revolutionary  
chief, and erstwhile self-constitu-  
ted governor of Sinaloa, have caused a  
reign of terror in this state. Colonel  
Jose M. Ochoa, chief of rurales, left  
here today.

Revolt of a detachment command-  
ed by Beltran grew out of their fail-  
ure to receive pay. In this connection  
grave rumors are heard of misappropri-  
ation of the funds which were al-  
leged to have sent by Colonel Ochoa  
some time ago.

### ZAPATISTAS DEMAND SURRENDER TO FEDERALIS

Mexico City, Oct. 20.—A special to  
El Herald from Cuernavaca today  
says that Emiliano Zapata has  
appeared before Cuernavaca and in a per-  
emptory message to the chief of the  
federal garrison demanded his surren-  
der. The federalists were preparing to  
fight.

## ROOSEVELT COMES OUT FOR CONTROL OF JUDICIARY

SHOULD BE ANSWERABLE  
TO PEOPLE, HE DECLARES

Former President Favors Wise,  
Statesmanlike Exercise of  
Power Far Removed From  
Radical Recall.

(By Morning Journal Special Leased Wire.)

New York, Oct. 20.—The judiciary  
of the United States must be brought  
within the control and made answer-  
able to the will, thought-out judg-  
ment of the people in the opinion of  
Theodore Roosevelt, who spoke to-  
night on the "Conservation of World-  
wide and Childhood," before the  
Civic Forum.

This control, in Mr. Roosevelt's  
judgment, should be exercised more  
cautiously and in different fashion  
than the control by the people over  
the legislative and the executive, "but  
the control must be there."

"Control of judges," Mr. Roosevelt  
said, "was not half as important as  
the more important part of a pro-  
gram which should be carried out for  
proper conservation of mankind,  
womanhood and childhood."  
The first part of the program, he  
said, consisted in placing upon the  
statute books of the nation and states  
legislation to remedy existing defects.  
The second part consisted in  
length on what he had termed "crim-  
inal abuses connected with child labor."  
He urged working women to  
organize. Experience in the last  
twenty-five years, the speaker under-  
lined, has shown that while the people  
may be aroused to action and high  
thinking and their legislative and ex-  
ecutive officers try to carry out their  
purpose, yet the whole movement for  
good may come to naught "because  
certain judges, certain courts are  
steeped in some ancient political or  
social philosophy and totally misap-  
prehend their relations to the people  
and to the public needs. He con-  
tinued:

"I have the very highest regard, the  
highest respect and admiration for the  
judiciary. I believe the courts  
have rendered our people incalculable  
service. I criticize as my own  
judges only by assuming as my own  
the language used about those same  
decisions by the highest judges in the  
land; by, for instance, the present  
chief justice of the United States, Mr.  
Justice White, by Mr. Justice Holmes,  
by that great and upright servant of  
the people, the late Justice Harlan,  
by the supreme court of this  
state of Iowa and the supreme court  
of the state of Washington. I  
have never taken a position in ad-  
vance of that taken by Abraham Lin-  
coln."

"I most emphatically believe that  
we have been wise in giving great  
power to our judges. But I believe  
firmly believe that like any other  
power, this power can be abused and  
that it is a power from which the peo-  
ple have merely temporarily parted  
and not one which they have perma-  
nently alienated."

In the last twenty-five years, Mr.  
Roosevelt said, the courts of New  
York once or twice have thrown what  
proved well-nigh insurmountable  
obstacles in the path of needed social  
reforms.

"For one point that a majority of  
the people, after due deliberation,  
come to champion such social and  
economic reforms as these we cham-  
pion tonight," he continued, "they  
have the right to see them enacted  
into laws and become a part of our  
settled governmental policy, and I  
shall never abandon my effort—  
this year tonight."

"I am asking you to declare un-  
quivocally that it is for the people  
themselves to see whether or not this  
policy shall be adopted and that no  
body of officials, no matter how well  
meaning, no persons, no great or  
small matter whether they be legislative

judges or executives, have the right  
to say that we, the people, shall not  
make laws to protect women and  
children from working under un-  
healthy conditions, or to prevent the  
conditions of life in tenement houses  
from becoming intolerable."

"It is, I believe, an advantage to  
have fixed in the mind the power to  
state that a legislative act is uncon-  
stitutional, but only provided the  
power is exercised with the greatest  
wisdom and self-restraint."

"What I have advocated is not revo-  
lution. It is not wild enthusiasm. It  
is the wisest kind of conservatism."

