## NATIONAL ISSUES PROMINENT IN SEVERAL STATE ELECTIONS

Interest Centers in Contest in  
Massachusetts Where Foss  
Is Opposed For Second Term  
By Frothingham.

### DEMOCRATIC GOVERNOR CLAIMS 50,000 MAJORITY

On Other Hand Republican  
State Committee Believes  
Their Candidate Will Win;  
Fights in Other States.

Elections will be held in several states tomorrow, but the result in Massachusetts will probably be awaited with most general interest as the campaign there has the most clearly defined issue. The Bay State republicans have made the tariff an issue in an attempt to prevent the reelection of Governor Foss.

State tickets will be elected in Maryland, Kentucky and New Mexico, but in none of these states has a prominent national issue been brought about. New Mexico will choose its first governor. A multitude of candidates will give the electors of the new state an unusual variety to choose from.

California women will have their first chance to vote tomorrow except in San Francisco, where they were unable to register in time for election, after the passage of the equal suffrage amendment.

### TARIFF THE ISSUE IN MASSACHUSETTS

Boston, Nov. 5.—With a resounding sense that their action may be regarded as a political weather-vane for next year's presidential contest, the voters of Massachusetts on Tuesday will decide whether Governor Eugene N. Foss, democrat, shall be elected for a second term or whether his opponent, Lieutenant Governor Louis A. Frothingham, shall return the state to the republican column.

Other state officers and a new legislature also will be elected.

National issues have played an unusually important part in the campaign. The tariff has been a fruitful theme.

In the closing hours, Governor Foss added an interesting issue by asking Suffolk county district attorney to take action against republican leaders both in and out of the state, including former President Roosevelt, the two Massachusetts senators, republican committee members and prominent corporations on the ground that the laws of the state prohibiting the attacking of candidates by means of unsigned articles had been violated.

He declared also that the republicans had been asking political contributions from corporations, which is against the law.

Governor Foss claims a victory by fifty thousand while the republican state committee thinks Frothingham will win by thirty thousand.

### MARYLAND WILL ELECT NUMEROUS STATE OFFICIALS

Baltimore, Md., Nov. 5.—Maryland on Tuesday will elect a governor, a comptroller of the treasury, members of the house of delegates and half the membership of the senate.

State Senator Arthur P. Gorman, of Laurel, son of the late United States Senator Gorman, is the democratic candidate for governor. His republican opponent is Philip Lee Goldsborough, of Cambridge, collector of internal revenue at Baltimore.

The democrats regard the state as normally democratic. The republicans have made the alleged extravagant expenditures of the last legislature, which was controlled by the democrats, their principal issue.

### NEBRASKA WILL CHOOSE ONE NEW CONGRESSMAN

Omaha, Neb., Nov. 5.—In the election to be held in Nebraska next Tuesday, general interest centers in the choice of county officials.

In the third congressional district, however, where a successor to the late Congressman James P. Latta is to be elected, the campaign has been brisk. For this office Dan V. Elliott, democrat, opposes James C. Stevens, republican.

The following state officers will be voted for:

Three members of the supreme court, two regents of the state university, and one railroad commissioner.

Five political parties—the republican, democratic, populist, socialist and prohibitionist—are represented on the ticket. No constitutional amendments are to be voted on.

### BOSSISM ISSUE IN NEW JERSEY CAMPAIGN

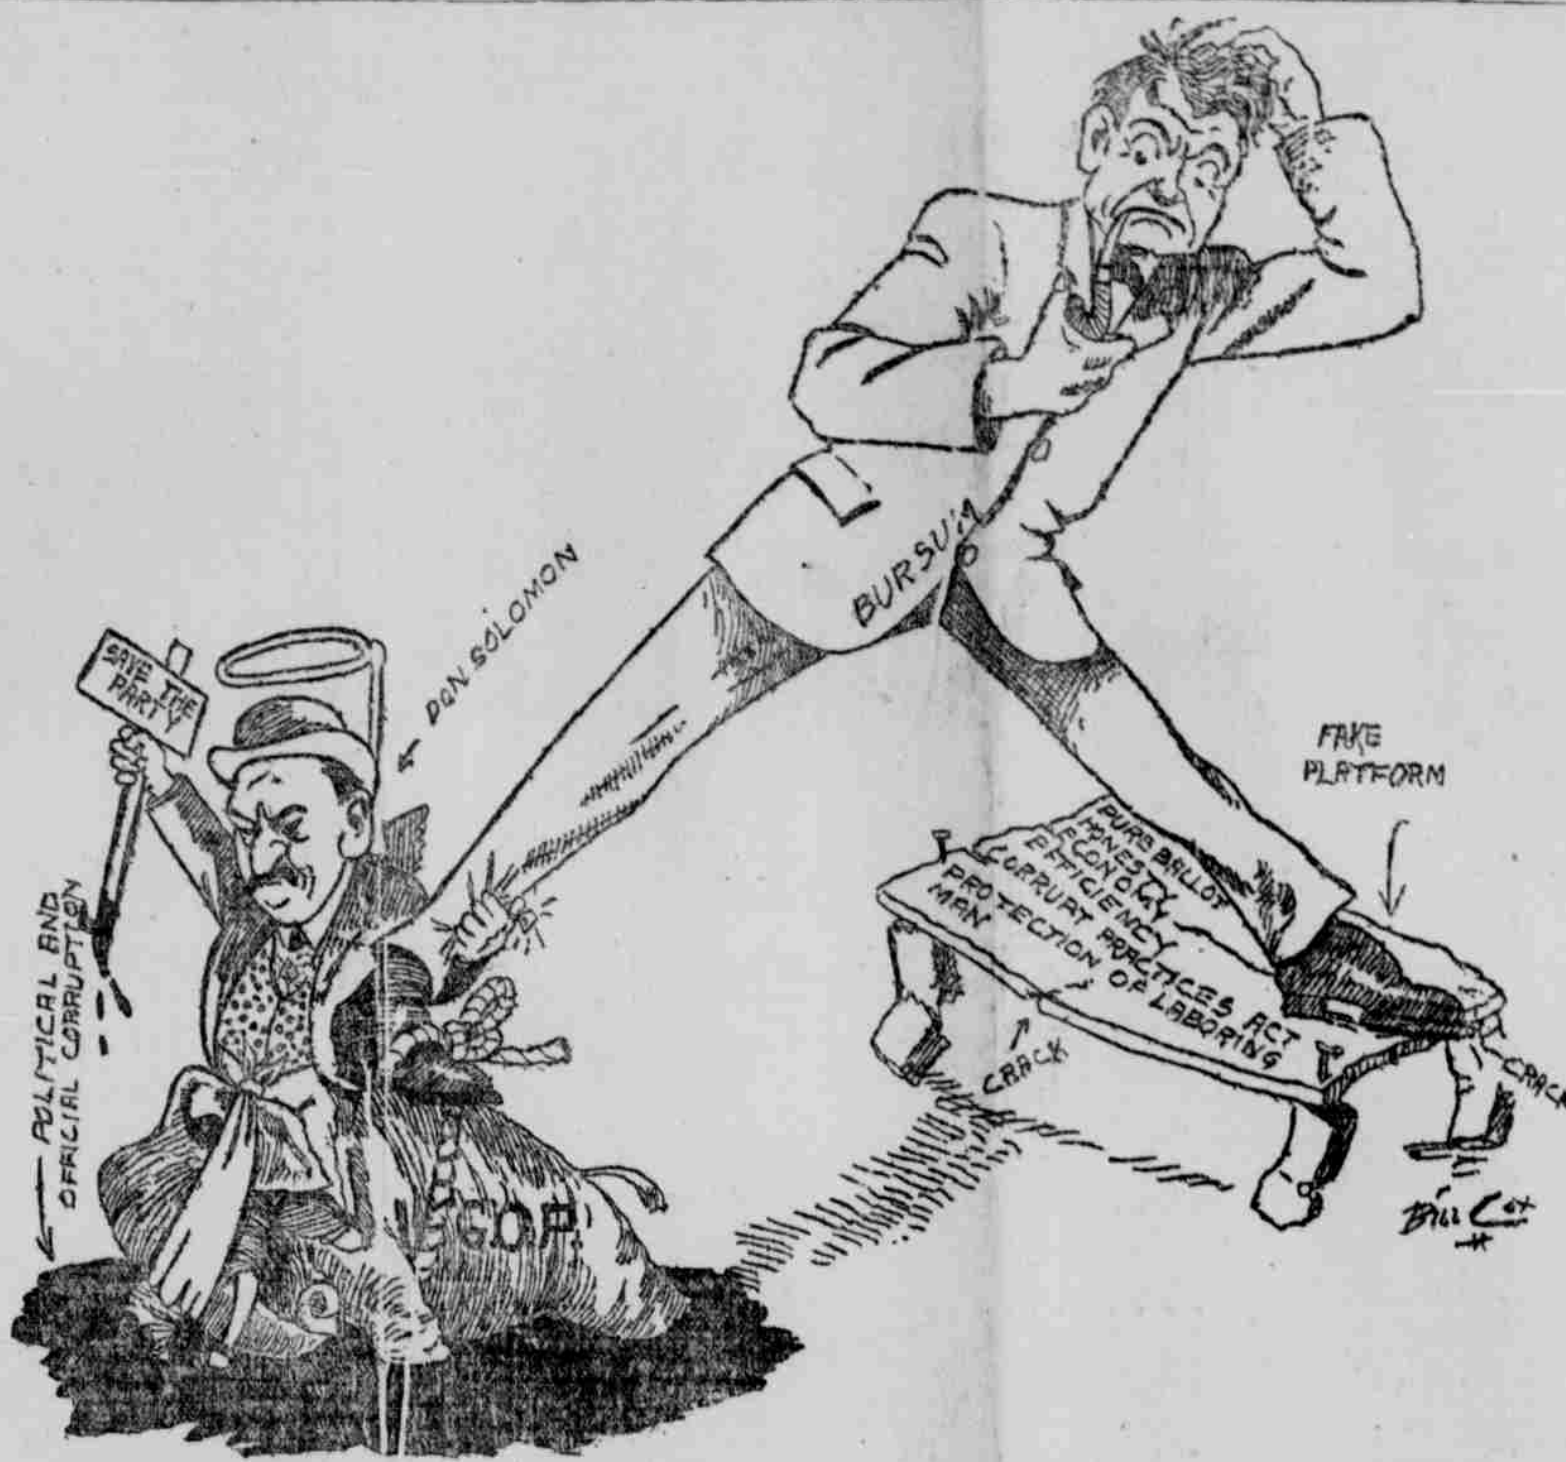

Trenton, N. J., Nov. 5.—More than the usual interest is being taken in the off-year election in New Jersey this fall because of the activity taken by Governor Woodrow Wilson in behalf of the democratic legislative candidates. The governor has spoken in almost every county in the state.

In his speeches Governor Wilson has denounced "bossism," his denunciation of political methods in Atlantic City being unusually severe. He referred to that city as a "city of shame" and to the political leaders as "political plunderers."

