DEMANDS ON SPAIN.

Answer of the United States to
Spain's Peace Proposal.

President and Cabinet Differ on
the Philippine Question.

Standards at Manila Have Lost Hope of
Receiving Aid From Spain.

DESTRUCTIVE STORM IN MISSOURI.

Washington, July 30.—The answer of the United States to Spain's proposal for peace has been determined upon and drafted, though it yet awaits the approval of the cabinet. It is understood that the question as to the Philippines has been settled by leaving the government of the islands to the decision of a joint commission, under certain broad conditions to be required of Spain, these conditions being protective to American life.

THE PHILIPPINE QUESTION.
New York, July 30.—A special to the Times from Washington says: It has been said that there are nine opinions touching the Philippines in the cabinet—one for the president and one for each of his official family. When it came to the turn of the members of the cabinet to help the president out of the Philippine difficulty, Secretary Day was in favor of retaining only a coaling station; Secretary Taft was opposed, holding any thing whatever; Secretary Wilson would hold everything and defy the allied powers to object; Secretary Sherman preferred to hold Luzon and assert a protectorate over the other islands to secure a fair government to them from Spain; Secretary Bliss thought a coaling station and zone of operations at Subig or some other port would answer and there were modifications of these views, all given to the president for what they are worth.

DETAILS OF THE DEMAND.
The cabinet adjourned about 1 o'clock. As to the Philippines it was decided to leave their government open for the present, to be determined later by a commission to be appointed by the president. The United States needs territory to exercise control and jurisdiction over Manila, its harbor and immediately surrounding territory.

With regard to other questions than the Philippines the situation is as stated yesterday: Absolute cession to the United States of Porto Rico and all the islands of the West Indies, Cuba, Guadeloupe, Martinique, Guiana, French Guiana, and all the islands of the Caribbean Sea. The United States will exercise control there until a stable government can be established. The United States will exercise control there until a stable government can be established. The United States will exercise control there until a stable government can be established.

It is learned that a Spanish-American commission is to have charge of the entire question of the terms of peace on the condition, however, that the Spanish troops are removed immediately from Cuba and Porto Rico, and that the United States shall have one of the Ladrone Islands also. The president has decided that the statement he intends to be made public as to the reply to Spain, shall not be given out. The proprieties of diplomacy require that such shall not be published before it is known to have reached the nation addressed, and even then a reasonable time must be allowed for answer.

NO DISSENT WILL BE ALLOWED.
The army team, very distinctly given warning that at the proposition to surrender all sovereignty in West Indian waters and the selection of an island in the Ladrone group is to be decided by the United States, the government is to make the selection later. In demanding a surrender of Spanish sovereignty in all nearby waters, the reply diplomatically avoids making any pledge as to what is to be done by this government as to Cuba.

While the cabinet was in session a significant telegram was received from Admiral Dewey. It announced the arrival of Maj. Gen. Merritt and the expedition with him at Manila, but graphically painted the uncertainty of the future there. The dispatch, which has not been made public, says in its important features, largely guides the cabinet in its disposition of the Philippine problem. Without the words Admiral Dewey announced that Aguinaldo had assumed a bold attitude of defiance, and there were strong indications that the Philippine insurgents themselves would have to be fought. Based on this depiction of the gravity of the situation there, it would take 150,000 soldiers from this country to cope with the insurgents throughout all the islands.

Deference of the final disposition of the Philippine problem was based substantially on the following grounds:
First.—The United States has no satisfactory knowledge of existing conditions there.

Second.—Nothing is known of what obligations were incurred as between the United States forces and the Philippine insurgents.

Third.—The present definite attitude of the insurgents is unknown.

Fourth.—The extent to which Aguinaldo controls the islands of the Philippines is unknown.

Fifth.—Incident to the foregoing it is not known what would have to be done by this government in subjugating the insurgent forces, Spanish and natives.

The French ambassador left the White House, his call having lasted two and three-quarter hours. At the close of the conference it was announced that the answer of the United States had been placed in the hands of the French ambassador, and nothing could be said as to its nature until it had been received by the Spanish government.

DESTRUCTIVE STORM.
Two Missouri Counties in the Path of a Cyclone.
St. Joseph, Mo., July 30.—A tornado passed over the southern part of Buchanan and Clay counties late yesterday, doing immense damage. The territory devastated was ten miles long and a half mile wide. Mrs. Coyle had both arms broken. Six farm houses were leveled. Many horses, cattle and hogs were killed. The families of the farmers whose houses were destroyed escaped by cyclone cellars and caves. The damage is estimated at between \$40,000 and \$50,000.