## INDIAN OFFICIALS SPEND DAY IN CONFERENCE

Speculation Rife as to Probable  
Outcome of Johnson Charges  
Involving Crandall and Ad-  
ams; Valentine Investigates.

Despite positive denials to the con-  
trary, it is said that practically all of  
yesterday was spent in consultation  
of Indian Affairs Commissioner  
Clifton J. Johnson with the Indian  
service, in which the names of Clinton J.  
Crandall of Santa Fe and Special In-  
specting Officer Adams of the Indian  
service were mentioned.

Mr. Crandall came from Santa Fe  
to attend the conference, it is said,  
and his arrival completed those pre-  
sented who are parties to the controversy,  
which has already resulted in a  
\$50,000 suit for criminal libel  
brought by Mr. Crandall against

Johnson. While no intimation was given by  
those immediately concerned, it is be-  
lieved that yesterday was devoted to a  
thorough investigation of the charges  
by Mr. Valentine, which may result in  
interesting developments in the near  
future.

Those involved continued yesterday  
to maintain a reticence regarding the  
case, saying it was impossible to  
secure any positive information as to  
what transpired.

## CHILL BLAST SINGS DEATH SONG OF SUMMER

Snow Covered Trains Solemn  
Reminder That Coal Man is  
About to Come Into His Own;  
Overcoats in Demand.

"What did you do with your sum-  
mer's wages?" or "Better get that old  
blanket out of the moth balls." These  
two exclamations were general in  
local circles yesterday and last night  
when the chill in the air made a num-  
ber of Albuquerque men folk shiver  
and hunt a warm place.  
The cold spell has been pretty general all over  
the Rocky mountain region, and pas-  
senger arriving on the trains from  
the east told stories of heavy snow  
storms at a number of places be-  
tween Albuquerque and Denver.

In corroboration of their state-  
ments the coaches of the west bound  
passenger trains were covered, upon  
arrival here, with a coating of from  
two to three inches of snow, and the  
local temperature was so low that this  
layer of snow on the roofs did not  
melt. The trains were waiting  
in the local station. The train  
bearing the most noticeable evidence  
of having passed through heavy falls  
of snow was train No. 9, which  
reaching Albuquerque shortly after  
midnight, in spite of the fact that the  
train remained here nearly an hour  
the snow covering on the roofs of the  
cars had not melted.

When the train arrived the engine  
and cars all bore traces of the journey,  
and it really looked as if winter were  
here enough here.

fall into your lap. Take a  
firm grip on Opportunity.

## REAL EXPLOSION OF A COAL MINE FOR TAFT

Spectacular and Dramatic Fea-  
ture of Two Days' National  
Mine Safety Demonstration.

(Special Correspondence to Morning Journal)

Washington, Oct. 17.—The actual  
explosion of an explosion in a  
coal mine provided to be the really  
dramatic feature of the two-day  
program of the National Mine Safety  
demonstration, October 16 and 17, at  
Pittsburg, Pa.

The demonstration, which is under  
the auspices of the bureau of mines,  
the American Red Cross and the  
Pittsburg Coal Operators' association,  
has for its purpose a friendly meeting  
of the mine owners, superintendents  
and the miners from all over the  
country to witness and talk over the  
dangers of the mines and the remedies  
for certain of the dangers as  
suggested by the bureau of mines.

The bureau has long been of the  
opinion that coal is a mine was  
more of a menace to the miner than  
any other industry, and has frequently  
demanded that an experimental mine  
be set up in an experimental mine  
in the nation, for both and better  
safety.

These experiments, showing how  
easily the coal dust becomes ignited  
and causes an explosion, have been  
taken as conclusive by the great ma-  
jority of mine owners and superin-  
tendents and now great precautions  
are being taken to keep down the  
coal dust in mines. The question has,  
however, risen, not only in this coun-  
try, but also in European coal pro-  
ducing countries, whether the results  
obtained in the experimental mine are  
the same as would be found in a  
mine under working conditions. In  
order to settle this problem, and to  
make still more conclusive the his-  
tory of the mine, the bureau of mines  
has decided that coal dust is the  
real danger of the mine, the bureau  
engineers started the discharge of a  
mine at Pittsburg, Pa., twelve miles  
from Pittsburg. The mine, which was  
planned to resemble many commer-  
cially operated mines in Pennsylvania  
and other states, is now ready for the  
experiment. The first practice firing  
in mines where the issue of men are  
risked, will all be confined in the  
experimental mine, and black pow-  
der, the most dangerous explosive in  
dangerous mine, will be used.