The republican leaders claim they will have a majority in the next house and will retain control of the senate. The democrats say they will retain their present majority in the house and that they will elect a majority in the upper branch.

### BOTH PARTIES CLAIM VICTORY IN KENTUCKY

Louisville, Ky., Nov. 5.—The campaign in Kentucky which closes to-

Mr. Bursum's Predicament.

morrow has been strenuous and democrats and republicans say the result will be close.

Neither side has had one paramount issue. Both sides have declared for the county unit for prohibition elections. At the last gubernatorial election the state went republican by seven thousand votes. Most conservative republicans say this majority may be trimmed a little. Democrats say it will be wiped out.

### PHILADELPHIA WILL ELECT NEW MAYOR

Philadelphia, Nov. 5.—This is an off-year in Pennsylvania, there being no state ticket to be elected. The most bitter fight in the state is being waged in this city between George H. Earle, Jr., the republican candidate and Rudolph Blankenburg, the Keystone-democratic candidate for the mayoralty.

### MUNICIPAL ELECTIONS ONLY IN OHIO STATE

Columbus, O., Nov. 5.—Without so much as attempting to prophesy the result of the municipal elections throughout Ohio on Tuesday, old-line politicians today lay quiet upon their oars. Democratic and republican committeemen are, however, aware that their parties are the only ones in the running, while the socialists just as determinedly proclaimed that socialism would be the victor.

That a larger socialist vote will be polled in practically all the large cities than ever before, is admitted, but many believe the party will win only minor offices.

In Columbus the fight has been bitter between the three candidates representing the three great parties. Morality and an "open town" formed the basis for the fight.

### RHODE ISLAND CAMPAIGN HAS BEEN HOT TEST

Providence, R. I., Nov. 5.—Tomorrow night will end a political campaign as strenuous as this state has witnessed in years. Not only have the large textile manufacturers come out openly to work for the reelection of Governor Adam J. Pothier and other republican candidates, but United States Senator Lippitt, himself a cotton manufacturer, took the stump and campaigned the entire state.

Rhode Island has been unused to seeing its senators work even for their own election.

Governor Pothier made his campaign almost entirely on state issues. He is opposed for reelection by Lewis A. Waterman, democrat, who last year reduced the governor's record plurality of 11,749 in 1909, to 1,149.

## Don't Forget You'll Need the Legislature

### PEOPLE OF NEW MEXICO

While you are voting for W. C. McDonald and the people's state ticket tomorrow, don't forget that the election of a PROGRESSIVE ANTI-GANG LEGISLATURE IS OF PARAMOUNT IMPORTANCE.

You remember the days of the Serry Seventeen; the Hawkins bill; the bill that gave Billy Martin \$3,480; the school visiting bill that gave Francisco Hubbell some \$2,000 of the school fund that the court made him pay back; you remember all the long and disgraceful list of rotten, grafting, looting laws, passed to protect rascals in public office and to enable them to take the people's money wantonly out of the people's treasury.

If your democratic-progressive governor and your people's ticket has its hands tied by a gang legislature, you are robbed of half the fruits of the victory.

VOTE FOR LEGISLATORS WHO WILL PASS LAWS FOR THE PEOPLE AND NOT FOR THE BOSSES AND THE CORPORATIONS.

## TURKEY DEMANDS UNITED STATES INTERVENE

### TRANSMITS URGENT NOTE TO STATE DEPARTMENT

Ambassador Makes Personal  
Appeal in Official Capacity  
and U. S. Government is Ex-  
pected to Declare Position.

### Do You Believe Francisco Hubbell or the Records?

Francisco Hubbell, in a campaign circular, signed by his chairman, Joe Saint, says: "Mr. Alfred Grunsfeld and his associates on the county commission raised your county tax rate more than 30 cents upon the \$100.00 of valuation, and that in 1911 a further increase of 10 cents on such valuation has been made."

The records show that FRANK HUBBELL'S LAST TAX RATE WAS 27 MILLS, THE HIGHEST IN THE HISTORY OF THE COUNTY; AT PRESENT IT IS 23.08 MILLS. And the taxes are spent on the county and not on Frank Hubbell.

Francisco Hubbell's circular says: "During this time not a single piece of decent public road has been built, not a single public improvement has been made."

Among the pieces of road built are a splendid highway from the University to old Albuquerque, costing \$12,000, perfect permanent work done at the lowest possible figure; two immense fills at each end of the Barajas bridge; a mile and a half of perfect road at Alameda, replacing impassable sand, costing \$10,000, of which the county paid \$6,000, done under the supervision of the state engineer; a splendid road five miles down the river from the Barajas bridge, dozens of miles of road elsewhere all permanent and economical with every cent accounted for; road tax collected for first time and road supervisors honest for first time.

In addition ten miles of flood proof dykes have been built; a complete survey and classification of the county has been made; two magnificent steel bridges costing nearly \$100,000 have been erected; schools have been built, the jail enlarged and repaired and made sanitary, the court house repaired, and thousands of dollars spent on other public improvements.

The Hubbell circular says: "The county funds at this time are in deplorable shape; the fund for general county purposes is worse than bankrupt, because many bills of our merchants and others remain unpaid."

The report of the county treasurer of September 30, the last monthly report, shows cash on hand of over EIGHTY-SEVEN THOUSAND DOLLARS.

It shows in the general fund nearly NINE THOUSAND DOLLARS.

EVERY PROPERLY AUDITED BILL HAS BEEN PAID EVERY MONTH IN FULL.

When Frank Hubbell went out of power no bills had been paid for one year; not a cent of current expenses had been paid during that time; every county fund was overdrawn and the new commissioners headed by Grunsfeld faced the problem of running the county with the county income mortgaged for a year in advance and the safe looted.

The Hubbell circular says: "The court fund is bankrupt. For the past three terms it has been impossible to hold a full term of court, because of lack of funds. Every other fund is in equally deplorable condition."

THE TREASURER'S REPORT SHOWS OVER \$5,000 IN THE COURT FUND; full terms have been held. When Frank Hubbell was kicked out of power no court had been held for a year.

The Hubbell circular says: "Thousands of dollars have been wasted in the feeding of prisoners in the county jail."

On Mr. Hubbell's own showing, IT COSTS FROM \$4,000 TO \$6,000 LESS TO FEED THE COUNTY PRISONERS THAN IT DID UNDER HUBBELL'S LAST SHERIFF, when Hubbell forced a bill through the legislature making his SHERIFF A PREFERRED CREDITOR OF THE COUNTY, to whom every available cent of income should be given to add to the \$10,000 used at that time for "feeding prisoners."

There are some more flimsy lies in that circular—to which Joseph E. Saint has affixed his signature as Frank Hubbell's chairman.

The foregoing is enough to show you the methods of Francisco Hubbell in his desperate effort to win this county election; on which he has spent now from \$50,000 to \$75,000.

Do you want these accomplished liars to take over the finances of your county?

## HIGHLY IMPORTANT DECISION MAY COME TODAY

Supreme Court of United States  
Expected to Announce Opin-  
ion in So-Called Colorado  
Safety Appliance Case.

Washington, Nov. 5.—Another decision of far-reaching importance by the supreme court in regard to the extent of the application of the federal safety appliance laws are looked for tomorrow.

When the court took under consideration the "Alabama Safety Appliance Case," in which it decided last Monday that the safety appliance laws extend to all cars and to locomotives on any railroad that is a highway for interstate commerce it also began deliberation on the so-called "Colorado Safety Appliance Case."

Many have expressed the belief that a decision in this case will be forthcoming tomorrow.

The decision in the Colorado case is expected to turn on the definition of "interstate commerce" within the meaning of the safety appliance laws. The government is seeking to enforce the law on the Colorado Northwestern railroad, a new narrow gauge line entirely within the borders of Boulder county, Colorado. It is attempting to apply the law in the case of a shipment which went on a waybill first from Omaha to Boulder, Colo., and subsequently after a new waybill was issued, on to another point in Colorado.

The government claims among other things that unlike the laws relating to interstate rates, there is no restriction on interstate commerce to which the safety appliance laws apply, the acts were restricted to interstate commerce moving in "continuous passage," while the safety appliance acts apply to interstate shipments that are not in "continuous passage."

The railroad contends that interstate commerce is the same under the rate laws as under the safety appliance acts and that the interpretation of what is "interstate commerce" already given in the rate cases must be given in the safety appliance case.

SEPTUGENERIAN SHOTS  
AGED WIFE AND SELF

Atlantic, Iowa, Nov. 6.—Mrs. J. P. Christopherson, 70 years old, was found today at her home here with four bullet wounds in her head from shots fired by her husband, also a septuagenarian. The shooting followed a family dispute over Mrs. Christopherson's refusal to sign a deed. The husband shot himself twice in the head, but is not in a serious condition.

## MADERO BECOMES PRESIDENT OF MEXICO TODAY

Successful Leader of Late Revolution, Will Enter Royal Palace For Years Occupied By Man He Defeated.

[By Morning Journal Special Leased Wire.] Mexico City, Nov. 5.—Formalities connected with Francisco I. Madero's inauguration as president tomorrow morning at 11 o'clock will be simple. The city is decorated, but the program of the day calls for no festivities and no ceremonies except those provided by law and custom.

Madero will take the oath of office as prescribed by Mexican law, will "protest," in the chamber of deputies before a joint meeting of both houses of congress, the oath being administered by the president of the chamber. He will make no inaugural address but will leave immediately for the national palace, where Francisco Leon de la Barra, who has been the provisional president since the departure of General Diaz, will be awaiting him.

Mr. de la Barra will remove from his breast the tri-color band, insignia of the presidency, and Madero will change and the retiring executive will leave in his private carriage a few hours later, starting for Vera Cruz, whence he will sail for Europe.

In the afternoon Madero's new cabinet, the personnel of which he made public several days ago, will be sworn in.

Later public festivities probably will celebrate the inauguration.

### Gales Sweep British Isles.

London, Nov. 5.—Cyclonic gales swept over the British Isles today doing widespread damage. Shipping particularly suffered. Buildings were unroofed and vessels were driven from their moorings. The coasts are strewn with wreckage.

## REBELS PRESERVE GOOD ORDER AT SHANGHAI

NEW GOVERNMENT PROVES  
READY FOR EMERGENCY

Manchu Troops and Deposed Officials Give Trouble to New Republic Which is Rapidly Getting Ready For Business.

[By Morning Journal Special Leased Wire.] Shanghai, Nov. 5.—The first night after the capitulation of the city to the revolutionists passed uneventfully. Perfect order was maintained in Shanghai and the outlying districts, which constituted a remarkable feature of the movement.

Li Ping Shu is the responsible head of the new administration in the native city and suburbs and is now engaged in completing his organization. He informed the correspondent that he received only the "Republic of Han" and would guarantee order. The only disorderly elements, he said, now in China are the former officials, their supporters and the Manchu troops who would never again be permitted to control.

