JUROR DISCHARGED
FOR INDISCREET
CONVERSATION

SMALL SENSATION IS
SPRUNG IN McNAMARA CASE

Venireman Admits He Talked to
General Manager of Los Angeles Times and is Reprimanded and Disqualified.

[By Morning Journal Special Leased Wire.]
Los Angeles, Cal., Oct. 24.—A chance street conversation started by E. W. Clark, a venireman in the McNamara case, with Harry Chandler, vice president and general manager of the Times-Mirror company, and son-in-law of George Harrison Gray Otis, publisher of the Los Angeles Times, brought Clark's services as a prospective juror to an abrupt end when he told about it in court late today. The taleman was censured by Judge Walter Bordwell for carelessness and promptly excused on a challenge by the defense, suggested by the court. Chandler, according to Clark, said he hoped the taleman would qualify as a juror.

It was said tonight that Chandler was held in no way responsible for the occurrence so far as the court was concerned.

Clark, who deals in coal, had been recruiting he had gone to Chandler a few days after the explosion attributed to James B. McNamara, which wrecked the Times building and cost twenty-one lives. Clark said he questioned Chandler to be careful about making hard and fast statements that it was done by dynamite and by enemies, and Chandler gave him to understand "that they knew exactly what they were doing."

"Have you since talked with him?" asked Attorney Lecompte Davis of the defense, after a few intermediate questions.

"Yes," said Clark. "I do not remember whether it was yesterday or the day before."

"And what was the occasion?" asked Attorney Davis.

"I passed him on the sidewalk,"

"Stopped and talked with him, did you?" Did you say anything about the case at all?"

"Yes, I told him I was on the jury, or a prospective juror."

"What did he say to that?"

"He said he hoped I would be qualified."

"What did you say to that?"

"The court—'Do you challenge this juror?'"

"The juror—'I asked him what he had against me.'"

"The court—'Wait a minute—Do you want to challenge this juror, Mr. Davis?'"

"Mr. Darrow—'Let us hear the conversation first.'"

"The court—'I don't think it is necessary. I am surprised, Mr. Clark, that you should have done such a thing—had any talk with Mr. Chandler or anyone else with reference to this case.'"

"I did not think I was talking about the case."

"You didn't?"

"No, sir."

"When you told him you were drawn as a juror on the case, you didn't think you were talking to him about the case?"

"No, I wasn't talking about the case at all—didn't discuss the case."

"Mr. Davis—'Well, we will challenge the juror for cause.'"

"The juror is excused," said the court. "I don't think he ought to sit in this case, or any other man who is drawn on the jury who is so careless. You may be excused, Mr. Clark."

In the course of his examination Clark gave the defense a clue to a new witness who, he said, would be summoned. His son, he said, had told him the explosion unquestionably was one of gas.

"Did he give you any reason for saying that it was a gas explosion?" asked Attorney Davis.

"He said he came past on a car and didn't think the gas as far as Spring street."

"The night before?"

"Yes, sir."

"Did that strengthen your opinion?"

"Yes."

It was stated definitely today that fourteen men would hear the McNamara case as jurors. This is possible under California law which provides in addition to the regular jury, two additional jurors may be qualified in cases where the trial is likely to be of great importance and duration. These two must be kept with the other twelve having equal opportunities to hear the evidence and in case any regular juror is disqualified through illness or death, the name of one of the two extra jurors is to be drawn from a box and thereupon replaces the disabled one.

None of the fourteen seemed in sight tonight. Six jurors temporarily accepted by both sides were in the box, but all are subject and liable to peremptory challenge. Court adjourned at 5 o'clock with Talesman Winter on the stand.

Who Owns it Now?

The quotation by this paper of some editorials of the Trib-Herald-Cit. of two years ago, brings forth the statement that the ownership and management of the Trib-Cit. is not what it was two years ago.

Will the Trib-Cit. tell us who are its owners and managers at present?

If it does not, we shall have to conclude there has been no change.

We await enlightenment.

WAS STEPHENSON
VICTIM OF FOUL
CONSPIRACY?

WITNESS GIVES STARTLING
EVIDENCE AT INQUIRY

M. J. Regan, Milwaukee Business Man, Declares Plot Existed to Fabricate Testimony to Blackmail Senator.

[By Morning Journal Special Leased Wire.]
Milwaukee, Wis., Oct. 24.—Testimony concerning an alleged plot to fabricate evidence against Isaac Stephenson and then to offer to keep it out of the present investigation for a money consideration was given by M. J. Regan, a Milwaukee business man, before the United States senate committee today.

H. W. Wood, a private detective, and Frank T. Southern had testified they were at a conference with Regan when the latter told of a statement whereby Robert J. Shields, associated in business with Edward Hines, the lumberman, had come from Washington to "buy up" the Wisconsin legislature so that Stephenson could be elected in March, 1909. The story which Wood and Southern testified had been given them by Regan was:

"That Shields coming from Washington had met Regan by appointment in Milwaukee; that Shields said that he had unlimited money to purchase democratic members who were to remain away so that Stephenson might be elected; that Shields wanted Regan to go to Madison to carry on the deal, but that Regan refused and Shields, himself, went."

Taking the stand after they had given this testimony, Regan declared that he had never made any such statement, but on the contrary Wood and Southern, also, "had framed up" the story with a view of obtaining money from Stephenson's attorneys to suppress it.

"While this committee was in session here some days ago," Regan testified, "Wood told me he and Southern were going to make up a case against Stephenson. They said they were going to testify that I told them Shields had come from Washington with unlimited money to buy off certain legislators."

"Their purpose was to let it be known that they were going to do and then try to get money for not giving their testimony. They did not get any encouragement and so they decided to tell their story anyway. It is absolutely false."

"I did meet Wood and Southern after Stephenson's election. What I talked to them about was this: Frank T. Wagner had been convicted and sent to the penitentiary for perjury for testifying falsely in the legislative investigation of Senator Stephenson. Wagner had testified that looking through a transom of a Milwaukee hotel, he had seen me pay out \$3,500 to three democratic assemblymen, the same assemblymen who afterwards absented themselves when Stephenson was elected."

"Now I felt others besides Wagner were behind that story. I had evidence that it was concocted and Wagner had been coached as to what to say. It being understood when he told it, that those opposed to Senator Stephenson would attempt to substantiate it. A former attorney general of Wisconsin went so far as to say he had a flashlight photograph of the scene in the hotel room as I was passing over the money."

"After Wagner had testified his story was found to be so improbable that the state investigating committee repudiated it. In consequence, Wagner was convicted. My purpose was to put the others where Wagner was and to this end I talked to Southern and Wood. I told them incidentally and casually that I had received some telegrams from Shields, but they were in reference to business. I mentioned nothing whatever about Shields having had unlimited money to purchase the legislators."

Regan was on the stand when adjournment was taken. His contradictory statements of the statements of Wood and Southern, it was announced, will necessitate the recall of numerous other witnesses, including Shields, Wagner, who was paroled from the penitentiary, also has been summoned.

Taft Approves Officer's Dismissal.
Washington, Oct. 24.—The president has approved the sentence of the court martial, dismissing First Lieutenant Myron B. Bowditch of Pennsylvania, Fifteenth Cavalry, who was convicted at Fort Sheridan of duplicating of pay accounts.

.....

Has the ex-Superintendent
Been Vindicated?

H. O. Bursum, now candidate for governor, declares that he was "vindicated" after a fair hearing in court, of the charge of being short in his accounts as superintendent of the territorial penitentiary.

What are the facts?

A report on the condition of the prison was made by the Colorado Title and Trust company. A defense of Mr. Bursum, answering this report, was made by "Referee" C. V. Safford, Mr. Bursum's personal and political friend and secretary of the political organization of which he was chairman. Mr. Judge A. B. Fall, attorney general, Mr. Bursum's personal and political friend, stipulated that the report of the expert's probe and all reference to it by Safford be excluded from the case, leaving comparatively little but the clever Mr. Safford's conclusion that the territory owed Mr. Bursum over \$4,000.

The attorney general represented the territory and in effect stipulated that the territory's evidence be not introduced.

Neill B. Field, counsel for the Colorado Title and Trust company said in a public statement:

"In view of the statement which I have seen in the evening paper to the effect that there is no one with courage enough to confront Mr. Bursum in court, I deem it my duty to my client to say, that but for a stipulation which was signed, I was prepared to confront Mr. Bursum in court and show that the report of the Colorado Title and Trust company was correct."

Has Mr. Bursum been "vindicated?"

Is the man under these charges to be elected governor?

OFFICIAL CIRCULAR
CONDEMNS THE
BLUE BALLOT

SURPRISING DOCUMENT
EMANATES FROM SANTA FE

Letter Containing Signatures of Governor Mills and Secretary Jaffa Argues Against Easier Amendment Feature.

[Special Dispatch to the Morning Journal]
Santa Fe, N. M., Oct. 24.—Some little comment, not to say indignation, was aroused here today by the circulation of a document purporting to come from the executive office, containing an argument against the adoption of the "blue ballot" amendment to the New Mexico constitution. The document, which is in the form of a printed letter addressed "to the people of New Mexico," is signed with the facsimile signatures of Governor William J. Mills and Secretary Nathan Jaffa. It is understood that the letter has been given general circulation throughout New Mexico, but it could not be ascertained definitely today whether or not it has been sent out as a public document under government frank. The governor and Secretary Jaffa have been somewhat severely censured for allowing their names to be used in this connection, and this criticism comes not alone from those who favor the adoption of the easier amendment clause, but also from those who are opposed to it; it being generally held that the document, if it really was sent out by the governor and secretary of state, is to say the least, a rather serious breach of the proprieties generally observed in the high offices which both gentlemen occupy. Following is the full text of the circular:

GOVERNOR
EXECUTIVE OFFICE
Santa Fe, N. M.
October 14, 1911.
To the People of New Mexico:
As we have received a number of inquiries as to the effect of the vote on the blue ballot amendment at the election to be held on November 7th, 1911, we deem it best to state:

1st. It is not necessary to adopt the blue ballot amendment in order to secure statehood for New Mexico. The resolution of congress expressing its states that if the blue ballot amendment is not adopted, New Mexico shall be admitted into the union as a state under the constitution adopted by the people in January, 1911.

2nd. It is not necessary to adopt the blue ballot amendment in order that the people may hereafter amend the present constitution.

Excepting only those provisions which guarantee the elective franchise and the civil and political rights of the Spanish American citizens, the constitution of New Mexico can be amended in any way that may be desired by a clear majority of the voters of the state, provided one-half the counties give a majority in favor thereof.