Also mine-explosions are caused by  
when the mine is "blown out."  
That is, the explosive, instead of  
breaking the rock, blows out through  
the side drilled in the rock to contain  
it, and the gas is blown into the  
mine. This blow is exactly what the  
engineers will reproduce. The engineers  
will reproduce the "blow-out" from  
the mine, and then it will be  
"blow-out" shot, and then it will  
be "blow-out" shot, and then it will  
be "blow-out" shot.

These experiments will take place  
the afternoon of October 20. The  
first meeting of the mine field, the  
Pittsburg mine, there will be friendly  
contest between first and second  
miners from nearly 100 mines. Presi-

dent Taft will witness this part of the  
program. Already more than 20,000  
miners have declared their intention  
of witnessing the experiments. Min-  
ers in the Pittsburg district have been  
granted a holiday for the 21st, and  
the railroads have agreed upon a  
two-cent-a-mile rate within 250 miles  
of Pittsburg. The Central Passenger  
association has also granted excur-  
sion rates throughout its territory.

## LORIMER WITNESS MAKES DAMAGING ADMISSION

State Senator John Broderick  
of Chicago Trapped By Coun-  
sel Representing Senate In-  
vestigating Committee.

(By Morning Journal Special Leased Wire.)

Chicago, Oct. 20.—Despite all his  
previous assertions to the contrary,  
Senator John Broderick of Chicago,  
today before the committee of United  
States senators investigating the  
Lorimer election, admitted that he  
sent for former State Senator D. W.  
Holaday of Iowa, following the elec-  
tion of Lorimer in 1909. Broderick's  
admission was secured after Attorney  
Healy of counsel for the committee  
unexpectedly produced a letter from  
Broderick to Holaday in which Brod-  
erick asked the Iowa man to meet  
him in Chicago at 4 o'clock, p. m.,  
August 25, 1909.

Holaday in a confession made in  
the summer of 1910, said he was paid  
\$2,500 by Broderick for Holaday's  
vote for Lorimer. Holaday declared  
that this payment was made in Chi-  
cago after Broderick had written him  
to come to Chicago.

Broderick not only denied that he  
had made such a payment, but insis-  
ted until today that he had never met  
Holaday. The Chicago senator  
said that Holaday had happened to  
"drop in" while on a business trip to  
Chicago, at the time it was charged  
Holaday came to get the alleged  
money.

## A CLEAN CAMPAIGN.

"People have long since come to realize," says the Tribune Citizen, "that when a man or a party deals exclusively in personal abuse, the underlying reason can generally be found in a total lack of substantial argument on which to base a claim for preferment."

Carefully looking over the files of the evening paper for the past two days we find such gems as the following:

"The gentlemen who are sure to be made the target of all the LYING ABUSE AND FILTHY VENOM which the MORIBUND BRAIN of the morning organ and their HYBRID opponents can invent."

"The democratic party points with pride to the able ally, the Journal-Democrat of Albuquerque—a paper that has ABUSED AND SLANDERED every democrat of prominence in New Mexico and while pretending to be a republican newspaper has VILIFIED AND ABUSED every republican office holder and leader, even including Miguel A. Otero, who now seeks refuge under its BOILED and TARNISHED BANNER."

"Chairman McDonald, the man who LIES about his 'best holdings of cattle land.'"

"SYSTEMATIC BLACKMAIL," "JUDAS IN PUBLIC LIFE," "RETRAYERS OF FRIENDS."

"NO WONDER THEY HOWL FROM THEIR STELLING LAKE OF MUD AND FILTH."

"STILLBORN FROM THE DEN OF THE CONTEMPTIBLE DEMAGOGUE, THE DEGRADATED, INCOMPETENT AND MALICIOUS Herbert J. Bursum."

"REPUTEDLY WRETCHES," "THE MONSTER SINKING IN THE SEA OF MUCK AND FILTH IT HAS ENGENDERED."

Truly, none of this could possibly be construed as abuse. This is what is known as matter, logical, convincing argument and incisive debate. This is a sample of that "restraint and dignity" which so nobly characterized the temperate utterances of Judge Fall and the Hon. T. B. at their first Thursday night.

## THE CHIEF ISSUE.

The phenomenal growth of the Morning Journal subscription list during the past few months is not the only thing of which we are proudly proud in the present pleasant campaign.