There is reason to believe that the revolutionary sentiment throughout the south strongly favors the unconditional abdication of the emperor and the establishment of an entirely new regime.

Yuan Shi Kai will be repudiated if he adheres to the Manchus. He might become head of the government and receive universal support if he separated himself from his former alliance. There is, however, growing suspicion and distrust of Yuan Shi Kai.

The present plans for a republic include a complete control of the Yangtze River. Admiral Sah is now crippled and cut off from his base. The revolutionary leaders are determined to avoid bloodshed and secure the peaceful capitulation of the Manchu troops in the various southern towns. Huang Sing, the revolutionary leader in the Yangtze delta, arrived in the native city of Shanghai yesterday by automobile. Today he was engaged with other chiefs in a conference.

Late last night the rebels succeeded in satisfying the officials of the New Yangtze River railway that they were capable of preserving order and the former guards, which had been placed of the railway station by order of the British consul was withdrawn, the revolutionists taking possession.

The entire surroundings of Shanghai, including Wu-Sung, are now in rebel hands. The revolutionists would attempt to capture the city, but applicants were so numerous that the leaders were forced to make careful careful discrimination. They are also endeavoring to recover five thousand rifles which were seized by the crowds when the arsenal was conquered.

Three loyalist gunboats and one torpedo boat, part of Admiral Sah's fleet, put into Shanghai today for provisions and ammunition, ignorant of the fact that the arsenal had changed hands.

The revolutionists maintain that no concessions on the part of the throne will avail while the Manchus remain in power. A meeting of the Kiang-Su, Chinese-Kiang and Fukien Gentry today stigmatized the national assembly as a puppet representing the country. Revolutionary proclamations abolish the Likien and land taxes, the maritime customs only being retained.

Mang-Chow, capital of the province of Chinese-Kiang, was captured today, the revolutionists being made prisoner, but the Tartar city held out against the rebels for a time. The fighting was fierce but did not last long.

The revolutionary leaders at Shanghai today expressed no fear that the revolution would attempt to re-capture the city. They said the new government was fully competent to control the situation to protect foreign interests.

### THOUSANDS OF REBELS EN ROUTE TO SHANGHAI

Victoria, B. C., Nov. 5.—On the steamer Montague which arrived from the Orient today, were missionaries from the scene of the revolutionary China, among them Dr. Keilar, who led Yu-Chow, one of the captured cities, just before daybreak. He said that thousands of refugees, many destitute, were making their way to Shanghai. Several missionaries escaped from Wu-Chang by lowering themselves over the city wall with ropes after the gates were closed by rebel guards. Rifle bullets whistled constantly over their heads and scores of bodies were seen in the streets. The revolutionaries came to them and offered to guard them, assuring them they would not be injured. That the revolution was impending was well known to the missionaries.

During the fighting at Wu-Chang, Dr. Jackson, Mr. Ridgely and other American missionaries busied themselves, escorting wives and daughters of officials to the missions. The gates were all closed and held by the rebels and an enterprising Chinese with a rope did a profitable business by charging a high price to hoist refugees over the walls.

Soo-Chow in the province of Kiang-Su, on the grand canal has gone over to the rebels, the governor and all the officials, together with the soldiers, having acquiesced peacefully in the rising, while Kashing and Ningpo have fallen.

The remainder of Admiral Sah's fleet has arrived at Wu-Sung without ammunition and without provisions.

Reports are numerous of the defection of the capture of various other Chinese cities, these including Wu-Hu and Fook-Chow. The imperial telegraph general has been cut by strikes. They demand three months pay in advance.

It is reported that Yuan Shi Kai is at Hankow negotiating with General Li, leader of the rebels, who is in a position to dictate terms. It is

## SPORTS

NATIONAL CAR HEADS  
IN RACE TO PHOENIX

Yuma, Ariz., Nov. 5.—The National car driven by Harvey Herick, which was the eleventh to start from Los Angeles last night in the annual trans-desert race to Phoenix, was the first to check in at the half-way control here today. Ten others of the sixteen starters trailed in behind it, the last, E. M. F., reporting at 6:15. The four stragglers are strung out between San Diego and El Centro, and between Mexicali, Lower California, and Yuma. One or two are expected to limp in before the start on the final leg of the race tomorrow at dawn. All the cars will start tomorrow morning in the order in which they arrived.

Racing at Paris.  
Paris, Nov. 5.—J. A. Widener's Datura, today won the Prix Jacinthe at the Auteuil course. The event was a steeplechase at two miles and five furlongs. Value of the stake, \$1,200.

Ball Season Opens in Cuba.  
Havana, Nov. 5.—The Philadelphia Nationals lost the first game of the series which they are to play in Cuba to the Almendares by a score of 3 to 1.

Boy is Golf Champion.  
San Francisco, Nov. 5.—Jack Neville of the Claremont Country club, one of the youngest players entered in the tournament, won the Pacific coast amateur golf championship today by defeating W. F. Garby. Score 5 up and 1 to go.

THREE MEN AND A  
FLOCK OF SHEEP  
GREET BURSUM

Candidate Borrows the Church  
Congregation to Secure a  
Crowd at Belen Yesterday  
Morning.

(Special Dispatch to the Morning Journal)  
Belen, N. M., Nov. 5.—Three faithful and undisciplined admirers of H. O. Bursum were gathered at the station this morning when the candidate of Don Solomon for governor arrived here at 9:35. After lingering around for a while the party, which was chaperoned by Don Solomon, started down Becker avenue looking for an audience and by a peculiar coincidence a man driving a good sized flock of sheep turned in just behind the lonesome visitor while it is reliably stated that some unfeeling bystander yelled "Baa-a". Finally in desperation the visitors saw their opportunity and lined up in front of the chapel to get the benefit of the worshippers in an attempt to give Bursum a chance to make a speech; but the results were not encouraging. It was really a pathetic spectacle and Don Solomon's last hope of rounding up a few votes in Belen precinct, the most progressive precinct in the county, was blasted today.

The prospects are good for making a tremendous chop in the old reliable and traditional tombstone majority in Valencia county and it is generally recognized that the beginning of the end has come for Don Solomon's absolute power in this county.

## SCIENCE DID IT

Every inch gained in the battle with disease is a victory for science. Dreams, accidental "discoveries," and Indian lore do not count for much now—when an advance in medicine is made it is because some man has thought long and hard over it. Ehrlich, the great German scientist, made over 600 trials to get a remedy for one disease.

Two French chemists studied cod liver oil for years and finally were able to separate the true medicinal part from the useless oil. This resulted in our great cod liver and iron tonic, Vibol, which all can take because it is so delicious in an almost wonderful strength-creator and blood-builder for all who are weak, nervous, run-down and sickly. We guarantee Vibol to please you, or give back your money. Try it at our risk.

J. H. O'Reilly Co., druggists, Albuquerque, N. M.

INCORPORATE  
YOUR  
BUSINESS

Use Kanan's New Mexico Corporation Laws, Rules and Forms, compiled to date.

A useful guide for corporation of attorneys and engineers. You need it. It has everything in one book.

Post yourself. Avoid expensive mistakes.

All Territorial laws on ALL classes of Corporations; Banking, Building and Loan, Benevolent, Industrial, Irrigation, Insurance, Mercantile, Mining, Railroads, Taxation, etc., with extensive Citations.

The only complete New Mexico Corporation, Irrigation and Mining Code published.

Complete Forms and Rules for drawing and filing all kinds of corporation papers; references, footnotes, by-laws, etc. Territorial Irrigation Rules and Forms.

United States Laws which apply to New Mexico: Carey Act, Irrigation, Mining, Railroads, Taxes, Rules, and Forms for secretary U. S. Rights Rights of Way, etc.

Useful with or without statehood. 1 vol. 955 pages, buckram binding.

OCEAN-TO-OCEAN  
AUTO PARTY IN  
THE CITY

The Raymond-Whitcomb Tour  
Reached Albuquerque Last  
Evening From Santa Fe; To  
Remain Till Tomorrow.

Encountering en route more bad weather and mud tribulations than has probably been the lot of any transcontinental touring party that has ever before reached Albuquerque, the Raymond-Whitcomb ocean-to-ocean automobile tour arrived in Albuquerque last night. Owing to a particularly bad stretch of road, a short distance this side of the Sandia pueblo and on the other side of the Mesa, A. L. Westgard, who is the pilot of the party, was obliged to stay out on the road about ten miles from town, the rest of the party, except H. D. Ashton, manager of the tour, coming into town under the leadership of Col. D. K. B. Sellers and Harry Drumm. Colonel Sellers and Mr. Drumm then went back to the assistance of Mr. Westgard and Mr. Ashton and at a late hour last night they returned to Albuquerque.

The party is composed of Mr. and Mrs. George F. Foote, of Ithaca, N. Y.; Sydney B. Gladding, of Newport, R. I.; Fox, who is a "globe trotter" from Philadelphia; W. F. Harris, of South Orange, N. J.; W. J. Studwell of Brooklyn; Mr. and Mrs. John Legg, of Worcester, Mass.; Mr. and Mrs. A. L. Westgard, and Victor Eubank of the Chicago Inter-Ocean, left Santa Fe yesterday morning about 10 o'clock, having been delayed in starting because of a heavy snow and rain storm. They proceeded along at a good rate until reaching the crossing of the Rio Grande about thirty-four miles from here, where all four of the machines stuck for about an hour right in the middle of the stream. Extricating themselves from this predicament they again had fair running until reaching the upgrade into what the auto tourists call the big cut about twenty-seven miles north of this city and here they stuck again. This trouble was overcome after a time, and everything looked as if no trouble would be encountered in reaching Albuquerque, when at 5:30 yesterday afternoon a mud puddle about 100 feet long was run in, and right in the center of it the big pilot car, with Mr. Westgard in charge, stuck fast.

Colonel D. K. B. Sellers and Harry Drumm in the sturdy Staver, a small but very powerful machine, were out hunting the party all yesterday afternoon and came up with them when they were working hard to get out of the mud. Mrs. Westgard, who was in the first car with her husband, was marooned and was not rescued until two of the cars running around the puddle backed in one behind the other and Mrs. Westgard climbed out over the cars. The Staver car heroically showed its usefulness in pulling the other two out and starting them on their way to town. All of the party loaded on and arrived in the city about 8:15, registering at the Alvarado. Afterwards the Staver again returned to the mud car and pulled them out also.

The trip is being made in four big Garford touring cars, which although stock cars are starting the trip in splendid fashion. Up to the present, although the party has traveled 2,845 miles in reaching Albuquerque, no trouble has been experienced in the working of the cars. They are equipped with Goodrich tires which are also giving satisfaction.

The entourage left New York on October 2, and expects to reach Los Angeles in time to enjoy the Thanksgiving celebration. A. L. Westgard, the official pilot of the American Automobile association, is making his third transcontinental trip and is traveling this time over the route mapped out by him on previous trips. The last time he made the trip this way the weather was much drier and no trouble with mud sinks such as is being experienced this time was encountered.