3rd. It is not necessary to adopt the blue ballot amendment in order to amend the constitution. The constitution of New Mexico can be amended in any way that may be desired by a clear majority of the voters of the state, provided one-half the counties give a majority in favor thereof.

4th. As to all other matters than

those above mentioned, amendments to the New Mexico constitution may be proposed and submitted more easily than in a majority of the states of the union, and any such amendment may be ratified by the affirmative vote of a majority of the electors provided that such amendments shall be approved by a majority of the voters in at least half the counties in the state.

WRIGHT DEFIES A
50-MILE GALE
IN GLIDER

Dauntless Birdman Makes Record-Breaking Flight in Machine Destined to Solve Problem of Aerial Stability.

[By Morning Journal Special Leased Wire.]
Kill Devil Hill, N. C., Oct. 24.—In a fifty-mile wind today Orville Wright went aloft and remained virtually stationary in his glider, with which he is conducting experiments in aerial stability. He was up nine minutes and forty-five seconds, and maintained an altitude of approximately 150 feet.

The record-breaking "flight" was the seventeenth in a series that began today. The first glide lasted only 54 seconds, each lengthening until the final one.

The success of the experiment is understood here to mark a long step forward in the science of aviation, and to point the way toward solving the problem of automatically preserving the equilibrium of heavier-than-air machines.

When Lorin Wright and Alexander Ogilvie, the English aviator, brought out the machine for the initial flight the wind gauge showed that the gale was thirty-five miles and freshening.

The glider was equipped with a rear rudder of twenty-four foot spread. "In front to preserve the balance a ten pound bag of sand was swung on the end of a rod extending eight feet in front of the aviator's seat. The ailerons, or balancing wings on the sides of the machine, were adjusted and Orville Wright lifted himself into the seat.

"Let it go," he shouted.

Lorin and Ogilvie thrust the glider into the face of the rising gale and it shot up. Again and again this was repeated, each flight becoming longer, until for almost ten minutes, Wright soared like a buzzard on the rush of a fifty-mile gale.

Orville made several brief flights at the close of the day, but none even approached the success of Wright. It was apparent that the maintenance of poise and balance rested as much on the ability and mechanical contrivances by which the Wrights hope to minimize the perils of flying. Wright expects to continue the flights tomorrow.

AEROPLANES BEING
USED BY ITALIANS

Rome, (Via Frontier), Oct. 24.—Messages from the interior of Tripoli, say that troops of flying Italians with destructive "machines" are everywhere causing destruction and terror.

Some of the native tribes have decided to migrate to points further in to the interior while others are burying their valuables. Bolder tribesmen are devising means to attract the aeroplanes into positions where they can be fired upon.

Democratic-Progressive Rally

in Old Albuquerque Tonight

A big Democratic-Progressive Rally will be held in the Court House at Old Albuquerque this evening at 7:30, to which every independent voter in the county of Bernalillo is invited to attend. The speaker of the evening will be Hon. E. V. Chaves, a life long democrat, who needs no introduction to the people of this community. Mr. Chaves took a prominent part in the campaign five years ago when Frank A. Hubbell and his followers were hurled from power in Bernalillo.

Other speakers will be Hon. Antonio Lucero, of San Miguel, candidate on the democratic ticket for secretary of state, and Hon. G. W. Prichard, one of the leaders of the Progressive Republican league, recently organized as a protest against gang rule in New Mexico.

On Thursday evening the same speakers will address a mass meeting at Elks' theater, which promises to be one of the most important meetings of the present campaign. Every friend of good government in New Mexico and every man and woman who is opposed to the restoration of Hubbell rule in this county is earnestly urged to attend these meetings.

The Candidate of the
Los Angeles Times.

The Los Angeles Times recently published a likeness of the Honorable H. O. Bursum, with a glowing eulogy which said, among other things: "H. O. Bursum, whom the republicans of New Mexico have nominated and will probably elect as the first governor of the new state, is a man of iron and fire and he will build up a powerful party machine in his state, as well as make a forceful governor, Bursum stands for the reliable and the permanent." Which moves us to wonder as to how the workmen of New Mexico regard the candidate of the Los Angeles Times.

DR. COOK MOBBED
BY INDIGNANT
DANES

Riot Scenes Attend Meeting in Copenhagen and Bogus Explorer is Forced to Flee From Hall.

[By Morning Journal Special Leased Wire.]
Copenhagen, Oct. 24.—Dr. Frederick A. Cook's theatrical attempt tonight to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark on the occasion of his triumphant entrance into the capital, resulted in extremely riotous scenes.

Dr. Cook finally was compelled to retire ignominiously by way of the back door.

Ever since it was announced that Dr. Cook was returning to this city to lecture, the newspapers and the people have been strongly stirred and threats of violence were freely circulated.

Fifteen hundred persons assembled in the hall tonight and a great crowd outside greeted Dr. Cook with an uproar of insulting cries.

He was escorted by police, however, and no personal violence was attempted.

The meeting within the hall was turbulent throughout. A small fraction of the audience supported Dr. Cook and applauded his efforts. Others hissed continually with the result that the two sides almost came to blows.

Dr. Norman Nansen, the Danish explorer, who formerly supported Dr. Cook, started the trouble by loudly denouncing Cook as a pure swindler. The climax was reached when an alleged picture of the North Pole was thrown upon the screen. The audience was so hostile that Cook stopped his lecture and withdrew. He was escorted by a strong detachment of police to his hotel.

On the return trip Cook's carriage was surrounded by a crowd who threw eggs and apples at the occupants.

The attitude of the people was so threatening it was deemed advisable to put a police guard in the hotel for the night.

MAY MAKE SANTA FE
TRAIL NATIONAL ROAD

St. Louis, Oct. 24.—A movement for an ocean-to-ocean national highway, which would utilize the old Santa Fe trail and the Missouri state road, to be dedicated Saturday, was launched today in the convention of the Missouri Daughters of the Revolution. Miss Elizabeth Gentry, of Kansas City, has assurances from Representative Borland of Missouri, that he will introduce in the next session of congress a bill for an appropriation for such a national highway.

Dallas, Texas, Oct. 24.—The Texas Progressive Republican League was organized here today at a conference attended by well known republicans from different points of the state. Senator LaFollette was endorsed for the presidential nomination.

M'DONALD WILDLY
ACCLAIMED AT
MORA

STAND PATTER LEADERS
GIVEN PAINFUL SHOCK

Magnificent Ovation Tendered the Democratic-Progressive Campaigners Causes Gang Leaders Much Grief.

[Special Dispatch to the Morning Journal]
Mora, N. M., Oct. 24.—That the people of Mora county, almost to a man, are tired of gang rule and are determined to support the democratic progressive state and county ticket was convincingly demonstrated here tonight. The magnificent ovation tendered at the court house to W. C. McDonald, the people's candidate for governor, and N. White, candidate for state superintendent, a public instruction; George H. Van Stone, candidate for member of the corporation commission; H. B. Ferguson, candidate for congress, and W. R. McGill, candidate for attorney general, was a convincing proof of the overwhelming sentiment in favor of good government and the overthrow of the insular ring which has long ruled in New Mexico.

In a desperate attempt to stem the tide and disguise the effect of the big progressive democratic rally tonight, the stand-patter dictators arranged several counter attractions, distributed money lavishly and provided free refreshments, both liquid and otherwise, but all to no purpose. When the hour for the meeting arrived the court house was packed to its capacity and many were unable to obtain admission. Over six hundred representative citizens and voters of Mora county, listened to the speakers, and the applause that greeted every telling point was an eloquent testimonial of where the people stood on the issues presented.

The appearance of Captain McDonald was the signal for a wild outburst of enthusiasm the like of which has not been witnessed in this county for many years. In opening his address, which was brief and to the point, Mr. McDonald dwelt particularly on the necessity at this time, which he declared was the most critical in New Mexico's long history, of placing men in charge of public affairs who will conduct them in the interest of the whole people and not with a view to furthering the selfish ends of any clique or coterie of self-seeking politicians. Now, he said, the time has come, for the people to assert themselves if they want clean government, for once established in power under the state government and without fear of interference from Washington, the old gang which has ruled New Mexico for years, will so fortify itself that it may take a generation of fighting to restore the government to the people.

In concluding his address, Mr. McDonald pledged himself to a continuation of the fight for good government, regardless of the result of the election on November 7. He warned his hearers against the perils of over-confidence. The forces that prey, he said, never rested, and while they were resting, the people would be lulled into a false sense of security. He urged every man to do his full duty between now and election day. The speaker served notice on his opponents that should any frauds be attempted on election day, he and his associates would be prepared to see that the guilty parties were brought to justice, and this regardless of the result of the voting and regardless of who the offenders were, be they humble or high degree.

The next speaker was Hon. H. B. Ferguson, who spoke with his usual eloquence and logic. Then followed in the order named: Felix Martinez, W. R. McGill, Alvan N. White and George H. Van Stone. Messrs. Martinez and McGill especially dwelt on the same subject—namely, the necessity of a ballot amendment to the constitution and both urged its adoption if the people wished ever to amend the state constitution.

It was after midnight when the last speaker had finished, and despite the lateness of the hour, the crowd remained till the close. Scores of those present, then crowded around the candidates to shake their hands and pledge them their support on election day. Mr. McDonald was the center of this love and enthusiasm, and was most tested by those meeting him was especially gratifying.

Because of tonight's meeting, the democratic county convention, after effecting permanent organization and appointing permanent committees, today adjourned till tomorrow when a county ticket will be nominated. It is said that several progressive republicans will be placed on the ticket.

FOWLER EXPECTS TO
REACH YUMA TODAY

Mecca, Cal., Oct. 24.—Aviator Robert G. Fowler landed here at noon today, having made sixty-one miles in his transcontinental flight eastward in sixty-eight minutes.

Fowler landed because of a slight defect to his engine. This necessitated some repairs, and after they were complete, Fowler said he would start in the morning and make Yuma, Arizona, without a stop. This is a stretch of more than one hundred miles.

TWO

WORK THAT TELLS

Plenty of It Has Been Done Right Here in Albuquerque.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Dr. J. H. O'Reilly's Kidney Pills stand this test, and plenty of proof exists right here in Albuquerque. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that they are cured and the cure is permanent. How can any Albuquerque suffer longer doubt the evidence?

J. L. Card, of Albuquerque, N. M., says: "Some three or four years ago Dr. J. H. O'Reilly's Kidney Pills brought to my attention and the contents of several boxes gave relief to a member of the family who had suffered greatly from kidney complaint. Since then I have taken Dr. J. H. O'Reilly's Kidney Pills myself and have found them very effective in relieving backache and regulating the passages of the kidneys. I feel that my experience with this preparation warrants our high opinion of it."