We feel somewhat puffed up over the fact that the Morning Journal appears to be the chief issue in this campaign with the gang. The fragrant bouquet proffered Thursday night by Judge Fall are only equalled by the little bouquet tendered by Ex-Pentecostal Superintendent Bursum in the course of his present pilgrimage amongst the proletariat, while denunciation of the people's newspaper appeared to be the favorite amusement at the Las Vegas convention and is, in fact, at any gathering of the faithful, which happens to be held regardless of time or place. That it is splendid advertising is evidenced by the fact that a new bunch of subscriptions invariably appears in immediate succession to the appearance of Mr. Bursum in any particular town. As a solicitor, he is unsurpassed and it would prove highly profitable for the newspaper could it retain his valuable services indefinitely.

A newspaper is known chiefly by the enemies it makes. The Morning Journal takes considerable pride in its list of enemies in this commonwealth and there is no sweeter music to the ears of the editor than their loud aspersions.

The fact that Bernadillo county recently spent \$5,000 in constructing what is now one of the best pieces of road in New Mexico, naturally causes considerable grief to Don Francisco, whose attorney drew up his platform Thursday, spending that amount of money on roads appeals to Don Francisco as extravagance, which is nothing short of criminal.

The Las Vegas Optimists seems to be handing out to Bursum Strump. It says: "The man who deserts his party for the sake of a prospective political job and seeks to justify his action and cover his chicanery is not fooling anybody but himself."

## A SADDENING SPECTACLE.

"The republican party," said the veteran soldier, Colonel Edward Johnson before the Hubbell convention in the Elks theater Thursday, "is the party of principle; conceived in liberty and dedicated to the proposition that all men are created equal. It is the party that venerates our courts."

It was a saddening spectacle, the contrast between this old soldier who fought for the perpetuation of the union, and his audience, a bunch of greedy and sordid politicians, belonging to no party, men of whom the republican party is ashamed and led by a man who has been thrown bodily out of the party to purge it from the stain of corruption and dishonesty.

It was a contrast, an impressive contrast between the principles for which the republican party stands and the men who seek to cloak under its protection all the petty and selfish and unscrupulous methods which violate every tenet of republicanism. Claiming the label of the party which "venerates our courts" the men addressed by Colonel Johnson are the men who stand for the prostitution of the machinery of justice to defeat the ends of justice and protect law breakers and dishonest public officers in the prosecution of their crooked schemes.

The party which was "conceived in liberty" is used to mask the actions of men who seek no liberty but the freedom to thwart the will of the people and to use the funds contributed by the people for their own government for swilling private fortunes and increasing the public burdens. The speaker fought manfully for the flag which his hearers are seeking to smudge with the blackness of corruption and for the party which they are seeking to destroy and which they would make a synonym for rottenness and debauchery.

The spectacle would have been ludicrous but for the pity of it. We have the deepest respect for the grizzling defender of the flag and it fairly sickens one to see such a man and such principles as those for which he fought used to help cover up the devious operations of vote buyers and party wreckers, who have no more respect for the party than they have for the flag.

Not by the uttermost stretch of the imagination could Francisco Hubbell's convention be regarded as a republican gathering. It was a conglomeration of political ruffians and their tools manipulated solely and entirely in the interest of the unclean machinations of their boss; and the speech by a man who is a republican from principle was a jarring and discordant note which struck home to the few disinterested spectators who were in the hall.

## TO BE CONSISTENT.

The Trib-Cit, some time ago told that it was incumbent upon Mr. W. C. McDonald, as democratic candidate for governor, to terminate his gratuitous services under a republican administration as member of the cattle sanitary board, even though it has been generally supposed that members of that board were not there for political reasons, but to sanitize the cattle.

Granting for the sake of argument that this is correct, let us be consistent. It is certainly most fitting and proper that the Trib-Cit, candidate for sheriff immediately resign his position as city marshal, held by grace of a democratic appointment and retained by virtue of democratic connivance. It is certainly grossly improper that the perpetual toy marshal, holding one office as a democrat should run for another as a republican. Are the prerogatives of the city chief of police to be used in order to elect him to a county office in violation of the wishes of the people? Is it likely that the present imposing head of the police department will discharge the duties of that office with strict impartiality while leaning for himself as sheriff? Or does the marshal plan to hold both offices at one and the same time?