The tour has been arranged with the co-operation of the American Automobile association. Although the party will be on the road seven weeks and two days, there will be less than six weeks of actual traveling.

One of the features of the tour is the truck which carries the baggage and tools. This, like the touring car, was made by the Garford company. It is unlike the usual truck in that it has been built on a public chassis such as is used by fire, ambulance and police patrols.

All hotel accommodations have been arranged at the different night controls along the road and a complete camping outfit is carried on the truck, as the tourists expect to camp out several nights on the journey. The trip covers over 4,200 miles and the route lies through the most picturesque part of the United States.

This is the first time a real automobile train has attempted to cross the continent and, if the trip is successful, it is expected to be made an annual event in the future.

Victor Eubank, the publicity man of the tour, stated last night that leaving Emporia, Kan., the party had run into the worst kind of weather and roads, due entirely to the fact that such weather at this time of the year is quite unusual. "Outside of this," said Mr. Eubank, "every member of the party has enjoyed himself immensely. I trip has been a great experience. We were surprised, however, to encounter such difficult roads on the trip from Santa Fe here. They are in the main good and would be excellent had not the rainy weather been of such long duration. "A trip of this kind is not without

Official American League  
Batting Averages For 1911

Ty Cobb Again Leads Ban Johnson Circuit As Best All-Round  
Man With Splendid Average of .420; Sam Crawford Ahead  
Collins of Athletics By a Few Points; Club Averages.

Chicago, Nov. 5.—Falling short two points of equalling Lajoie's record of .422, made while a member of the Philadelphia club in 1901, Ty Cobb, of Detroit, topped the 1911 American League batters for the fourth successive year with an average of .420, according to official averages announced tonight by President Johnson of the American League.

Second to Cobb is Joe Jackson, of Cleveland, whose average is .408. Jackson played in 147 games while Cobb took part in one game less, Napoleon Lajoie, of Cleveland, who gave Cobb such a close race for batting honors in 1910, has an average of .365. Last year Cobb finished with an average of .385 and Lajoie with .384.

The world's champion club has seven men in the select .300 class, Collins leading with an average of .365, Lapp hit for .353; Baker, the home run hero of the world's series, for .324; Murphy, .329; McInnes, .321; Coombs, .319, and Lord, .310.

Detroit had four men hitting above .300, including Cobb, Crawford is fourth among the league batters with an average of .378, while Delehanty made .359. Gahner has an average of .302.

In club batting, Philadelphia leads with .287, with Detroit second at .291 and Cleveland third with .282. Cobb also is champion at home run hitting, having eight to his credit, with Jackson of Cleveland and Crawford of Detroit tied for second with seven each. Cobb's nearest rival in base stealing was Milan of Washington. He stole 58, while Cobb stole 83. The average follows:

|                             | G.  | AB. | R.  | H.  | Pct. | SH. | SB. | 2B. | 3B. | HR. |
|-----------------------------|-----|-----|-----|-----|------|-----|-----|-----|-----|-----|
| Cobb, Detroit               | 146 | 591 | 147 | 248 | .420 | 11  | 83  | 47  | 28  | 8   |

puddle we encountered this afternoon is one of them. When the big pilot car struck everybody piled out except Mrs. Westgard and the driver. All steam was put on to pull out but it was no go. We then got a man with a team to come up and help but that still wouldn't do. It began to look both serious and ridiculous. There was Mrs. Westgard seated in the machine with a sea of mud all around. Regular gumbo mud. Every time the engine was started there would be a cloud of mud flying and the wheels would slip around in the puddle as nicely as if they had been greased. If Mrs. Westgard had tried to climb out after that she would have been knee deep in mud. Only the backing up of the other two cars allowing her to climb out, saved the situation.

"We expect to stay here all day tomorrow to clean the machines and stock up on provisions. We will leave for the west on Tuesday morning. Our first stop will be at Laguna. We present plans do not miscarry. We are all tired, of course, but what appetites the crowd has, you never saw anything like it. It is one of the most enjoyable trips I have ever taken."

Mr. Eubank is supposed to be having a vacation from his regular assignment on the Inter-Ocean, but in reality is working about as hard as he usually does in holding down a job on a big city daily.

In the corridors of the Alvarado Ed Rainey of the San Francisco Examiner, was introduced to Mr. Eubank and it developed that the two newspaper men had hosts of mutual friends in the business. Joe Brown, director of the Inside Inn company, is also an old friend of Mr. Eubank and with the three men a joint celebration began almost immediately.

MRS. VERMILYA IS  
EXPECTED TO  
RECOVER

Chicago Woman Accused of  
Poisoning Officer, Will Today  
Be Placed in Hospital of  
County Jail.

(By Morning Journal Special Leased Wire)  
Chicago, Nov. 5.—Mrs. Louise Vermilya, accused of the murder by poisoning of Policeman Arthur Blissette and under investigation in connection with the deaths of eight other persons, was pronounced to be probably insane today, following her attempt to end her own life by poison yesterday.

Energetic methods to counteract the effects of arsenic which Mrs. Vermilya contrived to mingle with her food in the presence of her guards, probably will be successful, according to attending physicians.

Since the attempt at suicide, a guard with a police matron and sev-

Mrs. Vermilya night and day, and she is never out of the scrutiny of at least one pair of eyes.

It was announced tonight that a warrant charging Mrs. Vermilya with the murder of Blissette would be served tomorrow and the woman placed in the hospital in the county jail. It was said that the police fear to have the woman remain in her own home.

Captain Harding after questioning Mrs. Vermilya today gave out this statement:

"Mrs. Vermilya talked freely. She firmly maintained that she had not poisoned either Blissette or Smith. She also denied that she had attempted to poison herself.

"She said she had purchased some roach powder in the box and not roach powder, but she could not account for this. I attach no importance to her denials and am satisfied there were but two pepper boxes in the house, one containing arsenic."

Will This Man Give  
You Honest Elections?

The following affidavit is in possession of the Morning Journal. It concerns H. O. Bursum and a convicted murderer since released on parole against the advice of the district attorney. Read it.

Magdalena, N. M.  
Territory of New Mexico, county of Socorro, ss.

Nestor Gurule, being first duly sworn upon his oath, states that during the campaign of 1906, H. O. Bursum did approach him and promise him that if he, Nestor Gurule, and his friends would vote for W. H. Andrews for delegate to congress, that he, H. O. Bursum, would have Canuto Carrillo pardoned from the New Mexico penitentiary and affiant further swears that he and some thirty of his friends did vote for W. H. Andrews on the strength of the promise made to them by the said H. O. Bursum.

Nestor Gurule, being first duly sworn upon his oath, states that during the campaign of 1906, H. O. Bursum did approach him and promise him that if he, Nestor Gurule, and his friends would vote for W. H. Andrews for delegate to congress, that he, H. O. Bursum, would have Canuto Carrillo pardoned from the New Mexico penitentiary and affiant further swears that he and some thirty of his friends did vote for W. H. Andrews on the strength of the promise made to them by the said H. O. Bursum.

My commission expires August 21, 1912.

FAITHFUL DOG GUARDS  
BODY OF ITS MASTER

Biggs, Cal., Nov. 5.—For nearly two weeks a dog has stood guard over a camp on the Shaw ranch, northwest of here near Butte Creek, although no person has been seen about the place. Attracted by the loneliness of the animal's vigil, a party of men attempted to investigate the camp today but were repulsed by the four-footed guardian. Crossing the creek, they came down close to the camp and saw the body of a man floating in the water.

With a branch and a rope they worked the body across the stream. It is believed to be that of the dog's master, but the savage animal has driven away every person who attempted to go to the camp to identify the man; and tonight still stands guard over the deserted tent and its

MULTITUDE GREET  
AVIATOR RODGERS  
AT PASADENACOAST TO COAST FLIGHT  
PRACTICALLY COMPLETED

Birdman Lands Within Sight of  
Pacific Ocean After Journey  
of 4231 Miles in 4942 Min-  
utes Flying Time.

(By Morning Journal Special Leased Wire)  
Pasadena, Cal., Nov. 5.—Of-  
ficial figures of Rodgers' flight  
given by his manager—total dis-  
tance, 4,231 miles; flying time,  
4,942 minutes.

Pasadena, Cal., Nov. 5.—In a flying machine that held together only through the good will of Providence, Rodgers caught his first glimpse of the Pacific ocean as he soared on a level with the gray top of Mount Wilson and settled down in Tournament park amid a clamorous multitude waiting to welcome him at what was practically the finish of his flight from Sheepshead Bay, New York.

Rodgers landed at 4:10 o'clock this afternoon. Tomorrow he expects to fly out over the Pacific if the motor that has lifted and pushed him and his aeroplane through the air for a distance of nearly 5,000 miles continues to do its duty and thus make the epoch making feat of aviation really an ocean-to-ocean flight.

Rodgers appeared on the sky line shortly after 2 o'clock, a few moments after he had risen from Pomona, twenty miles down the San Gabriel valley. He was sighted first by telescopes leveled at him from Mount Wilson, and word flashed down the mountain by telephone brought a swarm of 25,000 people to Tournament park.

Flying at a height of about 5,000 feet, Rodgers hovered over the city for a few moments, then warping his planes that previously had been as motionless as the spreading pinions of a soaring eagle, he circled in a wide spiral and volplaned down to the greensward in the middle of the park.

His landing was a signal for a rush that overthrew every restraint. Rodgers literally was mobbed. He was borne higher and higher by the surging crowd. When he was clutched and scratched him, but his leather clothing was strong enough to resist attack, although afterward the aviator declared his ribs would surely manifest the black and blue marks of an over enthusiastic greeting.

Rodgers started on the last dash of his flight from Pomona, a little over an hour ago, when his arrival had interrupted the only diversion of the year—the funeral dance of the Mojave Indians. The aviator saw a squaw, aged 101, who had danced all night and day, fall in a swoon. Then he took the air at moon level, and he descended gracefully in the face of a twenty mile wind until he had reached an altitude of four hundred feet. Then he set his course directly west and sparked his motor up to a thirty mile gait.

Rodgers' wife and mother, who have been following him on a special train all the way from New York, left Banning immediately afterward.

The flyer arrived over Colton at 1:37 p. m. By this time he had increased his altitude to 1,000 feet and he kept this height until he neared Pomona, twenty-one miles from Pasadena. He remained at Pomona until after 2 o'clock, renewing his supply of gasoline, and refilling the tank of the leaky radiator which brought him to the verge of disaster yesterday. After leaving Pomona, Rodgers kept his biplane pointing upward until he had climbed over the fleecy sheets of vapor floating near the tops of the highest peaks of the Sierra Madre mountains. At the level of the Mount Wilson observatory and flying close to the ragged sides of the mountain.

His machine, a "Baby" Wright, that has only an eighteen foot spread of wings, seemed to hesitate for an instant as the aviator careened it directly over the park but as he came down toward the earth his fiercer described ever-widening curves until he was within a few hundred yards of the ground. Then Rodgers performed one of the dips Arch Hoxsey was performing when he was killed at Dominguez field, within sight of Mount Wilson, last December.