For sale by all dealers. Price 50 cents. Foster-McBride Co., Buffalo, New York, sole agents for the United States.

Remember the name—Dr. J. H. O'Reilly's—and take no other.

FERGUSON AND PARTY ADDRESS RATION VOTERS

Six Hundred Present at Enthusiastic Mass Meeting Held in Coffey County Metropolis Monday Night.

[Special Correspondence to Morning Journal]

Horton, N. M., Oct. 23.—At a large and enthusiastic meeting held in this city Monday night, H. B. Ferguson, candidate for congress, Antonio Lucero, candidate for secretary of state, Alvan N. White, candidate for superintendent of public instruction, and W. R. McGill, running for attorney general on the democratic ticket, addressed an audience of 600 voters who filled Chavez hall to overflowing. Each of the candidates discussed the issues of the campaign in a forceful manner, the speech of Mr. Ferguson being especially convincing. The fall warfare of the largest of the campaign and indicates a strong sentiment in Coffey county for the democratic state ticket.

To Raise Price of Beer.

Chicago, Oct. 21.—The price of beer will be raised fifty cents a barrel in Chicago between November 1 as a result of an increase in the cost of raw material. Beer dealers assert that the increase in the cost of their product is due to the defeat of the Canadian reciprocity agreement.

MILLIONS OF GERMS

You Must Kill Them or Lose Your Hair.—Newcomb's Herpicide Prevents Baldness.

The dandruff germ is a deadly enemy to healthy, luxuriant hair. No matter how thick, black and beautiful your hair may be, the dandruff germ may be there at work and very busy too.

Just as sure as you do not take steps to check the ravages of this germ, but as sure you will sooner or later lose your hair.

Baldness may always be prevented by the timely use of Newcomb's Herpicide. It kills the germ and allows the hair to grow as nature intended. There are no disappointments, unless the hair fallers are completely absorbed so they put off the treatment until it is too late.

Herpicide is sold and guaranteed in one dollar bottles by all druggists. Applications at the first itching stage and before the hair begins to fall. Send for in postage of silver to The Herpicide Co., Dept. B, Detroit, Mich., for a nice sample of Herpicide and a booklet telling about the hair.

Auction

Wednesday, Oct. 25, at 10 a.m. At the corner of Second Street and Silver Avenue, I will sell at auction a nice automobile run-about.

Let no lover of a nice machine miss this opportunity.

Cleanses the system. Improves the complexion. Gives the system a new lease of life. Sold by all druggists. Price 50 cents. Foster-McBride Co., Buffalo, New York.

Sold in Albuquerque by The J. H. O'Reilly Co.

THREE TICKETS ARE NOMINATED IN ARIZONA

RETURNS SLOW FROM PRIMARY ELECTION

Democrats Poll Heavy Vote While Republicans Show Little Enthusiasm; Socialists Name Candidates.

[By Morning Journal Special Leased Wire]

Phoenix, Ariz., Oct. 22.—Arizona held today its first state primaries and nominated a full list of state, county, congressional and senatorial candidates. Reports from all sections of the territory agree that the primary passed off quietly.

The voting was very slow, the voters being unaccustomed to marking ballots in many instances, and the ballots being extremely long. The socialists had but one nominee for each office and all on their ticket are sons of being placed on the official ballot.

There was one ballot for each of the three parties. The voter was compelled to ask for the one he wanted. All of these ballots were cast into one box and one hour will do the counting. If the name of candidate on one ticket is written on another, the ballot becomes void, as only the names printed on each ticket will be counted, except where in the name of some one of the same party is written in.

The republicans had two contests for governor and superintendent of public instruction — on the state ticket, on the democratic state ticket there were many contests.

Reports indicate that only a fair republican vote was polled. The democrats, however, seemed to have polled nearly their full strength. The socialists nominated P. W. Callentine for governor, George H. Newsham for secretary of state, J. L. Milton for auditor, J. D. Martin for treasurer, J. N. Morrison for attorney general, W. M. Clayton for superintendent of instruction, J. E. Johnson and E. L. Rumsden for United States senators; John Ballinger for congress; and William Sheridan Gray, Robert L. Norton and Fred G. White for the supreme court.

On the republican ticket for governor, Edward W. Wells and George U. Young are making the race, and for superintendent of public instruction, Charles P. Philbrook of Albuquerque is seeking the nomination. Aside from these two offices, the republicans nominated the following:

United States senators, Ralph D. Cameron, Royal A. Smith; congress, John S. Williams, state supreme court, Charles M. Brown, Edward Kent, Edward M. Dow, secretary of state, J. W. Cleveland; auditor, George A. Mank; attorney general, George D. Christy; treasurer, W. D. Plak, corporation commissioner, E. S. DePaas, William Paul, W. S. Sturges, state senators, Maricopa county, F. S. Hildreth, H. A. Latham, state representatives, Maricopa county, W. Cook, W. S. Duran, H. B. Morris, C. M. Mullen, J. E. Nelson, George W. Walters.

Results of the numerous contests on the democratic ticket it will probably require at least twenty-four hours to count the ballots.

Phoenix cast 1,664 votes of which 1,049 were democratic, 661 republican and 23 socialist. Indications were that O'Neil and Lee for senator; Hunt for governor; Hayden for congress, all democratic, would carry the city for governor.

Mesa City polled 298 votes, 206 for the democratic and 94 republican.

James C. Dahlman, "Cowboy" Mayor Omaha, "Throws the Lariat."

Mayor James C. Dahlman started his career as a cowboy and is at present Mayor of Omaha and has the following record: Sheriff of Davenport county, Nebraska, three terms; mayor of Children, two terms; democratic national committeeman, eight years; mayor of Omaha, six years and in 1910, candidate for governor of Nebraska. Writing to Foley & company, Chicago, he says: "I have taken Foley Kidney Pills and they have given me a great deal of relief, so I cheerfully recommend them." Yours truly, (Signed) JAMES C. DAHLMAN, J. H. O'Reilly.

APPREHENSION FELT FOR TORPEDO FLOTILLA

Navy Department Alarmed By Failure to Hear Anything From Four Destroyers Overdue at Norfolk.

[By Morning Journal Special Leased Wire]

Norfolk, Va., Oct. 24.—Alarmed because nothing has been heard from the torpedo boat destroyers Barney, Crozier, McDonough and Wilkes, which left Charleston, S. C., several days ago bound for Norfolk, naval authorities tonight dispatched the destroyer fleet and the big submarine to search for the missing craft.

A wireless report telling of the sighting of the missing fleet on the 22nd is all the news the navy yard officials have received from the boats since they left Charleston.

The flotilla was due to arrive here yesterday. Efforts to locate the destroyers by wireless proved fruitless today, and as a last resort the fleet and submarine were ordered to search for them.

An unidentified torpedo boat destroyer passed out to sea tonight, showing signs of distress. It was seen in the search but her name could not be learned.

EMPALELLING NEW JURY TO TRY DR. HYDE

Three of Eighteen Veniemen Tentatively Accepted On Opening Day of Examination of Prospective Jurymen.

[By Morning Journal Special Leased Wire]

Kansas City, Oct. 24.—Only three of sixteen veniemen examined in the second murder trial of Dr. B. Clark Hyde for the murder of Colonel Thomas H. Swaine, were tentatively accepted as jurors by both sides here tonight. In all seventy-nine veniremen responded to the summons. Twenty-two were excused for various reasons, so there now remain only the second panel forty unexamined veniremen.

One of the new tentatively accepted, Nelson W. Talbot, of Grain Valley, Mo., said on examination that although he had lived in this country almost two years he had never heard of the Hyde case until he was summoned today. He readily was accepted by both sides.

TAFT IS WELCOMED IN ENEMY'S COUNTRY

President Makes 15 Speeches On Day's Trip Through Minnesota; Invades Wisconsin Tomorrow.

[By Morning Journal Special Leased Wire]

Minneapolis, Minn., Oct. 24.—After "invading" Kansas, Iowa, Nebraska, Washington, Oregon and California, states classed as "insurgent," President Taft today swept through Minnesota, making more than fifteen speeches. Tonight the president spoke in the auditorium here and tomorrow afternoon and evening he will be the guest of St. Paul. Thursday the president will cross over into Wisconsin, the home of Senator Robert M. La Follette, the acknowledged leader of the insurgents and the man slated to oppose him for the republican presidential nomination next year.

President Taft's welcome to Minnesota was cordial. United States Senator Knute Nelson, who has not announced whom he will support in the presidential race next year, Senator Clapp, who recently made a bitter speech against Mr. Taft in Chicago, and Congressman Miller and S. E. S. who are chosen as regulars and Congressmen Anderson and Hammond, insurgents, all turned out with Governor Elmer to extend the president a welcome. Senator Clapp was the guest of the president at dinner tonight.

At Menasha the president was driven in an open automobile for more than an hour in a cold, heavy drizzle. Rather than change the program the president entered the waiting automobile and refused to have the top raised.

The president went to luncheon at the Elmer club in net shoes and socks. Senator Clapp and several insurgent congressmen were seated with the president at luncheon and when he spoke he compared political conditions in the United States today with the conditions in the Philippines several years ago.

"It is a little difficult in these days to define what a republican is, and what a democrat is," said the president. "There are as many shades as there were in the Philippines when the organized national assembly."

"But there were some who really thought that those two parties were good in their patriotism and their desire for immediate change and immediate establishment of the republic in the United States."

"Then they organized another party which in order to 'put it to the test' and have it understood called themselves 'El Partido Independiente Expulso'."

"Now, gentlemen, we have any parties in this country. I am not going to say, but I only want to say that that is not the only country where they have great varieties."

At Randolph the president chatted informally with the crowd. He referred to the fact that he was in a farming community and suggested that the rain would be good for fall pastures.

"You see," said the president, "I am something of a farmer myself."

"Are the potatoes all in?" queried a voice.

"I am gathering them shortly," replied the president.

It was raining when the president reached Minneapolis, but Nicollet avenue, from the station to the auditorium, was lined with thousands. There was applause and cheering as the president passed.

The meeting at the auditorium was arranged by the Young Men's Republican club of this city, and the crowd there gave the president a noisy greeting.

Dr. A. C. Northrup, former president of the University of Minnesota, and a former instructor of Mr. Taft at Yale, presided. Dr. Northrup's mention of Colonel Theodore Roosevelt in connection with the beginning of the trust presentations brought out prolonged cheering.