It is hardly conceivable that the chief of police will be enthusiastic about enforcing the law against a law breaker whose vote may be secured by lenience. It is certainly a violation of the sense of public fitness for a democratic office holder to climb to his office while running for another as a republican. Common regard for the official proprieties demands that Mr. McMullen resign the marshalship at once or else withdraw from the Hubbell ticket. He has straddled from the republican to the democratic ticket for too long a time as the Perpetual Chief, and it is high time this important citizen were lined up once and for all on one side of the fence. He is holding his present office through violation of official etiquette, as candidate for sheriff under an alleged republican flag, his offense becomes the more unpleasant and the people have about reached the limit.

Of course, he may offer in extenuation, the plea that he doesn't expect to be elected and it is a purely formal candidacy, but that does not affect the rules of decency in the case.

## THE HONORABLE A. B. FALL.

We congratulate the Honorable Judge A. B. Fall of El Paso, Texas, for the opportunity he enjoyed on Thursday evening of relieving his mind of what appeared to be a considerable burden. The fact that Judge Fall had an opportunity to address chiefly empty chairs really made little difference. It would probably have sufficed just as well to relieve the Judge had he gone off somewhere and talked to himself.

The distinguished corporation rep-

resentative, one of the chief authors of the celebrated Hawkins bill, devoted much of his time to blowing off considerable surplus steam against the United States government. In view of the attitude of the United States government toward his Hawkins bill, congress having annulled that celebrated statute with some decision, it is perhaps not strange that the judge should cherish more or less of a grudge against the government. The remarks made by members of congress touching upon that bill were not of a nature calculated to make the inflated bosom of the gentleman from El Paso swell to any greater magnitude.

The judge, as usual, paid his respects to the Morning Journal. If the judge feels aggrieved at the Morning Journal on account of its recent announcement that he was about to succumb to pneumonia, he does us a grave injustice. Our reports of his illness were slightly exaggerated, through no intention of our own and it would be cruel of the judge to imagine for a moment that the wish was father to the dispatch. No one could grieve more sincerely than the Morning Journal at the untimely taking off of the brilliant corporation attorney from the Paso City of Texas. The versatile inventor of the Hawkins bill is not only a never failing source of splendid campaign material, but can always be relied upon for continuous entertainment of a most delightful variety.

The erudite gentleman who volunteered the services of the territory to assist in vindicating the former superintendent of the penitentiary adds a touch of spice, of zest and picturesqueness to the campaign which it is absent would leave an aching void.

To put it more plainly, we need the judge in this campaign as one more factor which will assure the defeat of the candidate to whom the territory of New Mexico, through its attorney general furnished the whitewash brush to cover up his penitentiary record.

The Morning Journal has received a special edition of the Havana Daily Post, of Havana, Cuba, a magnificent booklet full of beautiful colored views of the ancient capital of the island and telling of its points of interest. Typographically and artistically it is a gem. The most interesting feature of the book is three or four impressive panoramic views of the raising of the battleship Maine.

Mr. McDonald, we are now assured, is not only honest, but entitled to sympathy. The Honorable Thomas Benton Catron told his 114 hearers at the Elks theater Thursday night that what lands Mr. McDonald owns he bought from the Hon. T. B. at FULL value. It was unnecessary for Mr. Catron to add that last phrase.

We don't want to be mean but we cannot but wonder if there is any significance in the fact that most of the ringleaders of the Bursum gang are suffering from illness so early in the campaign.

"New Mexico has heard the death wail of the monster, the Colossus of political greed. It is sinking in the sea of muck and filth it has engendered."—Tribune Citizen. Adios Bursum.

We see no reason why the ex-boss should be so solicitous over the alleged condition of the county jail. As far as we can ascertain there have been no pen knife artists recently confined there.

Putting the toy marshal with the tin star in the discard will make the capture of confederacy from infants appear a herculean task in comparison.

Don Francisco and half a hundred men, marched down the street and then marched back again—and no Larrabee. Eh?

Backward. Not to the days when it was necessary to pay the bills of your before last with the income from your after next.

## PEANUTS TO BE ONE OF BEST CROPS IN VALLEY

Splendid Display of Product Raised By Ranchman Just South of the City.