Rodgers' first word after he had been finally rescued from the clamorous crowd was:

"Well, one thing is certain, you cannot do a transcontinental flight in thirty days."

Rodgers also declared that his own flight, begun September 17 and finished today, forty-nine days later, would not be duplicated for a year or more.

RODGERS HAS BROKEN  
ALL RECORDS BY FLIGHT  
New York, Nov. 5.—Galbraith P. Rodgers, the aviator who practically completed his ocean-to-ocean flight by landing at Pasadena, Cal., today, started from this city forty-nine days ago on what was to prove his record-making trip.

In a Wright biplane, he rose from Sheepshead Bay race track at 4:35 p. m., September 17, and arrived at Pasadena at 3:10 p. m. today. He left behind him at Marshall, Mo., on October 10, a broken world's record for cross-country flight, having traveled 1,398 miles as against the record of 1,265 miles previously made by Harry N. Atwood, Rodgers' mileage over the Atwood record kept piling up day by day until today he had eclipsed it by a total of 2,965 miles. Figured from his actual flying time of three days, ten hours and four minutes in traveling 4,231 miles, his rate of speed was 51.59 miles an hour. In tabular form Rodgers' progress across the continent reads as follows:

Left Sheepshead Bay 4:35 p. m., September 17.  
Arrived at Chicago October 3.  
Arrived Kansas City, Mo., October 10.  
Arrived Kansas City, Mo., October 10.  
Arrived San Antonio, Tex., Octo-

Arrived Sanderson, Texas, October 26.  
Arrived Sierra Blanca, October 28.  
Arrived El Paso, October 31.  
Arrived Wilcox, Ariz., October 31.  
Arrived Maricopa, Ariz., November 1.

Arrived Stovall, Ariz., November 2.  
Arrived Imperial Junction, Cal., November 3.  
Arrived Pasadena, 4:10 p. m., November 5.  
Distance, 4,231.  
Elapsed time, 49 days.  
Actual flying time, three days, ten hours, four minutes.  
Rate of speed, 51.59 miles per hour.  
Atwood's former world's record was made on August 25, 1911, when he finished his flight from St. Louis to New York, a distance of 1,265 miles.

FOWLER COVERED 200  
MILES ON SUNDAY

El Paso, Tex., Nov. 5.—Robert G. Fowler, the coast-to-coast aviator, is in El Paso. He arrived at 3:10 this afternoon on an El Paso and Southwestern passenger train unhurt, after an accident which compelled him to leave his biplane one mile from Mastodon, N. M., about fourteen miles west of El Paso.

Fowler was ahead of his schedule. His mother and advance agent, already in the city, did not expect him until tomorrow, and were surprised to receive a telegram that he would arrive at 2 o'clock this afternoon. Norlin, N. M., twenty-four miles out, reported him passing at 1:30, and there all trace of him was lost. His mother became alarmed and started out in an automobile to find him and was overjoyed discovering him in the Union station here just after his arrival by train.

Fowler had made two hundred miles since leaving Douglas, Ariz., this morning, when one of the sparkers on his engine failed to work and compelled him to descend. He struck the earth with some force, but his machine was not badly damaged. He will return to Mastodon on the morning train and expects to fly into this city before noon tomorrow.

ALBUQUERQUE NEW MEXICO

### LINCOLN AND THE FLAG.

A number of local veterans who have been taken in by the gauzy, platform pledges of the gang candidates and who still believe that political corruption and government by the bosses and the bankers must be swallowed as long as it is labeled "republican," were yesterday induced by the minions of Mr. Hubbell's paper to sign a statement denouncing a "cowardly editorial" in this newspaper, which stated they were "debated."

The Morning Journal takes pleasure in again declaring the truth of that "cowardly editorial," a truth recognized by thousands of veterans of the Civil war in New Mexico who will vote for the principles of Lincoln, and "government by the people" by electing W. C. McDonald governor of New Mexico.

We respect the records of these men who have signed this paper circulated by Francisco Hubbell. We are very sorry that they have permitted themselves to be fooled by such flimsy promises as those made by Mr. Bursum and his gang, and that they have been deceived by a platform whose every word is absolutely belied by the records of the men who are running on it.

It is interesting to note the signature to this document of E. S. Stover, who, only a few years ago, in a great mass meeting in this city indignantly denounced Francisco Hubbell as a traitor to the party; a denunciation echoed by F. W. Clancy, who branded Francisco Hubbell as a man who knew not the meaning of the word republicanism.

As to the denunciation of the flag by the notorious Socorro citizen, now being run for sheriff by Mr. Bursum, and whose nomination has aroused the bitter indignation of the people of Socorro county, the Morning Journal is willing to take the word of the people of New Mexico and of Governor Hagerman against that of Mr. Henry Dreyfus.

Mr. Dreyfus' foul insult to the flag which Lincoln loved made the blood of the people of New Mexico boil with indignation; and it boils again when this man is raised up before the people by Mr. Bursum as a candidate for the highest office in the largest county in New Mexico. That Mr. Dreyfus, after five years, has gathered courage to deny an episode made public throughout New Mexico at the time and denounced amid old soldiers' applause by Governor Hagerman in a public meeting the same day in Socorro, does not affect the case.

The Morning Journal does not believe the principles of Lincoln are best represented by a man who attempts to force a flag desecrator on the people.

The Morning Journal does not believe that the principles of Lincoln are represented by a man nominated for lieutenant governor by a three-time convict, now a candidate again for the stripes of infamy.

The Morning Journal does not believe that the principles of Lincoln are represented by a man who steals thousands of dollars from the school fund, sacred to the education of our boys and girls.

The Morning Journal does not believe the principles of Lincoln are best represented by a man who attempts to force a flag desecrator on the people.

The Morning Journal does not believe the principles of Lincoln are represented by a man who promises to pardon brutal murderers in exchange for votes.

The Morning Journal does not believe that the mantle of Lincoln will ever fall upon a man who has protected an ex-convict and habitual defaulter from the punishment the law should visit upon his misdeeds, and who has promised that ex-convict and criminal a responsible position under the state government.

The Morning Journal fails to see the connection between the principles of Lincoln and the principles of a man who passes a law designed to prevent redress for the widow and the orphan whose family head has been killed by the negligence of a corporation.

The Morning Journal denounces the man who tries to cloak official racialism, the feeling of the state, the oppression and coercion of the small settler, the stealing of elections, and

every "un-American, un-republican, un-patriotic and dishonest action under the Star Spangled Banner; and who blasphemes the memory of the immortal Lincoln to bolster up the cause of corrupt politics, bossism and rottenness."

The majority of the New Mexicans who fought under Lincoln are not taken in by this flimsy pretense of renegade democrats and corrupt manipulators, and will vote to reverse the memory of the First American, and venerate the flag by the election of a man as governor whose political and private record is pure and unblemished, who is pledged to drive the rascals out, to tear off the disguise of decency from the crafters, to protect the flag, to see that a government of the people, for the people, and by the people, does not perish from New Mexico.

### WHAT'S IN A NAME?

In this county the ticket which, by reason of one of Mr. Bursum's laws must be called "democratic" carries the names of some of our staunchest republicans. It will be voted for by thousands of our staunchest republicans.

The ticket which, by reason of Mr. Bursum's kindness to Mr. Hubbell is labeled "republican" is not a republican ticket. It knows no flag but the black flag of political piracy. It is owned and engineered by Francisco Hubbell, who has repeatedly knifed the regular republican ticket, who has belied the regular republican organization time and again, who got into power in this county by bolting the republican organization and who is a political outlaw.

Francisco Hubbell, who owns and manages this ticket, was denounced by F. W. Clancy, now a candidate on the state republican ticket, as a "traitor to the republican party," who does not know the meaning of the word republican.

Vote for republicanism—which means the rule of the people—by voting for the ticket marked "democratic."

There are no "national issues" in this county.

It is the same old issue between official rottenness and honest government.

Vote the people's ticket straight. Don't give Francisco Hubbell the encouragement of voting for a single one of his candidates, although he may look inoffensive.

If you give Mr. Hubbell an inch he takes a mile.

Make the rebuke as stinging as bitter, as overwhelming as the Lord will let you.

### THE SUPERINTENDENT.

It is refreshing to see the way Atanacio Montoya is gaining votes over his opponent, a nominee of Francisco Hubbell. Anything that smells of Frank Hubbell must be kept scrupulously away from our schools.

To elect a school superintendent named by Frank Hubbell is to invite a repetition of the good old days when the school visits cost \$4,000 a year. Mr. Montoya is an experienced educator, fluent in both languages, of finished education, a practical educator, a polished gentleman, honest as the day is long and the friend of the native people with whom the county superintendent has to deal. He knows them, he knows their needs and their aspirations and they gladly trust him to teach their sons and daughters to be good citizens.

Mr. Montoya will have no spy system in the schools to find out where the fathers are going to vote, in order that a boss may clinch them in their assessments.

He is the ideal man for the position: practical, splendidly equipped, competent—and HONEST.

### TWO IS A MAJORITY OF THREE.

Don't forget that two out of three leaves one.

Two out of three Hubbell commissioners will run this county.

Francisco Hubbell will run those two commissioners. He owns them body and soul.

R. R. Pollock is the bait for the suckers.

David Perez, under indictment for violation of a law for the protection of children from booze, and Gabriel Sanchez, Mr. Hubbell's personal tool, are the only two candidates on the Hubbell ticket for county commissioners.

If you elect them you are turning the finances of Bernalillo county over to the man who bankrupted and ruined the county.

Don't forget to subtract two from three.

It is evident from a small spasm in the Trib-Cit that the boy marshal, having found he has no other qualifications, has decided to appeal to the voters to elect him sheriff because he is an American. Perhaps this sheds some light on the fact that the boy marshal let the murderer of Berardelli walk out of town in broad daylight, never made any arrests for the hold-up of Fracarro's saloon, allowed the Montezuma grocery company to be held up and performed various other stunts with relation to some of our prominent Italian citizens.

Mr. Joseph Saint is urged to go out and take just a casual look at the county finances before he gets out another circular.

The grand jury appears to have had a slightly different idea of the "honesty, economy and efficiency" of the boy marshal.

Speaking of Hubbell legislators, you may remember, good people, the time that Mr. Hubbell's legislators opposed the division of the county and a delegation of some hundreds of indignant citizens had to go up to Santa Fe and pull the legislators away by the noses of their respective necks.

"Not a single public improvement has been made," said Joey Saint, in his campaign circular. A short time ago Joey's paper was pointing with pride to the two great public improvements, known as the county survey and the steel bridges across the Rio Grande.

Mr. W. C. McDonald is running on the democratic-progressive ticket. On the other, are running H. O. Bursum, Solomon Luna, F. A. Hubbell, Gregory Pace, William E. Martin—and all the rest of the gang. It looks as if it might be better to have a one-man government.