DISCOURAGED SPANIARDS.
Manila, Gen. Merritt Waiting For Help That Will Never Come.
Manila, July 30th, via Hong Kong.—The Spaniards are gradually realizing that Spain has not been victorious, and that the expected reinforcements are not coming and that the contest is utterly hopeless. The insurgents are in overwhelming numbers. The Spaniards can only obtain the bare necessities of life. Only a fortnight ago the Spanish national pride was rampant, but it is now merging into indignation at Spain's feebleness and regret that Spain's men were Spaniards. While they may not surrender without a fight, the Spanish officers will jump at the first honorable opportunity to surrender.

Fighting in the suburbs is desultory and the Americans are idle. This has given rise to a report that they had been able to establish their superiority. Under the circumstances it seems evident that somebody must interfere in the name of humanity.

ALBUQUERQUE, — JULY 30, 1918

THE Porto Rico campaign is a picnic for the American army.

GEN. SHAFER reports the total number of cases of fever in the army at Santiago at 2,134.

THE people of New Mexico will be compelled to take stringent measures to stamp out small pox in the territory.

THE government of the United States has offered most generous terms to Spain—too liberal, in fact—and it will be a sad day for Spain if they are rejected.

SPAIN, says a statistical report, is smaller than Texas by 75,000 miles, and the interesting feature is that Texas is helping to make her still smaller.

GEN. BLANCO should be kept in this country. He is such a cheerful type—writer warrier that a ten cent novel publisher house could use him to advantage.

SPAIN has more blind men than any other state in Western Europe. The proportion is 148 to every 100,000, while in France, Germany and England it is 84, 85 and 88 respectively.

POPULATION of the United States, July 1, 1918, estimated at 74,322,000; circulation, per capita, \$34.74. Increased circulation for month, \$3,337,493. Gold coin increased \$11,387,999.

THE feature of Commodore Schley's report which attracts special attention is the liberal praise which he bestows upon his men. His generosity, however, does not exceed its modesty, and its spirit throughout is admirable.

If a campaign against Havana should be necessary in the fall, there will be 150,000 seasoned troops ready to be thrown against the city, and if needed, 200,000 men can be placed in the field, who will make short work of the city.

THE action of Aguinaldo, the Philippine leader insurgent, in setting himself up as dictator, when he owed his elevation to Admiral Dewey, has caused the people of the United States to wish to keep hands off and let the Spaniards continue to rule these islands.

In Cuba the Spanish merchants are glad to receive the United States paper money or gold, but they do not want to accept silver, because the silver coins they have been accustomed to use are worth only their bullion value, and they assume that the United States silver money is on the same basis.

No battle in the Mexican war cost the American army as long a casualty list as that of July 3 at Santiago. But General Worth lost at Molino del Rey a fourth of his 3,500 men, including 58 officers. The percentage of casualties was double that at Santiago. At Monterey and Cerro Gordo the American loss was 500 each, and at Buena Vista less than 800.

UNDER THE FLAG
One of the important results of the annexation of the Hawaiian Islands is the bringing in of a large merchant fleet under the flag. There are fifty-three of them, including twenty-four steamers, four full-rigged ships, ten tankers, and seventeen schooners. Most of them are engaged in inter-island trade. From this day on the American merchant marine will grow rapidly, and the navy will be increased to protect shipping flying our flag. Our own people will build these ships, and they will cost less than those of any other country, and be superior to others, too.

VETERAN SOLDIER.
A few days ago K. Leon Dubois was appointed postmaster of Old Albuquerque. There appears to be considerable opposition to his holding the office, the principal objection being that Mr. Dubois only a few months ago removed from Valencia county to the old town. Of his war record Mr. Dubois is justly proud. The news says:

K. Leon Dubois, the newly appointed postmaster in the old town, is one of the oldest and most renowned residents, having come to Albuquerque in 1856, remaining until 1861, when the army headquarters were removed. He then was made first lieutenant in the First New Mexico Infantry, serving until the close of the war, and was engaged in the battles of Pecos and Val Verde. If any one in this community is entitled to recognition for services done, it is Mr. Dubois.

THREE MONTHS OF WAR.
April 25 the congress of the United States passed a resolution declaring war, three months later, July 26, Spain asked for peace. Within three months the United States organized, equipped and mobilized a formidable army and waged successful warfare in two hemispheres, being uniformly successful in all military operations on land and sea.