The president spoke on the relation of government to business, repeating a large part of the speech he made at Waterloo, Ia., and has a score of other cities during his tour.

"Of course," said the president, "there is not the slightest foundation in such a statement. Of course I never had any understanding of any sort with any man I ever put upon the bench."

And the man of the men who make such a charge lightly, revealed the fact that they have no realization of the iniquity, the corruption that would be involved in such an understanding.

President Taft was cheered when he declared that the railroads were now trying to operate within the law and should no longer be made "the football of demagogues and politicians."

CHANGES MADE IN TORRANCE TICKET

Jose de Jesus Romero and Juan Cruz For Judge and Commissioner; Campaign Starts.

[Special Dispatch to the Morning Journal]

Estancia, N. M., Oct. 24.—Jose de Jesus Romero, for probate judge and Juan Cruz Sanchez, for commissioner, second district, are the two final nominations which complete the democratic ticket, one of the strongest ever placed before the voters of the county. Both these men are exceptionally strong among the native people and equally well respected by the non-natives, so that their election is a certainty. The campaign started at a lively rate this week, one party having started northeast to interview the voters and another east, the rest to join at Duran and spend the rest of the week together among the people.

One of the candidates of the opposition ticket has already conceded the election of Julius Myers for sheriff.

After exposure, and when you feel a cold coming on, take Foley's Honey and Tar Compound. It checks and relieves. Use no substitute. The genuine is in a yellow package always.

J. H. O'Reilly.

BURSUM MAKING A DESPERATE PLAY AT THE DAM

Spending Money Liberally to Hoodwink Voters at Elephant Butte; Is the Santa Fe Helping?

[Special Correspondence to Morning Journal]

El Paso, N. M., Oct. 22.—H. O. Bursum is making a desperate effort to keep down the majority against him in Sierra county, and as he can not make any headway in the precincts when his attempted \$25,000 county seat school is known, he is concentrating his efforts on the Elephant Butte precinct where there will be 3,000 votes and where his local record is not well known. He has political workers there in the guise of laborers at \$1.50 a day, who are told it is to save the head of the republican ticket.

There are also evidences that the Santa Fe railroad is taking a hand in Bursum's favor. The oldest conductor on the El Paso branch has abandoned his duties, it is said, and this morning got off the train and took a team for the dam to work for Bursum. This is a conscientious man who lives in El Paso with his family. He is known all along the line, and everybody is wondering just what induced him to attempt this work.

FATHER STABS YOUNG MAN ESCORT OF GIRLS

Triumph, Colo., Oct. 24.—Allen Fowler, former city treasurer of Triumph, tonight on the street in a crowded business section of this city, stabbed and instantly killed J. W. Bundy, 25 years old, who was in company with Fowler's two daughters. Fowler was arrested, but because of serious illness of Mrs. Fowler, he was allowed to go to his home accompanied by armed guards. Fowler would make no statement as to the cause of his act.

INSLEY MURDER TRIAL TO OPEN NOVEMBER 9

Present Plans of District Attorney Provide For Hearing of Case Immediately After the Election.

Thomas Insley, who stands charged with the murder of his brother-in-law, John A. Higgins, by shooting him with a shotgun on the night of March 7, last, will be placed on trial on Thursday, November 9, unless the present plans of the district attorney's office are changed.

Insley was indicted by the grand jury at its September term, but the immediate trial of the case has been delayed, owing to the political activity now on and the fact that fair week came in the middle of the term. No special venire of jurymen for the trial of the case has been summoned and will not be unless the regular panel, which was excused until after the election, is exhausted.

Insley has remained in the county jail since the night of the killing, having been unable to make the bond required by the district court at the habeas corpus proceedings.

WOMAN PHYSICIAN MURDERED AS SHE SLEPT

Indianapolis Police Baffled By Mystery Surrounding Violent Death Suffered By Dr. Helene Knabe.

[By Morning Journal Special Leased Wire]

Indianapolis, Ind., Oct. 24.—How Dr. Helene Knabe, former state bacteriologist, found in bed today, with her head almost severed by the slash of a knife, came to her death, remained tonight a mystery.

Jefferson Haynes, the negro janitor of the apartment house where Dr. Knabe lived, was detained on suspicion that he knew something of the circumstances of her death, but tonight the detective let him go after he had withstood for hours their attempts to draw from him incriminating information.

The theory of suicide, put aside earlier in the day, was revived tonight, but the police declared the evidence to indicate murder.

The knife with which Dr. Knabe was killed had not been found and the coroner and the police were of the opinion that if she herself, gasped her throat, she would not have had strength to have hidden the knife and then returned to her bed.

Haynes, the janitor, who had known Dr. Knabe for years, told the police that he went to bed in the basement of the apartment house at 11 o'clock last night. Dr. Knabe's apartment was just above. He was awakened in the night, he said, by three screams, apparently in Dr. Knabe's flat, but he went to sleep again without investigating. At 5 o'clock this morning he heard footsteps in the room above him.

It was 8:15 o'clock this morning when Katherine McPherson, Dr. Knabe's assistant, found her dead. Physicians, after an examination, agreed Dr. Knabe had been dead about six hours. The coroner stated that he could find no evidence she had been assaulted.

Dr. Knabe spent much time in studying her resignation from the position of state bacteriologist was caused by the pressure of her private

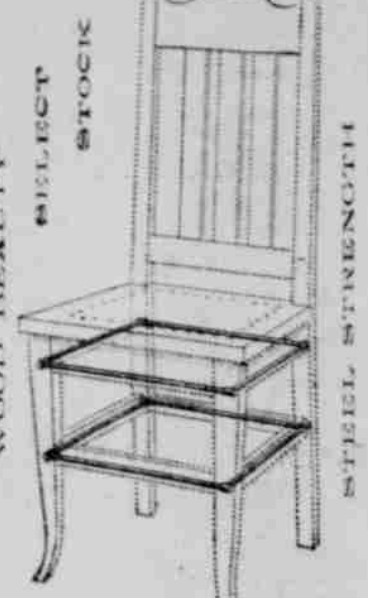

DEATH CLAIMS GRACE DARLING OF AMERICA

Next of Kin, R. L. Oct. 24.—Death today claimed the Lewis, keeper of Lime Rock light for more than half a century, because of numerous thrilling rescues, and frequently alluded to as the "Grace Darling of America."

The Lewis, at the keeper of the Lime Rock light, had saved eighteen lives, since at that great personal risk. Her deeds of daring carried her fame throughout the world and she received many honors including medals, a life pension and the thanks of congress.

WE'RE COURTEOUS TO HON. STROUP

Morning Journal Gets Merited Calling Down From Citizens of District 15; Hon. Stroup Didn't Talk Politics.

Our apologies to the people of district No. 15. It appeared that the statement made in this paper that most of the people at the meeting in that district lighted their lanterns and wended their way homeward when Hon. Stroup appeared to address the gathering was incorrect. We are informed that it was only a few old soreheads who left, the rest of the citizens having courtesy enough to remain and hear Hon. Stroup, who expatiated intelligently and didn't talk politics at all.

We congratulate Hon. Stroup on not talking politics but can hardly blame those who left for hastily departing when they had good reason to believe that he would talk politics. Hon. Stroup was invited to attend the exercises and that was all there was no politics about it. We yesterday received the following letter:

Editor Morning Journal: Dear Sir: In answer to an article published in your paper of October 22, I would like take a few exceptions to the illiberal and unjust manner in which the writer pictures the people of district No. 15. I want all of your readers to know we are not lacking in common courtesy. True, we held a meeting for the purpose of instructing or rather for the purpose of the district and to have a good time. Prof. Stroup and McCallum came down by invitation of the board of directors and each delivered a good and lively discourse on the value of education, which were well received, after which a beautiful luncheon was served followed by music and dancing until a late hour, everyone having a good time. Some lighted their lanterns and departed, except a few old sore heads, who did not wait for the program to start.

Respectfully,
R. W. Lott, Jr.,
Director No. 15, School Dist. No. 15.
J. S. HOWERS,
Secretary, District No. 15.

Gas in Your Stomach, Bloat and Pressure Around Your Heart

Cured, Cured to Slay Cured
With Baalmann's
Gas Tablets

Because BAALMANN'S GAS TABLETS are made especially for the cure of stomach gas. Gas in the stomach and bowels is not always dyspepsia, often it is nervousness or rather a nervous irritability of the stomach. BAALMANN'S GAS TABLETS is the only remedy in America made especially and distinctly to calm a nervous, irritable, gas-forming stomach. Gas simply cannot form after a few doses of BAALMANN'S GAS TABLETS because your stomach will be quite calm and in normal action.

Many other BAALMANN'S GAS TABLETS are so different from anything in existence, contain no coloring, no sugar, no chocolate, no pepper, no oil, no fat, no kind of drug, they are made for stomach gas only and cure. These tablets are sold for the cure of a truly very distressing condition. If not in stock tell him to get them for you from his wholesaler, or send 50c in silver, stamps or money order to J. Baalmann Co., 328 South Main Street, St. Louis, Mo.

W. COBURN COOK AGAIN WINS AS BEST ORATOR

Student Who Last Year Represented University at State Contest, Chosen For Honor This Year at Santa Fe.

With a splendid oration upon "Eugenics as Applied to Social Control," W. Coburn Cook last year's representative at the New Mexico Oratorical Association contest, won the honor of being chosen again this year at the meeting of the same association at Santa Fe during the Christmas holidays.

With the Elks theater comfortably filled, the three contestants appeared before the audience determined to win the coveted honor of being the University of New Mexico's representative at the state oratorical contest.

There were two other orators, R. S. Sedor, performed well with his original oration on "The Dawn of Peace," W. J. Higgins, aroused the audience with his tribute to Judge Ben R. Lindsey of Denver. However, the judges, B. P. Adams, T. M. Wilkinson and C. O. Cushman, were unanimous for Mr. Cook.

Rabbi Mendel Silber, noting down of the department of English and history, presided at the meetings and introduced the speakers, and two delightful solos by the Misses Pauline Cartwright and Adele Howell, which were well received by the audience, balanced the other portions of the program.

WORST DYSPEPSIA WILL GO IN FIVE MINUTES

Indigestion, Heartburn, Sour Stomach, Gas and Other Distress Vanishes After Taking a Little Diapepsin.

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapepsin occasionally.

Your food will taste good, and anything you eat will be digested without any effort or turn into acid or poison or stomach gas, which causes flatulence, distension, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach), belching, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Diapepsin from your druggist and start taking now, and in a little while you will feel about as healthy as a healthy stomach, for you then can eat anything and everything you want without the slightest discomfort or worry, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from indigestion or any stomach disorder, you can surely get relief within five minutes.