It appears that the efforts of the grand jury to purify the city police department and of the sheriff's office to make Francisco a law abiding citizen, have been the chief causes of the present attitude of Mr. McMillin and his master.

It will perhaps do no harm after all for Mr. Hubbell to put a large amount of perfectly good money in general circulation—and the people will vote for good government just the same.

It is somewhat astonishing to hear Frank Hubbell's and Judge Mann's and Nestor Montoya's evening paper roasting Judge Mann and Nestor Montoya for depicting the court fund.

"The court fund is bankrupt," said Joey Saint, chairman, in a campaign circular. The county treasurer, who reports over \$5,000 in the court fund, seems to disagree radically with Mr. Saint.

Even if there were no court terms held, it might be better than the Political Court.

## 700 TO 1,000 FOR MCDONALD IN ROOSEVELT

Ninety-Five Percent of Republicans Will Vote For Blue Ballot and Sixty Percent of Them For Democratic State Ticket.

(Special Correspondence to Morning Journal)

Elida, N. M., Nov. 4.—Roosevelt county will give the democratic state ticket the largest majority in the history of the county. People of this county have never been interested to a very great extent in state politics, but they are waking up now. Without a doubt a great many of the old settlers will vote this election that have never before had enough interest in state politics to go to the voting place. The people are wide awake now and will give both the democratic and republican leaders a great surprise. William C. McDonald, democratic nominee for governor, will get a majority over Bursum of from seven hundred to a thousand votes, that is a very conservative estimate. Mr. McDonald will no doubt lead the state ticket. Some of the leading republicans of the county estimate that from fifty to sixty percent of the republicans will vote for McDonald for governor. Fully ninety-five percent of the republicans will vote for the amendment. Mr. McDonald has many friends as he has passed through our county. The largest crowd that has ever gathered at the station here met the McDonald party Tuesday. Arrangements had been made to have the speaking at the Woodmen hall, but it was soon very evident that the hall would not hold half the people. The speaking took place in the Methodist church, the largest building in the city and even then standing room was all taken up.

Some of the republican leaders seem to be devoting a great deal of time trying to whip the Elida "News," a republican paper of long standing, into line and have it support the republican ticket, but all attempts so far have been a failure as it is supporting Mr. McDonald very actively.

The Blackhawk building will be fitted up and returns from all over the county will be given in here at the earliest possible moment. This building will accommodate 500 persons. Arrangements have been made with the various interior precincts to get their returns as soon as counted, by wire and by special messenger.

A UNION COUNTY CITIZEN.

### WESTERN UNION EXTENDS FREE DELIVERY LIMITS

The Western Union Telegraph company in a statement made public in Albuquerque today will in the future make no charge for the delivery of telegrams within the corporate limits of the city of Albuquerque.

The extension of this company's delivery limits has been under consideration for some time. Formerly the delivery limits covered points within a certain distance of the local office, all persons outside of that limit being charged extra for the delivery of the message. The growth of the city during the last two years has been such as to warrant the Western Union in making this change.

## PROBABLY FATAL SHOOTING AT CARRIZOZO

William S. Bourne Receives Contents of Shotgun Fired By James P. Walker, Saloon Proprietor; Campaign Closes.

(Special Correspondence to Morning Journal)

Carrizozo, N. M., Nov. 4.—William S. Bourne was shot and probably fatally wounded yesterday by Joseph P. Walker, proprietor of the Blacklight saloon of this place. The affair grew out of a wordy altercation in the Walker saloon, after Bourne, who is said to have been intoxicated, proceeded to remove various customers from the saloon one by one, to which the proprietor, Mr. Walker, objected. After an argument Bourne went next door and procured a Winchester rifle and returned to the saloon and it was said attempted to shoot Walker but Walker shot Bourne with a double-barreled shot gun twice before Bourne "got him."

Walker at once gave himself up to Deputy Sheriff Roberts and Sheriff Stevens arrived from Lincoln last night and took charge of the prisoner. Bourne lies in a serious condition at the Paden hospital, having been taken effect in his head and left shoulder. Two bystanders also received some of the shot but were not seriously injured.

Justice of the Peace Masie started a preliminary hearing yesterday afternoon but only two witnesses were examined, those two having attempted to take the gun from Bourne before he entered the saloon. The examination will continue tomorrow when additional counsel for the territory is expected to arrive. Walker is an old-time saloon man in the county and is respected as in Bourne, who has been secretary of the democratic central committee for two years.

Campaign Ends in Lincoln.

The republican county candidates finished their campaign tonight with a big rally in the democratic precinct of Corona. Frank W. Clancy, republican nominee for attorney general, was the principal speaker of the evening. The republicans of the county claim a victory for their ticket as well as the state ticket, while the democratic leaders also feel equally sure of the election of their tickets.

McDonald and Flood Amendment Will Poll Big Majorities; Strong Re-Action Against the Gang.

(Special Correspondence to Morning Journal)

Folsom, N. M., Nov. 3, 1911.

Editor Morning Journal:

The result of political campaigning in this section of the country has been a constant increase in the number of votes that will be cast on the 7th of November for the democratic-progressive state ticket and the Flood amendment to the constitution, both of which will be carried in this precinct by large majorities. This precinct has been, for several years, a republican stronghold by a small majority. The amendment led by anywhere from 75 to 125 majority, while the state ticket will carry from 50 to 100 majority.

It is safe to predict that the state ticket and Flood amendment will carry in Union county by good majorities, if the weather is not of such inclemency as to prohibit a full vote. The people are aroused as never before and it will have to be very inclement weather to prevent a good vote. Bursum will not carry the full republican vote here and will run behind his ticket. The good work done by the Morning Journal, Governor Hagerman and other progressive republicans will be clearly apparent after the votes are counted. The preparation for a political change here was started just before the vote on the constitution was had. The people were called together by local workers and the undesirable provisions of the constitution as to the initiative, referendum, amendment and public land commissioner were discussed and fully explained all of which resulted in a vote of two to one against the adoption of the constitution in this precinct.

The republicans here, who made it a party issue, lost heavily and have not been able to regain a single vote on matters concerning state issues.

A UNION COUNTY CITIZEN.

## MAY PUT IN A BIG POWER PLANT

Wealthy West Virginia Capitalist Contemplating Erection of \$125,000 Central Station at Willard.

Harry Curtin of Clarkburg, West Virginia, said to be one of the largest capitalists in the Mountain State, was in the city yesterday en route to Willard, N. M., where he has extensive interests. Mr. Curtin and associates own 5,000 acres of land at Willard and it is said he is contemplating the installation of a central electric power plant for pumping for irrigation, at a cost of \$125,000.

## AEROPLANE CORPS FOR MEXICAN GOVERNMENT

French Machines, Occupying Two Express Cars, Passed Through Albuquerque Last Night On Way to Mexico City.

(By Morning Journal Special Leased Wire.)

Is the Madero government in Mexico going to equip an aeroplane corps for its army? This is the pressing question in railway circles here today. Yesterday two cars, of the horse palace variety, tightly sealed and in bond, passed through Albuquerque, billed direct to Mexico City, and consigned to a prominent firm of French agents there. The cars were loaded with Voisin biplanes and Blériot monoplanes and went as express. They were accompanied by four mechanics and aviators.

They arrived in Albuquerque on train No. 1 from the east last evening and were sent out on No. 809 to El Paso early today. The contents were shipped in bond, direct from Paris, France, and were transferred in the original crates from the ship at New York into the two large Erie express cars and sealed. The seals have not been removed since.

It is a well known fact that President-elect Madero has been interested in aerial flights ever since Charles K. Hamilton, a daring American, Rene Simon and Rene Barrois, two equally daring Frenchmen, flew over the camps of Orozco and Abram Gonzales, outside Juarez, Mexico, on the occasion of the international aviation meet in El Paso last February. At that time, with the consent of the Mexican and United States governments, and also with the express guarantee of General Pascual Orozco that his insurgents would not fire upon the strange craft, the three above named aviators, flew in a wide circle over the cities of El Paso and Juarez, and over the camps of the insurgents. This was expressly to demonstrate the usefulness of air craft under conditions of actual warfare.

After this in Mexico City the three men flew before Porfirio Diaz, and his military experts and explained to them personally what results could be obtained with aeroplanes as scouts.

The present unsettled state of the interior of the southern republic, together with the fact that many of the officers who were high in the military councils of President Diaz have not severed their connection with the army, leads to the reasonable conjecture that aircraft are to be tried against some of the petty revolutionary bands now skulking around the populous cities in many of the Mexican states. If these bands can be located with certainty they can be whipped into submission. It is therefore quite likely that aircraft will be used in actual warfare in a short time.

### COAST LINES ENGINEER IS PAINFULLY INJURED

A slight wreck Saturday afternoon west of Gallup, on the Coast Lines, caused by a light engine crashing into the rear-end of a freight, resulted in the painful injury of Engineer James Crestal and the slight injury of Fireman Frank Dewey. Engineer Crestal was considerably bruised about the head and shoulders and was brought to the company hospital here for treatment, arriving early yesterday morning.

### WOODROW WILSON LEAGUE ACCEPTS WOMEN MEMBERS

Sacramento, Cal., Nov. 5.—The Woodrow Wilson league of northern California at its second meeting yesterday in this city took the first step of its kind in the history of California political organizations, when it threw open its membership to women and decided that two women should be appointed to places on the league's executive committee. Extensive plans were laid for a campaign throughout the northern part of the state.

## BODIES REMOVED FROM WRECKAGE OF BRIDGE

With Three Corpses Found, Together With Five Injured, Fourteen Men Remain to Be Accounted For.

(By Morning Journal Special Leased Wire.)

Auburn, Cal., Nov. 5.—Three bodies were recovered today from the wreckage of the east span of the partially completed Mountain Quarries company bridge, which collapsed at 11 o'clock last night. Five injured were taken from the jumble of steel and concrete at daybreak, and as the company has not yet accounted for all of the remaining twenty-two men known to have been on the bridge, it is thought that the clearing of the ruins will yield still more bodies. The dead:

JOHN KURN,  
CASASCO ANGELO,  
G. BERNER JOHNSON.

A night shift was on the bridge, rushing the last span to completion in preparation for the winter rains which usually begin about December 1. Ten men were working at the water's edge, building caissons. The river is somewhat swollen and the foreman expressed fear that the concrete pillars, which had not settled firmly, would not withstand the strain.

The swaying of a lantern, carried by a workman above, throwing a shadow across the torrent, gave the men below the first warning of their danger. They saw the superstructure sway for the instant, then, as the supporting concrete pillars sagged and gave way, the great arch above came crashing down, before a man could move.

Two of the workmen were swept into the river and out among the boulders and eddies in mid-stream. They fought their way across. The other eight were entombed in the debris. Some of the men above were thrown into the river. Others found their way to the river bank over the ruined span.

Night Foreman J. B. Smith, who was slightly hurt, was among the first to reach safety. He sent a messenger by horseback to Auburn, eight miles away. Nurses and physicians were rushed to the scene in automobiles and four of the injured were removed before daybreak. It was not until several hours later that the bodies of the dead were found.