Here are a few of the net results: The Spanish navy has been practically destroyed. Thirty-five warships of the

enemy, valued at \$26,400,000, have been wiped out, as follows: At Manila 11, at Santiago 6, at Mazatlan 3, at Port of Spain 4, at Porto Rico 1, at Cardenas 3, at Mariel 1. And this has been accomplished substantially without American losses. Only one American vessel, the torpedo boat Winslow, was even temporarily disabled, and the Winslow was easily repaired within a few days and returned to its duty.

Under the pending peace negotiations lead to a different conclusion the war will result in adding to United States territory the Philippine Islands, the Ladrone Islands and Porto Rico. An entire province of Cuba, comprising 8,000 square miles, already is under the American flag.

The American losses, not counting the victims of the ill-fated Maine, thus far aggregate 296 killed and about 1,400 wounded; only a very small proportion of the latter will be permanently disabled. The Spanish losses aggregate 1,995 killed and about 3,000 wounded. In the province of Santiago 24,000 Spanish prisoners have been taken, and Dewey has about 2,000 more at Manila.

The actual expense of the war up to date aggregated about \$150,000,000, and the entire American army numbers 278,500 men, although a large proportion of the troops, now under arms and ready for service, have not been sent to the front.

WAR INDEMNITIES.

While people are speculating as to the amount of indemnity the United States will demand from Spain, a little history as to war indemnities may be of interest. In 1878 Russia demanded \$25,000,000 of Turkey, but accepted some real estate and \$250,000,000, but this money is still unpaid. Prussia got some territory and \$50,000,000 in cash from Austria at the close of the short war in 1866. At the close of the Franco-Prussian war, in 1871, Germany wasn't satisfied with Alsace and Lorraine, but demanded \$1,000,000,000 besides, which she got. Japan pocketed \$175,000,000 as the result of her row with China in 1894, and Turkey called it quits with Greece last year after collecting \$20,000,000 and making a few annexations.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised me to try 'Brunner's Kidney' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle, at J. H. O'Reilly & Co.'s drug store.

The services in the First Presbyterian church to-morrow will be as follows: Sunday school at 10 a. m.; public worship at 11 a. m., subject of sermon, "When Lies the Power of Christ Upon Men," T. P. S. C. E., at 7 p. m.; public worship at 8 p. m., subject of sermon, "What is Meant by 'Coming of Christ'." These services will be conducted by the Rev. R. M. Craig, superintendent of Missions. The public is cordially invited.

Controlling the Price of Wheat.

Events during the past few months in the Chicago wheat pit has shown how powerful one man can be. Throughout the whole of civilization the increase in the price of bread has been felt. This power of a single man, however, is not so great as that of a single medicine in relieving and curing many diseases. This is Brunner's Kidney Pills, and its influence for good extends to all lands. When the month lasts badly in the morning, when appetite is lost, when dizzy spells come on, when you are easily tired and have no desire to work, take a wingglass of the Bitters before meals and you will feel like a different person. This one medicine controls the health of everybody.

After "Broncho Bill."

The Solomonville Bulletin, in an article on the pursuit of "Broncho Bill" and Johnson, the noted train robber and murderer, says: "It has been proven without a doubt that 'Broncho Bill' and his partner Johnson attended a dance at Geronimo last week. He spent \$800 in the town and purchased the new suit of clothes and other articles from J. N. Porter, merchant at that place. Detective Tucker and posse went through last Wednesday, the 13th inst., and seized their horses at Thomas and started for the Black River. 'Broncho Bill' does most of the dancing while Johnson stands watch around the door. Bill got too much liquor on board at the dance and because a girl refused to dance with him he pulled both his six-shooters and cleared the hall. They bought every carriage in town that would fit their guns and left again for the hills."

Buckley's Arsenic Salve.

Hospital Association.

The charter of the Santa Fe Pacific Hospital Association has been filed in Secretary Waller's office at Santa Fe. The association is incorporated by Geo. W. Smith, Joseph H. Kuhn, C. H. Fancher, Harry Hoyer and T. M. Ransdell. The objects of incorporation are to maintain hospitals and to provide medical and surgical treatment for the employees of the Santa Fe Pacific Railroad company. The location of this corporation and the place where its business is to be transacted is along the line of the Santa Fe Pacific Railroad in New Mexico, Arizona and California.

The W. C. T. U. will hold a gospel temperance meeting in the Albuquerque College building to-morrow morning at 9 o'clock. All friends of the cause are cordially invited to be present.

NEW MEXICO NEWS.

CERRILLOS AND MADRID.

From the Register.
Mrs. J. S. Langston returned from Topeka, Kansas, a few days ago, and will continue to make every effort to have the Spanish people vaccinated or vaccinated upon physicians' or vaccination virus are growing frequent. This is explained by the large number of emigrants from Spain, and the fact that the virus is being carried to the United States by the immigrants. On the 15th, a little daughter, on the 23d another little lady put in an appearance at the home of Mrs. J. S. Langston. All parties reside at Madrid.