RECORD IN MINE CASE CONTAINS 1,005 PAGES

Attorneys in Litigation Affecting Torpedo Properties Worth Millions Prepare to Send It to Supreme Court.

A record containing 1,005 pages of closely typewritten matter is known as the Bulky and the examination of it by the members of the supreme court of New Mexico is an arduous task, yet that is just what the bulky is up against at its next term when it undertakes to go into the appeal of the famous Torpedo mine case of Oregon, N. M., which has been pending in the district court of Bernalillo county during the last nine months.

The attorneys in the case were yesterday busy with the final examination of the bulky and the record before it is sent to the clerk of the supreme court at Santa Fe.

The title of this famous case, involving property worth millions of dollars, is J. G. Taylor & Co. against George E. Fitzgerald and Nathaniel C. Foster. The case involves an alleged breach of contract and some stock sales.

EXCESS FEES TO BE PAID INTO SCHOOL FUND

COMMISSIONERS AND
TREASURER LOSE SUIT

Judge Abbott Issues Peremptory Writ of Mandamus Against County Board and E. Pinney in Celebrated Case.

Judge Ira A. Abbott early yesterday afternoon issued a peremptory writ of mandamus against the Board of County Commissioners and E. Pinney, treasurer of the county, directing that the excess fees of the collector and assessor, after deducting the salaries provided by law, which has heretofore been known as the "General Deficiency Fund," should be turned over to the "General School Fund" for the use and benefit of the public schools of the city of Albuquerque and the twenty-seven school districts of the county of Bernalillo. The amount of the excess fees in the hands of the treasurer was \$2,147.11 and in addition to the writ of mandamus, Mr. Pinney gave the school fund credit for that amount. The judgment of the court also provided that all future excess fees should be turned into the school fund.

The case came up for hearing yesterday upon agreement of counsel, and Collins and Stroup asked action upon their petition to intervene in the suit, which had been initiated by the school board of the city, on behalf of the school districts of the county. The court decided that they could intervene, and ordered that they be entered as parties, plaintiff.

Arguments were then heard relative to the merits of the application of the schools for the alternative peremptory writ of mandamus, following which the court issued an order granting the writ.

Synopsis of Court's Ruling.
The substance of the judgment follows:

"That the relators and the intervenors are the only parties beneficially interested herein, and are entitled to the relief asked for; that there is not a plain, speedy and adequate remedy in the ordinary course of law.

"That there has been paid into the General Deficiency Fund, and now in the hands of the defendant, E. Pinney, as treasurer of the said county of Bernalillo, the sum of \$2,147.11, out of the excess provided by Chapter 111 of the Laws of New Mexico 1909, an act entitled, 'An act regulating the compensation of treasurers and assessors of the several counties of the Territory of New Mexico,' approved March 19, 1909.

"That there has been paid out of the said fund on warrants duly drawn by order of the said defendants, the Board of County Commissioners of the County of Bernalillo, including all the sheriffs provided, outstanding indebtedness contracted during the prior fiscal years and for the payment of which no other provision has heretofore been made, of the said county prescribed to be paid in said act the sum of \$14,265.99.

"That the balance now in the hands of the said treasurer, namely the sum of \$2,147.11 and all future sums that may come into his hands from said excess except any which may be required to pay indebtedness provided for in the said act should under the law be placed in the credit of the General School Fund of said county. Let peremptory writ issue in accordance herewith."

Case Not to Be Appealed.

The board of county commissioners, it is understood, will not take the case further, but is glad to abide by the decision of Judge Abbott in the matter.

The case has been pending in the district court for about six months. The controversy came up at the meeting of the board of county commissioners, when the Albuquerque school board, feeling that it was about to run out of money for the conduct of the schools, made application on April 6, to the board for the money, at that time totalling a sum in the neighborhood of \$5,000 in the "General Deficiency Fund," to be turned over to the "General School Fund." The board, however, which had contracted for the survey of the county, felt that it would need the money for the survey, and hence refused the application.

The application was renewed by the school board of the city of Albuquerque and being refused on April 22, and three days after, through its attorney, R. W. D. Bryan, the school board filed application for a temporary writ of mandamus, preventing the treasurer from disbursing the money out of the fund, and also preventing the county commissioners from drawing on that fund for any money.

Since that time the matter has come up on demurrers and various motions on both sides to the controversy several times, until yesterday, when the writ of mandamus granting the relief prayed for was issued. This closes the case which at one time was thought could go to the supreme court, as it was intimated many times that the attorneys for both sides and received instructions to appeal in case of adverse judgment.

The money now in the "General School Fund" will once be apportioned among the various districts in the county, as well as to the school board for the city of Albuquerque. The decision comes at an opportune time as in many of the school districts there is not sufficient money to pay the teachers for a full term of school. The decision is thus of great benefit to the children of the county.

Many demands for money. In the city there are so many demands being made upon the board but it may be hard to determine in what direction the money should be sent. The growth of the city has been so great that the present school accommodations are decidedly cramped. The increase in the number of pupils is also being felt.

The school board has been very successful in securing the money for the city of Albuquerque. The importance of securing an early day for the school year and for additional buildings, which will be required, is being felt by the city of Albuquerque. The school board has been very successful in securing the money for the city of Albuquerque. A FEW QUERIES.
That the facts being driven home in this campaign by the Morning Journal are reaching the spot, is best shown by the eruptions of indecency which constitute the defense of Mr. Bursum and his ring. "Filthy Monkeys" and "Nasty Spiders" is a fair sample of the phraseology of the press bureau and its organs; a kind of persuasion which will not go a great way with the thinking men of New Mexico.
The manner of defense, moreover, is interesting as showing the desperation and consternation of Mr. Bursum's crowd.
Up to date quite a number of serious charges have been made against the various candidates whose election is advocated by the press bureau and the personal organs of the bosses. None of these have been specifically denied.
It is charged that Mr. H. O. Bursum, candidate for governor, while superintendent of the penitentiary, managed its affairs in such a manner that he was unable to account properly for the disposition of large sums of money. It is charged that a firm of registered accountants, from outside the territory reported books missing; found alleged disbursements accounted for by "check stubs" discovered that what had been reported had been kept, were badly scribbled, and in short, that the prison records had been kept as if by a one-armed Chinaman.
We rise to ask, was such a report made?
Was the correctness or incorrectness of this report ever passed upon by a court?
Did Judge A. R. Hall, attorney general of New Mexico, seek to have the correctness of this report determined?
Did Mr. Bursum, after the inquiry started, pay back nearly \$2,000 to the territory, saying he had withheld it "through error"?
Was H. O. Bursum removed as superintendent?
Was the attorney general a friend of Mr. Bursum?
Was the "referee," the checker Mr. Sanford, a friend of Mr. Bursum's?
Was his report a whitewash?
We would further ask, did Mr. Bursum try to persuade Governor Otero to withdraw his veto of the Hawkins bill?
Did Mr. Bursum assist in passing the Hawkins bill over the governor's veto?
Did Mr. Bursum date back a false certificate of registration at Magdalena to allow a Bursum man to vote?
Did Mr. Bursum shield from justice William E. Martin?
Did Mr. Bursum place at the head of his ticket in Socorro county a man accused of various kinds and degrees of crookedness, and who tore down, stamped upon and cursed the American flag?
Did Mr. Bursum nominate as his candidate for county commissioner a man removed from the office of sheriff for malfeasance?
Did he nominate a treasurer who had held the job eighteen years because he feared to let another man go into the office?
Did he force a man named Clemente Castillo, off the public domain in Socorro county, because he, Bursum, wanted "all the land around him"?
Did Mr. Bursum have anything to do with putting the seal of party regularity on a party held in this county which his own committee declared was crooked and irregular?
Is H. O. Bursum associated with Francisco Hubbell and Solomon Luna in the leasing of a "selection" of 33,000 acres of land in Socorro county?
Have Francisco Hubbell, his newspaper editors and employees, and his fellow bunkers managed the entire belt in this county from start to finish?
Is the entire press here supported by the contributions of New Mexico's corporations?
These are a few of the unanswered questions.
No attempt has been made to answer them. Indeed the press bureau devotes itself to making this newspaper and telling "eyewitness" and "analyst" at Herbert J. Hagerman, the honest and dejected young man who, in spite of the fact that the government which promised to back him got cold feet, and in spite of the fact

that he was fought bitterly for years by every gangster in New Mexico, is pushing his fight on corruption to a winning finish.
The Morning Journal has given and will continue to give the facts about the long career of F. A. Hubbell as a political boss and office holder in this county. Not a statement has been refused; instead Mr. Hubbell in his own personally owned newspaper, organized frankly against the mass of the people to help the corporations and bosses, has attempted to attack the present sheriff and future sheriff of this county, Jesus Romero, who has been chiefly responsible for the political ruin of Francisco. The worst thing he can say against Mr. Romero is that five prisoners escaped from a jail which was never locked during the days when Hubbell ran the county and when criminals who could make the necessary arrangements, were allowed to run at large.
The debate is two-sided; it can have but one outcome.
When the Bursum press bureau and Don Francisco refute a single fact regarding their candidates, there will be a glimmering of hope for the victory of the gang ticket; meanwhile every day is adding to the resistance power of the avalanche of votes which is going to sweep the Bursum-Hubbell-Luna ring into oblivion.
It is time to begin your defense, gentlemen.

SOLOMON AND HIS KINGDOM.
The greater part of the brains of the ring now seeking to overthrow popular government in New Mexico is the King of Valencia county.
The King is heavily interested in the local organ of the ring and has for years been the power behind the New Mexico gang.
Consequently the methods he pursues in his own county may be regarded as indicative of the methods of the political clique of which he is the patron saint.
The Morning Journal is informed by a representative of the democrats and progressives in Valencia county that the county jail has become an extension of the Valencia county because there is no need of it; sets who infinge the law are compelled to work out their penance herding the King's sheep.
We are told from the same source that while \$30,000 is reported to be "working" in a bank outside the county, the county has all the earmarks of bankruptcy; has no roads, has only dilapidated schools, is making no progress save where a few progressive citizens refuse to bend the knee to the King, and is staggering under a heavy debt for the payment of which \$25,000 was turned over some time ago by Torrance county as its share of the Valencia obligations. Torrance having been formed partly from Valencia. None of this \$25,000, it is stated, was ever applied to the payment of this debt. It is presumed that this \$25,000 is also "working"—in a bank outside the county.
In the name of the Declaration of Independence and the continental congress, is this government of the people?