The bridge was formed of three arches, each semi-elliptical in shape. The span which yielded was about fifty feet above the surface of the water.

Backache, Headache, Nervousness, and rheumatism, both in men and women, mean kidney trouble. Do not allow it to progress beyond the reach of medicine but stop it promptly with Foley Kidney Pills. They regulate the action of the urinary organs. Tonic in action, quick results. J. H. O'Reilly.

Las Cruces, N. M., Nov. 4.—The  
Daily Democrat of Las Cruces, the  
first paper to break into the press  
in southern New Mexico. The demo-  
crats have been talking paper for  
some time but not until recently did  
they decide to put in a plant. Within  
72 hours after the decision was made,  
a plant had been expressed from  
Denver and a democratic paper was  
at the street. This is the only demo-  
cratic paper here, the other two pa-  
pers, the Rio Grande Republican and  
the Las Cruces Citizen, being both  
republican papers.

The Daily Democrat has attacked  
the political lives of the republican  
candidates in no uncertain terms. H.  
republican candidate for the  
state senate, is the subject of a great  
deal of criticism in regard to his ac-  
tion on the three cent fare bill which  
he helped to defeat while in the state  
legislature. Also his connection with  
the Deming land deal where, it is al-  
leged, he endeavored to get 10,000  
acres of public land for an eastern  
corporation. His action while treas-  
urer of the agricultural college is  
also criticized.

The Democrats prints the follow-  
ing article:

The following glowing tribute to  
Honorable H. B. Holt was published  
in the Rio Grande Republican Aug.  
12, 1910. This was caused to be pub-  
lished by a well known republican  
attorney running upon the ticket with  
Honorable Holt for the legislature.

"We 'Point with Pride' to Hon-  
orable Hum Bug Holt and offer this  
to the voters as an estimate of him  
by one of his own fellow citizens."

When a man is about to present  
himself before a convention asking  
for a nomination it is proper, as a  
matter of right, to look into and dis-  
cuss his public acts of the past. Mr.  
H. B. Holt is a candidate before the  
approaching republican convention  
of Dona Ana county for the nomina-  
tion as one of the delegates to the  
constitutional convention, and the  
purpose of this brief communication  
is to refer to his past public record.

When he was a member of the leg-  
islative assembly he voted against, and  
actually assisted in defeating, the  
three cent per mile railroad bill,  
which was to be accepted as he was  
at that time, as he is now, the at-  
torney for the Santa Fe Railway com-  
pany. The defeat of this bill means  
that to the common people of Dona  
Ana county. It means that every  
time a poor man takes a trip from  
Las Cruces to Rincon and return he  
has to pay an additional sum of six-  
ty-six cents. Now, the question is, if  
Mr. Holt is in the constitutional con-  
vention, will he serve the people or  
will he serve the corporation which  
he employs? It is needless to say  
that he will serve the corporation  
just as he served it in the legislature.

During the time Mr. Holt was  
treasurer of the agricultural college  
board of regents he was located in  
the college money and received therefor  
\$50 per month, receiving in all, while  
he was such treasurer, about \$2,500.  
I maintain that this money belongs  
to the territory and that it was im-  
proper for Mr. Holt to loan the col-  
lege money for his own benefit as it  
belonged to the college and territory  
and not to him. He was paid a sal-  
ary as treasurer.

A few years ago he entered into a  
contract to secure for some Pennsylv-  
ania people about ten thousand acres  
of the territorial public lands near  
Deming and in order to effect his  
purpose, induced a large number of  
his friends and acquaintances in and  
about Las Cruces to make separate  
applications for the lands, the total  
making the ten thousand acres. In  
making these applications the appli-  
cants had to state that they well  
saw the lands and were located on  
them in good faith and entirely for  
their own use and benefit whereas in  
truth and fact, few or none of these  
persons had ever seen the lands and  
they made the applications without  
reading the statements signed by the  
interlocutor and upon Mr. Holt's assurances  
that the applications were merely  
matters of form and they could con-  
sistently make statements. Fortu-  
nately this scheme to "grab" these  
territorial lands was defeated owing  
to the activity of the secretary of the  
interior. The act of congress grant-  
ing these lands to the territory ex-  
pressly provided that they should not  
be sold in tracts of more than one  
hundred and sixty acres to any one  
person or corporation.

J. T. Parker, 202, No. 10th St., Ft.  
Smith, Ark., says that he had taken  
many kinds of kidney medicine, but  
did not get better until he took Foley's  
Kidney Pills. No matter how long  
you have had kidney trouble, you will  
find quick and permanent benefit by  
the use of Foley's Kidney Pills. Start  
taking them now. J. H. O'Reilly.

## BANDITS' ATTACK ON MEXICAN TOWN REPULSED

El Paso, Tex., Nov. 5.—The town  
of Pánuco, Durango, Mexico, was  
attacked last night by nineteen band-  
its, who were repulsed, but the  
citizens put up a sharp resistance,  
firing upon the members from the  
roofs of their houses, killing three of  
the bandits and wounding two others,  
who were captured. The wounded  
bandits who are in the hospital, re-  
fuse to give any information. All  
of the bandits were well armed and  
mounted and were only repulsed after  
hundreds of shots had been fired on  
both sides.

The citizens of the town are greatly  
excited, fearing a further attack, and  
have made an urgent appeal to the  
federal authorities for protection.

**Coughing at Night**  
Means loss of sleep which is bad for  
everyone. Foley's Honey and Tar  
Compound stops the cough at once,  
relieves the tickling and dryness in  
the throat and heals the inflamed  
membrane. Prevents a cold develop-  
ing into bronchitis or pneumonia.  
Keep always in the house. Refuse  
substitutes. J. H. O'Reilly.

# \$3,750 WAITING FOR TAKERS IN BANK AT ROSWELL

Plenty of McDonald Money Still  
Up By Stockard and White;  
This Ought to Stop That Bluff  
Story.

(Special Correspondence to Morning Journal)  
Roswell, N. M., Nov. 4.—There has  
been much dispute in the papers of  
the territory as to the bets made in  
Roswell between Stockard and Santa  
Fe sportsmen on the McDonald-  
Burson race. James W. Stockard  
and J. P. White, personal friends of  
McDonald in this city, first offered  
\$25 reward for any person who would  
bet \$1,000 on the election of Burson.  
Akers & Levy, pool room proprietors  
of Santa Fe, took up the bet and both  
sides deposited their money with E.  
A. Caboon, cashier of the First Na-  
tional bank. The Roswell men then  
offered to bet \$5,000 more and the  
Santa Fe men sent \$1,250 more, which  
was covered last night by White and  
Stockard. It is thought now to be  
pool betting on both sides.

Contracts were let today by E. A.  
Caboon and James P. Hinkle for the  
construction of four new modern  
bungalows for rental purposes, to be  
built facing the new high school  
building, all modern, neat and attrac-  
tive. Three different contractors  
got the work, the total improvement  
costing \$7,000.

The Circle Diamond Cattle com-  
pany today shipped 12 head of cattle  
fat cattle to the Kansas City market,  
the shipment being accompanied by  
Sam Butler, L. L. Johnson and Dave  
Runyan.

Mrs. J. T. Temple, living near Ros-  
well, was severely burned today  
when she leaned over the cook stove,  
into which her husband had just  
poured coal oil. A light explosion  
burned her face and hands to a blis-  
ter and set her clothing afire. Her  
husband put out the flames about  
her clothing and thus saved her life.

## NOTED PUBLIC MEN TO ADDRESS GOOD ROADS MEETING AT RICHMOND

(Special Correspondence to Morning Journal)  
Richmond, Va., Nov. 3.—In the of-  
ficial program of the big road con-  
gress to be held by the American As-  
sociation of Highway Improvement  
at Richmond, November 20-23, 1911,  
there is a list of speakers which in-  
cludes the most notable scientists and  
public men ever gathered together  
for any one convention. The pro-  
gram, which has just been announced,  
includes an address by President Taft,  
the first that he will deliver upon his  
return from his long western trip.

Previous sessions of the congress  
have been held on "National Day," which  
will mark the opening of the congress  
of the association and its allied or-  
ganizations, the speakers will include  
Governor Mann of Virginia, Senators  
Martin and Bankhead and Congress-  
men J. Hammon Moore and others.

In the "Road Users Day," which will  
be set forth that Harold Parker,  
chairman of the Massachusetts State  
Highway commission, will preside,  
and that twenty-minute papers will  
be read by W. A. McLean, provincial  
engineer of Ontario, Canada; W. W.  
Crawford, highway engineer of  
Maryland; A. N. Johnson, state high-  
way engineer of Illinois; A. H. Blen-  
chard, professor of highway engi-  
neering, Columbia university; P. St. J.  
Wilson, state highway commissioner of  
Virginia.

"Road Users Day," which will  
follow the second day, set aside for  
manufacturers, the automobilists  
will have their findings. This part  
of the program is under the auspices  
of the Touring club of America, which  
will have charge of the automobile  
tours. More than five hundred automobiles  
will go to Richmond from various  
cities, as far away as Chicago.

This part of the program will be  
devoted to a discussion of the various  
problems of traffic regulation, not  
problems of the standpoint of the  
automobile, but from all other  
standpoints. James S. Harlan, mem-  
ber of the Interstate Commerce com-  
mission, will preside. The address of  
welcome will be delivered by Mr.  
Preston Reelin, on behalf of the  
State Automobile association and will  
be followed by Mr. J. T. Palmatier,  
president of the Richmond Automobile  
club. Many other speakers will  
deliver short talks on various phases  
of the traffic problems as presented  
in different sections of the country.  
They will include Senator Swanson  
of Virginia; Hugh Chalmers of De-  
troit; Col. Charles Clinton of New  
York; and Howard D. Hadley of New  
York.

An equally notable list of speakers  
has been arranged for the fourth and  
final day of the congress.

Moving pictures showing the effects  
of good and bad roads, some of them  
humorous and some dramatic, pre-  
sented in a striking and human man-  
ner the contrast between the differ-  
ent phases of the road problem, will  
excite the interest of the congress.  
The average layman, who, after all,  
is the one chiefly affected by a sys-  
tem of bad roads. It will be shown  
that the high cost of living has been  
due, in a large measure, to the diffi-  
culty of getting farm products to the  
markets and that a system of good  
roads will wipe out this evil.

It is estimated that something in  
the neighborhood of four hundred  
million dollars a year could be saved  
throughout the country by improving  
twenty per cent of all the roads now  
existing. The tremendous interest in  
the road problems throughout the  
United States is indicated by the fact  
that about \$1,000,000 a day in road build-  
ing and maintenance.

Arrangements are being made to  
secure reduced round trip tickets on  
the various railroads, leading into  
Richmond for the congress and pre-  
liminary indications are that there will  
be more than five hundred visitors  
from various parts of the country in  
the course of the four days. These  
visitors will include farmers, busi-  
ness men, public men, automobilists  
and manufacturers of road machin-  
ery and road materials as well as of-  
ficial representatives from all the  
states.