Henry Nuss, a brother of Mrs. John Krick, arrived in Cerrillos recently. He was here about the time the Spanish influenza was making its appearance in Cerrillos. He has entered the employ of Mr. Krick.

The little son of Mr. and Mrs. Ed. Ortofer, of Cerrillos, died last Tuesday after an illness of several days. An unfortunate circumstance connected with the death was the absence of Mr. Ortofer, who had several weeks ago gone into the southern part of the territory in search of work. He could not be contacted with in time to be present at the funeral, which occurred on Wednesday afternoon.

A fatal accident occurred in the Cook & White mill at Madrid on the night of the 25th, by which Jose Teoria, a Mexican miner, lost his life. He was caught beneath a great fall of rock and was so badly injured that death resulted on the 25th. The internment took place in Cerrillos on Wednesday the 27th. Deceased was a married man and leaves a wife and no children.

A serious accident occurred to Mrs. P. G. Sanchez and Mrs. Abel Garcia, of Madrid, on Tuesday. While out driving the horse becoming frightened, managed to overturn the buggy, throwing both ladies out. It was feared at first that both were seriously injured, but happily nothing more than a bad shaking up and a slight cut on Mrs. Sanchez's head resulted. The wonder is that both were not killed. Mrs. Sanchez's baby escaped with only a slight bruise.

SANTA FE.

From the New Mexican.
The windstorm Wednesday night made the Albuquerque contingent visiting here feel at home for a few minutes.

Colonel K. W. Johnson, Albuquerque, drove in from Lamy Thursday morning, and is attempting to business before the supreme court.

Miss Lora G. Weir returned from her home in La Porte, Ind., Wednesday night, and will remain in Santa Fe the coming fall and winter.

First Sergeant W. E. Dams, Troop E, "Rough Riders," has been promoted to a second lieutenant and assigned to Troop F, Captain Max Luna's Troop.

Sigal Lebow has received the intelligence of the death of his father, J. W. L. Lebow, which occurred at Mt. Vernon, Mo., on July 15. The deceased was 63 years of age.

Mr. and Mrs. W. N. Spranger went north to their home at Mesa, Colo., Thursday. They have been in the Pass on a visit. Mr. Spranger is the manager of the Mesa Milling company's plant at Mesa.

H. F. Alpe, a graduate of the Colorado Agricultural College, whose house is at Loveland, Colo., has been appointed assistant to Observer Harrison, of the weather bureau in Santa Fe. Mr. Alpe has already assumed his duties here.

Reese Smith, the insane man who has been chained to the floor of his cell at the jail, has had the chain removed and is allowed the liberty of the yard. He has greatly improved in his condition, and promises that he would not again attempt to escape, as he had twice before.

The normal institute for Santa Fe county will be held in this city for two weeks commencing August 15. The institute will be conducted by Professor Luskard of Santa Fe. The principal of the territorial normal school at Las Vegas, Professor Hewitt, has consented to give a week of his time to the institute if necessary. A large attendance of teachers is hoped for. Teachers' examinations will be held immediately after the institute closes. County School Superintendent Escudro P. Pino will attend the institute.

W. E. Walter, of Silverton, Colo., who passed through Santa Fe last week on his way to the mines, is now in the city on his way home, to recuperate from injuries received by the falling in of a mine at the mine where he was at work. The cave-in was very serious, several men being killed and others wounded. Mr. Walter had been attending to his duties but a day or two when the accident happened.

SILVER CITY.

From the Independent.
A mortgage deed on which there were revenue stamps to the amount of \$27.50 were filed in the office of Probate Clerk Young last week.

The Silver City National Bank has inaugurated the practice of closing the noon hour and business men are rapidly accustoming themselves to the change.

Attorney James S. Fielder has determined to appeal the case of the territory vs. Redford Jobe, who was convicted of murder, at the recent term of Sierra county court and is now serving a term in the territorial penitentiary.

Mock Kee, the Chinaman who stabbed and killed old man Jobe, and who was adjudged to be insane, is now in the county jail, Grant county's quota at the Las Vegas insane asylum being filled. There are four other insane patients in custody here.

A cowboy by the name of Robley, in the employ of the L. C. Co. was thrown by a horse at the White House the other day, sustaining a broken shoulder and several bruises. He was brought to Silver City and taken to the sister's hospital. The horse was killed by the fall.