One of the most interesting exhibits at the state fair last week was the bill of peanuts grown and exhibited by J. T. Rodgers, a ranchman and gardener, who has a place a short distance west of the Boreas bridge. This bill contained 275 peanuts and if allowed to remain in the ground the plant it is said, would have developed one-third more nuts. Each one of these hills was planted with one peanut containing two kernels and the big crop resulting is one more demonstration of the fact that peanut growing is bound to become one of the most profitable industries in the Rio Grande valley. The seed was furnished Mr. Rodgers by E. W. Fox, who is always on the alert to anticipate and needs of the farmers and stockmen of the valley. The big store at 212-214 West Second avenue is stocked with everything needed in the feed and seed line, poultry and stock supplies. The illustrated catalogue issued annually will be mailed to any address on receipt of name.

## CHINK GARDENERS CLARY COUNTY IS MAKING GOOD WELL PLEASED

Truck Farmers at Deming Clear Nearly \$6,000 From Model Farm With Most Improved Methods.

(Special Correspondence to Morning Journal)  
Deming, N. M., Oct. 19.—Wah Brothers, the Chinese gardeners, who have twenty-two acres under cultivation at their place one and one-half miles east of Deming, have had a very prosperous year. Their net proceeds will run between five and six thousand dollars. Several men are employed at these gardens every month of the year, the water for irrigating this tract is secured by pumping it a distance of fifty-five feet. They have a ten-horse-power electric motor and a twenty-horse-power steam engine on their place, to furnish power. The water is only raised by steam when the motor is out of commission. This year they had in cultivation three acres of celery, 180 acres of sweet potatoes, two acres of cabbage, two acres of dry onions and one acre of cauliflower. They have about 150 bearing fruit trees consisting of apples, peaches, pears, plums, apricots and nectarines, also several hundred grape vines that bear fruit this year. In addition they have marketed all kinds of other vegetables. They have good substantial buildings on the grounds for storing their crops; they send tons of their produce each year to Morenci, Clifton, Lordsburg and Silver City, besides disposing of a great quantity to the residents of Deming. People from other portions of the southwest look with amazement at these gardens when they see what can be successfully grown from this tract of land. The fruit trees and grape vines together with asparagus plants are planted along the main irrigation canal in the place.

W. S. Hopenew of Albuquerque, who shipped thirteen cars of cattle to Calexico, Cal. He also shipped three cars to Pampa, Tex.

Rhea & Rhea, well drillers, have recently finished an irrigation well for W. E. Fowler, three and one-half miles south of town. The well is 116 feet deep and thirty inches in diameter, from top to bottom. There are thirty feet of perforated casing in this well. A number four pump has been installed at the 100-foot level and the water will be pumped with a forty horse-power engine.

## A PLEA FOR THE BLUE BALLOT

CHARLES, N. M., Oct. 19.

Editor Morning Journal.  
It is my belief that many of the people do not understand what the blue ballot means to us. The fact that intelligent men such as composed the republican convention at Las Vegas and in addition the editors of many republican papers write opposing the blue ballot shows that many of the rank and file in the republican party must be still ignorant of what that ballot means.

Can it be those men are really ignorant or are they thoughtless enemies of the names of the people?

Can it be that men who own property and make a living for themselves and families in New Mexico propose to make it impossible for themselves their children and posterity along with the rest of the people to exercise the God given right to govern themselves?

Who owns New Mexico? these men alone or all the people in common? If all the people own it, are they sheep or goats or cattle that they can't change a constitution or make laws for themselves or for a state they own in common?

If a legislature should enact a law making poems of laboring men and the people want to nullify it, isn't it for the common good they should be able to do it easily and quickly?

Likewise with vicious laws like the Hawkins law, and an attempt to give away public land worth \$140 an acre for practically nothing at the Santa Fe New Mexican so truthfully said recently about Texas in the capital deal. Cattle and sheep would not want damages from railroads for injuries and would not know whether land was given away at \$2.50 an acre but the human beings in New Mexico would realize.

If the people do not want to rank as sheep when regulation and control of the government of a state they own is in question, it behooves them to find out what the blue ballot means. If the people do not want to vote on any proposition it is possible they did it in the constitution convention, and again in the election following, when ballots were not furnished whole communities that were opposed.

But, can they do it again now when the eyes of the nation are on them? No one questions their willingness, but there is large doubt of their ability.

My belief is if a majority of the voters vote no on the blue ballot, they, as well as the rest of the people, men, women and children might as well resign themselves to be actual sheep.

The chief end of their existence will be to furnish wool to the shepherds.

But it will be a tragedy for the people who are not ignorant.

Pardonably Proud of Splendid Showing Made in Art Department of the State Fair.