Or is it an oppressive and despotic monarchy? Is it America, or is it Russia? Is it a Czar or a Sultan who votes the people alphabetically and delivers the necessary majorities when he gets the word from headquarters at the last minute? Is it an advocate of government by the people who instructs his sheep herders to vote in another county where their votes will be needed?

We are supposed to be now a part of the United States.
Do the voters of New Mexico want to turn the new state over to men who use the methods of the dark ages?

WHO SAID CRIMINAL?
The evening paper has a habit of cruelly misunderstanding us in which it excels. It says that we insinuated that Mr. R. B. Pollock, a citizen whom personally we highly respect and who we hope will remain long with us, was a "criminal"?
Now wouldn't that astonish you?
How the evening paper got this impression is a complete mystery. All we said was that Mr. Pollock is a candidate on Mr. Hubbell's personally conducted ticket; that he represents Arizona capital; that he is interested in one of the biggest cattle outfits in the state; and that he is a neighbor on the public domain of Messrs. Hubbell, Luna and Bursum.
We were unaware that these qualifications constituted a criminal.
Some time ago the evening paper accused Mr. W. C. McDonald of leasing public lands; and said:
"Declining to take the matter (that he is charged with leasing public lands) seriously will hardly avail Mr. McDonald in this emergency. MANY CRIMINALS have adopted the same method of replying to charges, with the result that a PRISON SENTENCE finally compelled them to take the matter seriously."
Excuse us—but who is making the insinuations about "criminals"?
Mr. Pollock is entitled to an explanation—from someone.

A CORRECTION.
For the benefit of the anxious public and out of justice to the people of Valencia, we wish to correct a misstatement made by this paper regarding Hon. Stroup's mass meeting at that place. We are informed that the number at the meeting instead of being eleven as alleged, was eight.
Tribune-Citizen and Almanac please copy.
The ethics of office holding appear to have been left out of the duke's education.

THE DRY FARMING CONGRESS.
That New Mexico dry farming products took thirteen first prizes and a big bunch of second and third ones at the International Dry Farming Congress at Colorado Springs—and that with a display which was far from complete—speaks volumes for the productivity of the un-irrigable areas in this state. That the exhibits were not more numerous and representative and that only eight delegates from New Mexico attended the congress, does not speak so well for New Mexico.
The enterprising districts which did send beautiful displays are deserving of the greatest credit, as is Professor J. D. Tinsley to whose earnest efforts New Mexico's showing was largely due.
Probably there is too much politics afoot at present for New Mexico farmers to take the proper interest in a dry farming congress—we shall do better next time. In the development and advertising of her sections where farming is profitable with the natural rainfall, New Mexico has great possibilities; and she must strengthen the dry farming organization recently formed and get in the game to win.
It is understood plans are on foot to have Prof. Tinsley conduct an agricultural demonstration train through the state. It is a big idea and a plan which has worked splendidly in other states. We trust it will materialize.

WHO OWNS IT?
The Trib-Herald-Citizen intimates that it repudiates its utterances of two years ago, giving us the impression that its ownership has changed since that time.
If this be so, we are most curious to know who owns the Trib-Cit. now. We respectfully beg that the evening paper will state in tonight's issue, who owns it, who are its statutory agents, and give us the names of a few of its heaviest stockholders.
We shall look for the names this evening. We are confident they will be forthcoming; for otherwise there would be no conclusion but that the Trib-Cit. was ashamed to tell.

THE HONORABLE W. E. MARTIN.
"The Honorable W. E. Martin" appears about twenty times in the last issue of the Socorro Chieftain. Mr. Bursum's paper.
This is just one more proof of the well known and long established fact that the Honorable William E. Martin is the close friend, the confidante, the comrade and the protégé of H. O. Bursum.
Does the Socorro Chieftain—or does Mr. Bursum—wish to give us the complete record of the career of the Honorable William E. Martin—so we may learn how he earned the prefix "Honorable"?
We are informed that the versatile Mr. Holt, another one of the gang candidates, is an attorney for the Santa Fe and travels on a pass. We would not for the world criticize him for this, but merely state the fact in case anyone is interested.
It is interesting to see the stand put Bursum press bureau endorsing that distinguished progressive, the Hon. T. Roosevelt—because in the case of the fight on the New Mexico machine, there was one time when the Colonel's nerve failed him.
In looking over the list of victims we note again the familiar names of H. B. Holt, of the Forty-Seventeen and Major William Henry Harrison Llewellyn, who once ceased to attend to his official duties as United States district attorney.
It is a great tribute to the worth of Jesus Romero that his bitter enemy can't find a thing to use against him save that two of Mr. Luna's prisoners, brought here to save wasting Valencia county money on a jail, escaped.

At treasurer of the state, The Honorable Sylvester Mirabal, Mr. Luna's candidate, would probably see to it that the state funds were "working" in the proper place.
It might be a good plan to allow Valencia county's money to begin working for the county.
The fate of the Taos political bank certainly carries a powerful lesson.

Mr. Bursum Has Bought Another Gang Organ
(Rio Grande Republican.)
There is little to be said in trying to explain to fair-minded people the position of the Morning Journal-Democrat of Albuquerque. The Journal is working from the standpoint that it was not used right in the state convention, because its supporters were not recognized by the convention. Re this just or unjust it is given as the original cause of the Journal's desertion of former standards and men. Now the real cause of the Journal going over to the democrats is money. The real reason the Journal is fighting Bursum for governor is money, democratic money. The subject of the Journal in featuring progressive, democratic and republican publications is money. The only reason the Journal has an opinion of any kind on any subject is money. So if you want an opinion that speaks well of you from the Journal, you must have money, and more money, than the other fellow has or you won't get it and the beauty of it all is that the Journal-Democrat won't deny a word of this unless they get the money for it.

GEOGRAPHERS WILL JOURNEY THROUGH ALBUQUERQUE
AMERICAN SOCIETY IS PLANNING EXCURSION
Most Distinguished Europeans Will Be Included in Six Weeks' Trek Across the United States.
Starting from New York late in August, 1912, under the direction of Prof. W. M. Davis of Harvard university, an international transcontinental excursion lasting six weeks will be conducted across the United States by the American Geographical Society, to celebrate the sixtieth anniversary of its foundation and the completion and occupancy of its new building, followed by a meeting in New York in the autumn of 1912.
The itinerary of this trip, which will be enjoyed by the most eminent geographers of Europe in addition to the American scientists, takes the excursion through Albuquerque and it is understood that an extended stay here with possible excursions to nearby points of geological interest is being planned. The Geographical Record has to say of the expedition:
The excursion will be directed by Professor W. M. Davis of Harvard university, who hopes to have the cooperation of a number of American geographers. It will be made in a special train, including sleeping cars, dining car and an observation car. The date of beginning will be placed as late in August as possible, in order to avoid the heat of the American summer; the date of the end must be little later than the middle of October, in order to enable European members to return home in time for university duties before the end of that month. The precise dates of beginning will be determined by later correspondence and by conference with interested participants who may be present at the International Geographical Congress at Rome in October, 1911.
The number of members will necessarily be limited to fifty or sixty persons (men only), of whom it is expected that thirty or more may be European geographers. Invitations to appoint delegates when the society may receive as members of the excursion have already been sent to fifteen geographical societies of Europe, in Amsterdam, Berlin, Bern, Brussels, Budapest, Christiania, Copenhagen, London, Madrid, Paris, Rome, St. Petersburg, Stockholm and Vienna. After information is received as to the European membership, it is intended that invitations be sent to a number of American geographers.
The route of the excursion as now planned includes the following points: New York, Chicago, St. Paul, Minneapolis, Butte, Seattle, (possibly) San Francisco, Salt Lake City, Denver, Grand Canyon of the Colorado in northern Arizona, St. Louis, Memphis, Chattanooga, Washington, New York. The features of the landscape will necessarily be the first objects of observation in an excursion across a continent, but attention will be given to various other matters as well, such as the relation of transportation lines to topographical features, problems of water supply and water power, corn and wheat on the prairies, cotton in the lower Mississippi valley, cattle ranching on the plains, various Indian tribes, Indian reservations in the western states, reclamation, irrigation, dry farming, forestry, etc., etc. The route will be changed should circumstances make it necessary or expedient. The monotony of overland travel will be relieved by providing all possible comforts of train equipment, by occasional nights in hotels, and by abundant discussions of geographical problems.
The meeting in New York at the close of the excursion will probably occupy two days. Foreign members of the party will be invited to make brief and informal communications on subjects that have excited their interest during the excursion, and to describe European parallels to American examples. Provision will probably be made for the subsequent publication of the papers thus submitted.
All correspondence regarding the excursion should be addressed to Prof. W. M. Davis, director, care of the Geographical Society, Broadway at 136th Street, New York.

FOLEY KIDNEY PILLS.
Supply just the ingredients needed to build up, strengthen and restore the natural action of the kidneys and bladder. Specially prepared for backache, headache, nervousness, rheumatism and all kidney, bladder and urinary irregularities.

BIG ROCK CRUSHER AT MOUNTAINAIR
Scholle Construction Company Employing 120 Men and Three Engines; Everybody For McDonald.
The Scholle Construction company is operating its rock crushing plant on a large scale at Mountainair, according to P. P. Durst, engineer for the company who was in the city yesterday. Mr. Durst says that 120 men are now employed and three engines are in constant use.
"Everybody's for McDonald out in the Mountainair country," said Mr. Durst yesterday. "You can't find a crowd of bursum's or a man who is going to vote for him, with a microscope."
Everybody's for McDonald out in the Mountainair country, said Mr. Durst yesterday. "You can't find a crowd of bursum's or a man who is going to vote for him, with a microscope."
Mineral is being vigorously pushed in the camp with all the big steam shovels busy. At Hurley, the first section of the big mill is busy treating ore.