County Health Officer Dr. E. B. Strathairn returned from his second trip to the Mimbres river. He found that there had been no increase in the number of cases of typhoid fever, and was proportionately pleased. Strict quarantine regulations were being enforced by the local authorities. Dr. Strathairn made over two hundred additional vaccinations. So far as Grant county is concerned the prompt action of the officials has practically stamped out the dread disease.

LAS VEGAS.

From the Optic.
Luisa Pace is dangerously ill with typhoid fever.

Shan Rodde, the proud proprietor of the Antlers, is the proud "dad" of a brand new girl, Branda. Billy Cavallins is treating his friends over the event.

Leroy Hilfick, the new agent for the Wells Fargo & Co. express, formally took office at his new office on Wednesday, retaining Walter Birdsell, who was in temporary charge.

Our Annual Midsummer Sale

FROM TO-DAY, until further notice, we will offer our entire stock of summer goods at prices to set them moving. This is not a money making sale for us, directly, but we believe it to be for our interest by clearing out this season's goods at cost, or even below cost, in order to get a fresh stock for the coming season. One of the members of our firm is going to the eastern markets within a few weeks and new goods will begin arriving within a month. We need room, and we need above all, MONEY. The Almighty Dollar will be mightier in our store within the next few weeks than it has ever been before, and that is saying a great deal. Don't let below prices mislead you as to quality. There's not an article mentioned that isn't worth almost double. You will agree with us when you see the goods.

Something must be done to regulate the mail facilities out west. It seems almost impossible for subscribers in towns along the Santa Fe Route to get their papers regularly, and they attribute the fault to the fact that the mails are usually carried past the towns intended, showing conclusively that some one on the trains are responsible.

ROSENWALD BROS.

THERE WILL BE NO CIRCUS.

The Board of Health Act Promptly in the Matter.

THE COMMISSIONERS WILL CO-OPERATE.

In connection with the agitation that Hall's circus must not be allowed to show or parade in this city, on account of public safety, the meeting of the city board of health, held yesterday, developed the following resolution, which was unanimously adopted:

"Resolved, That to avoid the spreading of contagious disease, all public processions or parades shall be prohibited within the limits of the city of Albuquerque for the next two months, and all exhibitions by troupes or companies coming from any district infected with contagious disease shall likewise be prohibited within the said city during the time aforesaid."

Immediately after the adoption of the above resolution and the board had adjourned, City Marshal McMillen was empowered with authority to telegraph to the management of the circus, coming this way, of the action of the board of health, and instead of receiving an answer to the telegrams sent, George Nolan, who will take the management of the circus from this city, arrived from Socorro last night.

It is learned that Mr. Nolan is to-day figuring on "how to show in new town, provided he can get the license renewed," but as the idea to stop the circus from appearing here altogether is quite universal it is evident that his bland, persuasive words will be wasted upon the desert air.

Hon. Thomas A. Finckel, district attorney, was seen this morning in regard to the matter, and he stated that if proper steps are taken the circus could be stopped from unloading at this place. The district attorney also stated that Hon. Jesus Romero, the popular chairman of the county commissioners, sent him word this morning that the board of commissioners would heartily co-operate with the city board of health, in its efforts to stamp out contagious diseases, and if necessary, to prevent Hall's circus from appearing in either the old or new towns of Albuquerque.

At this hour (4 o'clock p. m.) it is thought that Hon. F. W. Clancy, mayor of the city, would return from Santa Fe this evening, but if he should fail to materialize, there are a majority of the city council in the city, and they will not doubt hold a special meeting this evening or to-morrow and sustain the firm stand of the city board of health in the matter.

Railroad Officials.

W. J. Black, the popular general passenger agent of the Santa Fe railway, was seen this morning in the White building, to-day removed to No. 321 south Second street, securing larger and more commodious quarters.

To-morrow morning at 10 o'clock the clerks of the city will hold a meeting at the drug store of R. Ruppe, when an effort will be made to effect a permanent organization.

Paul Myers, manager of the Mutual Automatic Telephone company, will leave this evening for Chicago on a four weeks' vacation.

LADIES' SHIRT WAISTS.

They are all this years' styles, perfect in fit and workmanship, and not to be compared in quality to many inferior goods offered at so called Bargain Prices.

We offer them at our actual cost to close them out. They go now from 45c to \$1.25

Former price 65c to \$2.50.

LADIES' SKIRTS.

Six weeks ago we had 250 skirts on hand, now we have 50.

That's a great many more than we want to have when our new ones come in. We have only the better qualities left, in black and colors, now for \$1.75 to \$3.00.

They were \$2.75 to \$5.00.

Equal bargains in all other departments which lack of space does not permit us to mention.