(Special Correspondence to Morning Journal)

Clarke, N. M., Oct. 18.—The people of Clary county are ardently proud of the results of the efforts in the display of art and needlework at the first state fair at Albuquerque. Miss Pearl Memhard was appointed by E. D. Odham, cashier of the First National bank, to take charge of this exhibit, and too much praise cannot be given to Miss Memhard for the tireless and painstaking manner in which she gathered and arranged for the great display of needlework which won the prizes. Miss Memhard is undated in her praise of the ladies who had charge of this feature of the fair and she in behalf of the people of this section extends special thanks to Memhard, Albright, Ray and Chum for their personal interest and kindness.

These sewing exhibits were: Madamess Boyd, Hickman, Overly, Skilpwith, Ghoson, Hayless, Farmer, Curless, Crane, Shaw Van and Miss Jones. W. A. Moore, Otto Liebelt, E. W. Swift, N. M. Carlson, Memhard, Jefferson, Odum, C. Jackson, Wilson, Westbury and Martin.

Mrs. Boyd's list was considered the best at the fair.

Mrs. Ghoson was awarded for her stenciled work and Mrs. Farmer received the prize for best collection of Irish crochet.

Mrs. Bert Curless received the regular prize for the best point lace and Miss Sarah Carlson for the best embroidered lunch cloth.

Mrs. C. F. Crane was awarded one year's subscription to the Evening Herald for best display of knitting, and Mrs. Quiggin won prize for portrait in silk.

Mrs. Skilpwith won first prize in burnt wood.

The sewing cup is now on exhibition at Jernigans and Wornall's jewelry store, and it is with pride that Clary people read, beautifully inscribed upon its side, "Best County Exhibit in the Art Department of First New Mexico State Fair."

Mr. B. D. Odham, who is vice president of New Mexico State Fair association, stated this morning that he was proud of the work of Miss Memhard and her co-workers in this exhibit and that he believed himself fortunate in having selected Miss Memhard to take charge of this work.

## ELECTION THIEVES ONLY ONES TO BE INSULTED

People Are Certainly Not Going to Steal It From Themselves Declares Congressman Flood at Las Cruces.

(Special Correspondence to Morning Journal)  
Las Cruces, N. M., Oct. 13.—In an interview here last night, Congressman H. D. Flood of Virginia, stated that the recent article from the Bursum press bureau on his utterances as to the possibility of a congressional investigation if there was fraud in the election, very much surprised him.

Mr. Flood said that he had certainly not insulted the people of New Mexico nor offered any grounds for insult.

"The people of New Mexico are certainly not going to steal this election from themselves," he said, "and the only ones to feel insulted are the gang press and the gang of politicians and grafters in charge of the republican party at this time, the identical party and the identical men who have appointed election judges in times past with the deliberate purpose of stealing whole counties, and it is these men whom the people must watch this time."

"I do not believe," said Mr. Flood, "the innocent need have no fear." "That the people of this splendid new Mr. Flood will on the early morning state will stand for each voter, and that for all those accompanied by Mr. Flood, I am certain that the great majority of the people of Albuquerque, and those of them disapprove of such methods, republican and others."

Believes Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice with a week or so to begin to say good-bye forever to the swelling, straining, or too frequent passage of the urine? The forward and the back-of-the-head aches, the stiffness and pain in the joints, the general muscle weakness, spots before the eyes, yellow skin, sluggish bowels, swollen eyelids or ankles, sea sickness, unusual short breath, sleeplessness and the dependency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery you ought to write and get a copy of it. Make a doctor visit cheaper by 150 cents for writing the prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Bachman, 12144 Lake Building, Detroit, Mich., and I will send it by registered mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, and it has great healing and pain relieving power.

It will enable you to prove once and for all, as I think you had better, what it is without delay. I will send you a copy free—your name and I will send you a copy free—your name and I will send you a copy free—your name.

## Wall Street.

New York, Oct. 20.—Erratic movements in the stock market today, although it exhibited a consistently firm undertone. Prices seemed to fluctuate in response to no well defined changes in opinion, which remains confused and uncertain.

Changes in consequence were often perplexing and could be attributed only to the varying fortunes of large speculative interests whose operations have been expanded considerably in the last few days. The market closed with a substantial gain, ranging from one to two points among the notice stocks, but the advance seemed to represent more the temporary advantage of one faction than a general enhancement of market values.