Must Keep Politics Out of Schools.
Editor Morning Journal:
To a man interested most deeply in the welfare and progress of the schools of New Mexico, the present controversy between politics and education interests as represented most broadly between the present candidates for the state superintendent of schools, Mr. A. B. Stroup, and Mr. Alvan N. White, presents a most interesting problem. No one likes to consider the idea that the schools and all that they stand for are being used as pawns in a political game in which the winner is to take the spoils, indifferent as to whether the schools advance, stand still or degenerate. But such is the case at the present time in New Mexico and it is the duty of every citizen who has the interests of the new state at heart, to stand for the right in this most important of all questions now before the people of New Mexico.
No one would consider placing the most unfitted and incapable man in the educational system in the position of superintendent of schools. As we want teachers to keep books, farmers to farm, and preachers to preach, so by all means, should we demand educators to educate. And what we do not want are politicians for educators—something which by the very meaning of the words, sounds incongruous and out of place.
What we need most imperatively for a position of such a great and important influence as that of state superintendent of schools is a man who is an educator; a man who realizes that machine politics and education must be separated if the latter is to progress; who recognizes that his position calls for great experience and zeal; and who intends to use all his powers and experience for the good of education. Such a man, in the person of Mr. Alvan N. White, is now on the platform ready to undertake the duties of such an arduous office for the sake of education. He is an educator of wide and long experience, and a man eminently fitted for such a position as the people of New Mexico can rely on if they only choose.
On the other hand, opposed to such a man, we have the omnipresent evil of the political schemer. The politician is not fitted for educational work as a rule. Even though he may mean to do his best, which is rarely the case, he cannot have any deep comprehension of the needs and management of a great school system. People look with distrust upon the politician who attempts to become an educator. They question the sincerity of his motives, and small cause for wonder; for throughout the United States the schools and their heads have ever been made the spoils of the political schemer. Politics of the Stroup sort and education are incompatible. Mr. Stroup has been a politician, and politics and education are incompatible, we have agreed. Consequently, Mr. Stroup is ineligible for the office of state superintendent of schools, which is an educational office. Good sense demonstrates this.

Say what you will, it is to a great extent, the schools which determine the status of a community, of a country, of a state and of a nation. If we wish to move from one level to another about the first question we ask is "Do they have good schools there?" It is the standard of education maintained, the ideals indicated, and the ambition started in the mind of the child and the youth, that determine the level and work of the individual man, that determine his worth to the world. These things are accomplished partly in the church, partly in the home, and partly in the school. To have the school do its share. We must have worthy, competent teachers, ample libraries and facilities to fill the needs of the growing mind. And to accomplish these things we must have at the head of the school system a man who knows his work, and who through his experience and knowledge will pilot our schools to the same of attainment, regardless of politics, graft and corruption. Mr. White is the man. Do not let the opportunity pass by.

Pull together for the right man in the right place. When politics are eliminated from our schools you can point with pride to their growth and progress, and feel that this result came through in part, your efforts to keep from office men who have no right to be there.
Sincerely yours,
A UNIVERSITY MAN.

SANTA RITA CAMP LES OVER LARGE BODY OF ORE
Buildings May Have to Be Moved to Develop Large Deposits; All Steam Shovels Are Busy.
(Special Correspondence to Morning Journal)
Silver City, N. M., Oct. 24.—The prospect drills in operation at Santa Rita by the Chino Copper company have disclosed that the main part of the camp is located on an immense body of ore and it is believed that that part of the camp will have to be moved some distance, probably half a mile. There are a score or more of best buildings, some of them occupied by officers of the company, and a large \$10,000 school house. This building is of stone and will have to be torn down. It is said. The other buildings are all frame structures and can be easily moved to their new locations.
Mining is being vigorously pushed in the camp with all the big steam shovels busy. At Hurley, the first section of the big mill is busy treating ore.

GOOD FLOW OF OIL AT 70 FEET IN NEW WELL
Another Big Strike Reported From Seven Lakes District By the Gallup Independent Oil Co.
A report reached here from Gallup yesterday that the Gallup Independent oil company which recently started drilling a well some distance from the original well in the Seven Lakes field, has struck a good strong flow of oil at a depth of seventy feet and the indications are better as the drilling continues. That the second well is a good one is a fact which will go far to encourage the other outfits in the district now starting wells and there is every reason to believe that the Seven Lakes field is a winner and will develop into a great permanent oil district.

MCDONALD CLUB AT MELROSE
Large and Enthusiastic Meeting Held; Visit of Bursum Merely Adds More Votes to His Opposition.
(Special Correspondence to Morning Journal)
Clovis, N. M., Oct. 22.—A large number of local democrats went out to Melrose last night to be present at the organization of the McDonald club at that place.
Hon. T. J. Mabry and Judge Terrell, who was Mr. Mabry's opponent for the senate in the recent primaries, were among the leading speakers of the evening. Mr. Mabry stated that the meeting was one of the best from the point of numbers and enthusiasm that he had yet attended, and that many republicans openly pledged their support for the democratic ticket. There is absolute harmony among the democrats of Curry county, and Mr. Mabry stated this afternoon that a conservative estimate would place fifty per cent of the republicans in the democratic column for the state ticket. A prominent republican stated on the streets as Clovis yesterday that the principal effect of the visit of Mr. Bursum and his boosters had been to make the democrats more active and to help to alienate the progressive republicans.
Mr. Otis Jones and wife, and Messrs. Morgan and Ruhlman returned yesterday from Albuquerque, where they have been representing the Eastern Star and Masonic lodges of Clovis. These delegates express themselves very much gratified at the promotion of Mrs. Lesma Morgan to the position of Grand Conductress of the Order of the Eastern Star of New Mexico. They state that Albuquerque did herself proud in entertaining the delegates and giving glowing accounts of Albuquerque and of her present and future greatness.
These delegates are also very much pleased over the generosity of the western side in allowing eastern New Mexico three of the principal officers. Mr. Jones stated last night that the selfish feeling that he had heard existed on the west side did not exist in this meeting and fairness and honesty characterized the selection of every officer.
Mr. Jones is loud in his praises of Mrs. M. Alice Miller, Most Worthy Grand Matron of the World, and of C. O. Cushman and other leading Masons of Albuquerque.
The heavy snow that fell recently has left the farmers in this section in high glee over the prospects for an excellent wheat crop next year. It is reported that quite a large acreage of wheat has been planted in various sections of the county and the snow came in a very opportune time as the wheat was at the stage when moisture was needed.

Take Your Common Colds Seriously.
Common colds, severe and frequent, lay the foundation of chronic diseased conditions of the nose and throat, and may develop into bronchitis, pneumonia and consumption. For all coughs and colds in children and in grown persons, take Foley's Honey and Tar Compound promptly.

PROMPT SERVICE.

DEATH CALLS TO REWARD SAMUEL NEUSTADT
For Almost Forty Years He Was Citizen of Albuquerque and Prominently Connected With City's Development.
Death yesterday morning at 5 o'clock claimed Samuel Neustadt, a resident of Albuquerque for almost forty years and one of the city's most prominent and respected pioneers. The final summons came at the family residence, 618 West Copper street, and followed an illness of long standing, during the past several weeks of which it was known Mr. Neustadt was seriously sick. At the bedside were Mrs. Neustadt and their son, Alfred, aged nine years.
Mr. Neustadt was born in Westphalen, Germany, fifty-nine years ago. He emigrated to America when a young man and eventually took up his home in Albuquerque, which when he came comprised only the old town. Later he removed to the new town. He was actively engaged in various business enterprises for many years and was one of the foremost citizens to lend his aid and assist in building up the city, as a business man his reputation for honesty and integrity was proverbial and those splendid attributes were largely responsible for his success.
Though he took an active interest in matters affecting the community, he held but one political office, that of city alderman, which position he occupied uninterruptedly several terms, retiring voluntarily about three years ago. In this position he served with credit to himself and to the city.
He was a Master Mason, having been a member of Temple Lodge No. 6, A. F. & A. M., for a number of years. He also belonged to the Albuquerque lodge No. 361, B'nai B'rith, and was one of the charter members of Temple Albert congregation, being once its president and for many years a trustee.
The funeral will be held this afternoon at 2:30 o'clock at the family home. Dr. Mendel Silber, rabbi of Temple Albert, will officiate. Burial will occur in the B'nai B'rith cemetery, the Masons closing the services at the grave with the beautiful burial ritual of this lodge. Those chosen as pallbearers include personal friends of Mr. Neustadt of many years' standing, as follows: Brandtsfeld, Noa Heide, Louis Heide, David Rosenwald, David Weinman and Ben Jaffe.

FINANCE AND COMMERCE

Wall Street.

New York, Oct. 24.—In the absence of an impelling motive for trading on either side of the stock market, today's movements were of the nervous and fidgety character of recent sessions. Trading, in fact, fell to even smaller proportions, with a total of 152,000 shares for the day's business.

Outside participation is as small as at almost any time during the year. The standard stocks ended at about where they began, London took only a small part in the day's trading.

The first of September railroad reports were available today, showing a 400,000 increase in operating revenue which was balanced by an increase in expenses of about the same amount. The Rock Island railroad showed a heavy gain in expenses although it was more than balanced by the increase in its gross earnings.

The uniformity with which the railroads of the country up to a few months ago at least increased their expenses was shown by the combined figures of seventy-eight roads for their fiscal year. While operating revenue gained less than one per cent, the increase in expenses was more than four per cent. Only eleven roads revealed a reduction in expenses. Closing stocks:

for

Treasurer,

Bernalillo

County

good attendance is earnestly desired.
By order of the W. M. J. A. Miller,
secretary.Refugio Garcia, employed as a
messenger boy by the Postal Tel-
graph company, is mourning the theft
of his bicycle, which was stolen from
the front of the Postal office on Sec-
ond street between the hours of 1
and 2 o'clock yesterday morning. The
theft represents a considerable loss
to the boy, since without the wheel it
is difficult for him to fulfill his du-
ties.Following a conference which last
evening was held at the residence of
W. F. Thack, Chicago, superintendent of
the Santa Fe system, George Austin,
chief boiler inspector of Topeka; M. J. Drury, superintendent
of motive power of the western
grand division with headquarters at
La Junta, and other master machin-
ics of the Santa Fe lines in the south-
west, departed yesterday afternoon
and last night for their respective
headquarters.D. Garcia, yesterday evening be-
came possessed of the notion that he
was called upon to look into the
works of the automatic banjo in the
Arcade saloon, and he proceeded to
interview the works of the instru-
ment in spite of the remonstrances
of three of his fellow countrymen.
This caused a row which was not end-
ed until Acting Night Captain Alex
Jordan arrived on the scene and es-
corted D. Garcia to the lockup. The
charge against him was drunkenness
and disturbing the peace.District Forester A. C. Ringland
announces a conference of the super-
visors and deputy supervisors of the
forests embraced in district No. 3,
which will be held in El Paso Novem-
ber 9. Though Albuquerque is the of-
ficial headquarters of the district, El
Paso was selected as the meeting
place because it is more centrally lo-
cated for the meeting. Forestry of-
ficials from Washington are expect-ed to be present at the conference,
which is called primarily for the
purpose of discussing fire prevention
and fire protection.With Governor William J. Mills,
Mrs. H. Van Patten and Miss Jean-
ette Ward standing as sponsors, the
baby daughter of Mr. and Mrs. C. W.
G. Ward was baptized yesterday
morning at St. Paul's Memorial Epis-
copal church, Rev. J. S. Moore, rector
of that church officiating. Not every-
body is fortunate enough to have a
governor for a God-father. Miss Har-
riett Louise Ward, as the baby was
baptized, will always be proud of the
distinction. The two grandmothers
were favored in the choosing of
names.—Las Vegas Optic.W. D. Shea, traveling freight and
passenger agent of the Denver & Rio
Grande railroad, with headquarters in
Santa Fe, was an arrival here last
evening and will spend today in Al-
buquerque soliciting business for his
line. Mr. Shea is a leading democat
of Santa Fe county and predicts vic-
tory for this party in that county and
in the state at the coming election.
Al Murphy, political writer of the
San Francisco Examiner, arrived last
night from Santa Fe, where he had
been for a week past, and will con-
tinue his journey to the coast today
on the California limited. Mr. Mur-
phy is a veteran newspaper man and
one of the best writers in the country
on political subjects.LEAGUE OF FIRST
VOTERS TO
ORGANIZEYoung Men of Bernalillo Deter-
mined to Take Active Part in
Campaign For Clean Govern-
ment in County and State.A movement which has been on
foot among the young men of this
city in favor of honest government
and against gang rule, in behalf of
clean politics and against bossism,
took concrete form last night, when
a number of those interested, met
and made arrangements for a meet-
ing Thursday night for the purpose
of forming a First Voters' Club, to
be composed of those who have not
heretofore voted, and a number of
young men who have only been vot-
ers for two or three years.It is proposed to have a meeting
on Thursday night when permanent
organization will be perfected for this
campaign in the state and county. In-
vitations will be mailed to a large
number of young men today, and
personal invitations will be extended
to a large number more. Among those
who are interested in pushing the
proposition are R. K. Stamps, a prom-
inent young business man, Harvey B.
Ferguson, Jr., and Edmund Ross.The organization will be non-parti-
san in character with a membership
bound together for the purpose of
finally overthrowing Hubbellism in
Bernalillo county, and to assist in
the election of the best men for state of-
ficers.The meeting to be held tomorrow
night will be of an enthusiastic na-
ture, and will be addressed by many
young men who have never before
taken any part in politics in this city.
There will also be good eats, and short
smokes. The speeches will be short
and to the point, and there will also
be other features to the program.The gathering will give an oppor-
tunity for the young men of this city
to get together and become acquaint-
ed and to organize themselves into a
cohesive fighting force in the inter-
est of good government, and to dis-
countenance the evil influences that
are at present trying to beset the
fair fame of the city, county and state.CHAVES TO INVAD
KINGDOM OF
VALENCIAAccompanied By Antonio Lu-
cero Albuquerque Lawyer
Will Tour Don Solomon's Do-
minions On Speaking Tour.E. V. Chaves, the veteran democ-
rat leader, at the conclusion of speak-
ing engagements in Albuquerque this
evening and tomorrow night, plans to
invade the kingdom of Valencia. Mr.
Chaves will probably be accompanied
by Antonio Lucero, candidate for sec-
retary of state on the democratic tick-
et, and a number of other speakers.
Meetings have been arranged for Los
Chaves at noon Thursday; Jarales at
4 p. m., and at the Commercial club
at 7:30 on Friday evening. Elaborate
preparations have been made for the
Belen meeting and it is expected that
it will be one of the biggest political
gatherings ever held in Valencia
county.FINE PICTURES OF
THE VOLCANOESMatt Knapp and Party Get
Good Views On Excursion to
Extinct Blowholes Across the
River.Mr. and Mrs. Matt Knapp and party
on their recent trip to the extinct vol-
canoes across the river secured a
number of fine photographs, showing
the volcanoes at close range and as
far as known the only large photos
of these ancient "blow holes" in ex-
istence. Mr. Knapp and wife, travel-
ing photographers, expect to leave
in the near future for either Califor-
nia or Yucatan.
In which took the trip to
the volcanoes besides Mr. and Mrs.
Knapp were May Allen, Mildred Stur-
devant, Mrs. Bula Williams, Wind-
red and David Williams.
United States geological sur-
veys the altitude of the highest of the
volcanoes at 5,221 feet.GIRL'S BODY IS
EXHUMED FOR
EXAMINATIONPost-Mortem May Throw Addi-
tional Light On Death of Avis
Lennell For Which Pastor is
Accused.[By Morning Journal Special Leased Wire.]
Boston, Oct. 24.—Removed from
the grave in the cemetery at Hymms,
the body of Miss Avis Lennell, for
whose death by poisoning the Rev.
C. V. T. Richeson of Cambridge is be-
ing held, was brought back to Boston
tonight by order of District Attorney
Pettier.Uncertainty on the part of the
prosecution as to the exact manner
in which the young girl met her
death is reported unofficially to be
the reason for the sudden move and
the announcement by the district at-
torney's office that the state had en-
listed five medico-legal experts, gave
some strength to this report.Incidentally to the examination of
the body the officials will also make
a careful search of Miss Lennell's
bathrobe which was buried with the
body, for anything which might have
been used as a receptacle for the fa-
tal powder she took.It is understood that the examina-
tion of the body will be made at 6
o'clock tomorrow morning with only
the state experts in attendance.Richeson today addressed the fol-
lowing letter to his congregation com-
prising the Immanuel Baptist church,
Cambridge:Dear Brethren—I appreciate the
position in which the church is now
placed, but I ask its consideration
until after the preliminary hearing
or if the grand jury previously meets,
then until that time.Most fraternally
"Clarence V. T. Richeson."The next regular meeting of the
church will be held on Friday night,
the day after the grand jury is ex-
pected to begin its deliberations. The
letter will probably be read then. The
fact that Mr. Richeson asked consid-
eration until after the grand jury
meets was taken by his friends to-
night as strong indication of his
hope that the state will fail to make
a case against him.DEMOCRATIC RALLY
AT CARLSBADMcDonald Club Organized and
Voters Are Determined to
Make Record Showing For
State Ticket November 7.[Special Dispatch to the Morning Journal]
Carlsbad, N. M., Oct. 24.—The
greatest political assemblage in Eddy
county since the opening of the pres-
ent campaign was held in the court
house here this evening. The spec-
tacular court room was packed to over-
flowing and the speakers were cheer-
ed to the echo. Among those who ad-
dressed the gathering were Judge Mc-
Clure, candidate for district judge; K.
K. Scott, candidate for district at-
torney; H. H. Dow, G. U. McGraw and
Zack Cobb, the latter from El
Paso.The meeting was in strong contrast
to the republican gathering of a few
nights ago, when half the audience
went to sleep and most of the other
half left the hall while Mr. Clancy
was speaking. The people of Eddy
county have long held Mr. Clancy
in the greatest respect as a lawyer of
great ability, but it must be admitted
that he failed to make any great hit
as a public speaker on his recent tour
of this section.Mr. Cobb, who made the principal
address tonight, paid his respects to
the old gang, which he said had used
the name of a great political party to
masquerade under while seeking to
secure control of the state for their
own selfish purposes. He said that
while this is a sheep country, he did
not believe in a government kept in
power by the votes of the sheep and
for the benefit alone of the sheep
owner, but rather inclined to a gov-
ernment of the people and for the
benefit of the people. He showed in
his most convincing language why it
was necessary that the old gang
should be driven from power before
the new state was organized. He was
applauded to the echo when he
thanked the progressive republicans
for placing principle above party in
their fight for pure government and
righteousness in public affairs.At the conclusion of the meeting
a McDonald club was organized with
nearly 200 members. This organiza-
tion will work to see to it that the
voters of Eddy county turn out on
election day to the end that the
county may put its full vote on No-
vember 7. Some fear has been ex-
pressed, because of the lack of
opposition locally to the state ticket,
there might be a light vote polled,
but the men behind the McDonald
club are determined to prove that this
year is their year for pure govern-
ment. G. M. Cook was elected president of the
club with J. B. Harvey as secretary.

'MADE TO ORDER'
EXPLOSION IS
REAL THINGExperimental Coal Mine of
Government at Bruceton,
Pa., Wrecked When Test is
Made By Experts.[By Morning Journal Special Leased Wire.]
Pittsburg, Pa., Oct. 24.—The ex-
perimental coal mine of the United
States bureau of mines at Bruceton,
Pa., just outside this city, was wrecked
today by an explosion of coal dust
fired by black powder, touched off as
an experiment. The mine engineers
and coal operators who went to
Bruceton to witness the test, said
they saw one of the most remarkable
sights of their lives.While no person was injured, sev-
eral had narrow escapes. The village
of Wallace, two miles from Bruceton,
felt the explosion. Windows were
broken and the electric light plant
was put out of commission.
The explosion, while "made to order,"
was a huge surprise. Hundreds
of bags of cement, weighing forty
pounds each, were hurled from the
mine mouth with the force of a bul-
let and landed from 300 to 400 feet
away. The roof was blown off the
fan house, while a mine car near at
one of the openings to the mine was
sent flying across a creek and imbed-
ded in a hillside. Flashes shot forty
feet from the mine's mouth and large
pieces of concrete were blown great
distances.The local offices of the bureau of
mines had been making preparations
for the test to be made here, before
President Taft on October 31.About twenty-five persons were
present at the time of the explosion.
The powder was touched off and the
conclusion felled several of theMRS. CLAY.

ned tomorrow.Take Your Common Colds Seriously
Common colds, severe and frequent
lay the foundation of chronic diseas-
es conditions of the nose and throat,
and may develop into bronchitis,
pneumonia and consumption. For all
coughs and colds in children and in
grown persons, take Foley's Honey
and Tar Compound promptly.
J. H. O'Reilly.LaFollette's Daughter to Wed.
Louisville, Ky., Oct. 24.—As she
was leaving here for Washington to-
day, Miss F. A. LaFollette, daughter
of Senator Robert M. LaFollette, of
Wisconsin, told friends she would be
married at the capital Saturday to
George Middleton, playwright, to
whom her engagement recently was
announced.THE DIMAURO ORCHESTRA.

SILKS

A fortunate purchase of silks
of one of the foremost manufac-
turers, brings to you an excep-
tional value in a SILK CASH-
MERE, 26 inches wide, showing
35 of the most popular of the
Fall shades.SILK CASHMERE is a soft,
flexible silk, with a high lustrous
finish, having much more
body and better wearing qual-
ities than the average silk with
a satin finish and is especially
adapted for this season's gar-
ments.