Edwin Netherwood, Mrs. Ada M.  
Netherwood, Jacob Seefleck, Mrs. L.  
E. Werner, all of Albuquerque, N. M.  
MANUEL R. OTERO, Register.  
Oct. 12 Nov. 12

## ERRATIC WEATHER FORECASTED FOR THE WEEK

Disturbance Now General Over  
Rocky Mountains to Move  
Eastward; Western Europe in  
Grip of Severe Storm.

(By Morning Journal Special Licensed Wire.)  
Washington, Nov. 5.—Pronounced  
changes in weather conditions  
throughout the United States are  
forecasted for the week, which also  
announces that western Europe is in  
the grip of a severe storm.

"The severest storm of recent years  
over western Europe and the British  
Isles," says the bulletin, "was centered  
Sunday morning over northern  
Scotland, where the barometric pres-  
sure was 28.14 inches, causing gales  
and rains over waters adjacent to  
western Europe and will undoubtedly  
result in a considerable loss of lives  
and shipping in that region. This  
storm will move eastward over north-  
ern Europe the first part of the com-  
ing week."

"In the United States the week will  
be one of pronounced weather  
changes. Disturbances that now  
cover the Rocky mountains and  
British Columbia, will advance slowly  
eastward and be preceded by unset-  
tled weather, local rains and mild  
temperatures the first half of the week  
in the middle-west and the southern  
and eastern states; rains are also  
probable Monday and Tuesday in the  
north Pacific states."

## FEDERAL INQUIRY INTO PLUMBING MONOPOLY

United States Special Agent Ar-  
rives in San Francisco Sup-  
posedly to Look Into Com-  
plaints of Independents.

(By Morning Journal Special Licensed Wire.)  
San Francisco, Nov. 5.—United  
States Special Agent Joseph Derrling,  
who is in San Francisco supposedly  
to investigate an alleged combination  
of Pacific coast plumbing supply de-  
alers, declined today to discuss the sub-  
ject of the first half of the week  
disclosed the fact that five indepen-  
dent plumbing firms of San Francisco  
have filed a formal complaint with  
the department of justice at Washing-  
ton.

The charge is made that nine firms  
making up the Pacific coast Plumbing  
Supply association here, have com-  
bined with large eastern concerns to  
prevent local firms from purchasing  
direct from the manufacturer. The  
association named is a division of the  
National Association of Confederate  
Supply Associations, of which Frank  
Hanley, of New York, is secretary.

It is known that the government in-  
vestigation of the plumbing associa-  
tion has extended to several coast cit-  
ies, including Tacoma, Portland and  
Los Angeles. At Portland subpoenas  
have been issued for witnesses de-  
manding their appearance before the  
federal grand jury.

the eastbound trains to be from two to four hours late last night.

Prof. Martin F. Angell will address the students at the University this morning at assembly at 10:55 on the topic, "Physics—The New Science."

Stated Conclave of Pilgrim Commandery, No. 3, Knights Templar, this evening at 8 o'clock. All visiting Sir Knights are welcome. By order of the E. C. Harry Braun, recorder.

Rev. Archdeacon and Mrs. W. E. Warren have returned from an extended trip to California, where Dr. Warren was sent as a delegate to the Eighth district missionary convention of the Episcopal church.

Clifton Elliott, of El Paso, who was a member of the E. P. M. L. football team that visited here three years ago, but who is now traveling for the Sharpe Elliott company of El Paso, is in the city on business.

B. S. Benjamin, general manager of the Fred Harvey system of Kansas City, Mo., arrived last evening on Santa Fe train No. 1, on a trip of inspection of the Harvey houses in his division.

A. B. McGaffey, president of the Santa Barbara Tie and Pole company, has returned from an extended and very pleasant trip on President Ripley's special train over the southwest, visiting the Grand Canyon, Prescott, Phoenix, the Roosevelt Dam and the coast. While at the Grand Canyon it is understood Mr. McGaffey was among the guests at a dinner at the El Tovar given by Fred Harvey in celebration of President Ripley's birthday.

Hon. James G. Darden, the eminent Republican leader, prominently spoken of for the United States senate, has arrived in the city and is a guest at the residence of Hon. W. H. Andrews. It is understood Mr. Darden believes his chances to be elected senator either from New Mexico or Arizona are extremely rosy and that there will be little opposition to his candidacy. While here Mr. Darden is looking after his extensive local investments. Mr. Darden enjoys the unique distinction of being the only man ever mentioned for United States senator from two states at the same time.

H. S. Wall, superintendent of the Santa Fe shops at San Bernardino, accompanied by S. L. Bean, mechanical superintendent of Los Angeles, passed through Albuquerque yesterday in the latter's private car on their way to Topeka and Chicago. The object of the trip of the mechanical officials is to view the working of the oxy-acetylene autogenous welding plant at Topeka, with which the San Bernardino shops are to be equipped, and to inspect other new mechanical devices in use in the Great Northern shops in Chicago. The officials will spend about two weeks on their trip. They were accompanied by their wives.

The Albuquerque Carriage company is now giving National Trading Stamps with all purchases and repairing.

**FINAL RALLY IS HELD IN OLD ALBUQUERQUE**

Isaac Barth, M. U. Vigil and Other Speakers Address Overflow Meeting in the County Court House.

Before an overflow audience in the court house last night, the democratic-republican progressive party candidates on the legislative, judicial and county tickets delivered forceful addresses on the issues of the campaign.

The meeting marked the closing rally of the campaign in Old Albuquerque. The candidates of this ticket will swing up their tour of the county and district today with meetings tonight at Rancho de Atlixco and Duranes.

Among those to speak last night were Isaac Barth, candidate for state senator from Bernalillo county; Julius Staab, John R. Burg, who is one of the nominees for the legislature; Manuel U. Vigil, candidate for district attorney, and others.

The addresses were for the most part confined to local affairs. The splendid conditions now existing in Bernalillo county under the present officials and board of county commissioners were compared with the fearful state of affairs under the old Hubbell regime. When state issues were touched upon by the speakers the name of McDonald was cheered loudly and long, while mention of the blue ballot aroused equally as much enthusiasm.

The enthusiasm displayed by the voters who attended last night's rally indicated that they believed what the speakers told them and that they had already made up their minds to vote for the democratic-republican progressive republican county ticket.

If you need a carpenter, telephone Hesselden, phone 377.

**VESPER SERVICE AT CONGREGATIONAL CHURCH**

There Was a Large Attendance Representing Various Denominations Who Turned Out Despite Rain and Mud.

Regardless of the mud and the condition of the streets the attendance at the Vesper service at the Congregational church yesterday afternoon was good, the audience nearly filling the auditorium. A service of rare impressiveness was enjoyed by all.

The Vesper hour is proving all that was expected, that it is a people's service affording friends from all the churches to come together in an hour of uplifting music, prayer and devotional addresses. The service is not like the regular church service. A chorus of eight voices yesterday afternoon rendered an anthem of real merit, Mrs. Holloway sang a solo and after the address, Mrs. Winchester rendered a fitting benediction solo entitled, "The Vesper Prayer."

**A Deserved Tribute to An Honest Man**

"Jesus Romero is a good, honest man. I respect him thoroughly. He is my good friend and I regret that because of trouble in this county he is now on the other side. I wish he would come back to our party." —From speech of O. A. Larrazola at the court house a week ago. Mr. Larrazola is campaigning in the interest of H. O. Ransom and F. A. Hubbell. This tribute, therefore, cannot be said to be a prejudiced one.

**Rosenwald's****J. L. LA DRIERE STEALS MARCH ON FRIENDS**

Well Known Architect Takes Miss Gertrude B. Salazar as Bride; Wedding a Complete Surprise to Acquaintances.

J. L. LaDriere, the well known architect, stole a march on his many friends Saturday night by slipping out to Old Town, obtaining a marriage license and being wedded to Miss Gertrude B. Salazar, a charming daughter of one of the oldest Spanish-American families.

Mr. LaDriere's many friends were entirely in the dark as to his actions until yesterday morning. He was not seen around his accustomed haunts either last night or yesterday morning and just as inquiries were being made about him, he telephoned Joe Barnett, telling him what had occurred.

Outside of the fact that he had married Miss Salazar on Saturday he would volunteer no information and only laughed back through the telephone at the many questions that were immediately asked him.

**Is This More Honesty, Economy and Efficiency?**

Do you want Thomas McMillin, perpetual chief of police, for a sheriff?

Here are some interesting extracts from a report of the grand jury on Mr. McMillin's conduct of the police department:

"The jury has ascertained that the ordinances of the city in police department are violated both in letter and in spirit. This is gross injustice, not only to the alleged offender, but is unlawful as well."

In examining the reports of the city marshal and comparing the same with the docket of the police judge of the city of Albuquerque, it has been found that in a very large number of arrests of persons, and in which cases, fines and costs have been imposed, there is no record whatever of the case having been heard by the police judge. There can be no doubt that some of the police officers have been imposing and collecting fines and costs of the alleged offender without giving such offender a trial in court and without making any record whatever, by complaint, warrant, commitment or other proceedings relative to such case.

"A continuance of such procedure is a reproach to the administration of the law."

How much do you think he would make out of the office of sheriff?

**COUNCIL TO OPEN BIDS FOR FIRE ENGINE**

Important Business Before the Meeting This Evening; Representatives of Big Companies Here.

The most important business to come before the meeting of the city council in the council chamber this evening is the opening of the bids of the various companies for the new fire equipment that was recommended by Alderman Coen of the fire committee, some time ago.

The total amount to be expended in the re-equipment of the fire department of the city will be nearly \$9,000. The new equipment will add a combination auto chemical and hose wagon, and will also place the present hose wagon on an auto chassis. Five of the most noted fire equipment companies of the United States have submitted bids and each has an agent in the city to make the fight for his company.

Following the opening and discussion of the bids, it is expected that the council will adjourn as there is no other business of such importance that it cannot be taken up at a special meeting after the election.

**WANTED.**  
Experienced Saleswoman (no other need apply.) Apply The Economist.**ORPHEUM THEATER OPENS THIS WEEK**

Combination Vaudeville and Picture Show of More Than Ordinary Merit Booked For Initial Performance Thursday.

The formal and official opening of the new Orpheum Theater on the corner of Second and Coal will take place next Thursday night. A combination vaudeville and picture show of more than ordinary merit will be given at that time.

The Orpheum theater is one of the safest and most sanitary places of amusement in the United States. It is absolutely fire-proof and its safety exit devices are so arranged that they can all practically be opened in a moment of time by the simple pressing of a button. Electric power opens the doors. This is an innovation in theater doors in this section.

**DEATHS AND FUNERALS.****LeRoy M. Chambers.**  
The body of LeRoy M. Chambers, the popular and competent assistant of Manager M. O. Chadbourne of the street car company, who died at the street car barn on Friday night, was yesterday shipped to his home in Salem, Ind., for interment.