Although activity increased on both sides of the market, the bears were not able to bring about such proceeds of weakness as they produced yesterday. According to the gossip of the street, a large pool was at work in United States Steel. Whether there is any ground for such a report, evidence of manipulation in various parts of the list were plain. Bears attacked the market energetically in the early trading but made little headway. Selling at the outset was unusually heavy. More than 50,000 shares of United States Steel were thrown on the market within the first few minutes, but although the list weakened somewhat, it soon recovered. After a series of unimportant fluctuations the market took on a renewed activity before the close and in the last half hour prices were carried up rapidly.

The metal stocks were most conspicuous. Transactions in United States Steel constituted one-half of the total morning business. The copper stocks, after several months of inactivity, became prominent in speculation. Amalgamated copper advanced two points on heavy dealings and Anaconda, Tennessee Copper, Utah Copper and American Smelting gained a point or more. While the movement in these stocks is largely speculative, it has a basis in current conditions in the copper metal trade. Sales of copper continue on a large scale for both domestic and foreign delivery and prices have been quite generally advanced by producers and selling agencies. Although sales thus far this month are estimated at more than 100,000,000 pounds, a large increase in surplus stocks at the end of October is expected. Closing stocks:

## Chicago Board of Trade.

Chicago, Oct. 20.—Exchange on New York, 1 cent discount.

## Chicago Board of Trade.

Chicago, Oct. 20.—A new high price record for the season was made today in wheat. Rain and snow northwest hurried up investors who had been hoping in vain that a reaction was at hand. The close though nervous, was 1-1/4 to 1-3/8 cents above last night, out to 1-4/8 to 1-5/8, and hog products higher, 1-1/2 to 25 cents.

It was evident from the start that the pit supply of wheat would be too scanty for buyers' comfort. This condition grew worse as the day progressed, being relieved only at rare intervals and then not sufficiently to cause any material setback. The main reason was that it had been snowing throughout a good part of the northwest, following rains over night. More unfavorable conditions could hardly be imagined for threshing the great quantities of wheat still in the fields on both sides of the Canadian line. It was said that world's shipments would be light.

December swung from \$1.01 to \$1.02 1/2 and closed \$1.08 1-8 to 1-3/4, a gain of 1-1/2 to 1-3/8 cents net.

Corn ruled strong all day. December fluctuated between 55 3-8 and 56 3-4, closing at the top point of the day, 1-4/8 to 1-5/8 cents higher than last night. Cash grades were firmly held with No. 2 yellow quoted at 75 1/2 to 76.

Oats, though overshadowed by the greater activity of wheat and corn, received a lift due to purchases made for elevator concerns and commission houses. Upper and lower levels for December were 48 1-8 and 47 3-4, with the close 1-4 net higher at 48 1-8.

The provision trade caught enthusiasm from the grain pits and hoisted quotations with a vim. At the last good pork had risen 2 1-2 to 25 cents and other hog products 7 1-2 to 19 cents.

## Boston Wool Market.

Boston, Oct. 20.—The Commercial Bulletin will say of the wool market tomorrow:

There has been a deeper as well as a wider movement in the Boston wool market this week, although no phenomenal trading has been done. Perhaps the feature of the week's trading has been the sales of three-halves fleeces, which have arrived in quite a liberal quantity. Prices are withheld in great cases on these wools, although some sales are still reported at the former quotations of twenty cents. The trading market of territory, however, is undeniably lower. Some territory has been sold this week on the basis of 57 1/2 cents.

## New York Cotton.

New York, Oct. 20.—Cotton closed steady at a net advance of 5 to 10 points.

## Dunn's Weekly Review.

New York, Oct. 20.—Dunn's Weekly Review of Trade will say tomorrow:

Immediate requirements to replenish depleted stocks coupled with lower prices, are responsible for a continued increase in trade activity. The improvement is conservative but steady.

Weakness is still pronounced in pig iron, with sales from 10,000 to 15,000 tons of foundry grades reported in eastern territory, partly for early delivery. In plates and structural material sharper competition is noted, and while new business is keeping up at the expense of values, orders for railroad equipments and steel cars are stimulated by the lower prices. Wire products are moving in good volume and several additional contracts have been placed for pipe.

That the dry goods trade is experiencing a revival is shown by the increased operations of mills and manufacturers of different dry goods specialties.

Bleached cottons are quiet, but staple prints and percales are well under order and several lines of flinghams are sold up for spring.

Buyers in footwear show a disposition to place larger contracts to cover future needs and manufacturers are making advances to cover higher cost for leather. The leather trade also displays a spirit among the buyers of willingness to operate.

Hops quiet and strong.
